COUNTY TAX RATE SET AT 55c ON \$100

Same Rate As Levied Last Year—Rates Made by Commissioners For School Districts.

At the regular quarterly session of the Commissioners Court which adjourned Thursday, the tax rate for the year for county and school purposes were made. The county rate was set at 55 cents on the \$100 valuation, the same as the rate last year. The following levies are made for the different funds:

County advalorum, 12c on the \$100 valuation.

Court House and Jail, 8c
Road and Bridge, 15c
Jury, 2c.

Sinking Fund, 18c.

In cases where the state levies an occupation tax, the county will levy an occupation tax of half the state's levy.

A county poll tax of 25 cents was levied.

The following rates were made for the various school districts of the county:

Districts 1, 5, 6, 15c on the \$100 valuation.

Districts 2, 3, 11, 20c.

Districts 9, 16, 40c.

Districts 4, 8, 10, 12, 13, 14, 17, 20, 21, 50c.

District 18 41c and 9c for the sinking fund.

District 19 33c and 17c for the sinking fund.

District 22 36c and 14c for the sinking fund.

THIRTEEN FINISH NORMAL COURSE

Commencement Exercises Ending the Ninth Year of the College Sunday and Monday

The ninth year of the West Texas State Normal College closed Monday morning with the commencement exercises for the thirteen young men and women who had completed the course during the summer session of the school.

Sunday morning at the auditorium Rev. B. F. Fronabarger preached the Commencement sermon, delivering an inspiring address to the young people and the large number of their friends and citizens of the town who had gathered.

Monday morning Mrs. Warner, of Claude, and editorial writer for the Fort Worth Star-Telegram, delivered a very fine address before the members of the graduating class and those who were to receive certificates.

The following young people graduated Monday:

Josephine Franklin Baber, Lubbock
Lucy May Boyd, Ft. Worth.
Henrietta Mayne Evans, Abilene.
Charles H. Keffer, Lipscomb
Jim Carrie Lindsay, Ft. Worth
Charles S. Lofton, Canyon
Tommie Smith Montfort, Canyon
Leta Roberts, Amarillo.
Lula Bell Rushing, Floydada.
Mrs. Blanche Hester Stall, Wellington.

Chloe Stripling, Big Springs.
Leta Lucile Treadaway, Brownfield
Bertie Warren, Amarillo.

SATTERWHITE TELLS OF HIS WORK IN THE LEGISLATURE

Representative Lee Satterwhite of Panhandle was the guest of the Normal Friday morning at chapel time where he was invited to tell for the work of the legislature. Mr. Satterwhite served on the appropriation committee of the house. To him and his efficient efforts great credit is given for the passage of the item of appropriation which gives the West Texas State Normal College the new dormitory.

Mr. Satterwhite is a strong believer in the future of the Panhandle country and the Normal. He has always been a warm friend to the school and the people here appreciate his efforts. Dr. F. M. Wilson and C. W. Warwick were called upon by President J. A. Hill to express to Mr. Satterwhite the gratitude of Randall county for his effective efforts in the cause of education.

Examinations at the Normal.

Nearly two hundred students of the summer normal are remaining in the city after commencement to take the state examinations for teacher's certificates. The examinations will be ended tomorrow.

TEACHERS' INSTITUTE FOR FOURTEEN COUNTIES IN CANYON

Purpose and Plan of the Institute

The West Texas State Normal College desires to serve effectively every educational interest of this section of the State. Looking to this end, it offers to the teachers of the Plains and Panhandle counties all its facilities for the purpose of institute work. The people of this part of the State should look upon the West Texas State Normal College as their educational home; they should take pride in its achievements; and they should help fight its battles.

The purpose of this Institute is to bring together as many teachers as possible, that they may become better acquainted, and that they may discuss and suggest solutions for their common educational problems. We have engaged some of the best educational talent of the country to take part on the program; we believe that the inspiration and enthusiasm which belong distinctly to large gatherings will more than compensate for the additional expense of meeting at one central place for the purposes of an Institute. If America is the hope of the world, and if the public schools are the hope of America; then we as teachers must have a definite educational plan, and we must follow this plan with wisdom and energy.

We are planning to make this Consolidated Institute a permanent affair, and we most cordially invite every county in this section of the State to join us in our desire to improve our educational conditions. We want every County Judge, every County Board, every Trustee, and every teacher to feel that the West Texas State Normal College has only one motto—"Service," and that it invites cooperation and advice in the making of all its programs.

Good board may be had at prices ranging from \$1.00 to \$1.25 a day.

Let Us Get Together

The committee began working out the plans for "a larger institute" rather late this year. However, it is gratified at the response which the teachers and school authorities of the Plains are giving this idea.

Every movement to-day is in the direction of organization; teachers must not neglect the opportunities of effective concerted action. The problems of better pay and competent teachers will challenge our most serious thinking for years to come. Have we formulated definite plans by which we propose to relieve the situation? The public will demand that we submit for its consideration some solution; and, if our plans show unity and wisdom, we believe that the public will be ready to give some of these plans a trial. Let us get together and see what can be done.

We have invited a number of teachers and school authorities from the counties which are to take part in the institute this year to appear on the program. So far we have not heard from them, and for this reason their names do not appear on the program. However, we shall expect them to take an active part in every feature of this program. We are especially anxious that the school authorities and superintendents of city schools for all the Plains counties be present on Tuesday and Wednesday of the institute, and we most cordially invite them to be present during the entire time of the institute.

