

Reports Reds Active On Border

Congressman Also Says Communism Rife In Hollywood

WASHINGTON—(AP)—Representative McDowell (R-Pa) said Thursday a House unAmerican Activities Subcommittee has uncovered evidence that a "ring" is sneaking Communists from Mexico into the United States.

McDowell said the subcommittee also found "communism deeply entrenched in Hollywood and the movies."

Just back from California, the Pennsylvania told a reporter he returned by way of the Mexican border to check on "tips and leads" regarding the ring.

"There is absolutely no question that there is such a ring," he said. "The unAmerican Activities Committee is not concerned with illegal immigration, any more than with the numbers racket or cheating on income taxes."

"The immigration we are concerned about is that of people who come over our border to do something to our country."

He gave no details as to where the ring operates along the border or how many people are getting across.

McDowell and Chairman J. Parnell Thomas (R-Mo) were members of a subcommittee which went to the coast for hearings on communism in Hollywood.

"It was a highly successful trip," McDowell said. "Communism has gotten into films. We are prepared to name the films and who got it in and how."

On the basis of information gathered by the subcommittee and some to be checked further by investigators, the congressman said the full committee will hold open hearings in Washington next month.

Dire Problem Faces Red Cross Chapter; Assistance Requested

The Midland County Chapter of the American Red Cross is faced with a dire situation—one which demands immediate attention if the chapter is to have a building for its permanent home.

Representatives of the city and various civic and service groups learned the seriousness of the problem at a meeting in the City Hall Thursday morning when Irby Dyer, chapter chairman, outlined the situation.

He said the Red Cross fieldhouse at the former Midland Army Air Field has been offered to the Midland Chapter free of charge, providing the chapter can furnish a lot or lots on which the building can be moved.

The chapter has been seeking a suitable site for the attractive structure which would become a permanent home for the Red Cross unit. But without success.

Now, word has been received that May 31 is the deadline, and that a location must be obtained by that time or the building offer will be withdrawn.

Dyer pointed out the desirability of the building and stressed the need for such a structure here. The building was erected at a cost of \$8,700.

He said the Red Cross is a committee (Continued on Page 4.)

Weather

Partly cloudy Thursday afternoon, night and Friday. Maximum temperature in Midland Wednesday was 80 degrees, minimum 54 degrees. Minimum Thursday morning was 65 degrees.

Rodeo Boosters Head Home After West Texas Tour

By STANLEY FRANK

SAN ANGELO—Tired, after a full day of publicizing Midland's Rodeo through a big part of West Texas, Midland goodwill trippers were accorded a royal welcome at San Angelo Wednesday night as they finished the first half of their 700-mile tour.

San Angelo Sheriff JayCees, Tom Green county Sheriff Buck Bryson, and San Angelo city police met the Midland visitors at the city limits, gave them refreshments and escorted them into town to the tune of shrilling sirens, cowboy songs and blaring announcements of Midland's World Championship Rodeo.

Then hospitality ceased temporarily as the San Angelo JayCee softball team rebuked the Midland JayCee team with a 6-4 trouncing.

The hosts immediately resumed their geniality, however, and honored Midland visitors with a banquet.

Midland's Rodeo Boosters were accorded ultra friendly receptions at every city along their route Wednesday, and it was to smiling people everywhere they passed out leaflets advertising the event.

Placards announcing the show were distributed all along the way, and local invitations to come to Midland were heard by crowds at each stop.

In Pecos alone were the Boosters quiet. Because of the funeral services for Captain William W. Dean, prominent Pecos city leader, Midlanders merely placed a few signs in store windows and silently moved on.

Thursday, the rodeo ambassadors continued east to Abilene, where they were to have lunch with the Abilene Lions Club. They will return to Midland by way of Sweetwater, Colorado City, Big Spring and Stanton, arriving back at home at 6:30 p.m.

See "Help Wanted," Ph. 2518.—(Adv.)

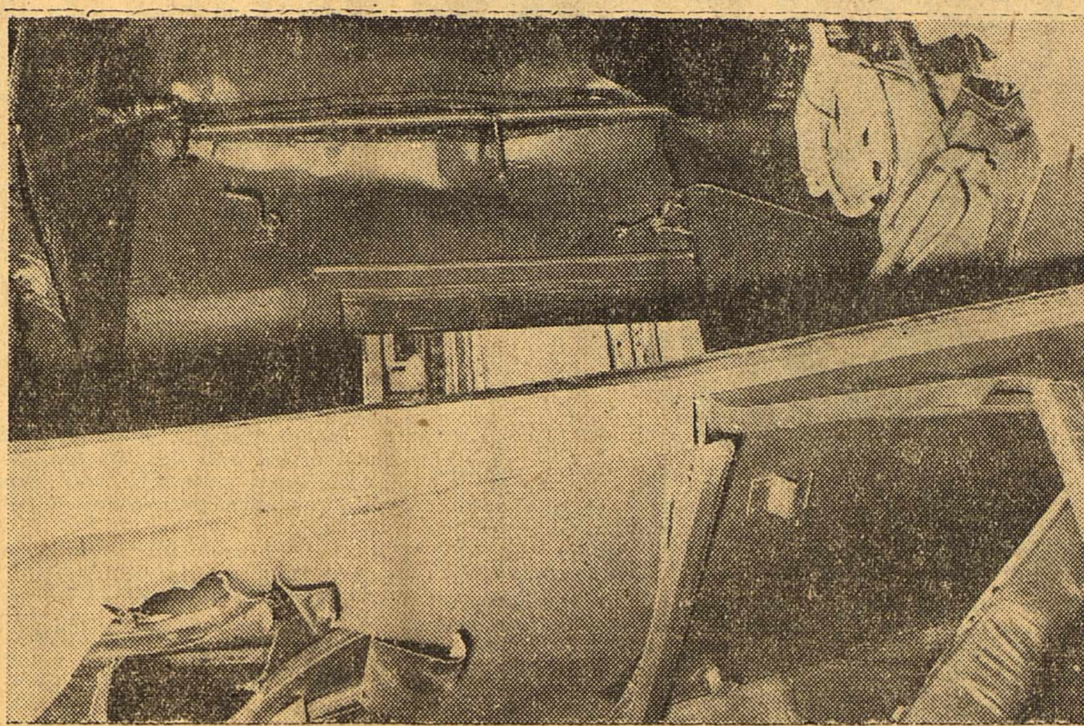

CHICAGO — (AP) — Sears Roebuck and Co. Thursday announced that, effective immediately, it is reducing prices on its passenger automobile tires by 12 per cent.

NANKING — (AP) — Chinese dispatches described a bold Communist guerrilla attack inside Changchun Thursday as the government rushed a "sizeable" force of warplanes in an effort to ease the Red grip around the besieged Manchurian capital.

MANILA — (AP) — Wreckage of a luxury air line carrying at least 11 Philippine government officials and a crew of seven was found Thursday on a mountainside on Mindanao. All aboard were believed dead.

MOSCOW — (AP) — The periodical Moscow Bolshevik Thursday asserted the "average American" was against President Truman's program for aid to Greece and Turkey because he felt it would increase his taxes.

Texas Train Blast Probed

A blasted car in which two were injured is being investigated by FBI agents in Fort Worth, Texas. The explosion occurred in the restroom nearest the section for whites in a "Jim Crow" car. The explosion happened Wednesday near Ardmore, Okla. (NEA Telephoto)

Bill Marking Far-Reaching Departure In U. S. Foreign Policy Is Signed In Simple Ceremony

El Paso Group To Arrive Here Late Thursday

To visit with friends and neighbors and to learn of the growth, development and possibilities of Midland and the Permian Basin area, a group of El Paso Goodwill Trippers will arrive here about 4 p. m. Thursday on their first post-boost excursion.

Delbert Downing, Midland Chamber of Commerce manager, will meet the visitors at Midland Air Terminal and will take them on a brief sightseeing tour of Midland and vicinity before the Boosters leave their bus at Hotel Schaubauer. Police Chief Jack Ellington will provide a police escort.

Members of the Midland Wranglers' Club will be on hand at the hotel to greet the El Pasoans.

The Trippers left El Paso Wednesday night by train, arriving in Monahans early Thursday. After breakfast in Monahans, they boarded a bus for visits to Odessa, Kermit and Midland. They had lunch in Odessa. They will reboard their Pullman here Thursday night for the return trip to El Paso.

The El Pasoans will be hosts to Midland Chamber of Commerce directors, Wranglers Club members, city and county officials and other civic leaders at a dinner in Hotel Schaubauer Thursday evening. The Wranglers will be in charge of the program, and John P. Butler, Chamber of Commerce president, will speak.

El Paso business executives on the trip include: W. J. Hooten, editor, El Paso Times; chairman Goodwill Tour Committee; Allen E. Bruce, Pacific Mutual Life Insurance Co.; J. Mack Crawford, Crawford Manufacturing Co.; Hal M. Daugherty, State National Bank; E. Flanagan, Zork Hardware Co.; L. R. Foskett, Fos-

(Continued on Page 4)

KANSAS CITY—(AP)—President Truman Thursday signed the \$400,000,000 Greet-Turkish aid bill setting in force a historic American foreign policy of bolstering weak countries against outside aggression as a "support" to the United Nations.

He called it "an important step in the building of peace" and said it offered "proof" that the United States will make "a vigorous effort to help create conditions of peace."

"The conditions of peace," he said, "include the ability of nations to maintain order and independence and to support themselves economically."

The measure, a far-reaching departure in international relations of this government, became law in a simple ceremony in a Midwestern hotel with Truman's pledge it would not be used to benefit "any particular group or faction."

In his brief statement, the president called the measure "proof" that the United States earnestly desires peace and is willing to make a vigorous effort to help create conditions of peace."

Shell To Build Pipeline From Here To Pacific?

TULSA, OKLA.—(AP)—The Oil & Gas Journal has reported that a group of oil companies "headed by the Shell interests" was planning construction of a 20-inch pipeline to carry crude oil from West Texas to refineries in California.

The project would be the first crude oil pipeline linking oil supplies east of the Rocky Mountains with the West Coast.

Present plans, the Journal said, call for the line to originate at Midland, Texas, and to terminate at Wilmington, Calif., where six refineries with a combined capacity of more than 225,000 barrels daily are located.

Time for the start of construction was said to depend on the availability of steel pipe, now in short supply.

According to the Journal, tentative plans indicate the line would move 150,000 barrels of crude oil daily.

UNOFFICIAL REPORTS HERE PARTIALLY CONFIRM NEWS Officials of Shell Oil Company, Inc., at the Midland area office, and in the Houston regional headquarters, were contacted by The Reporter-Telegram Wednesday regarding the Tulsa report of the proposed pipe line. Those executives had no official statements to make regarding the report.

However, it has been learned, from unofficial but reliable sources, that a plan for such a pipeline is being developed in California, and that the proposal is being given serious consideration by top men in several important concerns in the oil industry.

DROUTH DAMAGES BIG NORTHWEST WHEAT CROP SPOKANE—(AP)—The wheat crop on hundreds of thousands of acres in the Pacific Northwest reached a critical stage Thursday as a result of a dry, early spring.

Grain dealers reported that while rains in the next few days could make fair to good crops, yields already had been cut on thousands of acres.

Railroad Unions Ready To Bargain

WASHINGTON—(AP)—Five big unions prepared Thursday to bargain out their demands on the railroads under procedure which will delay any strike showdown for perhaps six months.

A. F. Whitney, president of the Brotherhood of Railroad Trainmen, told reporters:

1. The railroad labor organizations feel they have a legal right to call a "quickie" strike any time after Sunday—but do not plan to do anything of the sort.

2. He believes his union and four others allied with it will agree to "start from scratch" under the time-consuming Railway Labor Act in their new negotiations for changes in 44 working rules.

3. He thinks this should result in "a settlement or a breakdown of negotiations by November 1."

Whitney's statement at a combined dinner and news conference Wednesday night jibed with the stand of Alanley Johnston, who said the same thing in Cleveland regarding his Brotherhood of Locomotive Engineers.

Twenty other rail unions will follow these legal procedures as a matter of course.

Year Ends Sunday There had been some doubt in the case of the trainmen and engineers, growing out of their 48-hour strike a year ago this week. At that time the two unions had gone through all the steps required under the law, had taken strike votes, and gone on strike May 23.

The strike was broken by President Truman when he threatened to use the Army to enforce his terms, which were: a pay raise of 18 1/2 cents an hour, but no changes in working rules for one year.

The year ends Sunday, May 25. The trainmen and engineers have never cancelled the strike votes, and they took the position that when the year was up, they had a right to pick up where they left off.

Council Approves City Budget; Gets Plans For Water Extension Program

The city's budget for the current fiscal year was approved unanimously by members of the City Council at their meeting Wednesday afternoon. The general operating fund is budgeted at \$404,776, as compared to \$364,599.30 last year. A total of \$67,000 is set up for debt servicing. The city's tax valuation is estimated at \$15,000,000.

Plans and specifications for the proposed extension and distribution program of the water system were submitted by Ashley G. Chessen, consulting engineer of El Paso. The plans provide for development of the new Wadley tract north of the city and for getting the water into the city and into the distribution system. Chessen estimated the overall cost of the project at \$375,000. The program will be given further study.

New City Manager Attends R. C. (Bob) Hoppe, city manager-elect, who will assume his duties here next week, attended the session.

The council authorized the purchase of a new Ford sedan-coupe from Murray-Yong Motors, Ltd., at a cost of \$1,476.42. The car will be used by the city manager.

The proposed budget of the City-County Health Unit, totaling \$11,034, was approved by the council, with the exception of a \$700 increase in the travelling expense item, which councilmen trimmed to \$400. The operating cost of the

health unit is shared equally by the city and county. Last year's budget, as approved by the council, amounted to \$9,440.

The city this week will advertise for bids on gasoline needs at Midland Airpark for the fiscal year beginning July 1. Bids will be received at the city hall until May 30.

No bids were received for construction of a terminal building at Midland Air Terminal, and further action was deferred by the council. The bids were to have been opened Wednesday.

Application Rejected The council rejected the application of B. O. Funderburk and Lloyd G. Smith of Big Spring to erect a funeral home and chapel at the corner of West Ohio and North Pecos Streets, which is just outside the business zone. Funderburk outlined the firm's proposed construction and operation program. Joe Seymour, William E. Dougherty and H. L. Straughan, Jr., who live

Foremen Strike In Ford Plants

More than 3,500 Ford Motor Co. members of the Foremen's Association of America left their jobs in Detroit to strike against the company for bargaining rights and contract terms. The association is not affiliated with a major union. (NEA Telephoto)

SO&G SPOTS ANOTHER WILDCAT IN N-W HOCKLEY

Stanolind Oil & Gas Company No. 1 Eppie Gilmer Howard is to be a 5,300-foot wildcat in Northwest Hockley county. It is located 660 feet from north and east lines of labor 23, league 720, State Capital Lands survey, and is four and one-half miles southwest of Whitharrell.

It will drill with rotary, starting May 25. Humble Oil & Refining Company have the east and north-east offset locations to the prospector.

DEFINITE LOCATION FOR FRANKEL PROJECT REPORTED

Frank and George Frankel of Houston have filed an application with the Railroad Commission of Texas for permission to start drilling soon on their No. 1-L University on the south side of the Fullerton district in Northwest Andrews county, to 9,000 feet.

It will be 660 feet from north and east lines of northwest quarter of section 43, block 13, University survey, and 12 miles west of the town of Andrews.

The plat filed with the application shows that Gulf Oil Corporation owns the north offset, Phillips Petroleum Company has the north-east offset, and Stanolind Oil & Gas Company own the east offset.

The projected destination of 9,000 feet likely will take the exploration into the Devonian.

