Unloading of the supplies for the Byrd Expedition was halted when a sudden blizzard forced the cargo ships to leave for the more open Ross Sea. In the background is the USS Merrick, another of the supply vessels.

Engel Cautions GOP Congressmen Against Tax Cut

WASHINGTON (P)—Representative Engel (Mich.) told his fellow Republicans Wednesday that enactment of the GOP-backed bill to cut income taxes 20 per cent might "spell defeat" for the party in 1948.

Signaling the floor during debate on that measure, Engel aimed his fire instead at House Bill No. 1 by Rep. Knutson (R-Minn.) to trim income taxes a flat 20 per cent for all persons earning up to \$300,000 a year.

Knutson's bill would give only meager tax relief to the poor, the Michigan Republican declared, while granting large benefits for high income persons.

Calling this a "radical departure" from past Republican tax policy, Engel continued: "I like to think of the Republican Party as the party of Abraham Lincoln. Lincoln once said, 'God must have loved the poor because he made so many of them.' I am afraid the present leadership of the Republican Party does not agree with Abraham Lincoln in this view."

Leo Durocher Fires Oral Blast At Judge

LOS ANGELES (P)—Leo Durocher, who has done a lot of talking back to umpires as boss of the Brooklyn Dodgers, picked a new target—the judge who is threatening to set aside the California divorce he granted last week to movie actress Laraine Day.

The inquisitive Leo, who all along has been saying only "no comment," finally issued a statement, which he said Judge Dockweiler. He said the judge released to the public the transcript of a conference in his chambers with Laraine and Leo when they flew back from El Paso. Legally Man And Wife

Leo didn't stop there. He said he and Laraine were "legally man and wife and we intend to remain so as long as we live."

"It is a disgraceful situation," the Durocher communique continued, "when a supposedly holier-than-thou jurist can suggest—as he did to my wife and myself—that we annul our marriage and her Juarez divorce, and that the court would overlook our living in sin until her interlocutory decree becomes final. This, he explained, would be legally permissible."

AUSTIN (P)—A man identified by Detective Captain Ted Klaus as Kenneth Leon Friend of Flint, Mich., was found dead by hanging in a jail cell Wednesday.

Friend was found hanging from a pipe in his cell at the county jail. He was wearing a dark suit and tie. The cause of death is being determined.

FHA Challenges West Texas Builders To Speed Housing For War Veterans

Federal Housing Administration officials from the Lubbock and Fort Worth offices challenged private enterprise to speed up construction of houses for veterans, in a meeting in the courthouse Tuesday night. The meeting was attended by 85 contractors, builders, materialmen, and real estate agents from nine West Texas cities.

The speakers included E. T. Stearns of Fort Worth, district director of FHA; J. A. Raley, Jr., of Lubbock, FHA valuator; Ed M. Lavell, chief underwriter of the Fort Worth office; and Jimmy Wilson, head of the FHA office in Lubbock.

In opening the meeting Raley challenged the builders to make every effort to carry out the government's policy of "putting a roof over the heads of the returned veterans who kept the roofs in America safe from enemy bombs."

Wilson painted a brighter outlook for materials this year, and said the government has set a goal of 1,200,000 homes for veterans in 1947.

The provisions of the housing program under the new Office of Temporary Control were explained by the district director.

Stearns said under the government's present system, priorities have been discarded but that permits to build houses are still necessary in a liberalized form. The builder must state that the house will not have more than 1,500 square feet of floor space irrespective of porches and garage.

Stearns said that a report that bathroom facilities will not be greater than the usual number for a one-unit house; and that the rental be not more than 6 1/2 per cent on the investment. Stearns said rent allowances are made for

Texas Tech Club Of Midland Has Year Anniversary

Malcolm Brenneman was elected president of the Midland Texas Tech Club at its anniversary meeting held Tuesday evening in the Crystal Ballroom of the Scharbauer Hotel.

Other officers chosen included: Bill Lyle, vice-president; Helen Brinson, secretary.

Reporting officers were: Bobby Watson, president; Harold Huffman, vice-president; and Faye Frachiser, secretary.

