Report Reds Fire At Swedish Car

MIDLAND WILDCAT SWARS AFTER ACID TREATMENT

Humble Oil & Refining Company No. 1 Mabel Floyd, wildcat in East Midland County, about 15 miles southeast of town, and 660 feet from north and 1,980 feet from east lines of section 16, block 37, TP survey, T-3-S, was swabbing to test on section at 9,450-9,510 feet, in the lower Permian, which had been treated with 2,000 gallons of acid.

When the acid load was lifted the well would not flow. After 12 hours of swabbing fluid was standing 3-600 feet below surface. Only acid water was being recovered. The interval has not shown in signs of oil or gas, since the treatment.

HUMBLE GETS MORE O & G SIGNS IN NO. 1 Y & A

Humble No. 1 Yarborough and Allen, Southwest Ector County prospector to test the Ellenburger, 660 feet from north and 1,980 feet from east lines of section 18, block B-14, ps survey, had reached 8-580 feet in line and was drilling ahead.

Informed observers reveal that the section now being penetrated is still Devonian. Operator has released official report on a drillstem test at 8,454-8,562 feet. The tool was open 60 minutes. Recovery was 120 feet of oil and gas cut drilling mud.

LION TO DIG WEST OF DOLLAR HIDE PRODUCTION

Lion Oil Company No. 1-B Cowden, (Tennie), 660 feet from north and 654 feet from east lines of northwest quarter of section 6, block A-55, ps survey, is a new stepout from Devonian production, one half mile west of the Dollar Hide field in Southwest Andrews County.

It is to drill to around 8,500 feet, unless it gets paying production in the Devonian at a shallower level. Operations are to start at once.

STEPOUT TO DISCOVER IN TERRY SWABS OIL

Amerada Petroleum Corporation No. 1 Eldkins, northwest stepout from the discovery well for production from the San Andres-Permian, in the Adair field of South-Central Terry County, about 15 miles south of Brownfield, and 890 feet from south and 330 feet from east lines of section 5, block C-37, ps survey, swabbed 222 barrels of oil in 20 hours, from perforated section at 4,885-90 feet and at 4,900-10 feet, after acid.

The recovery was cut three and two-tenths per cent sediment and water.

Operator was scheduled to retreat with 5,000 gallons of acid and test further.

AMERADA ABANDONS HOCKLEY PROSPECTOR

Amerada No. 1 Shofner, wildcat in North-Central Hockley County, about two miles north of the east of production in the Levelland field, and 660 feet from south and east lines of labor 6, league 734, State Capital Lands, drilled to 5,000 feet, and failed to develop any production.

The prospector has been plugged and abandoned.

CSOC—SPOON MAKING HOLE AT I WOOTEN IN SW ECTOR

Cities Service Oil Company and Sinclair Prairie Oil Company No. 1 H. O. Wooten, Southwest Ector County prospector, 660 feet from north and east lines of section 12, block B-14, ps survey, and six and one-half miles northwest of Judkins, had reached 8,045 feet, in shale and was making more hole.

This project has not reported having encountered any indications of possible production in any zone which has been penetrated.

SLIGHT SHOWS LOGGED IN WINKLER PROJECT

Magnolia Petroleum Company No. 1-DD State-Walton, old shallow producer from above 3,995 feet, in North-Central Winkler County, about three and one-half miles north of Kermit, and 2,310 feet from south and 990 feet from east lines of section 7, block B-3, ps survey, had reached 4,762 feet, in lower San Andres lime, and was drilling ahead.

It had logged some slight porosity and some slight bleeding oil and gas in thin streaks—but up to now none of the indications have been of any importance. The wildcat is slated to dig to around 6,700 feet to test through most of the Permian formation.

DEEP CROSBY WILDCAT STILL DRILLING AHEAD

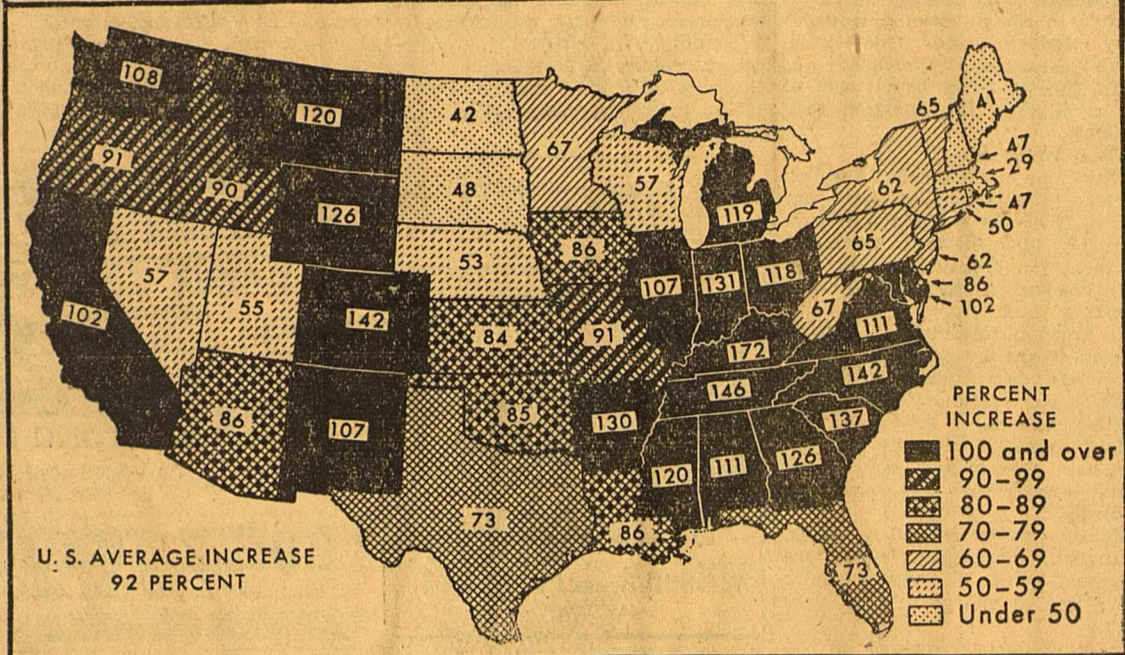

Humble No. 1 Montgomery, North-Central Crosby county wildcat, about 12 miles north and slightly west of Crosbyton, and 660 feet from south and east lines of section 21, block 2, Brooks and Burleson survey, had reached 9,492 feet in line and chert, with shale streaks, and was drilling ahead, at last report.

A pit of mud had been lost at 9-480 feet, but apparently circulation has been regained.

ALBACH PROSPECTOR IN DAWSON CONTINUES BORING

Ray Albach No. 1 Graves, Southeast Dawson County prospector, about one and one-half miles northeast of Ackerly, and 660 feet from south and east lines of section 48, block 34, TP survey, T-4-N, had reached 5,700 feet in lower Permian line, and was making more hole.

Farm Land Prices Boom Merrily Along

Map above, from U. S. Department of Agriculture data, shows the percentage of increase in the average value per acre of farm land, from the 1935-39 average to March, 1947. In the year ended March 1, the price rise for the country as a whole was 12 per cent. Upward trend was general except in the far West, where skyrocketing values leveled off somewhat.

Tent Will House Rural Exhibit At TESCO Show

The auditorium and gymnasium at Midland High School just are not large enough to hold the Texas Electric Show of 47, which opens Friday, and a large tent has been pitched on the school grounds to house the farm-ranch electrical exhibit, which really is a show in itself. In the tent, farmers, ranchers and others interested in rural uses of electricity may view the latest electrical equipment designed specifically to reduce work, save time, and generally to increase profits from agricultural activities.

This year's Texas Electric Show is in reality three shows in one—General Electric's famous show, "The House of Magic" in the high school auditorium, displays of electrical equipment and appliances for the home, in the gymnasium, and farm-ranch electrical equipment in the farm-ranch exhibit.

Other entertainment at the free show will include a 15-minute musical program every hour by the "Texas Sweethearts", a five-girl swing band, and continuous moving picture outdoors after dark. Three of the films, including Reddy Kilowatt in "Reddy Made Magic," a cartoon film, are in technicolor. Demonstrations of latest electrical equipment for the home, including home laundries, irons and other electrical appliances will interest many Midland homemakers.

The Texas Electric Show here last year drew more than 6,000 visitors, and even bigger crowds are expected at the greatly enlarged show Friday and Saturday nights, from 6 to 11 o'clock. Everywhere the "House of Magic" science shows have been presented, throngs of people interested in the newest developments of electronics have packed auditoriums to see the uncanny things that can be done by electrical science. This science show will be presented twice each evening, at 7:30 and 9 p. m.

You Can Throw Away That Sugar Coupon

WASHINGTON —(AP)—The last war-imposed coupon control over the American public vanished Thursday as sugar rationing for home, restaurant and hotel use ended at midnight.

After five years in which ration stamps meant more than money—when it came to meat, canned goods, shoes, tires, gasoline and a host of other things—individual Americans are free of common worries for the first time since April 28, 1942.

The last ration book can be thrown away.

