NUMBER 7

## EIGHTEEN WILL RECEIVE DIPLOMAS OF HIGH SCHOOL

### COMMENCEMENT SERMON TO THE CLASS ON SUNDAY.

Commencement Exercises Will be Held Friday Night at the College Auditorium—Play Last Night.

This is Commencement Week in the Canyon public schools, with the final exercises for the year to be held at the College auditorium Friday night at eight o'clock.

A highly inspirational and helpful sermon was delivered to the class Sunday morning at the Methodist church by Rev. J. R. Jenkins of Amarillo who spoke from a rich experience of many years a pastor of Baptist churches in Texas. He gave good wholesome advice which was applicable to both the members of the class and all members of the big congregation.

The class play "Hurry, Hurry, Hurry" was given last night at the College auditorium before a large and appreciative audience. The following was the cast of characters:

Jack Crandall, a transplanted cowboy—Cecil Foust.  
Mr. Hooker, the typical American business man—Milton Beavers.  
Stephen Hooker, the peppy American school boy—John Burgan.  
Ted Stone, a football hero—Donald Campbell.  
Aloisius Bartholemew, a college professor—Edward Gerald.

Floy Hooker, the young debutante whom its all about—Rena Belle Smith.  
Letitia Brown, a languishing dilettante—Hilda Biggers.  
Mrs. Hooker, the mother—Madeline Carson.  
Rita, a pert housemaid—Anemae McClure.

The expression class of Mrs. Coleman will give a program at the College auditorium tonight at eight o'clock. The commencement program with the delivery of diplomas will be held at the College auditorium Friday night at eight o'clock. The address will be delivered by Rev. M. M. Beavers.

The following will be the graduates to receive diplomas: Donald Campbell, Edmund Oatis, John Burgan, Cecil Foust, Edward Gerald, Frank Harrison, Walter Black, Gracie Williams, Hilda Biggers, Florence Neal, Anemae McClure, Ellene Cayton, Alice Smith, Bonnie Allen, Madeline Carson, Ila Mae Hastings, Rena Belle Smith, Francis Hicks.

## C. L. Thompson Re-elected Sec'y-Treas. Hardware Association

The Panhandle Hardware and Implement Association re-elected C. L. Thompson of this city secretary-treasurer at the meeting which closed in Amarillo Tuesday afternoon.

Through the untiring efforts of Mr. Thompson the attendance at the annual convention was big and the program highly interesting.

T. C. Thompson spoke before the convention Tuesday afternoon.

**HALF INCH RAIN SUNDAY.**  
A half inch rain fell Sunday night. A much heavier rain fell to the west of Canyon which brought up the two creeks to bank full.

A shower of .04 inch fell during Monday afternoon.

**EQUALIZING COUNTY TAXES**  
The Commissioners Court is in session this week, sitting as a board of equalization and going over the assessments as made by Assessor Tom Reddell.

**BOARDING HOUSE SURVEY**  
W. E. Lockhart has completed a survey of boarding and rooming facilities of the town for the opening of the summer school of the College. Mr. Lockhart wishing any that might want boarders and roomers, and who may have been missed during the survey to please phone him at once at No. 204.

Mr. Lockhart also urges that those who are on his list and have rented their rooms to please phone him as soon as the room is taken so that he will not send other people to the room.

## Forty More Lights are Ordered in City; 24 Hour Service June 1st

At a meeting of the city commission Tuesday forty additional street lights were ordered installed, which will be scattered over the entire town.

Manager A. J. Arnold has agreed to give twenty-four hour light service beginning with the first of June on account of this additional load which is being bought by the city for the streets.

The first steps toward a white way was taken with the installation of four ornamental light standards to be placed at each corner of the square. Each standard will carry five sixty watt lamps and add very greatly to the beauty of the public square.

With the installation of the new light, Canyon will have seventy-seven street lights, not including the four in the turning posts in the street at each corner of the square.

## Baptist Preachers Will Don Overalls to Wield Hammer at Tabernacle

A call has been issued to the Baptist preachers of the Panhandle to meet at the Assembly grounds on Monday 18th with overalls, saw and hammer and to remain there until Friday night. Work will be started on the new 90x90 foot tabernacle which is to be erected for the assembly during the coming summer.

Rev. B. F. Fronbarger, manager of the Assembly Grounds states that a competent carpenter will be in charge of the construction. He has discovered three of four good carpenters among the Baptist preachers of the Panhandle and they will assist greatly in getting the work under way.

Mr. Fronbarger is highly pleased with the work being done at the Assembly grounds and the prospects of a big program this summer.

Mr. Fronbarger is highly pleased with the work being done at the Assembly grounds and the prospects of a big program this summer.

Mr. Fronbarger is highly pleased with the work being done at the Assembly grounds and the prospects of a big program this summer.

## Buffaloes Take Three of Six Games Played During the Past Week

The Buffaloes have won three and lost three games during the past week on their road trip down state. Today is the last game of the trip, and will be played with Simmons.

Last Thursday the Buffaloes won from John Tarlton at Stephenville; won Friday at Commerce and lost there on Saturday; rain caused the Monday's game with Trinity at Waxahatchie to be postponed and Trinity won a double header Tuesday; the Buffaloes won from Simmons yesterday at Abilene, 3 to 1.

**MANY AFTER \$25 PRIZES.**  
A large number filed answers with the News for missing words in the special page ad now running, and which continues for eight more weeks.

Those who did not file answers last week have plenty of time to get in on the prize money by answering the missing words this week and continuing each week.

The News stated that the missing words would be announced each week; we were mistaken, as the promoter is to give the missing words at the end of the contest and let competent judges decide.

Get into the contest this week.

**"BOX OF TOYS" ON TUESDAY.**  
"The Box of Toys", a marionette show in four acts, set to music by Claude Debussy, will be presented by the music department of the College next Tuesday night at eight o'clock.

The marionette shows a box of toys come to life, and the action of the dolls is set to music. The characters are: the doll, the wooden soldier, the punch; the jester, the clown, the sailor, the goose girl, the shepherdess, the negro and the policeman. The dolls do life-like acting during the performance in time to the music played by Miss Paline Brigham.

**STUNT SHOW FINE**  
There was a very large crowd at the Stunt Show of the Y. M. and Y. W. C. A. Saturday night at the College, and the stunts put on by the various organizations were exceptionally good.

The judges tied in voting for first place between Cousins and Huntleigh Hall.

Young men talk of what they are going to do, old men talk of what they have done, and feeble men talk of what they should like to do.

## LARGE NUMBER AT CEREMONY CORNER STONE LAYING

### MASONIC CEREMONY USED FOR THE EVENT.

W. J. Fleisher, Dr. R. Thomsen and F. R. Jamison Speakers at the Ceremony Friday.

In spite of the high wind and hot weather Friday afternoon a large number of patrons of the public schools gathered for the ceremony of laying the corner stone for the new high school building.

The College band played a number of appropriate selections and closed the program with Star Spangled Banner.

More than fifty members of the Masonic lodge marched from the lodge room to the high school building and Earl Cayton, Deputy Grand Master of this district, representing the Grand Master of Texas, took charge of the ceremony. After the stone had been set in place through the Masonic ceremony, W. J. Fleisher spoke upon the work of the Masonic lodge and the public free school system. He showed how this order had always stood by and fostered the public schools, and gave valuable suggestions as to the function of the public schools of Canyon. He urged that all should vote for the increase of tax rate on June 2nd when the election shall be held in this district.

