G. G. Foster, president of the Board of Trustees of the Canyon Independent School District, presided at the meetevening for the annual business meet- ing. He announced it to be his belief that all of the questions which have hitherto been discussed at the weekly luncheons were of great interest to the welfare of Canyon and all would help made Canyon a better place in which to live. He believed that the question send to the telephone girls a five pound for discussion Tuesday would not fail to interest every one present. The patrons give sympathetic cooperation. Yet there is a pressing call upon the citizens, not want out school to get in a con-Mr. Sone stated that the school is full this year, but not overflowing. In the first five grades there has been an average attendance of 50 per grade, which is 16 more than the teacher ought to have to go her best work. Above the fifth grade, each grade is comfortably filled. Mr. Sone pointed out the fact that people are coming to Canyon on account of the schools. He believed that about one-third of the pupils in the public schools today did not live in Canyon three years ago. When families move here, the older children are put in the Normal and the younger ones in the public school. Mr. Sone believed that no man ever looked upon a good public school building with good equipment and expressed a sentiment that it was too good for the boys and girls. On account of the crowded conditions, the public school did not have a number of things that it should have. The laboratory and library, together with the superintendent's desk were all in one room. There are no dressing rooms for the boys and girls taking part in athletics. There is not an over plus equipment, but all of the equipment is good and will not be a loss when we move into a new building. Above all there is need of an auditorium. All of the pupils cannot be seated at one time in the present room, and therefore the parents and pupils cannot be brought together. Mr. Sone believes that every town needs an ample auditorium, and that it needs it at the public school building, giving the patrons an opportunity to see the needs of the pupils and to cooperate with the teachers. When a few more are added to the enrollment of the school, it will make a situation impossible to handle. At present the teachers are doing fine work in spite of the bandicap. . Stores all over the country have gone to a SPOT CASH business. The Wholesale People are making us pay every 15 and 30 days. No 60 and 90 day terms, as they once were. This forces us to go CASH or strictly 30 days. Were we to undertake to do a long time credit business, we could sell every dollars worth of goods we have in 90 days with absolutely no prospects of collecting before fall, if then. In view of this, we are marking our goods at CASH prices, and are going to continue to sell on a 30 day basis, but CANNOT carry any account for a longer time than that. If your account is not settled by the 6th of the month, please do not ask to have anything more charged until it is paid.

We invite you to compare our prices with any CASH store in the Panhandle. If our prices do not compare favorably, we don't ask for your business. If they do, then buy your merch and ise at home, and with the people who help to build your Schools, Churches, and community in general. When you send your money away, it never gets back; when you spend it in Amarillo you are helping the very people who have fought you for the past 20 years, besides you at least pay 10 per cent to 30 percent more for your goods than you could have bought them for at home. Numbers of times, we have ordered items from mail order houses to compare them with our regular lines, have in each instance marked them to sell at exactly what they cost us, and nine times out of ten, we have had to include this merchandise in our Auction sales, and take around 30 cents on the dollar of cost. They look good in the picture, but they won't stand the acid test under the hammer.

We want to take this opportunity to thank our friends and customers for the nice and liberal business they gave us during the year just passed, conditions considered, we were more than p eased with the outcome for the year. and if prices and services count, you will give us an increased amount of your patronage during 1922.

TAX COLLECTOR, RANDALL COUNTY, TEXAS

The Ford One-Ton Truck first made its appeal to the farmer and the merchant because of the merits of Ford Cars. And it made its wonderful reputation and great sales record because it lived up to every claim made for it.

The reliable Ford Motor, the special Ford steel chassis, the aluminum bronze worm-drive, all combine to produce a truck of unusual power, capacity and strength - a truck that lasts in service; a truck that solves the haulage problem at a very small operating and upkeep expense. Hence the demand for the Ford One-Ton Truck is constantly on the increase.

For the good of your business, whether it be farming, merchandising or manufacturing, you should come in and look over the Ford One-Ton Truck-NOW!

IMPORTANT

We are prepared to furnish the Ford Truck equipped either with Standard or Special Gearing. The Standard Gearing gives the truck a maximum of power. The Special Gearing increases the speed of the truck from five to seven miles an hour, converting it into a Fast Delivery Car.

DISCUSS NEW SCHOOL BUILDING FOR CANYON

(Continued from first page) on the second floor was added to the brick building. The time has now come for more building

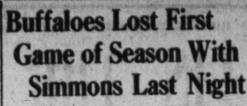

John T. Wiley stated that he was strongly in favor of building a new reasons, that the Normal is taking Simmons College, taking the short end care of about all it will ever be able of a 19 to 21 score. to in the training school. He is not in favor of wooden shacks, except as an emergency. He does not approve of a ward school, and believes that the new building should be built on the lots by the present biulding. Mr. Wiley expressed his opinion that Canyon is sure to grow and keep on growing. Nothing can stop it, but we can do much to help it grow.

