NUMBER 25

21 DUROCS WIN 17 PRIZES WITH GRAND CHAMPION

RANDALL COUNTY WINS BIG PRIZES AT CHILDRESS FAIR WITH REGISTERED DUROC JERSEY HOGS

A telephone message to the News last night from R. E. Prewitt at the Childress State Fair shows that Randall county has become as noted for her registered hogs as the county is for her registered cattle.

Prewitt & Armstrong, H. C. Roffey, John Knight and Winfield Miller, in the Pig club class, had twenty one head in the fair. These 21 head of Durocs, showing against sixty four picked animals from the herds of Northwest Texas, won seventeen prizes as follows:

H. C. Roffey—three 1st; three 4th; one 5th.

John Knight—one 2nd; two 5th.

Prewitt & Armstrong—two 1st; one 7th, one 8th; two Champions; one Grand Champion, won by Happy Orion Cherry Boy, the famous herd boar on the Prewitt farm.

Winfield Miller—in the Pig Club Class—2nd place and \$25.00 cash prize.

The swine breeders of Randall County are highly elated by the showing made in the Fair.

The Panhandle Swine Breeders Association is to meet next March in Canyon, and when these gentlemen of this association arrive in Randall County they will find the finest herds of Northwest Texas.

NEWS OF THE WEEK FROM THE SCHOOL

Miss Thelma McGee Employed to Assist With First Grade Work—Play Ground Regulations

School is taking on the form of order and work, the pupils falling into the plans outlined by the teachers and the teachers delighted with the prospects of a pleasant and harmonious year's work.

The school books have been coming in rapidly, almost as fast as they could be charged out, covered and distributed.

All schools have been more or less hindered on account of delay of textbooks. We are really fortunate in being so nearly supplied.

Miss Thelma McGee has been elected to assist in teaching the primary pupils which now number more than fifty. The prospect is that many more will be enrolled in this grade.

We are practically sure that the overflow of pupils from the Normal will add quite a number to all of our grades.

W. J. Flesher paid a visit to our school and in a short appropriate talk pledged his loyal support to every effort which looked toward the building up of a fine public school at Canyon.

Miss Pearl Hensley, our 6th grade teacher is now with us in the work. Her place was supplied last week by Miss Ollie Sone.

The pupils of the higher grades have organized a chorus club. In their election Miss Frye was chosen leader, Miss Dorothy Burrow pianist and Miss Opal Dowdy secretary.

This week the literary societies will be organized and the young people started into that line of school activities. They seem to be eager for the work.

A complete system of playground supervision was submitted to the faculty by committees appointed last week. The report was approved and on open days pupils will engage in various sports suitable to their ages and interests.

The many kind expressions from the patrons relative to the work thus far is greatly appreciated by your teachers.

C. L. SONE, Supt.

Normal Opens Next Week.

Enrolling of students for the next year's work will begin on next Friday. The school will open on the following Tuesday.

From all indications the attendance will be the largest in the history of the school.

MORE THAN THREE INCHES OF RAIN

Rain Started Monday Morning and Continued Until Tuesday Noon, Covering Panhandle.

It sure hasn't forgotten how to rain in the Panhandle!

All that fine dry weather we have been having since July has only been in benefit of the farmer, allowing him to get his wheat threshed in time for the big rain.

And the big rain came. It started in Monday morning about eight o'clock and until yesterday noon there was an almost continual downpour. It didn't come in a flood and all run away, but it was a continual slow fall that has wet things to the bottom.

Every part of the Panhandle is soaked. Reports vary as to the fall. The official rainmaker, John Wallace, chased off with Sam Lofton to California last week, and wasn't here to record the proper amount, but the amateurs on rain agree that there was more than three inches, and some say they got four inches in their measuring jars.

At any rate, it was some rain and came just in time for the farmers to get in another big wheat crop this fall.

Property Changing Hands.

L. G. Allen has bought the lot between those bought last week by L. T. Dufflo and C. W. Warwick.

Wm Evans of Floydada has bought the Bob Pickins place west of Canyon, 160 acres, for \$35 per acre.

W. D. Smith of Abernathy has bought the Annex from R. A. Terrill.

R. McGee has bought the W. O. Bennett residence north of the Presbyterian church. C. N. Harrison has bought the barn from Mr. McGee.

H. C. Grover of Lipscomb has bought the Steen residence north of the railroad.

J. B. Younger has bought a residence belonging to T. F. Reid, located west of the Ackerman home.

G. G. Foster bought the Long & Baker house north of the square yesterday and then traded it to O. G. Steen.

Buy Fordson Tractors.

The following farmers have bought Fordson tractors from the Kueha Garage:

E. M. Shenefelt, J. D. Walker, Geo. Schaeffer, Adams & McCrerey, W. W. Kuehn, M. B. McManigal, J. D. Key.

Come to Canyon to live.

PAVING ESTIMATES READY VERY SOON

Engineering Work is Completed and Estimates Being Made in the Dallas Office.

The engineers have completed all surveys of the streets of Canyon preparatory to paving, and their work is now in the head office of Hess & Skinner in Dallas where the figures are being made on the paving. As soon as these figures are received, the city council will be in position to make assessments against the property around the square and proceed with the paving.

Some word should be received within a short time on the cost of the job and after that, the legal steps will be taken as rapidly as possible.

RAISING MONEY FOR THE ROOSEVELT MEMORIAL FUND

A movement is on foot in the United States to raise \$5,000,000 to erect a suitable memorial in Washington, D. C., in honor of Theodore Roosevelt.

The part assigned for the state of Texas is \$150,000. Randall county's apportionment is \$150,000.

L. T. Lester is the county chairman for Randall county and during the past few days has been making a canvass of the men of Canyon and is meeting with a hearty response. He trusts to have the money subscribed in full within a short while.

Mr. Lester requests that people wishing to make subscriptions to please leave them at the First National Bank, which will save him time in making the canvass.

Bringing in Kanred Wheat.

A car load of Kanred Wheat is being received by the First National Bank which will be distributed for seed among the farmers.

The Kanred is said to be free from diseases. It is producing one-third more per acre in Kansas and other places where it is planted. It will resist the drouth much better than the ordinary wheat.

County Agent Walker and Fred L. Ives of the Agricultural Department of the Normal are recommending this wheat to the farmers.

Book Club Lecture Wednesday.

Prof. L. F. Sheffy of the History Department of the Normal, will lecture next Wednesday afternoon at 4 o'clock before the members of the Woman's Book Club. The club will study American History the coming year.

Come to Canyon to Live.

NEW NAME GIVEN BUSINESS ASSOC'N

New Name Adopted by Directors to Take Place of Canyon Business Men's Association.

The directors of the Canyon Business Men's Association in meeting Friday afternoon at the News office adopted the name, Randall County Commercial League to take the place of the old name. It was the consensus of the directors that with the new name and the new plans that were adopted at the meeting two weeks ago, at least a hundred men would be brought into the organization.

Wilford Taylor is armed with pledge blanks and authority from the directors to enroll every man in Canyon and Randall County in the new organization. New enthusiasm is being manifested at the prospects of a larger working body, and great things are expected if the men (and women are not excluded) will come into the organization and do their part.

The dues of the organization have been placed within reach of all. Not a single man who wishes to see Canyon grow and prosper as the town should can afford to stay out of the body that will be recruited by Mr. Taylor and the directors.

The organization has a great future if every loyal citizen of Canyon gets in and does his part.

Are you in?

Gamel-Wood Marriage.

Mrs. Kathryn Hutson has sent out cards announcing the marriage of her daughter, Miss Byna Dorothy Gamel to Mr. William Nicholas Wood on Wednesday, the tenth of September, at Kansas City.

Miss Gamel has a large circle of friends in Canyon who are pleased to hear of the wedding. She has spent much time here at the home of her mother, but during the past few years has been away most of the time in school. Mr. Wood is a prominent young manufacturer. He has visited at the home of Mrs. Hutson during past year.

The many friends of the bride in this county extend most hearty congratulations.

Had Operation Tuesday.

Lola Fletcher, daughter of Mr. and Mrs. R. V. Fletcher, underwent an operation Tuesday night in Amarillo. She is reported as being greatly improved.

Both Mr. and Mrs. Fletcher have been with her.

