

CANYON BUSINESS MEN ENJOY DINNER TUESDAY

Nearly Seventy Men Gather at Palace Hotel to Discuss the Needs of City and Its Future.

One of the most profitable dinners ever held by the Canyon Business Men's Ass'n, and all together one of the most pleasant, was held Tuesday night at the Palace Hotel. From the time the men began to gather at eight o'clock until the last one had gone, a little after midnight, the question of utmost importance in the minds of all was what could be done to make Canyon a more desirable city in which to live, and what could be done by the business interests to draw more people and more business to this city.

Mgr. Henson, of the Palace Cafe had set up a fine dinner, which was greatly enjoyed by all the men.

Toastmaster J. W. Reid introduced the first speakers between the courses, and after the dinner was finished and the regular toast program completed, Mr. Reid called upon a number of the citizens present and a few visitors who responded in terms fitting the occasion.

The theme of the occasion was improvement and progress in, not only the city, but also the county at large. Paving, sidewalks, better and more roads, more residences, a more beautiful town, better business conditions, a closer cooperation between the farmer and the business interests and a closer relation between the business interests of Canyon was discussed with frankness and understanding, until each man present was thoroughly convinced it was strictly up to him to do his best that Canyon should not be retarded in her growth.

Mayor J. D. Gamble told the business men that the city's equalization board for next year had already been chosen for next year and men refusing to sell city lots to people who wanted to come here and build new homes and make good citizens of Canyon were going to pay city taxes next year upon these lots at the rates they were holding the lots. He stated that Canyon could do a lot of paving with the money that would be collected from these men who were retarding Canyon's growth by holding vacant lots at such high prices. His statements were applauded by every business man present.

President J. A. Hill pointed out the ways through which better lines of cooperation could be established in Canyon between the Normal interests and the city interests. He pointed out that the two interests were one and inseparable. The one could not get away from the other and what benefitted one benefitted the other. He told the plans that he was making for the school in the future. Every dollar that was spent by the city of Canyon to make this a better town, make it just that much easier for him to go to the legislature and get more money to improve the Normal. He stated that when he was before the legislature this year he was confronted by the statements that Canyon was not doing her part toward the Normal. This, he showed, was untrue, but during the coming year he wished such progress to be made in Canyon that no one in the legislature would have the least grounds for making such a suggestion. He is confident that when Canyon paves the square and Houston street from the depot to the Normal, he can go to the legislature and get an appropriation for paving the state's part of the street all around the campus. Such an appropriation was given to the Denton normal by the last legislature. After the main street is paved, Mr. Hill urges that all side streets be graded up properly and that sidewalks be put in so the people can get around the town more easily during the bad weather. He spoke very enthusiastically as to the future of the Normal. He is confident that the coming year will see the largest attendance the school has ever had. He told of his plans for more buildings which will be added year to year. When the legislature meets again, Mr. Hill expects to ask for an appropriation for a stock farm which will be used to train the teachers along agricultural lines. Mr. Hill praised the public school system of Canyon and stated that he wanted to see the public schools made the very best possible and offered every possible resource at his command to as-

ist in the betterment of the schools. He praised the cooperation that has been shown in the past and pledged himself for a closed cooperation in the future.

Frank R. Jameson, secretary-manager of the Panhandle Chamber of Commerce spoke very enthusiastically of the work that was being done by Canyon and the Normal and outlined what his organization stood for, which was exactly what the people were trying to do in this community.

In addition to those on the program, Mr. Reid called upon County Judge C. R. Flesher, Frank R. Jameson, Rev. B. F. Fronabarger and Rev. W. M. Garner.

The following was the program:
J. W. Reid, toastmaster.
T. C. Thompson—"Looking to the Future."
J. W. McCrerey—"Adding Wayside to Randall County."
Fred H. Ives—"The Farmer and the Business Man."
C. W. Warwick—"Making a Small Town Big."
E. E. Adams—"More Good Roads."
J. D. Gamble—"Paving the Streets."
E. H. Powell—"Financing the Association for Future Work."
President J. A. Hill—"Cooperation"

Big Mortgage Filed.
The longest mortgage and the one involving the most money was filed with County Clerk Gano Saturday by the Empire Gas and Fuel Company. There are approximately 53,500 words in the mortgage. The mortgage is in favor of the Guaranty Trust Company of New York for \$150,000,000. The paper covers the leases of the Empire Gas and Fuel Company in one hundred and ten counties in Texas. The mortgage must be recorded in each of these counties.

To file such a mortgage as this involves a great deal of expense. The cost for filing will be approximately \$100 in each of the 110 counties. The making up of the papers, which covers 75 printed pages, and has a dozen affidavits is a big job and very expensive.

It will be remembered that the Empire Gas and Fuel Company came in to northwest Texas more than a year ago and bought mineral leases upon a large amount of land. It was their purpose to get a lease upon every fourth quarter in the county. It is generally believed that this company is none other than the Standard Oil, but if it is no one will ever find it out.

EPISCOPAL CHURCH TO BUILD GIRLS' DORMITORY

\$15,000 Appropriated to Build Home Here for Girls of That Church Who Attend the Normal.

Rev. Wm Garner, has announced that the Episcopal Church has appropriated \$15,000 from its general fund for the construction of a dormitory for girls of that denomination who wish to attend the West Texas State Normal College. The dormitory will be erected between the church and the Normal building.

The plans are not yet adopted, but it will be the purpose to make the dormitory the social center for the young women. The money appropriated will construct a building that will house from twenty to thirty girls, young women.

The Episcopal church erected the first brick church in Canyon last year and now by the appropriation for this dormitory, it shows itself to be a leader in this territory in caring for the young women of the denomination who wish to attend the Normal.

ARCHITECT EMPLOYED FOR TWO BUILDINGS

Plans Will be Drawn Within Short Time for Boiler House and the New Dormitory for Girls

President J. A. Hill of the West Texas State Normal College returned Friday from Austin where he had been attending the annual meeting of the Board of Regents for Normal Schools of Texas.

The Board employed Architect Endress to draw the plans for both the new boiler house and the new dormitory for girls which will be constructed on the Normal campus under provisions made by the appropriation of the special session of the legislature. Mr. Endress was the architect for the main building which was constructed after a fire of 1914. His plans were so successful that the Board honored him by employing him to draw the plans for the two new buildings which are to go on the campus. The two new buildings will be so constructed as to harmonize with the main building, which is the finest school building in the state of Texas.

As soon as the plans are completed and approved by the Board, bids will be let for the buildings. Both buildings will go to the same contractor as a means of economy. Work will be started first upon the boiler house as President Hill wishes to have that building completed before the time for cold weather to begin.

The following new teachers were elected to the Normal faculty:
Miss May Cowling will teach in the Training School. She is a former resident of Canyon, being the daughter of Mr. and Mrs. L. E. Cowling, now residents of Wichita Falls. Miss Cowling graduated from the Normal in 1911. She has been a successful teacher in Sweetwater, and this summer receives her Masters degree from Peabody.

Moody C. Bontricht was elected a teacher in the Training School. He has been a successful teacher, and was a member of the graduating class from the Normal in 1918. During the past year he has been overseas.

Lloyd Ackerman was elected Associate Professor of Biology, taking the position on the faculty from which Dr. Buehholz resigned. Mr. Ackerman is a graduate from the Colorado Teachers College and during the past year has been a teacher in Colorado. He will arrive in Canyon this week to get ready for his work.

Other teachers are to be added to the faculty, the selection of whom is left to President Hill and Mr. Goethe, chairman of the Board of Regents.

The Board authorized offering an annual scholarship of \$100 to the most deserving students in the College Sophomore and Junior classes. A free entrance scholarship will be given in the future to the boy and the girl from all affiliated high schools of the state.

President Hill stated yesterday that indications were fine for a big attendance when the school opened the tenth yearly session on September 26.

\$60,000 LAND AND CATTLE DEAL CLOSED SATURDAY
J. A. Price has sold his 2500 acre ranch southwest of the city to W. K. Piper of Lenton, and one hundred head of cattle, the deal involving \$60,000. Mr. Piper will move to Randall county within a short while. Mr. Price will probably not leave the county.

Spork Special.
A son was born to Mr. and Mrs. T. D. Ricks on the 24th.

RAILROAD HOLDS UP SHIPMENTS OF COWS TO MARKET

C. O. Keiser shipped a choice bunch of cows last Friday to the Kansas City market intending that they be sold on the Monday's market. No word was received from the shipment Monday, and he was unable to find out from the railroad what they had done with the cattle. Tuesday night the commission company to whom they were consigned succeeded in getting some action and located the cattle at Emporia, Kansas. Since then no further word has been received.

The shippers of live stock in the Panhandle have been subjected to such treatment by the railroads ever since the government took over the roads. No one will be more pleased at the return of the roads to private ownership than the stockmen of the southwest.

MEETING BEGINS SUNDAY AT METHODIST CHURCH

According to previous announcements a revival effort under joint leadership of the Presbyterian and Methodist congregations will begin on next Sunday at the Methodist church. The whole community is cordially invited to attend and help in this meeting.

Rev. M. M. Beavers of Canadian, Texas will come to do the preaching and help lead the forces. He is a man whom God has generously blessed in soul-winning and is every way worthy of the best support the good people of the community can give. We earnestly request all who want a revival in our town and community to give the meeting their progress and sympathy and action support "When Zion travaileth Souls are born unto God". This is the promise of His word.

