

PLAN LOOKING TO BUILDING STUDENT HOMES

LIGHT HOUSEKEEPING HOUSES PLANNED FOR NORMAL CAMPUS

Ex-Students Association Investigating Plans Toward Building Number of Small Houses.

At the Randall County Ex-Students meeting Friday night held at the home of President J. A. Hill, plans were developed looking toward the building of six or more small houses on the north part of the Normal campus which shall be used for students doing light housekeeping in the Normal. The location of these buildings would be on land now owned by Geo. Whittenburg, which has been bought by the state for additional campus room, under an appropriation passed by the recent session of the legislature allowing the school to purchase 30 acres of land.

A meeting of the Ex-Students Association of Randall County was held a few weeks ago and the plan discussed, the project then being formulated that the ex-students of the Normal living in the several counties of the Panhandle-Plains country be asked to build these houses. At the meeting Friday night, the plan was proposed of asking citizens of this section for a loan of money with interest to build the houses. The rent on the houses would be used to repay the loans.

As developed Friday night, the ex-students would build houses of three rooms, two bed rooms and kitchen. The Normal proposes to furnish light and water for the houses. The houses would be large enough to accommodate four girls doing light housekeeping, or two married couples. A matron would have charge of the group of houses.

This plan has been developed in one or more schools of this country and works out with excellent advantage of both the students and the school.

Another meeting will be called immediately after the holidays, and more details taken up for discussion.

Red Cross Election to be Held Dec. 23-24

The annual election of the Executive Committee for the Randall County Chapter of the American Red Cross has been called for December 23-24. Ballot boxes will be left at the three drug stores and at the Buffalo Confectionery, and members of the Red Cross will be asked to call at one of these places and vote for twelve members of the Executive Committee for the coming year.

The following names have been suggested for a place on the ballots, and any others will be printed if suggested in time, or may be written on the ballots on election days:

- J. D. Gamble.
- E. Burroughs.
- C. D. Lester.
- Mrs. B. A. Stafford.
- Mrs. I. C. Jenkins.
- Mrs. L. G. Allen.
- C. W. Warwick.
- T. V. Reeves.
- Mrs. T. V. Reeves.
- Rev. Ted P. Hollifield.
- J. W. Reid.
- Harvey Cash.
- Mrs. Joe Gamble.
- Mrs. C. R. Burrow.
- Rev. B. F. Fronabarger.
- Dr. D. M. Stewart.

A committee composed of Rev. Hollifield, Mr. Ingham and C. W. Warwick was appointed to look after the election, canvass the returns and report to the executive committee at the first meeting of the new year, to be held Jan. 2, at 4 p. m. At this meeting officers for the coming year will be elected from the members of the Executive Committee elected.

SAW K. K. PARADE
About twenty cars from Canyon went to Amarillo Friday evening to witness the Klu Klux Klan parade which was staged on the streets of that city. It was the first manifestation of the Klan's existence in Amarillo. About 225 Klansmen were in line.

CHAS. KEFFER HONORED
Charles Keffer, of Lipscomb, who helped represent the Normal in the inter-normal debating contest of 1919, received the highest honors that can be awarded to a law student of the University of Texas from the Chancellors last week. Scholarship, personality, and achievement constitute the basis of qualification for this honor, according to the Daily Texan and a letter received by Miss Ritchie.

FIRE WIPES OUT FOUR BUILDINGS AND WRECKS FIFTH; DAMAGE THIS MORNING AMOUNTS TO APPROXIMATELY \$30,000

Fire starting this morning at 4:30 in the Royal Cafe, destroyed four buildings on the south side of Canyon's public square, wrecked the fifth, and wiped out the business of six firms doing business in that section. The damage will amount to about \$30,000, with only \$1,000 insurance, which was carried by the Bakery.

The firms suffering losses were: W. L. Browning, Jeweler; The Smart Shop; the Royal Cafe; the Canyon Bakery; R. B. Davis Garage; M. S. Bishir Garage.

J. M. Gibson owned the building housing the Browning and Smart Shop Stores; S. H. Heyser owned the two buildings housing the Bakery and Davis Garage; Mrs. E. H. Ackley owned the building occupied by the Royal Cafe, and M. S. Bishir owned the building occupied by his garage.

Ryan Here for the P-P Chamber Commerce

Geo. A. Ryan of Clarendon, financial secretary of the Panhandle-Plains Chamber of Commerce, was in the city yesterday to see Judge Worth A. Jennings regarding the payment of Randall County's dues to the association.

Mr. Ryan was appointed at a recent meeting of the association to have entire charge of the finances of the organization. This will relieve the secretary-manager of a duty which took too much of his time. Mr. Ryan has visited both three counties to see about the finances—Donley, his home county, Potter, and Bandall. Mr. Ryan states that all three counties have been enthusiastic over the work accomplished by the Panhandle-Plains Chamber of Commerce, and the future of the organization.

Mr. Ryan states that a secretary-manager will soon be elected by the board of directors, and the work of the organization extended to cover new fields.

SOCIETY GETS EAGLE

The Panhandle-Plains Historical Society has received an eagle measuring 8 feet from tip to tip, which was recently caught near Dimmitt and brought to Canyon Saturday by Judge C. F. Kerr. The eagle is still alive, but will be mounted in a few days.

The historical Society has also been presented a very fine specimen of hawk which will be mounted. This Society has for its aim the gathering of specimens particularly identified with the life of this country, but will take any article of historical value. The collection at the Normal is rapidly growing, and those persons having articles connected especially with the early life of the country will confer a great favor on the Society by either giving or loaning the article or articles to the Society.

GARNER HAS OPERATION

W. L. Garner, who has been seriously ill at Plainview for a month, underwent a second operation Friday. M. P. Garner writes that he is recovering very satisfactorily, and that the physicians feel that he has a good chance to recover from his illness. M. P. says that his father is putting up a mighty game fight and insists that he is going to recover from the operations.

It will be remembered that Mr. Garner was reported to be dying after his first operation a month ago, and revived after the physicians thought there was possibly no chance for him to live.

FIRE AT FOSTER HOME

A fire was discovered at 12:45 Monday night at the G. G. Foster home in the south part of town. The fence north of the barn was on fire and threatened the garage and sheds when discovered by J. S. McCormick, night watchman. The flames were easily extinguished.

Swine Breeders Will Have Sale, Jan. 19.

At the meeting of the Randall County Swine Breeders Association Saturday afternoon, it was decided to have a sale of registered hogs at the new Sales Pavilion on January 19, 1922. About forty head of registered hogs will be in the sale. Officers for the coming year were elected as follows:

It is not known just how the fire started, but it originated in the back of the Royal Cafe. F. A. Snipes, owner of the business, knew nothing of the fire until the flames were almost extinguished.

Nightwatchman, J. S. McCormick, states that he passed along the street in front of the Cafe at 4:15 and saw nothing of fire. He made his rounds along the west side of the square, and as he turned the corner at the First National Bank, saw the light and turned in the alarm.

All of the buildings were frame, covered with sheet iron, and the flames spread rapidly. The Cafe building was almost destroyed and the flames had spread to both the jewelry store and and bakery before the fire department could get any water on the fire. It was seen by that time that all of the buildings were doomed, as the dry wood of the buildings created a regular furnace.

Water was thrown on the Normal Grocery building at one time when the heat became so intense as to break the front plate glass. Water was thrown on the R. E. Foster building at the southwest corner of the square several times.

The fire department centered their efforts to save the Bishir building, which also acted as a barrier between the big flames and the Foster building. Two streams of water played upon this building for more than an hour and kept the west wall standing. It was feared that if this building went the Foster building would be caught.

Nothing was saved from the Royal Cafe. Nothing was saved from the new \$4,000 stock of the Smart Shop. Only a little furniture was saved from the Browning Jewelry store. Only a little furniture was saved from the Bakery. R. B. Davis lost all his, mechanic's tools, four cars and three others in the building burned. M. S. Bishir succeeded in moving most of his tools before the fire reached his building.

S. H. Heyser staged this morning that he hoped to start work on a new brick building which will be leased by the Bakery. The other building owners have made no announcement of their intention. The land on which the Gibson building stood was leased for a period of years from non-residents. Mrs. Ackley, owner of the Royal Cafe building, lives in Waxahachie.

Old timers of Canyon recalled this morning that about twenty years ago a saloon standing on the corner occupied by the Gibson building had burned.

The fire was a serious loss to all of the firms and individuals. T. I. Poor, owner of the Bakery, was the only one to carry insurance, as the rate was extremely high owing to the string of frame buildings.

This was the largest fire Canyon has suffered within the corporate limits for many years.

WORD BARN BURNS

A barn on the C. T. Word place five miles northwest of Canyon burned Sunday evening at 6:30 o'clock. There was no insurance.

The Better Way

We all remember when gifts were selected on the very last few days before Christmas, even on Christmas eve. Then it was we all joined in a mad rush—and got what happened to be left over.

That time is past. The careful buyer is **BUYING NOW**—when the gift range is at its best—when the stores are comfortably filled—when deliveries can be made promptly.

SHOP EARLY

Christmas Seal Sale On in Randall County

The 14th annual Christmas Seal Sale to fight tuberculosis is now going on throughout the United States. C. L. Coudrey, local chairman of the sale, together with interested helpers are lined up to put over the Christmas Seal Sale in Randall County this week.

Mrs. Powell, a nurse who gave lectures and made health examinations in the public schools this year was sent here by the Texas Public Health Association. The expense of her work is supported by the sale of Christmas Seals. This is only one of the many ways the money is being spent to fight the Great White Plague.

Everyone will be given an opportunity and will be earnestly urged to buy Christmas Seals. While you will likely be called on, nearly all the business houses will have the Seals for sale.

Any one desiring information on this movement see Mr. Coudrey.

DEVEREUX OUT OF HOSPITAL

Eugene Devereux was able to leave the hospital in Amarillo Thursday, and visited for a few days with relatives in Plainview. Together with his wife he returned to Canyon Monday. He is able to be about but unable to do any work in the Normal until after the holidays.

Mr. Devereux was badly injured in the society football game on the Normal grounds a few weeks ago, suffering a bad hit on the head.

AUTOS COLLIDED FRIDAY NIGHT

A Ford coupe driven by L. Wirt, Sanford Black and Earl Potter collided with a Nash driven by Tick Puckett and two other boys late Friday night north of town on the highway. The Nash was turned over into the ditch and badly damaged. The rear axle of the Ford was broken so that it went down after being driven a short way. Fortunately no one was injured.

POSTAL EXAMINATIONS HELD

Postal examinations were held in Canyon Sunday for the clerical force, and all of the post office employees in Canyon passed with excellent grades. These examinations are being held in every postoffice in the country.

School Needs Money to Pay The Teachers

The school trustees are making another appeal to the taxpayers to pay their taxes before next Thursday in order that the monthly pay roll of the teachers' salaries may be met without borrowing more money. The board needs nearly a thousand dollars to meet this month's salaries.

The trustees are paying the teachers promptly at the end of the school month. In many towns the trustees do not do this. Teachers in the Canyon schools have always received their money even though the board was forced to borrow the money.

Every cent paid out for interest takes just this amount from the working fund of the school. Pay your school tax to J. B. Hensley this week.

CONTROL OF RODENTS IN RANDALL COUNTY SUBJECT AT THE WEEKLY LUNCHEON OF COMMERCIAL LEAGUE

Judge A. N. Henson Will Direct Campaign to Control Rats in This Community—Gray Tells of Measures of Frequent Usage.

That the rat is a pest which may be controlled in any country, was the message left with the members of the Commercial League at the weekly luncheon held Tuesday at the Ideal Cafe.

That the control of the rat depends not upon the work of one or two individuals of a community, but upon the concerted action of all people of the community, was most forcefully presented.

Judge A. N. Henson was leader at the weekly luncheon. Judge Henson has been making war on the rats for the past several months. Unfortunately as fast as he killed off rats around his building, he inherited an overflow from the neighboring parts of town, and the war has been a ceaseless one. The Judge has attended two meetings held in Amarillo by representatives of the state and federal government, and has been appointed chairman of the Rodent Control movement in Randall county. Judge Henson stated that it was his purpose to work through local committees in order that the rat may be controlled in Randall County.

