

# RANDALL COUNTY NEWS

VOLUME NUMBER XXVIII.

CANYON, RANDALL COUNTY, TEXAS, THURSDAY, JUNE 26, 1924.

NUMBER 13

## NEW DEPOT SUBJECT OF PICNIC TUESDAY NIGHT

MAYOR C. N. HARRISON HONORED BY CITIZENS OF CANYON.

Improvements Made in Canyon During Past Few Years Reviewed by President Hill.

A picnic supper was given Tuesday evening at Wragge's Park by the Chamber of Commerce in celebration of the new depot which was announced last Wednesday by the Santa Fe.

The work of Mayor C. N. Harrison in this enterprise, and his direction of the improvement program of the city during the past two years was the subject of praise of the one hundred and fifty citizens of Canyon who attended this enjoyable occasion.

It was planned last week to have the Santa Fe officials at this picnic, but owing to the fact that so few of them were able to attend, this part of the program was postponed until a later date, and these gentlemen will be entertained during August.

The supper was put on under the direction of Louis F. Hart.

The College Band, directed by C. E. Strain, played during the serving and gave several numbers during the program which followed.

In the absence of President T. C. Thompson of the Chamber of Commerce, Vice President C. W. Warwick presided during the short program.

President J. A. Hill was called upon to speak of the developments made in Canyon during the past few years. He stated that when he arrived in Canyon fourteen years ago, the first thing he heard was the depot discussion. He rejoiced that the new depot was now a reality. He called attention to the great improvement that had been put over in Canyon during the past few years, the building of the high school, the paving, the water system improvement, and the church building program now going on. He called upon the citizens to assist in putting over the present church building program in order that others could follow.

Speaking directly regarding the work of Mayor C. N. Harrison, Mr. Hill stated that he had not found a public official, local or state, who got so much for his money in making public improvements. Mayor C. N. Harrison responded by thanking the people of Canyon for the wonderful support that had been given the City Commission during the improvement program. Never had the Commission asked for anything or proposed any movement that did not at once meet the popular approval.

Out of town guests were Editor and Mrs. Izzard of the Amarillo Globe, Mr. and Mrs. C. R. McAfee and D. A. Park.

## Company F Rapidly Being Filled Ready for Annual Encampment

Company F will leave Canyon on July 4th for the annual two weeks encampment at Galveston.

Captain H. C. Gamble states that Company F is rapidly being filled with good men, but that he still has room for a few more. Galveston offers an exceptional opportunity for a pleasant vacation trip with all expenses paid and regular pay in addition.

Jack Jones, who has been first lieutenant of Company F for some time, was transferred to regimental headquarters and promoted to Captaincy. He will be supply officer.

Lieutenant J. W. Kleinschmidt has been promoted to First Lieutenant and Sergeant H. O. Price has been made Second Lieutenant of Company F.

### MARRIAGE LICENSES.

Marriage licenses were issued this week as follows from the Clerk's office:

John H. Mathes and Miss May Packwood, June 18th.

Ralph V. Miller and Mrs. Mae Jarrell, June 20.

F. R. Treece and Miss Helen Potts, June 20.

Rial C. Long and Miss Lillian Benjamin, June 21.

L. I. Parks and Miss Blanche Canton, June 23.

### STORK SPECIAL.

A daughter was born to Mr. and Mrs. James H. Turner June 9.

Help Keep Canyon Clean!

## HIS O. K. IN NOVEMBER

## ELECTION YESTERDAY TO CLOSE THE STREET FOR NEW DEPOT CARRIED BY MAJORITY OF 120 FOR AND 1 AGAINST

Only one vote was cast yesterday in the election against the closing of the street east of the present depot in order to allow the new \$65,000 depot to stand across this street.

One hundred and twenty people voted in favor of the closing of the street.

It was discovered a few days ago that this particular crossing had never been officially platted and opened as a street, and that it had become a street only through custom. In a sense the election was unnecessary, but the City Commission desired the election to be held in order to convey to the railroad that Canyon was thoroughly friendly to the Santa Fe and appreciated the new depot.

If all of the citizens who were in accord with the sentiment expressed in the election had voted, there would have been six or seven hundred votes cast favoring the closing of the street rather than the light vote of 120.

