THE HIGH SCHOOL CLASS FIGHT

Biff! Bam! Zowie!
The long sleeping class rivalry and school spirit awoke with a start, and went into action with such energy that some poor people who have lived a long time but have not yet acquired shock absorbers, were sadly jarred.

Hallowe'en night the enterprising Juniors placed their class flag on the belfry of the school. The Seniors were blissfully ignorant of the proceedings and the Juniors encountered no opposition whatever.

Wednesday, as the Seniors came to school the flag aroused their ire; as they came into their room and found a "dare," written by the Juniors, all over their blackboards the ire sprouted into anger and the anger into determination. A hasty call assembled most of the masculine element of the Senior class and assisted ably by their sister Seniors the determination blossomed into action, long and furious. The Seniors stormed the Junior stronghold and proceeded to take the Junior flag down. This was extremely difficult as the flagpole is in the top of the belfry and the belfry roof is ten feet above the school building and slopes at an angle of about seventy-five degrees.

The Juniors rallied and counter attacked. They stormed the entrance to the belfry and by sheer force of numbers lifted the lid and did their best to interrupt the earnest and hurried proceedings of the Seniors. Although outnumbered three to one the Seniors gave the Juniors a merry battle. Up there, seventy-five feet from the ground, in a square space not as large as a prize fight arena surrounded by a narrow bannister only three feet high the battle raged while the school bell, which was in the center of the melee, vainly tried to sound its nine o'clock summons. The Juniors pulled the Seniors off the belfry roof, threw their paraphernalia off the roof and calmly ordered their worst enemies out of the way as if it were their busy day. They then proceeded to garrison the belfry with as many boys as they could find.

The Seniors went down stairs, carried their bruises, fumigated the air slightly, rubbed the dust out of their rules, it is only a short step to anarchy. The courts of Texas are laboring under laws and a constitution written under ancient conditions. The safe plan is, for the old constitution to be discarded and a new one written that will meet modern needs.

There will be cause for Thanksgiving among the five hundred students of the public school to hear on Thanksgiving morning that the bond issue for a new school building has been carried. The election is called for Wednesday, Nov. 29th. Canyon's schools have more than doubled in attendance in the past ten years. The attendance may be expected to more than double in the coming ten years. The schools are badly congested today. Vote for the bonds Nov. 29, or the schools will greatly suffer.

We don't know a thing about cotton, but nearly every fellow who does know cotton advises the farmers to plant some next year. It certainly will be no more of a gamble than wheat and stock cattle have been the past few years. The cotton crop is greatly helping the farmers on the south plains. A small acreage will not hurt any one, and if the crop is successful it will be a good thing for the county.

Kaiser Bill is married again. It seems that his bride is of a fighting family and is going to start something leading toward the restoration of Kaiser Bill's throne. Bill may yet decide that war is hell, especially with a warring bride.

That was an awful day Saturday, with the high wind filling the air with dust. But it stormed even worse than that in other sections. Canyon is the best place, after all.

There has been a lot of fun connected with the general election in Texas this fall, and a lot of absurd things pulled off. Politics are now tabooed until the summer of 1924.

The Armistice was signed four years ago Saturday morning, but the war is not yet over. It takes longer to stop a war than to start one.

There are about 100 fellows in Randall county who are glad they are not where they were on Nov. 11, 1918.

eyes and scratched their heads, while they indulged in some deep thought. Twenty minutes later a few of them started off to town. The remainder, watched Frank Harrison try and Cecil Foust succeed in placing the Senior colors on the school flagpole, from which the foresighted Juniors had removed the rope and pulley. The pole is much lower down than the station the Juniors held but the Seniors had the comforting feeling that their colors could at least be seen.

This job over, the remainder of the Seniors followed the hurried path of their classmates to town. Ten minutes later consternation reigned among the Juniors in the belfry. The Seniors had possessed themselves of a unit of the city fire department and were rapidly bringing this weapon to the fore. The crowd of onlookers scattered but the Juniors who were not in the belfry hunched themselves together as if preparing for defense. The deluge of water hit them first. Some of the smaller ones were moved, shoved and splashed out of the zone of hostilities by the powerful stream. The garrison in the unprotected belfry then longed for something bigger than one inch palings to fend off the chilling, biting, battering stream.

The Seniors turned off the water and made preparations to remove the fire hose. This move turned out to be merely for the sake of deception, however. The Juniors became reassured and left their cover. Immediately the Seniors at the head of the hose replaced the nozzle and whistled sharply. The performance was repeated on a more drastic scale and the Juniors who could, went to change their clothes. The fellows cooped up in the belfry stayed with their job through necessity and prayed that the wind would stop. Their prayer was denied, rather the wind increased and the air of Yankee Doodle played by the chattering teeth was said, by the Seniors who were hiding their time in the left below, to have possessed most excellent technique.

