

# BIG DAY HERE MONDAY

## CONTESTANTS PASS THE MILLION VOTE MARK

**VOTE TOTALS SOAR AS LEADERS LINE UP FOR FINAL DASH—PEP AND PERSISTENCE WILL MAKE SURE WINNER**

**WITH HONORS ABOUT EVEN EVERYTHING DEPENDS ON EFFORTS FROM NOW TO THE FINISH AS TO WHO WILL CLAIM THE SEDAN AND THE ROADSTER.**

Developments during the last 24 hours of the "first period" in the News' Big "Everybody Wins" Prize Contest were the most sensational and spectacular that have, as yet, been recorded. Battles were fought, won and lost, and the race waged fast and furious.

**Candidates**

With six leaders in this race going STRONG—to a neck and neck finish—it behooves each and everyone of you to PUT IN YOUR BEST LICKS NOW! To weaken now, to let up on your aggressive campaign for votes, to allow one of your competitors to pass you at this stage of the game would be the ONE BIG REGRET OF YOUR WHOLE LIFE.

If you will THINK what the winning of this splendid new 1924 model Ford Sedan worth \$815.50 means in CASH VALUE, you will put forth greater effort now than ever before to hold the position you have gained and will work DAY AND NIGHT to pile up the amount of votes it will take to win.

**Beware of Over Confidence**

It is an entirely safe prediction that many a prize will be lost during the remaining few days of the contest through the over confidence of the candidates who may feel that they have accomplished—results up to this time that will enable them to sit down and rest on their laurels.

Don't flatter yourself that you already have enough votes to win, for you haven't. Don't think for one minute that two or three million votes will be enough to win, for it won't. There is more than one candidate in this race who expects to corral that many votes and before the final scene comes into play YOU MAY EXPECT TO SEE THE PRESENT TOTALS GREATLY ENLARGED.

Don't take a single chance of losing the prize you most desire. What if you should fall short a few thousand votes, representing a subscription or two—you would never forgive yourself the fatal error.

**Vote Decrease Slight**

The votes on subscriptions have decreased but slightly. Not enough to seriously hinder the candidates who failed to put in their best efforts during the first period. You can go to it right now and pile up a vote total that will place you at the head of the list.

The next BIG DATE is February 23, when the "second period" closes then just THREE SHORT DAYS REMAIN TO WIN!

**Less Than Two Weeks to Win!**

Candidates who have visions of BIG AUTOMOBILES are seething with energy, BOUND AND DETERMINED to make these next few days win for them. Get a few long term subscriptions NOW and head the list Saturday

**LIGHT RAIN SUNDAY.**

A light rain fell Sunday in Canyon, amounting 14 of moisture. The day was cool, but has since warmed into the finest possible spring weather for this time of the year.

**ENTERTAIN PARENT-TEACHERS.**

The executive officers of the Parent-Teachers Association were entertained today noon by the Home Economics Department of the public school.

**HUSTLE**

30

5-year subscriptions to the News, equals

**1,350,000 VOTES**

A bunch like that couldn't help but MAKE A WINNER of a brand new candidate.

DO YOU WANT A SEDAN? SOMEBODY DOES!

GET BUSY!

YOU MUST—TO WIN!

**Ballot Boxes Shipped Friday to Washington by Federal Deputies**

R. H. Gaston and John T. Selman of Dallas where here Friday to ship the Randall county ballots in the last general election to Washington where they will be counted in the Mayfield-Petty senatorial contest.

These men had the work of gathering the ballots in several Panhandle counties. They interview various county officials as to the ballots used and the method of handling the ballots.

Mr. Selman stated that he found the ballots in Randall county to be in very good condition. All were in the original ballot boxes, and these were shipped to Washington by first class mail in order that the boxes may be opened by the investigating committee.

**PROGRAM FOR HOMESEEKERS DAY**

Tentative program for Homeseekers Day as announced by Dan F. Sanders, chairman of the program committee:

- 10:00 a. m. Band Concert—West Texas State Teachers College Band
- 10:45 a. m. Address of Welcome—Mayor C. N. Harrison
- 11:00 a. m. Barbecue on public square.
- 1:00 p. m. Address—"Chamber of Commerce Co-operation," O. V. Vernon, Amarillo.
- 1:20 p. m. Address—Homer D. Wade, Fort Worth
- 1:40 p. m. Address—S. J. Cole, Amarillo
- 2:00 p. m. Award of prizes for oldest flivver, largest family, most distant visitor.
- 2:15 p. m. \$50 auto race on Fourth Avenue.
- 3:00 p. m. Roller skate race on public square.
- 3:30 p. m. "Cotton Development"—J. W. Reid
- 4:00 p. m. "Diversified Farming"—J. W. Jennings, County Agent
- 4:20 p. m. "Poultry Raising"—T. M. Moore, West Texas State Teachers College.
- 5:00 p. m. Political addresses by candidates.
- 6:30 p. m. Grand Auto Smash on Sixteenth Street.

**At the College Auditorium.**

- 7:30 p. m. Address. "The Spirit of the Panhandle," Mrs. Phebe K. Warner of Claude.
- 8:15 p. m. One-act play, "The Florist's Shop"—Dramatic Club

**On the Public Square.**

- 7:30 p. m. Boxing program, preliminaries and main bout.
- 9:00 p. m. Street Dance.

**Trades Excursion to Be Run in All Directions from the City on Friday**

A trades excursion will be run from Canyon Friday. Eight or ten cars will leave the city early with a view of covering every section of Randall county, and going into neighboring towns with a view of inviting people to attend the Homeseekers Day and Trades Day next Monday.

H. C. Gamble and W. A. Warren are in charge of the arrangements for the cars to make the trip.

**MARRIAGE LICENSES ISSUED**

Cal Farley and Miss Mabel Wares, February 7.  
Otto Charles Skarke and Miss Marie Henrietta Vorwald, February 9.

**STORK SPECIAL.**

A daughter was born to Mr. and Mrs. C. V. Buchanan February 5.

More than 1,000 acres of cotton was grown in Illinois during 1923.

**Legion Orders Flags for Business Houses and Citizens of Canyon**

Fifty flags were ordered this week by the Palo Duro Post and will be delivered in time of decorating the town on Homeseekers Day next Monday.

These flags have been sold to the business houses of Canyon. The Legion is fixing to mount the flags and make holes for the pipe flag pole in front of each business house which has bought the flags.

The Legion recommends this style of decoration rather than the use of hunting in decorating the business houses.

The citizens of Canyon are urged to decorate their places of business and their residences next Monday.

**New Depot Has Not Been Acted Upon by the Santa Fe Officials**

It is reported from Santa Fe offices that no action has been taken regarding the new depot for Canyon.

The new depot was approved by the Amarillo office and sent to the directors meeting in Chicago. The only item passed for this division was the Canadian bridge which calls for more than a million dollars. This item was urgent, and the directors ordered work to be started at once.

At last report from Chicago no other items for this division had been passed by the directors.

**Rare Blackberry Plants Sent to City by West Texas Chamber Com.**

The West Texas Chamber of Commerce is distributing to members over this section a rare blackberry plant which was bought in Florida, costing \$1.00 per plant. Twenty-five of these plants were shipped to Canyon and nineteen other towns in this section. A report on this plant will be made by those receiving the plants.

It is thought that this plant will do very fine in this section.

**ALL READY FOR A BIG DAY IN CANYON NEXT MONDAY ON HOMESEEKERS DAY AND A BIG ATTRACTIVE TRADES DAY**

**BARBECUE STARTS AT 11:00 O'CLOCK—\$50.00 AUTOMOBILE RACE—PRIZE FOR THE OLDEST FLIVVER—GRAND AUTO SMASH—BAND CONCERTS—SPEAKING—PLAY AT THE COLLEGE AUDITORIUM—CANYON EXTENDS WELCOME**

Preparations for Canyon's first annual Homeseekers Day are now practically complete, and all Northwest Texas is now looking toward the Randall County seat as the scene of one of the greatest celebrations in the history of the Panhandle-Plains territory.

Fat steers are ready for the slaughter to feed those who will come to Canyon by train and by automobile Monday. Stacks of souvenirs are being brought to the city by every mail for distribution by the merchants. Committees of all kinds are perfecting arrangements for entertainment. Speakers from far and wide are preparing to gather here to deliver their messages.

Daily rehearsals are being held by the Dramatic Club of the College in preparation for the presentation of "The Florist's Shop," an appealing human interest play which will be presented at the College auditorium as one of the free entertainment features of the day. Under the direction of Miss Mary Morgan Brown, this play is expected to rouse a wide interest in the dramatic work of the College.

Finishing touches are being put on the Studebaker automobile which will figure in the great auto crash to be staged at the close of the day on Fifteenth street near the square. If you want to know what happens to a car that hits a stone wall, see this one actually do it. It will be the spectacular climax to the day's events.

Ancient flivvers from far and near are being coaxed into performing shape for the "oldest lizzie contest." Other antique motor cars are being groomed and tuned for the novel classic, the \$50 car race. Every driver entering this race must agree to sell his car for \$50, if he receives this offer. Daredevil drivers who expect to take their lives in their hands at rickety steering wheels are ready to compete in the grand dash for the purse.

A unique offer is made by a merchant to feed free of charge every team driven into Canyon for the celebration. Farmers without cars are urged to drive to town for the day.

A large delegation will attend the celebration from Amarillo, organized under the direction of O. V. Vernon, secretary of the Board of City Development. Delegations from Hereford, Tulia, Plainview, Claude and other neighboring county seats are also expected. Automobile excursions will be made Friday to these cities to extend the invitation.

Mayor C. N. Harrison will be host to a number of fellow mayors from surrounding towns including those named above, and Mayor E. R. Cockrell of Fort Worth. Invitations already have been sent out and a number of acceptances received.

Landowners are invited to list with the Chamber of Commerce their tracts suitable for cotton farming, either for sale or for rent.

A committee of 50, headed by W. A. Warren, will act as greeters to the homeseekers and will pilot them over the city to places of interest.

A number of additional entertainment features are being worked out and will be given places on the program.

If the weather is at all favorable, Canyon expects the largest crowd of its kind ever gathered at a Northwest Texas celebration.

**PIPKIN FOR COMMISSIONER.**

The News is authorized by J. C. Pipkin to announce his candidacy for the office of County Commissioner, Precinct No. 4.

Mr. Pipkin is among the best known citizens of Canyon. He has lived in Canyon for 24 years, and has been in the Panhandle for 34 years.

Mr. Pipkin has been in business a larger part of the time since coming to

Canyon and knows the needs of the town and the county. He has taken a great interest in the affairs of Randall county, but has never been a candidate for any office. If elected to this office he will serve the people well and is qualified to look after the office in a business like way.

If your bed quilt is short, pull up your feet.

It looks like there will be an abundant crop of candidates for the office of governor in the democratic primary. Eight or nine men have announced, and their platforms vary in proportion to the number. At least one candidate is honest with the people and states that there can be no reduction of taxes under existing conditions. Another, who is using taxation as a bandwagon, is shouting "no more taxes, no time, no place, against nobody nor nothing." Of course he knows better—he is not so ignorant as his platform would indicate. He knows that taxes must continue to grow just as our plane of living grows and as our demand grows for better things in our state government. The voter has five months in which to carefully study the platforms of these various candidates. Blow aside the chaff and the bunk that is spread over the surface of these platforms. The man back of the platform is the thing that really counts. A really worth while candidate is not blowing how he will revolutionize the state government in thirty seconds after he takes charge. The bunk candidate knows that he would not be able to carry out his promises if the state should be so unfortunate as to name him governor, but he likes to hear his mouth running off as to what a great man he is and what he would do in Austin if he were elected—realizing all the while that it is pure bunk. A sensible, sane man is needed in the governor's chair, and such a man will guide the state safely through the most dangerous conditions confronting it.

There is a crusade on in this country to keep the bootlegger in jail from the time of his arrest until he has stood trial. It is said that bond is made in a majority of cases by the most substantial men of the country who do not use liquor, but the fact that they are willing to go on the bond of bootleggers has caused this business to flourish. The bootlegger feels that he has at least the good will of the good citizens when they will sign his bond. The liquor laws are becoming so simple in most states that arrest is almost certain conviction, with the proper evidence given, and the fact that so many bootleggers have left the country and let their bondsmen pay up on the bonds, that within a very short while the bootlegger is going to find himself up against a real proposition when it comes to making bond. That will have a wholesome effect.

The Plainview News is changing from a semi-weekly to a weekly publication. The high cost of publication and the hard work of a semi-weekly is given as the reason by Editor J. M. Adams. A few years ago the mere matter of cost had little to do with the publishing business. Today it is the big factor. One newspaper is now being published where two or three existed before. The biggest city in America is the best example. Frank Munsey has paid more than a million dollars for four different daily newspapers in New York City during the past three years, and killed them because there was not room for so many publications.

Mr. McAdoo had a perfect right as a lawyer to accept the employment of the big oil interests and to earn the big fee that was paid him. But as a presidential candidate this employment is going to work a hardship upon both himself and his party, should he be nominated. Those things stick deep in the minds of the people, whether they are just or unjust.

The business houses of Canyon are urged to decorate their stores, and the citizens are urged to decorate their residences next Monday for the Homeseekers and the Trades Day. Nothing makes so much for an attractive town as well decorated business houses and homes. Decorate for next Monday.

Plant some cotton this year—but don't go into cotton exclusively. The diversified farm is the paying farm.

Buy, Build, and Live in Canyon.

**Opening the Palo Duro**

FORT WORTH STAR-TELEGRAM

As indicating, both the disposition and the ability of Panhandle-Plains people to do for themselves, we reprint the following from the Canyon News:

"The Amarillo Board of Development has cut all reference to the wonderful Palo Duro Canyon from the advertising matter concerning the city and country. Why? Simply because the wonders of the canyon can not be shown to visitors who are interested. The canyons from the Amarillo side are entirely shut off and high fences turn back those seeking to see this great handiwork of nature. It is a sad state of affairs, but no doubt the owners of the land feel thoroughly justified owing to the treatment they receive at the hands of the visitors. The canyons from our side are alike, practically prohibited. The posted signs are up at almost every point of accessibility, but the owners are more lenient than on the Amarillo side and generally, except in times of great fire danger, will allow parties to enter the canyons. The Panhandle has been expecting the State to make a State park from the Palo Duro Canyon. We are chasing a phantom, so long as the State is in its present financial condition, which is certain to continue many,

many years. If the glories of the Palo Duro are opened to the world, it will be by the persistent efforts and the money of Panhandle people."

