

ARNOLD ADDING BIG ENGINE TO THE LIGHT PLANT

WILL INCREASE CAPACITY OF LIGHT PLANT 50 PER CENT.

Original Engine of Light Plant Will Be Junked—Two Units May Work Together.

A. J. Arnold, owner of the Canyon Light & Power Company, returned Sunday from Fort Worth, where he supervised the loading on cars a new 150 horse-power steam engine which he has bought for the light and power plant.

Mr. Arnold states that the present equipment is not large enough to carry the light load in Canyon, and therefore the necessity of the larger engine. When the new engine is installed he will be able to carry a fifty percent larger load.

The original engine which was installed in the light plant fifteen years ago is being junked. Mr. Arnold has another engine which he installed two years ago. Whereas in the past two engines have been used as separate units, when the new engine is installed, either unit may be used, or both used at the same time, greatly increasing the efficiency and capacity of the plant. The engine installed two years ago is of 100 horse-power capacity.

The new plant will be able to produce 125 k. w., whereas the peak load of the plant during the past year has been 80 k. w.

Mr. Arnold has about half of his street lighting circuit completed. Material has been ordered to complete the job.

C. C. HARRIS DIED AT HOME OF HIS DAUGHTER

C. C. Harris died Monday afternoon at four o'clock at the home of his youngest daughter, Mrs. E. A. Driver. Mr. Harris had been ill for several months with cancer of the stomach, and his death was not unexpected. He had come to the home of his daughter two weeks ago yesterday from the old home at Camp Springs where he had lived many years and had engaged in the stock farming business. He was 72 years of age.

The funeral was held Tuesday afternoon at the Baptist church conducted by Rev. B. F. Fronabarger. Mr. Harris had long been a member of this church. The remains were laid to rest in Dreamland cemetery.

His wife was unable to come to the funeral owing to ill health. Mrs. Harris and ten children survive to mourn the death of the father and husband. Five children were present at the funeral service, Jess Harris of Littlefield, Bud Harris of Stacy, Mrs. Mamie Hinds of Stacy, Mrs. Ethel Trott of Post City and Mrs. E. A. Driver of this city.

The many friends of Mrs. Driver in Canyon extend to the sorrowing mother and children their heart felt sympathy in their hour of great sadness.

Chautauqua Campaign Next Week

The Chautauqua in Canyon will come on August 1, 2, 3, 4, 5. The Chautauqua is being handled this year by the Boys' Pig Club under the direction of C. F. Walker. The boys will start selling tickets next Monday. All proceeds of the Chautauqua goes to pay the expenses of members of the club to the Dallas Fair where they will be entertained by the Fair management. It was recently announced that there would be no war tax on the tickets, but further investigation revealed the fact that this was impossible and the war tax will have to be collected.

TWENTY YEAR BONDS FOR PAVING GETS BIG MAJORITY IN ELECTION

A big majority was given the twenty year bonds for paving in the special election held Saturday in Canyon.

The vote was 78 to 2. The original paving election last fall carried by a majority of 119 to 2.

Pastor Here For Christian Church

Rev. E. A. Osborne has been called as pastor of the Christian Church in Canyon. Rev. Osborne and family arrived Friday from Windsor, Ontario, preaching at both the morning and night services Sunday. As soon as the parsonage can be remodeled the Osborne family will move in this home.

The Christian Church has been without a pastor for the past several months, but a strong Sunday School has been maintained with D. A. Shirley as Superintendent. Mr. Osborne is a strong preacher and organizer and all departments of the church will be promoted under his ministry. The sermons of Rev. Osborne Sunday were highly pleasing to the members of the congregation.

The Osborne family will receive a hearty welcome to Canyon and all of the church people of the community are pleased that such a strong preacher has been secured for the Christian church.

Rev. E. A. Osborne, pastor-evangelist under the auspices of the Texas Christian Missionary Society, has come to minister to the local congregation of the Christian Church. He was born in Australia. He taught for five years in the public schools of South Australia, and later in one of the collegiate institutions of that state. Later he became assistant secretary of the Y. M. C. A. in both Adelaide, South Australia, and Sydney, New South Wales. He came to America in the fall of 1906, graduating with first honors from the College, Lexington, Kentucky, and later receiving his A. B. degree from that institution. Mr. Osborne preached for four years in Georgia and later in Windsor, Canada, from whence he comes to this pastorate.

Futurity Entries are Closed for Show

There will be a big Futurity Show in Canyon during the Randall County Fair for Duroc Jersey breeders. The following entries have been made with C. F. Walker:

- Wm. Laxton, Canyon, Texas.
- Vance Rusk, Canyon, Texas.
- Henry Schultz, Happy, Texas.
- Cass Jennings, Canyon, Texas.
- H. C. Roffey, Canyon, Texas.
- John Knight, Canyon, Texas.
- R. E. Foster, Canyon, Texas.
- Judge J. D. Hamlin, Farwell, Texas.
- W. H. Younger, Farwell, Texas.
- Henry Miller, Canyon, Texas.
- G. R. Stratton, Canyon, Texas.
- D. N. Redburn, Canyon, Texas.
- H. R. Fulton, Canyon, Texas.
- Raymond Adkisson, Claude, Texas.
- West Texas State Normal, care Fred H. Ives, Canyon, Texas.
- W. H. Lewis & Son, Canyon, Texas.
- Bates Bros., Canyon, Texas.
- Sam Wiggins, Canyon, Texas.
- W. L. Deeke, Canyon, Texas.
- J. A. Price, Canyon, Texas.
- L. W. Wilkes, Amarillo, Texas.
- J. C. Frye, Tullia, Texas.

Patsy Britain Wins Bout

Patsy Britain easily won his boxing bout in Amarillo Thursday night over Elden James. He was superior all the way through.

Stuffy Turner of Canyon and Gene Hutchison of Amarillo boxed two rounds when Hutchison was accidentally fouled and the match called off.

Come to Canyon to live.

Sale Pavillion Fund Reached \$710 Tuesday

Rev. Ted P. Holfield, chairman of the campaign fund for the Sales Pavillion, reported \$710 so far raised up to Tuesday.

Mr. Holfield and his committee has so far received in subscriptions \$465 among the business houses. Donations from numerous individuals in the Trades Day sales increased this amount \$245, making a total up to yesterday of \$710.

The campaign will continue until all citizens have contributed to the erection of this good building.

Lawmakers Resent Charges of Neff

Austin, Texas, July 9.—Governor Neff's speech in Georgetown yesterday, in which he in effect charged the regular session of the Legislature with extravagance, was hotly resented today by Chairman Lee Satterwhite of the House Appropriations Committee during a joint executive session with the Senate Finance Committee. After the session Mr. Satterwhite confirmed the statement that he had addressed the committee. Senator R. M. Dudley of El Paso, chairman of the Senate committee, also challenged the accusations made by the Governor. Senator Wood of Williamson County, after the session, said that every member of the Legislature in Austin today warmly resents Governor Neff's charge of extravagance.

Mr. Satterwhite declared that the Governor had made misleading statements as to the position of the Legislature with reference to its appropriations and Senator Dudley declared that the Governor had misstated and juggled the figures.

