

HOMESEEKERS DAY ON 18TH CONTESTANTS WORK TO LEAD RACE SATURDAY

**THE BIG VOTE PERIOD CLOSES
SATURDAY NIGHT AFTER WHICH
TIME CONTEST RUSHES TO CLOSE**

**SUBSCRIPTIONS RECEIVED THIS WEEK ARE
POSITIVELY THE LAST TO CARRY MAXIMUM
NUMBER OF VOTES.**

**EIGHT O'CLOCK SATURDAY
NIGHT**—not one minute later—marks the close of the "first period" in the Randall County News' big "Everybody Win" Prize Contest.

After that time, and for the next two weeks, the "second period" schedule of votes will be in effect, which means a material reduction in the voting power of all subscriptions; while the third and last period of the contest will see the scale of votes almost cut in half.

Leading candidates are seething with the bustle of preparation for the final dash, and, with one accord are going to fight valiantly and determinedly to reach the goal where the big prize Ford Sedan, worth \$815.50 awaits.

New Candidates Could Win

A study of the standings of the candidates at the present time, a record of which appears on this page, shows that several of them are right in a bunch, HOWEVER, a brand new candidate, starting now with a dozen long term subscriptions could TOP THE LIST just as easy as anything in the world. Why don't they do it? Well, don't be too sure that they won't. There are any number of go-getters in this section of the county who could take "a week off" and make their time worth the price of that Ford Sedan. It is up to the candidates who are in this race to get busy or lose a mighty valuable prize.

Intense Excitement This Week

Intense though suppressed excitement prevails this week among the various candidates as each realizes she is within reach of a goal worth \$815.50—a small fortune, indeed—all to be won or lost during the next few days, for that is exactly what it means, depending almost entirely upon subscriptions turned in before the close of the "first period" this Saturday night.

Several have vowed this week to lead the race and get so far ahead of their competitors that they will be assured of winning. However, they will need to put out some real earnest effort, backed up by results, or someone else will hop into this fray and win out over the entire field.

Speed Will Win

The crucial test is now at hand. If you ever intend doing anything BIG in this race DO IT NOW! Instead of being in second, third or fourth place get up at the top and STAY THERE! Now is the time to pile up and an insurmountable vote total. NOW IS THE TIME TO MAKE REASONABLY SURE OF THE PRIZE YOU MOST DESIRE.

Never again, after this Saturday night, will it be possible to secure the MAXIMUM NUMBER OF VOTES ON SUBSCRIPTIONS. This is final and fair warning. To hold back subscriptions now or to rely upon promises to subscribe later simply means that you will have to take less votes on such orders. We are putting it up to you squarely. If you entertain any desires whatever of being declared winner of that brand new Ford Sedan or the Roadster, to be awarded just two weeks from next Wednesday, do not fail to turn in every subscription to your account before the close of the "first period." A FEW LONG TERM SUBSCRIPTIONS RIGHT NOW WOULD TRULY "CINCH" THE BIG PRIZE.

A Timely Warning
As a timely warning, DO NOT TRY TO FIGURE JUST HOW MANY

VOTES IT WILL TAKE TO WIN. Don't be afraid of having too many votes. It would be better to win the Sedan with a million more votes than necessary than to fall short by a few thousand, representing a mere handful of subscriptions.

At any rate, this Saturday night, to a great extent, will tell the story. Your fate is in your hands. We can help you only by telling you how. You can sweeten or embitter it yourself. Your own subscription counts.

WORK NOW IF YOU EXPECT TO WIN!

W. F. White of Fort Worth Sees Great Development on Plains

W. F. White of Fort Worth was in the city Tuesday looking after his interests in Randall county.

Mr. White believes that great development is to be seen in the Plains this year. He says that people in every section of the United States are looking to the Plains of Texas as their future home.

Mr. White states that all of the ranches on the Plains are to be broken up and converted into farms owing to the condition of the cattle business.

Mr. White advises Canyon to advertise the advantages of Randall county more than we ever have in the past. He believed that the Hearst papers were doing a notable work for West Texas in the articles published in the Fort Worth Record and other 21 daily newspapers.

Memorial for Woodrow Wilson Held Yesterday Afternoon at College

Memorial services of Ex-President Woodrow Wilson were held yesterday afternoon at the College auditorium at 4:00 o'clock. The following was the program:

Invocation—Dr. D. H. Munson.
Address—Mr. J. W. Reid.
Remarks—President J. A. Hill.
Reading—"Captain; Oh My Captain"
—Whitman—Miss Vernita Stewart.
Song—Recessional—Congregation.
Benediction—Rev. B. F. Fronabarger.

Mr. Reid made a splendid address on the life of the Ex-President and his work during the world war.
School work at the College was dismissed after the program for the remainder of the day.

REFEREES BASKETBALL.

W. E. Lockhart was in Memphis Friday to referee the Hall county basketball tournament. He returned to Clarendon to referee a game Saturday.

Mr. Lockhart goes to Tulia Friday and Saturday to referee the county meet.

Eight high school teams will participate in the tournament here next Friday and Saturday.

JUNIOR RED CROSS WORK.

U. S. Villars of St. Louis was in the city this week organizing the work of the Junior Red Cross in the city and country schools of the county.

O. W. H. Cook of Wellington Elected Cashier of First National Bank

O. W. H. Cook of Wellington has bought a large block of stock in the First National Bank of Canyon and has been elected cashier of this bank.

Mr. Cook has been with the Wellington State Bank for the past three years where he has built up a wonderful financial institution. He was with the Ft. Worth National Bank before going to Wellington, and has been connected with other large banks of the state.

R. I. Graves, retiring cashier of the First National Bank will stay with the bank.

Mr. Cook states that he was attracted to Canyon by the wonderful possibilities that he believes possible for the Plains country. He has long recognized the fact that this was fast becoming the great cotton raising section and agricultural section of Texas. He states that he has seen people from all sections of the Southwest who are interested in the Plains country, and believes that Randall county has unusual opportunities if we tell the world of our wonderful opportunities.

Historical Banquet Set For Friday Night of The Coming Week

Tickets for the Panhandle-Plains Historical Society banquet are on sale for Friday evening, February 15th, and must be purchased by February 10th.

A business session of the Society is to be held at the College building before the banquet, which will be served by the Home Economics Department.

T. D. Hobart of Pampa, manager of the Adair interests, will be one of the interesting pioneers present at this banquet.

Judge A. J. Fires of Childress, has sent to the secretary, Mrs. T. V. Reeves \$25.00 for life membership in the Society.

Randall County Ballots Have Not Been Called for by Federal Officers

Randall county's ballots in the last general election are still in the hands of County Clerk, Mrs. Ethel Woods, or were early this morning. Mrs. Woods has been expecting that the officers of the Senate would come at most any minute to take the ballots to forward to Washington to be counted in the Mayfield-Peddy fuss.

Mrs. Woods states that Randall county's ballots are in good condition and ready for the collectors.

THORNTON FOR COMMISSIONER

To the Voters of Randall County:
I wish to announce to the voters that I am a candidate for the office of County Commissioner, Precinct No. 2, subject to the will of the voters of that precinct in the Democratic primary in July, 1924.

I have lived in Randall county for five years, coming to the Plains from Corsicana. I have been engaged in the mercantile business and been a farmer all of my life. I have never asked for a public office. I understand the duties that would be expected of me if elected to this office, and believe that if elected I am qualified to serve not only the tax payers of this precinct, but of the entire county. I shall greatly appreciate your support in the campaign and vote in the primary.
A. P. THORNTON.

STORK SPECIAL.

A son was born to Mr. and Mrs. Roy Campbell January 30.

Large Increase in Poll Tax Payments in Randall County This Year

There was a total of 1453 poll tax receipts issued by Collector W. C. Black up to Thursday night of last week, the final time for tax payments.

This is an increase of more than 200 over last year's payments. There are practically one hundred overs in the county, making more than fifteen hundred possible voters in the county this year.

The following was the payment by precincts:

Precinct No. 1	919
No. 2	29
No. 3	25
No. 4	50
No. 5	122
No. 6	36
No. 7	23
No. 8	78
Exemptions	71
TOTAL	1453

Reid Family Injured Yesterday When Closed Car Turns Over

The closed car of J. W. Reid was overturned yesterday afternoon on the highway eight miles north of the city when a rear tire blew out.

Mrs. Reid's collar bone was broken, and her son, John, suffered a broken leg. Edmund was cut by glass, but his injuries are not serious. Mr. Reid suffered no serious injuries.

None of the family know just how the accident occurred.

News About New Depot Expected During the Next Two Weeks

The directors of the Santa Fe met in Chicago this week and made the appropriations for the coming year, in the way of permanent improvements and rolling stock.

When the budget left the Amarillo office it contained the recommendation for a new depot at Canyon. Word has not yet been received at the Amarillo office as to whether this item was finally approved. The itemized statement of the budget will likely not be available in this section for a week or ten days.

HOMESEEEKERS DAY AND TRADES DAY ON FEBRUARY 18 WILL BRING GREAT CROWD TO CITY—COMMITTEE PLANS

BARBECUE WILL BE GIVEN AT NOON TO ALL WHO ATTEND—BIG PROGRAM OF ENTERTAINMENT PLANNED FOR THE DAY—SPEAKERS COMING FROM VARIOUS CITIES—BIGGEST DAY CANYON HAS EVER HAD IS PLAN.

Canyon is to have its first annual Homeseekers' Day celebration Monday, Feb. 18, it is announced by the Chamber of Commerce.

Features of this event will be a free barbecue, concerts by the West Texas State Teachers College Band, speeches by political aspirants for offices to be awarded this year, prize contests, a street carnival, free souvenirs, and the usual trades day features familiar to all.

Every man, woman and child in Randall County is expected to be on hand to welcome the homeseekers, and a total attendance of around 10,000 is expected. Local

merchants will offer specially priced merchandise to all comers, and if the weather is favorable a number of open-air events will be staged, including a "\$50 car race," street dance, parade of floats and similar attractions.

Trades Day Was Inspiration

The inspiration for the occasion grew out of the suggestion that Canyon revive the old-fashioned trades days. A committee consisting of H. C. Gamble, chairman, W. A. Warren, T. I. Poor, Dan F. Sanders, C. L. Thompson, W. W. Kuehn and Louis F. Hart was appointed and at a meeting Thursday night went into the matter. As they discussed it the affair grew, and with the inclusion of the Homeseekers' Day proposition assumed large proportions.

