

GRADING OF WHEAT BY THE GOVERNMENT

Announcement of the Different Grades as Recognized by the Government in Buying Wheat from the Farmer.

This office has received so many inquiries relative to information pertaining to basic prices for various classes and grades of wheat at the buying terminal markets...

To All Licensees: Below we give you the Kansas City basic price for No. 1 wheat of the various Classes and Sub-Classes.

All licensees under contract with the United States Grain Corporation are required to follow the Federal Grades in buying wheat from the producer...

We will not state what a reasonable handling margin at any particular point would be unless a complaint is filed against the buyer.

President's Proclamation fixes price at \$2.28, which has been readjusted to \$2.30 as per our circular No. 81.

No. 2 wheat 3 cents under No. 1. No. 3 wheat 7 cents under No. 1.

We have been requested a great many times to give to the interior buyers some expression of our ideas as to the proper discounts on grades other than those referred to above.

This is especially true of sample wheat, because that grade covers a range of quality to such an extent that values must be based on the quality of each individual sample.

Discount schedules grades No. 1 to sample inclusive. The following table of discounts is predicated on No. 1 basic prices...

Over 20 per cent, up to and including 35 per cent, 5c discount. Over 35 per cent, up to and including 50 per cent, 4c discount.

of hard and red winter wheat. Mixtures containing durum wheat are more objectionable than mixtures containing white wheat.

On last Saturday afternoon the Junior Y. M. and Y. W. went on an outing to the canyons Sunday morning and held their Sunday School services in the canyons.

ONIE TURNER ATTEMPTS OWN LIFE

Held in Amarillo Awaiting Place in Hospital for Insane—Recently Killed His Mother.

Onie Turner attempted to take his own life Tuesday night in the Potter county jail by severing an artery in his arm with the handle of a tin cup.

The other prisoners report that he was acting unusually strange and kept a lookout. After he made the wound, he retired as usual, and no doubt would have died from the loss of blood had the prisoners not reported the case.

Younger Turner recently killed his step-mother, Mrs. J. O. Turner by beating her over the head with the stalk of a gun. He was tried before a jury and found to be insane, and ordered confined.

MRS. REYNOLDS GETS FIVE YEARS

Convicted in Lubbock Thursday for Killing Husband Near Canyon Two Years Ago.

Mrs. Florence Reynolds was convicted in the Lubbock County court for the murder of her husband, and was given a sentence of five years by the jury.

Mr. Reynolds was killed two years ago while he and Mrs. Reynolds were out hunting east of the city.

The case was tried twice in the Potter county district court, the defendant getting twenty years in one trial. The case was sent back for a new trial. The other trial resulted in a hung jury.

URGENT CALL COMES FOR PASTURE FOR CATTLE

County Agent C. F. Walker has been receiving urgent messages during the past week from Montana for pasture for the cattle that are forced out of that state by the extreme drouth.

He states that the owners of the cattle are contracting at the rate of from \$1 to \$1.50 per head for pasture up to next May.

Senator Kendrick, one of the big cattlemen of Montana has been in the Panhandle getting pasture for his large herd of cattle.

A Golden Wedding.

At their home in Canyon, on July 25, Mr. and Mrs. John Rowan celebrated their golden wedding.

Fifty years ago these good people, the one twenty-one and the other nineteen at that time, became man and wife and settled in Johnson county.

It was a sight to make a friend's heart glad to see this old couple and their splendid family of children and grand children and one great grand child, little Billy Ballard, the son of Mr. and Mrs. W. R. Ballard.

DEMONSTRATION OF TRACTORS AUG. 14

Agricultural Department Will Have Twelve or More Tractors in Demonstration Aug. 14

One of the biggest events of the year for Canyon will be the tractor demonstration at the West Texas State Normal College on August 14th.

Prof. Ives, of the Agricultural Department of the Normal, has charged of the event and has the promise of the cooperation of a large number of tractor companies to send their tractors here for the exhibit.

All farmers interested in tractors are urged to be in Canyon on that day and see the various types work. It will be a fine opportunity for the farmer to see just what a tractor will do for him.

WORK STARTS ON THE NEW CONCRETE FILLING STATION

Work was started this week on the new filling station being erected at the southeast corner of the square by Jim and Joe Black.

The station will be of the drive-in variety. It will be 18 by 46 feet, having two driveways of 12 by 18 feet each and the office will be 20 by 18 feet.

The owners will carry a full line of automobile supplies and accessories in addition to gas and oils.

C. O. Keiser received word yesterday that Henry Eiker, a prominent attorney, had been found dead at his home in Washington, Iowa, presumably from heart trouble.

Mr. Eiker was formerly attorney general of the state of Iowa, was a member of the state board of education which had control of all state educational institutions, and enjoyed a very extensive law business.

**FIGHT ON MEAT IS
CHARGED TO PACKERS**

Washington, July 17.—A propaganda which members of Congress and particularly those from the Southwest attribute to the packing interests appeared at the capitol today in the shape of a large number of telegrams urging defeat of the Kendrick bill which has for its purpose the regulation of the packing industry. The telegrams pointed out that the legislation was dangerous and would further prejudice the cattle markets under which the live stock producer is now asserting that he is carrying a load that threatens him with financial ruin.

Panhandle stockmen today urged in telegrams that the Government's surplus meat be sent abroad for sale, and if that could not be done to market it in this country slowly so

as not to prejudicially affect quotations. Europe needs large quantities of beef and there is said to be no ready supply in prospect outside the United States. The situation was laid before the sales division of the War Department by Representative Jones with the result that the department will return none of its meat abroad to this country, and hopes to ship a considerable quantity of the meats in storage here to Europe. The amount now held by the department in this country is said to be valued at about \$100,000,000. In any event, the sales division stated it would not permit the stocks to go onto the market in a manner to further depress the prices. Within a short time the stockmen telegraphed here they would be able to weather the situation with Government help.

Senator Sheppard, called on members of the Federal Trade Commission with reference to the cattlemen's predicament, and was advised by the members that the remedies outlined in the Federal Trade Commissioner's report to Congress some days ago and passage of the Kendrick bill would tend to solve the situation. It was their opinion that agencies existed between the producer and the consumer that ought to be under strict Government supervision. Mr. Fuqua hopes to see President Wilson to ask his aid for the Western producing section.

"The chief difficulties are that the packers control the banks and other sources of credit upon which the cattle producer must operate," said Senator Sheppard. "The packers are in a position to have loans called when the market is high, and want to drive prices down. When a loan is called the cattle must be sold. I do not believe the cattlemen will ever be independent of the packers until an independent source of credit is established, and I think that may be brought about by postal savings banks being permitted to accept deposits without limit and given authority to make loans under proper restrictions, at an interest rate of about 5 per cent."

