Senate Filibuster Stalls Veto Vote

Labor Bill Passed Over Presidential Veto

Representative Fred A. Hartley, Jr., Republican from New Jersey, right, co-author of the Taft-Hartley labor control bill, is congratulated by Representative John Lesinski, center, Democrat from Michigan, who led the fight against the bill. The House voted to override the President's veto, 331-83. At left is Representative Charles A. Halleck of Indiana, House Republican leader.

Clayton Flies To London

WASHINGTON — (AP) — Undersecretary of State William Clayton, ranking American authority on economic foreign policy, Saturday flew to London at the climax of British-French efforts to win Russian cooperation in the Marshall proposal for European recovery.

Clayton is the first high State Department official to visit Europe since Secretary Marshall on June 5 called for European governments to take the initiative in working out their own salvation before the United States gives further financial aid.

Authoritative indications were Clayton would tell British officials Marshall wants something more than merely a new schedule of loans and grants which Europeans would like from the United States. The idea Clayton is prepared to emphasize is the United States will back only a plan providing for minimum American aid and maximum European self-help.

American officials privately welcomed reports from Moscow and London the Soviet government is "interested" in the Marshall Plan and may participate in or observe discussions of it.

But official enthusiasm over the first reaction was greatly dampened by skepticism as to whether the Russians really would go along with full-scale recovery planning.

House Republicans Not To Consider Hike In Postal Rates Until '48

WASHINGTON — (AP) — House Republican leaders said Saturday there will be no increase in postal rates this year, despite the administration's request.

The present three-cent rate on first-class mail (letters) will be continued for another year and will not be allowed to drop back to the pre-war two-cent rate on July 1, they told a reporter.

But they have decided to drop plans for a general postal increase because "there just isn't time enough between now and adjournment late next month to enact such a bill."

In keeping with the decision of the GOP high command, Chairman Rees (R-Kas) of the House Post-office Committee has introduced a bill which would retain rates at their present levels until Congress can act on a permanent measure.

Drop Would Cause Deficit
If the three-cent rate were allowed to drop back to two cents on July 1, as it would without a new act, Rees said, "it would create a further deficit of about \$200,000,000."

Rees' committee has approved a general postal revenue bill which would boost rates in several categories. But because of stiff opposition from many sources, the bill has been bottled up in the Rules Committee.

Major opposition, Republican leaders said, has come from publishers whose second-class mailing rates would be hiked.

Continued Shipment Of U. S. Oil To Russia Is Seen As Reason To Restore Export Regulations

WASHINGTON — (AP) — Restoration of controls on oil exports Saturday was predicted by Rep. Shafer (R-Mich) after an inquiry into petroleum shipments to Russia.

Controls are permitted under a law expiring June 30, but have not been in effect on oil since shortly after V-J Day. Legislation to continue them is slated tentatively for House action next week.

Shafer made the forecast after a House armed services subcommittee he heads heard spokesmen for the Office of International Trade describe current petroleum shipments to Russia as "normal."

Shafer called the hearing after congressmen had complained because Russian tankers are taking an estimated 500,000 barrels of petroleum products to Siberia from West Coast ports in the face of a threatened shortage in this country.

"You can look for export controls to be clamped back on momentarily," he told reporters after the hearing. "I wouldn't be surprised if it happened over the week-end."

Thomas E. Blaisdell, head of the Commerce Department's office of International Trade, told the committee "there is nothing unusual" about current shipments to Russia.

"There was nothing unusual about sending scrap iron and oil to Japan in the 1930's, either," Shafer interposed, adding he failed to see the logic of sending supplies to Russia at a time when the United States is spending millions to halt the spread of Communism in Europe.

Funeral directors from 40 South Texas cities will assist the Texas City body commission in supervising the mass burial.

Each body will be placed in a cypress casket and carried to its grave in a private hearse. Caskets will bear only identification numbers and sprays of flowers.

Clergymen participating in the services will include the Rev. Frank S. Doremus, rector of St. George's Episcopal church; Father Carl Kermit of St. Mary's Catholic; The Rev. Kenneth Teegarden, pastor of the First Christian church, and Rabbi Lewis Feagan of Galveston.

A negro clergyman also has been invited to participate.

More Than 400 Bodies Claimed
Bodies of 405 victims of the nation's greatest post-war tragedy already have been claimed and buried by relatives and friends. Of this number the identity of 135 was determined through fingerprints, belt buckles, watches, rings and other personal effects.

LATE NEWS FLASHES

BAR HARBOR, ME.—(AP)—Threatened in her summer home by a pistol and knife wielding servant, Mrs. Mary Roberts Rinehart, 70-year-old author of many popular crime novels, escaped injury Saturday.

NEW DELHI — (AP)—Rioting mobs Saturday killed at least 16 persons in Lahore as legislators poured into the capital city to vote on partition.

LONDON — (AP)—Harry Pollitt, British Communist Party leader, said Saturday he had been refused a visa to enter the United States by the American Consulate in London.

ROME — (AP)—The extreme right wing, monarchists and liberals threw their support to Premier Alcide De Gasperi and the Christian Democrat leader won a vote of confidence Saturday.

FORT STOCKTON — (AP)—Russell Rokahr, 60, El Paso probation officer, was killed Saturday when his car overturned 15 miles east of Fort Stockton after a rear tire blew out.

City Offers MAT Buildings For Rent This Week

Scores of warehouses, some of which are refrigerated; industrial buildings, barracks, a theater building, recreational buildings, hangars, shops, offices and many other buildings, suitable for various uses and for conversion into living quarters, at Midland Air Terminal, formerly Midland Army Air Field, will be available for rental next Friday, or any day thereafter, city officials announced Saturday.

