## CANYON BOY WON FIRST PLACE IN STATE CONTEST

### J. D. GAMBLE WINS SENIOR BOYS DECLAMATION.

Sanders Gets to Finals in Poll Vault and Turner Kept Out of Mile by Bad Condition of Knee.

J. D. Gamble of Canyon won the state championship in the senior boys declamation contest held at Austin Friday and Saturday.

J. D. won the unanimous decision of the five judges, being the only contestant to win such an honor.

Young Gamble is the son of Mr. and Mrs. J. D. Gamble of this city. He has been a prominent pupil in the public schools, and has been especially interested in public speaking. This is his fourth trip to Austin. He went twice in the junior boys' declamation and this is his second trip in the senior boys' declamation.

Supt. A. D. Payne, who accompanied the contestants to Austin, states that he felt sure of the decision after hearing the contestants speak.

J. D. has been under the direction of Miss Agnes Thomas, expression teacher of the public schools, who trained him for the contests.

Milton Sanders got into the finals at Austin in the poll vault and was going fine until rain started pouring down and he was forced out of the contest.

B. F. Turner, star mile runner of the Panhandle did not get to enter owing to a badly sprained knee. He went to Austin realizing that his knee might keep him out. The Clarendon boy whom B. F. easily outdistanced in the district meet here last month won fourth place in the state meet. B. F. would have stood a good chance at first place had he been in good condition.

Claude Boone Jr., of St. Francis, won first place in the rural boys' declamation. Claude is the boy who came to the district meet in Canyon against the wishes of his parents and his teacher, and handily won. He missed his train in Amarillo and caught a truck here to enter the contest. After the contest, he confidently told Miss Margaret Boulware that he was going to win at Austin—and he did.

### KILLED IN CAR SMASH.

Mrs. M. S. Witt was called to Temple Saturday by the death of her niece, Miss Kathleen Knight, who was killed when the car in which she was riding was struck by an interurban car near Temple. A young woman friend and the driver were killed at the same time.

Miss Knight lived in Canyon for one summer and was well known among the students of the College.

## Stockett Wins Medals in I. O. O. F. Lodge Convention Last Week

W. R. Stockett won two medals at the meeting of the I. O. O. F. Lodge in Amarillo last week.

Mr. Stockett was winner of the medal given for the past grand charge and the one for the chaplain's charge.

The Shamrock team won the degree team work.

The Canyon degree team is determined to win the degree team cup next year.

### PRESIDENT HILL TO AUSTIN.

President J. A. Hill has been called to Austin tomorrow to attend a meeting of the Board of Regents, and will present his budget for the coming two years.

Mr. Hill was under the impression that the Board would visit the College and investigate the budget early this month, but there seems to have been a change in the plans.

### HARWARE CONVENTION.

The annual convention of the Panhandle Hardware and Implement Association will be held in Amarillo next week. C. L. Thompson of this city is secretary of the association. T. C. Thompson will speak on the program.

### STORK SPECIALS.

A daughter was born to Mr. and Mrs. C. S. Sanford April 28. A son was born to Mr. and Mrs. Davis King May 2nd.

### BUILDING NEW HOUSE.

H. McGee is building a new house on Fifth Avenue, just west of the Miss Lamb home. The house is 28x30 feet.

## FEDERATION MEETS IN CANYON '25

The Seventh District Federation of Women's Clubs in session at Lubbock this week, voted yesterday afternoon to accept the invitation of Canyon to meet here in 1925.

Mrs. T. V. Reeves phoned the News last night the decision of the Federation and stated that the Canyon delegation would be home this afternoon.

## McAdoo Wins Vote in Randall County for the State Convention

The McAdoo forces won the two votes of Randall county in the precinct convention held Saturday afternoon.

Precinct Number one held a majority of the delegates for the county convention, and was the only precinct convention held in the county Saturday. Twenty-nine delegates were elected to the county convention Tuesday.

A resolution was introduced to send an uninstruted delegation to the county convention. After a discussion of nearly an hour, a vote was taken with 11 votes for an instruted delegation and 9 votes for an uninstruted delegation. A resolution was introduced to instrute for McAdoo, and the vote stood 12 for and 10 against.

At the county convention Tuesday the instrution of McAdoo was ratified and W. J. Flesher, J. W. Reid and Frank R. Phillips were elected delegates to the state convention.

J. W. Reid was endorsed as a delegate to the national convention from the 18th congressional district; R. E. Thomason of El Paso was endorsed as delegate at large from Texas and Marshall Hicks was endorsed as national committeeman from Texas.

## Hail Friday Afternoon Does Considerable Damage to the Grain

A hail storm swept south of the city Friday afternoon and extended over a two mile strip to ten miles east of Happy. Hail was so heavy that the ground looked to be covered with snow, and hail remained on the ground even until Saturday.

The hail south of town was soft and much more like snow than hail, but extending southeast and east of Happy, the hail stones became larger and more destructive.

W. W. Kuehn had a hundred acres of summer fallowed wheat on his farm six miles east of Happy which stood knee high and was said to be the best wheat field in the Panhandle. The loss will be fully one-third. Neighbors all around the Kuehn place had heavy losses by the hail.

A large percent of those who were damaged by hail were covered by insurance.

### LIGHT RAIN FRIDAY.

A light rain fell in Canyon Friday afternoon at 4 o'clock, continuing for half an hour. There was only .06 of an inch here. There was no rain south of Umbarger at the Hess place, while there is reported to have been about two inches eight miles east of Happy.

### CLASS VISITED NEWS OFFICE.

The Journalism Class of the College visited the News office Tuesday afternoon with Dr. D. H. Munson, head of English department of the College, and teacher of this class. The class came in order to see the mechanical part of a newspaper office.

## Buffaloes Wolloped the Cadets in Two Games Saturday Afternoon

Rain started to fall Friday afternoon just as the Buffaloes and New Mexico cadets were warming up for action, and the baseball game had to be called.

A double header was played Saturday afternoon, starting at 2:30 o'clock, resulting in two victories for the Buffalo tossers.

The first game was after the race track fashion, with a score of 14 to 12—the Buffaloes winning.

The second game was a slam up good game and the Buffaloes took this by a score of 4 to 2.

## LUNCHEON CHAMBER OF COMMERCE HELD ON TUESDAY

### Mrs. T. V. REEVES HEADS COUNTY PARK BOARD.

### Trip to Brownwood and Other Things of Interest Discussed at Luncheon Held Tuesday Night.

Twenty-eight men attended the banquet of the Chamber of Commerce Tuesday night at the Palace Cafe.

Louis F. Hart explained that the railroad and Pullman fare to Brownwood would be \$32.75 including the use of the Pullman during the stay in Brownwood. The College Band will have one Pullman of the Amarillo special train.

Amarillo was unanimously endorsed as the next meeting place of the West Texas Chamber of Commerce, and Canyon's fourteen votes will be cast for Amarillo.

No instructions were given the delegates as to the choice for president of the organization.

Mr. Hart stated that he had been informed by the Dallas Chamber of Commerce that leaving Canyon off the itinerary of the trade tripper was due to a typographical error. Fully two-thirds of the Dallas bunch came down town when the train stopped here.

J. L. Lovvorn, president of the Randall County Singing Convention, explained that the Plateau Singing Convention would be held here June 14-15. He asked that a committee be appointed to assist the officers of his organization in planning for this big convention. W. A. Warren, Louis F. Hart and Frank R. Phillips were appointed on this committee.

Mrs. T. V. Reeves was elected county chairman of Randall county in the move to organize counties interested in the establishment of state parks.

Louis F. Hart announced that the clay from the Roffey place which was shipped some time ago to brick concerns for tests had been received, and it is hoped that the finished bricks will be returned within a short while. If these tests are favorable, it is planned to send other clay for further tests.

## GIN SITE SETTLED YESTERDAY AND HOGAN COMING MONDAY TO START WORK ON BUILDING—MACHINERY BEST

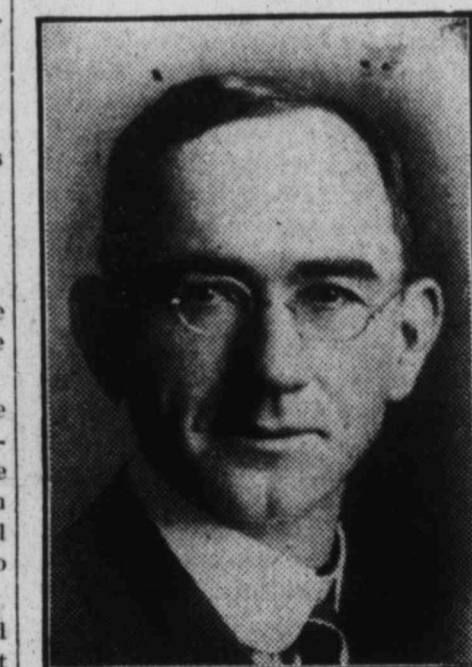

T. R. Hogan of Allster stated yesterday to Mayor C. N. Harrison in telephone conversation that he would be in Canyon next Monday to start work on the gin building.

A delay of several weeks has occurred in starting the building on account of the site controversy. Whenever a site was selected, there were objectors, or the price was too high.

The site at 17th Street was taken off the market just when the gin people decided to take it and to proceed with the building at this point.

They preferred a site west of the depot but this site was held at too high a figure. A telegram Tuesday made action absolutely necessary, and it is

## J. W. Reid is Endorsed as Delegate to National Democratic Meet

J. W. REID.

J. W. Reid of Canyon is being urged by his friends as a delegate to the Democratic National Convention, which meets in New York in July.

Mr. Reid is a candidate for State Senator from the new 31st State Senatorial District, and would make a good delegate to the national convention.

Mr. Reid will go from Randall county to the state democratic convention on May 27th.

## Abilene Christian College Baseball Team to Play 3 Games Here

Three T. I. A. A. baseball games will be played by the Buffaloes next week when the Abilene Christian College team comes to the city.

The Abilene College has a strong team and split the bill with the Buffaloes when they met at Abilene three weeks ago.

The Buffalo players figure on getting the big end of this series and improving their standing in the T. I. A. A.

All of the games start at 4:00 o'clock at Buffalo Park.

## COMMENCEMENT FESTIVITIES OF HIGH SCHOOL STARTS TONIGHT AND CONTINUES THROUGH THE COMING WEEK

### TWENTY-SIX YOUNG PEOPLE TO RECEIVE DIPLOMAS FROM SCHOOL—SERMON SUNDAY NIGHT—OPEN PROGRAM MONDAY NIGHT—CLASS PLAY THURSDAY AND FINAL PROGRAM FRIDAY NIGHT, MAY 16th.

### PROGRAM OF WEEK FOR SCHOOL COMMENCEMENT

Thursday evening, May 8th—Banquet.  
Friday evening, May 11th—Baccalaureate Sermon.  
Monday evening, May 12th—Senior Class night.  
Thursday evening, May 15th—Senior Class Play.  
Friday evening, May 16th—Commencement.

The Canyon High School is offering twenty-six seniors for graduation this spring. That means that these are twenty-six wide-awake girls and boys eagerly awaiting commencement with both tears and laughter, for commencement includes a leaving as well as a beginning.

In making out our program for Commencement Week, we wish to include you, for we are your Seniors.

Thursday evening, May 8, at 8:00 o'clock, there will be a "Get Acquainted" Banquet in the high school gymnasium. The object of this banquet is to bring the people of the town together, and while each is getting acquainted with the other, all of them can get acquainted with our high school, the faculty, and pupils. The proceeds of this banquet will go toward helping the Seniors pay for the stage equipment. Get a ticket and come!

The next event will be the Baccalaureate Sermon, Sunday night, May 11 at eight o'clock in the high school auditorium. All friends and patrons of the high school and Seniors are especially invited. The following will be the program:

Processional Choir—"O, Mother Dear Jerusalem."

Invocation—Rev. B. F. Fronabarger.

Anthem—Choir.

Sermon—Dr. D. H. Munson.

Monday evening at eight o'clock will be Senior Class Night in the high school auditorium. We promise an entertaining program, and since this will be the only informal gathering of the Seniors at which the public is invited, we want everyone to come. Come and see the Seniors as they are!

Thursday evening at eight o'clock, the Senior Class presents the play, "Come Out of the Kitchen." You cannot afford to miss this program. Miss Agnes Thomas has presented many plays and programs this year but "Come Out of the Kitchen" is the best play we have had, and with Miss Thomas' help, we are going to do justice to the play. We have a cast of characters that would be a credit to any play and especially this one.

The following is the cast:

Olivia Dangerfield, alias Jane Ellen—Ruth Jennings.

Elizabeth Dangerfield alias Araminta—Lela Gill.

Mrs. Falkener, Tucker's sister—Lura Oliver.

Cora Falkener, her daughter—Jean Vetski.

Amanda, Olivia's black mauney—Ruby Combs.

Burton Crane, from the north—Vester Hill.

Thomas Lefferts, statistical poet—Wallace Williams.

Solon Tucker, Crane's attorney and guest—Irby Carruth.

Paul Dangerfield, alias Smithfield—Winfield Miller.

Charles Dangerfield, alias Brindlebury—Beryl Avery.

Randolph Weeks, agent of the Dangerfields—Willard Miller.

Friday evening, May 16, at eight o'clock is the Commencement night for the Class of '24. Some of us feel that it is a "quintation" too. Our program we think, will do justice to our class and teachers:

Processional—"Dead March" from Saul—Miss Ruth Knight.

Invocation.

Chorus—Class.

Salutatorian address—Frances Reid.

Piano Solo—Olive Schramm.

Valedictorian address—Imogene McIntire.

Commencement address—Rev. McCollum, Amarillo.

Awarding of Diplomas—Supt. A. D. Payne.

### DR. O'DELL DIES.

Dr. Thomas O'Dell died Monday at Lindale. He was a physician in Canyon from 1901 to 1905. He is a brother-in-law of Dr. D. M. Stewart of this city. Dr. Stewart spent Sunday with r. O'Dell and realized the seriousness of his illness.

Dr. O'Dell has many friends in the city many the old time residents who are grieved to hear of his death.

President Coolidge has vetoed the Bursum bill which sought to make another raid on the national treasury for about four hundred million dollars annually in the way of pensions. The same bill was vetoed by President Harding. Under the terms of the bill the government would have paid Civil War veterans more than public school teachers now receive. We are still paying pensions for the war of 1812, although that war was fought 112 years ago, and every man who participated in it must have been dead at least thirty to fifty years. Congressmen voted for the national steal because they were afraid of election this fall. The President vetoed the bill because he had the nerve to do so, and because the bill had no right to become a law. The President is of the opinion that tax revision is the greatest need of the country. It is intimated that the soldier bonus bill for the World War veterans will follow the Bursum pension bill.

Governor Neff lost his flight Saturday for an unexcused delegation from Texas. As far as that is concerned, the Governor was whipped before he started. The McAdoo forces had the state pretty well organized before, any one seriously thought of opposing him in Texas. Governor Neff is not a shrewd politician. He has no strong person following in the state, simply because he does not know how to get along with people. The legislature was in an uproar while in session, because it did not understand Neff, and Neff didn't try to understand the legislature. The Governor was fighting for a principle in which he believed, but a principle does not stand a chance against a man—especially if that man be a good politician and has the political bosses behind him.

The Prairie was said by a Dallas News man to be the best made up College newspaper in Texas; the Randall County News has been chosen as one of the six best country newspapers in Texas. Both of these newspapers are products of the News plant, which is one of the largest and best equipped printing plants in West Texas. You do not have to send to a city to get good printing. The opportunity for good printing is right here in Canyon.

