Rodeo Fever Grips All Midland

Wallace Says He 'May Not' Favor Truman

RALEIGH, N. C.—(AP)—Henry Wallace, asked at a press conference Thursday if he would support President Truman for reelection, hesitated and said: "That depends on—I would say, no."

The former vice president is to make an address here Thursday night and the press conference this morning was held at the home of Josephus Daniels, publisher of the Raleigh News and Observer and a former cabinet member.

Explaining his answer to the question, Wallace said his support of the Democratic Party in the 1948 election depended on whether it is a "war party" at that time.

Asked if he would support the Republican Party, Wallace said: "I can't imagine myself campaigning for a Republican under any circumstances."

He then modified this statement by saying that he might make a slight reservation about applying this to Harold E. Stassen, the former governor of Minnesota, and Oregon's Republican Senator Wayne Morse. He said he had great esteem for Stassen and Morse.

"Miss Odessa" At Midland Rodeo

"Miss Odessa" at the 12th Annual World Championship Midland Rodeo is Maurine Douthitt, Ector County cowgirl. Miss Douthitt will be among the 40 cowgirl sponsors from four southwestern states appearing at each of the five rodeo performances, starting Thursday night, at the plant of Midland Fair, Inc.

Weatherford Bank Robber Is Captured

FORT WORTH—(AP)—James Clifford Wheeler, 26, sandy-haired conditionally pardoned Texas convict, walked into the arms of three Fort Worth detectives at 7:30 a. m. Thursday, his pockets crammed with \$2,950 taken from the Citizens National Bank of Weatherford in a lone-wolf robbery shortly after noon Wednesday.

Police Chief R. E. Dystart said Wheeler had made a full confession.

Wheeler had broken through a cordon of federal, state and local officers "beating the bush" around Weatherford Wednesday night.

Wheeler is a former resident of Midland, where he worked with a construction company.

Had he stayed clear of trouble three weeks longer, he would have escaped jurisdiction of the board of pardons and paroles. His conditional pardon Nov. 22, 1946, would have been up June 29, 1947. The board now must revoke the pardon.

Thirty-Three Cowgirls Competing For Prizes In Rodeo This Year

Thirty-three cowgirls, toast of western ranges and pretty as a load of yearling heifers in knee-high clover, are competing in the Cowgirls Sponsors' Contest of the 12th Annual Midland Rodeo, the Midland Chamber of Commerce announced Thursday.

Hand-picked beauties mounted on the best horses their respective backers could find, the girls will vie for prizes valued in excess of \$1250. At each of the five performances of the rodeo they will demonstrate their horsemanship and charms, because judges making the winners' awards are instructed to consider personal appearance as well as riding ability of the contestants.

Commissioner Murray Declares Oil Industry Centers Attention On West Texas And Permian Basin

William J. (Bill) Murray, Jr., Texas Railroad Commission member, who is in Midland to attend the opening performances of Midland Rodeo, said Thursday, "The attention of the nation's oil industry is centered on West Texas, the only area of the nation which effectively can produce more oil than it now is producing."

"The demand for oil is exceptionally high, and increasing rapidly, and we are producing oil at a higher rate than in peace time. West Texas, with its huge reserves and with its many new discoveries, assumes national significance in meeting the oil demands of the nation." He added he is interested in the progress of West Texas and the Permian Basin and he is following closely the rapid development of the area.

Murray, with his wife and two daughters, six-year-old Jo Anna, and Marsha, age three, arrived here Wednesday night. The Murrrays have a five-month-old daughter who did not make the trip.

Chief Engineer Here

The commissioner was scheduled to ride in the rodeo parade at 4 p. m. Thursday. He and his family will attend as honor guests the opening performance of Midland Rodeo Thursday night. He attended the Midland-Odessa baseball game here Wednesday night.

Jack K. Baumel, chief engineer for the Railroad Commission, accompanied the Murrrays to Midland. He and Murray will visit the Yates Field in Pecos County Friday to meet with engineers of that field.

A buffet dinner given by the Petroleum Committee of the Midland Chamber of Commerce, in the Crystal Ballroom of the Scharbauer Hotel at 5:30 p. m. Thursday will honor Mr. and Mrs. Murray, Baumel and railroad commission personnel of the Permian Basin area, and their wives.

JayCees Wear Rodeo Shirts

Whoopie! Midland JayCees are all dressed up for the rodeo with new shirts.

Official shirts of the Midland Junior Chamber of Commerce arrived in time for this year's event.

The shirts are western style, buff and maroon, with name of the wearers stitched on and "Midland, Texas, JayCees."

TORNADO HITS TWITTY

TWITTY—(AP)—A small tornado struck this community in the Eastern Texas Panhandle Wednesday evening and damaged several cotton warehouses and homes, but caused no injuries. A moderate hail and rain storm accompanied the tornado. Heavy hail damage was reported at Shamrock, seven miles South.

Welcome Rodeo Visitors! Chas. A. Haynes Co. invites an early visit to their new, modern department store. —Adv.

Milling Crowds Garbed In Colorful Togs, Herald Opening Of Annual Event

By STANLEY FRANK

As the day of the opening of Midland's 12th Annual Rodeo dawned Thursday, the city's annual attack of rodeo fever took on the proportions of a full-grown epidemic. The whole populace broke out with it, and everybody was delighted. Nowhere else does the malady cause such high temperatures or make its victims feel so young and gay.

Legislature In Spending Splurge In Final Hours

AUSTIN—(AP)—A last-minute splurge of spending by the Senate left the dying 50th Legislature faced squarely Thursday with the issue of deficit financing.

Whether or not the Administration's carefully nurtured plans to keep appropriations and anticipated revenue in balance will upset on the red side is expected to furnish plenty of fuel for a fiery finish to the 50th session. It ends at noon Friday.

The Senate's spending splurge late Wednesday night came at the end of the session's longest legislative day during which the House joined the Senate in voting final approval of a plan designed to guarantee redistricting of the state for lawmaking representation every 10 years.

First Since 1921

It was the first time since 1921 any legislature had taken positive action on the issue. It was rated by many as the major accomplishment of the session in that it affects every citizen in the state.

What the Senate did was to vote final passage on a \$30,000,000 rural road appropriation, sending it to the House, and to advance other money bills making up a total of nearly \$32,000,000. Whether there are enough votes and enough time remaining to the 50th session to put the state back in the black remains to be seen.

None of the measures approved at the midnight meeting of the Senate is ready to go to the governor. The Senate had trimmed the soil conservation bill passed by the House from \$3,000,000 to \$1,500,000 and it must return to the House for concurrence. The other last-minute measures go back to the house.

Weather

Rodeo weather: possible part clouds Thursday afternoon and night and Friday. Widely scattered thundershowers in West Texas. Not much change in temperature. Maximum temperature Wednesday was 95 degrees, minimum 75 degrees. Minimum Thursday morning in Midland was 72 degrees.

Truman Says Red Coup Is 'Outrage'

WASHINGTON—(AP)—President Truman Thursday denounced the Communist coup in Hungary as an outrage and asserted the United States does not intend to stand idly by in that situation.

He told a news conference the State Department right now is looking into the whole Hungarian affair.

A reporter said it has been suggested the United States is sometimes in the position of shaking its fist at Hungary and sometimes just shaking its finger. He inquired whether the United States intended to do something in the present situation and Truman replied it does not intend to stand idly by.

In response to another inquiry he said the Hungarian situation is terrible and reiterated the State Department is making a full investigation.

Balkan Federation?

Diplomatic authorities are speculating whether the Hungarian coup may be followed by steps to set up a Balkan federation of Soviet-dominated states in Eastern and Southern Europe.

Until last week, Hungary's non-Communist government was the sole break in an otherwise solid lineup of Moscow-controlled nations extending from the Baltic to the Adriatic seas.

Marshal Tito of Yugoslavia has been an outspoken advocate of a formal Balkan federation, and such a development now is being viewed here as a definite possibility.

Like the Hungarian overturn, it would be regarded as (1) a cold Moscow rejoinder to the American program of aid to Greece and Turkey and (2) a move to solidify the Soviet bloc before final ratification of the satellite peace treaties forces withdrawal of Red Army occupation forces.

Messersmith Mission Ends; Will Come Home

WASHINGTON—(AP)—President Truman said Thursday the mission of ambassador George S. Messersmith in Argentina has been successfully accomplished because the United States is now on friendly terms with Argentina.

He told a news conference Messersmith is returning to this country but has not resigned, Messersmith, Truman added, went to Argentina with the specific understanding he would return once his mission was complete.

All Concerned Were Guilty In Explosion

WASHINGTON—(AP)—A Senate public lands subcommittee Thursday declared "use of explosives in a nonpermissible manner" was the immediate cause of the March 25 Centuria (Ch.) mine disaster which claimed 11 lives.

The committee said: "In summing up the responsibility, committee members found that almost everyone concerned was guilty of negligence to one degree or another—management, the miners, the mine workers' union, state bureau and federal bureaus."

MONAHANS OPERATOR TO DRILL WILDCAT

J. V. Massey and J. L. Tubb of Monahans have filed an application with the Railroad Commission of Texas for a permit to drill their No. 1 O. W. Williams estate, as a 2,500-foot wildcat, in North Pecos County, about eight miles north-east of Grandfalls, starting by June 15.

The prospector will be 330 feet from south and west lines of section 99 1/2, block 8, H&GN survey. It is on a farmout from The Plymouth Oil Company. That concern retained the deep rights on the lease.

The plat filed with the drilling application, shows that Shell Oil Company, Inc., has the south offset to the location. Sun Oil Company owns the west and southwest steepout locations. The project will be drilled with cable tools.

OUTPOST TO TAKE FIELD GETS REEF; HALING DST

Standard Oil Company of Texas and Humble Oil & Refining Company No. 1 Hunt, one quarter of a mile west of the initial producer from the Cisco lime of the Pennsylvania, in the Petersburg field in Southwest Hale County, and 600 feet from south and east lines of section 6, block CL, EL survey, was bottomed at 7,175 feet, in the reef line topped at 7,155 feet, on an elevation of 3,315 feet. The marker was picked from a Lane Wells survey.

According to some geologists, that put the top of the lime approximately 250 feet to the same point in the discovery well. Operator was preparing to run a drillstem test on the prospector at last report.

SUN IS TESTING ON TWO JAMESON FIELD OUTPOSTS

Sun Oil Company No. 1 W. I. Tubb, northwest flanker to the Jameson field, in North-Central Pecos County, and 600 feet from north and west lines of section 253 1/2, block E. L. Anthony survey, was bottomed at 6,300 feet in the crinoidal reef line, topped at 6,267 feet, on an elevation of 2,105 feet.

Operator tried a drillstem test to the current bottom. The packer failed. There was no test. Another attempt was being made to get such a test. This prospector is expected to be completed as a producer.

Sun No. 2 Allen Jameson, 3,200 feet from south and 1,980 feet from west lines of section 253, block 1-A, H&TC survey, and one half mile due north of the discovery well of the Jameson field, was bottomed at 6,510 feet, in the reef line, entered at 6,410 feet, on an elevation of 2,125 feet.