### NAMED PRESIDENT EMERITUS.

On account of the thirteen years of faithful and efficient service as president of the Amarillo District W. M. U., Mrs. B. T. Johnson was elected president emerita at the district meeting held last Wednesday and Thursday in Amarillo. Mrs. Johnson offered her resignation to the organization, which was accepted with deep regrets.

A number of women from Canyon attended the meetings.

## News Judged Best Illustrated Weekly in State at Press Meet

The Randall County News was the unanimous choice of five judges in the state contest for the best illustrated editions of weekly newspapers at the meeting of the Texas Press Association in Amarillo last week.

The judges were to base their decision upon the clearness of the cuts, the way they were handled in the newspaper, their appropriateness, and the way they were printed. About twenty of the leading weekly papers of the state entered this contest. The News was awarded a fine loving cup given by the Zeese Engraving Company of Dallas.

The News won fourth place in the Dallas Morning News and Evening Journal contest for the best all-around weekly newspaper. The Troup Banner won this contest, the Beeville Bee second, the Rockdale Banner third.

## County Committees Cannot Assess Candidates for State Office

The State Democratic Committee calls attention to the county committees that it is illegal for these bodies to assess candidates for state office any sum. It has been the law since the primary law was enacted several years ago that state and district candidates could be assessed \$100 by each county in order to get their names printed on the primary ballots of these counties.

The last session of the legislature changed the law so that the candidates for state offices must pay \$100 to the state executive committee, and the county committee cannot collect anything from the candidates for state offices.

The law remains the same so far as district candidates are concerned.

The executive committee of Randall county was in session last week and assessed the state candidates \$100 each before the change in the law was called to its attention. Some of the state candidates have sent the dollar assessment, but since it is against the law to accept this money, County Chairman A. N. Henson is returning the dollar, and explaining to the candidates that the committee was not aware of the change.

Since the county committee has lost nearly \$50 in revenue owing to this change in the law, it is going to be hard pressed to meet the expenses of the two primaries, and further assessments on the county candidates may be necessary.

## Three Teachers Named by Trustees for Public School Coming Year

Three vacancies in the public school faculty were filled by the board of trustees at the meeting Monday night, these vacancies having been caused by the resignation of Mrs. Paul Foster, Miss Dorothy Nail and Miss Amy Daniel.

Miss Arline Rose was elected to a place in the grades. She is a student in the College, and has had several years' successful teaching experience.

Miss Laura Sweetman was elected to a place in the grades. She is now attending the College. She lives at Vernon, where she has taught for three years.

H. O. Smith was elected science teacher in the high school. Mr. Smith lacks only a little work of having his degree from the College, and has been a very successful high school teacher.

### PATSY BRITAIN IMPROVING.

Patsy Britain is much improved at the hospital in Amarillo, where he has been seriously ill the past two weeks following two operations.

## TEXAS PRESS ASSOCIATION IS ENTER-TAINED FOR THREE HOURS AT COLLEGE THURSDAY—PROGRAM IS FINE

FOUR HUNDRED AND FIFTY VISITORS FROM ALL NEWSPAPERS OF TEXAS BROUGHT FROM STATE MEETING BEING HELD IN AMARILLO SHORT PROGRAM AND PLATE LUNCHEON FEATURES OF VISIT HERE.

## Daughter of President Lamar to Present Texas Flag to College Soon

A Lone Star flag of the Republic of Texas will soon be presented to the West Texas State Teachers College by Mrs. Loretta Lamar Calder of Houston, the only living daughter of President Lamar of the Republic.

The announcement of this gift was made Thursday evening by President J. A. Hill at the close of the reception given the Texas Press Association at the College. It was authorized by Mrs. E. H. J. Andrews of Plainview, who is a daughter of Mrs. Calder and granddaughter of President Lamar.

Mrs. Calder expects to soon visit Mrs. Andrews and upon this occasion will come to Canyon and make the presentation to the College.

In view of the fact that President Lamar was a newspaper man of note, Mrs. Andrews chose the time of the Press Association reception to authorize this announcement.

### COTTON CROP SPOTTED.

J. W. Jennings, County Agent, was in Lubbock over Sunday on business. He states that the cotton crop generally on the Plains is reported to be very spotted this year.