However, sugar price controls remain. So does rationing of industrial sugar, but these curbs are scheduled to end Oct. 31.

Secretary of Agriculture Anderson ordered the sugar ration end late Wednesday, thus beating the Republican-controlled Congress to the draw. The House had set Thursday for a vote on a bill calling for an immediate end to household sugar rationing.

A Republican spokesman indicated Congress would go ahead with the bill to make sure no return to controls could be ordered.

Weather

Fair Thursday afternoon, night and Friday except occasional rains in Panhandle and South Plains. Not so warm Friday. Cooler Friday and much cooler in Panhandle and South Plains. Maximum temperature in Midland Wednesday was 98 degrees, minimum 77 degrees. Minimum temperature Thursday was 75 degrees.

Marshall Says Russia And England Included In His European Plan

WASHINGTON —(AP)—Secretary of State Marshall Thursday said when he proposed European nations get together on an economic program he was thinking of Russia and Great Britain as well as other nations.

Marshall made the proposal in a speech at Harvard University a week ago. He was bombarded with questions about it at a news conference Thursday, his first since the speech.

In his reply, the Secretary of State disclosed Winston Churchill's urging of a United States of Europe had influenced his developing the idea the Europeans should work out their own economic recovery plans and the United States should extend financial help to put them through.

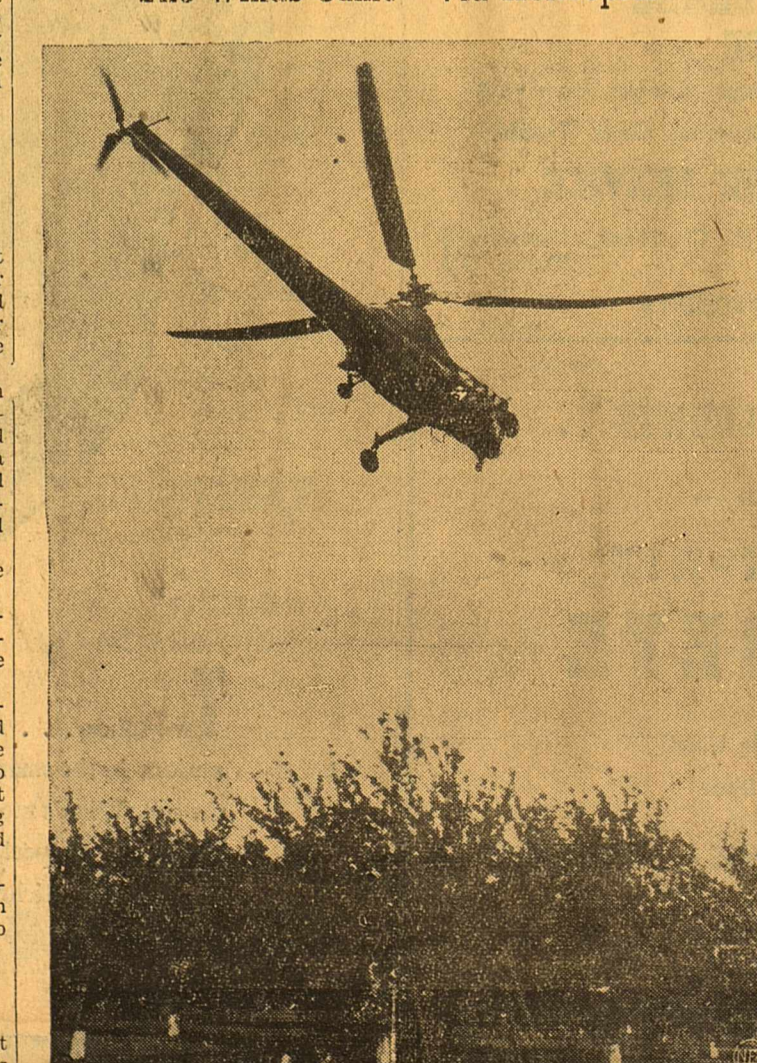

Marshall was asked what he meant by the term "Europe". He said he meant the whole of the continent West of Asia, and in response to a further inquiry declared that includes both Russia and Britain.

Reynolds' Pilot Will Make Two More Flights

DALLAS —(AP)—Two more spectacular flights are planned by Bill Odum, who piloted pen-maker Milton Reynolds around the world in 78 hours recently.

Odum said here he intends to fly the A26 Bombshell around the world by himself and follow up with another world trip by flying over both poles. He also said he is going to try to win the Bendix air trophy next summer.

The Winds Came—Via Helicopter

This is no routine helicopter flight. The whirling rotors of this Army Sikorsky "egg-beater" are creating an artificial windstorm over these cherry trees in Santa Clara County, Calif., to dry out a \$250,000 fruit crop dangerously soaked by sudden rains. After flying four hours over the orchards, the "flying windmill" saved the 200 acres of ripening cherries, which growers say would have burst in the hot sun.

Truman Asks Continuance Of Credit Act

WASHINGTON —(AP)—President Truman Thursday recommended Congress pass a bill permitting continuance of controls on consumer credit in peacetime.

Unless Congress does this, Truman said he plans to end the present regulations, based on wartime legislation. These regulations, under executive order, fix the size of down payments and fix the length of time in which the balance due must be paid by installments.

These controls affect purchases of such things as household goods, refrigerators and automobiles.

Truman's views were stated in a letter to Marriner S. Eccles, chairman of the federal reserve board, which wields the controls on installment-buying credit. Eccles read the letter to the House banking committee.

Eccles has asked the committee to pass a measure giving the reserve board power to continue operation of controls in peacetime.

Truman's letter said: "I hope that the Congress will enact the necessary legislation to retain restraints upon excessive expansion which results in excessive contraction of consumer credit thereby making for economic instability, reduced production and unemployment."

"If the Congress does not see fit to provide the necessary legislative authority, it is my intention to vacate the executive order because I do not believe that such regulations should rest indefinitely in peacetime on emergency or war powers after the Congress has had ample opportunity to consider the subject."

Charges Fly Back And Forth As Meat Prices Continue To Spiral

CHICAGO —(AP)—The bawling steer and the grunting hog jumped back again into the public spotlight Thursday and there were innumerable charges and counter charges in explanation for the sudden boost in meat prices in livestock markets and in butcher shops.

Average price of steers and yearlings at Chicago Wednesday rose to an all-time record high at approximately \$26.00 a hundred pounds according to the Department of Agriculture. This topped the peak of \$25.40 established last October immediately after OPA ceilings were removed. For the first time since March 5 the top reached \$30.

Live hogs have not advanced as sharply as beef cattle, the top here Wednesday being \$24.75 a hundred pounds compared with \$30.00 on Feb. 25.

Meanwhile, retail meat prices also advanced during the past several weeks and representatives of butchers in the East blamed the meat packers. In Newark, N. J., butchers threatened to close shop unless prices come down.

"The butchers are helpless and are getting so fed up they're ready to take a vacation," Joseph Vian, president of the independent retail butchers association of New Jersey, said.

Large packers in Chicago, discounting talk of heavy foreign exports, said advancing meat prices represented an "amazing" domestic consumer demand, particularly for beef. This, they said, also was reflected in the high price for beef cattle at livestock markets.

The agriculture department said meat production last week totaled 317,000,000 pounds, 46 per cent higher than a year ago.

Marshall Reiterates Stand On Wool Bill

WASHINGTON —(AP)—Secretary of State Marshall reiterated his belief the compromise bill permitting tariffs or import restrictions on wool will hinder efforts to reach satisfactory world trade agreements.

He told his news conference that such legislation will complicate current efforts at Geneva to work out new trade agreements and set up an international trade organization.

Marshall declined to tell reporters whether he will recommend that President Truman veto the measure, if it reaches his desk in its present form. He expressed disappointment, however, in action of the House and Senate conferees, who reached agreement on provisions of the bill Wednesday.

Anderson Protests

WASHINGTON —(AP)—Secretary Anderson Thursday declared House cuts in the Agriculture Department's appropriation for 1948 would force his resignation "to break promises to farmers which Congress had plainly directed us to make."

Relief Agent's Driver Is Said To Have Been Killed By Russian Troops' Volley

VIENNA —(AP)—Russian soldiers fired on a Swedish relief mission car Wednesday night and killed Trne Carlsson, Vienna chief of the Swedish Save-The Children organization.

VIENNA —(AP)—A high Austrian government official Thursday reported Russian troops had fired on a Swedish relief agency party Wednesday night, killing an automobile driver and wounding Torsten Arnaus, chief of the Swedish mission to Austria.

The Swedish legation later said it had no official confirmation of the report but the Charge D'Affaires had left for the scene of the supposed shooting and it expected to announce his findings soon.

No comment was available from Russian sources.

BALKAN REVIEW Communists Put Another Wrench In Machinery

By The Associated Press

A new Communist blow to non-Communists in Southeastern Europe — expulsion of the hard core of the opposition from Bulgaria's parliament — was presented to the world Thursday amid growing indications that a Balkan showdown was impending between Russia and the West.

An authoritative source in Washington said the United States was reviewing the whole American policy in Southeastern Europe to determine what lines of future action might be more effective than the long series of futile protests sent Moscow and other Communist capitals in the past few years.