Texas as a whole has a very inadequate conception of the beauty and grandeur of the Palo Duro Canyon, a beauty enhanced by the sheer suddenness with which the traveler passes from level and fertile farm and pasture lands into the untamed magnificence of that scenic splash in the bosom of the earth. It is a tremendous asset to that section which, in some ways is favored and in others handicapped by a singular uniformity in landscape.

The project to create a State park gains ground slowly, but steadily, because every person who once experiences the thrill the spectacular contrast afforded by a visit to the Palo Duro Canyon becomes an earnest supporter of the plan to retain its beauties for the public enjoyment. But the Canyon News is right. "If the glories of the Palo Duro Canyon are opened to the world it will be by the persistent efforts of Panhandle people," whether the manner of opening shall be by act of the Legislature at Austin or through public or private enterprise in the sections adjacent to the canyon.

Local history is the most interesting subject for most of our people because it deals with the people concerning whom we have heard much. Local history of the Panhandle-Plains country is being revealed through the work of the Panhandle-Plains Historical Society, which organization seeks to gather up the fast disappearing threads of the early days of this great section, once the home of the buffalo and the Indian. This organization should receive the hearty encouragement of every citizen of the Plains, but more especially the people of Randall county since its interest is centered in the great collection of early relics that is being gathered at the College by the officers of the Society. If you have not seen this collection of early Panhandle-Plains history, go to the College and look it over. It is intensely interesting. A membership in the Society will help a little toward keeping alive the camp fires of the frontier days of this section.

The democratic leaders are up against a problem in the case of McAdoo. There is no doubt about McAdoo being the leading candidate for the presidential nomination, but his connection with the oil interests is going to be a blot that will not out. No matter how clean his record may be in oil case the fact can never be effectually eradicated from the mind of the voters that he was connected with a bunch of oil grafters who would rob the United States for their own benefit. McAdoo claims indemnity from all evil in the case, but his claims will never be entirely wiped out, no matter how thorough his explanation. It is going to be up to the democratic leaders to find another candidate—one who will not have to bear the burden of this oil graft.

Come to Canyon next Monday, February 18th. The day has been designated Home Seekers and Trades Day, but there will be plenty to interest all whether they be homeseekers or not. It should be a great day for all the citizens of Randall county. Canyon has not had a Trades Day for several months, and the business houses of Canyon plan to make a real Trades Day for the benefit of the home people—home people meaning all Randall county and people from the nearby communities. Come to Canyon on the 18th and enjoy the entertainment that is being planned by the committee from the Chamber of Commerce.

Since cotton is being discussed so much for Northwest Texas, the dairy interests are afraid that the farmers will quit dairying which has proven so profitable to this section in times past. Dairying means work, but ample returns for that work. Dairying and cotton raising should go hand in hand in Northwest Texas.

You are going to miss a big thing by not being in Canyon next Monday, Feb. 18th. Come.

As soon as Woodrow Wilson had passed away and unable to defend himself, a newspaper in England printed a story of a secret treaty that he and Clemenceau had made against the interest of England. Lloyd George was supposed to have given this information. The attack was so dastardly that it brought to the defense of Wilson Lloyd George and the other diplomats of Europe. The speed in squelching this traitorous attack upon the good name of Wilson and the American people ought to dismay the ambitions of the pack of wolves who are always trailing the pathway of the dying man.

From all indications Canyon will do as much public improvements in 1924 as was done in 1923, which was a record breaking year. Paving of a half mile more of streets will bring the total paving up to three and one-half miles, which gives Canyon a big lead over any town in the Southwest of equal size. Two new churches will be under construction. Several new residences are under construction, and more business houses are being planned. A \$25,000 gin will soon be stated. A brick plant is almost assured. Come to Canyon if you want to be in the midst of big things during 1924.

There is a move on in Texas to do away with capital punishment. We were almost convinced that the Court of Criminal Appeal had done away with capital punishment and even prison sentences. It is perfectly legitimate to beat a man's brains out with a sucker rod or choke him to death since a sucker rod and the human hands are not "deadly weapons." A judge will find out some of these times that it will take a pistol of certain calibre or gun shot of a certain size to be a "deadly weapon."

President Coolidge inherited a cabinet, and is living true to his former superior in refusing to dismiss Denby on account of the oil lease. Whether the President has confidence in his secretary, or confidence in the former president is not stated. At any rate, the President is known to be a man who stands by his convictions, and it is to be hoped that in this instance he is right. If he decides that Denby ought to be fired from the cabinet, the President will do it without much ceremony.

The cotton acreage in the Canyon trade territory is now assured to be at least 10,000, which will bring the cotton gin this year. The gin will be the very best on the market, with the latest improved machinery money can buy. Farmers may feel no hesitancy in getting into the cotton raising business this year. The gin will be ready for them.

Hiram Johnson stoutly denies that his campaign is slipping and that he is soon to withdraw from the race. He is a fighter and has to take to count before being eliminated.

Congress proposes to rush through a bill reducing income taxes twenty-five percent, applicable at once and to be effective for 1923 income taxes. This is political year, you must remember and a president is to be elected. Both republicans and democrats will claim the honor of this reduction.

The reason why so many people are looking for work, they are afraid of it in too many cases. They want "easy" jobs with good pay.

The mild weather of the last month has brought to life near Montreal, Canada, millions of insects that prey on fruit trees. Ordinarily these insects pass the winter in a dormant state.

It is easy to get rid of the misery of heartburn or indigestion. Herbine goes right to the spot. It drives out the badly digested food and makes you feel fine. Price, 60c. Sold by City Pharmacy. 4514

### Organization of Brick Company Started in Meeting Yesterday

First decisive action was taken Wednesday on Canyon's brick plant proposition and by Thursday morning it seemed in a fair way to be pushed to a successful conclusion. This action was the organization at a meeting held in the Chamber of Commerce offices of a skeleton company, pledging two and one-half per cent of its proposed \$40,000 capital, for the purpose of conducting complete and exhaustive tests of the H. C. Roffey site on the North edge of town.

The meeting was called by Louis F. Hart, manager of the Chamber of Commerce, who presided, and was attended by a large number of interested local men, by Mr. Roffey and by two brick men, C. C. Frampton of Amarillo and R. A. Campbell of Slaton. Both of the last named were present through their interest in the Roffey site and the exceptional promise it gives of developing into an unusually good proposition.

#### Gives Facts and Figures

Facts and figures on Brick manufacture, the essentials of a paving plant, reasons for failure of other plants and contingencies to be guarded against, together with an estimate on the profitableness of manufacture of brick in Canyon were furnished by Mr. Frampton and Mr. Campbell, with the result that it was decided by those present to go ahead with a thorough test of the site.

It was agreed by those present that the figures submitted by the two experts, one of whom has had 30 years experience and the other seven, show indisputably that a brick manufactory under the right conditions is highly profitable, that its stock is a gilt-edged investment of the highest class. The saving of freight, alone, would make brick manufacture here most attractive, it was agreed.

#### Skeleton Company Authorized

At the suggestion of T. C. Thompson, O. N. Gamble and others, Mr. Roffey was authorized to go ahead with the organization of a skeleton company, through the signing of a mutual agreement pledging the 2 1/2 per cent of the proposed capital, one per cent of which should be subscribed in cash and the remaining one and one half per cent in 15 days, upon satisfactory completion of the digging tests.

These tests by digging, it was agreed will consist in sinking 20 shafts at intervals over an area of ten acres, which, if proved up, will provide sufficient material for a 40,000-a-day plant for an indefinite period of operation, and will justify the erection of a plant of that size. When they are completed they will constitute a log of the field for economical operation and will prove up the site as first collateral for financing the proposition if needed.

#### Say Further Tests Justified

Further tests to be made will consist in defining the extent of the boundaries of the clay deposits and in sending commercial quantities of the product to brick plants to be tested for burning qualities, appearance of the manufactured product, tensile and crushing strength and other properties. Preliminary tests already made, those present were assured by both Mr. Campbell and Mr. Frampton, amply justify this further investigation.

At the close of the meeting the mutual agreement was drawn up and by Wednesday night practically one-fourth of the amount required had been subscribed. Those who have subscribed and the amounts in stock represented by their subscriptions are as follows:

T. C. Thompson	\$1,000.00
J. W. Reid	1,000.00
C. W. Warwick	1,000.00
W. J. Wooten	500.00
Louis F. Hart	500.00
J. J. Walker	500.00
C. R. Burrow	800.00
O. W. H. Cook	500.00
C. D. Lester	500.00
J. W. Jennings	500.00
R. A. Terrill	400.00
J. C. Pipkin	200.00
A. D. Payne	200.00
H. C. Gamble	200.00
Dan K. Usery	100.00
Total	\$7,900.00

A quarter million dollars' damage was sustained by the Leviathan when it grounded on a harbor bar at New York recently.

### NEAR ABILENE, TEXAS

### Bollie Cotton Seed Did Not Sprout in Expert Tests at Plainview

Plainview Herald: Germination tests are under way on seed for farmers and grain men at the Plainview Grain Exchange in the new electric seed generator which the exchange has recently installed.

In making the germination tests seed selected at random are placed in a tray which contains blotting paper and water. The seed are kept at an even temperature by heat from an electric drum. Fifty seed are placed in the tester, but to make the test more thorough Mr. Wallace has been using two lots of fifty seed. The number of seed germinating will determine the percentage of germination. Mr. Wallace states that he must have at least a pound of seed to make anything like an accurate test.

When purity is to be tested he determines the number of seed of the variety being tested, the number of weed and other seed and the number of pieces of foreign substance in the seed.

Cotton seed with little lint on them develop better than seed with heavy lint and are less likely to rot. Some of the seed that are being bought locally are delinquent.

**Bollie Seed Don't Germinate**  
It is interesting to note that some samples of bollie seed were sent by the Texas Land and Development Company. Not one of the bollie seed germinated.

### Randall Hall is New Name Given to Huntleigh by the College

The College authorities have decided that the name "Huntleigh Hall" shall be no more, and that name is now Randall Hall.

This Hall was recently bought by the state and will be conducted by the faculty on the same basis as Cousins Hall has been conducted for several years.

### Summer Bulletin for the College to be Out About First of Month

The News has a large part of the type set for the Summer Bulletin of the College, and printing will start within a week or ten days.

The Bulletin will have about 64 pages and 7,500 copies will be printed.

#### TRADE AT HOME THIS YEAR.

Childress Index: Trade at home should be preached by every good citizen and every good citizen should live up to what he preaches. A few days ago a traveling salesman remarked that Childress sends out more printing than any town along the Denver road. That statement may not be correct but much of it does go away.

The fault may be the printers, just like it may be the merchants for so much mail order business going out. Childress county citizens, so the record shows, are sending away through the mails more than \$250,000 each year.

A very nice sum, thank you.

This Christmas a number of letters and cards have been mailed, offering season's greetings, and an invitation for custom, most of them being printed out of Childress.

Think, when you talk trade at home.

Deer imported to New Zealand have become so large in numbers and so destructive to farmers' crops that it has been necessary to place a bounty of two shillings a head on them.

Business in France has been adversely affected by political and exchange conditions and is generally only relatively satisfactory.

To lose a friend is to grow old a little.

### Candidate Column

The News is authorized to announce the candidacy of the following candidates in the Democratic Primary, in July, 1924:

For Sheriff and Tax Collector:  
JNO FRY.

For County Treasurer:  
MRS. MYRA SMITH.  
G. R. (BOB) REID.

For County and District Clerk:  
MRS. ETHEL WOODS.

For County Assessor:  
TOM REDDELL.

For Commissioner, Precinct No. 2:  
A. P. THORNTON.

For Commissioner, Precinct No. 1:  
J. C. PIPKIN.

### College Band Will Go to Meeting West Texas as Chamber Commerce

President J. A. Hill announces that the College Band will make the trip to Brownwood this spring for the annual meeting of the West Texas Chamber of Commerce. Additional uniforms will be provided by that time so that at least forty members may be taken on the trip.

The Amarillo Board of City Development has designated the College Band as the official band for Amarillo and invited the organization to ride on the special train with the Amarillo delegation.

Under the direction of Prof. C. E. Strain the College Band has developed into one of the best bands in this section of the state.

It is planned to take the Band to Amarillo next month during the live stock convention and sale. Invitation has also been received to play at Vego soon.

### Good Interest Shown by Farmers in Dairy Meetings in County

Good interest was shown by the farmers of Randall county in the dairy meetings held in the county last week by J. W. Ridgeway, head of the educational department of the Mistletoe Creameries. Mr. Ridgeway has visited Randall county several times, and always has an interesting message to those interested in the dairy business.

While in the city, Mr. Ridgeway visited the College and spoke to the students in the Department of Agriculture.

### Boy Scouts Attend Big Meeting in Amarillo on Last Friday Evening

Forty five boy scouts were taken to Amarillo for the given scout meeting Friday night.

Several citizens responded to the call for autos for transportation.

The Scout work in Canyon is going forward very fine under the direction of Irby Carruth and Emmett Hazlewood.

#### FEDERATION MEETING

The regular meeting of the City Federation met yesterday afternoon. Miss Richardson gave a splendid talk on Community Life and of the great responsibility Canyon had in building a community. The Federation is going to have an open meeting in the near future and Mrs. C. O. Keiser has offered her home for the meeting. The Federation Club voted to have an open house on Homeseekers Day, and to have rocking chairs and cots in the club room for the comfort of the visiting women and children. Mrs. John S. Humphreys, president of the Federation, has appointed committees to receive all during the day.