A. E. Gray, Assistant Biologist of the Agricultural Department of the Federal Government, was introduced at the luncheon and went into detail as to the method of rodent control.

Mr. Gray pointed out that the rat had been the subject of world wide discussion and planning for many years. The rat has become serious in the United States, and it is the belief of the government officials that there is no use for this menace.

The government is attacking the subject in a serious attitude, and believes that when the people of this country are thoroughly educated, and that a proper system has been inaugurated the rat question will be kept at a minimum.

Mr. Gray pointed out that the rat has been responsible for more deaths than all of the world wars. The Black Death was nothing more than the bubonic plague. The bubonic plague breaks out every few years in various parts of the country and always takes a toll of life before it is stopped. Mr. Gray pointed out that other diseases as infantile paralysis, septic pneumonia, small pox and scarlet fever were rapidly spread by the rat.

The rat is primarily a scavenger. He works in the filth, and if he then gains access to the food supply, disease is likely to result. The annual loss of food supplies in this country through the rat is \$2 per capita. In Belgium it is \$1.48; England \$1.60; France \$1.50. Every line of industry is affected. Fires to the amount of \$15,000,000 annually are charged to the rat.

Mr. Gray believes that the reason for this tremendous loss is on account of carelessness on the part of the people of this country. The food supply is not guarded. With the increase in the unguarded food supply there is an increase of rats. The first step of control is to cut off the food supply from (Continued on last page)

COMMERCIAL LEAGUE LUNCHEON APPRECIATED

W. D. McGehee of Wayside was an interested guest at the Commercial League luncheon Tuesday noon.

Mr. McGehee stated that he was highly pleased to be a guest of the League and had watched with interest reports of the weekly luncheon and the questions being discussed.

"The League," said Mr. McGehee, "is certainly attacking the questions vital to the welfare of this town and county. I am highly interested in your weekly meetings and great good will result from them."

Flesher Leader at Luncheon Tuesday

W. J. Flesher will be the leader at the Commercial League luncheon next Tuesday noon at the Ideal Cafe.

Mr. Flesher announced yesterday he would arrange the plans for a discussion of the Baptist Encampment, arrangements for which are rapidly being perfected on land the Baptists are buying east of the city.

GOLF PLAYERS IN AMARILLO

About fifteen of Canyon's golf players were in Amarillo Sunday afternoon in response to the invitation of the Amarillo Club for a social game. Those making the trip report a very pleasant meet, and although the Amarillo course was new to all of the Canyon players they made remarkably good scores.

Work on the Canyon Golf Course continues to improve the grounds, and many players are on the links every day.

LOAN FUND CHARTERED

The Ex-Students Loan Fund of the West Texas State Normal College was given a charter by the State of Texas Tuesday. The Loan Fund is incorporated for \$100,000, which is the goal of the organization. The fund was started several months ago by a patriotic citizen of Texas who gave \$510 to the fund. He has started similar funds in all state schools.

The application for charter was made by Mrs. C. W. Warwick, Miss Anna I. Hibbets and J. J. Powell.

TAKES BONDS TO AUSTIN

C. N. Harrison left yesterday morning for Austin, taking with him the bonds which were voted by the citizens of Canyon for paving purposes. Mr. Harrison will have the bonds approved by the comptroller in order that paving be not further delayed when the bonds are sold and the contract let.

NORMAL ELECTED MEMBER OF TEXAS INTER-COLLEGIATE ATHLETIC ASS'N.

D. A. Shirley was in Dallas Thursday attending the annual meeting of the Texas Inter-collegiate Athletic Association, at which time the Normal was elected to full membership of the association, the usual year's probation being waived. The normal schools at Denton, Commerce and San Marcos were also elected to full membership. Dallas University was elected, but put on the usual year's probation.

Mr. Shirley states that the election to full membership by the four Normal Colleges is an unusual honor. In the meeting, the officers of the association were very frank in their praise of the normal colleges of Texas, and considered them upon a par with the colleges which have long been members of this association.

There were eight schools in the association before the election of the four normals, namely, Austin College, T. C. U., Trinity, Southwestern, Rice, Howard Payne, Daniel Baker and Simmons.

Under the rule of the association a majority of the games of a season must be played with association members. This rule was especially waived for the benefit of the West Texas State Normal College owing to the great distance to the other schools.

While Mr. Shirley was at the meeting a contract was signed with Simmons college for a game to be played in Canyon Oct. 28. Simmons was offered this date by another college outside of the association, but choose to play the West Texas State Normal on account of the past pleasant athletic relations.

The admission of the Normal to the T. I. A. A. is a recognition of the standard of athletics that has always been maintained in this school. The athletic council has chosen to play only bonifide college students, and to meet only the best college teams of this section. The matter of victory has been secondary to the demand for clean sport.

Political upheaval is being predicted by farmers living in the west. The senatorial bloc has given the farmers an idea. Senators without regard of party are banded together to work for agricultural interests. Republicans have felt safe in their ability to generally carry the solid north of the agricultural states. The farmers are awakening to the senselessness of forming the majority for the republican party whose ring leaders are in the east and represent interests directly opposed to those of the agricultural sections. The presidential campaigns of the future are going to see the west and the south working more and more in hand against the rule of the east. It may not be the democratic party which will be accepted by the farmers of the west. It may not be the republican party. It is going to be an agricultural party which will deliver the goods rather than throw mere sops to the farmers of this great section. Politics came near ruining the agricultural interests of the west, and mere promises are going to count for little in the future. Perhaps Roosevelt and Hiram Johnson were not far wrong when they started the third party in 1912. Perhaps they were only a little premature in their move.

Unfortunately there are a number of business men who do not regularly attend the luncheons of the Commercial League. There are some business men in Canyon who have never attended one of these luncheons. They are indeed unfortunate in their neglect of entirely overlooking this opportunity of meeting with their fellowmen and discussing questions closely related to the betterment and promoting of this community. We have never yet seen a community which thrived unless the business men were at least willing to meet with their competitors and discuss questions which will tend to upbuild the entire community. Just in proportion as the business men are willing to put themselves into the community will that community grow and build. There are always too many men in every community who expect the leaders to do the work while they themselves gain the benefits of the hours spent in discussing and working for the advancement of the community. Join forces with the Commercial League. Come to the weekly luncheons. The association with the business men and leaders of this community will not impair any man's standing, and your presence will be an inspiration to those who are now working without your assistance to do just a little more for Canyon.

A good Christian character has taken exception to our expressed sentiment against professional evangelists. Most of us are very particular, if we have a case in law to procure the services of a good lawyer. All of us insist that our physician knows something of medicine. We believe the soul to be more important than the physical being. We do not believe in turning the matter of the soul's salvation over to some hi-jacker who has no other reputation than to condemn everything and everybody in a town. The average evangelist could not stay in a pastorate two months. If there is nothing more to religion than being able to talk men about people, why not turn the job over to the bunch on the corner who understand the art of using the authorized vocabulary of cuss words? Abuse always fails to draw men to you. Love is the impelling and drawing force of the universe.

Judge Landis is to be complimented in his manner of handling Babe Ruth's case. Ruth is not bigger than organized baseball, even though he is the greatest slugger the game ever produced. However, a sure sign of his smallness came in the open repudiation of the rules of the game which were well known to him. Had Ruth demanded that ground rules be changed for his personal benefit, it would have been refused. So why should the general rules of the game be changed just to suit his personal ambitions, and incidentally his purse.

A merry war is promised in congress over the peace treaty presented Satur-

day by the armament conference. The fact provides settlement of the Pacific question between England, Japan, France, and the United States. The famous Article 10 of the Versailles Treaty, is repeated as Article 2 of the new pact. The "irreconcilables" of the senate caught their cue when the treaty was read and immediately planned a war against the new treaty. By a master stroke, however, Senator Lodge, who defeated the Versailles Treaty, was made spokesman for the conference and read the message which had been agreed upon. The democratic senators were tied to the former treaty and could hardly change their attitude now and oppose the new treaty. It looks as if with the elimination of Lodge as an opponent and putting him at the head of the forces in favor of the treaty, this latter pact will go through, in spite of the fact that the one proposed by Wilson was thrown in the ash can.

England is certainly governed at present by broad minded and far seeing men, who are trying to undo the wrong committed in past ages. Their proposed withdrawal from China, followed by giving the Irish freedom, shows that Lloyd George and his cabinet are actuated by the very highest motives as well as good sense. In view of what has happened it is to be regretted that President Wilson, when in Europe, was not in closer touch with the British premier instead of permitting Clemenceau to make a catpaw of him. —Quannah Tribune-Chitf.

The courts have held that the State of Texas gave about 60,000 more acres of land to the Capitol Land Syndicate

for building the state capitol than the company was entitled to. That being the case, the State will have 60,000 acres of Panhandle land to trade to somebody for some more state buildings at Austin.

UMBARGER NOTES

Mr. and Mrs. P. Friemel and son, Rudolf, made a business trip to Amarillo Monday.
Clem Friemel was a business caller in Canyon Monday.
Hugo Skarke made a business trip to Amarillo Wednesday.
Joe Grosh visited the Otto Podzemney home Thursday.
Leo Stocker was a business caller in Amarillo Thursday.
E. Evers threshed row crop last week.
J. Bedink and E. Evers were business callers in Canyon Thursday.
Mrs. Hess is in Amarillo in the hospital with her two children. They are still very sick.
H. Miller was a business caller in Canyon Friday.
Misses Marie and Catherine Beckman are home on a visit. They expect to stay until spring.
Joe Beckman threshed some row crop last week.
Paul Artho and V. Skypala spent Sunday at the E. J. Friemel home.
Hugo Skarke, Joe Grosh and Clem Friemel spent Sunday at the M. Holenstein home.

MAN WITH SMALL INCOME BENEFITED BY EXEMPTIONS IN TAX REGULATIONS

Replies to the hundreds of questions put to the Bureau of Internal Revenue regarding changes in revenue legislation are contained in a statement issued by the bureau and which will be followed by others written at the direction of Revenue Commissioner David H. Blair and which are designed to inform the American public of provisions of the new tax bill which materially changes income tax requirements.

The first one follows: Probably the most important change affecting the man of moderate income is in the exemptions. Under the 1921 act a married man with a net income of \$5,000 and less is entitled to an exemption of \$2,500. Under the revenue act of 1918 this exemption was limited to \$2,000. The revenue act of 1921 also provides for each person dependent upon the taxpayer if such person is under 18 years of age or incapable of self-support because mentally or physically defective—an exemption of \$400. The exemption under the revenue act of 1918 was \$200 for such dependent. Thus, a married man with two dependents whose net income for 1921 was \$5,000 will pay this year a tax of \$68, compared with \$104 on the same income for 1920.

The exemption of \$2,500 applies also to the head of a family whose net income for 1921 was \$5,000 or less, an increase of \$500 compared with the 1918 act. A head of the family, as defined by present Treasury regulations is "a person who actually supports and maintains one household or more individuals who are closely connected with him by blood relationship, relationship by marriage or by adoption, or whose right to exercise family control and provide for these dependents is based upon some moral or legal obligation."

The normal rate of tax, 4 per cent on the first \$4,000 of net income above the exemptions, and 8 per cent on the remaining net income, remains unchanged. This applies to citizens and residents of the United States. Alien non-residents are taxed the full 8 per cent on income received from sources within the United States. Non resident aliens are allowed only a single personal exemption of \$1,000. To overcome the disparity in the amount of normal tax in the case of two taxpayers, one of whom is just within the lower \$2,000 exemption, the other being just within the higher \$2,500 exemption, the act provides that the reduction of the personal exemption from \$2,500 to \$2,000 shall not operate to increase the tax, which would be payable if the exemption were \$2,500, by more than the net income in excess of \$5,000.

For example a married man or head

of a family has a net income for 1921 of \$5,010. Assuming that he has no dependents, his tax, if he were allowed only the \$2,000 exemption would be \$120.40. Under the benefits of the above provision, however, his tax is \$110, 4 per cent on the amount of his taxable income of \$2,500, or \$100 plus the amount by which his net income exceeds \$5,000.

Many inquiries are received relative to the surtax rates.