PRESIDENT J. A. HILL WENT TO BOARD MEETING SUNDAY

President J. A. Hill left Sunday for Austin where the Board of Regents for Normal Schools is holding its annual meeting this week. At this meeting the yearly business of the normal schools will be checked and plans made for the coming year.

Mr. Hill will present to the Board the names of a number of new teachers for the West Texas State Normal College for the coming year. The question of the two new buildings for the Normal will also be up for settlement. It is Mr. Hill's desire to have work started as soon as possible upon the engine house for which \$30,000 have been appropriated. He desires to take time for thorough investigation of dormitories before the contract is let for the new \$150,000 girls' dormitory which will be erected and completed before the opening of the summer term next year, if possible.

NO CHAUTAUQUA IN CANYON IN 1920

The Chautauqua this year, which closed Monday night, was not so good as either last year or the previous year, but generally speaking the program pleased most of the people. There will be no Chautauqua in Canyon next year as only twelve men could be induced to sign the guaranty for its return. Those who had carried the burden of the Chautauqua for this year were unwilling to do so next year without assistance.

By far the best programs of the Chautauqua came on the last day. The Navassar Band consisted of much better musicians than had hitherto appeared and the numbers they gave very highly pleased.

IT PAYS TO PAY THE CASH

A More Positive View of Women

Christian Science Monitor: Some things were said about women in industry by Mrs. Harriot Stanton Blatch, in a statement made recently in New York and published in this paper, which are worthy of general attention. Mrs. Blatch who has just returned to America after having spent several months in studying industrial conditions with regard to women and children in England, France, Switzerland and Germany, has come to the wise conclusion that in the realm of industry women should be looked upon less as a class and more as individuals.

It is unquestionably true that, as Mrs. Blatch points out, women are greatly handicapped by the very fact that they are regarded as a class that must be especially protected, because the inference follows that women are inferior to men as workers and therefore are not entitled to equal pay. It is, of course true that leg-

islature protective of women in industry has generally been prompted by solicitude for their welfare, but such legislation has nevertheless had its disadvantages as well as its benefits. It is an indication of the development of a keener discernment that people are beginning to realize the negative effects of the implications of weakness and limited capabilities of women, as well as to appreciate their actual ability and capacity, and it is no doubt fortunate that one of the earliest to perceive and proclaim these unfortunate and unjust effects is a woman. After referring to the erroneous estimate of women's work prevalent before the war, in consequence of which, she says, women were the poorest paid workers in the labor market, and had the lowest positions, and also alluding to the proof of their skill and capacity during the war, Mrs. Blatch assigns two reasons for women's apparently increased efficiency in that per-

iod which may not have occurred to every one. These are probably minor reasons, but they are worth noting. The first is that women engaged in the industries while the war was going on were better fed than formerly, since they were paid enough to enable them to buy good meals. In the case of munitions workers, the women quite commonly obtained hot and wholesome meals, served under government management or supervision, near the scene of labor, where employees could obtain full value for their money. The second is that they were beginning to be well thought of, to be praised, so that they took a greater interest in their work than ever before.

In women industries, or in those to which women constitute the great body of labor, wages are more nearly equal but in those in which men are dominant there is a great contrast between the wages paid to men and women. Women, she explains, have been less appreciated than men, have been considered less trained, less stable, and less organized; but instead of attempts being made to obviate these disadvantages they have been accepted, and protective legislation," says Mrs. Blatch, "constitutes a real danger in that it stamps woman as weaker and makes her less desirable as a worker. What we need is proper legislation for both men and women. When it was discovered in England that the output was greater where hours were shorter the working day was cut down. We need to institute a campaign for the men are treated, and not as a class.

It is doubtless true, as Mrs. Blatch declares, that the right was to begin to help women to a better industrial status is by seeing to it they shall have a square deal in the schools. "We live," she says, "in an age of machinery; why should not girls be taught something about mechanics, just as boys are? We must begin in our schools to end the discrimination against girls, in order to change the common thought about women in industry. Let us give them the best we have to offer. Then women will be able to command the higher wages which they need, and equal pay for equal work." Such words as these give fresh promise of a more intelligent concept of the subject than has been prevalent, because they reveal the advent of a more positive view of woman's abilities than has obtained in the past.

The Season's Leading Style Favorites are Here in This Showing of Earliest Autumn Models

The New Fall Suits in Smarter Styles

The natter effects in these new suits for Autumn, caused partly by the more becoming fitness of the coat due to the variation in length, are amplified by the beauty and elaborateness of the use of braided ornamentation as well as the new effects in the use of rows of buttons. We call your attention to the following models.

Jaunty Coat Suits With Thigh Length Jackets

Some with silk and wool embroidery in self tones. In Duvetyn, velours, suede cloth, silver-tone, serge, tricotine, and twilled fabrics including the new shades in tan and brown, also in peacock blue, as well as the always desired navy blue.

New Fall Tailored Suits In Neat Simple Styles

These new autumn models are the acme of elegance in their crisp lines, perfect stitching and graceful conformity to the figure. Clever cutting has produced many original and charmingly becoming effects in these new tailored suits for fall.