Dr. R. Thomsen spoke upon the value of education and kind of education that builds the character of boys and girls that we must have in this country. Mr. Jamison talked largely along the lines of the work of the Masonic lodge and its interest in education. He highly praised the people of Canyon for having provided so well for the education of the youth of this city.

After the ceremony the building was opened for inspection for a short time in order that the people might witness the construction that is now going on. The building will be completed about the middle of August. It is likely that the date of dedication will be about the opening of the fall term of school.

**SKATING ON WALKS UNLAWFUL**  
Mayor C. N. Harrison stated yesterday that skating with roller skates on the sidewalks, spinning tops and riding bicycles is prohibited by a city ordinance which will be enforced.

Roller skates are very injurious to cement walks and many citizens have complained to the city commission of the practice.

**Community Sing Sunday Brings Large Numbers to the College**  
A large crowd gathered at the College auditorium Sunday for the community sing which had been announced for the past several weeks.

The sing was under the auspices of the Randall County Singing Convention, which will hold sings in the county every three months. The annual convention of this section of the state and Eastern New Mexico will be held in Plainview next month.

A large number of visitors were in the city from surrounding counties.

**PAVING ACTIVITY**  
Several cars of brick have been placed on West Evelyn street from the square to the high school building. Work will soon start on the curbing on this street.

**Help Keep Canyon Clean!**

**High School Annual to be Distributed Friday Morning at the School**  
The printing of the high school annual was finished Tuesday by the News office and the binding will be completed in time for distribution to the students Friday morning. The book is the first annual to be published by the Canyon high school, and only through the untiring efforts of Edward Gerald and his able corps of assistants was this first volume completed and ready for distribution tomorrow.

Those who have examined the edition are highly pleased with contents and the printing of the book.

## WANTS HOMES FOR GIRLS

B. F. Fronbarger Jr. is in charge of the work of finding employment for young people who must work their way thru the College. Mr. Fronbarger now has thirteen deserving young women who are seeking places to work for their room and board during the summer. Any who can take one or more of these young women are asked to phone Mr. Fronbarger.

## City Hall and County Jail Construction to Start in Short Time

An agreement was reached Tuesday by the city commission and the commissioners court whereby the county jail will be included in the city hall construction, making the building 30x60 and practically fire proof so far as the construction is concerned. R. A. Terrill is architect for the building.

The front part of the building will contain the fire department apparatus and the city clerk's office, where the city commission will also meet and all of the city's business will be transacted. In the middle of the building for water supplies and station room for water supplies and the a room for the old fire engine, which will be mounted on a truck. By mounting the fire engine the city will receive considerable credit on the fire key rate.

The county jail will be located in the west in the building, shut off by a solid brick wall. The cage that is now in the old frame building will be moved to the new house. There will be adequate room around the Iron cage for other uses. The county has long felt the need of adequate jail facilities as the old frame jail has always been a fire trap. The new arrangement will give the city and county new buildings that have long been needed.

**Many Planting Cotton Walker Advises That Ground is Too Cold**  
A number of farmers have started to plant cotton in Randall county, and the indications are that the acreage is going to be much larger than anticipated.

C. F. Walker advocates waiting until warf weather is assured before planting cotton, and suggests that May 25 is plenty early to start.

Mr. Walker states he is selling the seed from the car bought by the business men of Canyon, and hopes to dispose of all of the seed within a short while.

**AUXILIARY MEETING**  
The Womans Auxiliary of the American Legion will meet in regular session Friday, May 18th, at three o'clock. All members are urged to be present and help in the plans for the Decoration Day program.

**Help Keep Canyon Clean!**

**MEMORIAL DAY WILL BE OBSERVED IN CANYON MAY 30 BY AMERICAN LEGION AND ALL VETERANS OF OTHER WARS**

Memorial Day will be observed in Canyon with an appropriate program on Wednesday, May 30.

A meeting is to be held tonight at 7:30 o'clock at the Legion Hall to make arrangements for the Memorial Day.

The American Legion is taking the initiative in the matter of preparing a program for the Memorial Day, but cordially invites soldiers of other wars to join with them in the day, and to assist in every way possible to make this a fitting day in commemoration of our dead soldiers.

Veterans of the Civil War and of the Spanish-American War are urged to come to the Legion Hall this evening and assist in preparing the program.

It is thought likely that the program will be held at 10 o'clock, May 30.

The Womans Auxiliary will present a flag to the Legion during the exercises.

All graves of soldiers in Dreamland cemetery will be decorated on Memorial Day.

A full program of the Day will be ready for publication in the next issue of the News.

## SMALL ATTENDANCE TUESDAY BUT GOOD LUNCHEON PROGRAM—MEETINGS DISCONTINUED FOR PRESENT

Owing to the fact that so few business men are attending the luncheons of the Commercial League, the luncheon will be discontinued for the present. Mr. Casey has lost \$20 on the last two luncheons when he prepared for the usual number and only ten came.

In spite of the small number attending the luncheon Tuesday, the program was carried out and was said by those present to be one of the best the Commercial League has ever had.

Those present Tuesday were Dr. F. M. Wilson, leader, J. M. Vetesk, D. A. Shirley, A. N. Henson, L. S. Baker, Rhea Robbins, C. D. Lester, C. F. Walker, W. A. Warren, H. F. Aulick and C. W. Warwick.

Dr. Wilson announced his subject as sanitation—one that every person in the community should be interested in. He called upon Prof. L. S. Baker of the Biology department of the College to discuss the fly.

Mr. Baker described the fly as being covered with little hairs to which all filth with which it comes in contact sticks. It is not an inviting looking thing. It lays its eggs in filth, preferably horse manure, cow manure, pig pens and uncovered garbage. The eggs hatch as larva or maggots and crawl out into the sunshine where the fly develops. It takes about two weeks to produce a fly from the time the egg is laid. Flies are full grown when hatched. Small flies are not young flies, but of a different variety than the large flies.

Flies carry filth from place to place on the hairs of body. It carries every known disease germ in this filth. Mr. Baker recalled experiments made during the Spanish-American war as to the carrying facilities of the fly.

Fly specks are vomite spot, food taken into the fly's body and vomited out, with all the disease germs.

Mr. Baker had his class make a study of the alleys of Canyon, and on April 26 he went with one student to visit two alleys, going behind sixty-five homes. They did not go onto any property but made their report from conditions found in the alleys:

Twenty four of their 65 places had cow manure piles which were producing flies; 62 had garbage in the alleys which was unsecured and capable of breeding flies; 57 had fly breeding places and only 8 were reasonably clean.

Mr. Baker and the student went into the alley behind eight business houses and found 3 alright; 3 had fly breeding places; 2 had flies on fruit that was unsecured.

Flies may be controlled through education and cooperation. Many people do not know the danger of flies. A sanitary inspector with power to enforce his recommendations will solve the problem. Mr. Baker stated that it was not his business if his neighbor had a cow but it was his business if his neighbor had a cow lot which was a breeding place for flies which came over to his place.