Diplomatic authorities in Washington were predicting freely Russia either would reject or try to hamstring American demands for a Big Three inquiry into the communist seizure of power in Hungary, and that, in either event, the United States in all probability would carry the case to the United Nations.

The Bulgarian Parliament voted Wednesday night 23 members of Nikola Petkov's Agrarian Party had resigned of their own volition and therefore "are no longer members of the Grand National Assembly."

The Parliament acted on information from a government prosecutor that the written resignations of the 23 had been found in Petkov's private papers, but the deputies, insisting this simply was routine party sacrifice, declared in final pleas "we do not resign."

Petkov's Agrarians have had a total of about 90 members in the Parliament.

Petkov, general secretary of the Agrarian Party, is under arrest on charges of conspiring against the state. His arrest was the subject of a sharp statement by the U. S. State Department, which said that in trying Petkov, Bulgaria herself would go before the bar of world opinion.

The United States laid the foundation for an appeal to the U. N. in a vigorous protest to the Soviet commander in Hungary, charging "flagrant interference" in Hungarian internal affairs and demanding a joint inquiry by Britain, the United States and the Soviet Union.

Some state department officials saw the issue as much broader than a Balkan one. They expressed the opinion it might be raised also in Greece, Italy, France, Germany and wherever else the Western powers conflict with Communism.

The U. N. subcommittee observing Greece's current troubles was reported to have abandoned attempts to get into Bulgaria to investigate Greek charges that anti-government Greek guerrillas received help from that country. An informed source said on the first attempt armed Bulgarian guards stopped the group at the border, and on the second the Bulgarians insisted upon a number of hamstringing restrictions.

RAIN AND HAIL IN PANHANDLE AMARILLO —(AP)— This area shook off another spell of misbehaving weather which left hail and rain damage from Memphis to Clarendon.

Hail, with some stones as big as baseballs, fell between Memphis and Hedley and near Lelia Lake Wednesday night.

The rains, measuring up to three inches, resulted in flood-blocked highways for a while, and a three-and-a-half hour delay for the Burlington Zephyr. Water two-and-a-half feet deep spilled over the Denver tracks at Hedley. High winds accompanied the rain storms.

• LATE NEWS FLASHES •

WASHINGTON —(AP)— The Senate Commerce Committee Thursday ordered a subcommittee to redraft a measure by Senator Capper (R-Kan) which would prohibit liquor advertising from crossing state lines in any form.

ATHENS —(AP)— The Greek Army Thursday called up all men in military classes of 1941 to 1945 inclusive. Greece has asked American approval for the expansion of her army with U. S. loan funds.

WASHINGTON —(AP)— Authority for the Reconstruction Finance Corporation to continue to operate the government-owned tin smelter at Texas City, Texas, until June 30, 1949, Thursday was approved by the Senate Banking Committee.

VIENNA —(AP)— A Vienna peoples court Thursday acquitted Dr. Guido Schmidt, the Austrian foreign minister before Anschluss, of high treason charges.

WASHINGTON —(AP)— Rep. J. Parnell Thomas (R-NJ), chairman of the House Un-American Activities Committee, reported Thursday he has received a letter threatening him with death and has turned it over to the FBI.

Public To Get Committee's 'Red' Report

WASHINGTON —(AP)— The House Committee on Un-American Activities Thursday decided to start hearing June 23 on what Chairman J. Parnell Thomas (R-NJ), described as "infiltration of Communists into the labor unions."

Thomas announced also the committee unanimously approved a report on the southern conference for human welfare which will be released to newspapers for publication Sunday.

The committee plans to send several "observers" to a meeting here Monday, sponsored by the Conference, at which Henry A. Wallace will speak.

The committee in 1944 had reported the Southern Conference was a Communist front organization.

Thomas said the forthcoming report on the Southern Conference lists Wallace as an "advisory associate" of the Conference.

Wallace Will Be Candidate, Says Western Source

LOS ANGELES —(AP)—Henry A. Wallace will be a candidate for the Democratic presidential nomination in California and at least a dozen other states, an authoritative party source said Thursday.

The source declined permission to use his name, but said "that is entirely correct" when questioned about a story in the Los Angeles Times that Wallace "will toss his hat in the ring for President within the next two months."

Asked about persistent reports the former cabinet member was looking to formation of a third party, the source said:

"The first step, as he has said, is to attempt to make the present Democratic party Democratic."

Commenting on Wallace's Presidential aspirations, the source declared:

"Things have not yet jelled to the point where we can make a formal announcement. The people who are doing it are trying to make out as strong a coalition as possible."

IPAA Committee Makes Preliminary Reports

DALLAS —(AP)— Preliminary reports on a survey being made of the steel supply as it affects the oil industry were made at an initial meeting here Thursday of a special committee recently appointed by the Independent Petroleum Association of America.

Headed by J. E. Warren of Midland, the committee is mapping plans for conducting an extensive survey of the industry's steel shortage problems.

The final report will form the basis for action by the association in an effort to alleviate industry shortages which have retarded exploration and caused a bottleneck in transportation and refining.

A survey revealed considerable oil industry equipment was being exported. Members of the association contend domestic needs for steel should be taken care of first, then any surplus exported.

YOUNG WOMAN ON TRIAL FOR MURDER
NACOGDOCHES—(AP)—The murder trial of blonde 23-year-old Dorothy Stokes was continued here Thursday after a session Wednesday highlighted by the admission into evidence of a confession.
The confession was Mrs. Stokes' poisoned buttermilk in the icebox of her 20-year-old sister-in-law, Mrs. Dorlene Garrett.
"I hated her," deputy sheriff Roy Hargis quoted the defendant as saying. "I never did like her."
Sanitation is entrusted to buzzards in the smaller towns of Mexico.

W. M. Smith, Brother Of Midland Woman, Dies In California
Funeral services were held Wednesday in Los Angeles for W. Mortimer Smith, 51, widely known in West Texas circles, who died Saturday in Los Angeles of a heart attack.
He served as secretary-treasurer of the E. A. Landreth Oil Corporation of Fort Worth more than 20 years.
Survivors include his widow and two daughters, Betty Lou and Marilyn Sue, of Los Angeles, and a sister, Mrs. Ben T. Rogers of Midland.

WAA To Stage Unique Clearance Sales At Midland, Other Fields
A unique clearance of all surplus property at Midland, Pecos and Pyote Army Air Fields and the Fort Stockton Pacific Air School will be conducted concurrently, at the four sites beginning June 17 and ending June 20, War Assets Administration officials announced in Dallas.
Approximately a half million dollars worth of surplus war materials will be placed on sale through informal bidding on a non-priority basis, with the bid opening scheduled to take place at the Midland field at 9 a. m. June 20. Bid boxes and a complete listing of all lots being offered at the various locations will be available at each of the sites.
Cafeteria equipment, furniture, hardware, plumbing and automotive equipment will be arranged in lots of related materials for the three day sale.
Both victory type and standard furniture items along with clothing, plumbing and kitchen ware will go on sale at the Midland Air Force installation. Property at the Pecos field will include 23 electric water coolers, toasters, a sewing machine, a tank truck and a jeep.
The offering at Pyote will consist of such items as flying clothes, space heaters and double deck beds.
Both inspection and bidding will occur at each location from 8:30 a. m. to 4 p. m. Tuesday, Wednesday and Thursday, June 17-19. Successful bidders on all lots will be required to be present at the Midland field for the 9 a. m. bid opening Friday, June 20, in order to receive their awards.

Worst Transportation Tie-Up In History Of France Is Over
PARIS — (AP)—The French government Thursday granted French railroad workers salary boosts, thus ending a six-day national rail strike, the worst transportation tie-up in the country's history.
The railroad workers union ordered its members back to work after an all-night series of conferences at which agreement was reached for settling the work stoppage, and five minutes later Premier Paul Ramadier and Transport Minister Jules Moch signed the accord, making its terms official.
Ramadier achieved a technical victory in the settlement. He had insisted throughout the strike he would not negotiate "under the menace" of transportation paralysis—that is, until the unions ordered the men back to work.

Truman Winds Up His Canadian 'Vacation'
OTTAWA, ONT.—(AP)—President Truman Thursday wound up his trip to Canada with a holiday from official business before starting back to Washington for vital decisions on labor and tax cut legislation.
Turning tourist for a day, the United States Chief Executive took his official staff for an outing and a view of the Canadian countryside around Ottawa.
The holiday followed a busy day Wednesday in which he brought a cheering Parliament to its feet by declaring the United States intends to help those nations who want to live in peace with their neighbors, without coercion or intimidation.
He went from this ovation to a luncheon at which he toasted Parliament and reminded its members he had "never in my life had a more cordial reception."

Gene Autrey Is Late For Rodeo
He missed the rodeo, but Gene Autrey was in Midland Wednesday. The Western Movie Star did not linger long in Midland. He had breakfast at the Scharbauer and was on his way.
Probably to Lubbock, where he was scheduled for an appearance in that city's rodeo.