WILDCAT STAKED IN SOUTH RUNNELS COUNTY DISTRICT

William W. Gruber and Dr. Emil Ott of San Angelo have staked location for their No. 1 Mrs. B. J. Niehues, to be a 5,000-foot wildcat in South Runnels county.

It will be 330 feet out of the northeast corner of section 511, BBB&B survey, and about five miles south of Ballinger. That makes it approximately six miles north of the Concho county line. Operations are to start soon.

NO OFFICIAL INFORMATION FROM UNION WILDCAT

There was no confirmation, verification, or authentication in Midland of rumors that Union Oil Company of California No. 1 McCutchen, Central Coke county wildcat, three miles east of Robert Lee, and 1,980 feet from north and 680 feet from west lines of section 44, block 1-A, H&T survey, had entered the Ellenburger, and had shown some signs of oil and gas in that formation.

Union's district headquarters in Midland reported that the prospector had reached 6,370 feet in an unidentified formation. No further reports were available from that source.

The principal rumors were to the effect that some geologists had said that the top of the Ellenburger was slightly below 6,300 feet.

The zone at from about 6,300 feet to about 6,330 feet is said to have been drilled and tested and to have developed a small amount of oil and gas cut drilling mud, and a slight show of free oil.

Another rumor credited a test to 6,340 feet, with also showing some oil and gas cut drilling mud.

OHIO PROSPECT IN SCURRY IS MAKING MORE HOLE

The Ohio Oil Company No. 1-C Neal, wildcat in Northwest Scurry county, about 11 miles west of Rotan, ran a 45-minute drillstem test at 7,269-80 feet.

Recovery was 30 feet of drilling mud, with a light show of gas. The prospector was drilling ahead. Some sections of the Ellenburger, above the zone covered by the latest test, developed a small amount of free oil and some oil and gas cut drilling mud. No water has been encountered in the formation, according to reports released by informed sources.

May Says He Was Told Man Aided By Mrs. FDR

WASHINGTON—(AP)—Ex-Congressman Andrew J. May testified Thursday he tried to speed action on a wartime army commission for a New York investment banker after he had been informed Mrs. Eleanor Roosevelt was one of the banker's sponsors.

The former House Military Committee chairman told a federal jury the banker, Harvey L. Schwam, was introduced to him at a Washington hotel by munitions maker, Murray Garsson. The latter and his brother, Henry Garsson, are on trial with May on war fraud charges.

"I asked him (Schwam) who sponsored his application for a commission," May related.

"He said it was originally taken up by Mrs. Roosevelt and Major General Watson."

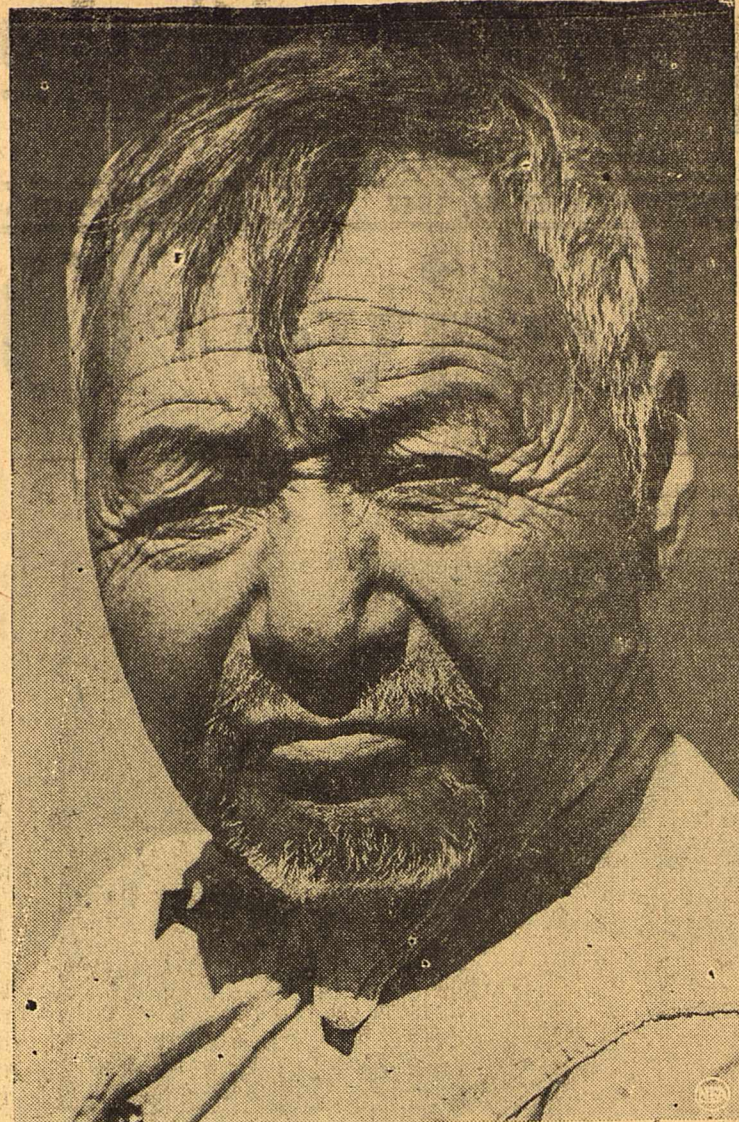

May, Gen. Edwin (Pa) Watson was the late President Roosevelt's military aide.

PECOS COUNTY LEASE SUIT IS WON BY PHILLIPS

FORT STOCKTON—(AP)—Judge Hunter Metcalf entered an instructed verdict in district court here Wednesday granting lease title to 20 acres with four producing oil wells on the West side of the Yates oil field in Pecos County to the Phillips Petroleum Company.

The suit was brought by Phillips Petroleum Company against E. J. McCurdy of Fort Worth and went to trial May 13. Notice of appeal was given.

1947 PONTIAC

A striking character-study is this photo of Jim Pontiac, great-grandson of Chief Pontiac, mighty 18th century Ottawa Indian warrior of the Michigan wilds. Although 95 years old, he still hunts, fishes and does all his own chores at his McBain, Mich., home, even to wood-cutting.

MacArthur Sees His Role In Japan Not Over Before Peace Conference

TOKYO—(AP)—Gen. Douglas MacArthur has clarified his intention to remain on the job in Tokyo until negotiations with Japan are completed and said he did not consider feasible the transfer of occupation duties to civilian agencies before the peace conference.

His statement was contained in answers to written questions submitted by Joe Fromm, Tokyo correspondent for the magazine World Report.

General MacArthur repeatedly has denied rumors he intended to resign, stating he would remain "until the job is finished." Heretofore, however, he has not specified when he would consider the task completed.

General MacArthur answered "no" to each of these questions from Mr. Fromm:

"Does the Supreme Commander contemplate early retirement from his position in Japan now that the framework has been completed

for the democratic evolution of the country?"

"Does General MacArthur consider his retirement as SCAP (Supreme Commander, Allied of the Pacific) feasible before the formal initiation of peace negotiations?"

"Does SCAP consider the transfer of responsibility for the occupation to American civilian agencies feasible or practicable before the peace conference?"

In going over Mr. Fromm's subsequent story, General MacArthur altered the text to specify he was not contemplating retirement until peace negotiations were completed, instead of merely initiated.

Reports circulating here that Washington was considering a civilian agency to undertake major occupation duties before the peace treaty prompted Mr. Fromm's question on civilian control. General MacArthur has proposed withdrawing military forces after signing a peace treaty.

Sources close to General MacArthur say, however, he expects military forces to be required for possibly a year after the treaty is signed to carry out such provisions as reparations shipments.

Predicts Foreign Oil Will Be Needed In U. S.

KILGORE—(AP)—Foreign oil reserves must eventually supplement domestic production, B. A. Hardey, president of the Independent Petroleum Association of America, said here Wednesday night.

In a speech before the East Texas section of the institute, Hardey called for enforcement of present conservation laws and continuance of present tax policy in the petroleum industry including the 27 1/2 per cent depletion allowance.

He called for a stabilized oil price, and said certain units in the industry are "holding storage," contributing to the pressure for higher prices.

The teeth of nearly all sharks and skates are set in the gums rather than the jaws and fall away and are replaced more or less continuously.

Italy Gleaming, White And Clean

ITALY, TEXAS—(AP)—The little town of Italy was as spick and span as a new pin Thursday.

Every store front except one wore a gleaming white coat of paint. The Katy railroad station, too, was painted white—the first white station on the line's 3,200 miles of track.

All lawns, backyards and vacant lots had their grass, weed and bushes freshly cut and trimmed. The streets and alleys were swept and washed.

The citizens were proud of their day of community spring house-cleaning which began shortly after dawn Wednesday. They gathered at the library lot armed with working tools, then marched to the radio stage at the center of town for the painting kick-off.

Mayor W. R. Wallace, pinch-hitting for Gov. Beauford Jester, daubed the first white paint on the American Legion building. The crowd sang "The Eyes of Texas," and the painting began.

When Jester arrived he was placed in jail for an hour for being late. The delay was not his fault, however. His plane was prevented from landing at Waxahachie because of a soft field and he went to Waco. A state highway patrol car sped him to Italy in time for a 11:45 a.m. broadcast.

"I hope all Texas towns will follow the pattern set here," the governor said.

Then he donned white overalls and helped with the painting. At noon he sat on a Main street curb and ate lunch packed in a syrup pail.

All Defendants Freed In Negro Murder Case

GREENVILLE, S. C.—(AP)—Twenty-eight white men were acquitted at their mass murder trial Wednesday night of charges that they lynched a 23-year-old negro.

The verdicts were returned in Greenville county's stifling courtroom after a nine-day trial unprecedented in Southern history.

The state had demanded conviction—but not death—against the alleged murderers of Willie Earle, who was taken from Pickens county jail before dawn February 17 and lynched in reprisal for the stabbing of a white taxi driver.

In closing the state's case, Prosecutor Samuel Watt and Robert Ashmore appealed to the jury to act as the public conscience of South Carolina.

The jury, however, heeded the plea of defense counsel Thomas Wofford, who criticized Northern "interference" and demanded acquittal to "show them it's no use meddling in Greenville county."

Circuit Judge J. Robert Martin, Jr., declined comment on the verdict. He withheld the customary thanks of the court when the jury ended the case.

"Gentlemen," he said, "you are free to go. The clerk has your checks and you may pick them up at your pleasure."

The jury had deliberated five hours and 15 minutes.

The last white man to die for an offense against a negro in South Carolina was a plantation owner, sentenced in Newberry county by Judge John Belton in 1848 for killing two slaves.

Many Indians and Eskimos of Alaska belong to the Greek Orthodox church, the result of missions established when Russia controlled the territory.

Group To Map Out Television Plan For U. S. June 3

WASHINGTON—(AP)—The Federal Communications Commission has called an engineering conference for June 3 designed to pave the way for commercial "chain" televising across the nation.

Television broadcasters, communications common carriers, and manufacturers of television and microwave equipment were invited. The announced purpose is the "formulation of a schedule which will set forth the expected installation dates of common carrier facilities for the relaying of television programs between cities."

Short Range

Like FM radio, television broadcasting is essentially a short range operation. But there are two methods of getting such broadcasts to distant points—the microwave relay system and the coaxial cable.

Microwave employs a series of tall towers which pick up and relay the television signal to the desired destination.

The coaxial cable, a multiple-message underground facility which can handle up to 1,800 telephone conversations at one time, is also used to "pipe" television between cities. Such piping is now employed between New York and Washington and elsewhere. American Telephone and Telegraph Company which uses such cable in many parts of the country is currently taking a coaxial line coast to coast.

The June 3 conference is designed to acquaint television interests with what the owners of coaxial cable or microwave facilities have to offer for television relays; and to inform these common carriers what the broadcasters are thinking about in relation to intercity television.

Maid Of Cotton

The 1947 Maid of Cotton, Miss Hilma Seay, models a lovely at-home frock of Venetian influence created by Tina Leser. The unique touch of the designer is seen in the handling of the double puff sleeves, the contrast of gathers and bands in the bodice. The cotton is a blanket plaid combining pastel colors. Hat by Edward Palme. The Maid of Cotton, selected from 26 finalists, will tour 30 American cities and will fly to Paris via Air France plane.

ATTENDS BOARD MEETING

The Rev. Vernon Yearby is in Paisano attending the board of directors meeting for the Paisano Baptist Encampment. Accompanying Mr. Yearby were C. G. Murray, Arnold Scharbauer and Ray Upham. The group will return Thursday night.

MEETINGS CANCELLED

The Children's Theater and the Junior Workshop meetings scheduled Saturday have been cancelled, due to the city election in the City-County Auditorium.

MHS Seniors To Give Class Day Program

"A Garden of Memories" will be the theme of the Class Day program to be presented by the seniors of 1947, Friday, at 2:30 p. m. for students, and at 8 p. m. for parents, in the Midland High School auditorium.

The program will open with "Memories" (Alstynne), played by Wilma Vaughan, pianist. A dialogue will be given by Kathryn Chisholm and Wanda Pettiet.

Elizabeth Ann Cowden will give the class history, "The Class of '47."

During the afternoon program, awards by the Daughters of the American Revolution will be made. Mrs. Erie Payne, DAR president, will make the presentation.

The giftarian's presentation of a small gift to each member of the class, will be made by Jeannine Stephens.

Dorothy Smith, clarinetist, will play "Rhapsody in Blue" (Gershwin).

The class prophecy, "A Glimpse Into Tomorrow," will be told by David Dickinson.

A piano solo, "Polonaise, Opus 53," will be presented by David Greene.

The class will, "The Last Will and Testament," will be read by the president of the class of '47, Gilbert Sevier.

The program will close with the Alma Mater sung by the entire senior class with Ruth Hall as soloist.

The program is under the direction of Miss Clyde Parnelly and Mrs. Bill Cheatham.

Betty Kurfees Speaks At B&PW Business Meet

Betty Kurfees spoke on "Mental Hygiene" at the business meeting of the Business and Professional Women's Club, Monday evening, in the private dining room of the Scharbauer Hotel.

T. K. White was in charge of the program. Cordelia Taylor, Mrs. Neta Stovall, Betty Kurfees, Laura Jesse and Mrs. J. B. McCoy were elected as delegates to the state B&PW convention which will be June 6, 7 and 8 in San Antonio.

Nineteen members were present.

Year's Activities Closed By Wednesday Club At Luncheon

Woman's Wednesday Club members met Wednesday for a buffet luncheon in the home of Mrs. Ida Fay Cowden to close activities for the year.

Meetings will be resumed October 1.

Spring flowers were used throughout Mrs. Cowden's home as decorations.

Plans for next year's activities were discussed. Mrs. Ernest Sidwell, retiring president, was presented a book from the club.

Mrs. C. A. Goldsmith, new president, appointed committees for 1947-48.

Mrs. J. M. DeArmond gave an article by Margaret Culkin Banning entitled "Inquiring Into Women's Clubs."

Others present were Mrs. C. W. Chancellor, Mrs. Russell Conkling, Mrs. Al Cowden, Mrs. Clyde Cowden, Mrs. Guy Cowden, Mrs. Andrew Fasket, Mrs. George Glass, Mrs. Dave McKee, Mrs. R. L. Miller, Mrs. Erie Payne, Mrs. John Perkins, Mrs. Robert Turpin, Mrs. W. G. Whitehouse and Mrs. Margaret Murray, a guest.

MRS. ROBERT ROARK READS 'YEARS AGO' AT CLUB MEETING

Mrs. Robert Roark read "Years Ago" by Ruth Gordon at the meeting of the Play Reader's Club Wednesday in the home of Mrs. Wade Heath, 808 West Tennessee Avenue.

Guests were Mrs. J. B. Harrison of Odessa, Mrs. John FitzGerald and Mrs. Ruth Roberts.