Canyon's advantages as a farming center, the prospects for a 17,000 acre cotton crop in Randall County, the assurance of a cotton gin, the opportunity offered in Randall County's cheap land, admittedly almost perfect for cotton culture, and the outlook for a banner year in 1924 were all factors in deciding the committee that the present is the proper time to call the attention of the world to what this section has to offer.

Political Speakers Available

Going into the matter of a program, the committee decided that in view of the fact that this is a political year, it should not be difficult to bring here a number of famous speakers who are beginning their campaigns at this time. Attention of the committee also was called to the benefits to be had from industrial lectures now available through the enterprise of several large commercial organizations, and it was voted that these should be invited to send representatives.

BUILDING NEW HOUSE.

F. E. Smith has started work on a new home three blocks south of the square on Eighth Avenue.

PLANT SOME TREES—NOW!

OUR SLOGAN

1,000,000 VOTES BY SATURDAY NIGHT

WHO WILL HIT THAT MARK?

DO YOU KNOW THAT—

If the News' contest had closed last night the following would have been awarded prizes in the order listed?

This is the correct relative standing of candidates and it depends UPON WORK DONE THIS PERIOD—before eight o'clock Saturday night—as to who will have the best chance at autos. Make these last few hours of the "Big Vote Period" WIN FOR YOU!

MRS. J. L. LOVVORN	674,450
MRS. P. F. HICKS	648,975

THE AMERICAN PRESS ASSOCIATION

The names of present cabinet officers, and the names of several past cabinet officers are being dragged into the oil scandal. Both democrats and republicans are involved in the scandal. The republicans are charged with actually putting over the deal, but from all indications the democrats will bear the burden of having had several cabinet members under President Wilson as acting attorneys for the big oil companies which are involved in the scandal. The situation is indeed bad for the country. Too many of our people believe that all in politics is rotten and that all of our public men are pure grafters. Indeed, it may be that a large number of men enter into politics with the view of graft and corruption. But on general principles, men who accept employment of the oil interests cannot be charged with graft. The big interests must fight against those who would destroy them. They employ the biggest men that they can find. An ex-cabinet officer is an ideal man to fight the battles of the corporations as he has had an opportunity to see the inside workings of the government. He is in position to earn a fabulous fee, and honestly earn it. But the fact that prominent politicians are involved on both sides is a bad thing for politics on a presidential year. The name of McAdoo has entered into the investigation. He is a presidential candidate, and the way in which he quickly demanded to be heard by the senate investigating committee indicates that he realizes what a great weight the oil scandal is going to have in the campaign this year.

Woodrow Wilson died Sunday morning from an illness which dates back to the time when he first realized that American sentiment was opposed to his ideals of a League of Nations as a means of preserving peace in the world. The true worth of Woodrow Wilson cannot be told at this time. To his friends and admirers, he is the greatest man who has lived since Jesus Christ. To his enemies, and they are many, he is an impractical idealist. To all friend and foe, he is a man honest in conviction unusually broad in sympathy, intellectually above the average, a fighter to the extreme and honest to a fault—if honesty may be a fault. History written a hundred years hence will tell the true worth of Woodrow Wilson. In spite of the prejudices of politics, the heart of America is a sympathetic heart, and the heads of the American people bowed with grief Sunday morning when the news came of his death. He was an American above everything else and America keenly feels the loss of this good friend and brother, while the citizens of the entire world breathe a prayer of thankfulness that Woodrow Wilson lived and that his heart beat in sympathy for a closer touch of brotherhood, man and man, nation and nation.

Senator Underwood is a candidate for the democratic nomination for president. He will not be honored by his party because he is too wet to suit our people. But he is telling the country the truth about tax revision and the bonus—we cannot have both, in spite of what McAdoo is trying to push down the throats of the democratic party in this line.

Randall county offers greater opportunities for the home seeker than any county on the Plains. Land here is cheap and fertile. The greatest Teachers College in Texas is in Canyon and offers exceptional advantages to families wanting to educate the children. Come to Randall county and look over the wonderful opportunities offered here.

THE KING OF BLISTERS
Tate's Veterinary remains the best Sold on money back guarantee if not satisfied.

W. E. Pope of Corpus Christi is a candidate for governor on the program: "No more taxes, no time, no place, against nobody nor nothing." A very brilliant program for the dark ages when nobody wanted nothing nor cared for nothing. Pope fought every educational appropriation in the last session of the legislature as long as he deemed wise, and then voted for them in order to keep his record straight. He is a smooth politician, with a voice of a Joe Bailey. He will campaign the state appealing to the prejudices and ignorance of the people. He and Jim Ferguson will appeal to the same class of individuals, so there is not so much danger as there would be with only one of them in the race.

The Northeast Texas Teachers Association in session last week announced that it would go into politics to fight for the good of education in Texas. The state now has two, or three candidates for governor and many candidates for the legislature who are bitter against education. It is to be regretted that the schools must go into politics, but they are fighting for their very existence. The schools have been the political football of Texas and will never get above that stage until they whip the politicians and break the political fetters that have long chained them.

The eyes of Texas are upon the Panhandle-Plains country. Cotton is no longer an experiment in this section. It has been demonstrated that a good farmer can raise twice to three times as much cotton in the Panhandle as he does in the older part of the state with the same amount of labor. Those who know the cotton industry are firmly convinced that cotton has come to the Plains as a permanent crop and that if any section is forced out of the cotton growing business it will be the older section with its high priced land and its pests which makes cotton growing a hard job. Plant some cotton this year, but don't plant all the land to cotton. Stay with the feed crops.

We are not in sympathy with the counties which has injunction against turning over the automobile tax to the state. The law passed by the last legislature may not be a good law; it may be unwise to empower the state with all of the road building of the state. But the law has been passed and the counties should respect this law until it is given a thorough test before discrediting it.

Make your plans to be in Canyon on Monday, February 18 on Homeseekers Day and Trades Day. There will be entertainment throughout the day and a vast amount of bargains offered by the business houses. Make your plans now to be in Canyon on that date.

The postoffice department has made a new ruling placing newspapers in first class so far as the method of handling is concerned. The newspapers are made up in pouches and distributed on an equal basis with letters bearing a two cent stamp.

RECORD HISTORY

Every few days the press records the passing of one of the Panhandle pioneers. This section is so young—that is the period of its growth—that we can recall the wonderful development.

A few more years and pioneers will be still fewer. It is time that we think seriously of giving co-operation to the Panhandle-Plains Historical Society. We should assist that group in getting the history of the Panhandle recorded accurately from the lips of living pioneers.

The society wants relics and stories of pioneer days. Write to the Secretary at Canyon, Texas, and volunteer your co-operation.—Amarillo News.

The Panhandle-Plains Historical Society, whose headquarters is at the Teachers College, has already made a vast collection of relics and historical data, but the collection could and should be much larger. The general public has not fully realized the value of collecting these materials and it is just now awakening to the importance of such a collection. The Society greatly appreciates the co-operation and publicity which the Daily News and other smaller Panhandle papers are giving to aid in collecting the historical material of this section. All true citizens of the Lone Star State are urged to co-operate with the Society.

Many of the relics collected by the Society are on display at the Teachers College where the citizens and coming citizens of our section may view them. Many historical documents have been carefully filed and may be seen by those interested in them. The Teachers College has donated a considerable amount of aid to the collection, and it expects to set aside a place for a museum in the near future. Several calls have been made from students in the large universities for historical material to be used in preparing books and theses. Much is being done to preserve the history of this section for the benefit of the coming generation.—The Prairie.

THE BEST WAY TO BOOST FOR "OUR TOWN"

The difference between a dead town and a live town is simply the difference between dead business men and live business men. Some business men are so dead or free from enterprise that it takes a sizzling hot thrust to awaken enough life in them to even penetrate the outermost rim of business progress. They will sit around endeavoring to catch trade that comes to town without offering inducements to draw business. They tell the people that they do not advertise in the newspaper, but give their trade the benefit of the little money they might spend in advertising, by giving them more for their money than the advertisers do, which they, as well as the customer, know is a falsehood. The business man who advertises always gives more and better goods or service for the money than the non-advertiser. Besides, the advertiser is the town builder, while the non-advertiser is the town SPONGER. The advertiser, thru the medium of his ads, is reaching out and bringing new people to the town to trade, and is thus both directly and indirectly advertising the town. There is a way in which every person trading in this town can help the town, and that is to encourage enterprise by patronizing the business men who do advertise. Try it.—Groom Booster.

With a cargo of 100 tons of school supplies, the auxiliary power schooner Boxer, has sailed from Seattle for Southeastern Alaska, equipped as a floating school. Her officers, will undertake to teach the natives various trades, including wireless telegraphy and navigation.

House rent is so high now, it is odd that people don't stay at home to get their money's worth.—Sumter Daily Item.

BUFFALOES LEAD T. I. A. A. = EAGLES WIN!

Buffalo Crew Is Only Undefeated Basketball Teams in the T. I. A. A.

The Buffalo basketball team is the only undefeated team in the T. I. A. A., having six straight victories to its credit.

Sam Houston Teachers College plays here Friday and Saturday nights at the College gym.

The Bob Cats from Sam Houston Teachers College went down in defeat Monday night at Abilene for the first time this year when the Abilene Christian College bunch took them into camp by a score of 35 to 31. No reports have been received here from the game of Tuesday night with A. C. C., nor the game last night with Simmons. A. C. C. was easily defeated by the Buffaloes in two games on the home floor, and Buffalo stock went up with the report of the first battle. Everything now is in favor of the Buffaloes having a clinch on the championship of T. I. A. A. if the herd continues the same speed as shown in the past six games.

The following is the schedule of the Buffalo team for the remainder of the season:

- Sam Houston in Canyon Friday and Saturday nights.
- Simmons at Abilene, Feb. 12-13.
- Denton at Denton, Feb. 15-16.
- At Oklahoma A. & M., Feb. 18-19.
- At Central Teachers College, Edmond, Okla., Feb. 20.
- At Roswell, Feb. 29-March 1.

Buffaloes Win Easy Victory Over Cadets of Roswell Thursday

The Buffalo basketball crew annexed the sixth victory of the season Thursday night by defeating the Roswell Cadets in the second game by a score of 53 to 12.

The Cadets threw two baskets before the Buffaloes got started. The visitors were able to make just one more basket in the entire first half, while the Buffaloes scored 27 points. The Cadets scored 6 more points in the second period, all of these coming in rapid succession about the middle of the period when Coach Burton was making a number of substitutions. The Buffaloes made 26 points during the final period.