"The Legislature was in full possession of the facts when it made its appropriations," asserted Mr. Satterwhite. "I called attention to the situation with reference to the State's finances on the floor of the House the night of the consideration of the University land acquisition bill and then predicted that the state would go in the red \$3,000,000 unless some material trimming was done. We were not ignorant and we were not imbued with any desire to be extravagant. Everyone knows that with depression over the country and the consequent depreciation in tax income at this time, conditions have vastly changed since the regular session and therefore, it is unfair and unjust to say that the Legislature was not mindful of its duty."

Wheat Harvest Coming Along Fast

Fine weather all week is fast putting the wheat of Randall county into the stacks and elevators. Wheat is not coming in quite so fast owing to the damage done by the heavy rains of last week lowering the test, and consequently reducing the price on the wheat.

Forty cars of wheat have been shipped out of Canyon. There have been plenty of cars to handle the business. Agent R. McGee states he forwarded fourteen cars on to other points Tuesday.

With continued dry weather the grain will be harvested within another week or ten days.

Dr. Griggs Has Large Crowds

The series of lectures given at the Normal Auditorium last week by Dr. Edward Howard Griggs were largely attended. Dr. Griggs is one of the strongest platform men who has ever lectured in Canyon and his addresses were highly profitable.

Many Attend Merchants Carnival

There was a large crowd at the Merchants Carnival given at the Legion Hall Friday night by Miss Baker of Stamford. The program was in the nature of an advertising stunt.

Hill and Shaw to Austin

President J. A. Hill and Secretary Travis Shaw went to Austin Saturday to appear before the joint session of the appropriation committee of the legislature in regard to the appropriation of the Normal for the coming two years.

ROGERS STARTED PRESBYTERIAN CHURCH IN CITY

VISITED SUNDAY WITH CONGREGATION—RECALLS HISTORY

Rev. Albert W. Rogers Pioneer Preacher Thirty Years Ago Had Big Field.

Rev. Albert W. Rogers was a visitor at the Presbyterian church Sunday, renewing acquaintances with the old timers of Canyon and recalling the early history of the church in this city and the Panhandle section.

Thirty years ago last March Rev. Rogers organized the Presbyterian church in Canyon. The first meetings were held in the District Court room of the old court house, which is now the Star Hotel. There are several pioneer citizens of Canyon who were charter members of the church, and were highly pleased to have Rev. Rogers make this visit to the church.

Rev. Rogers is 80 years of age. He has been a Presbyterian preacher for 50 years. He founded eight churches in the early days in the Panhandle, Canyon, Amarillo, Plainview, and Childress being the most prominent. He lived at Claude and travelled from one appointment to the other in a two-wheeled cart.

In his sermon Sunday he recalled many interesting events of the early day which greatly appealed to the old time members of the church who were charter members of the organization and fully appreciated the early history as told by the old preacher.

Baptist Refuse to Accept Resignation

At a meeting of the Baptist congregation last night the resignation of Rev. B. F. Fronabarger as pastor of the local church was returned to him unaccepted, the church voting unanimously that Rev. Fronabarger remain in the service of the local church. Rev. Fronabarger has been most successful in his pastorate in Canyon, and may count every man, woman and child in the city as his friend. It is therefore good news that he will remain in the city.

The following statement was made by Rev. Fronabarger:

Since, through the newspapers, the fact of my resigning the pastorate of the Baptist church of Canyon has become generally known, I take the same means of informing the public of why I have determined to remain with the church and of saying to the church, and the Baptist people in general, and to my many friends who have seen fit to speak so kindly of my work here, that I shall prove my appreciation by endeavoring to serve them to the best of my ability during whatever time it is mutually agreeable for me to be the pastor of this good church.

My resignation and the action of the church printed below will be sufficient explanation for my course.

Resignation—If there is among the membership any dissatisfaction or any desire to retire me from your pastorate, I am not informed. It may be however, that some or many of the church, down in their hearts feel that it would be best for the cause to have another pastor now, and yet, because of your love for me have hidden your convictions from me.

Because of your great need of a new church building, and because I have never given much thought to house building, and because, therefore, I feel that I am not prepared, either by experience, or tact, or call to that kind of work, to put the building program over; I here hand you my resignation, to take effect on or before the first of September, as you or I shall determine—you if the Lord lead you to a pastor, or I, if He should open to me another work.

B. F. FRONABARGER.

Shrine Dance Tuesday Night

The Canyon Shrine Club entertained at a dance at the American Legion Hall Tuesday night. Several out of town guests were present.

Had Arm Broken Monday

Miss Grace Foster had her wrist broken Monday while cranking a Ford. The physicians report she is resting nicely since the accident.

Sheriff W. C. Black was in Amarillo several days this week attending the state convention of the Texas sheriffs.

PAVING PROPOSITION "BLOWS UP" WHEN CONTRACTORS BID \$6,000 MORE THAN ESTIMATES MADE

Watchful Waiting Policy Will Be Program of City Council Until Work Can Be Done at Reasonable Price.

There will be no paving around the public square of Canyon until a contractor is located who will do the work within the boundaries set by the engineers. All bids for paving were rejected by the city council at the meeting Monday evening owing to the fact the lowest bid was \$6,000 more than the engineers' estimates made eighteen months ago.

The city council opened the bids of the contractors at the meeting Monday, and found all of the three bids filed to be very close together. The lowest bid was \$40,014.00. After discussing the paving proposition at great length, the council rejected all bids and decided to wait until conditions were more favorable.

Eighteen months ago when material and labor were at the very highest point, the city employed Hess & Skinner to make estimates on the paving of the public square. These gentlemen estimated the job would cost approximately \$34,000.00. For the past six months material and labor has declined very greatly, especially this being true with labor. Men may be employed today for \$3 and \$4 who would not work for less than \$6 and \$8 six months ago. The council believed that a contract could be closed at around \$30,000 owing to the decline in prices.

The contractors state that one hundred cars of material would have to be shipped to Canyon for the paving job. Freight rates have increased 50 per cent since the estimates were made.

Members of the council told the contractors that the increase in freight rates could not possibly more than offset the decline in price of material and labor.

Mayor Gamble stated Tuesday morning that all members of the council were greatly disappointed when the bids were opened and it was found impossible to proceed with the paving. He expressed the belief that local men could be employed to do the work much more cheaply than any price submitted by the contractors.

The council has not decided just what will be done. At any rate they do not consider asking again for bids within a few months. In the meanwhile the bonds will be issued and sold in order that the money will be available whenever it is possible to get a contract which will be within the bounds of reason.

Mayor Gamble states that the council has neglected to do any improvement on the public square, believing that the paving proposition would go through this time without a hitch. He states that work will be started at once now to put the square in passable condition and that it will be well worked after every rain. He would not venture a guess as to when it would be possible to do the paving, but believes with other members of the council that the work should be done for about \$30,000, and considers it good business to wait until the work can be done for that price.

DON'T RUN CARS ACROSS FIRE HOSE—HEAVY FINE

Several cars attempted to run across the fire hose Tuesday evening when the department was called to the Hamill home. Chief E. Burroughs wishes to call attention to the fact that this lays the offender liable to a heavy fine under the state law. A fire hose is an absolute block against any and all kinds of traffic.

The weight of a car will ruin any fire hose, breaking the rubber fibre. It is the hose under the pressure of water from the mains, it will likely burst when hit by the car wheels. One section of a hose costs more than \$50. It is cheaper to wait a few minutes than pay for a new section of hose together with a liberal fine.