Others present were Mrs. R. Barrow, Mrs. J. P. Butler, Mrs. J. E. Beakey, Mrs. DeLo Douglas, Mrs. F. H. Fuhrman, Mrs. Harvey Herd, Mrs. Wallace Irwin, Mrs. Charles Klapproth, Mrs. Carl McAdams, Mrs. William Y. Penn, Mrs. W. T. Schneider, and Mrs. Wilmer Stone.

The next meeting will be June 4 at 10 a. m. in the home of Mrs. Wallace Irwin.

Domestic supply of raw wool in the United States is insufficient for the demands for finished wool products.

Star Study Club Has Lunch Meet

Mrs. J. O. Hyde and Mrs. W. V. Harris were hostesses for a luncheon meeting of the Star Study Club, Wednesday, in the Masonic Hall.

The dining table was centered with an arrangement of roses and sweetpeas.

The meeting opened with a prayer led by Mrs. P. P. Barber.

A short business meeting was directed by Mrs. J. B. Wright. Plans were made to have one meeting a month during the summer months. A luncheon will be held June 18, a family dinner July 16, and a luncheon August 20.

Announcement was made that 12 "A" certificates and six "B" certificates were issued to members of the Midland CBS chapter at the Big Spring school of instruction.

Others present were Mrs. O. W. Orson, a new member, Mrs. E. M. Yeager, a guest, and Mrs. Frank Orson, Mrs. Bernard Collins, Mrs. Bert Goodman, Mrs. E. Jones, Mrs. J. W. Campbell, Mrs. Fred Wycoff, Mrs. M. L. Wyatt, Mrs. L. C. Stephenson, Mrs. M. A. Floyd, Mrs. Leo Baldrige, Mrs. Minnie Orumley, Mrs. G. G. Haze, Mrs. Olive Hamilton, Mrs. J. C. Carlson, and daughter, Kristi, Mrs. J. R. Moulton, Mrs. J. B. McCoy, Mrs. Dewie Pope and Mrs. John Cuvier.

Washing machines came into general popularity at the time of the first World War.

Congratulations To

Senior, Piano Students To Give Recital Saturday

Senior piano and voice students of Mrs. Maud Leonard will be presented in a recital Saturday evening at 8 p. m. in the First Christian Church.

Twelve students will take part on the program.

The public is invited to attend.

Now She Shops "Cash and Carry" Without Painful Backache

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Book Review Given At Final Modern Study Club Meeting

Mrs. J. Howard Hodge, a guest speaker, reviewed Russell Janney's "Miracle of the Bells" at the final meeting of the year of the Modern Study Club, Wednesday.

The meeting was a luncheon in the Blue Room of the Scharbauer Hotel. Sweetpeas and larkspur decorated the dining tables.

Guests were Mrs. Clifford B. Keith, Mrs. Carl J. Westlund, Mrs. Robert Payne, Mrs. Earl Chapman, Mrs. Turner Winn, Mrs. John Skinner, Mrs. Joe Hathaway and Mrs. Maurice W. Kennedy.

Members present were Mrs. J. W. Carroll, Mrs. Al Boring, Mrs. C. S. Britt, Mrs. W. C. Cartwright, Mrs. John Casselman, Mrs. M. S. Dickerson, Mrs. I. E. Hood, Mrs. Lamar Lunt, Mrs. B. W. Reecer, Mrs. F. R. Schenck, Mrs. C. H. Shepard, Mrs. Kenneth Slough, Mrs. Alice Smith, Mrs. Earl Statton and Mrs. George Vannaman.

The purple federal grade mark on meat is a harmless vegetable dye that usually disappears during cooking.

Directors Testify In Negro Orphanage Case

BROWNSVILLE—(P)—Members of the board of directors of the Santa Rosa Orphanage and Vocational Training School were expected to testify here Thursday in the mail fraud trial of Mr. and Mrs. Mathes H. Coleman, negro operators of the institution.

The directors, prominent Rio Grande Valley residents, have been subpoenaed by the government and defense attorneys have stated they intend to call them to the witness stand should the prosecution fail to do so.

One director, Joe Junkin, Harlingen furniture dealer, spent an hour and a half Wednesday answering questions for U. S. assistant District Attorney W. E. Eckhardt and former Gov. James V. Allred, chief defense counsel. His testimony ranged from relating his duties as a board member and his knowledge of the operations and physical plant of the orphanage to high praise for the defendants, whom he said he had known for about 15 years.

Another director, J. W. Harlingen, spent an hour and a half Wednesday answering questions for U. S. assistant District Attorney W. E. Eckhardt and former Gov. James V. Allred, chief defense counsel. His testimony ranged from relating his duties as a board member and his knowledge of the operations and physical plant of the orphanage to high praise for the defendants, whom he said he had known for about 15 years.

Dire Problem—

(Continued from page 1)

munity organization and for that reason the chapter is calling on individuals and organizations for assistance in finding a suitable building location. Chapter officials hope that a location may be obtained as a gift or at a moderate cost. The site should be as centrally located as possible.

Dyer also stated the chapter Friday must vacate its office in the city hall. Temporary quarters have been obtained in the Midland County Courthouse.

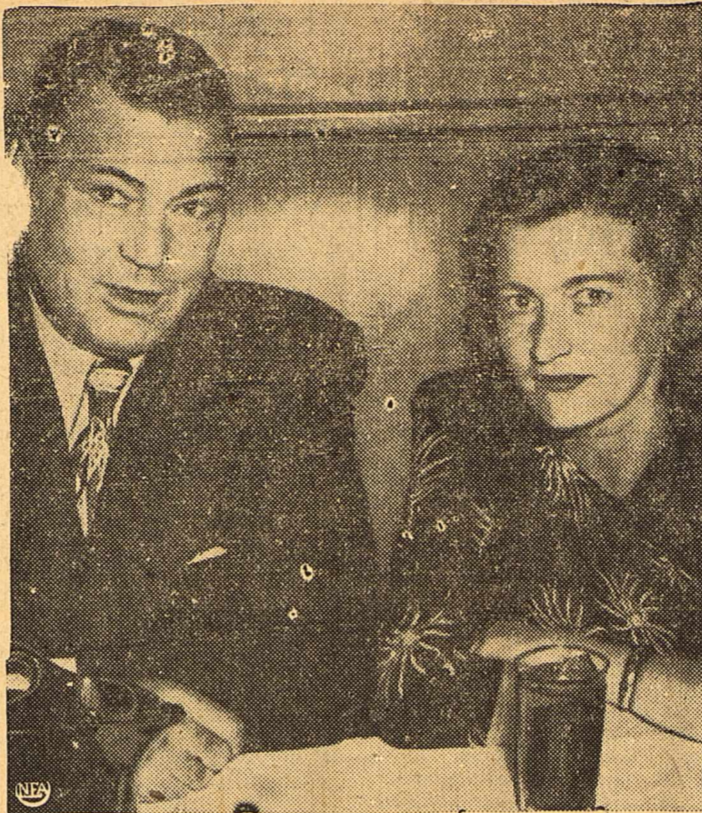

A special committee was named to conduct an intensive and immediate study of the situation in an effort to procure the necessary property before May 31. The committee personnel: H. Winston Hall, chairman, Dr. Henry Schlichting, John J. Reiter, Jr., R. I. Dickey, Carl Weyat, Mrs. Fred Cassidy and Bill Collins.

The assistance of every Midland citizen is urged.

PEANUT KING DIES
WILKES-BARRE, PA.—(P)—Amedeo Obiel, founder and president of the Planters Nut and Chocolate Co., of Suffolk, Va., and known in the industry as the "Peanut King," died Wednesday night.

The sea lily actually belongs to the animal kingdom.

Championship Match

Pauline Betz' big date in New York these nights is Jack Dempsey, former heavyweight champion, and friends are wondering if this is a championship match. The British and four-time national women's tennis champion recently turned professional.

Swiss Student Is Rotary Speaker

Ralph E. Wild of St. Gallen, Switzerland, an exchange student at Texas Tech College, described his country to members of the Midland Rotary Club at its luncheon meeting Thursday noon in the Scharbauer Hotel.

Wild is studying textiles at the West Texas college and soon will work on the East Coast to pick up practical knowledge of his profession. His father is a district governor of Rotary in Switzerland. Also his family has been engaged in fine fabric milling for five generations.

The speaker was introduced by Hilton Kaderil. Program chairman was Hank Avery. Duke Jimerson sang two numbers, accompanied by Mary Fern Bray at the piano.

Carl Weyat announced the Red Cross Chapter of Midland needed a site for a building which can be obtained from an airfield if the location is obtained by May 31.

Max Hendrick, Jr., was introduced as a new member by William Mann.

It was announced the Midland club will be host to a district assembly early in July.

Production Lines In Ford Plants Watched

DETROIT—(P)—Production lines at three big factories of the Ford Motor Company, being watched for any signs of faltering, rolled on Thursday under the handicap of a foremen's strike.

As the walkout of approximately 3,800 organized supervisory men headed into a second day, its ultimate effect on production for a car-hungry America remained speculative.

No Change In Condition Of President's Mother

GRANDVIEW, MO.—(P)—President Truman said Thursday there was "no perceptible change" in his 94-year-old mother's condition.

He made this observation to reporters at Kansas City before leaving with his wife for Mrs. Martha E. Truman's bed at rural Grandview, 17 miles away.

The strain under which the chief executive is laboring was plainly visible to newsmen who were called into his hotel apartment in Kansas City to witness the signing of the \$400,000,000 Greek-Turkish aid bill.

Despite the optimism of his personal physician who says the elderly patient has a chance for recovery, the president's usual cheerful smiles were missing during the brief audience. The president said his mother had a "reasonably good night" in her new oscillating bed, but that she was "a little restless this morning."

Council—

(Continued from Page 1)
in the neighborhood, protested the application. Dougherty presented a petition protesting the granting of the application. It was signed by 16 persons who reside within 1,000 feet of the proposed business location.

A petition by Ercelle Foster to operate a beauty shop at 505 North Main Street was approved when no protests were submitted.

Councilmen approved the request of owners to move the Chew Chew Diner building from its present location at 1003 East N. Front Street to 803 East N. Front Street.

A petition from citizens residing in the Garden Addition requesting the installation of water and sewer lines was read. The council indicated the project would be started there as soon as pipe and other materials are available.

Dick White, co-owner and manager of the Ace Motor Company, requested, in a letter addressed to the council, assistance in getting West Ohio Street, between Big Spring and Colorado Streets, paved.

Mayor R. H. (Rusty) Gifford and City Manager Hoppe were authorized to confer with government agency officials in Dallas Monday regarding the return of Midland Air Terminal to the city.

WALLACE CRITICIZES GOP'S FARM RECORD

OAKLAND—(P)—Henry A. Wallace contends the Republican record on pending reclamation legislation is so bad that even the efforts of Governor Warren "cannot hide the blame of his party for what has been done."

"The Republicans in Congress have cut the heart out of the most profitable of all investments, the investment by the government in the development of our natural resources on behalf of all the people," Wallace said Wednesday night.

Naval Observatory in Washington Hunts New Home For Its Clocks

WASHINGTON—(AP)—Officials of the 100-year-old Naval Observatory here are looking for a new site for their clocks and telescopes.

Dust and heat radiation which have increased with the growth of the Capital now seriously interfere with their precision-time-keeping work, they explained to reporters.

The main requirements of a new site were listed as:

Location somewhere within a 275-mile-wide belt across the nation (within 2 degrees of the present latitude of 38 degrees 55 minutes north), accessibility to good weather, and a distance at least 25 miles from a big city.

The search will take about two years, and another six years will be required to move the complicated instruments now housed in 55 buildings on a 77-acre tract in the heart of Washington, Capt. Guy W. Clark, Superintendent of the Observatory said.

The preferred latitude belt takes in all or parts of 18 states and extends in width from Eureka to Monterey, Calif., in the West and from New York to Norfolk, Va., in the East.

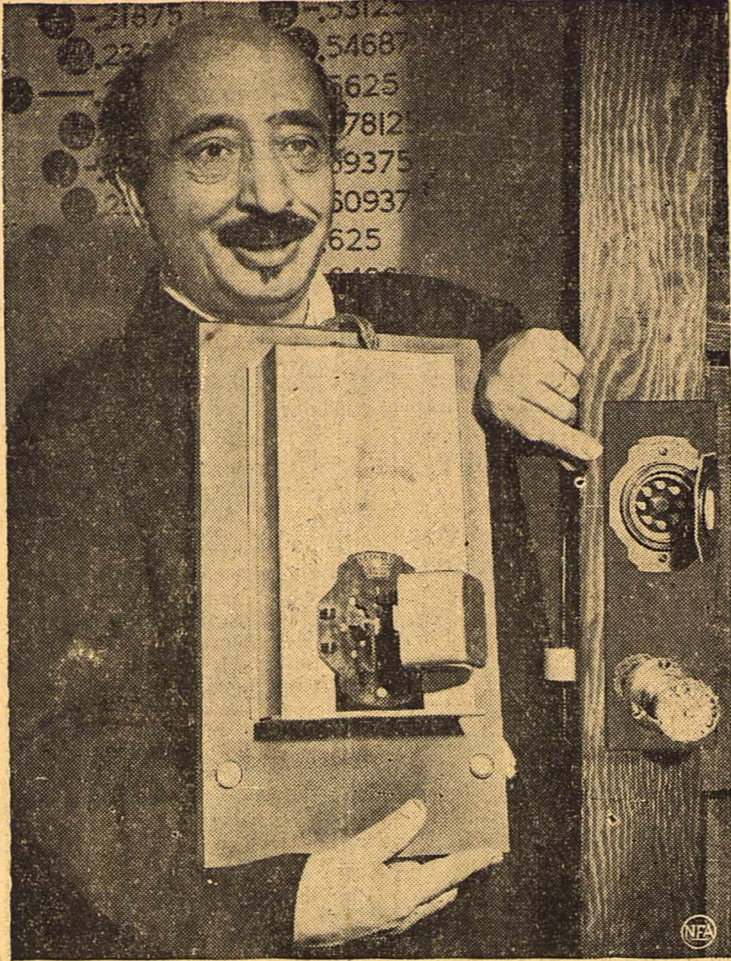

REPENTANT COMMUNISTS DEFENDED BY TAFT

WASHINGTON—(AP)—The question of whether a reformed Communist ought to be permitted to hold office in a labor union went before Senate-House conferees Thursday trying to compromise labor bill differences.

Senator Taft (R-Ohio) told a reporter it is the view of the Senate members of the conference committee that just because a man once was a Communist is no reason for barring him forever from becoming a union officer.

"We want to leave some room for the man who has repented and seen the light," the Ohio senator said.

Bad News for Burglars

Edmond Michel, of Chicago, shows his new keyless-door lock which can be set to any of 764 combinations. Absent householder, upon return, pushes proper buttons on dial seen at right and door opens. Lock can be set in connection with an alarm so that pushing wrong buttons rings a loud bell, or device can be hooked up with telephone alarm system.

National Income And Output At New Peaks

WASHINGTON—(AP)—Both the national income and the national turn-out of services and finished goods rose to record heights during the first three months of this year, the Commerce Department reported, but there is evidence the boom is slackening.

Since the income and production are measured in terms of money, higher prices and higher wages were in part responsible for the showings.

The "gross national product," defined as "total output of final goods and services in the economy at market prices," went up to an annual rate of \$209,000,000,000.

This, said the department, approximated the peak reached in the second quarter of 1945 when huge quantities of war material were being produced.

Tops Fourth '46 Quarter

Also, it topped the fourth quarter of 1946 by \$4,300,000,000 due principally to increased consumer spending, but nevertheless represented "the smallest quarterly gain since the bottom of the reconversion decline was reached in the first quarter of 1946."