Senator Sheppard has a bill pending before Congress that would so revise the postal savings law.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVER'S TASTELESS child TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

**Choosing the Store is
Just as Important as
Selecting Your Furniture.**

If people used the same careful consideration in deciding upon the store where they intend buying their furniture as they do in selecting the furniture itself, there would be greater pleasure in choosing it and more real satisfaction in owning it, and a great many more homes with better furniture.

Stores differ just as much as furniture does. This store enjoys an enviable reputation for helpful service to all its customers and is recognized as the "Home of Master-Bilt" furniture. Whether you want a complete home outfit or just a single piece, we are ready to serve you courteously and efficiently.

Attention Farmers

Why pay the high prices for threshing your grain when we will sell you a good slightly used grain separator and gas tractor engine to pull same or either of them at about one-half the price of new one and give you 3 seasons to pay for same. Need not pay any cash down, but make your first payment at the end of the present threshing season. Approved note will be all that is necessary. Outfit in good condition and ready for service. Be thrifty, club with your neighbors if necessary. You should make enough money each season to pay for outfit. We have purchased a large outfit and do not, now need this one.

Bolshevism
The salient features, which constitute the program of Bolshevism as it exists today in Russia and is presented to the rest of the world as a panacea for all ills may be summarized as follows:

1. The reproduction of democracy and the establishment of a dictatorship.
2. The confiscation of all land and the improvements thereon.
3. The confiscation of all forests and natural resources.
4. The confiscation of all livestock and all agricultural implements.
5. The confiscation of all banks and banking institutions and the establishment of a state monopoly of the banking business.
6. The confiscation of all factories, mines and industrial institutions and the delivery of the control and operation thereof to the employees therein.
7. The confiscation of all churches and all church property, real and personal.
8. The confiscation of all newspapers and periodicals and all mechanical facilities and machinery used in the publication thereof.
9. The seizure and confiscation of all public meeting places and assembly halls.
10. The confiscation of all transportation and communication systems.
11. The confiscation of the entire estate of all decedents.
12. The monopolizing by the state of all advertisements of every nature, whether newspapers, periodicals, hand bills, or programs.
13. The reproduction of all debts against the government and all obligations due the non-Bolshevist elements of the population.
14. The establishment of universal compulsory military service regardless of religious scruples and conscientious objections.
15. The establishment of universal compulsory labor.
16. The abolition of the Sunday School and all other schools and institutions that teach religion.
17. The absolute separation of churches and schools.
18. The establishment, thru marriage and divorce laws, of a method for the legalization of prostitution, when the same is engaged in by the consent of the parties.
19. The refusal to recognize the existence of God in its governmental and judicial proceedings.
20. The conferring of the rights of citizenship on aliens without regard to length of residence or intelligence.
21. The arming of all so-called "toilers," and the disarming of all persons that had succeeded in acquiring property.
22. The discrimination in favor of residents of cities and against residents of cities five times as much voting power as is accorded to residents of rural district in such elections as are permitted.
23. The disfranchisement of all persons employing any other person in connection with their business.
24. The disfranchisement of all persons receiving rent, interest, or dividends.
25. The disfranchisement of all merchants, traders and commercial agents.
26. The disfranchisement of all priests, clergymen, or employees of churches and religious bodies.
27. The denial of the existence of any inalienable rights in the individual citizen.
28. The establishment of a judicial system exercising automatic imposing penalties in their absence, and without opportunity to be heard, and even adopting the death penalty for numerous crimes and misdemeanors.
29. The inauguration of a reign of fear, terrorism and violence.

The will of the pure runs down from them into other natures, as water runs down from a higher into a lower vessel. This natural force is no more to be withstood than any other natural force.—Emerson.

You Do More Work.
You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 50c per bottle.

Where Your Dollar Does Its Duty

A GOOD FRIEND

A good friend stands by you when in need. Canyon people tell how Doan's Kidney Pills have stood the test. R. E. Hileman, Prop., of bicycle shop of Canyon endorsed Doan's eight years ago and again confirms the story. Could you ask for more convincing testimony?

"I found positive relief in using Doan's Kidney Pills for lameness across the small of my back and for my kidneys," says Mr. Hileman. "I got this medicine at the druggist, east side of square. I certainly can conscientiously recommend them for lumbago and for embarrassment caused by the kidney secretions. I am quite over all difficulties of that nature since I used them." (Statement given Jan. 17, 1911).

On May 1, 1919, Mr. Hileman added: "Since I used and recommended Doan's Kidney Pills some years ago, I have taken them whenever in need of such a remedy. Doan's have never failed to give instant relief and I am always glad to say a good word in favor of them."

Citation By Publication.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Randall County—Greeting:

You are hereby commanded that by making publication of this citation in some newspaper published in the County of Randall, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, once in each week for four consecutive weeks previous to the return day hereof, you summon E. Van Metre, S. S. Wright and J. W. Wright, who are non-residents of the State of Texas, and B. F. Gerken, whose place of residence is unknown, and the unknown heirs, their heirs and legal representatives of B. F. Gerken, deceased, whose names and places of residence are unknown, to be and appear before the District Court to be holden in and for the County of Randall, at the Court House thereof in the City of Canyon on the first Monday in September, A. D. 1919, the same being the first day of said month, then and there to answer the petition of W. H. Ground, as plaintiff, filed in said court on the 31st day of July, A. D. 1919, against E. Van Metre, S. S. Wright, J. W. Wright, B. F. Gerken and the unknown heirs, their heirs and legal representatives of B. F. Gerken, deceased, as defendants, said suit being numbered 881; the nature of which demand is as follows:

Suit for title and possession, and for removal of cloud from title, to the following described land situated in Randall County, Texas, to-wit: Survey No. 63, Block No. 6, Certificate No. 1522, I & G. N. R. Co., Patent 634, Volume 61, containing 662.79-100 acres by re-survey, described by field notes in petition; plaintiff alleges that on December 31, 1908, Mark T. Cox, Thomas R. White, Jr., and John J. Phelps were the owners of said land and are common source of title, and sold same to the said Van Metre and Wrights, retaining the vendor's lien securing payment of notes, and that the latter in the firm name of American-Canadian Land Company made a contract of sale to B. F. Gerken dated March 1, 1909, to the southeast quarter of said survey; that thereafter forcible suit was brought, judgment rendered and land sold by Sheriff of Randall County to Thomas R. White, Jr., John J. Phelps and Charles W. Cox, May 12, 1913, and plaintiff has a regular chain of title thereunder; petition more fully sets out proceedings. Plaintiff prays for judgment, title and possession of said land, cancellation of said contract of sale, removal of cloud from title thereby and general and special relief.