The former world's largest bomber training center was returned recently to the City of Midland, and officials have worked rapidly to have the buildings ready for leasing as quickly as possible.

More than 200 buildings are located at the field which is served by a railroad spur and which has all utilities. The buildings are suitable for storage and for most any type business. Possibilities for the field are unlimited, officials said.

Rental Rates
City Manager R. C. (Bob) Hoppe will accept applications and will handle the lease negotiations. His office is in the city hall.

Rental rates will be on a per square foot basis, with prices depending on the type building. A special Midland Chamber of Commerce board including Fred T. Hogan, Addison Wadley and Barney Greathouse has been appointed to survey the buildings and to recommend fair and equitable rental rates to the City Council.

Industrial, retail business and housing zones have been established at the airport. The buildings may be remodeled or improved with the approval of the city council. None of the buildings are being offered for sale.

Hungarian Reds Claim Nagy Conspired With U. S. Against Regime
BUDAPEST — (AP)—A "white paper" compiled by the Hungarian Communist Party said Saturday night former premier Ferenc Nagy, through his connections with prominent Americans, "tried to make Hungary the Southeastern European economic and political base of the United States."

The white paper, dealing with the plot which the Communists said Nagy hatched against the Hungarian government, was advertised by Communists as being full of details of "crimes" committed by various persons—including Nagy who were involved in a conspiracy against Democracy. (The Hungarian type of Democracy is referred to.)

Although it makes no charges of a sensational nature, it is full of hints regarding a number of persons, including former U. S. Minister H. F. Arthur Schoenfeld; Paszko Eker-Racz, former economics expert of the U. S. Legation here; Under-Secretary of State Dean Acheson and Rep. Sol Bloom (D-NY) former chairman of the House Foreign Affairs Committee.

Weather
Partly cloudy Sunday and Monday, with scattered thunder showers Sunday. Not quite so warm Sunday.

Fate Of Labor Bill Will Be Decided On Monday By Senators

WASHINGTON — (AP)—A filibuster by foes of the Taft-Hartley labor bill cracked late Saturday and Republicans won an agreement for a Senate vote Monday on their own terms.

They confidently predicted it will enact the measure into law over President Truman's veto by the required two-thirds majority and three or four votes to spare. Opponents of the bill conceded their chances are slim for stopping it.

The voting agreement was reached after 28 1/2 hours of a marathon session by consent of all present. But the debate then went on, although only five Senators remained on the floor with Senators Murray (D-Mont) and Olin Johnston (D-SC) speaking against the bill.

Finally, after 30 hours and 52 minutes—the longest session in 20 years—the Senate recessed until 10 a. m. (CST) Monday. Then the debate will start again until the hour of the vote, 1 p. m. (CST) Monday. From outside the Chamber, Rep. Hartley (R-N.J.), co-author of the bill with Senator Taft (R-Ohio), issued a scorching answer to the Presidential veto and broadcast. Hartley called Truman's arguments "false." He said some lan-

guage the President attacked is not in the bill at all in its final form. He accused the President of sponsoring "misrepresentations, half truths and distortions."

Truman himself gave no sign he plans any further fight to prevent passage of the bill following his busy Friday when he sent his veto message to a heedless House, called in a dozen Senators for a luncheon conference, and took his arguments to the nation by radio. He was at the baseball game Saturday watching Washington defeat St. Louis, 5 to 4, when the break in the Senate came.

Taking no chances, the Republicans decided "no pairs" will be allowed for the vote. Under the pairing procedure, a Senator who is present sometimes refrains from voting in a "pair" with an absent Senator who would vote the opposite way.

Taft, smiling confidently, predicted the veto will be overridden "by three or four votes." This was the margin forecast by other supporters of the bill, too.

The lineup had been 54 to 17, more than a two-thirds majority, when the Senate passed the bill June 6.

The agreement for a vote came when Senator Morse (R-Ore) gave up what he acknowledged as a filibuster "to assure unlimited debate" after holding the floor 10 hours non-stop.

Senator Pepper (D-Fla), chosen to lead the supporters of the veto, agreed their outlook was grim.

"The margin at the present time is very close," Pepper said. "It is against the proponents now by a few votes but that could shift over the weekend."

The agreement provides the debating time on Monday before the voting hour shall be divided equally between friends and foes of the bill. Senators Taft (R-Ohio) and Pepper are to parcel it out to those who want to speak.

The bill's supporters demonstrated during the night they can sleep on creakroom couches with the best of them. Each time someone forced a nose count, they came out in numbers. The President's supporters were less evident as the night wore on with one attempt after another for a vote agreement being blocked.

JESTER SIGNS PROBATION AND PAROLE LEGISLATION
AUSTIN — (AP)—An adult probation and parole bill also designed to make sure members of the board of pardons and paroles are persons qualified for these highly-specialized jobs was signed Saturday by Gov. Beauford H. Jester.

Breaks World's Speed Record

The official world speed record was broken at Moore Army Air Base by Col. Arthur Boyd of Dayton, Ohio, flying an AAF Lockheed P-80R jet-propelled "Shooting Star." He flew four runs at an average speed of 623.8 miles an hour, surpassing the last world's record of 616 m. p. h. made in Great Britain.

New Mexico Cattlemen Protest Using State For Rocket Tests

RATON, N. M.—(AP)—The executive board of the New Mexico Cattle Growers Association Saturday opposed further use by the Army of Southern New Mexico for experiments in push-button warfare.

By resolution at the closing session of its spring meeting, the board recommended Congress demand the War Department to furnish ample evidence "this dangerous experimental work cannot be carried on in some such area as Bikini before additional funds are authorized for expansion of facilities in New Mexico."

