HICO, TEXAS, FRIDAY, JUNE 3, 1932

Hico Strives to Serve the Needs of the Dairymen, Poultrymen and Farmers of This Vast Community.

NUMBER 1

NEW \$55,000 POST OFFICE BUILDING FOR HICO PROVIDED IN GARNER BILL

Passage of the Garner \$2,300,000 relief bill, which has been approved by a majority of the Democrats in the House of Representatives, and completion of the projects provided therein would mean a new postoffice building for Hico, costing approximately \$55,000.

There has been much discussion both for and against the bill, but the Speaker of the House, a potential nominee of the Democratic party for President of the United States, has defended his plans against attacks by Republican leaders in spite of the fact that President Hoover has referred to it as a "gigantic pork barrel" and has used all his influence to discourage its passage.

Garner's bill carrying funds for direct federal relief, expanded reconstruction loans and a spectacular program detailing hundreds upon hundreds of cities and towns to share in a billion dollars worth of federal building, was ushered into the House on a basis that had all the earmarks of strict partisanship, but it was apparent that it would receive considerable support when, after revisions to correct several errors, it is introduced in the House.

The relief measure provides specifically: \$100,000,000 to be spent by the President, through any agency he may designate, to relieve destitution where it may occur; capital expansion to \$3,000,000,000 of the Reconstruction Finance Corporation, with provision that it may make loans to any private American interest or any State or political subdivision furnishing proper security; and expenditures of \$1,000,000,000 on public buildings, highway construction, rivers and harbors and flood control.

Hico was listed among the towns in Texas to receive \$55,000 in construction of a postoffice building under the provisions of the bill, among a list of other towns in the same class as follows: Angleton, Anson, Aransas Pass, Baird, Bartlett, Calvert, Canton, Carthage, Chillicothe, Clifton, Columbus, Cotulla, Cooper, Crowell, De Leon, Eagle Lake, Edna, Floresville, Giddings, Goliad, Groesbeck, Henrietta, Hico, Iowa Park, Iraan, Itasca, Jacksboro, Junction, Kerens, La Feria, Levelland, Llano, Lockney, McGregor, McLean, Menard, Merkel, Munday, Panhandle, Ralls, Richmond, Rosebud, Rotan, San Augustine, Santa Anna, Sealy, Shiner, Silsbee, Sourlake, Taft, Thurber, Trinity, Weimar, Whittsburg, Winnboro and Yorktown.

J. R. JAMESON DIED AT HOME OF DAUGHTER WEDNESDAY AFTERNOON

The body of J. R. Jameson, who died at the home of his daughter, Mrs. Roy Adkison in the Mt. Zion community, Wednesday, was taken to Lamesa Thursday morning and funeral services were held in that city Thursday afternoon and the body laid to rest in the Lamesa cemetery.

Mr. Jameson lived in the Mt. Zion and surrounding communities for about thirteen years, and was well known around Hico. He gained many friends by his honest and loyal life. He moved to Lamesa about nine years ago and has resided on the same place there since that time. He left Dawson county April 4th and came to Bosque County thinking that the low altitude might benefit his health. He made trips to Corpus Christi and other points south, but his health did not improve.

Mr. Jameson, who was 54 years of age at the time of his death, was married when a young man to Miss Terry Ward and nine children were born to this union, eight of whom are living. He was a faithful member and deacon of the Baptist Church, and has always lived an honest and upright life. He brought sunshine into the lives of many, and received lots of kindness from others, his appreciation of which was very deep. He had said many times: "All things work together for good, even though it might be death."

RUTH'S BAKERY WILL MOVE SATURDAY TO THEIR NEW LOCATION

Ruth's Bakery will occupy new quarters Saturday when they will move from their present location to the building formerly occupied by the Barrow Coffee Shop, across the street from Porter's Drug Store.

The building has been repapered and repainted, and a number of inside improvements made, which presents a very neat appearance. Mr. and Mrs. Ruth and son who are now sole owners of the fixtures are equipped to bake breads and rolls of the finest quality, besides fine pastries of all kinds.

Mr. Zack Barrow has moved his coffee and sandwich shop to the inner building, just south of the Carlton Bros. Store, and is ready for business in his new location.

Bob Ogle Suffers Injury to Hand In Changing Car Tire

Waving frantically for passing cars to give assistance Monday night, Bob Ogle, sat for several minutes with his left hand under the wheel of his automobile with the middle finger cut completely off and two others crushed with the car holding them fast. Passers by thought he was repairing his car and did not stop.

Mr. Ogle and his daughter had started home about 1 1/2 miles east of town about 10:30 Monday night, and when just beyond the city park, they noticed a tire was flat. They got out of the car, and Mr. Ogle had put the jack under it, and had started repairing it.

He had the tire off and the jack slipped off pinning his left hand under the wheel. He could not remove it and his daughter could be of no assistance, so she started to town to get help. He said several cars passed him but did not realize his predicament. After several minutes a man who was camped in the park, noticing the car had been stopped for sometime, went to see if he might assist him in repairing the car, found him suffering untold agony. He assisted him and they started toward town to get a doctor, when Skinny Tidwell met them, as Mr. Ogle's daughter had gone to his filling station and told him of the accident.