Dairy Program Features Rotary Club Luncheon
Bryan Blalock of Marshall, president of the Texas Dairy Institute and a director of the National Milk Industry Foundation and the Dry Milk Institute of America, was the guest speaker at the Rotary Club meeting in the Scharbauer Hotel Thursday noon. His address was in connection with the observance of Dairy Month in Texas.
Blalock also is personnel director for the Borden Company's Southern Division.
In discussing the importance of dairying in the national economy, Blalock said dairying is the backbone of agriculture which is the backbone of every country on earth. He told of the nutritional value of dairy products and said milk, which constitutes one-fourth of foodstuffs consumed by citizens of this country, is the cheapest food available.
"The four and one-half million farmers in this country last year milked 27,000,000 cows, and received \$3,500,000,000 for their products," he said. "In Texas, farmers last year received \$100,000,000 for the milk they produced."
He urged businessmen to further develop Texas by giving farmers more and better farm-to-market roads, better schools, and better health programs.
He discussed briefly the national economic picture and said "work is the answer to this country's problems."
Blalock was introduced by C. D. Dillingham of Abilene, who was presented by H. B. Schauer. Hank Avery was in charge of the program.
Dairy products furnished by the Banner and Borden creameries were served at the luncheon.
Ten Fort Stockton residents here advertising that city's annual Water Carnival, June 18-21, were introduced by Paul Counts, manager of the Fort Stockton Chamber of Commerce, who invited Rotarians to attend the big water event.

Congressman Asks For Wallace Indictment
WASHINGTON — (AP)— Referring to Henry A. Wallace as "the evil tool of those who would destroy America," Rep. Herbert A. Meyer (R-Kan.) recently asked the House "when will the attorney general of the United States do his duty and indict this renegade?"
Wallace, the Kansan declared, "has disgraced his citizenship."
TEXAS METHODISTS PLAN CONFERENCE CAMP
HOUSTON — (AP)— Plans for a Texas Conference Methodist Camp which will ultimately house 500,000 worth of installations were presented to the annual session of the conference here.
Near to the 400 acre camp site near Palestine, in Anderson County, was presented to the conference by a committee of citizens from Anderson county this morning. The committee asked for \$66,150 to bring the camp into operation.

 W. H. Free, liquidating agent of Guaranty Trust Company, and the unknown heirs, their heirs and legal representatives of such said parties, as may be deceased;

GREETING:
 You are hereby commanded to appear before the District Court of Midland County, Texas, in the Courtroom of Midland County, in the City of Midland at or before 10:00 o'clock A. M. of the first Monday after the expiration of forty-two (42) days from the date of issuance of this citation; that is to say, at or before 10:00 o'clock A. M. on Monday the 21st day of July, 1947, then and there to answer a petition filed in said Court on the 3rd day of June, 1947, in a suit numbered 4635 on the docket of said Court wherein Pearl Curtis, a widow, is Plaintiff, and the parties above named and to whom this citation is issued, are Defendants, the nature of which suit is as follows: Plaintiff alleges ownership of lands in Midland County, Texas, described as follows:

The East 3/4 of Block 4, Johnson and Moran Addition to the town of Midland, Midland County, Texas, a subdivision of a part of Section 28, Block 39, Township 1-South, T. & P. Ry. Co. Survey, Midland County, Texas.

Said action is a suit in repossess to try title by Plaintiff for title and possession of said lands above described, Plaintiff alleging also title through peaceable, continuous and adverse possession under the 3, 5, 10 and 25 year statutes of limitations. The action is brought as well try title as for damages in the sum of \$2500.00.

Plaintiff prays that a petition for title and possession to said land, for damages, costs of suit and for further relief, general or special, at law or in equity.

Issued this 4th day of June, A.D. 1947.

(Signed)
 NETTIE C. ROMER,
 Clerk of the District Court of Midland County, Texas.

Given under my hand and the seal of said Court at office in Midland, Texas, this 4th day of June, A.D. 1947.
 (Signed)
 NETTIE C. ROMER,
 Clerk of the District Court of Midland County, Texas.

— DOWN —

SPORTSLANE

— TANNER LAINE —

Harold Webb, manager of the Midland Indians, made a fine gesture at Vernon recently. When Luckenbach, Duster shortstop suffered a broken leg, Webb promptly started off a fund to help the fellow with a \$25 donation. The fund grew to more than \$200 after Webb's sportsmanlike start.

That's the kind of stuff your Harold Webb is made of, showing a heart of gold under that gruff and umpire-baiting front.

Art Gigliello, our favorite umpire in the Longhorn League, drops a letter to Midland and is wishing he will draw a series here soon. Gig likes Midland and Midland likes Gig.

Big, blonde and strong is Midland's new pitcher, Ossie Kolwe from Dallas. Kolwe is property of the Rebels and is getting seasoning at Midland. Good luck, Ossie.

WACO VFW DEMANDS AIRPORT HOUSING PLAN

WACO — (AP) — A Veterans of Foreign Wars resolution demanding the division of Rich Field, former municipal airport, into low-cost homesites for ex-service men will be considered by city aldermen at a meeting here Tuesday.

BARNEY'S MARKET

North Vault at Southern Ice Co. — Phone 1292

Gen. George S. Patton's new and final resting place in Hamm Military Cemetery, Luxembourg, is simple, like the cemetery's 8400 other graves—the graves of American troops General Patton led in combat. Killed in an automobile accident after the war, the colorful "two-gun" general was originally buried in the center of the cemetery. Recently his body was removed to the grave pictured above, at the head of the field. The 50-acre burial ground was purchased by the Luxembourg government and given to the United States "for eternity."

Railroads Check Speed, Install Telephones, Safety Devices In Effort To Reduce Accidents

PHILADELPHIA—(NEA)—For a couple of minutes, on a wide open stretch between here and New York, Ernest Evans held the throttle too far open. The speed of the Duquesne climbed to 80 miles an hour. Nothing happened. Nobody knew but Evans, who has been working on Pennsylvania engines for 47 years and running them for 37. Nobody? That was Evans' mistake. "Next day," he told me, "I was on the carpet for a reprimand. Top speed on this stretch is 75 miles an hour. Somebody was clocking me."

Every mile of track on every railroad in the United States has its speed limit. Under no circumstances is an engineer permitted to go above that limit.

In some places there are electric devices that time every train. One of these proved that in 30 days before the Red Arrow tragedy on Bennington Curve no train had exceeded 31.3 miles an hour; only one exceeded 30 miles; the average was 20 miles an hour. It proved that the engineer who—just once—took the curve at 65, and killed 24 passengers, had touched 30 only three times in six months, and the rest of the time had hit the curve from 15 to 28 miles an hour.

Tape Records of Speed
Some Diesels have recording tape that keeps a record. Clockers, with stop watches, are spotted here and there to check speeds. Officials, riding trains, check mile posts against stop watches. No engineer can know when he is being clocked, in one way or other, to catch him exceeding the limit.

The flat rule is that no engineer, for any reason, is ever to exceed the speed set for the section of track he is on; or to disobey signal light precautions. If he is late, and can make up a little time at station stops, that is to his credit. But he must not try to make it up by speeding.

I rode with Evans in the cab of his GG-1 electric locomotive. We left New York 12 minutes late, picked up two minutes in Trenton, and held our own from there on. At no time did the speedometer needle pass the 75-mile speed permitted.

The cab has a signal device. It shows conditions in the block we are in. If, after we enter a clear block, another crew backs a freight into it, or a rail breaks, the cab signal will change. Evans will stop. These cab signals prevented a second wreck May 1, after steel plates on a freight previously had ripped the sides of the American. One plate was knocked to the rails. This set the cab signal in an on-coming freight, which was brought to a stop. But for that warning, the freight would have been derailed and piled into the American, and there might have been scores killed instead of only five persons.

Rounding every curve Evans or his helper, H. A. McGinley, looked back to see that there were no hot boxes or other danger signs. At intervals, devices were so placed that brittle arms would be broken by any hanging obstruction, which would have signaled Evans to stop. At Trenton C. R. Van Dusen, electrician, boarded the engine. He had ridden from Philadelphia to Newark on one train, from Newark back to Trenton on another, and went in to Philadelphia with us. His daily job is to ride the division watching overhead wires and hangers, looking for breaks.

A number of divisions of the Pennsylvania are provided with an induction telephone system. The engineman can call or be called while in motion. When cab signals stopped the oncoming freight at the time of the American's wreck, that engineer picked up his telephone and broadcast a warning to all trains in the vicinity.

Modern Safety Methods
These are some of the modern safety methods by which the Pennsylvania is trying to avoid wrecks. Most of them are used by other roads. Their use is spreading as fast as money, materials and manufacturing capacity permit.

A series of wrecks recently has resulted from improper loading of freight, particularly on open cars.

Such freight is loaded by the shipper. It is checked by inspectors for the railroad that first accepts it. If there is any slightest question, the inspector measures for clearance, to make sure it will go through all bridges and tunnels. If he doubts that the cargo is secure, he orders it re-done.

If the load hits another system—as that which wrecked the American did—it is checked again by inspectors for the second railroad. That was done, in this case, at Harrisburg. Nobody questions that similar checks were made on the loading of the 12-ton tractor that wrecked the Zephyr, and in other similar cases.