GETTING READY FOR RANDALL COUNTY FAIR

LARGE EXHIBIT EXPECTED IN CANYON SATURDAY, SEPTEMBER 27 AT THE RANDALL COUNTY FAIR

County Agent Walker and Miss Harris are looking for a very large exhibit next week, Saturday, September 27th, when the Randall county Fair will be held in Canyon.

Mr. Walker is working on the premium list and hopes to have a premium for all classes of exhibit. He states that he is receiving much encouragement from among the farmers and everything leads him to believe that there will be a ready response with large exhibits in all classes of products.

The best from this exhibit will be taken by Mr. Walker to the Dallas Fair, where Randall County is expected to make a very fine showing this year.

Every producer in Randall County is urged to bring in an exhibit for the Fair next week. There is no reason why the fair should not be a first class exhibit of all that Randall county has produced this year.

DISTRICT COURT RAIN OUT MONDAY; ADJOURNS TUESDAY

Only a few of the lawyers reached Monday morning as they were caught in the big rain, and a large number of the petit jurors were delayed.

Tuesday morning it was found to be impossible to try the criminal docket on account of sickness of a witness so all business was postponed until next Monday when it is hoped to be able to start some cases.

Some More Muskmelon.

We really didn't think C. A. Price meant it last week when he said he had a larger melon than the one he brought to the News office, but he sure did.

Tuesday he brought in a little one that only measured 46 inches in circumference and weighed 25 1-2 pounds! And the worst part of it is he says he still has bigger ones! He is going to have some of his big ones at the Randall county fair next week, provided they can get a room large enough to accommodate them.

Come to Canyon to Live.

SPECIAL ARTICLES UPON RANDALL CO.

Series of Fifteen Articles Will Be Published in the News, Commencing Next Week.

The News has completed arrangements for the exploiting of the resources, development and opportunities of Randall county through a series of fifteen special articles, covering every phase of the industrial activities of this section of Texas. The work of completing the statistics and preparing this series of articles has been placed in the hands of Mr. R. K. Evans, assisted by V. C. Harvey, who have been doing notable work along this line throughout all sections of Texas. Mr. Evans has had ten years experience as a publicity writer, and the success of his work is attested by letters of recommendation of the highest order from Chambers of Commerce, Commercial Clubs and newspaper men. Mr. Evans has just recently inaugurated industrial campaigns with signal success in Abilene, Sweetwater, Weatherford, Coleman, Dellinger, Brownwood, San Angelo, Bandy, San Saba, Comanche, Walsenburg, Colo., Temple, Dalhart, Amarillo and many other points, and his work has received universal commendation. Mr. Harvey is an expert at securing the facts, figures and data of highest value and which form the framework upon which Mr. Evans will build the stories of our agricultural, oil, stockraising development, our retail and financial conditions and the ability of Dalhart mercantile concerns to care for the trade.

The News believes the plan highly meritorious and not only deserving of the patronage which is being accorded it by leading mercantile and business concerns, but one which will result directly to the benefit of these concerns, and to the entire country as well. The industrial campaign will cover a series of fifteen weeks and each week one subject of the industrial development of the country will be taken up and thoroughly covered, the article being appropriately illustrated. While really comprising a wonderful special edition, the dividing of the articles into series gives the advantage over a special edition as enabling the readers to thoroughly digest each article as it is issued, before the next issue article appears to claim attention. In this manner readers will secure valuable data and information from the series which will likewise form a handy reference to those desiring information on any particular subject concerning Randall county.

The first of the series of articles, together with the advertisements of the merchants and business men endorsing and supporting this campaign, will be published in next week's issue. Orders for extra copies of the edition must be in our hands not later than Tuesday of next week, in order to meet the demand for extra copies.

PUBLISHERS FACING PAPER SHORTAGE

Editor and Publisher: With a full realization of the seriousness of the newsprint situation in the United States and Canada, as a result of the warning sounded by Editor and Publisher, newspaper editors and publishers are now bending every effort to meet the big problem of supply and excessive demand that faces them.

It is generally accredited that the conditions for the future delivery of paper are growing more critical each day, and that some united action must be taken by newspaper makers at once for the protection of their own business.

In a bulletin that has just been issued from the New York headquarters members of the Association are warned that the utmost possible conservation of newsprint is now necessary. It is pointed out that publishers are experiencing extreme difficulty in securing additional tonnage above contract, and such that can be found is offered at prices well in excess of \$3.75.

Recently some lots of newsprint have been offered at from \$4.10 to \$4.40 f.o.b. mill, and some small offers are reported as high as \$5.20, delivered.

A meeting of the publishers of Louisville has been called for this week to discuss the situation and the same action will probably be taken in other cities.

"Passing The Buck."

The farmers blame the middlemen
For what we pay for "truck,"
While middlemen say that the price
Is all the grocer's luck.

The grocers pass it back again
And thus it goes around—
A dizzy ring of dealers, but
No remedy is found!

Now come a warning that our shoes
And other clothes will bring
Much higher prices in the fall,
Along with ev'rything.

The maker of the shoes lays blame
Upon the tinner, and
The clothing manufacturers

Say Wool—you understand!
But ultimate consumers seem
To be all out of luck,
As there's no one for them to soak—
They cannot "pass the buck!"

—T. Benj. Faucett.

Texas Swine Breeders Special

Leaving from Dallas Sept. 28, 4:30 p. m. via M. K. & T. Railroad to Des Moines, Iowa, to The National Swine Show.

The National Swine Show is the greatest hog show on earth and the Association believes that it will pay every hog man in the state to go see the best animals living in the world today.

It is our idea to all go together from Dallas, and attend the Poland China show on the 30th and the Duroc Jersey show on the 1st of October.

EDWIN HOUSTON,

Secretary, Texas Swine Breeders Association San Antonio Chamber of Commerce.

The fear that the Germans have been cruelly treated is being expressed by a number of gentlemen who have an interest in the elections to be held a year from this fall.—Philadelphia Public Ledger.

Sheriff Sale.

THE STATE OF TEXAS,
County of Potter.

By virtue of an order of sale issued out of the Honorable District Court of Potter County, Texas, on the 4th day of September, 1919, by the clerk thereof, in the case of J. D. Goetz versus N. F. Tate, D. B. Holcomb and Edd Hawkins, Number 2872 on the Docket of said Court, and to me as sheriff directed and delivered, I will proceed to sell within the hours prescribed by law for Sheriff's Sales, to-wit: between the hours of 10 o'clock A. M. and 4 o'clock P. M., on the first Tuesday in October, 1919, same being the 7th day of October, 1919, before the Courthouse Door of said Randall County, Texas, in City of Canyon, said County, Texas, the following described property, to-wit:

An undivided one-half interest in and to a certain lot, tract or parcel of land, lying and being situated partly in Armstrong County, Texas, and partly in Randall County, Texas, but being situated chiefly in Randall County, where the same will be sold, and being more particularly described as all of Section Number Ten (10) in Block Number Two (2) Certificate Number 527 Adams, Beaty and Moulton, Original Grantees, in said counties of Randall and Armstrong, containing 640 acres, more or less, locally known as the Goetz farm and lying in the Northeastern part of Randall County and the Northwestern part of Armstrong County.

Levied on this 8th day of September, 1919 as the property of Edd Hawkins, to satisfy a judgment amounting to \$8,059.73 and interest in favor of J. D. Goetz, and costs of suit.

Given under my hand this 8th day of September, 1919.

WORTH A. JENNINGS,
2413 Sheriff Randall County, Texas.

Notice.
THE STATE OF TEXAS,
To the Sheriff or any Constable of
Randall County—Greeting:
You are hereby commanded to serve
the following order and notice by
causing publication thereof to be made
for the time and in the manner there-
in provided:

"Now, on this the 8th day of Sep-
tember, 1919, at a regular term of
the Commissioners' Court of Randall
County, Texas, there was presented to
said court the following application
and petition, to-wit:

THE STATE OF TEXAS,
County of Randall.

