CANYON, RANDALL COUNTY, TEXAS, THURSDAY, OCTOBER 19, 1922.

NUMBER 29

GEORGE PEDDY SPOKE MONDAY TO BIG AUDIENCE

MADE GOOD IMPRESSION UPON VOTERS OF COUNTY.

Declares Himself a Democrat Unwilling to Surrender to the Dictates of Ku Klux Klan.

When it was learned that Captain George Peddy, candidate for United States senator from Texas, was to be in Amarillo Monday night, his friends in Canyon wired for a date Monday afternoon, and Mr. Peddy spoke here at 3:00 o'clock.

Among those going from Canyon to Amarillo to meet Mr. Peddy were A. G. Thomas, R. McGee, R. E. Baird, P. D. Casey, D. E. Covington, O. I. Smith, R. O. Allison, Grady Oldham, John Knight, W. C. Baird, C. R. Burrow, A. N. Henson and S. B. McClure.

When Mr. Peddy arrived at the court house he found a very large audience which was greatly interested and sympathetic throughout the speech. He was liberally applauded at frequent intervals.

Quite a number of Amarillo men accompanied Mr. Peddy to Canyon, among them Postmaster W. C. Kenyon, who announced in introducing Postmaster Oscar Hunt to Mr. Peddy: "Here are two good republicans who have the honor of voting for a good democrat on November 7."

Prof. J. L. Duffot presided over the meeting and introduced the speaker in a seven minutes talk, which, according to representatives of the Dallas News and Ft. Worth Star Telegram, was the best they had heard while accompanying Mr. Peddy.

Mr. Duffot stated there were democrats and republicans of two classes—from tradition and from conscious choice. The traditional democrat stays with his party regardless of the change in form of the party. He likened this kind of democrat to the owner of the heirloom—an old jug, which was marked "good old sorghum molasses" but which accidentally was filled with cold tar. The owner demanded that his family mop up the ingredient, simply because there always had been "good old sorghum molasses" in the jug, and consequently this must be molasses instead of cold tar.

Mr. Duffot charged that some one had been tampering with the democratic party in Texas, and injected religious hatred and conceit instead of the principles that were bought with a price 100 years ago. He declared that no organization has a monopoly upon 100 percent Americanism, or the right to interpret what 100 percent Americanism is.

Mr. Peddy stated that this was his first visit to the Plains, and he was highly pleased at this opportunity to see the wonders of this great country. While a member of the legislature it had always been his pleasure to support all appropriations for the West Texas State Normal College.

In order that the people of this section might know him better, he stated that he was born in Shelby county on a farm. When 16 years old he went to high school and worked his way through. In 1913 he went to the university of Texas. He taught school and was elected to the legislature, serving until he enlisted in the army. He served for 26 months, came back to the university, completed his course and was assistant district attorney of Houston until he entered this race, when he resigned.

He answered Rev. Atticus Webb of Dallas, head of the Anti-Saloon League of Texas, who has criticized him in the official publication: "Let me say to Rev. Atticus Webb, that I have always been on the side of those fighting for mortal issues in this state. My stand for prohibition is well known. Since a barefoot boy in East Texas I have fought for it and my efforts were enlisted in the fight who's for battle. I fought for prohibition because I was for it. I have nothing to hide in my record or acts. I want to say to the Rev. Webb that I have never received a dollar for fighting for prohibition, while he is receiving a salary for fighting for it."

Mr. Peddy denounced in vigorous terms the Ku Klux Klan, declaring the injection of the influence of that organization into Texas politics created a question of predominating importance, one that overshadowed all other issues discussed by the various

candidates in the primary campaign.

"The greatest difference between those who criticize me and those who believe with me is that those who believe with me refuse, as I do, to measure their Democracy with a yardstick made by the wizard of an invisible empire. When we refuse to measure our Democracy by their yardstick they call us bitter-enders and bolters. So far as bitter-enders are concerned, they are right. I expect to remain a bitter-ender until the laws in Texas are administered by the courts and the officers of the law, and not by mobs.

"You cannot take the principles of autocracy and oppression and by applying the name of democracy to them make them Democratic. Neither can you take Democratic principles and by applying the name Independent Democratic to them change them."

Mr. Peddy declared himself to be a Democrat unwilling to yield to the Ku Klux Klan.

"All along the line I have charged Earle B. Mayfield and the Ku Klux Klan with keeping my name off the ballot. No word of denial has come from them. When he faced trial for violation of laws of this State, then he held up the olive branch and said: 'I am willing for George Peddy's name to go on the ballot.' When he saw the possibility of his own name not going on the ballot, then he said he believed the people had a right to choose whom they would vote for."

Declaring he was going to tell how Mr. Mayfield was nominated, Mr. Peddy asked if any member of the Klan was in the audience, requesting such members to raise their hands. The audience turned to see if any hands were raised. None was seen. The crowd broke into laughter. Mr. Peddy remarked that if any klanster were present they might hear him out in his recital of how Mr. Mayfield was nominated. Going into detail he said the elimination of possible Klan candidates was held in a North Texas city after a disagreement at a meeting of the "five great Titans" of the Klan in Texas over the manner of selection, the meeting being held in Austin before the July primaries.

"In order that members of the Klan may get word of what I have said and bear me out in my statement," said Mr. Peddy, "you tell your friends whom you believe to be klansters and let them answer."

"The password of that organization is 'I do not belong,'" he said. The audience laughed in reply.

Referring in his speech to the flogging of a woman at Fort Worth recently, Mr. Peddy said the whipping was administered by "ladies of the invisible eye" while "an office of the law held the victim."

"If the time when such acts can be staged among us has come," he said, "we might just as well take down the figure of justice from the courthouse and raise there instead the figure of a black hag from hell."

Mr. Peddy spoke to a very large audience in Amarillo Monday night.

Canyon Will Have Hog School For Farmers in Dec.

According to information given out at the Agricultural Department at the Normal, Canyon may have a special Swine School some time this fall. As outlined at the present time this school will be for all farmers interested in hog farming and will be without any charges. The classes are to meet twice per week and will take up such problems as diseases of hogs, pastures, balanced rations, care and management of the sow and litter, and such other problems as the swine breeders may care to discuss. It has been suggested by some that the classes meet in the court house in the afternoon on meeting days. Those interested should get in communication with Prof. Frank R. Phillips of the Normal Agricultural Department.

AT HARDWARE MEETING.

C. L. Thompson left Thursday for Chicago where he is attending the National Hardware and Implement Dealers Association as a delegate from the Panhandle Hardware and Implement Dealers Association, of which organization he is secretary.

COSMOS CLUB ELECTION.

At a business meeting of the members of the Cosmos Club yesterday afternoon at the home of Mrs. D. A. Shirley, Mrs. Wallace R. Clark was elected president for the coming year, and Mrs. S. L. Ingham secretary.

HIGH SCHOOL IS WINNER OVER THE TULIA HIGH TEAM

TAKE GAME SATURDAY BY A SCORE OF 36 TO 13.

Entire Masters of the Situation After First Half—Will Play in McLean Saturday.

Coach Jimmie Webb's football proteges from the Canyon high school pulled the big sensation of the season when they defeated the fast Tulia high school eleven on the Normal gridiron last Saturday by a score of 36 to 13. A large crowd was present from Tulia and the spirit of rivalry was manifested on the side lines as well as on the field. Both teams started fighting and the game was hotly contested all through until the last quarter when the Tulia lads seemed to give way to the onslaught of the Canyon warriors.

Early in the first quarter Canyon took the lead when Brown, halfback for the locals made a neat drop-kick over the goal for 3 points, the only scoring that was done in that quarter. Tulia put the game on ice in the second quarter when "Bo" Cavet, quarterback made their first touchdown on a line buck.

The third quarter was fought to a standstill, Canyon having the best of the fight. A long pass from Cavet to Jennings gave the visitors their second touchdown, near the opening of the fourth quarter. It was then that Coach Jimmie's lads showed their real stuff, when they started such a brilliant series of line-plunges, end runs, and forward passes, that the Tulia gridsters were completely swept off their feet and when the final whistle sounded Canyon had annexed five touchdowns in the last quarter bringing the count up to 36 to 13.