Mr. Foster then gave a little more school history, relating to the finances of the Canyon Independent School District. He stated that in 1900 the district extended from Umbarger on the west to the county line on the east, and from the Costley school on the north to the Ralph school on the south. The tax rate was then 20 cents on the \$100 p.m. valuation.

When the independent district was formed, the size was cut down to 25 sections. The tax rate is now 75 cents on the \$100 valuation. The valuations in the district are now \$2,000,000. Last year the district collected in local taxes \$10,000 and this year will collect \$15,000 from the 25 sections. The schools outside of Canyon collect in local taxes \$19,389.45 this year. There are 900 sections in the county, there being 875 outside of the Canyon Independent school disctrict, and all this territory raises only \$4,389 more for school purposes than does the 25 sections in the district. Mr. Foster believes that the school will continue to grow, and the demands will become more and more pressing.

Mr. Foster explained that it was costing \$28.60 per child living in the district to run the schools. Those living outside of the district were charged an equal rate for tuition when coming here for the school.

The movement to enlarge the school district last year was explained, the board believing that those who were sending children here should be willing to help pay the expense of running the school. Some were paying their part, and other were not. The only

Buffalo baseball team went to Abischool building this year. He gave his first game of the season last night with ium Monday night.

> The Normal fans were highly pleased when the telegram came this morning announcing the score, as this is a fine showing for the first game with as strong a team as Abilene, and this being their first game of the season. The following was the lineup last night: Forwards, Hale and Hill; Center, Mitchell: Guards, Key and Lancaster; Subs. Henry and Gordon. The following will be the schedule

When the rain started, it was necessary to charter a special train and bring the hundred performers from Amarillo, as the roads were too slick for automobiles. This added expense and that the fact that the crowd was small on account of the rain, make the show a financial loss to the promoters. The show was one of the best home talents ever produced in this section. and that the fact that it played four nights in Amarillo established a good name for the production before its coming to Canyon. All of the members of the cast acquitted themselves well. The only criticism that might be offered the show was the length of the acts. The first act went over wonderfully well and held the attention of the audience throughout. The other acts were not so interesting. mainly from the fact that it took nearly three hours to stage the performance.

After the show, the boys of the Legion had a dance in honor of the visitors from Amarillo. All expressed a great desire to see "The Spoofers" put on another show in Canyon again soon.

relief in view was to take the matter to the legislature and get the district enlarged. When this is done, bonds should be voted to built a \$100,000 school house. Perhaps a better way of handling the situation would be to establish a county high school in Canyon, bringing all children from over the county when they reach the 7th grade to the Canyon high school. Mr. Foster did not know what the law on this subject was, but believed that the county plan could be adopted in Randall county.

Mr. Foster called attention to the fact that the school election would be held in April, when four of the seven members of the board were to be elected, and urged that care should be taken to select the right kind of men be elected to this office.

PETITION FOR 5 DAY SCHOOL.

At the meeting of the Commercial League Tuesday morning, a petition was signed up asking the International Harvester Co. to send their speakers to Canyon for a five days stay during the spring months. During the school question of vital importance to the farmers will be discussed by an able corps of experts.

RESOLUTIONS PASSED

Whereas from a study of God's word we are convinced that the rights of the poor-just rights-have ever been championed by and only by the devout religious forces and that the truth is fully corroborated by history, that the Men's Bible Class of the Methodist church express our sympathy and pledge our help and encouragement to the laboring element of our citizenship and thus strive to exemplify the teachings of the Savior.

Since the sad bereavement in the loss of mother has come to our esteemed brother and comrade in the work, J. A. Guthrie,

Resolved, that the Men's Bible Class tender to him and his family our sincerest sympathy.

That we rejoice in the fact that her life was exemplary and her future safe and that he himself is able to have the consolation of the Christian man we believe him to be.

In the great sadness that has come · to the home of our brother S. B. Orton in the loss of his wife, we extend our heartfelt sympathy and prayers to him in this, his sad bereavement,

Whereas, the Book Club of Canyon has taken the lead in the clean up of our town and that we believe the Christian religion teaches cleanliness;

Resolved that the Men's Bible Class of the M. E. Church approve the work ed and pledge our organization with others of the town to help in every practical way in realizing the man : "A Clean Town."