After a few minutes of waiting Superintendent Payne ordered hostilities to cease and the Seniors went home for dinner. The Juniors, fearing a surprise attack, stuck to the belfry.

The Seniors planned a night attack, which the Juniors learned of, causing the Seniors to change the time of night, or rather morning at which they were to attack. They raided the place early in the evening and when they had an opening large enough for easy entrance they gave the Juniors a dose of Chemical fire extinguisher, which in the Juniors frightened imagination turned into Sulphuric Acid. The air became dense and heavy with pained ejaculations and imprecations and the Seniors retired under its cover.

The Seniors then went out after their class President who was uninformed as to the new hour of attack. They returned at three o'clock and while some attracted the attention of the sentinels the Seniors silently climbed a long, shaky ladder to the top of the building where they fell upon the enemy. Their falling had little effect, however, and after a few minutes a compromise was suggested and heartily agreed to.

The Juniors took their flag down and the school colors, purple and white, took their place. So things and further events ended, peaceably enough.

How Things Look
To the person of experience, of perception, and in whom the desire to see Canyon's High School grow and develop, is paramount, things in general look decidedly favorable. Live schools, institutions with pep, energy; schools that have a regular habit of yearly

delicious flavor

improvements, have been having and sponsoring class fights each year since the growth started. Then why should the people of Canyon cover their ears? They might as well become accustomed to the business for their school has started growing and every citizen of any importance wants to see it continue to grow.

The students had some twelve hours of supreme enjoyment. Youth that is healthy, robust and growing loves a fight and it must have a fight. Youth's safety valve must open once in a while and let accumulated stock of pep, energy and class enmity out. If the valve does not work, something is wrong and a good doctor would remedy the trouble in a very short time.

In this case, class rivalry is the M. D. who was called in to the aid of congested youth. So why worry? why all the grief and the pained lamentations about Johnny's black eye? How do you know that Johnny is not proud of his black eye?

All that has happened is just another sign of growth. Encourage it! Turn it into safer channels, if need be. But kill it? Never! You'll have to kill the school first, and it seems that Canyon people after one killing should call it a lifetime and encourage the school that will grow beyond fondest expectations if correctly encouraged.

A TALK WITH A CANYON MAN

Mr. J. A. Carr, County Road Supt. of Canyon, Tells of an Interesting Experience.

There is nothing like a talk with one of our own citizens for giving hope and encouragement to the anxious suffer from the dread kidney disease. We, therefore, give here an interview with a Canyon man:

"For six or eight months I had trouble with my back and kidneys," says Mr. Carr. "My back was sore and stiff especially mornings when I got up. My kidneys were weak and acted irregularly, too. I saw Doan's Kidney Pills advertised and I began using them. Right from the start I was relieved, and they seemed to fix my kidneys up and relieve me of all the soreness in my back."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Carr had. Foster-Milburn Co., Mrs. Buffalo, N. Y.

VAUDEVILLE COSTING \$1,000 AT MANUFACTURER-JOBBER SHOW

About \$1,000 will be paid by the Amarillo Manufacturers & Jobbers Association for vaudeville performances to be given during the big exposition to be held in Amarillo November 23, 24 and 25.

The vaudeville is from the biggest circuit in the United States, the United & Keith-Proctor Company. Every act sent to Amarillo will be strictly of the highest class, according to Ross D. Rogers of the entertainment committee.

The vaudeville will cost the general public nothing extra. These vaudeville sketches will be a part of the program of the big exposition and it is all free after the general admission price is paid. This will be in addition to the exhibit of articles manufactured and wholesaled at Amarillo, the orchestra music and other attractions, all to be given in the Case building, just off Polk Street north of the Rock Island railway tracks.

MANY STUDENTS NEED WORK

Under the auspices of the Y. M. C. A. of the West Texas State Normal College a bureau is being operated for the benefit of the deserving students who must have work in order to pay their expenses while in school. This bureau wishes to serve the people of Canyon while it aids the student. Students who are waiting for work have registered their names and addresses with the bureau. They are ready for work of all kinds, and one or more students are available at all hours. Some wish to get a place where they may work for their room rent; others, where they can work for room and board; and still others, where they can do odd "jobs." These students furnish a great variety of labor; such as general work of all kinds, (washing, house-cleaning, gardening, and yard-work), plumbing, carpentering, painting, papering, mechanical work, electrical work, farm work, typing, book-keeping, and general office work.