Some geologists correlate this prospector to be rather low on the lime, to the initial producer in the area.

A drillstem test was taken for one hour at 6,445-85 feet. Recovery was 65 feet of slightly oil cut drilling mud. Operator is now trying to run a test on the interval at 6,485-610 feet.

The report carried in this column Wednesday regarding Union Oil Company of California No. 1 McCutchen, Central Coke County wildcat being abandoned on total depth of 6,746 feet in the Ellenburger, was from officials of Union Oil Company. That exploration had slight shows of oil in the top of the Ellenburger, entered at 6,304 feet, with elevation of 1,921 feet.

The lower zone of the formation had salt water.

OHIO IS DRILLING AHEAD AT NE SCURRY PROJECT

The Ohio Oil Company No. 1-C Neal, Northeast Scurry County wildcat, about 18 miles northeast of Snyder, and in the R. N. Miller survey No. 1, abstract 868, was drilling ahead below 7,290 feet in Ellenburger line.

The project developed 14 barrels of salty, sulphur water in seven hours of swabbing on the zone at 7,224-90 feet. Operator was not able to recover any signs of possible oil or gas production from the formation, either before, or after the injection of acid.

SW ANDREWS PROSPECT IS MAKING MORE HOLE

The Pure Oil Company and Humble Oil & Refining Company No. 1 Cowden, wildcat on Southwest Andrews County—a short distance north of Devonian producers in the Dollar Hide field, and in section 24, block A-52, psi survey—which has indicated possibilities of commercial production from the Middle Permian, was drilling ahead. It had reached 7,092 feet, in dolomite. No recent drillstem tests have been attempted at the prospector. It is slated to continue to around 10,500 feet to explore the Ellenburger.

SHAFTER LAKE OUTPOST LOGS MORE SHOWS OF OIL

Guy Mabee Drilling Company No. 1 Shafter, north flanker to the Shafter Lake field, in North-Central Andrews County, and 600 feet from south and east lines of section 10, block A-36, psi survey, had reached 4,367 feet in lime, which was showing some signs of oil, and was drilling ahead.

Midland Rotarians Entertain Cowgirls

Midland Rotarians, at their luncheon Thursday noon in the Scharbauer Hotel, entertained cowgirl sponsors here for the 1947 Midland Rodeo, which opens Thursday night.

Delbert Downing introduced the cowgirls and other guests at the meeting. Hank Avery was program chairman and R. L. Miller, president of the club, presided.

Haele Miekiff, Midland hostess for the cowgirl sponsors, was with the group. Downing also introduced Leonard Proctor, president of Midland Fair, Inc., Everett Colborn, of the World Championship Rodeo Association, J. Homer Epley, secretary of Midland Fair, Inc., Lon Tyson, chairman of the sponsors committee, Clarence Scharbauer, rodeo committeeman, Roy Parks, a director and former president of Midland Fair, Inc., and J. W. Fulkerson, clown, George Mills, clown and bull fighter, and Abe Lefton, rodeo announcer.

SUSPECT ARRESTED IN HONEY GROVE CASE

SHERMAN—(AP)—Woodrow Pritchett, 25, was arrested at Thalia, 25 miles south of Vernon, late Wednesday in connection with an attack upon mayor Dick Self of Honey Grove last Thursday.

Arrested by Sheriff Dick Wait of Fannin county and Texas ranger R. L. Badgett of Bonham and other officers while plowing in a field, Pritchett was placed in jail at Bonham on a charge of assault with intent to murder.

Mayor Self, in a Sherman hospital with a fractured skull, was reported improved Thursday.

Truman Takes Heated Issue With Taft Over U. S. Economic Policy

WASHINGTON—(AP)—President Truman Thursday said Senator Taft (R-Ohio) has advocated "fallacious and dangerous" procedure on the economic front.

Truman made this statement at a news conference at which he announced the appointment of former Gov. Dwight D. Griswold of Nebraska to be chief of the United States mission to Greece under the \$400,000,000 Greek-Turkish aid bill.

At the same time, he appointed Richard E. Allen to administer the \$350,000,000 relief program for other European countries.

In a lengthy prepared statement, Truman took issue with Taft's recent statement "apparently the President and the Administration are abandoning talk of keeping prices down in favor of heavy spending abroad that will keep them up."

Truman said: "Senator Taft's argument that high demand justifies or necessitates high prices is fallacious and dangerous. It is based upon the idea that prices should seek as high a level as the traffic will bear, rather than the lowest level that is consistent with fair profits.

"That kind of practice is indefensible, and in the long run it would destroy both prosperity and profits."

Truman said Taft contended the

Commissioner Murray Declares Oil Industry Centers Attention On West Texas And Permian Basin

William J. (Bill) Murray, Jr., Texas Railroad Commission member, who is in Midland to attend the opening performances of Midland Rodeo, said Thursday, "The attention of the nation's oil industry is centered on West Texas, the only area of the nation which effectively can produce more oil than it now is producing."

"The demand for oil is exceptionally high, and increasing rapidly, and we are producing oil at a higher rate than in peace time. West Texas, with its huge reserves and with its many new discoveries, assumes national significance in meeting the oil demands of the nation." He added he is interested in the progress of West Texas and the Permian Basin and he is following closely the rapid development of the area.

Murray, with his wife and two daughters, six-year-old Jo Anna, and Marsha, age three, arrived here Wednesday night. The Murrrays have a five-month-old daughter who did not make the trip.

Chief Engineer Here

The commissioner was scheduled to ride in the rodeo parade at 4 p. m. Thursday. He and his family will attend as honor guests the opening performance of Midland Rodeo Thursday night. He attended the Midland-Odessa baseball game here Wednesday night.

Jack K. Baumel, chief engineer for the Railroad Commission, accompanied the Murrrays to Midland. He and Murray will visit the Yates Field in Pecos County Friday to meet with engineers of that field.

A buffet dinner given by the Petroleum Committee of the Midland Chamber of Commerce, in the Crystal Ballroom of the Scharbauer Hotel at 5:30 p. m. Thursday will honor Mr. and Mrs. Murray, Baumel and railroad commission personnel of the Permian Basin area, and their wives.

LATE NEWS FLASHES

WASHINGTON—(AP)—The Senate Thursday ratified the peace treaty with Italy, first of agreements with World War II enemy states to win its approval.

RUTLAND, VT.—(AP)—Fears of an outbreak of disease abated here Thursday as tank trucks carrying drinking water rolled into this city digging out all the wreckage of a flash flood which knocked out all utilities.

AUSTIN—(AP)—The House Appropriations Committee Thursday voted to recommend passage of a bill appropriating \$30,000,000 from the general revenue fund for construction of farm-to-market roads.

SYDNEY, AUSTRALIA—(AP)—Lt. Gen. Masao Baba, who as commander of the 37th Japanese Army ordered a death march in Borneo in 1945, was sentenced Thursday to the gallows.

AMRITSAR, PUNJAB, INDIA—(AP)—At least four persons were killed here Thursday in rioting among religious factions.

PARIS—(AP)—Bakery workers of the Paris region voted Thursday to end a token walkout which curtailed the capital's bread supply for three days. The workers accepted a government decree granting them a seven per cent increase in pay and a monthly bonus of 500 francs (about \$4).

WASHINGTON—(AP)—President Truman Thursday declared investigation of the alleged vote frauds in his Missouri home county should be carried through to its logical conclusion.

No one, the President told a news conference, wants to condone a vote fraud.

He made his comments when questioned about inquiries now underway at Kansas City into last summer's congressional primary.

A state court grand jury has indicted 71 persons. After the indictments were returned, a safe was blown and ballots figuring in the inquiry were stolen from the election board offices.

TEXAS FLIER KILLED
WASHINGTON—(AP)—Navy Lt. Donald Eugene Umphres, 25, of Phillips, Texas, was killed Wednesday when his P-60 plane crashed in Chesapeake Bay during a review before Marine Corps officers from Quantico, Va.

Rodeo visitors will find their heart's desire at Chas. A. Haynes Co. department store, 213 N. Main. —Adv.

How Midland Got Atop Of The League

By The Associated Press
 Midland topped Big Spring from the leadership of the Longhorn League Wednesday night by winning its seventeenth victory in the last nineteen games. Midland licked Odessa 6-3 while Big Spring was being taken into camp by fifth-place Vernon 13-2. In the other game of the night, Sweetwater tromped on Ballinger 11-8. Vernon, in trouncing Big Spring, romped in with 10 runs in the third inning.

Electronics Unit Discussed, Barbecue Planned At RONS Meet

Plans were discussed for an electronics unit in Midland and final preparations for a barbecue to be Friday were made at the meeting of the Reserve Officers of the Navy Tuesday in the district courtroom. The meeting was directed by Phil Yeckel, vice president. The barbecue will be held at 7:30 p. m. Friday at Cloverdale Park for all members of the RONS, their wives and dates. Four new members attended the meeting. They were J. R. Story, James L. Crittenden, Pete Pederson and John B. Barber. There were 22 members present.

Texas Today

By JACK RUTLEDGE
 Associated Press Staff

So many students are graduating this year that a shortage developed in sheepskin.

President H. W. Stilwell of Texarkana College said diplomas issued there were printed on high grade paper. It was, he said, the first time in the history of the school that diplomas were not on genuine sheepskin.

Inflation has hit the folding money field, Corpus Christi bank tellers decided when a \$10,000 bill showed up.

A bill that size is rare. It's the largest denomination issued by the government. It can be obtained only through a Federal Reserve Bank. If, for some strange reason, a person wants a \$10,000 bill he has to go to a lot of trouble.

Banks do not normally keep them on hand. They requisition them from a branch of the Federal Reserve.

L. B. Dunn, assistant cashier of the Corpus Christi National Bank, said he couldn't remember when he had received such a bill before. Dunn said it was received as a deposit from a large firm.

And speaking of checks, Briscoe Wilder, manager of the Harlingen retail credit bureau, said checks are bouncing more easily nowadays than they did during the war. He said the average man obviously has less ready cash these postwar days.

He said the out-and-out hot check and the "warm" check, the one marked insufficient funds, are increasing in number.

Getting hot? The Texas engineering experiment station, College Station, has a free bulletin on how to get maximum effect from electric fans.

White shirts no longer are scarce, the Paris News found.

A reporter counted the white shirts worn by men sitting on counter stools getting their morning coffee. Every one was white.

RECORD NUMBER PENSIONS FOR OLD AGED IN JUNE

AUSTIN—(P)—A record number of persons will receive old age assistance checks during June totaling \$5,636,907, the State Department of Public Welfare announced Thursday.

John H. Winters, executive director, said checks were being mailed to 194,848 aged and dependent persons, a net increase of 806 over May. Average checks will be \$28.93.

Theater In Search For Lead In New Play Production

At noon Thursday the search for a "Corliss Archer" to be in the Community Theater play of "Kiss and Tell" was still on. In spite of a record attendance at Community Theater's "Kiss and Tell" try-outs, half of the play's 15 roles remain uncast, it was announced today.

