

RANDALL COUNTY NEWS

VOLUME XXVI

CANYON, RANDALL COUNTY, TEXAS, THURSDAY, NOVEMBER 30, 1922.

NUMBER 35.

RANGERS OF OKLA. BEAT BUFFALOES AT AMARILLO FRI.

GAME PLAYED IN SNOW AND RAIN—VERY SLOW FIELD

Rangers Play Well Known Football Star Under Assumed Name—Score Was 13 to 7.

The Buffaloes were defeated in the game at Amarillo Friday by the Ranger team from Northwestern Oklahoma Normal, Alva, Okla., the score being 13 to 7. The field was wet and slippery, with snow and rain during part of the playing period. Oklahoma played Bonnie Stewart, a well known Oklahoma college football star, under an assumed name. Coach Burton recognized the player before the end of the game.

The attendance at the game was light, consisting largely of Canyon people who had gone to Amarillo to see the game.

The Buffaloes sustained a severe loss when Leslie Key received a fractured leg in the second quarter. Key has been one of the fastest men on the team this season.

First Quarter

Graves of Canyon kicked off. Alva received the ball and made two first downs on line plunging. After being held Alva passed on the fourth down, A. Baker to R. Surface, for the first down. Again the Rangers made the first down on the fourth attempt, but this time by R. Surface bucking the line. The play put the ball on the Buffaloes 16 yard line. Thompson went in for Saunders at center for Canyon.

Baker lacked a foot of making first down on bucking the line. R. Surface went across for four yards. It was four yards to a touchdown. A Baker lost 5 and 6 yards respectively. Two passes failed and Canyon took the ball on her 16 yard line.

Canyon bucked the line for a first down. Alva was penalized 5 yards and Canyon won first down again. R. Bivins and Stewart made 17 yards on a pass. Canyon plunged through for first downs. R. Bivins passed to Henry for a gain of 10 yards. Canyon was then held on the fourth down in attempting to pass. Alva took the ball on her own 20 yard line. With another play, the first quarter ended with the ball in Alva's possession on her own 23 yard line. The score was 0 to 0.

Second Quarter

Not a punt was made in the first quarter. Alva was held and A. Baker punted to her own 49 yard line. Canyon was held and Burson punted to the 20 yard line. On the first play R. Surface dropped back to the 10 yard line and passed to W. Surface who went the entire distance for a touchdown, making a net gain of 80 yards. Bennett kicked low for goal, leaving the score 6 to 0.

R. Surface kicked. Canyon received and made four successive first downs through bucking the line. These first downs put the ball on Alva's 13 yard line. Canyon lost 5 yards. Alva was off-side for 5 yards. Surface intercepted a pass on this play and rushed across the field for a touchdown, but was called back. Bivins made 5 yards on two plays. Graves passed to Mitchell behind the goal for a touchdown. Stewart kicked goal, making the score 7 to 6 for the Buffaloes.

Graves kicked off and C. Baker returned to the 32 yard line. R. Surface made 20 yards. Alva was held and A. Baker punted. Graves fumbled and Scherer of Alva recovered on Canyon's 24 yard line. R. Surface made 5 yards. Bennett passed to 4 Baker for 19 yards and a second touchdown. A. Baker kicked goal, making the score 13 to 7 for Alva. That play ended the first half.

Third Quarter

Graves kicked off and Circle put the ball on the 35 yard line. Whitacre of Canyon intercepted a pass on the 33 yard line. It looked like the Buffaloes would break up the Alva teamwork for a few moments thereafter. Canyon made a first down, putting the ball on the 17 yard line. The Buffaloes were then held two times, and two passes failed. Alva taking the ball on her own 20 yard line. A. Baker punted to the middle of the field.

Canyon came back with a first down, but Key was knocked out. D. Bivins went in at right half. Crowell intercepted a pass. R. Surface and A. Baker made 25 yards on a pass and run.

NEWS PUBLISHED WEDNESDAY
On account of Thanksgiving, the News is published this week on Wednesday. Practically all of the business houses of Canyon are closed for Thanksgiving day.

Bennett and Sprague gained 4 yards on a short pass. R. Surface and A. Baker made 7 yards on a pass, putting the ball on the 9 yard line of Canyon. R. Surface made 3 yards. A. Baker a yard and R. Surface a yard. With a yard to go, R. Surface took the ball. He carried the ball and piled on a group of players. Although his head went over the line, the officials said that the ball did not go over. Canyon took the ball just one foot from her goal line.

Burson made one of the longest punts ever seen on Bivins Play Ground, the ball going out of bounds on Alva's 42 yard line. The net gain on the punt was 58 yards. R. Surface and Sprague gained 10 yards on a pass. Alva was held on the 40 yard line. R. Bivins and Henry made 21 yards on a pass. Canbucked the line for first down. Andrews went in for Green. Burson made first down on three plunges. D. Bivins made 2 yards and the quarter ended with the ball on Alva's 16 yard line in possession of the Buffaloes.

Fourth Quarter

Canyon was held on two downs. R. Surface then intercepted a pass on his own 6 yard line. It was expected that Alva would punt. Instead a fake play was made and A. Baker made 28 yards around left end. A. Baker and R. Surface made 10 yards on a pass. A. Baker punted and Canyon took the ball on her own 9 yard line. Burson punted to the middle of the field. Alva failed to make her first down on the passing game. Canyon took the ball on her own 32 yard line and Burson punted.

Baker and Bennett made 7 yards on a short pass and run. Saunders for Canyon intercepted a ball. Sprague then intercepted a pass. Bennett and Sprague passed for a gain of 8 yards. R. Surface and Scherer gained 15 yards on a pass. Baker and Sprague passed for 5 yards. R. Surface and W. Surface passed for 9 yards. It was 9 yards to a goal. Halley went in for Graves. Alva passes failed and Canyon took the ball on the 20 yard line. Canyon was penalized for sending in a substitute who talked.

Crowell intercepted a pass and put the ball on Alva's 14 yard line. Alva failed to make a pass back of the goal line and Canyon took the ball on the 20 yard line again. The Bivins completed a pass for 9 yards. Canyon lost the ball and Alva took it on the 30 yard line. Bennett and Sprague passed for 6 yards. Surface gained 5 yards through the line. The game was up with the ball in possession of Alva on the 14 yard line.

Canyon High School Will Close Season on Sat. with Clarendon

The high school football game with Clarendon high school has been postponed until Saturday afternoon of this week.

The game was scheduled for Thanksgiving, but owing to the Buffalo-Bull-dog battle in Clarendon, and the Amarillo-Abilene game in Amarillo, it was thought advisable to postpone the high school game until Saturday.

The Canyon and Clarendon teams will put up the best high school game played in Canyon this year. The teams are about evenly matched, and it will be a game worth seeing. The high school boys will appreciate very much a large patronage in the closing game of the year.

BUY CHRISTMAS CARDS.

This is going to be Christmas Card year, and more Christmas cards will be sent than ever before.

The News has a great variety of cards from which to make your selection, but it is urged that selections be made early, as people waiting until the last minute to select cards are often disappointed.

TO STATE TEACHERS MEETING

President J. A. Hill left Monday evening for Austin and will go on to the State Teachers Association meeting to open today in Houston.

Dean L. G. Allen, Miss Haines and Miss Ritchie left today for the meeting in Houston.

BUILDING NEW HOME.