#### MRS. CHEATHAM VERY LOW.

A report at noon today indicates that Mrs. Cheatham will not be able to live through the afternoon. She has been very low during the past week with pneumonia at the home of her son, J. A. Cheatham. Two other sons arrived last week to be with their mother.

#### STARTING CHICKEN RANCH

T. W. Duffel has moved to the place formerly occupied by W. F. Jameson and is starting a chicken ranch. Mr. Duffel will have about 200 chickens hatch the first of March.

#### SMALL FIRE FRIDAY.

The fire department was called to the Noah Sharp house on Seventh Avenue Friday afternoon. The house is occupied by Mrs. Cousins. The build-up was found to be on fire, having caught from the outside in a manner yet unexplained. The fire had eaten its way through the siding and did a little damage on the inside.

The Department of the Interior announces that more than 100,000 acres of public lands in the states of Colorado, New Mexico, Nevada, Utah and Wyoming will be opened to homesteaders. World War veterans are to have a ninety-one day preference in filing on the lands.

Street car fares in Paris, France, cost six tons—three times the charge of in pre-war days.

There are no beggars in Tokyo; the disaster which wiped out half the city produced not a single mendicant.

A canal in England is now equipped with an overhead electric trolley that furnishes power for a motor-driven propeller in the stern of each barge. The result is said to be highly satisfactory. The barges attain a speed of four miles an hour, and, since only one man is needed on each boat, the operating costs are greatly reduced.

There are no beggars in Tokyo; the disaster which wiped out half the city produced not a single mendicant.

"LOST" U. S. S. LOUISIANA TOWED INTO BALTIMORE

Baltimore—The ship being towed from Philadelphia to Baltimore to be dismantled, broke loose off the coast of Delaware when a terrific storm came up, with only a skeleton crew of six men, who experienced the worst ordeal of their many years at sea. Five ships according to Capt. Sherman, ignored his signals, and then finally two coast guard cutters picked up the Louisiana and towed it in.

### President to Speak in a Number of Panhandle Towns

President J. A. Hill is scheduled to speak at several Panhandle towns during the coming fortnight. Wednesday he will be the principal speaker at Friona. A new school plant will be dedicated at that time.

On February 16, President Hill, Wallace R. Clark, and Miss Mary Morgan Brown will go to Floydada where ex-students of the College will give a Founder's Day banquet.

Mr. Hill will speak to the Hereford Chamber of Commerce on February 21. From Hereford the President will go to Pampa to deliver an address to the Boys and Girls Club. This club is directed by Miss Mattie Lee Patterson, Home Demonstration Agent for Gray County. At this same meeting a rally will be staged by the Fair Association and plans made for an autumn fair.

In the afternoon he will speak to the faculty and student body of the Pampa Public Schools.

The senior class of the Canyon high school placed an order Tuesday with the King Scenic Company of Dallas for a \$700 stage setting for the new high school auditorium.

The class decided to make this contribution to the work of the school year rather than attempt to publish an annual.

The stage equipment is among the best made and fits in with the beauty of the new auditorium.

### Senior Class of High School Buys Scenery for the Auditorium

More than four hundred club women throughout this section of the state are taking courses offered by the College under the arrangements made two years ago for that kind of work. Lecturers are sent out by the College to visit the Clubs in their work. Dr. David H. Munson and Prof. Gordon Lang have lectured before several clubs in this section.

Courses are offered in English, History, Home Economics, Civics, Sociology, Education and Art.

### MANY CLUB WOMEN TAKING COURSES IN THE COLLEGE

The American Legion Auxiliary is going to give a Colonial Tea, which will be held from two to six o'clock at the American Legion Hall, Friday 22nd. There is going to be a silver offering for the benefit of the Memorial Fund. Everybody is invited, especially the men.

The Harmon Foundation in New York City is making the experiment of loaning money to college students who can offer no other security than character. For the time being individuals are limited to not more than \$250 a year. They are given only to students of the junior or senior year in colleges in which a group of at least five students wish to apply. Applications are not received direct from students, but through a faculty committee that is willing to co-operate with the foundation in passing on the applicants. Borrowers are under obligation to repay their loans in installments of \$10 a month, beginning one year after they are graduated.

The Immigration Bill reported by the Committee on Immigration and Naturalization of the House of Representatives recognizes three classes of immigrants, "non quota," "quota" and "quota relatives." "No quota" includes husbands, wives, fathers, mothers or unmarried minor children of American citizens and students, clergymen and some others. They are not reckoned in the quotas. "Quota relatives" are husbands, wives or unmarried minor children of aliens who have been legally admitted to the United States, have lived here two years and have taken out first papers. They have a preferred standing. "Quota" includes all others and in reference to any particular nationality means two hundred plus two per cent of the number of persons of that nationality that the census of 1900 shows them to have been in the United States.

Survey Being Made of School Property in County by Phillips

J. L. Tennant of the Bureau of Extension, University of Texas, was in the city Monday to make a survey of the school property of the county.

Frank R. Phillips of the College will complete this work in Randall county, having received the necessary instructions from Mr. Tennant. These gentlemen made a survey of the public school buildings and two country school buildings Monday.

The educational survey being made in Texas contemplates an investigation of every thing connected with the school's business.

President J. A. Hill is expecting officials from the survey commission to make a survey of the College within a short while.

Col. Charles C. Goodnight Gives Old Papers to Historical Society

Nine papers relating the experiences of pioneers in the early days of the Panhandle have been received by the Panhandle-Plains Historical Society from Colonel Charles C. Goodnight.

Colonel Goodnight prepared the papers from the experiences of himself and other pioneers. The papers will be filed as a part of the Society's collection. Colonel Goodnight has been active in cooperating with the Society which seeks to preserve early history of the Southwest.

A returning traveler from Germany, speaking of the pinched circumstances of university professors in Berlin, pointed his story by quoting a discussion that he overheard. The question was whether it is cheaper to use old envelopes and paste gummed paper over the former addresses or to buy new envelopes of the poorest quality.

Accounting for the weather is one of the oldest of pastimes. In the United States the storms that originate in the southwest and swept northeast toward the Great lakes bring warmer weather than those that originate in the northwest and sweep southeast. There is some evidence that more storms are coming from the southwest than was formerly the case, though it would take a bold man to say why.

A Vermont man has the unusual hobby of photographing snowflakes. In forty years he has not found any two that were exactly alike. Many of the forms are exceedingly beautiful. Lace makers, jewelers, designers of wall paper, metal workers, wood carvers and others have purchased the photographs for use in making designs. The photographer catches the snowflakes on a blackboard and photographs them with a camera that greatly magnifies them.

WHAT DO YOU NEED IN YOUR OFFICE EQUIPMENT?

The Randall County News is prepared to make you prices on this equipment. No matter what your needs may be in the way of office furniture, fixtures, supplies, we can get you the best on the market. We have been appointed sales agent for one of the largest and best office supply factories in the Southwest.

Price is usually the most interesting thing in equipping your office. If our prices are not right, we don't want your business. Try us before placing your office supply orders.

We can get your office equipment just as quickly as if you placed an order with a traveling salesman. He has to order it the same as we do. Invest your printing and office supply money in Canyon.

RANDALL COUNTY NEWS

## ANNUAL BANQUET OF HISTORICAL SOCIETY FRIDAY

**SPEAKERS TO RELATE STORIES OF PIONEER DAYS.**

**Annual Reports Will Be Made and New Officers Elected at Business Meeting Before Banquet.**

Several pioneers of the Panhandle region will be heard at the annual banquet of the Panhandle-Plains Historical Society on Friday evening.

Tickets for the banquet have been reserved by students, teachers, members of the Society, and others who are interested in the preservation of the records of this region.

T. D. Hobart of Pampa, manager of the Adair interests will be one of the "old timers" present. Mrs. Dana Thomas Harmon will tell of the experiences of her father, who was the first physician to make this country his home. The doctor practiced in a territory covering more than twenty counties. Rev. E. H. J. Andrews of Plainview has been invited to address the meeting.

Special preparations are being made by local members of the Society in order that relics and records already collected may be shown to all visitors. Three additional display cases will be used in exhibiting the material.

Election of new officers and transaction of other business will be done in a business meeting in Room 105 at 4:30 on the afternoon preceding the banquet. At this time reports of the year's accomplishments will be made and plans formulated for the new year. At six o'clock the banquet will be served at Cousins Hall.

Present officers of the Historical Society are:

T. F. Turner, President, Amarillo.  
T. M. Clark, First Vice President, Canyon.

Mrs. Olive K. Dixon, Second Vice President, Miami.

C. R. Burrow, Treasurer, Canyon.

Mrs. T. V. Reeves, Secretary, Canyon.

The following will be the toast program:

Toastmaster—T. F. Turner of Amarillo.

Cowboy Songs—J. J. Powell, Canyon.

The Circuit Rider and Others—Rev. E. H. J. Andrews, Plainview.

My Father's Experience on the Plains—Mrs. Dana Thomas Harmon, Amarillo.

Rhymes of the Range—R. A. Terrill, Canyon.

Reminiscences of a Pioneer—Dr. J. W. Overton, Hereford.

### Umbarger Notes

John Straub has completed his house near Dawn and moved there last week.

We had some bad weather Sunday. It rained a little and the weather grew cold Sunday evening.

Otto Skarke and Marie Vorvald were married at the Catholic Church at Umbarger, Tuesday morning. Everybody wishes the new couple a happy married life.

O. J. Podzemney made a business trip to Amarillo Saturday.

John Bedenk was a business caller in Hereford Thursday.

Clem Fricmed threshed sorghum for Mrs. Nick Hollenstein last week.

Hugo Skarke and family spent Sunday at the Frank Vorvald home.

O. J. Podzemney made a business trip to Canyon Monday.

The farmers are starting to plant oats and spring wheat.

Mrs. O. Hufstetler is on the sick list this week.

On Antelope Island, near Salt Lake City, there is a herd of some 10,000 buffalo.

## Owner of Oklahoma Champion Show Cow Visits the College

Professor S. D. Johnson, former county agent at Fredrick, Okla., spent a day last week at the college farm for the purpose of inspecting the New Mexico champion cow, which is now owned by this institution.

Mr. Johnson owns two champion Jersey cows, one of which is the champion show cow of Oklahoma. This cow made an official record of 10,000 pounds of milk and 575 pounds of butter fat in ten months time. She was also on the show circuit in Oklahoma, Louisiana, and Arkansas during this period.

Mr. Johnson was very much interested in Rosette, the cow now owned by the College, which made the New Mexico state record at a two-year-old. In discussing the merits of the New Mexico and Oklahoma champions, Mr. Johnson acknowledged that the College cow was a superior cow in some respects to the Oklahoma champion. However, he was too loyal to his own cow to state that the College cow would be placed over the Oklahoma champion in the show ring, even if he thought it.

Mr. Johnson was also very much interested in Pansy, another one of the College cows. He thinks that Pansy would make a wonderful show cow and stated that she had one of the best Jersey type heads that he had seen in several states. This cow came originally from the Terrill herd at San Antonio, and it is to be remembered that this is the herd which furnished the foundation stock for the Ed. C. Lastre ranch at Falfurrias. The Lastre herd is not only the largest herd of registered Jerseys in the United States, but also holds the distinction of having some of the highest producers.

It is the ambition of President Hill of the College to build up the College herd to contain some of the leading dairy cows in the Southwest. It is to be remembered that the A. & M. College of Texas, which now ranks high in the dairy business, at one time consisted of a very few high class producers, but by careful selection and breeding and the introduction of a few good animals, the herd was made to pay for the feed of the cows and for the college expenses of many students in the dairy division, and incidentally, is today considered one of the best herds in the Southwest.

Mr. Johnson is a strong believer in the value of the dairy cow and thinks that dairying will revolutionize the agricultural conditions of West Texas. While in Canyon, Mr. Johnson visited Mr. Lee Gibbs, who was at one time associated with him as county agent in a neighboring county in Oklahoma. He also spent a few minutes at the home of Mr. James McDonald, who formerly worked with him, but is now a student of the College and is majoring in Agriculture.

Mr. Phillips, the head of the Agricultural Department, refused to place a price on the New Mexico cow. She has been on the farm since the first of October, 1923, and the College has sold \$214 worth of milk from her in this length of time. If she was placed on the market at a price which would pay for her feed and 10% on the investment, it is quite probable that, counting her usefulness at ten years time, her value would be written with four figures.

He had just arrived from the country, and was not familiar with the use of the telephone, so he took down the receiver, and demanded: "Aye want to talk to my wife."

The operator's voice came back sweetly: "Number please."

"Oh," he replied, "she bane my second vun."

New York, Jan. 23.—Sir Charles Higman, British advertising expert, who arrived here for the purpose of interesting American advertising concerns in the Imperial exhibition to be held at London later in the year.

### NO SABLE

He: "Would you be interested in learning something about the girl scout movement?"  
She (icily): "No, I don't dance."

Pages in the United States Senate are between twelve and sixteen years of age, and are paid \$2.50 a day during the session with a bonus of \$20 a month.

A bridge built of solid mahogany, 150 feet long and 15 feet wide, spanned the Rio Michol in the state of Chiapas, Mexico.

## Ex-Student Now Lives in Canada

Mrs. Ben Baird, nee Miss Myrtle Nix of Amarillo, visited friends at the College last Monday. She is now living in Sachatewan, Canada, where her husband, also an ex-student of the Teachers College, is teaching school. Mrs. Baird first attended the College in 1913, and this was the first time she has returned since she left here.

Mrs. Baird says she has an eight year old daughter that she is preparing to send to the West Texas State Teachers College when she is old enough.

Mrs. Baird is now visiting relatives in Amarillo.

When an American ship goes to sea to carry provisions to a vessel of foreign registry, engaged in rum running, the American vessel is subject to seizure and confiscation.

### ALL WORN OUT

Does morning find you with a lame stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Canyon people endorse Doan's Pills. Ask your neighbor! You can rely on their statements.