The Buffaloes had everything their own way during the entire game. Hale was star in the game as to basket shooting from most difficult angles and from more unexpected positions in the court. Lewis Hill was able to make good most of his attempts at goal. Mitchell constantly out-jumped his opponent at center. Davis Hill and Captain Joe Lancaster at guards kept the visiting forwards from getting many shots at the baskets. The subs worked as well as the first line men after they got into the game.

Landlords of Paris are prohibited from raising the rents to more than 100 per cent over the figures obtaining in 1914, according to a recent bill passed in the French parliament.

Although referred to as a prairie province, seventy-five per cent of Manitoba's total area is wooded.

Eagles Take Second Game from Amarillo; Are District Champs

Soaring into a style of basketball filled with speed and hard playing the Canyon High School Eagles defeated the Amarillo Golden Sandstorm Friday night by a score of 21 to 6 after being held to a three point tie in the first half. The work of Lowes featured the Eagle's attack in the last half. Several long goals were registered by the Eagles when they were unable to get under the hoop. Nicklaus for Amarillo did excellent work. Hale, Hill, and Lowes for Canyon scored three field goals each. Teed and Tadlock got a field goal each for the Sandies and Teed was able to ring two free trials.

The first half was one of the most thrilling sessions of basketball the Eagles have experienced on their own court. Hale made the Eagle counters while Teed scored for the Sandstorm.

Hill and Teed were disqualified in the last part of the game by referee Nay Hale, for roughness. G. Brown went in for Hill and Holman for Teed. The high school gymnasium was filled to standing capacity and many were unable to secure seats.

The Canyon Eagles will likely play the Abilene High School five this week. Arrangements for the game are pending.

Canyon Yearlings Defeat Sandstorm 22 to Twenty

The Canyon Yearlings defeated the Amarillo Golden Sandstorm here Saturday night in a fast game 22 to 20.

Ernie Holman was the bright and shining light of the Sandstorm team. Tadlock scored ten of the Sandies points. Bivins made eleven of the Yearling scores.

The line-ups:

Yearlings	Position	Sandstorm
Bivins	-----	Teed
Phillips	-----	Bennett
	Forwards	
Muncey	-----	Tadlock
	Center	
Fuller	-----	Nicklaus
Jennings	-----	Holman
Substitutes, Herring for Nicklaus.		

Following this game the Canyon All-Stars defeated the Amarillo second team 22 to 8.

Hear Mrs. Pierle on "Some of the Things I Have Seen in and Around Peking" Wednesday, February 6, at 4:30, room 307.

CANYON HIGH GIRLS DEFEAT HEREFORD GIRLS

Demonstrating speed, science and accuracy almost equal to that of the Canyon Eagles, the Canyon High School Girl's team defeated the Hereford sixet Friday night at the high school court by a score of 21 to 15. McReynolds and I. Dowd worked in the stellar roles for the locals while McDonald and Steele starred for the visitors. The first half ended 14 to 13 in favor of the Canyon athletes, but some accurate goal shooting supported by consistent defensive work enlarged the margin in the last period.

ABILENE NOT COMING.

An attempt was made to bring the Abilene high school basketball team to Canyon for games last night and tonight, but Coach Elmer Shotwell wired that the team would be unable to come. Both Shotwell and Webb were anxious that the Eagles of Abilene and the Eagles of Canyon get together, but conflicting dates prohibited.

HARTER WILL RETURN.

J. R. Harter (Old Bull Moose) has written his son, Chas., that he has his trunk packed and is moving back to Canyon. Mr. Harter has tried to leave Canyon two or three times to go back to his old home in Indiana, but each time the call of the Plains is too much and back he comes to Canyon.

At the foot of a glacier in the Montana Rockies, arctic flowers and specimens of the evergreens which correspond to the last trees of the North are found in abundance, having followed the retreating ice sheets thousands of years ago.

Simplicity is the hallmark that distinguishes the fine gold of the really great from the alloy of the pretentious.

A New York architect has invented an automatic apparatus which switches on an electric light, sounds an alarm and turns on oxygen for a person accidentally locked in a bank vault.

THE PALO DURO CANYON

Texas Highway Magazine: Of course there are some, in fact, a great many, as has been said, who not having seen this country, are prone to look upon it as a vast desert area, traversed by a few cast trails and dotted at infrequent intervals with an oasis. They do not know that this great Panhandle boasts of one of the most beautiful spots, with which nature has blessed any country—the wonderful Palo Duro Canyon. This beauty spot, though little known, has been variously designated as the Royal Gorge of Texas and the Yellowstone of the Southwest. Palo Duro canyon has been suggested as a state park, and later as a national park, but obstacles not worthy of mention at this time have prevented definite action along these lines.

The Palo Duro canyon is located almost in the center of the Panhandle of Texas, and its course divides the Panhandle into what is called the North Plains, and the South Plains. Its name as is explained by Col. Goodnight who was the first white man to build a home in the canyon, and who is still living on the brink of this royal gorge, means, "Hard Pole," taken from the little hard brush in the canyon from which the Indians made most of their poles for all their structures. Therefore, Palo Duro canyon means Hard Pole canyon. It sounded prettier before you heard the meaning, therefore, forget it and think only of the beautiful term "Palo Duro Park."

How can you reach it? That's the trouble. You can't reach it. If you could it would have been a State Park long ago. When Mr. and Mrs. Charles Goodnight reached it 45 years ago last fall, they stopped at the cap rock, and took their wagons to pieces and loaded the pieces and the contents onto the mules and let them find their way down to the river. They turned the cattle loose to meander around, and to get down, or fall down as it hap-

Broadcasting Station at College Proposed and May be Installed Soon

Radio fans in Canyon have been contemplating a broadcasting station for the College and the use of the various musical organizations to send out radio messages.

A. J. Arnold is going to put in a broadcasting station up town soon and is enthusiastic over the prospects of the radio of Canyon.

A large number of receiving sets have been installed in Canyon homes during the past few weeks, and the wonders of the radio are greatly enjoyed by large numbers.

LET'S START A BANK ACCOUNT

Banks in a way serve the same purpose as an implement storage barn. Did you ever think of that? Implements stored under good shelter are protected and preserved, we know where they are, can check them up or inspect them at any time, and they are ready for use at any time we have need of them. It is the same way with money deposited in a bank, and there is one additional and very great advantage. This comes by paying all bills by check—the check being a receipt for all payments thus made and no money is paid by the bank until the receipt is given by the endorsement on the back. Our obligations are discharged, recorded, and receipt taken when we pay by check. Then when we can check at the end of each month and see where our pennies, dimes and dollars go, we naturally are more careful to see that we get full value in return for all we pay out.

Having started a checking account, it becomes a much easier matter to then start a savings account. Every man feels just a little prouder of himself when he has a bank account and pays bills by checks. That very fact takes him out of the ranks of the unprogressive and puts him in the class with real business men.—The Progressive Farmer.

The unpaid interest on the debts of Europe to the United States amounts to more than \$1,500,000,000.

By means of a metal pistol it is possible to cover iron or steel articles with an extremely thin but strong layer of aluminum, zinc, copper, lead or other metal.

Dancers in the Yukon are said to be tripping the light fantastic to radio music from New York.

NEW GAME WARDEN HERE.

J. Frank Elder of Waco is moving to Canyon and will make this city his headquarters. He was recently appointed game warden of several Panhandle counties.

Mr. Elder is interested in developing the fisheries of the Palo Duro and Tierra Blanca creeks and will soon have information of interest to the people of this county.

CLAUDE SCHOOL BOARD HERE.

Members of the Claude school board visited the College Friday and were entertained by President J. A. Hill.

DALHART SCHOOL WINS.

Before the Supreme Court of Texas, the Dalhart Independent School won its suit against disgruntled taxpayers last week. A few tax payers sought to restrain the district from collecting taxes.

A few months ago a similar case was won by the Floydada Independent school district against disgruntled tax payers.

It is stated that uniformly school districts have been able to win tax collection suits brought about those who refuse to pay their taxes.

David Burnett has returned from Austin where he has been working in the Internal Revenue offices, and will go in business with B. T. Johnson. They will soon open real estate and insurance offices in the building now occupied by the Canyon paint company on the north side of the square.

High School Seniors to Buy Equipment for the Stage in New Building

The senior class of the Canyon high school will not publish an annual this year, but will buy equipment for the stage in the new high school building. The class has made considerable funds during the past few weeks getting ready to buy excellent equipment. The stage equipment will cost less than the production of an annual, and will mean less work on the part of individual members of the class.

S.S.S. keeps away Pimples

THERE are thousands of women who wonder why their complexion does not improve in spite of all the face treatments they use. They should not continue to wonder. Eruptions come from blood impurities and a lack of rich blood-cells. S.S.S. is acknowledged to be one of the most powerful, rapid and effective blood cleansers known. S.S.S. builds new blood-cells. This is why S.S.S. routs out of your system the impurities which cause boils, pimples, blackheads, acne, blotches, eczema, tetter, rash. S.S.S. is a remarkable flesh-builder. That's why underweight people can quickly build up their lost flesh, get back their normal weight, pink, plump cheeks, bright eyes, and "pep."

S.S.S. is sold at all good drug stores in two sizes. The larger size is most economical.

S.S.S. The World's Best Blood Medicine

P. Friemel Sold First Bale of Cotton in Canyon Sixteen Years Ago

P. Friemel, well known farmer west of Umberger, states that the first bale of cotton sold in Canyon was sixteen years ago, which he raised and sold in Canyon to Geo. Steidler.

Mr. Friemel came from the cotton raising section of Texas several years ago and raised cotton as an experiment on his place to see whether it would really grow. His experiment at that time was a success.

Mr. Friemel states that if 10,000 acres of cotton is planted in the Canyon trade territory, one gin will not be sufficient to handle the crop.

NEXT!

The game is to see who will be the next man up, so let's stop and think. In 1884—

The world's most famous automobile manufacturer was working in a bicycle shop.

A millionaire hotel owner was hopping bells.

American's steel king was stoking a blast furnace.

An international banker was firing an engine.

A President of the United States was running a printing press.

A great merchant was carrying a pack on his back.

A railroad president was pounding a telegraph key.

There's always room at the top. Will you be prepared for your promotion when the time comes?—Ex.

Fifty-six and one-half per cent of cargo moved through the Panama Canal last year was in United States ships.

Paving Contract Let Monday Night—Harry Matthews in Charge

The city commission let a contract Monday evening to the Panhandle Construction Company of Lubbock for paving on Fifth Avenue from the southeast corner of the square to the highway.