There were no individual stars in the game, for every man on both teams were fighting every minute of the game. Though we might commend Brown and Faust for the locals and Jennings and Cavet for the visitors, because these four men just couldn't fail to gain when they were given a chance.

The team goes to McLean next Saturday for a game.

Randall County Wins Twenty Ribbons at the Dallas State Fair

C. F. Walker returned from Dallas Monday where he was in charge of the Randall county exhibit at the State Fair.

As reported in the News last week, Randall county's exhibit won seventh place in the state. In addition to this winning, Mr. Walker won twenty ribbons in the individual showing out of the thirty-two entries he made from this county, as follows:

Peck durum wheat, 2nd and 3rd.
Peck barley, 2nd.
Peck red rustproof oats, 3rd.
Oats, any other variety, 1st and 3rd.
Speltz or emmer, 2nd.
Milo maize, red, 5th.
Sheaf winter wheat, 3rd.
Sheaf red rustproof, 1st.
Sheaf of barley, 1st.
Baled alfalfa, 3rd and 5th.
Sorghum, baled, 3rd.
Johnson grass, baled, 1st and 2nd.
Native prairie hay baled, 3rd.
Kaffir heads, 3rd and 4th.

Mr. Walker was highly pleased with the results of the fair and the judging. West Texas was in the saddle, winning practically all of the big prizes offered by the fair association.

MANY SEA GULLS

Thursday and Friday of last week great flocks of sea gulls have been hovering over the Plains country. It looked like there were thousands of them over this section. Small, pretty, swift creatures that attracted lots of attention. Visitors from Hereford and Tulia here Friday reported them at those points Thursday, and the Amarillo papers report them in that vicinity. The supposition is that there has been a storm or disturbance over the ocean somewhere and these gulls have been blown far out of their native haunts. The Weather Man or the daily press has not reported such a disturbance, however, and the reason for the rare visitation still remains a mystery.

ARCHITECT NAMED FOR NEW SCHOOL BUILDING MONDAY

BONDS WILL BE OFFERED FOR SALE SATURDAY MORNING.

Election Will be Called Next Week if Bond Sale is as Expected by the Board of Trustees.

At the meeting of the Board of Trustees for the Canyon City Independent School District Monday afternoon, E. F. Rittenberry of Amarillo, was selected as architect for the new high school building after the board had looked over the plans of five architects and heard them discuss at length their plans and methods of construction.

Mr. Rittenberry is one of the best known school architects in this section. He is the architect for the new Amarillo high school, as well as several large high school buildings over this section of the state.

Telegrams were sent Tuesday to the leading bond houses of the state, and the southwest, stating that the board would sell bonds to the amount of \$100,000 at a meeting of the board next Saturday morning at nine o'clock. This method of procedure is taken in most bond issues—the bonds being contracted for before they are voted. This is done for the purpose of giving the board the confidence that the issue will bring the required amount of money for the new building, and also that the tax payer will know exactly the amount of money his bonds are going to bring.

If the bond sale Saturday is satisfactory, the bond election will be called next week, the purchaser of the bonds being required by the board to prepare all legal papers and have the bonds printed, free of charge to the district, after the election is carried.

The trustees have been considering the question of a new school building, the architect, and sale of bonds for months and believe that the above outlined plan is the most advantageous. The architect is working out the plans for the building; the bonds are disposed of at a definite price, and the responsibility of holding a legal election is up to the buyer of the bonds. Should by any chance the election fail to carry, the school district will not be out one penny for the services of the architect or the time of the bond buyer or who has prepared the legal papers.

In case the election carries, the district will have the money within thirty days from the date of the election, and a contract may be let at once after the election so that the contractor may begin to assemble his materials ready for construction with the opening of the spring. It is believed that by letting the contract in December the building will be ready for the opening of school in September.

The board of trustees have no doubt as to the results of the bond election. Those of the school patrons who have been around the school building realize that there should have been a new building two or three years ago to take care of the crowded conditions in the schools. The enrollment this year is much larger than in the past, and the need is greater than ever before. The need will be even greater with the opening of school next September.

Bishir Will Erect New Business House on South Side of Square

M. S. Bishir states that he will begin construction within the coming week on a new garage building on the south side of the square on the lot where his frame building stood at the time of the fire last December.

The building will be 30x40, built of tile and stucco. The front part will be a sales room, with the work room in the rear.

CAR OVERTURNED.

Clyde Baird's car was overturned yesterday morning as he and a party of young men were returning from Happy. All were badly bruised up, but not seriously injured. The car was badly damaged.

MARRIAGE LICENSE.

Marriage license were issued to William Nelson and Miss Thelma Hough on October 6th.

Peddy Forces Called by R. E. Baird to Meet Saturday 2:30

ONE OF FASTEST GAMES EVER PLAYED IN CANYON.

Buffaloes Showed Up Well and Played Visitors an Even Game, But Were Shut Out of Scoring.

R. E. Baird has been appointed by Henry D. Lindsley of Dallas to call a meeting of the Peddy forces of Randall county, which meeting will be held at the District Court room next Saturday afternoon at 2:30 o'clock.

At the meeting Saturday a permanent organization will be formed for the purpose of carrying on an aggressive campaign in Randall county for the election of George Peddy to the office of United States senator.

All interested in the Peddy campaign are asked to come to the District Court room Saturday afternoon at 2:30 o'clock.

SINGING CONVENTION SUNDAY.

The singing convention announced several weeks ago will be held at the Jewell school house next Sunday. All of the people of the county are invited to attend and take their dinners.

One committee has announced the following who will have special songs for the day: Quartet led by G. R. Stratton. Songs by Robert Gollhon of Dimmitt, Noel Gollhon of Canyon, J. H. Wagley of Dimmitt, Robert Gollhon and family, W. H. Goodnight, Ole Dixon, E. M. Barnett, J. L. Lovvorn, Ed. Hawkins, A. M. Smith.

Several singers from the Normal will go out to the singing convention.

PAVING IS PROGRESSING.

Three cars of brick are being unloaded and three more are in transit. This will be sufficient to complete all of the east side of the public square.

Work was started on the east end of Houston street Monday, and the curbing is going in fast.

The contractors are not certain as to what to expect from the shipment of brick for the remainder of the job since the brick factory fell down on their promise of having all of the brick for the square in transit more than three weeks ago.

Normal Presidents Are Given Hearing by the State Board of Control

President J. A. Hill returned Sunday from Austin where he spent a greater part of last week before the State Board of Control which was going over the budgets for the Normal Colleges of Texas with a view of determining the needs of the schools for the coming two years.

Mr. Hill characterized the hearing before the Board as cordial and sympathetic. The Board appreciated the needs of the schools, but realized that all items on the budgets as submitted could not be granted on account of the needs being greater than the possible amount to be raised by taxation.

All of the Normal College presidents were called into conference and the budgets of the various school gone over. The Board of Control discussed freely with the presidents the various items, but gave no indication as to the items which the Board will recommend to the legislature. The Board is scrutinizing closely each item of permanent improvement.

Mr. Hill believes that the hearing was a very satisfactory one. He urged before the Board that the greatest need of the West Texas State Normal College was the training school building.

Mr. Hill states that financial conditions down in the state are much improved and that the people are feeling much better. Crops are good and old debts are being wiped out.

TEA GIVEN TUESDAY.

Mrs. J. E. Gamble entertained with a tea at her home Tuesday afternoon in honor of Mr. Gamble's sister, Mrs. Edward Banta of Dewitt, Iowa. About sixty guests enjoyed the afternoon.

NORTHERN HIT SATURDAY

A northern hit this section Saturday, and the week has been uniformly colder than at any time this fall. There was a considerable drop in temperature Monday night.

WARD HERE MONDAY.

H. O. Ward, republican candidate for congress from this district, was in the city Monday afternoon to hear George Peddy speak. He is visiting practically all towns of the district in the interest of his candidacy.

BUFFALOES LOST TO DANIEL BAKER IN GAME FRIDAY

ONE OF FASTEST GAMES EVER PLAYED IN CANYON.

Buffaloes Showed Up Well and Played Visitors an Even Game, But Were Shut Out of Scoring.