Mrs. Clouch, Canyon, says: "There was a dull ache through the small of my back and my back was so sore and lame I could hardly bend over or do my work. When I stooped, a sharp, stinging pain caught me, making it hard for me to straighten. I was worn out and could scarcely get around at times. I became dizzy and had headaches and my kidneys didn't act right. I used Doan's Pills and three boxes cured me entirely."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Clouch had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

We extend to you a most hearty welcome, Monday, February 18th. Stop by and see us, at

**JONES FILLING STATION**

## SUMMER SESSION CHANGES MADE

SCHOOL WILL RUN ON FIVE-DAY PROGRAM AGAIN.

College Attendance Will Soon Be Required Before Permanent Certificates Can Be Secured.

A large number of changes have been made in the Summer School and the Summer Normal for the coming summer, President J. A. Hill has announced.

As in the past, the Summer School will be divided into two quarters of six weeks each. The first will begin Tuesday, June 3, and close July 15, and the second will begin on July 17 and close on Saturday night, Aug. 26.

During this next summer classes will recite only five times a week, whereas they have been reciting six times in the past. All classes will run on the five-day program, and Monday will be a holiday, except the first Monday in each quarter. The departments of science and modern languages will each offer an entire year's work during the twelve weeks instead of two quarters' of work as has been done in the past. Students who take these courses will be allowed to take only one other subject, as work in these departments will be both intensive and extensive.

The regular faculty together with several well known educators from the outside will constitute the faculty for the Summer School.

### Summer Normal Changes

The Summer Normal, which affords preparation for all grades of certificates, is also evidencing several changes. The Normal begins on Tuesday, June 3, and closes with the state examinations which come on August 4, 5, 6, and 7. The State Department of Education requires that in order to be eligible for these examinations a student must attend the Summer Normal for at least twenty-eight days.

After September 1, 1925, permanent certificates will not be issued any more by state examination, but can be secured only by college attendance. All other certificates will be of short duration and limited to scope of validity.

Classes in Summer Normal work will recite only three times per week.

### PERFECT HEALTH

Tutt's Pills keep the system in perfect order. Regulate the bowels and produce a VIGOROUS BODY. A sovereign remedy for sick headache, constipation.

whereas they have met every day in the week in the past.

### Normal Instructors Announced

A number of instructors have been secured for the Summer Normal work, and several others will be added to the list in a short time. The following instructors have already been secured: F. E. Savage, of the College faculty, Conductor; D. W. Wiggins, Superintendent of the Public Schools of Canadian, instructor in Education; M. E. Witt, of Lubbock High School, instructor in science; W. W. Patty, Superintendent of Plainview Public Schools, instructor in Education; C. H. Dillehay, Superintendent of the Hereford Public Schools, instructor in Mathematics; A. D. Payne, Superintendent of the Canyon Public Schools, instructor in History; and W. L. Vaughn, Principal of the Memphis High School, instructor in History.

The bulletin for the Summer School and the Summer Normal will probably be off the press by March 1.

### RECORD BAD LUCK

"What is sadder than a man who loses his last friend?"

"A man who works for his board and loses his appetite."—Stanford Chapparral.

Waiter—Here, what are you doing with those teaspoons in your pocket?

Customer—Doctor's orders.

Waiter—What do you mean, doctor's orders.

Customer—He told me to take two teaspoons after every meal.—Banter.

Unlucky motorist (having killed the lady's puppy): Madam, I will replace the animal.

Indignant owner: Sir, you flatter yourself.—Bison.

A wise old owl sat on an oak;

The more he saw the less he spoke.

The less he spoke, the more he heard;

Why can't we all be like that old bird.—The Chaser.

### NOTICE OF TRUSTEE'S SALE

Whereas, on the 31st day of January 1916, J. J. Cantrell et ux, Ivy M. Cantrell, and Mrs. M. S. Cantrell, a feme sole, executed a deed of trust conveying to Moise Cerf, a trustee, the real estate hereinafter described, to secure I. and L. Cerf in the payment of a debt therein described, said deed of trust being recorded in Vol. 6, pages 273-4-5-6, in the deed of trust records of Randall County, Texas; and

Whereas, the undersigned has been appointed substitute-trustee in the place of said original trustee, upon the contingency and in the manner authorized by said deed of trust; and

Whereas, default has occurred in the payment of said indebtedness, and the same is now wholly due, and the owner and holder of said debt has requested the undersigned to sell said property to satisfy said indebtedness;

Now, therefore, notice is hereby given that on Tuesday, the 4th day of March, A. D. 1924, between ten o'clock a. m. and four o'clock p. m. I will sell said real estate at the door of the County Court House in Randall County, Texas, to the highest bidder for cash.

Said real estate is described as follows: In the County of Randall, State of Texas: Being all of Survey No. 100, Block B-5, Certificate No. 15-3589, issued to the Houston & Great Northern Railroad Company, containing 640 acres of land.

Witness my hand this 23rd day of January, A. D. 1924.

LOUIS CERF,  
Substitute-Trustee.

## Dean Allen Will Be Faculty Delegate To Scholarship Meeting

Dean L. G. Allen will represent the College faculty at the meeting of Texas Scholarship Societies at Baylor University, Waco, on February 22. While down state Mr. Allen will also transact official business for the institution.

Miss Zelma Red was named student delegate by the Lloyd Green Allen Scholarship Society at a special meeting Monday. Miss Red takes the place of Olin E. Hinkle, who resigned the office of delegate to become the representative of the Press Club of the Texas Interscholastic Press Association convention at Dallas next April 10-11. Mr. Hinkle stated that he did not wish to make two convention trips, and therefore was obliged to choose the one in which he could be of most service.

Commerce between Mexico and the United States amounts to more than \$20,000,000 a month.

Among one of the first sanitary acts passed in America was a quarantine act in Massachusetts in the year 1648.

In an attack of acute rheumatism in which there is much pain Ballard's Snow Liniment is a necessary part of the treatment. It is a powerful pain relief. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by City Pharmacy.

### PROBATE NO. 173

THE STATE OF TEXAS,

## Next Spring—

With over 200,000 orders for Ford Cars and Trucks already placed for delivery during the next few months, we are facing a record-breaking spring demand.

Each successive month this winter has witnessed a growth in sales far surpassing that of any previous winter season. This increase will be even greater during the spring months, always the heaviest buying period.

These facts suggest that you place your order early to avoid disappointment in delivery at the time desired.

Ford Motor Company  
Detroit, Michigan

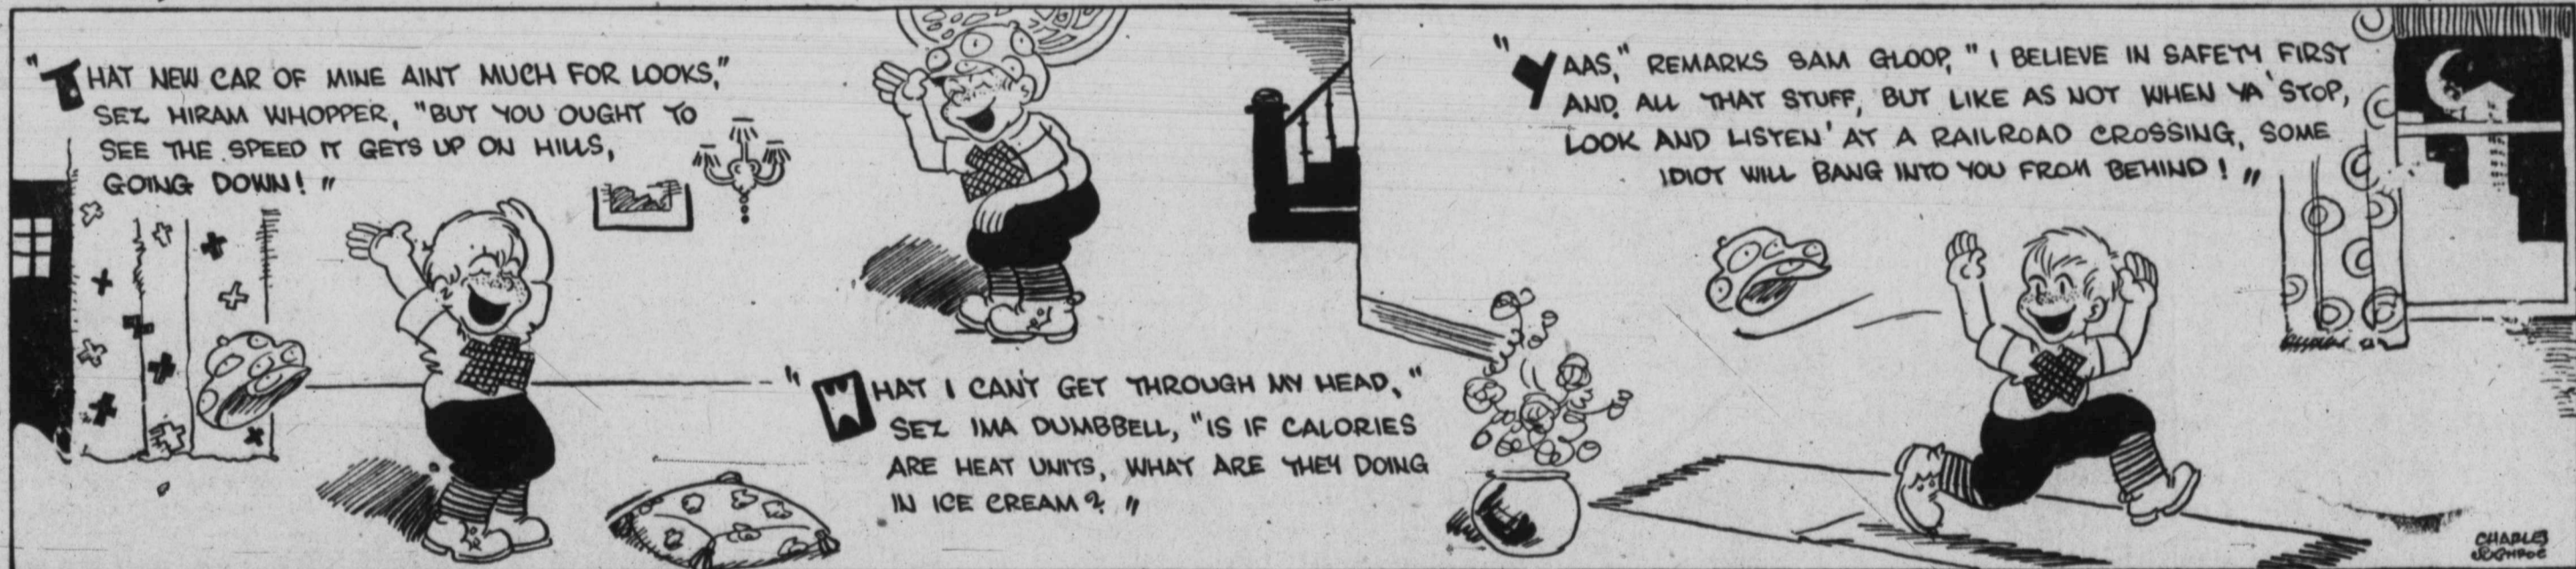

It is not necessary to pay cash for your car in order to have your name placed on the preferred delivery list. You can make a small payment down, or you can buy, if you wish, under the convenient terms of the Ford Weekly Purchase Plan.

Mrs. B. F. Maynard returned to her home here Tuesday after visiting the past few weeks with her daughter at Lockney.

Arnet Townsend, Ruth Dison, Gladys Bandy and Elsie Mac and Ural Barnard spent Sunday with Mr. and Mrs. Grady Davis of Canyon.

Frances and Howard Stephens spent the week end in the Edgar Money home at Canyon.

Thelma and Mary Elizabeth Lemmons spent Friday night and Saturday with friends in Tulla.

Services were held at the Christian church Sunday afternoon, Rev. Johnson preaching. A large crowd was not present on account of the rainy weather.

Mrs. J. M. Evans returned Monday from Texhoma where she has been visiting for several days. Mr. and Mrs. Holland and children returning with her.

Mrs. M. B. McManigal and daughter, Mildred, were shopping in Canyon last Saturday.

Thursday afternoon the Y. P. M. S. and the W. M. S. met at the home of Mrs. S. M. Arnold for the installation of the officers for the coming year. The opening services were conducted by Mrs. W. H. Brown after which Rev. Carter conducted the installation services. After the services a delicious two course lunch was served to the following: Rev. and Mrs. H. W. Carter, Mrs. W. C. Lindsey, Mrs. Tom Bandy, Mrs. Dowlen, Mrs. S. L. Robinson, Mrs. Clark, Mrs. Whitman, Mrs. W. T. McDonald, Mrs. J. F. White, Mrs. Weaver, Mrs. W. H. Brown, Mrs. Lawson, Mrs. J. A. Currie, Mrs. S. M. Swearingen, Misses Hazel Brown, Gladys Bandy, Arnet Townsend, and Audrey Lee Markham.

Louise Brown is visiting with relatives in Lubbock this week.

U. E. Harp of Dallas was visiting with his brother-in-law, W. H. Brown, Tuesday.

W. T. Townsend returned Friday from Texhoma where he has been on business for a few days.

Mr. and Mrs. J. O. Gillham spent Tuesday night with Mr. Gillham's brother near Wayside.

H. J. Cavet of Tulla visited at the Walter Cobb home last week.

Mr. and Mrs. G. W. Lash and children and Catherine Dillon were shopping in Amarillo Saturday.

Mr. Wigle of Tulla is here on business this week.

Mrs. L. R. Dillon returned Wednesday from Plainview where she has been in the sanitarium with her baby. The baby is improving nicely at this writing.

Misses Vergie Maynard and Ola B. Johnson of Tulla visited in the B. F. Maynard home Sunday afternoon.

Mr. and Mrs. G. W. Lash and daughter, Dorothy, were Tulla callers Wednesday.

Mr. and Mrs. J. I. Penrod of Tulla visited in the J. E. Toles home Wednesday.

W. G. Newton left Monday for Sherman where he will be gone several days on business.

Herman Miller of Canyon was here Saturday.