Mr. Jennings states that the early cotton is doing fine and has not suffered from the high winds and hot weather.

Mr. Jennings has been in every part of the county and believes that the cotton crop is going to be fairly good this year. He states that there is fully 5,000 acres of good cotton in the Canyon trade territory.

Mr. Jennings states that he advises replanting cotton if there is a good rain within a few days.

## White Way from Highway to New Depot Is Being Planned by City

Canyon now has another improvement project getting well under way in a White Way from the highway to the new depot.

The citizens on Fourth Avenue have been thinking about the possibilities of this White Way for some time.

Mayor C. N. Harrison is compiling the costs relative to the construction and maintenance of the White Way, and trusts soon to have these figures available.

A curb and gutter is being run on Tenth Street, connecting Fourth and Fifth Avenues, just as the connection was made at the new Methodist church. Tenth Street will then be graveled.

Citizens on both Third and Sixth Avenues have been talking paving, but nothing definite is done. It is anticipated by the City Commission that paving will be done on these Avenues if the residents are sufficiently interested to get behind the program and sign up the property owners.

### BARLEY MAKES 19 BU.

Geo. J. Graves, living six miles north of the city, has threshed his barley, which made 19 bushels to the acre.

He will start threshing his wheat today, which is estimated to go better than 20 bushels.

## Bids to be Opened Today for Building of the New Catholic Church

Bids are being opened this afternoon for the construction of the new Catholic Church in Canyon. The plans and specifications are in the hands of Rev. T. D. O'Brien, priest of Amarillo. Rev. O'Brien will have charge of the work in Canyon.

It is contemplated that work shall start on the new church at once after the contract has been let.

Canyon was visited for three hours last Thursday afternoon by four hundred and fifty newspaper men and women from every part of Texas. A short snappy program at the College, followed by a plate luncheon provided one of the most pleasant features of the meeting of the Texas Press Association.

The forty-fifth annual convention of the Texas Press Association was excellent in attendance by only one of these annual gatherings, and was excelled by none when it came to interest and profit.

The entire Panhandle was behind the movement to bring the Texas Press Association to Amarillo, and the entire Panhandle was in on the entertainment feature of the association.

Amarillo was a most gracious hostess for the association meeting, and did everything possible for the entertainment of the newspaper workers. Those who came from Ft. Worth by the special train, found that they were to be greatly entertained all of the day, starting with a breakfast at Ft. Worth, entertainment at Wichita Falls, Quanah, Childress and Clarendon.

A dinner was given Wednesday night at the Amarillo Hotel by the Southwestern Bell Telephone Co., and a luncheon Friday noon by the Board of City Development.

Thursday afternoon was given over entirely to pleasure. Cars took the editors to the Devil's Kitchen, where a large barbecue was served and a few hours spent enjoying the coolness of the Devil's Kitchen.

The guests started to arrive at the College building soon after five o'clock and were escorted over the big building for an hour or more. The swimming pool was opened and many of the men enjoyed a refreshing swim.

At seven o'clock President J. A. Hill delivered the welcome message from the front entrance of the main building. He termed the editors co-laborers with the teachers in the dissemination of truth. He declared that teacher training is the highest function of the state in the realm of public education. He urged the newspaper men to carry the gospel of education to their constituents; to demand schools of sufficient length of term, good quality of teachers, and adequate equipment.

President Hill pointed out the magnitude of the administration building and called attention to the progressiveness of Canyon and this community.

A short response to the welcome was made by Sam Braswell, president of the Texas Press Association. This speech was followed by an address from Henry Edwards of Troup, Texas. Mr. Edwards dwelt at length on the educational conditions in Texas. He plead for a square deal for every child and stressed the need for a general

### Lynch Davidson Spoke Friday Afternoon to a Large Audience Here

Lynch Davidson, candidate for governor, spoke twice Friday in Canyon to large audiences.

At nine o'clock in the morning he addressed the students of the College at the chapel period, and in the afternoon at two o'clock spoke to a large gathering of citizens at the court house.

Speaking in chapel to the faculty and students Friday morning in the interest of his campaign for governor, Hon. Lynch Davidson stressed business efficiency as the thing most needed in state administration at this time.