To the Honorable Commissioners'
Court of Randall County, Texas:

Now come M. C. Nobles and H. A.
Nobles, residents of Potter County,
Texas, and respectfully show to your
honorable court as follows, to-wit:

That they are the owners of that
portion of Section No. 154, in Block
No. 2, Certificate No. 686, Adams,
Beaty & Moulton, lying and situated
in Randall County, Texas, and have
owned same since about the year
1906; that on or about the 28th day of
February, 1907, they caused a plat
thereof to be made and recorded in
Randall County, Texas, as is fully
shown in Volume 15, on page 206, of
the Deed Records of said county, to
which reference is here made for a
full description of said plat; that
the said plat is known as Glenwood
Addition to the city of Amarillo, Tex-
as; that none of the streets or alleys
in said Addition have ever been opened
and used as public highways and
that they have not been formally ac-
cepted by Randall County or any
other municipality as highways, but
that they are grown over with grass
and the entire portion of said section
of land lying in Randall County is open,
prairie land; that your petitioners, as
such owners of said land, are desir-
ous of cancelling said map and plat
and throwing the same back into acre-
age property as it existed before such
subdivision into lots and blocks,
streets and alleys, was made; that
your petitioners still own all of said
property so located in Randall County
and that the cancellation of said sub-
division and map and plat will not in-
terfere with the established rights of
any person whomsoever.

Wherefore, your petitioners pray
that your honorable court take such
action, give such notices, and enter
such orders, as may be proper or nec-
essary for the cancellation of said plat
and throwing the property above men-
tioned back into acreage.

W. E. Gee, Attorney for Petitioners.
"And, upon due consideration, it is
ordered by said Court that said applica-
tion and petition be heard and further
considered and action taken thereon
at the next regular term of this
court, to-wit, on the 13th day of
October, A. D. 1919, and that any
person or persons interested in the
land therein described be commanded
to appear at said time to protest,
if so desired, against the action prayed
for by the petitioners.

"Said application and notice of such
hearing and action shall be published
in some newspaper published in the
English language in said county, for
three weeks prior to action on said applica-
tion, as is provided by law; and a
true copy of this order, containing
said application as above set out, shall
be published as the application for the
relief prayed for and as the order of
this court giving notice of the time
that the court will take action upon
said application, and the clerk of this
court shall issue legal notice of such
hearing."

Herein fail not, but have you before
said court this notice, on the 13th day
of October, A. D. 1919, with your re-
turn thereon showing how you have

executed the same.
Given under my hand and the seal
of said court this the 9th day of Sep-
tember, A. D. 1919.

O. W. GANO,
(SEAL)
Clerk of the Commissioners' Court
of Randall County, Texas.

A true copy I certify.
WORTH A. JENNINGS,
2413 Sheriff of Randall County, Tex.

No Worms in a Healthy Child

All children troubled with worms have an un-
healthy color, which indicates poor blood, and as a
rule, there is more or less stomach disturbance.
GROVE'S TASTELESS CHILL TONIC given regularly
for two or three weeks will enrich the blood, im-
prove the digestion, and act as a General Strength-
ening Tonic to the whole system. Parents will then
throw off or dispel the worms, and the Child will be
in perfect health. Pleasant to take. 60c per bottle.

TERMS CASH

You'll Want This Combination

It is the Case 10-18 kerosene tractor and a two-bottom
Grand Detour plow. It is an ideal plowing outfit for either
small or large farms.

The tractor weighs about 3,500 lbs., just a trifle more
than a big team of horses. It burns kerosene economically,
developing full power on the same.

The Tractor has a four-cylinder valve-in-head motor,
mounted crosswise on a one-piece frame. A Case Siphon
Thermostat controls the cooling system and insures com-
plete combustion. The all-spur gears, with teeth cut and
hardened, are enclosed and run in oil.

The Grand Detour 2-bottom Automatic Lift Rigid
Beam Plow will fill the plowing requirements of the most par-
ticular farmer. Grand Detour plows are strictly quality
plows. They are light in draft, yet so well constructed that
they will give years of faithful service at a low cost of upkeep.

We would greatly appreciate the opportunity of telling
you more about Case tractors. Drop in and let's talk it over.

L. T. LESTER
CANYON, TEXAS

NOTICE: We want the public to know that our plows are NOT the
Case plows made by the J. I. Case Plow Works.

Wayside Items.

Rain began falling sometime Sunday night and up to the present time Monday p. m., we have a pretty good season.

Still some wheat to be threshed. When the weather clears up breaking will begin for another big wheat crop. Some have already begun.

Misses Ruby Lee and Agnes McGehee left Wayside Sunday p. m. for Beverly, where they expect to open school Monday morning. They have board with Mrs. Emma Jackson.

Mr. C. L. Gordon-Cumming and family from west of Canyon visited Mrs. L. J. McGehee Sunday and returned same day.

Wm. Payne and wife made a trip to Canyon last Sunday to visit with relatives. They were accompanied by Mrs. Lottie Whittle and W. J. Sluder and wife. Mrs. Whittle remained and will spend the winter with her daughter, Mrs. Ola Myers.

A card from Mrs. O. H. Minter, of Fitzgerald, Ga., informs the Wayside relatives of their safe arrival at home

Sept. 5th, after a very pleasant visit on the Plains.

Henry C. Long rented wheat land from Edgar Helms.

M. A. Butler found work with his cousin, J. S. Sluder.

H. R. Stone rented wheat land from Earl Wesley.

Roy Key expects to run his engine today and night breaking ground for Payne Bros.

Rev. J. T. Burnett of Canyon was here today. He is now engaged in Baptist evangelistic work.—Plainview News.

Capt. T. J. Tilson, Hale county's representative in the legislature, has had his chin whiskers shaved off. While of course we do not know what object he has in thus disfiguring himself, yet we are sure it is for some ulterior political motive.—Plainview News.

Piles Cured in 6 to 14 Days
Druggists refund money if FAZO OINTMENT fails to cure itching, blind, bleeding or protruding Piles. Instantly relieves itching Piles, and you can get restful sleep after the first application. Price 60c.

SPECIAL TRAIN FOR PANHANDLE PEOPLE

Arrangements are being perfected to run a special train from Amarillo to Dallas, account Panhandle Day at the Dallas State Fair. October 15 has been designated as Panhandle Day and it is earnestly desired that a large attendance of Panhandle folks be given on that occasion. Under the present congested conditions which prevail universally, it is going to be impossible to originate this train on various roads which converge in Amarillo. Consequently, the best arrangements we can make is to originate this special in the city of Amarillo and make the departing hour so that it will be most convenient to take up the passengers, discharged in Amarillo, on the day on which the special is scheduled to depart for Dallas.

This train will leave Amarillo late in the afternoon on the 14th of October, arriving in Dallas on the morning of the 15th which, as before stated, is designated as Panhandle Day. The return of this train will be begun on the evening of the 16th, solid Pullman train, from beginning to end, and first class accommodations for all passengers at reduced rates.

This train will be run under the direction of the Panhandle-Plains Chamber of Commerce and persons outside of the city of Amarillo will be given first opportunity to purchase rights thereon. There will be no tickets sold or reservations made for persons residing in Amarillo before October 6th. This will give ample time for people locally to make their reservations and will likewise give others sufficient time to insure the best accommodations for the trip.

Please make arrangements to attend this great event in the State of Texas and go with this special train and happy crowd.

A guarantee to a very immodest sum must be made to secure this accommodation. You will be notification as early as possible if you desire to avail yourself of this opportunity afforded by this special train. Please notify this organization if you desire to go and instruct us to make reservation for you, being careful to give us your name and address and just what time you will arrive in Amarillo.

Rest assured that nothing will be left undone to provide for your comfort and pleasure on this trip. Don't fail to visit the Victory Fair!

IN PREPARING your farm land you will need either a Disc Plow or a Disc Harrow. We have all of them.

The disc plow you can use in all kinds of land, wet or dry, being easy to operate and of a long life.

Janesville Budlong Disc Harrows need no comment it being well known by all good farmers to be the leader of all Disc Harrows. We can also furnish a tandem attachment for this harrow, making it a double disc harrow, so you can finish double discing as you go, one man doing the work of two.

Thompson Hardware Co.

WHITE & KIRK

THE PLACE TO BUY SHOES

What a wonderful opportunity to express your happiness that the war is closed and victory is ours.

There will be a special Panhandle exhibit at the Fair by fifteen or more counties in one section of the Agricultural Building. The cost is insignificant, the treat is wonderful and the Panhandle must be a marvel in keeping with the marvelous condition which prevails in this favored region. Address your request for reservation, which should be accompanied by a fee of \$16.58, with specific instructions as afore mentioned, to

F. R. JAMISON, Secretary-Manager, Panhandle Chamber of Commerce, Amarillo, Texas

Lakeside School Notes

Mr. and Mrs. Edwin Gidden and children from Memphis, Texas, visited at the parental R. E. Richard's home last week.