The paving bid was \$4.25 per square yard and 50 cents per foot for curb.

Harry Matthews, who was foreman on Canyon's three miles of paving will return to the city about the first of April to start this work. It will require something like six weeks to do this paving.

OFFICE SUPPLIES

—The Randall County News has just been appointed factory representative of the largest manufacturing establishments of OFFICE SUPPLIES in the entire Southwest.

—This factory handles everything that is used in the ordinary run of office supplies.

—Business man of Canyon will no longer find it necessary to buy this kind of goods from the peddlers who work Canyon-in flocks, for chances are that if they give orders to these peddlers, the supplies will come from the very factory that we represent and the price will be the same that we can make you.

—The News courts the pleasure of showing you this line of goods.

—The big mommouth catalogue for more than FIVE HUNDRED PAGES is filled with the things used in every office in Canyon.

—Let us show you what we can buy for you before you place an order with the next peddler.

RANDALL COUNTY NEWS

Historical Society Outlines List of Relics Desired

Following are the things the Panhandle-Plains Historical Society has set out to accomplish and is already achieving:

The Historical Society is doing something which is talked about at every Old Settlers meeting; that is, it is collecting all the evidences which tell of the early pioneer life and is preserving them for generations to come. This letter will tell you a few of the things that the Panhandle-Plains Historical Society is trying to do.

1. Old papers, letters and legal documents are being collected. Many more of these are desired in order that taken together, they may furnish an accurate record of life in the early days. Personal letters are particularly valuable.

2. Guns of all sizes and descriptions, dating from the Revolutionary period of American history to the present, are wanted. It would be fitting for the Panhandle to have the finest assortment of guns found anywhere in the United States.

3. Branding irons. The cattle industry as it existed in the early days is gone forever. The names of the old brands are fast becoming meaningless to the younger generation. The Panhandle-Plains Historical Society should have in its museum a splendid collection of branding irons and, where irons are not available, drawings, with descriptions of all the brands that were used in this region, if possible.

4. Arrow heads, beads, tomahawks, and other relics of Indian life. All kinds of tools and utensils that were used by the Indians, whether in peace or in war, have a rightful place in this museum. Already there is a valuable collection of arrowheads—a nucleus around which many other relics of Indian life can be grouped.

5. Photographs and sketches of the lives of pioneers, both men and women. Much emphasis has been placed on the part which the pioneer men took in the settling of this country. We wish to preserve the record of the wives and mothers as well as the fathers and brothers. As a part of this museum there will be a pioneer gallery in which will appear photographs of men and women who first made the Panhandle a civilized area.

6. Relics of all kinds including tools used by men out-of-doors and utensils used by women within the homes. This would include interesting old-time costumes, counterpanes, quilts, furniture, dishes, etc.

7. It is desirable to have maps of the Panhandle showing the first ranches and then the changes as they came from decade to decade.

Needless to say, it takes money to carry out this work. President J. A. Hill of the West Texas State Teachers College has agreed to match each dollar which the Historical Society is able to raise. The State Teachers College is also caring for the relics collected up to this time, keeping them in a fire proof building; and President Hill has promised a room for a museum in the first new building which the state legislature gives to the college.

The Panhandle-Plains Historical Society belongs to all the people of this region. Yearly dues are \$2.50; life membership is \$25. Anyone who is interested is eligible for membership. In becoming a member, every old timer will be helping to preserve the memory and the interest in the early days which he cherishes. Dues should be sent to Mrs. T. V. Reeves, Secretary, Canyon, Texas.

HOW MANY ARE THERE?

The world today is looking for men who are not for sale.

Men who are honest and sound from center to circumference—true to the heart's core.

Men with consciences as steady as the needle to the pole.

Men who will stand for the right if the heavens totter and the earth reels.

Men who can tell the truth and look the world right in the eye.

Men who neither brag nor run, men who neither flag nor flinch.

Men who have courage without shouting it.

Men in whom the everlasting life runs still, deep and strong.

Men who know their message and tell it.

Men who know their business and attend to it.

Men who know their place and fill it: men who will not lie, shrink, nor dodge.

Men who are not too lazy to work, nor too proud to be poor.

Men who are willing to eat what they have earned, and wear what they have paid for.

Men who are not ashamed to say "NO" with emphasis, and who are not ashamed to say "I CAN'T AFFORD IT."—The California Lumber Merchant.

Help Keep Canyon Clean!

Adobe Walls Cele- bration Plans Made for 50th Anniversary

Pampa News: The Adobe Walls Monument committee, composed of Mrs. Olive K. Dixon of Miami, Judge Thomas F. Turner, and Mr. and Mrs. Tom W. Cobble of Amarillo, and Mayor F. P. Reid of this city, met at Mr. Reid's office here last Saturday afternoon and discussed plans for the campaign to raise funds for the proposed monument.

Mr. Cobble of the committee was unable to attend, however, J. L. Nunn and Paul T. Vickers, of the Daily News of Amarillo, were among those present.

The committee agreed to erect a monument approximately 25 feet high, to be constructed of concrete. Imbedded at this monument will be a marble tablet carrying the names of 28 men and one woman who participated in the battle.

Concrete slabs are to be placed at the corners of the five-acre tract given to the Panhandle-Plains Historical association by Mr. and Mrs. Cobble. Concrete markers will also be placed on the site of the buildings which stood in the old stockade, and headstones will be placed at the graves of the victims of the Indian massacre buried there.

The committee will solicit subscriptions through chambers of commerce and through individuals. Mr. Nunn volunteered to give Panhandle-wide publicity to the plans to raise the monument fund through the Amarillo Daily News, and also to take the matter up with various Panhandle editors, soliciting their aid through their weekly newspapers, supplying his fellow newspaper men with facts as they are given out by the committee having the raising of the memorial fund and the June picnic in charge.

The picnic and barbecue being planned for June, will be in the form of a celebration of the 50th anniversary of the Adobe Walls fight.

Work is now under way securing funds for the monument, as it is desired that same may be erected before the celebration, at which time it is thought that Major-General Nelson A. Miles will be the honor guest.

A Sing Sing convict has been pardoned because he was a good actor. That's a fair start—the next step will be to jail a few of the other kind.—Tacoma Ledger.

If there was no Adam or Eve, as the scientists now assert, who was it began raising Cain?—Scripps-Paine Service (San Diego).

Error is Made on Illiteracy Report in Randall County

A misplaced decimal point in the handbook of information issued by the Department of Education at Austin, in January, 1923, made it appear that Randall County is the most illiterate region in the Panhandle of Texas. A map appearing in the same publication graphically shows the same fact. According to the figures sent out by the Department of Education, Randall County has five per cent of illiteracy, when as a matter of fact less than five tenths of one per cent of its population is illiterate.

The Woman's Book Club of Canyon, upon hearing the figures concerning various counties, resented the statement that their home county was illiterate, and it was through investigation made by them that the blunder was discovered. In reality, Randall county ranks fifth in the state in the matter of illiteracy along with Wheeler, Yoakum, Terry, Swisher, and a few others.

The population of Randall county is almost entirely American born of American parentage. There are no negroes and very few Mexicans among its people.

A CORRECTION

In my article last week on Cotton on the Plains, a mathematical error was made in figuring the price that a man would have to get for staple cottons in comparison with an average one inch staple cotton of equal in value the acre production of inch cotton. That paragraph should have read as follows:

"In other words, if a person were to grow long staple cotton, in order to equal the money value per acre of inch staple cotton, on the basis of 20c per pound for lint cotton he would have to get 24c for 1 1-16 cotton, 29 1-2c for 1 1-8 cotton, and 31c for 1 3-16 inch cotton."

J. W. JENNINGS, County Agent.

It is a little discouraging to members of the Third Party to know that it usually retains that numeral to the bitter end.—Kansas Legionnaire (Wichita).

Now that British labor is taking over the government, it will find plenty of employment.—Washington Post.

Boys of College Enjoy Open House At President's Home

Mrs. J. A. Hill threw open her house last Saturday night from 7:30 to 10:00 to the boys of the College whose birthdays come in January, February, and June and to all other boys who wished to come. This was the first of a series of such entertainments to be given by Mrs. Hill on the first Saturday in each month to the boys of the College.

The thirty boys who were in attendance spent the evening in playing forty-two, Finch, Mah Jongg, and dominoes, and in singing and talking. Cookies, "like mother used to make," and popcorn were served to the guests by "Mother" Hill.

The next "at home" will be for those boys whose birthdays are in March, July, and August, however all other boys of the College will be invited to be present.

Railroads made money last year. This, however, is not news to people who bought tickets.—Columbia Record.

If your head is dizzy or stooping or rising suddenly and everything turns black before your eyes, you have a torpid liver. Take Herbine. It is a powerful liver regulator. Price, 60c. Sold by City Pharmacy. 4514

ALL WORN OUT

Does morning find you with a lame stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Canyon people endorse Doan's Pills. Ask your neighbor! You can rely on their statements.

Mrs. Clounth, Canyon, says: "There was a dull ache through the small of my back and my back was so sore and lame I could hardly bend over or do any work. When I stooped, a sharp, stinging pain caught me, making it hard for me to straighten. I was worn out and could scarcely get around at times. I became dizzy and had headaches and my kidneys didn't act right. I used Doan's Pills and three boxes cured me entirely."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Clounth had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

SEVENTY MEN ATTEND LUNCHEON OF CHAMBER OF COMMERCE TUESDAY AND DISCUSS BUSINESS OF INTEREST

The largest luncheon attendance in the history of the local Chamber of Commerce was present Tuesday night, seventy men having responded to the call of the special session of the Chamber of Commerce.

A number of visitors were present and took a lively interest in the program.

Louis F. Hart, manager of the Chamber of Commerce, told of the plans for the Homeseekers Day and Trades Day on February 18th. The committee in charge has sent stories to the big daily papers regarding the Homeseekers Day and had been given large space in the various papers. He mentioned especially the Amarillo News, Star-Telegram and Ft. Worth Record. Mr. Hart told something of the plans of the day and urged the hearty cooperation all citizens in Canyon.

T. C. Thompson, president of the organization urged the hearty support in the plans for a big day—that it be made a real day for the city and the county.

This being the time for the annual election of officers, on motion of President J. A. Hill the old directors were re-elected—R. A. Terrill, T. C. Thompson, H. C. Gamble, C. H. Jarrett, C. W. Warwick—and the additional two, W. A. Warren and D. A. Shirley. The above were elected by acclamation.