Mr. Davidson stated in the beginning that he believed home, education, and religion to be the most important factors in the preservation of the nation. He opposes the curtailment of expenditures for public education, but on the other hand would increase the facilities to a considerable extent. He cited the Diaz regime in Mexico as a great national blunder in bringing about material prosperity without attendant growth in education and free religious worship. The speaker declared he was opposed to group rule from every standpoint.

Senator Davidson believes that strict adherence to sound business principles will save the state of Texas at least ten million dollars each biennium. His plan includes rehabilitation of the state insane asylums and the penitentiary system. He would put the state on a cash basis and save millions every year through cash purchases and discounts. He favors the unit plan of distributing the education funds; this plan, he said, would make the six months school term possible.

While he does not claim to have established a legislative record, Davidson maintains that he has helped defeat many laws which would have been detrimental. He mentioned the state railway as an example of his ability to apply business methods to state-business.

In his address Friday afternoon, Mr. Davidson stated that the present race had developed itself into a division of "can" and "can't" candidates, as far as reduction of costs in administering the State's affairs were concerned.

"My opponents have been coming to you telling you that taxes cannot be reduced. I say unto you that Lynch Davidson is a 'can' and not a 'can't' candidate. I have repeatedly asserted and I again say that the overhead can be reduced \$10,000,000 biennially, and will be when I am elected Governor. Such a reduction will lift the load of taxes in proportion."

Mr. Davidson offered as examples of his ability to carry out his promises the saving of the Orient Railroad to Texas and the rehabilitation of the State Railroad.

Speaking at Happy Thursday morning, Mr. Davidson called attention to the poll taken of the newspaper men on the Texas Press Association special train from Ft. Worth to Amarillo. The poll showed the following results: Lynch Davidson 76; T. W. Davidson 13; Robertson 21; Collins 7; Barton 3; Pope 2; Mrs. Ferguson 1. Complimenting newspaper editors of Texas as "that service-giving profession whose mind is always in tune with the pulse of their people," Lynch Davidson predicted his victory in the first primary with a vote of 432,516, as against a total of 297,387 for all his opponents combined.

He believed that his majority among the 126 editors taken in the poll on the Texas Press Association special would be carried out in the whole of Texas.

He pronounced as dangerous the party and political influence in Texas by the group headed by T. Whit Davidson. This party bankrupted the state of North Dakota and later came to Oklahoma and there installed Jake Walton as governor and the outcome there is obvious to all. Then these

HON. LYNCH DAVIDSON

same leaders came to Dallas and put forth a man, T. W. Davidson, who in his home county had been a leader of the populist party.

Lynch Davidson states that he was first a farmer, then a sheep herder and finally a saw mill helper. He knew the conditions of the farmer and the working man. He declared that was by nature and training both and could not violate their confidence for their views were his, for he knew nothing else.

### Deeds Filed This Week Transferring Randall County Land

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office.

Charles Johnson to T. H. McClelland southeast 1/4 section 134 block 9, consideration \$1.00 and exchange of property.

Geo. H. Gattfried et al to John Weyen, lots 6, 7, block 59, Canyon City, consideration \$175.00.

J. G. McClintock to Mrs. Cora McClintock, lots 3, 4, block 7, Roy Lindsay addition to Amarillo, consideration \$10.00.

Wallace T. Hazlewood to W. T. Hazlewood, sections 26 and 27, block 1, consideration \$10.00 an "assume indebtedness."

C. O. Keiser to Clark R. Strong, west 1/2 of southeast 1/4 section 6 block M.S., consideration \$2400.00.

Mary Elizabeth Lester to Rt. Rev. Joseph Lynch, lots 11, 2, block 6, Normal addition, consideration \$410.

W. T. Oliver to Mrs. Hattie K. Robinson, middle 100 feet of south 1/2 of block 12, Victoria addition, consideration, \$1513.67.

J. L. Steen to W. T. Oliver, middle 100 feet of south 1/2, block 12, Victoria addition, consideration \$200.00.

A. T. Smith to J. I. Penrod, lots 18, 19, 20, block 40, Canyon City, consideration \$10,000.00.

I. Z. Smith to J. I. Penrod, lots 16, 17, 18, 19, 20, block 44, Canyon City, consideration \$12,500.00.

Floyd Davenport to J. R. Wilson, sections 96 and 65, block 6, consideration, \$27,171.00.

