This prospector drilled to total depth of 8,710 feet, and tested for commercial production in the Silurian. Operator will develop that zone later. Republicans Move To Unseat Bilbo

WASHINGTON -(AP)-Senator Theodore G. Bilbo (D-Miss.), accused by an investigating committee of misusing his office and breaking the law, Thursday faced a Republican move to strip him at once o his senatorship.

Chairman Robert A. Ta't of th Senate Republican Policy Committee disclosed that a majority of his group favors an attempt to "stop Bilbo at the door" at Friday's opening session-barring him from taking the oath of office. Committee Chairman Kilgore (D-

W. Va.) asserted that "in view of the scope of the findings" the whole record is being laid before the attorney general, whose agents were previously disclosed to be studying the Bilbo transactions

Decision in Hands of Holdovers The little southerner, plainly anticipating that the committee report might furnish ammunition for an ouster attack, called on his colleagues in a letter to keep open minds and read all the evidence. Taft predicted that if the Republicans decide to act at Friday' opening, they will draw enough Democratic votes for the majority which he said could bar Bilbo from starting his third term.

XXVII MAJOR CAMERON sat in a se-

His hat was on the back of his head, his brow knit; in his hand was a notebook in which he FOR fully a half-hour, having now and then scribbled a name now and then scribbled a name. To observers, those few beforenoon drinkers who sauntered in badgering. McNally," and crossed it out (poor Walter!-a post-office clerk, of course, and so rather secure, with a steady, modest income; but still saddled, probably with the ex-pense of his wife's illness and death) when the bartender called jovially to him:

"'Morning, Major. Ain't you gonna have your buttermilk?" "No, I'll wait a while, thank you,

Jim.' He would wait, he reflected, until Mr. Milgrim came in, as he was likely to do, and offered the

buttermilk "on the company." The prices here were simply outrageous; twenty-five cents for a mug of buttermilk. Well, you paid for everything else with that mug -the sparkling mirrors behind the bar, Jim's white apron, Jim himself, the St. George manage-ment's taxes and interest on investment. As the word "investment" flashed into his mind, the Major winced. It had recent connotations; it brought up his last night's conversation with Sidney. She was becoming more incorrigible every day, that girl, more like the Major's unfortunate sister

Senate Committee Says Corporations, Unions Violate Act WASHINGTON-(AP)-The Special

House Campaign Investigating Committee Thursday turned over to the Justice Department evidence it said indicated that 60 CIO unions and locals and 12 corporations violated the Corrupt Practices Act in the recent congressional elections. Chairman Priest (D-Tenn.) told a reporter the committee has recommended that the department take whatever action it believes necessary against the unions and the corporations, all in New York. The committee also gave to the attorney general evidence which Priest said shows that the Communist Party of the United States violated the law by failing to file a report of receipts and expenditures as required of political parties.

Every-Day Economics Of Food Inflation Overshadow Politics For Franco's People

Outward signs of revolt are scarce. But so are the cutward signs of either gayety or freedom. And after talking with the Span-iards in the cities and the fields, with bank clerks and farmers, you cannot miss the undercurrent of unrest and fear of the future that runs deep beneath the surface of tranquility and order.

If you have been in Spain before, you will miss the swarms of beggars who used to beset pedestrians at every turn. Franco has forbidden begging in the streets, and the beggars obey.

He has made announcements against the black market and inflation, too, but the result has been far different. In Spain's thriving black market, according to the have-nots, who are legion, the biggest operators are members of Spain's Civil Service. The new boom on the Russian side, according to the Americanlicensed Berlin newspaper Der Abend, is caused by expectation that Germany's zonal boundaries will be erased to make the country an economic unit in which Germans from the zones occupied by the western powers will have free commercial intercourse with those in the Soviet zone.

Must Guard Political Grip When this occurs and the "iron" curtain" falls, the Russians must be on guard to retain their political grip and shield Germans in their zone from "contamination" from the west. For this purpose they are reported to be using the membership of the Socialist Unity narty (SED), the Communist-dominated Fusion party which with the indorsement of the Soviet military administration won the elections in the Russian zone.