The good people of Canyon have responded nobly to the needs of the students of the Normal. Many students have been given regular employment; but there are many who are compelled to depend upon "odd jobs" for their support. Some of these become greatly embarrassed at those times when no work can be found. The citizens of Canyon can ennoble themselves to a large degree if they will help these students get work. At any hour of the day or night when you have work to be done, this bureau can find a student for the job. Make known your requests for labor to Mr. Ford Fron-

DINNER IN HONOR OF DR. SHIH

Sunday, November 5, Mrs. G. G. Foster gave a dinner party in honor of Dr. Shih who was here in the interest of foreign missions. The crowd met at half past five o'clock in the home of Mr. and Mrs. W. J. Flesher. From here they were taken in cars to the home of Mr. and Mrs. Foster, where a real dinner was waiting. The dining table was decorated in the center with flowers, around which very appetizing dishes were placed in an artistic manner. Since the entire crowd was interested in the same nature of work, everyone entered heartily into a lively conversation. The guests were Dr. Shih, Miss Richardson, and nine Methodist students who are interested in Christian life service work.

Dr. Shih was seated at the head of the table; opposite him was Mr. Foster; on one side, Miss Richardson, Madeline Wyatt, Ruth Lowes, Eugene Devereux, Winnie Mae Crawford; on the opposite side, Alice Magee, George Terry, Annie Williams, Elmer Marshall, and Sarah Park.

Mrs. Foster, with the assistance of Mrs. DeGraftenreid, served a most delicious dinner which was enjoyed to the fullest extent by every guest.

"Actions speak louder than words." After this very pleasant hour, all went to the Methodist church, where Dr. Shih delivered addresses to the Epworth League at 6:30 and to the church at 7:30. These addresses were heard by appreciative audiences.

Bran Muffin Recipe By Washington Chef

Anthony Giacofci

Housewives may now regale their guests with the same kind of bran muffins Marshal Foch and many other noted visitors at Washington have talked about. The opportunity is presented through Anthony Giacofci, chef of the New Willard Hotel, one of the big hostilities of the National Capital. Here is the recipe which Chef Giacofci says will make one dozen muffins: Four tablespoonfuls flour, four tablespoonfuls bran, one tablespoonful lard, one tablespoonful butter, one tablespoonful baking powder, one tablespoonful sugar, two eggs, one-fourth pint cold milk, a pinch of salt. Mix the above thoroughly, flour with baking powder, add lard and butter, mix and add bran, eggs and milk, bake in hot oven twenty minutes.

noon from 4:00 to 5:30 o'clock. All the little ones enjoyed themselves greatly.

RANDALL COUNTY DOES CARE!

One time each year there is a drive for funds with which the American Red Cross of Randall County can console, feed and care for the sick, hungry and poor.

The drive for this year is just a few days off. Begin now to consider those unfortunate souls!

Imagine===

Your loved ones penniless, sick, without food, cold, no medical attention, no friends!

In times of good fortune, it's the wise man who prepared for a future that might hold ill-fortune for his family and loved ones. He gets his house in order so that his loved ones will be protected regardless of what happens.

But Suppose Something Should Happen===

Lives are always snuffed out when least expected. A series of calamities could happen to you, whereby your family would be left out in the cold with no home, no money, no loved ones to care!

Picture your wife left alone in the world with the care of the little ones on her hands. Picture things going from bad to worse—sometimes they do; it never rains but what it pours, you know. See her sick, hungry and cold in a hovel in a room, from which poor shelter she may even be ejected because the rent cannot be paid. See your little ones, helpless, hungry and ragged, as she kneels beside the bed and wonders WHY NOBODY SEEMS TO CARE ABOUT HER PRAYERS!

You think it couldn't happen? It COULD! It has happened time and time again. Suppose—Nobody cared for these unfortunate souls—

ANSWER THE RED CROSS ROLL CALL.

THE WEST TEXAS STATE NORMAL COLLEGE

The Students' Council in the West Texas State Normal College, according to President J. A. Hill, is a very important body. The purpose of the Council is to serve as a medium between the administrative authorities and the student body. Its work is chiefly advisory and recommendatory, and is supposed to embody the best ideals of the Institution. No College president knows all about all the problems that arise in the administration of the school.

The Council meets with the authorities in regular session once each month to discuss the general welfare of the Institution. The meeting is held the last Tuesday in each month. In the Council is one representative from each class, one from each literary society, one from the Y. M. C. A., and one from the Y. W. C. A.