Walter Cobb and daughter, Ruth, were Tulla callers Wednesday.

Mrs. Emma Mitchell and Mr. Alite White of this place were happily married in Tulla Saturday night. Mr. and Mrs. White are both well known in and around here, both having been in business here for some time. We each and every one give to Mr. and Mrs. White our most happy and sincere wishes for a long and successful life.

Mr. and Mrs. C. M. Dowlen were Amarillo callers Tuesday.

Mrs. Tom Bandy is quite sick at this writing. We hope she will begin to improve soon.

Flake Montgomery of Canyon spent the week here with his parents of this place.

Mr. and Mrs. C. W. Robinett, Mrs. Dora Humphrey and son, Jack, Mrs. Ruby Martin, and Archie Robinett of Amarillo and Fred Wilson of Dumas spent Sunday at the C. L. Grounds home.

Rev. Ed. R. Wallace of Claude and Mr. Guthrie of Canyon were here on business Wednesday.

The boys basketball team went to Tulla Friday and played a game with Center Plain in which they won to a score of 8 to 10. The team also played Canyon Vocational Agricultural class Monday night in which they were defeated by a score of 13 to 21 in Canyon's favor.

Mrs. W. T. McDonald left Sunday

for Clovis where she will visit with her daughter, Zola, for a few days. Mrs. E. E. Whitney and Mrs. Earl Whitney visited with Misses Madie and Lois Whitley of Amarillo Saturday and Sunday.

### ADDS TO HISTORICAL EXHIBIT

A hand wrought Spanish bridle bit was loaned to the Panhandle Plains Historical Society exhibit of relics at the College, this coming from Quinn L. Aten, a student.

Evetis Haley of Midland has added a book to the collection, "Texas Indian Troubles" written by Hillary G. Bedford of Benjamy. The author spent 54 years on the frontier of Texas and tells his experiences interestingly.

### INCREASE CORRESPONDENCE

There has been increase of 15 percent this year in the enrollment of those taking work in the correspondence department of the College. This work is in charge of Mrs. T. V. Reeves, head of the Department of Public Service.

### LUBBOCK MAYOR DIES

Mayor Percy Spencer died Tuesday morning at 4:50 o'clock after an illness of five days from pneumonia.

### Davis Hill Elected Captain Buffalo Basketball Team for Coming Year

Davis Hill was elected captain of the Buffalo basketball team Monday for the coming year before the team left Monday on the road trip of seven games.

Hill is the only man of the squad who will be on the team next year from the first string men. He has held his position at guard during the past two seasons against hard competition and is one of the most brilliant players on the team.

Davis Hill is the son of President and Mrs. J. A. Hill. He is a member of the track team, winning first in the high jump last year, and was a member of the Buffalo football squad for the past two seasons.

"A Hearse is a Poor Vehicle to Come to Church in—Why Wait?" This sign on the bulletin board of the Saint Andrews United Brethren Church of Des Moines started the congregation talking and going to church.

## Milk Fever or Parturient Apoplexy

By J. W. Jennings, County Agent.

### Causes

Milk fever is a disease peculiar to the cow at calving time, especially in heavy milkers, early maturing cows or fat cows. However, poor animals occasionally have the disease. The trouble is more prevalent among stalled, city kept, or closely confined cows that have been overfed previous to freshening or country cows that have had access to clover or alfalfa pastures or that have been pampered so to speak. Constipation is also a contributing cause, as the poisons that are normally secreted through the bowels are absorbed by the blood. Also the disease more often occurs in mature cows than in younger cows.

### Symptoms

A cow which is contracting this disease shows a sudden dullness, lack of attention, drooping of the head, with badly impaired locomotion, staggering, and finally getting down and unable to arise. At first she may lie in a normal position, or she may lie on her breast bone with the legs under her. As she becomes weaker she will stretch out on her side and with increasing pain and nervousness she will fold the head over on the side. If not relieved within a reasonable length of time, she will lose all sense of touch and finally become unconscious.

### Prevention

The best means of prevention is to put the cow on a very scant ration for a week or ten days before freshening, feeding only wheat brand and common roughness. Give the cow access to plenty of salt water as this will tend to thin the blood. Then after calving, feed sparingly of the same ration for several days, put her back on feed gradually thereby gradually bringing her to her milk flow. These

simple precautions will likely save a cow from this trouble, especially a heavy milker or one in good flesh.

### Treatment

The treatment is very simple and effective as follows: Pump up each quarter of the udder with pure air by the use of a bicycle pump, auto pump or bulb from an atomizer with a medicine dropper inserted into the end of the teat which is connected to the pump by a rubber hose, or better still by the use of a regular milk fever outfit. In any event the teats and udder should be washed in a good antiseptic solution to insure cleanliness and prevent infection of the udder. The instruments should also be made sterile. If possible the air should be pumped through clean absorbent cotton. After the udder is filled with air to the extent that it sounds dead or has the sound of a drum head when thumped, the teats should be tied with a yarn string or wrapped tightly with a small rubber band as each quarter is filled. Usually the animal will begin to show signs of improvement in two to three hours, but the air should be left in the udder several hours longer to insure a complete recovery. Then the strings or rubber bands may be removed, the air milked out, and the calf allowed to suck or the udder milked out well by hand.

It is well to drench the cow with a pound of epsom salts in a quart of warm water in order to remove constipation that is likely to develop as a result of the high fever.

Anyone not being familiar with the treatment of the disease or not having the necessary apparatus with which to treat the case, may call the County Agent who will be glad to render any assistance possible.

## Wayside Items

Delightful weather prevails. A light rain fell Sunday, freezing as it fell, making it very disagreeable traveling; moisture soon disappeared.

Mr. and Mrs. R. L. Grigsby motored to Amarillo Saturday, and on their return stopped at Canyon for the basketball game.

R. E. Carter is still on the sick list. Dr. Warner of Claude is attending him. He has a severe stomach trouble.

Wm. Payne of Hartley, formerly of Wayside, has rented a place three miles east of Amarillo on the Claude road. He expects to move over in March.

Mrs. Grace Graham, Ida B. and Russell, visited the parental home Friday last.

Herbert Franklin took charge of the mail carriers job Tuesday.

W. R. Franklin and wife left Tuesday for the Amarillo market with turkeys.

Will Hamblen left Friday for Fort Worth markets with two car loads of mules.

W. J. Sluder made a business trip to Happy Monday, going in with mail carrier, D. J. Graham.

M. E. Sluder and Chester Dunlap made a trip for J. S. Sluder above Amarillo with wagon and teams, also some cattle Friday and Saturday, returning Sunday afternoon.

J. E. McGehee made a trip horseback across Palo Duro canyons to Claude Monday. He went before the Commissioners Court in the interest of our roads.

### TREATING MILK FEVER

Within the past week County Agent J. W. Jennings has been called on to treat two cows for milk fever. Both of them were town cows that had been fed too heavily just previous to freshening. They both responded quickly to treatment and were soon gotten out of danger. Mr. Jennings states that people living in town who own heavy producing cows that have been kept in extra good condition should watch them carefully. Attention is called to an article on Milk Fever in this issue.

Warm Chinook winds in Alaska have caused the melting ice water to erode new lands and expose deposits of gravel containing rich gold findings. On the west side of Turnagain Arm an avalanche 100 feet wide and a mile long rushed down a mountain, cutting deep into the soil, revealing three ledges rich in quartz. Every unattached man in Anchorage has left for the spot to stake his claim.

"Cut the Taxes," is the demand of the Ohio farmers. And they emphasize the appeal by sending a covered wagon to the capital in charge of a woman Grange lecturer, clad in a costume worn by her great-grandmother in a similar conveyance.

## UNIVERSAL PEACE HUMPHREYS TALK

LATIN PROFESSOR DELIVERS ADDRESS AT CHAPEL.

Urges Students to Study the Book Peace Plan; Optimistic in Views.

"Universal Peace" was the subject of Professor John S. Humphreys of the Latin Department in an address before the student body last Tuesday morning at the chapel period. Due to lack of time, Prof. Humphreys was unable to complete his address at that time, and The Prairie is printing it below: Mr. President and Fellow Students:

Mr. James Lane Allen twenty-four years ago published a book entitled "The Reign of Law." In this book Mr. Allen defines one great function of a real university as follows: "Such an institution must in time have taught, what all its courthouses and pulpits, laws human and divine, have not been able to teach. It must have taught the noble commonwealth to cease murdering. For true learning always stands for peace; letters stand for peace, and it is the scholar of the world who has come to it, as Christ came, to teach that human life is worth saving and must be saved."

Since we are all students and potential scholars and since this college is an institution at least one of whose functions is to teach the noble commonwealth to cease murdering, I have come this morning to speak on the most important subject that confronts the world to-day, namely, the subject of Universal Peace.

Somewhere in the wisdom of the Ancients I have read that, "In time of peace we should prepare for war." This time-worn epigram, I think, should read, "In time of peace we should prepare for peace." The sentiments that I am going to express to you would, if spoken in time of war, be high treason, and I am not a traitor. But our country is not at war, and I do not hesitate, therefore, to speak freely and fearlessly on a subject that concerns not only the welfare of each one of us, but also concerns the welfare of the whole world—the welfare not only of those who live today, but the welfare of generations yet unborn. I propose to say and prove that war is a crime, and that it is high time for the United States to take the lead with the other nations of the world in joining in an agreement to declare war, henceforth and forever, an outlaw against civilization. "For war," as a recent writer declares, "is no longer a battle 'twixt men. Poison gas is a hellish invention for the destruction of innocent people." The old shibboleths of sovereign rights and national patriotism cannot longer be accepted with blind and stupid complacency. For what are sovereign rights when opposed to human rights, and what is national patriotism but selfishness if it does not include the consideration of the rights of others? Well may we exclaim with that celebrated patriot of France, Madam Rowland, substituting "patriotism" for "liberty": "O Patriotism, what crimes are committed in thy name!"

But before taking up the theme of Universal Peace, let me state briefly our indictment against war which has brought all nations to the present condition of chaos throughout the world. What is war? War is an institution, accepted and permitted by international law, as a means of settling disputes between nations. This institution has come down to us from the remotest antiquity and is a relic of prehistoric barbarism. In the earliest dawn of time, legend, and history introduce us to our ancestors engaged in both offensive and defensive war. Men, like animals, resorted to war for protection and for conquest. The chief of the tribe was the man mightiest in war. All history even down to modern times is all but a continuous narrative of physical combat. Indeed, so long has war existed that the common mind looks upon it as a fixed principle in the affairs of men. But change, though opposed by the common mind, has always been a happy and effective escape from conditions that have become intolerable. Every invention of science or art has brought forth war change. The discovery of and control of steam brought in the Industrial Revolution. By discovery and invention navigation has been transformed. By the introduction of auto-locomotion transportation on land has been revolutionized. Modern electricity, the wireless telegraph, the radio, and the flying machine, are the results of the law of change. So to this principle we must go to find a substitute for war—the greatest curse and evil ever known to civilization. But what is war at the present time that it should deserve to be called a curse and an evil? Four years of war and five years of war's aftermath is the answer. War is wholesale murder under the plausible and specious guise—or rather disguise—of law. It is unlawful for an individ-

ual to take the life of his fellow man; but it is permissible for a King or Caesar to murder thousands and thousands of men simply by a declaration of war. War destroys human life and brings widowhood to countless women and orphanage to multitudes of innocent children. Hunger, nakedness, sickness follow in the wake of war. War destroys and wrecks property, it retards if it does not entirely destroy civilization. War engenders hate and appeals to man's lowest instincts. General Sherman knew little of war when he declared war was hell. Where can a word horrible enough be found to describe adequately war as it exists today. And what will it be tomorrow, and in what words will it be described, since the instruments of war become more terrible and destructive with every advancement of human invention, therefore, war must be abolished. If not, civilization will be completely destroyed. Civilization cannot survive another great war. Civilization has not yet survived the last one. In self defense the nations must abolish war.

But the reactionary and the irreconcilable to every change for human betterment cries out in derision: "War is inherent in human nature and cannot be abolished until or unless human nature is changed. This objection has been made against every forward moral movement since time began. The advocates of peace do not propose to change man's nature. They admit his nature and argue that the very unchangeableness of man's greed and hate makes the outlawry of war an unavoidable necessity. The very fact of the greed and selfishness and cruelty of man's nature is the absolutely irreducible minimum of the indictment that is brought against war. But let us examine this argument further in the light of recent history.

1. Piracy was at one time allowed and legalized by international law.
2. Slavery was defended religiously and legalized by the nations for many years.
3. The code of the duel was tolerated under the sanction of the law and permitted to exist for an unconscionable length of time.
4. The institution of lottery was permitted by law and sanctioned even by the Church until a comparatively recent time.
5. The manufacture and sale of intoxicating liquors was perpetuated under the law until the enlightened and quickened conscience of an enraged and indignant nation rose up in rebellion against this infamous evil, and that this iniquitous traffic must stop.

I ask you, my friends, was the nature of man changed before these great evils were called crimes and outlawed? Not at all. These practices, formerly allowed by law and sanctioned by religion, were declared crimes, and therefore outlawed. So with war—it is a crime against God and man, and will go the way of other great evils that have hindered and destroyed all that was best and noblest in civilization. No, the nature of man need not be changed in order to check and destroy that which is evil. On the contrary, the outlawry and consequent abolition of war will give another impetus to the regeneration and development of that bad nature in men which has been so fed and nourished by this institution we call war.

And now after a rather lengthy introduction, we come to the subject announced in the beginning—Universal Peace. Many wise men have worked at the problem inventing a substitute for war as a means of settling quarrels between nations. For years men proposed to regulate and control the evils of war. But the World War proved all such efforts ineffective and of no value. During the last war all laws, treaties, and agreements became but pieces of paper. Many plans have been suggested since the war for completely removing the necessity of war and thereby discontinuing it as an institution allowed and sanctioned by the civilized nations of the world. Two fundamental principles underlie the plans that thus far have received the greatest acceptance.