GREAT PORTUNI OP FOR A SELECT GROUP OF YOUNG MEN

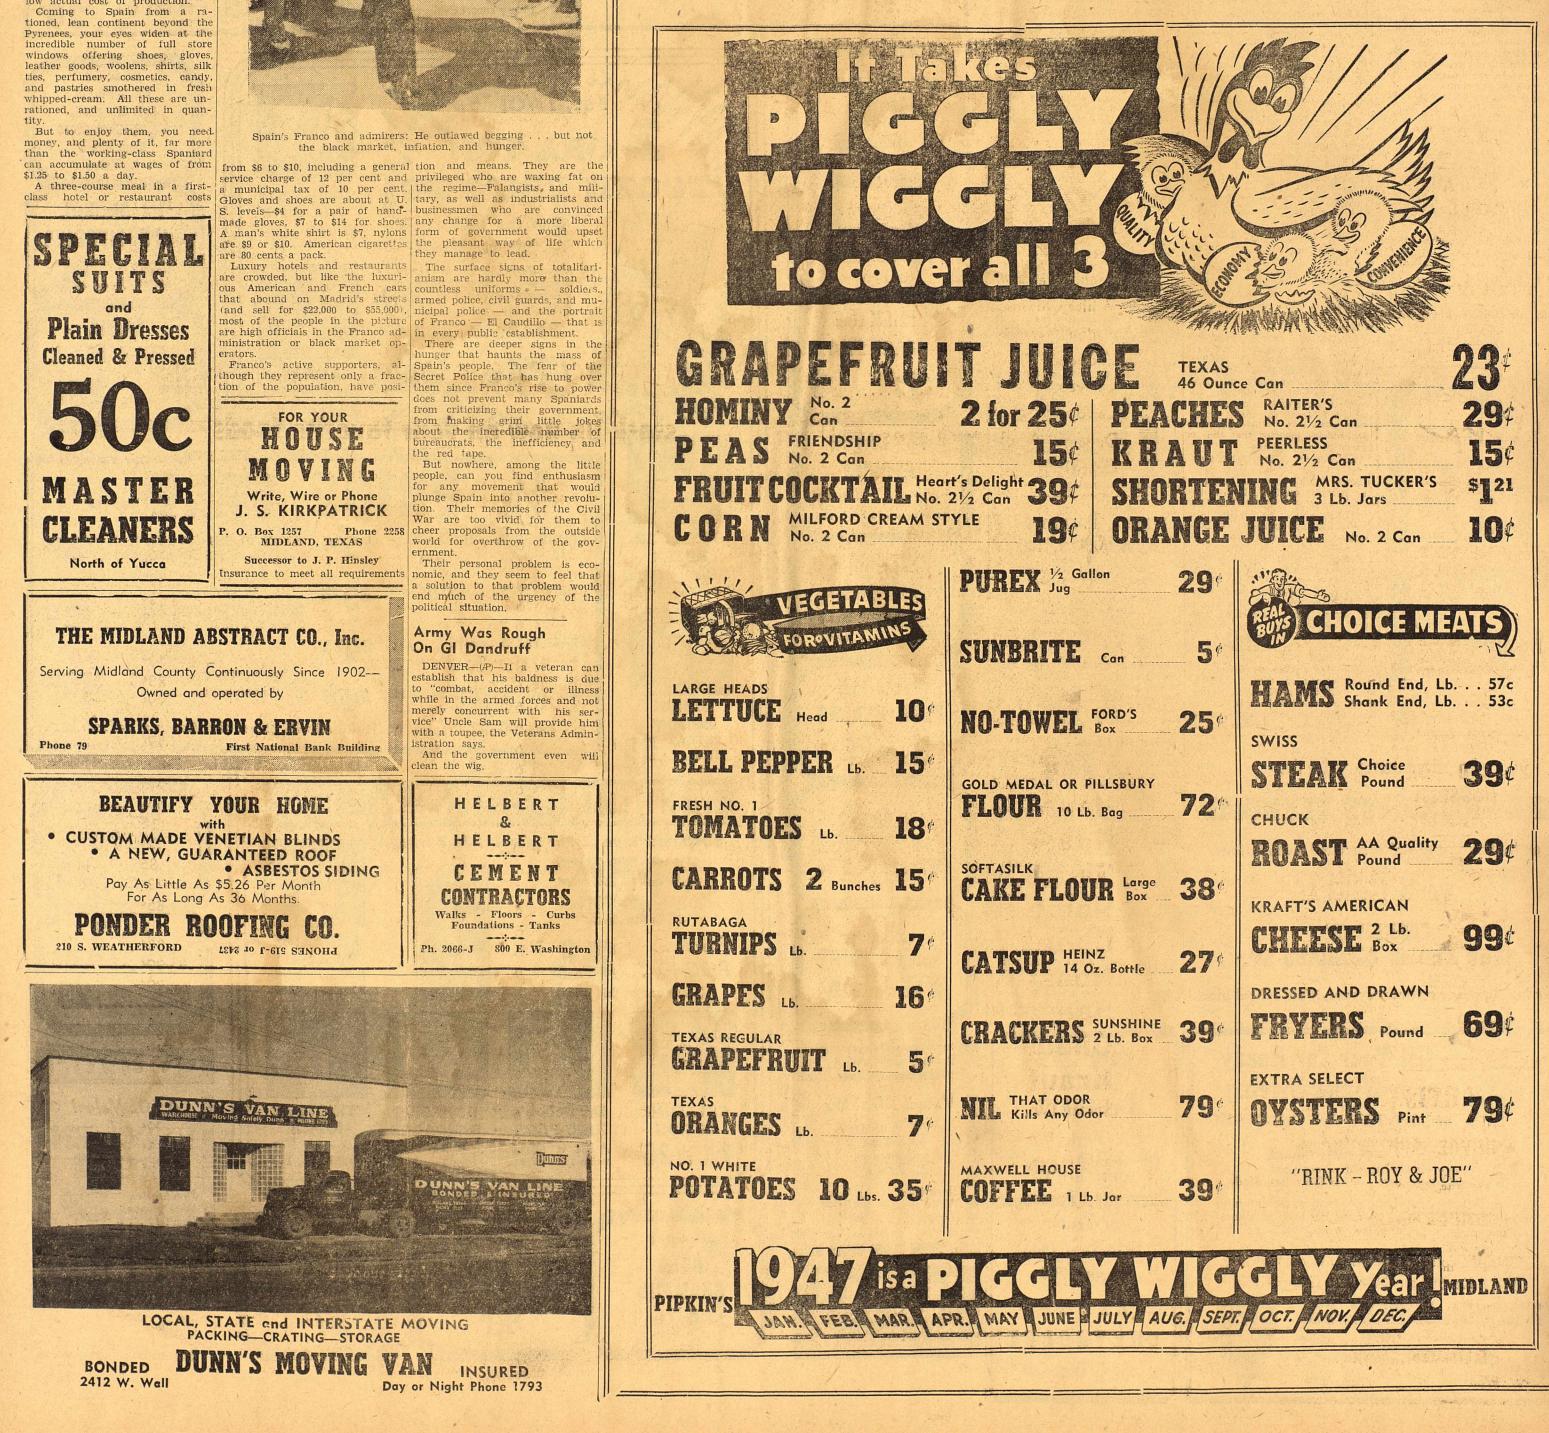

When the Japanese were on our very doorstep in the Aleutians, you read of the bitter fight put up by the famous 7th Infantry Division, and how these gallant fighters were first to drive the enemy from our own soil. Then on to Kwajalein, Leyte and Okinawa, the 7th blazed a trail of heroism that will long be remembered. Today this same U. S. Army unit is stationed in Korea, famed

scenic spot of the Far East. It is performing the very vital job of occupation. But the men of the 7th are having a far different time of it now than they did on Attu. They have swimming facilities, tennis courts, recreational clubs and many other opportunities for sports. They are living more comfortably than ever before. They are sightseeing and having high adventure in a strange land.