Governor McCray of Indiana was sent to the penitentiary because he was caught with 11,000 acres of fine farm land which did not pay expenses during the agricultural depression, and he foolishly tried to save himself from ruin. It is a notable fact that those who have defrauded the people of this nation out of millions of dollars in the oil frauds and during the war are still respectable citizens while McCray is in prison. This is a funny world.

McAdoo won the first state in several weeks when Texas instructed for him Saturday. This will put a little temporary pep into the McAdoo boom, but will not help him materially in the national convention. No candidate will go into the national convention with sufficient votes to make a serious showing, and the nomination will follow a series of trading.

The commencement exercises of the public schools will be on next week, with many programs of interest. There are probably many in Canyon who have not been near the public school building this year. Go to the commencement exercises next week. The school system of Canyon should be the pride of every citizen of this town.

A Canyon boy is state champion of senior declamation, and a St. Frances boy is state champion of rural boys' declamation. Both are products of the Plains and this section is exceedingly proud of their accomplishments.

Those who spend their time and money in making the town beautiful by raising flowers would not think of stealing flowers from their neighbors. It is the fellow who is too lazy to raise flowers for himself that will pilfer from the flower beds of his neighbors.

**TH' OLE GROUCH**

YESSIR, I'M GONNA HAVE THIS SPOTLIGHT PUT ON MY CAR AN' TH' NEXT GUY WHO PASSES ME AT NIGHT WITHOUT DIMMIN' HIS LIGHTS IS GONNA GET BLINDED GOOD AN' PLENTY!

The nation will remember mother next Sunday in special Mothers' Day services. Busy America should not be so busy to remember that if our nation is to live and prosper we owe it all to the mothers of the past, present and future.

Make Canyon beautiful by planting flowers. Nothing adds so much to the attractiveness of a town as flowers. Too many people are so lazy they would rather get their flowers by stealing, rather than raising their own.

**COTTON FARMERS HAVING TROUBLE AT ABILENE**

Lubbock Avalanche: J. R. McCook, representing the Alex Hyman Company of New Orleans, was here Friday looking after business, from his home at Abilene. Mr. McCook reports that the farmers of that vicinity have been experiencing a great deal of disappointment in that most of the cotton which was planted early in the season has failed to come up, and in a majority of cases replanting will be necessary. This condition is due to the cold weather that was experienced there for the first ten or twelve days after planting seed of low germination percentage, some believe.

While the bad climate conditions would necessarily impair the germination of even some of the pure seed it is said by seed experts that chances are that if all the seed planted had been of high germination percentage, mold would not have affected them as readily as it may have, and farmers of the Plains country who have not yet planted their seed are urged to test them in order to be better prepared to withstand unfavorable weather conditions that might exist here.

**ANNOUNCE TEACHER ELECTIONS**

The teacher placing committee of the Teachers College has announced the following elections of teachers for the coming year: L. L. Rose has been elected superintendent at Bovina. Byrd Mitchell has been elected primary teacher at Goree, Texas.

A jazz band played "Yes, We Have No Bananas" and "Ain't We Got Fun" at the funeral of Jules Tantor, theater owner of Amiens, France. M. Tantor's will obliged his heirs to fulfill its conditions of a jazz funeral, with a full brass band, although the good people of Amiens and the surrounding country were shocked.

**THE PASSING DAY**

By Will H. Mayes, Department of Journalism, University of Texas.

In his life time politicians said many mean things about Charles E. Murphy, New York Tammany leader, who died recently. At his death New York honored him as it has seldom honored any of its greatest men. People from all walks of life, the rich and poor, politicians of all parties, statesmen and anarchists, Americans and foreigners, joined in what was perhaps the most extraordinary demonstration ever accorded a citizen. In the heat of political discussion and business strife people are often unkind and unjust, and death is the only thing that brings them to a recognition of real worth.

An unusual man died last week in Austin. He devoted his life with entire unselfishness, to city improvement and beautification. He early bought a beautiful tract of land, now known as Hyde Park, and laid it off into city blocks and lots. He built the first street railway in the city. Nine miles of Austin's streets were built at his own expense, and most of these streets were maintained by him without cost to the city until his death. He kept his city blocks that were unsold as clean as any lawn in Austin, mowing them regularly. He planted and cultivated shade trees along every street and kept the addition a real park in appearance. While he sold lots as they came in demand, and sold them at reasonable prices, selling property seemed to be secondary with him to keeping them improved. He was a civic leader, but he worked quietly and never pushed himself to the front. An unusual man, a most useful man was M. M. Shippee.

Mrs. Louella Styles Vincent, who died in Dallas recently, was a leader of the right kind among Texas women. The daughter of a newspaper man, the widow of a newspaper man, and the mother of a newspaper man, she always had the highest ideals for literature and for journalism. She wrote much in her life, both prose and poetry, and there was not a line in all she wrote that was not inspiring and elevating. She loved the South and its people and delighted to express that love in her writings. She had faith in people and yearned to be of help to them. She was rich only in good works and she bequeathed that riches to posterity. The influence of such a life cannot be estimated.

The July primaries are some time off, but there are candidates galore going up and down the State, and in loud tones and with frantic gestures they are warning the people of the disasters sure to overtake Texas if they are not elected to office. These candidates are attracting crowds that might be more profitably engaged. It is hard to estimate the economic loss to the State from the campaigns that come every two years. The newspapers are already wasting tons of white paper in telling their readers what the candidates are saying and it may about all be boiled down to mere nothing. Two months in advance of the primaries the people have quit reading or caring what they say. Most of those who go to hear them speak, do so largely through curiosity and pretty

much as they would attend a street carnival. The candidates themselves are about the only persons who seem excited, but they are trying mighty hard to excite the dear people.

The people who drink liquors are more responsible for violations of prohibition laws than are those who make and sell the stuff. The traffic would stop at once if there were no buyers at fancy prices among respectable people. When buyers are punished as accessories, and punishments are made so heavy that the business of manufacturing and selling will be unprofitable, and both buyers and sellers risk penitentiary sentences, liquor manufacturing will become almost a lost art.

The well-to-do that think it smart or an evidence of their superiority to purchase and drink liquor clandestinely, are themselves to blame when their boys and girls become drunkards. It is but natural for youth to imitate age and try to go it one better. When we consider the bad examples set for young people it is surprising that they are as exemplary as they are. They would not be but for the fact that they know more than their parents—they are better educated. From constant observation of several thousand young persons in school I am convinced that at least the college boys and girls of Texas as a class, in both morals and ideals, are a credit to and an improvement on the homes from which they come.

**SISTER OF WORLD FLYER IN CANYON OVER SUNDAY**

While Lt. Leigh Wade, World Around Flyer is preparing to cross the Pacific on the famous world around flight from Dutch Harbor, Alaska, his sister, Ethel Wade of Crossopolis, Michigan, who travels in the interest of School Method Publishing Company of Chicago, was taking her first airplane ride over Canyon in company with Capt. Lowell Yerex, well known British Ace. Capt. Yerex anticipated that Miss Wade would manifest family bravery, so he treated her to a nose dive and an Emmelman spin. The trip lasted fifteen minutes.

She said she felt safe at all times, and likes air travel, and she sees why her brother has found aviation so interesting the past seven years. Capt. Yerex and Lt. Wade, both played important parts in the recent World War, the former with the Royal Flying Corps, and the latter with American forces. Lt. Wade is still in the service, as one of America's ablest aviators, while Capt. Yerex is one of the best commercial flyers of the day.

### SOCIETIES MEET IN DEBATE SOON

ANTLERS AND COUSINS WILL  
CLASH FIRST.

Intersociety Debates of May 10 and  
May 17 Are Becoming Topics  
of Intense Interest.

Debate by Cousins and Antler teams  
on Saturday evening concerning the  
uniform divorce law question will be  
the first of the inter-society debates.  
The debate between the Elaphelian and  
Sesame speakers will take place on  
May 17.

The debate this week will be on the  
subject, Resolved, That uniform mar-  
riage and divorce laws should be en-  
acted by the Federal government.

Popular interest in this question is  
expected to make the contest an excit-  
ing one. While the personnel of the  
teams has not been officially announced,  
both societies are known to have  
talented material for the contest.

A loving cup will be given the win-  
ning society by the College. This cup  
will be in competition for the first  
time, since the cup won last year be-  
came permanent property of the Coun-  
sils society.

#### Girls Discuss League

Entrance of the United States into  
the League of Nations is involved in  
the Sesame-Elaphelian question—Re-  
solved, That the United States should  
accept the Bok Peace plan as the Amer-  
ican condition of entrance into the  
League of Nations.

Eva Robertson and Violet West were  
winners in the Sesame try-out and will  
represent that society in debate. Miss  
Robertson has had experience in high  
school debating, while Miss West has  
had much training in declamation and  
oratory.

The cup at stake in this debate has  
been won by each society and at present  
is in possession of the Sesames.

Officers of the Elaphelian Literary  
Society have not announced the result  
of their try-out, but members of the  
society state that the team is expected  
to regain the trophy lost last year.

Your friends do not need explana-  
tions, and your enemies will not be-  
lieve them.

### EX-STUDENT IS TEACHING IN NEW YORK CITY SCHOOL

Miss Claudia O'Keeffe, an ex-student  
of this institution, is teaching in one  
of the experimental schools of Teach-  
ers College, Columbia University, New  
York City. In a letter to President  
Hill she states she wishes to come back  
to the West next year if she can get  
a desirable position.

Since leaving here Miss O'Keeffe has  
received a B. S. degree in elementary  
education from Columbia University.  
Her present address is 620 West 123  
Street.

### SESAMES PRESENT PLAY, "OH, IT'S SO SUDDEN"

"Oh, It's So Sudden," a short play,  
given by the Sesame Literary Society  
in chapel Tuesday, April 29, kept the  
audience in suspense from the first in-  
timation of competition among the  
young ladies until the last proposal of  
Jack. The play was given at the psy-  
chological time, and from indications  
it proved an efficient training school  
in the art of proposing.

### STUDENTS ARE REMINDED OF MOTHER'S DAY AT CHAPEL

As a reminder of the approaching  
Mother's Day, a beautiful presentation  
of our best friends, father and mother,  
was given in chapel Saturday, May 3,  
under the direction of Mrs. J. A. Hill,  
and Miss Stella Stanfield.

### WILSON HARBER LEAVES FOR NAVAL ACADEMY

Wilson Harber, who received an ap-  
pointment to the Naval Academy of  
Annapolis last fall, went to Annapolis  
Friday, April 11, to take the required  
entrance examinations. The examina-  
tions were held Wednesday, Thursday,  
and Friday of last week.

Mr. Harber has been doing prepara-  
tory work here the past term and has  
made many friends, who will be inter-  
ested in his progress in his chosen  
field and always wish him the best of  
success. Before going to Annapolis,  
Mr. Harber will be at home in Munda-  
y for several days.

### Forty-Eight Have Received Degrees Here Since 1920

Forty-eight young men and women  
have received their degrees from the  
West Texas State Teachers College  
since it became a senior college in 1920.  
Of this number forty-three are still in  
the teaching profession, five are engaged  
in other activities. Thirty-one are  
teaching in the high schools of Texas,  
five are in elementary schools and seven  
are employed in other states. Of  
these forty-eight young people, four  
have received their Master's degrees  
from universities and one, E. W. At-  
kins of Canyon, will receive his Doc-  
tor's degree from Johns Hopkins Uni-  
versity this spring. Of the remaining  
forty-three, thirty-five have continued  
their education by correspondence, two  
have studied in the University of Colo-  
rado, five have studied in the Uni-  
versity of Texas, one is studying at the  
Emerson School of Oratory, Boston.

This spring eighteen students will  
receive either Bachelor of Arts or  
Bachelor of Science degrees.

### MOTHER AND DAUGHTER BANQUET AT HIGH SCHOOL

A Mother and Daughter banquet was  
given Thursday, May 1, by the Girl  
Reserves, assisted by Mrs. F. R. Phil-  
lips and the domestic science girls.

The color scheme was red and white;  
the centerpiece on the table carried out  
the scheme in red and white sweet  
pens. Red and white carnations were  
given to the guests as favors.

A four course dinner was served to  
eighteen mothers and daughters and  
Miss Vivian Coffman, the leader of the  
Girl Reserves.

A delightful program was carried out  
between courses. A toast to mothers  
was given by Miss Jean Vetesk, and the  
response to this was given by Mrs. C.  
E. Strain. Miss Dalma Fry gave a  
reading "O Mother of Mine." Mrs.  
Harvey Cash gave an address on  
"What It Means to Have a Daughter."  
The last number on the program was  
an original poem, "What I Think of  
My Mother" by Miss Ruth Jennings.

All of the mothers seemed to have  
a very enjoyable time, and feel that  
they have been rewarded for all of  
their work. The Domestic Science  
Girls should be praised for their splen-  
did work for this year.—By a Mother.

### WOMAN'S BOOK CLUB

The Woman's Book Club extends an  
invitation to women of the town to at-  
tend the lecture to be given to the Club  
by Rev. Gordon Lang on "Promot-  
ing International Good Will." The  
lecture will be given Wednesday after-  
noon, May 14, at three o'clock at the  
club room.

The study for the Club this year has  
been "American Government," with  
this lecture the Club is closing a very  
successful and interesting year's work.

It is urgent that all members of the  
Club be present and remain for the  
business meeting which will be held  
following the lecture; as the study  
course for the coming year is to be  
selected at this time. A report will be  
given by the delegates who are attend-  
ing the District Federation meeting in  
Lubbock.

**ANTLER-ELAPHEIAN BANQUET.**

The annual banquet of the Antler-Elapheian Societies will be held at Cousins Hall Thursday night at 8:00 o'clock.

B. F. Fronabarger Jr. is toastmaster, and talks will be made by Irby Caruth, Miss Walta Thomas, D. A. Shirley, Jerry Malin, Miss Margaret Lowdnes, Miss Tip Bradford, Ed Gerald and Dan Sanders.

**Campbell Notes**

The singers of this community met last Sunday at the Campbell School House and organized a large class. A bountiful dinner was spread at noon, which all enjoyed. In the evening quite a number met and sang at the A. N. Burgan home.

T. A. Dowlen and family along with his mother, Mrs. J. A. Dowlen, went to Conway Tuesday to visit Trow Dowlen. Mrs. J. A. Dowlen remained for a short visit.

A family reunion met at Dave Covington's Monday and had a big dinner. Those present were Fowler Foster and family, Mrs. M. J. Bellamy and children of Medicine Man, Texas, Joe and D. E. Covington and their families.

Miss Mary Campbell from California, a sister of R. A. Campbell, is visiting G. R. Stratton and family this week.

Mrs. Olin Ault and girls, Elizabeth and Marjorie, of Long Beach, Cal., are visiting their mother, Mrs. Gus Thomas.

Rev. B. F. Fronabarger preached a fine sermon at the Campbell school house Sunday morning. Also a good talk in the evening.

E. Thomas went to Amarillo on business Wednesday morning.

Miss Godie Gibson was a guest at the Burgan home Sunday.

Mr. Bailey from the southwest part of the county was in the neighborhood this week getting members for the Cotton Growers' Alliance.

**SOCIETIES TO DEBATE.**

The Antler-Cousins annual debate will be held at the auditorium Saturday night at 8:00 o'clock.

Both of the Societies have held try-outs, but neither has given the names of the men who will represent the societies in the debate Saturday night. The annual debate of these societies is one of the most hotly contested affairs of the year.

**Happy Happenings**

Mrs. C. M. Dowlen and Hazle Brown returned Wednesday from Vernon where they attended the Woman's Missionary Conference.

