NEWS FROM IREDELL COMMUNITY

By MISS STELLA JONES

Misses Ruth and Gladys Cook of DeLeon are visiting their cousin, Mrs. Jack Blackby.

Mr. and Mrs. J. B. Dunlap left Tuesday for Fairy, where they will cook for a thresher in that community.

Mary Heyroth is visiting in Hamilton.

Miss Ila Smith of Waco visited her cousin, Mrs. Pike here this week.

Mr. and Mrs. Clem McAddin and children left Monday to cook for Will Foul's independent thresher.

Mr. and Mrs. Ben Jackson moved to their new home last Tuesday.

Mr. and Mrs. Humphrey and baby of Menard came in Tuesday. They had been to take his mother to Temple, and stopped by for a few hours' visit with her sister, Mrs. Laswell. They went on that evening to Stephenville to see her parents, Mr. and Mrs. Cassett.

Mrs. Louise Griffin and daughter, Evelyn were in Hico a few days this last week.

Mrs. Lula Hicks of Dallas visited old friends here this week.

Mrs. Humphrey of Menard came by here to see Mrs. Laswell a few hours Thursday on her way home from Temple. She and Mrs. Laswell and her son went on to Stephenville. Mr. Laswell went up there the next day after Mrs. Laswell.

Morris E. Nance is visiting in Hillsboro.

Mrs. August French and grandson, Bobbie Richard went to Fort Worth Friday. Mrs. French goes there for treatment. She remained all week visiting relatives.

Mrs. J. L. Newsome and daughter, Miss Inez and Mrs. W. R. Newsome were in Cleburne Saturday.

Ed and Willie Gordon and John Gordon of Ft. Worth and Weatherford, visited their sister, Miss Mittie, who is ill at the home of her sister, Mrs. Bern Sawyer.

Mr. and Mrs. Longlin were in Hico Friday.

Mr. and Mrs. Williamson and baby, of Dallas came up Tuesday and they in company with Mrs. Strong, motored to Waco and visited until Wednesday.

Mr. W. R. Myers and daughters, were in West to see Mrs. Ray Trimmer, Tuesday.

Mrs. W. B. Warrell, who lives a few miles south of town, has a cabbage that has ten heads and weighs about 8 lbs.

Mr. and Mrs. S. W. Russell of Dallas spent the week-end here with her sister, Mrs. Harve Sawyer.

John and Willie Weeks of Arlington were here this week-end.

Mrs. Otto Bowman and son returned to their home in DeLeon after a

visit her with Mr. and Mrs. Cass Bowman.

Saturday, June 15, a chest of silverware was given away at T. Mitchell's store. Miss Junita Koonsman was the lucky one, as her name was drawn out first.

Miss Jodelle Schench of Shamrock is visiting here.

Mr. and Mrs. Charlie Craddock of Waco spent the week-end here with his mother, Mrs. Appleby.

Mr. and Mrs. Clem McAddin and Allen Dawson took Wanda McAddin to Cleburne Saturday to an ear specialist, as she has been having trouble with one of her ears.

The play, which will be presented by some of the Methodist people, will be put on Saturday evening, June 29. Everyone come and see "The Poor Married Man" at the school auditorium.

Cecil Cook, of DeLeon was here Saturday.

George Cunningham of Fort Worth is visiting his grand parents, Mr. and Mrs. Montgomery.

Miss Willie Glenn and Linda Manns were guests of Gladys and Mathilda Royal Sunday evening.

Mr. and Mrs. Buster Glenn and son visited Clark Royal and family Sunday evening.

Good Orchard Practices Shown

College Station, June 21.—Orchards can be successfully grown on deep blow sand if fertilized and a cover crop such as rye is planted to hold the soil, it has been brought out in Van Zandt county where systematic orchard demonstrations are under way by the county agent, J. M. Hall, who lives six miles west of Canton, planted rye in his ten-acre peach orchard last year, turned it under in May and fertilized the trees. They have set a good crop due to careful spraying, pruning, fertilization and cultivation. This is one of a large group of similar orchard demonstrations conducted by county agents in East Texas in cooperation with J. F. Eschborough, Horticulturist in the Extension Service.

The Coleman Chamber of Commerce recently elected Sim O'Neal to serve another year as secretary of the civic body. Elmo V. Cook, head of the agricultural department and teacher of agriculture in Coleman High School, tendered his resignation to accept a position as agricultural in Bosque County.

"The largest privately owned irrigation system in the world" is the claim for the system that supplies the Mercedes and Weslaco sections in the Rio Grande Valley.

Methodist Church

Sunday school 9:45 A. M., J. C. Barrow, superintendent.

"Young Peoples' Church," 7 P. M., Miss Laurel Persons, president, Mrs. S. E. Blair leader for Sunday evening.

Epworth Juniors, Tuesday 9 A. M., Mrs. S. E. Blair, superintendent.

Prayer meeting Wednesday 8:15 P. M., will be led by Brother R. W. Copeland and he desires and expects a large and hearty cooperation.

No preaching services Sunday, account the Baptist Revival meeting and the absence of the pastor from Hico.

"Work while it is day,"
PAUL W. EVANS, Pastor.

LEGAL NOTICE

The State of Texas, County of Hamilton, Notice of Sheriff's sale of real estate.

By virtue of an order of sale issued out of the District Court of Hamilton County, Texas, on a judgment rendered in said court on the 6th day of March 1929, in favor of G. P. Toland and against C. W. Wier, No. 3190 in said court, I did on the 6th day of June 1929, levy upon the following described real estate situated in Hamilton County, Texas, to wit: An undivided interest of twenty eight acres of land out of a subdivision of 240 acres belonging to the estate of J. R. Wier, deceased, out of

Hamilton County School Land Survey No. 19, and on the second day of July 1929, being the first Tuesday in said month, between the hours of 10:00 o'clock A. M. and 4:00 o'clock P. M. on said day, at the court house door of said county, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said C. W. Wier in and to said 240 acres of land for the purpose of satisfying the judgment rendered in said cause.