Manure should be removed twice a weeks and either spread thinly on the

(Continued on last page)

**Soldiers and Firemen to Fight it Out This Afternoon at 3:30**  
The Soldiers and Firemen will continue a little argument started last week when the former were victorious over the latter on the baseball field. The argument takes place on the Buffalo Field at 3:30 o'clock today and will be warm throughout. The Firemen claim they have strengthened their team so that there is no doubt about the outcome.

The Soldiers have been getting in some good practice during the past week by defeating the Calves Friday by a score of 18 to 8, and took the Happy team into camp Saturday by a score of 2 to 1.

**BUILDING DRUG STORE.**  
The walls on the new building for the Jarrett Drug Co. will be up by the end of the week. The carpenter work is keeping up with the brick laying.

## HILL HOME FROM AUSTIN; APPROPRIATION IS PASSED

COLLEGE GETS \$240,520 AND \$215,920 FOR TWO YEARS.

Legislature In Special Session and Has Appropriation and Revenues Up for Further Consideration.

President J. A. Hill returned from Austin last night where he has been for some time in the interest of the appropriation bill for the College for the coming two years.

Both houses passed the compromise educational bill Tuesday and it is now before the Governor. Under the terms of the bill the College will receive \$240,520 for the coming year and \$215,920 for the year following. This bill includes the paving appropriation, which seems likely to be a safe item.

The Governor called the legislature for another special session Wednesday, and submitted the questions of appropriations and revenues. It is estimated that the appropriations passed by the legislature will exceed the revenues about six million dollars for the coming two years. Unless the legislature immediately passes bills to raise more money the Governor may use the blue pencil heavily on the appropriation bills.

No buildings will be allowed by the state educational institutions according to the bill passed.

Mr. Hill states that the financial situation is the most critical he has ever had to deal with in Austin.

Wallace R. Clark, who had been in Austin with Mr. Hill for two weeks, returned Sunday night.

## Transportation Problem Before Trustees at Meeting Monday

The board of trustees of the Canyon school district has set next Monday night, May 21st as a time for heard proposals on the transportation of children from the two common school districts to the city school during the coming year.

Those interested in the sale of trucks to the district will be heard at that time; those who wish to buy trucks, and furnish the transportation will be heard; and the matter of paying parents to transport the children without the district buying trucks will be investigated.

Those interested in any of the proposals will be heard at the News office at 7:30 o'clock.

**WEATHER MAN ON DRUNK.**  
The weather man got tanked up on corn "likker" this week, switched the variety of weather from one reverse to the other, giving us more weather thrills than a three ring circus.

Friday was hot at hades, with a strong southwest wind blowing. Before night the wind twisted to the north and blew back the things it had started in that direction.

Things were pretty decent until Tuesday afternoon when the wind got on another rampage, blowing cold from the north and a heavy frost would have resulted had not the clouds covered the heavens.

We need warm weather, but if one warm day will cause so much mischief as did Friday, then Lord forbid.

**CAUGHT BIG BASS**  
Ed Mickle landed a four-pound bass in the Palo Duro creek Thursday morning, the first big catch of the year by Canyon fishermen.

Scott Downing decided that Ed's fish was only a small affair and landed a four and three-fourth pounder. Judge Reeder of Amarillo landed a five pound bass last week at the Palo Duro Club Grounds.

**STUDENT WORKER NAMED**  
The committee from the Missionary Auxiliary Northwest Texas conference of the Methodist church in the meeting last Thursday selected Mrs. Tom Delaney of Memphis to be the worker among the Methodist students in the college. Mrs. Delaney will move to Canyon within a short while. This work will start with the opening of the summer quarter.

THE AMERICAN PRESS ASSOCIATION

Governor Pat Neff is suggested for the presidency of the state university. This is the first time that Governor Neff has ever been accused of being an outstanding school man, although like thousands of other Texas citizens he has been highly interested in the cause of education. There are scores of reasons why Neff should not be elected president of the university. The greatest is that he is not a school man. He is a lawyer. We do not believe that a man trained primarily as a lawyer has the qualification capable of heading the educational system of Texas. Certainly our educational system has not been such a failure that it has not produced a man trained for an educational leader so that we are forced to go outside the bounds of education to select a head of the system. In addition, Governor Neff is a politician; unfortunately our educational system is for the present a rather political football, but we have been attempting to get it out of politics, and by placing a politician at the head of the system is certainly no forward step along this desired line. Governor Neff demanded from two railroad commissioners that they promise not to run for another office while serving the state; a part of the present regent are appointives of Neff; to demand from his appointive that they remain free from state politics, and then for himself to accept appointment from his own appointees would not be very gracious on the part of the Governor. If Neff is appointed, it will be nothing more than a deplorable political move; and one that friends of education will never be satisfied with.

A delinquent tax bill has been passed by the legislature which seeks to make easy the collection of delinquent taxes. There has always been a big question in our minds why some men should pay taxes and other not be forced to do so. There are legitimate excuses in many instances for the non-payment of taxes for a few months or a year when the property owner is financially embarrassed, but when it comes to allowing taxes to run for years, there can be no legal or moral excuse. If one man pays his taxes, others should be forced to do so, or surrender ownership of his property to the man who will do so. We do not know the provisions of the new law as yet, but hope that it will be of distinct benefit to the state, county, school district and the cities of Texas.

A large number of Panhandle counties are advocating paved highways. The Panhandle has the best natural roads in the world, but even at that they are expensive to maintain. Randall county spent a big amount of money four years ago building a highway. A large amount of money is spent each year maintaining the highway, and this year the road is being practically rebuilt. Considering all of this cost year by year, and the big saving that would be made to cars

running over the road, there are many who believe that a paved road would soon be paid for by the saving to the county. At least it is an interesting study for those who like to figure, and no doubt this paving will eventually be done.

The Plainview News does not agree with our position as to the probability of getting better men in the legislature by increasing the pay, and claims that if better men offered for the legislature the people would smilingly defeat them for less competent men. Jess Adams had better look out or he will have Tom Waggoner of the Claude News on his back, as Tom believes that the ballot box is infallible and that the common voters never make a mistake at the ballot box. Jess advocates doing away with the state senate and reducing the house to one-fourth of its present membership and paying them an adequate salary. All of which we also firmly believe, but it comes right back to the proposition that we raised two weeks ago—the people of Texas seems to be pleased with the present arrangement, as they vote down every proposed change, and if under our present arrangement the legislature is not composed of men of high type, it is the entire fault of the people who are not interested enough in the selection of the best men. We believe with the Plainview editor that many incompetent men defeat competent men at the polls owing to prejudices and sometimes common ignorance of the voters. Therefore, we do not believe it so much important or necessary to continue to throw brickbats at the legislature for their incompetence, as to demand of the people that they elect better men for these positions. So long as the legislator is the servant of the people and the people make a bum choice of servant, it is the master rather than the servant who ought to be criticised.

June 2nd is the day for voting upon the question of increasing the tax rate in the Canyon City Independent school district. The question before the voters is—shall we have a big fine school house and no school, or shall we pay a little more tax, and have a good school in that good fine new school building? The question may be settled properly by voting for the increased tax.

The crowd of candidates for governor and lieutenant governor is increasing day by day. The woods is to be full of candidates next year for state offices. Politics is a fascinating game.