National income reached a record total in the first quarter of this year at the annual rate of \$180,500,000,000, an increase of \$3,000,000,000 over the fourth quarter of 1946, the department said.

Income payments to individuals rose by \$3,500,000,000 to an annual rate of \$177,000,000,000. Wages and salaries accounted for the largest part of the gain, \$2,600,000,000 at an annual rate.

But relief and social security payments and veterans allotments also were up by \$600,000,000, reversing their downward trend through 1946. Dividends, interest and net rents of landlords were down \$500,000,000. Net income of business owner-operators was up \$200,000,000.

There are no extensive coniferous forests in Australia.

British Merchant Pleas For Lower U. S. Tariff Rate

LONDON—(AP)—The world trade outlook will be "bleak" unless America lowers her tariffs, allowing her creditors to pay in goods and services, Viscount Leverhulme, head of Lever Brothers and Unilever, Ltd., declared recently.

Freedom of movement is essential for world trade expansion, Lord Leverhulme declared in a speech prepared for delivery at a businessmen's conference sponsored by the Liberal Party.

The industrialist joined with half a dozen other British business leaders and economists in a sharp attack on Government trading, and warned the Government that its current drive to boost exports to 175 per cent above the 1938 level could be accomplished "only if world trade as a whole is expanded."

Deplores Cotton Closing

Deplored the permanent closing of the Liverpool Cotton Exchange, Lord Leverhulme said London was an even greater market, and "if the policy of centralized buying by the Government is to continue, it would deal a heavy blow at the commercial life of this great city."

"A world in which all international trade is carried on between governments will be a world far more likely to suffer from constantly recurring wars than a world of free markets," he said.

On the subject of tariffs, Lord Leverhulme said that "if world trade did not expand, Britain's export drive would 'inevitably lead to counteraction by means of tariffs.'"

"Except for that particular type of fence the protective tariff—world trade would have been like a flat race instead of like the complicated steeplechase it is today, when all sorts of new obstacles are present—currency restrictions, exchange regulations, and import and export controls," he said.

ICC OK's Plan Of Railroads In Pooling Pullman

WASHINGTON—(AP)—The Interstate Commerce Commission has approved a plan under which 59 railroads propose to pool the equipment and earnings of the Pullman Company's sleeping car business.

Pullman is giving up the business of operating the cars and the major railroads have bid \$40,000,000 for it.

The ICC was asked to approve their plan for operating the cars in a general pool which will make the equipment available not only to the owning roads but to other railroads desiring it.

The Justice Department sought to block sale of the Pullman business to the railroads on the grounds it tended towards monopoly. The Supreme Court approved the sale.

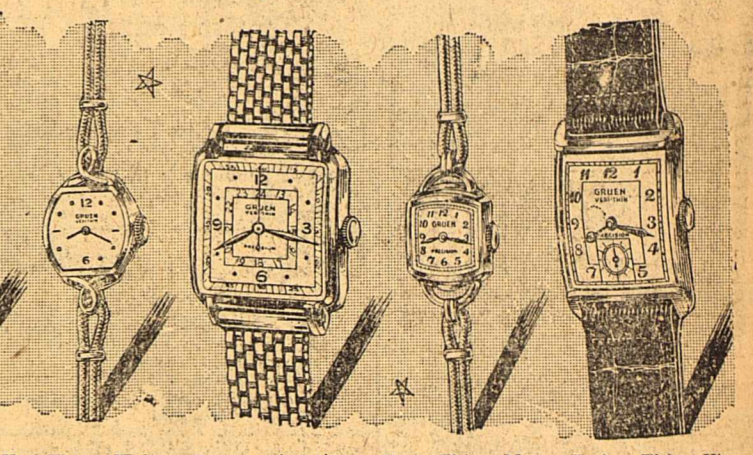

Before the ICC, the Justice Department contended railroad management of the sleeping car business would involve "continuance of a restraint of trade."

The Commission rejected this contention and also overruled the Ohio, Pere Marquette, and Nickel Plate railroads, controlled by Robert R. Young.

The Young lines favored some other operating plan for the sleeping cars but asked to become parties to the pool in the event of its approval by ICC.

The Commission found that "the proposed pooling will be in the interest of better service to the public and an economy in operation, the proposed pooling will be just and reasonable."

AN INVESTMENT IN THE CHILDREN OF MIDLAND!

SUPPORT THE PROPOSED BOND ISSUE MIDLAND INDEPENDENT SCHOOL DISTRICT ELECTION SATURDAY MAY 24.

We, the undersigned, believe that the education of the young people is one of the chief obligations of a community. We in Midland have assumed this obligation and are determined to maintain our schools at their highest effectiveness. To this end, our school trustees, administrative staff, and teachers have worked with intelligence and devotion. Their efforts have, however, been hampered by the extremely rapid growth of Midland and the consequent overcrowding of buildings and shortage of equipment.

Since this school district lacks the financial resources of some others, any improvement in our school facilities must be paid for by bond issues financed by increased taxes on our homes and businesses. We feel that the plans of the school board are sound and provide for reasonable expansion of the school facilities.

We believe that a million dollar expenditure on the education of the children of the community is a sound investment and the fifty cents increase in the school tax rate is necessary to finance this investment.

Therefore, we urge the voters of the Midland Independent School District to support the proposed Bond Issue and increased tax rate at the polls on Saturday.

British Names Terms For Sterling Values

LONDON—(AP)—The British treasury has announced sterling convertibility agreements with Norway and Sweden in line with terms of the United States loan.

The agreements were described as brief, formal documents under which each country is pledged to make sterling arising from current purchases convertible into any other currency. The same type agreements have been made with Belgium, Holland, Italy, and Portugal.

The spokesman said an understanding had been reached for settlement of Norway's blocked sterling balance, but that a settlement with Sweden would have to be worked out later.

SEES END OF AUSSIES

CANBERRA—(AP)—Information Minister Arthur A. Aclwell told Parliament if the present decline in the Australian birth rate is not arrested, "there will be no Australians 100 years hence."

Between 200 and 300 different automobile parts are made of rubber.

RADIO STATIONS

KECK
is proud of the Friends it has and the Companies it keeps.
In January, 1947, when KECK went on the air, it had 23 advertisers, and in April it soared to 70 advertisers, who had faith in the "Music and News" idea and the great coverage that KECK promised.
This upward trend proves conclusively that most business firms are taking advantage of KECK'S complete WEST TEXAS COVERAGE, and the fine Music and News programming that is a relief from "soap operas" and daytime network drudgeries.
When you want to cover West Texas with an advertising message, use the station "Most people listen to MOST in West Texas."

Here's How Advertising Will Create a Good Steady JOB for Me!

Read How Advertising, by Selling the Products of American Industry, Makes Your Job Secure, and Creates New Jobs for the Coming Crop of Youngsters

THINK back over the jobs you've held. When sales were bad, there were pay-cuts, layoffs, fear, worry. When sales were good, there were raises, advancement, hope, cheer. The old man didn't "fear the axe." There was plenty of hiring of youngsters to train for the expanding business. Advertising sells goods. That's its job. And more sales mean more work to do—right from the factory to the farms and mills and mines, to the thousand and one firms that directly or indirectly depend on that factory's success. More sales mean better business—more and better jobs, more security, greater opportunity. And advertising is a spark plug that makes sales. So always remember—today, tomorrow—advertising is making your job more secure.

Other Ways Advertising Helps You: 1. Brings you better goods for less money. 2. Makes shopping more pleasant and easier. 3. Has given us the world's highest standard of living.

Advertising... Makes your job more secure BY SELLING MORE GOODS TO MORE PEOPLE

**Midland Boys
Tested Under
U. S. Standard**

Physical efficiency tests recently
completed by the high school physical
education department show
Midland boys superior in three tests
to national standards and below in
four.

Ninety-two boys were tested.
These tests required about four
weeks to complete.

In softball throw, 300-yard run
and push-ups, Midland boys are
better than the average U. S. boy.
Average high school standard for
softball throw is 127 feet. The Mid-
land average is 156 feet, 4 inches.
Average in the U. S. in 300-yard
run is 49.9 seconds. The Midland
boys averaged 47.5 seconds. And
in the push-up, national average is
10. Here the boys averaged 13.

Superior in three events, the Mid-
landers are under average in the
standing broad jump, rope climb,
chin-up and sit-up.

Off In Rope Climb
Midland boys are four inches
under average in standing broad
jump; it is 6 feet, 8 inches, the
locals averaged 6 feet, 4 inches. In
rope climb, Midland boys are way
off. The national average is 15.2
seconds. Midlanders averaged 19.5
seconds. From the entire group, 39
boys could not score in the rope
climb. Climbing ropes are new to
the Midland gym, accounting for
the low in this event.

In chin-ups, Midland was two
under average; it is 7, the boys did
5 average. In sit-ups, four points
separated Midland from national
average—national 18, Midland 14.

Midland gym has no apparatus to
strengthen stomach muscles needed
to be developed for sit-ups.

The tests determined certain
needs for equipment and training
in the Midland physical education
department. Steps are being taken
toward that by instructors. Mid-
land scores were carded and filed
for reference in determining indi-
vidual physical needs.

**Shipper Hurler Tosses
First Texas No-Hitter**

By The Associated Press
Big Jack McKinney of Beaumont
turned in the Texas League's first
no-hit ball game of the season
Wednesday night, defeating Shreveport
6-0 in the top performance in
a schedule of pitching duels.

Beaumont also won the second
game of its double-header with
Shreveport, 3-2; Houston shut out
San Antonio, 1-0, Oklahoma City
blanked Fort Worth 2-0, and Dallas
defeated Tulsa 4-1.

McKinney pitched his shut-out in
a seven-inning game. He struck
out five men and gave up one walk
in registering his fifth victory.

Beaumont won the second game
in the eighth inning when Milt
Byrnes walked and Russel Burns
tripped to break a 2-2 tie.

SHERMAN GETS NEW COACH

SHERMAN—(AP)—Byron Gilbreath,
coach at Gilbert, Ariz., high school,
will join the staff of Austin Col-
lege as assistant football coach and
head basketball coach. Dr. W. B.
Guerrant, president of the college,
has announced. Gilbreath will suc-
ceed Garvis Steen, who said he is
leaving the coaching profession to
enter the United States Civil Service.

the Florida surf.

SPORTS

—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, MAY 22, 1947

End Series Thursday—

**Midland Wallops
Vernon, By 19-7**

The Midland Indians fattened their batting averages
Wednesday night at the expense of the Vernon Dusters.
The score was Midland 19 and Vernon 7. And it might
have been going until yet had not the Tribe voluntarily
slackened to let the fans go home and go to bed.

In the slaughter Vernon
used five pitchers and none
was very effective. Midland
jumped on these gentlemen
of the mound for a barrage
of 23 hits. It was scoring
and hitting spree because
Vernon got 15 hits, making
the total for the night for
both—38 hits (correct) 38
hits.

The thing got out of hand for
Vernon after two innings. In the
fourth frame the Midland onslaught
began. Webb's Indians scored
heavily in the third, fourth, fifth,
sixth and seventh innings.

Carroll Nipp, Midland rightfielder,
got four hits in four trips. Ed
Keon, catcher, got three hits in
five trips, including two triples and
he drove in five tallies. Strangely,
there were no home runs in the
eruption.

Carl Kott, Duster manager, finally
came to pitch and his big
first baseman, Jones, took a fling
at hurling to amusement of the
fans.

It was a night of funny things
but Vernon did not get to laugh
much.

The box score:

Player	AB	R	H	O	A
Isbell, 3b, 2b	5	0	1	1	0
Ayres, ss	5	0	1	2	3
Kott, 2b, lb, p	4	2	3	6	4
Huntley, lf	5	2	2	1	1
Jones, lb, p	5	2	2	4	0
Simons, cf, 3b	4	0	2	4	0
Ehrhardt, rf	4	1	3	0	0
Cowser, c	3	0	1	5	3
Wilson, p	1	0	0	0	0
Gibson	1	0	0	0	0
Parlier, p	0	0	0	0	0
Kalinec, p	2	0	0	1	0
Totals	39	7	15	24	11

*Grounded out for Wilson in sixth.

**Dodgers Conduct
Pitchers' Parade**

By The Associated Press
Last year Leo Durocher set a record
for changing chunkers when he
used 380 pitchers in 157 games
while managing the Dodgers to second
place in the National League
pennant race. That was an average
of slightly less than 2 1/2 pitch-
ers per game.

But now mild-mannered, con-
servative Burt Shotton holds the
Dodger reins and outdoes Durocher
in the art of juggling hurlers.

In the Dodgers' 28 games to date,
of which incidentally they've won
15, Shotton has used 81 pitchers,
an average of 2.89 per game, only
five times have Brooklyn hurlers
gone the route.

Shotton practically gave the
pitching staff a vacation Wednes-
day when he called upon only two
hurlers to subdue the Cardinals 4-3
in 10 innings.

The Chicago Cubs shaded the
Philadelphia Phils 2-1 in Wrigley
Field.

Frank Shea, rookie righthander,
gained his first major league shut-
out and his fourth Yankee triumph
by outpitching Hal Newhouser, of
the Detroit Tigers, 5-0.

The Philadelphia Athletics came
to life in the eighth with a five-
run rally against rookie Pete Gehr-
man to defeat the Chicago White
Sox 5-2.

Bobo Newson gained his first win
of the season and his 195th of his
big league career when he pitched
the Washington Senators to a 7-3
night game victory over the St.
Louis Browns.

The Boston Braves and Pitts-
burgh Pirates were not scheduled
while the only day game in the
American League between Cleve-
land and the Red Sox at Boston
was postponed by rain. Rain also
washed out the scheduled game be-
tween New York and Cincinnati.

**Negro Baseball
Game Scheduled**

The Skyscrapers, negro baseball
team, will play the Birmingham,
Ala., Rangers Friday night in the
Indians Park here.
Gametime is 8:15 p. m.
Frank Blaylock is Midland man-
ager. Bennie Harrison is captain
of the team.

**Czechs Join Soviets
To Fight Terrorists**

WARSAW—(AP)—A government
spokesman said Czechoslovakia and
Russia had agreed in recent ac-
cords with Poland to assist in ef-
forts to destroy Ukrainian national-
ist bands which have been reported
terrorizing wide sections of South-
east Poland near the frontiers.

The spokesman said he did not
know whether the Russians and
Czechs were using troops against
the Ukrainians, but that a policy
of common action was envisaged.

Southeast Poland formerly had
484,000 Ukrainians who were sent
to Russia under a Polish-Russian
repatriation agreement. Bands
have been reorganizing the frontier
lately and increasing the number
of armed attacks against Poles.

NELSON TIES FOR TOP

EL PASO—(AP)—Byron Nelson,
amateur Earl Stewart and Jack
Harden, the home course pro,
Thursday led the way with five-
under-par 66s as the 72-hole Texas
PGA Open Championship moved into
the second round at the El
Paso Country Club.

THEY'VE GOT SOMETHING

AUSTIN—(AP)—Convinced that the
only way to test a watermelon is
to plug it, the House Agriculture
Committee Wednesday night killed
a bill calling for standardization of
watermelons by compulsory inspec-
tion. The bill was reported unfa-
vorably, 10 to 2.

It is estimated that more than
40,000 railroad trains operate daily
in the United States.

LOVE STORY:

Helpless and in terrible pain, Ernest Steele lay trapped for five days in the wreckage of his car near Martinez, Calif. As death from thirst and shock neared, the 26-year-old Navy veteran thought not of himself but of his wife Mae. Steele's right arm was mangled, but with his left he doggedly scratched on the fender of his car the message to his wife: "Don't forget I love you." Finally, two power company linemen found Steele at the bottom of the 35-foot gully into which his car had plunged. Doctors said he would have been dead in a few more hours. These pictures tell the love story of Ernest and Mae Steele. The wife is shown comforting her husband after his rescue. The large picture shows the message Mae Steele will never forget.