A. G. Nickelson is building a new home in the northeast part of town.

METHODISTS WILL BUILD CHURCH IN CITY NEXT SPRING

CAMPAIGN WILL START FRIDAY, DECEMBER 8th

Local Church Expected to Raise \$30,000.00 in Order to Receive Gift Amounting to \$30,000.00.

The Methodist Church of Canyon is going to put on a church building campaign, with the definite idea of erecting a \$60,000 church, working commencing early in the spring.

Dr. Ellis of the Church Extension Board was in Canyon recently to look into the needs of the local church, and its problem of taking care of the large student body. There are now enrolled in the Normal 250 Methodist students. Dr. Ellis made no promise of a gift to the church, but his talks left the impression that his board would make a gift of \$30,000 to the local church, in the event the local church raised \$30,000.

The first quarterly conference of the year will be held at the local church next Sunday, and at that time a building committee will be appointed and a campaign set on December 8th to pledge \$30,000 to match the money expected from the Church Extension.

Rev. M. M. Beavers has been working on the church building program since becoming pastor of the local Methodist church. Several meetings have been held, and various plans discussed. All in touch with the situation feel confident that the church building will become a reality, as Canyon people always put over the program they undertake.

Golf Grounds Will be Improved for Playing During Winter Months

At the meeting of the Canyon Golf Club Monday evening, it was decided to start work improving the greens on the local course in order to allow of good winter playing.

The Canyon golf course is one of the best in West Texas and has been kept in very good condition throughout the year. Some of the greens have gotten in poor condition this fall, and these will now be thoroughly worked over.

Winter is the best golf season on the Plains, and the Canyon Golf Club is expecting some good playing after the improvements are made.

MRS. GARNER DIED THURSDAY.

Mrs. M. A. Garner died Thursday morning at the Amarillo sanitarium after an illness of several weeks.

Mrs. Garner was taken to Amarillo on the Saturday previous, and it was realized at that time she had little chance of recovery. Her son, Oliver Scott, of Duncan, Okla., was with her during the last week of her life.

Mr. Garner passed away eight months ago. He and Mrs. Garner had been married eight years, both having previously married.

The funeral services were held at the Methodist church Saturday afternoon at two o'clock, conducted by Rev. M. M. Beavers.

Mrs. Garner was well known and highly respected in Canyon, and in her death the community lost a good citizen.

The body was laid to rest in Bremland cemetery by the side of Mr. Garner. Marvin and Flake Garner of Plainview were here for the funeral.

STORK SPECIALS.

A son was born to Mr. and Mrs. Olley Weaver Nov. 1st.

A daughter was born to Mr. and Mrs. Horace Z. McDaniel Nov. 5th.

A son was born to Mr. and Mrs. Jesse C. Weaver Nov. 13th.

THANKSGIVING SERVICES WILL BE HELD THURSDAY MORNING AT THE BAPTIST CHURCH, REV. BEAVERS TO PREACH

Thanksgiving Services will be held at the Baptist church Thursday morning at 10:00 o'clock. Rev. M. M. Beavers of the Methodist church was invited by the Baptist congregation to preach the Thanksgiving sermon. All of the people of Canyon are invited to join in the Thanksgiving service at this hour.

ELECTION ON SCHOOL BONDS BEING HELD WEDNESDAY—LARGE VOTE IS EXPECTED BEFORE THE POLLS CLOSE

The election on the proposition of issuing \$100,000 in bonds to build a new high school building in Canyon is being held at the court house Wednesday.

The total vote cast up until the hour of going to press at 9:30, was 25.

The polls will be opened this evening until the usual hour, and all tax payers are urged to go to the polls and vote upon the bond issue.

Many Canyon People Go to Clarendon With Buffalo Football Team

A large number of Canyon people are planning to go to Clarendon Thursday to see the Buffaloes in the final game of the season against the Clarendon College Bulldogs.

If the weather is good, a large number of rooters will drive over Thursday morning.

Coach Burton reported before the team left yesterday that the men were in good condition and anxious for the game. Leslie Key had his leg fractured in Friday's game with the Rangers, and Golden had to leave last week to teach school. Santy has been out of the line up the last two games, but may be able to play Thanksgiving. Sanders has been out in practically all of the last four games, but hopes to be in condition to play at Clarendon.

Joe Lancaster and Clyde Whitacre are again in the Buffalo line-up and these two men add greatly to the strength of the team. Lancaster has been out of the game since the first of the season with a fractured collarbone, but is now able to play. Whitacre has not played in the last three games.

Electric Rates Are Reduced by Canyon Light & Power Co.

Manager A. J. Arnold of the Canyon Light and Power Company is mailing notices this week giving a reduction of electric service to pre-war prices, when bills are paid by the 10th of the month.

Operating expenses have not decreased sufficient to allow such a great reduction at this time, but Mr. Arnold is carrying out the policy he adopted when he bought the plant, giving the people of Canyon the very best possible service at the very lowest price.

LIVESTOCK JUDGING CUPS

The two cups offered by Mr. C. O. Kelsor for the best Vocational Agriculture Stock Judging Team and for the best County Agricultural Stock Judging Team in the Panhandle of Texas have arrived. These cups are fifteen inches high and are said by those who have seen them to be two of the handsomest prizes of this type ever to have been offered in West Texas.

According to Prof. F. R. Phillips of the Department of Agriculture, the first cup will be retained by the Lubbock High School until the third week in February, when it will be returned to the Normal College and given to the school whose team wins first place in the Panhandle District Contest which will be held at that time.

The Lubbock team which was coached by Mr. R. C. Mowrey won first place in the 1922 contest. The second cup will be retained to the Canyon Club boys until the district contest next June. This team was coached by County Agent, C. F. Walker. The first team which wins one of the cups three times will be permitted to keep the cup permanently.

Red Cross Election to be Held Saturday, at Jarrett Drug Company

The annual election of the executive committee of the Randall County Red Cross Chapter will be held at the Jarrett Drug store Saturday of this week.

A list of names was printed in the News last week and it was suggested that others be added by those interested. No names have been added to the list, and it will be printed Friday as follows, unless names are phoned to Captain H. C. Gamble or to the News office:

Mrs. Harvey Cash, Mrs. T. V. Reeves, Dr. S. L. Ingham, R. A. Terrill, C. H. Jarrett, Grady Oldham, A. J. Arnold, C. D. Lester, Ray Campbell, C. W. Warwick, Dr. D. M. Stewart, W. C. Black, C. F. Walker, C. L. Thompson, W. W. Kuehn, O. N. Gamble.

Abilene High School Under E. Shotwell is Spending Day Here

The Abilene high school football team will arrive in the city Wednesday morning and spend the afternoon in Canyon, working out in the afternoon on the Normal grounds. The team is coached by Elmer Shotwell, one of Canyon's most distinguished athletes.

The Abilene high school and the Amarillo high school will play in Amarillo Thursday afternoon. Amarillo has eliminated Pampa and Floydada, and the game Thursday will decide the championship of West Texas. The winner of this game goes into the state championship games.

Good Rains Bringing Up Wheat Crop Over the Entire County

The best rain of the fall fell in Randall county Thursday night and Friday morning. There was been better than an inch of moisture in the past week.

Wheat in all parts of the county has started to grow, and the fields will be green within a few days. Wheat men state that this moisture will hold the wheat for a month or six weeks, and a good snow is expected by that time.