**JESSE JAMES SCHAEFFER**

Jesse James Schaeffer was born near Piper City, Illinois, on April 27, 1895, where he grew to young manhood. In 1910 he came to Happy, Texas, with his parents, Mr. and Mrs. Ferdinand Schaeffer, where he has spent the greater part of his time since. He served his country in the World War with the A. E. F. For the past months he has suffered with tuberculosis for which cause he was taken to Walla Walla, Washington, where in spite of the untiring aid of friends and doctors he departed from this life at 10 p. m., May 4th, 1923, age 28 years, 7 days.

The body was brought to the family residence east of Happy and the funeral services were conducted in the Wayside church on May 11th, at 11 a. m. by Mr. O. J. Taylor. The interment was at the Wayside cemetery by the side of his father who departed from this life some ten years ago. Though he has been taken from us he will never be forgotten by the many friends he has made in every place he has been.

He leaves to mourn his loss his mother, Mrs. Lizzie Schaeffer, three sisters and five brothers; Mrs. Edl Moore, George, Emil, Albert, Louis, Sadie, Alphonse and Violet. All of this vicinity except Albert of Loesch, Montana, and Alphonse, who is in the military, service stationed at El Paso.

Turning from trials of speed, the Army Air Service is planning a four-stop route between New York and Peking by way of Nome and Bering Strait. It figures that the flying time between New York and the Chinese capital will be sixty-five hours and the fare about \$1200 a passenger.

Mr. Mellon says in effect that even tho tax receipts are greatly increased, the government departments can always find some use for the extra money. So could the taxpayers, if they got it back.—Brooklyn Eagle.

**ADVERTISEMENT**

Tom Bean Times: Once in a while a business man will say, "It's no use to advertise, the folks just haven't got any money." If that business man would take the trouble to investigate the parcel post and express shipments into his town he would realize that the folks have a little kale all the time. There are not many, no matter how good their financial standing, who can buy on credit at a mail order house.

State Press: It is worth while to advertise whenever it is worth while to stay in business. The idea that there is no money between crop seasons is unsound. It is untrue, indeed. There is always money in circulation, always deposits in banks, always credit to be had by those who have a good record as paymasters. The store that stops its advertising on the theory that there is no business to be had is only contributing to the condition it thinks is in being. Good business depends on an all-year activity, with constant turnover of goods and salaries and wages. Advertising conduces to such turnover. A stream that overflows in the spring and then stays dry all summer is a poor watercourse to live by. The same with a store that is crowded with customers two or three months in the year and then subsides into cobwebs and fly tracks for the rest of the time. Advertising, when distributed throughout the year, tends to distribute business the same way. Advertising makes business because it suggests their own needs to readers. The more a people need the more they buy, the more they buy the more they produce, and the more they produce the busier they are. Finally, the busier they are the better off they are.

Mrs. F. C. Scott's music pupils gave a musical recital Tuesday night at the school, which was enjoyed very much. The graduation exercises of the Senior class of the Happy high school will be given Monday night, May 20. The graduating pupils are: Winnie Grounds, Louise Robeson, Dora Wal-

ters, Elouise Markham, Edythe and Gladys Bandy, Margaret Arnold, Willard and Winfield Miller, Melvin Walberg, Seigel Hall, and Johnnie Mann.

### Wayside Items

Our community was visited by a good rain last Sunday night. A sprinkle of hail, not enough to damage anything. There was quite a bit of electricity in the air. We have been having some real cool weather since the rain. The north winds continue to blow from off the ice they feel like.

Wayside school will close next Friday with a picnic and basket dinner at the school house. There is to be a ball game in the afternoon. Also stock judging of different kinds. We are expecting our county agent, Mrs. F. C. Vaden to be with us. Dan L. Adams is to have his milk goats there. Everyone is invited to attend.

Mothers day was observed at the Mother McGehee home in Canyon by nearly all of her children and a number of grand children. All report a pleasant day.

Prof. Grigsby made a trip to Canyon Saturday.

Ida May Hamblen entertained a number of her little friends Sunday evening in honor of her 12th birthday. Chocolate fudge candy was served to the guests.

Mrs. Jane Holland called on Mrs. Emma Franklin Tuesday afternoon.

Mr. and Mrs. Will Holland and daughters, Lucy and Roberta, accompanied by Miss Ada Franklin made a trip to Happy Friday afternoon.

Herbert Franklin was a Happy caller one day last week.

D. J. Graham and family of Happy visited at the parental Slinder home last Friday.

### Campbell Notes

Plenty of moisture, small grain looking fine and row stuff coming up nicely.

Mrs. Snyder of Lorenzo spent last week at the T. A. Dowlen home.

Miss Bernice Dowlen visited a few days in Amarillo with school friends last week.

Duncan Thomas is visiting with his sister, Mrs. Apid at Long Beach, Cal.

Mrs. Herman Mitchell of Iowa Park, and Mr. and Mrs. J. M. Conway visited at the Henry Campbell home last week.

Mr. Martin entertained some friends with a fish fry Sunday.

Mr. Lee of Oklahoma and Mr. Lee of Sweetwater visited a few days recently at the S. J. Burrus home.

Mr. and Mrs. John Cago and family of Amarillo were guests of Mr. and Mrs. G. R. Stratton Tuesday.

Mr. and Mrs. C. R. Herrington of Amarillo visited home folks Sunday.

### CARD OF THANKS

We wish to thank our many friends and neighbors for their kind assistance and beautiful floral offerings at the death of our loving son and brother, Jesse.

Mrs. Lizzie Schaeffer  
Mr. and Mrs. Edd Moore  
Mr. and Mrs. George Schaeffer  
Mr. and Mrs. Emil Schaeffer  
Louis, Sadie and Violet Schaeffer.

Premier Mussolini, of Italy, plans to excavate and restore the Curia, or Senate House, of ancient Rome, which was burned in 53 B. C. The church of Saint Adriano stands on the spot. A few years ago archeologists discovered a part of the original beautiful tessellated pavement, but Spanish monks in control of the church refused to allow further excavations.

Pulling trains day after day is very hard on locomotives. More than a fourth of the locomotives in the freight service are either in the "engine hospital" or awaiting their turn to go there.

### HOME, SWEET HOME

One hundred years ago there was presented at the Covent Garden Theater in London an opera entitled *Clari*, or *The Maid of Milan*. The music was by Sir Henry Bishop, then the most popular of English composers; the libretto was by John Howard Payne, a young American actor, turned playwright. The opera had its moment of success, but it long ago fell into oblivion. But one haunting melody from the score would not die. It is as nearly immortal as anything in music can ever be. It is *Home, Sweet Home*.

The verses that Payne wrote to the air are not remarkable as poetry. They do, however, express an emotion that almost every human heart has felt, the longing amid strange and perhaps depressing surroundings for the familiar scenes and the happy associations of home. Payne, no doubt, felt that emotion sincerely when he wrote the lines; he was a stranger in England, far from the Long Island cottage that he knew as a child; and he managed to put into a few simple words the home hunger that all wanderers know.