Marriage License Issued

County Clerk O. W. Gano has issued the following marriage license this week:

Everett Mickey and Miss Blanche Bumgardner, July 6.

Robert J. Johnson and Miss Gertrude Mae Lewis, July 11.

Prof. Stafford Ill

Prof. B. A. Stafford was taken seriously sick Sunday night. He is reported to be recovering very nicely.

Physicians State No Typhoid Here

Wild rumors went over the city yesterday that there were several cases of typhoid fever in Canyon.

County Health Officer D. M. Stewart at once called upon every physician in Canyon, and all stated there were no cases under their care within the city limits. It is not known how the rumor started.

Dr. Stewart states that if all citizens will promptly notify him of all cases of illness and cooperate in keeping the city clean there is no danger of typhoid.

Fire at Hamill Home

A fire was discovered at the A. W. Hamill home Tuesday evening, the tank house being enveloped in flames when the fire was discovered. Luckily a garden hose extinguished the fire before the flames reached the dwelling.

Had Leg Crushed

Jesse Hicks was the victim of a serious accident last Saturday when he was run over by a tractor, the legs badly crushing his leg and ankle. He will be laid up for several weeks as a result of the accident.

AMARILLO THREATENS TO DIVERT TRAFFIC FROM RANDALL COUNTY

The following letter has been received by the Commercial League from the Amarillo-Panhandle Automotive Association regarding the condition of the road between Canyon and Amarillo.

A reply has been filed with this organization that the road is now being reconstructed.

The following is the letter from Amarillo: Chamber of Commerce, Canyon, Texas. Gentlemen:

At a meeting of the Automotive Dealers' Association it was unanimously agreed by all members present that something should be done with the highway between Canyon and Amarillo.

With much difficulty the writer succeeded in withholding action on the following: There was a motion made to direct all tourists via Wildorado and Dawn. Action on this was deferred until we could hear from you. You will agree with us that this would take hundreds of tourists from Canyon.

For your information, the highway from Amarillo in the direction of Wildorado is now under construction and will soon have seven miles of concrete paving and is in excellent shape due to laying of six inches of gravel. Tourists inform us that the balance of the road to Wildorado and Dawn is in excellent shape.

We are laying this before you, as you know we can do nothing toward eliminating this because the Randall County line is right at our door. We will appreciate a nearly reply and will be pleased to have you send representatives to meet with us at the Amarillo Hotel Monday night, July 18, at 6:30 p. m.

We trust you will accept this letter in the spirit it is written, for we are, and always will be, willing to cooperate with our sister cities along any line which will be of benefit to either of us and the traveling public in general.

Yours truly,
Amarillo-Panhandle Automotive Association.
W. C. IRVIN, President.

COUNTY STARTS REBUILDING WORK ON THE AMARILLO-HAPPY HIGHWAY

The heavy rains of the past two months have greatly damaged the highway running north and south through Randall county, until a portion of the road was in very bad condition. Most of the road, however, is in excellent condition.

The Commissioners Court now has the new Holt Caterpillar engine at work hauling the new road grader, and will re-build the highway all the way through the county. Jim and Bill Carr have been employed to run the outfit.

A business man from Plainview passing through the city Sunday stated that Randall county had the best roads he had found after driving over all parts of the Panhandle-Plains country. The drainage of the roads is superior to any he had found, making it much easier to keep up. The Randall county highways have received much favorable comment from travelers from all sections, and with this rebuilding process and constant dragging the Commissioners intend keeping the roads in the very best of condition.

THE AMERICAN PRESS ASSOCIATION

Just one thing after another happens when any small town embarks upon a paving proposition. The members of the city council are just as disappointed as any citizen of the city that paving is not to come at once. The estimates of the engineers made eighteen months ago were thought to be reliable, and the decline of paving material and labor were believed to be sufficient to make the price of the paving much less at this time than when the estimates were made. Something went wrong as shown by the difference between the estimates of the engineers eighteen months ago and the bids of the contractors Monday. The members of the council cannot see where the engineers could have made a mistake which would mean \$8,000 difference between the estimated price of the engineers at that time and the bids made this week. The council has decided to wait for a few months and watch the trend of events. The members believe the paving can be done at a less figure than made by the engineers. In the meantime the council will put the public square in a passable condition.

A street beggar this week pulled up on the proposed victim some fifty cards with a heart-and-pocket-book-touching verse about "United We Stand." The "united we stand" guy seemed to have nothing more the matter with him than most lazy cusses who would rather beg than work. Fortunately he failed to find many Canyon people willing to stand with him upon his begging program and left town cursing our delightful little city. He got the proper treatment. If every individual in Canyon will turn down cold these street beggars, we will soon cease to be troubled with them. Organized charities in the cities have found that more than ninety per cent of the beggars and solicitors for "worthy causes" are pure fakes living off the kindness with which they can fool the people.

The voters will be asked to pass upon five constitutional amendments in a special election on Saturday, July 23. The only amendment which has been severely criticised is the one relating to the prison management, this being the first which will appear on the ballots. This amendment will place in the hands of the governor and the legislature the entire management of the prison system and will build up a political machine. The prison system is bad enough at present, and may likely be much worse if the amendment is adopted. There is no reason why all of the other amendments should not be adopted.

Have you noticed how the real big merchants of the cities have increased their advertising? The successful merchant increases his advertising space when business is dull and hard to get. The small merchant too often yields to the temptation of cutting his advertising in dull times, believing that he is "saving expenses." It is the most expensive "saving" he can undertake. He is cutting the heart out of his business and sooner or later will succumb to the merchant who has vision enough to keep after the business during hard times.

It seems that the republican "peace treaty" is not a peace treaty in matter and in fact, but merely a little flirtation toward making a peace treaty acceptable to that great party. If Harding and his followers are as successful in the future toward closing up the affairs of the war as they have been since Nov. 11, 1918, we will finally be at peace with Germany in February 1924.

The voters are strong for paving, but are up against the contractors' figures which are several thousand dollars more than expected. The bond election went over strong Saturday—just as every one expected.

While nearly every other section of the country is sweltering with the excessive heat, the people of the Panhandle-Plains country are enjoying the very best of weather with pleasant days and cool nights.

Prices have held steady for the past month or six weeks. Wall Street financiers believe that there will be no further general decline in prices. The price on many articles will have to decline, but on the whole it is safe to say the bottom has been reached. Mill and factories are reported to be increasing in operation. The period of readjustment is fast coming to a close.

The soldier bonus is doomed to fail at this session of congress. This is as we expected. The republicans promised great reduction in taxes. They are not going to put over this program unless every unnecessary expense is prohibited and all appropriations cut to the quick.

Tex Richard has signed Georges Carpentier for another ring battle. Richard is the greatest gambler of the day. He made a half million on the Dempsey-Carpentier fray. The Frenchman is popular in this country and will draw another big crowd for Richard.

The words "drive" and "quota" are relics of the war period, and fail to arouse much enthusiasm nowadays when sprung on any proposition.

Randall county is going to have a fine sales pavilion on the Normal campus. The committee is ready to take your subscription.

A lot of weeds have been cut this week. Keep at the job. Make Canyon a beautiful town.