A. B. HAYNES,
Pastor of Presbyterian Church.
R. A. STEWART,
Pastor of Methodist Church.

Shower for Miss Stafford.
Miss Jessie DeGraffenreid gave a miscellaneous shower Saturday afternoon from four to six o'clock for Miss Ruth Stafford. A number of present for the bride was brought by the guests. Each guest was required to write her best wishes for the bride on Bluebird Cards. Toasts were given to the Bride, to the Groom and to the Girls-Left Behind. Refreshments of peaches, ice cream and cake were served.

The following guests were present: Mesdames Hill, Allen, Ives, Wilson, Clark, Ingham, Stafford, Keiser, J. B. Gamble, Misses Stafford, Winkelman, Rogers, Terrill.

DEMONSTRATION RECORDS ARE RE-PUBLISHED TODAY

Owing to a few errors in last week's edition, the results of the Normal Tractor Demonstration are re-printed in this edition of the News.

Baptist Services.
10 a. m. Sunday School.
11 a. m. Preaching.
No other services during the week because of the revival services at the Methodist church.

Sells Battery Business.
A. J. Arnold, owner of the Canyon Light and Power Co., has sold his battery charging business to M. S. Bishir.

Revival at Ralph.
Revival services will begin at Ralph Sunday afternoon at 3:30 and will continue during the week. Rev. B. F. Fronabarger will do the preaching.

Returned from France.
Zane Thomas has returned from France where he has been for more than a year.

Methodist Church.
Sunday School, 9:45.
Preaching, 11 o'clock.
Evening Service, 8 o'clock.

Rev. B. F. Fronabarger returned Monday from a business trip to Dallas and Ranger in the interest of the new church building plan of the Baptist church. He reports a very successful trip.

The Pipkin building is being remodeled and will be used by the Palace Cafe where a first class merchants' lunch room will be maintained.

Coming—"WHITE HEATER" at OLYMPIC. Admission 30c.

ENGINEER AT WORK ON CITY STREETS

Paving Will be Started Around the Square as Soon as Survey is Completed.

Mayor J. D. Gamble has closed a contract with Hess & Skinner of Amarillo to do the engineering work for paving around the square and to make plats of other parts of the city streets.

Yesterday morning one of the engineers came to the city and began the actual work of making a survey of the square.

Mayor Gamble states as soon as the engineer completes his estimates for the work, bids will be asked for the paving, levies made upon the property and the work of paving started.

At present the city council is considering the following plan of procedure for the square: The property holders around the square will be asked to widen the sidewalk five feet. The county commissioners will either extend the lawn curb, or put a walk around the lawn. A parking will be established down the center of the streets in which will be planted shrubbery or grass, making a very beautiful spot on all sides of the square to correspond with the excellence which is maintained by the court house lawn.

It will be only a question of a few years until wider sidewalks will be a necessity for the public square, and by making this improvement now, a great deal of money will be saved in the paving.

When work is attempted on Houston or any of the other streets, the curb line of the property owners will be extended until there remains but thirty feet for the city to pave, which is of sufficient width.

Canyon is going to pave and just as soon as plans can be perfected!

That is the best news that has issued from our city officials for a long while.

CANYON SCHOOLS WILL OPEN ON MONDAY, SEPTEMBER 8th

Pupils are asked to meet at the public school building Monday morning, September 8th, at 10 o'clock for classification and distribution of free text books.

Let all pupils bring promotion cards or certificates of completed work.

School will be held as in other years on Saturdays instead of Mondays.

The teachers of the public school will meet with the county institute during the week beginning September 1st.

The school board is having the school property looked over preparatory to the opening of the school.

C. L. SONE, Supt.
City Property Sold.

S. B. Lofton has sold his house on West Houston street to J. M. Vetsak, possession to be given the first of next week. Mr. and Mrs. Lofton will leave as soon as possible for a trip through Colorado and will then probably go on to California where they will make their future home. They have lived in this city for a number of years and their many friends are very sorry to see them leave, but the best wishes of all go with them.

Dave Thomas has a house to J. B. Younger.

Mrs. Bentley sold her residence in the east part of town to G. L. Simms of Panhandle.

G. S. Ballard has sold his residence to C. S. Terry of White Deere.

The Heb Smith residence on West Houston street was sold yesterday by S. B. McClure to Rev. B. F. Fronabarger. Mr. Fronabarger later sold the place to G. S. Ballard.

The Nix place on West Houston street was sold yesterday to Mrs. John Allison of Vernon.

TEACHERS INSTITUTE WILL BE HELD HERE NEXT WEEK
All is in readiness for the Teachers' Institute which will be held in Canyon next week, opening Monday and closing on Friday.

Nearly three hundred teachers will be in Canyon from fourteen Panhandle counties.

Coming—"WHITE HEATER" at OLYMPIC. Admission 30c.

DISTRICT COURT WILL CONVENE ON MONDAY

Light Docket for the Term and Little Business is Promised for the Fall Term

The fall term of the District Court convenes next Monday morning at ten o'clock at the court house. Judge Henry Bishop and District Attorney E. T. Miller will be here to start the proceedings of the term.

There are few cases on the docket for this term, and there probably, be but very little business of importance.

The grand jury convenes Monday and will start deliberations upon the infringements upon the law as may be reported to the body.

ROBESON BRINGS SOME MELON TO NEWS OFFICE

R. L. Robeson brought a msk melon to the News office yesterday that was a whale. It measured 35 inches in circumference and weighed sixteen pounds. For want of its correct name, Mr. Robeson has called it the Giant variety. He has a large number which he raised from seed he bought a year or so ago. He states that he has some larger than this one. The melons have not been watered any during the year and have made this magnificent growth by the rainfall.

A few patches of Giants would help solve the high cost of living very materially.

Stafford-Coleman Wedding.
Yesterday morning at six o'clock Miss Ruth Stafford and Charlie D. Coleman were married at the home of the bride's parents, Prof. and Mrs. B. A. Stafford, Rev. R. A. Stewart officiating. Only the members of the family were present. The bride and groom left on the 6:45 train for their new home at Mineola.

The bride is well known to the people of this community. She came here in 1910 with her parents. She is a high accomplished young woman and has a large circle of friends who extend to her most hearty congratulations.

Mr. Coleman is a prominent young business man of Mineola, being in the drug business. The young people attended school together in Mineola.

The many friends of the young couple wish for them all of the joys of a happy wedded life.

Blake Sells Farm.
J. N. Blake has sold his farm east of the city to Emmett Prichard at \$37.50 per acre. There are 160 acres with good improvements. Mr. and Mrs. Blake will move to Amarillo sometime this fall.

Entertained Boys Scouts.
As a mark of appreciation for the work the Boys Scouts did during the Chautauqua, the boys were given an ice cream treat last Thursday night. C. R. Burrow told the Scouts how much their work was appreciated by the Chautauqua management.

BUSINESS MEN'S MEETING TO BE HELD FRIDAY NIGHT
The regular monthly meeting of the Canyon Business Men's Association will be held Friday night at the News office.

Every business man is expected to be present to plan for the monthly Trades Day on September 8th.

Can't Puncture Nor Blow Out

DAYTON AIRLESS TIRES in the past 7 years have been used by thousands of owners of light passenger and delivery cars in all parts of the civilized world, and have conclusively demonstrated:

- 1st—They can't puncture nor blow out.
- 2nd—They ride as smoothly as pneumatics.
- 3rd—They give much longer wear than the average pneumatic.
- 4th—They absolutely will not injure the car.

They have been endorsed by 100,000 or more satisfied users, including the late George Westinghouse and Edward Grey, formerly Chief Engineer of the Ford Motor Company.

Piers of live, elastic rubber built about one inch apart inside the casing and vulcanized or welded to it take the place of an inner tube.

Nothing can happen but wear. They are made only in 30 x 3 and 30 x 3 1/2 sizes but can be used on cars using 31 x 4.

For Agency—

Claude, Texas

Bobs Up Again.

Northwest Texas and the Panhandle have a population of more than a million people and a wealth of a billion dollars so there is no reason why we should be the also ran part of any state. We're grown up and fully capable of governing ourselves so let's have a state of our own.—Canadian Record.

Bro. Loomis evidently does not care much for figures. It is exceedingly doubtful whether Northwest Texas, that is the country north of the T. & P. and west of Fort Worth, contains even half a million people, let that and their two thousand dollars per capita go, there is too much sentiment connected with the name of Texas to make a division of the state ever acceptable to the majority of Texans. True, West Texas has been dealt with in a stepmotherly fashion in the past by the more populous part of the state, but as this disadvantage

is rapidly being overcome, and the bulk of population will be in the Northwest portion, before many years why not let well enough alone, and stop advocating the building of more state capitols and the creation of more rings of politicians? Aren't we afflicted enough?—Quannah Tribune-Chief.

Will Mark Highway With Trees

At the meeting of the Scenic Bankhead Highway held Tuesday at Medicine Park, Okla., Mayor James W. Mitchell of Childress was honored by being elected vice president for Texas.

Four states comprise the territory to be traversed by the scenic route, these being Arkansas, Oklahoma, Texas and New Mexico. The branch will begin at Little Rock, Ark., and connect with the Bankhead Highway again at El Paso. The scenic route will take the motorist through the mountains of Arkansas, Oklahoma and New Mexico, and the beautiful plains of Western Oklahoma and the Panhandle.