It is probable, however, that the song owes its vitality to the melody, sweet, wistful, exactly appropriate to the sense of the words. Whether Sir Henry Bishop himself composed it is doubtful. In the score it is called a "Sicilian air." One story is that Payne himself had heard the melody in Italy and suggested it to Bishop. Whatever its origin, it has the simplicity and inevitability of true folk music. Like *Old Folks at Home*, it does not grow old; after a thousand repetitions it still speaks to the heart. Great prima donnas are proud to bring all their art in interpreting it. The most cultivated as well as the most unsophisticated audiences listen to it with emotion. It is the most widely loved and appreciated bit of music in the world. It is fitting that the centenary of its marriage to the words of Payne's song should have been celebrated at the old house at East-Hampton that was "home" to the exiled poet.

Retrieving his tobacco in excellent condition after it had been cached for 10 years is the experience of a Canadian trapper, who makes the wilds of Northern Manitoba his hunting ground. In 1912 he made a cache at Copper Lake, which is 72 miles north of The Pas. In this cache he placed three pounds of tobacco in six half-pound tins. Returning to Copper Lake early in the present year he found that the cached tobacco was as good as ever, although it had been there about 10 years.

The adulteration of Bulgaria's famous attar of roses perfume has developed to the point where the Bulgarian Government has intervened. Essence of geraniums is being used in debasing the perfume. A bill has been introduced in parliament appropriating 1,000,000 levas in prizes to scientists who discover a process for the certain detection of the presence of adulterations in attar of roses. In normal times the leva is worth 193 cents.

In the Miles Strandish School in Cleveland history is taught by depicting various historical events on the school stage. When a child actually acts a part in the drama of history, immediately that lesson is firmly fixed in the mind and the student will remember it always, according to the teacher.

### FACT AND COMMENT

To be dissipated is to use the first half of your life to make the second half miserable.

Aluminum Sulphate is the name of the chemical salt which the Department of Agriculture has been experimenting to make soils more acid. Many plants need lime and a "sweet" soil, but a few require more than a normal amount of acids. Blueberries, orchids, and rhododendrons have made unusual gains when treated with aluminum sulphate.

Books are of pathetically little use to tell the story of nature. Few people recognize more than a dozen roadside flowers, the commonest trees and shrubs, a few kinds of birds and insects. To be able to distinguish the call notes of birds seems to most persons a miraculous gift. The few who know enough nature to be guides for a few hours' walk have knowledge that many others deeply long for and they would pay handsomely to get it.

If the gardener wishes to have the help of birds in destroying the bugs and grubs of June, he should now provide them with safe places for nesting and such building material as bits of wool, feathers, narrow strips of old cloth and short pieces of frayed rope. A pan of water with stones in it set in the ground becomes a Mecca for all the birds in the neighborhood, but place it far enough away from shrubbery to make it safe from cats. Better still, put it on top of a post.

The violin once belonging to Paganini, the father of violin technique, is kept in the Palazzo del Municipio in Genoa. The violin is a product of the master craft of Joseph Guarnerius del Jesu. With three broken strings, it lies in a silk-lined box, in a large room, where the sunlight seldom enters.

There are only 193,881 veterans of the Civil War on the pension rolls.

A Marion, Ohio, man returning from a visit to the President states that the President doesn't have time to read the newspapers, he is so busy. The President confessed to the caller, according to his report, that he takes the Marion Star to his room at night and looks it all over from top to bottom and from the first page to the last. Then he takes a rule and measures up the advertising.

The students in the Berlin "Students' Home" are so poor that they have to share one suit of clothes and attend the classes each in turn.

In Lardarello, a little town in the Italian province of Pisa, is an electric station which produces electricity from the thermal energy procured by the natural steam under the ground. This station furnishes light and power to the surrounding country.

There is no traffic in the streets of Seville, Spain, during Holy Week. All the inhabitants are imbued with a deep spirit of reverence which permits of no secular activity on these solemn days.

Mrs. Clark-----Erna Meyer  
Mr. Clark-----John Root

Happy Days—Song and Tableaux-----By School

Jowell Dairy School  
Yesterday a Success;  
Two Classes Present

The regular movable Dairy School of the West Texas State Teachers College for this week was held at the Jowell school thirteen miles southwest of Canyon yesterday. The school was well attended according to those in charge. Besides the speakers from Canyon, County Agent Bennett attended with the Happy agricultural class. Mr. Bennett gives each Wednesday afternoon to the Happy school for the purpose of training the boys in stock judging work.

One interesting feature of the school was the work done by the vocational high school boys of the college in testing milk samples brought in by the farmers of the local community.

Miss Burton illustrated her talk on foods by means of several charts and told the people that she trusted they would not become too much interested in milk to give their children sufficient amounts for body building. She illustrated three well balanced meals that could be used in which milk was one of the chief articles of the diet.

T. C. Thompson illustrated the most approved types of dairy equipment and demonstrated a new type of churn which has been loaned to him for demonstration purposes only. One of the most interesting features of his talk was the guessing contest concerning the number of minutes it required for a cream separator to run down. Miss Opal Scott won this prize which was a small glass churn.

Mr. Phillips, who was in charge of the meeting, talked on the value of dairy farming as a side line. His talk was illustrated by means of a series of charts.

Those in charge of the meeting were well pleased. It is understood that the next meeting will be at the Keenan school east of Canyon.

He kissed her on the cheek;  
It was a harmless frolic,  
He's been laid up a week  
They say with painter's colic.

If there is any color more hated in this country than Russian Red it is Parlor Pink.—Boston Transcript.

Facts About Child-Birth

An eminent physician has shown to thousands of expectant mothers just how to be free from dread, and from much of the suffering which many mothers experience for months, right up to the moment when the little one arrives!

Mrs. Wm. Washington, 107 Louise Ave., Nashville, Tenn., says: "There is positively no woman on earth that would be without 'Mother's Friend' during expectancy if she only knew the value of comfort."

"Mother's Friend" is externally applied to the region of the abdomen, back and hips. It relieves the tension on nerves and ligaments as month follows month. Finally, it makes child-birth a joy instead of a painful dread.

Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradfield Regulator Co., B.A.-47, Atlanta, Ga., for a free wonderful book containing information every expectant mother should have. Get a bottle of "Mother's Friend" today. It is sold by all druggists—everywhere.

SHOES!

Record sent us from the factory of Shoes returned to them that did not give satisfaction:

September, 1922

3 pairs out of each 10,000 pairs produced.

October, 1922

4 1-2 pairs out of each 10,000 pairs produced.

November, 1922

10 pairs out of each 10,000 pairs produced.

December, 1922

10 pairs out of each 10,000 pairs produced.

January, 1923

11 pairs out of each 10,000 pairs produced.

February, 1923

8 pairs out of each 10,000 pairs produced.

This record covers a period of the six most severe months of the years on Shoes—the mid-winter months.

Notwithstanding the fact that this line of Shoes, the Godman Shoe, is the cheapest Solid Leather Shoe in the United States today. They are giving almost one hundred percent satisfaction. It means TO YOU SATISFACTORY SHOES at practically half the money that you pay for other lines of Shoes.

Call and we will explain.

**DEEDS FILED LAST WEEK IN COUNTY**

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office:

Mary Elizabeth Lester to J. M. Vestek, lot 19, block 32, Canyon City. Consideration, \$1500.