Delightfully Designed Dresses In the New Hip Draped Silhouette

The straight lines of former seasons are most pleasingly softened by the addition of draped effects at the hip in these new dresses which we are showing for the first time. Made of satin, Kit-tens Ear Silk, crepe meteor and other silks in vogue this season.

Black Satin Dresses In Exclusive Models

As every woman in touch with the fashions knows, black satin dresses bid fair to be the most worn of the new seasons costumes, and we are showing several exceptionally striking styles.

See These Exquisite New Autumn Blouses

One of the most important features in our displays of new fall fashions in the attractive array of new blouses, smocks and waists, which we are showing in several distinct lines of quite different classes of models for fall wear for every occasion. Here are some of the most interesting shown by us:

New Long Russian Blouses With Important Style Changes

These new blouses are a variation on the Cossack style with the addition of richer decorative effects on finer fabrics. Nothing so distinctively sets the fashionable note in ones attire as the correctness of ones blouse and these are strictly in the height of the seasons vogue in stylish blouses.

Smartly Tailored Waists of Mannish Silk Shirtings

The fashionable woman will appreciate the crisp elegance of these tailored waists, some of which are made in men's silk shirtings and others in Pongee.

Silk Underwear and Kimonos

Made of satins, crepe de chine, Georgettes, etc., daintily trimmed in lace and hand embroidery.

New Ready-to-Wear Coming Daily

Every day's fast expense brings to us from the fashion centers of the country many new and appealing garments, portraying the developments of "Styldom." It is a real "film of fashion" that can be seen in our ready to wear department any day from now on, and added is the pleasure of personal inspection—examining fine points of tailoring, of beauty of materials, and perfect fit of garments. And from a price standpoint, you will be enthusiastic over the values we offer, which is another reason for the complete success of this department each season.

Maybe So, Maybe Not.

Newark (N. J.) Evening News: One reason why we do not pin too much faith to the protestations of the Anti-Saloon League leaders that they will never, never start, an anti-tobacco crusade with a Federal prohibitory amendment in view is that they represent an organization. Another is that they are of what, for want of a better term, we shall have to call a prohibitory mind.

The latter is a very common peculiarity of temperament which, often enough for entirely laudatory ends, seeks to make others walk exactly along the lines in which they themselves take satisfaction. Their motto is apt to be "don't," which, translated, is "must not," under penalty of the law. Now frankly and for ordinary human intercourse, it must be admitted that we prefer the "do-be-goods" to the don't-be-hads." Somehow or other they seem to be a good deal more sympathetic and humane kind of people—"just folks," we might say.

As for the other reason, it seems to be human nature that organization have got to do something. It is a fault that runs through organized religion and labor down to organized politics, that its gets to existing with with one eye a little bit too much on the organization and not enough on the object.

The United States today is so full of paid and unpaid organizers, and paid and unpaid about-to-be organizers, that the don't-want-to-be-organized has hardly time to make a living because of the need of defending himself against the plans of those who are looking for his support. It might almost be said that if all the time, money and energy that are something that each man ought to do for himself were put in plain, hard, productive effort, and not battenning on somebody else's effort, the high cost of living would be solved off-

hand.

So we don't trust the Anti-Saloon League too far in its statement—especially if it gets away with its present job.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces of the system. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. ANOTHER OF WAR'S RESULTS

Direct Connection Traced Between Great Conflict and the Annoying Scarcity of Laundresses.

This is from Alexandria, our neighboring city down the Potomac.

Housekeepers there are having quite a time getting "help," especially some one to do the family wash. The necessity for clean clothes is one which devolves upon civilized beings. Wars may come and wars may go, but the washtub and washboard go on forever.

But it has been hard to get a laundress in Alexandria. War-time conditions have enabled many who earned their living at the tub to turn to less arduous pursuits, with the result that there is a scarcity of "wash ladies." The condition is one paralleled in many other cities.

"Aunt Lucy," said one Alexandrian woman, addressing a colored woman whom she had known for many years, "don't you know some one who can do my washing?"

"No, ma'am I don't know no one," she said.

The woman made a last attempt. "Won't you do it for me, Aunt Lucy?" she asked, with a winning smile.

"Deed, chile," said Aunt Lucy, "I don't have to do no washing no more."

"Why?" asked the woman.

"Well, honey, hit is jes like this," explained Aunt Lucy with a nice distinction: "De Civil war made us free. And dis here wor' war has made us independent."—Washington Star.

EAGER TO SEE ELEPHANT

First One That Was Brought to the United States Aroused the Utmost Curiosity.

Nowadays, when summer in the United States would hardly seem itself without the coming of a circus, it is difficult to realize the excitement aroused by the first exhibition of an elephant. A now-forgotten showman, Hackallah Bailey, is said to have imported the first elephant nearly a hundred years ago, and the animal was a whole show in himself. The circus tent had not yet come into being, and the elephant was shown in bars in the Eastern states that then held the bulk of the population. To prevent the public from seeing the show without charge, the elephant traveled from place to place in the night; but even so, the public refused to be wholly circumvented, and small companies gathered with bonfires ready to light when the strange creature came lumbering past on his way to the next town.

Sometimes, however, the management defeated this intention by sending along the road a horse built up to look like an elephant in the dark, and when the bonfire had been lighted and had burned out, the real elephant followed.