Why, then, did they get loose? Nobody has been able to tell, yet. One expert makes a guess. It might be, he says, because lumber nowadays is inferior—because a timber of specified size that in former days would have been ample for safety, no longer has the strength to do its job.

FOR WHOM THE BELL SYSTEM TOLLS
SAN FRANCISCO—(AP)—The loudspeaker at the Rotary International convention asked Lyle Brown to report at the secretary's office. Two showed up. So the secretary asked, which of you is with the telephone company? Simultaneously the two Lyle Browns said, "I am." So they shook hands—Lyle Brown, San Francisco district manager of Pacific Telephone and Telegraph, with Lyle Brown, Sedalia, Mo., district manager of Southwestern Bell Telephone Company.

Seals Appetite For Metal Causes Death

SEATTLE, WASH.—(AP)—Custodian Gus Knudson reported after an autopsy that Wolland Park's lone seal, Roly Poly, which died recently, apparently succumbed to metal poisoning.

The autopsy showed the seal had consumed more than 100 copper pennies, three nickels, 84 aluminum, plastic and brass tax tokens, one brass lapel insignia of the Army's second infantry division, two tiny pieces of steel and a miscellaneous collection of metal washers and buttons.

BEHIND THE PLOW IS OUTSIDE THE LAW

WILLIAMSBURG, IOWA—(AP)—One of Iowa's most contented farmers is Fred Blythe. Although he has a law degree from Columbia University, Blythe has been a dirt farmer for 30 years.

"I've enjoyed every minute of these years on the farm," Blythe says. "I get more satisfaction than I ever could have in the law. My people were farmers for generations and I guess it's sort of in my blood."

Blythe took his law degree at Columbia in 1916 and after graduation was chosen as one of a group to attend a three-months course in England under Norman Angell. Later he began practicing law in Chicago but soon yielded to the call of the farm.

School Lunch Packing Ends After 32 Years

LAWTON, OKLA.—(AP)—A Comanche, Okla., county farm woman has completed a job she started more than 32 years ago. That job for Mrs. A. F. Pittman was packing lunches for her nine children to take to school. The first lunch was packed for son John in 1914 and the last for son Alfred who was graduated from high school last May.

NURSES SCORN JINX IN CLASSES OF 13
OKLAHOMA CITY—(AP)—Nurses in training at the University of Oklahoma medical school here are not superstitious. A class of 13 junior grade nurses became seniors May 26. Another class scheduled to be graduated in October, has 13 members, as has a third class to be graduated in September, 1948.

Five tons of high grade alloy steels go into the manufacture of one transport or heavy bomber plane.

Sale To Highest Bidder

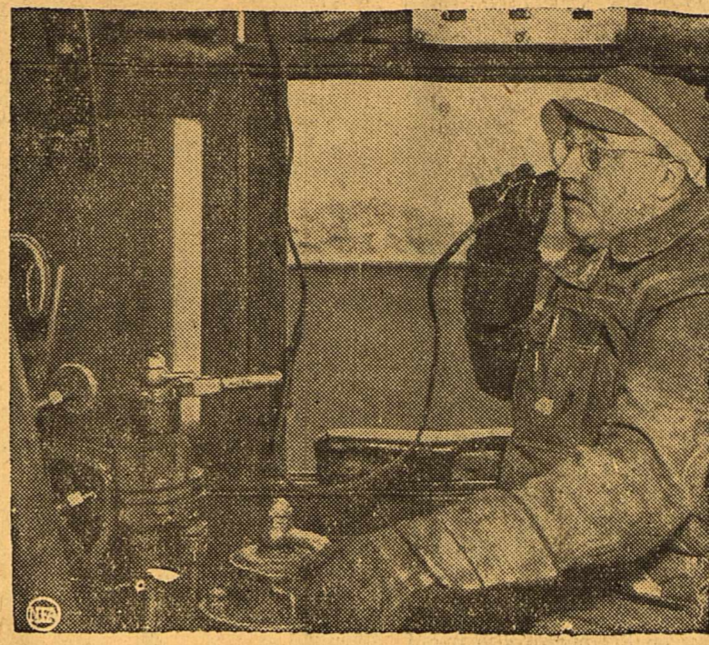

Lots 11 and 12, Block 56, Original Town of Midland, Texas.

Bids will be received subject to lease now in force on said property. Said lease expires April 30, 1950. Bids will be submitted to the Board of Directors of the Association owning the property. Said board reserves the right to reject any and all bids.

Bids will be opened June 23, 1947, and should be mailed to John P. Butler, a trustee, Box 1599, Midland, Texas, and accompanied by cashier's check for 10 per cent of amount bid.

This is property on which Ever Ready Service Station is located.

E. H. Barron
Frank Cowden
John P. Butler
Trustees.

Telephones, like the one the engineer is using above, are expected to help reduce railroad accidents. Trainmen can call tower and other trainmen to warn of track blocks, stalled trains and other hazards, or receive quickly emergency changes of orders.

Oklahoma's Oil Craze Is Over

OKLAHOMA CITY —(AP)—Oklahoma's love to recall the exploits of the oil-rich Indian.

"He used to buy a bright yellow high-powered motor car," they say. "On Saturday nights he would get drunk and crash into a bridge abutment. Monday morning he would buy another brand new car explaining to the salesman: 'Bridge no get out of my way.'"

"He used to wreck three or four cars a month."

Just who this Indian was nobody seems to remember, but he is a symbol of the fabulous spending of an era that it dead, the early days of the oil industry when the parched acres on which a patched-pant farmer had scratched out a miserable living suddenly made him wealthy overnight.

Men who had to wear cardboard to cover the holes in their shoes found themselves in a position to buy \$100,000 homes. And they did. The oil strike in Osage County in the 1920's made the Osage Indian tribe there the richest people on earth on a per capita basis—until the gadget salesman moved in

to part the unwary from their money.

"This country used to be a gold mine for broken down painters from the East and antique dealers," said one old resident.

Newly rich farmers hitherto in-entitled to the joys of indoor plumbing spent vast amounts on Persian rugs and foreign tapestries to decorate their lavish homes.

The only trouble is oil wells eventually have a habit of playing out. That shut off the source of income, any a splurger had to leave town, "scratching a broke backside"—as they say in Oklahoma.

Again big money is being spent fast and loose trying to locate new oil fields. But the farmers who own the land are conservative and wiser. They aren't trying now to build one castles in prospective paper profits.

Formerly a producer paid for the cost of digging a well within a month of the time it spouted oil. He got only perhaps 25 per cent of the oil wealth available through slapdash methods of production.

Under Cover

Protected from the blaze of the sun by a hat and a handkerchief on his neck, 70-year-old Arthur J. Reeves takes a shot in Paddington Lawn Bowling Championships in London. England experienced its hottest heat wave in years after its coldest winter.

Short Waves Direct Japan Black Market

OSAKA, JAPAN —(AP)—Japanese black market operators have their own short wave radio which directs truck deliveries and warns of police raids, says Kyodo news agency.

Police found out about it by accident. A radio repairman was fixing a receiver and picked up a powerful black market broadcast by short wave.

He rushed into the street in time to see a truck rattle past equipped with an antenna. Police believe the operators have an old army transmitter.

The operators even close deals by radio.

THE EARLY BIRD TAKES THE COUNT

SACRAMENTO —(AP)—The pheasant is a persnickety bird, California airborne game wardens have found out.

Taking a recent census of pheasants from low-flying planes, they discovered that it has to be done between sunrise and about 8 a. m. During that time the pheasants stand still, in the open, in spite of the roar of the plane, and allow themselves to be counted.

They just don't want to take cover in grass covered with dew.

BUTTERCOOKIES OPEN PASTRY SHOP

LONG BEACH, N. Y. —(AP)—Following in the footsteps of four generations of Buttercookies, Paul and his wife, Jeanette, have opened a pastry shop in this Long Island seaside resort.

Paul says his name started in Warsaw, Poland. His ancestors were noted for their cookies and pastries, all succulently sizzling in dairy rich butter.

THREE FOR ONE

Between two and one-half and three gallons of milk are required to make one pound of butter, depending on the richness of the milk.

Come To Texas, We've Got Everything Bigger And Better, Anyway

By HAL BOYLE

LCS ANGELES—(AP)—There is a traffic jam in paradise—known on the map as Southern California.

The quickest way to bring terror into the face of a Californian is to say:

"My, this is a lovely country. I think I'll settle down here."

He will give you a look of pain and utter dismay. For he has all the neighbors he wants now—more than he wants. He would like to censor Horace Greeley's advice: "Go West, Young Man." He doesn't want to hear anybody say, "California, here I come!"

He has come to the conclusion California has over-sold the rest of America on the virtues of the balmy life here. That life is getting less heavenly every day as thousands of outlanders arrive to set up housekeeping.

"The whole country seems to want to move here," complained one resident. "They've crowded everything out but the climate."

"A lot of people think they can come out here and live free in an orange grove if they don't find work. But those days are gone. If they try that now they'll find themselves full of buckshot. You can't pick oranges for nothing any more."