DEEDS FILED LAST WEEK IN COUNTY

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office:

Burt Newlin to T. F. Reid, lots 11 and 12, block 27, Canyon City. Consideration \$1500.

M. L. Caldwell to W. W. Harris, north half section 87, block 2. Consideration \$4000.

D. E. Covington to R. F. Jenkins, lots 5 and 6, block 36, Canyon City. Consideration \$5000.

T. R. R. Atkins to A. G. Nickelson, lot 5, block 17, Canyon City. Consideration \$100.

SHRINERS INITIATE.

About forty Shriners from Canyon were in Amarillo Tuesday attending the initiation of a large class of novices.

H. C. Gamble, G. W. Johnson and Dr. Geo. Ingham were initiated into the Shrine.

COMMISSIONERS BUY TRACTOR.

At the meeting of the commissioners court Saturday a new Holt five-ton Caterpillar tractor was bought, and is being used on the public highways.

CANYON HIGH DEFEATS HEREFORD IN MUD BATTLE

TOUCHDOWN SCORED NEAR END OF GAME BY CANYON.

Field of Mud Makes Plays Almost Impossible, but Forward Pass Wins for the Local Team.

The Canyon high school football team defeated the Hereford high school team Friday afternoon on the Normal grounds by a score of 6 to 0. The field was wet and heavy, and no fast playing was possible under the conditions. Fumbles were frequent, and forward passing was almost impossible, although it was this means that most of the ground was gained by both teams.

The game was fast, in so much that time was called only four times during the game, three times in the last half. At no time did the visitors seriously menace the local's goal, and the local lads had chances to score that would have developed into touchdowns on a dry field.

Canyon received and returned 22 yards to the 42 yard line. No gains were made and a punt was made to the visitors' 35 yard line. No gains were made and a punt placed the ball in Canyon's possession in midfield. Canyon was thrown for a loss on an end run, but made first down on two forward passes. The ball was marched to the Hereford 22 yard line where a forward pass was intercepted, but the visitors' forced to kick to the 50 yard line, and the quarter ended.

The second quarter was a repetition of the first, with the ball being largely in Hereford's territory.

Canyon kicked at the opening of the second half, held the visitors in their own territory and at the close of the quarter had the ball on the Hereford 11 yard line. Hereford held and got possession of the ball. The ball was kicked to safety, and it looked as if the visitors would be able to stay off the Canyon lads, and worked the ball into Canyon territory. On their own 42 yard line Canyon intercepted a forward pass and by a series of passes carried the ball over for the only score of the game.

Hereford received, and failing to gain kicked to the 55 yard line where the game ended.

WORKERS CONVENTION HELD

Seventy-five attended the Workers Convention at the Baptist Church Tuesday, thirty-six of these being from out of town. The meeting was pronounced to be one of the best in the history of this association.

The next meeting goes to Summerfield on December 19th, and Rev. B. F. Fronbarger will be chairman.

CONVENTION TO PLAINVIEW

The Plateau Singing Convention has been assigned to Plainview. Those interested from this county asked that the convention be held in Canyon.

County conventions will be held in Randall County every second month during 1923, commencing with the second Sunday in March.

Mrs. W. B. Hardin was called to Star this week by the illness of her mother, Mrs. W. H. Fowler of Mangum, Okla., who passed away Tuesday.

Ray Sheffy of Dimmitt spent the week end here at the home of his brother, L. F. Sheffy.

J. W. Reid was a caller in Amarillo Friday.

WHAT ABOUT THE COTTON?

The farmers of Randall County have been showing interest in raising cotton next year, but are slow about signing up the number of acres they expect to plant. Cotton raising would not be very satisfactory without a gin. A gin will cost about eight thousand dollars. No one would take the financial risk of a gin unless he was certain that a reasonable acreage of cotton was planted. Good seed may be very scarce before spring, and it ought to be contracted for. Every one who will plant cotton next year should no longer delay about signing up with C. F. Walker as to the acreage he will plant.

When you go into a store to buy
 supplies you don't say, "I want a sack
 of flour" or "give me a cake of soap."
 You call out the name of the flour and
 the name of the soap, because you
 know those names stand for a certain
 type of flour and soap—goods with a
 reputation. Every merchant has a
 firm name or a name for his store, and
 he is proud of that name. Then why
 should not the farmer be proud enough
 of his farm and the products that
 come off of it to give that farm a
 name? With a name to live up to, a
 reputation to maintain, the farmer
 will take a new pride in his place and
 a new interest in his business. Select
 an appropriate name and paint it on
 the barn in nice letters or on a sign-
 board at the gate, so that those who
 pass may see it and know thereby that
 you are progressive and believe in
 the products you have for sale. There
 is no reason why every farm around
 Pampa shouldn't have an appropriate
 name—it's your trademark, and folks
 will soon learn the value of it. Farm-
 ing is only a business after all, and
 a mighty big business in this locality.
 —Pampa News.

The tax assessors of Texas want a
 state tax commission with authority
 to regulate values between counties.
 The full tax rendition law is a joke.
 It never was and never will be en-
 forced. West Texas will continue to
 pay double its just proportion until
 we have some kind of a tax commis-
 sion with authority to regulate values
 between counties, and whose sense of
 justice will really and actually regu-
 late these values as they should be
 regulated. A tax commission which
 will do nothing more than the full ren-
 dition law has done in the past would
 be another Austin joke.

Unless there is a special session of
 congress called after March 4th, those
 congressmen elected Nov. 7, will not
 take their office for thirteen months
 after election, December, 1923. In the
 meanwhile, a lot of lame ducks, defeat-
 ed in the general election, will contin-
 ue to make our laws until March 4th.
 There is a great need of a constitu-
 tional amendment calling for those elect-
 ed to take office within a month or six
 weeks after the general election, and
 prohibiting those who are defeated to
 make our laws. We have been putting
 up with this present method for 130
 years, and certainly it is time to
 change.

Hard work and advertising made

HERETICS

It is an uncomfortable thing to hold
 heretical beliefs even in other matters
 than those of religion. Views on pol-
 itical or economic or educational ques-
 tions at variance with the opinions
 commonly held by a man's friends and
 associates are likely to injure his po-
 sition in the community. If a man is
 regarded as a crank or a fanatic on
 any one subject, his opinions on other
 subjects receive scant consideration.

Yet young men are often tempted to
 profess allegiance to heretical doc-
 trines; they think that they get the at-
 tention of the people, that they are
 original and interesting and stimulat-
 ing; they like to feel that they are as-
 serting their individuality and are
 gloriously defying public opinion. Radi-

ALL WORN OUT

Does morning find you with a lame,
 stiff and aching back? Are you tired
 all the time—find work a burden?
 Have you suspected your kidneys?
 Canyon people endorse Doan's Kidney
 Pills. You can rely on their state-
 ments. Ask your neighbor!

Mrs. Clouch, Canyon, says: "There
 was a dull ache through the small of
 my back and my back was so sore and
 lame I could hardly bend over or do
 my work. When I stooped, a sharp
 stinging pain caught me, making it
 hard for me to straighten. I was worn
 out and could scarcely get around at
 times. I became dizzy and had head-
 aches and my kidneys didn't act right.
 I used Doan's Kidney Pills and three
 boxes cured me entirely."