The Tech Club of Midland is one year old. It was the first ex-students and alumni chapter in Texas to be organized under a new Texas Tech alumni setup. Since Midland's organization was formed there have been 23 chapters organized in Texas.

Watson gave a report of the 1946 activities at the dinner meeting Tuesday evening. He reported that Midland had more ex-students to attend the 1946 Homecoming than any other city in Texas with the exception of Lubbock, home city of the college. The club here sponsored several events during 1946 including dances and barbecues, which attracted ex-students from area West Texas cities.

Has 75 Members  
Midland has two members of the "100 Club" of ex-students, which is pushing a permanent alumni and ex-students organization.

The Tech Club has 75 members in Midland. They will urge attendance at the college by graduating students of Midland schools.

Tech execs will invite the Texas Tech Band to include Midland on its Spring tour.

The Midland chapter has been asked to suggest to legislators the selection of Elwood Scott of Odessa to the college board of regents. Also the ex-students in Midland will support legislation to the effect that other state schools share in returns from state lands, which now go to Texas University and Texas A&M in major proportions.

Police Book Man On Suspicion For California Murder

LOS ANGELES (P)—Daniel S. Voorhees, curly-haired and husky, was booked Wednesday in the county jail on suspicion of murder after, police said, he signed a confession to the sadistic mutilation slaying of beautiful Elizabeth Short.

Detective Ed Barrett displayed a sheet of paper on which was written: "I did kill Beth Short." It was signed "Dan Voorhees."

Voorhees, 33, and blue-eyed, surrendered to homicide detail officers late Tuesday night after telephoning them he would be waiting on a downtown street corner.

Detective L. Charles King said questioning would be suspended "until he recovers from his bewildered and befuddled state."

Police began an immediate check of several hotels where Voorhees reportedly had been living, and police were notified in Phoenix, Ariz., where Voorhees said he has a wife and daughter, nine.

The Phoenix police identification bureau reported that one Dan Voorhees had been arrested three five times, and in 1942 was questioned in connection with an assault to commit rape.

With scores of farmers and ranchers from a 12-county area of West Texas in attendance, the 13th annual meeting of stockholders of the Midland Production Credit Association opened in the City-County auditorium here Wednesday afternoon.

Leonard Proctor, president, presided at the business meeting which got underway following the serving of a typical West Texas barbecue at noon.

M. F. King, vice-president, and C. C. Thomas, secretary-treasurer, were to submit reports. The association's directors are Proctor, King, Jim Thornton of Poyte, T. R. Sowell of Big Lake, and Charles J. Cox of Garden City.

In urging sweeping revision of the Wagner Act, Iserman endorsed a bill by Senator Ball (R-Minn.) which is designed to accomplish good relations.

Easy To Sue Unions  
He also supported legislation which would:

- 1. Outlaw unionization of foremen.
- 2. Prevent industry-wide bargaining by unions.
- 3. Make it easier to sue unions.
- 4. Ban jurisdictional or organizational strikes and secondary boycotts.
- 5. Outlaw closed shops.

Iserman said Ball's bill to revise the Wagner Act "reflects a remarkable understanding of the problems of management and labor unions under the present act."

America Will Cease Mediation Efforts In China's Civil War

WASHINGTON (P)—The State Department announced Wednesday withdrawal of the United States from the Big Three which was established in 1945 to end hostilities between the Chinese Central Government and the Communists.

In an early morning statement the department said this government is terminating its connection with the committee of three which was set up in Chungking in February, 1946, to terminate hostilities in China.

The department's announcement said the United States also is terminating its connection with executive headquarters established by the committee in Peiping to supervise execution of the agreement to end hostilities and demobilization of the opposing armed forces.

American personnel at the executive headquarters is to be withdrawn "as soon as possible," said the department.

U. S. Withdraws as Mediator  
Michael J. McDermott, department information officer, said the announcement meant that the United States is withdrawing from all efforts to mediate differences between the central government and the Chinese Communists.

In response to a question, McDermott said that instructions regarding relief of the U. S. Marine forces in China "will be given later in conformity with the approved plans for termination of the American participation in the executive headquarters."