The Buffaloes lost their first T. I. A. A. game Friday when they were defeated by the fast team from Daniel Baker.

The game was by no means a discredit for the Buffaloes, as the boys faced one of the fastest and best teams that has ever played on the Buffalo field.

The Buffaloes were badly crippled as a result of the rough game with Wayland, while Daniel Baker came with a team in prime condition.

Daniel Baker won by two touchdowns—one a fluke, and the other earned. The Buffaloes carried the ball with striking distance, and lucked out a few yards three different times.

Captain Burton is still in poor condition as the result of his injuries in the Wayland game, but played good football throughout. Henry, the little Buffalo end, was in every play, and starred for the Normal. Every man on the Buffalo team played a game of which all may be proud. Luck simply broke in favor of Daniel Baker when luck was needed to take a hand in the game.

The Buffaloes will journey to Abilene tomorrow when they meet the Abilene Christian College Saturday afternoon. Coach Burton is working out his men hard this week, and is especially drilling in field commandment, working with several men who are likely to be given a chance at the position of quarter. Bivins of Tulia, one of the most promising quarterback men, who was injured in scrimmage early in the season, is back with the squad, and may be given a chance in the game Saturday.

FINE WALNUTS AND PEACHES

Mrs. Oscar Hunt brought to the News office Saturday a twig from her Tennessee Black Walnut trees. Mrs. Hunt states that she planted the seeds and the trees have grown in five years to very fine trees. They have been bearing for two years. They have done very fine without irrigation.

Mrs. Hunt also brought two branches from her Indian peach trees which were loaded with peaches. These trees grow fine in this country, and bear a delicious fruit. These trees were not irrigated.

BOUGHT AND SOLD CATTLE.

J. E. Gamble has sold 235 calves to T. K. Tear of Monmouth, Ill. who is shipping them north for feeders. Mr. Tear recently bought another string of cattle from Mr. Gamble.

Mr. Gamble has sold five car loads of calves to Z. Campbell and Wade Luffhorro who are shipping them to Welton, Iowa, to feed.

Mr. Gamble will receive today 500 Herefords from Magdalena, N. M., which he is putting on his ranch east of town.

Puckett Bros received Sunday 1000 yearling steers which they bought from C. C. Slaughter of Lubbock.

RECITAL TONIGHT

The first Lyceum number will be given at the Normal auditorium tonight at 8:30 o'clock by Vera Poppe, English Cellist; Edna Swanson Ver Haar, Contralto, with Katheryne Foster at the Piano.

The following is the program: O Cessate di piangere.....Searlatti My heart ever faithful.....Bach Miss Ver Haar Adagio.....Handel Serenade.....Grazonow Miss Poppe In the silence of the night..... Rachmaninoff Crescendole.....Massenet Song of the Robin Woman, from "Shanewis".....Cadmian Miss Ver Haar Variations symphoniques.....Boellman Miss Poppe The crying of water.....Campbell-Tipton Animal crackers.....Hageman All the Worlds' in Love.....Woodman Miss Ver Haar Rhapsody.....Poppe Miss Poppe

Waggoner's son and Burk Burdett's granddaughter were recently married, uniting two of the largest families of Texas. Several newspapers have commented upon this marriage and wondered why the dead men were buried during their life time accumulating these great fortunes, which now likely to be spent in an unwholesome manner. The News certainly does not consider any man's life spent idly when he stays with his job and relieved by death. Was it not for Tom Waggoner and Burk Burdett to work out their life-time earnings than quit when a comfortable living was made, and sit down to cuss government. Too many men when they retire from business pick out a seat on the corner and use their hammer upon every enterprise in the town or community. Furthermore, if all of the history were known regarding these two men, it would likely reveal that they have influenced young men to make something of themselves than can possibly fall to the lot of the man who quits when he is enough for himself. It is most likely that many of the most promising young men around Ft. Worth received part of their business training from studying the business methods of these two men as they went on with their work. No man is foolish who works with his job all through life, no matter how much money he may require. The industrious man is happy unless he has more work to do than he can possibly get done in twenty-four hours of the day.

These democrats who would rather vote for the devil himself were he on a democratic ticket than for a real democrat who happened to be the republican nominee, are becoming convinced over the political situation in Texas. This is the first time in the history of the state of Texas when it is necessary for a democratic ticket to run for a state office to defend itself in the general election. The situation is absurd in the mind of many, but the party is an arch crime in the minds of democrats who have always been taught to "vote the ticket right, regardless." Paddy may not be elected November 7th, but at least has started something in Texas.

More trouble ahead! Print paper advanced one cent per pound. A large percent of the papers used by the farmers have advanced. Why? Just raise the manufacturers can do it. Yes, cotton and woolen goods, and steel articles have advanced, mainly. Why? No one knows, but the face of this increase, the proper must still sell his grain and the stock on one of the most demoralized markets the country has ever seen.

Tell your pains to your doctor; your joys to your friends. Too much conversation is devoted to the aches and pains of the human body—many of which are imaginary.

The political scrap is still on, with chances that neither the name of Paddy or Paddy will be printed on the ticket. The Mayfield crowd at Austin did not realize they were stir-

IT'S TOASTED
one extra process
which gives a
delicious flavor

ing up a hornet's nest when they decided not to let Paddy's name on the ticket. They wish now they had kept quiet. Paddy stands a better chance with no names on the ballots than if both were on the ticket. And there are enough technicalities in Texas to keep the case in court until Christmas unless the secretary of state puts Mayfield's name on the ticket regardless of the court's decisions.

A hydroelectric plant with a capacity of 84,000 Kilowatts, operating a 200-mile line will be constructed on the Shinano River in Japan.

BOOK CLUB MEETING

The following are the questions on the lesson for the Woman's Book Club next Wednesday:

Wilder characters do brilliant talking about almost everything. Find illustrations of this and determine if speaker is talking "in character," or is the mouth-piece for Wilde's wit?

Does dialogue always carry forward the action? Give illustration.

Is Mrs. Erylne wholly bad?

How does Windermere characterize Mrs. Erylne?

What significance has his saying? Why does Wilde reward Mrs. Erylne with a match?

What are Lady Windermere's good qualities?

What serious defect has this play? A Woman of No Importance.

What is the most pathetic scene in this play?

Justify Mrs. Arbuthnot's refusal to marry Illingworth at the end of the play.

Some Parliamentary-Dont's

Don't think you have the floor as soon as you address the chair. There are three steps necessary to get the floor. First, rise—never address the chair and try to get the floor sitting.

To get the floor, first—you must rise, address the chair, and wait to be recognized. Then you have the floor—not until then.

Don't fail to rise to make a motion. A woman who would sit when making a motion today show her club is not advancing.

Don't rise to second a motion. Don't forget all motions must be seconded except three. These are: Questions of Privilege, Call for Order of the Day, Objection to the consideration of a question.

As these three are seldom used in ordinary club procedure, it is easy to remember that all ordinary motions require a second.

Don't wait for the President to ask for a second. Do this promptly, if you can do it at all.

Don't say "I make a motion," or "I move you." What should one say? "Madam President, I move."

Don't make suggestions. Don't do it; don't do that cowardly thing. The chair can do nothing with suggestions. They take up time and accomplish nothing except to get your idea before the club. If it is worth mentioning, it is worth putting it into a motion so that the chair can dispose of it.

Don't vote indistinctly, especially when voting "no." You have a right to vote "no" if you wish to.

Don't try to discuss a motion until it has been stated by the chair.

Don't permit an embarrassing pause to come up when a motion is made relating to the President or Chairman. She may not put a motion concerning herself. Have the Vice-President or

Secretary trained to act quickly at such a time.

EUNICE BUCHANAN, State Parliamentarian. Questions

1. If a motion is made and is not satisfactory, what can be done?

2. To what extent may a question be amended? Give example of an amendment not germane to the question.

3. What is the form?

4. What are some of the ways of amending a question?

5. How many amendments may be entertained to a question at the same time?

6. Can a mover of a question offer an amendment to it?

7. Should the maker of a motion be asked to accept an amendment?

8. What vote does it take to amend?

9. To what does the motion to amend yield?

10. Give a list of motions which cannot be amended.

IF NOT THE BONUS, WHY THE SUBSIDY?