After the meeting the directors held a short business session, naming T. C. Thompson, president; C. W. Warwick, vice-president; W. A. Warren, treasurer.

A committee from the Kiwanis Club of Amarillo was present, John B. Gilvin, Judge H. C. Randolph, Dr. Milo Atkinson, J. E. Spann and Henry Ansley of the Amarillo News. The first four named spoke regarding the work of the Kiwanis Club and urged that after due consideration one be organized in Canyon, if our people felt that it would be of benefit.

Dr. Atkinson praised the friendly feeling that existed between Canyon and Amarillo and urged that this feeling be cultivated. The educational advantages of Canyon should be sold to the people of Amarillo.

Judge Randolph believed that Canyon should strive to develop to the fullest extent the greatest asset in the city—the great educational institution. "There is something more than mere bigness in a town. Canyon should be the best place on earth to live," was the opinion of the speaker.

Louis F. Hart reported on the activities of the Chamber of Commerce during the past month, since he had become manager of the organization. Canyon needed a laundry, and he was trying to connect with parties willing to put one here. He was writing personal letters to all prospective students of the college. He believed that at least 15,000 to 20,000 acres of cotton was to be planted in the county. Several men wanted to locate a cotton gin here, but the Chamber of Commerce was discouraging all but the local men who were willing to finance a gin. There is need of an ice plant, which could probably be established by a part time industry, like a gin. He reported on his trip to the district meeting of the West Texas Chamber of Commerce held at Colorado.

A telegram was read from a Fort Worth man wanting to organize a brick plant company, as very valuable clay has been thoroughly tested out on the H. C. Roffey place just north of the city.

J. W. Jennings, County Agent reported that he held cotton pledge cards of 6,000 acres, and knew of at least 3,000 acres in the Canyon trade territory which had not been signed up. The farmers were expecting a gin to be located in Canyon from all of the promises made.

L. C. White of Amarillo spoke on the Boy Scout work and told of the work of Irby Carruth and Emmett Hazlewood in the public schools, where they were working with fifty boys in the Scout movement. Amarillo was investing \$6,000 per year in Scout work. Amarillo proposed to put \$600 in a fund to employ an expert Scoutmaster for twenty-two Panhandle counties, and wanted Canyon to join in the fund with \$600. Mr. White interestingly told of the work of the Scouts and what the movement means to the boys who were trying "to get over fools hill without breaking their necks." On motion of W. J. Flesher, the meeting endorsed the Scout work and asked that a committee be appointed to raise the \$600 fund in Canyon. The committee will be named by T. C. Thompson, president of the organization.

Peyton Irving Jr., College Examiner for the State Department of Education, was introduced by President Hill. Mr. Irving had been inspecting the College for the past two days. He challenged a statement made by an Amarillo speaker as to sending the boys and girls here for two years, and stated

emphatically "that the graduates of this institution have the same standing as the graduates of the University of Texas, or any other university in the state."

President Hill thanked the various guests for their visit to Canyon upon this occasion and urged that they come back again.

WANTED 50 MEN

Fifty men at the Legion Hall Men's Bible Class next Sunday morning at 9:45. We are studying the "Life of Christ" as written by Matthew, chapters 1 and 2 next Sunday's lesson. Canyon's many needs were emphasized at the Chamber of Commerce meeting Tuesday evening but her greatest need now is "Fear of God" which comes through a faithful study of His word. No more tragic mistake can be made in Canyon than to build up her commercial interests so as to attract others to come here to live and at the same time neglect the churches and undervalue those agencies designed to lead men to God, for be it remembered that it is "Righteousness" which exalteth a nation or a town. Oh, my fellow townsmen, let us not forget that the fear of God and a love for His word is the best equipment for business procedure. So when we talk about Canyon's needs let us place her need of churches, commodious and beautiful, and of God fearing, God honoring citizenship at the top of the list. Let it echo that the man or woman who is not a Christian and who does not love the church cannot be the best possible citizen of Canyon. Yours for the "Best Place in the World to Live."

LYN CLAYBROOK.

A church which stands for the whole Bible for the whole world.

LYN CLAYBROOK.

An important contribution to chronology has been made by the deciphering at Oxford of a four-sided prism inscribed in the Sumerian language. The writing professes to name all the kings of Babylonia since the Creation and to give the length of their reigns. The list seems to be unbroken and accurate as far back as 4000 B. C., but beyond that the names are obviously half mythical. Until this writing was discovered there was no continuous and accurate chronology that went farther back than 900 B. C.

Another demonstration of the possible value of radio under ground took place a few days ago ninety feet below the surface of the Hudson River and sixteen hundred feet from an exit. A radio set installed in the farther end of the uncompleted Jersey-Manhattan tube readily tuned in with all near-by stations and also with Pittsburgh. One of the great electrical companies has designed a miniature radio outfit for the use of miners, who, in case of accident, may have no other means of communication with the outside world.

For registering automobiles a New York man suggests that the number plate bear a mark to indicate the make of the car and then the serial number for cars of that make. That method, he believes, would do away with large numbers, which are hard for the ordinary observer to remember, and would also make it more difficult for a thief to change the number.

The use of steel during the year just ended was apportioned approximately as follows: Railways, 31 per cent; structural requirement, 16 per cent; piping 11 per cent; automobile industry, 10 per cent; exports, 6 per cent; other uses, 26 per cent. It is plain that large purchases by the railways caused most of the present volume of business in the steel industry, and that unless exports increase they will determine how long it can continue.

All the military units of the United States, active and reserve, will be mobilized on September 12 of this year. The War Department thus seeks to show that its present plans for raising an army will accomplish in a single day what required several months in 1917. A million and a half men will take part in the demonstration.

The French government recently gave Pierre Lafargue, a peasant farmer, a medal because his family had continuously farmed the same piece of land for 1151 years.

Umbarger Notes

We had fine weather until Sunday morning when a blizzard came up from the north. A little snow fell Sunday and Monday morning.

The residence of Aloys and Anthony Erdman was burned Thursday morning. The building was completely destroyed before the fire could be put out. Nobody was in the house at the time of the fire. The cause of the fire is not known.

Anthony Erdman left Thursday for Nebraska.

Leo Stocker made a business trip to Amarillo Monday.

Alfred Friemel, who has been seriously sick is now getting along nicely and will soon be able to return home.

Clem Friemel is threshing row crop for P. Friemel.

While standing on the track a freight car caught fire, burning the bottom out of the car. It is not known how the fire started.

Clem Friemel spent Sunday at the L. Brandt home.

Joe Friemel and family and Hugo Skarke and family spent Sunday at the M. Hollenstein home.

A son was born to Mr. and Mrs. John Badenhorst Wednesday.

Miss Annie Keeley spent Sunday at the Joe Beckman home.

WINDOWS

What would the world be without window glass? What was it like before window glass was invented? Men had either to lurk in dim, smoky caverns, with no outlook whatever on the glad and various world, or to leave their dwellings open to the wide air and shrink and shiver while all the winds of heaven blew upon them.

Then some lucky head discovered that subtle, frail barrier of glass, and the whole aspect of life was changed. By breaking their close, intimate walls with great, liberal areas of openness men were able to admit "the fresh breath of life when they pleased; and when they pleased, to exclude it. The warm winds of summer might play about their table and their bed with absolute freedom. Then, when the blasts of winter raged, they closed the window and gazed upon the storm from perfect comfort within. Nothing gives a greater sense of once of human fragility and human security than to look at zero weather through an eighth of an inch of transparent emptiness and yet be able to maintain a difference of temperature of nearly one hundred degrees between without and within.

And windows furnish the light of life, as well as the breath. Sunshine is the giver of joy, the breeder of health, the banisher of dark thoughts and dark deeds and evil dreams; and sunshine comes into our lives largely through window glass. And windows bring us wisdom, or at least the information of which we can make wisdom, if we will. We can sit in our own quiet corner and watch the world pass, all the strange vagaries of men, their multiple gestures, their futile or fruitful activity; and as we peacefully meditate upon those things we can mould and guide our own lives by them. And windows are charming social agents also. Old wives exchange gossipy gossip from them, and at night the homeless wanderer peers through an unshaded window and is no longer quite alone. What would city streets be with only blank walls instead of the comforting gleam from a thousand windows?

It is true that like other things windows have their drawbacks. They are great begetters of family dissension. There is one thin, bloodless, shivering class of people who always want the windows shut, and another, eager, quick, active, sanguine, who always want them open. Between the two classes there is constant friction and sometimes war. Yet for all that we should not blame the beneficent orifices that give us light and health so much as the wayward petulance that lurks and lingers in the ill-ventilated recesses of the unwindowed human heart.

Hunger in Germany is the penalty for accepting worthless money. Europe has had good harvests, but the German farmers refuse to sell their produce for paper, and there is not gold enough to finance sufficient imports. Moreover, unemployment in the cities has made millions of people unable to buy food even if it were in the markets.

From Point Barrow to the north pole is 1287 miles across a region that is virtually unexplored. Admiral Peary found that the sea covers the north pole, but between the pole and Alaska may be a great island or group of islands as yet undiscovered. Flying over that region in summer, the naval aviators will almost certainly be able to add something to our knowledge of geography.

Liquid Borozone is an efficient healing remedy for human or animal flesh. It mends a severe wound, sore, cut or scratch in the shortest possible time. Price, 30c, 60c and \$1.20. Sold by City Pharmacy. 454

Tennis Fans Warm Up in Preparation For Class Matches

Tennis fans during the past week have been raising the dust on the courts and interest is expected to reach a high point soon when teams from each of the four college classes will clash in the first tournament arranged by the Tennis Club.

Meanwhile each class will be engaged in selecting its singles and doubles champions. Prospects for the Seniors indicate that Frank P. Hill and Joe J. Lancaster will compose the doubles team. Both men are experienced.

The Juniors will stage a small tournament of their own in an effort to pick teams from the following men: Herm, Haley, Hinkle, Mitchel, Coffee. No less imposing is the Sophomore array of players: Jenkins, Golden, McCarty and several others.

Ever problematical, the Fish situation is complex and the Sophs are watching closely the work of Day, White, Delaney, and other first year men. A Sophomore boast that the second mile-stone men will win easily has moved the Juniors to prophesy to the contrary.

WILL INVESTIGATE BROWN STAIN.