Mr. and Mrs. W. L. Laroe and daughter Hallie, of Tulla, Mr. and Mrs. H. T. Laroe, and Mr. and Mrs. Emitt Laroe and children of near Tulla spent Sunday with Mrs. Ethel Wesley.

Mrs. F. C. Scott and Miss Eva McManigal were Tulla callers Saturday.

Mr. and Mrs. E. E. Robinson and children came in Friday afternoon from Bryan, Texas, to make their home here. Mr. Robinson and family formerly lived here, having moved away, about a year ago.

A play and a pie supper was given at the school auditorium by the Home Economics classes.

Mrs. Bill Patching and little daughter, Dorothy Joe, of Vigo Park, spent Saturday in the W. H. Brown home.

Mr. and Mrs. E. N. Zachry and children visited with relatives in Plainview Sunday.

Mrs. W. H. Brown and daughter, Florence, and Mrs. J. A. White spent Wednesday in the W. C. Lindsey home.

Miss Pauline Grounds spent Saturday night with her brother and wife Mr. and Mrs. H. A. Grounds.

Miss Alice Cochran left Tuesday for her home in Denver, Colorado, after visiting the past few months with her sister, Mrs. D. H. Bryanoff of this place.

Mrs. J. O. Bradenbaugh is quite ill at this writing. She has been in bad health for some time.

Mrs. E. M. Zachry was in Canyon Saturday having dental work done.

Misses Ruth Dison, Gladys and Ince Bandy, Arnel Townsend and Elsie Bandy and Messrs. Ural Barnard and Vincent Shuman were in Canyon Sunday.

Miss Irene Wren of the Wayland College of Plainview spent the week end in the J. H. Wrenn home here.

A Tramp Social was given Friday evening at the Methodist parsonage by the young folks of the M. E. Church. The evening was spent in tramping over town and telling tramp tales. At a late hour refreshments of sandwiches, pickles, and cake which were gathered from different homes during the tramp were served to about fifty young people.

**Prairie Furnishes Newspaper Work To Number of Studes**

The Prairie has given journalistic training to a large number of students during the five years of its existence, and several of these students have thus been trained for further work in the field of journalism.

Mody C. Boatright, editor of The Prairie during the years 1920-'21 and 1921-'22 is at present teaching Journalism and English and acting as faculty advisor of The Skyline at Sul Ross State Teachers College. Boatright received his B. A. from this institution in 1922 and his M. A. from the University of Texas in 1923.

John L. McCarty, formerly of The Prairie staff, is sports editor of the Amarillo Daily Globe. He was formerly sports editor of the Amarillo Daily News.

Miss Ollie Sone, 1921 graduate, is editor of the newly established Wilson Orphan, the first issue of which appeared last week.

Frank P. Hill, present editor of The Prairie, who receives the B. A. degree from the Teachers College this spring expects to become connected with some good paper in the near future. Hill has been editor-in-chief of the paper two years, business manager two years, reporter one year and president of the Press Club.

Olin E. Hinkle, the present managing editor of The Prairie becomes editor-in-chief of the publication at the beginning of the Summer Session. Besides being managing editor of the newspaper, he has served as business manager, sports editor, reporter, and president of the Press Club.

Raymond Thompson, circulation manager of The Prairie, will work for the Vega Sentinel during the coming summer.

Deskins Wells, who is now attending the University of Texas, is a member of the Daily Texan staff and a student in the School of Journalism.

Several other members of the staff of the College newspaper expect to become members of the "fourth estate" after graduation from college.

The metric system is undoubtedly the best method of weighing and measuring but the present time is not propitious for urging the United States to adopt it. One of the provisions of the Briton-Ladd bill, recently introduced in Congress, is that after ten years merchandise shall be bought and sold in metric units. In present circumstances farmers, who are among the largest users of scales, will not calmly consider having to juggle them even ten years from now.

**Deeds Filed This Week Transferring Randall County Land**

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office.

J. T. Burnett to C. R. Burrow, lot 1 and east 1/2 lot 2, block 68, Canyon City. Consideration \$300.

W. U. Nunn to P. J. Neff, north half section 148, block M-9. Consideration \$10.00.

Elizabeth Bloom et al to W. D. Smith, 1-3 interest in various lots in Canyon City. Consideration \$400.

First National Bank, Canyon, to T. H. Rowan, section 48, block M-8. Consideration \$9,000.

Harvey Cash to C. N. Plaster, lots 14 and 15, block 40, Canyon City. Consideration, \$14,500.

**WILL FINISH BRICK WORK ON NEW METHODIST CHURCH**

The brick work on the new Methodist church building will be completed during this week if the weather continues favorable.

The brick crew has had good weather for work most of the time during the past ten days, excepting Tuesday morning when the high wind kept the men from work.

It is hoped to get the roof ready for the tile contractors during the next ten days. The tile has been received and a separate contract left for this job.

**AGRICULTURE DIRECTORS PAY VISIT TO THE COLLEGE**

Professor C. L. Davis of Austin and Mr. Maltby, representing the Federal Vocational Board of the Southern States, spent Tuesday at the Teachers College in conference with President Hill and members of the Agriculture Department in making plans for future vocational agricultural education in West Texas.

Mr. Maltby proposes plans which if carried out will offer opportunities for several students to pay a part of their expenses while in school by doing co-operative project work. This work will be done in connection with the college dairy, the Baby Beef clubs, and pig clubs and such other work that is a part of the activities of the college farm.

**MINSTREL SATURDAY.**

A real nigger minstrel, one of the biggest in the world, will be in Canyon Saturday to show for the evening performance only.

A band concert will be given at noon by the big band.

**MOORE BUYS HOME.**

T. M. Moore has bought the house on Sixth Avenue being erected by the manual training boys of the College under the direction of Bob Donald, teacher in this department.

An Italian Railway is experimenting with what is called a "thermo-aero locomotive." An oil-burning, internal-combustion engine of the Diesel type produces both hot compressed air and steam, which is so utilized as to retain all the advantages of a steam locomotive and to add others. The locomotive can be stopped without stopping the engine and has a great reserve of power for up-grades. There is no smoke, no soot, no ashes. The inventor hopes to reduce the cost of hauling on Italian railways seventy per cent.

The forecast of this year's sugar crop is twenty-one million six hundred thousand short tons, which is more than a million tons greater than last year's and more than half a million tons greater than the crop of the previous great sugar year, 1913-1914. Ten years ago nearly half the sugar was beet sugar made in Europe, but this year cane sugar will supply approximately seventy per cent of the crop.

**Boils**

THERE is a reason for everything that happens. Common-sense kills misery. Common-sense also stops boils! S. S. S. is the common-sense remedy for boils, because it is built on reason. Scientific authorities admit its power! S. S. S. builds blood-power, it builds red blood-cells. That is what makes fighting-blood. Fighting-blood destroys impurities. It fights boils. It fights pimples! It fights skin eruptions! It always wins! Mr. V. D. Schaff, 557 15th street, Washington, D. C., writes: "I tried for years to get relief from a bad case of boils. Everything failed until I took S.S.S. I am now absolutely cured, and it was S.S.S. that did it."

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

Herm and McClure were defeated in the T. I. A. A. tennis tournament at Sherman last week by Trinity University of Waxahachie.

Prof. O. W. Willets accompanied the boys, and stated they were not in their usual good form in the game.

This was the first defeat of the College players this season.

**COUNTY VALUATIONS \$6,000,000.**

Tax Assessor Tom Reddell is completing the renditions this week and will have the blanks ready for the commissioners court next Monday. The valuations this year will run about \$6,000,000.00, according to Mr. Reddell, which is about a half a million more than last year.

**SCHOOL TO HAVE CARNIVAL.**

The Plains Center School, east of Happy, will hold a Carnival May 17th. There will be a nigger minstrel. Proceeds go to paint the school house.

The public is cordially invited to attend this carnival.

SATTERWHITE PRAISES MUSIC FESTIVAL OF THE COLLEGE

Panhandle Herald: Two great musical events have just recently taken place in the Panhandle, the Spring Music Festival at the West Texas State Teachers College at Canyon and the Panhandle Music Festival at Amarillo. The College program was under the direction and leadership of Prof. Wallace R. Clark, who is making a wonderful record for the College at Canyon, and has one of the best organized departments of music of any college in Texas. The rendition of "Elijah," in which nearly one hundred people had a part, under the direction of Prof. Clark, was one of the finest musical fetes it has ever been our pleasure to attend. The Amarillo program was under the management of Prof. Emil F. Myers, President of the Amarillo College of Music, and too much praise cannot be given him for the splendid program, throughout the entire week's festival. He brought to Amarillo two of the world's greatest singers, Gallucci and Schipa. Besides these world celebrities the program included some of the Panhandle's choicest musical talent. It was a great victory for the music lovers of the Panhandle and the thanks of every one is due Prof. Myers. Already the music lovers, and that includes most of us, of the Panhandle country are looking forward to next year's programs with anticipations of delightful joy.

Students of College Come From All the Walks of Life

Students of the Teachers College represents a parentage in which are found a great variety of vocations. Three hundred thirty-one are children of farmers, thirty nine of stock-farmers, of physicians there are thirteen, and of teachers fifty-three, while the ministers of Texas have sent seven of their children to this college, forty-nine students come from homes of merchants, twenty-four from those of real estate agents, six parents are editors of newspapers, three are florists and eleven are day laborers. The remainder of the nine hundred students enrolled represent a large variety of occupations including blacksmiths, garage men, dairymen, surveyors, civil engineers, telegraphers.

A large percent of these students are being offered much better educational opportunities than their parents were given. The fact that so many are children of farmers is no surprise for Texas is still primarily an agricultural state and farmers have always been ambitious to give their boys and girls the best possible educational opportunities.

BOOK STORE HAS RECEIVED PENNANTS OF SECOND TYPE

Manager Lee Johnson of the College Book Store has received a shipment of design two of the official pennants. This pennant is somewhat elaborate in lettering and design. The letters, W. T. S. T. C. are white and are placed on a background of maroon. A wreath set in a star appears as the distinguishing feature of the pennant. Across the star is fixed a narrow design of the college administration building. This design is burned into a white strip of leather and is very distinct in outline.

Pennants of the buffalo design were well received by the students, and Mr. Johnson states that the new pennant is also meeting with general approval. Arm bands have been ordered by the Book Store and will be placed on sale within a short time.

ALL AT SEA

A girl at a public library inquired if "The Red Boat" was in.

"I don't think we have the book," she was told.

"Oh, excuse me," said the girl. "I made a mistake. The title is 'The Scarlet Launch.'"

After a search the library assistant reported that no book with that title was listed in the card catalog.

"But I am sure you have the book," the girl insisted. Suddenly she opened her handbag and produced a slip of paper on which something was written. Then she blushed. "Oh, I beg your pardon," she said. "It's 'The Ruby Yacht,' by a man named Omar, I want."—Boston Transcript.

POOR HENRY

"Henry Ford's got Muscle Shoals," shouted a newsboy as he wriggled his way through the aisle of a crowded Canal Belt car Monday afternoon.

"What's Muscle Shoals," asked one girl of another.

"I ain't sure," replied the other, "but I believe it's something like rheumatism. It's no wonder—that fellow Ford works too hard."—New Orleans Item.

**How to Avoid Grade Crossing Accidents**

Automobile drivers, when approaching railroad crossings, should go into second speed. Then look and listen. Absolute control thus is assured. Stop or go ahead, as conditions warrant.

During 1923 one hundred and three persons were killed and four hundred seventy-four injured at highway crossings on the Santa Fe Railway.

These regrettable accidents might have been avoided if these motorists had been careful.

The rapid increase in these grade-crossing accidents is due to the greatly increased and general use of the automobile in the hands of drivers ignorant or willfully disregardful of the perils which attend careless driving. Sometimes it is the careless driver alone who pays the penalty, but usually innocent ones pay it in part or entirely.

Automobiles should be safer at railroad crossings than horses, because they are urged to give this "Safety First" suggestion most earnest consideration. Better be safe than sorry.

do not become frightened and are better controlled; but the opposite seems to be the case. An experienced driver of horses describes the proper method of approaching a railroad crossing as follows: "Gather up the reins tight, take out the whip, and bring the horses to a walk." An experienced automobilist advises: "Always go into second speed."

The method is precisely the same in either case. The driver has absolute control, can stop or go ahead as conditions demand, and is alert to the situation.

If all drivers would but adopt this simple rule and adhere to it faithfully the problem would be solved. What a saving there would be of priceless human life, of grief untold, ambitions wrecked, and hopes lost forever!

### Well Known Men Are Secured to Handle Institute

R. P. Jarrett, Head of the Department of Education of the Teachers College, has recently sent a letter to a large number of county superintendents in the Panhandle inviting their counties to join in the Panhandle-Plains Teachers Institute which will be held in Canyon the first week of September. Mr. Jarrett, who is general director of this institute has announced that R. B. Cousins of Houston, will have charge of the high school section. Mr. Cousins is a former president of the Teachers College at Canyon. Dr. S. C. Garrison of Peabody College of Nashville will have charge of the intermediate grade section. Dr. Garrison is well known in Texas. Miss Laura V. Hammer, County Superintendent of Potter County will be in charge of the meetings for county superintendents and will assist in the work for rural teachers. Miss Lipscomb of Dallas and Miss Anna I. Hibbetts of the West Texas State Teachers College will conduct the work for elementary teachers.

Professor S. C. Wilson of the Teachers College at Huntsville will direct the vocational section. Mr. Jarrett is at present making arrangements to secure a nationally known leader in rural education to have charge of this phase of the work. Dr. David H. Munson,

L. F. Sheffy, Edna Graham, Dorathula Walker of the West Texas State Teachers College faculty will do departmental work in English, history, mathematics, and geography, respectively.

### AGRICULTURE WILL BE STRESSED AT INSTITUTE

According to arrangements which have been perfected by Professor Phillips, head of the agricultural department of the College, and who is in charge of the vocational division of the Teachers' Consolidated Institute which is to be held at Canyon next fall, there will be special attention given to agricultural education at this meeting.

Mr. C. L. Davis, supervisor of agricultural education for the State Department of Education, spent Tuesday at the College perfecting plans whereby the agricultural division will be consolidated with a regional institutional school for the department. Mr. Davis assured Mr. Phillips that the state department would not only have a man here, but that he would also have one or two men present from one of the teacher training institutions to discuss with the agricultural teachers the most approved methods of carrying out their work. Special attention will be given to shop work and projects.

According to Mr. Phillips, there is considerable interest being manifested among the school people at the present time in regard to technical education.

### CHILD HYGIENE EXPERT HERE

Mrs. Lawrence Ledbetter, Head of the Bureau of Child Welfare of the State Department of Health, was a guest of Miss M. Moss Richardson of this city the early part of last week. Mrs. Ledbetter has served the longest continuous term of any member of the State Department of Health.

The largest bridge in the world will be built over the estuary of the River Elorn in France to connect Brest with Plogastel. It will be six miles long and made up of two approaches, one-third of a mile long, and four spans of one and one-third miles each.

### Many States and Counties Represented in the College

D. A. Shirley, Registrar of the College, has recently worked out some statistics regarding the residence of students of the college. Six states other than Texas are registered in the enrollment. California has two, Colorado two, Iowa one, Kansas one, New Mexico six, Oklahoma five, and Tennessee one.

Every section of the state of Texas has its representative in the Teachers College. Randall County leads with 244 students, Floyd has 51, Potter 35, Lubbock 25, Swisher, 27, Briscoe 14, Carson 15, Collingsworth 11, Hale 30, Hall 14, Lipscomb 10, San Saba 11, Scurry 18, Dallam in the extreme north, west has 4, Bell two, while Grimes has one. These counties give some idea of the wide distribution of the product of the Canyon Teachers College. During the summer term a large number of students from Southwestern Texas are enrolled in the college as well as many from adjoining states.