Families here a generation or two don't holler so loud. They simply remark:

"The old California died the day the movie industry came."

"In another 10 years the Los Angeles area will have 10 million people," they say with dismal con-

viction, "and in 10 years more it will be the biggest city the world has ever seen."

The prospect makes them unhappy rather than proud. The city is growing so fast people complain they can't move out of it.

One man bought a country acre out in San Fernando Valley a year ago.

"I'm 22 miles from city hall," he said, "and already they're talking of putting sidewalks in front of my place. I don't want them. I moved out here to get away from sidewalks and stoplights."

It has caused many people who

came out here to establish homes to give up after a few weeks or months and go back where they came from. They found too much trouble in Paradise.

Recently one rattling jalopy passed through town with its battered radiator pointed east. It held six children and three adults. A baby buggy and a wash tub were strapped on its roof. Gunny sacks full of clothes and household belongings were roped to the fenders. On the rear of the jalopy was scrawled this defiant sign:

"Goodbye California—and all your 'gol-durn geraniums!'"

HOUSE OF MAGIC

Today is the day to mark your calendar and make your plans to see the Texas Electric Show of '47.

EXHIBITS—OPEN 6 to 11 p.m.

All that is new and modern in electric appliances, from complete electric kitchens down to baby-bottle warmers, will be displayed and demonstrated by the nation's leading appliance manufacturers. The very latest in electric refrigerators, toasters, radios and combinations, new types of lamps, washers, vacuum cleaners and a host of other essential electrical devices will be on parade. Whatever you are planning for your Electrical Home of Tomorrow will be right there for you to see and feel and inquire about.

HOUSE OF MAGIC—in the AUDITORIUM

An up-to-the-minute demonstration of electrical magic will be presented on the auditorium stage each evening, bringing to you the greatest magician of all times... ELECTRICITY! You'll marvel at such uncanny scientific tricks as sending music across the stage on a beam of light... an electric lamp lit by a match... hearing light and seeing sound... and many other mystifying feats of electricity.

This year's electrical extravaganza is bigger and better than ever. Plan now to attend as many times as possible—and everything is FREE.

TEXAS ELECTRIC SERVICE COMPANY

The Queen Watches Cricket

Dressed for England's unusual heat wave and protected from the sun by her parasol, Britain's Queen Elizabeth enjoys a cricket match at Cambridge, celebrating Trinity College anniversary.

War-Wealthy Spending Big Money To Develop New Oklahoma Fields

OKLAHOMA CITY — (AP) — War-wealthy amateurs have started a new "wildcat boom" in Oklahoma's half-century old oil fields. More than 600 wells are being drilled throughout the state by a new crop of investors strange to the oil business — war contractors, brewers, wine dealers, professional gamblers and movie stars — all drawn by the lure of discovering fresh pools of "black gold."

Treasury's Drive On Tax Evaders Success

WASHINGTON — (AP) — The treasury's drive against tax evaders is now bringing in \$180,000,000 a month extra revenue and officials said today they hoped to boost that to more than \$200,000,000. Thousands of suspected income tax evasion cases are under investigation. Many date back to wartime, and clamps are still being applied to numbers of persons suspected of black marketing activities.

and you can spend the money and end up with nothing but a hole in the ground. "In two Oklahoma counties over a three-year period the wildcats brought in one producing well for each five dry holes," said Barrow. "The wildcat average throughout the United States is about one out of seven." Even then the producing well may not turn out enough oil to pay for the cost of the other ventures. Of Oklahoma's 44,425,000 acres some 37,000,000 are considered potential oil lands. But only 800,000 to 900,000 acres have been proved. Between 1897 and 1942 some 160,516 wells were dug. Only 52,500 were still producing in 1942.

SUN WAS FIRST

Helium was first discovered on the sun, the discovery coming during a solar eclipse of 1868. Helium was not found on the earth until 1895, in the rare mineral known as cleveite.

CELLULOSE COURSE OFFERED IN COLLEGE

AUSTIN — (AP) — New courses offered at the University of Texas this summer include one on cellulose industries. The course will offer a study of the manufacture of cellulose nitrate for explosives and cellulose for use in plastics and rayon.

HOW TO CONFUSE ARCHAEOLOGISTS

EASTCHESTER, N. Y. — (AP) — A manikin recently was fitted with a complete travel outfit, including vitamin pills in her handbag, before spectators at a department store cornerstone laying here. Then the whole kaboodle was placed in a copper rocket, dropped into the cornerstone and sealed up to confuse archaeologists of the future.

PLATYPUSES ACT LIKE HUMANS; GET PAMPERED

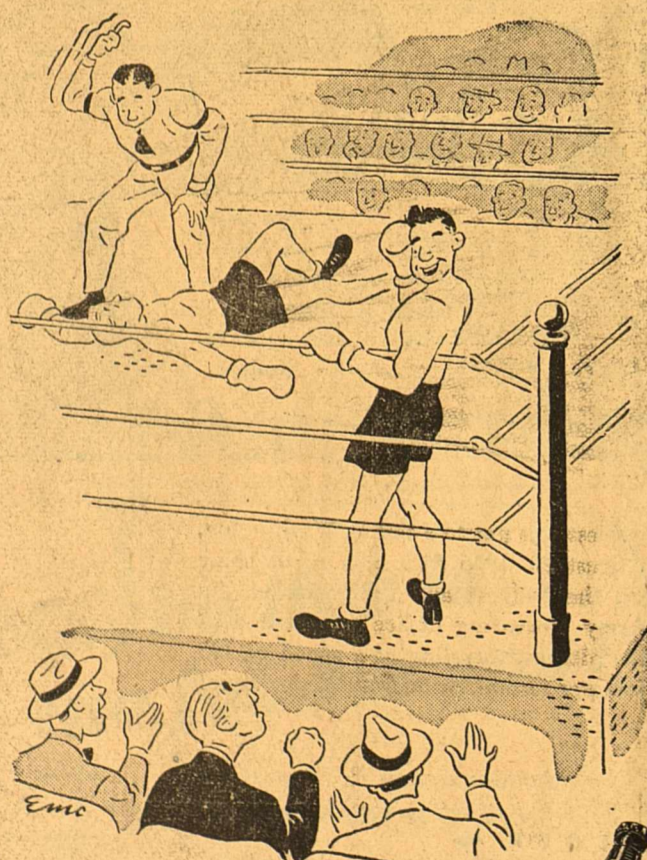

NEW YORK — (AP) — The three platypuses at the Bronx Zoo certainly can't complain about the treatment they have since their arrival from Australia 48 days ago. To soothe jumpy platypus nerves, zoo officials have changed keepers' uniforms from white to dark and barred spectators — mostly women — with bright clothes and umbrellas.

Our Per-Capita Red Population

There are more Communists per capita in the U. S. today than there were in Russia in 1917, says J. Edgar Hoover, the FBI chief.

Furthermore, says Hoover, for each American Communist, there are 10 fellow travelers willing to follow his lead and do his work.

So we can get an even more alarming figure than Hoover's 1,814 to one. But before we jump to any conclusions, we might speculate on how many anti-Communists there were among Hoover's 2,277 Russian non-Communists in 1917.

Russia had already thrown out the tsar in a socialist revolution when the Bolsheviks, core of the present Communist Party, took over in the Fall of 1917.

That was the Russian situation in 1917. Socialism was assured in some form. The big question was when, how much, and by whom.

Whatever conclusion Hoover wishes to draw from his comparative figure, it is obvious that one Communist could accomplish more in the fertile field of 1917 Russia than he can in America today.

There are at present only two discernible ways by which they might do this. One would be for the rest of us to mismanage our economy so completely that a popular uprising could result.

Both possibilities seem remote, but they are worth guarding against. A tendency toward the second is responsible for much of the Communist strength in America today.

Too many liberals are inclined to confuse communism with liberalism, and to call all their opponents Fascists. Conversely, too many conservatives brand all liberalism as communism, thus infuriating sincere, patriotic liberals and making them easier prey for the Communists.

Hoover's FBI has a big job to do in uncovering and exposing active communism. But there is an equally big job of education to be done by our press, schools, political parties, unions, and other groups.

Fish Is Excellent Summer Food

By GAYNOR MADDOX
NEA Staff Writer
Try ten main dishes for hot weather meals. Well prepared and attractively served, they'll please everyone in the family.
From the new 951-page com-

prehensive "Woman's Home Companion Cook Book" comes these two delicious fish recipes:

Fish Mousse
(Serves 6-8)
Two pounds salmon or halibut, 1/4 cup butter, 1/4 cup flour, 1/2 cup cream, 2 teaspoons grated onion, 1 tablespoon lemon juice, 2 teaspoons salt, 1/4 teaspoon pepper, 4 egg whites.

Poach fish, preferably in court bouillon; drain, reserving stock. Strain stock. Cool fish; discard skin and bones. Put through fine knife of food grinder. Heat butter; blend in flour. Slowly add cream and 3/4 cup of the fish stock; stir over low heat until thickened. Add onion, lemon juice, seasonings and fish. Fold in egg whites beaten stiff but not dry. Pour into greased fish or ring mold (about 1 1/2 quarts capacity). Place in a pan of water. Bake in a moderate oven (325 degrees F.) About 1 hour. Unmold onto hot platter; garnish with lemon wedges and parsley. Serve with anchovy sauce, mock hollandaise, or savory fish bechamel sauce. Note: Other flavorful fish may be used in place of salmon or halibut.