Price 60c., at all dealers. Don't
 simply ask for a kidney remedy—get
 Doan's Kidney Pills—the same that
 Mrs. Clouch had. Foster-Milburn Co.,

IT'S TOASTED
 one extra process
 which gives a
 delicious flavor

cal utterances in conservative circles
 always make a sensation, and young
 men are often not averse to making a
 sensation. They may be sincere
 enough, but their sincerity of belief is
 not founded on any deep or thorough
 study of the subject. And for the
 young there is attraction in the idea
 of martyrdom, and heresy usually
 brings some degree of martyrdom. To
 feel that they are suffering for a cause
 gives them a pleasure that is greater
 than the pain of suffering.

We would not, of course, intimate
 that the heretic is always wrong. Time
 and again he has been proven right.
 But we think that the heretics who
 have really earned the glory of martyr-
 dom have been those who have studied
 and pondered and without thought of
 self have become convinced, and that
 the person who adopts heresy as a
 means of exploiting his individuality
 should not receive any more serious
 recognition than that of ridicule.
 Many a heretic is merely the boy
 grown up, who always knew better
 than his parents.

A German engineer is using aniline
 dyes to color the wood of growing
 trees. He injects the dye into the
 roots, and the sap carries it through
 the wood. The artificially colored
 lumber will probably have some vogue
 for novelties, and the inventor hopes
 that he can make the wood of common
 trees look like that of the rarer kinds.

LIFE WISDOM

To see the past as it really was is
 one of the most difficult of intellectual
 self-regulation.—Chang Hsin-Hai.

It is not society that needs regula-
 tion: it is the individual who needs
 self-regulation.—Chang Ssin-Hai.

One should endeavor to oppose to
 the aberrations of the hour, the masses
 of universal history.—Goethe.

Genius and learning are more easily
 extinguished than recalled.—Tacitus.

The only positive good is order.—
 Amiel.

The ideal is a poison unless it is
 fused with the real, and the real be-
 comes corrupt without the perfume of
 the ideal.—Amiel.

Self-examination is dangerous if it
 over-passes to self-devotion; reverie is
 hurtful when it stupefies the will; gen-
 tleness is an evil when it lessens
 strength; contemplation is fatal when
 it destroys character.—Amiel.

Every ass that's romantic believes
 he is inspired.—Wolseley.

Madness in great ones must not un-
 watched go.—Hamlet.

Who can write so fast as men run
 mad?—Young.

If you will work, the idle will soon
 envy you as you grow rich.—Hesiod.

Base gain is as bad as ruin.—Hesiod.

True glory takes root, and even
 spreads; all false pretenses, like flow-
 ers, fall to the ground; nor can any
 counterfeit last long.—Cicero.

Seasoned timber is the best. Respect
 age.

SYMBOL OF GOOD CHEER

Ever notice that the same
 feeling of respect and con-
 fidence that you feel when
 you sit down to a good old-
 fashioned dinner is also felt
 when you dress yourself in
 good old-fashioned clothes—
 our quality?

Watch the People's Store

 BUYING MORE ECONOMICAL**

—During the war and just after it while money seemingly grew on
 trees, folks got so they would not buy anything but the finer cuts of
 meat. This practice has brought much waste of really good meats that
 were not sold because the public, thru lack of education and thru ex-
 travagance, thought were not good enough for it. Prices on the better
 cuts naturally had to go up to off-set the other waste.

—To bring the cost of meats down and to help you with your cooking
 we are publishing this series of recipes for using the so-called poorer
 cuts which are mighty good when you know how to fix them.

TODAY'S RECIPE

BEEF STEW—Three pounds of ribs cut into small pieces, six onions,
 three Irish potatoes quartered, half can of tomatoes, one green pepper
 chopped, three carrots quartered, one grated Irish potato, one quart
 boiling water, one tablespoon fat, one teaspoon salt, dash of cayenne.
 Place the fat in a skillet and when very hot, put meat into it and allow
 it to brown as quickly as possible, turning from side to side. Have ready
 a vessel containing the boiling water. Remove the meat from the skillet
 and drop it into water. Add the onions and carrots and cover vessel
 closely. Let it simmer for two or three hours and add all other ingredi-
 ents except grated potato. When ready to serve, add grated potato
 and stir until it is thickened sufficiently. The potato makes a much
 smoother and better flavored gravy than flour.

THE METHODISTS ARE CHALLENGED

In Canyon today a situation obtains that calls on us to do our best thinking; that hauls us up to the bar of a healthy conscience, and challenges us to mount the ALTAR of SACRIFICE.

SHALL WE HOUSE OUR PEOPLE?

Shall we equip a work-shop for the hundreds of bright, ambitious young men and women, or shall we shift and shirk?

THIS QUESTION WON'T DOWN. IT MUST BE ANSWERED.

No situation so compelling, no call so urgent, has come in many years to any people as we now face. PERSONAL, POWERFUL, URGENT. It cannot be shifted. It is here and must be answered.

The local Church cannot meet the call alone, and fortunately we do not have to go alone.

The Church at large has said to us: TELL US THE UTMOST YOU CAN DO.

We are going to answer them by laying on the altar THE SACRIFICIAL BEST WE CAN DO.

If we move as a unit, we will surprise ourselves and compel the attention of the Church at large.

WE BELIEVE THAT THE CANYON SPIRIT WILL WIN, AND WE ARE GOING TO TRY TO DO THE BUSINESS THE CANYON WAY.

First, every Methodist, we believe is ready to face the issue and lend a hand.

We believe we have hundreds of friends, not Methodists, who are for us, and will help us in a substantial way.

WE MUST HAVE \$60,000.00

One-half of this \$60,000.00 Canyon is expected to raise. Can we do it?

Five Hundred Methodists, and their friends by the hundreds can, and we believe, will answer YES!

We propose to lay down \$30,000.00 in gilt edge subscriptions, and ask the Church Extension people to make a gift of a like amount.

You want in on this to the point of sacrifice.

FRIDAY, DECEMBER 8TH

You will have an opportunity to get in on the biggest thing attempted in a Church way in Canyon. We do not apologize for asking you to help, for we believe you want to help. ALRIGHT, LET'S GO.

Merry Christmas

Get better Christmas Cards this year ordering sooner. Early orders get cream of selection. Your cards will be envy of your friends, save you all that ninth hour bother had last December.

BRITAIN'S STUDIO

Phillips Discusses Practical Work for Agricultural Students

Professor Frank R. Phillips, Head of the Department of Agriculture in the West Texas State Normal College, speaking on the subject of "Supervised Practical Work for Boarding Students in Agriculture," said in part:

I think that we have all reached the conclusion like Dr. Stinson, father of the project method, that an agricultural project away from home is possible from the pedagogical point of view. One type of supervised practical work is that of the individual's action, while the other is that of the group's activity. Professor Steward of Cornell defines a project as any enterprise in which no elements essential to its completeness as it does or would exist in real life are omitted. The practice of the project method is now wide-spread. We find many schools from the Bristol County Agricultural School in Massachusetts to the John Tarleton Agricultural College of Texas making use of this modern method of education.

The Bristol County School has both tractor and horse equipment, and here we find one boy doing the managing and cost accounting on a project involving five acres of potatoes. The Director in one of the Texas Colleges says: "We require our college students to carry out projects just as high school students would. For example, some of our students have a farm and all the live stock connected with it, and take the entire farm business for the year for their project. Another example is where a college boy looks after the dairy work, keeping all the records of production and making reports. We have several such boys now working their way through college with such projects." In some other cases the college or high school boys who are attending boarding school grow their crops during the summer vacation, keeping their records and making reports in the autumn when they return to their classrooms.