### HISTORICAL SOCIETY GIVEN TWO INTERESTING GIFTS

The Panhandle-Plains Historical Society has received two noteworthy gifts. D. T. Tarleton, a member of the class of 1922, of the West Texas State Teachers College, has presented the society a copy of his Master's thesis entitled "The History of Cotton in Texas from 1820 to 1850." Miss Leta Landrum presented the Society a cap and ball pistol which has been in her family for a long period of years. These articles will be placed in the museum of the Historical Society.

The Netherlands back of the sea is not a flat land of dikes and ditches, as many believe, but a wooded, rolling country, abounding in old castles reminiscent of robber barons and heroes of historic days.

### College Band Ap- pears in Concert at Friona School

Thirty-five pieces of the College's forty-piece band appeared in a mixed program of classical and popular selections at Friona, Texas, last Saturday evening. The band was assisted by Miss Vernita Stewart, of the Department of Public Speaking, reader, and Mr. Herschel Coffee, violinist.

According to reports received here all of the numbers of the band were excellently received. Miss Stewart and Mr. Coffee were heartily encored and forced to return to the stage several times. Three of the Friona School buses conveyed the members of the band to that town.

On the way to Friona the band stopped a short time in Hereford where it gave a free concert on the streets.

### Amarillo Trade Trip to be Joined by College Band Monday Morning

The special train carrying Amarillo boosters to the West Texas Chamber of Commerce convention at Brownwood will arrive in Canyon next Monday morning at 7:25 o'clock, and will leave one hour later, headed south. They will be joined here by the West Texas State Teachers College Band and Canyon's delegation to Brownwood.

Amarillo folks realize that their visit with their next door neighbor and friend is to be made at a rather early hour, but they can't help it. They would if they could, because a 7 a. m. departure from Amarillo means the party will be short some breakfasts. These existing vacancies probably will be ministered to by Canyon's eat shops, but not before the parade from the depot to the business district. Following that, there will be a period of visiting, after which the journey south will be resumed.

Happy will be the next stop, from 8:50 to 9:20, after which the various towns further south are visited. Lunch will be had at Plainview, where three hours will be spent, and the party will remain in Lubbock from 5:00 to 11:30 p. m., following which a night run will be made into Brownwood.

Amarillo folks are manifesting keen interest in the trip, and every effort will be made to bring this gigantic jollification to the Panhandle in 1925. In this it is asking the co-operation of its sister cities, both as to sending delegates and active electioneering.

### CHAMBER MUSIC PROGRAM.

The string quartet of the College gave a delightful program at Cousins Hall Monday night at 8:00 o'clock, assisted by Miss Ada V. Clark, soprano.

The members of the quartet are: Miss Mary L. Clark, first violin, Herschel Coffee, second violin, Miss Annel Guenther, first Miss Gladys Beavers, violin cello.

### DE MOLEY TEAM SATURDAY.

The De Moley degree team from Amarillo will put on work in Canyon Saturday night.

The De Moley is sub-work of Masonary. It is for boys from 16 to 21 years of age. It takes fifty members to form a chapter. There are now twenty-five members in Canyon, and it is hoped to increase this number so as to start a chapter here soon.

### MOTHERS' DAY SERVICE.

The churches of Canyon will unite in the Mothers' Day service at the College auditorium Sunday morning at eleven o'clock. Rev. G. W. Shearer of Amarillo will preach the sermon.

A large number of out-of-town guests are expected to attend this service.

### HIGHWAYS BEING MARKED.

The State Highway Department has placed markers along the tow highways in Randall county, showing the number of the highway, the distance and direction to different towns.

### ASKS FOR SURVEY COMMITTEE.

Nothing has been heard at the College from the survey committee which was supposed to have visited here by the middle of April. President J. A. Hill has asked for information as to when this committee will show up.

Post No. 97, The American Legion, desires to express a word of thanks through this medium to every member of the cast who assisted with the American Legion Minstrel last week; also to everyone who helped, in any way, to make the show a success.

We feel especially indebted to Mr. R. A. Terrill and to other College and High School faculty members and students whose assistance was very necessary in making our show as successful as it was.

With deepest regret, we call attention to the fact that one of the best numbers in our program, the Ladies Quartet, was omitted through error.

### HELP FOR THE OLD FOLKS Old Age Should Be Happy—Not a Time of Sickness and Suffering.

Too many people begin to suffer at middle age with constant backache, urinary ills and rheumatic pains and aches. Weak kidneys are usually the cause and, if neglected, there is danger of hardened arteries, dropsy, gravel or Bright's disease. Help your weakened kidneys with a stimulant diuretic before kidney disease gets a firm hold! Use Doan's Pills. Thousands of old folks recommend Doan's.

Here is Canyon proof:

T. F. Robeson, ret'd. minister, 1906 3rd Ave., says: "Nights, my rest was disturbed as I had to get up so many times to pass off the kidney secretions. My back was sore and stiff and the pains were so sharp and cutting, I couldn't stoop. Mornings I had dizzy spells and little spots blurred my sight. I began using Doan's Pills and in a short time, they rid me of this trouble."

### Chinaberries Said to be Killing Fish Along the Palo Duro in County

Are the wild Chinaberries along the Palo Duro killing the fish? C. G. Aten believes this to be the case. C. G. Aten believes this to be the case, and wants to declare war on the Chinaberry trees.

Mr. Aten says that a few years ago every hole along the Palo Duro was full of fish. Now the only fish to be found are near the dams. Mr. Aten says that he has carefully gone along the Palo Duro for miles, looking for fish and all of the holes along the creek are devoid of fish.

The Chinaberry is used to intoxicate fish, especially winnows which are caught for bait, and within a short time after the fish eats the Chinaberry it dies. It is against the law to feed this berry to fish, and the criminal statute proscribes a severe punishment.

Mr. Aten says that he has found a number of Chinaberry trees along the banks of the creeks. The berries hang over the water, and every berry that falls gets into the water. He says that these berries will also kill birds. He is of the opinion that all person interested in fishing should take a little time and kill out the Chinaberry trees along the creeks.

### REID ADDRESSES CLASS

J. W. Reid, Supt. of the Sunday School of the Presbyterian church will address the Legion Hall Bible class next Sunday in the absence of the teacher, Rev. Lynn Claybrook. All who read this announcement are requested to speak of it to their friends that all young men may know of this treat in store for them. What a joy it is to the teacher of this class to have this consecrated Christian layman step into his place and address this fine group of young business men. The entire membership of the class will be proud of this opportunity to hear Supt. Reid at 9:45 a. m. next Sunday, Legion Hall Assembly Room.

### COTTON SEED!

The following seed raised on the Plains of Texas were taken from crops carefully selected for variety and kept separate. They are from white open picked cotton, gathered before the heavy rains, have been machine culled and government tested.

Their germination is high and owing to the fact that they have been raised on the Plains they will produce cotton that will mature two weeks ahead of seed imported from points off the Plains:

Acala in 3 bu. bags.....\$1.50 bu.  
Mebane in 3 bu. bags.....\$1.50 bu.

Send us your order and we will pay freight or truck drayage to Canyon and see that you get quick service.

### SHERIFF'S SALE

THE STATE OF TEXAS, County of Randall.

By virtue of an Order of Sale issued out of the Honorable District Court of Randall County, on the 8th day of May, 1924, by Ethel Woods, clerk of said Court against D. T. Wren, and the unknown heirs of M. Wren, deceased, their heirs and legal representatives for the sum of Three hundred one and 80/100 (\$301.86) Dollars and costs of suit, in cause No. 993 in said Court, styled The Panhandle Construction Company, a copartnership composed of John Dalrymple and Homer D. Grant versus D. T. Wren, and the unknown heirs of M. Wren deceased, their heirs and legal representatives and placed in my hands for service, I, W. C. Black as Sheriff of Randall County, Texas, did, on the 8th day of May, 1924, levy on certain Real Estate, situated in Randall County, described as follows, to-wit:

All of Lot No. One (1) in Block No. Fifty (50) in the original town of Canyon City, Randall County, Texas, and levied upon as the property of

said D. T. Wren, and the unknown heirs of M. Wren, deceased, their heirs and legal representatives, and on Tuesday, the 3rd day of June, 1924, at the Court House door of Randall County, in the city of Canyon, Texas, between the hours of ten A. M. and four P. M., I will sell said land, at public vendue, for cash, to the highest bidder, as the property of said D. T. Wren, and the unknown heirs of M. Wren, deceased, their heirs and legal representatives by virtue of said levy and said order of sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Randall County News, a newspaper published in Randall County.

Witness my hand, this 8th day of May, 1924.

W. C. BLACK, Sheriff, Randall County, Texas. 613

### THE STATE OF TEXAS

To the Sheriff or any Constable of Randall County—Greeting:

You are hereby commanded to cause to be published once a week for a period of twenty days before the return day hereof in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year in Randall County, a copy of the following notice:

To all Persons interested in the Welfare of Freda Menke, a Minor:

C. R. Flesher, has filed in the County court of Randall County, Texas, his resignation as guardian of the person and estate of his said ward, Freda Menke, together with his annual account in said guardianship, which will be heard at the next regular term of said court commencing on the first Monday in July, A. D. 1924, the same being the 7th day of July, A. D. 1924, at the court house thereof in Canyon, Texas, at which time all persons interested in same may appear and contest same should they desire to do so.

Herein fail not, but have you before said court on said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court at office in Canyon, Texas, this 28th day of April, A. D. 1924.

(Seal) ETHEL WOODS, Clerk of the County Court of Randall County, Texas. 513

Mile run: 5 minutes and four-fifths seconds, Galloway, Clarendon; Evans, N. M. M. I.; Ross, Pan. A. & M.; Butler, W. T. S. T. C.

220 yard low hurdles: 28 and one-fifth seconds, Cox, N. M. M. I.; D. Hill, W. T. S. T. C.; Herrington, N. M. M. I.

Five teams participated in the tennis tourney held here in conjunction with the Great Plains Intercollegiate Track Meet, Montezuma, Roswell, Canyon, Clarendon and Wayland. Post of Roswell won the singles in a hard fought series with Shooke of Wayland, these two men having eliminated all other contenders. Post showed his superiority by losing the first two sets, and then by his stamina coming back and winning the next three straight.

In the doubles, Herm and McClure of Canyon were decidedly superior. Herm was the outstanding player of the field; his fiend-like playing at the net not only brought cheers from the spectators, but it pulled him and his mate out of many holes. Canyon won in the finals from Wayland College three sets straight. McClure made many brilliant base-tape returns, and is to be complimented for his coolness at all times.

In the singles, Post played a consistent driving game at all times; he was especially strong on serving. All contestants complained of the cold weather, which indeed was cold—sleet fell during part of the matches. Clean sportsmanship was manifest in all matches, and the winners were acknowledged by all as being the best.

**THREE-LEGGED CHICKEN.**

W. L. Decke brought to the News office Friday a three-legged chicken which had been hatched and lived for two days. The chicken seemed to be getting along alright until smashed by the hen.

**MANY ATTEND LECTURE.**

A lecture on Christian Science was given Sunday afternoon at three o'clock at the American Legion Hall by Ezra W. Palmer, C. S. B., of Denver. The auditorium of the Hall was completely filled with an interested audience.

A large number of visitors from Amarillo, Hereford and other surrounding towns were here for the lecture.

**Elapheians Give Peppy Program**

"Memories of Youth," a burlesque commencement, presented by the Elapheians Friday morning was exceedingly interesting. A unique feature was the touching and elevating address of Anadel Guenther characterizing Dr. Spofusup of the First Methodist Church of Umbarger. Viva Barfield rendered a "so low" entitled "I Love You Truly," and Winnie Mae Crawford by means of the class prophecy gave her "classmates," the "faculty," and the audience something to think about. "Hel" White Moore read a prize winning essay on "Spring," and Tip Bradford, the class poet, gave a few poems which well demonstrated her ability to write verse.

At the conclusion of the program the entertainers sedately swept off the stage to the Antler-Elapheian orchestral strains of "She Wouldn't Do What I Asked Her To."

**Geo. Ritchie Helps Set World Record**

George Ritchie, ex-student of this institution, was a member of the Texas University Longhorn relay team which set a new world's intercollegiate record for the Medley Relay at the annual meet at Lawrence, Kansas, last week.

Ritchie received his diploma from this institution in 1920, and is at present a student in the Law School of the University of Texas. He is a nephew of Miss Jennie C. Ritchie, Dean of the Normal High School.

Other members of the Longhorn relay team were Hackler, Reece, and McNatt. This was the second year in succession that the team has won first in this event.

Of the ten cents paid for a loaf of bread, on the average, six cents goes to the baker, one and four-one-hundredths cents goes to the retailer, nine-tenths of a cent is given to those who haul the wheat to the mill and the flour from the mill to the baker. The elevator gets not quite one-tenth of a cent and the miller gets slightly more than half a cent. Producers of the wheat, the yeast, the salt and other ingredients get a little less than one and a half cents. The bulk of this cent and a half goes to the wheat farmer.

## PEOPLE OF UNITED STATES BECOMING GYPSY RACE SEARCHING FOR THE BEST

Big projects, like the Panama Canal, the Hoosac tunnel, the Woolworth building and the Kalamath bridge were built with the idea of permanence, but in the main the folks of today are too busy creating new ideas, processes and devices to take much time and thought of permanence and stability.

Think of the changes in your own life and experience. How many different towns have you lived in? How many times have you moved from one house to another? How many miles have you traveled since your birth?

Most of us find that, as the years slip by, we travel more, move oftener and change jobs more frequently.

One day the days when our forefathers in the father's footsteps generation after generation, generally the same kind of work as the parent and grandparent performed.

At first blush there are many indications that we are becoming a race of Gypsies—rovers. Perhaps the natural result of better transportation facilities, especially the auto has something to do with it. Perhaps the automobile has come only as a boon to the people as a way of satisfying an inherent longing for something better they have never been able to quench.

Twenty years ago, a man or woman taking a trip of 1,000 miles was the talk of the town. Today one attracts more attention if he doesn't take an occasional long trip than if he does. People move from house to house, city to city, job to job, farm to farm.

Covered wagon days are returning—nearly every one a pioneer, yearning to be somewhere else, doing something different.

One symptom of our Gypsy tendency is the increasing custom of not building for permanence. Houses used to be built to last forever, if possible. Now they're thrown together. Owners don't care. Most of them expect to move in a few years.

Same with auto ownership—when he buys, already is looking ahead to the day when he will "trade in the old car on a new one."

E. W. Forbes, head of Fogg Art Museum of Harvard warns that the paintings of some of our modern artists may not last more than fifty years, because of the use of inferior canvases or paints. Excellent materials are on the market for the artist, but often he is careless in buying and using. Bad paint, improperly varnished, may fade to a blur instead of lasting centuries like the masterpieces of the old-time painters.

All this is typical of our generations attitude: "Today's the thing. Let tomorrow take care of itself."

Two definite reasons why we are becoming Gypsy rovers and do not build for permanence. First, we realize more than ever before that life is merely a journey, a training school or gymnasium for self-improvement.

We view life as a Pullman car—and are quite willing to leave peanut hulls or banana peels behind us.

It is somewhat strange, however, but never-the-less true, that when the autos, the covered wagons and the Pullmans get to West Texas, they invariably stop. Their Gypsy occupants seem ready to sit down and stay. They have found that which they were looking for. The country is good, the soil rich, the climate delightful, the water pure, the sunshine bright—here all the blessings of nature seem bunched together for the benefit of the rovers. They recognize that at once.