Taxpayers in the preparation of their returns should be careful to note that the surtax rates for the calendar year 1921 remain unchanged. The surtax rates or incomes for 1921 range from 1 per cent on the amount of net income between \$5,000 and \$6,000 to 65 per cent on the amount of net income in excess of \$1,000,000. For the calendar year 1922 and each calendar year thereafter, the surtax ranges from 1 per cent on the amount of net income between \$6,000 and \$10,000 to 50 per cent by which the amount of net income exceeds \$200,000.

Returns are required of every single person whose net income for 1921 was \$1,000 or over, every married person not living with husband or wife whose net income was \$1,000, and every married person living with husband or wife whose net income was \$2,000 or over. Every person whose gross income for the year was \$5,000 or over must make a return regardless of the amount of net income. This requirement was not contained in the revenue act of 1918. Every married couple living together must make a return, either separate or joint as desired, if their aggregate net income was \$2,000 or more.

Gross income includes practically every dollar the taxpayer received during the year 1921. Net income is gross income less the exemptions and deductions specifically provided for by the act.

The period for filing returns is from Jan. 1 to March 15, 1922, when made on the calendar year basis. If the taxpayer makes his return on the fiscal year basis, the return must be filed on or before the fifteenth day of the third month following the close of the fiscal year. Nonresident aliens must make return on or before the fifteenth day of the sixth month following the close of the fiscal year, or, if the return is made on a calendar year basis on or before June 15.

The Commissioner of Internal Revenue may grant a reasonable extension of time for filing returns in the case of taxpayers who are abroad, no such extension shall be to a period of more than six months. The return must be filed with the collector of in-

ternal revenue for the district in which the taxpayer lives or has his principal place of business. If the taxpayer has no legal residence, the return must be filed with the collector of internal revenue at Baltimore.

This year as last the tax may be paid in full at the time of filing the return, or in four quarterly installments, due on or before March 15, June 15, Sept. 15 and Dec. 15. If any installment is not paid when due, the whole amount becomes due and payable upon notice and demand from the collector. The penalty for failure to file a return or pay the tax within the time prescribed is a fine of not more than \$1,000. For "wilful refusal" to make return or pay the tax on time the penalty is a fine of not more than \$10,000 or one year's imprisonment or both, together with the cost of prosecution.

We seem willing enough to feed the other nations of the world, but that's as much as Senator Lodge will let us do. We mustn't associate with them. —Philadelphia Record.

Notice of Application for Letters of Guardianship

No. 156.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Randall County—Greeting;

You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Randall, State of Texas, and you shall cause said notice to be printed at least once each week for a period of ten days exclusive of the first day of publication before the return day hereof:

Notice of Application for Letters—Guardianship

THE STATE OF TEXAS.

To all persons interested in the welfare of Ewell C. Brown, Gerald D. Brown, and Curtis Brown, Minors, Mary J. Brown, has filed in the County Court of Randall County, an application for Letter of Guardianship upon the person and estate of said Minors, which said application will be heard at the next term of said court, commencing on the First Monday in January, A. D. 1922, the same being the 2nd day of January, A. D. 1922, at the Court House thereof, in Canyon, Texas, at which time all persons interested in the welfare of said Minors may appear and contest said application, if they see proper to do so.

Herein fail not, but have you before said Court on the said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Canyon, Texas, this 2nd day of December, A. D. 1921.

(Seal) O. W. GANO, Clerk

County Court, Randall County, Texas.

A true copy, I certify.

W. C. BLACK, Sheriff

Randall County, Texas.

Brunswick ANNOUNCEMENT
PHONOGRAPHS AND RECORDS

We wish to announce to the people of Randall County that we have been awarded the Dealers Franchise of the Brunswick Phonograph and Records.

We now have at our Furniture Store a number of the most popular sizes of machines and a full assortment of records.

Those who have watched the development of the Brunswick during the past few years are fully convinced that there is not a more popular phonograph on the market today. It stands the test of Tone Reproduction, and gives better service than any machine you are now able to buy. We stand behind every machine sold.

We most cordially invite you to visit our Furniture Store, inspect the machine, hear the records, and closely compare this machine with any other machine on the market.

Parent-Teachers' Ass'n Oppose Games of Chance in City

The Parent-Teachers' Association met at the Public School building Friday, Dec. 9. After a short literary program, Mrs. J. S. McReynolds read a helpful paper on co-operation between the school and the home. Then the question of how to win the confidence of the child was discussed by a large number of the mothers. The following resolutions were presented to the Association by a committee, and they were heartily approved of by all the members. These resolutions are being presented to the citizens of the town, and it is our hope that the merchants will help us carry out the requests made.

Since it is the chiefest desire that our children be protected from every evil and hindering influence, and since it is our duty to oppose all such influences, not only as individuals but also as united forces, we present to the people through the Parent-Teachers' Association the following facts and offer the resolution here attached:

1. The fact faces us that the tiniest child is able to secure cigarettes whenever he pleases through some older person who violates a well defined law against such sales or gifts.
2. The spirit of gambling has spread to every age of our boys and girls among the old and young and has been so little opposed that the child does not realize the harm and often enters into it without hesitancy.
3. It is commonly known that there are displayed in various places of business devices known as "punch boards" where children are allowed to take chances very much to their hurt morally and to their loss financially.
- It is further known that hundreds of dollars have been wasted by the school-children of Canyon on these boards—the money having been supplied by parents for the purchase of school supplies, lunches, etc).
4. That there are offered for sale at some of our business houses dice and playing cards which may be secured by our younger boys and which encourage the evil practice of gambling.

- Be it resolved:
1. That we request our merchants and friends to aid in every way the enforcement of the cigarette law.
 2. That they be requested to remove the temptations offered by the "punch boards" and other devices of chance by discontinuing their use at once and refusing to keep in stock the articles complained of.
 3. That these facts and resolutions be given publicity and be presented to our merchants for their endorsement.

WAYSIDE ITEMS

Rev. Hall delivered two good sermons Sunday. Regular appointments, first and third Sunday of each month.

Election of new officers for Sunday School for 1922, Methodist, for the next year: Chas. Rogers, Supt.; M. L. McGehee, Asst. Supt.; Miss Nanson, Secy-Treas.; Miss Nance, Pianist; H. H. Gillham, Chorister.

First Quarterly Conference will be held at Wayside Dec. 31 and Jan. 1st. J. T. McGehee and wife of Canyon came out Saturday.

J. S. Studer and sister, Mrs. W. R. Franklin and daughter, Fannie May, made a business trip to Canyon Monday.

Bertha Crow is sick. Reported to be diphtheria. Is doing nicely.

Ernest and Effie Wilson, formerly of near Wayside, now of near Optima, Okla., are the proud parents of a baby girl born November 7.

There will be a B. Y. P. U. social at the home of Mr. D. L. Adams next Wednesday night.

"The Arizona Cow-boy" is to be played here Friday night.

W. I. Lane moved the store building he recently purchased from W. J. Studer to his lots the past week. He was assisted by quite a number of neighbors.

W. R. Franklin had quite a sick spell last Sunday.

Wm. Payne, wife and Doyle, visited

BALFOUR ONCE A TEXAS COWPUNCHER

Arthur J. Belfour, head of the British delegation of the Conference for the Limitation of Armament, once roughed it as a cowboy in West Texas. The story came out in 1917 when Mr. Belfour came to America as head of the British war mission soon after this country entered the war.

It is related that in the early 80's Mr. Belfour, then a young man, was sent to Texas by an English cattle syndicate in which members of his family were interested to find out why he money returns from the sale of cattle were not coming up to expectations. It was believed that the syndicate was being cheated by those in charge of the sale of the cattle.

Mr. Belfour came to Noans, a trading post on Red River in Wilbarger county, got a job as a cowpuncher and worked the outfit for some time. He found a well planned scheme in operation to defraud the English owners and later had the principals arrested.

Whether his experience as an American cowpuncher has had anything to do with development of this great English statesman is a matter of conjecture, but it is quite likely that his knowledge of this country gained through this and other visits to America has led the British government to place him at the head of the last two important official delegations sent to this country.—Amarillo Tribune.

THE AD ON THE FENCE

I love my country's rocks and rills and feign would move from off her hills the billboard ads for liver pills. I love to gaze on some old barn that stands by wood or rock or tarn. I love its curves and graceful lines, its weathered boards from oaks and pines. I love its silo, cribs and mows, its Plymouth Rocks and brindie cows; my farm-born heart with pleasure swells when I inhale its rich, ripe smells. But O I hate to see its back, exposed to road or railway track, in glaring paint give doubtful dope on some one's double-action soap, or urge relief from human ills by chewing sixteen-horsepower pills. Around you curve the engine scoots, and wayworn travelers press their snoots against the dusty windowpanes, while tired eyes and weary brains drink in the peace of hills and plains. Forgetting cares and lack of cash, they gaze on fields of succotash. Green growing groves where dryads roost and babbling brooks their spirits boost. To keep these haunts for nymphs and Pan, the billions billboard let us ban.

W. A. WARREN

A LECTURE ON Christian Science Christian Science The Truth That Heals

By Mrs. Blanche K. Corby, C. S. B. Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

"The time for thinkers has come," writes Mrs. Eddy in the preface of her great work, "Science and Health with Key to the Scriptures." In the recorded history of man, there has never been such intense thinking on things spiritual and religious as there is today.

A Christian Science lecture is not for the purpose of proselyting or of urging Christian Science upon the unwilling; it is simply to give to each a better understanding of God and his relation to man. Christian Science, known to the world only a little more than fifty years, has had an unprecedented growth. The majority of its adherents have been healed of sickness or saved from wretchedness and despair.

Every thinking person in this audience is conscious of the existence of things. He knows also that all things to exist must have cause, government, and law, and consequently that there is the truth about all existing things. Christian Science proclaims that the one and only cause of all things is God. It declares that God is infinite and is therefore divine Mind; the infinite can not possibly be other than Mind, for with all that is less than mind we associate the limitations of form, size, length, breadth, color, and the like.

Christian Science teaches that to know God aright it must be understood that God is Principle. Why should it be thought strange that Christian Scientists believe God to be divine Principle? Christian Science is the science of Christianity and all scientific demonstrations, whether physical or mental, are the result of an underlying of laws and the employment of them.

The highest concept of God to be attained is that of Love, expressed in the compassionate loving Christ Jesus, who "came to save that which was lost." Through what is called the supreme sacrifice, he overcame death on the cross, revealing to men their God-given dominion. The one consciousness of Love can have no consciousness of anything but love. It is universal love poured out to all mankind. Jesus taught that the tender love of the fatherhood of God is

greater and can do more for us than the limited human concept of love. He said, "If ye then, being evil, know how to give good gifts unto your children, how much more shall your Father which is in heaven give good things to them that ask him?" (Matt. 7:11). Another example of Love understood and practiced is found in this age in the life of the Discoverer and Founder of Christian Science, Mary Baker Eddy. Because of Mrs. Eddy's love for humanity, her life was one of loving obedience to God, devoted to the establishment of Christian Science on earth, that all might share the blessing it bestows in health and happiness.

We have barely touched the hem of Christ's garment today in our understanding that God is Love, but the glimpses already gained have enabled Christian Scientists to heal the sick and to be helpful to humanity. This impelling force of Love will continue until, "all shall know Him from the east unto the greatest," and God's love be manifested among men. It is because humanity has believed that it is subject to the chance and change of human conditions that it has desired an adequate savior. It has believed that man is fallen and subject to all manner of suffering and disease. It has inwardly protested against the cruelty and injustice of intolerable conditions caused by the inhumanity of men; but the protest was feeble and of little avail, because mankind has been educated to believe that evil is inevitable and that there is no way of escape but through death.

When we believe that God sends or permits suffering, that he takes our loved ones from us as a means of disciplining us, are we not judging along with the old theological beliefs which close the door to the goodness of God in human experience and to the great blessings that inevitably follow the recognition of man as the image and likeness of God?

While in religion the old concept of God has been tenaciously held, there have been progress, discovery, and invention in connection with all other things. The business world of today could not continue its great activities with the systems of hundreds of years ago; indeed, its ideals and methods are continuously changing. The conduct of business upon a more systematic, a more scientific basis, as it were, is constantly sought; and yet, scientific knowledge of God is far more important for the welfare of mankind than a scientific business system. Christian Science improves every department of life and aids in the accomplishment of every right purpose.