Dated at Hamilton, Texas, June 6, 1929.

MACK MORGAN, Sheriff of Hamilton County, Texas.

The Chevrolet Six offers all the Distinct Advantages of BODY by FISHER

Never in all the history of the automotive industry has a low-priced car provided coachwork of such outstanding style and quality as the new Chevrolet Six.

The smart new bodies are built by Fisher, with all the mastery in design and craftsmanship for which the Fisher name is famous. Lines are long, low and graceful—seats are deeply cushioned and luxuriously upholstered—interior hardware is fashioned by Terstedt—and finishes are modishly smart and lustrous.

In construction, too, the new Fisher bodies represent a marked advance. Built of selected hardwood and steel—they provide a measure of strength, endurance, comfort and safety unapproached in any other low-priced automobile.

Visit your Chevrolet dealer today. See and inspect this sensational new Chevrolet Six.

HICO, TEXAS

WHAT'S DOING IN WESTERN TEXAS

Anson is doing a great deal of building. A theatre with a capacity of 450 on the main floor and 100 in the balcony is to be erected by Knox Pittard. The plans call for a modern theatre front, three entrances, the foyer of tile. Floor will be of cement and tile. The dimensions will be 30 by 120 feet.

Hereford celebrated the opening of a new \$80,000 Baptist church by starting a revival in it. All precedents in church construction were broken in the decoration, seating and architecture of the distinctive church. One thousand auditorium or theatre chairs are in supply. The rose colored, roof, eaves, and circular-topped windows suggest the Spanish motif.

The De Leon Free Press recently celebrated its 40th birthday. It was established late in June in 1889, eight years after the establishment of the town, and has been published continuously ever since.

Tahoka is to have a new business block. C. A. Hill, of Lamesa, has announced that he will erect a brick building 50x125 in size to house a chain grocery store and an automobile agency. The old Howell building, one of the first garages erected in this section, will be razed for the new structure.

Silverton's new High School building will cost \$80,000 and will be completed by August 15. The school board will make plans to organize both a Junior and a Senior High

school, according to C. D. Wright, president of the board.

Brownfield is rushing its street paving. At a meeting of the city council recently, Wichita Falls firm was employed as engineers on street paving with instructions to start actual construction as soon as possible. It is thought that the proceeds of the bonds recently voted will provide for the paving of several additional blocks.

Borger, the worlds largest carbon black manufacturing center, has ten plants operating or nearing completion, with 63 units, consuming 315,000,000 cubic feet of residue gas daily. Four hundred and seventy five thousand pounds of carbon black for tires, etc., are made every day.

The Wichita Falls cheese plant is buying 27,000 pounds of milk a day from farmers and dairymen in the area, which means an income of \$600 daily and \$20,000 monthly from a source that was non-existent only a few months ago. Other creameries and purchasers of milk in that city swell the total considerably.

Perryton will soon have a modern three story hotel. It will contain 41 rooms and will supplement another good hotel under construction containing 26 rooms. Paving of 14 1-2 blocks in the business district is under way and a \$50,000 theatre, equipped with vitaphone is nearing completion.

For the lowest subscription rates on the Dallas Morning News and Dallas Journal, see J. C. Huchingson in Postoffice Building.

Don't forget Dr. C. C. Baker, the dentist, is in his Hico office every Friday from 9 a. m. until 5 p. m. Lady assistant. Office over the Ford sales. Phone 276.

HOME MADE BROODERS FOR CHICKENS SUCCESS

St. Joe, Ark.—When County Agent C. C. Lockwood undertook the organization of a poultry association at Cozyhome, Ark., last winter, he was faced with the condition that there was little or no poultry equipment in the neighborhood and that a majority of the people there were not able financially to bear the expense of an elaborate plant. He considered, however, that there were saw mills there where lumber was cheap, and that there was an abundance of flat rocks and wood everywhere. Lockwood evolved a furnace brooder which is built with no cost except the labor involved and which has proved successful.

A crude rock furnace was built, a trench dug the length of the brooder house to be constructed, and at the far end of the trench a chimney was built. The trench was covered with flat rocks, on this was placed a small layer of dirt, and on that an inch or two of sand. Then the brooder house was built over the trench, and when a fire was built in the furnace, the flame was drawn through the trench to the chimney at the farther end. In this way the sand on the floor of the brooder house and covering the trench was warmed. To hold the heat a strip of metal roofing was placed over this heated strip from nine to 12 inches above the floor.

MODEL "A" FORD MUST STAND RIGID INSPECTION

Precision manufacturing and an unusual degree of importance which the Ford Motor Company attaches to the inspection of Model A cars has gone far to eliminate that tedious known as the "breaking in" of a new automobile.

On the windshields of the new Model A are directions which suggest a driving speed limit for the first 500 miles of 35 miles per hour. This is in marked contrast to the old line of instruction which cautioned against a speed of more than 20 or 25 miles an hour for at least 1000 miles.

Excess heat is the most destructive agency which may affect an automobile, particularly in the first several hundred miles it is driven. Friction is mainly responsible for overheating, and a piston that is fitted too tightly may seize and in turn score the cylinder wall. This means an expensive repair job.

Careful machining of engine parts, such as cylinder blocks, pistons, camshafts, crankshafts, etc., the proper fitting of bearings, accuracy in the cutting of gears; multitudinous checks during the process of assembling the Model A and rigid inspections combine to produce an automobile which is ready for the road when delivered. For this reason, it may at once be operated to the limit of speed prescribed by the motor codes of a great many states, without going through the customary "breaking in" period.