Bird In Hand Is Worth Two Meals This Time

NEW YORK—(AP)—Albert Fimbel, Hotel Pennsylvania employe, has two "anything-you-want" meals coming to him. They're his reward for catching a pigeon that was loosed in the hotel lobby. Fimbel used popcorn, peanuts and water to entice the elusive bird into a cage-like trap.

Gunn and James Buttrill Nevins, Crane; Patsy Ruth Hilger, Fort Stockton; Virginia Martha Blackburn, Iran; Mary Frances Alexander and Katherine Joanne Birtciel, Kermit; Glenn Faye Bailey, Lotta Bess Baldwin, Bruce Franklin Moore, Betty Ann Renner and Audrey Fay Williams, Lamesa; Calvin W. Hoover, Midland; Benjamin Hewitt Allison and Betty Jo Leonard Aves, Odessa; Nava Rae Taylor, Rankin; Cordelia Lou Vanlandingham, Seminole.

Loss of trees, especially poplars, in Holland during the war brought a shortage of 50,000 pairs of wooden shoes.

Dangerous Alien Invades U. S.

California truck farmers have been warned that a pair of giant snails, like that pictured above, have been found in San Pedro. They are known to entomologists as Achatina Fulica; world's largest and most voracious species, capable of multiplying astronomically and "literally eating Southern California out of its truck gardens." The invaders came in on clouds of dirt adhering to Army surplus material shipped from Tinian Island in the South Pacific.

Stewards, Trustees Elected For First Methodist Church

At the fourth quarterly conference of the First Methodist Church of Midland, held during this week, the following were elected members of the board of stewards for the year which begins June 1: Stacy Allen, Ben F. Black, E. P. Birkhead, J. P. Carson, Jr., J. P. Carson, Sr., Ellis Conner, W. M. Conner, Tom S. Edrington, John W. Gattis, George W. Glass, Jack W. Goddard, Barney G. Grafa, Burl P. Guyton, Ray Gwyn, W. C. Gwyn. John Hammack, Dave E. Hoover, S. H. Hudkins, J. Holt Jowell, N. N. Lacy, R. L. Langford, Marvin McCree, Roy McKee, H. M. McReynolds, Sr., Noel G. Oates, Harvey C. Powledge, W. I. Pratt, W. F. Prothro, O. M. Pulliam, F. B. Rhodes, E. D. Richardson, L. W. Sandusky, John A. Sewell, C. H. Shepard, J. R. Smith, L. C. Stephenson, J. B. Terry, J. W. Thorne, M. C. Ulmer, S. M. Vaugan, James C. Watson, and Bill Wyche. Honorary Stewards M. W. Whitmore and J. C. Miles

Wink Treating Plant Hearing To Be May 24

AUSTIN—(AP)—The Railroad Commission has set hearing dates on three applications for discovery allowances and new field designations. The application of Renwar Oil Corporation for discovery allowable and new field designation for its McCampbell well No. 1 in Nueces county as set for July 3. Set for hearing July 8 was the application of the Humble Oil and Refining Company for discovery allowable and new field designation for its V. K. McCaleb No. 6 well in the Fargo field, Wilbarger county. The commission scheduled, for May 29 the application of H. N. Sweeney for a permit to construct and operate a treating plant approximately two miles north of Wink, Winkler county.

were elected honorary stewards. Mrs. Bill Wyche was selected communion steward.

W. M. Conner was named district steward, with J. Holt Jowell selected as reserve district steward. L. C. Stephenson was re-elected recording steward.

Trustees for the church, to have charge of the property of the organization, named at the quarterly conference were: Ellis Conner, George W. Glass, J. Holt Jowell, W. I. Pratt, M. C. Ulmer, and J. C. Miles. Roy McKee, chairman-elect of the board of stewards, and Jack W. Goddard, vice chairman-elect, will assume their duties June 1.

The Kampferi crab, found in Japanese waters, sometimes has a claw spread of 18 feet.

Trip To Mexico For Vacation Blues

By JACK RUTLEDGE (Associated Press Staff)

Restless? Sluggish? Can't concentrate? It's that old spring fever. And a touch of the annual wanderlust. Before complications set in, better take the tried-and-tested cure: A vacation.

Texans have a natural at their doorstep—Mexico. A vacation spent in Mexico can be exciting, educational—and a lot of fun. You can make it in the regulation two weeks, and it should fit your budget.

Try the "Figure 8" route. It has lots of advantages. You see most of Mexico, and, along one small stretch, you can indulge in a bit of safe adventuring.

This is the "Figure 8" route: You enter Mexico at Brownsville. From Matamoros, across from Brownsville, you drive to Victoria, capital of Tamaulipas. That's the bit of adventure, and some might want to make it the last instead of the first lap.

Ford One Ferry
This road, from Matamoros to Victoria, is in the process of being built. It is not all-weather all the way—a short strip of 27 miles is ungraveled, but graded. You have to ford a river on a ferry. Also, the route is not ruined by tourists yet—it's native Mexico.

Once you get to Victoria, you're on paved roads, wide and handsome, all the way. You go to San Luis Potosi next—a colorful old town. The route then takes you to Guadalajara—a real treat. It, too,

is not visited by too many tourists because of the distance.

From Guadalajara you go to Mexico City. That, of course, is a "must." It's the Paris of the western world. It also has the floating gardens of Xochimilco, the pyramids, night life, colorful markets. Side trips can be made to Tlaxcala and Cuernavaca.

Then you're heading home. Mexico City to Tamazunchale (pronounced Thomas and Charlie) to Monte to Victoria to Monterrey and then Laredo. You've traveled 1,700 miles in Mexico.

The exchange rate, you know, is five to one—five pesos to one dollar. Prices in Mexico are higher than they used to be, but you still get by. Accommodations are improved, there is no gasoline shortage, roads are good.

How's your spring fever?

Thought Of Chair Too Much For This Killer

CHICAGO—(AP)—Julius (Dolly) Weisberg, a former Chicago night club owner and convicted slayer, who had lost all court appeals to escape death in the electric chair and who was to have been executed early May 23, died May 20 in his death cell, apparently of a heart attack.

Weisberg, 50, who was convicted a year ago of slaying an automobile salesman, died less than two hours after he was transferred to the death cell—about 25 feet from the electric chair.

He Boasts, He Is Challenged, And Then Makes Shirt

By HAL BOYLE
 JCIPLIN, MO.—(AP)—Everette Smart always held the theory a man could do anything a woman could, and better.
 A year ago he got the opportunity to prove his point. Shirts were expensive and scarce. One day he casually asked his wife, Juel, if she would make him a few shirts if he bought her the material.
 "Oh, honey, they're too hard to make," she replied.
 "Hmphh," grumbled Smart, unconvinced. "I could make a shirt with the sewing machine stuck up my sleeve."
 "I'd like to see you do it, and you can leave the sewing machine on the floor," said friend wife.

The matter would have ended there except at dinner that evening Mrs. Smart announced to their two daughters, Jean Ann, 14, and Mary Jane, 12: "Girls your father is going to make a shirt. Tee Hee." Ego Offended
 His excited daughters spread the word around, and the neighborhood kids began dropping in to see if it were really true. Smart had to produce.
 He was 42 years old and telegraph editor of the Joplin News Herald. He had written poetry and fiction and worked simultaneously on two novels. But he had never used a needle for anything but digging out a splinter.
 "I got out my mother-in-law's

sewing machine that had been gathering dust," he said. "Then I put the male reasoning mind to work. For two days I studied the book of instructions that come with sewing machines. That is something women never do. Which is why few women ever learn to use all the attachments."
 "I bought a 20 cent shirt pattern and studied it as carefully as a contractor had studied the architect's blue prints of the Empire State Building. Then I went to work on the shirt. It took me two weeks to finish it.
Then Formal Dresses
 "My daughter Jean Ann liked it and said, 'Daddy, I want you to make me a formal dress.'
 "I cut a hole in a newspaper and put it over her head. I clipped the paper to the shape of the body and used it for a pattern. It worked fine. She was the belle of the ball and got lots of compliments."
 Somewhat amazed at his own success, Smart really went to work in his spare time sewing. He began to create his own designs. He made suits for both his daughters, two more shirts for himself, coats for the girls and is now completing a suit for himself.
 His fame spread.
 Neighborhood women came to ask him just how he set in sleeves or fashioned shoulders. They had seen his sewing and wanted to learn how to do as well.
 One husband came to him and complained, "you're causing trouble to the rest of us. My wife is telling me she married the wrong man."
 Smart estimates his sewing has cut the family's clothing budget by two-thirds. His wife has become his stoutest advocate.
 "She told me she would be glad to cut the lawn," he laughed. "If I would just keep on sewing. But with so much to do for the girls I haven't been able to make much for her."
 "She's the orphan in the storm."

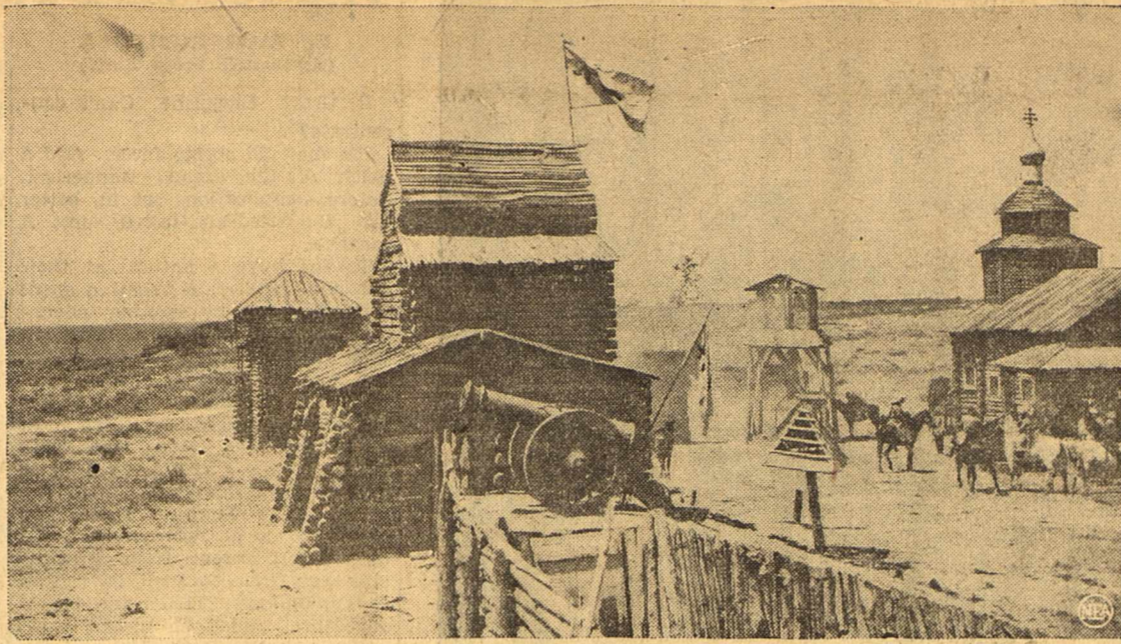

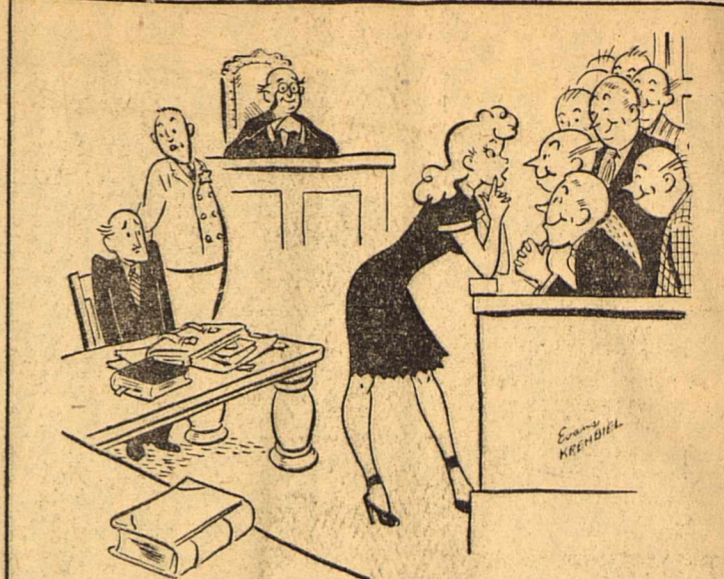

Photo above shows part of the war-battered beach at Anzio, Italy, which Gen. Mark Clark's Fifth Army doggedly held from January, 1944, all through the bitter winter, being used as a movie location. An Italian film company erected a "Cossack village" there for a screen play dealing with Czarist Russia. Photo by NEA-Acme correspondent Albert Blasetti.

State May Use Funds In Centennial Balance

AUSTIN—(AP)—Attorney general Price Daniel recently held the state may use a balance in the special Texas centennial fund for purchase of the old French embassy here.
 The 49th legislature had passed a bill making such purchase possible, but a previous attorney general's ruling was that the money was federal funds and could not be so used.
 Daniel ruled that a more thorough study of the origins of the fund indicated it was actually state money and could be used for purchase of the building used by the Republic of France as its embassy when Texas was a Republic.
 The Daughters of the Republic of Texas will be given use of the property.
 Although tin melts at 450 degrees Fahrenheit, it does not boil until it reaches 4,100 degrees Fahrenheit.

Education Board Free Of Per Capita Duties

AUSTIN—(AP)—The state Board of education has been relieved of its duty to determine what the per capita scholastic apportionment should be, the attorney general has held in an opinion.

Relief came when the legislature passed its \$55 per capita apportionment bill this year, the opinion declared.

Frosted Coffee Raisin Cookies

Frosted Coffee Raisin Cookies can be the pride of either the cookie jar or the tea party. A tempting array of flavorings—including brown sugar, coffee, raisins, nuts and cinnamon are blended in just the right proportions in this recipe.

The cookies are as satisfying and nutritious as they are flavorful. Made from enriched flour, they provide valuable amounts of protein and B vitamins as well as energy-giving carbohydrates.

They're easy and quick to make, too. The batter is spread in a shallow pan, baked in a moderate oven and cut into small bars. While still warm from the oven the bars are topped with a thin confectioner's sugar icing.

Frosted Coffee Raisin Cookies

1 1/2 cups sifted enriched flour	1 cup brown sugar
1/2 teaspoon baking powder	1 egg
1/2 teaspoon soda	1/2 cup hot coffee
1/2 teaspoon salt	1/2 cup raisins
1/2 teaspoon cinnamon	1/2 cup chopped nuts
1/4 cup shortening	Confectioner's sugar icing

Sift together flour, baking powder, soda, salt and cinnamon. Cream together shortening and sugar. Add egg. Mix well. Add coffee gradually. Mix thoroughly. Add flour mixture to creamed mixture. Add raisins and nuts. Spread in shallow 11x16 inch greased pan. Bake in moderate oven (350° F.) 15 to 20 minutes. While still warm, drizzle with confectioner's sugar icing. Yield: 24 1x3 inch bars.

Shrimp Loaf Offers Novel Dish

By GAYNOR MADDOX
Novel luncheon dishes add pleasure to spring entertaining.
Hot Shrimp Sandwich Loaf
(Serves 6)

One 18-ounce loaf of unsliced white bread, 1 No. 1 can shrimp, 2 hard-cooked eggs, chopped, 1/2 teaspoon celery salt, 1 teaspoon grated onion, 1/4 teaspoon pepper, 1 10 1/2-ounce can condensed tomato soup, melted butter or fortified margarine, shrimp sauce.