1. The general faith in and the acceptance of the competency of intellectual forces (in mankind) to assume control of human affairs. Intelligence and conscience; law and reason; justice and equality are the forces that

## Child-birth

WHEN the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says: "With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used 'Mother's Friend' and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes." Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradfield Regulator Co., B-75, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores—everywhere.

## TH' OLE GROUCH

DARN THESE SUSPICIOUS OLE BUSHBODIES WHO ARE ALLUS TRVIN' T' WATCH UP SOMETHIN' OUT OF NUTHIN'! GOSSIPS IS TH' WORST THING TH' MATTER WITH TH' WORLD T' DAY!

CHARLES SCHMIDT

are to be employed in the place of hate and greed of war.

2. The next principle—the one that will enforce the operation of the principle first stated—is the fact that the same sovereignty of the nations that has created war, can and will create peace. At least in all Anglo-Saxon governments, the will of the people constitutes the state's sovereignty and is expressed by declaration of law. In countless other nations the rights of the people are paramount, in the establishment of constitutions and law. With England and the United States in agreement and in co-operation, universal peace will be certain and sure.

But two plans can be mentioned for an agreement between nations for universal peace. These are (1) The recommendations made by the American Committee for the outlawry of war, and (2) The plan recommended by the American Peace Award. Briefly the recommendations of the American Committee for the outlawry of war are as follows:

- (1) The codification of international law on a basis of justice and equality.
- (2) The inclusion of a clause in the code, making the resort to arms a crime against civilization.
- (3) The establishment of a world court of justice and the clothing of said court with affirmative jurisdiction to hear and decide all international controversies.
- (4) The outlawry of war will be finally effected by a general treaty among the nations agreeing to abolish war as the method of settling international disputes, and agreeing to abide by the decisions of the world court. This arrangement is similar to that of our own Supreme Court which adjudicates differences between the states. In nearly one hundred and fifty years no state in the country has ever resorted to arms in rebellion against its decision.

2. The Bok Peace Plan is published in every paper in the country and a ballot is at hand for every one to vote his approval or disapproval. Have you voted? If not, I urge every one of you to do so at once and forward your ballot to the American Peace Award, 342 Madison Avenue, New York City. I cannot go further into this plan at this time. Is it a fact, as Mr. Allen claims, "one great function of the real university is to teach the noble commonwealth to cease murdering?" If it is, then do your duty and exercise the right of every free man—the right to vote. It is estimated that ninety-five per cent of the people

Liquid Borozone is an efficient healing remedy for human or animal flesh. It mends a severe wound, sore, cut or scratch in the shortest possible time. Price, 30c, 60c and \$1.20. Sold by City Pharmacy. 4574

ple of the world hate-war and wish it to be banished to the lowest pit of hell. When war is made illegal by the nations of the world and takes its place where it belongs, among the crimes of men—then, then will be Universal Peace!

"So now, ye men of earth, lift happy hands; And shout your glad hosannas in all lands. There'll be no more battles, then, ye men of earth; The new age rises, singing unto birth." The Age of Universal Peace.

Radio "Fans" must pay to "listen in" in Australia. Every purchaser of a receiving set must present a license showing that he has subscribed and paid for the service of the station operating on the wave length to which the instrument being purchased is adjusted. For every broadcasting station he wishes to use, he pays separately. The sets are sealed and government inspectors investigate and check up the subscriber to see that seals have not been tampered with.

A young French archeologist, swimming into the recesses of a partially submerged cave near St. Martory, France, found valuable secrets. Keeping his matches and candles dry by means of a special contrivance he swam nearly a mile, resting on rocks en route, when he reached a dry gallery 200 yards long, the walls of which were covered with inscriptions and age-old drawings, together with statues of animals that disappeared from the earth thousands of years ago.

A lion gnawed the wood away from two iron bars in his cage and roamed free in two connecting express cars on a Santa Fe passenger train near Kansas City, Missouri. He was captured by the superintendent of a park zoo at Kansas City who lassoed the animal and pulled it into a waiting cage.

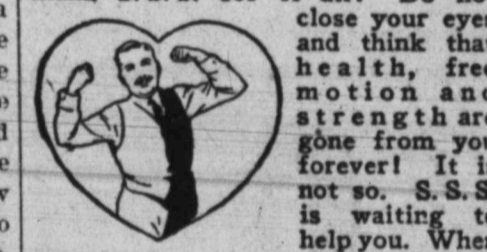

The theory by which English Channel fishermen explain their poor catches, is that the fish have been poisoned by the dumping in the sea of unused munitions. Small quantities of arsenic have been found in oysters on the east and south coast.

The children of Japan are taught to reverence the emperor as a semi-divine being. The present Prince Regent having traveled extensively in European countries, favors more democratic practices with regard to the Imperial Japanese family.

With yards braced sharply to starboard an old-time barkentine lay in the harbor at Baltimore while her skipper scoured the waterfront for old-time seamen capable of handling a ship of her type. The seamen of the younger generation can handle a schooner, but a barkentine is different.

## S.S.S. stops Rheumatism

"MY Rheumatism is all gone. I feel a wonderful glory again in the free motion I used to have when my days were younger. I can thank S.S.S. for it all! Do not close your eyes and think that health, freedom of motion and strength are gone from you forever! It is not so. S.S.S. is waiting to help you. When you increase the number of your red blood-cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them." S.S.S. is the great blood-cleanser, blood-builder, system strengthener, and nerve invigorator.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

# BUFFALO HERD LEADS TEAMS OF THE T. I. A. A.

## BUFFALOES SPLIT BILL WITH COWBOYS AND LOST FIRST GAME OF THE SEASON ON THE SIMMONS FLOOR LAST NIGHT

The Buffaloes lost the first basketball game of the season at Abilene last night when the Simmons College Cowboys took the big end of the 19 to 17 score.

The Buffaloes had handily defeated the Cowboys on Tuesday night by a score 25 to 14, and the defeat of last night came as a surprise to the fans who anxiously waited the news of the game here in Canyon. The Cowboys got next to the methods employed by the Buffaloes in the last night game. Simmons was recognized by the Buffaloes in starting on the trip as one of the hardest teams they would have to face.

The defeat of last night leaves the Buffaloes far up in the percentage column as leaders of the T. I. A. A., with six conference games played and five won. Southwestern University and San Marcos Teachers College have both lost one game each.

The Buffaloes play the Denton Teachers College Friday and Saturday nights; Oklahoma A. & M. Monday and Tuesday nights; Oklahoma Central Teachers Wednesday night, and will then return home. The team closes the season at Roswell on Feb. 29-March 1.

## Eight Teams to be Here Friday and Saturday in Basketball Tournament

The basketball tournament for District No. One of the Interscholastic League will be held Friday and Saturday at the College gym.

Two games will be played tonight in order to settle bi-county championships. These games will be between Panhandle and Goodnight, and between Pampa and Canadian. The winner in each game goes into the tournament on Friday.

Two games are scheduled for Friday afternoon at 3 o'clock and two for Friday night.

The semi-finals of two games will be played Saturday morning. The finals will be played Saturday afternoon at three o'clock.

In addition to above two teams which get a place in the tournament, the following will participate; Canyon, Farwell, Clarendon, Tulla, Dalhart and the winner of the Lipscomb-Ochiltree game which is played this week.

Probably the strongest teams, from the standpoint of the present dope sheet are the Canyon and Tulla teams. Canyon defeated Tulla in early season games, but in the hardest games the Eagles have had this year. It is said that Tulla has improved very greatly since these games.

It is believed that under the new seating arrangement of the Gym that the visitors and rooters of the various

teams will be handled with ease. It is understood that entertainment for the visitors will be the same as in former years.

### SCOUT QUINTET DOWNS THE HAPPY FIVE

The snappy basketball team of Canyon Scout Troup No. 1, completely routed the first team of the Happy High School on the local court last Monday night by a score of 23 to 8. The Happy team came expecting a strong victory but were completely bewildered by the dazzling attack of the Scouts. The game was clean at all times and the teamwork displayed by the local lads showed that they are living up to their motto of "Be Prepared."

These same teams meet again in the near future on Happy's court and the Scouts are confident of another victory.

The line-up for the Scouts was as follows.

C. Jones, right forward; C. Brown, left forward; Pat Gerald, center; J. D. Hazelwood, right guard; B. Avery, left guard.

Referee, Cox, Canyon.

A British scientist experimenting with a stream-line filter along which liquids passed under pressure through thousands of tightly packed perforated paper sheets, took the color out of red wine and tea and milk, leaving instead of the last named a tasteless fluid, like water.

Buy, Build, and Live in Canyon.

## BUFFALOES WRECK HOPES OF THE BEAR CATS BY TAKING TWO GAMES HERE ON LAST FRIDAY AND SATURDAY NIGHTS

Two wins were added to the list of Buffalo victories Friday and Saturday when the Sam Houston Bear Cats invaded the local camp for a loss by a score of 46 to 22 Friday and 29 to 22 Saturday. Incidentally the game marked the fourth T. I. A. A. victory and the eighth consecutive victory this season. Saturday night also saw the last appearance of Joe Lancaster, Nay Hale, Lewis Hill and Odus Mitchell as representatives of the college in basketball, they having played four years for the Maroon and White.

The games were unusual especially when the scores are considered. The Buffaloes outpointed the Bear Cats 24 points Friday night and so completely outplayed that aggregation that the game was miserable. However the Bear Cats added some rough playing with the aid of the Buffaloes to spice matters up a bit. The second night came near proving the undoing of the locals when the Bear Cats held the Buffalo five to a 12 point tie in the first half and were coming back strong in the last few minutes of the game.

Hale and Hill stepped out to the front in the scoring during the first game ringing up sixteen and seventeen points respectively. Both players continued their good work in the second game. Mitchell, Davis Hill and Joe Lancaster played with their usual stellar ability.

Lockey and Sayre for Sam Houston were outstanding players in the first game but the second game brought Black with four field goals and Brumfield, a substitute, with three field goals into the limelight as well as Moffett, giant stationary guard who did some effective work.

### Red Men Do Good Work

One of the outstanding features of the first night from the standpoint of the spectators were the stunts pulled by the Red Men and the Girl's pep squad. These organizations put on some real yelling and singing in addition to the stunts. The entire student body was full of pep the first night but needed about thirty minutes in working up to that stage in the second game.

The line-up:

Buffaloes	Position	Bear Cats
Hale	Forward	Lockey
L. Hill	Forward	Black
Mitchell	Center	Samuels
Lancaster	Center	Sayre
D. Hill	Guard	Moffett

Substitutes for Bear Cats: Brumfield for Samuels in first and second halves of both games. Bengé for Brum-

field in first game. Bengé for Black in last game. Wisdom of Wayland, referee.

### Four Men Signally Honored

Lancaster, Mitchell, Hale and L. Hill were signally honored at the conclusion of the game Saturday night when President J. H. Hill presented the four veterans tokens from the student body and faculty. Saturday marks the last game at home for the men who have served the team for the past four years.

President Hill in presenting the four men with gold fountain pens and memory books made a touching address in which he emphasized the loss the college would sustain but dwelled most on the high ideals of sportsmanship for which the four have always stood. He was cheered many times in his speech although the entire student body seemed saddened by the loss of the players.

Captain Joe Lancaster responded to President Hill's speech stating that the four men who had been honored by the student body had always worked for the college and for clean sportsmanship.

## Canyon High Girls Will Play Tulla Girls Here on Saturday Night

The Canyon high school basketball team will play the Tulla high girls Saturday night at the high school gym at 7:30 o'clock.

The Tulla girls won the game recently played, but the local girls feel confident that they will win Saturday night.

### LEGION HALL BIBLE CLASS

At the session of the Legion Hall Bible Class held last Sunday, Judge R. L. Lester was elected President of the class and Harvey Haynes was elected to superintend the work of "Enlargement." There are more than 150 men who ought to be in this class and who are going to join it. They are just waiting to see if we are "dead in earnest." There were a number of new members last Sunday. We are glad to have them. Already they are for the class. Come regularly, fellows, and bring your friends with you.

There are not two finer men in Canyon than Judge Lester and Harvey Haynes. What a joy it is to have a man at the head of our County Court like Judge Lester. These men believe the "Old Book" that our forefathers loved and wrought into the very life of our great country. There is just one difference in America and other down-trodden nations of the world—the "Bible." Seal its pages and stop it from being read and preached and our national doom is pronounced. The greatest men of our national history came to their greatness through their love for the Bible and its teachings. Come, fellows study it with us. Bring your New Testament and an open mind. You will like it.

LYN CLAYBROOK, Teacher.

### NOTICE

I am in receipt of a letter from Dr. Harry Grafke, Fort Worth, in charge of Tuberculosis Eradication in Texas, in which he advises that anyone having one or more purebred cattle in his herd may place the whole herd under State and Federal supervision to be tested regularly free of charge until the herd is put on an accredited basis.

Dr. Grafke also states that an Inspector will be in this vicinity the latter part of February, so any one wishing to have his cows tested should call at my office Saturday and fill out an application blank.

J. W. JENNINGS, County Agent.

## Vegetable Popularity Contest Being Waged in Nutrition Classes

The Red Cross Nutrition classes in the schools are conducting a vegetable popularity contest this week. The contest began February 8, and will close the 15th. Each time that anyone of the vegetables in the contest is eaten counts a vote for that vegetable. Learning to eat one of the vegetables counts five vote. The following vegetables are being voted upon: Lettuce, String Beans, Onions, Corn, Celery, Navy Beans, Carrot, Squash, Cabbage Lima Beans, Parsnips, Greens, Black Eyed Peas.

So far onions and lettuce are running a close race for first honors.

The children are very much interested and enjoyed their Nutrition lessons on vegetables and fruits this week.

Miss Smith, Nutrition Worker, will give a chapel talk to the high school Friday morning. Parents will be welcome to attend.

The ladies class in Food Selection will meet at the regular time, 2:30 Friday, at the club room at the court house.