Flaked Fish in Cream
(Serves 4-6)

Two to three cups fish, home-cooked or canned, 1/4 cup butter or salad oil, 3/4 cup cream, 1/4 cup onion, 3 tablespoons chopped parsley, 1/2 teaspoon salt, 1/4 teaspoon pepper.
Drain fish and flake coarsely. If canned salmon is used, substitute liquor from can for fish stock. Heat butter or oil. Combine cream, stock, onion, parsley and seasonings; add to fat. Simmer over low heat about 5 minutes. Add flaked fish and heat thoroughly, stirring gently to avoid mashing the fish. Serve on toast or with baked potato.

Japanese Leaders Are Making Overtures On Possible Treaty Terms

By JAMES D. WHITE
AP Foreign Affairs Analyst

As the rift between Russia and America widens over Balkan and European issues, Japanese political figures are emboldened to make tentative little stabs at writing their own peace treaty.

The new Japanese foreign minister, Hiroshi Ashida, last week suggested Japan would like to get back some of the Kurile Islands and Okinawa, largest of the Ryukyu group.

Russia got the Kuriles at pre-surrender conferences, and it was decided long before Okinawa should be taken from Japan.

Ashida did not say why Japan wanted the Kuriles back, but did say Okinawa was "not very important" to Japan's economy and Japan wanted it back "for sentimental reasons."

Such sentiment is no doubt popular in Japan, but is not likely to impress either Russia in relation to the Kuriles or China in regard to the Ryukyus.

The signs are, rather, the times are such that Ashida is making a "domestic political hay."

Ashida is not a Social-Democrat like former Ito Katayama. He is president of the Democratic Party, one of the two big conservative political parties in Japan.

The other is the Liberal Party, which lost control of the Japanese government when enough Social-Democrats were elected recently to force the choice of a Social-Democrat premier.

The Nanking Hsin Min Pao (with other Chinese papers) says frankly "the rivalry between the United States and the Soviet Union... may work in favor of the regeneration of an aggressive Japan."

AIRBORNE INVASION OF CANADIAN HONKERS

SUSANVILLE, CALIF.—(AP)—No body is kicking about an airborne invasion that has taken place near here.

More than 100 Canadian honkers—large geese—have settled along Honey Lake in Lassen County and are busy raising families.

Some nests examined by game wardens have as many as 15 eggs each.

England was producing 105,000,000 gallons of gasoline a year from coal just before the outbreak of the war.

New Broom Sweeps Clean, Also Is Good For Taking Off Fat

DALLAS—(AP)—Here's a reducing remedy that M. E. Beckler of Deshler, Neb., claims will sweep women's weight worries completely away.

Just take one broom and use it vigorously.

Its one of the surest ways, Beckler avows, for a woman to reduce her hips and waistline.

Not only that, Beckler says, it's a "double morale builder" — she gets the twin satisfaction of cleanliness for her house and streamlining for her figure.

Of course, his statement might be pure propaganda.

Beckler was here to supervise a broom exhibit at the United States wholesale grocers association convention.

Carrying a small potato on your person will ward off rheumatism, according to an old belief.

"You don't need sugar with"

TEXSUN

America's No. 1 GRAPEFRUIT JUICE

The naturally sweeter fruit of the fertile Rio Grande Valley of Texas naturally produces sweeter juice.

Don't add sugar to TEXSUN—it isn't needed, and it changes the fresh natural taste.

More people buy TEXSUN because more people want their fruit juices fresh—undiluted—undulcerated.

TEXSUN CITRUS EXCHANGE, WESLACO, TEXAS

Maybe this is the job for you!

Is getting a job your big problem right now? Maybe we can help.

Have you ever thought about being a telephone operator? It's a girl's job—and a good one too!

No experience? Doesn't matter—you learn (and earn, of course) as you go along. And telephone work has always held a fascination that's hard to describe. Why not see whether you can qualify?

The chief operator at the telephone office will be glad to talk it over with you.

Plant Owners Absolved In Texas City Inquiry

WASHINGTON—(AP)—An insurance underwriter's recent inquiry held the Texas City disaster April 16 was caused "wholly" by two ship explosions and oil and chemical plants there were not to blame. The report was made by George Armistead Jr., of Washington, consulting chemical engineer, for John G. Simonds & Company of New York, oil refinery insurance underwriters. "The cause was wholly from the explosions of the two cargo vessels which both disintegrated at the Texas City docks within about 16 hours of each other," Armistead's report said. "These ship blasts appear beyond reasonable doubt to have resulted from the detonation of ammonium nitrate caused by fire." The Coast Guard in its investigation of the disaster reported there had been ignorance and violation of safety regulations governing the handling of "dangerous" cargoes. Giraffes, when their food is juicy, can do without water almost as long as a camel.

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY
America's Card Authority
Written for NEA Service
Years ago in Cleveland in the days of auction bridge my favorite partner was John Law, who is now located in Miami. I had the pleasure of seeing him again during the Southeastern Regional Tournament at Hollywood, Fla. We were chatting with J. Patrick Dunne, the blind bridge player, and Fred Snite, the iron lung man, and I was describing some of the great plays that Law used to make. One of them occurred in today's hand. South won the opening club lead with the ace, led a small diamond and went up with dummy's king, dropping East's jack. A small heart

was led from dummy and the jack finessed. Law (West) refused to win, playing low. Now declarer led the five of diamonds, on which Law played the seven-spot. Declarer had to guess whether the jack East had dropped was a singleton, or whether East also held the queen. He guessed wrong, and played dummy's three-spot. Then Law quickly led the queen of diamonds, knocking out South's ace. Even now declarer was not greatly worried, because he thought he had a safe heart finesse—but when he took it, Law won with the king of hearts and cashed the rest of his diamonds.

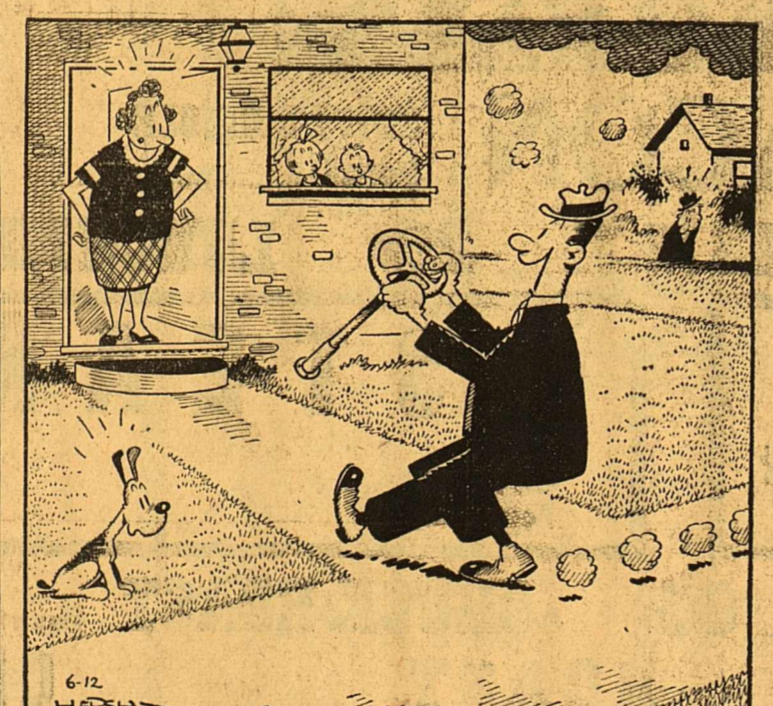

Two Years Away, Cat Comes Back Home

RACINE, WIS.—(AP)—It took two years and a 600-mile hike to do it but Boots, Mrs. Raymond McCullough's wandering tom cat, finally has come home. Mrs. McCullough shipped Boots, a gray Maltese, to the home of her mother, Mrs. E. J. Mosher, at Albion, Pa., two years ago. The cat stayed one month, then disappeared. Mrs. McCullough looked out the window and saw Boots. She raised the sash. Boots leaped into the house, accepted a saucer of milk, sauntered leisurely to his favorite spot in back of the sofa and went to sleep.

First Jet-Propelled Speed Boat

Sir Malcolm Campbell wears special sound deadeners in helmet warming up engine of 30-foot first jet-propelled speed boat, unveiled at Portsmouth, England. With possible speed of 160 miles-an-hour, the 61-year-old driver will try for a new world record on Lake Coniston, England. He holds the present mark of 141.7, set record of 301 in an automobile in 1935.

America Has Tried—With More Than Fifteen Billion Dollars—To Help World's Needy; What Is Next Step?