The Way to the Pole.
Service with the American air forces in France adds weight to the opinion of Donald B. MacMillan, Arctic explorer and leader of the Crocker land expedition, that the airplane is not adapted for a dash to the pole, and that the cost of such a trip by dirigible would be prohibitive. In his own future explorations, Mr. MacMillan says, he expects to depend on the "ever-faithful dogs," for conveyance. The airplane is, in his judgment, impracticable for several reasons, one of which is, he says, sufficient to discount the idea of successful Arctic exploration by hardy airmen. The frozen north offers no smooth fields of ice on which the explorer could make a landing. A dirigible might start from a properly equipped hangar in Labrador and hope to return, but the total cost of the expedition would probably be about \$1,000,000.

In Apple Blossom Time.
A wedding I attended was held in an orchard in apple blossom time. One of the women wore a red shirtwaist. In the midst of the service a bull in a pasture in the next field rushed in at the red shirtwaisted woman, who climbed a tree before the bull arrived. The rest of the party and myself did likewise. The bride's veil fell off, which embarrassed her exceedingly. The shirtwaist was thrown over the fence and the bull subdued, and the wedding continued in peace. The woman hastened home after a new shirtwaist, wearing her husband's frock coat.—Exchange.

Replanting Forests.
In England and in Scotland, before the war, were many hunting ranges and sporting grounds. During the war, however, these were cut down to supply munition factories at home and armies abroad. Never before, it is said, have these countries been so bare of timber as they are at present. But now they are preparing to replant their forests. The old ones were first of all ornamental but incidentally they proved useful. These which they are planting now are to be first of all useful and also, of course, ornamental.

Remorse.
"So you were in a German prison camp?"
"Yes."
"How was the food there?"
"Don't ask me to answer a question like that, but I'll say this much: If I ever run across the old lady I used to board with—overcome by the recollection of the mean remarks he used to make about those Sunday night suppers of cold ham and grits, the returned doughboy applied a handkerchief to his eyes and hastily walked away."—Birmingham Age-Herald.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel.

SUBSCRIPTION, \$1.50 PER YEAR

The political meeting at Ft. Worth Thursday was not quite so harmonious as was predicted. Ferguson and his little bunch held a meeting and organized a new party which they say will put out a national ticket. Bailey and his friends got together and gave Bailey a chance to cuss out everybody with whom he does not agree, which included all but Bailey himself. The meeting with its two factions is no doubt a bitter disappointment to the few men who thought they were going to split wide the democratic party in Texas.

The Senate's Foreign Relation Committee, having questioned everyone connected with the American commission at Paris with a view of prejudging the people against President Wilson and the League of Nations and having failed in both cases, is now turning toward the President and will question him about the proceedings in Paris. The committee was not so much interested in its questionings in finding a weakness in the treaty as it was in finding a weakness in the President. The Senate holds up the industries of America from getting upon a peace basis while it plays politics.

The federal grand juries of Texas are asked to take up the question of profiteering. The wholesalers say that the retailers are responsible for the high prices. The retailers rejoice that the wholesalers and other

middlemen are to blame. The investigating juries may be able to find some place to fix the blame.

President Wilson has again vetoed the repeal of the daylight saving law. He states that industries are so far behind with work that he believes the law is more important to industrial centers than it is hurtful to the farmer.

So far, we haven't heard of any Randall county democrats joining the "Bailey democrats" or the new American Party. Most of the democrats out this way are pretty well pleased with the Woodrow Wilson brand of democracy.

Joe Bailey says he is coming back to Texas. He will not find things quite so easily handled as they were for him a few years ago. In fact we are afraid Texas will prove quite disappointing to Bailey.

Ford got six cents out of his million dollar suit. As a money making proposition, he will stay with litney manufacturing in the future.

To The Boarding Houses of Canyon.

From September 1 to September 5 the teachers from fourteen of the counties in the Panhandle and Plains country will meet in Canyon for the purposes of an Institute. Some of these teachers will come from as far south as Floydada and as far north as Dalhart, a distance of more than 100 miles. The chief objection urged by some school authorities against the plan of a consolidated Institute at Canyon was the additional expense necessary to get here. However, these school men, anxious to promote the educational interests of this section of the State, have put aside the question of expense and are coming to Canyon this year to give the plan of a "larger institute" a fair trial.

If we expect to make the plan of a consolidated institute at Canyon a permanent affair, we must meet these school authorities half way. I hope that no teacher who attends this Institute will have to pay more than \$1.25 a day for board and room. Where students room at one place and take their meals at another, some agreement should be made between those who rent rooms and those who give meals as to an equitable division of charges. Those who wish to rent rooms or give meals will please telephone some one of the committee on "Boarding Houses"; you will find

their names in this week's issue of the Randall County News.

The West Texas State Normal College is the logical center for educational gatherings in this section of the State. That it might aid in promoting the school interests in its territory, it has donated liberally for the purposes of this institute. Next year we hope to have from 20 to 30 counties represented in a great institute at Canyon. Teachers from these counties will be unwilling to return to Canyon for another institute if they are overcharged at the one to be held in September.

This article is not intended as a criticism of what has already happened, but rather as a warning to guard against what has actually happened in some places where institutes have been held. We want to make the teachers who attend this institute feel that they are our visitors.

