SUN TO RUN CASING IN

A drillstem test was run for one hour at 7,046-73 feet. A five-eighth inch bottom hole choke, and a one-quarter inch top choke were used.

Recovery was the 1,000-foot water blanket, cut with gas and 30 feet of gas cut drilling mud, with a good oil fluorescence. Flowing bottom hole pressure was 350 pounds. Shutin bottom hole pressure, after 30 minutes, was 2,500 pounds.

Operator then took a caliper survey and followed with taking a Schlumberger survey and the casing was to be started in the hole immediately.

Informed sources reveal that the Ellenburger section so far penetrated drilled at the average rate of 15 minutes to the foot. Some of it was cut as fast as a foot in seven minutes. Some streaks required 20 minutes to drill a foot.

This well has already shown for production from the Strawn section the Pennsylvanian which was topped at about 7,136 feet, and in which there was a total of about 240 feet of saturation before water was encountered.

Roxas Escapes But Grenade Hits Photographer

MANILA -(AP) -- An attempt to assassinate Philippines President Manuel Roxas was made Monday when a hand grenade was thrown on the platform where he had just finished speaking.

The grenade was thrown by an unidentified person as the president concluded his speech in the grandstand at Plaza Miranda in front of historic Quiapo Church.

Roxas was uninjured. He left immediately for Malacan while police threw a cordon around the grandstand in an effort to trap the would-be killer.

The grenade exploded just 20 feet from President Roxas. Malacan Palace announced late Monday that he was resting well

after the incident. Photographer Emilio Maglaland, who was taking pictures of President Roxas, was injured by the grenade. Shrapnel pierced the right

How you can help YOUR ARMY DO ITS PART FOR PEACE

A MESSAGE FROM THE SECRETARY OF WAR

WITH the President's proposal for the discontinuance of Selective Service on March 31, America will rely on voluntary enlistments for the maintenance of the Regular Army at authorized strength.

In view of world conditions today, this is a step of the gravest importance to every American citizen. Never before in history has any nation raised and maintained a million-man army by the volunteer system alone. Our ideals, our belief in individual freedom, our safety, our duty to promote world peace - are bound up in this decision.

This is your Army, and voluntary enlistment is your choice. It must not fail. With your help it will not fail. The Army must continue to provide adequate occupation forces overseas, to supply these forces, and to help in keeping America strong and secure.

Your help and understanding can do much to encourage a steady flow of 3-year voluntary enlistments, necessary to sound training and the efficient performance of the Army's task.

When you discuss this subject with your sons, brothers, husbands or friends who may be considering an Army career, bear in mind the advantages offered by a 3-year enlistment. Among them are the choice of branch of service and of overseas theater where openings exist, and the opportunity for training in valuable skills at Army schools.

It is a high tribute to the loyalty and spirit of the

American soldier that two out of every three men in the present Army are veterans - men who have known the hardships of war and have chosen to continue their service.

A job in the new Regular Army is a good job a job that compares favorably with the average in industry, and has more opportunities for promotion than most.

You can help by giving your respect and support to the man who enlists voluntarily - to do his part in carrying out your country's world-wide obligations to build a peace that will endure.

HAVE YOU EVER EXPERIENCED A **BUMP ON THE HEAD?**

When you bump your head the real damage may not be apparent at once . . . the knot you raise is sore, but it soon gets well. However, the head rests upon a pair of vertebrae called the atlas and axis. The spinal cord passes through these vertebrae and since the spinal cord and its trunk nerves are the only source of communication between the brain and the glands and organs of the body, the real danger lies in the injury that may

be done to the nerve fibers that pass through the neural canal Perhaps it did not amount to much, yet if you find your health dropping below par, it would be the part of wisdom to consult a

Good Feeling Or Fear?

Some top men in government, business and labor unions are expressing what the diplomats call "cautious optimism" these days. They feel that an era of good feeling in industrial relations may be coming on, although the feeling is almost too good to be true. And there are reasons at the moment to make that feeling more than

There aren't any nationally important strikes. A two-year task of job-classification in the steel industry has been finished to everyone's satisfaction. Several important contracts have been extended during negotiations, when there might have been strikes at the deadline. Phil Murray and Ben Fairless seem to be on speaking terms.