Stanolind Spots Two Flankers To N-E Ward Wildcat

Stanolind Oil & Gas Company has filed application with the Railroad Commission to drill two new explorations in Northeast Ward County to a possible depth of 9,500 feet, starting at once.

The prospectors are outposts to the same company's No. 14-A Sealy-Smith, located 660 feet from south and west lines of section 3, block A, G&M&B&A survey, which ran a drillstem test at 8,872-9,000 feet, and during 75 minutes recovered 60 feet of gas cut drilling mud and 150 feet of oil and gas cut mud, showing five per cent oil.

That development is reported to have drilled to around 9,016 feet, and is now plugging back to 8,860 feet. It is understood that operator likely will run casing to make tests on shows that have been logged.

The new locations are:  
Stanolind No. 17-A Sealy-Smith, 680 feet from north and east lines of section 19, block A, G&M&B&A survey. This makes it a diagonal southwest stepout from No. 14-A Sealy-Smith.

Stanolind No. 18-A Sealy-Smith will be 660 feet from south and east lines of section 18, block A, G&M&B&A survey. It is a west flanker to No. 14-A Sealy-Smith.

Gulf Oil Corporation No. 1-E-A University-Pogelson, Southwest Ector County wildcat, 680 feet from east and 682 feet from north lines of section 7, block 35, University survey, cored at 8,837-43 feet. Recovery was six feet of sand, shale and lime. It was coring ahead. Apparently it was still in the lower Simpson.

Edwards Field Stepout  
S. C. Currie of Garden City, Dave Duncan of Big Spring and Ed Reigle of Midland are to start drilling one on their No. 1 TXL, in South Ector County, as a one-half mile north stepout from production in the Edwards field.

It will be 330 feet out of the southeast corner of the northwest quarter of section 33, block 44, TP survey, T-3-S. Drilling will be to between 2,000 and 3,500 feet, with rotary.

Humble Oil & Refining Company No. 1-Pinson, West Andrews County deep wildcat, in northeast corner of section 13, block A-40, gulf survey, and a flanker to the discovery well for Ellenburger production in the Nelson field, is being plugged and abandoned on total depth of 10,861 feet, in granite. The Ellenburger section in this project failed to yield oil or gas.

NEW YORK (P)—Five Army prisoners hacksawed their way through iron bars Wednesday and escaped from prison on Governor's Island in New York Harbor, U. S. Army authorities said.

Four of the prisoners had been transferred to Fort Jay on the island after attempting to escape from Ft. Dix, N. J., New Year's eve, the Army said.

A hacksaw was found in their cell in which two bars had been cut away, the Army said, and a sixth prisoner who had declined to join them in the escape was found in the cell. ### A&M Cadet Corps Officers, NCOs Resign

COLLEGE STATION —(AP)— To the strains of the "Aggie War Hymn" the Texas A&M College cadet corps of 2,100 members marched from their dormitory area Tuesday night at midnight to the home of President G. B. Gilchrist, where 15 of the ranking officers handed him the resignations of practically all the commissioned and non-commissioned officers of the corps.

The officers told President Gilchrist, who met them at the door, that they felt "the new rules for the discipline of the corps had taken from the cadet officers their major responsibilities."

Gilchrist replied, "I accept with regret."

The band then struck up "The Spirit of Aggieland" and the corps sang. At the conclusion of the song the corps broke ranks and the students returned quietly to their dormitories.

**Paper Explains Changes**  
The changes in the regulations governing the corps' discipline were explained Tuesday by an article in the student newspaper, "The Battalion," which stated: "After 18 months under the dean of men, discipline of the cadet corps was taken over today (Tuesday) by Col. G. S. Meloy, corps commandant, following action by the A&M Board of Directors."

"Transfer of supervision of cadet discipline was recommended by President Gilchrist, dean of men, J. W. Rollins and Colonel Meloy after consideration of the previous system."

The newspaper said that the retention of A&M's "military college rating" was somewhat endangered by the administration of military discipline by civilian authority.