Dr. C. A. Pierle, head of the Department of Chemistry, and L. S. Baker, head of the Department of Biology, of the College, are undertaking to discover the cause of the brown stain appearing upon teeth of so many people in the Panhandle-Plains region of Texas. A questionnaire is being used to gather information regarding this phenomena. When this information is assembled, these two men, with assistance from scientists throughout the United States will try to determine the cause, if possible, and develop a cure for this peculiar condition.

HEADQUARTERS

Germany used to be the chief magnet for students who wanted to "get the final polish abroad." But the United States is "finishing headquarters" for the world, 10,000 students a year arriving here from Europe, Asia, Africa and South America. So reports Dr. Stephen P. Duggan, director of the Institute of International Education.

They come here from the far corners of the earth. Boys who want to quit school and go to work, should ponder this.

A THOUGHT FOR THE WEEK

As a citizen cannot choose what laws he will obey, so likewise those charged with law enforcement cannot choose what laws they will enforce. Those charged with law enforcement must enforce all the laws and all good citizens must obey the laws. Neither can exercise any right of choice in this matter without placing themselves above the law.—Attorney General Daugherty.

MELON PLAN FAVORED

The first returns in the Literary Digest straw vote on the Mellon tax reduction plan shows 87,338 for it and 19,807 against it—a ratio of more than four to one in its favor.

The Digest's straw poll has proven quite accurate in times past, and politicians will probably hesitate to jump on the Mellon idea if the trend continues the same.

On American steamboats last year all the lives that were lost through the foundering of the vessels, or through collisions, explosions and other accidents were only eighty-one. In some of our large cities more persons than that were killed accidentally in the streets.

A CALOMEL YOU CAN SAFELY TAKE

Harshness of Ordinary Calomel Eliminated in Pepsinated Calomel, New English Calomel Treatment for Torpid Liver.

How many times have you heard that "calomel is the only sure way to reach the liver?" Your grandfather knew it, your mother knew it, your doctor knows it—you know it yourself! Calomel is the certain way to stimulate liver to healthy activity, but ordinary calomel is so harsh in its consequence that you can hardly be blamed for not wanting to take it.

There is no reason to deprive yourself of the fine effects of calomel since the discovery of Pepsinated Calomel. It is the best imported English calomel treated with pepsin. It has all the cleansing power of English Calomel, (recognized as the standard of purity), with the soothing qualities of pepsin so that you get the full benefit of calomel without griping, nausea or discomfort. Pepsinated Calomel is especially fine for children. They will gladly take it when they cannot be bribed into taking disagreeable medicine.

Jarrett Drug Co. and all reliable druggists recommend and guarantee Pepsinated Calomel to bring relief between sundown and sunup or your money refunded. Try it—we guarantee you'll feel better tomorrow. (Adv.)

New Officers of Palo Duro Post Elected at the Monday Meeting

George A. Farlow was elected commander of Palo Duro Post, American Legion, at the annual meeting of the Post held Monday night at the club house. H. A. Brown was elected vice-commander, Ralph Harter adjutant, Frank R. Phillips and Henry C. Gamble, retiring commander, executive committeemen. M. R. McReynolds finance officer, D. D. Westfall chaplain and Louis F. Hart historian.

A membership drive was inaugurated, to continue for four weeks. M. R. McReynolds was made captain of one side and Bob Price of the other. The losing side in the race for members will have to banquet the post, it was decided. McReynolds' team includes:

George A. Farlow, Wesley Kleinschmidt, Jerry Malin, Milton Ramsey, Raymond Pipkin, H. A. Brown and Louis F. Hart. Price's team includes Frank R. Phillips, H. C. Gamble, Ralph Harter, D. D. Westfall, Clarence Luse, Ben Weller and J. M. Dangherty.

McReynolds was appointed general chairman of a committee to raise funds for contributing a large memorial window to the new Methodist Church, the cost of which was estimated to be around \$350. He was given two committees, one, consisting of Westfall, Ramsey and Malin, to work West Texas State Teachers College, and the other, consisting of Daugherty, Farlow and Kleinschmidt, to work the town. A battlefield scene with a Christian motif, or similar decoration, will be employed, while the names of deceased legionnaires will be inscribed on a scroll beneath.

A past commander's gold medal was voted to Retiring Commander Gamble and Louis F. Hart was appointed to obtain the funds and order the medal, which is to be presented at the close of the membership drive.

It is possible also, it developed at the meeting, that the post will raise a scholarship fund in the name of dead ex-service men.

At the close of the meeting an impromptu session of the Society of Forty and Eight was called by Chief de Gare Brown and six candidates for initiation in the order were obtained. It was decided that the annual meeting should be held Monday night, at which arrangements will be made for a ceremonial in the near future, when the "prisonniers de guerre" or "poor goofs" will get to make once more the memorable trip "over there" and back. As soon as a ceremonial has been held here and the "wrecking crew" is in form, it is proposed to go to Amarillo and institute a 40-8 voiture there if sufficient legionnaires can be found in that city to obtain a charter.

There is more sickness in winter than in any other season. The chief cause is the quantity and quality of the sunlight that reaches us. When sunlight comes slanting through miles of foggy, dusty air most of the violet rays and those beyond the violet are filtered out, and those are the rays that kill bacteria. "Let the blessed sunshine in" is a watchword that is particularly appropriate for winter.

Stories on Health are Written by Children in the School Grades

The school lessons under the Red Cross Nutrition program this week have been on posture, exercise, rest, fresh air as related to posture, exercise, rest and cleanliness.

Miss MacDonald's fourth graders wrote stories about this week's lesson and last, and Miss McCleskey's second and third grade pupils in the training school wrote about the lesson on teeth. Some of the stories have been chosen for the paper and are as follows:

Ways to Keep Well

The way to keep well is to wash your teeth four times a day and have at least two hours of play a day; stand straight, and keep clean. You should have plenty of good fresh air, eat wholesome foods, and do not smoke or chew tobacco, do not have too much candy or sweets. Keep your pencil and fingers out of your mouth, and keep coins of every kind out of your mouth, take a bath at least twice a week, drink plenty of fresh water and milk. Sleep ten or eleven hours every night, with your windows open. —Stewart Jennings, grade 4, Public School.

Things That We Do to Keep Well

The other day I saw a girl who had very dirty teeth. I asked her if she ever washed them. She said, no—and I told her that she should wash them every day, so she said she would. She didn't stand straight and I told her it didn't look nice and she should stand and walk straight. Her face was not clean and she looked sleepy. I told her she should take a bath twice a week or every day, and she should sleep eleven hours every night.—Imogene Fowler, grade 4, Public School.

Taking Care of the Teeth

Milk is fine for your teeth. Milk makes your teeth grow. I am drinking milk. I wash my teeth when I get up. I wash my teeth when I go to bed and I wash my teeth after every meal. You should go to the dentist twice a year. —Betty Neal Walden, grade 3, training school.

Taking Care of the Teeth

You should wash your teeth after eating. At school you can wash your mouth out after eating. If you do not wash your teeth they will decay. Do not put paper in your mouth.—Quentin Ward, grade 3, training school.

How I Take Care of My Teeth

I wash my teeth after every meal. Milk makes my teeth grow. I go to the dentist when I get a hole in my teeth. I drink four glasses of milk every day. Eulalie Moore, grade 3, training school.

Beginning Friday morning, Feb. 8th, the schools will conduct a vegetable popularity contest. Each child will keep a record of vegetables which he eats for one week. Each time that a vegetable is eaten counts one vote for that vegetable. When a child learns to eat a new vegetable he counts five votes for that vegetable. The final results will be published in the Randall County News.

The Ladies Food Selection class met last Friday afternoon and had an attendance of thirty-eight. There are forty-one ladies enrolled in the class now. It is not too late to join. Anyone desiring to become a member of the class may do so by coming to the next meeting, Friday, Feb. 8, at 2:30 at the club room in the court house. Visitors are always welcome. The lesson this week will be on Milk and Meat Substitutes.

The story hour for the children will be Saturday afternoon at 2:30 at the club room in the court house. There were sixty-five children present at the story hour last Saturday. Children, come this week to meet the Milk Fairies who will be there for the story hour. Mothers are always welcome.

The Shaker village of Lake Maccomy at Enfield, New Hampshire, is for sale. Seven white haired survivors of the original colony have moved to Canterbury and settled under the leadership of another dwindling community of Shaker folk. The correct name of the Shakers is "The United Society of True Believers in Christ's Second Appearance." The name "Shaker" was derived from a peculiar ceremonial dance in which the dancers shake their shoulders.

The Australian Federal Government is offering leases consisting of fifty-seven blocks of 1,000 acres each, for cotton growers. The leases are rent-free for the life of the tenant or for twenty-one years from the commencement of the lease.

Snow was hauled 288 miles from Thendara, New York, to Briardiff Manor, New York, to surface the slide and jump of the American Olympic ski team.

At eighty-one years, the Rev. M. S. Anderson, a pioneer of the Columbia River Methodist Conference, has accepted appointment to the charges of Wayside and Wildrose.

Cats which stray beyond their own thresholds in Berlin must be muzzled.

BILL BOOSTER SAYS

BAPTIST PRINCIPLES AND PRACTICES

Great interest is being shown in the series of sermons being preached at the Baptist church each Sunday morning on the subject, "Baptist Principles and Practices." It is being demonstrated that themes concerning which there is diversity of opinion can be discussed in a brotherly and Christian spirit. One of the great questions of the day with many is, "What Shall I Believe?" Many contend that it does not matter what we shall believe. These contend therefore that it does not matter to what church one belongs. Such need to know that "as a man thinketh (believes) in his heart, so is he." Prov. 23: 7. Carlyle once said "When belief waxes uncertain then practice also waxes unsound." May God deliver us from a spineless indifference to the influence of faith over the lives of men.

At the centennial celebration of the Cache Valley at Logan, Utah, in July, Mrs. Hahn, of Kansas City, Kansas, granddaughter of Jim Bridger, noted pioneer scout and guide in the region at its settlement, will be the guest of honor. Mrs. Hahn came into prominence recently by filin suit for a million dollars against producers of the film "The Covered Wagon," for depicting Bridger as an undesirable character, it is alleged.

The famous church of St. Jude, London, has been abandoned because of the Jewish influx in Whitechapel. "We are like Englishmen in a foreign land, little isolated colonies in the midst of an alien race," said the rector.

RED PEP'S PHILOSOPHY

"If wishes were automobiles, gasoline would be worth a million dollars a gallon."

Dr. Works Will Speak During Session of the College in the Summer

Dr. G. A. Works of Cornell University, who is director of the School Survey in Texas, will be one of the speakers before the student body during the summer session of the College. Dr. Works is one of the best known educators in the United States.