The resolution asserted the Army now is using 4,000,000 acres in Southern New Mexico in its White Sands proving ground, Alamogordo bombing range and Guadalupe range.

George A. Godfrey, cattle growers president, advocated transfer of rocket experiments from White Sands proving ground shortly after wild German V-2 rockets landed near Alamogordo and Juarez, Mexico, last month. No one was injured.

Another resolution reiterated a demand for immediate construction of a fence on the U. S.-Mexican border, as a preventative to spread of hoof and mouth disease from the Southern Republic.

Terminal Leave Cash Bills Likely To Push Out Military Training
WASHINGTON — (AP)—Members of the House Armed Services Committee said Saturday an all-out drive to cash GI terminal leave bonds probably will sidetrack universal military training legislation until next year.

The committee already has held three public hearings on universal training but has set no date for their resumption. It has questioned three members of the President's special commission which recommended the plan.

Hearings Start Wednesday
Hearings on more than 30 bills to make the terminal pay bonds redeemable immediately instead of five years from their issue date are tentatively set to start next Wednesday and may last several days.

The Republican House leadership is driving for passage of a bill within two weeks.

The final decision on the future of universal training hearings will be made Tuesday, with many members favoring postponement until early next year.

One high-ranking committee member said he believes "about two-thirds of the members want to stop the hearings now, although not that many of them are against universal training."

Proponents of the training plan fear a delay in consideration until next year will mean its defeat.

U. S. Army Gives Austrian Morale Boost With Funds

VIENNA, AUSTRIA — (AP)—Austria, under pressure by Communists to revise her government along the lines of the Hungarian coup, Saturday was given an economic boost by the U. S. Army which announced its 15,000 occupation troops would in effect become tourists so far as spending power is concerned.

A new plan, the Army announced, calls for the Army to purchase Austrian schillings from the Austrian government with dollars to cover occupation costs beginning July 1. The program is expected to give Austria about \$20,000,000 a year in dollar currency for foreign exchange.

Heretofore the Austrian government has been paying out about 15 per cent of its annual budget to pay the occupation costs of four Armies, American, Russian, British and French.

A U. S. Army spokesman said the plan was a "terrible shot in the arm for Austrian economy and morale," and Chancellor Leopold Figl was "flabbergasted" when he heard about it.

Foy Proctor Contracts 5,000 Feeder Calves For Delivery In Fall
Foy Proctor of Midland last week contracted about 5,000 steer and heifer calves in this area for fall delivery, it was reported Saturday.

Ranchmen from whom Proctor has contracted calves, and the approximate number contracted from each, include:

Cowden Brothers, 100; Frank Cowden, 250; Leonard Proctor, 150; Marlon Flynt, 125; M. F. King, 90; Arnold Scharbauer, 400; Millard and Scharbauer Eldson, 650; Scharbauer Cattle Company, 2,300.

Prices were not disclosed.

GETS RFC LOAN
DALLAS — (AP)—Dr. George H. Anderson, vice president of the Lone Star Steel Company, said Saturday the Reconstruction Finance Corporation has approved formally a loan of \$1,250,000 to Lone Star.

The money, matching an equal amount raised by the company, will bring its working capital to \$2,500,000.

Prices were not disclosed.

Midland Jumps Into League Batting Lead; Also Well Up As Individuals

Midland has jumped into the team batting lead of the Longhorn League, according to latest statistics released by the loop. Here are the facts and figures:

SPORTS

2—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JUNE 22, 1947

DOWN SPORTS LANE

with TANNER LAINE

Oh boy! It's girls who are going to play softball in Midland the night of August 2 at the Midland Softball Park.

The famous Jax Brewers feminine from New Orleans will spend the night in our city en route to Phoenix, Ariz., for a tournament.

While here the lassies want a game and so Blondy Cross's renowned Red Chicks have been selected as the opponent.

The lineup is good for the 15th Annual Coaching School of Texas, scheduled this year in El Paso, August 4-8. General headquarters will be at the Cortez Hotel. Lectures will be at the El Paso High Auditorium. Demonstrations will be at the El Paso High Stadium and gymnasium. To be hashed are: football, basketball, baseball, injury care and prevention, football rules and interpretation, publicity problems and tips for sportswriters. The faculty is: Lil Dimmit, Doc Cramer, Abb Curtis, Rodney Kidd, Harold Rathiff, Harry Stittler, Jess Neely, Forrest Cox, Joe Davis, Owen Cochran, Bo McMillan, and Adolph Rupp.

From the SPORTING NEWS, a story of a perfect triple play where no one touched the ball: **Umpire Ray Blattner of the Pony League tells one for the book about a team at bat retiring itself, via a triple play, without a member of the opposing team touching the ball:** "I'm calling 'em behind the plate at Wellsville, don't remember the name of the other club," Blattner relates. "Wellsville is at bat, bases

Odessa Again, 11 To 9

The doggone pesky Oilers did it again Saturday night, beating the Midland Indians 11 to 9, and had no right to do it.

It was a battle in the wind and Odessa won it with a barrage of 20 hits and fat third inning flurry of seven tallies. That broke Midland's back although the crippled Webbs made an issue of it.

Same as Friday night, the Indians started strong, got three in the first, one in the second, and one in the fifth, added was four in the eighth. Odessa got seven in the third, one in the fourth, one in the eighth, and won the game in the ninth with two.

Midland got to Lefty Courtney of Odessa and knocked him out of the box but couldn't do much with his relief, Caniff.

Colts Play Mertzton In Midland Sunday

The Midland Colts, victorious last Sunday over Slaton, will play a Mertzton team on the Latin-American diamond here at 3:30 p. m. Sunday. The Mertzton team is said to be one of the strongest in West Texas.

