### Up Above The World So High

The human eye recently was permitted to look upon a scene which paradoxically, the eye has never seen and perhaps never will. It was a view of the earth taken at an altitude of 100 miles by a radio-operated camera in a V-2 rocket.

A hundred horizontal miles are as nothing today. Man can fly them in a very few minutes. A hundred vertical miles can easily be encompassed by man's imagination. But the idea of human presence at that distance above the earth's surface is incomprehensible to most

The rocket's camera simulated that human presence, and the result was both inspiring and humbling. There was the curve of the earth. There lay a section of a recognizable globe. Man had known for centuries that this would be so, though he had never really seen it. Now a product of human ingenuity had brought back to earth visual proof of human wisdom.

But if the earth's shape were recognizable, its features were not. Mountains were merely patterns of light Eaker Predicts U. S. and shadow. A great body of water was a black patch. Clouds were tiny dots and clusters.

Yet man, looking at this new picture, could know that down there where those tiny dots and clusters ap- the United States would lose the cock, Sterling and Coke Counties peared there was a thin blanket of atmosphere. The explosion of a hundred atomic bombs would only add a few more puffs of cloud to the picture.

A hundred miles are as nothing. Yet from that short distance in space the strife of men and of nations, and personal gain placed above national would give Midland a direct paved security; and the low level to which outlet to the new Jameson oil field important. They are invisible.

urine makes your back ache so you groan
... so you get up three or four times a
night to pass water, now be of good cheer.
Three generations ago a famous doctor
noticed that hundreds of his patients had this backache. He developed a medicine made of exactly the right amount of six-teen herbs, roots, vegetables, and balsams—truly Nature's own way to relief. Now millions have used it. The medi-cine is Dr. Kilmer's Swamp-Root. In-stantly you take it, it starts to work flushing out those excess acids that may

be causing your backache. . . increasing the flow of urine to help ease that burning sensation when you pass water . . and that bladder irritation that makes you get up nights. Caution: take as directed. You'll say it's really marvelous.

The union and the company both can't be right.

wages for similar skills and training in this community.

The company has said, "Let's decide which is right by asking Governor Jester and the Governors of the four other states in this area to appoint an impartial panel to arbitrate all questions pertaining to wages."

The union has indicated that it will not accept such arbitration.

And the public continues to be needlessly deprived of telephone service!

It's the fair way to settle the wage question.

Agreement to arbitrate wages could restore full telephone service to the public NOW.

DADDY, the count is on you...not the batter. You're not pitching him strikes. If he gets on base it will be a miracle. You are doing both the pitching and umpiring the game. Quite a novelty setup you have there daddy. How is that youngster to learn to play the game of life in GOLDEN RULE FASHION when his own daddy throws him nothing but 'balls' and calls 'em strikes? W-h-y, your son never will have a chance. You have set the pace daddy...blazed the trail of your own blood to a life of dishonesty, greed, and foul pay when you fail to put 'em over the plate.

YOUR church has a remedy for this sort of conduct. It holds the better way of life through the teaching of God's word. The church aids you in establishing a principal ... the GOLDEN RULE PRINCIPAL and to build a faith strong enough to play the game of life in strict GOLDEN RULE FASHION.

HE church is universal language . . . it's teachings will bring nations together and prepare the way for His kingdom to come on earth. Go to your church on Sunday and take a friend.

That was the observation Friday of Jackie Robinson — first negro rain. ever to reach the major leagues in modern organized baseball.

The brilliant 28-year-old former UCLA all-around athlete was still in a daze over the swiftly moving events which made him a Dodger. "It feels wonderful to be a major leaguer, even if I haven't actually played in the big leagues yet," Robinson beamed. "I hope I can justify everybody's faith in me." The star second baseman, who

had been asked to move to a strange 25.50 paid by all interests; "Naturally, I prefer to play sec-