Dr. P. W. Horn of the new Tech College; Dr. Sutton, acting president of the State University; Dr. F. M. Bralley of C. I. A., are among the noted Texas speakers who will appear before the students in the summer session.

Dr. C. M. Hill of Springfield, Mo., and Dr. Zook of the United States Bureau of Education, who are assisting in the Texas Educational Survey, will be speakers at the College during the spring quarter.

DEPT. OF AGRICULTURE HELP DAIRY INDUSTRY

Arrangements are being perfected by members of the agricultural department of the College to co-operate with Panhandle schools in the promotion of the dairy and poultry industries in West Texas.

The agricultural department of the College has recently carried on a butter fat sales experiment for the purpose of ascertaining profits to be expected from dairy cattle. This experiment has indicated that, under Panhandle conditions, a farmer may reasonably expect to pay for his feed, and besides, secure a profit by adding dairy cows as one of the enterprises of his farm.

At a recent conference, G. F. Maggard of Amarillo and Professor J. W. Ridgeway, formerly of the A. & M. College of Texas, now with the education division of the Mistletoe Creamery Company, worked out a tentative agreement with the College for a proposed series of one-day dairy schools to be held in this part of the state.

It is expected that schools which now possess agricultural teachers will be given seniority on the proposed itinerary.

A Swiss inventor announces that he has made a machine that will type-write from the human voice, but, as he says nothing about the ability of the contrivance to improve on the spelling and punctuation of the person who dictates to it, there may still be a place for the accomplished secretary.

Why Mothers no longer fear Child-birth

An eminent physician has shown why there is so much useless suffering on the part of many expectant mothers, for months before baby comes, as well as when baby actually arrives.

This same great doctor found the way to avoid much of this suffering. Mother, your baby's nerves, its whole structure should be free from any influence caused by your months of useless misery and pain. You yourself can be free from much of it. Here is a little message to all expectant mothers:

"Mother's Friend" is applied externally, and enables the muscles, nerves and tissues to relax and read-just themselves with the growing changes during pregnancy, and at child-birth. It should be used for some time before baby comes—the sooner the better.

"Mother's Friend" contains no narcotics or harmful drugs. It is safe. For three generations "Mother's Friend" has relieved expectant mothers of much useless suffering. Mother! you must avoid mere greases and useless substitutes. Begin using "Mother's Friend" today. It is sold at drug stores—everywhere.

FREE BOOKLET ON MOTHERHOOD

Don't let false modesty keep you from this duty to yourself, to your child and to your home. By all means, you should have our valuable illustrated book, sent free. Send for your copy now to Bradford Regulator Co., B.A-70, Atlanta, Ga. Get "Mother's Friend" from your druggist today.

MUSIC FESTIVAL TO BE IN SPRING

DEAN BUTLER TO TAKE LEADING PART IN "ELIJAH"

Kansas City Little Symphony Orchestra Will Give Two Concerts During Festival.

Prof. Wallace R. Clark of the Music Department has announced a Musical Festival to be held on April 17, 18, and 19 in the College Auditorium. It will be the first Musical Festival of its kind ever held in Canyon, and efforts are being made to make it one of the best ever held in the Panhandle.

The Festival is to consist of four programs, one each evening and one on the afternoon of the last day. Dean Harold F. Butler of Syracuse University, New York, is making a special trip from Syracuse to Canyon to take part in the Festival. Dean Butler is well known throughout the East as a noted singer and musician and will add considerably to the program.

The first program will be held in the College auditorium on the evening of April 17, and will consist of a song lecture recital by Harold F. Butler of Syracuse University. Those who had the privilege of hearing Dean Butler last summer will vouch for the pleasing manner in which he conducts song lectures.

The following evening in the auditorium, the Chorus and Orchestra of the West Texas State Teachers College will present Mendelssohn's "Elijah." The part of Elijah will be taken by Dean Butler. Other parts will be taken by local artists to be announced later.

Noted Orchestra Coming
The Little Symphony Orchestra of Kansas City, consisting of twenty-four pieces, will present two programs on the last day of the Festival. The first will be in the afternoon; the second will follow in the evening. This is the first time that anything approaching a symphony orchestra has been brought to Canyon, and lovers of real music will have the opportunity of hearing a real symphony orchestra in miniature.

This Musical Festival precedes the one that opens in Amarillo the following Monday which will last for five days.

To cure constiveness the medicine must be more than a purgative; it must contain tonic, alterative and cathartic properties.

STUDENTS READY FOR CONVENTION

SOUTHERN METHODIST UNIVERSITY TO BE HOSTESS.

Delegates from all Parts of Texas Will Meet in Second Convention of the Methodist Student Federation.

Five delegates from the College will attend the state meeting of the Methodist Student Federation at Dallas on February 8, 9, and 10 when Southern Methodist University will be hostess to the visiting delegates. The local representatives are Annette Reed, Esther Shoultz, Weldon Thompson and John Randolph, accompanied by Mrs. T. C. Delaney, Methodist Student Secretary. Of these students, Annette Reed, Weldon Thompson, and John Randolph are officers of the local group, serving as director of recreation, treasurer and secretary, respectively.

"Methodism and Her Task" is the central theme for discussion at the convention. Subjects for the three days are: "Methodism's Foundation," "Methodism's Resources," and "Methodism's Task."

The Methodist Student Federation is a comparatively new organization. During the summer of 1922, a small group of college workers and their friends met at Dallas to talk over the religious situation as it applied to the Methodist students of Texas. It was the judgment of this meeting that some sort of statewide organization should be formed to promote adequately the religious objectives.

Accordingly a call was issued to all Junior and Senior colleges in Texas, urging them to send representatives to a general meeting at Georgetown on February 2-4, 1923. More than 100 students from 22 colleges met and or-

NOTICE OF TRUSTEE'S SALE
Whereas, on the 31st day of January 1916, J. J. Cantrell et ux, Ivy M. Cantrell, and Mrs. M. S. Cantrell, a feme sole, executed a deed of trust conveying to Moise Cerf, a trustee, the real estate hereinafter described, to secure I. and L. Cerf in the payment of a debt therein described, said deed of trust being recorded in Vol. 6, pages 273-4-5-6, in the deed of trust records of Randall County, Texas; and

Whereas, the undersigned has been appointed substitute-trustee in the place of said original trustee, upon the contingency and in the manner authorized by said deed of trust; and

Whereas, default has occurred in the payment of said indebtedness, and the same is now wholly due, and the owner and holder of said debt has requested the undersigned to sell said property to satisfy said indebtedness;

Now, therefore, notice is hereby given that on Tuesday, the 4th day of March, A. D. 1924, between ten o'clock a. m. and four o'clock p. m., I will sell said real estate at the door of the County Court House in Randall County, Texas, to the highest bidder for cash.

Said real estate is described as follows: In the County of Randall, State of Texas: Being all of Survey No. 300, Block B-5, Certificate No. 15-3589, issued to the Houston & Great Northern Railroad Company, containing 640 acres of land.

Witness my hand this 23rd day of January, A. D. 1924.
LOUIS CERF,
Substitute-Trustee.

ganized the Methodist Student Federation of Texas.

Local delegates to this first convention were Miss M. Moss Richardson and Elmer Marshall. Miss Richardson was a member of the committee which framed the constitution of the organization.

All students who are members of the Methodist Church or any of its auxiliary bodies are members of the Federation, which works through channels that are already organized.

A civilized country is one which believes progress consists in maintaining the death-rate by the prevention of disease and the invention of motor vehicles.—Kansas Legionnaire (Wichita).

Los Angeles alienist pronounces a woman insane who has seven husbands. He does not tell the papers, however, which is the cause and which the effect.—Tacoma Ledger.

Gold valued at £93,140 arrived at Plymouth from West Africa. But why was the journey to America broken at Plymouth?—The Passing Show (London).

Of course Americans trust in God. You can tell by the way they drive.—Sharon (Pa.) Herald.

In an attack of acute rheumatism in which there is much pain Ballard's Snow Liniment is a necessary part of the treatment. It is a powerful pain relief. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by City Pharmacy.

PROBATE NO. 173
THE STATE OF TEXAS,
County of Randall.

To those indebted to or holding claims against the estate of James M. Leavitt, deceased.

The undersigned having been duly appointed administrator of the estate of James M. Leavitt, deceased, with Will annexed late of the County of Logan and State of Illinois by the Honorable Rector Lester, Judge of the County Court of said Randall County, Texas, on the 10th day of January, 1924, and at a regular term thereof, hereby notifies all persons indebted to said estate to come forward and make settlement, and those having claims against said estate to present them to him at residence in Canyon, Randall County, Texas, where he receives his mail, this the 10th day of January, 1924.

S. V. WIRT,
Administrator with Will annexed of the estate of James M. Leavitt, Deceased. 424

Fifteen Counties of Panhandle Have Clubs at College

Fifteen counties of the Panhandle of Texas have clubs of students of the West Texas State Teachers College. Most of these clubs have been organized within the past four months, and they vary in membership from ten to more than 100. The counties in which these clubs are found at Childress, Oehlertree, Scurry, Fisher, Hardeman, Foard, Cottle, Hall, Collingsworth, Lynn, Gaines, Dawson, Floyd, Potter, and Randall.

Miss Mattie Swayne, of the College faculty, keeps in close touch with all the county organizations and helps leaders to plan the work which they are trying to do for the Alma Mater.

Intestinal worms destroy the health of children and weaken their vitality. The worms should be expelled before serious damage is done. White's Cream Vermifuge is a thoroughly successful remedy. Price, 35c. Sold by City Pharmacy. 454

LITTLE WANT ADS BRING RESULTS

Ford
THE UNIVERSAL CAR

Forecasting A Tremendous Spring Demand
739,626
more Ford cars and trucks were produced last year than the previous year, an increase of over 50 per cent.

In spite of this tremendous increase in production, it was impossible to meet delivery requirements during the spring and summer months when orders for 350,000 Ford Cars and Trucks could not be filled.

This year winter buying for immediate delivery has been more active than ever before—and in addition 200,000 orders have already been booked through the Ford Weekly Purchase Plan for spring delivery.

These facts clearly indicate that the demand during this spring and summer will be far greater than ever, and that orders should be placed immediately with Ford Dealers as a means of protection against delay in securing your Ford Car or Truck or Fordson Tractor.