Large quantities of sprats, a tiny fish, are tinned in oil in Norway as anchovies.

Midland Wins Ft. Stockton Swim Contest

FORT STOCKTON—After only three weeks of practice this season, Midland swimmers walked away with championship honors at the Fort Stockton Water Carnival Saturday afternoon. The Midlanders grossed a total of 68 points in the meet. Nearest rival was the University of Texas team, which won a total of 42 points.

The 22 boys and girls, under the coaching of H. Wade Whiteley, copied the following victories: Junior girls' division—June Ethridge, second in 50-yard backstroke.

Women's division—Shirley Culbertson, first in 50-yard free style; "Puddin'" Sivalls, first in 50-yard breaststroke; Shirley Culbertson, second in diving; Dorothy Jean King, Puddin' Sivalls and Shirley Culbertson, first in 150-yard women's medley.

Junior boys' division—Leon Cline, first in 50-yard backstroke; Larry Friday, second in diving.

Boys 17 years or under—Arnold Drake, second in 50-yard backstroke; Buddy Norton, second in 100-yard free style; Bert Fox, first in diving.

Men's division—Bert Fox, first in diving; Jimmy Watson, second in diving; Whiteley, Taylor and Hugunot, second in 300-yard medley relay; Whiteley, Aldrich, Taylor and Hugunot, second in 400-yard free style relay.

Assault Wins! Becomes Top Money Earner

NEW YORK—(AP)—Assault Saturday won the Brooklyn Handicap at Aqueduct and became the world's leading money-winning horse with \$576,670 for his three seasons of racing.

The victory was worth \$38,100 to the four-year old clubfoot come from Robert J. Kleberg, Jr.'s vast King ranch of Texas.

Carrying top-weight of 133 pounds, he won by four lengths, just a galloping under Eddie Arca's handling, with Stymlie second, five lengths in front of Larkly Day. Concordian was fourth in the field of five and windblown was last.

Winning his fourth race of the year and his sixth in a row over two seasons, Assault went the mile and a quarter in 2:03 3/5.

The victory boosted the son of Bold Venture well over the previous all-time high of \$561,161 chalked up by Whirlaway in his racing career from 1940 to 1942.

Second money of \$10,000 lifted Stymlie's lifetime earnings to \$556,435, less than \$5,000 back of whirlaway.

The crowd of 33,634 backed Assault down to \$2.90, \$2.20 and \$2.10 across the board. Stymlie was \$2.40 and \$2.50 for place and show and Larkly Day \$3.00 for show.

Inter-City, Model Planes Contest Here

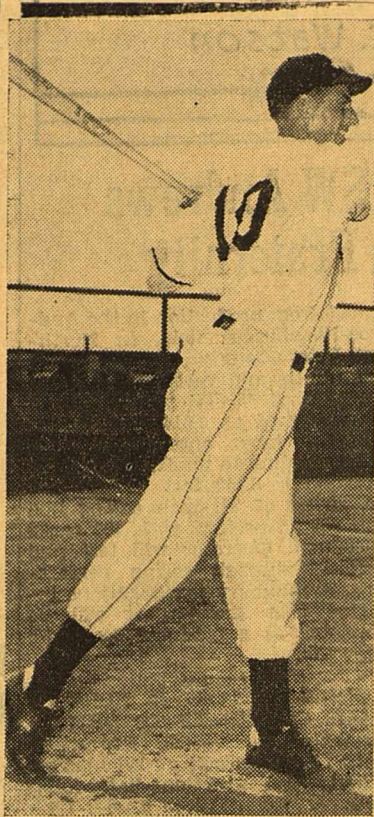

The Midland Model Airplane Club will host to an inter-city contest Sunday at 1:30 p. m. at Skyhaven Airport. Modelers from Odessa, Big Spring, San Angelo and Midland will participate.

Models are motored. There will be U-control contest, and for speed and stunt.

Prizes are being offered by Western Auto Store of Midland, the Midland Chamber of Commerce, Frank Miller Studios and Holcomb Variety Store of Odessa.

The public is invited to the model airplane contest. And it will be amazed at the speed and maneuverability of the little airplanes, made by the modelers.

He's A Hoss

Johnny (Hoss) Alvis, Midland Indian third baseman, is cracking out the home runs with amazing regularity. Hoss has smacked seven four-baggers within 10 days.

Midlanders Sunday have a choice—baseball or softball.

At 3 p. m. in the Indians Park, the Midland professional baseball team of the Longhorn League plays Odessa in a hot-billed diamond battle.

At the same time in the Midland Softball Park the finals of a West Texas invitational tournament will be played bringing together two of the best—the emerging winners of the meet.

SPORTS

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JUNE 22, 1947—3

This Week Of Softball

Monday: Rocky Ford vs. Jay-Cees (7:30); exhibition game (9).
 Tuesday: Rocky Ford vs. Dowell (7:30); Jay-Cees vs. Dowell (9).
 Thursday: open.
 Friday: Mackey Motors vs. Shell (7:30); exhibition game.
 Monday night game between Mackey Motors and Dowell previously scheduled at 9 p. m. postponed to July 1 because of Dowell entry in Lubbock tourney.

Low Worsham Looms As Best Bet In PGA

DETROIT—(AP)—Low Worsham of Pittsburgh, Pa., Saturday was a definite threat to become the first man in a quarter-century to capture both the National Open and PGA golf championships the same year.

The 28-year-old newcomer to the big-time ranks, who last week won the Open in St. Louis, led seven other survivors of a starting field of 64 into the quarter-finals of the professional classic—and it was just about an even bet that he'd still be in there firing Tuesday when the title goes on the line.