For after all, this is just what they have been looking for all of their lives. Here the Gypsy trail comes to an end. The rovers cease to rove. They settle down and become permanent. With no further reason to journey onward or elsewhere—they are content.

The geophone, a small seismograph-like instrument, is so sensitive that in the quiet of a mine, sledge-pounding has been heard through about 3,000 feet of solid rock. Talking has been detected through a fifty-foot coal pillar.

Senator Curtis of Kansas, it is said, had the Senate all to himself recently. When the gavel fell, calling the Senate to order, he was the only member on the floor, all the others being away, many of them attending investigating committees as witnesses or onlookers. It was fifteen minutes, according to reports, before enough Senators could be called together to form a quorum.

Huston Thompson, member of the Federal Trade Commission, in a recent address, suggested measures for coping with what he described as the increasing "machinations of lobbyists in Washington," including their compulsory registration with a government agency.

Many Icelanders have never seen a train nor a trolley car, a drama nor a masterpiece of art; nor have they ever seen a tree; only saplings in some very sheltered nook. They have no gardens, fruit or grapevines.

A false alarm in New York costs the Fire Department \$300. One in Washington costs only so many innocent reputations.—New York Herald Tribune.

## ADVERTISING SIGNS TO GO FROM ROADS

That the advertising sign at the side of the road may prove a detriment to the thing advertised instead of promoting sales, is being more and more recognized by large users of bill-board space. It is being brought home to advertisers that road users hotly resent the blatant sign covering up a beautiful vista or profaning a lovely landscape.

Co-operation in sign removal has had unexpected impetus from the Standard Oil Co. on the Pacific Coast, which has decided to eliminate certain objectionable signs from the highways.

"Convinced that highway advertising signs detract from the natural beauty of the great routes of travel of the Pacific Coast," says an official of Standard Oil, "this company has decided that it will erect no more such signs and that it will immediately remove all of its signs of this nature now standing. Hereafter the company will confine the use of signs to commercial locations. This company was among the first of the oil concerns to engage in this form of advertising and is now glad to be the first to discontinue it."

Nearly 1,200 large, round permanent signs in California, Oregon, Washington, Nevada, and Arizona are consigned to the ax by a general order.

Ute Pass, near Colorado Springs, has for long been defaced with a large number of signs. Recently the Colorado Automotive Club, which is deeply interested in the work of beautifying highways, removed more than one thousand signs from the pass. At the same time the club ordered ten thousand trees to be planted in nurseries and later used to embellish the roads leading to Colorado Springs.

Among the many large bill-board users in the East who have declared their intention to aid in the beautifying of highways by the elimination of signs, are such well-known persons as Kelly Springfield Tire Co., Pillsbury Flour Mills Co., Washburn-Crosby Co., Champion Spark Plug Co., B. F. Goodrich Rubber Co., Sun Oil Co., Hood Rubber Co., Ajax Rubber Co., Ward Baking Co., Dodge Brothers, Gulf Refining Co., Texas Co., and the Fleischmann Co.

Oliver Wendell Holmes, Associate Justice of the United States Supreme Court and the son of Dr. Oliver Wendell Holmes, the famous poet and essayist, has been awarded the Gold of the Roosevelt Memorial Association for distinguished service in the development of public law.

The statement to the effect that fewer trains are being held up in China by bandits is probably explained by the fact that there are fewer trains running.—Cassell's Saturday Journal (London).

## PROGRAMS FOR COMMENCEMENT ARE COMPLETED

SERMON ON MAY 25 AND COMMENCEMENT, MAY 31.

Dr. Horn to Deliver Commencement Address; Dr. Moroney will Preach Sermon.

Plans are practically complete for the commencement exercises to be held at the end of the regular session, the last week in May. Dr. W. P. Horn, President of the Texas Technological College, which is to be located at Lubbock has been secured to deliver the commencement address. Dr. L. G. Moroney, pastor of the First Baptist Church at Sweetwater, will preach the commencement sermon. Eighteen students will receive either the Bachelor of Arts or the Bachelor of Science Degree.

Not only the Seniors, but all the members of the faculty will be dressed in caps and gowns at this year's commencement programs. The faculty has not in the past appeared in academic dress at the commencement exercises of this school.

Those receiving diplomas from the sub-collegiate division of the college will participate, during the regular commencement week, in a commencement exercise similar to that which is in general staged by the high schools over the state. A speaker will soon be selected to address the class. Diplomas will be presented.

A valedictorian and a salutatorian will be selected from the class soon. Invitations are to be sent by the members of the class to parents and friends.

## Art Class to Paint Pictures of Canyons

The Senior Art Class, which is taking a course in oil painting, is becoming very enthusiastic in the presentation of its beautiful and interesting studies. Peach blossoms, a parrot, pottery and gold fish have been studies of much interest and value to the class. A trip to the canyons has been planned where the beauties of nature may be studied and painted to heart's content.

A man wrapped up in himself has a shabby cloak.

## Wayside Items

After Sunday School, led by Supt. W. C. McGehee, Sunday last, Rev. J. H. Griffin filled his regular appointment. Ma Song and Johnny accompanied him. Taking dinner at the Sluder home, he went to Beverly to preach in the afternoon and back to Iowa Park Sunday night.

An enjoyable singing at D. L. Adams' Sunday afternoon.

Local showers in different parts of the county. A good rain would be of great benefit to the entire community.

M. L. McGehee is indisposed this week.

Caleb Brooks is some better, still unable to work.

We are glad to hear J. H. O'Neal of Tulla is improved in health.

We understand that Mr. and Mrs. R. L. Grigsby, present teachers of Wayside, have secured positions in a consolidated three-teacher school at or near Abernathy. They expect to spend the summer in Oklahoma City with her mother.

Prof. Brown from Red Hill, Mrs. Brown from the Love School and Miss Strawn have been employed at Wayside for the next school session.

W. C. McGehee, wife, Aline and Billy Mc. O. P. Thomas and W. J. Sluder motored to Amarillo Saturday. Mr. Thomas stopped at Canyon. Mr. Sluder will spend some days with his daughter, Mrs. Emma Payne near Amarillo.

D. J. Graham, wife Ida E. and Russell from Happy visited the Sluder home Sunday afternoon.

There was quite a bit of ice Saturday morning and the cold got some of the fruit, but hopes are entertained there were some left.

W. I. Lane, wife, Irvin and Joyce visited with relatives in Canyon Sunday.

B. J. Fairy, wife and mother visited with Mr. John Fairy and family last week, returning Sunday to Plainview with Roy Smith.

Miss Irene Crawford spent the week end with home folks, returning Monday. She is quite indisposed with tonsillitis for several days.

### RUN FREE CAMP GROUND.

Wm. Hale, who is starting a new pleasure park on the Baird place northwest of the city, will run a free camp ground for tourists.

Work is starting this week on the dam and buildings to be erected on the camp ground.

Mr. Hale has a five year lease on the place from Mr. Baird.

## THE PASSING DAY

By Will H. Mayes, Department of Journalism, University of Texas.

The Honey Grove Citizen calls attention to the fact that a recent murder trial cost Fannin county more than \$1,000. If the Citizen will make a closer study of the question it will find that the average cost of murder trials exceeds \$1,000. In the case referred to, doubtless the time of the court officers—district judges, attorney, clerk, sheriff and other court attendants—was not considered, nor was the expense of the grand jury and its officers. While allowance was made for jury and witness fees, the fees paid to jurors and witnesses in no way compensate them for the time given to such trials. It would be nearer correct to say that the average cost of a murder trial in Texas is \$2,000, which is but a small sum when compared with the industrial loss due to the murder. Texas pays too much for murder and too little for schools.

The West Texas Historical Association has been organized for the purpose of preserving the history of that part of the state. Most states consider themselves fortunate in having a state organization for that purpose, but Texas is so large and has so much history that these division associations can serve a most useful purpose. One of the benefits that will come from the proposed Texas Centennial Exposition will be an awakened interest in the history of the State. There is much of historic interest hidden away in attics that the Exposition should be the means of bringing to light.

Jasper county is numerically small and is not considered one of Texas' wealth counties, but that county held a fair last year that made a net profit of 30 per cent, that starts in this year with a nice cash balance, and that will be enlarged in every department. The citizens are showing much interest already in the preparation of exhibits. The county fairs throughout the State are developing a county spirit and pride that are sure to redound to the good of every community where fairs are held.

The Texas Interscholastic League meets throughout the state, culminating in May in the final meet at the University of Texas, are doing much in the development of Texas young

people. The contestants get acquainted with each other in a way that creates permanent friendships, and the various intellectual and athletic contests develop the best that is in youth. I heard several debates last week that would have been creditable to groups of leading lawyers and orators and showed an understanding of governmental questions hardly conceivable in such young students. The astonishing thing in connection with these debates was that the young girls were as well informed on the subject debated as the boys, and were even better in their presentation of points involved. Our grandparents would have thought this impossible.

San Saba has organized a "Seventy and Over" club, composed of those who have reached seventy years of age. That is a good kind of a club provided it does not allow itself to grow too reminiscent. It does not pay to allow the mind to dwell overmuch in the past. While not forgetting the past, we should, as we grow older in years, live joyfully in the present, availing ourselves of the opportunities of the day, and looking hopefully toward better days yet to come. Much retrospection is likely to develop morbid introspection. So far as it is humanly possible the aged should try to keep in touch and sympathy with all that is young about them.

Texas is abloom now, and the whole State looks like a great flower garden. Nature has done wonders in supplying the most gorgeous flowers and in distributing them so that almost every one may get them in great abundance for the gathering. The bluebonnet, the Indian pink, the cactus—multiplied acres of them are vying with dozens of other native plants in the effort to put on the most beautiful display imaginable. Get out in the great open and revel in the pictures painted for you and that may be enjoyed without cost.

## Vocational Agriculture in College Inspected and is Highly Praised

C. L. Davis of Austin, state director of vocational agriculture, and Mr. Malby of Washington, D. C., supervisor of this work in the Southern states were here Tuesday to inspect the work being done in the College in this line, which is in charge of T. M. Moore.

The work was very highly praised by both of these men.

### COMPANY F. AT RANGE.

Company F spent Sunday afternoon at the new range northeast of the city where several hours were spent in drill and in practice with the eight new automatic rifles which have been recently received by the company.

This is the first time that the entire company spent an afternoon in drill.

Captain H. C. Gamble expects that the new range will be fixed up within a short while for the use of the company as well as for the use of the new rifle club.

### Family Will Move to Canyon If Boy Can Get in Company F

Captain H. C. Gamble has received a letter from a young man wanting to join Company F. His parents are thinking of moving from their present home, but seek a location. The boy is sure he wants to move to Canyon so that he can join the National Guard.

The boy has asked Captain Gamble to write to his parents and use his influence to see that they move to Canyon. He feels certain that his parents will move here if Captain Gamble will insure that he will be acceptable in Company F.

The young man stated that he was an able body boy and that he will never miss a drill of the company.

Captain Gamble has written, telling the boy's parents of the advantages offered by Canyon as a good place to live.

### Umbarger Notes

About half an inch of rain fell Thursday. The wind turned to the north Friday, resulting in a light frost Saturday morning.

George Grimm has bought half interest in the Joe Friemel store and will go into the business soon.

The oats and wheat are now looking fine and the ground is in good condition for row crop.

E. J. Friemel made a business trip to Amarillo Monday.

Miss Laura Barand left for Wichita Falls to visit friends and relatives.

The directors meeting of the Farmers Elevator Co. was held at Umbarger Monday.

The frost did not hurt the fruit crop badly. There will still be much fruit if we do not have another frost.

### I. O. F. MEETING.

The district convention of the I. O. F. lodge is being held in Amarillo this week. Among those from Canyon who are attending are: J. C. Dowd, Sam Wiggins, J. M. Flesher, P. R. Tate, A. E. Brown, C. A. Price, I. H. Lipe, Elzie Price, Glen McGahey, W. R. Stockett and W. L. Browning.

### SURVEY COUNTRY SCHOOLS.

Frank R. Phillips and Judge R. L. Lester made a survey of the Kennan and Deek schools this week. Mr. Phillips speaks very highly of the work found, especially in the Keenan school.

### Book Order to London Brings Books to City in 15 Days for Munson

Dr. D. H. Munson, head of the English department of the College, states that he received books this month on the 22nd, which were ordered from here on the 7th, making only 15 days from the time that he mailed the order until the books were in his hands. Dr. Munson states that he has been ordering books for many years and always counted on about five weeks from the time the order was mailed until the books arrived. He states that this record of 15 days is almost unbelievable, and can only be accounted for by a very fortunate chain of circumstances in catching the fastest trains and ships with not a single delay along the way.

### Club Women are Planting Flowers Along the Walks to Court House

The club women of the city have taken in hand the beautification of the court house lawn so far as planting flowers is concerned, and a large amount of work was done this week in making flower beds along the walks leading up to the court house.

Judge R. L. Lester is cooperating with the women in this work of a more beautiful court house lawn.

The lawn has been covered with a fine stand of blue grass for the past several years, but no special effort has been made to raise flowers.

### PROGRAM MONDAY NIGHT

A program of chamber music will be given on Monday, May 5 at 8 o'clock in the Cousins Hall reception room by the College String Quartette: first violin, Miss Mary L. Clark; second violin, Herschel Coffee; viola, Miss Anadel Guenther; violin cello, Miss Gladys Beavers.

Miss Alta V. Clark, soprano will assist.

All people interested in chamber music are cordially invited to be present.

**New Engine is Being Installed**

There has been a new fifty horsepower Fairbanks-Morse engine installed in the College plant. It is a Hot Ball engine, better known as "Type Y," and it cost approximately \$5,500. There was an extension built on the old power house for the purpose of housing this engine; the house is now twenty-two feet wide and thirty feet long and has a capacity very near twice the original capacity.

Benjamin Franklin when he was in England as an agent of the Colonies about 1760 put in trust one hundred pounds to be invested with accumulations for not less than one hundred and fifty years, after which the income was to become available as prizes for the most valuable contributions to the science of curative medicine. He expressed particular interest in the part that surgery, the nervous system and mental treatments play in promoting health, and on that basis the trustees have now made the first awards. One goes to a Japanese, Fusakichi Omori, for a surgical treatise, one posthumously to Dr. Charles P. Steinmetz for his studies of the nervous system as a conductor of electrical energy, and one to Mr. Pierson W. Banning for his work on Mental and Spiritual Healing.

A peace-time barrage is not a screen of bursting shells, but a low dam in a river, intended to raise and to keep water at such a level that some of it will run off through canals and irrigation ditches. The Indus River in India is to have such a barrage at Sukkur. It will be a mile long and will divert water enough to irrigate six million acres of land now barren.

**Plans Announced For Institute Work of Next September**

Last September the teachers of approximately twenty-five counties voted to return to Canyon for institute work from the first to the fifth, inclusive, of next September. Prospects are very good for an unusually profitable meeting at that time.

The following statements will indicate the development of the plan of the meeting:

(1) Superintendent R. B. Cousins of the Houston City Schools will have charge of the High School Section. Mr. Cousins is a former president of the West Texas State Teachers College and is one of the leading school men in America. He will bring messages of fundamental worth to our teachers.

(2) Doctor S. C. Garrison, Professor of Educational Psychology in George Peabody College for Teachers, will have charge of the Intermediate Grade Section. Dr. Garrison is a leader of educational thought at the present time and has visited Texas several times in institute work. We are fortunate in securing his services.