Remove crust from top and sides of bread. Cut 1/2-inch slice off the top of the loaf. Follow out the center of the loaf, leaving 1/2-inch thickness for walls and bottom. Cut 1/3 of the bread removed from the center of the loaf into cubes and toast. Shred about 3/4 of the shrimp mixture and cover with lengthwise slice of bread. Brush top and sides of the loaf with melted butter. Bake on a baking sheet in a moderate oven (375 deg. F.) about 20 minutes or until lightly browned. Serve with shrimp sauce.

Shrimp Sauce
Remaining tomato soup, 1 teaspoon butter, 1 tablespoon water, remaining shrimp.

Combine tomato soup, butter and water and heat thoroughly. Add shrimp which has been cut into pieces, and simmer only long enough to heat.

Orange and Sweet Potato Salad
Two cups orange pieces (6 small oranges), 2 cups cut celery, 2 cups cooked sweet potato, diced, 1 1/2 cups diced cooked ham, 1/4 cup toasted almonds.

Toss lightly with enough mayonnaise to moisten. Add nuts just before serving. Serve on lettuce cups.

A ushabti buried in ancient Egyptian tombs was a figure supposed to be the gardener who would grow food for his master.

Most Efficient Production Rate Arguments Before Commission

AUSTIN—(AP)—Conflicting testimony developed here recently at a Railroad Commission hearing over the most efficient productive rates in 103 pools in West Texas. This was especially true in the larger fields.

The Wasson pool of Gaines and Yoakum Counties, with the highest daily allowable in West Texas, 69,005 barrels, was no exception. Atlantic Refining Company, Stanolind Oil & Gas Company, Phillips Petroleum Company and Shell Oil Company recommended retention of the current MER of 78,000 barrels daily. Honolulu Oil Corporation thought 50,000 barrels the most efficient rate; Continental Oil Company, 65,000 and Amon Carter, Fort Worth, the present allowable of 69,005.

Slaughter Requests Vary
Recommendations ranged from 45,000 to 82,960 barrels for the East Texas field in area and boasting more than 2,000 wells. The current MER is 55,000.

Honolulu proposed 45,000 barrels, in which Continental concurred, but Magnolia boosted the figure to 49,000; Sid W. Richardson to 50,000;

Rev. J. Frank Norris Files Against Editor

FORT WORTH—(AP)—A complaint charging Ralph McGill, editor of the Atlanta (Ga.) Constitution, with libel against Rev. J. Frank Norris, pastor of First Baptist church here, has been filed in county court here by W. E. Myers, assistant district attorney.

It charges that McGill, "with intent to injure J. Frank Norris, did unlawfully and maliciously make, write, print, publish and circulate a malicious statement of and concerning the said J. Frank Norris and affecting the reputation of the said J. Frank Norris." The date of alleged offense was stated as May 13.

The complaint cites an article under McGill's name, entitled "One Southerner's Viewpoint."

ENACTED JOINT RESOLUTION NO. 4
ROBSON—The Legislature of the State of Texas by the addition of two sections to be known as Sections 17 and 18 providing a special fund for the payment of Confederate pensions and providing a method of financing the construction and equipment of buildings and other permanent improvements at state institutions of higher learning; providing for a five-cent reduction in the maximum allowable state tax on property; providing for an election and the issuance of a proclamation therefor.

This Isn't News But U. S. Still Needs Homes For Rent

WASHINGTON—(NEA)—What this country needs is from 1,500,000 to 2,500,000 more homes—not too expensive and mostly apartments. The veterans emergency housing program got off to a wrong start for two reasons: First, because emphasis was on houses rather than on homes. Second, because the veteran was treated as a distinctive race that should be segregated in a new development of his own, while non-veterans continued to

live on the other side of the tracks. Both assumptions now are recognized as false. Both have been dropped. But they persisted long enough to set the whole housing program back months—and at least scores of thousands of homes. When the veteran came back for demobilization all the desirable homes were occupied. Something had to be found for him. So the Wyatt program was evolved with the idea of getting homes

built at a price that the veteran could pay. This assumed that those already in existing housing would stay there, and veterans would take all the new housing. That and this was the only way to get roofs over the heads of veterans' families.

"Within 48 hours after I became Housing Expediter last December I rescinded the regulation which prohibited non-veterans from building for their own occupancy," Frank R. Creedon said. "I believed this regulation to be undemocratic, and I know that it prevented many homes from being put under construction."

Surpluses Shifted
 Creedon also relaxed the rule that required that every new housing unit be held at least 60 days to see if a veteran wanted it, before it could be sold or rented to anybody else.

And he has somewhat increased the ceiling on sales price or rental for new housing.

These steps recognize the unsoundness of the former approach. Most veterans do not want to buy homes—now, at any rate. They want to rent.

Housing Expediter Wyatt tried to shift emphasis from houses to rental homes—which means mostly apartments in the larger communities, at least. But those putting up the money say they didn't dare gamble much on rentals. They would rather take a small profit on a sale and get out than to risk a heavy loss under rent ceilings.

An Army survey at separation centers last year showed that 70 out of every hundred married veterans felt they could not pay more than \$50 a month rent.

join the others in the \$50 a month limit class. The second is that a property owner must get one per cent a month on his investment, as rent, to show a modest profit. That means that the average vet can

afford to rent only a \$5000 house—or, ignoring a number of complications, to pay only about \$5000 for a house for himself. Because these economic facts

are pretty hard and fast, the housing program "for veterans only" ran into a stone wall which is resulting in the slowdown reported from all over the country.

Houses—Or Homes?

Only a few home-seekers will find apartments in gigantic housing projects like this Stuyvesant Town in New York City. Rentals still are biggest problem in the nation's housing picture.

LEGAL NOTICE 86
 Against the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions and for the financing of higher learning in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five (5c) Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and the University of Texas.
 Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the constitution and laws of this state.
 Sec. 4. The sum of Ten Thousand (\$10,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of the state, not otherwise appropriated, to pay the expenses of such publication and election, to-wit:

Bell-Ringers As Reported During Recent Strike

By JACK RUTLEDGE
Associated Press Staff
Telephone operators weren't ringing bells during the strike, but there are a few bell-ringers reported by newsmen:
Vic Lamb of Plainview says Kirk Herrington, son of Mr. and Mrs. Eob Herrington, and his friend Wayne Miller, son of Mr. and Mrs. James M. Miller, solved the communication snarl by using carrier pigeons.

The boys had big plans to go to a movie. But one had to get his parent's consent. So he took one of his friend's carrier pigeons home with him, loosed it with the good news that all was okay.

It worked, and since then they've used the emergency one-way communication system with continued success.

In Big Spring, the strike helped the city's beautification program. Many women devoted time usually spent in telephone gossip to working in their gardens.

What is an emergency? In Harlingen a woman wanted to make a call. "Is this an emergency?" asked the tired operator.
"Well, my living room is full of bees and I'm trying to get the exterminator to get them out," explained the woman. She got her number.

Jacksonville reported that one newspaper publisher described his particular call as a "death message." Newsmen, familiar with the newspaper shortage, will understand.

"This paper is gonna die by next week if I don't get this call through and get some newsprint," he explained. The operator let him talk.

M. A. White, Dallas striker, spent most of his spare time "just fishing," and had so much fun he wondered why he'd wasted time working.

One telephone system that didn't go on strike was the unique independent company owned by J. T. Orfield of Brandon. The company has been his for 33 years and members of his family work it. It has 200 miles of lines serving farms in a wide radius around Brandon. It has 110 boxes.

Orfield himself is plant manager, lineman, instrument repair man and sometimes night operator. His daughter, Mamie Orfield is day operator, and a son, Carl, wounded World War II veteran, his assistant and part-time operator.

The only time the line is idle is from 11 a. m. to 2 p. m. on Sundays when the whole family attends church.

Many waters cannot quench love, neither can the floods drown it.—Song of Solomon 8:7.

Meat-Axe Economizing Okay

Republican Party leaders are puzzled by the bad publicity they have received from their efforts to cut government spending by the "meat-axe" method.

Say what you like about this meat-axe technique of economizing, there is sound sense in doing business that way. Every department of the federal government ought to be made to prove the need for every cent of its appropriations.

This makes for a lot of toil and strife, and it is probably the hard way to get results. It causes all kinds of screaming and confusion in the agencies.

Part of the wrath which the Republicans have pulled down around their own ears in this business comes from the indiscriminate way in which the cuts were made.

It is now doubtful if the House will make good on its goal of cutting \$6 billion from the President's \$37.5 billion budget.

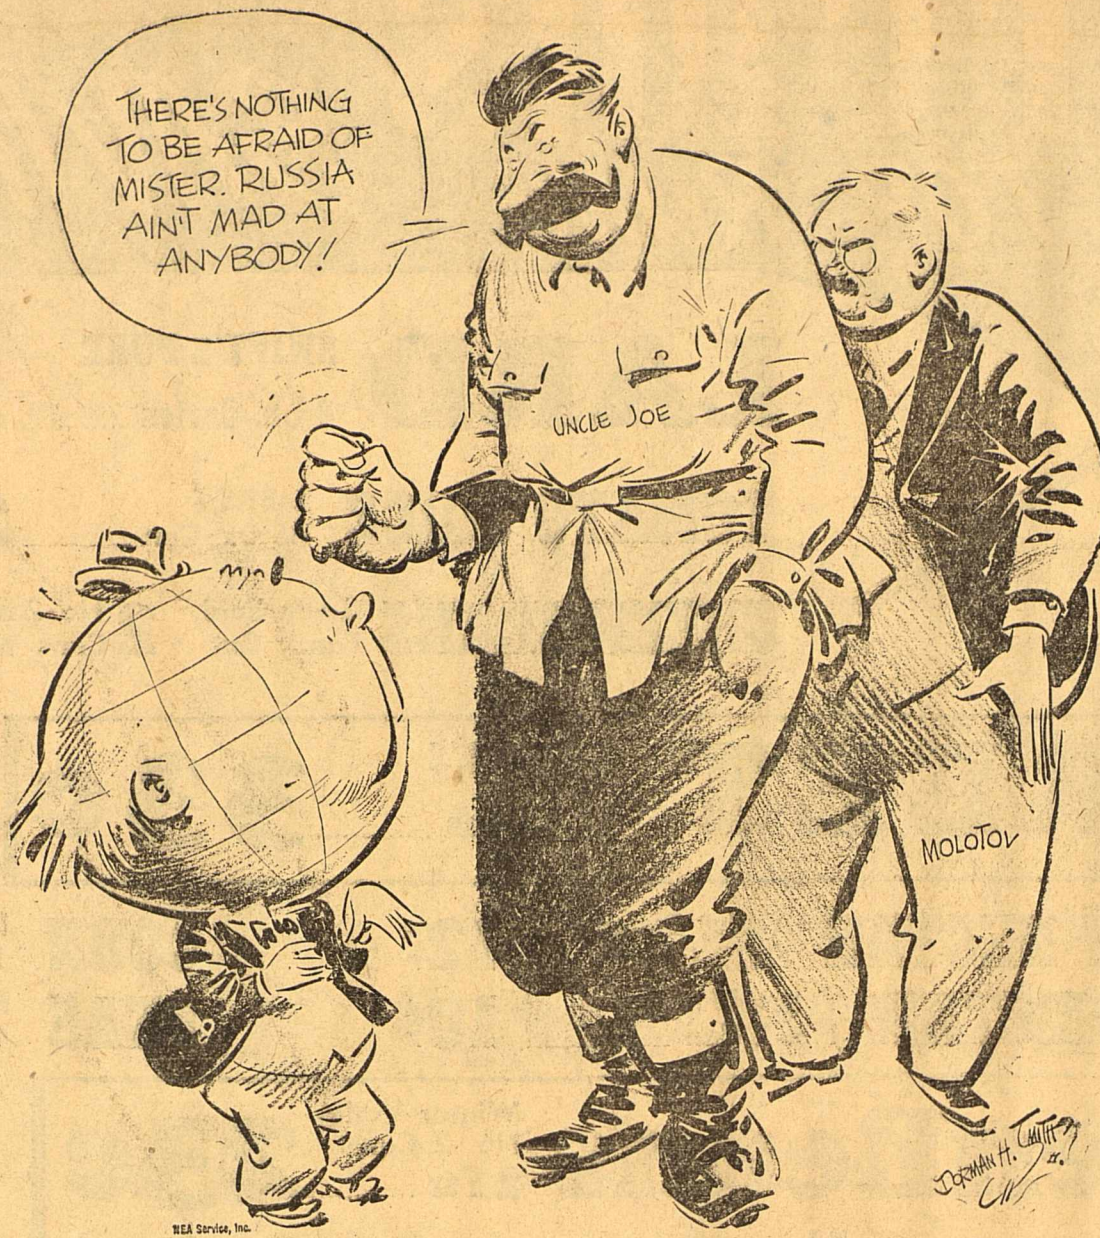

Records of the work done in appropriations committees seem to indicate that both the House and the Senate may have tried to do an intelligent job of cutting, with their eyes open, though this is hard to believe.

Though the Democrats have tried to make a case that there was no room for economy below the President's budget estimates and have pooh-poohed Republican economy efforts so far, there is no question of the need for a lot of meat-axe wielding.

Chopping a billion and a half off the War Department, cutting Labor Department by 43 per cent and Interior by 45, lopping \$30 million off Treasury when it has \$600 million to collect from tax dodgers and killing the State Department's \$31 million international information program when Russia is spending 10 times that amount on propaganda may all be crazy and suicidal.

Also, what the House does on these appropriation bills isn't the last word. The Senate has to review all these actions. Historically, the Senate has corrected many mistakes made by the House.

The Voice Of Jacob But The Hand Of Esau

Fruit Bolsters Spring Menus

By GAYNOR MADDOX
NEA Staff Writer

The more fresh fruit in spring menus, the more buoyancy in spirit.

Florida Ambrosia (Serves 6)
Three oranges, 1/2 cup chopped unpeeled red apple, 1/3 cup shredded coconut (dried, fresh or frozen).

Cut oranges in half and remove the pulp, saving the shells. If desired, flute edges of orange shells. Dice orange pulp, combine with apple and coconut, chill well and return to orange shells to serve.

Banana Orange Cake
Two and one-quarter cups sifted cake flour, 2 1/2 teaspoons baking powder, 1 teaspoon salt, 1 teaspoon cinnamon, 1/2 teaspoon cloves, 1/4 teaspoon allspice, 1 1/2 cups sugar, 1/2 cup shortening, 1 tablespoon molasses, 7/8 cup milk if butter, margarine or lard is used, 1 cup milk if vegetable or any other shortening is used, 2 eggs, unbeaten, 1 teaspoon vanilla.

Sift flour once; measure into sifter with baking powder, salt, spices and sugar. Have shortening at room temperature; add molasses and mix or stir just to soften shortening. Sift in dry ingredients, add 3/4 cup of the milk until all flour is dampened. Then beat 2 minutes. Add eggs, remaining milk and vanilla and beat 1 minute longer.

Turn into two 9-inch layer pans or 13x9x2-inch pan. Pans should be lined on bottoms with paper, then greased. Bake in moderate oven (375 deg. F.) about 25 minutes for layers, or about 35 minutes for sheet cake. Spread with lemon frosting or whipped cream and garnish with sliced bananas.

Note: Mix cake by hand or at a low speed of electric mixer. Count only actual beating time. Or count beating strokes. Allow about 150 full strokes per minute. Scrape bowl and spoon often while mixing.

Wolves sometimes destroyed as much as half of a calf crop on western ranches. The bite of the shrew, one of the smallest of mammals, is poisonous to human beings.

From where I sit... by Joe Marsh

When Ed's Crops Failed

Three years ago Ed Smith's luck went bad. His crops failed, and it wasn't long before Ed's home and furnishings were up for auction.

Half the town turned out, and Ed must have thought his neighbors were a bunch of hungry vultures—buying up all his precious possessions for a song.