Otho Campbell and Dewey Runnels of Kirkland, Texas, Ross Service and wife, Alice and Will Richards spent Saturday night at the Jim Foster home.

J. P. Grimes returned from Vernon, Texas the last of the week.

M. H. Rockwall of Amarillo moved to his farm, recently bought from J. M. Stephens, Wednesday.

We have two threshers in our neighborhood and are progressing nicely with the threshing.

I. H. Henneshotz has rented a farm 4 miles north of Amarillo and will move soon.

I. H. Henneshotz and wife, Mrs. Carl Fulton and Mrs. M. C. Bradley visited Grandma Foster Sunday afternoon.

A Neighborly Deed

On Wednesday some of the friends and neighbors of J. Branstine made a trip out to the farm, and pulled the greater part of his crop of broom corn. It is expected that the good folks will gather again and finish the job at an early date. Mr. Branstine is sick in bed, but his friends in the locality do not propose that his crops shall suffer on that account.—Higgins News.

The Omsk Government began with o and ended with k, but it wasn't.—Columbia Record.

Plainview Has A New Bank

The Guarantee State Bank of Plainview was granted a charter at Austin Tuesday. It has a capital stock of \$50,000, and has adopted the guaranty plan of protecting depositors.

The officers are Rube J. Beard, President; L. P. Barker, Vice President, Cline D. Hensley, cashier.—Plainview News.

Publicity For Dallam County

R. U. Counts left today for the Hutchinson State Fair, with an agricultural exhibit that will make the people of the Sunflower State sit up and take notice. The collection made under the direction of the Chamber of Commerce. Suitable advertising literature accompanies the exhibit for general distribution. It is probable that at the close of the fair at Hutchinson the exhibit will go to Oklahoma City for the fair there. In October it is planned to send a large exhibit to the Dallas fair.—Dalhart Texan.

Come to Canyon to live.

THE WRONG METHOD

Anybody that goes on record as approving the strike method of settling wage difficulties, should turn from the error of their ways. A strike never won anything but trouble. And it never settled any dispute that could not have been settled some other way. The sympathetic strike is fruitful of more mischief than it can ever atone for, and is a source of crime and should not be tolerated by any body of honest thinking men. The man who goes from place to place stirring up trouble should be taken by the back of the neck and the seat of the pants and thrown out of every union labor order.—Higgins News.

C. T. Herring of Amarillo, president of the Herring National Bank of this city, has been named delegate to represent the banks of this county in the World's Cotton Conference to be held in New Orleans October 13 to 16. The Texas Bankers Association will be represented at the conference by a member from every county in the state.—Vernon Record.

City Market

I wish to announce to the people of Canyon that I have opened the City Market at the southeast corner of the square and am ready to serve you with first class meats, both fresh and cured, at all times.

It shall be my aim to keep the very best market in point of service, which shall at all times be perfect in points of sanitation.

I hope to have you call and give me a share of your business.

P. H. FLYNN

A TWO-FOLD DUTY

Many thoughtful mothers first give their children

Scott's Emulsion

regularly—and then take it themselves. It is a tonic-food that contains elements as needful to an adult as to a child. Build up your strength—try Scott's.

Scott & Bowne, Bloomfield, N. J. 19-4

Teachers Underpaid

Maybe not all teachers are underpaid, but the great majority are, whether they be grade, high school or college teachers. Even in localities where splendid school buildings are built, and equipped with the latest devices in education, the teachers sometimes lack adequate compensation.

Dr. Winship, Editor of the Journal of Education says: "In cities it has been easy to get money for elaborate school buildings but an increase in teachers' salaries was secured with difficulty. Why? Because real estate dealers, architects and contractors had infinitely greater public influence than educational value of bricks

A Coated Tongue? What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order.

Prof. HENRY METER says: "The liver is an organ secondary in importance only to the heart."

We can manufacture poisons within our own bodies which are as deadly as a snake's venom.

The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation.

A blockage in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes.

At such times one should take castor oil or a pleasant laxative. Such a one is made of Mayapple, leaves of aloe and jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

and brains."

Professor Swain of Swarthmore college, in a paper before the N. E. A. said: "If we spent billions to save the world, can we not spend millions to make the world worth saving? If we have poured forth our measure without stint to those who shape our steel and iron, can we not grant at least a living wage to those who are molding our life itself? The nation must come to the rescue of its schools for a nation without education is a coast without a lighthouse."

An editorial in School Life says that the character of our schools is being lowered at a time when it ought to be raised, because teachers are now paid much less for their work than mail carriers, policemen, cooks, telegraph messengers, and even unskilled labor. While the cost of living has increased nearly eighty percent in the last four years the salaries of teachers have increased on an average only about twelve percent. Small increases up to even twenty percent will not hold teachers for seeking more remunerative occupation. To quote: "It is not for the sake of the teachers that this policy is advocated. Schools are not maintained for the benefit of teachers. If men and women of ability are not willing to teach for the pay offered them, they can quit and do something else for a living, as hundreds of thousands of the best do: It is for the sake of the schools, the children and the prosperity of the people and the strength and safety of the nation that the policy is advocated." Exactly so.

"The future of America and all her interests are in the hands of those who have the children in their care," says Dr. A. E. Winship.

A Sinister Alliance

Germans are fraternizing with Russian Bolsheviki seeking to dominate in that country and gain strength for a new effort at conquest. It was America that saved the world and those who opposed the treaty propose that after having redeemed the world we should desert the world.—President Wilson.

There is certain to be an alliance of Germany, Russia and China. Germany was conquered by the valor of the American soldier. Then the allies turned upon the Russian Bolsheviki. Japan was awarded Shantung by Great Britain, France and Italy. Coming events cast their shadows before.

The Monroe doctrine was given to the world of the Occident by the United States. This republic is the protector or guardian of Mexico and all Latin nations.

If Japan elects to be the guardian or protector of China and all the countries of the Far East, then it is the business of Japan and not ours.

Americans should be willing to accord to others the prerogatives or privileges they claim for themselves.

NOISE BARS SLEEP

Airplane Factories Are Not Good Neighbors.

France Warns U. S.: Don't Build Plants Near Human Habitation.

Paris.—With the certainty that aviation is quickly to become one of the big industries throughout the entire world, Paris has a little warning for all of her sister cities of America and every other country.

The warning is this: Enact immediately, either state, municipal or national, legislation prohibiting the erection of airplane factories anywhere within hearing distance of where human beings have to live and sleep.

Otherwise, said human beings won't be able to sleep and will be driven in no time at all either into their graves or some far-away sanitarium.

Everyone knows how much rumpus an airplane makes when it is flying thousands of feet overhead. Well, every airplane motor before it is mounted has to be tested, and to be tested it is attached to a huge bench or platform and run continuously at top speed, with hundreds of horsepower back of it, for at least twenty-four hours and sometimes forty-eight.

During that period of time nobody living within hearable distance can possibly sleep.

At Suresnes, where motors are tested for forty-eight hours, it has been necessary to close an adjacent school.

At Puteaux the inhabitants declare they have not slept for months.

At Courbevoie the city council has resigned as a means of protest.

At Cligny the city has bought a large tract of land for the erection of a municipal hospital. Airplane factories during the war installed themselves in the vicinity and the medical authorities now refuse to let the city build its hospital in such a death-insuring locality.

The department of the Seine has been forced in the interest of public health to take measures to stop the airplane factories and get them moved into more isolated localities.

SOUTHWEST'S HARVEST ENDS

"Sanest" in History Is Boast—Army of 125,000 Men Employed—Business Men Help.

Kansas City, Mo.—The southwest's harvest, characterized as the "sanest" in history, is over. Higher wages were paid them ever before, and there was practically no radical agitation. An army numbering at times 125,000 men, advanced with the harvest from southern Oklahoma through Kansas and into Nebraska, earning an average of 60 cents an hour.

Federal officials say about 100 alleged agitators were arrested on vagrancy charges, but so far there has not been a single complaint of sabotage.

College students and returned soldiers predominated among the harvesters. The response was so large that it was unnecessary for side-line harvesters—boy scouts and high school students—to go into the fields, although many business men in small Kansas towns joined "twilight" harvest gangs.

Enter Stomach Pump, "Dry Time Necessity"

Pittsburgh, Pa.—Among other things that will likely prove popular now don't forget the stomach pump.