Back in 1922, a 20-year-old, Gene Sarazen, won both the open and the PGA, but he's the only one who ever turned the trick. That same Sarazen, his putter refusing to work, bowed out of the running Saturday.

Saturday Worsham eliminated Reggi Myles, East Lansing, Mich., 7 and 6.

Following Worsham in the win column were Lloyd Mangrum who beat Mike Turnesa; Vic Ghezzi, who defeated Jim Turnesa; Ky Lafon who took out Sarazen; Art Bell, a native of Honolulu, who eliminated Dick Metz; Chick Harbert who beat Porky Oliver; and Leland Gibson who defeated Ed Joseph.

Worsham's opponent Sunday will be Ghezzi.

Yankees Win Two From Detroiters

NEW YORK—(AP)—The New York Yankees Saturday swept both ends of a double header with the slumping Detroit Tigers, 5-4 and 7-4, to increase their first place American League lead to a game and a half over the Boston Red Sox.

Odessa Jinxes Midland, 8-7, Friday Night

Odessa conjured its jinx on Midland again here Friday night, edging the Midland Indians, 8 to 7, to knot the Longhorn League again—Midland and Big Spring tied for first.

It looked like the "Websters" were off to the races early. They teed off on Odessa with three runs on four pitched balls. Eddie Melillo, first up, doubled. Henry Melillo followed with a single. Then Johnny (Hoss) Alvis hit a home run. To this, Midland added two runs in the second and one in the third.

Five In An Inning
 Odessa countered right away with five tallies in the second inning. Frazier was walked in with a score. Pearce erred on and Sierra and Bolenzdahl scored. Jakes hit and scored Chappie and Pearce. The visitors got one in the seventh with Sierra doubling scoring Womack. Then in the eighth, Pearce hit a home run scoring Chappie ahead of him.

Midland put the stands on feet in the last of the ninth. One run got in but the threat died, kicking desperately. Eddie Melillo lined out. Henry Melillo walked. Alvis erred on. Prince walked. Nipp grounded out. H. Melillo scored. Davis was intentionally walked. Hank Ramsdell, pinch-hitting, backed the right fielder up against the boards but he took the long fly for the last out with the sack loaded. This sank the Midland heart.

The box score:

Odessa		Midland	
AB	R H O A	AB	R H O A

Big Jim

Jim Prince, Indian first baseman, is second in Longhorn League hitting. The big infielder came here from Lubbock and has been clouting the apple and fielding like a piece of flypaper. Likeable Jim is popular with the fans.

Yeager Gets To Finals Of Boys Tourney

Goss Yeager has reached the finals of the boys' singles tourney of the Midland Tennis Club by defeating Robert Roripaugh, 6-1, 6-3, and will play the winner of the semi-final match between Donald Johnson and Charles Moncrief.

In the first round, John Steinberger won from Joe Birdwell, 7-5, 6-4. Second round results were: Johnson over Steinberger, 6-2, 6-2; Moncrief over Lloyd Henderson, 6-2, 6-3; Roripaugh over Benny Stanley, 6-0, 6-0; Yeager over Edward Frichard, 6-3, 6-0.

In boys' doubles Johnson and Stanley won from Birdwell and Roripaugh, 4-6, 7-5, 6-2, and Yeager and Henderson won from Frichard and Moncrief, 6-1, 6-3.

Eleven entries were made in the open singles and play which will start Monday, June 23. In the first round, Leo Brady will meet Robert Roripaugh, with the winner playing Ralph McClesley in the second round; Mile Stanley will play A. B. Kelly, with the winner playing W. L. Crothers; Duffy Stanley will play Cliff Hall in the second round, both saving byes in the first round. Brady, Duffey Stanley, Miles Stanley, and Hall were seeded.

Eight teams have entered the open doubles and drawings will be made at the end of the week.

It is the policy of Carleton and Brumbelow to give due credit to any organization that is making a contribution to the welfare and happiness to the people of our community. Let's give a big hand to the Midland Community Theater Inc. To Art Cole, director and his loyal and enthusiastic co-workers.

For giving Midland first class and wholesome entertainment. For developing talent, and giving the individuals a chance to develop self expression. For providing needed activity for the children of this community.

Since this column is regarded as muscle bound material, we know our local readers will shudder, and the ole boys who played first string for dear ole English literature will turn over in their graves when we begin to wax literary.

But we recall those guys were not regarded too well during their time. As we recall Chaucer was a very poor speller... "wham appelles wid shrowers southe"... or something like that. Bill Shakespeare had a very low credit rating.

The guy who wrote "Beowulf," the first English epic, was ashamed to sign his name to his writing.

So who knows some day Carleton and Brumbelow may be regarded as great literary men. Something like unto, "The Voice in the Wilderness Crying Out"... crying for what?

More sporting business, that's what!

Let this not appear to much like paid advertisement (which it is).

The Midland Community Theater Inc. was organized in 1946. In this short time has produced ten major productions and several children's plays.

The outstanding hits were, "Junior Miss", "Ladies in Retirement", "Papa Is All", "State of the Union", and next Thursday and Friday night will present "Kiss and Tell" at the City Auditorium.

Those in the know predict it will be one of the best ever presented by this organization.

These plays cannot be presented without cost and without a great deal of work from a large group of people. So any one interested in their type of work contact Art Cole, H. S. Forgeon, Mrs. J. P. Butler, Mr. and Mrs. Wm. Waldschmidt, or just any one of the members of this organization.

They will afford you an opportunity to contribute, to work, to enjoy yourself by doing something worthwhile.

Another big hand to the little man Geo. Glass, Jr. who last week won third place in Junior Texas Registered Skeet Championship. George broke 135 birds out of 150 shots. Only nine birds behind the champion who shot 144. George, Jr. has two more chances at Junior Championship. It is our belief he will be the next champion.