Mr. W. B. Walters, of near Fairview, died Sunday evening, August 17th, after a lingering illness. He was confined to his bed seven weeks and suffered much during that time. He had been in failing health for several years. All that a faithful wife and loving children with the aid of their family physician could do, was done, but to no avail. He was born in Tenn. 64 years ago. His funeral was preached Monday evening by Rev. Lindley of Tulia, after which a large concourse of friends and neighbors followed the remains to the grave in Wayside Cemetery. Besides the wife, six children survive to mourn their loss. They are Mrs. Lena Wealey of Randall county, Mrs. Minnie True of McAllister, N. M., Percy Walters of Edler, Colo., Frank, Ruth and Dora of Randall county. The sympathy of the entire neighborhood go out to them in their sad bereavement. He was a member of the I. O. O. F.

Boy Scout Notes.

Troop No. 1 of Canyon City, has now become fully organized, most of the Scouts have taken the tests and examinations necessary for them to qualify as Tenderfoots, and all have shown a most commendable enthusiasm and earnestness.

There are now four Patrols, consisting of eight Scouts each, and applications are in from new boys, that when accepted will make possible five Patrols.

Each patrol has its leader, and there is a healthy rivalry and competition between the patrols in the attainment and maintenance of scout ideals.

During the last few days, the smart uniforms of the scouts have been noticeable on the streets and at the Chautauqua, where the boys did some splendid good turns, helping to raise and arrange the tent, and otherwise earn the gratitude and approval of the management.

A most instructive and altogether delightful hike made last week to the grounds of the Canyon City Club, west of town, this privilege so generously tendered by the trustees was most appreciated by the Scoutmasters, as well as the boys, and all endeavor to leave behind the best impression of the visit. The excellent swimming holes, the amiable little broncho, and the more than amiable, but none the less self-willed "Jenny", and many other attractions of the place made a long day pass all too quickly, and everyone returned safe and hungry at sunset.

The Scoutmaster as usual got in a few, straight talks, but that is his job, anyway.

The meetings keep up in interest, they are held out of doors at present but the Troop hopes to find a permanent home before the colder weather.

The troop is self governing, resolutions are made and voted on in proper parliamentary form, and all new members are nominated and balloted upon, all officers except the Scoutmaster are elective, and subject to the pleasure of the Troop, tho the Scoutmaster has a veto if he pleases, to every action.

The smooth working of the Troop has been very encouraging to all, and the only cloud that has shadowed the movement in Canyon has been the suspension from the Troop by the unanimous wish of the members and the Scoutmasters of a boy not willing to maintain the ideals of the Boy Scouts.

The Troop is expecting to be completely uniformed soon, and some time in the near future will give a

Is it Possible to Legislate Life and Brains?

Swift & Company is primarily an organization of men, not a collection of brick, mortar, and machinery.

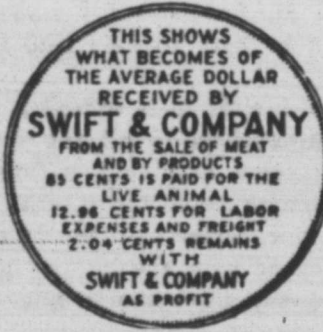

Packing Plants, their equipment and usefulness are only outward symbols of the intelligence, life-long experience, and right purpose of the men who compose the organization and of those who direct it.

Will not Government direction of the packing industry, now contemplated by Congress, take over the empty husk of physical property and equipment and sacrifice the initiative, experience and devotion of these men, which is the life itself of the industry?

What legislation, what political adroitness could replace such life and brains, once driven out?

BETTER THAN COAT OF ARMS

Symbol of Pennsylvania Family Had Origin in Gratitude for Providential Help.

There is a quaint symbol engraved on the silver plate, the library book plates and the note paper of a family in Pennsylvania, but it isn't a crest or a coat of arms, by any means. In fact, it has no connection with the heraldry of the old world but is typically American.

The design is of a cat carrying a rabbit in its mouth, and there is an interesting legend to account for it. The first of the family to emigrate to this country was the father of ten children. He sailed the same year as Penn and died on the voyage, leaving his wife to land alone with her helpless flock. She had a grant of land, it is said, but no money, and so was obliged, like many of the first immigrants to our shores, to take refuge in a cave dug out of the side of a hill.

The unfortunate family had a hard winter; provisions failed, and the widow was in despair as she saw her children grow pale and weak for want of food. The day came at last when there was not a grain of meal in the barrel. The poor woman spent many hours in prayer. When she arose, the story runs, she smiled, as her children put it, "as if she had seen an angel coming to help her." It was no angel, however, that the good woman beheld, but a cat with a freshly killed rabbit in its mouth. This rabbit provided a good meal, wherein, of course, the cat had its full share. And so the descendants of this woman, forming a prosperous and influential family, preserve to this day this old symbol of their early history.

"ANY FOOL CAN FIND FAULT"

Phrase is as True Today as When Great Man Said It Many Centuries Ago.

There is nothing however good but a person may find some fault in it if he is determined to do so. There is nothing perfect that is of man's making. There is nothing that man originates or performs but what contains more or less of his weakness. Worth, like water, must stay below the level of its source. It is quite natural that a person should dissent. The scientists dispute as much as the theologians. Every time one obtains a new standpoint he changes his opinion. Every time he meets a friend he finds that he differs.