John Carlisle, as many more will be doing soon, attempted to devise a little cocktail of his own. Hard ridge and Jamaica ginger were the ingredients, and if a policeman had not heard John's cries for help his last cocktail would have been made. A stomach pump saved him.

WOMAN'S WILL IS UNIQUE

Bars Husbands, Wives and Widows From Interest or Benefit in Property.

Middletown, N. Y.—There are some unusual provisions in the will of Mrs. Helen S. Cutting, wife of Robert Fulton Cutting of Tuxedo Park, which has been admitted to probate at Goshen.

The will disposes of an estate estimated at \$200,000 in personal and \$200,000 in real estate. While the sons of the deceased are to have their shares in the estate paid to them at a certain time, the daughters are only given the income from their shares during their lives. The closing paragraph of the will reads:

"It is my will and I direct that no interest or benefit whatsoever shall pass hereunder to any husband, wife or widow of any child of mine."

Takes Son to Jail

Bloomington, Pa.—When George Gibson of Catawissa brought his sixteen-year-old son Alfred to the county jail he did it because he wanted to give the boy a lesson, but of the two the father was suffering the most and when the steel doors were closed behind the youth the father burst into tears. The boy confessed to taking \$5 from the store of H. E. Keenan & Son at Catawissa and was held in default of \$500 bail for court.

FIRST CLASS TAILORING

We have the best cleaning and pressing outfit that has ever been installed in Canyon, and we are ready to do your work on short notice.

J. W. Bates, an experienced tailor, will have charge of this department.

Prompt service; absolute satisfaction guaranteed.

Man Stabbed At Plainview

J. L. Dameron, age about thirty-five years, was stabbed twice by A. R. Rosser of this city, in an altercation Sunday. A knife was used and one stab was just below the heart and the other in the lower abdomen, the blade penetrating to the hollow.

Dameron is a tenant on the Rosser place, which is close to the Lubbock county line. They have been having some trouble lately, so it is said, over

Rosser's cattle getting into Dameron's fields. Sunday Dameron and Mr. Rosser and the two Rosser sons got into a difficulty over the matter, and the stabbing occurred.—Plainview News.

Hydrophobia In Dickens County

A number of cases of hydrophobia have been reported in the northeast part of the county in the Dumont section of country, and there has been

much excitement as a result.

It is said that a number of animals have been bitten by mad dogs, including horses, cows, and other dogs. Several horses and cows which were bitten and showing signs of madness, were killed, and it is said that numbers of coyote wolves are now mad as a result of eating the carcasses.—Spur Texas Spur.

Come to Canyon to live.

For Rent, Wheat Land

Will Rent 1500 to 2000 acres first class wheat land located about 20 miles Southwest of Claude, Texas, in high State Cultivation and now ready for the plow to be put in wheat this fall. Can divide and rent in smaller blocks. Men with good traction outfits preferred as, all wheat must be planted by Nov. 1st. If desired Can sell for approved paper, on long time—one, two, or three, good traction gasoline engines with plows and grain drills, all in good shape and ready for work—will rent for part of crop—can sell good seed wheat now on farm if desired. Apply at Mickle Ranch about 20 miles Southwest of Claude and about 20 miles southeast of Amarillo, Texas.

THIS IS AIM OF SOUTHERN BAPTISTS IN THEIR PRESENT DRIVE FOR \$75,000,000.

ENLARGE PRESENT WORK

Forces in Field Today Are Far From Sufficient To Meet Needs of Situation, Leaders Declare—Europe Included On Program.

Now that the larger liberties enjoyed by peoples everywhere, following the close of the world war, have revealed as never before the need and the opportunity for the spread of the gospel to all the ends of the earth, the Baptists of the South have launched their program for \$75,000,000 to be raised in cash and five-year subscriptions between now and December 7th, in the hope of making a worthy beginning toward supplying this world need. Of the total sum sought in this campaign, the actual drive for the funds

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Frezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!
A tiny bottle of Frezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Frezone is the sensational discovery of a Cincinnati genius. It is wonderful.

Prisoners Choke Sheriff

Sunday afternoon when Sheriff Coffee entered the jail to give the four prisoners their supper, the 3 who were recently detained therein for attempting to steal the Martin Automobile, pounced upon him and after overpowering and choking him down, took his gun, gave him a hard kick on the head with their fist and started to run. A fourth prisoner who is charged with attempting to cash a forged check did not try to escape, but when the crowd gathered, remarked that he wasn't wanting out. Soon everybody was after the three men who had only a few minutes ago went up the draw east of town, and after a lively little foot race, they were back in jail and under lock and key in their cells, but the fourth man was now missing. A search was made for him up the canyons, some passing trains were searched very closely and an organized effort was getting together to make a thorough search, when he was discovered on top of the cells in the jail building, and said that he had been asleep, lying flat up there and not visible from the floor.—Miami Chief.

Dogs.

As long as so many people love their dogs as well or better than they love their children, the Pasteur Institute will flourish, and the sheep industry will languish.

Are there men who love their dogs more than they love their women and children? There are men who keep their women and children "pore" and their dogs fat.—Monthly-News Bulletin.

DR. J. F. LOVE,
Of Richmond, Va., Secretary of Foreign Missions for the Southern Baptist Convention.

to be made during Victory Week, November 30-December 7, \$43,000,000 will be devoted to missions, and \$20,000,000 of this sum will be devoted to enlarging the work on the ten important foreign fields occupied already and to opening up new fields where countless millions of peoples have not yet heard the story of Jesus Christ.

Asia, Africa, Latin America (including Mexico as well as South America), and Europe are the four continents in which the missionaries of Southern Baptists are operating today, but in all of the ten countries of these continents, Southern Baptists have only 316 missionaries, 787 native workers, 192 of whom are ordained, 12 foreign physicians, 6 foreign trained nurses, 21 native physicians and 23 native nurses. "Our missionaries already on the field have wrought wonderfully for the Master, considering the difficulties they have had to confront," Dr. J. F. Love, secretary of foreign missions, declares, "but we at home have not supported them as we ought with helpers of all kinds and with schools, hospitals and other agencies to enable them to do a larger work in every way. The smallness of the work we have done already can be realized when we look at the vast number of people who have not been reached in the foreign fields we are occupying today. China, for instance, has a population four times that of the United States, or one-fourth the population of the entire world, and our force there consists of only 66 men, 62 married women, 49 unmarried women, 54 ordained natives and 420 unordained native helpers. Japan, which has half as many people as the United States, is being served by 9 men, 8 married women, 3 unmarried women, 11 ordained natives and 6 unordained native helpers. In Italy there are a third as many people as there are in the United States, yet we have there only 2 men, 2 married women, 25 ordained natives, and 3 unordained native helpers. Mexico has 15,000,000 people, and we have in that country and on the border a missionary force consisting of 11 men, 11 married women, 3 unmarried women, 24 ordained natives and 15 unordained native helpers. Argentina has a population of 8,000,000 and our missionary force there consists of 7 men, 7 married women, 14 ordained natives, and 7 unordained native helpers. In Africa, we have entered only one state, that of Nigeria, but this state has a population of 20,000,000, and to serve those people we have only 7 men missionaries, 6 married women, 3 unmarried women, 3 ordained natives and 52 unordained native helpers. Brazil has a territory larger than all the United States and a population of 50,000,000. Serving those people we have a force of 54 men, 33 married women, 2 unmarried women, 69 ordained natives, and 52 unordained native helpers. Our work in Chile, where there are 3,000,000 people, is only two years old, but we have 12 churches, and 15 out-stations in which last year there were 122 baptisms. We need at least 200 more missionaries now and from the proceeds of this campaign we hope to employ them and then equip them and those on the field already for doing the largest work for the Master."

The striking actors have quit work by refusing to play.—St. Louis Post Dispatch.

China is so thick-headed she can't understand why the policeman who recovered the stolen goods is to get it

all.—Little Rick Arkansas Democrat.

Now, if Congress would only amend the law of supply and demand so that we would have more supply and less demand, the solution of our troubles would be simple.—El Paso Times.

Three Words
There are three words, the sweetest words
In all of human speech—
More sweet than are all songs of birds,
On pages poets preach.
This life may be a vale of tears,
A sad and dreary thing—
Three words, and trouble disappears
And birds begin to sing.
Three words and all the roses bloom,
The sun begins to shine.
Three words will dissipate the gloom
And water turn to wine.
Three words will cheer the saddest days—
"I love you?" Wrong, by hee!—
It is another, sweeter phrase,
"Enclosed find check."