It is said this route is much better than the southern route, which is almost impassable during the hot summer months and the lack of mountains. The northern branch gives the Eastern tourist a chance to see large ranches and Indian life. The mountains in New Mexico are snowclad and there are hundreds of streams of water that furnish ideal camping places. On the southern route only cactus and sand hills are to be seen from Big Springs to Abilene.

The convention voted to mark the road by planting trees. An effort will be made this winter to plant trees along both sides of the highway through its entire distance. If this is done a wonderful work has been accomplished.—Childress Index.

Farmer Building Big Barn

C. Schoppa is hauling lumber out to his place several miles southwest of Vernon in preparation for the construction of a large barn. Mr. Schoppa finds his present facilities inadequate to store the bumper crops this year.—Vernon Record.

The Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, 30c.

Lloyd George's enemies should be careful not to win too many by-elections. They may provoke him into calling another general election.—N. Y. Evening Post.

Southern Baptist Campaign.

In the Baptist \$16,000,000 campaign in Texas, the county quota of Bailey, Farmer, Castro, Swisher, Randall, Deaf Smith and Armstrong has been announced as \$94,150.

The \$16,000,000 to be raised by the Baptists of Texas for the five year program of the Southern Baptists \$75,000,000 drive has been apportioned by the campaign directors through the 18 State districts, 120 Texas Baptist associations and counties. Individual church apportionments will be made from the county quotas.

August is being devoted to Information, September to Intercession, October to Enlistment, November to Stewardship and actual campaigning "Victory Week" November 30th to December 8th.

According to Dr. F. S. Groner, State Campaign Director, the organization is rapidly being completed, and it is thought the full organization will be perfected within the next few weeks. The major portion of the campaign will be conducted through the Baptist Standard, the churches' official organ, and much stress is being placed on greatly enlarging the circulation of this paper. Efforts are being made to place the Baptist Standard in every Baptist home in the State.

The county quota above announced cover amount to be raised in pledges and subscriptions for the next five years.

Barley Chops Liked in Texas

Texas has a newcomer in the field of cattle feed. Only a few thus far have been introduced to the stranger but it seems not improbable that a good many will make its acquaintance before this time next year, that is, provided it does not get up-pish in the market and hold its head high. The stranger is barley chops, and it threatens to make corn chops hard to catch, because it sells for less and is giving some good results. Of course, cattlemen took particular notice of an item in the sales at Ft. Worth reporting a sale of a carload of cattle selling at \$14.75. As cattle are now selling, that sort of an item is calculated to attract attention, so "Clatterer"—says in the San Antonio Express—began an investigation and found that the steers had been finished on barley chops after being wintered on cake and pear. Not a single steer on the Ft. Worth market that day brought more than \$10, except this bunch at \$14.

75—some difference. About the same time another bunch of 41 steers and three heifers sold in Ft. Worth at \$13. They had been fed barley chops, also.

This is a new feed, so far as Texas is concerned—at least it has been used by but comparatively few. When it first came to Texas it sold away below corn chops, but now it has risen to within about 60 cents on the hundred pounds of the corn feed. And it threatens to become popular. There is no doubt that it would be popular if a price of \$14.75 could be guaranteed every cowman who would feed it. Barley used to be a somewhat popular feed for men, but it was in a liquid form and was fed either from a bottle or a keg. But its relationship to John Barley-corn was against it, so it shared the fate of Old Dog Tray and was put out of business as an article for men. Maybe that is why it is coming into

use among cattle. Anyhow, cattle like it so well that they literally "lick their chops" when they eat it. And the packers seem to like the cattle fed on it as well as the cattle like the new-fangled feed.—American Hereford Journal.

With the purchasing power of the dollar lower than it has ever been,

it is the part of wisdom to put some of them to work, earning interest, until the time that money is worth more. War Savings Stamps enable the wage earner to do this. Save what you can and invest it in W. S. S.

The Water Cure For Speeditis

The city marshal at Higgins stopped a speedster who was in the habit of making a raceway of the streets, and he stopped him in a way that is calculated to make a lasting impression of the speed fiend's habits. The marshal stationed himself at a water hydrant where he knew the speed fiend would pass and when that fellow came down the pike so fast he couldn't count the telephone poles the marshal turned the hose in his direction and played a stream of water on him with a pressure of seventy

pounds to the square inch. It stopped him and sobered and cooled down his galloping and heated blood and effected a cure for his malignant attack of speeditis.—Canadian Record.

THE NEW HUNTING LAWS OUTLINED FOR STATE OF TEX.

Austin, Texas, Aug. 26.—The Game, Fish and Oyster Department is mailing out the new hunting licenses to the various Deputy Game Wardens and County Clerks over the State. Under the old law the price of a hunting license was \$1.75 and anyone could hunt in the county of his residence or in any county adjoining the same or on land owned and controlled by him, but under the present law any one hunting beyond the boundaries of the county of his residence must procure a license no matter whether he hunts on his own land or that of another. Fee for the new license is \$2.

The following bag limit is printed on the back of the new license: "Three buck deer during the season from Nov. 1 to Dec. 21, inclusive each year. Three wild turkey gobblers during season from March 1 to April 30, inclusive, each year. Fifteen doves in one day, from Sept. 1 to Dec. 1, inclusive. Fifteen quail and Mexican pheasants (known as chacalaca) in one day, Dec. 1 to Jan. 31. Twenty-five ducks, in one day, from Oct. 16 to Jan. 31. Eight sand-hill cranes per day, from Oct. 16 to Jan. 31.

"You are not allowed to kill more than aggregate of twenty-five in any one day of ducks, geese, brant, plovers, curlew, snip, or shore birds.

You are not allowed to kill at any time of the year antelope, mountain sheep, prairie chickens, pheasants (except chacalaca) wood cock or wood chuck.

"You may kill rabbits, hawks, crows, buzzards, wolfs, English sparrows, rice birds, and black birds in any number and all seasons.

"You may not buy, sell, or barter any wild game or game birds.

"You must not catch, kill or have in your possession nor ship at any one time more than the aggregate of seventy-five ducks, geese, brant and shore birds.

"You must not kill any doe or spotted fawn at any time.

"You must not catch, kill or have in your possession any wild song birds.

You must not hunt any wild game at night with any kind of a light or lantern.

U. S. WILL SPEND \$375,000,000 THIS YEAR ON HIGHWAYS.

The United States is in the midst of the greatest highway building campaign in the history of the world. The aggregate amount to be expended this year on the roads and lanes of the country would build and duplicate another Panama Canal. According to figures collected by the B. F. Goodrich Rubber Company, combined forces of the Federal Government, States and counties will spend \$375,000,000 in new construction and maintenance of the nation's network of highways. This is the first complete survey of 1919 good roads expenditures.

The amount to be spent in each state in the Union follow:

Alabama	1,000,000
Arizona	6,250,000
Arkansas	4,297,398
California	20,000,000
Colorado	4,742,000
Connecticut	8,000,000
Delaware	8,528,000
Florida	8,000,000
Georgia	7,911,000
Idaho	2,100,000
Illinois	6,013,304
Indiana	12,000,000
Iowa	20,498,534
Kansas	8,000,000
Kentucky	3,500,000
Louisiana	2,000,000
Maine	1,650,000
Maryland	6,750,000
Massachusetts	6,000,000
Michigan	15,000,000
Minnesota	11,127,936
Mississippi	7,000,000
Missouri	5,415,079
Montana	6,300,000
Nebraska	2,005,000
Nevada	1,377,490
New Hampshire	1,630,000
New Jersey	6,500,000
New Mexico	4,000,000
New York	2,000,000
North Carolina	5,000,000
North Dakota	1,082,000
Ohio	13,321,500
Oklahoma	3,600,000
Oregon	8,000,000
Pennsylvania	8,780,000
Rhode Island	1,470,000
South Carolina	7,000,000
South Dakota	6,767,276
Tennessee	3,650,996
Texas	60,430,000
Utah	10,092,792
Vermont	1,797,650
Virginia	3,400,000
West Virginia	200,000
Wisconsin	3,200,000
Wyoming	6,500,000

Our guess is that Europe would like to appoint a mandatory for the Senate.—Greenville (S. C.) Piedmont.

Many Like This in Canyon

Similar Cases Being Published in Each Issue

The following case is but one of many occurring daily in Canyon. It is an easy matter to verify it. You cannot ask for better proof.

Geo. W. Leverton, retired farmer, Canyon, says: "My kidneys had been out of order for a good while and caused my back to become sore and lame. Most of the time there was a dull pain through the small of my back and in my shoulders. Often I could hardly bend over. I also had headaches a good bit and my kidneys were irregular in action, causing me to get up often at night. I saw Doan's Kidney Pills advertised and began using them. Three boxes fixed me up in good shape."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Leverton had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Facts About the Bureau of War Risk Insurance.

Wounded Men in University

Lieutenant Robert Fletcher of Plainview, who is now in a hospital in Washington being equipped with two artificial legs and being taught their use, will enter the Law Department of the University of Texas in September. He will receive his full pay as officer his insurance and his tuition in the school. Lieutenant Fletcher was not expected to recover by any of the army physicians, and it is said that he survived the loss of both his legs and other wounds only thru force of will. Several men wounded in France are now studying in the University of Texas, among them Benton Morgan of Greenville, who was operated on with little hope six times in American, French and German hospitals, and Hubert Jones of Austin, former yell leader of the university. Many others will enter the university in the fall. To supplement the government's education of the wounded, the Ex-students' Association of the University of Texas plans to lend to every discharged soldier from Texas the necessary money to educate himself in the university, where the assistance is needed, at a low rate of interest on long time loans. John A. Lomax of Austin has this work in charge.