So we must make up our minds to disagree, but this disagreement may be of advantage if we disagree in the right spirit. If we don't do that and our disagreement falls into ill will and anxiety, then we become enemies of the truth and social pests besides. The person we earnestly and candidly disagree with may be right and ourselves wholly wrong. It would make us feel very absurd sometimes, in the midst of a violent controversy, to have a sudden light let in on the controversy and show our adversary entirely right. The safest thing, so far as one's conduct toward him is concerned, is to remember he may be right and treat him accordingly.—Ohio State Journal.

Odd Filipino Custom.

Of the inherited rover spirit of the wild people of Davao and their belief that the death of a member of the family is indicative of the will of Allah for them to change their homes, the bureau of forestry says:

"When someone dies in the house built on the land or homestead given to the head of the family, the entire family will move to some other place, and in most cases the house is either burned or torn down and the land on which it was built is abandoned for some years. A bird of the pigeon-family, locally known as Alimukon, is the common god or fortune teller of the wild people of Davao. Unless this bird answers favorably to their supplications to go back to the old place, their old abode or abodes are either forever abandoned or left untouched for many years."

Chinaman Finds Joy in Work.

While nature has been kind to China in the gift of natural resources, the nature and quality of her people justify high expectations of their ability to utilize these resources for the benefit of all mankind. The Chinese have wrought out a standard of living which for efficiency in the realm of labor challenges the world. When the statement is made that a Chinese laborer can work for 12 hours of the 24 for 15 cents a day and board himself, the suggestion will naturally come to mind, but what of the quality of the work? The Chinaman has not yet raised the question of the number of hours which constitutes a day's work. He toils uncomplainingly from break of day until the evening star is clearly in sight, and this he will do every day of the week. Holidays are not frequent, and work is the source of his joy.

A Toothsome Thing.

Mr. Plain—You are sure to admire him; he's a strikingly handsome man.

The girl—I'm glad he is. I simply detest homely men. (Suddenly starting and blushing.)—Oh, I beg your pardon; I didn't mean to say that.

Oil Refinery for Amarillo

Don Farnsworth, of Farnsworth and associates, New York, was in the city last week locating an office for the Amarillo Petroleum & Refining Co., which has purchased a site just east of the stock yards and have commenced the erection of a refinery. Mr. Farnsworth gave out the following in regard to the matter:

"Our company is composed of many of the leading capitalists of Texas and Oklahoma; among whom are Col. B. F. Yoakum, of New York and Mr. Reese Allen of Wichita Falls. The development here, I am glad to say, is the result of thorough expert investigation of the advantages of Amarillo as a distributing center. Our association has determined to put in a complete refinery of 2,000 barrels capacity at

the present time, which can easily be extended in case of local oil supply to 5,000 or 10,000 barrels as required. Our material has been largely purchased already and is rolling toward Amarillo as rapidly as fast freight can carry it. We are fortunate in having secured as our construction superintendent, Col. Sam Robertson, a very successful railroad and refinery contractor, who has but lately returned from France, where he received high commendation and the American decoration for efficiency in the engineering corps. Col. Robertson has already removed his family here and the present purpose is to establish not only the company office in Amarillo, but headquarters of my investment association which is doing business throughout the oil regions of Texas. We will have the

plant in operation, with no unforeseen drawbacks within 100 days."

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Mothers will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Note: The Cleveland had forty minutes counted out because of broken plow.

All plots were accurately measured with tape line. No tractor was permitted to run above advertised speed at any time. Full supply of lubricating oil at finish probably caused by leakage of fuel past piston heads. The quality of plowing is the result of the engine power, speed, and the set adjustment of the plows. All of the above tractors could do far better work in stubble or other average plowing.

FRED H. IVES, Manager.

careful study of the above re- you may be able to decide of the above tractors will best your needs. The best tractor necessarily the fastest one, the that completes its plowing first, highest priced one or the cheap- one. Every point must be con- sidered. And the tractor that will one man exactly may not do at for the kind of work you have on farm. Acreage, soil types, of crops, belt work, etc. all vary deal. Study the tractor every point of view. The most important items in daily ation are the amount of time, oil and labor required to plow acre of land. The time required supplying extra water, cleaning k plugs, and every other kind of should be charged against the se of the tractor. Watch the ctor in operation to judge the ease

of handling and making quick short turns at the ends and corners. I would not buy any tractor until after I had driven it for awhile myself, on regular work. Also figure out answers to these questions: Are the drive wheels of such narrow width and small diameter. that they will easily dig themselves in on soft ground? If the engine has very high speed, are the bearings of such type that they will stand the wear? Is the consumption of lubricating oil very high in this engine? Tractors that permit the fuel to leak past the piston head into the lubricating oil have to have the oil drained off and re- newed frequently. Are all working parts, bearings and gears, completely inclosed, giving protection from dust and wear, and is the lubrication insured? Does the tractor have an air wash-

er to keep grit out of the cylinders and make a moist fuel charge? Are all parts such as magneto, crank shaft, spark plugs, etc., easily accessible for adjustment or repair? Does the cooling system have sufficient capacity and dependable circulation? Aside from the daily management, you should determine whether the tractor will have a long life of satisfac- tory service under proper care. About the only way to judge this is from the experience of those owners who have had that make of tractor in longest use. The salesman should be willing to put you in touch with such men. Study the tractor business. Have the salesman to explain everything about the machine that you do not understand. That is his business. And do not expect a ten horse power engine to do the work of ten horses.

Umbarger News.