Camel CIGARETTES

18 cents a package

Don't look for premiums because, as the case of CAMEL Cigarettes in this tin shows, the use of them is a pleasure in itself. You will find a coupon for a premium on every cigarette.

Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

If you want to know what rare and unusual enjoyment Camels provide smoke them in comparison with any cigarette in the world at any price!

CAMELS are a cigarette revelation any way you consider them! Take quality, or refreshing flavor and fragrance; or, that wonderful mellow-mild-smoothness you never before got in a cigarette smokel Yet Camels are so full-bodied and so full-of-satisfaction you marvel that so much delight could be put into a cigarette!

Camels expert blend of choice Turkish and choice Domestic tobaccos makes them so irresistibly appetizing! And, the blend explains why it is possible for you to smoke Camels liberally without tiring your tastel You will prefer Camels to either kind of tobacco smoked straight!

You'll realize pretty quick, too, that among the many reasons you smoke Camels is their freedom from any unpleasant cigarettey aftertaste or unpleasant cigarettey odor!

Once you know Camels you won't take much stock in premiums, coupons or gifts! You'll prefer Camel quality!

The Randall County News

Incorporated under the laws of Texas

C. W. WARWICK, Managing Editor

Entered at postoffice at Canyon, Texas, as second class matter. Office of publication, West Houston St.

SUBSCRIPTION, \$1.50 PER YEAR

The high cost of living will never be settled as long as the present condition of unrest exists among the people of the world. In all parts laborers are fighting to reduce the cost of living by refraining from needless labor which ultimately adds just so much to the present high level. It is a time needed for cool heads to keep the people quiet. It is no time for hot heads to have control, as is too often the case. As long as present conditions exist, industries cannot get back to a peace basis. The strike is simply adding to the burden of those who indulge in them.

The mayor and city officials of Boston asked the striking policemen to return to their jobs. They refused. Samuel Gompers asked them to go back, which they did willingly. The Boston officials under these circumstances declared the places vacant and are looking for new men. Laboring men should have more sense than to listen to some official in Washington, rather than men with whom they associate and deal every day.

Every church and every welfare organization is making great drives for money. The war taught how easily the job could be put over, and the different organizations are going to see that their coffers are filled before the people forget how to give. Americans are going to give more liberally in the future than they have in the past if their confidence is not betrayed in the giving. The organizations have the responsibility of seeing that the money is not wasted.

There is still a large amount of wheat to be threshed in Randall county. The biggest row crop in the history of the country is waiting to be cut. The big rains of this week puts the ground in excellent condition for wheat. Randall county's farmers see nothing before them but work for the coming few weeks. And this has been the program ever since planting started last spring. If you don't like work, don't try farming in Randall county.

A timely warning is issued in this edition of the News by the State Board of Health regarding the flu. Canyon's officials should make strenuous efforts to put the city in a perfect clean condition in keeping with recommendation of the Board of Health. No step should be overlooked which might lead to checking an outbreak of the disease this year. Let Canyon be made absolutely clean.

Canyon was flooded with mail order catalogues this week. The local merchants can and are selling goods as cheaply as these mail order firms, but to combat these outsiders, they must sell the people what they have and the prices at which they are selling the goods. Mr. Merchant, it's up to you.

The government has ordered inventories taken of all railroad properties in order to turn them over to private management on Jan. 1. Former officers will be re-instated sometime before the return is made in order that they may be no hitch in the service. The people are in unanimous desire that the charge be made.

Get ready for the Randall County Fair, Saturday, Sept. 27. Bring to the fair every good sample you can find. The Fair can be made a great success by the proper cooperation of every citizen of Randall county. Get ready to do your part and urge that your neighbor do likewise.

Build sidewalks in Canyon. The effects of that fine new paving will be spoiled if Canyon does not have the proper sidewalks. Walks on both sides of Evelyn and Houston streets are of utmost importance, and walks on other streets will do wonders for the town.

The fine rain insures a big yield of the late row crop and puts the ground in condition for wheat planting. Randall county's big crop of this year will be followed by a much bigger acreage under cultivation next year.

Sixteen states have ratified the suffrage amendment. By next March a sufficient number will have ratified to put the amendment in force. The women will get a vote in the coming presidential election.

A reliable writer says that 60 per cent of the people of the west favor the treaty of peace and League of Na-

tions just as written—this in spite of Johnson and Borah both of whom come from the west.

Report from Washington says that the Stars and Stripes, the official weekly newspaper of the A. E. F., will be published in Washington by the same bunch of editors who worked in France. Every man who was overseas is interested in this announcement as the Stars and Stripes was more closely read than the family bible, especially when news of the outfits scheduled to come home was being published.

Representative Blanton of Texas is getting enough publicity to do for the whole Texas delegation, and is also wasting more of the nation's money by his foolish attitudes. He is getting in the same class with Bob La Follette.

Randall county has more registered Herefords than any county in west Texas. Now the registered hog raisers are getting busy to show the world that Randall county produces something besides fine cattle. More hogs is the thing. Better cattle and registered hogs are world beaters.

Live stock on the markets has taken a decided fall in price, but the retail prices continue at or above the same level as has been maintained during the past few months. The producer is getting the raw end of the deal, as is his usual lot.

Lloyd George is demanding that the ex-kaiser be brought to trial. According to the peace terms, he must be tried. To let him escape would mean bowing to the German bluff and one successful bluff will be followed by others.

October 4th is set as the day for county conventions to be held by the American, Jim Ferguson's party. So far no announcement has been made of a convention in Randall county.

Petitions are being circulated in the state, asking Joe Bailey to run for governor. If Joe should grant this request, upon what ticket will he make the race?

The president of the "Irish Republic" is spending lots of time camping at pink tea parties in America to hold the important position that he does in Ireland.

Again the News has its frog pond with us—right up to the front door of the office, but we are hoping that by next spring to see some fine paving taking the place of the present water and mud hole.

The Randall County Commercial League needs you as a member and you need the Randall County Commercial League to help your business. Purely a mutual need. Kick in.

Randall county is among the very few counties of the Plains in which the American Legion has not yet been organized. The men entitled to membership should get busy.

John D. Rockefeller is probably the worst abused man in the United States though nobody has equalled the princely gifts he has made to the public. Most of this abuse is doubtless due to envy. No doubt Rockefeller was a better business man than his numerous competitors who sought to put him out of business, and if he turned the tables on them, we can't see that outsiders need to tear their shirts over it. Without Rockefeller's wonderful organization we would have to pay more for oil. He has been able to furnish better and more employment than anybody else in the country, and chances are that the next generation will consider him the greatest philanthropist of this age. On the other hand, in a republic where all men are considered free and equal, the power wielded by this one man, greater than that of any king or emperor, should cause anxiety. If Rockefeller does not abuse this power, what guaranty have we that his successor is going to follow in his footsteps? The graduated income tax to do away with swollen fortunes is probably our best protection.—Quannah Tribune-Chief.

"Oh, for some Burbank of the West To patent, grow, and sell An onion with an onion taste But with a violet smell."

Maize The Best Feed Crop
C. P. Sandifer has just finished gathering 17 acres of maize. He sold one-third, which was his rent on the 17 acres, at \$25 per ton, and says that if the whole crop had been sold at that price, \$50 per acre would have been realized. That means that the ground produced two tons to the acre which is a splendid yield. Counting up all the expenses of making and gathering the crop, maize appears to be about as profitable a crop as can be raised, even at the price of \$25.—Crowell News.

Come to Canyon to live.

MRS. E. G. NORWOOD KILLED FOUR OTHERS INJURED

Automobile Struck By Train North Of Plainview Sunday.

Plainview News—Mrs. E. G. Norwood, age 49 years, was killed and her two daughters and two sons were injured in an automobile accident Sunday morning about 8:40 o'clock, at a railroad crossing five miles north of Plainview, when the car in which they were riding was struck by the south bound Santa Fe passenger train.

Mrs. Norwood was almost instantly killed. Her face and nose crushed, right collar bone broken, right shoulder and breast crushed to a pulp, right hip dislocated, and there were many other wounds on her body.