A select group of picked young men are now offered the opportunity of proudly joining the "Hourglass Division." You may be one of the eligible ones. If so, after initial training in the U.S., you may join right up with the 7th if you enlist now in the Regular Army for a 3-year period.

Guests From Nazi Germany

The news that 86 of the Nazis' best wartime sci-entists are now working for our War Department must have struck many Americans as a rather cold-blooded arrangement. Some of the men who financed, organized and operated the industry which built the weapons devised by these scientists have been tried and sentenced by Allied military courts. But the inventors are living in comfort and comparative freedom, and working for some thing more than nominal wages.

Helicopters Aid To Western Fire Fighters

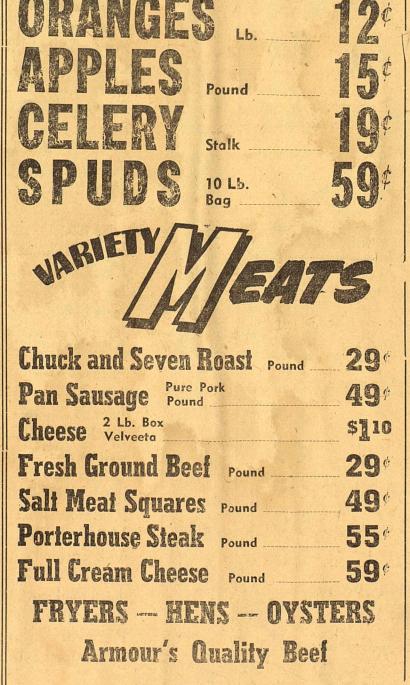

SE MISSOULA, MONT .- (AP)- Federal Forest Service officials of Region No. 1 are looking to the heli-copter as the possible answer to fighting forest fires in the inaccessible western wilds.

Getting men to the fires is no great problem since inauguration of the "smoke jumping" parachute corps but there still is an immense amount of time lost get-ting these men and equipment back to civilization after a jump in a remote area. Helicopters already have been

tried experimentally with encouraging results and it's likely they will find a regular job in taking men to and from fires. They also are expected to prove valuable in removing persons lost or injured in wilderness areas.

WARSAW, POLAND-(AP)- The Polish government feels that German prisoners of war should required to help rebuild what they destroyed during the war in this country, but apparently there is no intention to import any sizeable quantity of Germans here to work. There are only 40,000 German war prisoners still in Poland. Five thousand are being used in the re-construction of Warsaw. Five thousand are working on Polish farms, and 30,000 are employed in the mines. The Germans are housed in 10 separate camps.

		THE REAL PROPERTY.

triangular peninsula Sinai, a inking Africa and Asia, is enshrined in the history of many nations. Its stragetic positon has made it an important caravan route between Egypt and Palestine since earliest times:

Israelite Escape Route It has served in turn as a step-

ping stone to empire for the ancient Egyptians seeking the subjugation of Syria; as an avenue of escape for the Israelites in their exodus from Egypt under Moses; as a Christian outpost increasingly menaced by Moslem raiders from the East, and as a springboard for the Arabs in their great drive Westward across Africa and into Spain.

Napoleon Bonaparte, looking to-ward British India, marched his French Army across Sinai after conquering Egypt. In World War I, British Field Marshal Viscount Allenby pursued fleeing Turks across its desert sands. In World War II, Field Marshal Viscount Montgomery's defeat of Field Marshal Erwin Rommel at the decisive battle of El Alafein prevented-German troops in the West from crossing Egypt into Sinai and seizing costrol of - the Suez Canal. Intense agricultural pressure on Egypt's land in recent years has led to reclamation of some por-

tions of the shallow Nile delta and extension of plans for a new irrigation program.