If the trouble continues, it will be necessary for some one to march boldly into Mexico and read the League of Nations Covenant to the Mexicans.—Boston Shoe and Leather Reporter.

The German mark which usually passed for twenty-five cents American money, was quoted this morning six and one-quarter cents. This is obviously a great mark-down.—Boston Transcript.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is quicksilver and acts like dynamite on your liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

Camel CIGARETTES

Cigarettes made to meet your taste!

Camels are offered you as a cigarette entirely out of the ordinary—a flavor and smoothness never before attained. To best realize their quality compare Camels with any cigarette in the world at any price!

Camels flavor is so refreshing, so enticing, it will win you at once—it is so new and unusual. That's what Camels expert blend of choice Turkish and choice Domestic tobacco gives you! You'll prefer this blend to either kind of tobacco smoked straight!

As you smoke Camels, you'll note absence of any unpleasant cigarette aftertaste or any unpleasant cigarette odor. And, you'll be delighted to discover that you can smoke Camels liberally without tiring your taste!

Take Camels at any angle—they surely supply cigarette contentment beyond anything you ever experienced. They're a cigarette revelation! You do not miss coupons, premiums or gifts. You'll prefer Camels quality!

18 cents a package

Camels are sold everywhere in scientifically sound packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supplier when you travel.

The Randall County News

Incorporated under the laws of Texas

C. W. WARWICK, Managing Editor

Entered at postoffice at Canyon, Texas, as second class matter. Office of publication, West Houston St.

SUBSCRIPTION, \$1.50 PER YEAR

A man who has resided in Canyon for a number of years, pointed out a dangerous condition that is arising in Canyon. He went back twelve or fifteen years ago when the big ranches of the Panhandle were being broken up and when the wealthy ranchers and their families were seeking a home in a town which afforded the best educational advantages. It was before the railroad was built to Plainview, but Canyon had the main line. Canyon had as good schools as could be found on the Plains. The ranchers came with the intention of buying lots, building a good home and living in Canyon. But the owners of town property, especially vacant lots become overzealous on account of the boom and prices of lots went sky high. As a consequence Canyon turned away scores of substantial families who would have been added to our number. This citizen pointed out the fact that Canyon is again facing a like crisis. Scores of people are coming to Canyon every day looking for homes. For the most part they are looking for houses, and these prices have generally been raised to meet somewhat the increased cost of construction, which is a legitimate profit. But the owners of vacant lots in some sections of town are taking undue advantage of the boom and are driving people from Canyon as did the owners of vacant lots a few years ago. Some owners of lots which they would gladly have sold six months ago at \$100 to \$200 have raised prices to \$500 and \$600. This is the surest method of defeating Canyon's growth. The officials of Canyon, the county and the schools district should take note of every case they hear of a man refusing a big price for his lot, and demand that he pay taxes on the property at the rate he refused to turn it to a new citizen who would come here, build a home and educate his children. This method is the surest possible of getting in

after the fellows who are holding desirable property and will not sell at a reasonable price. A property profiteer in a town that wants to grow is in the same class with the food profiteer, and should receive the same treatment.

Randall County has now outstanding bonds to the amount of \$116,000. To meet the interest and keep up the sinking fund a tax of 17 cents on the \$100 valuation is levied. The county is building some roads and has a contract for a main road leading through the county. Many Texas counties have issued bonds for hard surface roads so that their tax levy for the sinking fund is \$1.75 per \$100 valuation. They see the necessity of making perfect highways while they are building. Randall county has a very small tax rate. And we have need of better roads. Why not let the Commissioners hard surface the roads leading to Amarillo and Happy after the work is completed under the present contract? It can be done by only a very little more tax. The county has perhaps one of the smallest bonded indebtedness of any county in the state. A road surface road leading through the heart of Randall county would be of immense value to the people of the county. Boost for a hard surface road now. No use to wait. Do this work while the new road bed is good after the present contract is completed.

Paving in Canyon is assured. For the present the city council is looking only to work around the public square, but the councilmen have in mind paving on other streets. By all means Houston street should be paved to the depot and to the Normal. Paving should extend several blocks on Evelyn Street. Other streets leading onto the square would be much better if paved for a block or more. While we are at the job, let's do proper paving in Canyon. The public square is in the most deplorable condition and of course should have first consideration, but it would be a sad mistake to quit with this. The city council will go as far as possible. Every loyal citizen of Canyon should get behind the paving proposition and boost it.

Now that paving is assured, let's look at the sidewalk situation in Canyon. We need more walks. We need better walks. We need a lot of patching up of walks which are defective. Wider walks will have to be put around the square within a few years, and they should be put in now before any work is done on the paving. There are very few walks in Canyon except on Houston and Evelyn streets, and the walks on these streets are not sufficient. Get ready to build sidewalks now.

Randall county cannot afford to longer neglect her roads. A hard surface road through the heart of the county is needed right now.

"FAKE" ASPIRIN WAS TALCUM

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

Millions of fraudulent Aspirin Tablets were sold by a Brooklyn manufacturer which later proved to be composed mainly of Talcum Powder. "Bayer Tablets of Aspirin" the true, genuine, American made and American owned Tablets are marked with the safety "Bayer Cross."

Ask for and then insist upon "Bayer Tablets of Aspirin" and always buy them in the original Bayer package which contains proper directions and dosage.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

A great difficulty to obtain teachers for all kinds and grades of school is being met on every hand. Salaries are not sufficient in the teaching profession to meet the present demands in living. A noted university president this month in a leading magazine stated that the average salaries of even big universities was \$800. The educational institutions are losing some of the best teachers on account of the insufficient pay. The school trustees are not to blame for this condition. They are paying all they can. The people must provide more money through taxation to meet this increased expenditures if our public schools are to be properly maintained.

Engineers and conductors of railroads are said to receive more money than the Governor of Texas, and yet they cannot live upon it, so they say, and are going to strike unless the government buys the railroads and lets them run things, taxing the people if the profits will not pay the bill. It seems incredible that sane men would stand for such things as the leaders of the brotherhoods are trying to put over.

A big percent of the threshing in Randall county is yet to be done. A monster row crop will call the attention of the farmer by the time the threshing is done. Prospects for getting in a wheat crop this fall in proper time are not very promising under the conditions. The farmer with the tractor which he keeps running day and night as soon as the wheat is off the field will stand a better show than the man without the tractor.

The daylight saving has been repealed, congress having passed the bill over the President's veto. The repeal of the bill has twice been vetoed by the President. This is one of the very few instances in history where a bill has finally passed over two vetoes. Texas' congressmen voted for the repeal of the bill.

Canyon will entertain three hundred teachers from fourteen counties of the Panhandle September 1-5. They will tell their impression of the town to scores of young people who are planning to go to school this coming year, or next year. The town should be cleaned up before they come.

Canyon is looking pretty dirty with all of the weeds that have grown on the vacant lots, and some that are not vacant. Rubbish has accumulated in various parts of town. Cleaning up would do world's of good. Do it now.

Are you a member of the Canyon Business Men's Association? If not, you ought to leave town. Come to the business meeting at the News office Friday night.

A sidewalk on both sides of Houston street from the depot to the Normal is greatly needed in Canyon. Build it now.

God pity the man who is holding his vacant lots at exorbitant prices—the board of equalization will have no pity.

Plant some trees this fall. But keep the ones trimmed up that are along the sidewalks.

Canyon is now a fine place to live, but it can be made a whole lot better.

We have our weeds cut, so advice is in order. Cut your weeds.

Come to Canyon to live.

AMERICAN TROOPS KILL FOUR BANDITS

COLONEL LANGHORN SUGGESTS THAT THE CARRANZA FORCES CO-OPERATE.

Marfa, Texas.—Four Mexican bandits have been killed by American troops in Mexico. Captain Leonard Matlack, who arrived here by airplane reported. They were surrounded in an adobe block house that the Mexicans had constructed in a mountain pass.

The bandits fought desperately and two escaped. When the American troops approached the block house with the intention of searching it for hidden bandits the Mexicans opened fire from portholes.

The fire was returned and the blockhouse charged by the American cavalry troops.

Colonel Lanhorne, American army commander in the Big Bend district, has suggested to Cosme Benegoecha, Mexican consul at Presidio, Texas, that the consul communicate with General Pruneda, Mexican commander, who now is near Cuchillo Parado, and suggest to Pruneda that American and Mexican troops co-operate in pursuing the bandits who captured Aviators Davis and Peterson.

Candelaria, Texas.—Troops of the eighth cavalry crossed the Mexican border at 6:40 o'clock Tuesday morning in pursuit of the bandits who held Aviators Peterson and Davis for ransom. Davis and Peterson accompanied the troops, acting as guides.

Washington.—The American punitive expedition into Mexico after the bandits who held the two American aviators is being conducted with the full knowledge of authorities in Washington, who have been withholding announcement of the government's policy until the two Americans were safe.

Marfa, Texas.—Lieutenants H. G. Peterson and Paul H. Davis, aviators of the United States army, held captive for more than a week by Mexican bandits, who demanded a ransom of \$15,000, were rescued Tuesday by Captain Matlack of the eighth cavalry and are safe in American territory.