A total of 36 Midlanders have read for roles in the comedy of Corliss Archer and her family, with teen-agers filling most of try-out chairs in the City-County Auditorium Wednesday night. The casting committee found it difficult to fill many of the play's parts, and seven roles still remained open today.

The parts yet to be cast are: Mr. Willard, sixty-five year old house-painter; Corliss Archer, going on 16; Private Earhart, a guest in the Archer house; Lenny Archer, 21 and Corliss' brother; Bill Franklin, the Archer's neighbor; Robert Pringle, father of Mildred Pringle.

The casting committee selected the following people for roles in "Kiss and Tell": Jim McGraw for the part of Raymond Pringle; Louise Showalter as Mary Franklin; Mary Fern Bray as Mildred Pringle; Lew Hoey for Dexter Franklin; Dorothy Gates as Mrs. Archer; Don McKibben as Mr. Archer; Joe Seymour as Uncle George; Fran Schneider for the role of Mrs. Dorothy Pringle; and Helen Manning as Louise.

These people were notified by telephone and rehearsals will start Thursday evening.

Though there will be no more public try-out readings, anyone interested in one of the roles still open is urged to contact Art Cole at the City-County Auditorium, phone 1082, or a member of the casting committee: Mrs. Boaz Hoskins, Mrs. R. E. Roark, or Norris Creath.

LIVESTOCK

OES Officers Honor Worthy Matron, Patron

Officers of the Midland Chapter of the Order of the Eastern Star honored the worthy matron, Mrs. Bernard Collins, and worthy patron, Mahlon Alcorn, with a dinner Wednesday evening in the private dining room of the Scharbauer Hotel.

Mrs. John Cuvelier was mistress of ceremonies. A program was presented which opened with a piano solo, "The Bells of Saint Mary" by Glynda Hambleton, who also furnished incidental piano music throughout the dinner.

Mrs. Wayne Campbell gave a talk on "Friendship", the OES theme for the year.

Mrs. J. B. McCoy gave a piano logue, "The End of a Perfect Year." The color theme for the year of red and white was featured in decorations. Red roses, white sweetpeas and white daisies centered the table.

Luncheon Compliments Joyce West Of Ozona

Joyce West of Ozona, who is a house guest of Mrs. Walt Goodman, 615 West Texas Avenue, was complimented with a luncheon Thursday in the Ranch House.

Miss West, daughter of Mr. and Mrs. Massey West of Ozona, arrived in Midland Wednesday.

A rodeo theme was featured in luncheon decorations.

Guests were Mrs. Gerald Nobles, Mrs. Ben Black, Mrs. H. L. Goodman and Edith Wemple.

Mr. and Mrs. Massey West and Mr. and Mrs. Boyd Clayton, also of Ozona, will arrive in Midland for the weekend rodeo events.

MEETING POSTPONED

The regular meeting of the Western Clinic-Hospital staff, which was scheduled Thursday evening, has been postponed until next Thursday because of the rodeo.

GO TO LUBBOCK

Mrs. Ben Gray and Mrs. S. H. Hudkins left Midland Wednesday for Lubbock where Mrs. Gray will undergo surgery in the Lubbock Memorial Hospital, Thursday.

Red Blood Cells Must Be Kept Up If You Want To Feel Alive

Thousands Now Regaining Old Time Pep, Vigor and Drive By Releasing Vibrant Energy To Every Muscle, Fibre, Cell

Overwork, undue worry, and lack of certain foods often reduces the red-blood strength—and starved, weak, puny blood just hasn't the power to keep up your energy and drive.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

Red Cross Seeks Boys And Girls To Attend Area Aquatic School

Wanted—two boys and two girls, over 18 years of age, to attend the Red Cross aquatic school to be held in Big Spring, June 9-20.

The Midland Red Cross unit is anxious to have four Midlanders take the training course in Big Spring so they can conduct aquatic classes here later this year. All expenses will be paid by the Red Cross Chapter, A. N. Griffith said. Persons interested in attending the Big Spring school are asked to contact Griffith at 2270.

Persons attending the training school will qualify as Red Cross life savers or water instructors.

Bible Class Meets In Stacy Allen Home

Wesley Bible Class members of the First Methodist Church met Tuesday in the home of Mrs. Stacy Allen.

In connection with the meeting the class honored Mrs. M. J. Allen, who will observe her birthday soon.

The meeting was opened by the president, Mrs. L. C. Stephenson. Mrs. M. D. Johnson gave the devotional from the 18th chapter of John, read a poem from "The Upper Room" and led in prayer.

Two poems, "A Christian Life" and "Is This A Worthy End" were read by Irene Bailey.

The meeting closed with the Lord's prayer repeated in unison. Mrs. Allen, assisted by Mrs. Mollie McCormick and Mrs. Stephenson, served refreshments.

Others present were Mrs. Emma Allen Bailey, Mrs. W. A. Black, Mrs. Minnie Crumley, Mrs. J. M. Hughes, Mrs. Amelia Hawkins, Mrs. H. S. Merrill, Mrs. J. M. Nolan, Mrs. E. B. Patterson, Mrs. Mary Lou Snodgrass, Mrs. F. H. Wilmoth, Mrs. Zara Chilton, Mrs. John Ficke and Mrs. Harris, Mrs. M. J. Allen's nurse.

Midland B&PW Members Leave For Convention, Two Go On Mexico Tour

Mrs. J. B. McCoy, Cordelia Taylor, Laura Jesse, Fannie Bess Taylor, Mrs. J. W. Christian, Mrs. Neta Stovall and Betty Kurfess will leave Friday for San Antonio where they will attend the Business and Professional Women's State convention, June 6-8.

On Sunday following the close of the convention, Mrs. McCoy and Cordelia Taylor will join 60 other Texas B&PW women for a two-week B&PW goodwill tour to Mexico. Mexico City will be headquarters for the tour. The group will return to San Antonio June 21.

RETURN TO MIDLAND

Mr. and Mrs. Tom Wingo, 602 South Main Street, have returned from Clinton, Miss., where they attended the commencement exercises at Mississippi College, June 1 and 2. Their daughter, Mrs. Sam Cochran, and son-in-law, Mr. Cochran, received Bachelor of Arts degrees. Mrs. Cochran returned to Midland for a visit with her parents and brother, Lewis Wingo.

JOB FOR BOY CALLING 'EXTRA'

NEW YORK—(AP)—One of the big needs in radio, says "Electronics" Magazine, is some gadget to give notice, when the radio set is turned off, that some big news announcement or televised show is coming up. It doesn't suggest any invention, but says "a gadget consuming five watts, the same as an electric clock, might just do the trick," operating all the time as a kind of alarm clock.

Japan Learns To Add Her Own Statistics

TOKYO—After all these years, the Japanese finally are going to learn how to use the mountains of statistics they have collected.

The first step will be to learn how to add.

A special statistical mission to Allied Headquarters emerged from a three months' study of Japan's national bookkeeping and recommended that detailed courses in statistics be given in Japanese schools.

Japanese officials collect information on everything. But no two government departments ever reach the same totals. Japanese agencies cannot even determine accurately how big a rice crop will be.

Someone always slips a thumb on his abacus.

KLEENITE the Brushless Way

Get KLEENITE today at Palace Drug store, City Drug store and all good druggists.

Convicted Of Fraud, Negroes Deed Land To Church, Lawyers

BROWNSVILLE — (P) — Mathes H. Coleman and his wife Ruth, negro operators of the Santa Rosa Orphanage, have deeded the institution to the Catholic Church, but the most Rev. E. B. Ledvina, bishop of Corpus Christi, says the gift will be turned down.

The Colemans, convicted in federal court here last week on a mail fraud indictment growing out of their solicitation of funds for the orphanage, transferred the property to Bishop Ledvina in a deed filed with the Cameron County clerk here.

The Colemans also filed a deed in trust in favor of Fred B. Wagner, trustee for Ronald Smallwood, Fairling, who was a member of defense counsel during the couple's trial. The deed involves nine tracts of land and stipulates that the land was mortgaged as collateral for two promissory notes due June 2, 1948, and June 2, 1949, made to Smallwood in amounts of \$6,000 each for legal services.

A deed of trust also was filed by the Colemans in favor of Jack K. Ayers, trustee for former Gov. James V. Allred, chief defense counsel.

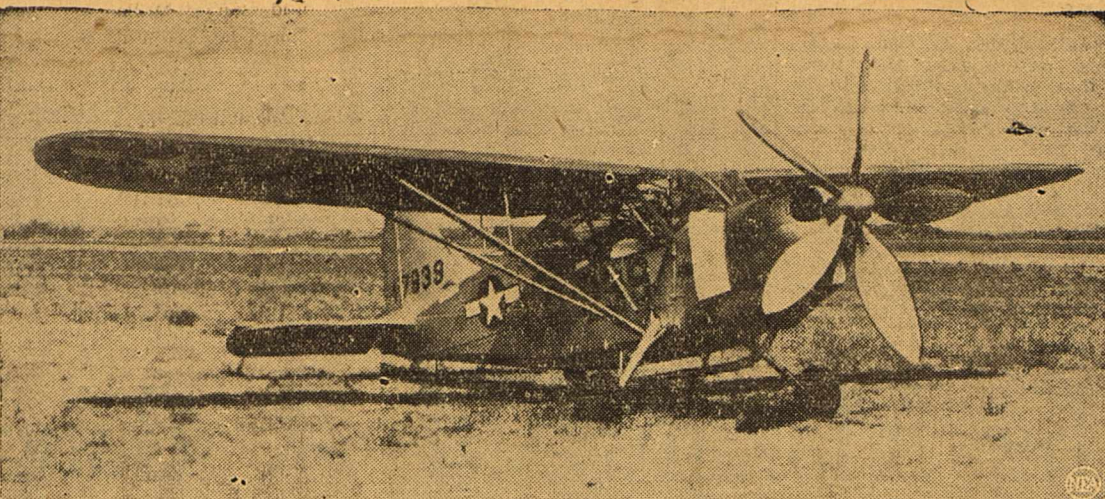

The deed involved 60 acres of land as collateral for a \$4,500 note, due Sept. 5, 1947, with six per cent interest.

GRADUATES AT NTSTC

Miss Martha Jane Preston who recently received her degree at the North Texas State Teachers College, Denton, has returned to Midland. She is the daughter of Mr. and Mrs. Bob Preston. Accompanying Miss Preston to Midland for a visit is Miss Ann Darcy of Grape-land, Texas.

Earliest known life insurance policy was issued in 1583.

Army Shows It's New 'Silent' Plane

The oddly-propellered craft above is reported by the Army to be the world's first silent airplane. Designated the Stinson 1-5, it was unveiled at the laboratory of the National Advisory Committee for Aeronautics, Langley Field, Va. Propeller with five broad blades, driven at 1000 rpm by an engine geared down by a ratio of 2.8 to 1 replaces the standard two-blade propeller. Reduction in tip speed is most responsible for eliminating noise.

Oil Industry Growth To Require Millions

CHICAGO — (P) — Robert Wilson, chairman of Standard Oil Company (Indiana), told stockholders at the company's annual meeting that "the petroleum industry needs to spend about three billion dollars on new facilities and improvements every year for some years ahead."