John Batenhorst went to Amarillo Friday on business. Virginia Hufstatter was on the sick list last week. The dance at Mr. Hollensteins was well attended. Peggy Hendrix left Tuesday for her home in Oklahoma. The Weissmueller girls visited with the Baders Sunday. F. Weissmueller bought a Ford Friday. There was a farewell surprise party at the Walter Johnson home last Friday. The Johnson family are leaving for Arizona. Paul Artho the Umbarger butcher went to Canyon with some meat Monday. He butchers for Vetesk Market at Canyon.

Pleasant View Items.

Misses Belle and Edna Schramm attended the Chautauqua in Canyon on Monday. Mrs. Ed Harris is visiting with her friend Mrs. Emmitt Prichard this week. Miss Dewey Gibson returned home Monday from Canyon where she has been attending the Normal. Rev. B. F. Fronabarger will preach here Sunday at 3:00 o'clock. Mrs. F. A. Crowley is spending the week at the parental T. C. Jennings home. Miss Edith Gibson went to Tulia Friday and had her torsils removed. Mr. and Mrs. Ed Gibson left Wednesday for a trip through east Texas.

Landed in America.

A telegram was received this week stating that Easton Allen had landed in America. He will probably be home next week. Lieut. James Younger has arrived in New York from overseas and is expected home soon. His father, J. B. Younger, gives the following to the News from Col. Hugh M. Taylor under whom Lieut. Younger worked: First Lieutenant James W. Younger T. C. has been with the 16th Grand Division, T. C. (Railroad Dept.) since January 4th, 1919, as Convoing Officer on Troop Trains, and later as R. T. O. at Sable, France, and his work has been excellent. R. T. O's are selected for stick-to-it-iveness, for diplomacy, tact, and courtesy, and Lieut. Younger has met all expecta-

tions and requirements. He is a good transportation man and can be depended upon. I extend this letter to him with pleasure, as he has earned my appreciation in aiding the Transportation Service of the A. E. F. handling 150,000 men of several Army Corps, along with the attending receipt of supplies and unloading of same, and has kept cars and engines going in his territory.

Announcement Party.

Mrs. J. C. Barnett entertained a few of her daughter, Miss Ida's friends from 5:30 to 8:00, Thursday evening at her home on West Chestnut street. After the arrival of the guests, they were assembled into the beautifully decorated dining room, where they were told to find their fortune; this to be done by choosing walnuts from a bowl. When broken, much to their surprise they found a little note which read: "Mr. and Mrs. J. C. Barnett announce the marriage

of their daughter, Ida, to Richard E. Ball, August 28th, 1919". Punch was served thruout the evening, games and music being played, and the guests each enjoyed a very pleasant time; all wishing they were the bride-to-be. The guests were: Misses Vinny Johnson, Ernestine Osborne, Audrey Hamblin, Nellie Hamblin, Jessie DeGraftenreid, Annie Smith, Ida Fay Smith, Edna Key, Emma Key, Hazel Finlay and Pearl Jenkins.

Farmers Organize Marketing Assn.

On last Saturday, Aug. 9, a meeting was held in the court house in Snyder for the purpose of taking steps to organize a warehouse and marketing association under the markets and warehouse law of Texas. It was decided by those present that the conditions which exist here demand such an Association and the movement was started. Quite a number of those present signed their names to the subscription blanks as stockholders, and committeemen were appointed from the various communities who will solicit others to be-

come members, and on Saturday Aug. 23rd at 1:30 p.m. a meeting will be held at the court house in Snyder to complete the organization of the Association, elect a board of directors and apply for a charter. The name of the corporation is the Scurry County Warehouse and Marketing Association. The purpose of the Association is to assist its members in marketing their products, whether it be cotton, maize or live stock. It will market all products of the farm ranch or orchard.—Snyder Signal.

There are no more open bar-rooms openly arrived at.—Nashville Banner.

married to the defendant Clifford
Nolan on the 20th day of September,
1916, at Covington, Indiana, and liv-
ed with said defendant as his wife
until the 24th day of February, A. D.
1918, when it became insupportable
for plaintiff to longer live with de-
fendant as his wife, for which reason
she separated from him and has not
since lived with him as his wife.

That during the said marriage
there was born unto plaintiff and de-
fendant on July 6th, 1917, a child, a
girl, Opal Bybee Nolan, which said
child has lived with plaintiff and been
supported by plaintiff since its birth.
Plaintiff alleges and shows to the
court that all during the time she liv-
ed with defendant as his wife she con-
ducted her household affairs with
prudence and economy, was loyal,
faithful and true to defendant and
performed every duty and act in her
power to make the married relation
and life between plaintiff and de-
fendant what it should be but the
defendant unmindful of his marriage
vow and obligation to this plaintiff,
on or about the 15th day of May,
1917, began a course of harsh, ty-
rannical and cruel treatment toward
this plaintiff and kept same up con-
tinuously until February 24th, 1918,
when it became insupportable for
plaintiff to longer live with defendant
as his said wife at which time she
separated from him as aforesaid.

Plaintiff says that on account of
the outrages and cruel treatment and
excesses of the defendant toward this
plaintiff it was insupportable to long-
er live with him when she separated
from him on the 24th day of Febru-
ary A. D. 1918.