We all have encountered the condition of thought called pessimistic; it is, always gloomy, downcast, always prophesying evil. This state of thought manifests itself in the many careworn, anxious faces that we see on the street, in the cars, and in all public assemblies. It induces a constant state of torment and casts a shadow upon everything with which it comes in contact. Its unfortunate effect is illustrated by the following incident. A little boy returned from his first day of school in tears, saying he wasn't going to school any more because he didn't like the teacher. He was persuaded to go on several subsequent days, and he grew only more unhappy. He was asked if his teacher scolded him. "No," he said, "she doesn't scold me." "Well, does she punish you?" they asked. "No, not that, but I just don't like school for that teacher is never glad about anything." It is all a matter of thought. If the mental viewpoint could be changed, an entirely different man would be expressed. To accomplish good we must expect to accomplish good, and this "you expectancy" will be apparent, for we should go about radiating the gladness of living. We read in Proverbs (17:22), "A merry heart doeth good like a medicine; but a broken spirit drieth the bones."

Christian Science brings the cheering message that there is an escape from evil, a way out of it all, a way complete in its salvation. It is not a new savior; it is the savior of the prophets and of Jesus who declared the way of salvation to be at hand. Jesus taught that it is the evil which proceeds from the heart that injures a man, in other words, that it is wrong thinking and not conditions of matter that must be corrected. In the degree that man ceases to think evil and sin, and learns to dwell in good will evil and sin disappear. It is the carnal mind that is at enmity with the divine Mind. The Scriptures say that the carnal mind is death; then as man ceases to think after the manner of the carnal mind, he gains life and health.

The sense of fear and death came with the mist that arose from the earth of material sense as it is related in the second chapter of Genesis. It obscured the heavenly vision which showed God to be Spirit and man to be wholly spiritual. Christian Science is restoring this vision today in all its beauty, power, and grandeur. It is the revelation of truth bringing salvation to the inhabitants of the earth. Jesus drew a sharp line between spirit and matter when he said, "God is a

Christ, was assailed by doubt, he appealed to Jesus to know if he really were the Christ who was to come. Jesus sent back not a long theological discourse, but the simple appeal to let the works bear witness to his Messianic mission. "Tell John," he said, "what things ye have seen and heard; how that the blind see, the lame walk, the lepers are cleansed, the deaf hear, the dead are raised, to the poor the gospel is preached. And blessed is he, whosoever shall not be offended in me." (Luke 7:22). This covers the whole of human need and this proof of the practical operation of Christianity will always be the witness of Christ, Truth. For centuries mankind has been trying to solve the problem of healing. So far in the history of mortal man, there is nothing known in so-called science, philosophy, or medicine that equals the scientific healing of Jesus. No other system claims to be an exact science; the Christ method of healing is an exact science and does heal.

Jesus announced that he came to destroy the works of the devil and to do his father's will. His professed followers cannot question that he came to do that which was lawful and right. In the destruction of all evil he proved that disease as well as sin is not in accord with the law of God, but is the work of the devil or evil. He devoted his whole life to proving the availability of God for man under every circumstance. He used no material means, he ascribed no credit to himself, but always gave God the glory. If Jesus healed in accordance with the will of God, it must have been in accordance with the law of God, and this law is as effective today as when Jesus was upon earth. Salvation is a divine idea, therefore, for all eternity. Jesus did not limit the healing to his day alone, when he instructed his followers to go out into the world to preach the gospel to every man and to heal the sick. Added to this was his admonition to those who believe on him to do greater works than he had done, not greater in quality, but in quantity. Jesus individually did all there was to do; he worked out his own salvation and clearly defined the way whereby man can individually work out his own redemption. He said, "I have finished the work which thou gavest me to do."

There are many professing Christians today who say that they believe in the omnipotence of God, but is this true when recourse is constantly taken of material systems of healing? The application of matter to matter for the healing of disease is the practice of pagan centuries. It may be applied today in changed forms, by methods believed to be more progressive and efficacious, but diseases have continued to multiply, and humanity goes on suffering because God is left out of these systems of healing. This omission accounts for the long list of so-called incurable diseases, believed incurable only because men have said that they could not heal them. Jesus never said that any case brought to him was incurable or difficult to heal. He resolved disease into the mental realm and said to the man who was brought to him on a bed, sick of the palsy, "Son, be of good cheer; thy sins be forgiven thee"; (Matthew 9:2) and when the scribes accused him of blasphemy, he replied, "Wherefore think ye evil in your hearts? For whether is easier, to say, Thy sins be forgiven thee; or to say, Arise and walk?" (Matthew 9:4, 5). This showed that he considered the infirmity mental, the result of wrong thought. At another time he said to a man whom he had healed, "Behold, thou art made whole, sin no more, lest a worse thing come unto thee." (John 5:14). Christian Science makes man whole by the destruction of a desire to sin. It creates a natural desire to know God's will and overcome the love of case in matter, thereby giving freedom and activity to thought.

The purpose of a Christian Science treatment is not to make a man comfortable in materiality that he may go on living at ease in matter, neither does it enable one to sin without the forever consequence of suffering as the result of sin. Its purpose is the sublime one of regeneration, that man may overcome sin, sickness, and death.

Christian Science is not a faith cure. The healing is not accomplished through the mere concentration of thought, holding thought for another, nor through the exercise of the human will that is, by willing the sick to recover. The entire teaching and practice of Christian Science rests upon the basic fact that God is all. The power of a Christian Science treatment lies in the fact that it is the realization of the omnipotence of God, of the power of truth over all error in accordance with the divine will or law. When all mankind can say with understanding, "Thy will be done," then shall we have God's kingdom on earth as in heaven, because the will of God is health, harmony, peace, and plenty. The will of God is the reign of good; the manifestations of good are natural and right though the world has so long thought of evil as natural and inevitable that it seems a miracle to human sense when good appears. When the positive light of truth is brought to bear upon the false sense of evil, evil disappears.

The objection is sometimes made by those who do not understand the method of Christian Science healing that nothing is being done for the sick who have turned to it for aid. Is one relying upon nothing, when one turns to the supreme source and cause of all things, the power which created the universe and man? Sometimes God is the only creator. He is abundantly able to care for His own creation and to keep His divine law in operation. God is greater than any disease or evil condition and there is nothing to fear from looking to the only source and origin of all that exists for help and healing. Does not Scripture say that God is a God at hand and not afar off, an ever present help? Christian Science declares that all that is necessary for the healing of the sick is included in the one Omnipotent Mind.

There are today great numbers of people on earth who, in time past, in hopeless bondage to fear, misery, and disease, were compelled to turn to God for help because all else had

failed them. Ask these people if they were doing nothing when they turned to Christian Science for healing. They will tell you that after everything else had failed, they learned that the only thing to do was to rely upon God. For many years in every Christian Science church throughout the world, on Wednesday evening a testimonial or experience meeting has been held. During this time millions of authenticated cases of healing have been related, authenticated in the sense that those giving the testimony are generally those who have had the actual experience of healing. Many of these people say that by the reading of Science and Health with Key to the Scriptures, known as the textbook of Christian Science, they have been healed of diseases classified as incurable. From cover to cover of this wonderful book, Mrs. Eddy declares the power and availability of God. These people, redeemed from disease and sin, say that they are better men and women because of the ministrations of Christian Science; they say that through the textbook, they have learned to understand and love God, that it has made them devout students of the Bible, and that it has taught them to pray intelligently. They express the deepest gratitude for having been delivered from paralyzing fear, from bad disposition, and from permanent tendencies, the direct cause of much disease and discord. These people who have learned the majesty and might of goodness and the utter powerlessness of evil are not a deluded people. They know that the kind of mentality which causes disease cannot cure it, and that this change did not take place through any ism or mental suggestion, or through the withering influence of hypnotism, but that it came through the hallowing influence of Christ, Truth ever operating through divine law.

The consecrated study of Science and Health is moulding the lives of thousands upon thousands into better health, honesty, justice, and purity. As time goes on, it will find its place in human history as the greatest benefactor of this age; and no attempt of evil can ever displace it or overthrow it. The purpose of Christian Science practice is to help others and to enable them to learn from the textbook how to practice and to demonstrate the truth taught therein. The practitioner who realizes most clearly that there is no disease in matter to be treated, but rather that there is a false sense of the patient to be corrected, will accomplish the best results and gain a victory over error. If disease is absolutely ruled out of thought it will not be found in the body.

Throughout all time the Christ mind has appeared as the Savior. It was revealed through the teaching of the prophets; it was demonstrated to its fullness in the life and works of Christ Jesus; it was declared as the only way of salvation by Paul; it was brought to this age by Mrs. Eddy through the revelation of Christian Science; throughout the successive steps of this revelation, the healing is conspicuous. Is it not then incumbent upon every professed follower of Christianity to prove in some degree the mind that was in Christ by casting out evil and healing the sick? Any effort to retard the progress and unfolding of the Christ idea is but an incident in its history. Mrs. Eddy refers to the eternity of the Christ in Science and Health as follows: "Truth's immortal idea is sweeping down the centuries gathering beneath its wings the sick and sinning. My weary hope tries to realize that happy day when man shall recognize the Science of Christ and love his neighbor as himself; when he shall realize God's omnipotence and the healing power of divine Love in what it has done and is doing for mankind."

No right thinking Christian Scientist claims that he has attained perfection today. He does not claim that the full scope of healing has yet been accomplished, but he is striving constantly for more of the mind which was in Christ Jesus and is therefore a better man and a more desirable citizen in any community; he thinks more seriously of his vote that it may be cast on the side of civic righteousness; he is in sympathy with every effort to bring about better conditions for humanity through the regeneration of mankind.

Autocracy was not destroyed nor even rendered inactive on that day in November, 1918, when the armistice was signed. Many ramifications of autocracy are appearing today, which must be recognized and resisted in order to preserve the liberty and freedom of our homes, of our children, and of our greatest American institution, the public school system. Throughout the country there is a concerted effort to force compulsory vaccination and objectionable so-called health laws into the public schools through legislation. If vaccination has all the virtue claimed for it by certain individuals, people would not have to be forced to accept it. Some of the best medical authorities consider it dangerous and the cause of some of the most malignant diseases. For the few to impose that which is considered dangerous and malignant upon the many through the process of law, is far from the ideals of those who founded this great democracy. The framers of the constitution of the United States discerned in part, our rights as sons of God, and incorporated them in that document as the inalienable rights of man. We must prevent the slightest intrenchment upon these rights if we would save this great republic for posterity.

The Bible, often referred to as the book of books, is too seldom read and too little understood. Too often it is shut away in the bookcase, or is made a depository for all sorts of memoranda, a collection of what-nots. Because the Bible depicts different conditions of thought, it is of especial interest to Christian Scientists, for they recognize in the history of the prophets, the children of Israel, and that of the disciples their own experience in the warfare between good and evil as it takes place in each individual consciousness. Christ Jesus through his teaching, entrusted to his followers the spiritual warfare. The struggle at present seems to be between the material and the spiritual

sense of things, but progress makes it less struggle and more triumph of good over evil, as it should be. Problems do not discourage or dismay the one who is thinking rightly, for he regards them as opportunities to prove God's allness. Paul said, "Thy grace is sufficient," and the Christian Scientist learns that God's grace is always sufficient unto the day or hour of seeming evil.

For centuries the world has stumbled on without a definite understanding of what constitutes true prayer. Under great stress of suffering or disaster there is sometimes a desire to know how to pray, but in spite of tears and importunate yearning, much of the prayer of the world is never answered. In James we read, "Ye ask, and receive not, because ye ask amiss." (James 4:3).

Mrs. Eddy teaches that the only effective prayer is the prayer of Jesus—the recognition of the allness of God and the availability of that allness for every human need. True prayer is not a supplication through blind faith, in other words, asking God to answer prayer; it is utilizing and making practical the goodness of God. True prayer brings thought into accord with divine Mind and declares and demonstrates the spiritual facts of being.

There are today more than a hundred different sects claiming to be followers of Jesus, none of which make the healing of the sick imperative. Jesus' whole mission was one of healing, and the need of the world to day is for a return to the primitive Christianity which inspires its followers to emulate Jesus in his teaching and practice. Christians must prove that they accept the teachings of Jesus by fulfilling his commands—by doing his works.