(3) Miss Lipscomb of Dallas and Miss Hibbets of the West Texas State Teachers College will have charge of the work for elementary teachers. They were with us last year, and our teachers know the outstanding quality of the work they will bring to the institute.

(4) We are at present in correspondence with several nationally known leaders in Rural Education and one of them will be secured for this important section of work.

(5) Professor S. C. Wilson of the Sam Houston State Teachers College and former President of the Texas State Teachers Association will have charge of the Vocational Section. It is our purpose to make this section one of the very strong divisions of our work.

(6) Miss Laura Hamner, County Superintendent of Potter County, will have charge of the meetings of county superintendents and will also have part of the work for rural teachers. Miss Hamner is a leader in this important phase of our work.

(7) In addition to the above teachers, the following teachers of the West Texas State Teachers College expect to do departmental work: Dr. Munson, English; Professor Sheffy, history; Miss Edna Graham, mathematics; Miss Walker, geography.

Various members of the institute faculty will deliver lectures to the General Section, and in addition to this other leading educators for general lectures are expected.

**Batik Problems Done by Art Class**

Art 203 has finished a number of very interesting Batik problems in the form of handkerchiefs, pillow tops, and wall hangings.

The material which gives the best results for this work is China silk. The design to be used is first drawn and perfected on paper. It is then traced upon the material. By means of a brush and melted paraffin all parts of the design are covered except the part which is to be colored first. The material is then dipped in the desired color of dye. The space which has been dyed is then covered with paraffin; the cover is removed from other parts of the design and the material is dipped in dye of another color. This process is repeated until the design with all of its varying shade and colors is complete. Some very beautiful patterns are now on exhibit in the main hall.

The Harvard University library received a gift of a rare volume in honor of the ninetieth birthday of Charles W. Eliot, President Emeritus. This book is Heylyn's "Cosmographie Containing the Chorographic and Historie of the Whole World," second edition, printed in London in 1637. John Eliot, apostle to the Indians of Massachusetts, at one time owned the volume and it bears his autograph and marginal notes written by him.

**Child-birth**

HOW thousands of women, by the simple method of an eminent physician, have avoided unnecessary

miseries through many months and up to the moment Baby has arrived, is fully explained in the remarkable book, "Motherhood and the Baby." Tells also what to do before and after baby comes, probable date of birth, baby rules, etc., and about "Mother's Friend," used by three generations of mothers, and sold in all drug stores everywhere. "Mother's Friend" is applied externally, is safe, free from narcotics, permits easier natural readjustment of muscles and nerves during expectancy and child-birth. Start using it today. Mrs. E. B. Kerper, Clayton, Minn., says: "It pulled me through." Send for book today, to Bradford Regulator Co., B. A. 76, Atlanta, Ga. "Mother's Friend" is sold at all good drug stores—everywhere.

**Local Team Wins In Stock Judging Contest at A. & M.**

The stock judging team of the Normal High School has returned from College Station where they took off first place in the state dairy cattle judging contest. The team from this school was composed of George Love, Artie Baldwin, Reagan Sherman, and Harold Shanklin, and was coached by Prof. T. M. Moore, of the Agriculture Department. The boys are highly elated over the handsome loving cup they received.

The team from Lubbock took first place in the animal production contest and Junction took first place in the plant division.

The high teams received a handsome trophy cup and the high individuals each received a scholarship to the A. & M. College.

High teams in judging various classes in animal division each of which won trophy cups were:

Horses, Masonic Home, Corsicana; dairy cattle, Lubbock and Canyon tied; hogs, Hillsboro; beef cattle, John Tarleton College, Stephenville; poultry, Lewisville.

In an extra contest Tuesday afternoon Canyon won the cup on dairy cattle.

High teams in different sections of plant production division, each of which won a trophy cup, were:

Seed identification and grain judging: Farwell; plant propagation, Farwell; cotton classing, Junction.

High individuals in judging animal classes were: Beef cattle, Jack Edwards, Del Rio; hogs, Orval Burroughs, Lubbock; dairy cattle, George Love, Canyon; horses, Melvin Dow, Lubbock.

High individuals in plant division: Cotton classing, Troy Burson, Silverton; J. C. Spears of Goforth and Ira Fleming of Junction tied for first; seed identification and grain judging, J. R. Houston, Granger; plant propagation, William Frisch, Taylor.

The local boys made the trip to College Station in a car and made stops at Childress and Hillsboro where they did practice work in judging. The contest at A. & M. is one of the biggest, if not the biggest, things of its kind to be held in the South this year. Contestants from all the leading schools of Texas took part in the contests.

Prominent conservationists and agricultural officials of Massachusetts have protested to the Du Pont Powder Company against its proposed nationwide cross-shooting contest. They believe that crows should be reduced when they become destructive, but that a nationwide extermination campaign would result in more or less slaughter among nesting game and song birds and add to the fire risk in the forests.

Those cats they are letting out of the bag in Washington seem to be wildcats.

**NOTICE OF SALE**

THE STATE OF TEXAS, County of Randall: In the District Court, Moore County, Texas.

Whereas, by virtue of an order of sale issued out of the District Court of Moore County, Texas, on a judgment rendered in said court on the 29th day of January, 1924, in favor of First State Bank of Dumas, and against C. T. Word and M. R. Word, in cause No. 355 on the docket of said court, I did, on the 10 day of April, 1924, at 8:30 o'clock a. m., levy upon the following described tract of land, to-wit:

The southeast quarter (SE 1/4) of Block 17, of the Heller Addition to the town of Canyon, Randall County, Texas, (situated about 1 mile from the court house in said county).

And, on the 6th day of May, 1924, being the first Tuesday in said month, between the hours of 10 o'clock a. m., and 4 o'clock p. m., on said day, at the court house door of said county, I will offer for sale and sell at public auction, for cash, all of the right, title and interest of the said C. T. Word and M. R. Word in and to said property.

Dated at Canyon, Texas, this 10 day of April, 1924.

W. C. BLACK, Sheriff, Randall County, Texas.

**Cousins-Sesame Banquet Wednesday**

Reading—Delmar Ashworth. To Our Alma Mater—Byrd Mitchell.

The Forest Service points out that a permanent increase in the numbers of the elk in the Northwest, particularly around the Yellowstone, depends only on the character of the winter range. During the last three years the losses of elks in the forests of the Yellowstone have been negligible. The increase in the herds has been large, and a few more mild winters and good summers may remove all danger that they will become extinct.

The children of the world will henceforth be under the protection of the League of Nations. The International Bureau for the Promotion of Child Welfare has been working in Brussels under the auspices of thirty governments and of various national organizations, but with the consent of the members the Council of the League has authorized the concentration of all child-welfare activities in a special department of the League at Geneva.

The birth rate in Europe is declining, which seems to indicate that modern infants are possessed of unusual discretion.—Waterbury American.

**SHERIFF'S SALE**

STATE OF TEXAS, County of Randall:

By virtue of an Order of Sale issued out of the Honorable District Court of Randall County on the 5th day of April, A. D. 1924, by the Clerk thereof, in the case of D. E. Covington, versus W. L. Hutcheson, L. L. Berry and John Davis, No. 989, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales, on the First Tuesday in May, A. The Dallas trade excursion will be in Canyon next Tuesday evening at six o'clock for a visit of twenty minutes. The Dallas boosters are on the 23rd annual trade trip, and are making all towns along the Santa Fe from Sweetwater north to Amarillo.

The citizens of Canyon are urged to meet the train Tuesday evening at 6:00 o'clock and make the visitors welcome.

As an instance of the great interest which the towns in Alaska take in their schools, the city of Ketchikan has voted to issue \$50,000 additional bonds for the purpose of erecting a modern school building. The \$100,000 bond issue previously voted was found to be inadequate to provide as large a building as was needed. The city now has, therefore, \$150,000 available for school building. The population is fewer than 2,500 and is made up principally of miners, fishermen, and lumbermen.

The Pullman Company has posted the following bulletin in certain of their sleeping cars: "Strangers who invite you to play cards generally are too lucky for the average mortal." This warning is emphasized by a picture showing the corner of the ace of clubs sticking out of a player's pocket. Officials report the Florida runs have had more robberies by card sharps this year than at any time during the last twenty-five years.

America's first helium reserve, comprising 7,100 acres of gas-bearing lands in Emery County, Utah, has been created by President Coolidge on recommendation of Secretary Work, the man appointed by Coolidge to take Albert Fall's position. This land is known as Helium Reserve No. 1, and will be closed to public settlement location, sale or entry. Except for a few prospecting permits, issued about three years ago, the mineral title to the land is vested in the government.

By having "dummy" Ecuadorian and Peruvian concerts first obtain concessions and prospecting permits, British oil companies are said to be rapidly gaining a commanding position in the potentially fertile petroleum fields of these two South American countries, which experts believe will, in a few years, become two of the richest oil-producing sections in the Western Hemisphere.

Karl Wittig, famous bicycle rider, gave such an excellent demonstration at the Paris velodrome that he was called upon to do an extra lap "for honor," a request usually reserved for victors in races that they may receive the plaudits of the audience. The race was won by a Swiss, Paul Suter, who rode sixty-nine kilometers, 980 meters in an hour.

Archeologists excavating on the site of ancient Carthage have found, among other things a pair of spectacles of the third century B. C., and in a Punic tomb, a terra cotta figurine of an organ, pots of rouge and face powder, bronze razors and milk bottles.

**Southwest Trails Will Be Specially Marked for Big Shrine Meeting**

The annual meeting of the Shrine will be held in Kansas City in June and the Southwest Trail is making a special effort to pull the traffic from the Southwest. It is the aim of the officers to make the Southwest Trail the best marked auto highway into Kansas City.

Markers have been sent to every Chamber of Commerce along the way with instructions to put them up on May 7th. Louis F. Hart will start with the markers at Umbarger and will continue placing markers five to the mile to about half way to Amarillo where a delegation from Amarillo will start to mark the highway.

**FOGERSON-SIDES**

Miss Mary Fogerson and F. Cecil Sides, of Amarillo, were married Sunday morning at 9 o'clock at the home of the bride's parents, Mr. and Mrs. Z. G. Fogerson. The beautiful ring service was performed, in the presence of relatives and a few intimate friends, by Rev. Lyn Claybrook, pastor of the Baptist Church.

The bridal party entered the room to the strain of "The Bridal Chorus" by Wagner, played by Miss Hilda Biggers at the piano.

The bride wore a handsome gown of acorn color beaded georgette crepe with corresponding accessories and carried a bride's bouquet.

Mr. and Mrs. Sides left immediately after the ceremony overland to Amarillo where they took the Ft. Worth & Denver for Ft. Collins, Colorado, where they will make their future home at 1035 West Oak Street.

Mr. Sides is the son of Mr. and Mrs. Will Sides of Amarillo. Both the bride and groom are ex-students of the West Texas State Teachers College and have a host of friends here.

**FAMOUS BRITISH AVIATORS WILL FLY SUNDAY P. M.—STUNTS IN AIR WITH TWO MACHINES AT FIELD EAST OF CITY**

CAPTAIN LOWELL YEREX.

Captain Lowell Yerex and Lieutenant R. H. Gray, famous British aces during the world war, and flying companions while in the army, will be in Canyon Sunday afternoon at 3:00 o'clock for exhibition flying and also to take passengers for a ride in the air.

Accompanying the aviators is Diavola, who will give an exhibition of hair raising stunts in mid-air. These stunts include balancing on the upper wing tip, standing on his head on the upper wing, climbing under the low-

er wing, hanging in turn by the knees and one hand from the wing skid and the same thrilling stunts repeated on the landing gear. As a thrilling climax, he will ride the top wing while Captain Yerex loops the loop.

These stunts will be performed over the field in the east part of town and will only be viewed from that part of the city.

It has been several months since an aviator has visited Canyon and it is certain that a large crowd will welcome the flyers when they arrive here.

**Guthrie Says Freeze on First of May in All But 4 of His 25 Years Here**

J. A. Guthrie stated yesterday that in his twenty-five years in Randall county there had been a freeze about the first of May in twenty-one of these years.

Mr. Guthrie does not expect a freeze to do much damage now since there is so much moisture in the ground. The freeze Friday night proves that thory, since very little of the fruit was affected by the freeze.

It is said that the thistles are the most easily killed by a freeze and these were not affected Friday night.

**PARENT TEACHERS MEETING**

Following is the program of the Parent Teacher Association meeting to be held Friday afternoon at 3 o'clock.

**FRANCES FULKERSON DIES.**

Miss Frances Fulkerson died in the sanitarium at Hereford Wednesday after undergoing an operation for appendicitis Saturday. She was attending the College at the time she was taken ill. Miss Fulkerson has a large circle of friends in Canyon who are grieved to know of her death.

**FIRST CHRISTIAN CHURCH**

Rev. W. A. Creason, the new minister of the Christian Church here, will preach Sunday morning at eleven o'clock and Sunday evening at eight. There will be special music at both services. The public is very cordially invited to attend.

Sunday School will be at ten o'clock and Senior Christian Endeavor at seven.

T. M. CLARK.

**BUILDING NEW HOME.**

Roy Rogers, a carpenter of this city, is building a new home on Seventh Avenue in the 1600 block.

The movement began last year in England, where one big concern after another announced that it had given up billboard advertising as being against public sentiment. Their gain in good will was immediate. Restrictions on the size and position of roadside billboards have been adopted recently in Massachusetts and in other states.

**Grain Sorghum Germination Tests**

J. W. Jennings, County Agent

While the number of samples of Grain Sorghums to be tested for germination have been limited, the results seem to indicate that these seeds are in fair to good condition for planting purposes. This is especially true of Milo and Kafir. Feterita and Hegari, as might be expected on account of the nature of the grain, is showing rather poor results in the germinator. In fact these seeds are showing little more than 50% germination, which would indicate that they should be planted thicker than ordinarily is done. As a matter of information the following results are again published:

Name	Variety	Percentage Germination
H. C. Roffey, Hegari		49
Jno. Knight, Alfalfa		66
H. C. Roffey, Kafir		94

**"BOYCOTTING THE DOLLAR"**

It has been so constantly reiterated that Europe cannot buy from us and is averse to buying at the prevailing rates of exchange even what it could buy, and every business except agriculture has been so good in this country, that we have begun to doubt whether we should suffer much if our trade with Europe should decline still more.

It was to have been expected that agriculture would be the first to feel any effect of the kind, for Europe has long taken more from us in food products than in manufactured goods. Moreover, manufacturing in Europe was more upset than agriculture, and events since the Treaty of Versailles have made it slower to recover.

We may, however, reasonably believe that Europe has already taken from us almost all the machinery and manufactured goods that it really needs, and that it awaits only the settlement of the irritating question of reparations to enter on an economic revival that will seriously affect the amount of goods that we can export. It is easy to see that England, Germany and France need to increase their trade as soon as possible in order to support the weight of debt that the war laid upon them; and it is equally clear that it is unprofitable for them to take from us goods that they must pay for in dollars which, in exchange, are worth much more than their face value. In more than one European country, statesmen, bankers, manufacturers and merchants generally want to "boycott the dollar." Though Europe may feel that the United States is ungenerous in declining to discuss reducing the debts of the Allies, it is not true, as is sometimes represented, that the movement is unfriendly or resentful; it is simply common sense. Europe cannot be blamed for preferring to supply itself with its own products, especially when the exchange compels it to pay a premium for whatever it buys of us. For the same reason we can expect little benefit from any economic revival of Russia. England and Germany will both undersell us there—if they can break the deadlock over reparations and get down to business again.