Captain Matlack brought back with him \$6,000 of the ransom money. He said after Peterson had been released Davis was brought forward by the bandits and the two mounted Captain Matlack's horse. The bandits demanded the remainder of the ransom money and Captain Matlack and Davis answered by riding rapidly away.

DISABLED MEN MAY NOW ENTER CIVIL SERVICE

Federal Examinations Will Be Waived in Cases Recommended by Board.

Dallas.—Notice has been received by W. F. Doughty, district vocational officer, that the federal civil service regulations have been amended by an executive order of the president placing upon the federal board for vocational education the responsibility of testing and certifying to the civil service disabled soldiers, sailors and marines who desire to enter that branch of service. The amended regulations permit the fullest co-operation of the government agencies with the federal board in the vocational rehabilitation of men disabled in the war.

All the rules governing the relation of the board to other governmental departments are being altered to simplify the work of each and facilitate the movement of the cases of the disabled men applying for aid. The new regulation of the civil service will permit the placing of the men after having been passed by the vocational board as to qualifications for the position, without recourse to examinations by both departments.

ARCHDUKE DECIDES TO HOLD REINS TEMPORARILY

Agrees to Resign, But Reconsiders at Request of Peasant Leaders.

Budapest.—Archduke Joseph has agreed to resign as temporary dictator of the Hungarian government because of the socialists' objection to him, but consented to remain in office for the time being when peasant leaders and members of the reactionary party protested. They declared they would cause the food blockade against Budapest to be re-established unless he continued to act as regent.

Suez Canal Blocked.

London.—The Suez canal has been blocked by the sinking of the Italian cruiser Basilicata after an explosion, according to advices from Port Said. The cruiser sank near Tewfik.

Headquarters for Memorial Fund.

Dallas.—This city will be county, state and southwestern headquarters of the campaign of the Roosevelt memorial association to raise \$5,000,000 in the United States for the construction of two memorials to the late Theodore Roosevelt. A decision to that effect was made at a regional conference Tuesday. Twenty-five representatives from the states of the southwestern region, Louisiana, Oklahoma, Arkansas, New Mexico and Texas, attended the meeting.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc. F. J. CHENEY & CO., Toledo, O.

BUILD YOU A HOME

JOHN KIRBY WILL DIRECT CAMPAIGN OF S. A. IN TEXAS

Wealthy Lumberman to Select Executive Committee Soon For State.

MILLION IS ASKED FOR RELIEF WORK

Money Raised in Drive to Be Used in Building Where Donated

John Kirby, millionaire lumberman of Houston has accepted the post of chairman of the Salvation Army home service drive in Texas, which will begin in Oklahoma, Texas, Arkansas and Louisiana September 29 for \$1,000,000.

Mr. Kirby will be associated in the drive with Governor J. B. A. Robertson who is heading the drive from Oklahoma City, and Governor R. G. Pleasant of Louisiana. Governor Hobby of Texas is acting in an honorary capacity on the Texas committee.

"Mr. Kirby was selected to head the state committee because of his popularity with the citizens of Texas," Lieutenant Commander George Wood of the Dallas Salvation Army post declared yesterday. "His long association with the financial interests of the state make virtually certain the success of the home service campaign."

General in Scope

The home service campaign will be general throughout the United States. The money asked of the nation is \$13,000,000. The share of the southwestern group of states directed from Dallas is set at \$1,000,000. On an estimated population of 5,000,000 for Texas, Oklahoma and the sections of Arkansas and Louisiana included in the territory the amount required will reach 20 cents per capita.

"The Salvation Army funds raised in the great cities of the southwest will be spent in the cities from which it is donated. The money will be spent entirely for the betterment of home conditions.

"The question has been asked by a farmer as to what his interest is in the city development of the Salvation Army is," Lieutenant Colonel Woods of the Dallas office said yesterday. "The interest is strong. It affects him directly. It strikes at his family.

City Life Protected

"The welfare of the Salvation Army is the welfare of his son or daughter who visits the great cities of the nation in search of work.

"The boy who comes to the city is given wholesome surroundings. He is given a clean bed. He is offered a place for healthy recreation. He is taught to avoid the pitfalls of city life into which he might fall were he permitted to go his way without guidance.

"The daughter of the farmer or of the man from a small town is given a clean lodging place in the girls' hotel with board at a low cost. Many girls would not be able to successfully combat the economic conditions of which they are ignorant when they come to the cities without the aid of the Salvation Army.

Thousands to Cities

"Thousands of such young people flock into the cities each year. They are employed in clothing stores, five and ten cent shops and telephone offices. In many cases the wage paid is insufficient for their needs.

"The Salvation Army steps into the breach at such times and extends a helping hand."

The Salvation Army owns in Texas two rescue, two maternity and two children's homes. In addition the organization has four workmen's hotels and two industrial stores. The rescue, maternity and children's homes are at San Antonio and El Paso. Eighty-five working girls and 215 children have been admitted to the homes in the past year. The new state fund asked in the Salvation Army campaign will go in part for the enlargement of the San Antonio homes. New buildings and institutions are planned for Oklahoma and Louisiana.

Twenty-Five in Girls' Hotel.

The girls' hotel at Dallas maintained by the Salvation Army now accommodates 25 girls, according to Lieutenant Colonel George Wood in his report for the year ending March 31, 1919. These girls, Mr. Wood declares, are given clean rooms and wholesome meals much below the cost for the poorest kind of board and room obtainable in Dallas. The home is at 1718 Corsicana street.

Many Get S. A. Groceries.

Meals and groceries have been supplied 22,104 needy citizens of the southwest by the Salvation Army in the past year, according to Lieutenant Commander George Wood of the Dallas office. 1945 were given lodging, employment was found for 360, medical aid was given 1148. The total number of suffering people relieved by the Salvation Army in the year is 30,669. The cost of giving the relief amounted to \$17,268.48.

Influenza
The country is informed by persons supposed to know what they are talking about that another epidemic of influenza is likely to begin in September. The predictions are based upon nothing more tangible than the fact that there have been such recurrences in the past—upon a possibility rather than a certainty, or ever, a probability.

There is no occasion for fright, but there is every reason for the observance of the common sense precautionary measures which should be within the knowledge of every household. The individual owes a duty of keeping the body in condition. Disease is apt to attack anybody, but those who are in good health are better able to repel it.

It is unfortunate that medical science as yet has been unable to solve the problem of the prevention and cure of influenza. But it will be solved in time. Meanwhile, the best advice is: Keep well; be fit to fight influenza, or any other disease, at the moment it attacks.—Hereford Brand.

It is a queer world in which a man can't drink booze and hold the approval of decent folk, but can sell a legal opinion favoring the booze crowd and remain an important citizen.—Greenville (S. C.) Piedmont.

Even a man without a dollar is fifty cents better off than he once was.—Greenville (S. C.) Piedmont.

Question?
If the government takes over the packing houses and live stock industry, will it have any better success in controlling the packing house and stock yards labor question than it has had with railway labor? Would packing house and stock yards labor, under government control, be able to tie up the live stock and meat industry as tight as government railway labor has tied up the transportation facilities of the country?—Drovers Telegram.

On July 31, 1919 the total amount of mortgage loans closed since the establishment of the Federal Land Banks was \$244,653,871 to 94,815 borrowers in number. During July 4-5, 1919 applications were received asking for \$15,440,853. During the same period 4,007 loans were approved, amounting to \$12,132,386. Altogether 206,483 farmers have applied for loans under this system, in the aggregate amount of \$562,043,439.

Federal Farm Loans for July.
During the month of July, 1919, an aggregate of \$10,359,390 was loaned to 3,384 farmers of the United States by the Federal Land Banks on long time first mortgages according to the statements made to the Farm Loan Board. The Federal Land Bank of Houston leads in the amount of loans closed the same being \$1,310,415, with the Federal Land Bank of Omaha running next in amount \$1,217,006. The other banks closed loans in July as follows: St. Paul \$1,167,606; Spokane \$1,030,820; St. Louis \$1,006,030; Wichita \$766,200; New Orleans \$762,425; Louisville \$745,000; Columbia, \$702,800; Berkeley \$627,500; Baltimore \$528,200; Springfield \$495,000.

On July 31, 1919 the total amount of mortgage loans closed since the establishment of the Federal Land Banks was \$244,653,871 to 94,815 borrowers in number. During July 4-5, 1919 applications were received asking for \$15,440,853. During the same period 4,007 loans were approved, amounting to \$12,132,386. Altogether 206,483 farmers have applied for loans under this system, in the aggregate amount of \$562,043,439.

At the close of business July 31, 1919, amortization instalments to the amount of \$10,531,154 had matured. Of this amount \$10,379,304 had been paid by borrowers, the difference \$151,850 or 1.4 percent being delinquent. Approximately \$50,000 of the delinquent instalments are on loans in the drought stricken state of Montana; only \$22,539 or about one-tenth of one percent of the total delinquents are overdue more than 90 days.

"Completely Discouraged"

Is the feeling and plaint of women who are "run-down" so low that work drags, head aches, back aches, dragging down feelings, dizzy, pale and weak, little things annoy and "everything goes wrong."

Look the other way just a minute and see what Dr. Pierce's Favorite Prescription has done for more than a million women in the last fifty years. What it has done for others it can do for you.

A helping hand to lift up weak, tired, over-taxed women—that's Favorite Prescription. It gives you just the help that you need. To be had in liquid or tablet form, 60 cents, at all drug stores.