The Texas Plan

Speaking of the work used at his own institution, The West Texas State Normal College, Mr. Phillips pointed out that the boys brought their animals to the school farm and rented space and carried out feeding projects with beef cattle, milking enterprises with dairy cattle, and swine management work with brood sows and litters. He said that some of the students had carried out very successful poultry projects at this boarding school by using the college equipment.

Boarding House Enterprises

One phase of the work that had proved satisfactory under Texas conditions was the boarding house project. In this plan the boy makes arrangements with his landlord to keep his chickens, milk cows or fattening hogs at the boarding house. The feed is either brought from home or secured in the local markets. These boys are often designated as the "boys who bring their cows to school." Other requirements are that of the farm surveys, renting land, and the work of the school farm, under the direction of the teacher of Vocational Agriculture. In conclusion, Mr. Phillips said that he regretted that some state supervisors had withdrawn funds from schools where the students were forced to be away from home, when in his mind, the thing the supervisor should have done would have been to offer the offices of such schools sympathetic co-operation toward solving this great agricultural problem which men of Mr. Phillips' profession have to face in every state in the union.

CARD OF THANKS.

We wish to express to the people of Canyon our hearty gratitude for the many kindnesses shown Mother Garner in her days of illness and death.

THE FAMILY.

PIE SUPPER. will be held Friday night, Dec. 8th, at the Campbell school house for the benefit of the Piano Fund.

CARD OF THANKS

We, the Sunday School class of West Ward School, wish to thank the people of Canyon for the help you gave us by making a payment on our piano. May God's richest blessings be with you.

We ask the prayers of the Christian people that we may continue to teach the boys and girls the way of truth and life and that they may be bright and shining lights wherever they go.

TOWN PESTS

The Henpecked Husband is a Pest of the First Water becuz he can't Do 'Nuthin' ner Say Nuthin' without first asking his Wife. If the Pore Fish'd only Grow a Backbone, instead of Bleating Plaintively about the Wife, his Friends wouldn't feel So Much like Knocking Him for a Row of Ash Cans every Lodge Night.

Fairview Breezes

Fairview community has had enough rain the past week to wet the ground about six inches.

Sunday School Sunday morning and B. Y. P. U. Sunday night with good attendance.

Chas. Rogers and family of Wayside took dinner Sunday at the J. W. Wesley home.

Mrs. Chas. Sutton has been sick the past week but we understand she is better.

Mrs. Frank Walters is on the sick list. Reports are she is no better.

Bill James and H. B. Wesley were in Happy Saturday.

Quite a few people dipped cattle last week for the second time.

Threshing has started again this week.

Lots of talk about sowing more wheat though the acreage will not be as large as last year.

J. N. Duff of Happy is building a nice house on his farm in the south part of the Fairview community.

Wesley Bros. are threshing for Tom Dunlap this week. The grain is turning out fine for a dry weather crop.

A large number of turkeys were sold in this part of the county at a good price lately.

One way to get inexpensive dwellings is to follow the plan that the cooperative societies in Austria have adopted. A group of people in similar circumstances organize a society, hire an architect and a few master mechanics and then go to work and build their settlement of ten or a dozen houses themselves. Each member gives a certain number of hours of labor. In the neighborhood of Vienna six hundred houses have been completed in this way during the past year.

Among the great capital cities of the world, Washington alone has no monumental church. Two, however, are building. The corner stone of the National Shrine of the Immaculate Conception has been laid, and the apse of the new Protestant Cathedral of St. Peter and St. Paul is already completed. The Protestant cathedral is at the summit of Mount St. Alban, overlooking Washington, a situation one writer calls "the noblest site of any cathedral in the Old World or the New."

The announcement by the Greek government of a plan to restore the Parthenon has aroused much discussion among lovers of art. Opponents of the project declare that the very ruins are a tradition the destruction of which would be a greater evil than any benefits a restoration would bring about could offset, even if the restoration turned out to be perfect. Advocates of the idea declare that enough is known of the temple, and that enough of the original stones remain, to guarantee a perfect restoration, and that restoration is the only thing to save the temple from complete collapse. Further propping of the walls will deface them.

Things are getting so mixed up that an honest, hard-working politician hardly knows when to be "dry" or when to be "wet."—Columbia Record.

FACT AND COMMENT

To keep on trying is the foundation of virtue.

Do not despise commonplaces: most of them are true.

The country at large seems to have contracted the bean-eating habit; importations have greatly increased, and for months American buyers have been scouring the markets of the world for beans.

In England girls with bobbed hair are now trying to make their short locks grow. As a result there is a demand for hats that will conceal the growing ends. To meet it the milliners show in their shops a quaint poke bonnet that has a short pointed brim in front, and that is cut away at either side to make room for a curled ostrich feather, which gives the effect of side curls.

If cheap money could make prosperity, Russia would be the most prosperous country in the world. An estimate places the money in Russia at eighteen trillion paper rubles; but it takes two hundred and sixty thousand of them to equal one ruble in gold. In other words all the paper promises of the vast country of Russia are not worth thirty-five million dollars of American money.

"Hooking rides" is not the sport it used to be. There was a time when a slowly moving grocery cart was fair game for alert youngsters, and there was little danger that they would be run down by somebody's fast-stepping trotter when they hopped off. Now it is different. Not a week goes by in any of the large cities that some boy does not drop from the end of a truck to alight in front of a swiftly moving automobile that cannot be stopped or turned aside.

An English visitor to the United States who saw two games of football was much impressed with the organized singing. "In England," he said, "except at some of the public schools, you never hear a large body of male voices singing in unison a strong and simple chorus. It is a pity, for it is a fine thing to hear—a magical thing. There are not two men in a thousand who have voices that would justify their singing by themselves even in secret, but when they stand up under the sky and sing a rude chorus together they produce something that is not in any, one of them; they produce a beautiful thing.

In the interior of Argentine, cattle are so plentiful that beef on the hoof often sells for less than two cents a pound and cattle are sometimes given to the butcher on condition that he shall return the hide to the owner.

Songs Offered for Best College Songs and Yells

The purpose of speeding up the production of original college songs is, Dean L. G. Allen recently declared a prize contest for the best producers. A faculty committee, headed by Mr. Sheffy, Miss Clark, Mr. Fronbarger, in conjunction with Leader Condrey and his committee, will submit the choice to the students of the Institute for experimentation and approval. Dean Allen will award the prizes to the winners designated by the committee and the students. He has indicated that the faculty is a source of revenue for such prizes are:

- 1. The first prize of \$10 for the best song adopted.
- 2. The first prize of \$10 for the best yell adopted.
- 3. The second prize of \$5 for the best song adopted.
- 4. The second prize of \$5 for the best yell adopted.

Songs and yells must be new, original, and of the Panhandle atmosphere and one hundred per cent usage must be real. W. T. S. N. C. songs, written to express our own aspirations and our own life.

What we need is a number of general-purpose songs for use in all athletic contests and general spirited, triumphant, soul-stirring songs. Such compositions should develop a single idea in two or three stanzas. The tune should have a "swing" suggestive of the "eyes are upon you." Our State song has such a song. Write one. T. S. N. C.