Procrastination
Look out young man and young woman. Do not place yourselves in a position where you will some time have to say, "I have lost the great opportunity of my life and lost it through my fatal habit of procrastination."

"I beat the Austrians," Napoleon said, "because they never learned the value of five minutes." This bespeaks a little exaggeration on the part of Napoleon, of course, but the idea is quite true. While the Austrians were quietly and peacefully planning a big campaign, Napoleon attacked them victoriously, and their weeks spent in planning were wasted. While they

complimenting themselves on the fact that they were safe, because the Alps, impassible in winter, stood as a great barrier between them and the great general, he (Napoleon) was already across the mountains and upon them. Time and physical impossibility did not stand in the way of the one who was determined to win. He did not even know the meaning of tomorrow, next week, next year; his slogan was, "Now, Today." With Napoleon, decision and execution were almost simultaneous.

Procrastination, or the lack of decision and execution, is the cause of most business failures. Perhaps it will bring the matter a little nearer home to say, "Your bread and butter depend upon your ability to make up your mind instantly." It is the man who can make a decision quickly, and then has the courage and determination to direct every effort in his power toward his goal, that makes the best success in life.

We have no desire to discourage Mr. Bryan, but we find that the Miami is two or three hundred miles nearer Washington than is Lincoln, the roadbed is not so good and the schedules are slower.—Houston Post.

Nathan and Houston Sharp of Oklahoma came in Monday to visit at the J. C. Dowd home.

C. O. Edwards left Monday for Fridana, Kansas.

Jimmie Williams of Booker spent the week end at S. M. Downin home.

U. S. Gober of Amarillo was a business caller here Saturday.

Gail McPherson and Mary Lee Green were callers in Amarillo Saturday.

Mrs. Dale Evans and son of Happy were callers here Saturday.

Dr. Jarrett of Granbury came in Saturday to visit his sons here for a few weeks.

Ben Winkelman was a caller in Amarillo Saturday.

Mr. and Mrs. Clyde McElroy were callers in Amarillo Saturday.

Mrs. J. M. Conway left Sunday for her home in Iowa Park after visiting at the home of her daughter, Mrs. Henry Campbell.

Grady Ponder of Happy was a caller here Friday.

Misses Cleo Cox and Elizabeth Chenoweth were callers here Friday from Amarillo.

Miss Nnia Sieras of Amarillo was a caller here Saturday.

Cattlemen Need Immediate Relief

By Harry Benze Crozier, Staff Correspondent of Dallas News.

Amarillo, Texas.—A new lease of life for the cattle industry must come about by the restoration of country trading and not through the stockyards at the packing centers, in the view of Panhandle cattle raisers. Over extension of the credits of banks and loan companies has brought about a condition from which there must be relief in liquidation cowmen and bankers here agree, but that relief they are certain may not come through forced runs and glutted markets.

There is a distinct hope here that the "bankers' pool" or a congressional appropriation for the War Finance Corporation may be brought to a state of functioning speedily to the end that breeding herds may not be further depleted by sacrifices on the markets and a wholesale speying of heifers.

"We are little concerned with who does it. We don't care a particle how it is done nor through what agency relief is brought. What we must have is money," is the statement of A. S. Stinnett, secretary of the Buyers' and Sellers' Live Stock Association, and Panhandle authority in matters of agriculture and live stock raising. "We think that \$50,000,000 will furnish relief and the \$100,000,000 plan originally entertained by Governor W. P. G. Harding of the Federal Reserve Board should have prevailed, but any sum that will

promote trading will have a great stimulating effect and stabilizing influence.

That the influence of the projected pool and credit extension plans already is manifest is pointed out by T. E. Durham, Amarillo banker and stock raiser.

"Every mail is bringing inquiries from cowmen in the Northwest," Mr. Durham said, "and within the last few days we have been surprised by visits from men looking for young steers and what is more important they have carried with them letters of credit from their banks. The letters from Kansas, Colorado, Nebraska and other States, however, generally are from men who have grass and feed in abundance, but who are without funds. Frequently these men show us that their bankers will endorse their notes and many of them offer mortgages on valuable land holdings. There is no remedy for a situation like that except in the granting of liberal credit by some agency powerful enough to do it and willing."

Amarillo since time immemorial in the cattle industry of Texas has been a trading town. Kansas steer buyers come here annually and commission dealers abound. The fact that a long period of dullness has been broken by the presence of a few buyers and others looking for buys is attributed by Mr. Durham and others to the belief that relief in some form or other will be forthcoming.

One of the chief objections to the War Finance Corporation plan is the fear of its slowness in operation and the lack of local control. "As I now recall it," Mr. Durham said, "when the Cattle Loan Agency was in operation in Dallas in 1918 loans were extended to two Panhandle cattlemen. Only two of the vast number that applied for aid got any money. In my judgment, there is only one man competent to pass upon the loans that should be made to cattlemen and that

man is the local banker. He knows the character of the applicant for a loan. He knows his ability and the quality of his range."

There is a shortage of cattle in the Panhandle generally estimated at 40 per cent of normal. Within a few years the Hereford strain of beef cattle has spread over the Plains until perhaps 80 or 85 per cent of the cattle are high-grade white faces.

There are some ranches in this section that are carrying a normal supply of cattle and a few districts may be overstocked, but there is great need for a redistribution of the herds, even in this district, and of credit that will enable local men to go into the ranges of South, Southwest and Southeast Texas and bring in steers to graze and finish for market later.

Mr. Stinnett in his official capacity is bending every effort to prevail on the railroads to grant an extension of the emergency freight rate on cattle moving to the Northwest. The original emergency production of 35 per cent that will continue until July 15 was granted through his activities and the activities of E. S. Rowe and Sam H. Cowan, attorneys of the Texas and Southwestern Cattle Raisers' Association and the American National Live Stock Association. The benefits derived from that reduction have been large, but not nearly as large as would accrue should there come about a renewal of buying on the part of cattlemen of the Northwest.

Why An Optometry Law?

Forty-seven States in this country have passed legislation regulating the scientific fitting of glasses (OPTOMETRY) Texas alone has no such restriction hence the outcasts from the regulated States are flocking here and defrauding our people and often selling them glasses that strain the eyes instead of making them comfortable. Every Citizen should see his legislators, and request them to favor such regulation in Texas.

Wayside Rems

Sunday School at the usual time, led by Supt. D. L. Adams last Sabbath. Religious services by Rev. N. W. Woodson of Canyon after Sunday School. Preaching in the afternoon at Fairview by the same and again at Wayside at night.

Rain has interfered with harvest a great deal. Monday brought sunshine and work was resumed. Before the day was over showers began falling. Harvest hands are plentiful at \$3.00 per day.

W. I. Lane, wife and boys motored to Canyon Saturday to visit relatives, returning Monday.

A phone message from Mrs. S. I. Johnson now in Clarendon with her sick son Henry, told relatives near Wayside, her six months old babe could live but a few hours. With several of the loved ones accompanied by Mrs. Annie Heister they took the train Friday for Clarendon. Have been unable to get tidings since.

J. S. Sluder, wife and babe with Rev. Orion Taylor left Friday morning for Brice, Hale County. Brice is off the caprock. They found the roads very rough, had trouble with quicksand and mud. Altogether they had a rough trip. Mrs. Sluder visited her parents, Mr. and Mrs. W. G. Fraughlin at Lockney, also her sister, Mrs. Ralph Childress.