President Harding is reported to be considering calling a special session of Congress to pass a ship subsidy bill. In the face of the reason given for the veto of the bonus act, it is difficult to find an excuse for urging legislation of this kind, even were the measure defensible on its merits. It is subject to attack as graft, pure and simple, of no value to the public which bears the burden of expense.

J. J. Hill, in his day a great financier and rail king, said of a similar effort to pass a subsidy: "A ship which cannot run profitably without a subsidy will make a mighty lean run with one."

Robert Dollar, economist, in an article in Nation's Business for June, said: "I have always felt that a shipowner who must have 'pay' from the government does not deserve to be in the business. We do not need any advantage over the other fellow; we

TWICE PROVEN

If you suffer backache, sleepless nights, tired, dull days and distressing urinary disorders, don't experiment. Read this twice-told testimony. It's Canyon evidence—doubly proven.

R. E. Hileman, prop. bicycle shop, says: "I found positive relief in using Doan's Kidney Pills for lameness across the small of my back and for my kidneys. I can conscientiously recommend them for lumbago and for embarrassment caused by the kidney secretions. I am quite over all difficulties of that nature since I used them." (Statement given January 17, 1911).

On May 1, 1919, Mr. Hileman said: "Since I used and recommended Doan's Kidney Pills some years ago, I have taken them whenever in need of such a remedy. Doan's have never failed to give instant relief and I am always glad to say a good word in favor of them."

Miss Margie Robinson of Wellington is visiting Miss Brenice Dowlen this week.

D. A. Shirley was in Wichita Falls Saturday attending the T. C. U.—Simmons football game.

A DAY WITH A FARM CLASS IN SHOP WORK

It was the writer's good fortune to spend a day with the Farm Shop course that is given at the West Texas State Normal College to the Vocational Agriculture boys. This work is given to all High School Agricultural students for the purpose of preparing them to do the farm repair jobs. West Texas more perhaps than any other part of the state needs special training in farm shop for her farmers because it is so far to the general machine shops. It is for this reason that each Vocational Agricultural boy in the Canyon Normal must do a certain number of farm repair jobs before he is permitted to receive his final grades in agriculture.

The writer was informed by the director of agriculture, Mr. Frank R. Phillips, that the course as outlined included repair work with windmills, farm pumps, plumbing, gas engines, tractors, and binders, silo cutters, be-

sides the fundamental principles of soldering, simple welding, and die work. However, Mr. Phillips has been busy making a farm survey of many of the farms in Randall and neighboring counties, and he is convinced that most of the farmers should know how to do simple repair jobs on the farm truck and the family auto; therefore, at the present time the boys are doing auto repair work. While most of the above machinery is available at the agricultural barns, the auto was furnished by one of the members of the class. The car was a Studebaker Six which had been driven by the said member of the class into a railroad crossing and was badly smashed. At the time of the writer's visit twelve boys were happily engaged with the various duties connected with overhauling a car. One group of the boys were doing some repair work on a wagon that had been broken by the agricultural class in farm work.

One of the interesting observations was that the boys were asked three times to hurry and clean up for their other classes before all of them could be gotten away from the particular work that they were so very much interested in doing. In speaking with the teacher about this he said:

"I find the same is always true. I usually begin fifteen to twenty minutes before the period is up trying to get the men to stop and wash up that they may not be late to other classes; however, I find that they always have something that they must do and that is the reason that I have to talk rather severe to them to get them out of the shop. They all feel that they are doing something that will be worth a great deal to them after they go back to the farm, therefore, they want to get the thing done before they leave the class. I wish that all of my classes Farm Shop; however, I have no ob-

where as hard to dismiss as the one in jections to their finishing up a certain job provided they do not miss some other class in the College."

The writer just wonders, after all, if the schools would not be worth more to the students if they found some more subjects that would interest the students as farm shop work. A man usually learns most, we are told by the psychologist, about the things that he is most interested in doing for himself.—D. T. Moss.

Hindus are vegetarians and regard the cow as a sacred animal; in their eyes to kill a cow is a greater sin than to kill a man.

A Chicago civil engineer proposes a system of subways under the sidewalks instead of under the city streets. He says that it is possible to construct a good subway system of this kind at less than half the depth of the ordinary underground railway, and at a tenth of the cost.

In all malarial countries the popular remedy is Herbine. People find it a good medicine for prying the system and warding off the disease. Price, 60c. Sold by Jarrett Drug company. 2764

Dad, Mother, Ironized Yeast for Rheumatism

Do You Realize What Ironized Yeast-Vitamines Will Do for Rheumatism and Lumbago?

Do you know that vitamins and iron are part of your very life? Do you know that the tissue-and-blood factory in your body needs these two materials, and needs them badly? Do you know that if your body furnace does not get enough of these, that

"Whoopie! Rheumatism Pains and Aches All Gone. Ironized Yeast is Surely Wonderful!"

queer poisons, joint poisons, muscle poisons, acid poisons are formed instead of the healthy flesh and the rich blood you need to have in days gone by? If you hobble in your gait, if pains distort your body, if bending over is an unpeppable agony, if dull pains make you breathe heavily and moan, do not grumble at the roughness of the way—smile sweetly, there is a rainbow ahead. Things are different now than they used to be, in the days of liniments, salves, complicated drugs, and all that—remember? The happy secret today is ironized yeast, one of the greatest body-and-blood builders of all time. Beware of imitations and substitutes, because Ironized Yeast is not a mere combination of yeast and iron, but is yeast ironized, which is a substance all by itself. There is only one Ironized Yeast in all the world. Sold at all drug stores at \$1.00 a package and containing 60 tablets, each tablet sealed. They never lose their power. Mfg. only by Ironized Yeast Co., Atlanta, Ga. Say goodbye to rheumatism from now on!

THE LEADER'S FALL INVITATION SALE

Begins Saturday, Oct. 21, And Runs 8 Days

Taking over of the Redfearn interest in the firm of Redfearn & Gerald has created the necessity of a GENERAL REDUCTION throughout the entire store. This said; enough said. Prices will say the rest. Discounts ranging from 10% on Work Clothing to 50% on some other lines will make some real bargains. I mean business and am positively going to reduce the stock and will make prices that will do the work. Will look for you.

THE LEADER

ED GERALD, Owner

CESS OF VOCATIONAL AGRICULTURE IN SCHOOLS

Prof. Frank R. Phillips, of the West State Normal College, has just returned from a visit of several Panhandle schools. J. H. Hinds, Assistant Director of Vocational Agriculture, Department of Education, accompanied him and is very enthusiastic about the future possibilities for vocational agriculture in the schools of the Panhandle.

Professor Hinds and Professor Phillips visited Bovina, Farwell, Ochockney, and Silvertown, where inspected agricultural work done in high schools. In each school teacher is preparing a stock judgment to enter the contest which is held in Canyon sometime in January. They report that in most schools visited, the students are not only learning management and methods of farming and animal husbandry, but are learning to do repair jobs, such as hanging and building gates, building tables, making hog troughs, and various things that the farmer of the Panhandle frequently finds it necessary to do.

More than 60 per cent of the population of New England is of foreign

FINE SWEET POTATOES.

B. T. Johnson brought to the News office Tuesday a very large and fine sweet potato, which he says was raised without water, work or weeds. Mr. Johnson planted the potatoes this spring, and did no irrigation, and since it was so dry no weeds molested the potatoes.

Mr. Johnson also brought two of last year's crop, a few of which he still has. This is surprising to most folks, who have been led to believe that sweet potatoes will not keep in this country. Mr. Johnson says that as soon as he digs his crop he puts the potatoes in a pit in his barn, covering with dry sawd. The potatoes will not rot when handled this way.

Mr. Johnson has been raising potatoes in this section since 1892, and has never been without sweet potatoes. He started out with the Southern Queen and kept seed from year to year and he still has some of this variety. Of late years, however, he favors the Bradley Yam, which he believes is a better potato.

Mr. Johnson states that this was the hardest year he has ever experienced in raising potatoes. He put out 1000 plants and the hail killed all but about 250.