In March, 1929, Texas produced a daily average of 809,000 barrels of oil against 789,000 in February and 694,000 in March, 1928.

About half the commercial winter spinach crop of the United States is produced in Texas from 29,000 acres sown to that crop.

Will soon be time to crown the baseball king.

MEETING WILL START AT CHURCH OF CHRIST JUNE 30

Evangelist D. Lee Hukle of the Church of Christ will begin a series of sermons June 30th at 11 a. m., to continue over first and second Lord's Days in July. He is an able minister of the Gospel; which is God's power to save. Rom. 1-16.

He was reared in this community and needs no commendation from us, for all that are acquainted with him, knows that he lives a Christian life; having no creed, but the Bible; preaching nothing but the truth; Jesus said, "You shall know the truth, and the truth shall make you free." John 8-32. We will have good song leaders and make everything comfortable. So come, let us reason together.

BROADWAY STARS TO APPEAR AT STATE FAIR

Dallas, Texas, June 18.—"The Red Robe," Auditorium attraction at the 1929 State Fair of Texas, will bring the cast now playing on Broadway to Texas, according to the contract recently signed between the Shubert office in New York, and T. E. Jackson, president and Roy Rupard, secretary of the State Fair.

Walter Wolf, Marjorie Peterson, and George Dobbs, stars of "The Red Robe" were at the 1927 State Fair in "Countess Maritza." Wolf is the leading man in "The Red Robe" and Peterson and Dobbs have a number of specialty dances.

TEXAS TECH MAKES VERY RAPID GROWTH

Lubbock, Texas, June 21.—Summer school enrollment at Texas Technological College has reached 1,085 a gain of more than 30 percent over the enrollment at the same date last summer session. Many classes are swelled to undue proportions and additional sections in many cases had to be arranged for. More than 1100 will be enrolled before the end of the second week.

Several hundred additional new students will be expected to enroll at the beginning of the second summer term July 13, making the total attendance for the summer probably 1,400. The enrollment for both summer terms last year was 965. One of the features of the present summer enrollment is the large number of students who have come to Tech to do their graduate work.

UTILITY COMPANIES HARD PUT TO KEEP UP WITH TEXAS

One fact about Texas utility companies is that they are hard put to it to keep up with the rapid growth of the State, and there is a constant increase in investment necessitated by needed extensions and enlargements to serve their customers satisfactorily.

Instance: The Lone Star Gas Co. is to spend several million dollars this summer on improvements, including 200 miles of pipe lines, new compressor stations, new offices and extensions to at least a dozen cities for the furnishing of gas.

The Texas Power and Light Co. recently issued \$2,500,000 worth of preferred stock to take care of added extensions.

The Central Power and Light Co. announces the expenditure of \$6,000,000 this year on improvements and extensions and the same, in greater or less degree, is true of practically every other large utility company in the State.

WOMEN WORKERS IN TEXAS REPRESENT ONE-THIRD ALL

About 30 per cent of employees in establishments of all kinds in Texas are women, according to the Texas Department of Labor, which recently compiled statistics from 2,763 concerns, including all kinds of factories, hospitals, laundries, barber shops, beauty parlors, hotels, restaurants, mercantile, publishing and printing, public utility, automobile and other kinds of establishments.

In the 2,763 concerns were employed 39,576 men, 12,935 women and 1,151 children. Of the male employees, 67 per cent were married; of the women 37 per cent. Only 39 per cent of the women employees were found to earn as much as \$15 a week. Newspaper and printing establishments made the best showing in wages for women employees with 81 per cent receiving more than \$15 a week and only 9 per cent receiving less than \$10 a week. Printing establishments also showed the shortest working hours with men and women working an average of 48 hours a week.

RODEO AND HORSE SHOW AT STATE FAIR

Dallas, Texas, June 18.—A world champion rodeo, and combined horse show and style revue will be featured in the new 6,000 seat capacity, Livestock Coliseum at the State Fair of Texas, according to T. E. Jackson, president, and Roy Rupard, secretary of the state exposition.

The horse show and style revue will be one of the most elaborate entertainments of its kind ever staged in this country. Committees are now working on plans for the horse show under the supervision of Otto Herold, director in charge.

W. T. Johnson, millionaire West Texas cattleman, will produce the rodeo. As this "corral meet" comes so late in the year, points awarded will have much to do in deciding championships for 1929.

Pharr—Mrs. Roy Dreiblebis, local home demonstration club member, has cleared \$67.16 from the sale of leather products of her own making by methods learned from Mrs. Etta W. Ringgold, home agent for Hidalgo county. Among her creations are purses, bill folds, laced bags and kay-tainers. Her total outlay for tools and leather materials was \$19.84 and her sales thus far are \$87.

Editorials From Other Papers

Deliberate Violation

No doubt there is a popular demand for the elimination of aliens from the census count upon which congressional reapportionment is to be based. If there were no such popular demand, the national house of representatives would not have cast such a decisive vote in favor of such elimination. Possibly the senate will approve the house amendment and thus make alien elimination the law of the land in so far as congressional apportionment is concerned.

But regardless of popular demand the house provision clearly runs counter to the plain mandate of the constitution. The organic law specifies very clearly who shall be counted and who shall not be counted when congressional apportionment is being provided for and given metes and bounds. Aliens are nowhere excluded from the count by constitutional language. When the house voted to ignore the constitution, if this exclusion shall be written into the law of the land, it will call for a court decision nullifying an act of congress.

If such a decision is handed down at some future day, the active enemies of the courts will at once renew their demand for constitutional limitation upon the power of the courts to abrogate an act of congress. They will once more view with grave alarm the encroachment of the judiciary upon the prerogatives of the congress. For all that, it is well enough to note that congress is deliberately violating a constitutional principle and making it necessary for the judiciary to uphold the organic law of the land.—Waco News-Tribune.