Mrs. Norwood and family made their home near Eastland, and are owners of the famous Norwood well, one of the big gushers in the Ranger field, their income from it being reputed to be several thousand dollars a day. They had been on a trip to California and Colorado. Mrs. Norwood and children were in a big new seven passenger Buick car. For quite a distance beyond the crossing the dirt road runs almost parallel with the railroad track, gradually nearing it until the crossing is reached. Mrs. Norwood and children were laughing and talking, and did not know the train was approaching until it had almost touched the car though it is said by passengers on the train that the locomotive gave several alarming toots of the whistle. Miss Norwood when she saw the train so close turned the car down the track but it was too late and the side of the pilot of the engine struck the front right wheel of the car, and going at a rate of about forty miles an hour, the locomotive in striking the car caused the rear end to be thrown around, it striking the tender. The car was then thrown from the train, a mass of ruins.

Fooshee-Johnson Wedding

Miss Iva Fooshee and Grover C. Johnson of Wellington were married Saturday at the home of the bride's sister, Mrs. Bert Clark, Rev. B. F. Fronbarger officiating. The bride and groom will make their home in Wellington where the groom is in business.

Arthur Middleton In Plainview.

Arthur Middleton, one of the great baritone singers of the country, will give a concert at the Presbyterian church in Plainview the night of November 10.—Plainview News.

Opening New Market.

P. H. Flynn of Floydada is opening a new meat market at the southeast corner of the square, his business being called the City Market.

Building Addition.

Elmer Prichard is having a two room addition built onto his house on Canyon street.

Stork Special.

A daughter was born to Mr. and Mrs. Joe Findley Saturday.

Household Hints.

A teaspoon of salt will season a quart of vegetable soup.

Wipe the oil stove with a greased cloth to keep the enamel clean.

A convenient way to melt chocolate is to put it into a glass jar and stand in hot water.

Rust can be removed from steel by covering it with sweet oil for a day; then rub with a lump of fresh lime and polish in the ordinary way.

Grate two potatoes into a basin of warm water and wash the delicate flannels, woolen goods, ribbons, etc., in this. It gives better results.

A grape basket for the clothespins with a wire hook fastened to the handle will save much time when hanging out clothes, as it may be pushed along the line and is always handy.

If you want a spongy light cake, use sour milk. Sweet milk will give you a firm cake similar to a pound cake. Never mix sweet and sour milk for the same cake. Buttermilk makes a very light cake and less eggs are required when this is used.

It is predicted that eggs will be one dollar a dozen next winter. The hens are getting a sweet revenge for the indignity of having to sit on porcelain eggs.—Worcester Gazette.

We are with the ministers if they strike for better-paid sermons, unless they ask time and a half for overtime.—Detroit News.

The railroad men seem to have overlooked the fact that it isn't the strikes but the runs, which win the game.—Columbus Dispatch.

The little pig that went to market in the old days now has descendants who spend all their time in the color-storage plants.—Dallas News.

Now behold! the shoulder scarf of the heavy silk jersey fabric, tricotine and tricolette and the rest. This scarf is made with fringed ends of course.

Buy A Home--Money to Loan Farm and Ranch Lands For Sale

Canyon, Texas, Sept. 16, 1919.

The rainy season is on and it appears to be general over the Panhandle this week. New improvements for the West Texas State Normal College campus are to be built soon to the amount of \$180,000.00. New homes are being built, mechanics and farm laborers are in demand, street paving for Canyon City. Many new people are buying homes in Canyon for high school and College advantages. Fine crops made and reported for Randall County, Texas. High mark—wheat, 50 bu. and 25 lbs.; Barley, 60 bu.; Oats, 109 bu. per acre. Good Morning Mr. Home Seeker, Come in, we welcome you, opportunities await you. BUY A HOME today and before the sun goes down. See a list of our homes, land and cattle for sale.

Three sections of land in Deaf Smith County, Texas, quite well improved with two sets of improvements practically new, about 300 acres in cultivation, located about 16 miles northwest of Canyon, about 10 miles south of Wildorado, R. I. R. R. and about 10 miles north of Umbarger on A. T. S. F. R. H. Price, \$17.50 per acre, patented land. I believe this to be a bargain for some one and I only have until the first of October, 1919, to make this sale. My listing time has about expired.

One good section of patented land, all under fence, five miles south and two miles west from the original town section of Canyon, Texas, 125 acres in cultivation, price \$16.00 per acre. Terms may be arranged to suit the purchaser.

Two and one-half sections of land about 15 miles southeast of Canyon, with two sets of improvements, six room house, barn and shed about 40x40 feet, two good wells with windmills, 400 acres in farm, all fenced and cross fenced on one section. Price of this section, \$30.00 per acre and the two sets of improvements on the one and one-half sections consisting of one house, barn 14x32 feet, two wells and windmills, about 60 feet of wind-brake ready for covering, covering, corrals and about 100 acres broken out. Price of this one and one-half section is \$21.00 per acre. The two places will have to be sold together. Terms may be arranged to suit the purchaser.

Three sections of land located about ten miles southeast of Canyon with two sets of improvements on the two sections. Seven room house, well and windmill on one and a good eight room house, well and windmill, two drink tubs, shed, corral, 300 acres in farm, all under fence and cross fenced on the other. The crop is very fine on this farm but is not included with the prices herewith but would sell the crop and stock on the said tract of land if the purchaser desired to buy. Price of land, \$22.50 per acre. \$7,000.00 first cash payment, balance may be arranged to suit the purchaser. Notes bearing interest at 8 per cent per annum, payable annually. Seventy-five cows at \$90.00 per head for cow and calf. Thirty-two heifers at \$50.00 per head. Twelve or fourteen head of horses and mules. Land may be sold without the stock.

480 acres located three and one-half miles south of Canyon. Five room house, barn 24x30 feet, one well 70 feet deep, windmill, all under fence, about 150 acres of land in cultivation. Price, \$30.00 per acre. Terms may be arranged to suit the purchaser.

320 acres of land under fence, located one and one-half miles north of Canyon, and a very desirable tract of land. Price \$30.00 per acre, provided we can make quick sale.

320 acres of land about twelve miles southeast of Canyon, one three room house and one four room house, three wells, two windmills, one horse barn 38x40 feet, board corral about 50x50 feet, one cattle barn 36x104 feet, one silo, all under fence and cross fenced, about 300 acres in cultivation. One and three-fourths sections of lease land may go with the land listed for

CONSOLIDATED TEACHERS' INSTITUTE A GREAT SUCCESS

The Consolidated Teachers Institute of the Panhandle and Plains Counties which was held in the West Texas State Normal College from September 1-5, was a great success, and conclusively demonstrated the advantages of a large institute over the usual small institute. To-day, when so many teachers are quitting the profession for other work, the profession is likely to close in enthusiasm. Large gatherings of people interested in a common cause stimulate enthusiasm and contribute to professional spirit. Nor is this the only advantage of a large institute. At the institute in Canyon, several school authorities secured teachers for their schools.

Many factors contributed to the success of the institute: excellent lectures, profitable instruction, and good spirit among all. The teachers attended all of the exercises well, gave the best of attention, and showed a willingness to work. Professor H. W. Morelock, Head of the English Department of the West Texas State Normal College, was conductor of the institute, and he filled that office with a vigor that lent enthusiasm to the whole meeting.

Lecturers and Instructors.

J. A. HILL (M. A. University of California) President of the West Texas State Normal College.

One of the most interesting and instructive lectures of the week was given by President Hill Friday morning on the subject of "A Program for Higher Education in Texas." He reviewed briefly the aims and purposes of the founders of our State Institutions, and decried the present rivalries which exist among them. For the present condition he would substitute an organized system of education in the state, with co-operation rather than competition as the governing policy. As one means of meeting our present educational crisis, he suggested that the curricula of the colleges and universities be so extended that

they will compare favorably with the requirements of other leading professions. In closing he said, "When we raise the requirements of our profession, then those who are engaged in other professions will have a greater respect for our profession, and we will not need to unionize to get a just compensation for our services."

THOS. W. BUTCHER (M. A. Harvard) President of the Emporia, Kansas State Normal College.

The teachers attending the institute were peculiarly fortunate in the opportunity they had of hearing the lectures by President Butcher. He is a man of sound scholarship, aggressive policies, and he has a lively and intelligent interest in present day problems.