Herein Fail Not, but have you then and there before said court this writ, with your return thereon, showing how you have executed the same.

WITNESS, O. W. Gano, Clerk of the District Court of Randall County.

Exceptional Crop of Rye.

Pronger Bros. report an exceptional crop of rye just threshed, it making 2400 bushels from 80 acres. This is an unusually large yield for rye anywhere and goes to show what this country will do. We are told that this rye was over six feet tall before cutting, and that when out in it, a person could not see out any direction but straight up.—Stratford Star.

In boiling potatoes add a little cold water now and then to clean the boiling.

To Keep The Record Straight.

G. L. Humphreys, who moved from this county to Lubbock County the first of the year has returned to the Lone Star community. Mr. Humphreys has been farming in the West and prospects were favorable until about two weeks ago when the army worm invaded his cotton crop and completely devastated 90 acres of cotton. In addition to the havoc wrought by the worms, grass hoppers made an invasion of his maize crop, and after a careful survey of the premises Mr. Humphreys loaded his effects and headed for old Red River County. He landed last week in the neighborhood from whence he journeyed early in the year, bought a crop from a native and is happily pursuing the life of a contented Red River County farmer, knowing that he will be rewarded according to the efforts he puts forth in making a crop.—Bogata News.

The above item was taken from a recent issue of the Bogata News, and is misleading for several reasons.

Mr. Humphreys was a tenant on the farm of W. R. Wilson of this city, and Mr. Wilson states that he lost about thirty-five acres of cotton by army worms, but that no other man on his large farm, nor any of his neighbors suffered any from these worms where the crops were kept clean. In fact, Mr. Wilson states that army worms never appear where the fields are kept free from weeds.

W. R. Wilson came here from Grayson County, and owned 487 acres of black land in that county and Fannin. He says that he sold every acre of it and has the same money invested in about 1700 acres of land here, most of which adjoins the city limits of Slaton, and that in all his experience in farming that he much prefers this land, as on an average it will produce more with less effort, and the first cost is nothing to compare with the black land.

When Mr. Humphreys' homesickness could be endured no longer Mr. Wilson bought the crop that he claims was a dandy good prospect for starvation, had it worked out, and stated that he would not take one thousand dollars profit for it today, not including the stock and tools that he bought from Mr. Humphreys. So you can imagine how contented a real farmer can be in this beautiful Plains country if he will put a little effort in his crop instead of trying to burn up all the gasoline in the country in his tin henry. People who come here to farm should arrange their pleasure and sight-seeing trips during the months when they are not needed in the fields. And in the spring months when the weeks are growing they should devote at least a small portion of their time to their crops. It is a mistaken idea that you can come here from other portion of the country and make a crop without any work except planting the seed.

There has never been a year in the history of the Plains country when prospects for a bumper crop were better, and the section around Slaton has never known an entire crop failure.

We are giving these facts, not as a reflection on Mr. Humphreys, but simply to keep the record straight, because knockers and pessimists have no place in this progressive South Plains country, and it is better that they go elsewhere to make their permanent homes.—Slaton Slatonite.

Sorghum Better Than Corn.

Manhattan, Kans.—A feeding test just completed at the experiment station by F. M. Bell, associate professor of animal husbandry at the agricultural college, indicates that a ration of sorghum silage is superior to a ration of corn silage for fattening calves.

Two lots of fifteen calves each were used in the experiment. Each was given the same amount of alfalfa hay, ground corn and linseed oil, but one lot received corn silage and the other sorghum silage. The lot which was fed sorghum silage showed a gain of 392.98 pounds at the end of the 150-day experiment, while the calves given corn silage gained 381.33. The daily average gain of the sorghum silage lot was 2.62 pounds, and the corn silage lot 2.54 pounds.

VICTORY FAIR HELPS SWINE INDUSTRY

\$5,500.00 IN PREMIUMS ANNOUNCED BY SECRETARY STRATTON OF STATE FAIR

Swine breeders will have every reason to feel that their industry has been given adequate attention by the Directors of the State Fair of Texas, at the Victory Exposition, Secretary Stratton said a few days ago.

Premiums aggregating \$5,500.00 have been offered. Enthusiasts predict that the swine industry in Texas will "very soon" rank among the chief money-making industries of the great Southwest. The State Fair of Texas is doing its part to hasten that day.

Many additional special prizes will be offered. Among them are the American Poland China Record Association Futurity, the Standard Poland China Record Association, the Futurity of the American Berkshire Association, the National Duroc-Jersey Record Association-Futurity, and specials from the Armstrong Packing Company of Dallas, J. J. McLain of Anna, Texas, the American Tamworth Swine Record Association, the Chester White Swine Record Association, and the Flowerdale Farm of Dallas.

The American Duroc Association of Chicago is financing a promotion club show to be put on during the 1919 Victory Fair.

Entries are being made from all parts of the country. It will be a great show.

\$25,000.00 BEING SPENT ON STATE FAIR GROUNDS

GROUND AND BUILDINGS SPICK AND SPAN FOR VICTORY EXPOSITION

A glimpse behind the scenes at the great State Fair of Texas was enjoyed by the writer recently in a trip over the grounds and buildings with Secretary W. H. Stratton.

First we visited the coliseum, where all was bustle and activity. Skilled workmen were busy constructing an entire new set of elaborate scenery. A new drop curtain has been painted by a well-known artist. It depicts "Victory," with soldiers marching through a Victory arch.

At the grand-stand, where the hippodrome, spectacular and pyrotechnic displays will be held, improvements are being made. About 1,000 loads of dirt are being placed, covered with gravel and macadam, so as to make a hard-surfaced walk in front of the stand. A double row of boxes, and a new band-stand are being added.

The race track is soon to be regraded for the auto races. The evacuation of Camp Dick has necessitated many repairs, alterations and improvements. The renovating will include a new coat of paint for all buildings on the grounds. A steel arch at the southern turn of Grandstand Drive is to be erected. The paint itself makes the buildings look fresh and attractive, seeming to beckon one to enter and view the wonders within the walls.

The eight buildings formerly used as barracks at Camp Dick are being remodeled for the Boys and Girls Educational Encampment, so as to provide commodious and comfortable quarters for the young folks.