Songs should not be too complex. They should be full of fire, snap, and energy—real buffalo yells. The chiffraff jingle of the high school is positively NOT wanted. The songs are the simpler type of a single charged words. It is impossible to describe exactly what is when you hear the right yell. You know instantly that the right has been struck. Put the spirit of athletics, of the buffalo, and of T. S. N. C. into your songs and you will remember that only single well developed will serve the purpose.

Under whether donkeys call a man that is unusually dull a "man." The more fully you are right in a matter the easier you will find it to write.

Write into the skin for rheumatism, neuralgia, contracted muscles, or lameness. Ballard's Snow goes right through the flesh, easing pain and removing dirt. It is a powerful pain reliever. Sold by City Pharmacy. 15

Blackheaded pimples Quit with S. S. S.
Simple-Poison Goes When Red-Cells Increase! S. S. S. Kills These Red-Blood-Cells.
Be sure of this, nature has no need for red-blood-cells. Pimples don't live in the red rivers of your blood as there are enough rich-cells in it. More red-blood-cells!

FARM PRICES
A recent bulletin issued by the Department of Agriculture says that the position of the farmer is much like that of a man six feet in height who is standing in five feet of water and sees it beginning to rain. He has been financially embarrassed ever since the sudden decline in farm prices two years ago. He hoped that relief would come through the fall of commodity prices or the recovery of farm prices, but his hope has not been justified. His chief products, which in spite of tariff schedules and statute laws find their price level fixed by conditions in the world market, continue to sell cheap. Manufactured goods are going up in price. Labor in the cities has shown that it can keep the wage scale high. Freight rates for the same reason are burdensome. It seems not unfair to say that such plenty as the industrial community enjoys is largely at the farmer's expense.

The reason that "deflation" has proceeded so much more slowly in the mechanical industries than in farming is the present immigration policy of the nation. The new law has so far reduced the possible number of immigrants that it is a question whether more aliens are not leaving the country than entering it every year. For two generations we have depended on the immigrants to maintain the ranks of manual labor—particularly of unskilled manual labor. The native, even the child of the immigrant, tends to shun that kind of work and to feel himself above it. But the immigrant no longer keeps up the supply of labor for our expanding industries. Employers must bid against one another for workmen. Wages will refuse to drop much in those circumstances. Whatever the farmer gets for his crop, he must expect the things he buys to be expensive.

What shall the farmer do? It would probably help him if all restrictions on immigration were removed. But a restricted immigration is what Americans want at present for reasons other than its effect on wages and the prices of manufactured goods. It is probable that most farmers would hesitate to help themselves economically by throwing down all barriers against immigration. The farmer can certainly reduce his production of those crops that do not now repay him for his work, and the prices of which are fixed by world competition—wheat in particular. He can turn to mixed farming instead of one-crop farming. Many Southern planters have done it successfully; cotton is no longer the only crop they consider. It is true also that, so long as present conditions continue, the drift from the farm to the city is likely to continue, until something like an equilibrium between the agricultural and the industrial population occurs. With a falling off in farm production, the prices of foodstuffs will rise. But it is cold comfort to tell the farmer to wait for that. Meanwhile, besides controlling his crops, he can, as The Companion has often suggested, engage in cooperative marketing. That has made the Western fruit raiser prosper-

ous. To be sure, his circumstances are favorable, for his market is not much disturbed by foreign competition. But the principle of cooperation is applicable to every industry. It means the diversion of some of the profits of distribution to the producer, and that is what the farmer needs.

There is nothing to be hoped from currency inflation. That would send up farm prices no doubt, but it would send up other prices as fast or faster, and it would end in a collapse that would prostrate farmer and wage earner alike.—Youth's Companion.

VITAL NEED OF ORDER
What comfort, what strength, what economy, there is in order—material order, intellectual order, moral order. To know where one is going and what one wishes—this is order; to keep one's word and one's engagements—again order; to have everything ready under one's hand, to be able to dispose of all one's forces, and to have all one's means of whatever kind under command—still order; to discipline one's habits, one's effort, one's wishes; to organize one's life, to distribute one's time, to take the measure of one's duties, and make one's rights respected; to employ one's capital and resources, one's talent and one's chances profitably—all this belongs to and is included in the word—order.

Order means light and peace, inward liberty and full command over oneself; order is power.
Esthetic and moral beauty consist, the first in a true conception of order, and second in submission to it and in the realization of it, by, in, and around oneself.
Order is man's greatest need and his true well-being.—Amiel's Journal.

Fifty sheets of Papyrus now being translated at the University of Pennsylvania will reveal how Ptolemy Philadelphus levied and collected taxes during his reign in Egypt. The taxes are said to have been so evenly distributed that they brought tremendous revenues with no apparent hardship to any class. One of the three scholars in the world capable of deciphering demotic characters, the shorthand of hieroglyphics used for books, deeds and other such writings, is at work on the parchments.

FACT AND COMMENT
There is no kind of "divining rod" or other instrument that will indicate the presence of gold or silver or of the ores that contain either of them. The so-called dip needle has been used successfully to discover beds of iron ore of considerable extent, but gold and silver are not magnetic.
An American company that manufactures aeroplanes announces that it has produced a new "safety" plane the mechanism of which has been so simplified that the ship will guide itself after being taken into the air. An inexperienced youth after four hours with an instructor took the plane into the air alone and made a flight hitherto thought possible only to experienced aviators.

The publication of a medical history of the Great War shows that a bullet in the heart is not necessarily sure death, as most persons suppose. Numerous instances are cited of men who suffered such wounds and lived. One man even went two months before he was operated on. Then the bullet was removed from the extremity of his heart with forceps.

Rusty nail wounds, festering sores, burns and scalds heal rapidly when Liquid Borozone is applied. It is both antiseptic and healing. Price 30c, 60c and \$1.20. Sold by City Pharmacy 15

Why Freight Rates Cannot Be Reduced
Railroads Under Public Control
Transportation Charges Must Stay Up Until Costs Come Down, President Storey of the Santa Fe Explains

United States Senator Capper, through his various publications, has been demanding a reduction of freight rates; but his attitude on the general subject of railroads has not blinded him to the main facts about government control, which have been clearly presented in the following editorial from one of his papers, the Topeka Daily Capital:

- "The railroad cannot fix its own rates and charges.
- "It cannot name the wages it will pay.
- "It cannot enter into combinations and deals.
- "It cannot shut down when business goes to the bad.
- "It cannot buy or sell a railroad system.
- "It cannot make capitalistic profits and dividends.
- "It cannot even determine how much capital it shall issue on its property, or issue any without previous approval of the public.
- "It is, in fact, an agency of the public, controlled completely by the government."

The fact is, rates cannot be reduced unless costs are reduced. Costs cannot be reduced so long as the present scale of wages and the prices of fuel, materials and other supplies are maintained, and in these matters the hands of the Santa Fe are tied.
What is particularly needed at this time is better transportation service, more cars, locomotives, and other facilities necessary for moving the business, and the Santa Fe is doing everything in its power to provide these.
W. B. STOREY, President,
The Atchison, Topeka and Santa Fe Railway System.

WHY BE THANKFUL?