But is it good feeling or a healthy fear? The unions may be afraid of slap-down legislation if they don't proceed carefully. Industry may be worrying about possible strikes and portal-to-portal judgments. Congress may be thinking, now that things are relatively quiet, that maybe some proposed labor legislation is a little rough for a lot of voters' digestion.

Yet, if the atmosphere is a little tense, it's also peaceful. Maybe somebody will lead with a left and spoil it But right now collective bargaining seems to be working, and all's approximately right with the world.

Unselfish Refusal

In a period of world history not notable for unselfishness, it was quite heart-warming to read Prime Minister Attlee's recent note to President Truman. The President had offered to reroute colliers bound for Europe so that their cargoes migh help to ease Britain's coal short-

Attlee, in his note of thanks, refused the offer, saying "the need for coal in Europe is no less pressing and we could not ask that cargoes should be diverted from Europe to the United Kingdom".

As Attlee wrote that, his dountry's need of coal had abated slightly. But the situation had improved only from near-catastrophe to crisis. His unselfish refusal of a sympathetic offer to help was simply a decent, human gesture by one unassuming man to another. But when these unassuming men happen to speak for their nations they create a moment of renewed faith in a time when war's sufferings seem to have left little room for such kindly acts, by individuals or by nations.

Strange Heroes

A Moscow shoe factory foreman who thought up some remarkable production improvements has been hailed by the Soviet press as a sort of combination Charles Bedaux and Henry Ford.

It is interesting to read this complimentary comparison and then recall the bitter words the American Communists have said from time to time about Ford and the Bedaux speed-up system.

Maybe the domestic Reds don't ape every thought and word from Moscow, after all. Or, more likely, the Soviet admiration for industrial efficiency is able to leap even the thick hedge of Soviet ideological prejudice.

NEW YORK-The world's heavyweight boxing championship has been held by Joe Louis since 1937. Yet when veteran boxing men get together and compare the current postwar interest in fisticuffs with ris, Dempsey rose to boxing's the period following World War I, they invariably return to Jack the harder they fall." Dempsey and the first Golden Age of sports.

Dempsey was the greatest drawing card of them all. When he lost Morris in 14 seconds at New Orthe title in 1926 to Gene Tunney, leans. Five months earlier knocked out Fulton in 18 seconds. Won Title In 1919 boxing's top crowd of 120,757 turned out in Philadelphia. Receipts were \$1,895,733. And when he sought to regain the crown from Tunney the following year, the battle of the famous "long count" drew receipts in Toledo in 1919 when he knock-ed out Willard in three rounds. of \$2,658,660, largest gate in boxing

Of the eight boxing bouts which drew more than one million dollars in gross receipts, Dempsey figured in five. The first million-dollar gate was the 1921 Dempsey-Carpentier fight which attracted 80,183 fans and \$1,789,238 to Boyle's Thirty Acres in Jersey City. Ringside seats were \$50. Most Dramatic Fight
Two years later Dempsey drew

another million-dollar gate when he met Argentina's Wild Bull of the Pampas, Luis Angel Firpo. He flattened the South American in two rounds in what veterans still ney but his retirement was temdescribe as the most dramatic porary. He came back in 1931, scrap of all time scrap of all time.

Firpo sent Dempsey to the floor with his first punch. But in a few seconds the tables were reversed, Dempsey knocking the Argentine down seven times before the end of the first round. Yet the South American had enough stamina left to drive Dempsey through the

In the second round Firpo made three more trips to the canvas and the end came in 58 seconds. Dempsey received a purse of \$470,000, or approximately \$120,000 a minute. Dempsey drew a million-dollar gate even in a non-title bout with Jack Sharkey. The Manassa Mauler he was born in Manassa, Colo. June 24, 1895—stopped the Boston

America's Card Authority
In proportion to its size, there is probably more bridge played New Jersey than in any other state. However, there are only two Life Masters in New Jersey, one of whom is Samuel Katz of Millburn. He is a colorful little spitfire. You can depend upon action when you kibitz Katz.