Such an expenditure would be "nearly three times the average expended during the past decade," Mr. Wilson said.

"To secure the great amount of money needed to maintain its ability to meet the public demand, the industry needs both lower taxes and higher earnings without corresponding increases in dividends," Wilson declared.

Bear Is No Road Hog, He Just Wants Out

BELTON, MONT. — (P) — It wasn't so bad when a big black bear climbed into Art Anderson's empty automobile while Anderson was helping clear snow from a Glacier National Park highway.

The trouble started when the animal slammed the door and then tried to get out. The door catch from the inside was too much for the bruin so he literally tore his way out, destroying the upholstery and considerable glass.

CAR IS STOLEN

Odessa police reported to Midland police Wednesday the theft of an automobile in that city.

TALL FISH STORIES GROW IN AUSTRALIA

SYDNEY, AUSTRALIA — (P) — When a fisherman came home recently with a beer glass he told his wife he had caught it while fishing. A small octopus had its head wedged into it, he said, and he caught the octopus.

His story recalled one told some years ago by professional fishermen who said they found a full bottle of beer in the stomach of a shark. It was not claimed that the shark used the glass in consuming the beer.

COTTON

NEW YORK — (P) — Noon cotton prices Thursday were 5 to 70 cents a bale higher than the previous close. July 34.88 Oct. 29.97, and Dec. 29.10.

Missing Paintings Are Returned To Dutch

BERLIN — (P) — Richard F. Howard said that Dutch thoroughness in keeping art records had enabled Allied investigators to trace to American Military Government Headquarters six paintings which the Nazis took from Holland during the occupation.

Howard heads the A. M. G.'s Monument, Fine Arts, and Archives section.

The six paintings, valued at \$6,640, were removed May 24 from the walls in the offices of Gen. Lucius D. Clay and his Deputy, Maj. Gen. Frank A. Keating. The paintings in General Keating's room were replaced by four small landscapes from a secretary's office.

"They aren't even originals, so there can be no mistake this time," an American official said.

The six paintings, which belong to the Netherlands, will be turned over to the Netherlands restitution authorities attached to the Dutch military mission here.

Maryland's Governor Bans Fancy Monickers

ANNAPOLIS, MD. — (P) — Maryland Governor William Preston Lane, Jr., startled everyone at a recent hearing when he cut through sonorous etiquette—replete with "your excellency" this and "you excellency" that—to declare, "Every time I hear that title I cringe." To prevent his becoming the Free State's cringing governor, speakers then experimented with "your honor" and "Mister Governor," but nobody felt happy over this, either.

Finally, his Excell—Gov. Lane came up with the solution: "Just call me governor," he said. "They call me governor in the constitution, and if it's good enough for the constitution, it's good enough for me."

Of the 92 chemical elements, 47 are found in the sea.

Presbyterians Urge Protection Of Rights

MONTREAT, N. C. —(AP)—The Presbyterian Church in the United States, winding up its 37th general assembly Tuesday, urged its local churches to protect civil liberties of "all kinds and classes of Americans."

Ending six days of deliberations here, the assembly adopted a report that in addition struck out at "all organizations and individuals... whose aim and purpose is to hinder any American minorities in the exercise of their civil rights."

Also in the report approved in the concluding four-hour session were provisions opposing governmental aid to private and church supported institutions and condemning "drinking scenes" in motion pictures.

Another issue which held an important place on the assembly's agenda—reunion with the North branch of the church—was referred to the presbyteries "for study and comment only."

Many Never Suspect Cause of Backaches

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning, sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

WE OFFER MOTORISTS

Ann Juan Apartments Under Construction Here; FHA Approved

FORT WORTH — Approval of another rental housing project in Midland for World War II veterans and their families was announced by E. T. Stearns, district director in the Fort Worth office of the Federal Housing Administration.

The apartments will be built by Houston Hill building contractor, as Midland Development Company, and will be financed by the Ryan Mortgage Company of Fort Worth, with a mortgage of \$72,000 to be insured by the FHA under Title VI of the National Housing Act. The apartments will be known as the Ann Juan Apartments, and will be located at the corner of Wall and D Streets. The project will provide eight three-room apartments and four four-room apartments.

This brings to seven the total of multi-family rental housing projects approved in the Fort Worth office under FHA's new Title VI. Stearns said. The seven will provide 324 new dwelling units to be financed with FHA insured mortgages which will total approximately \$2,500,000.

Houston Hill said Thursday construction of the building is well underway and will be completed by October 1. The apartment house will be owned and operated by Hill and Sheriff Ed Darnell. All apartments will be furnished.

The two-story structure will be built of brick and concrete, with asbestos roof. A light color brick will be used. A laundry building and parking lot will be provided. The tract will be landscaped when the building is finished.

Hill also announced construction will be started Monday on the Mrs. O. Eeles apartment house at the corner of Wall and G Streets in Midland. The building will be of similar design and construction as the Hill-Darnell project and will be erected under the same government program. The building will have eight dwelling units.

MIDLAND MAN SERVES ABOARD NAVY CARRIER

Lieut. Daniel W. Graham, USNR, of Midland, is serving aboard the USS Wright, the Navy's newest aircraft carrier, which is acting as a training ship for Naval aviators at the Naval Air Training Base, Pensacola, Fla. Lieutenant Graham's wife, Mrs. Dorothy K. Graham, resides in Midland.

Winkler County Tax Valuations 37 Million-Plus

KERMIT — Tax valuations of Winkler County were boosted approximately \$6,000,000, recently when the county commissioners court, as a tax equalization board, met and set county tax valuations at \$37,000,000-plus. Valuations the past year have been \$31,000,000-plus. The increase came mainly from stepped-up activities in the petroleum industry, with the major increase reported from the multi-pay Keystone Field, five miles northeast of here.

A comparative report, covering the period of Jan. 1, 1946, to Jan. 1, 1947, shows 135 wells, from five horizons, in the Keystone alone during the past year. Fourteen new producers were reported from two pay zones in the Wheeler Field, in the southeast part of the county. Over-all increase in wells in the county during the year was 89 wells, with a 34,696 allowable increase in production.

Total number of producing wells in the county was 2,174 last January 1, with a total allowable of 97,495 barrels, as compared with 2,085 wells on January 1, 1946, with an allowable of 62,799 barrels.

NAVY HONORS TEXANS

ANNAPOLIS, MD. — (AP)—Richard W. Bass, Jr., Denton, was awarded the superintendent's leadership commendation at the brigade parade of the United States Naval Academy. William H. Flynn, Jr., Harlingen, was given the class of 1938 watch for junior varsity football.

Planes Drop Salt To Montana's Elk Land

HELENA, MONT. —(AP)—The Montana Fish and Game Department again is "salt bombing" elk herds in several mountainous areas.

The department is satisfied that dropping of salt blocks from planes into the almost inaccessible high country serves to keep the herds in the higher altitudes through the summer months, saving the lower range for winter feeding when heavy snows force the animals down.

STANFORD IS MEMBER OF ENGINEERING SOCIETY

Pat H. Stanford of the Avery-Stanford Company here has been enrolled as a junior of the American Society of Civil Engineers, it has been announced by Col. William N. Carey, executive secretary. The society, with a membership of approximately 22,000, is the oldest national engineering organization in the United States and has 66 local sections throughout the country.

Tribe Takes League Lead

By TANNER LAINE

Hustle, hustle and hustle have paid off. The Midland Indians are on top of the Longhorn League Thursday.

Wednesday night the Tribe beat the Odessa Oilers, 6 to 3, in what a ball game. At the same time the highly touted Big Spring Cubans were losing to Vernon.

Midland is one-half a game out in front.

Big Spring bolted out in front of the league early and held. Its many Cuban ball players were in full season form, having played all Winter in Cuba. This was an advantage for the Big Springers.

But the worm has turned. The versatile and hit-happy and never-give-up Indians have caught and passed them. The top bunting flies Thursday from the Indian wigwam. Congratulations, Indians, and Harold Webb.

They threw Webb out of the park Wednesday night but his boys went on to win before the largest crowd of the season, almost packing the stands.

All the issues were up. It was Midland and Odessa. The managers were hot after each other. Odessa had protested Midland's win the night before. Oh yes, it was a game to be watched. And many did.

Out Ahead Early

Midland got off ahead with one run in the first inning. This was walked in by E. Melillo when the sacks were full and Ramsdell drew a pass. Odessa caught up in the second with Pearce hitting and scoring Zigelman, who had walked. The Indians piled up four runs in the fourth. Henry Melillo hit a spanking double with the bases

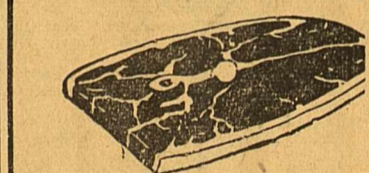

TWILIGHT TILT AT 5

The third game of the present Midland-Odessa series was scheduled at 5 p. m. Thursday in the Indians Park.

The game was made an afternoon encounter so as not to interfere with the rodeo.

It was to follow the annual parade, which officially opens the rodeo, as an attractive event of the gala rodeo time spirit.

Midland's Junior Chamber of Commerce sponsors the game and will draw a 10 per cent benefit from it, thanks to Harold Webb and his Indians.

loaded and he scored Nipp, Keon and Grove. Later in this frame, Eddie Melillo hit scoring Henry. And Midland got another tally to the fifth. Nipp hit scoring Ramsdell.

Odessa collected two runs in the seventh, Rice hit scoring Jakes and Roussos.

Lefty Grove pitched the win. He walked a lot of Oilers but he spaced their hits and kept them scattered. Keon continues to pelt the ball. Timely hits by Eddie and Henry Melillo helped a lot Wednesday night.

The Box Score:

ODESSA	AB	R	H	O	A
Pearce, ss	5	0	1	3	2
Jakes, lf	3	1	1	0	0

Melillo to H. Melillo to Prince. Losing pitcher—Boswell. Umpires—Holcomb and McClain. Time: 2:35.

Dowell And Jakes Win

Dowell Inc. beat Mackey Motors, 5 to 1, Wednesday night in city league softball. And it was a battle!

The JayCees were held in check until the last inning then burst and beat Rocky Ford, 19 to 3.

The Dowell-Mackey contest was a hot one. It was well played. Mackey had the bases loaded in the last of the sixth but failed to score. Dopey Crow and Dunlap had a pitcher's duel. Crow struck out nine and Dunlap eight.

Worley of the Rocks had the JayCees cuffed until the very last inning then everything broke loose. Dub Wise hit a home run for Rocky Ford and Jay Hart and Russ Holster collected four-trippers for the Jakes.

MAJOR LEAGUES

Injuries Plague Major Leaguers; Cubs Lick Giants

By The Associated Press
Injuries that first week in June may have been the turning point of the campaign for the major baseball league 1947 race winners.

In the past few days the Detroit Tigers and Boston Red Sox in the American League and the Brooklyn Dodgers and Chicago Cubs in the National have been crippled by injuries which might prove damaging to their pennant aspirations.

On the playing end, the Cubs handed the Giants their first shut-out defeat of the season 6-0.