Happy Happenings

Not much news this week. Every one is busy in the harvest fields.

Mr. and Mrs. Earl Whitley and children visited relatives in Canyon Sunday.

Mrs. W. C. White left Thursday for Wichita Falls in response to a message stating that her sister was to undergo an operation. Word was received that she was doing as well as could be expected.

Alder Mann was a Canyon caller Thursday.

Born July 10, a girl to Mr. and Mrs. Bow. Her mother, Mrs. Potts of Amarillo, is staying with her.

The Civic League met Tuesday at the home of Mrs. J. H. Stephenson. Delicious refreshments were served the members and several visitors. All report a lovely time. The next meeting will be at the home of Mrs. E. F. Arnold, the second Tuesday in August.

Mr. and Mrs. J. A. Gassaway and son Johnnie were, Amarillo callers Thursday.

Miss Madie Whitley returned to her home at Canyon Sunday after visiting here for the past two weeks.

J. F. White went to Lubbock Tuesday to attend in State meeting of the Farmers Union.

Marvin Garrison of Greenville, Va., came in Sunday to help his brother, Guy, in the harvest.

Mr. and Mrs. S. T. Whitman and son Lloyd and Arthur Davis went to Lubbock to visit several days.

Rev. and Mrs. C. W. McNewly and children returned Friday from Dallas and other points in north Texas. They made the trip in their car. They found the roads pretty bad in places.

S. C. Whitman returned Wednesday

from Kansas City where he went with cattle.

Mr. Arthur Davis of Royce is here visiting his sister, Mrs. S. T. Whitman. Irvin McManigal and Ira Mann were business callers in Tulla Saturday.

Pleasant View Items

Farmers are still very busy harvesting and cultivating row crops.

Mrs. R. L. Langdon has returned to her home at Snyder after several weeks visit at the W. E. Tucker home.

Grandma Slack and Mae returned home Saturday from Fannin county where they were called by the death of Grandma's brother.

Miss Emma Key of Canyon spent the week end at the L. W. Landrum home.

Miss Dewey Gibson returned home last week from near Tulla, where she has been visiting friends. She secured the New Hope school to teach the following winter.

Mr. John Vetek and daughter, Miss Viola, were callers at the Ed Gibson home Sunday afternoon.

Your Eyes

When you go to the "movies" do they seem blurred and indistinct or perhaps hurt your eyes? An advertising expression by some "movie" theaters has its foundation on scientific fact. "If the movies hurt your eyes, it is the eyes and not the movies," is true indeed.

Perhaps you are one of those who has to sit very near in order to read the titles. You may be near-sighted, the Optometrists call this Myopic, and again you may not. Children often hold their books very close and parents jump to the conclusion that John or Mary is near-sighted. Often nothing is farther from the truth.

The eye is a faithful servant but when it is on the witness stand, so to speak, when it is being examined as to its own defects, or efficiency, it is often not a competent witness. "If I cannot answer questions about my

eyes correctly, how do you ask," will anyone else be able to answer them? It is here that the training of an Optometrist is called upon. The human eye holds no secrets from him. By means of his instruments, quite independent of your answers, he can find out just the condition of your eyes, whether they are healthy or unhealthy, whether they are near-sighted or far-sighted, far sighted, or correct in focus, whether or not they need glasses and if so what kind.

You may ask where these Optometrists receive such training. Columbia University, Ohio University, Rochester Institute and many other Universities and colleges have courses ranging from two to four years in Optometry or eye measuring.

In all of the states, but Texas, no one is permitted to examine the eyes and fit glasses unless he has shown to a State Board that he has the training and ability to do this work properly. The need for such a law is manifest as surely the eyes of our people require this protection. Another unfortunate feature of the lack of such a law is that the incompetent and unscrupulous spectacle vendors from the 47 regulated States flock to Texas.

Still on Deck at the Old Bull Moose Shop. —Let's Go!

How the Smiths Buy

A decade or so ago Mrs. Smith would buy a loaf of bread. Today she buys a trade marked brand of bread.

The collar that Mr. Smith wore was just a collar. Today it is an Arrow, a Lion, an Ide.

For the Smith family no longer follow old hit or miss methods of buying. They have learned the dollar-for-dollar value of every article they purchase. They know how to compare, pick and choose. Advertising has taught them.

The Smiths of New Zealand and the Smiths of New York—the Smiths of Shanghai and the Smiths of Seattle are all alike in his respect.

Advertising determines the make of the Smith's talking machine; the brand of breakfast food; the tires on their automobile. Advertising has taught them what to buy and how to buy. Advertising has developed a new science—the science of spending.

Consciously or unconsciously, everything they wear, everything they eat, everything they work with, play with, live with is a product of the influence of advertising.

And the Smiths of Randall County are no different.

If you want to place your goods in the Smith homes of Randall County, use the advertising columns of the Randall County News—the medium in which advertising pays a big dividend.

Mr. Guenther Gives County Superintendent's View-Point
Although conditions have been improved greatly during the last ten years, Mr. Guenther is convinced that the same qualities which he found desirable in his teachers ten years ago would be worth while today. But a high degree of scholarship is even more desirable now, for progress should be made and teachers are demanding a much higher salary. Rural teachers have the special need for an unusual amount of energy and enthusiasm which will cause them to do countless things for which they are not paid; the teacher who does not have this burning enthusiasm may have to find a new position. But one of the most important things, from the view-point of a county superintendent, is the making of reports. The monthly and yearly reports keep the superintendent in touch with every teacher and every child in the county. By them he knows when and where his help is needed and how each teacher is meeting his problems. The neatness and accuracy of these reports at once reveal the character of the teacher who made them.

CANYON NEEDS NEW DORMITORY
The large number of students attending school this summer shows us the necessity of having another dormitory for the West Texas State Normal College. Many students who are compelled to live on the out-skirts of the town find it disagreeable to walk through the summer's heat across town to the college. This inconvenience is increased, too, by the absence of sidewalks on some of the streets. Our largest attendance is during the summer; hence it is not profitable for private individuals to erect boarding houses in sufficient numbers to care for the summer students, because three fourths of the time they would be unoccupied. This has been the case up to the present time. The Legislature should give us another dormitory to accommodate the summer students who may be within our gates next year.

FIVE CONSTITUTIONAL AMENDMENTS: ELECTION, SATURDAY, JULY 23, 1921

Below, under "Form of Ballot," will be found the words by which the five amendments will be represented and the order in which they will appear on the "Official Ballot." The "Explanation of the Amendments" printed below will not appear on the "Official Ballot" July 23rd.

"Form of Ballot"
FOR the amendment to Article 17, Section 58 of the Constitution, abolishing the Board of Prison Commissioners.

Explanation of the Amendments
This amendment proposes to abolish the offices of the three, Penitentiary Commissioners. It is believed a management can be provided that will be more efficient and less expensive than is the present system. A change may save taxes.