How much difference to our industries the disposition of Europe to get along without our goods will as time goes on make it hard to say; perhaps little, perhaps much. Our own home market grows steadily and may prove sufficient to keep our factories at work on virtually full time. It would be more likely to be sufficient if the purchasing power of the Western farmer were not reduced by the depression of the price of his staple products. If the European boycott of the dollar seriously injures our manufacturing industry, it will be through the injury it has first done to the farmer.

Distaining to give up his ship and backed by his crew, Captain Charles Williams, seventy, of Cambridge, Massachusetts, steered his vessel, the Brina P. Pendleton, for ten days without a rudder after the schooner had lost her steering apparatus in a gale. A sister steamer offered to take off the crew but they stuck to the vessel and by manipulating the sails, they zigzagged through gale after gale to Norfolk, Virginia, Harbor.

The eight voyages of the Leviathan, beginning with the maiden voyage last July, have been at a net loss of \$70,897.87. This is exclusive of the costs of repairing the ship's recent mishaps.

It might not be inappropriate to change the name to Washing-don.

**RUPTURE**

**EXPERT COMING TO AMARILLO**  
Will Give Free Demonstration on WEDNESDAY AND THURSDAY May 7 and 8 at ELK HOTEL from 10 a. m. to 4 p. m. **TWO DAYS ONLY**  
They Come Many Miles to See Him

On above date the noted rupture appliance expert, C. F. Redlich, will give a free demonstration.

You will at once realize the difference between his highly efficient and modern appliance and your mail order inefficient and harmful elastic bandages or ill fitting steel or wire trusses with their obnoxious leg straps. These mostly make the rupture worse instead of better until at last it gets beyond control, whereas Mr. Redlich's special appliances will give you security and comfort for years to come, mainly because these effective devices are scientifically applied by an expert in person.

Recent, often curable cases and especially old, neglected, painful ones, should probably avail themselves with this opportunity for relief, before work becomes impossible and eventually the surgeon's knife an urgent and immediate necessity.

Remember that demonstration is free on above dates only, and that a visit may mean a great deal to you and those dependent on you.

But there are other unsightly structures by the roadside that the owners ought to remove for the common good—ramshackle barns, abandoned shanties, broken-down fences covered with tinsplate signs, rickety lunch stands, unkempt stores, public dumps, untidy yards and littered porches. Such eyesores give an unfavorable impression of a town or state. Spring is a good time to clean up, out of doors as well as indoors.

The Dallas trade excursion will be in Canyon next Tuesday evening at six o'clock for a visit of twenty minutes. The Dallas boosters are on the 23rd annual trade trip, and are making all towns along the Santa Fe from Sweetwater north to Amarillo.

The citizens of Canyon are urged to meet the train Tuesday evening at 6:00 o'clock and make the visitors welcome.

As an instance of the great interest which the towns in Alaska take in their schools, the city of Ketchikan has voted to issue \$50,000 additional bonds for the purpose of erecting a modern school building. The \$100,000 bond issue previously voted was found to be inadequate to provide as large a building as was needed. The city now has, therefore, \$150,000 available for school building. The population is fewer than 2,500 and is made up principally of miners, fishermen, and lumbermen.

The Pullman Company has posted the following bulletin in certain of their sleeping cars: "Strangers who invite you to play cards generally are too lucky for the average mortal." **FOGERSON SIDES**

Miss Mary Fogerson and F. Cecil Sides, of Amarillo, were married Sunday morning at 9 o'clock at the home of the bride's parents, Mr. and Mrs. Z. G. Fogerson. The beautiful ring service was performed, in the presence of relatives and a few intimate friends, by Rev. Lyn Claybrook, pastor of the Baptist Church.

The bridal party entered the room to the strain of "The Bridal Chorus" by Wagner, played by Miss Hilda Biggers at the piano.

The bride wore a handsome gown of acorn color beaded georgette crepe with corresponding accessories and carried a bride's bouquet.

Mr. and Mrs. Sides left immediately after the ceremony overland to Amarillo where they took the Ft. Worth & Denver for Ft. Collins, Colorado, where they will make their future home at 1035 West Oak Street.

Mr. Sides is the son of Mr. and Mrs. Will Sides of Amarillo. Both the bride and groom are ex-students of the West Texas State Teachers College and have a host of friends here.

**FAMOUS BRITISH AVIATORS WILL FLY SUNDAY P. M.—STUNTS IN AIR WITH TWO MACHINES AT FIELD EAST OF CITY**

CAPTAIN LOWELL YEREX.

Captain Lowell Yerex and Lieutenant R. H. Gray, famous British aces during the world war, and flying companions while in the army, will be in Canyon Sunday afternoon at 3:00 o'clock for exhibition flying and also to take passengers for a ride in the air.

Accompanying the aviators is Diavola, who will give an exhibition of hair raising stunts in mid-air. These stunts include balancing on the upper wing tip, standing on his head on the upper wing, climbing under the low-

er wing, hanging in turn by the knees and one hand from the wing skid and the same thrilling stunts repeated on the landing gear. As a thrilling climax, he will ride the top wing while Captain Yerex loops the loop.

These stunts will be performed over the field in the east part of town and will only be viewed from that part of the city.

It has been several months since an aviator has visited Canyon and it is certain that a large crowd will welcome the flyers when they arrive here.

**Grain Sorghum Germination Tests**

J. W. Jennings, County Agent

While the number of samples of Grain Sorghums to be tested for germination have been limited, the results seem to indicate that these seeds are in fair to good condition for planting purposes. This is especially true of Milo and Kafir. Feterita and Hegari, as might be expected on account of the nature of the grain, is showing rather poor results in the germinator. In fact these seeds are showing little more than 50% germination, which would indicate that they should be planted thicker than ordinarily is done. Mrs. Wyatt Heisler and Mrs. Moore ought to remove for the common good—ramshackle barns, abandoned shanties, broken-down fences covered with tinplate signs, rickety lunch stands, unkept stores, public dumps, untidy yards and littered porches. Such eyesores give an unfavorable impression of a town or state. Spring is a good time to clean up, out of doors as well as indoors.

**Rain Falls in County Amounting to .81 of Inch Thursday to Wed.**

Three rains have fallen this week starting with one amounting to .73 of an inch Thursday evening, and closing yesterday with a shower of .03 in the morning.

The farmers were wishing for about a half inch rain last week in order to moisten up the top of the ground. The moisture came just when it was needed. The showers of Monday amounting to .05 and yesterday of .03 brightened up the vegetation.

**Guthrie Says Freeze on First of May in All But 4 of His 25 Years Here**

J. A. Guthrie stated yesterday that in his twenty-five years in Randall county there had been a freeze about the first of May in twenty-one of these years.

Mr. Guthrie does not expect a freeze to do much damage now since there is so much moisture in the ground. The freeze Friday night proves that thory, since very little of the fruit was affected by the freeze.

It is said that the thistles are the most easily killed by a freeze and these were not affected Friday night.

On above date the noted rupture appliance expert, C. F. Redlich, will give a free demonstration.

You will at once realize the difference between his highly efficient and modern appliance and your mail order inefficient and harmful elastic bandages or ill fitting steel or wire trusses with their obnoxious leg straps. These mostly make the rupture worse instead of better until at last it gets beyond control, whereas Mr. Redlich's special appliances will give you security and comfort for years to come, mainly because these effective devices are scientifically applied by an expert in person.

Recent, often curable cases and especially old, neglected, painful ones, should probably avail themselves with this opportunity for relief, before work becomes impossible and eventually the surgeon's knife an urgent and immediate necessity.

Remember that demonstration is free on above dates only, and that a visit may mean a great deal to you and those dependent on you.

**PLANT A FLOWER—DON'T STEAL ONE.**

Americans like to travel, but they do not like to live abroad. One of the greatest obstacles to the growth of American trade in foreign countries is the American love of home. Great Britain, Germany, France and Italy have little trouble in finding young men of their own blood who are willing to live in other lands; the United States has much trouble. Young Americans regard life remote from American customs and standards as a self-sacrificing service, and that is especially true of Americans who have children. They want their sons and daughters to grow up in their native land and be imbued with its spirit.

It was predicted several years ago that the horse would soon be extinct, and indeed the number of farm horses in the United States has been much reduced in recent years—in 1918 by 75,000; in 1919 by 1,700,000; in 1920 by 569,000; in 1921 by 109,000; in 1922 by 429,000 and in 1923 by 364,000. Nevertheless there are still eighteen million farm horses in use. Considering the number of automobiles and tractors that have been put to some use on the farm, the decline in the number of horses is not great nor unexpected. New machines will probably displace many more horses, but none will replace all of them. There is hardly a farm of any size that has not use for at least one team of horses.

A striking definition of personal beauty comes from the dean of an Eastern university. "Any woman of health and education is beautiful," he says and adds as a corollary, "If there is any lack of truth, there is lack of beauty." The really beautiful pink cheeks are those that come from healthful outdoor exercise, and a beautiful personality is the result of knowing something and being some one rather than of posing as some one.

The increase in the number of telephones in the United States during 1921 was greater than the increase in the number of telephones in all the rest of the world combined.

(3) 88	3	91	91

Very truly yours, J. W. JENNINGS, County Agent.

Senator Capper has prepared a universal draft act to become effective in time of war and designed to take the profit out of war for everyone. It provides that every business, every industry, all the vested wealth and resources of the country, shall automatically be subject to draft just as the man who shoulders a gun. Not many can oppose the measure without laying their patriotism open to suspicion. If the bill comes to a vote, it is likely to become a law and incidentally a powerful deterrent to the nation's rushing precipitously into war.

Benedict Arnold's downfall in American public life might easily have been averted if he had only understood modern Republican technique. He should have issued a statement rebuking the country and the Congress for hysteria and then stood pat.—New York World.

**HELP FOR THE OLD FOLKS**  
**Old Age Should Be Happy—Not a Time of Sickness and Suffering.**

Too many people begin to suffer at middle age with constant backache, urinary ills and rheumatic pains and aches. Weak kidneys are usually the cause and, if neglected, there is danger of hardened arteries, dropsy, gravel or Bright's disease. Help your weakened kidneys with a stimulant diuretic before kidney disease gets a firm hold! Use Doan's Pills. Thousands of old folks recommend Doan's.

Here is Canyon proof: T. F. Robeson, ret'd. minister, 1906 3rd Ave., says: "Nights, my rest was disturbed as I had to get up so many times to pass off the kidney secretions. My back was sore and stiff and the pains were so sharp and cutting, I couldn't stoop. Mornings I had dizzy spells and little spots blurred my sight. I began using Doan's Pills and in a short time, they rid me of this trouble."

To make the public schools the best possible, and at the same time use economy in the administration of the schools, is the policy of the board of trustees. Canyon's school problem started to grow when by vote of the people we decided to maintain a first class high school. The problem will grow every year as more people are drawn here on account of the splendid school facilities. The school grew so much last year that the state education department demands the addition of three high school teachers and one in the grades in order that the pupils may be properly cared for by the faculty. Since Canyon has embarked into the business of education, we may expect to see the school problem grow year by year instead of showing any decline. The growth of the school calls for more money each year. The people of Canyon may expect to pay a heavy school tax just so long as we maintain a good school system. The trustees are simply carrying out the will of the people in making the school system the best, as has been so clearly shown in numerous school elections held in the district. No tax payer need expect to see his school taxes lowered. With an increased school attendance each year, operating expenses will increase and prohibit any decrease in taxes.

The farther the democratic campaign goes, the more uncertain before the likelihood of any of the candidates now in the campaign being the democratic nominee. A great effort will be made Saturday to send an instructed delegation from Texas to vote for McAdoo. If Tom Love and his bunch has their way, Texas will throw away her hope of usefulness in the democratic national convention. McAdoo is weakening rather than gaining in strength in his campaign. The fight that Governor Neff is making on an instructed delegation is the only thing that will break up the Tom Love play house and keep Texas from acting foolishly by sending an instructed delegation to New York, instructed to vote for McAdoo from start to finish. Go to the precinct convention Saturday and vote to send an uninstructed delegation to the county convention the following week.

The music lovers of the Panhandle owe to Prof. Emil F. Myers of Amarillo a great debt of gratitude. He is bringing to the Panhandle artists of world renown who would never be heard by the majority of our people were it not for the untiring efforts of a man like Mr. Myers. In spite of the great loss he sustained last fall in grand opera, he signed for the biggest spring musical program in the festival of this spring. The festival was a success financially, but in no proportion to repay the efforts of six months' hard labor. Mr. Myers will never be repaid by the public for the great service he renders this section, no matter what great successes he may have in future musical programs.

Now comes Henry Ford trying to prove that Hugo Stimes was not a Jew! This in spite of the fact that every statement concerning his life points to the fact that he was a Jew. To Henry Ford, the devil is incarnated within the Jew, and it is the purpose to condemn the Jew to perdition simply because he is a Jew. The attitude of Henry Ford upon his question is sufficient to prove he is too narrow minded to be president or to hold any great office of public trust in which the American spirit of fair dealing must obtain. Ford cannot be even fair in his leadings with the Jews.

Southwest Plainsman: The Randall County News, published at Canyon by C. W. Warwick, celebrated its 28th birthday on April 3rd and there is not the slightest doubt that its readers will agree that "every day, in every way, the News is getting better and better." Warwick and the News are among the "pace-makers" for the newspapermen of this part of the State and we have a hunch that they intend to keep at the head of the procession. May good luck attend them!

The News has been notified of its choice as being one of the six best weekly newspapers in Texas. Several letters have been received asking for copies of the paper, and this week a request from the School of Journalism of the University of Missouri asking for copies of the paper, which will be displayed during country newspaper week in May. The News appreciates the honor of being placed in such a high class, and our only desire is to be worthy of this distinguished place among the newspapers of Texas. Whatever honor there is in this distinction is only reflected honor, as the good town of Canyon and the good county of Randall is reflected through the pages of the News.

The weeds are growing rapidly with the coming of warm days. There was a luxuriant growth of weeds last fall owing to the continued rains and every weed seed is going to grow fine this spring. Cutting the first crop of weeds below the surface of the ground will help keep down the weed growth.

The best kind of a fire is the one that never happens. The best way to prevent fire is to be careful at all times to eliminate all danger of fire. A little care may save thousands of dollars worth of property.

Property is changing hands in Canyon rapidly. People are interested in Canyon as an educational center, and are anxious to move to the city.

It now develops that the wonderful offer made by Henry Ford for Muscle Shoals is the poorest offer before the government.

**GOVERNMENT VS. NEWSPAPERS**  
Motley County News: In another column of this issue of the News appears the sworn statement of the publisher, showing the ownership, management, and control of this publication, together with a list of the stockholders, bond holders, mortgages, etc., which is required by the Act of Congress to be published semi-annually, and in the case of daily papers, the circulation statement must also appear.

This great government of ours conceded by all the world to be the greatest on earth, has seemed to have it in for the newspapers in more ways than one.

During the late war they were curtailed and controlled as no other branch of business, and this notwithstanding that the president and secretary of the treasury publicly announced that had it not been for the publicity and support afforded by the press of the land the Liberty Loans would never have been put over, and we all know what that would have meant in those trying hours, and this was done gratuitously, while other industries were coining money.

Not only this, but the government printing office enters into direct competition with the publishers in the matter of furnishing printed envelopes to the business public at prices that can not possibly be met. What would the hardware men think if the government was to engage in the retail handling of tinware at prices that would exclude them from the field? Yet this is no more a part of their business than that of printing envelopes is a part of the stock in trade of the country newspaper.

There may be some good purpose served by requiring the publishing of this statement, and being in the class that has no indebtedness hanging over us we do not seriously object, but what

would the average business man think if he was required to make and publish a similar statement pertaining to his personal affairs? It does not seem just right, that's all.