### RELIGIOUS CENSUS TO BE FINISHED BY SUNDAY NIGHT

Rev. Lyn Claybrook and Rev. M. M. Beavers wish to take this means of expressing their appreciation of the way in which the workers and citizens of Canyon co-operated and worked in taking the religious survey made last Sunday afternoon. Such faithfulness was indeed inspiring. They wish to urge all who did not finish to do so by Sunday night and turn in results as quickly as possible. Extra cards can be gotten from Rev. Lyn Claybrook.

Let all unused cards be returned. Those whose work is to be finished are urged to get correct and full addresses and Sunday School affiliations. Again thanking you.

Revs. Claybrook and Beavers.

### CONVENTION AND CONVICTION

Some years ago there was a great deal of talk about Philistines. Nowadays we have perhaps discovered that we all have something of the Philistine in us and so talk less about Philistinism. At any rate, an austere and ardent spirit used to say that a Philistine is one who lives, not from conviction, but from convention.

What a splendid thing it is to live from conviction, always to know why you do a thing and to feel that in doing it you are acting in accordance with the profoundest reasoned laws of nature and of your being! Unfortunately for some of us that is a little difficult to accomplish. We mistrust our reason, and we have not that assurance of all our convictions which enables us with firm serenity to guide our steps by them. Moreover, we observe that convictions are somewhat dangerous. The people who are always talking about them and thinking about them seem to live inside a thorny hedge, and those who come too near are likely to get pricked. The thorns even grow inside as well as out and often make the owner of the hedge most uncomfortable.

Then, do what we can, ninety-nine one-hundredths of our lives are necessarily made up of convention. The thousand little indispensable acts that we perform daily cannot be reasoned out or formally justified. They must be done by instinct, just as they come. We should be monsters if we attempted or thought of anything else. The lower animals live wholly by instinct; that is, by convention. It is only a small part of our existence that can be guided by deliberate conviction, and, though that part is the richest and most important, it is also the most potent for disappointment and failure. We are a mass of conventions, and we should thank God that we are. Only, we should always be ready to recognize the element of falsehood in convention, its tendency to artificiality and insincerity. At any time one small spark of real conviction may kindle the whole light, vast fabric and sweep it away. We should respect convictions in others and realize that they are the power that moves the world. For ourselves we should seek convictions and test them and cherish them and live by them as much as we can.

Reparations apart, there seems to be some hope in German finance. The Reichswirtschaftsrat, or council for the management of the empire, lately advised the budget makers to compute the budget for 1924-1925 in gold marks. Dr. Luther in preparing an estimate found that the total was about three billion gold marks, or \$750,000,000. That is no more than a sixth as much as England spends, though England has a smaller population. Germany now spends little on armaments and has no high costs of administration. Its war debt is only a paper debt of sixty billion marks, which at the present rate of exchange is less than three cents.

# Farming in 1924

By Henry C. Wallace Secretary of Agriculture.

The industry, courage and faith evidenced by the farmers of the Nation during the past three years are slowly bringing their reward. Improvement in agricultural conditions continues—not as rapidly as desired or needed, nor as rapidly as deserved, but nevertheless it continues. The promise of the year has been fulfilled.

So we come to the end of the third year of a post-war depression with a feeling of greater confidence born of better times already realized and with justified hope of still further improvement in 1924.

In general, the crops of 1923 were good. Some sections in the cotton belt and in the wheat belt suffered from the ravages of weather and insect pests, but the aggregate crop production was equal to the average of the five preceding years.

Considering money return we find that the values of most crops are greater than in 1922. The total value of all crops is 12 per cent greater. The values of wheat, rye, rice, clover seed, cranberry, peach and pear crops are below 1922; in the case of wheat 11 per cent below. The values of all other important crops are greater.

It is difficult to measure the productive value of livestock during the year, dependent as it is upon crops marketed in that form. In general, it has been a prosperous year for sheep growers, fairly good for dairymen, less satisfactory for producers of hogs, and discouraging for growers of range cattle. Cattle feeders, however, have done very well on the whole.

There are discouraging conditions still to be overcome. There is the burden of debt. There are heavy taxes to be met. The cost of production and of what the farmers buy remains high. Farmers in the spring wheat territory especially are in sore straits from conditions largely beyond their control.

Experience gained during these years of depression, however, together with progress already made, warrant a hopeful attitude for the coming year. Gradually crop acreage is being better adjusted. The domestic market continues strong. The children keep coming, and that means a steadily increased number of mouths to be fed. Those who stay by the farm and do good farming can look forward to better times as a reward for their years of toil and hardships. Those whose businesses depend directly upon farm purchases can find decided encouragement in the growing gross income of the farmer, for he will buy as his income expands.

The year 1924 comes with the promise of continued improvement in material prosperity of the farmer, and the farmer continues to be the material and spiritual backbone of the Nation.

Human hothouse plants will be more than a figure of speech if a Chicago engineer can carry out a project that he is urging. He wants to build in some city a residential section perhaps half a mile square, put a glass roof over it and have one central heating plant for it. He promises to produce an Hawaiian climate all the year round roses in winter, no rain on wash days, and other alluring advantages. He thinks that the cost of the superstructure would be offset by the lower cost of building inside the enclosure and by the lessened expenditures for heat.

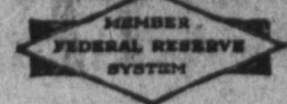

What is believed to be America's first apartment house was built in New Orleans by the Baroness Pontalba daughter of the Spanish governor of Louisiana. Sixteen of these apartment houses were erected in 1846, a row of them on either side of the City Plaza.

A flash of lightning struck the earth near the foot of a tree in Madison County, Illinois, in 1807, setting it afire. The monks of La Trappe dug below the fire and found a vein of coal the first in the Northwest Territory.

Artificial silk is being made from spruce wood.

### PHONE THE NEWS.

The Randall County News is very anxious to get all of the news of Randall county. Much valuable news is liable to escape if you do not assist us a little. We will appreciate it very much if you will phone us all of the news during 1924. This would mean a better newspaper and a more valuable newspaper for Canyon and Randall county.

# Pay By Check

Enjo this Strong Protection back of Your Checking Account.

It is good business to always pay by check—and safer and better in every way.

When you have your checking account in this bank, it is made safe by sound banking methods and doubly safe by our membership in the Guaranty Fund System of Texas.

The Guaranty Fund System of Texas has a membership of around 948 Banks with resources of more than a third of a Billion Dollars—and no non-interest bearing or unsecured depositor has ever lost a dollar through the failure of a Texas Guaranty Fund Bank.

We invite you to open an account at our bank. All our banking facilities are at your disposal.

### Deeds Filed This Week Transferring Randall County Land

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office.

W. L. Hutcheson to J. R. Cole, north half section 18, block 2-Z. Consideration, \$3,712.

Roy Lindsay to W. S. Noland, lots 3 and 4, block 2, Roy Lindsay addition to Amarillo. Consideration \$650.

J. E. Anderson to F. L. Anderson, northeast quarter section 60, block 1. Consideration \$4,515.

#### SENATORIAL

Randall County News: Mr. Bok rather upset the plans of the Senate peace investigation committee when he asked Senator Jim Reed to define propaganda—with which heinous crime he was charged. The Senator childishly retorted that Bok ought to know, since he was dealing in it.

State Press, Dallas News: No senatorial committee of recent years has looked quite as small as the one designated to inquire into Mr. Bok's peace award. It looked like small-bore politics, and that is precisely what it was. The woman secretary of the Bok organization, a lady of the brief name of Lape, made the senatorial inquisitors look like canceled stamps. Mr. Reed of Missouri, with his instinct for courtroom cross-examination, sought to make the witness contradict herself in true jury-trial style, but she proved herself so much more alert and prompt that the confuser became the confused. He got rid of her as quickly as he could without openly admitting that she made him dizzy. This is the same Mr. Reed who is running for the Democratic nomination for President, or says he is, and who feels entitled to it by reason of his opposition to the major policies of the Democratic President whose term expired in 1921 and whose life expired in 1924.

#### SUDAN SCHOOL BURNS.

The new school building at Sudan burned Saturday morning, with an almost total loss. The building was completed the past summer and was being used for the first time this fall. Miss Minnie Adams of Pampa, a former student in the College, passed through the city Sunday on her way home, there being no present means of continuing school.

American artists are incensed at what appears to be discrimination on the part of the French who have relegated to a small Paris museum Whistler's famous painting, "Arrangement in Gray and Black," a portrait of his mother. According to established custom, a decade after the death of the artist his best paintings are removed to the Louvre. Whistler has been dead two decades.

The possession of American Samoa is guaranteed to the natives forever by the Government of the United States. Opium, alcohol, patent medicines and commercialized drugs are prohibited and medical service is supplied free.

Only one railway accident involved loss of life in England during 1923. The years 1901 and 1908 were without a single accident to passengers. In the 23 years of the present century the number of railway deaths totals but 73.

The Seventy Mile Kid, an old sourdough miner of the early Alaska mining days, has charge of Mount McKinley National Park, and is said to know more about the mountain than any other man.

The secondary streets of Moscow are deserted; grass grows between the cobblestones; tramways run half empty and most of the shops and restaurants are closed.

Firminy, France, population about 20,000, has an Unhappy Married Men's Club. Nearly 200 men, ranging in age from twenty-five to seventy-five, are members.

The Malays for centuries have domesticated monkeys and have trained them to climb coconut trees and pick the nuts.

In Moscow University eighty per cent of the medical students are Communist Jews. Admission is reserved for boys and girls of approved atheist and Bolshevik principles.

#### BILL BOOSTER SAYS

**WANT MORE TREES!!!**  
A TOWN WITH BEAUTIFUL TREES IS A BEAUTIFUL TOWN, WHILE NOTHING LOOKS SO BARE AND BLEAK AS TREELESS STREET! LOOK AROUND YOUR HOME AND SEE IF ANOTHER TREE WOULDNT IMPROVE IT.

#### COOK MOVES TO CANYON.

Wellington Leader: O. W. H. Cook, who for the past three years has been active head of the Wellington State Bank, has severed his connection with the bank and moved to Canyon, where he will have charge of the First National Bank of that city.

Mr. O. W. H. Cook is a man of superior business ability, and while with the Wellington State Bank demonstrated that ability. The business interests of the city will miss Mr. Cook very much; however we are pleased to know that he has obtained a more remunerative position at Canyon. Mrs. Cook will also be missed from the church, social and musical circles of Wellington. Possessed of a charming voice and musical ability, she is ever ready to give her services to any good cause in which her talent can be used. The Leader bespeaks for this splendid couple splendid success and prosperity at Canyon.

The saying "Mind your P's and Q's" meaning "Be very careful," originated in printing offices. When type is set up the letters are reversed, and small "p's" and "q's" were liable to be mistaken for each other. Machine typesetting has made the warning obsolete.

Dollar bootleggers in Paris offer to buy dollars at prices ranging from 50 centimes to 1 franc above the previous night's official closing quotation. Plainclothes policemen watch for these dealers, who are "foreigners, from somewhere in Central Europe.

Only immigrants of an "intellectual capacity superior to the American average" and of lighter physical standard than most aliens who have been admitted, should be allowed to enter this country, the committee on selective immigration urge in a report.

The United States Army bakes bread for two cents a loaf, superior to that sold the public for nine and eleven cents.

New Year's Day in Japan tests the financial strength of every individual from the lowly rickshaw man to the largest commercial concern. On that day all outstanding debts are settled.

#### INSULTED

If, for the love of money, someone should rob one of our banks and for the crime should be convicted and sentenced by the court to pay the penalty of his deed at the hands of the law, I would consider it an insult to be asked to sign a petition for his pardon. Again, if a High-Jacker should hold up one of our draymen and force him to give up the money which he needs for his wife and children and for which he honestly toiled, I would consider it an insult to be asked to sign a petition for his pardon. Each of the above would be premeditated crimes.

Likewise, when a boot-legger is lawfully convicted by a jury and sentenced by the court I am insulted by a request to sign a petition to the Governor of the State for his pardon. Such an one is a voluntary, premeditated criminal against the Constitution of the United States and therefore against the Sovereign will of the whole people, and all for the love of money.

It should be an insult to any true American citizen to be asked to go on the bond of a premeditated criminal such as the above mentioned or to be asked to sign a petition for the release of such after guilt has been unquestionably established by the courts of the land. Let all lovers of respect for law frown upon such flagrant disregard of the safety of the law-abiding citizenship of our great country.

T. R. R. ATKINS.

Trichinosis, a painful and often fatal disease, is caused by a small parasite that is sometimes present in pork. The trichina parasite is so small that it can only be seen with a microscope and hogs harboring it show no symptoms nor does the diseased pork appear different from pork not diseased. All pork should be thoroughly cooked before eating as that is the only sure way of ridding the meat of the disease.

A very prominent American, writing from abroad, says: "Even from England about one-third of the emigrants are Jews. From Russia ninety per cent to ninety-five per cent of persons going to America are Jews. At least sixty per cent of the emigrants from Poland are Jews. Many influential Americans over here think that there is a world-wide scheme to flood the U. S. A. with Jews."

"After being away on a lecture trip in the interior, I return each time to Manhattan as to a foreign port. The people in the street appear mean in stature and brutal in manner. It is in the small towns of Ohio, Indiana, and Illinois that I overtake the vanishing America of my youth."—Hamlin Garland.

The Yellow River "China's Sorrow," has been dammed by an American engineering corporation. Millions of persons have been drowned by the river's floods and it has changed its course many times in centuries past. The land formerly under water will be reclaimed and power may be developed at the dam.

#### LEGAL WEIGHT OF COTTON SEED

Cotton seed is being advertised for sale and many farmers are buying seed early to avoid the rush at planting time. In making purchase, it is worth while to bear in mind that the legal weight of a bushel of cotton seed varies among the different states. In this connection, Bailey's Cyclopaedia of American Agriculture gives the legal weight of a bushel of cotton seed in those states having such standard as follows:

Arkansas, 33½ pounds; Alabama, 32 pounds; Florida, 32 pounds; Georgia, 30 pounds; Mississippi, 32 pounds; Missouri, 33 pounds; North Carolina, 30 pounds; South Carolina, 30 pounds; Tennessee, 28 pounds; Texas, 32 pounds; Virginia, 32 pounds.

