

# Annual Clearance Sale END SEASON CLEAN UP

Regardless of the fact that this season's business has been very much the heaviest in the history of this Company, we find that we still have thousands of dollars worth of spring and summer goods, that must be disposed of regardless of cost. Our big fall shipments will soon be moving; we will have to have room to display them, and CASH to pay for them. To this end, we are putting on the biggest reduction sale the people of Canyon and Randall County have ever attended. Beginning Friday, June 25th, reductions will take place in all departments, and will continue until Saturday, July 3rd.

There can be very little, if any, decline in the prices of Merchandise for fall. In fact in a great many items there will be some advance over present prices. For instance, our allotment of Gingham for fall is 90 pieces, and at an advance of 6 1-2 cents per yard over what our present stock cost us. The big decline in the prices of Shoes, which the papers have talked so much about, amounts to an average of exactly 18 cents per pair, from Infants to Men's, under the highest price reached some months ago. We haven't a pair of Shoes in our house that was bought on the very highest market. In fact, we have hundreds of pairs in stock that we own at from \$1.00 to \$3.00 under today's market. Same applies to hundreds of other items in our stock.

**The Randall County News**  
 Incorporated under the laws of Texas  
 C. W. WARWICK, Managing Editor  
 Entered at postoffice at Canyon, Texas, as second class matter. Office of publication, West Houston St.  
**SUBSCRIPTION \$2.00 PER YEAR.**

Wanted—A candidate for county commissioner. A substantial business man with the interest of Randall county at heart is most desirable. The fact is there is no candidate for this most important office from precinct number one of Randall county, which comprises the city of Canyon. The present commissioner, Mr. W. C. Baird, stated some weeks ago he would not accept the position for another term. He has held the office with credit to himself and the county, and it is very much regretted that he did not file for a place on the ticket. The situation is this. Under the law no name may be printed on the ticket, unless some means may be found yet unknown to the executive committee. No one has asked for the place. There is absolutely no question about this office being the most important in the county, yet having little compensation for the duties and responsibilities of the office. A good man must be drafted for the position, and the voters urged to write his name on the ticket. If no concerted action is taken, scores of names will be written on the ticket in the July primary, and perhaps some one elected whom the people do not want. The commissioners have to do with the entire business of the county—schools, roads, finances in general. It is a big job. Let a good man be selected and urged to accept this position.

It was a great entertainment that the Houston people gave for the members of the Texas State Press Association during the annual convention held in that city last week. If there is anything small about Houston it is well in the back ground. There was so much entertainment during the three days that there was little time for business. The first day a boat ride four hours to the bay with a big fish dinner and theatre party at night all were enjoyable affairs. The second day the press gang were taken to Sugarland where 250 chickens valued at 65 cents per pound were slaughtered and fried to a queen's taste, together with all the necessary fixings made another delightful outing. The third day the bunch was taken to Galveston for their annual bath in the gulf, following which another fish dinner was served. Yes, it was a great time and all came away singing the praises of Houston. Galveston was equal to Houston in the entertainment of the members of the Texas Typothetae, Monday and Tuesday, although this gang was composed largely of job printers, among whom were representatives from the biggest plants in the state, and two from Chicago and one from Kansas City. From an educational standpoint this meeting was superior. But gee, it's hard to get back to work after such a sumptuous ten days vacation.

The refusal of McAdoo to allow his name presented as a candidate for the presidency in the democratic convention comes as a distinct surprise. Some are lead to believe he is playing politics, as Hoover did. If so, he will soon shrink into nothingness as quickly as did Hoover. Others believe that it is a move to place Wilson in nomination for the third time, which is pure foolishness. Wilson is a sick man, and the United States needs the strongest and healthiest man in American in the presidency today. McAdoo no doubt was the most popular candidate and could have been nominated had he chose to accept. The News believes he was the strongest man personally that the party has, but at the same time his relationship to Wilson would have been a bar to his nomination, and he has done well for himself and the party to make this refusal.

Is it possible for a man in the public service to tell the truth? Traveller walked into Galveston railroad ticket office Monday afternoon asked for reservations for Brownwood to Slaton Friday night. Agent writes telegram and says will send. Calls again Wednesday, agent says he has not heard, but sure reservation will be made. Traveller arrives Brownwood Friday night. Agent says no message from Galveston received. Everything sold out for two days. Absolutely nothing left, not even an

upper. Train starts, goes to Pullman conductor, who says none of the uppers are sold, and he has just sold two lowers which had not been disposed of by Brownwood Agent. Why is it easier to lie than tell the truth?