Auto License

The state Senate has an excellent opportunity this session to do a real service for the motorists of Texas by following the example set Thursday by the House of Representatives in passing the bill for reduction of the state auto registration fee.

The license assessment, under the

present law, is too high. Texans have long been paying a larger fee than that levied in most states, with an added burden in some instances of a so-called municipal "luxury" tax which places the family auto on the assessor's statement along with diamonds, pianos, or what-have-you.

Each county, under the bill passed by the House, would retain all the fees collected in the county up to the amount of \$250,000, all in excess of that sum going into the state treasury—an arrangement under which some of the sparsely populated counties in West Texas would pay nothing into the coffers at Austin. The cry may arise that that part of the measure may tend to be inequitable, but it is not when one considers the expenses per capita of those counties on a ratio with the more densely inhabited sections.

Compared with other states, Texas now stands near the top of the list insofar as motor car ownership is concerned, and favorable action by the Senate on the right direction would be a step in the right direction.

A thirty per cent cut, such as the House has approved, would put the registration fee in Texas on a basis nearer the standards set by other states—that is, of course, if the old joker having to do with an increase in the gasoline tax isn't shuffled somewhere in the legislative deck.

The man who maintains an automobile has liability enough on his hands without paying an excessive premium for the privilege.—Fort Worth Press.

In 1926-27 Texas spent \$46,599,415.31 on its public school maintenance, of which \$25,949,135.31 was from local taxation. State apportionment was \$15 and from local taxes \$19.23.

Hereford claims the largest single wheat field, under one fence, in the State. It comprises 6,900 acres.

PUT YOUR TELEPHONE ON HALF PAY

If you are going away for at least thirty days and not over four months, arrangements can be made to place your telephone on a "VACATION RATE" of one-half the regular rate.

The advantages are:

- (a) You hold your assigned number.
- (b) Your listing remains in the directory.
- (c) You escape the installation charge upon return.
- (d) Usually your service can be instantly restored.

Our manager will be glad to cooperate with you in this matter, as well as all other matters related to your TELEPHONE SERVICE.

Hico, Texas, Friday, June 21, 1929.

The public has a strange way of encouraging street cars, says Owen D. Young. It is like the farmer who, according to Mr. Young, held his horses in such high esteem that he talked to them daily, but predicted they would get a licking before the day was over.

"The public keeps the street railway industry just as the farmer keeps his horses, because it needs the service and knows it to be indispensable." Mr. Young says: "It has fallen into the habit, after years of practice, of talking to the industry.

"It is indeed rather a dull morning when the public, in one for another, does not threaten to lick the industry before the day is done.

"It is now time for the public to realize that it has not only weakened its servant, but it has impaired its service."

One of the newest developments resulting from the gas industry's half-million dollar research fund has been the perfecting of a gas fired furnace which will revolutionize brass foundry practice, according to a recent announcement.

Some of the advantages possessed by the new furnace are the elimination of metal losses during melting, elimination of a large part of the cost of refractory and crucible materials maintenance, positive temperature control, improvement of working conditions and time and labor saving, and avoidance of extreme heat, noise and fumes.

This is a good illustration of the continued progress being made by the gas industry. Both in home and industry gas fuel is proving its worth in economy, efficiency and ease of operation.

Wife of Rep. DePriest White House Guest

The Washington Daily News states, society is enjoying a little excitement over the fact that Mrs. Hoover yesterday afternoon entertained Mrs. Oscar D. Priest at tea. Mrs. DePriest is wife of the colored Congressman from Illinois. Society is still mindful of the storm of discussion that resulted from President Roosevelt's action in entertaining Booker T. Washington, the great colored educator, at dinner. That similar tea-party will follow Mrs. Hoover's course is regarded as altogether unlikely, but the incident appears to have provided a subject of absorbing conversation.

Others at the small tea party included Mrs. James Good, wife of Secretary of War, Mrs. William D. Mitchell, wife of the Attorney General, Mrs. Arthur M. Free, wife of the California Congressman, Mrs. Clyde Kelly, wife of the Pennsylvania Congressman, and Miss Grace Burton, niece of the Ohio Senator.

Utility Advertising Promotes Sales, Says N. E. L. A. President

That the public utilities have just as much need for advertising to increase their business as any other industry, is the contention of P. S. Arkwright, President of the National Electric Association, and President of the Georgia Power Company. "Advertising," says Mr. Arkwright, "is not for the purpose of controlling the editorial or news policies of the papers, but solely to increase consumption, which ultimately results in less cost of the article itself, and is of direct benefit to the consumer.

"We are a business institution," says Mr. Arkwright, "we are competitors with other producers of power. There is a great deal of missionary work yet to be done in making even the domestic use of electricity universal. Our problems and motives are the same as those of other advertisers. We desire to sell more electricity, and advertising is one way to help to do it. The electric light and power companies manufacture a commodity, which, in recent years at least is on a mass production basis, with all that connotes. Advertising by central stations, by manufacturers of electrical apparatus, by the financial houses that handle our securities, and, yes, by our customers, has helped to place it there.

"We have no right to throw our money away or waste it. We are justified in spending our money only for business reasons, within our own judgment, of course. For every dollar spent on advertising our customers get manifold returns, for it helps us to increase the consumption of electricity and thereby reduces the cost of production and distribution, which in turn is reflected in lower rates. If it did not do that it would not be justified. That is the basis on which we, and everybody else, advertise."

Washington D. C. Paper Says "Peppery Tom" Back in Town

Tom Blanton's law practice has mellowed his tongue, but his fighting spirit is still intact.

The peppery Texan who used to raise so much disturbance while in the House, appeared today to watch the House vote on the debenture. He greeted newspaper men genially and began the conversation by interviewing them.