Wherefore plaintiff prays that ci-
tation issue in terms of the law com-
manding defendant to appear and an-
swer this petition and that said ci-
tation be published for four suc-
cessive weeks in a newspaper publish-
ed in Randall county, Texas, as the
law directs and that on final hearing
hereof she have judgment dissolving
the marriage contract between plain-
tiff and defendant and forever di-
vorcing plaintiff from defendant and
for custody of her said child together
with all costs in this behalf expend-
ed.

Herein I fail Not, and have before
said Court, at its aforesaid next
regular term, this writ with your re-
turn thereon, showing how you have
executed the same.

GIVEN UNDER MY HAND and
the Seal of said Court, at office in
Canyon, Texas, this 31st day of
July, A. D. 1919.

of many. On those
days each month,
when in other cir-
cumstances she would go to bed,
she must still be at the desk or
counter, or struggle through the
day as best she may with her
housework or her family cares.
Usually she who feels those drag-
ging-down or dizzy symptoms, and
other pains caused by womanly
disease, can be cured by Dr.
Pierce's Favorite Prescription. It
cures the cause of these pains.
Faded, jaded, tired, overworked,
weak, nervous, delicate women are
helped to strength and health by
Dr. Pierce's Favorite Prescription.
It makes weak women strong and
sick women well. In liquid or tablets.

MEMPHIS, TENN.—For many years I
have depended on Dr. Pierce's Medicine
to keep me well and healthy. I was once
restored to health by the use of the
'Favorite Prescription' and the 'Golden
Medical Discovery' when other medicines
and doctors had failed to give me any
help. The 'Favorite Prescription' has
no equal as a woman's medicine.—Mrs.
E. C. Wilson, 600 N. 6th Street.

You Do More Work,
You are more ambitious and you get more
enjoyment out of everything when your
blood is in good condition. Impurities in
the blood have a very depressing effect on
the system, causing weakness, laziness,
nervousness and sickness.
GROVE'S TASTELESS CHILL TONIC
restores Energy and Vitality by Purifying
and Enriching the Blood. When you feel
its strengthening, invigorating effect, see
how it brings color to the cheeks and how
it improves the appetite, you will then
appreciate its true tonic value.
GROVE'S TASTELESS CHILL TONIC
is not a patent medicine, it is simply
IRON and QUININE suspended in Syrup.
So pleasant even children like it. The
blood needs Quinine to Purify it and IRON
to Enrich it. These reliable tonic prop-
erties never fail to drive out impurities in
the blood.
The Strength-Creating Power of GROVE'S
TASTELESS CHILL TONIC has made it
the favorite tonic in thousands of homes.
More than thirty-five years ago, folks
would ride a long distance to get GROVE'S
TASTELESS CHILL TONIC when a
member of their family had Malaria or
needed a body-building, strength-giving
tonic. The formula is just the same to-
day, and you can get it from any drug
store. 60c per bottle.

Kanred Wheat Proves Good.

A number of farmers are interested in Kanred wheat which is being raised so successfully in Kansas. According to reports it will not winter kill, is free from diseases, such as rust and all tests made show it is making a better yield than the ordinary wheat. A number of farmers are trying to get some to sow this fall.

Hogan-Mahan Wedding.

Miss Waldeen Hogan of Tulsa and W. B. Mahan of this city were married Tuesday in Plainview. Both of the parties are well known in Canyon. Miss Hogan was a student in the Normal last year, while Mr. Mahan has been an instructor in the English department for the past three years. They arrived in the city yesterday and are receiving the hearty congratulations of their many friends.

Burns-Pope Wedding.

J. S. Pope and Miss Mollie Burns were married Tuesday at the home of Rev. B. F. Fronabarger. Both of the contracting parties are from the Wildorado section of Randall county. Mr. Pope is a prosperous young farmer. Miss Burns is the daughter of D. R. Burns, one of the prominent farmers of that section of the county. Their friends are extending congratulations.

Can't Puncture Nor Blow Out

DAYTON AIRLESS TIRES in the past 7 years have been used by thousands of owners of high passenger and delivery cars in all parts of the civilized world, and have conclusively demonstrated:

1st—They can't puncture nor blow out.

2nd—They ride as smoothly as pneumatics.

3rd—They give much longer wear than the average pneumatic.

4th—They absolutely will not injure the car.

They have been endorsed by 100,000 or more satisfied users, including the late George Westinghouse and Edward Grey, formerly Chief Engineer of the Ford Motor Company.

Pieces of live, elastic rubber built about one inch apart inside the casing and vulcanized or welded to it take the place of an inner tube.

Nothing can happen but wear.

They are made only in 30 x 3 and 30 x 3 1/2 sizes but can be used on cars using 31 x 4.

A LITTLE TALK TO MEN

But The Women May Read It.

You men are so absorbed in your daily business affairs that sometimes the home affairs become of secondary interest.

You know the cost of living is high. You wonder at the end of the month where all the money has gone for home expenses.

If friend wife doesn't make an itemized report—don't blame her. Perhaps the fault is your own. Do you give her an allowance—deposited in this bank—upon which she can check for all the household expense?

It's the ideal way to keep a record of home buying. It helps keep down expenses. Isn't it worth trying, men?

WOULD PUT DOWN ANOTHER TEST WELL SOUTH OF CITY

Local parties are proposing to put down another test well for oil south of the city if they can get the proper amount of leases. It was stated this week that a few men were hold up the actual drilling on account of being unwilling to put their leases in for the project.

It was pointed out by those interested that there is a fine chance for more local development if every one will do his part.