Mr. Ogle was taken to town to a drug store and a local physician dressed the wound.

The middle finger of his left hand was completely severed, and most of the flesh taken from the other fingers of the same hand. He was resting well at last reports.

Keeping Up With TEXAS

Mrs. Emma M. Shirley of Waco, Baylor University graduate, who has been secretary to Former Gov. Pat M. Neff throughout his term as railroad commissioner, has been appointed secretary to Ernest O. Thompson when Colonel Thompson succeeds Mr. Neff on the commission next Saturday.

C. J. Boyd, 22, appeared in Judge Langston King's court in Houston Saturday, pleaded guilty to automobile theft and learned his wife had died the night before.

As he took the stand, Judge King remarked to him: "I guess you know your wife died last night."

Boyd wept, and said he had not heard. "I'm sorry; I thought you knew," said Judge King. "I'm not going to send you to the penitentiary."

He assessed two-year suspended sentences for Boyd and his brother, B. M. Boyd. They went back home to the family farm near Marlin with their father, Charlie Boyd.

Louis Bassitt, pioneer of Elgin, whose chief hobby for many years has been his accordion, played over the waves to a chamber of commerce get-together in Giddings Saturday night.

A few minutes after the crowd finished cheering the old timer toppled from his chair, his accordion falling to the floor. He was gasping for breath when friends picked him up. He died a few minutes later, a victim of heart disease.

With sophomore graduation exercises Friday morning, commencement week at John Tarleton Agricultural College was officially closed at Stephenville. Classes were continued through Friday, and makeup examinations were given Saturday.

Albert Wilson Hosea, Claiborne, was announced as high ranking boy in the sophomore class, and Roxie Gilbreath, Stephenville, high ranking girl.

F. J. Agee, assistant registrar, made the address to the class, and Dean J. Thomas Davis presented diplomas to nine graduates. Summer school opens Monday, June 6.

Two graduates, one from Abilene High School, and the other from grammar school, received their diplomas in beds in an Abilene hospital as the result of emergency operations. Milton McKenzie, high school graduate, who had done much of the art work on the Flashlight, school annual, suffered a ruptured appendix on the eve of the commencement exercises.

The other patient was Jean Christopher, grammar school girl.

Waco Business Men Given Big Welcome By Hico Citizens

The delegation of business and professional men, manufacturers and boosters arrived in Hico at 12:35 noon Thursday, promptly at the time previously announced, and were served dinner in the old Duncan Building by the ladies of the Hico Revue Club.

There were about 50 men from Waco, who were joined in the luncheon by about 25 business men of Hico.

After a pleasant hour spent in visiting around over the town, the visitors departed for Stephenville, from which point they will follow Highway 10 to Brownwood, spend the night and return to Waco via Goldthwaite, Lampasas, Hamilton, Gatesville and McGregor.

Progress Made On Right-of-Way For H'way. 67 In City

Appointment of a committee composed of D. F. McCarty and D. L. Cox by the City Council in special session last week, and the work done by these gentlemen in trading with property owners along the new route for Highway 67 has resulted in much progress toward securing the new road along the route selected by the Highway Department, and it is expected that within a very short time the city council will be prepared to give deeds to the property and turn the project over to the State for immediate action.

Another special session was held Wednesday afternoon, attended by the Mayor and four of the Council members, at which time the situation was laid before the body, and plans made to bring the matter to a speedy conclusion.

It was stated that five of the ten property owners affected had signed agreements, and that it was expected that the others would do so as soon as the details of the trades could be worked out.

The advisability of beginning condemnation proceedings was dispensed with, and the councilmen agreed that if necessary such steps would be taken, but all stated that the outlook was good, and praised the property-owners heartily for their cooperation and fairness in their dealings with the representatives.

Although several had not been traded with at that time, it was the consensus of opinion that the deals could be made satisfactorily with most of them, without going through condemnation proceedings which would be used as a last resort, but which they were ready to fall back on if necessary.

With the developments in plans of the State Highway Department which were also discussed at the meeting, the members of the council expressed the belief that immediate action would be necessary, and that in fairness to the citizens, and in a way that would assure a continuance of plans apparently already begun for making Hico the center of important road projects.

TO BE IN CARLTON SUNDAY Ray Cannon, blind evangelist singer and radio artist of Brownwood, will be in Carlton Sunday, and his numbers will be featured at the singing which is to begin at 2 o'clock in the afternoon. The public has a cordial welcome to attend.

Announcement of the appropriation of \$9,617 for the completion of Highway 67 from the Erath county line into Hico, and notice of bids to be taken on the same highway from Meridian to Hico seems to indicate that the State Highway Department is losing no time in making plans for this important artery of travel.

A dispatch from Austin under date of June 1 carried the information that an appropriation had been made for Hamilton County "For grading and drainage structures and caliche surface on Highway No. 67 from Erath county line to Hico, \$9,617."