When it was over, and the auctioneer had left, Sam Abernathy turns to the crowd and says: "All right, folks, let's take time out for a glass of beer, and then put this stuff back where it belongs!"

Two hours later, Ed was in possession of his home and furnishings; and the folks who'd paid for them were sitting around Ed's fire enjoying a neighborly glass of beer—to show their friendship and their confidence in Ed.

Today, Ed's back on his feet—another constructive member of the community. And from where I sit, we've all been well repaid—a good investment in a good man.

Is That MILK Really Skimmed?

The tiny globules of butterfat in milk and cream are literally liquid gold. The dairy industry in 1945 produced \$3,632,146,000—or about 15% of the national farm income. Butterfat plays a big part in creating that wealth. That's why the milk you feed your hogs should be separated carefully. The butterfat is much too valuable to you to pour it into hog troughs along with the skim milk.

In more than three centuries, the American dairy industry has come a long way. But there's still a lot of hand-skimming—just the same way the Pilgrim Fathers skimmed their milk. That hand-skimming costs producers plenty, averaging 22% lost butterfat. Surveys show water-diluter separators lose an average of 18% of the butterfat, produce lower grading cream.

But mechanical separators, correctly adjusted and operated, will save all but a very small percentage of the butterfat. Moreover, tests have shown that producers who use mechanical separators market up to 71% of first-grade cream, while only about 40% of the hand- or water-separated cream marketed is first grade.

Thus, with even only three cows, a mechanical separator can pay for itself in as little as six months and begin earning a profit. The five minutes a day it takes to wash and sterilize a separator pays out well in dollars and cents.

Of course, there's a lot more to milk and cream quality than the method of separation used. It begins with healthy cows. Cleanliness every step of the way, quick cooling and frequent marketing—all count heavily. Nearly all state agricultural colleges offer detailed bulletins of improvement of the market value of milk and cream. They are profitable reading.

Improved quality* in the cream that we process

at Swift & Company means improved nutrition for the nation... and nutrition is our business, and yours!

*Swift & Company cooperates with U. S. Department of Agriculture-Dairy Industry long term program; works with state departments of agriculture, college extension services, boards of health, 4-H Clubs, Future Farmers, American Butcher Institute and other organizations interested in improving the quality of milk and cream. In 1946 we staged hundreds of producers' meetings for this purpose. This effort is being expanded this year.

Soda Bill Sez:

... in order to make his dreams come true a man has to be wide awake. ... that usually the less a man knows, the more he wants to tell it.

The Not-So "Good Old Days"

In the "good old days" maybe your grandfather butchered three or four steers. The beef that he didn't need for his own use he could peddle without much trouble.

Today his grandson—perhaps it's you—may produce 30 or 300, or possibly 3,000 steers a year. It would be out of the question for you to butcher them yourself, and an utter impossibility to peddle from door to door all the beef you'd have. So you send your steers to market. There they are purchased by meat packers with facilities to handle thousands of head a day. There they are converted into meat. There's a minimum of waste. By-products are turned into useful products. And the meat is distributed to markets near and far, each weight and grade going wherever it will sell best.

Without the services of nationwide meat packers, such as Swift & Company, there would be no efficient, economical way to bridge the more than 1,000-mile average gap between producers and consumers. Without these services, livestock would have to be shipped long distances, cost of dressed meat would be higher, and consumers could not afford to buy as much meat, nor would they be as well fed.

F.M. Simpson, Agricultural Research Department

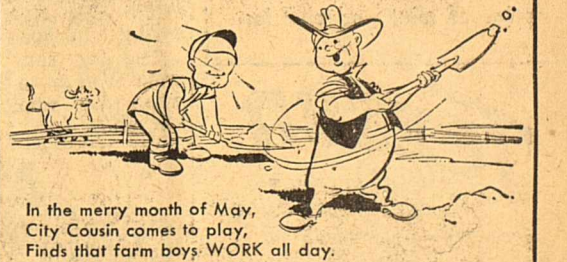

Things are NOT always as they seem

That square seems to be a solid block of gray.

But look at it closely and you find it's made up of many individual dots. Similarly, when some people "look at" Swift & Company, they see a big corporation. But if they look closely, they will see that Swift & Company is PEOPLE.

Sixty-three thousand individual people (shareholders) who have pooled their savings to create and operate this business. Sixty-six thousand individual people (employees) who work for the company—livestock buyers, workers in plants, salesmen, office workers and managers. Their combined efforts create a market for your livestock, dairy and poultry and other agricultural products, and provide nourishing foods for the tables of America.

OUR CITY COUSIN

In the merry month of May, City Cousin comes to play. Finds that farm boys WORK all day.

Retire That Rooster

You'll get eggs that grade higher if you get rid of the roosters in your flock at the end of the breeding season. Infertile eggs keep better in hot weather. If non-producing hens are culled out at the same time, you'll save considerably on feed costs.

With more and more eggs being purchased on a graded basis, quality and cleanliness mean increased income to producers. The way to get uniform high-quality eggs is to keep your flock confined to the hen-house and yard, use dry litter, feed a balanced ration, gather eggs several times a day, keep them clean and cool, market them frequently.

Write Swift & Company, Dept. M, Chicago 9, Illinois, for your copy of the booklet "Increasing Your Income from Quality Eggs."

Raisin Pie Offers Spicy Dessert

Use pretzel sticks and twisted pretzels to spell out names and sentiments for birthday or bridal party table decoration.

By GAYNOR MADDOX
NEA Staff Writer

Looking for a gala dessert for at spring party dinner? Then here's one delicious answer. Party Raisin Cream Pie—(Yield: 9-inch Pie).—One-half cup raisins, 2 cup water, 1/3 cup sugar, 1/4 cup plus 2 tablespoons cornstarch, 4 teaspoon salt, 1/4 teaspoon powdered cloves, 1/4 teaspoon grated

nutmeg, 1/2 teaspoon powdered cinnamon, 1 tall can evaporated milk (12/3 cups), 2 tablespoons lemon juice, 1/2 cup molasses, 2 egg yolks (reserve whites for meringue), 1 baked 9-inch pastry shell.

Wash raisins; cook with water about 5 minutes. Mix together sugar, cornstarch, salt, cloves, nutmeg and cinnamon. Stir in milk, then lemon juice and molasses. Add to cooked raisins and cook over hot water until very thick, stirring occasionally to keep smooth. Beat egg yolks, blend with a little of the hot mixture, then add to the rest of the hot mixture and cook 2 minutes longer. Cool. Pour into a baked 9-inch pie shell and top with meringue.

Fluffy Meringue—Two egg whites, 2 tablespoons cold water, 1/8 teaspoon salt, 1/4 cup sugar. Beat together egg whites, water and salt until foamy. Gradually add sugar, about a tablespoon at a time, beating constantly until meringue will stand in peaks, but is not dry. Pile lightly on pie and bake in a slow oven (325 deg. F.) until delicately browned, about 15 minutes.

Here's a new hint for party fun: Pretzels are really amazingly handy for impromptu decorations.

The little sticks can always be used to spell out names or to print the words "Happy Birthday" or "Welcome Home" or "Here's to the Bride," etc., or whatever the appropriate sentiment may be. Amusing decorative effects can be achieved by inserting pretzel sticks into an orange or grapefruit to resemble a bristling porcupine and then tipping each stick with a square of cheese or a segment of tangerine or even a slice of banana. Regular twisted pretzels in small and large sizes can be used to form a geometric pattern in the center of the table for a boy's party. Or the big ones can be tied together with bits of ribbon to form an amusing stripe down the center of an otherwise unadorned table.

String Collector Says Hobby Keeps Worry Off Mind

By HAL BOYLE
COLUMBUS, KAN. (AP)—Ed Fouts is all wound up in his hobby. His hobby is collecting string.

That hobby is more complex than the average taxpayer has any idea. You may never have heard of Ed. But how many people heard of Jack Dempsey before he signed to fight Jess Willard? That is exactly the position Fouts finds himself in today—the dawn period between being a comparatively unknown challenger and the world-hailed champion.

Connoisseurs of string collecting already know Ed is within striking distance of becoming a historic figure in this neglected art, one of

the slow timeless characters who become silent milestones by which subsequent devotees measure their own inching progress.

To put it bluntly, Ed began collecting string on Dec. 12, 1941—a few days after Pearl Harbor—and now has 178 miles of it, carefully tied together in a perfectly round ball containing four feet six inches high after 293 hours of methodical knotting.

There are scores of people in the United States who collect string on a serious basis, and many more who do it intermittently as a light pastime. Ed knows personally of 30

serious collectors, writes to 15 of them to compare progress.

He is outstanding himself—aside from the tremendous size of his ball of string—for two reasons. In his own words:

"I never paid a cent for the twine I have used, and I am the only one that uses the same weight twine all the way through."

Ed is a family man, with 170 children, and he has helped two other children get ahead in the world. He runs his own filling station on the edge of town, and he is proud of the fact he has never been late or missed a day's work in

33 years. He is a small, gray-haired energetic man of 56.

"I started collecting string because I read a newspaper article just before the war that a hobby would help you forget your worries and live longer," he said. "Believe me, it does. I get more fun out of seeing the eyes bug out on strangers when they come into my filling station and see this ball of string." It is something to come upon unexpectedly. It weighs 338 pounds and that explains why Ed is like Jack Dempsey—just before Dempsey catapulted to fame.

Some of the words in the English language are derived from the Latin used by Roman soldiers 20 centuries ago.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, MAY 22, 1947—15

The sahuaro or "giant cactus" has a root system which spreads from the main trunk for as much as 50 feet close to the surface, so that rainfall is easily assimilated and stored in the pulpy interior of the main plant.

Leonardo da Vinci's drawings of human anatomy would have revolutionized the study of physiology and medicine had they been published and heeded during his lifetime, but they were not published until 1902.

Mary Lee Taylor's
Fruit Icebox Cake
Broadcast: May 24, 1947

1/4 cup Pet Milk
2 teaspoons unflavored gelatin
3 tablespoons cold water
1 1/2 cups sliced, fresh strawberries
1/4 cup sugar

1/4 cup white cream cheese (2 oz.)
1 1/2 tablespoons lemon juice
few grains salt
8 strips plain cake, 1 1/2 inches

Chill milk until icy cold. Soften gelatin in cold water. Mix strawberries with sugar. Blend cheese, lemon juice and salt together. Dissolve gelatin over boiling water; stir into cheese mixture. Add berries. Chill until syrupy. Line an oiled 1 1/2-pint mold with cake strips. Whip chilled milk until stiff. Fold into chilled gelatin mixture. Put into mold. Chill until firm. Unmold. Garnish with whole strawberries if desired. Makes 4 servings.

*To use frozen, sweetened strawberries, omit sugar. Thaw berries; add to cheese mixture without draining. Cut-up, canned peaches, pineapple or fruit cocktail can replace strawberries if you use 1 cup fruit and 1/2 cup juice.

**Pound, sponge, angel cake or lady fingers can be used.

You Will Need:

Pet Milk, 2 sm. cans 13¢
Strawberries, box 25¢
White Cream Cheese, pkg. 15¢

Chinese Food Takes Know-How

By GAYNOR MADDOX
NEA Staff Writer

Many readers ask for good Chinese recipes. We went to an authority, Ruby Foo, noted Chinese restaurateur, for these:

Live Maine Lobster—Chinese Style (Serves 4)

Two tablespoons oil or fat, 1 teaspoon salt, 1 tablespoon carrot, 1 tablespoon celery, 1 teaspoon scallion, 1/2 teaspoon salt, dash pepper, 2 live baby lobsters, 1 cup chicken bouillon, 1 egg slightly beaten, 2 tablespoons cornstarch, 2 teaspoons soy sauce, 1/4 cup water.

Place oil or fat and 1 teaspoon salt in a preheated, heavy 10-inch frying pan. Finely dice and place in mixing bowl the carrot, celery and scallion. Add the 1/2 teaspoon salt and dash pepper. Mix together thoroughly. Cook the 2 lobsters in boiling water for 5 minutes. Take out of water, remove and crack claws, cut edible portion of belly in several pieces with a heavy knife or cleaver. Place vegetable mixture and lobster in frying pan. Add chicken bouillon. Cover pan tightly and cook over a moderate flame about 10 minutes. Add slightly beaten egg. Cook over high flame for 2 minutes, stirring constantly. Add the cornstarch, soy sauce and water blended together. Cook for a few more minutes, stirring constantly, until the juice thickens and the mixture is very hot. Serve immediately with hot, boiled rice.

Shrimp Egg Foo-Young (Shrimp Omelet)

Eight strips diced bacon, 1 1/2 cups onion, finely diced, 1 tablespoon water or chicken broth, 2 cups fresh shrimp, 1 tablespoon chicken broth 6 eggs lightly beaten, 1 quart oil.

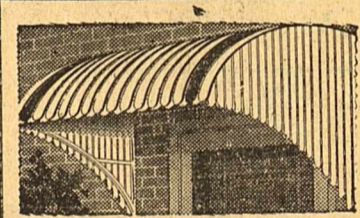

Place bacon and onion in heavy 10-inch frying pan. Cook over very low flame until bacon is crisp and onion is tender and golden brown. Add the water or chicken broth if necessary to keep it moist. Clean and shed the shrimp and add with 1 tablespoon chicken broth to bacon and onion mixture. Cook over low flame for 2 to 3 minutes. Place in a bowl and allow mixture to cool.

Crumbly Style

Cookies went to young Edward Neuman's head as the Harvey, Ill., youngster modeled a hat decorated with them. Millinery confection was displayed at bakery convention in Chicago.

TEXAS TECH BUYS BULL
PARIS—(AP)—Texas Technological College recently paid \$2,150 for Carnation Lamar Creamery Governor as a dispersal sale of the Lamar Creamery herd of registered Holsteins. The animal was herd bull for the local firm's dairy farm.

**Unemployment Hike Is
Shown As 'Soft Spot'**

WASHINGTON—(AP)—The Bureau of Labor Statistics reports an April decline in industrial employment and a poor showing in the construction field "point to soft spots in our economy which will need careful watching."

The slump in factory jobs was the first since the reconversion low in February, 1946, said a report by BLS Commissioner Ewan Clague. Clague did not join those economists who predict that a recession soon will bring widespread unemployment.

"We are on a crest, but the crest may be a plateau on which we may stay for some time—perhaps a year or two," Clague told reporters.

**DAR Dedicates Itself
To Keep History Pure**

WASHINGTON—(AP)—The daughters of the American Revolution voted to "dedicate itself to the responsibility of keeping classrooms and public libraries free from false and insidious doctrines and interpretations."

The resolution on "Teaching Young America" was adopted unanimously by the DAR convention. It says "one of the most subtle and dangerous methods of implanting false and un-American ideas in the minds of children and youths is either by loose and careless interpretation or by deliberate misrepresentation" of the "true facts of history."

Tops in Crops

Department of Agriculture predictions of the first billion-bushel winter wheat crop in history indicate that the U. S. will maintain or expand its role as the breadbasket of democracy. Chart at top compares last year's record-breaking winter wheat crop with estimate for this year. Lower chart compares last year's rye crop with 1947 estimate, which is 32 per cent higher.

The "oven bird" or hornero of Uruguay builds a two-room house of mud and straw atop fenceposts or telegraph poles in the South American cow-country. Sometimes they make additions up to six or seven floors.

War-Wrecked House Of Commons Is Being Rebuilt By British

AP Newsfeatures
LONDON—The Labor Party is turning its attention to rebuilding the bomb-wrecked House of Commons in Westminster Palace. On the night of May 10, 1941—one of the heaviest blitz nights for London—a German bomb fell smack on the House of Commons, reducing it to rubble. The bomb, which carved the Commons' Hall out of the extensive Westminster building, left the rest of the Palace relatively unharmed.