His theory on today's hand was sound and one which can help to improve your game. Katz says that many players have "notrumpitis" and are afraid to play

when he bid two diamonds this hand, he was informing North, his partner, that he did not the spade suit stopped and therefore he was showing his second

suit. When he bid three hearts over North's two no trump, he definitely said, "Partner, I do not want this hand to play at no trump. My bid of three hearts tells you that my hand is strong enough for you to bid four dia-monds. Please show your preference between hearts and diamonds.'

When North then bid three no · Presto and Universal Cookers trump, Katz naturally assumed that his partner had the spade suit well stopped. A spade was opened and North-South could take only eight tricks, while at diamonds they would have lost only a club and a spade.

To back up his theory, Katz further pointed out that when North bid two clubs over one heart, Katz would not have bid two diamonds if he could have handled the spade suit himself, and if he held some kind of a fit in clubs. Therefore North should have been warned to some extent by the two-diamond bid. But there was no justification for trying to play the hand at no trump over Katz' three-heart bid when the spade suit was not well stopped.

Texas Opens Practice For Western NCAA

Southwest Conference basketball
was just a memory Monday to every team save champion University of Texas. The Longhorns still have a few tough games coming up. After a few days rest from their 24th victory in 25 starts, a 64-52 affair over a team of all-stars, the Longhorns start practice Monday for next week's National Collegiate Athletic Association tournament. If Texas wins the Western Division title in Kansas City, it will face title in Kansas City, it will face the Eastern champion in New York. Baylor was the last conference team to conclude season play, bow-ing to Indiana State, 64-59, in Davenport, Iowa, Saturday night. Texas' first opponent in the NCAA tournament will be Wy-oming University, March 21.

NEW YORK — (P) — Alvin J. Paris, the state's principal witness in obtaining the conviction of three men accused of helping him try to bribe New York Giants football players, had another appointment in court Monday—for his own sen-

28-year-old florist and novelty concern operator, was convicted of attempting to bribe Frank Filchock and Merle Hapes, Giants backfield stars, to lay down in their December 15 National Professional League title game with the Chicago Bears, who won 24 to 14.

General Sessions Judge Saul Streit had told Paris to cooperate with the district attorney's office if

he expected consideration.

Paris testified at length last week at the trial of David (Pete) Krakauer, 44; Jerome Zarwitz, 32, and Harvey Stemmer, 35.

A jury that deliberated nine hours

returned its verdict Saturday night, finding Krabauer guilty of one count of conspiracy and one of bribery, Zarowitz guilty on one conspiracy count and innocent of bribery, and finding Stemmer guilty of two bribery counts and one of conspiracy.

Dodd's Double Track Win Greatest Feat Since Paavo Nurmi

NEW YORK -(AP)- The 1947 ndoor track season was history Monday, as far as New Yorkers were concerned, but it will be a great many years before the fans orget the sensational performance of galloping Gil Dods in the finale

Saturday night.

Dodds scored crushing victories in both the one-mile and two-mile uns at the New York Knights of Columbus games, with only an nour's rest between them, completng a "distance double" achieved by few men in the history of inloor foot-racing.

He made his twin victories all the more spectacular by running the mile in 4:07.1, the second fast-est time ever recorded for the disance on a standard indoor track. After winning the Cardinal Spell-man Trophy handily in the shorter route, the Boston Athletic Association star returned an hour later and captured the two mile event by 40 yards.

It took him nine minutes, 15.5 seconds to complete his two mile romp but the capacity crowd of hardly expected him to approach any records after his dazzling performance in the mile. Speed And Endurance

Phillies Use Famous Shift Against Williams

By The Associated Press In case Teddy Williams, the Bos-ton Red Sox power hitter, had any doubts about the opposition using the now famous Boudreau or Dyer or what-have-you shift against him

this year, that doubt probably no longer lingered Monday. In his first appearance against rival team Sunday, the lefthanded larruper found six of the Philadelphia Phillies lined up on the right side of the diamond with Jim Tabor at his normal third base position.

It is hard to say whether the