S. H. Smith to Anna M. Smith, section 100, block 9, consideration \$,00.

J. T. Service to W. A. Brasher, half interest in lots 9, 10, block 34, consideration \$825.00.

S. M. Jay et al to W. F. Groom, section 169, block 6, consideration \$16,650.00.

"Say, ain't you de feller vat I met in Philadelphia?"

"Philadelphia, I ain't never been dere."

### R. B. Cousins Will Conduct High School Section in the Institute

Hon. R. B. Cousins, former president of this institution and now head of the new Teachers College at Kingsville, will conduct the High School division at the Consolidated Teachers Institute here during the five day session, September first to fifth. Mr. Cousins will also deliver three addresses before the general session of the institute.

Prof. R. P. Jarrett will be conductor of the Consolidated Institute this year. He is already naming the faculty and preparing the program for the meeting.

Mr. Cousins addresses are entitled: (1) Professionalism; (2) What is it all about?; (3) Seeing the promised land.

**Subjects for High School**  
Subjects for discussion in the High School Section have been chosen as follows:

1. Its Place in the Scheme.
2. The Junior High School.
3. After the High School, What?
4. What makes a High School?
5. The Spiral Plan.
6. and 7. High School Subject Matter.
8. High School Sociology Applied in Organizations.
9. High School Movements in Individuals or Groups.
10. High School Methods.
11. High School Results.
12. Vocational Guidance Through and Above High School.

### Child-birth

WHEN the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend."

Mrs. C. J. Hartman, Scranton, Pa., says: "With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used 'Mother's Friend' and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes."

Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradfield Regulator Co., B.A.-75, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. "Mother's Friend" sold by all drug stores—everywhere.

### Shamrock Man Goes in Cheese Making Business As a Side Line

While doing Lyceum work about five years ago in the southern part of Idaho, A. M. Hilburn conceived the idea of a cheese factory at Shamrock. In the section through which he was traveling at that time, almost every town has a cheese factory, and he was given every opportunity to study the industry. It was not Mr. Hilburn's plan at that time to establish the factory himself, but to induce a good cheese maker to come to Shamrock. He became acquainted with the man who had the reputation of being the best cheese maker in Idaho and sought to get him to come to this city but was not able to do so.

Later, while traveling in Wisconsin, the greatest cheese producing state in the Union, he made other attempts to get a cheese maker to come to Shamrock but all the best ones were busy and prosperous and could not be prevailed upon to leave. He then decided to learn cheese making himself and devoted his spare time between Lyceum dates to that end. He relates that he had to pay the first cheese maker he worked for. After gaining a little experience he was allowed to work for nothing. He studied cheese making from every angle and became an expert cheese maker thru practical experience in the factories of Wisconsin, some of the larger of which produce as much as 17,000 lbs. of cheese daily.

#### Establishes Plant Here.

At the close of the last Lyceum season he returned home and announced his intention of establishing a cheese making plant. His friends, ourselves included, thought at first that he was only joking and it was only when he made use of the Texan's office typewriter to make orders for cheese making equipment that we became convinced of his earnestness.

Mr. Hilburn has made a model factory at his home about half a mile south of town. His present plant is small in size, but big in its possibilities he has all the equipment necessary for cheese making and has had a special cellar dug for the curing and ripening process. This cellar is over six feet deep, is cool in the hottest weather and is ideal for the purpose. Two ventilators insure plenty of fresh air. In the cellar is a specially constructed cabinet of screen wire, which is mouse, fly and insect proof, where the cheese is stored during the curing process.

He now has about 200 pounds of cheese in various stages of curing. The cheese range from five to seven pounds in weight and are of the very highest quality.

The process of cheese making is very interesting to the uninitiated. Every step requires the utmost skill and care. Four weeks or longer are required for curing American cheddar, or full cream cheese, and about eight weeks for brick cheese. After being taken from the mold each cream cheese is wrapped in cheese cloth, several days must then lapse before the cheese is coated with paraffin. Mr. Hilburn allows more time for this process than is required by the Wisconsin state law. Each cheese must then be turned daily until it is cured. All cheese are dated when taken from the press and again when paraffined, so that Mr. Hilburn can tell exactly when each one is ready for market.