The following students have been elected for the Students' Council for this year: Harper Allen of Canyon, Senior Class, and President of the Council; Frank Farmer of Floydada, Freshman representative, and Vice-president of the Council; Pearl Clements of Lubbock, Sophomore representative, and secretary of the Council; Alvis Lynch of Grove, Texas, Junior representative; Lee Gibbs of Walters, Oklahoma, Cousins Literary Society representative; Hubert Hamill of Canyon temporary representative of the Antlers Literary Society; Gideon Tyler of Clyde, Texas, temporary representative of the Second Year Normal Class; Anna Williams of Snyder, representative of Sesame Literary Society; Mary Hicks of Hereford, representative of Eaphlelan Literary Society; Park Lewis of Canyon, temporary representative of the First Year Normal Class; the Y. M. and Y. W. C. A. have not elected their representatives.

Hallowe'en Frolic At Cousins Hall Draws Many Boys

On Saturday evening, October 28, at 8 o'clock, the Cousins Hall girls entertained the boys of the College with a Hallowe'en party. The reception hall was beautifully and appropriately decorated in gold and black; white witches and ghosts lurked in the corners, and black cats prowled about.

The guests were met at the door by ghosts who ushered them to the boiling cauldron. There from the mixture of snake teeth, lizard's legs, frog's toes, flivver wheels, bat's wool and negroes' lips, the guest drew the name of the girl with whom his fortune was to be told. Amid the clang of chains, he heard encouraging words: "Thrice the brindle cat hath mewed, Thrice your mother-in-law hath wooed."

Misses Anderson, Witt, White, and Jackson, straight from Gypsyland, foretold glad romances for many moons to come.

During the grand march, played by Miss Brigham, the guests with their chosen ones marched gaily, entirely too much so, around the reception hall; for in the excitement the door was left unguarded. The lights went out, and a skeleton was standing in the doorway. It was finally coaxed to vanish into the mist from which it came, and the laughter went on, while the various games were played. Some of the more fortunate made aeroplane as (de) censions.

We were honored by a dramatic play in three acts given by the well known Onionate Company from the Land of Onionana. The footlights, curtains, and shiftable scenery all had their places. We rejoiced with Count and Countess Van Garlic in the marriage of their daughter, Lady Odeiferous Van Garlic to Lord Bernuda Onion, after the tragic murder of Mr. Rotton Onion by his rival, the Lord Bernuda Onion. Though remarkable in acting, this company was limited in vocabulary, their only words in English being "Onions for breakfast," however, they learned this before coming to Cousins Hall.

Next we were grouped according to the month in which we were born. The spook had not scared the "Buffalo pep" away, as was shown by yells given by these "months." Each group formed a family circle according to the days in which its members were born; the last of the month being the grandfather and grandmother, etc. down to the baby. Each family gave an original program before being served. Such numbers as these were given. Music by the McNutt Silent Orchestra, just from Paris, "The Old Family Toothbrush," "Twinkle, Twinkle, Little Star," backwards and forwards (to the audience); Mrs. Hill, the March baby, very beautifully recited "Mary Had a Little Lamb."

Delicious refreshments were served after which the winking of lights, and the gathering of the spirits, warned us that it was time to be departing. Cold hands and warm hearts, Sighing because we had to part; Spirits, guiding us on our way, We knew the hours waned for play.

Two motor truck loads of human bones, the remains of several hundred early settlers of New York, were unceremoniously dumped into the ocean recently in New York City from a rubbish scow, according to a news dispatch from that city. Workmen dug up an ancient churchyard with old brownstone tombstones containing names and dates, the latest of which was 1820. Records indicate the old graveyard was undoubtedly connected with two prominent Manhattan churches of the early nineteenth century, and no doubt contained the bodies of heroes of the American revolution and the War of 1812.

A road, a quarter of a mile long laid down in the shape of a race track at Pittsburg, California, is constructed of 13 sections, each section of a different type of concrete pavement. Forty motor trucks travel continuously over its surface. The problem is to find out which type will last the longest. It is hoped that the information obtained will more than offset the cost of the experiment.

PAVING BENEFITS COLLEGE

The Panhandle Construction Company laid the last brick on the square last Wednesday, and immediately turned to the other contract, which calls for ten blocks of paving, from the highway to the railway station. The curbing for this work will be put in at once. Actual laying of the brick will proceed as fast as the material can be shipped from the factory. This paving will be laid on natural foundation, with only a coating of sand for the base. According to the contractor and city officials, this type of construction cannot be excelled for strength and durability.

Canyon people are to be congratulated that their long-standing desire to pave from the Normal to the station is being realized. The value to the Normal College is great.

President Hill is going to ask for an appropriation of \$6,000 to help pave from the highway on Houston Street to the east end of the campus. If this paving is secured, Canyon will have approximately eighteen blocks of hard-surfaced streets. This improvement, together with a number of new sidewalks will not only make Canyon a more attractive city, but will add greatly to the convenience of the students—The Prairie.