Seventy-nine per cent of the growing cotton in the United States last year

WINS AT DALLAS

Sensation's Pride, E. W. Harrison's splendid Duroc Jersey boar, captured second prize at the Dallas Fair in the Junior Yearling class, according to a telegram sent by Mr. Harrison to J. H. Head this week. The outstanding measure of this winning, when the character of the opposition the pig encountered at Dallas is considered, is apparent to everyone who knows anything about the hog game.

The remarkable feature of the string of wins this hog has made lies in the fact that before shipping he was on a green range. He was shipped to Canyon for several days, then to Childress, then to Oklahoma City, and then to Dallas. His range was gone, his feed changed and the jostling about of traveling all this distance certainly did him no good. Yet with all that he was good enough to win second in the hottest competition of the country.—Hereford Brand.

Laminated baseball bars built up of short pieces of ash joined together with the waterproof glue used in airplane propellers are said to be as resilient, durable and satisfactory as the one-piece kind.

25 percent reduction on all Nyal medicines at McQueen's. Don't miss it.

FLOWED ACROSS STATE.

D. B. Holcomb has just completed a contract with the Santa Fe in which he plowed twice across the Panhandle, from Shattuck, Okla., to Clovis, N. M., and from Canyon to Floydada and back. It required thirty-seven days to do the plowing.

He used ten mules, three men, two disc plows and a chuck wagon. He states that the plowing was easy most of the way, excepting north of Canadian when the sandhills were struck, and in places it required six mules to pull the chuck wagon.

Two furrows with the double disc plows were plowed on either side of the right-of-way, for the purpose of preventing the spread of fire from the railroad property.

A new device, consisting of conductor wires submerged in the channels of New York Harbor, enables liners to guide themselves safely through to port. Sensitive wires slung over the vessel's side and trailed below the surface, serve to communicate a buzzing sound on the bridge when the vessel is safely in mid-channel.

The first scientific information of agriculture to Russia from America since 1914 was literature recently sent by the United States Department of Agriculture.

HOLCOMB BUYS OUT DRIVER.

D. B. Holcomb has bought out the E. A. Driver dray line, Mr. Driver having accepted a contract in Wellington with the paying crew.

General Grant, more than 40 years ago, regarded as a grave danger the heavy immigration of foreigners into this country. He stated that he feared the time would come when the South, with its Anglo-Saxonism, could alone be depended upon to save the nation from ruin by the influence of an alien population. North Carolina, with only seven-tenths of one per cent of foreign stock is spending \$20,000,000 in a building campaign. It is putting \$50,000,000 into highway improvements and is expanding its hydro-electric development and cotton mill interests.

In Manheim, Pennsylvania, there is a church known as the Red Rose Church. It is leased to the community on the annual payment of one "red rose" to the family of William Henry Speigel by each member of the church's congregation.

Perhaps the Government thinks there is enough work for the dry navy right in the three-mile limit, without trying to take in the entire ocean.—Detroit News.

ONE CENT SALE!

Next Thursday, Friday and Saturday
OCTOBER 26th, 27th and 28th.

What is a One-Cent Sale? It is a sale where you buy an item at the regular price—then another item of the same kind for 1c. As an illustration: The standard price of Rexall Orderlies is 50c. You buy a box at this price, and by paying 1c more, or 51c, you get two boxes. Every article in this sale is a high class standard piece of merchandise just the same as we sell you every day at regular prices and have sold you for years.

A New Way of Advertising This sale was developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you a full-size package of high standard merchandise for 1c. It costs money to get customers, the loss taken on this sale will be well spent if the goods please you.

25 percent reduction on all Nyal medicines at McQueen's. Don't miss 'em.

Miss Mildred Taylor of Hereford visited home folks this week end.

Dick Bear of Happy was a caller here Sunday.

During the year that closed on June 3, the Wenatchee Valley in Washington shipped sixteen thousand tons of apples, or one apple for almost every inhabitant of the world. It is reckoned that the yield this year will be one tenth less. The prosperity of the Wenatchee apple district under its system of cooperative effort should be an example to other communities that are adapted by soil and climate to produce a special crop.

FACT AND COMMENT

A wise son maketh a glad father, but how often a foolish son is his mother's special pet!

All men are worthy of observation, not all are worthy of imitation. Take plenty of time to consider what you ought to do, but when you have decided act promptly.

Engineers in Canada are working on the problem of preventing navigable rivers from freezing. They have had some success by pouring into a stream a small amount of tepid water, but they are still searching for a better way.

Counting the loss in wages to miners, the loss in profits to operators, the loss in revenues to railroads and the increased cost of coal to consumers, the most conservative estimate places the cost of the coal strike at \$1,190,000,000.

"Speeders' Athletic Field" is the sardonic sign on the rock pile at the city jail at Los Angeles. Traffic-law violators get their chance there to exercise their love of speed by "reducing the big ones to little ones" as fast as possible.

Taking a leaf out of the grain growers' book, automobile dealers in Chicago are planning a bank and a sixteen-story warehouse. Dealers and manufacturers may store their automobiles in the building and borrow money on warehouse certificates.

Those who are informed tell us that the present boom in building is unequaled in the history of the country. It is estimated that the new houses that are being built this year will cost three billion dollars, and supply dwelling places for one million families.

This fall is the time to select roots of parsnips, carrots and beets to plant for seed next year. It is a mistake to save seeds from plants that bolted this year, for they are likely to pass the tendency on to their offspring. Choose the best roots when you lift the crop, store them carefully, plant them next spring and grow them especially for seed.

The imported reindeer, which the Eskimos are raising with so much success in Alaska, weighs only about one hundred and fifty pounds, whereas the Alaskan caribou, or native reindeer, often weighs more than three hundred pounds. The United States Biological Survey is going to try to cross the one with the other, to increase the size of the domesticated animals.

It is not good to be unfortunate, but it is often good to have been so.

There is one thing of which we can be certain: we are always punished by the wrong we do as well as because of it.

When a man buys an automobile in Japan he bargains for his car as we in Americaicker for a piece of real estate. The asking price is generally \$500 higher than the selling price; automobiles that sell in America for \$1500 bring about \$2500 there.

There were ten and a half million motor vehicles in the United States in 1921, an average of one automobile for every ten inhabitants, or one car for every two families. The ratios range from one car for every five inhabitants in California to one for every twenty-eight in Montana.

Canada no longer wishes that its citizens have the honor of knighthood or a peerage conferred upon them. A Canadian prime minister used to be sure of knighthood but this year the King's birthday honors conferred on the premier, Mr. Mackenzie King.

A department store in Antwerp recently conducted a race of toy balloons as an advertisement. On a given day some four thousand entrants let loose toy balloons each of which carried a post card with the request that whoever found it should return it. The winning balloon traveled 102 miles,

Greatest Mother Summons Her Children

An allegorical concept of the Red Cross as a peace-time ideal is employed by the American Red Cross in a new and striking poster for its Annual-Red Cross Roll Call. Spread out before the heroic size figure is the outline of the United States with a Red Cross superimposed upon it while around its borders are sketched scenes depicting the chief activities of the Red Cross today—service to disabled veterans of the World War, disaster relief and promotion of the public health. The poster is the work of Lawrence Wilbur, a New York artist and will be displayed throughout the country during the enrollment of the Red Cross membership for 1923.

which was considered as remarkable for the day was rainy. Most of the balloons traveled about twenty-five miles.

Germany is now a country of extremes. There are those who nearly starve and there are others living in luxury. The German government has now decreed that high taxes shall be paid by those who partake of the reveries in the Berlin restaurants. The revenues proceeding from this tax will be turned over to the committee for the feeding of the needy.

"Sheffield Plate" was originally a sheet of copper to which a silver plate was fused on each side, and took its name from the English town where it was made. Electro-plating having superseded the fusing process, the trade used the term recklessly, even applying it to thin coated hollow ware. A recent conference of manufacturers condemned the practice and defined the word as meaning "an article well plated on a base metal of nickel silver of not less than ten per cent of nickel content."

The manufacturers agreed to abide by that definition in their business.

The Jews of Toronto, Canada, combined in a movement to prevent Paderewski giving a recital in that city. When Paderewski was president of Poland he took certain defensive measures which his enemies label "anti-Semitic," but which were only the plain common sense of a difficult situation.