It is becoming quite evident that Harding is not an acceptable candidate to a good portion of the republican party. The progressives are bitterly disappointed and ready for most anything. The selection of Coolidge for second place was a master stroke in that he is progressive as the most radical would desire. However, there is a feeling that the biggest man was placed in the minor place on the ticket, and Johnson and his followers may yet bolt. Were it not for Johnson's undying hatred for Wilson, which is only excelled by that hatred of Lodge and the old guard, Johnson would no doubt have walked out as did he and Roosevelt. We shall see what we shall see.

Bailey's manager has announced that Jos. Welton will be in the second primary, which should be good news to his opponents who were certain that Joe would win hands down in the first primary after his overwhelming and almost unanimous victory in the county conventions of Texas of May 1st, after which the honorable Joe went back to his home in Washington fully appreciating the gratitude that his native state had displayed in welcoming their long lost son back to save them from the disgraces of following the fortunes of the national administration.

From all over the state indications are clear that R. E. Thomason will be the leading candidate in the first primary, with a very good chance of getting a majority. He is a western man, stands for everything the west demands, and the west should be solidly behind him. He will make a good governor not only for the west but for all Texas.

George W. Perkins is dead. He was probably the most friendly to labor of any of the big business men in the country, and did most to keep down trouble and give the laboring man a chance. This was in the good old days. The unions of today can take care of themselves.

An ad in the San Antonio papers states, "To reduce the h. c. l. we have reduced the price of our goods 20 per cent." It is signed by a popular undertaking company. Why not the high cost of dying rather than h. c. l?

### Boys' Forum Organized

On last Wednesday morning at a mass meeting of all the men of the institution, it was decided to organize a Boys' Forum to take the place of the literary societies during the summer. This conclusion was reached in view of the fact that the personnel of the student body has changed to a great extent, and it was thought that more effective work could be done during the summer by one large organization than by several. This does not mean that the literary societies have been permanently disbanded; their purpose is to reorganize next fall.

The purpose of the Forum is to foster social contact among the men of

On, On To Plunder

Is civilized America, which went to war only the other day for humanity's sake, hearing today an echo from the Dark Ages when barbarians of Middle Europe shouted, "On, on to Plunder," as they mercilessly robbed and

destroyed? Here are some items Senator Capper's recent speech in the Senate, demanding that the people be protected from greed and that the profiteers be sent to jail:

In one year during the war the gross income of American corporations rose from 35 1-3 billion dollars to 84 1-2 billion dollars.

Average gross profits of 70,642 American corporations was 500 million dollars apiece in a single year.

The 1919 profits of the Amoskeag spinning mills were seven times greater than its 1918 profits, and its 1918 profits were 13 times greater than its profits for the whole four years between 1912 and 1916.

The increase in price from the farm price of cotton to the store price of cotton materials is about 1,800 per cent.

The Easley Cotton Mills recently declared a stock dividend of 300 per cent and the Belton Cotton Mills a dividend of 100 per cent.

Earnings in many corporations exceeded 100 per cent, and some even exceeded 1,000 per cent over and above all costs and taxes.

Piracy of the sugar trust in its annual robbery at canning time is so colossal and criminal that Captain Kidd is a Sunday School character in comparison.

The International Cotton company produced 20 per cent less goods and earned 39 per cent more profit last year.

Oil has advanced more than 650 per cent since 1915.

Profits of the American Hide & Leather Company increased from 44 cents a share on common stock in 1915 to \$15.52 a share in 1919.

The accumulated surplus of the Central Leather company rose from 7 3-4 million dollars in 1914 to 30 1-4 million dollars in 1919.

The National Enameling & Stamping company has increased its net profits on kitchen ware to 326 per cent.

Visit the Canyons During Summer

Students attending the Summer Session of the West Texas State Normal should not fail to see the Canyons before leaving for home.

This strange phenomenon is a great scar on the face of the Plains, hundreds of feet deep and at places miles wide. Its sides are graced with cedars, and lofty poplar trees shade the streams that leap from impending rocks and wander in and out among ferns and mosses.

Organize a party and apply to President Hill for a chaperon and a guide. Provide yourselves with a lunch and spend a pleasant day's outing on the Canyons.

—From The Prairie.

Depends on Whose Foot it Pinches

Two locomotive engineers met on the street. Bill sang out to Jim: "We voted to strike at the meeting today, but I didn't see you there."

"No," replied Jim, "I couldn't get downtown on account of the street-car men's strike. Those fellows haven't any consideration at all for the public."

Success For Sale

These questions are put, by an unknown author, to every seeker for success:

You want success. Are you willing to pay the price for it?

How much discouragement can you stand?

How much bruising can you take? How long can you hang on in the face of obstacles?

Have you the grit to try to do what others have failed to do?