DEBATERS ACTIVE IN PREPARATION FOR CONTESTS

STRONG TEAM ASSURED—MANY EXPERIENCED MEN

Thirty-four young men have responded to the call issued by the Faculty Committee on Debates. Of this number, Robert Hill, Virgil Dodson, Chase Condry, and Grady Hazlewood have represented W. T. S. N. C. in former years. P. M. Bailey comes from the East Texas State Normal College. He debated against one of our teams in 1919. Literary Society men predominate. Students will recall that George Terry and Hayden Goodnight were in the Inter-Society contest last spring. Herschel Coffee, a local boy, is perhaps best known of the High School debaters.

Grady Hazlewood is the veteran of the crowd, having made a Normal College team three different years. Virgil Dodson has represented the Normal College twice, and Chase Condry and Robert Hill one time each. The debaters who expect to try-out are: Eugene Devereux, George Terry, Gordon R. McCarty, Carl Kemp, Hubert Hamill, Herschel Coffee, Mitchell Jones, Ira V. Younger, N. L. Sharpe, C. Gambrell Rankin, Gideon Tyler, Roy Muncy, Chase Condry, Robert G. Hill, Robert S. Adams, Ferman Sawyer, J. Louis Pinkerton, G. Lee Gibbs, P. M. Bailey, Virgil Dodson, J. Alvis Lynch, Jeff D. Smith, E. L. Strickel, A. D. Cummings, Hayden Goodnight, Samuel A. Adams, W. Grady Hazlewood, I. R. Witt, Isham Goin, Frank Farmer, Boone Horne, M. H. Rankin, J. L. McCarty, Theodore Hughlett.

The East Texas State Normal College of Commerce manages the Inter-Normal debates this year. Each college selects and submits five questions for debate. Our debaters will submit the following questions.

1. Resolved, That Texas should establish a State Tax Board for the equalization of property taxes.
2. Resolved, That Congress should create a Department of Education and make the head of such department a member of the President's Cabinet.
3. Resolved, That co-operative marketing is the better means to solve the economic problems that are peculiar to the desperate fluctuations in the prices of farm products.
4. Resolved, That Texas should impose a state income tax.
5. Resolved, That Attorney General Daugherty acted in the best interest of the United States when he interfered with the railroad strike.

The Secretary at Commerce will return the best subjects to the various faculty committees, and their votes determine the question. It will probably be two weeks before the questions can be announced. The try-outs are usually held near the opening of the winter quarter.

One of our teams will meet the East Texas State Normal College at Commerce, and the other will oppose Sam Houston Normal Institute here. These debates will take place on the evening of Friday, April 13, 1923.

Another team will debate with Oklahoma Teachers' College here sometime during the spring quarter. This will be the second debate of a three year contract.

As President Hill announced recently in chapel, our debaters will be rewarded in a manner similar to that of W. T. S. N. C. athletic representatives. The details of the awards will be worked out by the Committee on Debates.

The Literary Societies will clash during commencement week over the loving cups. In addition to the five debates just mentioned, others are in prospect. It is probable that the Cousins and Antlers will challenge the Literary Societies of some senior college. In by-gone days, W. T. S. N. C. has made a great record in debate, but this year promises to see the greatest array of teams yet developed.

GEORGE RITCHEE MAKING GOOD AT STATE UNIVERSITY

George Ritchie, a former student of the West Texas State Normal College and a nephew of Miss Jennie C. Ritchie, is a member of the student editorial staff of the "Texas Law Review," a new legal publication being started for the benefit of the Texas bar and bench.

George was a student of this institution for several years prior to his entering the University of Texas Law School in the fall of 1921. His many friends here wish him success in his new office.

Memorial Fund Association Elects New Officers

At a meeting of the Gregg Cousins Memorial Loan Fund Association recently, officers were elected and plans were made for the ensuing year. President J. A. Hill acts as Ex-officio President of the Association. Mr. D. A. Shirley was elected Vice-president, Mr. L. G. Allen, Treasurer, and Miss Margaret Boulware, Secretary.

The new board of directors consists of Mr. H. W. Morelock, Miss Jennie C. Ritchie, Mr. W. R. Clark, Miss Anna I. Hibbets, and Mr. R. P. Jarrett. The Chairman of the Board has not yet been selected.

Since the fund was established by the Faculty in 1911, about one hundred and twenty-five students have been loaned money and thereby enabled to attend college. The Loan Fund is very much in need of more funds, and a small donation will go a long way in helping young people to go to school in the future.