The Dodgers, led by Peeewe Reese, who hit a grand slam home run, whipped the Pirates 9-4. Detroit retained its two game lead in the American league by dividing a double header with the Yankees, losing the opener 6-2, and winning the nightcap 7-8.

Bobby Feller won his first game since May 8 when he pitched the Indians to a 6-2 victory over Washington.

The Boston Braves defeated the Redbirds 3-1.

Home runs by Ted Williams and Sam Mele, gave the Boston Red Sox a 5-2 victory over the Browns in St. Louis.

Ken Heintzelman pitched the Phillies to a 9-2 win over the Cincinnati Reds.

The Philadelphia Athletics pounded across seven runs in the top of the 11th to whip the White Sox in Chicago 10-3.

Houston's Buffs Come Back At Top Speed

By The Associated Press
The Houston Buffs had the combination of power at the plate and strong pitching which boosted them into first place as they defeated the Tulsa Oilers Wednesday night, 11-0.

The Buffs snapped out of a bad batting slump by pounding out 17 hits. First baseman Johnny Hernandez and Right Fielder Vaughn Hazen lead the attack, each getting three hits in five trips to the plate. One of Hernandez's hits was a home run.

Clarence Beers gave up five hits, allowing no two to fall in the same inning. The win was his eighth of the season and fourth shutout.

In other Texas League games Shreveport defeated Dallas, 5-3, Fort Worth downed Beaumont, 3-2, and San Antonio beat Oklahoma City, 8-3.

Cafe Owner Doubles In Chasing Blazes

CHICAGO—(P)—Sam Holander runs a luncheon, but his favorite pastime is eating smoke.

When the announcement of a big blaze comes over the air from the police broadcasting station, Sam grabs an ax, helmet, boots, rubber coat, special fire department pass and bolts out.

"I'm a fire buff," he explains. "In addition to the radio in the luncheon, I keep five at home. One in my bedroom stays on all night. I have trained myself to hear calls in my sleep."

Besides helping the professional flame fighters, Holander takes movies of the fires, and later shows them to the firemen at their stations.

United Nations' Plan For Asian Economics Outlined By Group

LAKE SUCCESS, N. Y.—A major step toward actual functioning of a United Nations Economic Commission for Asia and the Far East will be taken on July 7 with convocation of the group to formally draft its program.

Results of this session will be communicated to the parent Economic and Social Council, meeting later in July, and thence to the fall meeting of the General Assembly for final approval.

Meanwhile the commission will get a head start on the task of collecting information when it goes into session June 16 in Shanghai. Representatives meeting in China will concentrate on examining first hand the reconstruction needs of the entire area.

Initially, the scope of the investigation will cover British North Borneo, Brunel Ceylon, China, India, the Indo-Chinese federation, Hong Kong, Malayan Union and Singapore, the Netherlands Indies, the Philippines and Siam.

The agenda for the July meeting includes drafting of recommendations on (1) actual membership of the commission, (2) the geographical scope, and (3) final terms of reference (instructions).

Tentatively, the membership of the body includes Australia, China, France, India, Netherlands, the Philippines, Siam, Russia, Britain and the United States.

U. S. Food Exports In First Quarter Decline

WASHINGTON—(P)—Exports of food from this country during the first quarter of this year dropped \$35,400,000 under the first three months of 1947 compared with \$614,998,000 including Lend-Lease and UNRRA shipments, which have declined considerably in 1947.

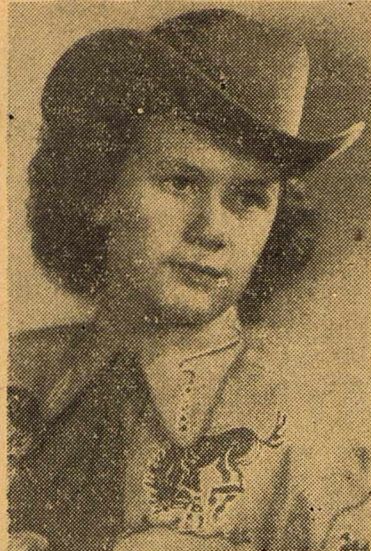

Total U. S. food imports during that period increased 36.7 per cent over the same period of 1946 and reached a value of \$421,094,000.

Foodstuffs recording the greatest increases in exports in the first quarter of 1947 compared with the corresponding 1946 period were grains, canned fruits, nuts, lard, dried eggs, and sugar. Decreases included canned meats, condensed milk, wheat and potatoes.

Largest increases in imports were recorded for coffee, cane sugar, cocoa beans, black pepper, fresh tomatoes and prepared coconut meat.

The annual consumption of oil in the United States is more than 500 gallons per capita.

Sponsor Entry

Judy Kyle of Anson will ride as "Miss Swann Ranch" in the popular Cowgirl Sponsor Contest at Midland Rodeo.

Researcher's Curiosity Over Scientific Failure Results In New Find

MANCHESTER, ENGLAND — A researcher's curiosity over science's failure to make one test in its long hunt for the nylon formula has been turned into the success of Terylene, a synthetic fabric.

The story of the development of the new silk-like material that can be laundered and ironed without special precautions has been revealed after six years of secret work by Dr. J. T. Dickson, 30-year-old chemist.

The "missing link" in the nylon chain from which Terylene was invented was terephthalic acid, says the British Information Services.

In 1940, J. R. Whinfield, research manager of the Calico Printers' Association at Accrington, in the heart of the Lancashire cotton country, was reading the technical report on the discovery of nylon. He read carefully the details of the 12 years' experiments by the American scientist, Dr. W. H. Carothers, to create an artificial substance that would be superior to real silk.

Whinfield noticed that, among the long detailed list of experiments which had failed before the successful formula was finally hit on, there was no mention of terephthalic acid having been tried.

This acid had been more or less neglected by physicists engaged in plastic research. But Whinfield had a theory that, like the acetates range, which had been neglected for years till they proved highly important in plastics, terephthalic acid might be a "missing link" in finding an even better synthetic substance.

Accordingly, he assigned four of his chemists to develop his idea. It was tall Dr. Dickson, then a 23-year-old graduate fresh from Edinburgh University, who was soon hottest on the trail. He found that a synthetic fiber he had created, using terephthalic acid and ethylene glycol, could resist a tremendous amount of heat. This indicated practical possibilities, and that it could be ironed.

There was a tense scene in the laboratory. At the crucial moment, a glass rod was dipped into the molten liquid and as the liquid streamed off the glass, it cooled into a strip of solid fiber. The scientists lifted it at either end and stretched it to five times its original length.

By 1944 it was being tested under every condition by a full-scale research staff at Imperial Chemical Industries. Today, hundreds of other chemists, technicians and engineers are working in textile plants all over Britain to put Terylene on the market.

Fabrics produced from Terylene resemble silk, but differ from either rayon or nylon. Exceedingly fine filaments can be made, as well as heavy coarse filaments.

It is expected to be available in forms other than fiber, such as film, extruded sections and molding powders.

Navy Builds Four War 'Birds' Of Six Kinds

By The Associated Press
POINT MUGU, CALIF.—The destructive "birds" with which the Navy is working are divided into six categories, both offensive and defense. Air-to-air, air-to-ship, air-to-ground, ship-to-air, ship-to-ship, and ship-to-ground.

Missiles are received from the factories at this station, tested and sent back for adjustment. Natural scientists, ordnancemen, and technicians spend thousands of man-hours experimenting with each missile.

One of the birds is the stub-winged and deadly loon, or KUV-1 buzz bomb, a modified form of the German V-1 buzz bomb. It is assisted in its launching from the ground with four rockets, incorporates radio control, has a speed in excess of 425 miles per hour, and is designed to give exceptional accuracy at a 100-mile range.

Another is Little Joe, a blunted anti-aircraft weapon for ship-to-air use. The Gargoyle is a chunky air-to-ground bird to be launched from a dive-bomber with a Jato power unit, which gives it a top speed of 700 miles per hour over a five-mile range.

The Gorgon is a slim air-to-air weapon carried by bombing planes to ward off attackers.

The most important coal forming age, the "Pennsylvania period," lasted at least 35 million years.

Japan Eats Sparrows, Insects Then Thrive

TOKYO—(P)—Because the Japanese "have been using even sparrows for food," a shortage of birds which normally destroy insects is endangering the hungry nation with further food scarcity, says Crosbie Morrison, Australian biologist.

"I would be inclined to believe that one of Japan's early problems will be the ravages of insects in food crops," Morrison declared after a five-week tour through southern Honshu.

Insecticides may help, he said—"that is if they don't kill off the insects still available to pollinate plants."

Ready-made curtains with selva edge of fabric showing will hang better if the selva is trimmed off and replaced with a narrow hem.

STOP WOBBLING, FEET! THE JUDGE IS LOOKIN'

LITTLE ROCK—(P)—A Little Rock woman came up with a new alibi when told she was being charged with intoxication after being picked up staggering along the street.

"I ain't drunk, mistah," she said. "You see my shoe laces done tore out and I can't help wobbling in these loose shoes." But she couldn't tell where she lived, either.

Looks Like Conscience Gets Prodded For Once

OKLAHOMA CITY—(P)—Fred Shaw, Oklahoma City postmaster, has received a lot of letters about the mail service, but this one is his prize.

"Dear sir: We are two little boys and we go to Culbertson School kindergarten. Yesterday on our way home from school we put mud in a mail box. We are not going to do it any more because it ruins other people's letters."

"Now we know better because the mail box belongs to the government and not to us. It is for all to use. We were not obeying the law. The next time we pass the box we will leave it alone. Bobby and John."

Before And After

These "before and after" pictures graphically show how completely the Pringle Body Shop, 807 East Florida Street in Midland, can repair a damaged automobile. As the top picture indicates, the car was practically demolished, at least on the front end. But, after Pringle's expert body mechanics and painters had worked on it, the car looked as it does in the lower photo—as good as new.

Gaines Radiator Shop To Be Open 24-Hours Daily

Many motorists who've been getting along just fine during cooler weather are suddenly discovering the old "buggy" tends to heat alarmingly since the arrival of summer. And that's where Homer Gaines, owner of Gaines Radiator Shop, 307 North Weatherford, comes in.

Homer knows about radiators. He knows new ones are exceedingly hard to get and that, even though the shortage isn't so bad as it was, it is best for the car owner to keep his old radiator and block clean and in good working order. Best of all, he is well able to help the motorist in this respect.

Machinery and trained mechanics necessary for the quick removal and cleaning of clogged-up radiators are available night and day at this Midland firm. During the summer months the shop is open 24 hours daily so that motorists will not be delayed longer than necessary by a non-circulating cooling system.

When your car heats, Homer advises, it is a very practical thing to have the block cleaned as well as the radiator. A cleaned-out radiator won't stay that way very long if water circulating through it is filled with rust and shale from the block. A new system of cleaning blocks enables Gaines Radiator Shop to make an automobile's entire cooling system as clean as the day it left the assembly line.

REMEMBER SABBATH FOR HALF AN HOUR

GRAYVILLE, ILL. —(AP)— For Sunday golfers, fishermen, gardeners and others, the Rev. E. P. Nay has started a special 30 minute Sabbath worship that begins at 7 a. m. The service includes two songs, a prayer and a sermonette. Attendance has increased from 19 to more than 100.