Leonard P. Sewell to John S. Harper, west half section 4, block 11. Consideration, \$10.00.

W. R. Ballard to C. F. Kerr, 40 acres section 31, block B-5. Consideration, \$4200.

David Thomas to Miss Lennie Babston, lot 2 and east 20 feet lot 3, block 73, Canyon City. Consideration, \$520.

**Umbarger Notes**

Paul Artho and family spent Sunday at the Joe Friemel home.

A Wheat Growers meeting was held at Umbarger. They are figuring on building a new elevator for the wheat growers.

About two inches of rain fell here Monday morning. The rain was good for the wheat and oats.

Mrs. V. Skypola Sr. celebrated her birthday Sunday. She is 54 years old.

V. Skypola Jr. made a business trip to Amarillo Thursday.

Henry Beckman was a business caller in Canyon Friday.

Mrs. Rose Mingle spent Sunday at the E. J. Friemel home.

Clem Friemel was a business caller in Canyon Friday.

Tice Hess was a business caller in Canyon Saturday.

When in 1911 the United States made a fifteen-year treaty with Great Britain, Japan and Russia to prohibit pelagic sealing in the North Pacific the estimated number of fur seals was 196,000. An estimate this year places the present number at 600,000. Before white men depleted the herd in the nineteenth century it numbered perhaps 5,000,000. If the seals continue to be protected and only the surplus males are killed, as at present, they may in time become as numerous as they ever were.

A forrester in New Jersey proposes to set out forty acres of otherwise undesirable land to Christmas trees. He will plant about five thousand trees to the acre, at an estimated cost of \$40, and believes that in six or seven years every tree that is harvested will be worth thirty cents. The estimated increase from \$40 to \$1500 may be too great, but there is no doubt that in a thickly settled region Christmas trees and nursery trees can be made a profitable crop.

From time to time various magazines have urged trout fishermen to use a barbless hook. A skilled fisherman would lose few fish through lack of a barb, and he could release an undersized fish without tearing its gills or holding it so tight as to rub off its protective covering of slime. Those who have tried fishing with a barbless hook find it more exciting and more humane, which means more sportsman-like.

**"My Rheumatism is gone -"**

Time's glorious joy in knowing this - that more Red-Blood-Cells stops Rheumatism, and that S.S.S. builds Blood-Cells!

"There are thousands of you men and women, just like myself, slaves to rheumatism, muscle pains, joint pains, and horrible stiffness. I had

S.S.S. thoroughly rids the body of Rheumatic Impurities.

The wrong idea about rheumatism for 35 years. I didn't realize that increasing blood-cells had the effect of completely knocking out rheumatic impurities from the system. That is why I began using S. S. S. Say what you will, I never knew such startling results were possible. Well, folks, besides knocking out my rheumatism it gave me back some of the strength I need to have way back! I've got a better color in my face, my appetite is dandy, I don't use my crutches any more. I'm walking around straight-up on two young legs!" S. S. S. makes people talk about themselves the way it builds up their strength. By building blood-cells it builds nerve strength for young folks who ought to have more, and for older people who have little. It stops pimples, boils, blackheads, eczema, chases away blood impurities. You can always rely on it. Start S. S. S. today for that rheumatism. You'll feel the difference shortly. S. S. S. is sold at all good drug stores. The large size is more economical.

**S.S.S. makes you feel the power again**

**IN THE SAME TOWN**

We had occasion to spend the day in a progressive little town not far from Dallas not long since. A big, fine, successful man took us in tow and showed us over the town. He had a good word for everybody and everything and he made us feel we were glad we were alive. That night our train was late and we sat alone in the station, watching the people come and go, hoping to catch sight of a familiar face. At last one came—one who we had met early in the day. We talked, and he pointed out the flaws and faults in everybody and everything we so pleasantly recalled! When our train came, we were glad of an opportunity to escape—an opportunity to throw off the pall of depression he had cast

over us. We couldn't help recalling the words of the old Quaker who sat on the square and whittled: "What manner of people live here?" asked a "What manner of people lived in the town from whence thee came?" "The meanest, most cowardly, unneighborly people in the world." "Thou wilt find the same here," concluded the philosopher. Another newcomer asked: "What manner of people live here?" "What manner of people lived in the town from whence thee came?" "The finest, best, most lovable people in the world!" "Then," said the Quaker beamingly, "thou wilt find the same manner of people here!"—Crowdus Drug News.

A process on which the chemists are still working will, if it succeeds, extract the resin from waste pine wood and make the wood itself available for pulp. In the South there are four million acres of land covered with resinous stumps, now lying idle because it costs more to remove the stumps than the land is worth. As the new process would make the stumps worth \$50 a cord, it would pay to clear and cultivate the land. The process would produce not only pulp but valuable by-products in the shape of turpentine and resin.

Baseball has not only kept alive in France since the American army came home but has grown. In Paris there is an active city league of eight clubs that play almost as well as our semi-professional leagues, and in the north of France the cities of Turcoing, Roubaix, Lille and Douai have teams; so do Tours, Le Mans, Saint-Nazaire and Bordeaux, which were formerly American army headquarters. The French players are fast base runners and often field brilliantly, but at bat they are still shy of fast balls.

Let the young lady who would be as "pretty as a picture" beware of an ugly frame of mind.

**NOTICE OF ELECTION**  
Whereas, on the 25th day of April, 1923, the Board of Trustees of the Canyon City Independent School District passed and entered on its Minutes the following order, upon motion of A. N. Burgan, seconded by T. V. Slack, with all members voting in favor of the order, to-wit:

**Order for School Election**  
"On this the 25th day of April, A. D. 1923, came on to be considered a petition in writing signed by C. N. Harrison and thirty other persons, asking that an election, as hereinafter ordered, be ordered by this Board, for the purpose hereinafter set forth:

"And it appearing to the satisfaction of the Board that said petition is signed by at least twenty taxpaying voters of this District and that the election petitioned for should be ordered:

"It is therefore ordered by the Board of Trustees of the Canyon City Independent School District that an election be held at the Court House of Randall County, Texas, in the town of Canyon, in said Canyon City Independent School District on the second day of June, A. D. 1923, to determine whether the Board of Trustees of said District shall have the power to annually levy and collect a tax upon all of the taxable property in said District for the support and maintenance of the free public schools in said Canyon City Independent School District of and at the rate of not exceeding One Dollar on the One Hundred Dollars Valuation of all taxable property in said District, provided that the rate of tax levied and collected both for the support and maintenance of the free public schools of said District and paying interest on and creating a sinking fund for the payment of the outstanding bonds of said District shall not exceed the sum of One Dollar on the One Hundred Dollars Valuation of all taxable property in said District, said tax, if voted, to be levied and collected for the year 1923, and annually thereafter unless discontinued as provided by law.

"S. V. Wirt is hereby appointed Judge of said election, and John Nickson, A. M. Smith and T. V. Reeves are appointed clerks of said election; and said election shall be held as nearly as may be possible in conformity with the general election laws of the State.

"None but property taxpayers who are qualified voters in said Canyon City Independent School District shall vote in said election.

"Those in favor of the levying of such tax shall have written or printed on their ballots 'FOR MAINTENANCE TAX,' and those against levying of such tax shall have written or printed on their ballots 'AGAINST MAINTENANCE TAX.'