SCHOLARSHIPS OFFERED IN TEXAS COLLEGES

FOR BOYS AND GIRLS ENCAMPMENT AT VICTORY FAIR

The boys and girls of Texas will have greater representation than ever before, at the Victory Fair. Forty thousand boys and twenty thousand girls of the State of Texas are now competing for free entertainment there. They they are going through their work in the Boys and Girls clubs, under the direction of the A. & M. College of Texas and the U. S. Department of Agriculture.

Plans are being made to house six hundred boys and three hundred and fifty girls in new commodious, comfortable quarters at the Victory Fair this fall, at the Educational Encampment.

The County Agents supervising their work report the boys are making great progress in raising corn and poultry, and the girls in poultry raising and home demonstration work.

Appreciating the vital importance of this work, scholarships in leading Texas colleges have been donated by several public-spirited Texas business concerns, as follows:

Titche-Goettinger Company, and the newly organized L. H. Lewis (Wholesale) Dry Goods Company, both of Dallas, each offer a scholarship to some girl club member, in the College of Industrial Arts at Denton.

Sears, Roebuck & Company of Texas, and T. B. Truitt (of Truitt's Improved Cottonseed) Ennis, Texas, each offer a scholarship to some boy club member, in the A. & M. College, or some of the Junior Colleges of Texas. Awards will be made to the young folks attending the Encampment at the Victory Fair.

You can learn a lot from ADVERTISING

The main thing an advertiser wants to do is to tell you plainly just how and why his goods are worthy of your consideration.

You can learn a great deal from that alone because many things you see advertised are the things you buy and use in your regular daily life. By reading the advertisements, you can learn the names and read descriptions of the things that are best and most satisfactory.

But advertising teaches even more than that. All advertisers try to make their advertisements themselves valuable to you.

A good many people have learned a whole lot about good music, good books, good food, good clothes, ways to keep healthy, ways to live comfortably, ways to keep the house and grounds looking well—they've learned all these things and many other things just by reading advertisements.

Read the advertisements right along, and you will learn a great deal that will be helpful and valuable to you as you go through life.

COLUMBIAN TREATY TAKEN UP IN SENATE

WORK ON PEACE PACT AND LEAGUE COVENANT TEMPORARILY HELD UP.

RECESS WILL CAUSE DELAY

Shut-Down of House Will Put Off Enactment of Enforcement Measure Until September.

Washington.—Senate controversy over the peace treaty, with its assignment of nations covenant will be halted temporarily this week to allow consideration of the long pending Colombian treaty. However, the peace treaty and related subjects are expected to be to the fore every day, if not on the floor of the senate, at least in the cloak rooms and in conferences.

While the senate considers the two treaties, the house will be occupied with a rush of legislation preparatory to the planned recess of five weeks beginning August 2.

The recess will delay enactment of several bills, including the prohibition enforcement measure, until September.

The Colombian treaty involving payment by the United States of \$25,000,000 to that republic resulting from the partition of Panama, but with the original clause expressing America's "regret" for the loss by Colombia of Panama eliminated by agreement between the state department and Colombia, will be taken up by the foreign relations committee. The treaty is expected to be reported by the committee and ratified by the senate promptly.

Developments thought probable this week in the treaty fight included statements by President Wilson outlining his stand on the proposal for ratification and giving new information as to the Shantung provision. Both of the expected statements would have a direct bearing on debate. The Shantung provision is the subject of diplomatic discussions now in progress with Tokio designed to obtain publication of the secret understanding for restoration of the province or some other public declaration of Japan's intentions.

BOILER EXPLOSION KILLS SIX IN NAVY

FOUR DREADNOUGHTS OF PACIFIC FLEET LIFTED THROUGH GATUM LOCKS OF CANAL.

On Board the U. S. S. New Mexico.—Six men have been killed in a boiler explosion on the U. S. S. Melville, a naval tender attached to the Pacific fleet, Captain Twining, the chief of staff, has been advised.

Four dreadnoughts of the Pacific fleet, the New Mexico, Arkansas, Texas and New York, were lifted successfully through the Gatun locks. This was the first attempt to negotiate the waterway with a fleet of the dreadnoughts and the warships lie anchored in the fresh water of Gatun lake 85 feet above sea level.

The names of five men killed were: Claude Turner, Knoxville, Tenn.; Floyd Grisham, Rogeraville, Mo.; John J. O'Grady, Brooklyn; Douglas M. Hambliss, Jasper, Texas; Joseph, Burt, El Paso, Texas.

Change Insurance Rates on Gins. Austin, Texas.—Changes in the cotton gin rate schedules effective in Texas, and also changes in the forms heretofore used for writing cotton gin products, have been made by the Texas fire insurance commission. The cotton gin rating schedule was ordered amended reducing the basis rate on cotton gins from \$2.50 to \$2. The charge for a country-gin was increased from 50c to \$1.

Congress Will Have Recess. Washington.—Legislation for the enforcement of war time and constitutional prohibition probably will not be enacted for two months at least, as the result of the decision of republican leaders to have the house recess from Aug. 2 to Sept. 8.

Lapsed Insurance to Be Reinstated. Washington.—Discharged service men who let their government insurance lapse are given the privilege of reinstating their policies within 18 months without payment of back premiums, under an order signed by Secretary Glass.

Ship Forced to Jettison Sugar. Philadelphia, Pa.—The crew of the steamship Sag Harbor had to throw overboard \$100,000 worth of sugar before the ship was able to reach this port. It struck a reef off Cuba while bound from Puerto Padre to Philadelphia.

Italy Asks \$1,000,000,000 of Bankers. Rome.—It is reported here that an appeal has been made to American bankers for financial aid for Italy to the extent of \$1,000,000,000.

Galveston to Porto Rico. Washington.—A new cargo liner service between Galveston and Porto Rico is soon to be established by the United States shipping board with two steamers allocated.

Rural Schools and State Aid. Austin, Texas.—Rural schools desiring state aid are urged by the Hon. Annie Webb Blanton, state superintendent of public instruction, to send in applications as soon as possible. All applications should be in by Aug. 15.

SEVERE TERMS IN TEXAS' DRY LAW

PROVISIONS OF BEAN BILL MAKE GRAVE OFFENSE TO HANDLE ANY INTOXICANT.