It is a medicine that's made especially to build up women's strength and to cure women's ailments—an invigorating, restorative tonic, soothing cordial and bracing nerve; purely vegetable, non-alcoholic, and perfectly harmless.

PADUCAH, KY.—"After first becoming a mother, I was in miserable health. I developed a severe case of woman's trouble, and suffered with backaches and pains in my side. I got so bad that I was a complete nervous and physical wreck and had given up hopes of getting better when I began taking Dr. Pierce's Favorite Prescription. I soon started to improve and was convinced that I had found the right medicine for my trouble. I kept on taking the 'Prescription' and my health was completely restored. I am always ready to speak a good word for this wonderful woman's medicine."—Mrs. ANNIE SMITH, 1119 N. 12th Street.

Who Really Won the War?

John Peel in the London Sunday Chronicle: But who really won the war? I will tell you: The Belgians won the war. Had they not held up the German advance at Liege at the outset, the enemy might have got through to Paris before the allies

were fully deployed. Few Britons understand what the Belgians afterward went through in those awful swamps around Dixmude. I have seen the remnants of Dixmude and can tell you that Ypres is an almost undamaged health resort by comparison.

The Italians won the war. Though

they broke at Caporetto, in the end they destroyed the bulk of the Austrian army, though Lord Cavan and a British force were the spearhead in those last days.

The Americans won the war. Make no mistake about that. If they had not come in when they did, we might all have been overwhelmed when the Germans broke our line near St. Quentin in March, 1918. Pershing did a fine and generous thing when he allowed his best battalions to be brigaded with our in those critical weeks. The moral effect of the gigantic preparations of the United States was incalculable. It decided the big issue for from the moment the packed transports came streaming across the Atlantic the Germans knew their cause was hopeless.

The French won the war. The first battle of the Marne and Castelnau, simultaneous with the battle of Nancy, were always decisive. The French with united British aid, beat the Germans in the first month by a combination of brain power and indomitable courage. Theirs was the epic struggle of Verdun Gourands triumph east of Rheims a year ago, and the bulk of the desperate fighting between the Marne and the Aisne which followed. Without the genius of Foch all might have been lost.

The British won the war. The Grand Fleet held Germany as in a vise from the very outset. Our troops have fought all over the old world from Viadivostok to Niedport, from Archangel to Windhoek. We saved the Channel ports. In my view the presence of our little force on the left of the allied line just saved Paris in 1914. We saved Verdun by attacking on the Somme in the nick of time. In 1916 we broke the Hindenburg line time and again; we poured out our resources and gave them freely to our allies; we threw our whole weight into the scale; we—but I must stop. You see, we all won the war.

Ex-Service Men.

Your Government Insurance is a good thing—Hang on to it.

Just as the Government is planning to make a "good thing" a better thing, you men are dropping it. HAND ON TO IT—if you have dropped it, reinstate it.

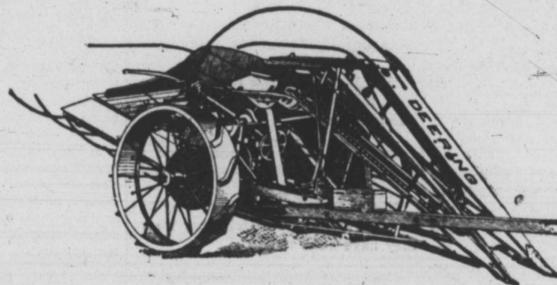

It seems another blow at the food supply of the world when prohibition steps in and blights the wild-oats crop of coming generations.—New York Morning Telegram.

Sheriff's Sale
State of Texas, County of Randall.
By Virtue of an order of sale issued out of the Honorable District Court of Potter County, on the 9th day of August A. D. 1919, by the Clerk thereof, in the case of J. D. Goetz versus N. F. Tate, D. H. Holcomb and Edd Hawkins No. 2872, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales, on the FIRST TUESDAY in September A. D. 1919, it being the 2nd day of said month, before the Court House door of said Randall County, in the City of Canyon, Texas, the following described property, to-wit:
An undivided one-half (1-2) interest in and to a certain lot, tract or parcel of land lying and being situated partly in Armstrong County, Texas, and partly in Randall County, Texas, but being situated for the most part in Randall County, Texas, and being described more particularly as all of Section Number Ten (10) Counties of Randall and Armstrong.
Levied on this 11th day of August 1919, as the property of Edd Hawkins to satisfy a Judgment amounting to \$8,059.79 in favor of J. D. Goetz and cost of suit.
GIVEN UNDER MY HAND, This 11th day of August A. D. 1919.
WORTH A. JENNINGS,
2013 Sheriff Randall County, Texas.

A Renter's Experience In Wichita.
A complaint brought before Secretary Harrison, of the chamber of commerce, this morning illustrates the abnormal advance in rents in this city during the past year. The wife of a railroad man which run takes him 80 miles in the country, told the secretary that they had formerly paid

\$25 a month for a five room house, and now were about to leave the city to reside at the terminal because of the inordinate advance demanded in rent of their home. The husband's salary is about \$160 a month.
A short time ago they received notice that the rental would be advanced to \$50. By getting a friend to intervene this advance was compromised at \$40, which they are now paying. Recently the property changed hands and now the tenants are

told they must pay \$150 a month, as that figure has been offered for it. The house is by no means new, has no bath tub and is not in the best of repair, the woman said. Mr. Harrison is inclined to think that such cases explain why so many people are driven to out side towns, who would much prefer residence here.—Wichita Daily Times.

MADE BY SCOTT & BOWNE
MAKERS OF SCOTT'S EMULSION

COTTON KEPT OUT OF FOOD CONTROL BILL

TEXAS MEMBER'S POINT THAT IT IS NOT GERMANE IS SUSTAINED.

Washington.—Cotton was kept out of the food control bill by a point of order made by Representative Blanton of Texas to an amendment offered by Representative Newton of Minnesota, which proposed to render raw cotton subject to the same regulations made applicable to wearing apparel, etc. The house had voted into the bill the regulation of rents, which was later eliminated. Representative Haugen, chairman of the agricultural committee, made a point of order, but reserved action pending a discussion of the Newton amendment, whereupon Mr. Blanton renewed the point, insisting that cotton was not germane to the subject of the legislation.

Washington.—No product is included in the amended food control act reported to the house of representatives by the agricultural committee; neither is there given an extension of the price fixing authority. Administration of the law, with a severe penalty of a fine of \$5,000 or imprisonment, is left with the department of justice. The present law carries no penalty for operation during the war, but permitted enforcement through the licensing system. In the new bill this system is done away with. Retailers, exempted under the present law, are to be made amenable to the terms of the new act, and rendered liable to prosecution if found profiteering.

The reported bill specifically exempts farmers and co-operative associations of farmers. Otherwise it was held that they would be liable to prosecution for any movement undertaken to better their condition. Representative Young of Texas led the fight for exempting the farmer on the claim that they have not unduly profited, and that to destroy the right of the farmer to organize for bettering his condition would result in curtailing production.

Republicans on the committee endeavored to extend the powers so the president would be authorized to fix prices on everything produced or consumed in the United States," said Mr. Young. "I, with others, opposed the extension of authority as in the case of the original legislation."

Mr. Young said he was fearful that the price of cotton would be made to suffer if the price-fixing idea had been adopted.

TEXAS GUARD MAY NOT GET PAY FOR TRAINING

Absence of Officers at Camp Stanley Counts Against Units Under Ruling.

Washington.—Unless the treasury department reverses its ruling, members of the new Texas cavalry regiments which spent some weeks in camp training will not receive pay for that service. The law requires that the attendance of organization must be 60 per cent of the enlisted force and 60 per cent of the officers before federal pay can be secured. While the troops were in training the officers trained at Camp Stanley and their absence is counted against the representation for the purpose of pay.

This matter has been laid before the secretary of war and the militia bureau by Colonel Claud V. Burkhead of San Antonio and Colonel John W. Young of Galveston.

DAYLIGHT SAVING LAW WILL END IN OCTOBER

Act Repealing Law Passed by Congress After it is Twice Vetted by President.

Washington.—Repeal of the daylight saving act has been accomplished, the senate voting to sustain the house in passing the repeal measure over President Wilson's veto. The vote was 57 to 19.

The repeal of the law which now takes its place among the very few which have been passed over a presidential veto becomes effective after the clocks are turned back to normal in October. It will go down in legislative history as one of the very few measures which have twice been vetoed by a president and became a law after all by the vote of more than two-thirds in both houses of congress.

British Fleet Busy.

Stockholm.—The reinforced British fleet which has been engaged with bolshevik war vessels is concentrated against Kronstadt, the naval port of Petrograd, a dispatch from Helsingfors says. The city of Kronstadt, it is said, is burning.

Federal Exhibit Now Ready.

Washington.—The exhibit of the United States department of agriculture at the Texas state fair in Dallas this fall will soon leave Washington for the southwestern circuit.

Regarding the Free Text Books

The new tax of fifteen cents to pay for school books brings the query as to what the law actually is. We will try to give a brief synopsis of it.

The law provides for the distribution of school books by the school trustees of each district under the direction of the superintendent of schools or some teacher, as desired.

Printed book labels pasted on the inside covers of books carry the number of the book and the name and number of the child to whom it is assigned each year.

The pupils are required to cover each book before he uses it. Patent book covers may be used or covers supplied by merchants as advertisements.