Keep working George, Jr., all your friends are pulling for you. (adv)

The Oil Pusher

MGS WILL SEE MAGNOLIA FILM ON MARINE DRILLING
—A moving picture showing oil exploration and development operations in the Gulf of Mexico will be shown at the Midland Geological Society luncheon Tuesday in the Crystal Ballroom of Hotel Scharbauer.
—The film was made by Magnolia Petroleum Company and is being shown through the courtesy of that concern. An executive of the company, who is familiar with marine drilling and producing activity, will explain the various features shown in the picture.

This Is Understandable; There's Nothing To Cry About If You Live Here

Wanna buy some Chloracetophenone solution (tear gas, to you)? That's all that remained unsold, some 1,300 pounds of the stuff with the tricky name, when John Galley, manager of the El Paso Customer Service Center of War Assets Administration, closed the sale Friday afternoon at Midland Air Terminal (Midland Army Air Field) which resulted in disposing of surplus government property which originally had cost approximately \$250,000.

Not only were 116 lots at MAAP disposed of to the highest bidders, but at the same sale, awards were made to high bidders of 18 lots of property located at Pecos AAF, another 56 lots at Pyote AAF and eight lots of miscellaneous equipment at Fort Stockton.

Inspection by prospective bidders had been made previously and some 200 odd bidders were on hand here at the opening of the first lot bids at 9 a. m. Friday.

Two Midland Buyers
Two Midland buyers were reported by Galley among the successful purchasers for the day. L. M. Freels was awarded a lot which contained four scullery sinks located at MAAP on his high bid of \$50. W. E. Globe of Midland, with a high bid of \$301.55, claimed a light duty tractor.

The largest share of the lots went to 17 Odessa buyers who, during the day, were awarded 42 of the 199 lots. The Odessa Public Schools, through Charles L. Walker, succeeded in obtaining badly needed kitchen equipment.

W. C. Blankenship, superintendent of Big Spring schools, also was a successful bidder, obtaining a total of 14 lots. The equipment obtained included bake ovens, gas toasters, steam kettles, mixing machines, scullery sinks and similar equipment.

Buyers were from all parts of West Texas with strong veteran buying from San Angelo, El Paso, Monahans and other purchasers from Abilene, Crane, Lubbock, Pyote, Plainview, Pecos, Marathon, Knott, Kermit, Lamesa and Coahoma.

The silk-producing organ of the spider is called a "spinneret," and is attached to the under side of the abdomen.

Institute of Mining and Metallurgical Engineers, to be held in Dallas, June 26-27.
—The meeting will be attended by E. G. Dahlgren, Interstate Oil Compact Commission, Oklahoma City, chairman; D. V. Carter, Magnolia Petroleum Co., Dallas, vice chairman; E. P. Hayes, The Texas Co., Houston; Alex. M. Crowell, Texas Eastern Gas Transmission Co., Shreveport; G. E. Eddy, Michigan Department of Conservation, Lansing; Ray P. Walters, Standard Oil Co. of New Jersey, New York, N. Y.; John H. Murrell, DeGolyer & MacNaughton, Dallas, and William H. Strane, AIME, Dallas.

This committee is responsible for the publication each year of the AIME statistical volume on worldwide development and production. The growing need for a basic statistical register on production of all raw hydrocarbons will be a topic of discussion by the committee, and plans for inclusion of more such material in future publications will be formulated. Plans will also be made for organizing and collating gas production and gas reservoir information now available only from separate sources.

SUNOCOS HAS ANNUAL PICNIC SATURDAY
—Officials, executives and employees in all departments of Sun Oil Company in the Permian Basin and their families, staged their annual picnic at the Ector County Park in Odessa Saturday afternoon. Approximately 300 persons attend.

LARSON MOVED BY CSOC; PATTERSON SUCCEEDS HIM
—Phillip D. Larson, who has been district geologist for the West Texas-New Mexico area for Cities Service Oil Company, has been transferred to Wichita Falls, to head an enlarged and expanded geological department the company is organizing to handle its work in North and West-Central Texas.

L. E. Patterson, who has been in charge of the development section of the CSOC West Texas-New Mexico geological office, is now the district chief.
—C. M. Pederson and C. W. Sellon, members of the Midland geological staff of Cities Service have been placed in charge of the development department.

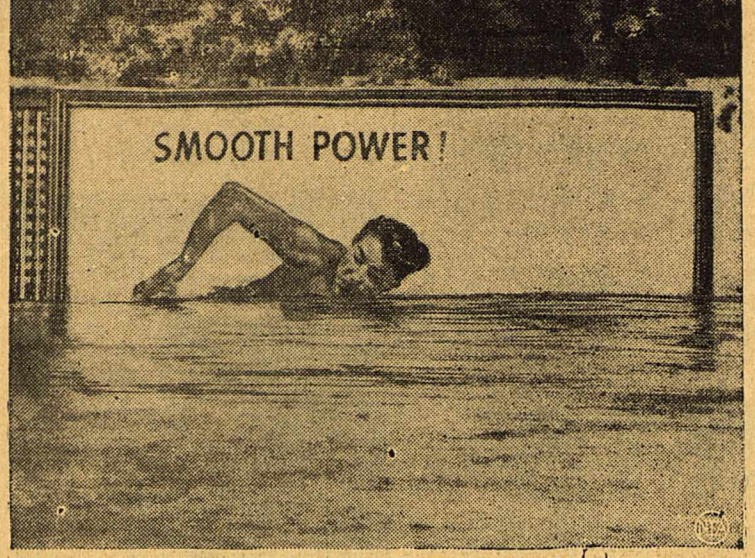

AIME CHAPTER WILL HEAR TALK ON DIAMOND CORING
—R. S. Stuart of Houston will be the speaker for the monthly meeting of the American Institute of Mining and Metallurgical Engineers Monday at the Ector County Park barn, in Odessa.