DRAYAGE WORK

I have bought the dray business of E. A. Driver, and am prepared to do all kinds of light and heavy hauling.

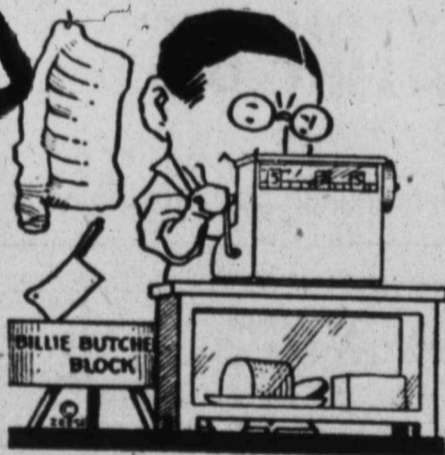

I shall look after the business in the same efficient manner as it has been done by Mr. Driver, and shall greatly appreciate your business.

Call my residence, Phone 23, or the Canyon Lumber Co., Phone 28, and leave orders for drayage.

Baggage hauling especially looked after.

D. B. HOLCOMBE.

FOR SALE BY RANDALL COUNTY NEWS

HIGH SCHOOL ANNUAL

Reasons why not:
 Money—We intend to spend enough to put out a good Annual or not spend at all. However, we will take it in you in such small doses that you won't even have to cut out your cocoon.

Editorial Staff—Which means more in it says. Have we people in our school who have the talent and the initiative to put over a real Annual?

Ability—Which is a big word itself. We have the ability to collect suitable material, to edit this material, to finance this undertaking without using a strain on dad's pocketbook? Can we do it? If your nervous system is not adjusted to shocks, look out! The answer is loud and long. We can't give us a chance. We will prove it.

Reasons why:
 The issuance of an Annual, however small would be of unlimited credit to our school and our town. It would give the way for a greater Annual the greater school we are dreaming of. It would distinguish our school from all others, tell the world about it and would be a memorial to our students that they would love for more.

The citizens of our town are spending thousands of dollars on street improvements—the first real mark of progress in ten years. Is it not logical and just that our school keep pace with this worth while development? An Annual will act as a mile stone in the passing of the years. A silhouette of our inevitable progress; it will keep alive our ideal and when its students have gone out of our school and out of our town perhaps the shadows of the years they have spent with and of the transpiring events of their years will be mirrored on its pages and cherished by all who love our school and the book treasured by those who are fortunate enough to own one of them.

You, the people of Canyon want your school to grow, to thrive and flourish. A good Annual will signify a part of this growth and will trace it from now to the end as the files of a newspaper trace the life of a community.

Think it over! Is not the ideal worthy one and deserving of the support of our townspeople? We will need a little money to issue a treasure. We are not going to the people of Canyon to donate it unless they want too, but we will expect every family interested in Canyon and Canyon's high school to buy a copy of this book. It won't cost you much, only a dollar or two, but the

response you make means either the accomplishment and success or the dismal failure of one of the most glorious ideals that the student body of our high school ever treasured. If you do not respond credibly the Annual will never become a reality. If it does not become the years your children have spent in preparing to live a creditable life will be lost, forgotten; the years will pass on and so will the events in the making of your boy of today and your man of tomorrow. Only a picture can contain the soul of its subject, a book never could. Think of the pleasant hours you have spent pouring over the pictured story of your family album and think of the pleasure you may have or your children may have by absorbing that story of a school that only pictures could tell well. Of the emotions, the days of real life that your boy or girl will forget unless he has the Annual for a reminder, of the pleasant memories, the joys the classmates who were once a part of you and your life. Think of the imperishable spirit imprisoned in its pages the spirit that ruled you in your youth and the spirit that you would give your soul if you had not lost, the spirit that an Annual will not allow to die!

Think it over! It means something!
 —C. H. S. Reporter.

Do The Voters Of Texas Want A Klan Senator?

Cullen Thomas, in Dallas News, July 19:
 "I charge no direct information that is not to be controverted that Mr. Mayfield is a member of the Ku Klux Klan; that since the opening of this campaign he has been visiting its lodges and that he has been working overtime through his agents inside the Klan to solidify the Klan vote back of his candidacy."

Mr. Thomas in Dallas News, July 20:
 "It was significant that while Mr. Mayfield seemed active enough in the (pro) cause up until the year 1910, nothing has been heard from him since that time except in the present race. Not once in all that time has he raised his voice in public to help out our cause. Earle Mayfield may properly be called the "lockjawed pro." For twelve years, in all the stormy campaigns in Texas, he has been as dumb as an oyster. In 1912, when Judge

William F. Ramsey was the prohibition standard bearer, I was in the thickest of the fight throughout the State. Mayfield, as candidate for the office of Railroad Commissioner, was again silent. Democracy teaches equal rights for all and special privileges for none. Bob Henry has received a special dispensation from Atlanta to prove his Klan membership. Why can't Earle procure the same permission? Why does Mr. Mayfield stand mute in the presence of 5,000,000 people who demand that he announce his membership in this organization? Is it political self-interest or lack of moral courage—or is it both?"

When a Party Man Joins the Klan Which Pledge Controls—The Party Pledge or the Klan Pledge?

Help Keep Canyon Clean!

WANTS PRACTICE WORK FOR AGRICULTURAL CLASS

The Vocational Rules require that agricultural students must spend some time in practical work and Mr. Phillips is desirous of getting in touch with people here in town who have milk cows or other animals that they wish to secure boys to care for. In other towns the agricultural students have given excellent satisfaction in taking charge of home milk cows, feeding them balanced rations, and in many instances cutting down the cost of feed sufficiently to pay for their labor.

Why Miss the Profits

You hit the more summer profits mark when you use Cow Chow as the ration. Dairymen everywhere are using Cow Chow and putting more money in the bank because—

Cow Chow cuts the cost per gallon of producing milk on grass.

Keeps your cows in better condition.

Gets a longer milking period.

Every pound of Cow Chow fed a good dairy cow will make her produce about three pounds more-milk per day on grass up to normal production.

Cow Chow will not only help you to make more summer profits, but your cows will be up to maximum production when colder weather arrives.

Happy Happenings

Quite a number of people from here attended the singing convention at Union Hill Sunday.

Mrs. G. D. Walker is visiting her parents, Mr. and Mrs. Jim Wakefield of Joshua, Johnson county, Texas.

Miss Hanna Swearingen of Canyon spent the week end at the parental S. M. Swearingen home.

Mr. and Mrs. J. P. Evans, Mrs. C. L. Gatten and daughter, Vivian, were in Tulla Wednesday.

The meeting at the Baptist church is in rapid progress with services held by Rev. Ashford of Abilene. Several conversions are held each service. Morning at 10 o'clock and evening at 7:30 o'clock.

A. W. Sone, who is teaching the Garrison school, was in Canyon Friday.

Misses Eva McManigal, Dora Walters and Winnie Grounds spent the week end with Mr. and Mrs. W. O. Newberry in Tulla.

John Pope of Littlefield was transacting business here the past week end.

Mrs. George Selvidge and daughter, Pearl, spent the week end with friends in Amarillo.

Belle Dunlap is visiting friends and relatives in Oklahoma.

Curtis Creighton returned Saturday from Colorado where he spent the latter part of the summer.

Mr. and Mrs. J. R. Jenkins and son, Ralph, visited at the J. W. Bandy home Sunday.

D. J. Graham returned home Thursday from Dallas where he had been for an operation.

T. T. Mitchell and children are in Brownfield this week.

Siegel and Alton B. Hall were Amarillo callers Saturday.

Mr. and Mrs. J. I. Penrod of Canyon visited at the J. E. Toles home Sunday.

V. C. Hagood and family of Tulla visited at the Herron Hagood home here Sunday.

H. G. Koch and family were Tulla callers Friday.

Ames O'Rear is carrying the mail for D. J. Graham this week.

Mr. and Mrs. C. P. Money, Mrs. J. D. McElroy and Mrs. G. C. Long are visiting in Silverton this week.