It is sometimes asked by those turning to Christian Science for help, if it is necessary to have faith in order to be healed. It would be unreasonable to expect those who have no understanding of Christian Science to have faith in it. There are many in the ranks of Christian Scientists who experienced the most violent antagonism when Christian Science was first presented to them, but after seeing what it did to others, they consented to make the experiment and were touched by its beneficent influence.

Little more than fifty years ago there was just one Christian Scientist on earth, Mary Baker Eddy. She says in "Retrospection and Introspection," a short biographical account of her own life that from her very childhood she was impelled by a hunger and thirst after divine things, a desire for something better than matter and apart from it. This spiritual desire made her always consecrated to the endeavor to know and understand God. With maturing years came the conviction of the unreliable nature of all things material. A time came when she was given up to die from the effects of an injury supposed to be fatal; she then called for her Bible, and while reading of the cures wrought by Jesus, realized that God is as able to heal now as in centuries past, and she immediately arose from her bed restored to health. With her healing came the determination to know the science or truth which had wrought such a change in her life. She devoted years to the research; and at last in the divine and natural order of events, in 1875, "Science and Health with Key to the Scriptures" was given to the world.

In this book Mrs. Eddy has set forth a scientific system with definite rules for practice, which will enable any sincere seeker to prove the truth of her revelation. In the early years of her ministry, with sublime patience and courage she waited, worked, and prayed, until she gained a handful of students to assist her in establishing Christian Science on earth. Today Christian Science is known throughout the whole world; in many remote places there is a society or church organization, while the larger cities have many overflowing churches. Mrs. Eddy also founded and directed many activities in connection with her church, which will always be of great benefit to humanity.

Christian Science does not advocate the superiority of woman; its appeal is for a universal spiritual suffrage, which equalizes and unifies the thought of men and women and will emancipate the whole human race. Mrs. Eddy never encouraged the slightest personal adoration, but always turned her followers to the worship of God, away from personality to Principle. Humanity will sometime realize that it can never repay its debt of gratitude to Mrs. Eddy, the Discoverer and Founder of Christian Science.

The Christian Science Church, with its form of government founded by Mrs. Eddy, stands for pure democracy, the brotherhood of man, universal participation, growth, and culture. Each individual has his place in Divine Mind and cannot usurp the place of another. The by-laws of the Church, contained in the Church Manual, originated by Mrs. Eddy, are for the purpose of maintaining and preserving the integrity of the organization and its activities, and are requisite as long as material organization is necessary. The tenets of the Christian Science Church, set forth in Science and Health, teach its followers to be "merciful, just and pure"; and this means obedience to the highest moral standard. To digress in moral integrity is fatal to the progress of a student of Christian Science.

It is evident that the sinning man held in bondage by ignorance and superstition is not God's man. Before mortal man reaches the consciousness of his oneness with God, he has a battle to wage within. All evil must be overcome within, and individual consciousness is the scene of conflict. The Christian Science Church stands for absolute reliance upon God and His Christ. It stands for the achievement of every good thing, and for complete salvation from sickness and sin through man's dominion over all evil. In closing I will also say for your remembrance, he who has suffered the pangs of great disappointment, the sorrow of great loss, the humiliation of broken pride, will surely find in Christian Science a solace. It is indeed the Comforter which wipes away all tears, binds up the broken hearted, and restores all things.

A Christmas Miss

THE PRESIDENT WRITES A LETTER

Mr. Harding's most obvious instance of adopting the methods which he and his supporters have spared no words heretofore to execrate and condemn has resulted in utter failure to get results. In sending a letter to Chairman Fordney of the House Ways and Means Committee attempting to direct the action of the House on a bill in conference Mr. Harding went to the extreme limit of anything ever charged up to his predecessor as "dictatorship," one-man rule or autocracy. In the practice itself there is little to be deplored. But if that is true now it was equally true during Mr. Harding's campaign for the presidency, a campaign which he based largely on the theory that the intermeddling of the executive with the legislative branch must be stopped. Indeed, if the issues of that belated campaign be brought to view now it will be seen that for the most part they have by this time been either abandoned or made ridiculous. In place of the former abhorrence of internationalism we have now a conference dealing broadly with international affairs and with the prospect of at least a regional league or covenant for the maintenance of a sort of joint mandate over China. In place of the promise of the immediate passage of a stiff high-duty tariff bill, we have the admission that perhaps it would be better to wait until the situation clears up a bit. In place of sweeping economies immediately to be instituted we have the same old deficiency appropriations and more promises, which may or may not be fulfilled. And now, instead of strict aloofness of the White House from the decisions of the Capitol, we have a letter which would not have been more "dictatorial" had it been taken from the semi-state papers of Woodrow Wilson himself.

It is but fair to say that in practically every instance where the practice of President Harding has departed from the professions of Candidate Harding the change has been either for the better or else no more than might have been expected from the beginning. But the results leave the President in the embarrassing position of the opportunist who lays hold of whatever is at hand without regard to anything other than the affairs of the moment. Whether justly or unjustly, he is in the attitude of either being pushed by outside forces into each new stand or else having slid there with more dignity than choice.—Dallas News.

VAIN GRATUITIES

Never was there a man much uglier in eyes of other women, or more grim: "The Lord has filled her chalice to the brim. So let us pray she's a philosopher." They said, and there was more they said of her— Doeming it, after twenty years with him, No wonder that she kept her figure slim And always made you think of lavender.

But she, demure as ever, and as fair, Almost, as they remembered her before She found him, would have laughed had she been there, And all they said would have been heard no more Than foam that washes on an island shore Where there are none to listen or to care. —Edwin Arlington Robinson in the New Republic.

BUT THE SAME SYMPTOMS

"Are you a messenger boy?" "No, sir. I gotta sore toe makes me walk this way."

New York is now in for four more years of Hylan fling.—Asheville Times. Perhaps postal thefts were less frequent in Mr. Burleson's time because handits got tired of waiting for the mail.—Brooklyn Eagle.

FACT AND COMMENT

It isn't too early to begin on the Christmas presents that you are going to make at home.

What you must do at first through force of character you will later be able to do through force of habit.

It is said that the population of Iceland is wholly literate—no small accomplishment in a country so sparsely settled. The outstanding fact of the educational system is that parents are responsible for teaching their children the elementary subjects. All children from ten to fourteen years old must take examinations every spring to show that they have completed the work of one grade, regardless of who has taught them. If they do not pass, the educational committee may have them taught at the expense of the parents or guardians.

Those who thought that France, "bled white" was doomed to perish must marvel at the power of the nation to revive. Returning tourists who have had a good time there naturally see things in a favorable light, but official accounts also are cheerful. For example, Le Temps reports that there were 623,000 marriages in 1920, or twice as many as in the same period before the war; the births were 44,000 more than in 1913, and the deaths 56,000 fewer. That does not make for race extinction; neither does the 88,000,000 quintals of wheat harvested this year in spite of the drought: a crop that compares well with that from a much larger area before the war.

CAMPBELL SCHOOL NOTES

The Campbell District Sunday School which was organized November 13, gave a box supper Saturday night for the purpose of raising money to buy and organ. The supper was well attended and the high school orchestra from Canyon, of about fourteen pieces, furnished wonderful music. The boxes brought \$32.95 and the cake, won by Miss Edith Harrison, in the beauty contest brought \$31.40. The ladies of the Country Women's Club gave \$20.00 toward the fund. The Sunday School has a regular attendance of about thirty-five and new members coming in each Sunday. The Sunday School wishes to extend thanks to the members of the high school orchestra and to the people of Canyon, who came out and aided by their presence and patronage.

A farewell party was given at the Gordon-Cumming home Monday evening in honor of Mr. Rentice Dodson, who left for Cario, Illinois Tuesday. The evening was spent in playing forty-two. Before the guests departed refreshments of punch and cake was served to the guests.

Marjorie Gordon-Cumming is unable to be in school as she has a case of tonsillitis.

Alexa and Majorie Gordon-Cumming spent Sunday with Miss Florence Zimmerman of Amarillo.

Mr. and Mrs. O. S. Brown and Mrs. Bob Stratton were in Amarillo Tuesday.

Whatever is not profoundly considered in its detail produces no good results.—Napoleon.

THINK OF IT!

The United States is the richest country in the world.

The bank deposits in the United States exceed by billions the combined deposits of the whole world outside of this country.

We have more actual cash than any other nation.

Our national wealth at the time of the Civil War was about \$7,000,000,000; at present it is \$225,000,000,000.

In a single year we produce by manufacture and agriculture more than the entire national wealth of France.

England's wealth is only \$80,000,000,000 as against our \$225,000,000,000.

Of all the wheat of the world we produce twenty-two per cent.

Of all the oats of the world, thirty-five per cent.

Of all cotton, sixty per cent.

Of all corn, eighty per cent.

Of all horses, twenty-five per cent.

Of all cattle, twenty-seven per cent.

Of all hogs, forty per cent.

Of all the world's dairy products, twenty-five per cent.

One-half of the world's pig iron is taken from the earth of the U. S. A.

Fifty per cent of the world's copper.

And sixty per cent of the world's petroleum.

Besides this we produce twenty-five per cent of the total production of woollens of the earth.

Twenty-five per cent of the linens.

Twenty-five per cent of the cotton cloth.

Forty-five per cent of the paper.

Twenty-five per cent of the glass.

Thirty-six per cent of the shoes.

And fifty per cent of the steel products.

And we do this, having but five per cent, or one-twentieth of the world's population.—Clovis News.

A MILLIONAIRE MACHINIST

The Nation's Business: On a hot day some months ago an express train between Philadelphia and New York came to a jolting halt. The passengers first joked, then grumbled, then grew impatient. A big man, white-haired, but youthful in motion, climbed down from the chair car and marched up to the engine, which was the center of a ring of passengers.

"What's wrong?" he asked. In effect, the engineer said that the engine had quit and he didn't know what the several things was the matter with it.

The big man peeled off his coat and waistcoat and rolled up his shirt sleeves. Then he sort of disappeared in the interior of the unwilling engine and the ring of watching passengers grew.

Half an hour later he emerged with a smudged face and grimy hands and said, "She's all right now," put coat and waist coat over his arm and walked back to his chair car, wiping his hands on a handful of waste he'd picked up in the cab.

She was all right and the man who made her all right was Samuel Matthews Vauclain, president of the Baldwin Locomotive Works, and a real boss of their 20,000 workmen.

It was like Mr. Vauclain to take hold of that engine and make her all right. Work with his hands is no new thing to him. Equally like him was to look on what he had done as a casual incident in a day's work.

Do your duty as capably as you can; if you can not do it, be patient.—W. H. Wilson.

"They also serve who only stand and wait."

Would a man enjoy rest, let him first endure labor and suffer fatigue. The fatigue of the body relieves the fatigue of the mind. Bodily fatigue, if not carried too far, is pleasurable, being succeeded by rest. There is no pleasure arising from mental fatigue.—W. H. Wilson.

Life is full of trouble, and wisdom lies in being prepared for it, not in clamoring that it doesn't exist.—Walt Mason.

JUST A FEW MORE DAYS

Our big Reduction Sale will only last for a few more days. Don't delay any longer in supplying your needs, for the Holidays, as well as for the cold weather.

This cold weather is bound to come soon. You can make a big saving during this sale on all heavy merchandise. Our Shoe stock is very complete and we are offering prices in this line in many instances for less than wholesale.

LOCAL NEWS

Coach S. D. Burton was called to Oklahoma last week by the serious illness of his sister-in-law. Mrs. Burton was called to her bedside a few days previously.

John Vetesk will arrive home Monday from Eldorado, Kansas, to spend the holidays. He has been with Robt. H. Hazlett on the Hazford Place for the past six months, and took Mr. Hazlett's fine Herefords to the big shows held this fall.

After all—the best gift is a Photograph. Britain's Studio.

G. W. Masters arrived Tuesday from California where he has been with his family for the past few months. He will stay in the Panhandle for about six months on matters of business.

My hand painted china for Christmas is on display at the Canyon Supply Co. Prices range from 50c per piece up. Mrs. C. N. Harrison.

Mrs. O. W. Gano was in Amarillo Wednesday to meet her husband who returned from Waco where he has been attending Grand Lodge.