All books must be fumigated before re-issue.

Pupils must have a duplicate book card before securing their text books. Pupils must pay for all books lost by

them. All books must be returned to the library at the close of each school session.

The allowance that will be made to pupils who already have school books in their possession cannot be made until the tax money is collected this fall.

Pupils may purchase their own school books if they desire to do so.—Canadian Herald.

Tired of Buying Feed.

R. P. Price of Rayland says he is tired of buying feed. To guard against the necessity of paying out money to carry his livestock through the winter of 1920 in case of a crop shortage or crop failure next year, he has begun the erection of a big barn on his farm one mile south of Rayland.—Vernon Record.

After De Valera gets through looking around over here maybe he won't care to make a republic out of Ireland.—Columbus Record.

The packers suggest that if we eat more meat, prices will come down. What's a little thing like the law of supply and demand between packers?—New York World.

Sold Everywhere

many may disclaim connection with the Bolshevik movement, but if you ask any officer of ours who has been fighting on the Dvina he will tell you that for a long while he could afford to treat the Bolshevik artillery with disdain. Then came a change. The marksmanship was extraordinarily good. Shells were dropped within six yards of their objective. It was then that German marksmanship was recognized. One can not fight in France and Flanders for four years without learning something.

Now, what has Germany to gain commercially, by wooing and winning Russia? Take the book-publishing business, if you doubt its importance, reflect for a moment on what propaganda has done in the war. Before 1914 Germany practically monopolized the trade in Russia. Her agents sold books, published in Russian, of course, dealing with trade, engineering, folk-lore and fairy tales—the Russian peasant loves fairy stories; and they described the life of the German villager. The Russian peasant loves to hear of the conditions existing in the villages of another country. These agents did not ask for payment at once, they allowed the installments to run over twelve months and more. In every Russian village there is at least one peasant who can read, and the villagers gather round him of an evening and listen to his efforts. The Germans understood that they must write their books in the simplest of phraseology, the six-letter word being about the limit. Epitomized, these books might read: "God is good. So is the German." Millions of books were sold, and the profit to the publishers must have been enormous. Then came the war, and all reading matter was forwarded to the troops. Subsequently the revolution saw most of the Russian printing presses destroyed by the Bolsheviks. The position today is just this: Russia, as represented by the peasant, must collect a new library, a new literature. Which of the allies is going to supply the nucleus?

In conversation with a Russian educationist the other day I gathered that never was there a finer opportunity than now for some British publishing firm to open a branch in this country. Whoever comes to investigate must acquaint himself with the needs of the people by going into and living in the villages. The Russian character is supposed to be simple, but my experience of it is that complex is the better word to apply.

The firm that makes the first serious effort will probably secure valuable concessions from the Government, which earnestly desires assistance in the task of recreating the national life. The raw material for the making of paper pulp is unlimited, and with a little enterprise and expenditure the transport facilities might be improved beyond description.

One could easily write reams about the commercial possibilities of this wonderful country, but the object here is to give some inkling of the real reason why Germany has fallen in love with the people whom she professed to despise only a little less than she despised the Belgians. Somebody must pay Germany's war debt, and it will not be her fault if she herself has to foot the bill.

If they expect the League to be a life raft for the world, they'll have to quit using it as a political platform.—Indianapolis Times.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Frezzone costs but a few cents at any drug store. Apply a few drops on the corn, callus and "hard skin" on bottom of feet, then lift them off. When Frezzone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

School Time Needs

German Tactics in Russia

London Times: Beresnik, Archangel, June 20.—I arrived here this morning, and am awaiting a tug to take me farther up the river to Topsa, which the Hampshire took from the Bolsheviks today.

Before leaving Archangel on Wednesday afternoon I was able to complete investigations which I have been making for some time into the operations which Germany is conducting in this country, with Berlin as headquarters. If there is any one at home who cherishes the belief that the German, having been trounced in France, is now whining like a dog that has been justly punished, this message should help to disillusion him. The German may be suffering indescribable agony of mind in the West, but he is carrying on a desperately serious flirtation in Russia. All the old business acumen with which we have been generous enough to credit him in the papers is being exercised out here. He realizes that if he succeeds in winning the affections of Russia there are commercial possibilities here which, if properly exploited, will pay his war bill and leave a magnificent balance on the right side.

A number of Russian officers who arrived in Archangel from Berlin a few days before I left for the front came like maidens to their parents after the first proposal. The Germans had been so magnanimous that their breath was taken away; I am not sure that they did not fear that they would never be forgiven for thinking harshly of him. These officers who had been prisoners of war, were told that they must now regard Germany as "their second home!" For some time past they had been treated as though they were the honored guests of the State; they listened to fulsome praise of the Russian national character, and one declared that he was told, "If we were to unite our resources we could have the world at our feet."

To the skeptical this may sound like drumbeating, but may I suggest that the Russian character is so susceptible at this period that impressions are easily forced upon it? Moreover, this is a transitory stage in the history of the Russian; he has suffered so much during the last four or five years, and has listened to so many promises from so many sources that hope deferred has made him sick enough to accept any hand that may be held out to him, provided that the hand is well filled. The allies are only now beginning to fulfill their promises, and the concerted movement started by the taking of Topsa may rob this warming of its significance.

The German is far from being a dilettante in studies psychologic, and even if his kiss is influenced by the promise of thirty pieces of silver, a kiss is worth that much to the Russian today. Will it surprise you to learn that Berlin is already issuing a newspaper published in the Russian language? I was shown a copy the other day, and there in print was the invitation to Russia to regard Germany as her second home. Ger-

Tractor Demonstration Record, Canyon, Texas, Aug. 14

This land was in the worst possible condition, loose, blowy surface soil with tight sticky subsoil, all covered with sunflowers and other weeds from two to seven feet high. Study this table.

Quality of plowing	100	95	100	85	90	95	90	80

Note: The Cleveland had forty minutes counted out because of broken plow.
All plots were actually measured with tape line.
No tractor was permitted to run above advertised speed at any time.
Full supply of lubricating oil at finish probably caused by leakage of fuel past piston heads.
The quality of plowing is the result of the engine power, speed, and the set adjustment of the plows.
All of the above tractors could do far better work in stubble or other average plowing.
FRED H. IVES, Manager.

By careful study of the above records you may be able to decide which of the above tractors will best suit your needs. The best tractor is not necessarily the fastest one, the one that completes its plowing first, the highest priced one or the cheapest one. Every point must be considered. And the tractor that will suit one man exactly may not do at all for the kind of work you have on your farm. Acreage, soil types, kinds of crops, belt work, etc. all vary a great deal. Study the tractor from every point of view.

The most important items in daily operation are the amount of time, fuel, oil and labor required to plow one acre of land. The time required for supplying extra water, cleaning spark plugs, and every other kind of job should be charged against the value of the tractor. Watch the tractor in operation to judge the ease of handling and making quick short turns at the ends and corners. I would not buy any tractor until after I had driven it for awhile myself, on regular work. Also figure out answers to these questions:

Are the drive wheels of such narrow width and small diameter that they will easily dig themselves in on soft ground?
If the engine has very high speed,

are the bearings of such type that they will stand the wear? Is the consumption of lubricating oil very high in this engine? Tractors that permit the fuel to seep past the piston head into the lubricating oil have to have the oil drained off and renewed frequently.

Are all working parts, bearings and gears, completely inclosed, giving protection from dust and wear, and is the lubrication insured?
Does the tractor have an air washer to keep grit out of the cylinders and make a moist fuel charge?
Are all parts such as magneto, crank shaft, spark plugs, etc., easily accessible for adjustment or repair?
Does the cooling system have sufficient capacity and dependable circulation?
Aside from the daily management, you should determine whether the tractor will have a long life of satisfactory service under proper care. About the only way to judge this is from the experience of those owners who have had that make of tractor in longest use. The salesman should be willing to put you in touch with such men.
Study the tractor business. Have the salesman to explain everything about the machine that you do not understand. That is his business.

And do not expect a ten horse power engine to do the work of ten horses. It can not do it.

FRED H. IVES,
Director of Agriculture, West Texas State Normal College.

Come to Canyon to live.
You Do More Work,
You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.
GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.
GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.
The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

You'll Want This Combination

It is the Case 10-18 kerosene tractor and a two-bottom Grand Detour plow. It is an ideal plowing outfit for either small or large farms.

The tractor weighs about 3,500 lbs., just a trifle more than a big team of horses. It burns kerosene economically, developing full power on the same.

The tractor has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece frame. A Case Siphon thermostat controls the cooling system and insures complete combustion. The all-spur gears, with teeth cut and hardened, are enclosed and run in oil.

The Grand Detour 2-bottom Automatic Lift Rigid Beam Plow will fill the plowing requirements of the most particular farmer. Grand Detour plows are strictly quality plows. They are light in draft, yet so well constructed that they will give years of faithful service at a low cost of upkeep. We would greatly appreciate the opportunity of telling you more about Case tractors. Drop in and let's talk it over.

L. T. LESTER

CANYON, TEXAS

NOTICE: We want the public to know that our plows are NOT the Case plows made by the J. L. Case Plow Works.

FARMERS WATCH OUT YOU MAY BE ARRESTED

The Texan paid a fine of \$10.00 this week, \$1.00 of which goes to the State and \$9.00 to officers and attorneys, upon the charge of employing a tractor to move a heavy piece of machinery over the "public highways."