His subject will be, "New Developments in Diamond Coring."
—Stuart, formerly employed by Stanolind Oil & Gas Company at Fort Worth, has been on a number of recent diamond coring jobs in Colorado, and in West Texas and New Mexico.

—Informed engineers reveal that improved procedures which have been developed for particular formations, as a result of the designing of better diamond core bits, have resulted in increased drilling speeds, reduced costs, higher core recoveries and better completions. Stuart will discuss all latest activities in that work.

—The business meeting will start at 5:30 p. m., and will be followed by a fellowship period and a barbecue dinner.

Billboard Swimmer Takes Real Dip

This advertisement on a billboard in Chillicothe, Mo., gets a realistic touch from the raging flood waters in which it is partly submerged. The well-tanned swimmer appears to be taking an actual dip. Here's hoping he doesn't peel.

Deep Wildcats Spotted In South Chaves And In East Lea; 3,700-Foot Prospector For West Lea

HOBBES, N. M.—Locations for a 10,000-foot prospector in South Chaves County, for an 8,000-foot wildcat in East Lea—both to explore into the Ellenburger—and for an exploration in West Lea to around 3,700 feet to test the upper Permian, were reported Saturday.

On 6,000-Acre Block
Continental Oil Company No. 1 Rovee Lankford, about one and one-half miles northeast of Hagerman, is to start making hole early in the week to around 10,000 feet.

It will be 600 feet from south and 1,980 feet from east lines of section 2-14-26e. The drillsite is near the center of a block of approximately 6,000 acres which Conoco holds in the South Chaves region adjacent to Hagerman.

Contract to drill the project, with rotary, has been let to McQueen and Cleverger. Road is being built to the location and rig material will be moved in and rigged up early in the week.

East Of Brunson Field
Mid-Continent Petroleum Corporation No. 4 Walter Lynch, 2,200 feet from south and 440 feet from west lines of section 1-22-37e, is the new East Lea County Ellenburger prospect. It is approximately two miles east of the nearest producer from the deep pay in the Brunson field, and about two miles southeast of the town of Eunice.

Cubertson & Irwin, Inc., of Midland, has staked location for No. 1 Shepherd, a 3,700-foot, exploration in West Lea County, approximately five miles west of the Lynch field.

It is 330 feet from south and 2,310 feet from west lines of section 1-21-32e. Drilling will be started soon. It is due to test the Grayburg section of the upper Permian. The drillsite is in an area where several projects have found slight shows of oil, but up to now none of them have been completed as producers.

In Drinkard Extension
Two new explorations are to be drilled immediately on the east side of the north extension of the Drinkard field, in East Lea County.

Barnsdall Oil Company No. 1-A Edna Elliott-Federal, will be 660 feet from north and east lines of section 21-21-37e. It is to start making hole to around 6,700 feet, as soon as a rotary rig can be moved in and put in operation. It is one location diagonally southeast of the closest completed oil well from the Drinkard pay.

Deep Test Continues
Richfield Oil Corporation No. 1 Mullis unit, South Chaves County wildcat, 660 feet from south and 1,980 feet from west lines of section 21-15-29e, 20 miles east of Lake Arthur, and the deepest wildcat ever drilled in the county, had reached 11,185 feet in an unidentified dolomite and chert, and was drilling ahead.

Richfield No. 1-3 White, in southwest quarter of section 6-12-29e, and 24 miles east of Roswell, in East Chaves County, had penetrated past 7,989 feet in lime, and was continuing. It is to go to 10,000 feet, unless it gets commercial production or granite, above that level.

Officials Monahans V-J Day Fete Named

MONAHANS—Committee chairman who will have charge of various arrangements in connection with the V-J Day celebration planned here for Aug. 14, were named last week by the Chamber of Commerce. They included:
Beef procurement, Dale Sloan; serving, Jim Foster; barbecue, Jack Scott; beauty revue, Roger Cundiff; memorial services, Rev. Cecil Pearson; concessions in park, R. T. Harris; wood detail, Gib Jackson; pit procurement, L. B. Fuller; raffle and finance, Roy K. Parker; program, J. S. Mansfield; dance, A. J. Burnett; clean-up, Robert L. Dunagan.

Spiders use their silk not only to spin cocoons to protect themselves and their eggs, but to trap their prey.

Permian Basin OIL & GAS LOG

James C. Watson
Oil Editor

Dollar Hide Area Of SW Andrews Holds Interest Of Oil Fraternity

The Dollar Hide field area in extreme Southwest Andrews County continues to hold considerable interest for the oil fraternity of the Permian Basin.
Union Oil Company of California No. 3 Cowden, 1,980 feet from north and 660 feet from east lines of section 7, block A-55, psi survey, and on the south side of the Dollar Hide district, is to be drilled ahead to around 8,700 feet, to explore the Silurian.
This project is currently bottomed at 7,794 feet in Devonian lime and chert, fishing out lost tubing before deepening.

The Devonian has logged some small signs of production, but those indications have not yet been thoroughly tested—and likely may not be until after the Silurian is investigated.
Union No. 3 Cowden is considerable distance south of the nearest well in the Southwest Andrews County region which has been drilled to the Silurian and it will be classed as a wildcat, in trying to find production in that formation.

MAGNOLIA TO DIG ANOTHER TO DEVONIAN HORIZON
Magnolia Petroleum Company has filed application for a permit to start drilling on a new exploration on the north side of the Dollar Hide field.
It will be that concern's No. 5-B Cowden, and is 660 feet from north and east lines of the northwest quarter of section 4, block A-55, psi survey. Drilling to 8,500 feet, unless production is found in the Devonian, at a higher point, is to begin by June 25.