Have you the nerve to attempt things that the average man would never dream of tackling?

Have you the persistence to keep on trying after repeated failures?

Can you cut out luxuries? Can you do without things that others consider necessities?

Can you go up against skepticism, ridicule, friendly advice to quit, without flinching?

Can you keep your mind steadily on the single object you are pursuing, resisting all temptations to divide your attention?

Are you strong on the finish as well as quick at the start?

Success is sold in the open market. You can buy it—I can buy it—any man can buy it who is willing to pay the price for it.

TO THE VOTERS OF RANDALL COUNTY

In announcing myself as a candidate for County Judge, I did so, conscious of the fact that the office is one of importance and responsibility, but having served you for the past nine years, as Sheriff and Tax Collector, I feel that I am sufficiently acquainted with the duties of the County Judge and the general needs of the County, that if elected, I can give you a satisfactory administration, and it will be my purpose to put forth every effort to merit your confidence.

To Keep American Ships on the Seas

For the first time since the Civil War we have a real merchant marine. It cost us \$3,000,000,000 to get it.

The farmer, manufacturer, laborer—every American is interested in holding our position on the seas.

As a first step in this direction it is necessary to modify those articles of existing commercial treaties which have operated to thwart the upbuilding of our merchant marine—

By giving the notice of termination for which the several treaties provide.

This action is directed in the constructive Shipping Bill now before Congress;

Which declares it to be the policy of the United States "to do whatever may be necessary to develop and encourage" a merchant marine.

This policy deserves the support of every American.

Lacking this support the present effort to maintain our merchant marine may suffer the fate of many ineffective attempts of the past.

Send for a copy of "For an American Merchant Marine."

**FLAMING, ITCHING SKIN DISEASES**

**Cause Untold Suffering that Could Be Avoided.**  
If you are afflicted with eczema, tetter, erysipelas, ringworms, pimples, acne, caly eruptions, boils, irritations of the skin, or other similar disorders, you need not expect any r.-al relief from local applications, and the sooner you discard their use the sooner you will be on the road to recovery, provided you will rely upon the use of S. S. S.  
S. S. S. is one of the most satisfactory remedies for diseases of the skin because it goes direct to the seat of the trouble, and by cleansing the blood of all impurities and disease germs, it keeps the skin free from infection, and restores it to its normal healthy condition.

**WARNING**

BUY YOUR COAL EARLY

Last winter you suffered some inconvenience—perhaps discomfort—thru inability to secure coal.

All the elements contributing to this which existed last year still exist, only more so:

Decreased—and decreasing—labor supply, irregularity and unsteadiness of labor, certain and unescapable car shortage.

**Presbyterian Church**

At 9:45 on Sunday morning our services begin with the Sunday School. This department of our church life is doing exceptional work. Each teacher is well adapted to the special work assigned him or her. There is a class for you regardless of your age. We invite you to become a member of our Sunday School. The Superintendent, Mr. J. W. Reid, will be glad to see that you are properly located if you enter our midst as a stranger or visitor.

The 11 o'clock worship opens with a moment of silent meditation and prayer and you should be present on time. On next Sunday morning we will observe the Sacrament of the Lord's Supper and it is hoped that we shall have a full representation of our membership present. The subject of the sermon will be: "The Greatest Wonder of the World."

"Introducing To You, Satan," will be the subject for Sunday night, the service beginning at 8 o'clock. Don't miss this if you can possibly be there. There will be a good many surprises for you in this discussion. It will be thoroughly Biblical.

A cordial invitation is extended to all who have no church home in Canyon, and to all others who may care to worship with us.  
TED P. HOLIFIELD, Pastor.

**All Saint's Episcopal Church**

Archdeacon Garner will preach in the "Little Red Church" at 7:30 on Sunday night. Subject of sermon: "Jesus Christ, the solution of present day unrest."

A very cordial invitation extended to all.

**A Young Country**

The southwest is young. Its resources are largely undeveloped. Much less than half of it is under the plow. The soil is wonderfully productive when the right methods of agriculture are used.

There is little or no land for homesteading, but other land can be purchased cheap with many present day advantages—such as school, church, transportation and market.

It is for the good of this country that it be filled up with people and for the people's own good, for they are invariably prosperous.

Come to the Southwest and share

**The Correct Time**

Even if a minute, more or less, may mean nothing in your daily life there is a great satisfaction in knowing that your watch keeps correct time.

The qualifying phrase in your answer when asked the time with "I think I am a little slow or fast" is an obsolete expression to the man who carries one of our celebrated watches, adjusted to temperature, position and isochronism.

Let us show you one today, and explain why our watches will keep correct time.