All of Mr. Hilburn's cheese is made from the whole, rich milk from his own full blood Jersey cows. While full cream cheese is his principal product, he also makes an extra high grade of brick cheese. The process required in making brick cheese is more intricate and longer than that of cream cheese. Each brick cheese must be washed daily while ripening.

Mr. Hilburn has already placed some of his cheese on the market, and all those who have been so fortunate as to obtain some of it are unanimous in the opinion that it is the best cheese they have ever eaten. Local merchants are paying above market price for Mr. Hilburn's product, and he is unable at present to supply the demand here in Shamrock. However, it is his purpose to enlarge his plant from time to time as it is necessary to take care of the demand, and expects ultimately to supply the merchants in all the neighboring towns with cheese.

**Cleanliness Important Factor**  
The thing that strikes the visitor to Mr. Hilburn's plant most forcibly is

### An Unusual Study of President Coolidge

This portrait study in profile is from latest poses of the President in his office at the White House. He seldom sits for profiles.

the cleanliness and care devoted to every stage of the cheese making process. "Cleanliness is essential to cheese making," asserts Mr. Hilburn. "Most people are very particular about their butter and other dairy products being produced under clean conditions, and think very little about the conditions under which the cheese they eat is procured. It is more important that cheese should be made in clean surroundings than butter."

Mr. Hilburn is also making investigations as to the adaptability of this kind of cheese can only be made under certain conditions. The principal consideration is that the land where the cows are pastured from whose milk the cheese is made, must contain at least four per cent of lime. Both the land and water in this section contain lime and it is quite probable that this may be an excellent country for producing Swiss Cheese.—Wheeler County Texan.

#### LIFE WISDOM

Without courage there can be no truth, and without truth there can be no virtue.

Many men never discover the larger part of themselves; emergencies and heavy responsibilities should call out the hidden reserves of a man's nature, latent energies should spring forth.

To go forward is important; to go straight is more important.

Be patient, if thou wouldst thy ends accomplish; for like patience is there no appliance effective of success, producing certainly abundant fruit of action, never damped by failure, conquering all impediments.—Bharati.

Is it so bad, then, to be misunderstood? To be great is to be misunderstood.—Emerson.

What I must do is all that concerns me, not what the people think.—Emerson.

Men that are ruined are ruined on the side of their natural propensities.—Burke.

Never say anything wrong of anybody if you are not quite sure about it; and if you are sure, ask yourself "Why do I say it?"—Lavater.

Associate yourself with men of good quality if you esteem your reputation.—George Washington.

"Only the best blades keep their temper."

"Laziness kills courage."

Let any man show the world that he feels

Afraid of his back, and 'twill fly at his heels.

Let him fearlessly face it, 'twill leave him alone.

And 'twill fawn at his feet, if he fling it a bone.—Owen Meredith.

There are more than 1,200 properly accredited press or publicity agents in New York City alone. Their work is to get free publicity for the individuals or movements that employ them.

### Buffalo Football Outlook Best in Years—Games Announced

Prospects for football were never brighter at the College than they are at present. With Athletic Director S. D. Burton and Coaches Eckhardt, Jackson and Lockhart to look after the training of the team it looks as if there is nothing to be desired in that department.

Eckhardt was one of the outstanding men of the south last season and was rated as one of the best backfield men in America. Jackson comes from Oklahoma University and comes with the very best of endorsements from the authorities of the Sooner Institution. Lockhart has been connected with the institution for three years and has directed the destinies of the "Yearling" team during that time. He will again have them in charge.

Eckhardt will coach the backfield men while Jackson will do most of the scouting and devote most of his attention to defense. Director Burton will give most of his attention to the line. Burton has had charge of athletics for the past three years at the college and there has been a wonderful growth during that time, in the department of athletics.

The schedule as completed to date is as follows:

Oct. 18, University of New Mexico at Albuquerque; Oct. 25, Simmons University at Canyon (Home Coming); Oct. 31, Abilene-Christian College at Canyon; Nov. 11, New Mexico Military Institute at Canyon; Nov. 17, North Texas Teachers College at Denton; and devote most of his attention arillo; Nov. 27, Montezuma College at East Las Vegas, New Mexico.