The facts are these: The Texan plant was being moved about one block from its old location. All light stuff was carried by kils or hauled in an automobile, because of the shortage of manpower in and about Dalhart. A great part of the machinery was pulled by hand on a small truck wagon, but when it came to moving the big Cotterell press we were up against it. After two or three days effort we succeeded in engaging two good men to assist, but with these men our force was inadequate for the big press. We offered \$25.00 to anyone who would take the job but no one was found. After exhausting all other resources we succeeded in engaging a tractor which pulled the press on four by fours to the new location. A complaint was made that a State law, not city ordinance, mind you was violated. We paid the fine. The moral is, if one is short of man-power and can't obtain horse-power, he must give up the job or pay a fine.—Dalhart Texan.

OH HELL!

The following is a sample of the way Germany feels her defeat. In fact, she looks upon the war as a victory for her armies:

Washington, Aug. 17.—The complete text of the appeal of the officers of the Prussian Army and German Navy to the Queen of the Netherlands and the States General, not to surrender William Hohenzoller to the Entente Powers was received here today through official channels. It reads in part:

"Berlin—The former Royal Prussian Army and the Imperial Navy have been in the field, and have fought chivalrously against their enemies, together with the remaining German Federal contingents, for four and one-half years, under the leadership of their supreme war lord and of their officers.

"Reasonable machinations in its own country not the enemies armed power, ultimately broke the army's armed force; our beloved, never-to-be-forgotten, supreme war lord, the

PAIGE

The Most Beautiful Car in America

A Paige Picnic Makes a Perfect Day

Picnic joys today are not complete without a car—a good car like the Paige that carries the whole family comfortably and securely to the country or to the water side.

No stuffy trains or crowded boats, but a sturdy Paige that gives you freedom to go and come as you please, saving time and adding greatly to the pleasure of the day.

Picnickers find the Paige ideal because the same reliable service they derive from their car in daily use is what they need when they take time out for a big day in the country. They want a dependable, comfortable car and they find it in the Paige.

PAIGE-DETROIT MOTOR CAR CO., DETROIT, MICHIGAN

E. BURROUGHS

German Emperor and King of Prussia, to whom we shall adhere until death with the old steadfastness, took refuge in the Netherlands, in consequence of the revolution, where, as the highest of the Prussian officers, he must be considered interned, according to the laws of war.

"In addition to other crushing peace terms, our enemies, devoid of all chivalrous feeling, have made the humiliating and dishonorable demand that the German people should surrender our Emperor and King to their jurisdiction, a man of whom every educated person knows that, with his deep religious nature and pure heart, he personally is guiltless of all blame for this war.

"A section of our fellow countrymen impelled by fear for life and property have shamefully agreed to the above demand made by their dishonorable foes, who are only actuated by a desire for revenge, and who knew perfectly well who has been at the bottom of the great and terrible war for decades past.

"The officers of the Prussian Army and of the Imperial Navy desecrate themselves entirely from these fellow countrymen, from whom they are divided by an unbridgeable gulf."

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Every man owes it to himself to lay aside an emergency fund. An ideal way to do this is by purchasing War Savings Stamps or Registered Treasury Savings Certificates. They increase in value every month you hold them and can always be converted into cash on ten days' notice.

You can get even with Uncle Sam on the penny war taxes by purchasing W. S. S. For the old boy will have to pay YOU something then—see?—Tyler County Messenger.

AMARILLO

CANYON

HAPPY

Happy Happenings.

Mr. and Mrs. Bob Caler and Miss Hazel Gasaway were shopping in Amarillo Thursday.

Mr. and Mrs. Bill Fonken were in Plainview Saturday. Mrs. Fonken's brother Gerald Smith and wife returned home with them and Earl Smith of Amarillo came down Saturday. They all spent Saturday night and Sunday at the parental E. J. Smith home.

John McNeely went to Amarillo on Wednesday to have his eyes treated for a spider bite. He returned on Tuesday with his eye much improved.

Mr. and Mrs. Bill Anderson are rejoicing over the arrival of a son who made his arrival Aug. 23. Mother

and babe doing well.

Presiding Elder of the Plainview District, Rev. A. L. Moore will fill the pulpit at the Methodist church Sunday morning and night.

The revival meeting will begin the 1st Sunday in September, or Sept. 7th. Chester Rice was a business caller in Amarillo Monday.

E. T. Diggs was a business caller to Plainview Thursday. Charlie Mitchell was in Amarillo Friday.

Mr. and Mrs. C. E. Rose left Monday for their new home in Seattle Washington.

Miss Leona Keison of Wildorado visited last week with Miss VOLLIE Dison.

S. J. Lusby, Ralph Ward and C. L. Gaten were business callers in Amarillo Wednesday.

The cream supper Saturday night given by the Epworth League was well attended and the proceeds were \$52.85.

E. M. Shenefelt has a new Fordson tractor and plow, getting ready for a big wheat crop.

W. C. White and family, E. A.

White and son, J. F. White, Allie White, Rev. W. C. Rose and Misses Grace White were in Canyon Sunday evening.

Mr. and Mrs. A. A. Fonken and Oscar Fonken were Amarillo visitors Tuesday.

L. L. Monroe was transacting business here Monday.

The revival began at the Baptist church last Sunday. Good crowds are attending and good interest being manifested. Rev. Smith of Plainview is doing the preaching. Rev. Hardesty, the pastor came up Tuesday.

Mrs. Billie Knox and son Johnnie and Bill Thomas returned Sunday from Kempner where they have been visiting Mrs. Knox's sister, Mrs. Selton Baird. Mrs. Baird and daughter Elsie returned with her to visit with relatives here for some time.

Miss VOLLIE Dison left Monday for Kingsville where she will teach the coming year.

Mrs. P. J. Neff is suffering from a badly sprained ankle.

Mrs. Nannie Johnson of Illinois is here for an extended visit with her daughter, Mrs. George Lash. Mrs. Lash has been sick for some time.

Mr. McMinnimie was called to Hale Center Sunday by the illness of his mother. He returned Tuesday leaving her much better. His brother returned with him.

Embry Finley has bought a new Chalmers car.

Miss Gladys Neff was in Tulia last Tuesday.

D. H. Culton of Tulia was a business caller here Monday.

Walter Pack of Colorado is visiting at the O. Belles here this week. Mr. Pack used to live here.

Miss Maggie Caler and Mrs. Wallace came in Tuesday from White-wright to visit the G. M. Caler home. Mrs. Wallace went to Canyon Wednesday.

Miss Clara Carter left Wednesday for Gertie, Okla., to join her parents as she has been visiting Mrs. Castleberry for some time.

Mr. and Mrs. Withrow and daughter came in Tuesday from White-wright to visit friends here for some time. Mr. Withrow formerly lived here.

Wayside Items.

Weather is fair and open. Threshers still in full blast, but unable to do the work needed done to get thru with the work. A number could be used to good advantage.

Oliver Minter, wife and three children of Fitzgerald, Ga., reached Canyon Saturday. Between 40 and 45 relatives gathered Sunday to celebrate their visit at Miss Sallie McGehee's and Mrs. I. C. Jenkins. A number went out to Mr. Jenkins' section west of town and secured a nice lot of fish which was highly enjoyed by the large crowd. A sumptuous dinner was spread at Mr. Jenkins' home. The visiting party came to Wayside Sunday afternoon and will visit a short while after which they will see relatives at Sulphur Springs and Pine Forest before returning to Ga.

Protracted services began at Wayside church Monday night by Revs. Jeff McNeely and Zoro B. Pirtle, to run for a week. Rev. McNeely will do the greater part of the preaching.

Wm. Payne and A. C. Sluder returned Tuesday morning from their trip to N. M. Mr. Payne thinks he has probably found a ranch to his liking near Stanley.

Henry C. Long reached Wayside last Thursday. He is late from France and has visited home folks in Alabama. He meets a warm welcome from his Wayside friends.

M. L. McGehee, wife and little ones, and Oliver Minter and family spent Monday picnicking in Happy Park and canyons. They report a good time.

City Ordinance.

An ordinance providing for out-door closets, not on sewer, and on sewer where water is not accessible, and providing for care and maintenance of same, and providing for penalty for violation of the provisions hereof.

Section No. One:
Be it ordained by the City Council of the City of Canyon City, Texas, that hereafter, all out-door toilets or closets not on or accessible to sewer and when on sewer and not accessible to water, shall be made to conform to the following specification:

Said closet must be made fly proof, and made over a pit not less than six feet deep, two and one-half feet wide, and one foot shorter than the length of the closet. Said closet is to be provided with hinged, self closing lids, and a ventilated stack, four by six inches in size extending through the roof; said seat must be provided with two screened openings, said openings to be six inches square; and in the front part of said seat.

Section No. Two:
Each and every person using and operating an out door closet as prescribed above shall use a sufficient amount of lime each day to disinfect

said pit. And when the pit becomes filled to within eighteen inches of the top, the said pit shall be filled up with earth and said closet moved over a new pit.

Section No. Three:
Any person not complying with Section No. One hereof, after having been notified for ten days to comply with same and any person violating section No. Two hereof, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than Five Dollars and not more than Twenty-five Dollars, and each and every day's failure to comply with the provisions hereof, shall be deemed a separate offense.

Passed in open Council Meeting at a regular meeting, held by the City Council of the City of Canyon, on August 7th, A. D. 1919.