## A Hopeless Boycott

It is not hard to understand and sympathize with the sentiments of Dr. Norman Wiener, world-renowned mathematician, who has declared a sort of sit-down strike against co-operation with "irresponsible militarists".

The Massachusetts Institute of Technology professor, by refusing to make a scheduled address before a Navy-sponsored symposium on the problems of the new calculating machines, put into effect a previous declaration that he would release no further information that would pass out of his control.

The paper which Dr. Wiener was to have read was of a highly technical nature. But he pointed out that it might have been useful in the development of guided missiles. Thus he felt that he would be contributing to the production of weapons of mass slaughter, whose possession "can do nothing but endanger us by encouraging the tragic insolence of the military mind".

Many scientists must have shared Dr. Wiener's feelings since the closing days of the war, especially those who helped develop the atomic bomb and who protested its use against civilians. It is probably a realization of practical difficulties, rather than indifference, which has prevented until now such a determined stand as Dr. Wiener's.

For Dr. Wiener is really in the same boat with those who, in World War I, sang "I Didn't Raise My Boy To Be a Soldier", and those who today oppose selective service and peacetime military training and our continued occupation of former enemy countries. They desire peace. But their efforts to achieve it only help to make this country defenseless.

Wiener's boycott is useless unless it is part of a firm stand by all scientists of the world against the use of their discoveries for military purposes. A boycott of peacetime preparedness is worse than useless unless it is part of a guaranteed world movement toward disarmament.

Such a spontaneous movement is impossible now and in the foreseeable future. Distance, education and indoctrination, the barrier of languages and the sheer unwieldiness of people in the mass make it impossible for popular sentiment to end war. For practicality's sake the efforts toward peace and disarmament must be made by governments.

Needless to say, many of those governments are the guides, not the guided. Their representatives in the council of nations reflect the sentiments of the few who govern, not the many who are governed.

So even if every American scientist followed Dr. Wiener's lead, and every American manufacturer agreed never to accept another war contract, and the American people forced their Congress to disband the Army and Navy, the problem of world disarmament and world peace would still rest with the United Nations.

Dr. Wiener speaks of "the tragic insolence of the military mind". But it is not military mind that we have to fear today. It is rather the diplomatic mind, whose view of the clear solution to the problem of war is clouded by pride, suspicion, jealousy, ideological stubbornness and fear. Until that diplomatic mind sees the light, all the rest of us can only sit by, hope for the best, and prepare for the worst.

An orator is a man who can explain to a barber exactly what he wants his hair cut.

## Time Limit On Baseball Games May Be Instituted

DALLAS — (P) — A time-limit on baseball games for the benefit of the fans and press is expected to be instituted here Saturday and Sunday when the Texas League holds its annual schedule meeting.

Long drawn-out double-headers that extended far into the night brought protests last season. The fans were concerned because, it was argued, when a man had to go to work in the morning he didn't like to be kept out at the ball park until after midnight. If so, he probably wouldn't be back at the park the next night.

## Graziano Ordered To Appear Before Athletic Group

NEW YORK — (P) — Middleweight boxer Rocky Graziano will have opportunity Friday to convince the New York Athletic Commission that the \$100,000 bribe offer he claims to have received was too "ridiculous" to report.

Graziano's chance for a return title bout with middleweight champion Tony Zale on March 21 possibly is at stake.

District Attorney Frank S. Hogan disclosed the bribe offer to Graziano.

Graziano told reporters Tuesday night that Hogan and his assistants had twisted into something serious his story of being offered a bribe to "throw" his scheduled fight December 27 with Ruben (Cowboy) Shank of Denver.

However, Chairman Eddie Eagan ordered Graziano to appear Friday before the Athletic Commission "in connection with the circumstances surrounding his cancelled fight" with Shank.

It was reported that if the former Minnesota star, who played with the conference's Brooklyn and Miami clubs last year, should jump to the National League Pittsburgh Steelers the conference would go to court with the case.

Daley was traded by Brooklyn to Miami late last season before the Miami club folded and its franchise was shifted to Baltimore for 1947.