"What's become of Hesse?" he asked. "Is Burlingame still in? How about the Public Utilities Commission? Are you boys satisfied with the government now that I'm gone?"

After talking pleasantly about his law practice and extending an invitation to go fishing, Blanton said: "If you want to, tell the people of Washington that I congratulate them on keeping their charter right to a five-cent carfare."

And then he added, sarcastically, "I congratulate them on the fact that 68,000 school children ride on half fare."

"And tell them I may come back some day and help reduce taxes."

Miss Doris Sellers Entertains Cinderellas

A blending of soft pastel tints formed an effective ensemble in the living room of the home of Miss Doris Sellers last Thursday evening, when she was hostess to the members of the Cinderella Bridge Club. Miss Maxine Guyton was an invited guest. The trays were centered with baskets of cut flowers.

A refreshment plate of relish sandwiches, stuffed tomato salad, potato chips, olives, cakes and ice cream was served.

Mrs. Wallace Petty Entertains Miss Stone

Mrs. Wallace Petty entertained with a bridge party Tuesday afternoon from 4 until 6 o'clock at her home honoring Miss Nelta Stone, of Cameron, who is here as guest of her mother, Mrs. Susie Stone, of the Petty Bros. Mercantile Company.

Shasta daises and cut roses were used in the decorations. Punch was served during the games in which Mrs. J. M. Duncan, of Ada, Oklahoma, was high score winner. Moulded ices with angel food squares were served following the games.

The guest list included Misses Maxine Guyton, Zella Mirm Duncan, Minnie Jackson, Laurel Persons, Jeanette and Katherine Randals, Hangle Lee Richbourg, and Mesdames Watt Petty and Doris Gamble. The out of town guests were Miss Nelta Stone, of Cameron, Mrs. Linwood Powledge, of San Antonio, and Mrs. J. M. Duncan, of Ada, Oklahoma.

Mrs. C. Carpenter spent the week end in the Spring Creek community with her nephew and wife, Mr. and Mrs. D. A. Izell.

CENTRAL TEXAS NEWS LETTER

The Reisel Rustler reports the direful result of a trip to the Galveston bathing revue as follows: "Sherman Pundt and A. A. Homberg spent the week-end in Galveston seeing pretty things. On account of their lights burning out about 1 A. M. Monday morning, they were compelled to remain in Bremond until adjustments could be made.

Hubbard merchants have adopted the plan of giving a cow at a monthly event. The recipient will be obligated to keep a record of feed costs and profit. The McLennan County Cow-testing Association, which has been operating for a year, is pioneering test work for Central Texas, and the facts produced by test have resulted in scores of cows being weeded out. In a number of herds, more net profit has been made from half the herd, after the "boarders" were eliminated, than from the entire herd previously. The good cows were "carrying" the poor producers, but the owner was ignorant of the fact until he quit guessing and began weighing food and milk and testing for butterfat percentage.

Along with news that a 13-year-old boy scout saved a prominent woman from drowning, comes announcement of plans for the annual Boy Scout encampment in Central Texas, at which scores of boys will be drilled for just such emergencies—and at the same time get the whiff of wood fires and the outdoor tang that carries the glamour of Leatherstocking days. The scout camp was delayed this year to allow the waters of the Bosque to clear up after the long rainy period. Four time periods have been set: starting June 28, July 12, July 26, and August 9. The scout camp at Valley Mills will be used, as previously. Entrants have been listed from Marlin, Mart, Cameron, Temple, Waco, Rosebud, McGregor, Iredell, West and Calvert.

The telephone girl, the Paul Revere of modern times, had her part in saving lives and property during the dangerous floods of last month. The Cameron Enterprise, devoting a leading editorial to the long distance telephone operators, says: "Their reports on the rain and high waters enabled the farmers to get their livestock and nearly all their farm equipment out of the bottom land."

The Borden Milk Plant at Waco is now receiving 35,000 pounds of milk daily, after starting the middle of May with 12,000. Formal opening of the plant is waiting on word from the secretary of agriculture, who will be the chief guest of the occasion, but whose presence at Washington has been necessary to date on account of the farm relief situation.

Smoke is now pouring from the lofty stacks of the Atlas Portland

Cement Company, at South Bosque, Central Texas' first cement plant. The Company has been in business in other sections of the nation some 30 years, and furnished the cement for the Panama Canal. It has served this section previously from its mill at Independence, Kansas. The Central Texas plant cost approximately \$3,000,000, and is the largest piece of construction work yet done here.

Army aviation authorities have adopted a rule against furnishing airplanes for July 4th celebrations. For some years, army planes were prominent features of the Independence Day events, but the demand became too great, and the lid was clamped.

A \$10,000.00 Brick Bakery has been completed at Mart, and truck service established to Otto, Reisel, Ben Hur, Prairie Hill, Elk and Watt.

Polo games are not limited to the Prince of Wales, or members of the Meadowbrook Club on Long Island. They are coming home to the place where they belong, with the boys who can straddle a wheeling bronc and stay put. The game will be a big part of the July 4th Celebration at Cisco, and probably in other towns of West Central Texas, where it has been growing in popularity for several years. For a real polo player, where can you find better material than a puncher who has been following wild-eyed cattle through the brush?

Nine Central Texas towns having signed the number of customers required by the Lone Star Gas Company, extensive pipe line construction is underway. The towns are Hamilton, Granbury, Glen Rose, Meridian, Whitney, Lott, Rosebud, Morgan and Clifton.

Know Texas

With geologists believing most of Texas' mineral wealth is still undiscovered or undeveloped, the state's mineral output in 1928 was valued at \$435,000,000.

The future possibilities of Texas' agriculture may be guessed at from the fact that only 30,000,000 of its 167,000,000 acres are under cultivation.