The Paducah Post: Not only this, but there are many other laws passed directly against the newspapers that, to us, seems unjust. For instance, the libel laws are so stringent that a newspaper man is almost afraid and hardly dares, publish anything about anyone unless it is a "big boost" for them or a lot of flattery that has no just foundation whatever. As a concrete example of this we cite the case of one of the big papers in Texas. A reporter went to the police records on his daily rounds and found a record on the docket to the effect that a certain man, listed as a negro, had escaped from the county chain gang the night before. The record also showed that this man had served a five-year term in the Texas penitentiary and had a lot of jail records behind him. The reporter stated that this man (saying that he was a negro) had escaped and gave his record in a short five or six-line little article. The paper was sued for libel. When the trial came up the man acknowledged that he was an convict, that he was wanted at other places at that time, that he had served jail sentences in a number of places, that he had been on several county chain gangs, that he escaped from the chain gang as the article stated. But he denied and proved that he was not a negro—as the police record showed. The outcome was that the paper paid the handsome little sum of \$60,000.00 for libel. And yet some of our "brainless" law-makers tried to just last year, require all newspaper men to give a bond for not less than \$25,000.00 so that a person can be sure of their money in case a newspaper accidentally makes a mistake about them as did the above mentioned paper. Some justice, isn't it?

## TEACHERS CHOSEN PUBLIC SCHOOLS FOR COMING YEAR

### W. D. COX HIGH SCHOOL PRINCIPAL FOR COMING YEAR.

### Three Degree Graduates of College Named for High School Faculty by Trustees Friday.

The board of trustees of the Canyon Independent School elected a number of teachers of the public schools for the coming year at a meeting held Friday afternoon.

Irby Carruth, who was elected ward school principal last week, has resigned the position, and has accepted a position with the Peoples Store.

Emmett Hazlewood, a teacher in the grades this year, was re-elected and made acting principal of the ward school.

W. D. Cox, who has been manual training teacher in high school for the past year, was re-elected a week ago, and Friday was named high school principal, taking the work of Jim Webb, who will go to school next year.

Miss Ruth Dauer of White Deer was elected teacher in the grades. Miss Dauer has practically completed the junior year in the college and was a teacher in the grades of our school two years ago. She is a very successful teacher.

Nay Hale was elected to a position in the grades, and will have charge of the play grounds of the ward school. He is finishing his sophomore work in the college, and was a star forward of the Buffalo basketball team.

Mrs. J. Wesley Kleinschmidt was elected teacher of the second grade. Mrs. Kleinschmidt has a degree from Baylor university and was a very successful teacher before coming to Canyon. She has been substituting for the past year.

Miss Vivian Coffman was elected teacher of languages in the high school. Miss Vivian is finishing her second year in the public schools, and is one of the best teachers the school has ever had.

Miss Amy Daniel of Sweetwater was elected science teacher in the high school. Miss Amy was a teacher in the high school two years ago, and is considered one of the best teachers the school has ever had.

Miss Zelma Red was elected mathematics teacher in the high school. Miss Red will receive her degree from the college in June.

Miss Carriewood Cleveland was elected English teacher in the high school. Miss Cleveland will receive her degree from the college in June.

Miss Gertrude Conner was elected domestic science teacher. Mrs. Frank E. Phillips resigned at the last meeting of the board of trustees. Miss Conner receives her degree from the college this spring.

Miss Agnes Thomas was re-elected expression teacher for the coming year. Miss Thomas has been in the school for the past year and has been one of the strongest teachers.

There are a few more positions to be filled in the school, which will be taken up by the board of trustees within a short while.

### FRY TRADES LAND.

John Fry has traded his half section of land northwest of the city to L. B. Hammond of Amarillo, consideration being \$30 per acre.

## Committee from Conference Inspects Camp Grounds on Canyons

A committee from the Northwest Texas Conference of the Methodist Church inspected sites on the canyons last week with a view of locating a camp ground for the Methodist Church.

Rev. M. M. Beavers is chairman of the committee, and the members are Rev. L. N. Lipscomb of Plainview, Rev. J. P. Patterson of Lockney and Mrs. T. C. Delaney of Canyon. Rev. G. W. Shearer, presiding elder of Amarillo, met with the committee. Two sites were inspected.

Rev. B. F. Fronbarger, manager of the Baptist encampment, met with the committee and told of the work he had been able to do for the Baptist encampment, and made valuable suggestions.

The committee will meet again in August while the girls' camp is being held under the direction of Mrs. Delaney. A report will be made to the annual conference this fall.

## Buffaloes Meet Cadets Friday-Saturday; Won from McMurry Thurs.

The Buffalo baseball tossers easily won the game Thursday afternoon from McMurry College of Abilene by a score of 13 to 0. The team was out for revenge over the defeat received at the hands of the Methodist boys Wednesday afternoon, when McMurry won by a score of 8 to 6 in a rather listless game.

The rain Thursday night made the ground unfit for a game Friday as per schedule.

The cadets from New Mexico Military Institute, Roswell, will be here Friday and Saturday for two games at Buffalo Park at 4 o'clock.

The Herd is out after the scalp of the soldiers owing to the defeat in the track and field meet Saturday and the battle will be a hard one.

Ira Jenkins, third baseman for the Buffalo baseball nine, was elected captain for this season. He was not in school last year, and it was expected that he would have a hard trial for his old position on the team; but he proved his ability, and was rewarded by his teammates with a vote from each of them for captain of his team.

## Freeze Friday Night But Fruit Survives and Not Much Hurt

There was considerable freeze Friday night which threatened to destroy the fruit, but from reports in various parts of the county, there seems to be no serious damage. The fruit withstood the very heavy frost of the week previous without damage.

T. F. Reid brought to the News office Tuesday an eighteen inch branch from a pear tree which had fifty small pears, which were in excellent condition in spite of the heavy frost and the freeze of Friday night. Mr. Reid states that his cherries were not hurt, but the plums seem to be damaged.

### GET JULY ELECTION RETURNS.

The News has signed a contract with the Texas Election Bureau and will receive election returns in the July and August primaries. The News has furnished the voters of this county this service in several past elections.

The News will furnish the Texas Election Bureau the returns for Randall county, and has been asked to cover Castro and Deaf Smith counties for this Bureau if we may make suitable arrangements.

## High School Banquet to be Held at Gym on Thursday Next Week

A banquet will be served at the high school gymnasium next Thursday evening at 7:00 o'clock by the girls of the Home Economics Department.

The high school orchestra will furnish music during the evening. There will be a program after the banquet. A charge of 75 per plate will be made for the benefit of the stage scenery fund.

Students of the school, members of the faculty and patrons will be present at the banquet.

### BAND GIVES CONCERT.

The College Band gave a program at the high school auditorium Saturday night, but there was only a very small attendance owing to so many conflicting engagements.

The Band was assisted by Herschel Coffee, violinist, and Miss Stewart, reader.

### TO PRINT PANHANDLE ANNUAL.

The News has the contract to print the annual for the Panhandle high school, and work will start on the book this week.

The annual will be 72 pages, with heavy paper cover.

Wayne O'Keefe, formerly of this city, is business manager of the publication.

### REVIVAL AT METHODIST CHURCH

The revival services at the Methodist church will continue thru this week, according to Rev. M. M. Beavers, pastor of the church, who is doing the preaching. Rev. Beavers is assisted by Dr. D. H. Munson, who preached last night, and will preach again on Saturday night of this week.

## CLUE WOMEN TO BE INVITED TO CITY FOR 1925 MEETING

### MRS. J. A. HILL WILL PRESENT INVITATION OF CLUBS.

### Several Delegates Will Attend Meeting in Lubbock Next Week—Support Promised by Towns.

The annual meeting of the Seventh District of the Federation of Women's Clubs is to be held the 5th, 6th and 7th of May at Lubbock, Texas. Federated clubs all over the district will be present.

Mrs. J. A. Hill is delegate from the Woman's Book Club and will give the invitation of Canyon to the Federation to meet in this city next week. Mrs. C. L. Thompson is alternate.

The clubs of Canyon have been working in the interest of the meeting next year and have lined up a large number of the towns in this section to vote for Canyon in the meeting. Vernon is another contender for the meeting next year.

It is likely that a number of women from Canyon will attend the meetings in Lubbock next week.

The Home Economics Club is the only club in the college that is a member of the Federation of Women's Clubs. The club met Saturday and elected Jessie Carpenter, and Ione Red to be delegates to the convention. Gertrude Conner and Amelia Spencer were elected as alternates. Miss Ruth Lowes is to be the kindergarten chairman for the district. Mrs. Reeves is to be the acting parliamentarian for the district meet. Mrs. Reeves is also delegate from the Panhandle Pen Women. She also is to attend the executive council of the district-meeting, the first session to be held.

## District Winners On Way to State Meet to be Held at Austin

A special train from the Panhandle left yesterday morning with the district interscholastic league winners.

The contestants from District Number One were in charge of W. E. Lockhart, district manager, and Miss Laura V. Hamner of Amarillo, who looks after the girls during the trip. Supt. A. D. Payne and Coach H. G. Wilson accompanied the Canyon and Amarillo contestants.

J. D. Gamble Jr. will compete in the senior boys declamation; Milton Sanders will compete in the pole vault; B. F. Turner will be in the mile run.

The state contest starts at the university of Texas today. The contestants will return home Sunday.

D. A. Shirley will join the Panhandle delegation in Austin. He was in Waco last week attending a meeting of the registrars of the state.

### MOTHER'S DAY PROGRAM.

The State Press Association will be entertained at the college on Thursday, June 19th.

The annual session of the Texas Press Association will be held in Amarillo on June 18, 19, 20. The second day will be spent visiting the Palo Duro Canyon, and in the afternoon the members will be brought to Canyon where they will be entertained at the college.

The College Band will greet the special train when it arrives in Amarillo, and will play during the convention.

A committee from this city will confer next week with the Amarillo committee in working out the plans of the convention.

## POLITICS STARTS IN TEXAS SATURDAY WITH PRECINCT CONVENTIONS TO EXPRESS THE PRESIDENTIAL CHOICE

### Monthly Luncheon on Next Tuesday Night Big Attendance Asked

The monthly luncheon of the Chamber of Commerce will be held next Tuesday night at 7:30 o'clock at the Palace Cafe.

In order to guarantee a good crowd tickets are being sold for this luncheon and a large number of the business men are buying extra tickets to invite a farmer to the luncheon.

It was urged by officers of the Chamber of Commerce that every business man invite a farmer to the luncheon next week.

### CASH SELLS BUILDING.

Harvey Cash closed a deal Monday afternoon with N. Plaster for the sale of the two store brick building at the southeast corner of the square.

This building is occupied on the first floor by the Thompson Hardware Co. furniture department and the Robbins Grocery, and on the second floor by the Baltimore Hotel.

The consideration was not made public.

## College Annual Out and Highly Pleases Students and Faculty

Le Mirage, the College annual, has been printed and the first copies received Monday. Copies are expected to come as fast as completed by the printers.

The annual this year is by far the best the College has ever had. The engravings are first class throughout, and the printing is exceptionally fine.

The book shows a great amount of careful thought and planning on the part of the editorial staff.

### PAVING BRICK IN TRANSIT.

Mayor C. N. Harrison has invited for four cars more of paving bricks for the paving job on Fifth Avenue, and states that in telephone conversation with the Mineral Wells Paving Brick Company Monday, he was assured that all of the paving brick would be shipped by the end of this week.

Residents on Third Avenue are working in the interest of paving on this avenue as soon as Fifth Avenue is completed.

## TEN BUFFALOES TO ABILENE.

Coach S. D. Burton states that he will take ten members of the Buffalo track team to Abilene next week when the T. I. A. A. track and field meet will be held at Simmons College. The track men have made an excellent showing in the meets this year, and should win a number of places in the big T. I. A. A. meet.

## CADETS FROM ROSWELL TAKE MEET FROM BUFFALOES

### BUFFALOES WIN MOST OF THE TRACK EVENTS.

### Roswell Strong in Field Events—Other College Win But Few Points in the Big Meet Here.

The fourth annual Great Plains Intercollegiate Track Meet has made history of itself and still the Buffaloes' ideal has not been attained—that of winning it. New Mexico Military Institute won first place over the Buffaloes by the scant margin of seven points, 56-65. The Buffaloes proved decidedly superior in the short and middle distances, while Roswell easily took the field events. From the other contenders, Clarendon, Montezuma, Wayland and Panhandle A. & M., the Buffaloes had little to fear. Montezuma took third place with 16 points; Wayland fourth with 9 points, Clarendon fifth with 6 points, and Panhandle A. & M. sixth with 4 points.

Out of a possible 14 first places, the Buffaloes won 7, Roswell 5, Clarendon 1, and Montezuma 1. Most of the events were performed in a creditable manner—the 100 yd. dash being done by Lem Soke of Canyon in 10.1; the 120 high hurdles by Davis Hill in 16.3; and the javelin by Herschel Jennings hurled 150 feet, 9½ inches, all of these by Canyon men. Other first places won by the Buffaloes were: pole vault by Mitchell; 440 by Finis Vaughn; 880 by Pearson; and the 220 by Foy Terry. Mitchell broke the T. I. A. A. pole vault record by three inches, going over the bar at 11 feet, 6 inches.

Roswell's win was due to her ability to place somewhere in the event, as the Buffaloes denied her the privilege of placing in a majority of the first places. Poindexter was high point man with 13 points. Other men placing and in their order were:

1 mile relay: Montezuma, N. M. M. I., W. T. S. T. C. Time 3 minutes, 45.2-4 seconds.

Pole vault: 11 feet 6 inches, Mitchell, W. T. S. T. C.; Atwood, Wayland; Fuller, W. T. S. T. C.; Bass, N. M. M. I.

Shot put: 37 feet, 11½ inches, Poindexter, N. M. M. I.; White, N. M. M. I.; Goodwin, W. T. S. T. C.; Miller, Clarendon.

High jump: 5 feet, 7¾ inches, Brookshire, N. M. M. I.; Fuller, W. T. S. T. C.; White, N. M. M. I.; Van Degrift, N. M. M. I.

Discus throw: 117 feet, 2 inches, Poindexter, N. M. M. I.; Bass, N. M. M. I.; White, N. M. M. I.; Marshall, Montezuma.

Broad jump: 19 feet, 4 inches, Brookshire, N. M. M. I.; Bass, N. M. M. I.; Golden, W. T. S. T. C.; Van Degrift, N. M. M. I.; Atwood, Wayland. Time 16.4-5 seconds.

Javelin throw: 150 feet, 9 inches, Jennings, W. T. S. T. C.; Dagggett, Pan. A. & M.; (Continued on last page)

## Warren Wanted a Safe and Bought It From the Dealer Here in Canyon

A few weeks ago W. A. Warren of the Peoples Store breezed into the News office and said he wanted a safe that would stand up and meet the underwriters requirements. The News man pulled out the big Office Supply Catalogue, which carries everything that is used in an office, and showed Mr. Warren the very thing he wanted. And the price—that was the most interesting part of the story, because Mr. Warren was able to secure about a hundred dollars in commission that would have gone to the agent had he purchased the safe from a traveling salesman.

The safe is installed in the Peoples Store, and Mr. Warren says to bring around the fellows who are interested in buying a real, up-to-date safe. He is glad to have them look it over.

The News has the selling agency of the biggest supply and office fixture factory in the Southwest. They have no traveling agents in this territory. The goods are best and guaranteed; the prices are reasonable; the service is quick.

In what way may we serve you?