This Nazi depredation, however, was—historically—nothing new for Westminster Palace. It has seen worse in its day.

Canute Built the First
Canute the Great, who was England's Mr. Big back in 1016, was the first to build a palace at Westminster. But Edward the Confessor of the next generation founded the palace at its present location.

William the Conqueror carried out extensive enlargements and Westminster continued to be used as a royal residence until 1512. In that year it suffered so severely from fire that royalty decided to find another home. Westminster was soon renovated, however, and was used by both the House of Lords and the House of Commons.

Another fire in 1834 destroyed the whole place, making that Luftwaffe bombardier of 107 years later look like a piker. The present spired building with its stately towers, including the 329-foot one housing Big Ben, was built from 1840 to 1857.

It is still something of a mystery how the House of Commons, which covered an area 90 feet wide and

170 feet long, was so completely destroyed. It has never been established whether it was done by a high explosive bomb, an oil bomb or a string of bombs.

Whatever it was, it was thorough.

Work on the foundation and steel framework of the new House already has been completed. The stone work will take about three years and cost an estimated \$5,000,000 to complete.

Small Size Retained
The new building, designed by Sir Giles Gilbert Scott, will be constructed of warm cream colored stone quarried at Clipsham, Rutlandshire. It will be the first large London building using such stone.

Except for air conditioning and an improved amplifying system there will be no changes in the new House of Commons. It will have 456 loud speakers but only some 437 seats for its 640 members.

As before it will be an oblong chamber with government and opposition members seated facing each other.

Classified ads bring results.

Named in Probe

Ex-OWI official Lowell Mellett, above, was named by Rep. J. Parnell Thomas, of New Jersey, as the government agent who ordered actor Robert Taylor to play leading role in the movie, "Song of Russia," in 1943, despite the actor's objection that the film was pro-Communist. Mellett said charge is "silly."

Statistics Tell Story Of Farms

By JAMES MARLOW

WASHINGTON —(AP)— You've heard this: farm workers are fewer and farms are getting bigger and fewer. It's true. But why?

City life, city jobs and better pay have drawn farm workers. And, since machines do the work of many men, bigger and better farm machinery has meant less need for farm hands.

Thanks to the machines and better farming methods, bigger farms can be worked better than many small farms formerly could be with manpower.

Here's the story as told by figures from the U. S. Agriculture Department.

Where possible, the years used are 1910-14, the pre-World War I period, and 1946, the first year after World War II.

The average number of farm workers:

1910-14—12,052,000, when total U. S. population was 91,000,000.
1946—10,012,000, when total U. S. population was 140,000,000.
The average number of farms:
1910-14—6,400,000.
1946—5,900,000.

That drop of 500,000 in the number of farms might make it seem less farm land was being worked. Not so.

1910-14—310,566,000 acres.
1946—345,773,000 acres.

Thus while the number of individual farms dropped and total farming land increased, the size of farms increased.

Average size of farms:
1910-14—138 acres.
1946—194 acres.

But what of the value of the crops farmers produced?

Cash receipts, or the money farmers got for their products:

1924—\$10,220,000,000.
1946—\$23,900,000,000.

Of the \$23,900,000,000 in cash receipts in 1946, about \$900,000,000 came from government subsidies, or payments, of one kind or another.

So, exclusive of how the government helped out, farm cash receipts more than doubled between 1910-14 and 1946.

But that money was the pay farmers got for what they raised. How much did they have left after meeting expenses?

The average net income, after expenses, of farm operators:
1910-14—\$586.
1946—\$2,134.

These are average figures. Big farmers netted far more than those average figures show, and small farmers netted much less.

FIRST COMMANDER TO HOLD DIVINE SERVICES

The first commander in chief of the Army and Navy to conduct divine services for Navy personnel was the late Franklin D. Roosevelt, who officiated in the absence of a chaplain at Easter Sunday services aboard the yacht Nourmahal in 1934 with the crew of the USS Ellis present.

The ancient Chinese made beautiful articles from a nickel-copper-silver alloy which has become known in more modern times as German silver but which the Chinese called paktong.

Two of the greatest Roman poets were friends: Virgil and Horace.

Matamoros' History Is Closely Linked With Texans And South

By JACK RUTLEDGE
Associated Press Staff

Matamoros was a gray old town before most of Texas wore diapers. But today Matamoros, Mexico, the colorful border town across the Rio Grande from Brownsville, has dyed her hair and if you didn't know the old girl personally you'd think she was a co-ed with a Spanish accent.
If you look close, you'll find wrinkles and scars. Fate has been tough almost sadistic, with Matamoros.
The wounds of battle still dent its buildings. Cannon balls chipped brick from yard-thick walls and proudly Matamoros left the damage unrepaired for the world to see. Its ancient plazas are dotted with statues of heroes who fought and died there. Its cemeteries are crowded.

Matamoros was founded in 1810 as the "Congregacion Del Refugio." It was a frontier town. It was wild. Stage coaches and river steamers were its contact with the outside world. When it became a city, the state government named it Matamoros. That was January 28, 1826.
Its very growth and prosperity invited disaster. Leaders of revolutions sought it as a prize and fought bitterly and bloodily for it. The United States used it as a stepping stone in the Mexican War. Brownsville was born after that war, and Brownsville soon overshadowed Matamoros, thwarting the Mexican city's growth by taking much of its trade and traffic.
During the Civil War in the United States, Matamoros came back into its own. It was the only major outlet the Confederacy had. Arms and ammunition for General Robert E. Lee's armies poured in from Europe, and the Confederacy, in turn, poured back its cotton for export. It was the only unblockaded port.

Bagdad of the gulf, and a town named Clarksville, mushroomed at the mouth of the Rio Grande. They were so evil and lawless, the religious claim to this day, a great hurricane destroyed them both in 1877. They do not exist now. When the wind is high and the sand is blown away, you can still see the foundations of buildings—nothing more.

It was during the Civil War that Matamoros grew fat and prosperous, with a population of 60,000. After the war, it dropped. At the turn of the century revolutions drained it dry. Life and property were not safe. It sagged to under 10,000 persons. Dictators met and plotted there—then fought for the city. It has seen Porfirio Diaz, Pancho Villa, Santa Anna, many others.
But it survived. After one bloody fight, it was officially given the title "Heroic Matamoros," and to this day, postcards often list it as "H. Matamoros."

During America's prohibition area, Matamoros prospered by soothing the thirst of South Texas. During the World War by selling scarce rice.
Now, its growth is sounder. It is based on agriculture, exports, industry. New buildings are covering yesterday's scars and oldtimers sorrow.
But modern Matamoros knows, although history is something one can point to with pride, it's progress that pays for the monuments to honor the past.

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY
America's Card Authority
Written for NEA Service

Lieut. Jonathan B. McMinis wrote me that they enjoy their rubber bridge games at Hamilton Field, Calif., but today's hand nearly broke up the game. Perhaps you will not like the bidding, but that is the way it occurred, and it is the reason South will not play bridge any more.
When South opened the bidding with two clubs vulnerable, West bid four hearts to make it tough for the boys to get a slam. If they doubled four hearts, he might run out to four spades.
Fast's four no-trump bid was the Culbertson slam convention, and therefore West's response of five

♠ 8643	♥ 102	♦ 108632	♣ 76
♠ J1095	♥ 2	♦ None	♣ 8532
♠ Q983	♥ None	♦ 8532	♣ 76
♠ AKJ7	♥ 654	♦ 9754	♣ A
♠ AKQ	♥ None	♦ AKQJ	♣ KQJ1094
♠ KQJ1094	♥ Rubber—N-S vul.	♦ South West	♣ North East
♠ 2♣	♥ 4♥	♦ Pass	♣ 4N.T.
♠ Pass	♥ 5♦	♦ Pass	♣ 6♥
♠ Double Pass	♥ Pass	♦ Pass	♣ Pass
♠ Opening—♣ 7	♥	♦	♣ 22

diamonds showed a diamond void. South of course passed the four no-trump bid, just waiting for East and West to get high enough so he could double. If they did not get too high, he would step in with six clubs himself.
When East went to six hearts, South certainly thought he could beat that contract. He doubled.
When the opening club lead was won in dummy with the ace, South was not greatly worried, but when a diamond was led and trumped by declarer, South began to feel a little shaky. A club was trumped in dummy and declarer proceeded to trump out the remaining diamonds and clubs, pick up the trumps, and a spade trick was conceded to the opponents.
South refused to score up the hand and has not played bridge since. He has our sympathy.

In a thousand years the only animals known to have become extinct in highly industrialized England are the wolf, beaver, wild boar, brown bear and reindeer.

GIVING THEM INDIVIDUAL ATTENTION IN THE HOME

Just so surely as life begins in the home so does that influence which is to mold character for either good or bad. The juvenile delinquency problem of today would not be so great if the youngsters in the home were given more individual attention from their parents. The sin of omission or neglect has arrested too many "well intended" parents. They try to mean well but forget that those hours of personal attention in the home can never be matched by outside teaching.

Be a pal to that girl or that boy of yours while a pal means so much. The supervised wholesome recreation and individual attention from father and mother will pay great dividends in a law abiding citizenry. It is too late after those most precious days pass and you find you have miserably failed as parents and the strong hand of the law has to be called in to discipline where you failed. Keep them in Sabbath Schools and church.

YOU IN THE CHURCH THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statements today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you"—form a combination for good.

Wartime Nazi 'Death Factory' In Poland Is National Museum Today

MAJDANEK, POLAND —(P)—Two years after war, the stench of death still is wafted by the wind in this one-time Nazi-operated "factory of death."

An estimated 2,000,000 prisoners, mostly Jews and civilian inmates, went to their deaths in the crematoriums of Majdanek.

Today—by order of the Polish government—Majdanek is a national museum. It will be maintained intact so that generations to come may see "how the Germans treated human beings."

Almost as far as they eye can see, green, weather-beaten and shell-torn wooden barracks stretch over a broad expanse of land within the sight of the city of Lublin, first capital of the first Polish government formed when the Germans were fleeing to the west.

Barbed Cross Memorial

In the center of the great, barbed-wire enclosed camp stands a huge cross made of barbed-wire—a memorial to those who died here.

Within a stone-throw of the big cross stands the chief crematorium used by the Nazis. Inside the ovens, just as the Nazis left them, are heaps of human ashes. A glass-enclosed display case holds thousands of human bones.

As one walks near the crematorium, even on a cold, windy

Science Measure Would Help Find Disease Cures

By JAMES MARLOW

WASHINGTON—(P)—The Senate has just approved setting up a national science foundation.

This is its purpose:

1. To build up a big supply of trained scientists, particularly by helping educate young people with scientific brains.
2. To do basic research in many fields. For example, to find the cause and cure of cancer.

The foundation won't become a fact unless the House also approves. It's expected to vote soon.

Money? That would be decided later. Some senators talk of letting the foundation have \$20,000,000 to \$30,000,000 a year to spend.

Spend how? This way:

1. As loans or grants to colleges, universities or other organizations to start or carry on research work.
2. On scholarships for young men and women to continue their scientific training. They'd be chosen on ability.

Many scientists, educators and others have urged Congress to set up this foundation. It would work this way:

1. There'd be a top governing board, appointed by the president, of outstanding people in science, medicine, engineering, and so on.
2. From those 24, nine would be chosen as an executive committee to do most of the board's work, leaving the major decisions to the board.
3. There'd be a director, working full time. The board and executive committee members would only meet several times a year.
4. There'd be special divisions, headed by experts, in such fields as cancer, heart disease, biology, national defense, and so on.

The division experts, knowing their special fields, would know what kind of research work was needed most.

They'd make recommendations to the executive committee and the board for final decisions.

Suppose the foundation decided to put a lot of effort into finding the cause and cure of cancer.

With its money, it could start some special research jobs going or help out some universities where scientists already were working on cancer.

Through exchange of information on work being done, it could save scientists from duplicating one another's work.

But the foundation couldn't dictate to scientists what work they should do.

The foundation's job would be in research. It would have nothing to do with treatment. For example: It might pay for finding a cancer cure but not for giving the cure to cancer victims.

Once the cure was found, giving the curing treatments would be up to doctors or hospitals. The foundation wouldn't pay for that.

Trieste, New Free State, Awaits Its Freedom Ratification By U. N.

EDITOR'S NOTE: How does a small slice of a nation, torn between two patriotisms, go about becoming a free state? Here's an exclusive dispatch on what's happening today in Trieste as the free territory created by the Big Four awaits the day it will be on its own.

TRIESTE —(NEA)—The Allied Military Government still rules in Trieste today, a free state awaiting its freedom.

Hardly one place caused as much argument and discontent when the Big Four began shaping Europe's peace. But now, more than three months after the treaties were signed, there has been little change in the way of life for this Adriatic seaport and the chunk of Italian countryside that goes with it as a free territory.

Ratification day, and the selection of a governor by the United Nations Security Council, will be the big steps in the change-over. The waiting period may give the conflict of nationalist sentiments between the Yugoslavs and the Italians a chance to die down. The town of Trieste itself is almost 100 per cent Italian, and the countryside almost 100 per cent Slovene; the intense feelings of the two still flare up in bloodshed and broken heads.

Step Closed

One step toward realization of the Big Four project was the formation this month of TRUST—Trieste US Troops—under command of Major Gen. Bryant E.

Ex-commander of the Blue Devil Division, Maj. Gen. Bryant E. Moore (above) of Ellsworth, Me., heads the TRUST (Trieste U. S. Troops).

Moore. Its 5000 regular U. S. soldiers, selected from the now-depleted 88th Blue Devil Division, will be at the disposal of the new governor.

BRADFORD, the British counterpart to TRUST, has not yet been officially formed, nor have arrangements been made for the admission of Yugoslav and Italian troops.

Headquarters for General Moore's troops is the Castle of Miramare, built by the German Emperor Maximilian. It was selected, said one official, not for its comfort but to have an impressive place from which to fly the American flag.

The Stars and Stripes fly also on the Morgan line, part of which lies inside territory which will go to Yugoslavia on ratification day. In between, in the villages which are part of the free state-to-be, the country people fly the flag of Tito and have changed the names of their streets from Italian into Slovene.

Install Police

As Trieste awaits ratification of the treaty that made it a free territory, the Allied forces which still rule are training local authorities to carry on by themselves.

They have created the Venezia Giulia police force, which takes its name from the Italian province out of which the free state was carved by the Big Four Council. Trained by professional British and American officers serving in the Allied armies, the V. G. police are the best trained, most

compact and probably the smartest local force in Central Europe, according to Allied military men. The goal is 6000 men ready to serve the governor of the Free State when he is elected. Of the 5300 trained to date, 30 per cent are Slovene and the rest of Italian origin.

In the V. G. school on the outskirts of Trieste, commanded by a British major, recruits for the police force train for three to five months. Composed mainly of foot patrolmen, the force has small mobile and mounted sections. A small unit of police women recently was added.

Because the biggest troubles in post-war Trieste are clashes of patriotism, the V. G. police avoid contact with the civilian population during training.

The discipline and impartiality which has been drilled into them already has paid off. Even the AMG expected wide-spread violence and riots between pro-Yugoslavs and pro-Italians on May 1. The V. G. got its first big assignment on that day, and showed they could keep the peace.

Planes take only a hundredth part of the time to cross the Atlantic that Columbus did.

Most Municipalities Do Their Own Paving

ABILENE—(P)—According to men who should know—city managers—most state cities are doing their own street paving instead of letting contractors.

The matter came up at the annual meeting of the Texas City Managers Association in Abilene recently.

In a discussion session, the group pointed out that most municipalities sponsor such work themselves not only as a means of saving money but because many contractors are not interested in city work.

The city managers said that there is much state work available and many paving contractors are not interested in smaller city jobs since state and federal work is paid in cash while municipalities must handle city warrants in payment.