COYOTES ADDED TO HISTORICAL SOCIETY COLLECTION

Two coyotes donated by Miss Ivy Cary, a former student, and mounted by Mr. L. E. Simms have been added to the rapidly increasing collection of the Panhandle-Plains Historical Society. The coyotes are now on exhibition in the College library. Mr. Simms is official taxidermist for the Society.

WORLD FELLOWSHIP COMMITTEES GIVE PROGRAM

Last Sunday afternoon, October 29, the World Fellowship Committees of the Y. W. C. A. and Y. M. C. A. rendered a program at the Pleasant View school six miles out of town. About thirty people, including the group giving the program, were present.

PANHANDLE LOSES TO NORMAL CALVES

The Normal High School Calves defeated the Panhandle High School on the local field Saturday by a score of 26 to 19, in a game in which the visitors threatened to come from behind and win.

The Calves made their scoring on fakes and passes, while Panhandle came through for 3 touchdowns in the second half on forward passes.

The Yearlings were scheduled to play at Vega, but the game was called off on account of the rain.

Students Elect "Le Mirage" Staff

Eugene Devereux was elected Editor-in-Chief of the Annual last Saturday. He will be assisted by a competent staff composed of the following students:

- Associate Editor.....Lucy Goodwine
- Literary Editor.....Mrs. J. J. Powell
- Society Editor.....Hazel McQueen
- Joke Editor.....Bill Falls

The athletic representative will be chosen by the athletic departments and the art department will select an art editor.

Pennant number three received the sanction of the students. It received 220 votes. Three hundred and seventy students voted in the election. The pennant has a narrow white border, white letters (W. T. S. N. C.), and a white Buffalo upon a ground of maroon.

TRACTOR DEMONSTRATION TO BE HELD AT COLLEGE, NOV. 14

As stated by Professor Frank R. Phillips, the Agricultural Department of the Normal College, will co-operate with the International Harvester Company of Chicago in holding a tractor demonstration here Saturday, the eleventh of November. The demonstration will be held on the Normal College Farm, and will last all day. The forenoon will be devoted to plowing and "Culti-packing," while the afternoon will be devoted to lecture work.

The regular tractor school will convene some time in February. Several makes of machines will be included then.

College Library to Observe Children's Book Week Soon

The fourth annual "Children's Book Week" will be held November 12th to 18th, 1922. Public libraries, bookstores, mothers' clubs, parent-teachers' associations, the schools, churches, scout organizations, and other organizations concerned with children, each year take the opportunity of this Week to emphasize the importance of books for boys and girls. Exhibits of books to buy for children, discussion of the books' children really like to read, distribution of lists of books for young people, consideration of authors and illustrators who are devoting their talents to children's books—these are some of the features of the Week in various communities.

Each year over a million children come to reading age. "What books shall we buy for our children?" is a question every parent should endeavor to solve conscientiously. The schools teach the children to read, the public libraries give opportunity to boys and girls for forming the habit of reading and for developing good taste in books. A growing appreciation of the importance of children's reading is marked by the bookstores and the book publishers of the country are leading the world in the production of interesting and beautiful books for boys and girls. The books that actually go into the forming of a child's home library are the ones that form his growing taste. His ability to use books for information and for pleasure when he is grown older, depends on his acquiring the reading habit when he is a child.

The local College Library is planning to observe "Children's Book Week." An interesting program illustrating books is promised, and expert advice will be given on the selection of books for Christmas. The "Week" is to be observed in the Children's room of the College Library. All those interested will please watch for posters advertising the date and program of the same.

President Farm Bureau Addresses Aggie Students

Mr. A. B. Haynes, president of the Randall County Farm Bureau, addressed the agricultural students at the West Texas State Normal College Saturday morning. Mr. Haynes won the sympathy of the boys at once by telling them how he had "milked his way" through college. He told the members of the department the value of the Farm Bureau and cited the advantages farmers have secured by belonging to the association. He especially stressed the fact that the association was now on a business basis and was not for the purpose of putting up local stores to compete with retail merchants.

Mr. Haynes told the class that he was interested in cow testing associations and trusted that members of the class would be able to do some work with the dairymen in this

No more Rheumatism

"Suffering has gone from your face, mother!"