Dallas.—Under the new Texas prohibition law, passed by the recent session of the Texas legislature and effective 90 days after adjournment, it is for corporations a \$500 fine for each offense and for individuals a felony, punishable by one to five years' confinement in the penitentiary, to:

"Directly or indirectly, manufacture, sell, barter, exchange, transport, export, receive, deliver, solicit, take orders for, furnish or possess any spirituous, vinous or malt liquors or medicinal bitters capable of producing intoxication, or any other intoxicant whatever, or any potable (that is, drinkable) liquor, mixture or preparation containing in excess of 1 per cent alcohol by volume, or any equipment for making such liquors, except for medicinal, mechanical, scientific or sacramental purposes."

However, the provisions of this act shall not prohibit the possession of intoxicating liquor for beverage purposes; for use by the owner and members of his family, or bona fide guests, in a bona residence, if such liquors were purchased and deposited in such residence before this act goes into effect."

The prohibited liquors, the manufacture, sale, possession, transportation, etc., of which will be a felony except for the exempted purposes, are defined as "all distilled malt, spirituous, vinous, fermented or alcoholic liquors and compounds, whether medicated, proprietary, patented or not, and by whatever name called, which require a federal tax as a beverage, or which contain more alcohol than is necessary to extract the medicinal properties of the drug contained in such preparation—and to hold the medicinal agents in solution and preserve same."

Exemption is given medicines "which are manufactured and sold for legitimate and lawful purposes and not as beverages." It is also permissible to manufacture and sell "bona fide alcoholic toilet or antiseptic preparations or flavoring extracts which do not require the payment of a federal tax as a beverage, and which contain no more alcohol than is necessary for the extraction, solution and preservation of the agents contained therein and which are manufactured and sold for legitimate and lawful purposes and not as beverages."

Combating High Food Prices. Dallas.—The widespread interest throughout the state in the movement of Dallas women to combat the high cost of food products has caused Mrs. B. V. Samuel, chairman of the organization committee of the Dallas consumers' league, to send out a blanket invitation to Texas towns and cities to send representatives to the meeting to be held in this city next Thursday.

All Foreign Credits Secured. Washington.—Every dollar of loans and credits advanced by the United States to foreign countries, including Russia, is amply protected by securities and will be paid in full, R. C. Laffingwell, assistant secretary of the treasury told the house committee on expenditures in the state department.

Seamen's Strike Terms Agreed On. New York.—Terms for settlement of the seamen's strike, which has tied up shipping from Portland, Maine, to Galveston, Texas, have been agreed upon by representatives of the United States shipping board, the American Steamship association and the International Seamen's union.

Wants Trade Restrictions Extended. London.—It is impossible at present to give legislative effect to the government's trade policy, Premier Lloyd George says. He suggested that the trade restrictions expiring in September should therefore be extended.

Sailings From Liverpool Are Canceled. Liverpool.—The strike among the dock workers, has resulted in bringing about chaos in the arrangements for handling more than two hundred ships at this port, their sailings being canceled or indefinitely postponed.

Right of Way for Interurban. Dallas.—Right of way for the Dallas-Wichita Falls interurban has been procured through Denton, Clay and Montague counties, according to advice furnished stockholders of the company.

Peach Shippers Given Facilities. Washington.—The railroad administration has instructed Texas agents to place at the disposal of peach shippers at Bowie, Texas, sufficient equipment and facilities to care for the crop.

Aviator Accidentally Killed. Dallas.—Second Lieutenant Edward M. Anderson of Call field, Wichita Falls, was killed when his plane fell as he was preparing to land at Love field Friday afternoon.

Deutsche Bank Negotiating Big Loan. Berlin.—Negotiations of the Deutsche bank with New York financial institutions for a large loan of unannounced proportions are proceeding favorably, according to information in official quarters.

WHY CLOCK DIAL HAS FOUR FS.

An Ignorant King Wouldn't Let Maker Use Correct Roman Numeral.

From the Detroit News.

Clock dials usually represent the hours by use of Roman numerals, but there is one curious variation. The number four in Roman numerals is commonly represented by IV, but on most clock dials it is four I's, as IIII. There is a reason for this. It traces back to the ignorance of a king of France who ruled six hundred years ago.

Tradition among watch and clock-makers has it that the clock dial was first made by Henry Vick, in the year 1370, and he made it for Charles V, or Charles the Wise, of France. Charles was not as wise as he looked or as his name would suggest. When the dial of the clock was submitted for his approval, he studied it long and carefully. Finally he remarked, "The clock is all right with one exception. The figure for 4 o'clock should be four I's instead of IV."

"Your majesty is wrong," answered Vick. "IV is the proper symbol for four."

Charles bristled up with offended dignity and thundered at the timid clockmaker. "I am never wrong. Take this dial away and correct your mistake."

There was nothing else to do. In all his subsequent clock dials Vick was compelled to use the symbol ordered by his sovereign. Other dial-makers followed his example, and the authority of stupid Charles V, whose bones have been dust for centuries, still rules the makers of cost of our watch and clock dials.

Saving Stamp Protection.

Those suave individuals who rob banks are scorning the lowly green-back and the buffalo nickel and earnestly devoting themselves to the filching Liberty Bonds and War Savings Stamps these days, making real competition for the oily-tongued who prey upon their fellow men by persuading them to sell War Savings Stamps at less than they will bring at the postoffice. The Banker's Association at a convention held recently called upon Congress to enact legislation to protect bondholders against these raiders. This protection is suggested by making it a penitentiary offense to buy or sell Liberty Bonds or War Savings Stamps without the original buyer's endorsement.

The bankers pointed out that the modern burglar is the War Savings Stamp scalper who victimizes his fellow citizens who are not so well informed of the true value of these Government securities.

The Savings Division of the Treasury Department already has provided protection by means of registration. A new ruling, now effective, permits registration. A new ruling, now effective, permits registered War Savings Stamps to be redeemed at any postoffice. A plan for thorough identification has also been devised as a means of recovering stolen War Savings Stamps.

The Rhode Island legislature at its last session passed a law providing a fine of \$1,000 or six months in jail for any person purchasing War Savings Stamps at a price less than that fixed by the Government. Other legislatures are expected to take similar action shortly.

Meeting August 6.

The Panhandle-Plains Chamber of Commerce is making rapid headway in organizing the forty counties including in its scope. At the headquarters office in Amarillo the great part of the preliminary work for its various undertakings has been done or definitely outlined. F. R. Jamison the Secretary-Manager, and Hamlin Palmer, the Traffic Manager, have visited a considerable number of counties in the interest of the organization of such counties and a meeting of the Board of Directors has been called at Amarillo at 1:00 p. m., Wednesday, August 6th, for the purpose of considering the report of Mr. Jamison as to what has been done and his plans for further activities. Anyone interested in this work will be welcome, Mr. Stinnett says, at this meeting.