"Faith and toil and helping one another." These seven words form the plan for international peace submitted by Anton Lang, Christus of the Oberammergau Passion Play to Edward W. Bok.

## METHODIST MEET GREAT SUCCESS

TWENTY-SEVEN COLLEGES REPRESENTED AT MEET.

Four Students and Student Secretary Represent Teachers College at Federation.

### Special to The Prairie.

Dallas, Texas, Feb. 10.—The Methodist Student Federation was a great success. Twenty-seven state and Methodist colleges were represented at the meeting. A student of the State University was employed as a full-time secretary for Texas.

The College of Industrial Arts will entertain the Federation in 1925. Representatives from the West Texas State Teachers College were placed on the nominating and resolutions committees.

The Texas Federation will be represented at the National gathering of college students to be held in Indianapolis, Indiana.

Those who attended the Methodist Students Federation in Dallas from this institution were Annette Reed, Esther Shoultz, Weldon Thompson, John Randolph and Mrs. T. C. Delaney, the Methodist Student Secretary.

This meeting was the second annual meeting of the Federation and it met with the Southern Methodist University. Representatives from 27 Colleges were in session for three days, February 8, 9, and 10.

A speed of 105 miles an hour has been attained by an electric locomotive in tests before 200 steam and electrical railroad men from all parts of the country at Erie, Pennsylvania. An electric locomotive and a big Mikado steam locomotive engaged in a tug of war. The electric proved superior in pulling after giving the steam engine a start of five miles an hour.

Harry Lauder is just Scotchman enough to refuse to give any shows on Sunday. On his second American tour he was contracted for Sunday work without his knowledge. He has never been caught that way since. For seventeen years he has had but one manager, a Jew, William Morris, who is said to be one of the squarest men in the business.

Captain MacMillan and his crew on the steamer Bowdoin frozen in the ice off the shores of Greenland, chat by wireless daily with neighbors living in the tropics. They have heard concerts from stations in England, Germany, Holland, Mexico, France, Italy, Norway, Japan, Spain and the United States. They have talked with Hawaii more than 5,000 miles.

"Thoughts are the children of your brain and words are the garments they wear—do not make tramps of them. Words are all-powerful—they can wreck homes, destroy lives, ruin business and devastate property."—George Washington Robnett.

An American inventor predicts that in twenty years television will be in common use. Instead of seeing motion pictures some time afterward we shall be able to sit in a theater and actually see, as if on the spot, instead of many miles away, and at the same time hear.

Three years more, under present conditions, and there will be no more salmon for the canneries. Ruthless competition and piratic methods of canners and fishermen have caused this condition.

A bad wound, burn or cut should be cleansed of dirt or impurities and dressed with Liquid Borozone. It heals the flesh with marvelous speed. Price, 30c, 60c and \$1.20. Sold by City Pharmacy. 4015

## Track Prospects Grow Bright as Training Goes On

Interest in track is perhaps stronger at the college this year than it has been in the past three years. Several men are to be seen daily working on the cinder path and occasionally jumpers, weight men, and vaulters train for form.

Interest at the present is centered about the work of Joe Bob Golden, one of the fleetest sprinters that has put in appearance at the park this year. Although Golden is handicapped by a bad knee he has been doing work in starting and some slow work for form.

Finis Vaughn, "Preacher" Fuller, Davis Hill and Ray Bivins of last year's squad have all put in their claim for a place on the squad this season. John McCarty, distance runner of the 1922 squad, has perhaps been working longer and more consistently than any aspirant for the team. Although hard work daily around the curves has given him endurance he has not been able to get into form this season.

Hancock and Muncy, two huskies who are candidates for the distance events that are on the sick list. Both are crippled and likely to be out for several days more.

Many new men are training daily with the veterans and there is a likelihood of some good material being developed.

The Buffalo track squad is to have three meets this year, two of which are away from home. The first clash will be at home when approximately twelve colleges will participate in the annual invitation meet. At a later date the track men will go to Roswell where an invitation meet will be held with N. M. M. I. as host. The final meet of the season will be the annual T. I. A. A. Conference clash at Simmons College. Abilene is now working on Parramore field endeavoring to have a track worthy of the meet.

Wild horses in the vicinity of Bend, Oregon, have increased so rapidly that they are becoming a nuisance. Extremely low prices for horses resulted in the ranchers turning them out into the mountains to shift for themselves.

The Imaja palm, growing in South America, has leaves reaching a length of fifty feet and are often ten feet wide. Another palm, a native of Ceylon, has leaves twenty feet long and eighteen feet broad, from which the natives make tents and shelters.

The Wayside Inn's neighborhood has been marked by the Census Bureau as the center of population for Massachusetts. The exact point is eight tenths of a mile south-southwest of the Sudbury post office.

The people of Rome awoke recently to the rare spectacle of their city covered with snow which lasted until noon.

## Haley Elected to Fill Vacancy On Le Mirage

Everett Haley was recently elected by the Le Mirage staff to take the place of Jeff D. Smith as editor of the year book. Mr. Smith was called to his home at Anson a few weeks ago on account of serious illness in his family, and he will not be able to return until the first of next quarter.

Mr. Haley is a member of the Junior Class and was college life editor of the Le Mirage prior to his election to the editorship. He takes an active part in all student activities. He is Business Manager of The Prairie, president of the Cousins Literary Society, president of the Bachelors' Protective Association, and was a member of the Yearling football team last fall.

It is to be hoped that through the cooperation of the Le Mirage staff and the student body Mr. Haley may be able to complete the work on the year book in first class style.

It's easy to love your neighbor as yourself—if she's pretty enough.

The wigs and robes of an ordinary English judge cost approximately \$2,000. The lord chancellor, the attorney-general, the lord chief justice, the master of the rolls, and the lord justices of appeal are even more expensively dressed.

Mme. Curie, the discoverer of radium, is living in poverty in Paris. She has devoted every franc she possessed to scientific research. The French parliament has granted her a state pension of \$2,200 a year.

An enterprising American is preparing to put a fleet of 500 yellow taxicabs on the streets of London. All the cars will be of the four-cylinder type and comfortable.

## Large Numbers of Lectures Secured For Summer Term

Those who attend the coming Summer Session of the Teachers College will have the opportunity of hearing the largest number of lecturers that have ever visited this institution in the same length of time. Practically all of the speakers are either college presidents or college professors. Seven of these speakers have accepted the invitations sent them by President J. A. Hill, and several others are expected to accept daily. Several have accepted tentatively.

Those who have accepted are: Dr. Lotus D. Coffman, president of the University of Minnesota, an excellent platform performer, and one of the most distinguished educators of America, who will speak here July 11 and 12; Dr. P. W. Horn, president of the Texas Technological College, who will give a week's series of lectures; Dr. W. S. Sutton, acting president of the University of Texas, who will speak sometime during August; Dr. W. B. Rizzell, president of Texas A. & M., July; Dr. F. M. Bralley, president of the College of Industrial Arts, will speak during June; Mrs. S. M. N. Marrs, president of the Parent-Teachers Association of Texas, will give a series of lectures for one week, to which Parent-Teachers Associations all over this section are invited to attend; Mrs. Percy V. Pennybacker, lecturer, author, educator, and ex-president of the National Federation of Women's Clubs; and Dr. Geo. A. Works, of Cornell University and director of the educational survey of Texas.

Dr. C. M. Hill, president of State Teachers College, Springfield, Missouri, and Dr. Geo. F. Zook, Bureau of Education, of Washington, D. C., both of whom are assisting in the state survey have tentatively accepted. President H. J. Estill, President of the Sam Houston State Teachers College, will also probably be a speaker at the College sometime during the summer.

## Stock Judging Here in April

The annual West Texas Stock Judging Contest will be held the first week in April, according to Professor Frank R. Phillips, Director of Agriculture at the College. This is about six weeks later than the usual time for this meeting. However, according to Mr. Phillips, this will offer an opportunity for the thirty agricultural instructors in this part of the state to whip their teams in better shape than usual before the contest.

One additional feature of the contest this year, and one that is attracting considerable attention, is that of the judging of cotton, grain sorghums, and other farm products. Heretofore, the contest has been only for the purpose of judging hogs and cattle.

Another additional feature of the contest will be the judging of poultry, which has been added at the suggestion of President Hill of the College.

The output of pig-iron in the United States in 1923 was nearly forty million tons, an amount that surpasses even the war-time production of 1916; yet the exports of steel and iron were much lower than they were in 1913, and the lowest in the history of the industry in America if compared with the quantity produced. How long will it take American blast furnaces, keyed up to war-time pitch, to supply the demands of home consumption? Or has home consumption so increased that it can keep this great industry going at its present gait?

A great enterprise of the early future will be building railways in South America, Asia and Africa. In each of those continents are now vast areas of rich land that can be exploited only when the railways come. In the United States there are on the average eighty-three miles of railway to every thousand square miles. In Europe there are only sixty-two miles of railway to every thousand square miles, in South America only seven, in Asia only four, and in Africa only three.

Under the new American law, a woman not an American citizen marrying an American since September, 1922 does not obtain American citizenship thereby. She must establish a year's residence in the United States with due formalities. She may enter America, either accompanied by her husband, or not, only as an ordinary immigrant depending on the quota rule.

Prominent Masons of Lexington, Kentucky, launched a movement to preserve "Ashland," the home of Henry Clay, when they presented a resolution to the Grand Lodge of Kentucky, petitioning the state legislature for an appropriation to purchase the property. Kentucky Masons pledged \$5,000 toward the purchase of this historic spot.

PLANT SOME TREES—NOW!

The supply officers of the United States Army make annual expenditures of public funds amounting to many millions of dollars in times of peace and billions in times of war. That they may perform this important service with the greatest efficiency an Army School of Business has been proposed by the Assistant Secretary of War, Colonel Dwight F. Davis.

Two hundred and ninety-eight vessels of the American Merchant Marine were lost during the year, 139 were sold to alien flags, and 628 were abandoned, their tonnage being: lost, 127,584; sold 218,401; abandoned, 142,916.

RESOLUTION APPROVING THE ENGINEER'S REPORT COVERING THE IMPROVEMENTS ON A PORTION OF EVELYN STREET IN THE CITY OF CANYON AND DIRECTING A HEARING TO OWNERS OF PROPERTY THERON, AND OTHER INTERESTED PARTIES, CONCERNING AN ASSESSMENT OF THE COST OF A PORTION THEREOF AGAINST THEM AND THEIR PROPERTY:

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF CANYON:

WHEREAS, the construction of certain improvements has heretofore been ordered by the City Commission of the City of Canyon upon Evelyn Street from the East property line of East First Street to the West property line of Lester Avenue.

WHEREAS, the contract therefor has been let to the PANHANDLE CONSTRUCTION CO., and W. D. Howren, Engineer, has been directed to prepare a roll showing the cost of said improvements, and other matters, as prescribed in the resolution ordering same, and Ordinances of the said City; and

WHEREAS, the said Engineer has filed with the Commission a statement or report in writing, which statement or report in writing shows the total cost of the said improvements, the portion thereof to be assessed against the property abutting on said street and the owners thereof, and the cost per front foot proposed to be assessed against the owners thereon and their property, and

WHEREAS, the said report has been inspected by the Commission and all errors therein have been corrected, THEREFORE:

BE IT FURTHER RESOLVED, that the said roll, statement or report is in all things approved, and that it is necessary to assess a portion of the cost of said improvements against the owners of property abutting upon said street within the area named to be improved, and against their property, and,

WHEREAS, the said improvements consists of paving the roadway of said street as established with three inch vitreous brick No. 1 vitrified brick laid upon natural foundation, together with the construction of concrete curb and gutter along curb lines, with all necessary excavation and grading; and

BE IT FURTHER RESOLVED, that a hearing shall be given to said owners of said property and to all persons interested in same, or anyone having a lien or claim thereon; which hearing shall take place before the City Commission of the City of Canyon in the Commission Chamber of the City Hall in said City on the 28th day of February, 1924, at 10 o'clock A. M., at which hearing the said owners and other interested persons, their agents or attorneys shall receive a full and fair hearing before the said Commission as to the benefits, if any, of the said improvements to the property, or as to the regularity of the proceedings with reference thereto, or as to any matter or thing connected therewith; at which hearing the said property owners, or other interested persons may introduce or produce witnesses, and said hearing shall be continued from day to day and from time to time until all are fully heard, and after said hearing the Commission will determine from the evidence before it what sums, if any, shall be assessed against said owners and their property, provided no assessment shall be in excess of the benefits of the said improvement in the enhanced value of the property occasioned thereby.

That the City Clerk is hereby directed to give notice hereof by publication of a true copy of this resolution in the Randall County News, a newspaper of general circulation in this city, which notice shall be published not less than three times, the first publication to be not less than ten days prior to the date of the said hearing. Said Clerk shall append to the said copy of this resolution his signature and certificate that the same is a true copy, and the publication of such copy shall be sufficient notice to said owners, or other interested persons, to appear and be heard at the time and place herein mentioned.

That the City Clerk shall mail to each of the said owners of abutting property, at their Postoffice address, if known, or, if unknown, to their agents or attorneys, a copy of this resolution by registered mail deposited in the Post office at Canyon, Texas, not less than ten days before the date set for said hearing, but such notice shall be cumulative of the notice above required by publication, and the failure to mail said letters, or any of them, or the failure of the person to whom addressed to receive the same, shall in no wise affect the validity of said notice.

That the total cost of the said proposed improvements between the above mentioned limits on said East Evelyn Street is \$28,064.00.

That the amount per front foot proposed to be assessed against the abutting property and the owner thereof is \$4.25 per front foot for a Thirty (30) foot street.

That the said owners of said abutting property and other interested persons are instructed to take due notice thereof.

That this resolution shall take effect and be in full force from and after its passage.

Passed and approved this 4th day of February, 1924.

(SEAL)  
Attest: PEARL JENKINS, City Secretary.

C. N. HARRISON, Mayor of Canyon, Texas.