G. W. Cox and Claude Fox were transacting business in Amarillo Monday.

Mr. and Mrs. Tom Bandy and son, and W. C. Lindsey spent Sunday at the C. S. Dison home.

Mr. and Mrs. A. J. Konken and family and Mr. and Mrs. A. A. Konken spent Sunday at the C. F. Zoeller home.

TOWN PESTS

This Poor pest ain't thought Hard of, becuz Many of our Most Prominent Citizens wuz like This in their Palmy Days. Jest now He's wandering 'round in a Balmey Daze but he'll haf to Git Married after while to Git Some Sleep, after which he'll no Longer be a Pest but a Useful Member of the Community.

Wayside Items

Sunday School Sunday morning but no church on account of Rev. Hall being in a meeting at Happy. League Sunday night by the young people led by J. R. Stockett.

M. C. Sluder moved Si Johnson's household goods to Canyon Monday. Mrs. Johnson and children are there for the benefit of the schools.

Mrs. C. F. Watson has been sick but is improving.

D. J. Graham, who has been in Dallas for an operation returned home Thursday and is doing nicely; but not able to carry the mail for a few days.

Mrs. Homer Holland and son spent the week end at the parental Holland home.

W. I. Lane made a business trip to Amarillo last Wednesday.

Judge Oneal of Tulla and Van Oneal of Dimmitt were in this community on business last week.

W. R. Franklin made a business trip to Happy Monday.

Mr. and Mrs. J. D. Holland and little daughter of near Vigo Park are spending a few days at the Will Holland home.

M. A. Butler sold a load of hogs last week to Mr. Boney of the Fairview community.

Mr. and Mrs. R. B. Rogers left Wednesday morning for Canyon to visit with his brothers, L. B. Rogers of Canyon and Jessie Rogers and wife of Mississippi. Uncle Reuben and Uncle Jesse had not met in 55 years.

W. D. McGehee and B. McCoy made a trip to Canyon Wednesday.

Since silver is about 70 cents an ounce, many Mexican mines that have been closed for ten years are opening again. When silver is below 60 cents few of the Mexican mines can operate at a profit. Between 1910 and 1914 the price of silver on the average was 56.4 cents an ounce; in 1921, 62.6 cents. Demands from India and China, where the currency rests on the silver basis, are responsible for the present high price.

BOOKKEEPING IN SAVINGS

Had the Treasury Department, early in July, chosen the honest part, and made no claim to the reduction of the national debt and the showing of a surplus for the fiscal year just closed, it would have avoided the criticism justly applied, now that President Harding has been compelled, in justification of his veto of the bonus bill, to disclose the fact that there was then really a deficit for that year and that it will be added to the current year. That is, in cold figures, receipts for 1921-22 fell short of meeting expenses by a hundred millions, and will not meet appropriations for this year by \$650,000,000, making a total deficit of three quarters of a billion June 30, next. Even this, it is hinted, is too conservative an estimate, one Senator predicted the billion mark to be passed.

To make the favorable report of last year, funds were juggled to the limit, every dollar possible being drawn from funds created for current expenses and added to that "available for reduction of the public debt." That means of hiding the truth was exhausted at that time, and the Controller of the Currency naively admitted that unless in some way the actual revenues could be increased there was a prospect of a shortage of a third of a billion, and that three-fourths of the maturing obligations must be refunded.

With the degree of expertness in bookkeeping at the command of the United States Treasury, it is no wonder that the country was able to show a paper saving any time it was desired to transfer figures from one column of the ledger to the other. But such "savings" ultimately must be known by their true name. The country's pleasure at being told that "more than one billion dollars had been paid on the public debt and that there was a good surplus of revenue above expenditure," only made the shock greater when the announcement came regarding a deficit.

Neither public nor private business can survive the juggling of figures to show fictitious profits, and those who permit such juggling must pay the price in the diminished confidence they enjoy.—Ford's Weekly.

MEN

It is often said of this or that man that he is a self-made man—that he was born of the poorest and humblest parents, and that with every obstacle to overcome he became great. This is a mistake. Poverty is generally an advantage. Most of the intellectual giants of the world have been nursed at the sad but loving breast of poverty.

Most of those who have climbed highest on the shining ladder of fame, commenced at the lowest round. They were reared in the straw thatched cottages of Europe; in the log houses of America; in the factories of the great cities; in the midst of toil; in the smoke and din of labor.—Ingersoll.

We suspect that Uncle Sam might be willing to exchange, temporarily, the water wagon for the coal wagon.—Brooklyn Eagle.

Umbarger Notes

A dance was held at the O. J. Podzemney home Sunday evening.

L. Wick and family, Joe Beckman and family and Henry Beckman and family spent Sunday at the Vowalt home.

F. V. Friemel made a business trip to Amarillo Friday.

Mr. Binkley of Hereford spent Sunday at the F. V. Friemel home.

Clarence Beckman was a business caller in Hereford Friday.

Leo Stocker was a business caller in Amarillo Friday.

Mrs. Leo Stocker is on the sick list this week.

A. Beckman has moved his house from where it stood to about a half a mile north.

A three-quarter inch rain fell here Sunday night.

Mrs. R. Mingle spent Sunday at the Joe Beckman home.

One of the great undertakings for resettling Palestine is to use the swift current of the river Jordan from Mount Hermon to the Dead Sea to furnish electrical power for lights, railways and industrial purposes and water for irrigation. The cost of coal in Palestine—about twenty-five dollars a ton—is one of the chief reasons why the country is so backward in industry and transportation. The campaign for funds is now going on, and it seems sure that the Jews of Europe and America will provide the necessary money to harness the "one wide river."

 H. E. Hume to G. A. Farlow, lots 17 and 18, block 38, Canyon City. Consideration \$475.

Governor McCray, of Indiana, proposes to honor Paul Dresser, writer of the Indiana State song, "On the Banks of the Wabash, Far Away," by establishing a Dresser state park somewhere along the Wabash, with a monument to the memory of Dresser. The governor learned that Dresser's body lies in a neglected grave in St. Boniface Roman Catholic Cemetery, Chicago, and proposed that it be reinterred in the new park.

There are from 100,000 to 300,000 aliens in the country who were smuggled in, according to the Secretary of Labor. The department of Labor also believes there are 60,000 Chinese in Cuba, watching their chance to reach the Gulf Coast. It is argued that registration of aliens would halt smuggling.

The wood duck, threatened with extinction, is now protected by the Federal migratory bird act. These birds may not be killed anywhere in the United States.

In 1916 the total daily attendance at motion picture shows in the United States was 20,000,000. This year the daily attendance has dropped to 10,000,000 to the great alarm of the motion picture controllers.

WHAT SHALL WE EAT

The proper diet of mankind is an inexhaustible subject for discussion. You can find authority, either admitted or self-proclaimed, on every conceivable side of the question. There are vegetarians and praisers of meat; fruit and nut dietitians and high proteid dietitians; no-breakfast men and hearty breakfast men. Not only what we shall eat, but when we shall eat it and how much of it we shall eat, agitate the cortices of physicians, dyspeptics, directors of physical training, and amateur efficiency engineers.

A well-known medical journal has been polling its professional subscribers on the hotly disputed subject of the breakfast bill of fare. The verdict appears to be in favor of the old-fashioned breakfast. The "Continental breakfast" that has tried the souls and afflicted the stomachs of so many well-fed tourists from this side of the water got very few votes. The no-breakfast fad, which had a considerable following in its day, found no one to speak for it.

"A substantial meal of fruit, cereals, bacon and eggs, toast or, as we of the South prefer, hot biscuits," was the prescription of one Kentucky physician, who had in mind not only the sustaining of the body but the reasonable satisfaction of the appetite. Not everyone can deal successfully with hot bread at breakfast. To those who can, current medical opinion would not, we observe, deny it. Too few of the doctors mentioned waffles or griddle-cakes as an essential part of the morning meal. Was it because most of them came from regions where genuine maple syrup is unknown? Pie had no defenders; the lovers of that malutinal confection must still depend on literary rather than scientific authority. Ralph Waldo Emerson is their best advocate.

Substantial breakfasts for brain workers as well as outdoor workers were recommended by most of the doctors. When it came to the noon meal they divided. Some thought that the chief meal of the day should be taken then. Others spoke for a light luncheon and a hearty dinner at night. Some advised the office worker to eat almost nothing at noon—but to make up for it at dinner.