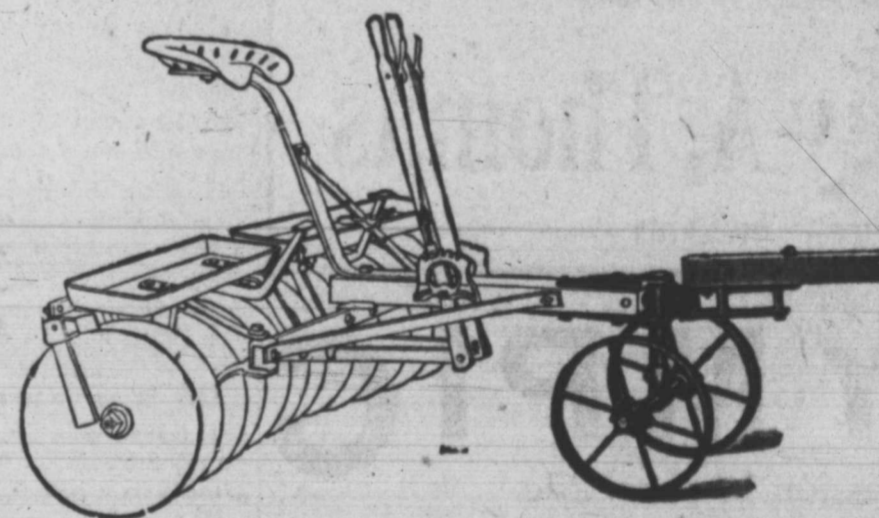

Splendid Dressing for Cabbage Salad. Beat the yolks of three eggs until light with one-quarter cup of sugar. Add two teaspoonfuls of flour, one spoonful of salt, one-quarter teaspoonful of pepper, one-half cup of vinegar of medium strength. Cook in a doubleboiler until thick, stir-

ring constantly. Add one tablespoon full of butter, stir until blended, and cool. Mix in lightly one cup of thick sour cream, either whipped or plain. Sweet cream may be used but sour cream is better. Chop a medium head of cabbage. Cut one cup of celery into dices; add one-half cup of chopped walnuts and one teaspoonful of salt. Mix with salad dressing and chill.

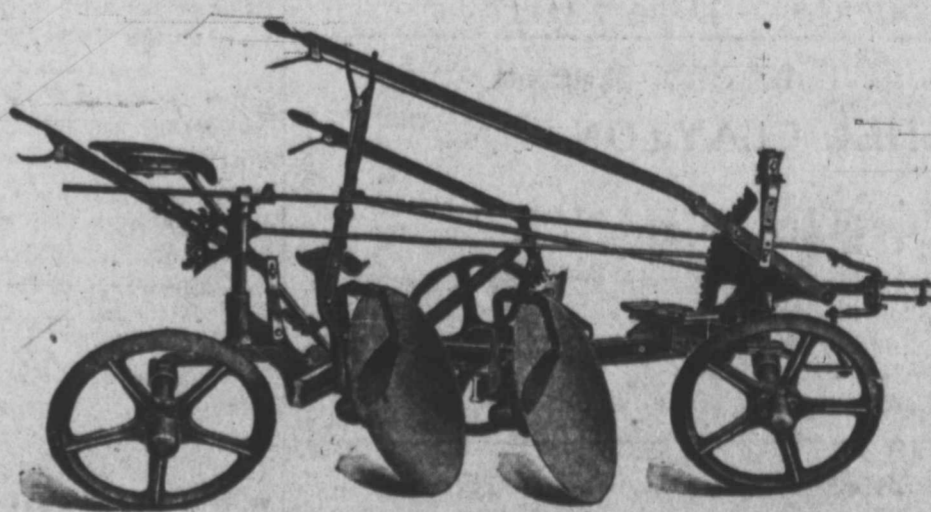

Did Not Know They Were Gaming. Two men, strangers, were arrested for gaming last week. It was learned that they had matched nickels in a barber shop to see who should pay for a shine and for tickets to a movie, and not being familiar with Texas laws, did not know they were doing anything improper until informed that their offense called for a fine of \$19.75 each. Rather hard on newcomers who wanted to locate here, wasn't it?—Quannah Tribune-Chief.

The daily papers of Monday carried a review of the financial report made to the public by the Y. M. C. A. for the welfare work undertaken by the organization. The News man was one of the "Y" workers in France, and proud of it. We have had no opportunity to discuss with any Randall county boy the Y. M. C. A. work in France, and are therefore unaware if any joined the mob which tried to put the "Y" into disrepute among the people of the United States. The movement was a failure. It was started by a bunch of propagandists who based their attacks on lies. The ordinary doughboy took up the cry because he likes to cuss somebody and dared not cuss his officers and the army. The bunch who organized the dastardly attack and those who haven't had any better sense than to keep it up are going to feel as small as a French plugged nickel when the Y. M. C. A.

gets ready to tell the world the facts concerning its work. The criticism has practically died out, and with hardly a word spoken from the "Y" organization, simply because level headed men of the army and the United States began months ago to realize what a tremendous work was accomplished by the "Y" and under what trying condition it was accomplished. The "Y" did more for the soldier in France than any other organization.

A bill is up in congress making provision for the removal of the bodies to the United States of the men who have died in France. Like most other bills relating to the soldiers, this is pure bunk. No sensible person who knew the least of what went on in the burial of the dead would think for a moment of moving the bodies to the United States. The best care possible was taken, but war is war, and burying men under shell fire or after they have lain on the battle field for days is not conducive to expert undertaking. The cemeteries being established in France will be beautiful and well cared for. The men who fell there should be allowed to rest where they have fallen.

The Plainview News believes that the Democratic party will be snowed under in next year's election. Hard-

ly could it be expected differently. Wilson is the only man who would have a chance to be elected on the democratic ticket, but he would not be foolish to accept the nomination as the people of this country are against the third term for presidents. The force of all mistakes of the war will be thrown against the democratic candidate next year. These mistakes are mountain high. The business connected with a great war is of such a nature as to breed mistakes faster than they can be recognized and corrected. Whether or not any men or any party could have conducted the war any better does not enter into the question. Woodrow Wilson, the democratic president, was running things. The democratic party had control. The mistakes were made. The democratic party must answer for these mistakes, whether justly or unjustly, and the chances are that the democratic party will be defeated. The period of reconstruction is on. If the republicans make as many blunders during this period as the democrats did during the war, they will be kicked out in 1924. Republics are ungrateful.