Mr. and Mrs. Eugene Devereux left Tuesday for their home in Santa Fe, New Mexico. Mr. Devereux intends to return to school after the holidays.

Jim Foy of Estacada was here Monday on business.

Jarrett Drug Company is selling Christmas Goods at 25 per cent discount for cash.

Mack Crawford of Tulia was a caller here Tuesday.

Arthur Gober of Amarillo was a caller here Tuesday.

Mrs. Jim Green entertained the members of the Needle Club at her home Thursday afternoon. Needle work was chosen for the afternoon's diversion and was indulged in until a late hour in the prettily appointed entertaining room. At five o'clock a delicious salad course was served to the members and a number of guests.

Special Sale. Not profit but how much cash. 10 to 40 per cent off on everything in our stock. E. Burroughs' Holiday Store.

Numbered among the delightful social events of the week was the Buffet Luncheon given at the Misses Wiggins' apartment Wednesday night. During the evening many interesting games and a series of musical numbers and merry conversations was enjoyed by those present until a late hour when tempting sandwiches, pickles and hot chocolate was served to the guests.

Ranging among the most enjoyable social affairs of the past week was the party given by Mrs. Wilford Taylor in honor of Edna Taylor. Pretty touches of fall flowers added much to the pleasure of the evening. Miscellaneous games, contests and music were enjoyed until a late hour.

10 to 40 per cent discount on all holiday goods. Jewelry and Ivory. E. Burroughs, Jeweler.

David Burnett is home from Austin where he is in the office of the collector of Internal Revenues.

Mr. and Mrs. J. R. Bassett have been in Oklahoma for the past two weeks looking after matters of business.

Pure lard 10c, 12½c and 15c per pound. Vetesk Market.

Mr. and Mrs. S. B. McClure and family spent Sunday with his sister in Claude.

There will be a pie social at the Pleasantview school Saturday night, December 17, the proceeds to go toward paying off the debt on the piano.

Miss Alice Prichard was home over Sunday from her school work near Channing.

Lowest prices ever offered on Jewelry, Ivory, Cut Glass, Dolls and Toys. Overstocked—we must have the money regardless of the profit. E. Burroughs.

C. S. Arnold was here from Amarillo to spend Sunday with his brother, A. J. Arnold.

Mrs. L. F. Sheffy went to Plainview Saturday to visit at the home of her mother.

President J. A. Hill left Saturday for Austin. He stopped over in Plainview Saturday to speak at an educational meeting.

J. B. McCrary of Carroll, Iowa, was a business caller in the city Thursday. He was well impressed with the conditions he found in this section, and remarks the contrast he had seen upon hunting expeditions he had made into West Texas 25 years ago.

Buy your Christmas goods at Jarrett's and get the 25 per cent discount for cash.

Letters For Santa

Dear Santa Claus:

I want a pair of house slippers, a game, some story books and a ring. My little brother is too small to write, but he wants a rocky-horse, a story book, a doll and a gun.

Your friend,
Dorothy Faye Rusk.

Dear Mr. Santa Claus:

I want to tell you what I want for Christmas. I want a little sleepy doll, and I would like to have a muff.

Yours truly,
Harriet Dickinson.

P. S.—I have 2 little sisters and they want something too.

Dear Santa Claus:

For Christmas I want a doll dresser and aluminum set of dishes. I also want some candy, nuts and fruit, and don't forget to bring my baby sister some play things.

Your friend,
Gladys Stewart.

Dear Santa Claus:

I wonder if you will remember us this Christmas. We want a little doll bed and a doll, and please bring little brother Glenn, a little wagon and a little dog that barks.

Annie Mae and Leona Vetesk.

Basketball Stock Jumps at Normal

Basket ball stock took a jump at the West Texas State Normal College last Saturday when Nae Hale, a member of last year's team, joined the squad. He is considered one of the best basketball men that has ever attended the Normal. He played forward and it was largely due to his shooting that the Normalites were able to defeat the strong aggregation at Simmons last year. This brings a total of three last year's letter men that are trying for berths on the Buffalo team.

Then there is big Key who is a letter man of some two years ago. He has not reported for practice yet as he has not entirely recovered from the injuries received in football. Gary Simms and Lewis Hill of the last year's squad are expected to enroll within a few days. This will give Coach Burton six letter men to work with. There are a number of new men who are showing some real class; among them are Terry who played on the second team last year, Gordon, a member of the Freshman team of Oklahoma University two years ago.

Roy Golden is looking good for a position as guard. He is a brother of Floyd Golden who played with the Buffaloes last year. Cope of Lipscomb is playing a wonderfully aggressive game and may crowd some one of the old men for a place before the season gets far along its course. Fitz Benson of Hale Center is looming big as a possibility for the center position. There are others who with a few more days work may show sufficient class to make the letter men work for their places.

An effort is being made to schedule games with Texas Christian University, New Mexico Military Institute, Decatur College, The Denton Normal, Southern Methodist University, Clarendon College and Simmons College. It is planned to play at least sixteen games with college teams. Six of which are planned for the home court and ten away from home.

Normal Grid Team Guests at Banquet

Tuesday night, December 6, a banquet was held in honor of the 1921 grid team of the West Texas State Normal College. Covers were laid for 45, and was served by the Home Economics Department. The college colors were featured in the decoration. Capt. Dan Sanders made a short talk summing up in a way the season's work and introduced the captain-elect, Grady Burson, who, in a few words, said a great deal about the prospects for next year. Coach Burton spoke of the many things he wished to accomplish next year, and asked each man to make an effort to bring a good man back with him for next year. Short talks were made by Professors Terrill and Reid, following this President Hill made a talk assuring the boys that the college was always behind them and expressing his confidence in them to ever prove worthy of the confidence placed in them. Professor Shirley acted as toastmaster.

It was announced that the athletic committee had decided to again conduct a training camp for the football team prior to the opening of school next year. It was also announced that Mr. Shirley would attend the meeting of the Texas Intercollegiate Athletic Association at Dallas, with instructions to apply for membership in that conference. Both announcements were met with much enthusiasm.

The invited guests present were Dr. R. P. Parcells of Amarillo, Drs. Price and Stewart of Canyon, Capt. Byron Durbin, 29; Professors Reid, Terrill, Lockhart, Shaw and President Hill.

The schoolmaster asked his class if anyone of them could tell him what an epidemic was.

No answer.
"Well, I will tell you. An epidemic is anything that spreads. Now, what is an epidemic?"
"Jam, sir," shouted the class, in chorus.

Grady Burson Will Head Buffalo Team

At a meeting held by the letter men of the Normal team just prior to the banquet served in their honor last Tuesday evening, Grady Burson was elected as captain of the team for 1922. His election comes as a reward for the services rendered the team during the season just closed. He received ten of the sixteen votes cast on the first ballot, and it was then voted to make the election unanimous. He is popular with faculty and students as well as with his teammates, and his election has met with unanimous approval from every corner of the campus. He is one of the best backfield men that has ever donned the moleskins in the Panhandle. He is a dangerous man when carrying the ball, a good tackler, good punter and an excellent passer. Many of his passes went for 45 yards this year. He has checked out a football and hopes to have his pass and punt developed still better when the call comes to report on the gridiron next fall.

Burson lives at Silverton. He played football on the high school team there in '19, and was a member of the Hale Center team in '20. He is a freshman college student, 20 years old, and stands high in his studies.

FORMER CANYON GIRL MARRIED AT WICHITA FALLS HOME

The following is taken from the Wichita Falls Times regarding the marriage of a former Canyon girl, Miss Kathryn Smith:

The marriage of Miss Kathryn Smith to Harrison Hubert Morse was solemnized at the home of the bride's parents, Mr. and Mrs. J. Frank Smith, Wednesday morning at 10 o'clock, with Rev. Nat F. Grafton saying the double ring ceremony.

Miss Smith wore a handsome blue canton crepe dress for the wedding ceremony, with accessories to harmonize, and carried an arm bouquet of roses. A few friends witnessed the marriage, including Mr. and Mrs. Ernest Archambeau, Mesdames Richardson, Holland, G. B. Bodkin and Floyd Ard, and Mr. Burke of Iowa Park, with the bride's parents. Mr. and Mrs. Morse had luncheon with Mr. and Mrs. Smith, leaving shortly afterward for Fort Worth. They will have dinner in their own home in Fort Worth this evening.

Mr. Morse is in the realty and mortgage business in the north Texas city, and is expecting to be sent to Cuba on business shortly, which trip will constitute their honeymoon.

Mrs. Morse is a Canyon girl, having spent her childhood and girlhood there except for the time she was in school in Clarendon college and Kid-Key at Sherman. Last spring she graduated from the Johnson-Baell sanitarium in Fort Worth and since then has been engaged in general practice in that city.

AQUA PURA

Lubbock Avalanche: We notice in a dispatch from Paris, Texas, that the people of that section, are hauling water for their live stock. This editor before he was 12 years of age had hauled enough water to overflow the Yellow House Canyon before our father discovered that there was a greater and better country in the West. It sounds peculiar to the younger people who have been raised on the great South Plains to hear of a fellow hauling water for any purpose at all. In this great South Plains section the water question is the easiest of all. A well fifty feet deep with a good windmill will supply all the cattle that an average fellow would ever have with clear, cool sparkling water, and no matter which way the wind blows, the supply is never reduced. Come to the great South Plains, where you select the place where you want your well and drill down to the everlasting fountain of water and you are fixed for the balance of your natural born days. Doesn't that sound good to the fellow who has been hauling water all of his life several miles to supply the needs of the milch cows and the work team?
State Press Dallas News: Early geographers used to make maps which

carried the Lubbock locale under the label of "Great American Desert." It was supposed to be no nearer water than hades is to a blizzard. How absurd that idea was may be gauged by the thousands of windmills which decorate the Texas Plains. Truth to tell, there is yet no great sight of rain in certain portions of Texas, but underneath the surface there is fresh water, sweet water, well water. Also there is good soil, soil that responds to seeding and cultivation with an enthusiasm which is youthful in zest. To live in West Texas, to dwell placidly under one's own vine and fig tree and see them watered by a windmill which demands no wages and scorns union hours, is probably an experience even more delicious than that of the poet, who after thinking about it poetically, exclaimed, "See Naples and die!" What the poet meant was not that seeing Naples was fatal, but that seeing it unfit a person for coarser sights. So, living in West Texas, poetically speaking, unfits a man for residence in a locality where he has to work for his water.

A GET-RICH-QUICK PLAN
"Is there any money in a perpetual-motion machine?" asked the inventor.
"I guess there is," said the man with the red tie. "I have a little machine in my store that would bring me in millions if I could keep it in perpetual motion."
"What is it?" asked the other.
"A cash register."

THE PARSON KNEW
A Massachusetts Senator was back home, looking after his political fences, and was asking the minister about some of his old acquaintances.
"How's old Mr. Jones?" he inquired.
"Will I be likely to see him again?"
"You'll never see Mr. Jones again," said the minister. "Mr. Jones has gone to heaven."

Distress after eating is due to bad digestion. Herbine helps the digestive process, clears the system of impurities and restores a feeling of vigor and buoyancy of spirits. Price 60c. Sold by Jarrett Drug Co. 36t5

Feeding Hens For More Eggs

County Agent Luther T. Hunter, says: "Many farmers are feeling hard hit because their hens are not laying, when the present price of eggs is around 65 cents per dozen."

"In feeding hens for egg production it is necessary that we study the manufacture and composition of the egg. We will consider something of what takes place in the manufacture of eggs. The production of eggs is as much a manufacturing business as is the manufacturing of shoes, furniture or machinery; we are dealing with a live machine, one that in a measure renews itself every year or when it wears out."

"In studying the composition of an egg we find that it is largely composed of fats and protein. In order to stimulate egg production it is necessary that we supply the same materials in the way of feed that it takes to produce the egg. In other words, feed the hens food that contains fat and protein so that they will have the necessary material to manufacture the egg."

"What we are trying to do is to supplement spring conditions as much as possible. In the spring the hens usually have free range where they can balance their own ration in the way of bugs and green grass."

"Below is a winter egg-laying ration tried out by the experiment station at A. & M. College:

Wheat bran.....	15 lbs
Corn meal.....	30 lbs
Milo chops.....	35 lbs
Meat scraps.....	20 lbs

"This ration is to be fed dry in a self-feeder where the hens have free access at all times. A mineral ration should also be provided in the way of oyster-shell or bone meal."