In 1920 Texas had 29 cities of above 10,000 population and five above 50,000. The 1930 census is expected to show 50 cities above 10,000 and eleven of above 50,000 with three and possibly four above 200,000. Since 1920 Texas has grown in population at the rate of more than 100,000 a year, according to Census Bureau reports and estimates.

Onions valued at \$800,000 were shipped out of the Laredo territory this spring, the 1,536 cars representing the crop from about 4,000 acres.

Petitions for a \$1,500,000 road bond election are being circulated in Hopkins County.

The DeLeon peanut mill sold 1,000 tons of peanut meal to Wisconsin dairymen. Time is coming when Texas dairymen will consume the bulk of Texas dairy feedstuffs.

WHAT - KNOTS

Vol II. Hico, Texas, June 21, 1929. No. 37.

There is nothing on a farm that will pay better than a good barn or nothing on a farm as expensive as a poor barn.

George: "Rastus, I done heard that heard that you all is quite a painter."

Mose: "Yes sah, yes sah."

George: "Tell me, big boy, did yo. uever do anything in de nude?"

Mose: "Yes suh! I done took a bath last week."

Look at the farmers that are making money farming. They have good barns.

Mose was asked by a white friend

what he would do if he had a million dollars. "Well," said he, "dey ain't no question about it, I'd have butter and gravy bofe on de same piece of bread.

Of course if you are going to sell everything raised on a farm just as it is gathered you don't need a barn. But if you want to realize the most from what you raise, be prepared to take care of it until the market is right for selling.

Two colored boys having an argument over a game of cards.

"My three aces win," said one.

"Brother," said the other, "ain't yo' ashamed of yo' dishonesty?"

Ah only dealt you two aces."

Besides a big profit on the investment a good barn adds to the value of your farm.

Rastus: "Whah yo' gwine?"

Rufus: "I'se gwine to de hardware store to get some Ku Klux metal."

Rastus: "What yo' all mean, Ku Klux metal?"

Rufus: "Sheet metal, man, sheet metal."

Mrs. Waldrop is Visiting Children

Mrs. L. E. Waldrop, whose former residence was near Hico, had the great pleasure of having five of her children with her at the home of her eldest daughter, Mrs. George Oxley, Sunday, June 9.

Among those present were, Mr. and Mrs. Geo. Waldrop and daughter, of Dallas; Mr. and Mrs. E. C. Tidwell, of Dallas; Mr. and Mrs. R. H. Turner, of Tahoka; and Mr. and Mrs. L. E. Waldrop and family of Pottsville.

Mrs. Waldrop has torn up house-keeping between Carlton and Hico, and is visiting among her children. She left Sunday afternoon for the west with Mrs. Amelia Turner to probably stay until fall.

Mrs. Oxley had prepared an excellent dinner and it was spread beneath the great shady tree in the back yard.

Everyone seemed to have an excellent time, and parted for their respective homes with the expectation of having many happy reunions in the future.

Methodist Church

Remember just a few more services and our revival will close this Sunday night. Sunday school 10 a. m. Five B. Y. P. U.'s Sunday night 7:15. Bro. Cook, our gospel singer, will deliver a special address at this time. There will be Saturday morning services. But services Saturday night, and Sunday morning and night. Rev. Roy S. Hollomon, the preacher of the meeting and Bro. Cook our singer, will bring their last messages. The Womens' Missionary Society will meet Monday afternoon, the Y. W. A. Monday night, Wednesday afternoon the Junior G. S. meet and the Intermediate G. A.'s Thursday afternoon. The Sunbeams Friday afternoon, Wednesday night 8:15 the pastor will lead prayer meeting. We welcome you to all of our services. Clarence Allen Morton, Pastor.

Mt. Zion News

Mr. A. F. Polnack and family visited Roy Adkison and wife Sunday. Mable Polnack visited Clara Poddick Saturday night.

Mrs. Hodge and daughter, Mae, was in the Dave Davis home a while Saturday night.

Cotton chopping is the order of the day at present. Cotton is looking fine, but a shower surely would help corn.

A. F. Polnack and family, G. D. Adkison and wife, have been going to church at Hico, the past week.

Mrs. C. L. Adkison of Hico, visited Mrs. G. D. Adkison Thursday.

There are several around here going to the thresher this week.

Mrs. P. D. Grows, and two children, of Pampa, are here visiting her brother, A. A. Brown and family.

Candy and Ice Cream Bills of U. S. High

The candy and ice cream bill of the American people during 1927 was more than a billion dollars, according to the census Bureau figures, and the money spent for marshmallows and hard candies was greater than that spent for power by all the interurban and street railways of the country.

Out of the family dollar, statisticians have figured, only 4c is spent for electric lights, cooking gas, street railway transportation and telephones. But when bill-paying time comes around, a lot of folks act as if those conveniences are the heaviest expenditures in the family budget.

Infant Dead

Billy Jack, the little four day old baby boy of Mr. and Mrs. W. R. Smithwick, of northeast of town, died at their home Saturday morning and services were conducted Saturday afternoon at 1 o'clock at the cemetery by Rev. Clarence Allen Morton, and interment made in the Hico cemetery.

"The availability of electric power is one of the reasons why the state today is primed for the dairy industry," writes John W. Carpenter, president of the Texas Power & Light Co. in a paper on "Electric Power and the Dairy Industry" in Texas Opportunities.

"Every major milk plant, cheese factory and creamery in Texas is electrically powered. . . The Dairy industry has discovered the smoothness and reliability of electricity. . . There is no substitute for precise refrigeration in the production and delivery of milk and creamery products of wholesomeness and perfection.

Local News

T. T. Keffer, of Dallas, and Charlie Keffer, of Wichita Falls, spent a few days here this week visiting their nephew, Earl R. Lynch, and Mrs. Lynch.