"The President and Secretary of this Board shall cause notice of said election to be given in form and manner and for the time prescribed by law."

Therefore, notice is hereby given that said election as above ordered will be held as set out in said order of the said Board of Trustees. Given under our hands and the seal of said Canyon City Independent School District, at Canyon, Texas, this 25th day of April, A. D. 1923.

G. G. FOSTER,  
President Board of Trustees, Canyon City Independent School District.

**NOTICE OF SALE UNDER CHATEL MORTGAGE**  
THE STATE OF TEXAS,  
County of Randall.

To Whom It May Concern:

This is to notify you that on Tuesday, May 22, 1923, at the court house door of Randall County, Texas, in the town of Canyon, between the hours of 10 o'clock a. m., and 4 o'clock p. m., I will offer for sale, and sell to the highest bidder for cash, the following described personal property, to-wit:

30 head Registered Hereford Bulls, which are now coming four years old, all branded double breach across the butt, all of which stock were on March 18, 1922 located on the C. T. Word farm 3 miles northwest of the town of Canyon, in Randall County, Texas, and which were the bulls purchased by said C. T. Word from C. C. Poff, BUT WHICH BULLS ARE NOW LOCATED NEAR BUSHLAND, POTTER COUNTY, TEXAS, on the Bush Ranch, which is being occupied and cattle kept thereon by said C. T. Word.

The foregoing sale will be made pursuant to the terms and provisions of a certain chattel mortgage given on

March 18, 1922 by C. T. Word to J. C. Geary, which is on file with the county clerk of Randall County, Texas, and which was executed to secure the payment of 1 note for \$1986.00, dated Mar. 18, 1922, due Nov. 1, 1922, 10 per cent int. per annum from date, and providing for 10 per cent additional for attorneys fees if placed in the hands of attorneys for collection, after maturity. Said mortgage provides for sale of said property, upon default in payment of note, at the above place, with or without having the property present at said sale. Said note is past due, unpaid, and payment has been refused, and same has been placed in attorneys hands for collection, and said property will be sold to pay off said note, including principal, interest and attorneys fees, as provided in said mortgage.

Witness my hand, this the 8th day of May, 1923.

J. C. GEARY,  
Mortgagee.

Letting a man follow the wrong course because he is your friend is mistaken kindness.

A Washington, D. C. policeman took exception to the tin pan din and excessive horn blowing of a wedding party and escorted the principals to the police station. The police commissioner ordered their release saying it was just foolishness to arrest them. "Most people only get married once and they ought to be free to celebrate it. They can blow 40 horns if they want to," he said.

The Department of the Interior has approved the issuance of a pension certificate to Shub-Shee-Ahsh, alias Curly, a Crow Indian, for his services in the Indian campaigns of 1876 and 1877, which included participation in the Custer Massacre. Curly now lives on the Crow reservation in Montana. According to War Department records he escaped death by mingling with the attacking Indians and later rejoining the government forces.

One way to discourage some of these ladies from their exhaustive endeavors would be to insist that the dancing be done only with their husbands.—New York Evening Post.

**RESOLUTION APPROVING THE ENGINEERS REPORT COVERING THE IMPROVEMENTS ON A PORTION OF EVELYN STREET IN THE CITY OF CANYON AND DIRECTING A HEARING TO OWNERS OF PROPERTY THEREON, AND OTHER INTERESTED PARTIES, CONCERNING AN ASSESSMENT OF THE COST OF A PORTION THEREOF AGAINST THEM AND THEIR PROPERTY.**

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF CANYON:

WHEREAS, the construction of certain improvements has heretofore been ordered by the City Commission of the City of Canyon upon Evelyn Street from the West property line of West First Street to the West property line of Heller and McGee Avenue.

WHEREAS, the contract therefor has been let to the PANHANDLE CONSTRUCTION CO., and W. D. Howren, Engineer, has been directed to prepare a bill showing the cost of said improvements, and other matters, as prescribed in the resolution ordering same, and Ordinances of the said City; and

WHEREAS, the said Engineer has filed with the Commission a statement or report in writing, which statement or report in writing shows the total cost of the said improvements, the portion thereof to be assessed against the property abutting on said street and the owners thereof, and the cost per front foot proposed to be assessed against the owners thereon and their property; and

WHEREAS, the said report has been inspected by the Commission and all errors therein have been corrected, THEREFORE:

BE IT FURTHER RESOLVED, that the said roll, statement or report is in all things approved, and that it is necessary to assess a portion of the cost of said improvements against the owners of property abutting upon said street within the area named to be improved, and against their property; and

WHEREAS, the said improvements consist of paving the roadway of said street as established with three inch vertical fiber No. 1 vitrified brick laid upon natural foundation, together with the construction of concrete curb and gutter along curb lines, with all necessary excavation and grading; and

BE IT FURTHER RESOLVED, that a hearing shall be given to said owners of said property and to all persons interested in same, or anyone having a lien or claim thereon; which hearing shall take place before the City Commission of the City of Canyon in the Chamber of the Commission of the City Hall in said City on the 28th day of May, 1923, at 10 o'clock A. M., at which hearing the said owners and other interested persons, their agents or attorneys shall receive a full and fair hearing before the said Commission as to the benefits, if any, of the said improvements to the property, or as to the regularity of the proceedings with reference thereto, or as to any matter or thing connected therewith; at which hearing the said property owners, or other interested persons may introduce or produce witnesses, and said hearing shall be continued from day to day and from time to time until all are fully heard, and after said hearing the Commission will determine from the evidence before it what sums, if any, shall be assessed against said owners and their property, provided no assessment shall be in excess of the benefits of the said improvement in the enhanced value of the property occasioned thereby.

That the City Clerk is hereby directed to give notice hereof by publication of a true copy of this resolution in the Randall County News, a newspaper of general circulation in this city, which notice shall be published not less than three times, the first publication to be not less than ten days prior to the date of the said hearing. Said Clerk shall append to the said copy of this resolution his signature and certificate that the same is a true copy, and the publication of such copy shall be sufficient notice to said owners, or other interested persons, to appear and be heard at the time and place herein mentioned.

That the City Clerk shall mail to each of the said owners of abutting property, at their Postoffice address, if known, or, if unknown, to their agents or attorneys, a copy of this resolution by registered mail deposited in the Postoffice at Canyon, Texas, not less than ten days before the date set for said hearing, but such notice shall be cumulative of the notice above required by publication, and the failure to mail said letters, or any of them, or the failure of the person to whom addressed to receive the same, shall in no wise affect the validity of said notice.

That the total cost of the said proposed improvements between the above mentioned limits on said West Evelyn Street is \$20,815.80.

That the amount per front foot proposed to be assessed against the abutting property and the owner thereof is \$4.25 per front foot for a Thirty (30) foot street.

That the said owners of said abutting property and other interested persons are instructed to take due notice hereof.

That this resolution shall take effect and be in full force from and after its passage.

Passed and approved this 7th day of May, 1923.

(SEAL)

C. N. HARRISON, Mayor of Canyon, Texas.

Attest: HARVEY CASH, City Clerk of Canyon, Texas.