There will be one or two other games scheduled for early season, but the team will probably not play more than eight or nine games. The home coming game with Simmons should be a great drawing card for the fans of the Panhandle as Coach Elmer Shotwell of Simmons is a graduate of West Texas State Teachers College and will have many friends watching his team pitted against his Alma Mater. It is believed that there will be several thur to defense. Athletic Director Burton for that game.

Shotwell is now in Canyon visiting at the home of his parents, and says that he has prospects for a great team at Simmons this fall. He will attend a coaches school at Notre Dame in August.

Annie Wood, a graduate of '22, and who taught here one year, was recently married to Ben Hodges, a merchant of Lubbock. Miss Woods, whose former home was in Cisco, taught in the public schools of Clayton during the past session. The couple will live in Lubbock.

Butler Brothers, merchandise wholesalers, have announced that, in the public interest the firm has decided to quit selling revolvers and pistols. This action was taken because of the growing sentiment throughout America against carrying concealed weapons.

"Yale will never be a rich man's college for we'll shut up before that happens. We like to have the high school boys from the Middle West. We have not always been getting them, but we are getting them now."—President James Rowland Angell.

Foreign authorities credit Japan with practically 100 per cent literacy.

There are on an average of three million persons sick all the time in the United States, and forty-two per cent of this illness could be prevented, according to the health commissioner of Chicago.

### Engineers Survey the Grounds Tuesday for New \$65,000 Depot

Santa Fe engineers were in the city Tuesday and surveyed the location for the new \$65,000 depot.

It is not known just when construction may be started, but from all indications, actual work will soon start, as it was given out in official circles some time ago that the new depot would be completed by the first of January.

#### ABSENTEE VOTING

Anyone desiring to vote as an "Absentee Voter" may appear before a Notary Public or Clerk of Court not more than twenty days nor less than ten days before the Primary and deliver to such officer his Poll tax receipt, or make affidavit concerning same. The officer shall mail same to clerk of the county court of residence of absentee voter and an official ballot of that county shall be forwarded by said officer. On receipt of same the absentee voter shall appear before said officer and make out his ballot, which shall be transmitted to clerk of county court of residence of absentee voter.

Acts, 38th Leg. Page 318.

By specific act of last legislature those who have attained twenty one years of age after Feb. 1st, 1924, and up to and including July 25th, 1924, are not required a poll tax nor to obtain an exemption certificate but may vote without same.

Acts First Called Session 38th Leg. P. 45.

J. L. Wohlford, County Attorney, Randall County, Texas.

"Cameography" is a new art by means of which it is possible to produce the likeness of the human features by the aid of photography in copper, bronze and other metals, and in marble.

America is guilty of wasting from \$2,000,000,000 to \$4,000,000,000 annually, by burning raw coal in its many scattered little furnaces instead of converting it into electrical energy at or near the mines, and salvaging the by-products that now go up in smoke.

The Forest Service reports that 36,000 forest fires every year destroy timber and property valued at \$16,500,000 in the United States, besides costing many human lives. Be careful with fire in the forests.

## CHALLENGE

I have been reliably informed that Messrs. C. N. Harrison and W. E. Bennett are making the statement that I collected \$75.00 from Randall County, \$75.00 from the City of Canyon and \$75.00 from one of the District Schools, all for the purpose of paying my expenses to Austin for ONLY ONE TRIP. That is not true and I challenge these gentlemen to publish that same statement over their signatures in the Randall County News in its issue of July 3rd, 1924.

### LYNCH DAVIDSON FOR GOVERNOR

"More business in government and less government in business"; more economy, less taxes, and fewer State jobs; less laws and quicker justice; the State on a cash basis; a saving of ten million dollars biennially in the operation of the State Government; better educational facilities; Texas the banner good roads State at a 50 per cent less cost.

VOTE FOR A BUSINESS MAN  
FOR GOVERNOR.

## Superfection Oil Cook Stove

The standard size Superfection burners, also Little Giant burners in performance, cooks as fast as the standard size gas burner and is absolutely reliable to the clean and odorless heat which has made this stove so popular in the world. Superfection now adds the cooking speed of gas which removes the last objection of cooking with oil and the most economical and will pay for itself in a short time in the use of fuel over the ordinary oil or coal stove.