McNeal Paint And Supply Company Can Fill All Paint Needs

McNeal Paint and Supply Company, with offices at 503 North D Street in Midland, specializes in just about any type or quantity needed for a first-class job specifically designed for West Texas.

All paints handled by the firm are "climatized." That is, they are chemically constructed especially for West Texas' peculiar climate and therefore are longer lasting, more economical. Furthermore, the buyer can find at McNeal Paint and Supply Company exactly the color and type of paint or finish coats for steel or wood. A full line of paint needed for his particular job—whether he requires primer or finish paints at the store enables the painter to match any desired color. All paints sold by the firm are to match any desired color. All paints sold by the firm are unconditionally guaranteed and are priced no higher than paints of similar quality anywhere else.

Bean Wheel Balancer At Watkins Station

Among new equipment featured at Watkins Mobil Service Station, 321 East Wall in Midland, is a Bean wheel balancer.

Operated by trained employees, this machine detects the lack of balance present in practically all automobile wheels and tires and enables the operator to compensate for the condition, thereby increasing the safety, efficiency and comfort of your automobile.

Other services offered by the Midland station include top-quality wash and lubrication jobs, Magnolia products, and other automotive necessities such as tires, batteries, sparkplugs and general accessories.

REAL SKY PILOT WILL FLY TO JOB

MILES CITY, MONT.—(AP)—The Rev. Norval Heglund is to begin flying around his "sky parish" in northwestern South Dakota soon. He's the recently named-pastor of the Lemmon circuit air parish, sponsored by congregations in small and widely scattered towns of the area and by the Home Missions Board of the Evangelical church. He will fly from Lemmon to Perkins, Corson, Dewey, Armstrong and other communities.

Baker Oil Company Is Headquarters For Oil, Tires And Batteries

Wholesale and retail oil, tires and batteries—you'll find the quality and quantity you're seeking at Baker Oil Company, 1409 East Wall or 2110 West Wall.

Tires and batteries recently were scarce and costly, but the story already is changing. Richard D. Baker, owner of the company, reports. The company handles Kelly Springfield and Montgomery Ward tires and has in stock a large supply of all sizes. Moreover, prices have been substantially reduced.

Two lines of batteries are carried in stock by the company: Reliable and Montgomery Ward. These may be had in any size to fit all makes of cars and trucks.

Baker Oil Company is jobber here for several brands of motor oil. Pennsylvania oils carried in stock include Pennzoll, Feedol, Penn's Bee and Camel Penn. Midwestern oils include Diamond DX, Cosden Paraffine and Thermoil.

Japanese Raise Funds For Texas City

Members of the Kansai Industrial Workers' Union of Osaka, Japan, set up a booth to collect fund to send to victims of the Texas City blast disaster. The picture shows a Jap worker making his contribution. The fund was turned over to American authorities of SCAP. (NEA Telephoto)

Commodity Group Will Oppose Government 'Monopoly' Trading

WASHINGTON—(AP)—The National Association of Commodity Exchanges and Allied Trades, Inc., asserted tonight the American standard of living "is being sabotaged through international agreements and refusal of Federal agencies to end competition with private trades."

"Vigilance of Congress offers the only hope for early return to economic reason and a stabilized economy," J. A. Higgins, Jr., executive vice-president, declared. "Therefore, the Association has moved its headquarters from Chicago to Washington, where it 'is launching an intensive educational campaign in the interests of ending Government monopolies threatening to crush free markets at home and abroad."

Higgins said: "Red lights' halting movement toward a free economy are: 'By-passing of established marketing channels in Federal food buying for export; 'Efforts to discredit our traditional system of commodity trading; 'Disclosure that the proposed International Trade Organization charter would curtail freedom under our democratic framework; 'Government 'building' of the grain market and payment of above-market prices."

"Government 'building' of the grain market and payment of above-market prices."

Church Of Scotland Backs New Bible

EDINBURGH, SCOTLAND—(AP)—The General Assembly of the Church of Scotland has voted support for a new translation of the Bible into modern language. Representatives of other British churches were invited to join in consideration of the project.

The committee which recommends a new translation said all "archaic" expressions should be avoided, even to the extent of substituting "you" for "thou" except in prayers. A proposal that the translation be undertaken in conjunction with United States churches was defeated.

Last week leaders of the Church of England also voted to support publication of a Bible in present-day English.

Amphibious Maneuvers Will Be Held In Texas

WASHINGTON—(AP)—The second post-war amphibious maneuvers of the armed forces will be held near Galveston, Texas, in November.

Elements of the Army Ground and Air Forces, the Navy and the Marines will participate. Last year, the exercises were held off San Clemente Island, California.

Overall commander this year will be Gen. Jonathan M. Wainwright, commander of the Fourth Army. Navy men and ships will be from the Atlantic fleet commanded by W. H. P. Blandy. Rear Admiral R. O. Davis, amphibious forces commander for the Atlantic Fleet, will

be in charge of the amphibious phases.

A combat command "A" of the Second Armored Divisions at Camp Hood, Texas, is to be the principal ground unit.

Aircraft will come from the Navy, Marines and Army Air Force.

REBELS BLAST BRIDGE LINKING GREECE-TURKEY
ISTANBUL, TURKEY—(AP)—Railway service between Turkey and southern Greece will be out for perhaps two months because guerrillas destroyed a large bridge over the Maritsa River near Alexandropolis May 18, informed sources said.

Rubber Insurance

In World War II this nation, geared to an automobile economy, barely escaped disaster. We had been depending upon the Far East for most of our rubber. The Japs grabbed our sources—Malaya, The Netherlands and other East Indies. If they had not, we could have spared shipping only to bring the most critically needed minimum through 9,000 miles of submarine-infested Pacific.

We scraped by, badly handicapped, until by prodigious exertion we built a gigantic synthetic rubber industry. It cost us \$700,000,000.

The time is here when we must decide whether to leave ourselves open to a repetition of that emergency—to being cut off again from rubber sources, if there should be another world war involving the Pacific.

London experts predict that the Far East this year will produce between 1.2 and 1.5 million tons of natural rubber. That is considerably more than the world ever used before the war, and probably more than it can use today.

As a result, rubber prices have dropped, since futures trading resumed May 1, from 21.5 cents to about 16 cents a pound. This is about 2.5 cents under the government price for synthetic rubber, and the trend is still downward.

It costs at least three cents a pound less to process natural rubber than synthetic. So right now, manufacturers could save around 5.5 cents a pound by using all natural rubber in your tires.

Also, they could please you better. A vast majority of car owners prefer natural rubber—some on the basis of knowledge, others on prejudice.

Yet you can't get all natural rubber tires. Uncle Sam, at the moment, won't permit more than 23 per cent of natural rubber to go into tires. And most manufacturers—though they know your wishes, and want to please you, and would like to save 5.5 cents a pound on rubber—are worried what will happen if the government restriction is removed and they are left free to use natural rubber exclusively.

The paradox is not so hard to explain as it may seem. It rests upon two major grounds. One is the old economic force of competition. Between the two world wars, when there was no synthetic industry, the price of natural rubber ranged from less than three cents to \$1.21 a pound. Rubber companies feel that so long as this country has a healthy synthetic industry, the cost of natural rubber will be held within reason.

The other ground is the national need for insurance against what happened in World War II. The more far-seeing feel that we must keep our synthetic industry going, and improve both production and fabrication processes, so that we never again can be caught as we were in 1941.

It is high time Washington decides what we are going to do. And the decision won't be easy.

Plain Talk For The Germans

The German people, like all other European belligerents of the recent war, have been hit by the blight of hunger. But the defeated Germans have been making more fuss about it than anyone else. In moods varying from whining to belligerence, they have demanded to be fed.

James Newman, our military governor in Hesse, told them off in no uncertain terms. He pointed out, ours is the first conquering army in history which has undertaken to feed a people which it has conquered. If, in return, the Germans hoard, strike and refuse to co-operate, stern measures will be taken.

This is language they should understand. They have been overplaying the role of an innocent, betrayed people which only they believe. We shall feed them, not through love but through necessity. The sooner they realize this, accept it, and help themselves, the better it will be for all concerned.

New Millennium

The Veterans' Administration figures it will probably have World War II pensioners on its books until the year 2030. And suddenly we realize that the 1900s are almost half over, and that soon much of the world will start looking toward the 21st Century.

This looking ahead has been going on, of course, ever since man began dividing time arbitrarily into hundreds and fractions thereof. The view is challenging and promising to those who will see the turning point, and a bit sad for us actual or potential old duffers who won't. Those emotions are heightened when man begins a new millennium.

Early Christians were confident that the world would come to an end in 1000 A. D. They probably decided that man would have gone about as far as he could. We can sympathize with their feeling. A new thousand years may only be a trick of arithmetic, but they're an incompressible responsibility to those who start them, and a disappointment to those who will miss the start.

A spider's web has no commercial value, says a scientist. Just a bit too heavy, perhaps, for feminine apparel.

It's a break for his barber when a young man falls in love.

A Tennessee man celebrated his 103rd birthday. That's three soft years he has had.

Whether We Like It Or Not

Ford Promises \$1,000 Car When Public Wants It

DALLAS —(P)—Henry Ford II, president of the Ford Motor Company, said here recently when the public demands a \$1,000 car, Ford will produce it.

Ernest R. Breech, executive vice president, accompanying Ford on a tour of company plants, explained that such a car would not be the luxury-equipped quality car of today. He said customers demand quality and this, coupled with inflation, has boosted the price of cars above the old accepted levels.

Ford also said the new 1948 Ford cars which may be in production early in 1948, would be as different from today's model as the Model A was from the Model T.

Breech explained the new model

as "simply out of this world." He said changes would be radical both in engineering and in design. The Lincoln, for example, will have a completely new engine.

Ford said later in an address prepared for delivery at a testimonial luncheon given him by the Dallas Chamber of Commerce the "great objective these days" was to get back to the top of the low-priced automotive field.

"It is not going to be an easy job, but we are determined to get there," he said. "Most of all, we are getting ready for a buyer's market, though we don't know any more than the next fellow just where that market is going to appear."

Breech said the day of the \$1,000 car was gone for the present. He said today's cars, through customer demand, included many items which in the past were accessories and cost extra. He said today's car also weighed considerably more "and you pay by the pound."

From where I sit ... by Joe Marsh

How to Go to Sleep

We were sitting around Bill Webster's parlor Friday evening and the talk turned to the best way of overcoming sleeplessness... like breathing real slow and deep, imagining that you weigh a ton, or simply throwing away the pillow.

The consensus favored counting sheep. But right away was the question: what kind of sheep? There were some votes for countin' Merinos, Shropshires, Oxfords and Dorsets. Ed Mapes said he had best luck counting crossbreeds.

Finally, Bert Childers spoke up

with his formula: A light snack and a mellow glass of beer at bedtime. Sort of puts you in the mood for quiet thoughts and peace of mind. Lets you relax... and "ho hum," off to pleasant dreams!