Ford Motor Company
Detroit, Michigan

A small deposit down, with easy payments of the balance arranged, or your enrollment under the Ford Weekly Purchase Plan, will put your order on the preferred list for spring delivery.

Homeseekers Day in Canyon February 18

(Continued from page one)

fair. It is especially desired that the occasion shall bring permanent results in more firmly entrenching the college in the knowledge of the public and bringing it much favorable publicity.

While the locale of the various entertainments will depend largely on the weather, it will be entirely possible to carry out practically everything yet projected, should the weather be inclement, under shelter, and the tender of the use of the college auditorium by Dr. Hill insures that the speaking and similar features will be well taken care of.

W. T. T. Officials Asked

Porter A. Whaley, manager of the West Texas Chamber of Commerce, and Homer D. Wade of Fort Worth, assistant manager, have been sent special letters of invitation, their acceptance is looked for at any moment.

Local sentiment seemed never so unanimously behind a proposition in the history of Canyon, and the enthusiasm for the recent appears, both from the comment of the business men and from expressions heard at the Chamber banquet Tuesday night, really universal. It appears, moreover, to be the kind of enthusiasm which, like the twin brother of faith, can move mountains.

That there is much to do cannot be denied, it is admitted by those who are bending their energies to the promotion of the big event. There are many letters of invitation to be gotten out, a definite program to be arranged, entertainment features to be looked after, the barbecue plans to be perfected, welcome committees to be appointed, guides and individual hosts for the prominent visitors to be pressed into service, accommodations for the crowds to be provided, and a host of other things.

Short Time is Advantage

The time, it is equally true, is short, but it was decided by the committee that this will be more of an advantage than a drawback, from the fact that interest in the coming event will not be allowed to flag. It is proposed to keep the affair moving from the start, all shoulders to the wheel, with each step working up to a perfect climax on the day of the celebration.

At any rate, it is believed, the results cannot be otherwise than tremendously beneficial to Canyon and expressly conducive to the rapid development of her incredibly great resources.

Umbarger Notes

Last Sunday was disagreeably cold. Rev. Lindley of Tulla gave the Way-siders a good sermon, notwithstanding the cold. We are always glad to have him among us.

A cold northwest wind blew up Sunday afternoon. Snow fell at intervals before night very cold and wind cutting. Some who were away from home failed to go back until morning. But little moisture from the snow, as there was but little fell.

Mrs. Toye Hutson's babe is still sick with enlarged glands. No improvement last account.

Willis Fisher met Miss Flora Carter and Mrs. Zora Brown in Amarillo Sunday, reaching Wayside Sunday night. They were from Goodnight.

R. E. Carter is on the sick list. Dr. Warner of Claude was called to his bedside Tuesday morning.

Mr. Fairley and family of Gainesville, Texas, moved to the J. T. McGehee west place the past week and will farm the place this year. Two of his children have entered school at Wayside.

Miss Irene Crawford went home the past week end, returning Monday. She reports her mother is quite unwell, and under treatment of Dr. McFarland.

Dewitt McGehee and Birdie Lou Lane visited home folks the past week end from the Canyon College.

County Agent J. W. Jennings and Louis F. Hart, manager of the Chamber of Commerce of Canyon, passed through Wayside Wednesday, and with W. D. McGehee visited the Palo Duro canyon. They promise to return some time and make a longer visit.

Tom Rushing of Floydada came thru Wayside Thursday, making a short visit with W. J. Sluder.

J. C. Payne and M. C. Sluder made a business trip to Amarillo last Thursday.

Dr. Otto Roehrig of Happy made a business trip to Wayside Friday, calling on Mrs. Emma Franklin.

J. S. Sluder is moving his household effects today, Tuesday, his destination is five miles above Amarillo.

M. L. McGehee made a business trip to Canyon Monday afternoon.

M. L. McGehee and family enjoyed the hospitality of W. I. Lane and family last Sunday.

There is a shortage of between 800,000 and 1,000,000 houses in the United States.

Rev. S. Baring Gould, the man who composed "Onward Christian Soldiers," died in London recently.

Happy Happenings

Mrs. O. R. Bridges, Mrs. Ball and Mrs. J. H. Stephenson were shopping in Amarillo Saturday.

Mrs. Walter Fogerson of Silverton spent the week end here in the J. E. Money home.

Mr. and Mrs. Grady Davis, of Canyon, Rev. and Mrs. H. W. Carter, Miss Gladys Bandy and Mr. Ural Barnard spent Sunday in the W. C. Lindsey home.

Miss Jessie Reynolds of Wildorado is visiting this week with Miss Ruth Dixon.

Mr. and Mrs. A. J. Newberry spent the week end in the parental C. Shuman home at Canyon.

Miss Lula Bowman spent Friday and Saturday with Miss Frank Linn of Kress.

Virgie Maynard of Tulla spent the week end here with home folks.

Miss Ruth Cobb spent the week end with friends in Amarillo.

Emit Grounds was a Tulla caller Sunday.

Miss Lula Bowman spent Saturday night with her parents in Canyon.

Mr. and Mrs. W. H. Brown and children spent Sunday in the C. L. Grounds home.

J. I. Penrod of Tulla is visiting with his daughter, Mrs. J. E. Toles this week.

Mr. and Mrs. E. N. Zachery and children spent the week end at their farm east of town.

Mrs. Harry Schultz and little daughter left Tuesday morning for Dallas where Mrs. Schultz will be under treatment of the doctor for several days.

B. F. Maynard was an Amarillo caller Tuesday.

Miss Grace McConnell is quite ill this week, being unable to attend to her school work.

E. Guthrie of Lockney was here Tuesday on business.

Mr. Spear, who is working at the Star Coal Co., spent the week end with home folks in Tulla.

H. G. Bowe was a Tulla caller Tuesday.

Doris Hamblen of Wayside is visiting here this week with her grandparents, Mr. and Mrs. S. P. Hamblen.

Lonnie Townsend of Tulla was a business caller here Wednesday.

J. R. Harkins left Thursday for Dallas on business. He will be gone for several days. He will also visit points in Oklahoma.

Mr. Jackson, a cattleman of Lubbock was here Wednesday on business.

Mr. and Mrs. D. H. Culton and little daughter, Doris, of Tulla, Mr. and Mrs. J. E. Gurley and children, Geo. Cook and Mrs. Mary Cook spent Sunday at the O. H. Rahlfs home west of town.

Miss Elma Cobb spent the week end with friends in Tulla.

Mr. and Mrs. H. D. Hagood and children spent Sunday at the parental J. C. Mann home south of town.

O. O. Baker was an Amarillo caller Wednesday.

Mr. and Mrs. H. L. Holland and children and Mrs. J. M. Evans left Saturday for their home near Texhoma.

The basketball teams of the Happy high school went to Price, Friday to play, of which both boys and girls were victorious. The girls won to a score of 12 to 10. This being their first match game. We are very proud of them. The boys won by a score of 10 to 9.

W. H. Bellas and son, Clifford, of Iowa are here this week on business.

Mrs. Mary Florence Tibbetts died at her home about seven miles east of this place Friday night. Mrs. Tibbetts had been in poor health for about a week from an attack of paralysis. Her body was laid to rest at the Happy cemetery Monday afternoon, Rev. Lindley of Tulla conducting the funeral services. Mrs. Tibbetts was very well known around here and near Wayside, being loved by every one who knew her. Mrs. Tibbetts leaves to mourn her death her husband, a father, three brothers and two sisters.

OUR ALL-STAR TEAM FOR THE WHOLE YEAR

Pa. field captain, who brings home the bacon.

Ma, playing manager, who cooks the bacon.

Oldest Daughter, who washes the dishes.

Youngest Daughter, who wipes 'em.

Oldest Son, who mows the lawn; also holds down a steady job.

Grandma, who distills the cheering home brew of serene old age.

Grandpa, who thinks his daughter-in-law is the salt of the earth.

Oldest Daughter's Steady, who has already paid the first installment on that home.

Here's a team whose members don't get their pictures in the paper, but every one of them has 300 in the league of useful living.—Exchange.

W. H. "Coin" Harvey started the New Year by mailing 200,000 packages of five copies each of The Palladium for free distribution, to a select list of supporters. The publication is devoted to financial reform.

High Wind Sunday Does Considerable Damages Around City

One of the hardest winds in years swept down upon the Plains Sunday and did considerable damage over the entire Plains section. Windmills and chimneys were the principal sufferers in the high gale.

The grand stand and south fence of the athletic field were blown down. A number of window panes were broken in the main building.

The roof of the west porch at Huntleigh Hall was taken off and the timbers knocked over a large chimney and punched holes in the roof.

No homes were materially damaged except in the loss of chimneys, but many hog houses and barns were badly damaged in all sections of the country. The wind was big in all sections of the Panhandle.

A light snow was driven before the wind, but fortunately the temperature was not very low.

More than a hundred homes were without lights owing to the lines and polls of the light company being blown down. The telephone service was not badly damaged.

Deeds Filed This Week Transferring Randall County Land

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office.

A. J. Baker to R. L. Vineyard, northwest quarter section 5 and 120 acres section 6, block 2-Z. Consideration, \$4,200.

Geo. Small to F. E. Smith, lot 1, block 78, Canyon City. Consideration, \$200.

WHY THE UNITED STATES LEADS ALL THE WORLD

The world contains two thousand million people. The population of the United States, proper, is a little more than 100,000,000, or five per cent of the population of the universe. Here are comparative figures of the world's leading commodities and the ratio of production and consumption by the people of the land of Christopher Columbus:

Coal—The United States produces for the services of industry 43 per cent of the world's output and consumes 42 per cent.

Iron—This country produces 54 per cent of the world's total and consumes 53 per cent.

Steel—We produce 64 per cent and consume 57 per cent.

Copper—We produce 49 per cent and consume 44 per cent of the world's total.

Petroleum—We produce 64 per cent and consume 72 per cent.

Cotton—We produce 69 per cent and consume 37 per cent.

Automobiles—We produce 92 per cent and use 90 per cent of the world's equipment.

The annual growth of wood in the United States is computed to be approximately six billion cubic feet. The total cut is almost twenty-five billion cubic feet.

Candidate Column

The News is authorized to announce the candidacy of the following candidates in the Democratic Primary in July, 1924:

For Sheriff and Tax Collector: JNO FRY.

For County Treasurer: MRS. MYRA SMITH. G. R. (BOB) REID.

For County and District Clerk: MRS. ETHEL WOODS.

For County Assessor: TOM REDDELL.

For Commissioner Precinct No. 2: A. P. THORNTON.