Mrs. Tom Boone was taken to a hospital in Waco last week to undergo a serious operation. Reports state that she is improving.

A crowd of the young people of Hico and neighboring towns enjoyed an outing at the Blune Bonnett country club house Wednesday night. The girls carried picnic lunches and the lunch was spread in the club house and served with cold refreshing drinks. Music was enjoyed on the club house victrola. Those present were: Misses Zella Mirn Duncan, Marquerite Fairrey, Maxine Guyton, Wynama and Mable Anderson, Lola Mae Williamson, Mrs. Doris Gamble, Thelbert Duncan, Harry Hudson, Curtis Fairrey, Carl England, and out-of-town guests were, Miss Nelita Stone, of Cameron, Mrs. Linwood Powledge of San Antonio, Mrs. J. M. Duncan, of Ada, Oklahoma, Guy Briley, of Carlton, Bob Jones and Grady Williams, of Hamilton.

Miss Arietta Shaffer, of Fort Worth, was here over the week end visiting her parents, Mr. and Mrs. S. O. Shaffer. She left the first of the week for Los Angeles, California, to spend the summer attending the University, where she expects to specialize in English and Art. For three years, Miss Shaffer was connected with a bank at Dallas, until about three months ago she was with a cotton exchange at Fort Worth. Already with an excellent business education, she expects to further her profession with the education she will receive from the University at California. Her parents expect to leave here about the first of September in their car and will accompany their daughter home. They will return by way of Phoenix, Arizona, to visit with Mr. Shaffer's brother, and at Fort Cobb, Oklahoma, they will be guests of his sister and family.

Plains, takes Everett's place at DeLeon. Both are sons of Mr. and Mrs. H. Smith of this city.

Mrs. J. M. Duncan of Ada, Okla., is here visiting Mrs. Jessie Duncan, and family. The visitor is the mother of Mrs. Mary Frances Duncan, who has visited here at intervals in the Duncan home.

Mrs. J. E. Arnold, of Duffau, who underwent a major operation in the Baptist sanitarium at Waco last Wednesday, is reported doing nicely at the time her husband left there. Mrs. Arnold only a few weeks ago was in bed four weeks with typhoid fever. Her many friends will be very glad to know she will likely recover.

HEART O' TEXAS SCOUTS WILL HAVE SUMMER CAMPS

Announcements regarding the plans of the Heart O' Texas Boy Scout Council have gone out to all Scouts in the area comprising this district, according to J. R. Nally, general chairman of Camping for the Council. Mr. Nally remarked on the rapid response that the scouts have given to this notice.

There will be four separate periods of camping of ten days duration each, starting as follows: 1st, June 28; 2nd, July 12; 3rd, July 26; 4th, August 9. Each of these camps will be limited to sixty boys and already the first section is about full. Applications have been coming into the Scout Headquarters from Marlin, Mart, Cameron, Temple, Waco, Rosebud, McGregor, Iredell, West and Calvert.

The camps this year were started later in the summer in order to enable the Bosque to get clear and to avoid the spring rains that have occurred in recent years. Valley Mills' campsite was selected this year due to its excellent swimming facilities, shade, and fine drinking water. The scouts will have access to golf grounds of the Valley Mills golf club to play games and conduct their field meets upon.

A qualified life saver will be in charge of all swimming and the "buddy system" of checking the swimmers will be used. Periods during the day will be set aside for all classes of swimmers, so that every boy will know how to swim well when he comes home.

Among the shady nooks of the camp will be located the various "handicraft" sections where a scout may follow his particular hobby whether it be archery, leathercraft, sculpturing, or modelling, the making of Indian war bonnets, miniature racing yachts, and model aeroplane. Each group will be under the direction of skilled directors so that a scout will have ample opportunity to carve and whittle.

The belt honor system, which has always been a feature of local scout camps, will be used again this year with new features and requirements. Instructors will be available for the various scout tests that a boy might want to take while on camp. Several parties will apply their skill in surveying, nature study, compass tracking, tower and bridge erection.

A well balanced menu has been prepared which has had the approval of Dr. H. F. Shaw of Marlin, who is in charge of all health activities of the Scouts. Dr. Shaw will inspect the campsite beforehand to see that all sanitary precautions have been taken. The scouts will have a screened mess hall and individual attention will be given each boy to see that his health is protected at all times. Each scout will pass a medical examination before attending camp.

Camp fires are always the high spots in a scout's camp life and this year special programs have been prepared which will be of a very unusual nature.

In order to prevent disappointments, Mr. Nally has requested that all scoutmasters and scouts immediately send in the dates they prefer to attend camp, along with their applications.

As stated in the recent notice to scouts, only sixty boys can attend any one camp, and the applications will be filed in the order of their reception. Any over sixty will be required to attend a later camp. Each application must be accompanied by a dollar. The camp fee for the ten day camp will be seven dollars. Transportation is to be taken care of by the troop committeemen.

Hot Weather and YOUR EGGS

With the coming of hot weather it is necessary that you sell of the roosters in order to get infertile eggs, and it is the infertile eggs that bring the highest market prices. And it will be necessary for you to gather the eggs at short intervals and market them often—and when you go to market your eggs and produce remember we pay the—

CARD OF THANKS

To our friends and neighbors—Words sufficient fail us to express to each one of you our sincere thanks for every comforting word, every act of kindness that you so freely gave during the sickness and death of husband, father and grandfather, and when the shadows of sorrow shall across your pathway fall, may you too be surrounded by such noble friends as you have been to us in our darkest hour and we, also thank Mr. Barrow for his kind and tender consideration also Brother Dalton for his message of comfort. May Gods richest blessings be yours, one and all.—Mrs. H. G. Driver, children and grandchildren.