By JAMES MARLOW
WASHINGTON—(AP)—Where do we go from here?
Since World War II this country has shoveled out more than \$15,000,000,000 in civilian relief. Most of it—like loans, food, clothing—has gone to European countries. It's been sent piece-meal, to plug a hole here, fill a need there. And the countries of Europe still are in bad shape. The more disorganized they become, the more apt they are to turn to Communism.
This move, called the "Truman Doctrine," received plenty of criticism here and abroad. The critics called it American interference.
It didn't scare or stop the Communists. Blocked, although maybe only temporarily, in Greece, they took over Hungary last week. Where next?
The Communists are powerful in France and Italy. If these countries were to go Communist, the pressure on smaller nations to do likewise would be terrific.
Might Mean Depression
A Communized Europe might mean a tragic depression here through loss of trade with Europe. Does this country go on dishing out help piece-meal to European nations which may take it and then go Communist anyway?
Congress seems in no mood for that. There was plenty of opposition in Congress this session against handing out more European relief. Now Secretary of State Marshall has a plan—or perhaps it's only a proposal. Briefly, it's this:
The European countries should get together and figure out a program of their needs if they want continued American help.
This would mean a cooperative effort to get on their feet. Yet, European countries in all their history have never been able to do that.
Marshall's proposal didn't spring suddenly out of his head. There's been talk here for weeks that some organized relief and reconstruction plan for Europe is needed.
(On May 21 Harold E. Stassen, who's seeking the Republican presidential nomination, also suggested a big 10-year reconstruction program.)
Such a reconstruction program—and it would mean a thought-out, organized program—would cost billions of dollars.
Congress, balking now at piece-meal help to Europe, might go for a thought-out program of reconstruction. Maybe.

EXPERT FORGER

Robert Spring, once a clerk in Washington, D. C., and a famous forger, made such interesting copies of George Washington's signature that they now have a value of their own among autograph collectors.

Indian Leaders Hope To Work Out Single State After Freedom

By CHARLES A. GRUMICH
AP Foreign Affairs Analyst

Indians attending United Nations sessions at Lake Success are hopeful that the partitioning of their homeland will be only a trial separation and that a reconciliation of the Hindu and Moslem communities will be effected once they have said goodbye to the British. These feelings seem more wishful than hopeful, however, at this early stage in settling the future of the sub-continent's four hundred millions.

While the principles for partitioning India will be settled. The details of livelihood on both sides of the lines are something else to be worked out.

The best the British could get out of the whole deal would be a choice by both dominions to remain in the British commonwealth instead of proclaiming themselves independent, which either or both may do.

One Common Goal

Indian politicians of all stripes appear to be working toward one common objective: to keep India, once free of the British "Raj," from finding itself again a prey to exploitation from the outside.

But the division of the sub-continent only multiplies this task and the rival leaders in the two major dominions may find it difficult to keep outsiders from playing one against the other.

The first major internal reform already undertaken by Indians in the Interim Government at New Delhi is a step toward abolition of untouchability in the Hindu caste system.

Many Hindu leaders, including Jawaharlal Nehru, who stands on the very top rung of the caste system as a Kashmiri Brahmin, refuse to recognize untouchability, and Mohandas K. Gandhi lives among the untouchables. There is a practical political angle to raising the lot of the so-called scheduled castes, however, and the leaders are doubtless mindful of the many easy conversions to Christianity from the lowest ranks who were outcast from the Hindu fold.

HORSE SHOWS CONTEMPT FOR AUTO

America's Prestige Is Rising In Middle East As Others' Wane

By JERRY KORN
AP Foreign News Analyst

The United States is swiftly outstripping both Russia and Britain in the world where interests of the three big powers meet head-on—the Middle East. That area is extremely important to all three nations because of its great oil reserves and because of its strategic position astride the crossroads of the air, sea and land routes around the globe. For many years the nations of the Middle East have been among the most backward in the world. Now they are modernizing, with American assistance. And as the lot of the people improves, the stock of the United States rises.

Take Saudi Arabia, which contains much of the Middle East's oil. Development program is under way there which American officials say will change the country more in the next five years than it has changed in the last five centuries.

King Ibn Saud's own five-year plan will cost about \$100,000,000. A little of this is being furnished by American private and government sources. American oil companies have vast projects which will bring the total to more than \$400,000,000.

But Americans are furnishing something harder to find in the Middle East than money: Industrial knowledge. By the time the Saudi Arabian program is completed some 4,000 United States experts' largest American colony in the Middle East will be living in the country.

"It's to our advantage to see more wealth produced and better distributed," one American official says. "The people will associate prosperity with the United States." Officials say British failure to recognize that fact in time is one reason why they lost their position of leadership.

Russia, these experts add, fumbled a chance to build up good will when it moved into Azerbaijan.

Russia could have developed the country and used it as an example for the other Arab countries. Instead the Russians stripped the region bare, and their standing dropped so low in the Middle East even the Iranian intellectuals—who might normally have supported the Communists—were soured on them.

Leaflets List Men Who Fought Russia

BRATISLAVA —(P)—Six persons have been arrested here by order of the Slovak ministry of interior on charges of printing and distributing leaflets headed "Soldiers who fought against the USSR in 1941-43" and containing the defense testimony of the executed president of Slovakia, Dr. Josef Tiso. The leaflets were distributed throughout all Slovakia, where the trial and conviction of Tiso aroused widespread dispute. Some were found on the graves of former premier Bela Tuka Otnar Kubala, chief of the Nazi-patterned Slovak Hlinka guard, both of whom were executed.

The ministry said some of those arrested were civil employees and others had fought against Russia in Slovak divisions of the German army under Tiso's presidency.

NOT WHAT IT STEAMED

CHARLESTON, W. VA.—(P)—Firemen rushed to a Charleston hotel in answer to an alarm, but they didn't stay long. The "smoke" somebody had reported proved to be steam from a shower being taken by a guest.

California Says You Can't Have Any Fawn

SACRAMENTO —(P)— Yes, a spotted fawn is cute and irresistible, but just the same don't take one home if you find it alone.

The Californian state fish and game division warns soft-hearted hunters that the fawn is not lost or abandoned. Its mother is around somewhere and knows her business.

Besides, to take or possess a spotted fawn in this state happens to be illegal, and you could wind up paying a \$50 fine, or doing 25 days in jail, or both.

State Puts 'Em In Roy Pulls 'Em Out

DECATUR, ILL.—(P)—Angling is easy if you know the angles. While 3,000 catfish were being dumped into Dreamland lake, young Roy Northland tossed in his line, caught an eight-inch fish and left before the conservation officer could say: "Get away from here, boy."

California golden trout grow six times as large in Wyoming as in their native state.

Air Line Officials Relected

Relected to the board of Pioneer Air Lines at the annual meeting this week in Houston are, left to right, William F. Long, Dallas, chairman; Harold B. Seifert, Houston; J. Wesley Hickman and Col. Robert J. Smith, president, both of Dallas; Raymond Pierson, Houston, and Lang Wharton, Dallas.

Major Leagues Red Sox Hurlers On Trail Up

By The Associated Press
Making his first appearance of the season, Micky Harris hurled seven innings of scoreless ball Wednesday as the Boston Red Sox turned back the Cleveland Indians for the third straight time. The victory enlivened the American League's pennant chase, and gave evidence of the gradual return to form of the Red Sox pitching staff. In the National League, the big noise was Chicago's double-barreled win over the Boston Braves, 4-0 and 5-2.

Other Results
The New York Yankees' sensational rookie, Frank Shea, had his winning streak broken at seven when the Chicago White Sox beat him, 3-2, in 11 innings. The loop leading Detroit Tigers divided a twin bill with the Philadelphia Athletics, winning the first game, 7-1, and dropping the second, 4-0, to Carl Schein, a 20-year-old rookie making his first major league start.

Cincinnati's Reds, wall-popped Brooklyn's Dodgers, 5 to 4, in the place it hurt worst—Ebbets' Field. The New York Giants watched some of their lead dwindle as they lost a slugfest to the Pittsburgh Pirates 8-7. The St. Louis Cardinals' rise out of the cellar was short-lived as the Philadelphia Phillies shoved them back with a 5 to 4 victory over the National's defending champions.

Oilers Bump Indians, 13-1 Third In Row

ODESSA—One! Two! Three! The Odessa Oilers beat the Midland Indians, 13 to 1, here Wednesday night for the third straight victory in a three-game series.

Midland opened with one run and did not scratch thereafter. Odessa bunched runs of four in the second and fourth and eighth and got one in the sixth.

Babe Zaharias Wins British Women's Title

GULLANE, SCOTLAND—(AP)—Mrs. Babe Didirikson Zaharias of Denver, Thursday became the first American ever to win the British women's amateur golf title by defeating Jacqueline Gordon of London, 5 and 4, in the 36-hole final. The Denver girl's triumph fulfilled the worst fears of the British, who now do not retain a single one of their own golf titles on their side of the ocean. Only two weeks ago Willie Turnesa of New York City, won their men's amateur crown in a final duel with Dick Chapman of Pinehurst, N. C.

Sam Snead of Hot Springs, Va., won the men's British open crown a year ago but will not return to defend his laurels next month.

Mrs. Zaharias, winner of 15 straight tournaments in the United States before she came here for the "only major title I have left to win," consistently outdove her opponents all through the tournament.