Salaries now paid the "Executive Officers" are: Governor, \$4000; Attorney General, \$4000; Treasurer, Comptroller and Land Commissioner, each \$2500; Secretary of State, \$2000. They were fixed under the Constitution of 1860—55 years ago—when living expenses, duties and responsibilities of the officers were much less than now. About every salaried person but these has had a raise in pay since then. Under this proposed amendment the Legislature could pay these Executive Officers not to exceed: Governor \$8000; Attorney General, \$7500; Treasurer, Comptroller, Land Commissioner and Secretary of State, each, \$5000, and no more, but the Legislature could pay them less. That proposed raise in those salaries is too small to increase the tax rate because when compared with the total taxable values of the State, printed above, it will be seen that the pro rata part of one who pays tax on \$1000 worth of property would be only one-half of a cent, or 5 cents on \$10,000 worth.

If this proposed amendment to increase the amount of pensions for Confederate soldiers and their widows should be adopted, the tax rate would be increased from 5 cents to 7 cents on the \$100 worth of property. Soon these worthy people will pass away. Then this tax will not be collected. The question now is, are we willing to increase their comforts a little while they are among us?

This amendment proposes to reduce the mileage of traveling expense of legislators to one-half of what it is now; also proposes to pay them not to exceed \$10 a day for a session of 120 days and \$5 a day thereafter. The Legislature could pay them less. They now get \$5 a day for 60 days and \$2 a day thereafter. They can neither complete necessary legislation within the 60 days nor pay their expense with \$2 a day. The records of the Comptroller's Office show that the Legislature could, under this amendment, have a regular session of 120 days at \$8 per day (their pay in 1886) for \$19,501.81 less expense to the taxpayers than the one regular and four special sessions cost during the past two years. So much time is lost in organizing and adjourning these short sessions that it is believed more bad bills could be killed and the good bills made better in one regular session of 120 days than is now done in so many short expensive sessions. It is clear the tax rate would not have to be increased. This would mean a better condition for legislation, without any increase in the tax rate, and everybody agrees Texas needs it.

Under the present Constitution foreigners are authorized to vote as soon as they declare their intention to become citizens. If this proposed amendment should be adopted they must become fully naturalized before they can be authorized to vote. Also, at present, all voters in towns of more than ten thousand people must get their poll tax receipt in person. If this proposed amendment should be adopted either the husband or wife could pay the poll tax and get the receipt for the other regardless of residence. Also, if this proposed amendment should be adopted, the Legislature could authorize a person to vote in a general election without being present just as is now permitted, under the absentee voting law, in primary elections.

FOR the amendment to Section 5 of Article 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas, providing for Compensation of Executive Officers.

AGAINST the amendment to Article 17, Section 58 of the Constitution, abolishing the Board of Prison Commissioners.

FOR the amendment of Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas providing for Compensation of Executive Officers.

AGAINST the amendment to Sections 5 and 21 and 22 and 23 of Article 4 of the Constitution of the State of Texas providing for Compensation of Executive Officers.

FOR the amendment of Section 51 of Article 3 of the Constitution authorizing the Legislature to grant aid to Confederate soldiers, sailors and their widows who have been a resident of this State since January 1, 1910.

AGAINST the amendment of Section 51 of Article 3 of the Constitution authorizing the Legislature to grant aid to Confederate soldiers, sailors and their widows who have been a resident of this State since January 1, 1910.

FOR the amendment to Section 24 of Article 3 of the Constitution relating to the mileage and per diem of members of the Legislature of the State of Texas.

AGAINST the amendment to Section 24 of Article 3 of the Constitution relating to the mileage and per diem of members of the Legislature of the State of Texas.

FOR the amendment to Section 2 of Article 6 of the Constitution of the State of Texas providing that only native born or naturalized citizens of the United States shall be qualified electors in this State and providing that either the husband or wife may pay the poll tax of the other and receive the receipt therefor and permitting the Legislature to authorize absentee voting.

AGAINST the amendment to Section 2 of Article 6 of the Constitution of the State of Texas providing that only native born or naturalized citizens of the United States shall be qualified electors in this State and providing that either the husband or wife may pay the poll tax of the other and receive the receipt therefor and permitting the Legislature to authorize absentee voting.

Discing After the Harvester Important

Agricultural experts agree that discing stubble ground immediately after the grain has been cut is a good practice, excepting of course where the land is reseeded to some other crop. This practice conserves the moisture already in the soil and puts the latter in condition to hold additional moisture. Discing forms a mulch which not only kills all vegetation and holds all present moisture, but catches the sudden heavy rains, which would run off of the hard, unbroken surface.

Experiments in the growing of winter wheat shows beyond question that early preparation of the seed bed increases the yield. When the soil is discing after the harvester, fall plowing may be done at any time thereafter; otherwise the conditions may be such that plowing must be deferred until late in the season, especially when the farmer is short of power.

The effect of fall plowing operations is described by an agricultural expert as follows:

"The disk loosens the surface soil and makes it possible to do a good job of fall plowing, whereas, if it had not been discing, it could not be plowed without throwing up large clods. This is a point not appreciated by many farmers. They throw up large clods and then try to break them up with a drag harrow or roller. It is easier to break up these clods with a disk harrow while they are held rigidly in the ground. Where the ground is plowed following the disk, there is sufficient moisture in the lower portion of these, otherwise clods do enable the plow to pulverize them and the ground is turned apparently mellow." In the best wheat raising districts several plans follow as to when they begin discing. "Some have enough power to pull the disk with the harvester, others disc just as soon as possible after harvest, even if the ground is exceptionally hard, and the stubble gives little evidence of the passage of the disc over it, "even in the extreme cases," the hard surface will be well mulched, and undoubtedly considerable moisture will be saved.

Love and Machinery

The man who does not love his farm machinery never ought to have any. He ought to be compelled to do his plowing with a crooked stick and brush his grain with the top of a tree, because he will let his tools rot and rust out in the fence corner and laugh at you when you tell him there is a better way. Love takes care of the plows and binders and the threshing machines. Nothing else will.—Farm Life.

When the radicals quit finding fault with this well-known country it won't be fit to live in.—Toledo Blade.

The slack in buying is not due to a consumer's strike, but to the growing number of people who have stopped paying more than they can afford.—Houston Post.

Samuel and William
Samuel Gompers is a unique individual. In his Denver speech he said that William Randolph Hearst was a traitor to America, a traitor to labor and a traitor to Ireland. Samuel Gompers must be losing his poise, his judgment and control of his tongue. Honey is a better fly catcher than vinegar. Samuel was born under an alien flag; William Randolph was born under the American flag; his father and grandfather were born under the American flag. William Randolph owns a chain of daily newspapers and a battery of powerful magazines. He is an ugly customer when aroused. He employs union labor in all his plants and offices. Is an employer a traitor to labor who recognizes their unions, their wage scales and their work-day schedules?—Ft. Worth Record.

Some Hog, Some Ham

Last winter Jim Williams killed a two years old hog which dressed between 650 and 700 pounds. It was a Poland China, registered. Mr. Williams, like all good farmers, puts up his own meat, and he salted down the hams of this hog. A few days ago he dug one of the hams out of the salt. It weighed 100 lbs. When he cut into it, it took a slash more than eight inches deep to cut down to the bone. How is that for a meat hog?

This hog made twenty-eight quarts of lard, a year's supply for any well regulated family.—Quannah Tribune-Chief.

There are moments, we believe, when President Harding wishes that George Harvey had never been converted from the wicked ways of Democracy.—Columbia Record.