S. S. S. is the Great Builder of Red-Blood-Cells and Rheumatism Must Go! Just Try It!

"Rheumatism? Me? No, indeed, it's all gone, every bit of it! It's sunshine and joy for me now for the first time in years. I feel a wonderful glow again in the free motion I used to have when my days were younger. I look at my hands and think of the twists and swellings they used to have. I bend way over to the floor. I haven't been able to do that in many years. I can thank S. S. S. for it all! To me it was a rising sun of joy and liberty. Brothers and sisters in misery, do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. It is here and now for all of you. S. S. S. is waiting to help you! There is a reason why S. S. S. will help you. When you increase the number of your red-blood cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them. S. S. S. is the great blood-cleanser, blood-builder, system strengthener, nerve invigorator. It stops skin eruptions, too, pimples, black-heads, acne, boils, eczema. It builds up run-down, tired men and women, beautiful complexions, makes the flesh firmer. Start S. S. S. today. It is sold at all drug stores in two sizes. section of the country. He gave one illustration of the value of this work. A man had two cows, one of which, before the year's test, he considered to be worth twenty-five dollars more than the second. However, at the end of the twelve month period, he found the records to show that the second cow was worth from twenty-five to fifty dollars more than the first.

Professor Phillips states that it is the policy of the agriculture department to invite leading farmers to address the classes, by this means keeping the boys in touch with the best farm practices in the Panhandle.

HISTORY-ENGLISH CLUB HOLDS FIRST MEETING

The History and English Clubs have combined for the purpose of working together this year. The first meeting was held Tuesday, October 31, for the purpose of electing officers and making plans for the year's work. The officers elected for the first quarter were: Mrs. J. J. Powell, President; Noah L. Sharp, Vice-president; Leah Amend, Secretary; Carl Kemp, Prairie Representative.

The Club decided to study the historical plays of Shakespeare. The following were chosen: "Richard III,"

"Henry IV," "Henry V," and "Henry VIII." The history students will give the historical background for these dramas.

Will Texas Provide Adequate Support for Public Schools?

All Texas provide adequate support for public schools," Dr. H. T. Selman, whom Governor Neff sent to California to study the support of schools there, answered; "Yes, when the state gives Texas an education status in California they think of educational needs in fight relations. In California they think every child and youth should have an American education, and have it first. So there are months of schooling for every child, and high schools within reach of all boys and girls. In Texas we have a six month term for all, and there are some six hundred thousand boys and girls without an opportunity to get a high school education. In California they believe the children should have as good teachers as those who go to college. Ninety per cent of the teachers in her public schools have had training to teach. In Texas nearly forty per cent of those teaching rural schools have had no training at all and hold second grade certificates. In California they believe the children should have good books to read and use in school. So there is a county library from which books are obtained for all. In Texas there are thousands of rural schools that have nothing like a real collection of books for the use of the children. How did California come to provide the support for such an adequate school system? For a number of years California has been blessed with educational statesmanship. This support was not provided because the California loved his children better than the Texan. Nor was it because the California loved a square deal for all children of all the people more than the Texan. There is just as much for children and just as much reason for a square deal in Texas as there is in California.

All Texas needs to get her to provide an adequate support for the public schools is enlightenment as to her school needs and the sources from which support may be justly obtained. This means wise national leadership. I repeat; all Texas needs is an educational status, a Jim Hogg, if you please, laboring with heart and brain for justice to Texas children. And a bit of prayer for such a leader is eminently in order."

CHILDREN'S BOOK WEEK AT THE COLLEGE LIBRARY

The outstanding feature of the King's migration policy of Canada is the selection of immigration to agricultural areas, to encourage, first of all, the migration of boys and girls in their parents from the British Isles, and to cooperate with provincial governments of the Canadian Colonization Association.

When a child is absent from school in the Virgin Islands, without a proper excuse, the parents are fined 20 cents for each day's absence. They are fined 10 cents every time a pupil is tardy.

Coal is plentiful in Showbegan, Texas. This town established a municipal fuel yard several years ago, and at the end of each season a surplus of 500 or 1,000 tons of coal is purchased to guard against strikes or other emergencies. Consequently, there is plenty of coal to supply the needs of every household.

It is a happy man who can laugh at himself as heartily as at others.

FACT AND COMMENT

Anger drives away the peace of men; laughter brings it back again. It often happens that ignorance makes a man bold and arrogant, and that knowledge makes him self-distrustful and modest.

The European depression has cut down Chile's market for nitrates by a million tons, so that a great supply has accumulated at various Chilean warehouses. As the United States is the most promising customer for the stock on hand, nitrate fertilizers here should be cheaper.

Only two ships got out of Smyrna with cargoes of this year's figs for America. The fire on the water front left nothing except the cinders of the packed figs that were ready for shipment, and the Greeks are reported to have destroyed many orchards to prevent them from falling into the hands of the Turks.

The age-old custom of the Japanese of sitting down on their folded legs on a cushion or mattress is going out of fashion. All the schools are using chairs and benches of the Western style. Public gathering places now have benches, even the Buddhist temples, and in many families chairs and tables are in regular use.