"The farmers who have green wheat pasture in addition to the above have spring conditions supplemented as nearly as possible outside of the weather."

"Try this out—it might mean dollars to you.—Childress Index."

A wife has been fined \$5 for whipping her husband on the street. Now that a schedule of prices has been arranged, may we not expect a series?—New York Morning Telegraph.

Our delegation is notable for its bright Hughes.—Asheville Times.

Germany is the land of promise.—Asheville Times.

The only concern that seems to be making money in Russia is the government printing-office.—Seattle Times.

MICKIE SAYS—

EVERY TIME YOU SEND TO ANOTHER TOWN FOR A JOB OF PRINTING, YOU'RE BOOSTING THAT TOWN AND KNOCKIN' YER OWN!

DOLLARS AIN'T LIKE GAYS—THEY NEVER COME BACK!

PATRIOTISM AT HOME

Patriotism should begin at home; extend out from the home to the home town or community; thence over the country; and thence over the state and nation. The patriotism that does not include its own nest, its own family and its own surroundings, is not much patriotism, nationally or any other way. We should all think of these things continually, for they are vital to our best interests and welfare, and the best interests of our family, friends and neighbors. There is always argument on both sides of any question, but the basic facts remain, just the same, and we should not lose sight of those basic facts. As a rule goods can be purchased in the home town as cheap as in other towns or cities; not all things, but the majority of the commodities which we use. Some articles may be a bit higher or once in a while, but it is equally true that some are often a bit lower, and the whole monthly account will balance pretty well, take it up one side and down the other.

But even if it did cost a trifle more to trade at home than to send money away to the cities, still it would be cheaper in the long run to buy at home and let the money circulate around the town, each dollar doing a hundred dollars' worth of business before it finally slips away.

If we do not build up our own town, and all our investments in it, for homes or anything else, will fall flat, and we all lose out. Any way you want to look at this trading away from home business, it figures out a loss in the long run for everybody who engages in it as a regular thing.

This, you know, applies to the home printer as well as to the home merchant. Home merchants please take notice.—Ripon (Cal.) Record.

Come to Canyon to live.

YOUR WORST ENEMY

I am your worst enemy.
I am the ruler of the rental reverses.
I am the Lord High Potentate of Failure.

I am the reason for that downward slant of your profit curve.

I am the cause of the silent sickness that stills your cash-register bell.

I am the origin of dissatisfied customers and loss of trade.

I am the heaven of uncertainty in the midst of certain profits.

I am the element that turns a winning business into a losing gamble.

I am the fountain-head whence springs the majority of your troubles and worries.

I am the key to the problem why thousands fail every year.

I am the why and the whyfore, the direct and proximate cause, the germ and the genesis of unsuccessful merchandising.

I am the sticker, the shelf-lounger, the left-over, the nameless child of an unknown father.

I am the unadvertised product!

If placed end to end, the national debts would reach to the conclusion that war is unprofitable.—Colorado Springs Gazette.

The unemployed will be glad to learn that another meeting is to be held in January to consider the situation and correct the October charts.—Seattle Times.

STRANGE?

The United States leads the world in commerce, but ranks ninth in education.

The population of Paris, according to the census taken recently, is 2,856,000—an increase of only 15,000 since 1911.

The first trip on the new Paris to Warsaw air service took ten hours, as compared with sixty hours for the journey by train.

A FREE CHRISTMAS PRESENT

We are going to make a Free Christmas Gift to some little girl in Canyon. This Christmas present is a \$30 Majestic Range—the small sized stove, but an exact duplicate of the big range used in scores of Canyon homes.

THE PLAN

All we ask is that the little girls of Canyon wanting this stove bring their friends to our store and have them register every day. All persons of 15 years and older gets to vote. Those registering will get a vote each day. You vote for the little girl you want to have this stove. There are no obligations. You need not buy anything to get a vote. A vote will be allowed you every day.

The contest closes at Noon Saturday, December 24.

Blind horses never make a mistake in their diet when grazing. Like all other horses, they are guided by their nostrils in the selection of proper food.

Public hangman's fees have gone up in England. The pre-war fee was about \$25 and expenses, but recently hangmen have asked for, and received,

\$50 or more and expenses. There is no fixed fee for a hangman; in each case the fee is a matter of arrangement between the sheriff of the county and the executioner.

The tailor of the future will take his measurements for a suit of clothes with a camera. A special tape meas-

ure marked with big figures is fitted from the neck to the feet, and three others around the back, waist and hips. A photograph is then taken of the tailor's client from the front, side and back. The tailor thus obtains a permanent record with the necessary measurements.

PANHANDLE PRODIGY TO GRADUATE AT 14

Avon Zahiten who will graduate from the San Antonio high school next June, is only thirteen now. Four years ago she was a student of the Normal College Training School. She finished the seventh grade at the age of nine.

Under the tutelage of her mother she had learned the multiplication tables when she was four, and between the ages of four and six she read the Bible through three times. When she was five years old she wrote a composition on Noah's Ark, and ever since that time she has had a passion for writing. Next year, unless she is barred on account of her age, she expects to enter the University of Texas, and study journalism.

Avon was born June 28, 1908, at Panhandle, Texas.

HOW THE JAPANESE HANDLE A BAD BOY

"Spare the rod and spoil the child," is an old adage, but they seem to have a different principle to work on in Japan. Yoshio Markino in his autobiography writes as follows:

"Whenever I was naughty they never smacked me, but they always brought a looking-glass in front of my crying face. I hated to see my own face so ugly with the tear-marks, and I immediately began to laugh. Very often when I wanted to cry a little longer I used to scream, 'Oh, don't show me the glass for a few moments.'"

"I was never scolded severely. They always told me, 'You are a very nice boy, but just at this moment some evil is trying to dwell in you. How pity the evil is making you a bad boy and giving some trouble to your dear parents!' And I began to feel so sorry for them, and I used to cling to their necks and say, 'The evil is gone long time ago. I am your favorite boy.'"

All that communism needs to make it successful is somebody to feed and clothe it.—Columbia Record.

STOP THAT ACHE

Don't worry and complain about a bad back. Get rid of that pain and lameness! Use Doan's Kidney Pills. Many Canyon people have used them and know how effective they are. Here's a Canyon case.

Mrs. T. P. Mayrant, says: "Some time ago my kidneys and back were giving me a lot of misery. My back just ached most all the time and was lame and sore. Often I felt dizzy and weak and was troubled with spells of headache. I felt worn out and my kidneys caused me annoyance by their irregular action. I saw Doan's Kidney Pills advertised and bought a box. Doan's gave me great relief. I use this medicine now whenever I think I need it with good results."

Price, 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Mayrant had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

LITTLE BENNY'S NOTE BOOK MARY WATKINS

1. The sky is fair to gaze upon And the ocean is pleasant to see, But a site that got them skun a mile Is the site of Mary Watkins, O. G.!

2. Her hair is long and yellow, Her teeth are short and white, Her eyes are round and bluish And she's small around the hight.

3. She's bewty looking on week days And on Sundays even more, And if you like to see boys on door-steps Look on hers and you'll see 3 or 4.

4. She looks wonderfill in her wite dress And abslootly grate in her pink, And when she puts on her blue one You don't hardly know wat to think.

5. The stars are certenly a bewtiffill site When they come out all together at nite But so is Mary Watkins, The sun looks grate at it sets in the west But bleeve me boy wen shes washed and dressed So does Mary Watkins.

PAY YOUR DEBTS

Anahuac Progress:—It may be noted that when it comes to paying small debts nobody has any money, but when it comes to going to fairs, shows and joy-riding, everybody has money. It is not the times, but the people, that are hard.

Dallas News: The people who owe debts that are due, and which they are able to pay, are doubly censurable when they fail or refuse to pay them in a time of business depression. One debt paid may mean a dozen liquidated. When Jones pays Smith what he owes him Smith can pay Johnson and Johnson can settle with Jenkins. The single dollar is said by some statisticians

to settle an average of five dollars in debts before it makes a circle, counting its start from the sale of a bushel of wheat or two dozen eggs, or anything else that turns a dollar over. We are hearing a good deal about hard times just now. But the times would not be hard if those who have money would use it optimistically, as in so-called good times. Fearing to let go of a bit of money makes times hard within the sphere of operation. Of course it is in times like the present that most people call a halt on themselves, check up on income and outgo, consider the future and the present in the light of the past, and make new resolutions as to their way of living. Such a breathing space is desirable. It works out all right at last. We could no more stand a continuous expansion than we could a perpetual contraction. What we shouldn't forget is that the world continues to produce precious metals and things edible and wearable, which commodities are wealth and which never fail.

ORGANIZED WAR ON INSECTS

The Nation's Business: Man has described and named some 400,000 species of insects and not one of the 400,000 knows anything about the boundaries of the States. That is one thing that has made necessary the formation of a Crop Protection Institute under the auspices of the National Research Council.

The brazen ignorance of the insect is pointed out by the National Research Council, which makes the flat statement:

"Insects do not stop at State lines." The new body, which can cross State lines as well as an insect, is organized to assist in the more effective combat against insects and fungus pests and to save more and more from the wastage of plant life for the people.

Interested in the institute are the growers, the scientists who specialize in the fields of plant pathology and entomology and those who make the needed insecticides.

A PENALTY FOR EVERYTHING

"Well," declared the man who had been looking over the law, "there seems to be a penalty for everything except stealing a man's daughter."

"Oh," said his friend, "there's a penalty for that too."

"What is it?"

"Hard labor for life."

And then, a tariff wall keeps our American goods from being seized upon by cheap foreign money.—Birmingham News.

A modern discovery for the rapid healing of flesh wounds, cuts, burns, bruises, sores and scalds is Liquid Borozone. It is a clear, colorless liquid possessing marvelous healing power. Price, 30c, 60c, and \$1.20. Sold by Jarrett Drug Co. 3615

Officers Selected for Interscholastic League

The following officers of the Randall County Interscholastic League, elected by the teachers at their institute, have been received and duly recorded in the State Office of the League which is conducted by the University of Texas.

Mrs. John Davis, Canyon, Director General; C. L. Some, Canyon, Director of Debate; Margaret Whitaker, Canyon, Director of Declamation; Miss Ida Rowan, Canyon, Director of Spelling; Loretti Wiggins, Canyon, Director of Essay Writing; L. A. Cooper, Canyon, Director of Athletics.

These officers have entire charge of the county meet which will be held during the month of March, and winners in the various contests selected which will represent the county at the district meet, which will be held in April. The League, as a state organization, has been conducted since 1910, and the next state meet will be the Twelfth Annual State Meet held under its auspices. Last year the League numbered 4095 member-schools, and had 190 county organizations. Advice from the schools of this county indicate that the work will be taken up enthusiastically during the ensuing season, and the county's share of honors captured at the district meet.

Everyone Thinking About Dairy Cows

Yes everybody is talking about her. About whom? The dairy cow.

From Wall Street and the small town banker, from the great mart of trade and the cross road store, from the industrial center and the most remote hamlet come the same tidings—the Dairy Cow is the savior of agriculture.

Economists, financiers, manufacturers, statesmen, and, in fact, all students of economic and industrial conditions, unite in the conclusion that agriculture is the foundation of national prosperity and the dairy husbandry is the most stabilizing force in agriculture.

Periods of depression and times of stress serve at least one useful purpose. They teach us relative values of related things, correcting our biased or, at least, imperfectly formed judgments.

And so it has come to pass that the Dairy Cow has at last come into her own.

We seem to be undergoing what may be termed a national awakening, relative to the tremendous importance of the Dairy Cow in our national life. Fathers and mothers, educators, and men of science are learning that the only assurance for strong, sturdy children, both physically and mentally, is a constant and adequate supply of milk and its products in the daily ration.

For old timers who have followed in the path of the dairy cow, lo, these many years, the recognition that has come to the dairy industry and the prominence it has achieved is indeed a source of profound satisfaction. We can scarcely realize that the weak, insignificant, struggling industry of a half century ago has now become the giant in agriculture.—Clovis News.