In general the opinions of the medical profession on the subject of food appear to be far from ascetic. They believe in giving the bodily furnace a fair amount of fuel, and in a generously mixed diet. Of course they are speaking for those who have healthy digestions and who are not obliged to avoid any foods because experience has shown them to be harmful.

Those opinions will not weigh much with people who do not agree with them. Human beings will continue to eat what they like (so long as it

agrees with them) at such times of day as are convenient; and, if it seems best to them, they will adopt regimens and practices to suit themselves and perhaps no one else; for, as we began by saying, diet is a fruitful source of argument, and what agrees perfectly with one is often distasteful and perhaps harmful to his brother.

Horses work up to their necks in the waters of the lower Columbia River, Oregon, drawing the great seines with the catches of tons of salmon. Many of the animals have little hair left. Immersion in salt water seems to kill it.

Motion picture men were denied permission to film the interior of the Canadian House of Commons because it was felt that such a procedure would not be in keeping with the dignity of the Parliament.

Military maneuvers of the largest army in Europe, conducted on a huge scale, recently included a three-day sham battle with artillery, airplanes and tanks in the rocky, broken country near Rennes, France.

Before Baby Comes--
 EXPECTANT mothers do not undergo useless suffering any longer, and baby's birth can be made gloriously easier.
 Mrs. Wm. Flack, 115 N. 12th St., Leavenworth, Kansas, says: "Mother's Friend is the best help in the world for an expectant mother. I am the mother of three children and have found 'Mother's Friend' fine."
 "Mother's Friend" is externally applied about the abdomen, back and hips. It penetrates wonderfully, and in this way allows the muscles and ligaments to relax easily and readjust themselves to the changes during expectancy and at child-birth.
 Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradfield Regulator Co., RA-45, Atlanta, Ga., for free booklet containing valuable information every expectant mother should have.
 "Mother's Friend" contains no narcotics or harmful drugs. It is safe. There is no substitute. Avoid useless greases and plain oils. Start using "Mother's Friend" now—the sooner the better. "Mother's Friend" is sold at drug stores—everywhere.

ADAMS DRY GOODS CO.

Amarillo, Texas
 Corner Polk and Fifth and 106 East Fifth.

ADAMS DRY GOODS CO.—IN THE HEART OF AMARILLO

PUBLIC SALE

Having decided that I have more stock than feed, I will sell at Auction at my farm 6 1/2 miles southwest of Canyon Court House, and 1/2 mile south of Pleasant View School on

WEDNESDAY, OCT. 25, 1922.

Commencing at 1 o'clock sharp, the following property, to-wit:

45 head of cows consisting of 42 head 4 year olds; 3 head of 3 year olds.
 15 head Mules—4 head 2 year old, coming 3; 4 head 1 year old, coming 2; and 7 Spring Mule colts.
 Several Brood Mares.
 Hogs—About 50 head will weigh from weaning pigs to 125 pounds. Some brood sows will farrow by day of sale.
 10 head of Calves.

Terms of Sale—Sums under \$25, cash. Hogs will be sold for cash. Rest of stock sold on 10 months time with bankable note at 10 per cent interest from date. Terms of sale must be complied with before property is removed from sale ground.

Firestone

GUM-DIPPED CORDS

Most Miles per Dollar

Everywhere You Hear It - Firestone Builds the Finest Cords

HARDLY a day goes by but some one goes out of his way to tell us that Firestone Gum-Dipped Cords are the best tires built.

Cords—as only Firestone builds them—will give you many extra thousands of miles of wear. And for fall and winter driving there's nothing like them. The strong, resilient Firestone carcass of gum-dipped cords, can stand the hardest punishment.

With the reputation Firestone Cords hold, it is not surprising that so many motorists in this community have made them standard equipment. The demand for Firestone Cords in the last few months has broken all records.

Prices were never so low as they are now. Perhaps never again can mileage be sold so cheaply.

Decide now that you will get Most Miles per Dollar. Drop in any time and let's talk tires.

LORENZO WIRT, Tires and Accessories

When the big guns—Higher Costs and Smaller profits—are threatening your business, you need an added punch in your advertising to safeguard your interests.

The Randall County News goes into 90 per cent of the homes of Randall County. It is the only advertising medium that covers the county completely.

Your store should be advertised in this newspaper every week.

Randall County News

RESOLUTION APPROVING THE ENGINEERS REPORT COVERING THE IMPROVEMENTS ON A PORTION OF HOUSTON STREET AND A PORTION OF ROBINSON & BOMAR AVENUE IN THE CITY OF CANYON AND DIRECTING A HEARING TO OWNERS OF PROPERTY THEREON, AND OTHER INTERESTED PARTIES, CONCERNING AN ASSESSMENT OF THE COST OF A PORTION THEREOF AGAINST THEM AND THEIR PROPERTY:

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CANYON:

WHEREAS, the construction of certain improvements has heretofore been ordered by the City Council of the City of Canyon upon Houston Street from the East property line of East First Street to the West property line of Easter Avenue and Houston Street from the West property line of West First Street to the West property line of Robinson and Bomar Avenue, and Robinson and Bomar Avenue from the North property line of Houston Street to a point two feet south of the south rail of the main line track of The Panhandle & Santa Fe Railway Company.

WHEREAS, the contract therefor has been let to the PANHANDLE CONSTRUCTION CO., and W. D. Howren, Engineer, has been directed to prepare a roll showing the cost of said improvements, and other matters, as prescribed in the resolution ordering same, and in the City Charter and Ordinances of the said City; and

WHEREAS, the said Engineer has filed with this Council a statement or report in writing, which statement or report in writing shows the total cost of the said improvements, the portion thereof to be assessed against the property abutting on said streets and the owners thereof, and the cost per front foot proposed to be assessed against the owners thereon and their property, and

WHEREAS, the said report has been inspected by this Council and all errors therein have been corrected. THEREFORE:

BE IT FURTHER RESOLVED, that the said roll, statement or report is in all things approved, and that it is necessary to assess a portion of the cost of said improvements against the owners of property abutting upon said streets within the area named to be improved, and against their property, and

WHEREAS, the said improvements consist of paving the roadway of said streets as established with three inch vertical fiber No. 1 vitrified brick laid upon natural foundation, together with the construction of concrete curb and gutter along curb lines, with all necessary excavation and grading; and

BE IT FURTHER RESOLVED, that a hearing shall be given to said owners of said property and to all persons interested in same, or anyone having a lien or claim thereon; which hearing shall take place before the City Council of the City of Canyon in the Council Chamber of the City Hall in said City on the 21st day of October, 1922, at 10 o'clock A. M., at which hearing the said owners and other interested persons, their agents or attorneys shall receive a full and fair hearing before the said Council as to the benefits, if any, of the said improvements to the property, or as to the regularity of the proceedings with reference thereto, or as to any matter or thing connected therewith; at which hearing the said property owners, or other interested persons may introduce or produce witnesses, and said hearing shall be continued from day to day and from time to time until all are fully heard, and after said hearing the Council will determine from the evidence before it what sums, if any, shall be assessed against said owners and their property, provided no assessment shall be in excess of the benefits of the said improvement in the enhanced value of the property occasioned thereby.

That the City Secretary is hereby directed to give notice hereof by publication of a true copy of this resolution in the Randall County News, a newspaper of general circulation in this city, which notice shall be published not less than three times, the first publication to be not less than ten days prior to the date of the said hearing. Said Secretary shall append to the said copy of this resolution her signature and certificate that the same is a true copy, and the publication of such copy shall be sufficient notice to said owners, or other interested persons, to appear and be heard at the time and place herein mentioned.

That the City Secretary shall also mail to each of the said owners of abutting property, at their Postoffice address, if known, or, if unknown, to their agents or attorneys, a copy of this resolution by registered mail deposited in the Postoffice at Canyon, Texas, not less than ten days before the date set for said hearing, but such notice shall be cumulative of the notice above required by publication, and the failure to mail said letters, or any of them, or the failure of the person to whom addressed to receive the same, shall in no wise affect the validity of said notice.