His first lecture was "Some Observations on Government in America." He emphasized the fact that our fear of government has cheapened citizenship. "In her fear of placing too much power in the hands of the Federal Government, America made the matter of becoming a citizen so simple that, prior to the World War in 1914 it was possible for a man who had no education and who could not speak one word of the English language to land in New York, and in six months and three days later vote with best citizens of Kansas. He said that one of the great problems of teachers is to educate, to Americanize, this cheapened citizenship which has been allowed to creep in and undermine our social and intellectual life.

Perhaps his most novel lecture was "Problems in Education Growing out of the West." He contended that "Out West" has never been a place, but a spirit—"the spirit to dare and do." He said, however, that these bold adventurers had skimmed the cream of the land, that they had tapped the primitive store-house of our resources, and that only waste had resulted. "Thoughts of conservation," he continued, came only when there was no longer any 'Out West' and the law of diminishing returns began to operate. The 'Out West' now, or the opportunity for the young people which the West has heretofore given, must be re-created in the form of some new method of conservation of our resources or our time. He closed by saying that the teacher's business is to aid in the conservation of America's best life.

His third lecture, emphasized the need of a more practical, common sense curriculum for our schools. He urged that health-training and training for parenthood should be given more attention by our educators. Not only this, but the curriculum should lay a wide range of possibilities before the child. This done, teachers and parents should stand aside while the child makes his own choice of his life work.

THOS. W. BUTCHER

B. B. COBB (A. B. University of Texas) Superintendent of Waco City Schools.

Superintendent Cobb was present during the entire institute, and he gave a number of inspiring and helpful addresses. He is one of the most prominent school men of Texas, and has been honored with several important positions. Among these are "Member of the State Text Book Commission," "Committee on Classification and Affiliation of Texas High Schools," and a member of "The Southern Commission on Accredited High Schools." His lectures before the general assembly were as follows: "The Status of the Teacher," "A National Department of Education," "Problems of the Rural School," "Teachers' Organizations," and "Supervision by the Superintendent or the Principal." Perhaps the most distinguishing merit of these lectures was their practical value to teachers in their every day work in the school room. Superintendent Cobb also rendered valuable assistance in the section meetings. His thorough grasp and intimate knowledge of public school problems, his pleasing personality, and his sympathetic interest in the teachers and their work made him very popular with all the teachers.

MISS MARY RIDDLE, Primary Teacher, Waco Public Schools.

Among the many interesting features of Miss Riddle's work were the demonstration classes in Reading, Phonics, and Language in the First Grade. She loves children and is devoted to her work. That she was very popular with the teachers was evidenced by the great number which crowded her room.

Professor Morelock gave the institute a rare treat in his lecture on "How Shall We Function Literature in Present Day Life?" Among other things he said, "Literature, like the Bible, demands a spiritual response to its content." We must function literature in the emotional and spiritual life of the individual before we can hope to function it in life outside." He insisted that we omit much that is being taught to-day in connection with literature, and that we teach largely that literature with

PROFESSOR H. W. MORELOCK (M. A. Harvard) Head of the English Department, West Texas State Normal College, Conductor.

a universal appeal, which will function in any and all life.

Other Prominent Lectures

Superintendent M. H. Duncan (M. A. Yale) of the Amarillo City Schools gave a very interesting address on "The Schools and the Present Crisis." He also addressed the high school section.

Professor B. A. Stafford (M. A. Emory College) gave a very spirited address on the subject of "Language." He challenged the statement that any

THE COLLEGE VIEW.

The farm boy says to the college president, "My dad owns two thousand acres of land in Texas. He pays five hundred dollars tax every year to support this State and its institutions. I've herded cattle and run a go-devil to produce food for other folks ever since I was big enough to sit alone on a horse, and when my big brothers went to the army we couldn't get a town man of any kind to help us so mother and the girls went to work in the field. Now here I stand beside this town guy. His father may be a lawyer, doctor, preacher, teacher, clerk or soda pop man. It makes no difference. Not one of them are willing to go on a farm and live and work in order to feed themselves. They may pay taxes and they may not. No matter about that. That is democracy. For those who have been industrious, economical, and successful financially to provide schools for those who cannot provide schools for themselves. That is the United States, to draft by law the strong to help the weak, the rich to help the

poor. But I am a farmer's boy. I want to enter a good State college. I have done everything the State has provided for me to do. But you accept the town boy's grades and pass him in, and turn me down because I could not attend an affiliated school."

With a spirit of rebellion ranking within him the farm boy must decide against either the farm or the school. He sees and knows there is something unfair somewhere. He don't know whether the trouble is on the farm or with the State colleges.

But the college president hastens to show him. "You see how it is, my boy. We would like to have you. We would like to enroll your father's and mother's interest (and bank account) in our school, but we must have a standard to go by. We must have certain rules and laws. And don't you see you have not complied with these rules? Don't you see your grades are not up to the standard? Now this young man comes from an affiliated school. We can accept him. He is prepared. Don't help the weak, the rich to help the

are not made to fit the people. The people must be made to fit them. Why, if we were to accept every Dick, Tom and Harry that wanted to come here to school, we would soon be forced to build another college. We haven't enough room now for those who are entitled to come and if we were to ask for an extra appropriation to make room for everybody, the farmers would kill it. They are our biggest taxpayers, but you can't interest them in education." About that time "Long Boy" gives the president a penetrating look and says to himself, "Well, I may not know what this war's about but you bet, by gosh, I'll soon find out. I'll go through this institution or bust. Where's the place where you take them examinations? I'm not afraid of them. Put 'em up there. Guess I stood at the head of my class. Most of the time there wasn't nobody else in it but me. Why, I got all the attention and most of the teaching in our school. Most of the girls that taught our school would a been glad to give up their job and their future higher education, too, for me and my

dad's automobile. I'm going to graduate at this institution and then run for the Legislature if they'll let an educated man run for the Legislature in this State, and when I get to making laws I'll fix it so the country mouse will have as fair a chance to enter college as the city mouse. So goodbye, Ma, goodbye, Pa, goodbye farm, home and all. I'm going to get in with the guys that rule and make some new laws for the country school." This is what Long Boy is saying to himself as he stumbles out of the president's office in search of the cell where they take these examinations.

Now, what do you think about it? Do you think the boys and girls from the rural districts and the small towns should be forced to take an examination over four years of work before they are accepted in any of our higher colleges or State institutions, while the boy or girl with a diploma from an affiliated school is passed in without a question? Are the rural boys and girls to blame because they live in the country and cannot attend an affiliated school? Should this educational penalty be placed on the rural children who struggle as hard for their college preparation as the others? Is this not a reflection by the State on its own children? This law will hold thousands of boys and girls out of college this year. They are afraid to try. On the other hand, hundreds who are entitled to go will not go and the very boys and girls who have the poorest chance to attend a good school will be barred because of their grades, while those who have attended the first class high school already have a liberal education. Does Texas practice true democracy in the education of our children? When Uncle Sam wanted a farm boy to fight he did not require him to present a diploma from an affiliated school. He took him as he was and prepared him for service.—By Phebe K. Warner in Ft. Worth Star Telegram.

ADVICE FROM BUSINESS

MAN TO BUSINESS MEN

The city editor of the Los Angeles Examiner sent a reporter to interview the head of a business firm which is making a great success with its trade in South America, China and India.

The reporter got three minutes of the man's time and a column story. Into that three minutes and that column was crowded a good deal of worth-while information and sound advice. The soundest of the advice was this:

"When there is a big thing to go after and you can't go yourself, send a better man."

One of the great mistakes of business is trying to save money. Trying to make a cheap man do a good man's job.

Many a sale has been lost; many a profit has been thrown away because the man sent to do the job wasn't as big as the job required.

In the ordinary walks of life you hire a man to do something because of one of two reasons: Either you do not want to do it yourself or the man can do it better than you can.

The man you pay to cobble your shoes is a better shoemaker than you are.

The man who paints your house is a better painter.

The man who drives your automobile is a better driver.

Why, then, should you hire a man to do business for you who knows less about it than you do?

This does not mean that young men should not be taken in and trained in your business. That is a necessity. But one of New York's best known business men coined for himself and his associates this advice: "You must suit the man to the job, not the job to the man."

The Los Angeles merchant was right, and he has proved it by his success, when he said: "When there is a big thing to go after and you can't go yourself, send a better man."

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS Chill TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS Chill TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS Chill TONIC has made it the favorite tonic in thousands of homes! More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS Chill TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.