Tulia Herald:—We learn from the daily press that a \$150,000 dormitory for girls at West Texas State Normal College at Canyon has been allowed by the Legislature. Much of the credit for securing this appropriation is due Prof. J. A. Hill, the worthy president of the college. This college is of inestimable value in this section, and we are glad that a beneficent Legislature saw fit to recognize that fact and make the award. May the college continue to grow in popularity and usefulness, and may Prof. Hill and his capable corps of teachers continue their most excellent labors in our sincere wish.

The wheat grower should have his wheat tested by the government agents before he offers it for sale. Reports are coming in from all hands of buyers giving the farmer a much lower grade than he deserves. The buyer is going to make all he can off of the tremendous wheat crop this year, and it is up to the wheat grower to protect himself by sending samples to government agents who will give him the exact grade his wheat should carry on the market. The testing is done free. The producer has everything to gain, and nothing to lose by the test.

Race riots are becoming more numerous every day. The returned negro soldier is at the bottom of the trouble. He made good in the army and generally was classed as a good soldier. But he was never treated as the equal of the white in the army, but he is coming out with a false impression that he has been treated as the white's equal. It will take the killing of a few of these self praising heroes before the negro settles back to where he belongs.

The News man is unfortunately situated so he can't give any advice about the necessity of cutting weeds. Coming home from France a month ago, he found a wilderness of weeds. Two men were totally exhausted and put into retirement in the attempt of cutting them. The rains came, and a fresh batch put in their appearance. As soon as we can get our weeds cut we'll then tell you about the necessity of having no weeds in Canyon.

One of our city councilmen almost got stuck in the mud on Houston street Saturday, more than a week after a rain had fallen. He said he would raise an awful howl about the condition of the streets if he wasn't on the city council. Paving will settle our street troubles.

Many Randall county farmers will pay for their land from this year's wheat crop. Not all years are so good as this one has been, nor is the price always so good, but the Panhandle farmer, year after year, will make bigger and better crops, the price of the land considered, than any place in the United States.

Joe Bailey is on the war path and is coming to Texas to clean up or bust up the democratic party. He proposes to join the Peoples' Democratic party, which will be composed of the old guard which believes in the things that tickle Joe.

Prohibition is going to prohibit. The Texas legislature passed a law with teeth. Congress has passed laws so extreme that even the most ardent pros in the house believe it will be impossible to enforce all of them. America is not going to tolerate the liquor question longer. The people are not bluffed at the hand-ful which cries "no beer, no work".

There are only a few men left in Canyon without jobs, and these are not hunting work. This is a poor time for men to cuss the government and their maker for not providing a living for them when they can step

out into the country and get more money for shorter hours than most professional men are making.

The French have offered to buy of the United States all of the war material we have in that country at one-fifth of the original cost. Of course there is a vast amount of this material which is useless to the French. There are vast stores of new stuff. You can depend upon the Frenchman to look out after himself in a trade.

It may become necessary to intervene in Mexico, but we haven't heard any of those who are howling so loud for intervention offering their services for the army which would do the fighting. None of the men who have been in the army during the big war want to go to Mexico, or any place else to fight. They know what war means.

Neither London, nor Paris, nor Washington wants to have the kaiser's trial in their respective cities. Try Toledo. It ought to be as good a drawing card as the Dempsey-Willard bout.

MARKETS.
Chicago Grain
 Chicago, Ill., July 28.—Estimates that the corn crop had already been damaged 25 per cent by drouth and heat, and the loss would be doubled with another week of such weather, led to an excited advance today in the corn market. Prices closed strong, 1 7-8c to 6 1-2c net higher, with September \$1.97 3-8 to \$1.97 1-2 and December \$1.72 to \$1.72 1-4. Oats finished 1-8c to 1/3-8c up, and provisions at gains varying from 2 1-2c to 50c.

December corn delivery, which was the most active one on the list, soared to the highest price yet this season, \$1.72 1-2, a rise of 6 1-4c to 6 3-8c compared with Saturday's finish. But little reaction took place from these figures, for crop reports at hand were decidedly pessimistic as to Illinois, Missouri, Indiana, Kansas and parts of Southern Iowa, South Dakota and Nebraska.

Oats reflected the strength of corn. Upturns in provisions came chiefly from the bulges in grain and from announcement of liberal exports of lard and meat. Lower quotations on hogs were practically ignored.

Cash grain: Corn—No. 2 mixed \$1.99 @ 2.03, No. 2 yellow \$2.01 @ 2.03. Oats—No. 2 white \$1 @ 82 1-4 No. 3 white 80 @ 81 1-2c. Rye—No. 2 \$1.66 @ 1.67. Barley \$1.20 @ 1.45.

Hale County Wheat Brings Millions.
 Hale county will sell nearly \$5,000,000 worth of wheat this year, according to an estimate made yesterday by Robert Underwood, banker of Plainview, who was here on business. Mr. Underwood said the county harvested about 100,000 acres of wheat,

some of which ran up to forty bushels per acre. The average yield for the county was between twenty and twenty-five bushels, he believes.—Hale Center News.

Cottle County Let Contracts.
 Cottle county has let a contract for bridging South Pease, the cost being \$26,000. The bridge across Sweet-water creek will cost \$3,000 and the North Pease bridge is estimated at \$26,000.—Childress Index.

Weeds Harbor Insects.

(U. S. Dept. of Agriculture.)

Getting rid of grass, weeds, and undergrowth about the farm during the fall and early winter is one of the best protective measures the farmer can use against crop-damaging insects the following year. Weeds, matted grass, dead vegetation and brambles along fences, roadsides, margins of fields, banks of little streams or ditches, especially in irrigated territories, are the natural hibernating and often breeding places of many destructive insects. This vegetation gives grasshoppers, chinch bugs and other insects most favorable conditions for appearance the following spring and summer. Similarly, voluntary growths of wheat harbor the Hessian fly; while stray alfalfa plants in the fields and around them may be the source of the incursion of grasshoppers. The Hessian fly in the absence of volunteer wheat at times lays its eggs on the young crab grass which may spring up in the fall after a tract has been burned over. At present, in some parts of the country, the late-sown wheat is being infested by Hessian flies that have developed in and spread from volunteer wheat. Late sowing cannot be expected to protect winter wheat from attack in spring if volunteer wheat has been permitted to grow up either in nearby fields or among the late-sown grain. Grasshoppers lay millions of eggs along the banks of canals and ditches in the western country. Chinch bugs hibernates in bunches of broom sedge, and many other destructive pests could not endure the winter were it not for these natural nurseries.