(By H. W. Morelock, Head of the English Department)

All life is a relative something. We are even prone to measure our happiness by comparing our station with that which our friends have achieved. In other words, happiness—the basis of most of our gratitude—has material prosperity as the source of its inspiration. Even our Pilgrim Forefathers were grateful that plenty blessed their land during the dark days of our early history. To put it differently, we are happy when life, whatever it be, turns to us the bright side of the material picture.

But there is a spiritual happiness, which springs from the consciousness that we are making the most of life, that we are developing into our best selves, that we are making the life of some one else brighter and better. For this opportunity we should be thankful. All young people have a dual station in life: they are the boys and girls of to-day, and the boys and girls they hope to be. If the individual is constantly growing towards his ideal self, he should be happy. Too many people are piqued by the apparent successes of others, ignorant of the tragedy of those failures which are enacted behind the curtain. Heroic happiness should result from a comparison of what we are with what it is possible for us to be.

Our method of expressing our gratitude—whatever its source or its nature—is often inadequate and sometimes tainted. Our national holidays illustrate the point. Our Fourth of July celebrations and other similar occasions have degenerated, for the most part, into tin pan parades, or pyrotechnics. I sometimes wonder how our forefathers would look upon our ways of holding sacred those principles of liberty and justice for which they made such heroic sacrifices. We should feel thankful for all they bequeathed to us, and we should show our gratitude by the way in which we celebrate the holidays commemorating their achievement.

We should be thankful not alone for what we have inherited from the past, but for the opportunities of the present and the promises which the future holds out to us. I am thankful that I have a life to live; that the most glorious age the world has ever known stretches out before me invitingly; that I am blessed with health and a reasonable degree of intelligence as aids to learn something of life's deeper meaning; that I have friends who believe in me and are willing to make sacrifices for my comfort and happiness; that I have the advantages—denied so many others—of a college education with its opportunities for cultural uplift, for social prestige, and for service to my fellow man. In truth, as I look about me I find so many things for which I am thankful, and yet so many things about which I ought to be more thankful than I am. And as this Thanksgiving draws nigh, I would dedicate it with this vow: I shall from this day endeavor to live a life broader in scope and richer in content, that I may earn the gratitude of others.

have not yet eventuated and little credit is given the story by the big tire manufacturers.

The United States senate committee on reconstruction has estimated that the truck mileage of the United States is 7, 150,000,000.

It will soon be possible for night passengers to view the country through which their train is passing. Powerful flood lights on the roof at the rear of the observation car will uniformly cover a radius of at least 100 degrees, with height and depth sufficient to catch canyons and rivers, mountains and lakes as the train leaves them behind in its onward rush through the darkness. It is possible the lighting system may be extended along the roofs of all coaches lengthwise so that passengers throughout the train will have the benefit of the view on one side or the other. Dynamos driven by the axles of modern Pullmans generate more electricity than is required for present purposes; hence there would be no added expense for current.

In the alleged transfer of 80,000 gallons of alcohol by Louis and Abraham Auerbach, and others, of Cleveland, more than \$15,000,000 changed hands in a little more than a year. The Auerbach brothers, Abraham Limbert, Morris Moss, Samuel Selker and Moritz Cohen entered pleas of not guilty to indictments charging them with a conspiracy to evade the prohibition laws. The government alleges the defendants withdrew 80,000 gallons of grain alcohol on Federal permits paying \$6 a gallon on the ground they were using it in toilet preparations. It is alleged they sold it to bootleggers for \$26 a gallon. The bootleggers, it is said, then diluted it one gallon to three, colored and flavored it and sold it for \$64 a gallon.

A rope 19 feet long, made of 3,000 ground squirrel tails, was recently shipped to the Bureau of Biological Survey of the United States Department of Agriculture. It was made by the Blackfoot Indians who live near Browning, Montana. Fifteen hundred of the pests were killed by the Indians during the spring and summer.

AMARILLO, TEXAS

The Soviet government hesitating to wreck the statue of Alexander III, standing on a square in Petrograd, has caused the following legend to be heven into its base: "Your father and your son were executed by the people. You have died peacefully, but to serve as a scarecrow."

A touch of realism is added to fire drills in Chicago public schools by the explosion of "movie" bombs causing smoke to flood the corridors and exits. There is no fire but the pupils are not aware of this fact. The conduct of the pupils during the drills is excellent.

A Frenchman, Dr. Gabriel Bidou, has discovered methods to replace paralyzed and useless muscles with mechanical equivalents. In most cases the "artificial muscle" is a spring, so adjusted that when the weight of the body is released from the limb affected it is brought forward as it would have done had the muscle contracted naturally.

Siamese women stain their teeth black with betel nut to denote their married state.

If your child eats ravenously at times and at other times has no appetite at all, look out for worms. White's Cream Vermifuge is the remedy to use. It clears them out. Price, 35c. Sold by City Pharmacy. 3115

PUBLIC SALE

I have decided to quit farming and will sell at my place, 4 miles east and 4 miles north of Happy; 18 miles southeast of Canyon; quarter mile south of Knox school house, on

THURSDAY, DECEMBER 7

Commencing at one o'clock p. m., the following described property:

- HORSES AND MULES**
3 horses, one four years old and two smooth mouth, good work stock,
2 mare mules, 7 and 8 years old.
3 small horse mules, smooth mouth.
1 mule 15 1/2 hands high, smooth mouth.
- CATTLE**
5 head of Jersey cows; 2 fresh by first of year.
2 coming two year old Jersey heifers.
4 steer calves; 1 heifer calf.
- FARM IMPLEMENTS**
1 Van Brunt 12-hole wheat drill, practically new; 1 John Deere two-row go-devil; 1 P. & O. two-row go-devil; 1 John Deere row binder; 1 John Deere lister; 1 P. & O. 16-16 disc harrow, practically new; 2 sod plows; 1 three-section harrow; 1 mould board ten-inch turning plow; 2 grain wagons, 3 1/2 and 3 1/2; 1 John Deere low-wheel bundle wagon; 1 surrey and good leather harness. Other things too numerous to mention.

TERMS—Sums of \$25 and under cash. Credit of ten months will be given on sums over \$25, purchaser to give bankable note bearing 10 per cent interest from date of sale. 5 per cent discount for cash on sums over \$25. No property to be removed until terms of sale are complied with.

MILT O'REAR, Owner

McCreery & Adams of Wayside, Auctioneers. Wm. F. Miller of Happy, Clerk.

GAS TRAIL

Keep springs tight at the axles; looseness here causes most spring breaks.

The total cost of the New York-New Jersey vehicular tunnel will exceed \$28,000,000.

Farmers lead in the purchase of a certain popular make of small car in the past twelve months.

Motor theft losses in the United States are placed by an authority at \$300,000 every 24 hours.

The total number of cars reported as stolen in 1921 was 37,554, about 7,500 more than in 1920.

Cities reporting a decrease in stolen cars during 1921, number but seven. Cleveland heads the list.

The average individual motor vehicle annual gasoline consumption is estimated at from 350 to 450 gallons.

Never leave your car with the shift lever in gear, and always look at this lever before starting the engine.

In 1921, farmers of the United States are estimated to have consumed 2,000,000 gallons of gasoline for stationary engines alone.

Don't use the same can or bucket for water and gas. A particle of water or dirt in the gasoline may cause a lot of trouble.

If the carburetor is doing its duty the exhaust gas forced out of the muffler should be quite colorless and almost entirely odorless.