SPECIAL ELECTION NOTICE

PURSUANT TO AN ORDER issued by the Commissioners Court of Hamilton County, Texas, notice is hereby given that a Special Election will be held on Tuesday the 16th day of July, 1929, at the usual voting places in all the election precincts of Hamilton County, Texas, for the following purposes, viz: To determine whether or not the Bonds of Hamilton County, Texas, shall be issued in the amount of \$500,000, bearing interest at the rate of 5 per cent per annum, maturing at such time or times as may be deemed most expedient by the Commissioners Court of said County, not later than 30 years from their date, for the purpose of the construction, maintenance and operation of Macadamized, graveled or

paved roads and turnpikes or in aid thereof, in said county, and whether or not ad valorem taxes shall be levied annually on all taxable property in said County, subject to taxation, for the purpose of paying interest on said bonds and provide a sinking fund for the redemption thereof, at maturity.

The proceeds of such bonds to be used, \$200,000 on State designated highways and \$300,000 lateral roads of the county.

None but legally qualified property tax paying voters of said county may vote at said election. And said elec-

Effect of Street Lights On Crime Shown By Survey

Former Police Commissioner Bingham of New York once said that one street lamp is as good in crime prevention as ten policemen. Some substantiation of the Bingham statement is given in the results of a study recently made in Cleveland, Ohio, of the effects of street lighting on crime, the investigation including data both before and after the installation of better lighting in that city.

A tabulation was made (1) of all street crimes committed at night and (2) of major street crimes committed at night, the comparison being between October, November and December, 1915, before the lighting improvements were installed, and the same three months in 1916, after the lighting was improved.

In the first classification of all street crimes at night, outside the better lighted district there was an increase from 350 to 359, an increase of 4 per cent. Inside the improved lighting area there was a decrease from 75 to 67, or a decrease of 8 per cent.

In the second classification, which included burglaries, holdups, automobile stealing, outside the better lighted area the number went from 222 to 434, or 95 per cent increase. In the bet-

ter lighted area, the increase was only from 32 to 37, or 15 per cent—it being recalled that this was at the start of the so-called crime wave. "Crime diminished as light increased," was the conclusion.

Another important aspect was found to be in traffic accidents, inadequate lighting being held accountable for 17.6 per cent of the city night traffic smashups.

Urges Accounting For Municipal Systems

In his recent report for the year ending the state controller of California makes the following statement with regard to the irregular method of accounting on the part of municipal utilities:

"The accounting systems of municipally owned public service enterprises are of a character that prevents the comptroller from giving adequate information covering their operation. It is impossible to ascertain whether there is a loss or gain, as the statements furnished are, in the main, flow of cash. Each year shows a tendency on the part of municipalities to increase their activities in this direction, and the legislature should require proper accounting methods for the protection of the tax-paying public. In an endeavor to correct this situation, the railroad commission has compelled the utility corporations to adopt a uniform method that takes into account all of the factors affecting the cost of service. The taxpayer should have the same protection, and governmental agencies might well set an example by the adoption of sound accounting methods and thereby definitely dispose of the controversy regarding costs that now exists as between publicly and privately owned utilities."

Chevrolet Creates New Sales Zones

Creation of a new sales region, seven new sales zones and the promotion of several leading sales officials of the Chevrolet Motor Company were announced today by H. J. Klinger, vice-president and general sales manager. These alterations in the company's sales map and the expansion of the field selling organization come about as a result of the steady growth of Chevrolet sales and give the company the most widespread sales supervision ever commanded by an automobile manufacturer. Chevrolet now has nine sales regions, which embrace 52 sales zones.

Rapid development of Chevrolet business in the eastern states has resulted in the opening of the new region, which has its headquarters in Buffalo. William E. Holler nationally known automobile sales executive,

Lions Club Enjoys Friday Luncheon

The local Lions Club enjoyed the regular weekly luncheon last Friday very much. There were three visitors that made interesting short addresses. Rev. Holloman, who is holding the Baptist revival in this city, gave some very helpful suggestions, as did Rev. Chas. singer assisting in the Baptist meeting.

The attendance was very good. Mr. Earl Lynch acted as secretary in the absence of attorney A. C. Johnston, the regular secretary-treasurer. The road committee reported, and they are hard at work on road matters. The club is expecting a delegation from several towns in this section for the luncheon today.

Every member of the local organization is urged to attend this meeting.

has been appointed sales manager of the region which will supervise the operations of zone offices in Buffalo, Syracuse, Harrisburg, Baltimore and Richmond. It will be known as the Eastern region and takes Richmond and Baltimore away from the Atlantic Coast region and Buffalo from the Flint region. Mr. Heller, who will be in charge of the territory, has been associated with Chevrolet for several years, serving the company in St. Louis, Detroit, Los Angeles, and Pittsburgh, where for the last two years he has been zone sales manager.

Headquarters for the seven newly created zones are located in the following cities: Decatur, Ill.; Davenport, Ia.; Amarillo, Texas; San Antonio, Texas; Fort Wayne, Ind.; Harrisburg, Pa.; and Syracuse, N. Y.

Each of the managers in these new zones is a seasoned Chevrolet sales executive.

What 20 Years Have Wrought

The startling progress in the United States of industry, wages, luxuries and conveniences is secured by comparing some outstanding factors today and twenty years ago.

Twenty years ago the average working week was sixty hours, the average family income \$800, the average saving of ten million savings depositors \$700. Today the average working week of most workmen is forty-four hours, the average family income \$2,200, the average savings bank deposits of twenty-three million persons \$1,000.

What is the answer? Simply that America has learned to use power in place of muscle. Twenty years ago the average wage earner was assisted by three-horse power machinery. Today he is assisted by seven horsepower, although the population of the country has increased only one-third in twenty years. No other nation can compare with the United States in productive capacity, and power is the answer.