From where I sit, there's nothing like a temperate glass of beer to smooth away the creases of the day, relax a body, and pave the way for a good night's sleep. Try it, and see if I'm not right.

Joe Marsh

Houston Maintains Leadership As Texas' Largest City; Dallas Next

By The Associated Press
Houston and Dallas, Texas' two largest cities, are running a population race although Houston remains the biggest lone star state city by a healthy margin.

When the last census was taken in 1940, Houston had a population of 384,514. Dallas at that time had 294,734.

Sales Management Magazine, a nationally-accepted authority on marketing statistics, estimated the population in 1947 for Houston at 480,000 and Dallas 466,300. Roughly, this would make Houston's percentage of increase since 1940 25 per cent, while Dallas has grown 58 per cent.

Figures, however, can be deceptive. Houston maintains its 480,000 population is the actual total within its city corporate limits, and its ABC city zone, or city and six immediate suburbs, today contains 623,000 persons. These suburbs are West University Place, South Side Place, Bellaire, Pasadena, Galena Park and South Houston.

The Dallas figure includes Highland Park and University Park—actually part of Dallas but not technically in the city limits. Oak Cliff, across the Trinity River, was incorporated with Dallas over 30 years ago and, of course, is included in the figure also.

"The Dallas Chamber of Commerce makes no Greater Dallas estimate including the entire metropolitan area," Edward Kerr, of the chamber's industrial department said. "We feel that Dallas and the Park Cities describe the city of Dallas."

Highland Park has an estimated population of 12,960 and University Park 21,960, based on utility outlets, etc. Eliminating these two

Banks May Purchase World Bank Bonds

WASHINGTON —(P)—Preston Delano, Comptroller of the Currency, announced recently that national banks will be allowed to purchase bonds of the World Bank up to the full legal limit of 10 per cent of their capital and surplus.

Actually, however, the World Bank bonds will not be available to investors before July or August when the World Bank is expected to put an issue of about \$250,000,000 on the market.

The comptroller has authority to designate certain securities as "eligible for national bank investment up to the 10 per cent limit. Without such designation by him, the securities could not be bought by these banks, in that large a quantity.

Three out of five fatal automobile accidents occur at night.

'Creeping' High Wire Challenges Aerialists

NEW YORK —(P)—A new and more dangerous high wire for circus acrobats is a swinging oval track that tilts and rises 40 feet above the usual tight-rope levels, according to its inventor, A. A. Ostrander, well-known theatrical designer.

The apparatus is shaped like a mammoth tennis racket with a weight at the "handle." As the performers move on a narrow outer rim it changes position and can be made to rise vertically high above the ring.

A troupe of aerialists has gone into training for the big top debut of the new device, Ostrander says.

Concrete Mixed Like Highball, Even To Ice

By HAL BOYLE

MUSKOGEE, OKLA.—(AP)—They pour concrete like Martinis now in building dams.

The old days of shovel mixing are gone, and to operate a modern concrete mixer it would be a good idea first to learn how to play a pipe organ. That's how complicated the control panel is.

They are building a \$22,000,000 dam and powerhouse across the Grand (or Neesho) River, 12 miles northeast of here, near the site of old Fort Gibson, an historic outpost in pioneer days. The dam will take four years to build.

Any housewife would get a kick out of inspecting the new gadget they've got to mix the 461,300 cubic yards of concrete needed to construct the dam, which will be 110 feet high and 2,850 feet long.

It is electrically operated. It looks pretty much like a Rube Goldberg model of a cocktail shaker on a giant scale.

It's a 70-foot high contraption costing about \$225,000.

The materials used in making the concrete—sand, gravel and cobbles—of different sizes—are stored in eight bins down the road a bit, which holds 400 tons. Beneath the bins runs a six-hundred-foot tunnel. A conveyor belt goes from the tunnel to the top of the mixer.

By pressing a button an electric signal flashes to a man in the tunnel just what type of material is needed and it is dropped on to a moving rubber-covered conveyor belt. It travels up to the top of the automatic mixer and is dumped into the proper vat.

By manipulating buttons on the control board the operator can funnel down different type concretes into the four rotating concrete mixers below, each of which holds two cubic yards.

"That's a four-ton highball in each mixer," said Oscar S. McCormick, Minneapolis contractor. Like any good highball it's properly cooled—125 pounds of shaved ice goes into the making of each cubic yard of concrete. The cement is fed into the mix from a silo standing beside the chief structure.

The control panel also has a moving roll of paper like a player piano on which 16 pens record the amount of each ingredient, the time, and the temperature. Each batch is timed more accurately than a three-minute egg.

Panhandle Pioneer Says Future Is Already Here

By JACK RUTLEDGE
Associated Press Staff

The Pulitzer awards in journalism are all right, as far as they go. But where are the Texans among the winners? Apparently the Pulitzer judges just didn't have time to check up on the good writing and reporting in Texas.

So the boss suggests our own "Texas Today Awards" for top reporters right here in Texas. Here goes:

The first Texas Today Award goes to David Rasco of the Amarillo News for his feature about 84-year-old George M. Black, of Groom. It's one of the best sketches we have seen recently in Texas newspapers.

Black, says Rasco, has lived in the Panhandle longer than any person alive. He doesn't consider folks who have lived there a mere 50 or 60 years pioneers. To him they are just "kids and greenhorns".

Black looks so much like a Texan he is a walking personification of John Knott's famous cartoon character of Mr. Texas. He is lean, has piercing, penetrating eyes under shaggy eyebrows, wears a Stetson and won't let a barber touch his handlebar mustache which runs with free abandon over his lips.

But he was born in London, England.

Knew Old Mobeetie

He came to the Panhandle in 1874 and knew old Mobeetie when it was a rip-roaring frontier town peopled by gamblers and wild women. Indians were the area's major headache. It was a hunter's paradise.

"The buffaloes going to water looked like a cyclone," he says. "There were literally thousands of wild turkeys, deer and antelope."

He knew most of the old characters, and although he didn't go to school, he received a liberal education by sitting in courts listening to lawyers argue. One of his favorites was Temple Houston, son of Sam Houston.

He says his foster father built one of the first homes in the Panhandle, near Graham Creek. "We were the first children there."

He was made a deputy sheriff of Wheeler County when he was still in his teens. He remembers when Wheeler County was formed in 1870—and it was the first county organized in the high plains of Texas.

He has lived at Groom for 31 years—"just a little while."

"Do you think there's a future in this country?" he was asked.

"Future?" he drawled. "The future is already here. When I was a young man, anyone who would have said this country would be like this, would have been called crazy."

Glass Makers Contend Rate Rise Detrimental

SAN FRANCISCO—(AP)—Representatives of glass manufacturers told an Interstate Commerce Commission panel that increased freight rates for transcontinental shipments might force them to increase prices and would open the Pacific Coast market to European competition.

Shipping interests, contending railroads, have asked the ICC to raise rail as well as water rates.

Many authorities state that coal is the greatest natural resources in the world aside from soil. About 2,000 species of fossil plants have been studied and classified from the carboniferous age.

The Main Event... in Berlin

(Photo by Robert Bergfeld, NEA Staff Correspondent) Berlin's Olympic Stadium, spared by Allied airmen during the war, plays host to more than 25,000 fight fans as Dietrich Hucks, German middleweight champion, retains his title against Erich Campe in a 12-round bout.

U. S. Exports Higher Than Imports In April

WASHINGTON—(P)—The Commerce Department reported that exports exceeded imports by \$784,000,000 in April compared with \$883,000,000 in March. The excess in value of exports over imports—expected to run \$8,000,000,000 or more this year—largely accounts for discussion in Washington and other capitals about possibility of additional loans from the United States so that other nations can continue to buy from this country, the report said. The narrowing of the spread between exports and imports in April resulted from a \$31,000,000 decline in shipments abroad from the record high of March, and a \$68,000,000 increase in the value of imports. Exports totaled \$1,296,000,000 in April, imports \$512,000,000.

Stamps Aid Bedridden Boy To Help Hospital

LONDON—(P)—Kenneth Ponder, 9, lay crippled with arthritis in a London hospital where J. G. Bridges, M. B. E., director-general of the British Travel Association, presented him with more new stamps for his collection than he had ever hoped to possess. Hundreds of letters from every part of the world come weekly to the travel association's information center here. Many of these come from United States, and Allied servicemen who were stationed in Britain during the war and who have since become honorary overseas members of the association. Kenneth had first choice and the remainder were presented to the hospital.

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY
America's Card Authority
Written for NEA Service

Bridge is a fraternity. This is demonstrated by the fact that the units or branch offices of the American Contract Bridge League in various cities are not operated by professionals, but by business men and prominent women who love the game and the things it accomplishes.

For example all of the units in the Midwest form what is known as the Midwest Conference, with a St. Louis business man, Harry Lees, as president. He was a pretty busy man at the recent tournament

in St. Louis, looking after the out-of-towners, but he was also on the job when he played today's hand in the mixed pair event. His partner was his charming wife, chairman of the mixed pair event.

Timing is important in bridge. It is something every player has to learn if he wants to improve. In this hand the average player probably would win the opening heart lead with the ace, with the good intention of ruffing a heart in dummy. But then how would he keep from losing the ace of trumps, the ace of clubs and two heart tricks? Lees did not win the king of hearts. South continued with the heart queen and Lees trumped this in dummy. A small club was led and declarer's king was won by South. Another heart was led. Lees won with the ace, went over to dummy with a diamond and discarded his losing six of hearts on the queen of clubs. Thus he lost only a spade, a heart and a club.

Use Of Rubber Hits New Peak In Quarter

NEW YORK—(P)—Rubber manufacturers continued record-breaking consumption of materials in March and pushed use of crude rubber to a new quarterly peak of 296,818 long tons, the Rubber Manufacturers Association reported. For the first quarter, the association said, 1,674,335 tons of American-made rubber, up 3.8 per cent, and 26,152 tons of reclaimed rubber, up 2.6 per cent.

Rich Dessert Tops Off Cold Cuts

Date pudding delight for warm weather meals.

By GAYNOR MADDOX
NEA Staff Writer

After a dinner of cold cuts and salad, serve date pudding delight, warm and rich, with chilled heavy cream. Everyone will enjoy it.

Date Pudding Delight

(Serves 6)
One cup flour, 2/3 cup sugar, 1 1/2 teaspoons baking powder, 1/4 teaspoon salt, 1 cup chopped dates, 1/2 cup milk, 1 1/2 cups water, 3/4 cup brown sugar, 1/4 cup fortified margarine, 1/2 pint heavy cream, whipped.

Sift flour, sugar, baking powder and salt. Add dates and milk. Spread batter in a greased 7x11 baking dish. Heat water, brown sugar and margarine and boil for 2 minutes. Pour over batter and bake in a moderate oven (350 degrees F.) 30 to 40 minutes. When done, the batter will be at the top and there will be a rich sauce in bottom of baking dish. Serve pudding warm with whipped or plain

heavy cream.