The drip-pan of a car may not seem

very important but it had better be kept clean. Gasoline upon its surface is the producing cause of many fires.

Never use gasoline to clean the car's upholstery. It cracks the leather and unless the gas or the dye is very high grade may take out the color.

Wind shield wipers may have their place but experienced motorists know that a little glycerine rubbed over the glass will keep rain, or even sleet and snow if not too heavy, from obscuring the vision.

A large motor passenger transport company in California is equipping its buses with radio. Tests have proved this source of entertainment quite practicable.

Don't turn the hose on your car in order to wash it. Water, forced out in this way, gets into impossible-to-reach places and doesn't improve the car. Use a sponge and a bucket.

Motor vehicle production during 1922 may reach 2,000,000 according to a Firestone expert who also figures that the 1922 tire output will break all previous records.

In Estromia, one of the Baltic provinces, there are approximately 106 automobiles of which 130 are in Reval. Most of these are of German make. Poor roads are said to account for so small a number.

Numerous rumors emanating from Germany to the effect that that country is soon to produce an automobile tire that will revolutionize the industry

Examined and approved in open Commissioners' Court of Randall County, at Canyon, Texas, this Nov. 13, 1922.
WORTH A. JENNINGS, Presiding Officer of Commissioners' Court.
Attest: O. W. GANO, County Clerk Randall County.

Purity==Honesty

THE TWINS OF RELIABLE DRUGS

In buying your drugs there are two paramount things to consider: honesty and purity. Where there is one you will usually find the other.

We make these two principles our stock in trade. You are always sure of both here.

Jarrett Drug Co.

CANYON, TEXAS

Happy Happenings

Do not forget the play, "The Time Life" to be given in the school gym, December 16, at 7:45. Give the ninth grade under the direction of Mrs. H. A. Grounds. Mr. Harvey and family were in town Saturday.

M. D. Montgomery was detained in her work last week on account of illness.

Mrs. Coyle Shenefelt and Mrs. F. M. Shenefelt returned Sunday evening from Oklahoma they have been visiting.

Mr. Caldwell was in Amarillo on Monday.

F. Miller, Willard, Gladys, and Miller were calling in Amarillo Saturday.

Mrs. W. O. Newberry were at the C. L. Grounds home Sunday.

Mr. Miller spent the week end in Comstock.

C. D. Goodnight and daughter, are visiting relatives in Amarillo this week.

H. Brown was transacting business in Amarillo last week.

Mr. Harvey and family were in town Saturday.

D. Montgomery was in Amarillo Saturday on business.

Mr. Murl Goodnight entertained a number of her friends with a party Saturday afternoon, honoring her sixth birthday. Many interesting games were enjoyed by the little folks, after refreshments were served to the guests: Rachel Caldwell, Wilma Roberta Arnold, Edith Bandy, Cleo and Cleo Evans, Lola Faye, Elizabeth Fowler, Wilma Roberta Maurita Wilson, and Margaret Leiba Bandy. The little ones decorated their homes with happy decorations of the evening.

B. W. Wilkins and A. L. Harter attended the Steward's meeting at the M. E. church at Plainview last Saturday.

Mr. and Mrs. O. O. Baker visited at Wayside the past week end.

Ruby Glover entertained quite a number of her friends at her home Saturday evening. A large crowd was present and the evening was greatly enjoyed by all.

Friday, Dec. 2, the Baptist W. M. F. M. gave a bazaar at the Gus Miller building.

Elsie Zachery of Fairview, who is attending school here, spent the week end with home folks.

Happy Jacks completely downed the players on the H. H. S. football field late Thursday evening, by a score of 32 to 0 in favor of the Jacks. The Jacks showed some real tact in the game, and for their team work, Mr. Stevenson presented them with a box of chocolates, for which they graciously thanked Mr. Stevenson.

A. E. Miller of Lubbock will give services at the Presbyterian church next Sunday morning and evening. Visitors are cordially invited.

J. A. Lindley of Tulla held services at the Baptist church Sunday evening.

Mr. Harvey Bellas returned Sunday from Iowa where she has been visiting.

Mr. Carpenter left Tuesday morning for Memphis where he will transact business.

Mr. and Mrs. Felix Neff returned from east Texas where they have been visiting.

Mr. and Mrs. W. O. Newberry and L. Grounds were in Amarillo Saturday evening.

Friday afternoon the car in which Mrs. Vie of Ropesville, Texas, and Mrs. Tom Mitchell were riding, was involved in an accident. Mr. Vie, who is a brother of Mrs. Mitchell, was driving the car when the accident occurred. Dr. McStaters that Mrs. Vie and little son and Mrs. Mitchell are badly hurt but will soon recover.

Wayside Items

Rev. Griffin, our new Methodist pastor delivered a good sermon Sunday morning, being his first appointment.

Born to Mr. and Mrs. Will Holland, a 10 lb 2 oz boy Saturday night.

Mr. Bond was a Plainview caller one day last week.

Will Holland was a Happy caller last Friday.

Mrs. Inez Nuzum of near Vigo is visiting Mrs. Will Holland.

W. D. McGehee has been on the sick list but is improving.

Mr. and Mrs. D. J. Graham of Happy, formerly of Wayside, are the proud parents of a big fine boy born Monday night.

Last Wednesday, Nov. 22, eight of the nine McGehee children visited their mother in Canyon and celebrated her 85th birthday. They had turkey and opossum, besides lots of other good things to eat. W. D. McGehee was not able to attend.

Mrs. Ida Studer is with her daughter, Mrs. Grace Graham of Happy for a few days.

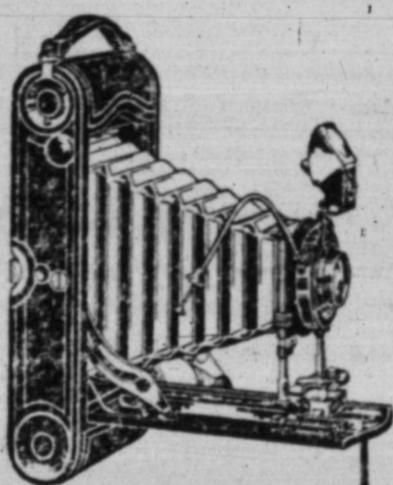

Mrs. Homer Holland and son, Addison, have joined Mr. Holland at Cement, Oklahoma.

A manufacturing company shipping its product long distances from the factory by truck utilizes this means of transportation every hour of the day and night by providing a sleeping compartment above the seat of the driver. One man sleeps while the other drives. The bed is similar to a Pullman berth with windows on three sides to provide ventilation. In this way practically all bills for lodging are eliminated and considerable time is saved on the way.

If your bowels do not act regularly, you feel uncomfortable, and the longer this condition exists the worse you feel. To put an end to the misery, take Herbine. It purifies the bowels, restores energy and cheerful spirits. Price 60c. Sold by City Pharmacy. 31t5

WE WILL NOT FORGET

As Americans we can never forget the favor of Providence so abundantly poured out upon this, our country, since our forefathers celebrated the first Thanksgiving three hundred years ago.

The prayers of the first Thanksgiving uttered by them for the preservation of their lives will re-echo from generation to generation even to the end of time!

We cannot forget! We will not forget! We will keep faith with them that the structure whose cornerstone they laid will never crumble or fall!

In honor of Thanksgiving day, November 30th, this institution will not be open.