The entomologists therefore recommended to farmers that they fall-plow sod lands intended for other than grass crops another year, and clear up roadsides, fences margins and all waste lands, ditch banks and similar places by burning over, pasturing, or in case of ditch banks, by plowing or disking in the fall. This will tear up the roots and expose the eggs of grasshoppers to the excessive moisture and cold of winter and will also turn up those insects which hibernate in the ground. Burning vegetation where possible will destroy many insects, though, in the case of grasshoppers, it probably will not be as effective as cultural methods. In addition, cultural methods by turning humus into the soil benefit the land.

Sheep, of course, are the great enemies of weeds and where sheep can be turned into a field, or a flock herded along the roadside, they will effectively clear up waste vegetation and in addition the trampling of their feet will destroy many insects. The sheep at the same time turn waste material into mutton and all they require is a little grain for finishing. Frequently when sold they return a profit, but the entomologists hold that even if they merely pay for the extra grain they eat their function in destroying weeds and keeping down insects makes their use well worth while.

In many places community action in destroying weeds is necessary, as it may not be profitable for the farmer to clear his side of the road if the other side is allowed to remain a harboring place for pests. In such cases it might well pay the community to get sheep cooperatively and use them to clean up the weeds of the entire section.

Greens Placed In Cans for Winter.

Many cultivated and wild plants are used as greens, and when canned they furnish valuable food for the winter and spring months. Some of the greens which may be canned are Swiss chard, kale, Chinese cabbage leaves, upland cress, French endive, cabbage sprouts, young tender turnip tops, spinach, beet tops, cultivated and wild dandelions, tender dashen sprouts, native, Russian and wild mustard, collards, tender leaves of rape, pepper cress, lamb's quarter, sour dock, smartweed, purslane or "parley," poke weed, sprouts, marsh marigold or cowslips and tender sprouts and leaves of milkweed.

Greens should be canned the same day they are picked. "One hour from the garden to the jar" is a good rule. Sort thoroughly and wash until clean. Place the greens in a sieve or in cheesecloth and blanch in live steam for 15 minutes. Remove the greens and place in a freshly scalded pan and cut into convenient lengths. Pack into hot jars which have been boiled 15 minutes and add boiling salt water, using 1 tablespoon salt to 1 quart water. Put boiled rubbers on the jars, then the tops and partially seal the jars. If a steam pressure cooker is used, process for 35 minutes under 10 pounds pressure. If a hot-water bath canner is used, place the jars on a false bottom in the commercial canner or wash boiler with sufficient water to cover. Process 2 hours one day or boil 1 hour for three days in succession. Count time after the water starts to boil. Remove and seal tight immediately. Cool in a place free from drafts, test for leaks and store in a cool, dry place.—United States Department of Agriculture.

Ranchman Hangs Self.

Lockney, Texas, July 23.—After destroying the telephone wire in an effort to keep his wife from communicating with relatives, Jim Hammonds, ranchman, living six miles south of Lockney, took his life by hanging himself from a rafter in the barn Monday morning.

Hammonds, according to his wife, was despondent. He left a note requesting that he be buried in his first wedding suit. The present Mrs. Hammonds was his second wife. He was buried yesterday in Floydada cemetery.

Citation By Publication.

THE STATE OF TEXAS,
To the Sheriff or any Constable of Randall County—Greeting:

YOU ARE HEREBY COMMANDED to summon Clifford Nolan by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published there in, but if not, then in any newspaper published in the 47th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 47th Judicial District, to appear at the regular term of the Honorable District Court of Randall County, to be holden at the Court House thereof, in Canyon, Texas, on the 1st Monday in September A. D. 1919, the same being the 1st day of September, A. D. 1919, then and there to answer a petition filed in said Court on the 31st day of July, A. D. 1919, in a suit, numbered on the docket of said Court as No 880, wherein Mrs. Vera Nolan is Plaintiff, and Clifford Nolan is Defendant, and said petition alleging:

Your petitioner, Mrs. Vera Nolan, hereinafter styled Plaintiff, complaining of Clifford Nolan, hereinafter styled defendant, would show to the court that plaintiff resides in Randall county, Texas, and has resided in Randall county, Texas, for the last six months prior to the filing of this suit and is now and has been continuously for the last past twelve months a bona fide resident citizen of the State of Texas.

That the residence of the defendant, Clifford Nolan is unknown to plaintiff at this time.

That plaintiff was duly and legally married to the defendant Clifford Nolan on the 26th day of September, 1916, at Covington, Indiana, and lived with said defendant as his wife until the 24th day of February, A. D. 1918, when it became insupportable for plaintiff to longer live with defendant as his wife, for which reason she separated from him and has not since lived with him as his wife.

That during the said marriage there was born unto plaintiff and defendant on July 6th, 1917, a child, a girl, Opal Bybee Nolan, which said child has lived with plaintiff and been supported by plaintiff since its birth. Plaintiff alleges and shows to the court that all during the time she lived with defendant as his wife she conducted her household affairs with prudence and economy, was loyal, faithful and true to defendant and performed every duty and act in her power to make the married relation and life between plaintiff and defendant what it should be but the defendant unmindful of his marriage vow and obligation to this plaintiff, on or about the 15th day of May, 1917, began a course of harsh, tyrannical and cruel treatment toward this plaintiff and kept same up continuously until February 24th, 1918, when it became insupportable for plaintiff to longer live with defendant as his said wife at which time she separated from him as aforesaid.

Plaintiff says that on account of the outrages and cruel treatment and excesses of the defendant toward this plaintiff it was insupportable to longer live with him when she separated from him on the 24th day of February, A. D. 1918.

Wherefore plaintiff prays that citation issue in terms of the law commanding defendant to appear and answer this petition and that said citation be published for four successive weeks in a newspaper published in Randall county, Texas, as the law directs and that on final hearing hereof she have judgment dissolving the marriage contract between plaintiff and defendant and forever divorcing plaintiff from defendant and for custody of her said child together with all costs in this behalf expended.

Herein I certify, and have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND and the Seal of said Court, at Office in Canyon, Texas, this the 31st day of July, A. D. 1919.

(SEAL) O. W. GANO, Clerk, District Court, Randall County, Texas.

A true copy I certify, WORTH A. JENNINGS, Sheriff, Randall County, Texas.

Card of Thanks.

I wish to thank our many friends who helped during the accident and illness of my son, Perry. Especially I wish to thank the young men for their assistance.