In Armenia this year two thousand acres that were plowed by twenty-two American tractors produced twenty bushels of barley to the acre against ten bushels to the acre on land cultivated by native methods. American tractor-drawn plows cut furrows ten inches deep. The native plow, which is that of Bible days, only scratches the surface.

Of the five hundred and thirty men and one woman who are members of Congress more than three hundred are lawyers. Twenty-four are engaged in some sort of farming; there are twenty editors and publishers, nineteen bankers and the same number of manufacturers. No other occupation has so many as ten representatives.

Ear specialists may soon prescribe for deafness with the same ease with which oculists determine the type of glasses for the eyes. An apparatus has been designed to show the definite mechanical limits of the ear; that is, its ability to react to the range of frequency and intensity of sound. With that information it will be possible to construct appliances suited to the needs of the individual patient.

A man who lives only seventeen miles from New York City says that predatory wild animals have made it impossible for him to raise poultry. Among those that killed his chickens were foxes, raccoons, skunks, opossums, red squirrels, minks, weasels, rats, hawks, crows, snapping turtles and black snakes. Of one hundred and forty chickens and ducks that were hatched not one managed to get more than half grown.

The new French radio station at Saint Assise, which has a capacity of a million words a day, is thirty-five times as powerful as the Eiffel Tower station. It has already established direct communication with Argentina and China, and when it is completely equipped it will send with sharp definition to the remotest parts of Alaska. The French constructors believe that the system they used is far in advance of anything in the United States or in Germany.

The Izaak Walton League has inaugurated in Chicago a monthly periodical supported by contributions from scores of Izaak Walton chapters. No one connected with the publication receives pay and a half-dozen famous novelists are contributors. It is devoted to the preservation of angling, hunting and other outdoor sports.

SHERIFF'S SALE

THE STATE OF TEXAS, County of Randall. By virtue of a certain Order of Sale issued out of the Honorable District Court of Randall County on the 8th day of November, 1922, by O. W. Gano, Clerk of said Court, against C. L. Gordon-Cumming for the sum of Two Thousand Nine Hundred Thirty Eight & 99-100 (\$2388.99) Dollars, less a credit of \$600.00 having been paid on said judgment, leaving a balance of Two Thousand Two Hundred Seventy-eight and 99-100 Dollars due on judgment and costs of suit, in cause No. 952 in said Court, styled First State Bank of Canyon, Texas, versus C. L. Gordon-Cumming and placed in my hands for service, I, W. C. Black as Sheriff of Randall County, Texas, did, on the 8th day of November, 1922, levy on certain Real Estate, situated in Randall County, described as follows, to-wit:

370 acres of land out of Section No. Fifty-eight (58), in Block No. B-5, Certificate No. 15-3568 issued to the Houston & Great Northern Railroad Company, and described by meets and bounds as follows: Beginning at the North-west corner of said Section No. 58 and the North-east corner of Section No. 57, same block; Thence East 583.75 Varas to a point in the North line of said Section 58; Thence South 950 Varas to a point; Thence East 1306.25 Varas to a point in the east line of said Section No. 58; Thence South 950 Varas to the South East Corner of Sec. 58; Thence West 966.52 Varas to a point in the South Line of said Section 58, same being the South-east corner of a 50 acre tract sold by C. L. Gordon-Cumming to Henry Bradford on April 17th, 1917; Thence North 4-0 36' E. 297 Varas to a pile of stone; the North-east corner of said Bradford 50 acre tract;

Thence West 962.28 Varas to a pile of Stone in the west boundary line of said Section No. 58, same being the North-west corner of said Bradford 50 acre tract; Thence North with the West line of said section No. 58, 1803 Varas to the place of beginning.

And levied upon as the property of said C. L. Gordon-Cumming, and on Tuesday, the 5th day of December, 1922, at the Court House door of Randall County, in the town of Canyon, Texas, between the hours of ten A. M. and four P. M., I will sell said Real Estate at public vendue, for cash, to the highest bidder, as the property of said C. L. Gordon-Cumming by virtue of said levy and said Order of Sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Randall County News, a newspaper published in Randall County.

Witness my hand, this 8th day of November, 1922.

W. C. BLACK, Sheriff, Randall County, Texas.

Premier Lloyd George will receive 50,000 pounds for his memoirs.

INCOME AND CREDIT

The farmer who has regular cream checks to cash, a well-stocked hog shed, a big flock of chickens, and several crops to fall back on in case one crop should fail—this man gets credit when he needs it.

More sources of income mean a steadier income—and a steadier income makes a better credit risk. The First National Bank has helped many Randall County farmers increase their income through diversified farming. We'll be glad to help you too!