Folks who complain about the size of the fight purse evidently forget that Mr. Dempsey was once a shipyard riveter and is accustomed to good pay.—Columbia (S. C.) Record.

The first step is to disarm some of those appropriation committees.—Dallas News.

Increase in Wheat Output is Planned

By Harry Benge Crozier, Staff Correspondent to Dallas News.
Amarillo, Texas.—Make way for Texas, champion wheat State of the world. That's the conception of Texas a decade from now in the minds of Frank R. Jamison and A. S. Stinnett. Mr. Jamison is secretary of the Panhandle-Plains Chamber of Commerce and Mr. Stinnett is a former president of the organization. Both know intimately every section of the thirty-eight counties that form the Panhandle of Texas and in studying the resources and development of the section each has become a practiced statistician.

They tell the interested person off-hand that there are 22,848,000 acres of land in the Panhandle proper, and that proportionately there is more of it tillable than in any other section of the universe. For years Texas has lagged behind in the production of wheat while the rich acres, as level as a billiard table, in the Panhandle went untilled. Around 1,500,000 acres of wheat land was in cultivation in 1920. Early estimates for this year credit the Panhandle with 1,930,000 acres in wheat, but more wheat farms are coming to light from remote sections and it is expected now that the acreage will exceed 2,000,000. It is no unusual thing, the statisticians have discovered, for some man to buy a tractor and plow up several thousand acres without the fact coming to light until the harvest is on. About thirty of the thirty-eight Panhandle counties are producing the bulk of its wheat. There is every reason to believe that within the next ten years between five and ten million acres of Panhandle land will be planted annually in wheat, according to Mr. Stinnett.

With the average of around ten bushels to the acre, the Panhandle produced between 18,000,000 and 20,000,000 bushels of wheat last year. The present indication that this year's total production will run well over 20,000,000 bushels and perhaps better than twelve bushels to the acre over the Panhandle as a whole. The range of production probably will extend from seven bushels to thirty-five, or even better. A month ago there was general fear of under-production. Even when the harvest began in Floyd County there were estimates of from six to ten bushels in fields that have yielded around fifteen bushels. Rains early in June came in time to benefit the crop and did not come late enough to cause damage.

The harvest is well underway after a start that was more or less general about a week ago. A considerable amount of wheat is still uncut and stands green in the fields yet. In Floyd county seventy combines are at work daily cutting swaths from eigh-

teen to thirty-six feet in width. The combines have taken the place of both the reapers and the threshers and both cutting and threshing is carried out with one operation while tractors and mules pull the machinery through the fields. Three of the combines in Swisher county are cutting thirty-six foot swaths through fields and bringing a rapid finish to the harvest season in that county. In Gray and Carson counties, both banner wheat counties, the same scenes are being enacted.

There is an apparent car shortage already looming up, according to Mr. Jamison, due largely to the rapidity with which the harvest came up. "I have laid the situation before the car service of the Interstate Commerce Commission and feel sure that a remedy will be forthcoming," said Mr. Jamison. "We want cars sent to Galveston routed directly back to the wheat fields, and such a practice will be necessary. Swisher county alone will need 200 cars a week for the next four weeks. Pampa will ship 2,000,000 bushels and will require about 1500 cars. The Panhandle as a whole will require about 15,000 cars.

"Now with farmers in desperate need of money, the market at present satisfactory and better than had been feared, elevator strikes and threats of more elevator strikes and railroad strikes, a frenzied condition is resulting that may result in congestion. If all of the wheat goes pell-mell to Galveston and other ports there will not be bottoms enough to handle the crop and cars can not be released. The harvest season already has gone far enough to indicate that the selling movement will be general. Money is in great demand and the \$1.15 a bushel that wheat is quoted at now is not as low as it might be. The whole situation is being given the closest attention. We do not anticipate any serious freight situation and we are confidently hopeful that the atmosphere will clear and conditions become adjusted so that marketing will move along steadily and orderly."

There is one extraordinary thing Admiral Sims has to explain: why he should be fond of one of our recent Allies in the war, instead of the other way about.—New York Evening Post.

Harvey Must Have Heard From Home

Ambassador George Harvey made an Independence day address before a notable assembly of international diplomats. Ambassador Harvey did his best to square himself. He did his best to remove some of the evil impressions made by his Pilgrim dinner speech. He declared that five years ago the national debt of the United States was about \$1,000,000,000 or less than \$10 per capita and that today it exceeds \$20,000,000,000, or \$200 per capita; that in 1913 the congressional appropriations were \$674,000,000; that the present year's appropriations were \$5,000,000,000 with a \$1,000,000,000 deficit. Moreover he bluntly yet blandly informed the assembly of international diplomats that when it was finally computed America's war costs were not far short of the entire indemnity imposed upon Germany. Asserting that he could see the situation far more clearly than he could when he left the United States the ambassador declared that America spent more than \$1,000,000,000 in war relief and that this relief is still continuing. It appears that "the reluctant laggards" did something toward the waging and the winning of the war and the feeding of the peoples of Europe after the war had been won. Ambassador Harvey has two viewpoints—his Pilgrim and his Independence day viewpoint. He must have heard from home.

Ambassador Harvey at London declares that the league of nations is a dead one while Ambassador Wallace at Paris declares that the United States should join it. Foreign Sales

Manager Hughes ought to get his road force together and decide on a common line of diplomatic selling talk.

There is nothing in the whole list of flesh-healing remedies that can approach Liquid Borozone in the rapidity with which it heals cuts, wounds, sores, burns, or scalds. It is a marvelous discovery. Price, 30c, 60c, and \$1.20. Sold by Jarrett Drug Co. 1574

Some astronomical fakir is out with a dastardly attempt to show that the center of the universe is about 4,000,000,000 miles from the Boston State House.—Boston Transcript.

Somebody like Tex Rickard could make a fortune by staging a contest for the bean-spilling championship of the world between Admiral Sims and George Harvey.—Nashville Southern Lumberman.

YEP

AND I OWE YOU ONE, SO THAT MAKES US EVEN!

Miss Mattie Jordan of Tulla, a graduate of our institution, was here Monday visiting Miss Drucilla Shropshire. Miss Jordan has been teaching Latin in the Abernathy High School for the past year.

Miss Elva Fronabarger, the Baptist Student Secretary, has just returned from Lampassas, where she attended the Encampment of the Baptist Student's Union.

Miss Eris Gustavus, one of our graduates who has been attending the State University this year, was in Canyon Saturday visiting her sister, Miss Mae.

Miss Irene Levy of Slaton is back in school this term after having been out three years, teaching in the Slaton High School.

Miss Vivian Coffman, a 1920 graduate of the Normal, who has been teaching Latin and English in the Spur High School, is again with us.

Miss Olene Baumgartner, who has been teaching Latin in the Wellington High School, is in the Senior class here this summer.

Mr. R. L. McKnight and family of Temple, Texas, are here spending the summer with their daughter, Miss Roberta McKnight.

Miss Muriel Phillips, of the Expression Department, spent the week-end at her home near Claude.

Miss Emma McClesky, of the Education Department, spent Monday in Amarillo visiting friends.

Miss Lorene Dry has been called to her home at Merkel on account of the serious illness of her father.

Miss Evelyn Miller, a student of the Normal, went to Hereford Saturday to attend the Annual Rhodoe.