Here's another fruit dessert perfect for warm weather meals:

Cornflake Apple Pudding

(Serves 4-6)
Two cups cornflakes, 1 pound cooking apples, sliced, 1/2 cup brown or white sugar (if brown sugar is used, pack firmly into cup), 1 teaspoon cinnamon, 2 tablespoons butter or fortified margarine.

Grease a baking dish, place a layer of cornflakes on bottom, then a layer of the sliced apples. Combine sugar with cinnamon, sprinkle over apples, dot with butter or fortified margarine. Repeat layers ending with cornflakes. Bake in moderately hot oven (375 degrees F.) for 30 to 40 minutes.

Most Firms Failing To Interest Stockholders

NEW YORK—(AP)—The Association of National Advertisers reported recently that a survey of 100 leading corporations showed that while management was almost unanimous in desiring increased stockholder interest in the company's affairs, only a few were making "carefully considered and well-rounded efforts to increase shareholder loyalty."

Seventy-five of the companies, however, had assigned definite responsibility for stockholder relations activities to a man or a department, the survey showed.

Of those listing techniques used to increase stockholders' interest, 21 named "informative annual reports," six added "informative interim reports," and six "friendly and comprehensive replies to stockholders' inquiries."

Twenty-three companies sent house organs or newsletters to stockholders regularly, and 12 sent letters of regret to sellers of stock and 49 sent letters of welcome to new stockholders. Three replied the best way to increase interest was "paying dividends," "Financial" or "investor" advertising was reported by 36 of the companies, with 11 of them advertising dividends only and five advertising a summary of the annual report only.

Puerto Ricans were made naturalized citizens of the United States by an act of Congress, March 2, 1917.

Electric Power Sales Increase Over Nation

NEW YORK—(AP)—Edison Electric Institute announced that electric output in the week ended May 24 was 4,692,856,000 kilowatt-hours, highest since the week ended April 26, and a sharp gain over 4,615,983,000 in the preceding week.

Latest production was 18.3 per cent above 3,941,865,000 kilowatt-hours in the corresponding week last year.

All geographic divisions showed gains over last year, ranging from 23.7 per cent in the southern states to 8.6 per cent in New England.

Grasshoppers Have Own Island In East Indies

BATAVIA, JAVA—(AP)—A lonely island inhabited only by millions of giant grasshoppers exists in the Sunda Straits between Java and Sumatra.

A Dutch naval party which recently cruised near the shore said the noise made by the grasshoppers was so great it drowned out the sound of the motors.

The island is one of the fragments torn loose from the famous volcano Krakatau when it exploded in 1883.

Coffee in the "green" state has practically none of the coffee flavor or aroma.

Inflation Habit Hits Tennessee Chicken

CHATTANOOGA, TENN.—(AP)—The neighbors are wondering what kind of rash Mrs. Jesse Wolf feeds her chickens.

Mrs. Wolf said a seven-month Rhode Island Red pullet had laid an egg weighing six ounces and measuring nine and three-quarters inches around the long side of the egg and eight and one-half inches in circumference.

Since the average weights of eggs is only two ounces—the pullet itself weighs only four pounds—Mrs. Wolf thinks some kind of record has been set.

Pioneer Log Cabins Praised By Architect

NASHVILLE, TENN.—(AP)—The architecture of the log cabin of pioneers was praised by Edwin A. Keeble, Nashville architect.

Addressing the Tennessee Historical Society, Keeble said the early log cabins were indigenous, functional, beautiful and logical, and he recommended those four requirements for modern builders.

Moreover, he said, the log cabins were built "in less time than the fastest modern prefabricated" structure.

About 6,000 Americans are killed every year because of mishaps originating in home kitchens.

Nature puts the flavor IN.

Mary Lee Taylor's Pet Potato Salad
Broadcast: June 7, 1947

4 medium-sized potatoes (1 1/2 lbs.)
2 cups boiling water
1/2 cup shredded, raw carrot
1 cup drained peas, cooked or canned
3 tablespoons finely cut onion

2 tablespoons ham or bacon fat
1/2 cup vinegar
2 tablespoons water
2 tablespoons sugar
1 1/2 teaspoons salt
few grains pepper
1/2 cup Pet Milk
1/2 lb. sliced lunch meat

Cover and boil potatoes until tender in boiling water. Drain and cool; remove skins; cut into thin slices. Put into bowl with shredded carrot and peas. Cook onion slowly 5 minutes in fat. Add vinegar, water, sugar, salt and pepper. Pour over vegetables. Add milk. Mix gently until well blended. Arrange lunch meat around edge of platter. Put salad in center. Makes 4 servings.

*Cut-up celery can replace all or part of shredded carrot.
**Ham, bologna, salami, canned lunch meat or left-over cooked meat can be used.

Miss Upton County

Guila Bettis, Rankin cowgirl, and a winner at the 1946 Midland Rodeo, will represent Upton County at this year's rodeo which opens Thursday.

Twenty-Five Million Tires Made In Quarter

NEW YORK—(AP)—Rubber manufacturers built more than 25,000,000 automobile tires in the first three months of 1947, the Rubber Manufacturers Association reported. Eighty per cent were in passenger car sizes.

If this rate of production in passenger tires were sustained, the industry would produce 81,000,000 casing this year, compared with 66,000,000 in 1946.

In March, manufacturers built 6,973,234 passenger car casings and 1,603,833 truck and bus casings, the association reported.

WAC's Smuggled Puppy Is Now College Pet

STATE COLLEGE, PA.—(AP)—A Yorkshire terrier smuggled into the U. S. from England by a WAC is now the family pet of a Pennsylvania State College professor.

Barbara Anna Davis, Penn State coed, says "Judy's crazy about America."

The dog is staying with Arthur C. Cloetings, head of the dramatic department.

A pound of coal contains four to five times the energy found in a pound of TNT.

Odessa's Growth Called Typical Of West Texas

By The Associated Press

Editor's Note: This is one of a series of stories based on a recent Associated Press survey of growth of Texas population which indicated Texas cities have grown 48 per cent since the last official 1940 census. A short series of stories will reveal how individual towns and cities have grown and what has happened to them as a result. The estimates of the growth were based on city directories, chamber of commerce surveys, utility outlets, etc.)

The amazing growth of West Texas is exemplified by booming Odessa, which, in seven short years, has grown 266 per cent.

Odessa has zoomed from a 1940 town of 9,575 to a city of an estimated 35,000—a jump of 25,427. The major cause—oil.

M. J. Benefield, Chamber of Commerce manager, said: "We're figuring on an increase of slightly more than 3,000 a year, which should give Odessa a population of 45,000 by 1950."

The estimate of today's 35,000 was based on last year's city directory, which listed 32,700, plus an estimated growth of about 3,000 during 1946 and up to date in 1947.

Prices Zoom, Too

The boom has caused business to soar and prices to zoom. Bank deposits are four times greater than they were in 1942. Building permits to date this year are nearly \$2,000,000 and business, industrial and residential structures are blossoming like mushrooms.

Housing is so hard to find, and is so expensive, while collar workers of moderate salaries find it almost impossible to obtain a place to live. A \$200,000 bond issue was voted to construct housing for teachers, so the town could obtain an adequate teaching staff.

Hotel and office space is badly needed.

To offset the housing needs, new apartments and hundreds of low cost homes are being rushed to completion. The city has purchased emergency trailer units from the Abilene Army Camp to house veterans.

A rough estimate on the town's annual income, made by the advertising department of the Odessa American, puts the figure at between \$18,000,000 and \$20,000,000.

The growth is attributed to deep oil discovered in the early 1940's, which made Odessa a tool and supply center for the Permian Basin fields, and to increased agriculture.

Business Failures Are Highest Since 1943

NEW YORK—(AP)—Commercial and industrial failures in the week ended May 22 rose to 102—the highest weekly total since March, 1943—Dun & Bradstreet reported.

That total compared with 98 in the preceding week and was five times the number of failures in the corresponding period last year. The business research firm noted, however, that in the same week in 1939 more than 300 businesses failed.

Most of the week's failures involved liabilities of \$5,000 or more, and three fourths of the total were in manufacturing and retailing. The sharpest rise was in retail trade where failures outnumbered those of the same week last year 6 to 1.

Dun & Bradstreet's monthly report on failures showed an increase to 277 in April, continuing the gradual rise which began in the second half of 1946. April was 9 per cent over the March total of 254, and more than three times the April, 1946, total, and the May, 1943.

ELECTRIC WORKERS NEED BIOLOGIST

SYDNEY AUSTRALIA—(AP)—New South Wales electric services have been disrupted recently by animal invasions. Frogs have short circuited transformers. Snakes climb the transformer poles and mess up the fittings—and their lives. Flying foxes become entangled in the wires.

"Pst!" Not "Pfft!"

AKRON, O.—(AP)—There's been a lot of hissing around the B. F. Goodrich plant—but it hasn't been air escaping from tires. The company's engineers referred to the secret research on a puncture-sealing tubeless tire by hissing "pst!"—the code for the new development.

Bond-A-Month Plan To Be Promoted In June-July Campaign

With a concerted effort to show every citizen the advantages of systematic saving and the importance of U. S. Savings Bonds in the management of the \$258 billion national debt, the U. S. Treasury has launched a national drive which will continue through July. This June-July promotion will center on the theme: "Where you work... where you bank... buy U. S. Savings Bonds."

In emphasizing the importance of U. S. Savings Bonds in the Treasury's national debt management program, John W. Snyder, secretary of the treasury, said "Wide-spread ownership of debt is essential to a sound debt structure. It is toward this objective that we must continue to utilize and emphasize the Savings Bond Program. The sale of Savings Bonds does not increase the national debt and the money from their sale is not used to finance a deficit. The primary purpose besides the advantages to the individual from systematic saving, is to spread the debt among the greatest possible number of citizens."

The June-July sales promotion campaign will introduce nationally the Bond-a-Month Plan for bank depositors. Under this plan, which is intended to reach professional men and women, self-employed persons and small business men, the depositor authorizes the bank to issue bonds to him monthly, charging the purchase price against his checking account and delivering the bonds to him.

Banks Endorse Program

The promotion also will center on revitalizing the Payroll Savings Plan, a means by which employees enjoy the advantages of systematic savings and thrift.

Banks throughout Texas have instituted the Bond-a-Month Plan, which has been endorsed by the leading bankers' associations of the nation.

Texans invested a grand total of \$240,000,000 in U. S. Savings Bonds in 1946, with 2,450,000 Series E Bonds issued representing \$171,000,000.

During the first four months of 1947 Midland County citizens invested \$168,474.75 in U. S. Savings Bonds. The state total amounts to \$82,855,000 with a total of \$54,735,000 in Series E Bonds. The national total for the same period is \$2,852,000,000.

Texas has been assigned a state goal of \$30,000,000 during the June-July promotion.

NEW HAVEN DEFICIT SMALLER

NEW HAVEN, CONN.—(AP)—The New York, New Haven & Hartford Railroad reported a net income, after fixed charges of \$269,886 for April against a deficit of \$781,757 in the same month in 1946. For the first quarter, the road reported a deficit of \$1,778,575 as compared with a deficit of \$2,685,020 in 1946.

During the war the American Red Cross collected 13,326,242 blood donations for the armed forces.