# When you do that Building

Whether it is a Chicken Coop or a Fine Home, we will be mighty glad to furnish the necessary Materials. Our large stock of everything a builder can use is here for your consideration. Remember that a good shed for your farm implements will pay large dividends. It's what you save that counts!

# Fordson

THE UNIVERSAL TRACTOR

## Fordson Often Does More In a Day Than Six Horses

The Fordson substitutes motors for muscles.

The Fordson substitutes tractor wheels for the legs of man and horse.

The Fordson takes the burden off flesh and blood and puts it on steel.

It allows the farmer's energy to be devoted to management, and not merely to operation. It gives him time. It cuts his producing-costs.

There's a big-story of savings made possible by the Fordson. Let us tell you. Write, phone or call.

LITTLE WANT ADS BRING RESULTS

**SANITATION DISCUSSED**

(Continued from page one)  
ground or treated with borax. Disposal cans should be screened. The best way is to burn all garbage. It is easy to poison flies with 3 teaspoonsful of formaldehyde in one pint of sweet milk or sweet water.  
Dr. Wilson believed there are cow lots in Canyon which have not been cleaned since the town was started. Disinfecting a cow lot may be alright, but it is too much like the individual putting on perfume when he needs a bath.  
C. F. Walker discussed the problem of a sanitary dairy and gave instructions as the location, lighting and care of milk.  
D. A. Shirley told how to have a sanitary hog pen, but stated that the hog would not live more than two weeks in a strictly sanitary condition. He classified hog pens as unsanitary, more unsanitary and most unsanitary. He stated that the city ordinance allowed two hogs to be kept in town, but that was too many. Hogs have no place in towns.

J. M. Vetsch urged that the citizens keep garbage in screened containers until it could be hauled away, and that tin cans be boiled before putting in the alleys for the city's man. He believed that the city's work was too much for one man and that it was impossible to keep the town in good condition without one man to look after this one part of the city's work. He was in favor of having an inspector who had authority.  
Mr. Walker urged that all who had not signed up for regular monthly dues to the Commercial League to do so at once.  
Mr. Allen believed that a clean town had a wholesome effect upon the citizenship. Clean streets make for a clean front yard, better kept premises, cleaned business houses, and finally better citizenship. Of all the ways proposed to dispose of garbage, the best one was to burn in the cook stove.  
C. W. Warwick gave three instances of the good effect that the paving was having upon outside people and upon our own home people.  
Mr. Vetsch called attention to the great damage done the cement sidewalks by roller skates.

**ACCURACY**

We are scarcely aware of the enormous inaccuracy of life and of the human mind until we reflect upon it seriously. To begin with, most of us do not see accurately. We walk thru the physical world as in a dream, with a lot of vague, conventional impressions, but with no real, close observation of what goes on about us. "I am a man for whom the visible world exists," said Theophile Gautier. For most of us there exists only a world of our imagination, which has little correspondence with the harsh reality of fact. To our inaccuracy in observing is added inaccuracy in remembering. Who can recall with detailed correctness the incidents of yesterday, let alone those of a week or a year ago? Who can rely upon his memory for words, even important words, uttered by others? Yet we do not hesitate to quote sentences of the utmost consequence as if we retained the exact form in which they fell from the speaker's lips. And as we do not observe accurately or remember accurately, so we do not state accurately. Speech is the readiest currency we have. We scatter it round us with the utmost freedom. But we are far less careful about its correctness than about its abundance. The advice to limit our conversation to yea and nay rests on a sad conviction that when we go beyond this we are too likely to utter something that is far removed from strict veracity.  
And no doubt accuracy has its terrors. There are people in the world who pride themselves upon the correctness of their speech, in every aspect, sometimes with reason, sometimes without. Alas! such people are too prone not only to parade accuracy themselves but to inflict it upon others. We all know too well the pest who walks ever ready to set us right, to correct our pronunciation, to correct our statistics, to correct our memory. Persons of that sort give accuracy a bad name.  
Evidently those inconveniences arise not from the possession of accuracy but from the desire to impose it. The wise and comfortable way to get thru life is to try to make your own statements conform to fact, so far as is humanly possible, but to regard the inaccuracies of others with tolerance and even with sympathetic amusement.

The United States Public Health Service forbids the use of the common drinking cup in all places over which it has control, including all interstate trains. Many states and many cities too have prohibited it. Almost every communicable disease finds its port of entry through the nose or mouth.

**ORDINANCE NO. 47**

An Ordinance amending Section No. 11 and Section No. 17, of the Franchise granted to the Canyon Power Company by the City of Canyon City: BE IT ORDAINED by the City Commission of the City of Canyon City, Texas, that Section No. 11 of the Franchise granted to the Canyon Power Company by said City shall be amended to read as follows: "Said grantee shall be required to furnish continuous service of Lights each and every day during the life of this Franchise, except in case of fire, unavoidable accident or other unavoidable calamity," and that Section No. 17 of said Franchise shall be amended in part as follows: "The City of Canyon City acting through its City Commission hereby agrees to take, and the grantee hereby agrees to furnish not less than Seventy-one (71) street lamps, to be located at the place or places designated by the City Commission, and for the benefit of the Citizens of Canyon City, for a term co-extensive with this Franchise, and to pay the said grantee for such service not more than One and 50/100 (\$1.50) Dollars per lamp per month." The Term "lamp" is to be based on a standard 60-watt tungsten lamp, or its equivalent in current consumption. All of said Lights are to be installed and kept in operation at the cost and expense of the Grantee; said lamps are to be burned on what is known as "Moonlight schedule," but it is expressly provided that said street lights are to be burned on all dark, stormy or cloudy nights. Passed this the 16th day of May, A. D. 1923. Approved, this the 16th day of May, A. D. 1923. C. N. HARRISON, Mayor, City of Canyon, Texas. Attest: PEARL JINKINS, City Secretary. 713

**IS BOSSY PAYING HER WAY?**

You can't estimate a dairy farmer's profits by the number of cows in his herd. The herd which shows the largest profit is the one where each individual cow brings in more than the cost of her keep.

Accurate testing of each cow is the only way to decide which animals are a source of profit. And the most satisfactory means of testing is through a local cow testing association.

The First National Bank will be glad to give any Randall County farmer information about these associations.

**Gum-Dipped Cords**  
Gaining New Fame for Service  
194% Sales Increase in Last Six Months  
Shows Trend Toward Firestone

The public has emphatically spoken. The popular preference in all territories is unmistakably the Firestone Gum-Dipped Cord.  
A standard of service has been set by these famous tires without parallel in the past. It has brought a sales increase of 194% for the past six months over the same period of a year ago—the greatest gain in all Firestone history.  
The Firestone Gum-Dipped Cord is the mighty achievement which has enabled Firestone to break the tremendous record of past Firestone success.  
The tire buying public has been aroused to the

results in economical mileage of the Firestone process of double gum-dipping. The buying-swing toward Firestone shows how it has advanced the public's standard of tire value.  
Ask owners about Firestone performance on their cars. Note the big taxicab fleets Firestone-equipped. Watch the new cars you see—just from the factories; Firestone Gum-Dipped Cords are seen everywhere in fast increasing numbers.  
Get the maximum extra mileage that only the Firestone name assures you. Only by insisting on this name can you be sure of getting the genuine gum-dipped cord.