On the east end of Highway 67 out of Hico, the commission is advertising for bids in Hamilton and Bosque Counties "On grading and drainage structures on Highway No. 67 from Meridian to Hico."

These bids will supposedly come up for inspection at the meeting of the Commission on June 10th, and letting of same at that time if satisfactory.

Among the list of projects in the dispatch from Austin that day was another one important to this section, affecting the new north and south highway No. 66, plans for which are forming to make it a Federal highway, extending from Mexico to Canada. Much of the work has been done from Hamilton south to the county line, and an appropriation of over \$80,000 for construction between Hamilton and Hico. The surveyors are busy running the lines now, and S. A. Clark, commissioner from Precinct 3, in which most of the latter construction will lie, is making plans to start getting the right-of-way as soon as possible.

In Lampasas County, where to date progress has been slow, now things seem to be living up, for information is that the engineer was "directed to construct grading and drainage structures on Highway 66 across the county through the maintenance division."

While it has been known for some time that the Highway Department has big plans for highway development in this section, and Hico people are awake to the importance of the two main arteries of travel possessed in the crossing in Hico of Highways 66 and 67, still the work is assuming shape more rapidly than even the most optimistic had expected, and every department of local government is apparently co-operating with the State department to the fullest extent, in view of the opportunities that exist for getting immediate action on projects which have been in the offing for months and years.

Other proceedings of interest to people of this section were outlined as follows:

"Breaking a precedent established years ago refusing markers on State highways, the commission granted a petition of ex-Senator Pierce B. Ward and others of Johnson County to install a suitable monument or tablet to the memory of Robert Crockett, son of David Crockett, to be placed at the bridge over the Brazos connecting Johnson and Hood Counties, and now nearing completion."

"Approximately \$50,000 of highway equipment was ordered, \$36,720 of it being for twelve maintenance and tractor to be supplied by the Service Equipment Company of Dallas. The remainder is cars, trucks, and other maintenance equipment."

The General Electric

4-YEAR SERVICE PLAN

is your guarantee of lowest cost refrigeration

THE TRUE COST OF ANY REFRIGERATOR is the purchase price plus what it costs to keep it operating through the years. Refrigeration is a service that must go on day after day, year after year, without care, thought or attention.

Your most important consideration in selecting a refrigerator is the mechanism. It represents 70% of your investment. If the mechanism of your refrigerator fails, you have no refrigeration. Failure of the operating unit means service expense and repair bills... plus the added inconvenience and waste of periodically being without any refrigeration.

General Electric's new Service Plan, extending through four full years, protects every new buyer against all possible failure of the Monitor Top mechanism. Should any failure occur during four years the entire unit will be immediately replaced without charge. No patching or repairing, but a complete new unit installed without cost or delay.

Only the G-E has all mechanism entirely sealed inside the steel walls of the Monitor Top. Air, dirt, dust and moisture... the elements destructive to any mechanism... cannot reach it.

Common sources of trouble in other refrigerators are eliminated in the General Electric

design. Fans, belts, stuffing boxes... parts that must be periodically lubricated... are all done away with by the Monitor Top. The G-E requires no attention... not even oiling.

Down Payment as Low as **\$10** Two Years to Pay the Balance

YOUNG FOLKS LISTEN

It is time you were thinking seriously about that business education necessary for getting on the pay roll this fall, or being prepared to work your way through college. By entering Byrne College now, you can do what Miss Mary Dell Wilson, the young lady whose picture appears on one of our circulars, has done. A year ago, now, she was graduating from high school, today she is a well paid government secretary in the State Banking Department. Hundreds of our graduates who enrolled with us when high school closed last year would not think of giving up their position and being placed back along side of those who did not take advantage of Byrne training last summer.

Don't let the employment question bother you. It isn't bothering Byrne students graduating at this time, for we have a very effective plan of securing positions for our graduates, and as business improves along toward fall it will be even easier for us to place them.

You would enjoy spending your summer under electric fans in Byrne College. Our work being practically all of the laboratory type makes it so different from the work you have been doing that it will be a rest for you. You will enjoy the association of our splendid student body of fine young men and women. There isn't a finer group to be found anywhere than you will find in Byrne College. Please remember that Byrne College with its seven copyrighted textbooks is the only school that can give you a good thorough business course and graduate you by the first of September ready for the pay roll or college.

We invite you to visit and get our special prices, and also get our plan of making up special courses of study which you can handle under our individual advancement plan. These special courses are made up with a view of giving you just what you want in the shortest time possible and at the smallest possible cost. We give you almost twice as much for your time and money as any other school in the city, but come and see for yourself.

If you have had commercial work in high school, we make a liberal allowance for the advancement already made, for we build on what you have. If you need only our Office Training and Employment Service, we are able to make you very attractive prices and terms for this service.

Please call at our office, or write or phone us, at your earliest convenience. You will find our school very interesting and very different from any other. It is more like a big business office, and our individual advancement plan and our laboratory method of teaching give us an advantage you will appreciate.