WOULDN'T MIND THAT

An Italian who kept a fruit stand was much annoyed by possible customers who made a practice of handling the fruit and pinching it, thereby leaving it softened and often spoiled. Exasperated beyond endurance he finally put up a sign which read:

"If you must pincha da fruit—pincha da cocconut!"

Irregularity in the bowel movements makes you feel uncomfortable and leads to a constipated habit which is bad. Herbine is the remedy you need. It restores healthy regularity. Price, 40c. Sold by Jarrett Drug Co. 3615

EASY JOBS

I see the farmer milk a cow, and I remark, "Beshrew it, there is no trick to that, I s'wore, and any one could do it." But when I try to do the stunt my work's so slow and halting, the cow kicks in my Mars-like front and leaves me somersaulting. I see the blacksmith shoe a mule, and you may hear me twitter, "Give me the proper sort of tool and I could shoe that critter." And when the blacksmith says, "Just try!" I take his nails and hammer, then turn the smithy roof I fly and raise a doleful clamor. I see the artist paint a fence, and mutter to my neighbor, "Oh, any man of common sense could do that sort of labor." But

when I get myself a brush, and paint my cottage portal, the neighbors to my gateway rush, and whoop and cheer and chortle. "Your artwork gives me nerves the jumps," observes the village weaver; "it looks like jaundice and the mumps mixed up with scarlet fever." I watch the poet work his harp, his timbrel and his whistle, and I observe, "The poet sharp requires less brains than gristle; give me a lyre and I will show you that making song is easy;" but when some odes I deftly throw, the critics say they're cheesy. I look down from my empty loft upon the toilers under, and all the other jobs look soft, and mine seems hard as thunder.—Walt Mason.

Manufacturers report automobiles in within reach of all. In New York all are within reach of the automobile.—Wall Street Journal.

The Dutch Government is planning to build a larger navy so that it can take a more important part in the discussion about cutting it down.—Indian.

A remedy that will penetrate is necessary in the treatment of rheumatism. Ballard's Snow Liniment goes right through the flesh of the bone and relieves promptly. Three sizes, 30c, 60c, and \$1.20 per bottle. Sold by Jarrett Drug Co. 3615

The Latest and Best

We offer the Case 15-27 Kerosene Tractor as the king of them all. It is creating a sensation all over the country. It is the result of 77 years of experience of the famous J. I. Case Threshing Machine Company.

It pulls three plows in hard plowing—four plows under favorable conditions. It has abundant reserve power. It burns kerosene successfully and economically.

This sturdy tractor is adaptable for all kinds of drawbar and belt work. It drives a 26x46 Case Thresher with Feeder and Wind Stacker. Its pulley is properly placed for convenient lining up.

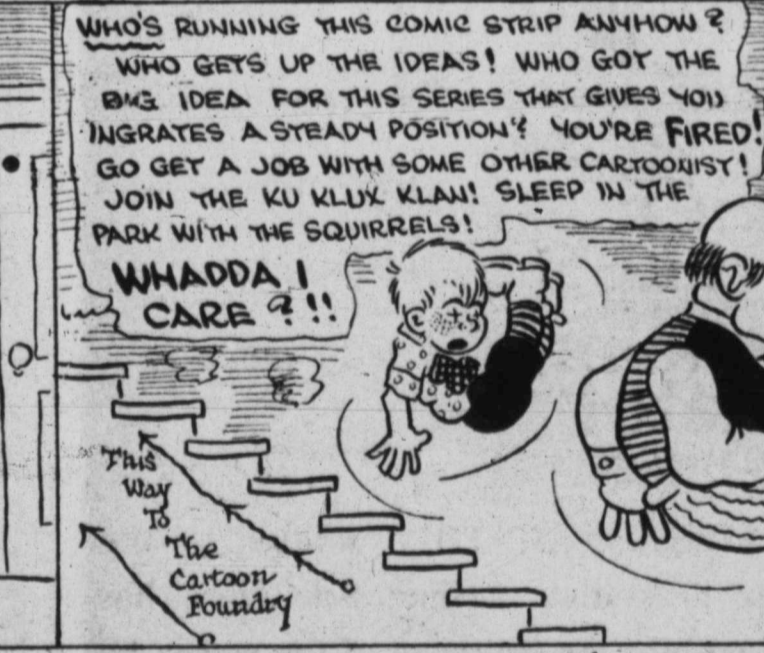

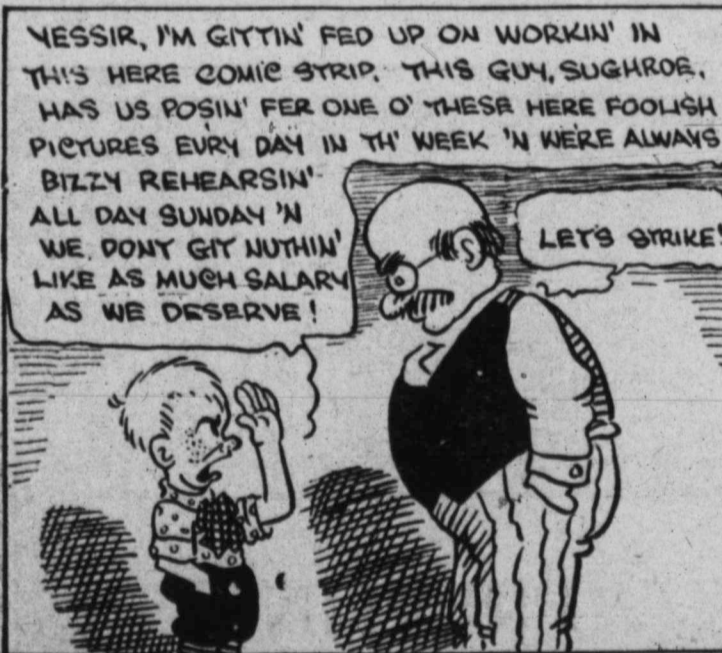

It is small and compact and built for accessibility. No tractor is finer. You should become acquainted with its many superiorities, which we will be glad to explain. Don't buy before you see this better tractor.

Safe Decision

**CONTROL OF RODENTS
DISCUSSED AT LUNCHEON**

(Continued from first page)
the rats. A pair of rats will produce 350 rats in three years if left alone.

Cities must require garbage cans with tight fitting lids, and provide for disposing of this garbage. An ordinance should require new buildings to be rat proof.

It is impossible for individuals to do anything toward rat control. It must be a movement by the entire community. It will never be possible to entirely eliminate the rat, but he can be controlled. A campaign covering six weeks will kill thousands of rats out of every community.

Mr. Gray discussed the use of poisons and of traps. The most important of all devices is to cut off the food supply and the rat is at your mercy. Barium carbonate is the best poison. Traps are good if carefully set. The average farm should have 50 to 100 traps, and an ordinary house needs 10 to 25 in order to successfully trap the rats. Use only clean wholesome bait on the traps. Bacon is good. Do not set traps by the rate hole, but a little to one side of the usual rat run. Leave everything in its natural condition in order that the rat does not become suspicious. Cage traps are good under certain conditions.

Mr. Gray pointed out that Denton killed 153,000 rats in 6 weeks. One boy killed 15,000 of this number, mostly by putting a fence around straw and rubbish piles and then going after the rats with his dog and a club.

Mr. Gray was asked what the farmers were going to do about the feed stacks which were on every farm in this country. He replied that he had already undertaken this question, and that the department hopes to have a practical solution for stacking feed in this country to present to the farmers by next spring.

Mr. Gray stated that literature would be furnished the people upon this important subject, and demonstrations held in counties when the campaign was on.

Judge Henson appointed the following committee to work with him during the campaign: C. H. Jarrett, J. W. Reid, A. B. Haynes, Mrs. C. R. Burrow, Mrs. S. L. Ingham, G. G. Foster, S. B. McClure, C. F. Walker, and C. W. Warwick.

BAPTIST SERVICES

Sunday School at 10 a. m.
Sermon at 11 a. m.
Sunbeams at 2:30 p. m.
Sermon at 7 p. m.
R. Y. P. U. at 8 p. m.
The Sunbeams are urged to be present so that they may work on the Christmas program.
Everyone is cordially invited to attend these services.
B. F. FRONARBER, Pastor.

ROWAN-DOWD ANNOUNCEMENT

Miss Ida Rowan invited fourteen of her friends to her home Tuesday evening, the announcement being made during the evening of her approaching marriage to Mr. J. C. Dowd on Christmas Day. Miss Rowan has been an efficient teacher of the public schools for the past four years, and Tuesday presented her resignation to Supt. C. L. Sone to take effect at the close of the school month next Tuesday.

PRESBYTERIAN CHURCH

There will be all the regular services at the Presbyterian church next Sunday morning and evening. You are cordially invited to attend.
TED P. HOLFIELD, Pastor.

CHRISTIAN SCIENCE LECTURE

A very large audience gathered at the Olympic Theatre Sunday afternoon at three o'clock to hear the lecture on Christian Science. A large number of out-of-town guests were present.
The lecture in full is reproduced on another page of this issue of the News.

CARD OF THANKS

- MRS. NELLIE BUCK.

C. F. WALKER DOES NOT APPROVE POULTRY MEDICINE

It has come to the attention of C. F. Walker that a representative of the State Poultry Association has used his name in recommending medicine he is selling to farmers and poultry raisers.
Mr. Walker stated yesterday that he knew nothing of the proprietaries of the medicine and had not recommended it.

However, the salesman has promised to put on a demonstration of his medicine at the Henry Schroeder place Saturday about 10 o'clock a. m., and has invited all interested to see what the medicine will do.

HAPPY HAPPENINGS

A bazaar was held Saturday in the New Cafe by the Methodist Women's Missionary Society. Sandwiches, coffee, cocoa and doughnuts were served throughout the day. There was a nice collection of articles made by the women and each brought a good price. About \$90 was taken in. The quilt which the Missionary ladies made, brought \$6.00.

Misses Ela Aikman and Mildred Zoller were Amarillo callers Saturday.

C. L. Grounds and family spent Sunday with Mr. and Mrs. H. A. Grounds.

L. E. Cobb and family of Hereford spent Sunday with J. W. Bandy and family.

Mrs. Jim Miner was a Tulsa caller Tuesday.

Miss Auta Bragg spent Sunday with Miss Gladys Bandy.

"The play, 'Arizona Cow Boy' was given in the Happy school auditorium Friday night by the Wayside high school students. There was a large crowd present and a large sum of money taken in.

The Happy Circle met with Mrs. Miller Currie Friday afternoon. After the business hour a dainty lunch was served and a social time followed.

Mr. and Mrs. F. B. Fry spent their shopping in Amarillo Tuesday.

Mrs. Wm. F. Miller and Miller Currie were in Canyon Saturday. Miss Margaret Dillon returned home with them.

The first Lyceum number will be given next Tuesday night.

S. L. Robinson and family and M. B. McManigal and family and R. B. Gist went to Amarillo Saturday.

J. H. Wrenn returned home from

Waco Saturday afternoon.

Misses Pauline Grounds, Hazel Brown and Lucille Raymond and Oscar Fouken, Warren and Melvin Walberg, Hobert McManigal and Roy Aikman and Willard Miller spent Sunday afternoon with Miss Ruth Dison.

WILL DISCUSS FARM ACCOUNTS

A practical accounting for the farm will be presented to the farmers of Randall County on Feb. 23, by W. M. Daugherty, farm management specialist, from College Station.

Mr. Daugherty is visiting only a few of the counties of the Panhandle-Plains country, and the farmers of Randall county are indeed fortunate in their opportunity to hear this speaker.

FOGERTY UNDER ARREST

C. H. Fogerty was arrested Friday near Channing and is being held under bond of \$1,000 to await the action of the grand jury. He is charged with stealing a load of wheat from Newt Reeves about two weeks ago.

Sheriff Black reports no clues as to the identity of the person who stole the alfalfa hay from the Bill Foster place.

CLASS STUDIES PHILOSOPHY

A study class among the men of the community has been organized, and plans made to take up the study of Philosophy. The first study of the course was taken up last Thursday night at 7 o'clock, with Prof. J. L. Duflot leading.

Those who have joined the class are Rev. E. A. Osborne, Rev. J. H. Hicks, President J. A. Hill, Supt. C. L. Sone, W. J. Flesher, J. W. Middleton, and C. W. Warwick.