Doyle Owenby, a former student of the Normal, has been visiting his sister, Beulah Owenby, who is attending the Summer Normal.

English Club Meets

The English Club met Saturday, June 25, room 216. Mr. Morelock made a short talk, explaining the plans of the club for this summer. The usual restrictions on membership have been suspended for the summer. It is hoped that many students will be profited by the work of the society.

The members intend to study and relate the stories of the plays to be given by the Devereux players and those to be discussed by Dr. Edward Howard Griggs. Lizzie Kate Smith told the story of "Justice" by John Galsworthy, an English author. The purpose of telling the plays is to acquaint the students with the story, so that they may be able better to follow Dr. Griggs' lectures.

The following are the officers for the summer:

President—Mody Boatright.
Vice-President—Mrs. J. J. Powiel.
Secretary—Elizabeth Reek.
Press Reporter—Lois Baumgartner.

Shows Normal Pictures

On Saturday evening, June 25, Mr. Gregory showed his collection of motion pictures in the Normal auditorium. The films included views of the old Normal building, of the "shacks," and of the new buildings. The motion pictures taken of the dedication exercises of the present administration building of the student body of 1920-21 and of the summer session of 1921, with the various class-room and laboratory scenes, were of special interest.

In connection with the Normal pictures, some good pictures taken in other parts of the state were shown. The panoramic views of Dallas and Galveston gave an idea of the activities of those places. And a number of pictures from the oil fields of the Breckenridge district were both interesting and educational.

Foot Follies

"Foot Follies," a motion picture show in the interest of the campaign for more sensible shoes, also Scenes from the Y. W. C. A. Conference, was shown on the screen at the college auditorium on Tuesday night, June 28, by the Y. W. C. A. This organization is making itself felt in the college in a number of ways this summer.

Skahundawa Camp Fire

Monday evening at seven o'clock the Skahundawa Camp Fire met at the home of Dorene Turner for the regular Ceremonial Meeting. A peculiar initiation was given to the following new members: Maude Stewart, Goldie Barnette, Minnie Pearl Pierce, and Marguerite Dillon. After answering Wobelo call, the girls gave the hand sign of Fire and took their places in the circle. While the President lighted the fire, the girls sang "Wobelo for Aye" and "Oh, We Cheer." The new girls expressed their desire to become members of the Fire and to follow its law. The Law was most interestingly explained by Miss MacLaren, the Assistant Guardian. There was only one degree awarded, and that to Zela

Wood, who became Torch Bearer, the highest degree of the Fire. In closing, the girls sang "Mammy Moon," and as they left the circle, they all joined in singing "The Sun is Sinking in the West."

Useless Prohibitions

Professor B. F. Sisk, director of the summer normal, has been lecturing during the chapel period on "What the City Superintendent Expects in a School Teacher." He emphasized the fact that a teacher should always be willing to sacrifice some personal amusement when those pleasures might weaken her work in the school and detract from her influence in the community. At the same time, he expressed the opinion that the custom of some school-boards in inserting prohibition clauses in contracts, was not to be encouraged, because it binds the teacher to follow certain rules rather than allowing her to act according to her own judgment.

Student Council Meets

The Student Council met with President Hill at his home, Monday evening. Mr. Hill explained the purpose of the Council as that of a bond between the student-body and the administrative authorities of the college. Our President wants to be an adviser of the student and wants the student to feel that it is his privilege to come to him at any time to discuss questions of interest. From the Council he wants to get the students' point of view on things of mutual interest, and in all fairness it is right that the student should be willing to consider his viewpoint.

Some of the things under discussion at the meeting were an ex-student loan fund; plans for July 4th; and housing facilities for next summer's student-body. For this last question a sub-committee, composed of Mr. Fertsch, Mr. Allen and Miss Cobb, was appointed to meet with Mr. Duffot and make a report at the next meeting.

Y. W. C. A. Cabinet Meets

The first meeting of the Y. W. C. A. cabinet was held with Miss Graham at Cozy Cottage, Saturday afternoon, June 25. Plans were made for the summer work. The summer cabinet is composed of the following members: Mrs. Tommie Montfort—President. Hazel Mathis—Vice President. Joyce Mills—Secretary. Verle Fletcher—Treasurer. Ethel Isaacs—Social Chairman. Virginia Ellis—Service Chairman. Mattie Swayne—Publicity Chairman. Mary Dockery—Church Relationship Chairman. Fannie Cash—World Fellowship Chairman.

Dr. Majors Speaks in Chapel

"The Reasonableness of Christianity" was the subject of a lecture delivered to the students at the chapel period on June 21. The speaker, Dr. Majors, who is pastor of the Gaston Avenue Baptist Church of Dallas, made a convincing appeal for the consideration of the Christian religion as some-

thing that must be upheld by man's reason as well as by his emotions.

Our Normal College is not only progressing in literary fields, but in the keeping and beautification of its buildings and grounds. For this artistic development we have to thank Mr. Guenther.

We have heard Mr. Guenther's talks in chapel, and we know his ability along this line; his self-confidence, his humor, and his sense of honor. But if you have by any means failed to see the flowers and the artistic beauty of the campus, you need to be reminded of his work and of the joy that you might be able to get out of nature if you would only open your eyes to it. Mr. Guenther has put his whole soul into this work. It takes no miserly amount of forethought and imagination to be able to picture the effect desired and then no little amount of work to produce that effect.

As we come up the front walk, we can readily see that our institution is really trying "To stay green and keep a-growing." In the evening when the dryness and heat of the days are gone, how pretty the campus looks with its border of trees, the soft grass with the center touched with different shades of color from the nasturtiums, verbenas, zinnias and dahlias. Later on in the summer we shall have in the center and standing out above the rest the red and yellow cannas. Closer to the building, we find the white and pink sweet peas as a foreground for the college building.

Not only is it a pleasure to have the beauty of growing things around us, but it is restful. How can a person look at the beauty of nature and fail to find a rest and peace portrayed therein?

We owe Mr. Guenther many thoughts of appreciation for this work. We know that he has gotten pleasure out of it; but we have too, and we appreciate the fact that we have people around us who love beauty and nature.

Certificate Laws

The State of Texas is now operating under three certificate laws, and naturally some confusion results. One thing should be kept in mind by each person making application for a certificate: Do not "mix the laws." The applicant for a certificate should decide which law he wishes to work under, and stick to that law.

A person under seventeen years of age may take the examination, and the papers will be graded; if the grades fulfill the requirements for a certificate, they will be put on file in the Department of Education, and when the applicant reaches the age of seventeen the certificate will be sent to her. After Sept. 1, 1921, the applicant must be eighteen years old before receiving a certificate.

A person may take the examination for a second grade certificate, and, at this same series of examinations, may take one or more additional subjects of those required for a higher certificate; but if the applicant should fail to secure the second grade certificate,

the grades in the additional subjects for a higher certificate would be lost also. An applicant will not be allowed to take examination in subjects for a higher certificate before he takes it in the subjects for the second grade. However, he may take them at the same time or subsequently.

In order to have the privilege of the examinations, August 8, 9, 10, and 11, the applicant must have attended this institution not less than 28 school days exclusive of the examination week.

B. F. SISK,
Conductor Summer Normal.

FOR SALE