PURE-HUMBLE PROSPECT MAKING MORE HOLE
The Pure Oil Company and Humble Oil & Refining Company No. 1 Cowden, 1,980 feet from west and 660 feet from south lines of section 24, block A-52, psi survey, three-quarters of a mile north and one-half mile east of the nearest producers in the Dollar Hide field, had reached 7,840 feet in lime, and chert, and was drilling ahead.

SW ECTOR WILDCAT IS TO PLUG BACK AND TEST
Cities Service Oil Company and Sinclair Prairie Oil Company No. 1 Wooten, Southwest Ector County wildcat, 660 feet from north and east lines of section 12, block B-14, psi survey, approximately five and one-half miles northwest of Juddkins, had reached 8,335 feet, in a lime, understood to be Mississippian, at last report.

Unofficial sources reveal that the operators were slated to stop drilling, and plug back, possibly to about 8,100 feet, to test a section above that point which showed a recovery of 2,040 feet of oil and 240 feet of oil and gas cut mud, in a drillstem test at 8,065-8,100 feet.

That interval is thought by most interested observers to be in the lower Pennsylvanian. Representatives of the owners have not indicated what they think the formation might be.

ANECTOR STEFOUT DUE TO MAKE DEEP OIL WELL
Humble Oil & Refining Company No. 1-H R. B. Cowden, southeast

stepout from production in the Andretor-Elleburger field, in Northwest Ector County, and 1,980 feet from south and east lines of section 1, block 45, TP survey, T-1-N, was bottomed at 8,614 feet, in Ellenburger lime, entered at 8,460 feet, according to unofficial sources. Elevation is 3,249 feet.

A string of 5 1/2-inch casing had been set on bottom, with 100 sacks of cement. Operator will test and complete through casing perforations. Preliminary investigations indicated that the project will be completed as a producer from the deep pay.

HUMBLE WILDCAT IN NORTH PECOS CONTINUE TO DRILL
Humble No. 1-K University, North Pecos County Ellenburger wildcat, two and one-half miles north of the shallow Taylor-Link field, and 660 feet from north and east lines of section 18, block 16, University survey, had reached 5,822 feet, in an unidentified shale, and was making more hole.

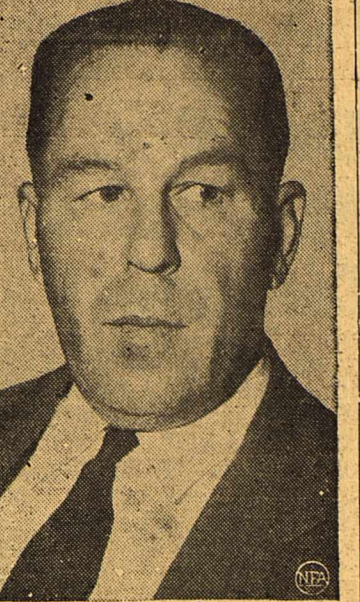

WILDCAT IN E-C WINKLER SETS INTERMEDIATE STRING
Magnolia Petroleum Company No. 1 R. A. Wheeler, East-Central Winkler County wildcat, about 12 miles southeast of Kermit, five miles west of the Wheeler field, and 660 feet from south and east lines of section 13, block 40, psi survey, was bottomed at 7,000 feet, and was waiting for cement to set on a string of 9 5/8-inch casing, which had been set at 5,555 feet.

That action would indicate that operator will shortly begin making more hole. The prospector was originally started to drill to around 12,500 feet to try to develop production in the Ellenburger.
Magnolia No. 1-DD Walton, about three miles north of Kermit, and 2,310 feet from south and 990 feet from east lines of section 7, block B-3, psi survey, had reached 5,440 feet in lime and was drilling ahead. It is contracted to about 6,700 feet to test into the lower Permian.

PLYMOUTH FOUND WATER IN DST OF STERLING PROJECT
The Plymouth Oil Company No. 1 Frost, Northwest Sterling County wildcat, about 12 miles northwest of Sterling City, and 1,980 feet from south and west lines of section 39, block 2, H&TC survey, was making hole below 4,243 feet in lower Permian lime.
Operator ran a drillstem test when total depth was at 4,178 feet. Details of the investigation have not been reported. However, recovery was only salt water, with no signs of oil or gas. This exploration is contracted to 9,000 feet.

SW HALE EXPLORATION IS WAITING FOR ORDERS
Glen J. Smith Oil Company No. 1 Durrett, wildcat in Southwest Hale County, about one and one-half miles north of the Irish field, and 660 feet from south and west lines of northwest quarter of section 7, block DT, HE&WT survey, was at total depth of 6,500 feet, in dry lime, and was shutdown, waiting for orders.
It had not logged any signs of oil or gas, and indications point to (Continued on Page 8)

Heads Greek Aid

Dwight Griswold, former Republican governor of Nebraska, is President Truman's choice to head the mission which will administer the \$250,000,000 U. S. aid program to Greece.

Sterilization Plant Installed At City Mattress Factory

Lee Thomas, owner of the City Mattress Factory at 417 South Main Street, Saturday announced the installation of a new mattress sterilization plant which is the only one in Midland and vicinity.
The new plant has been approved by the State Health Department. It is equipped to sterilize mattresses, pillows, studio couches and other similar items. The firm also features one-day service on re-upholstering and rebuilding cotton mattresses.

Wink Oddfellows To Build New Lodge Hall

WINK—The Wink Independent Order of Oddfellows recently announced intentions to erect, in the near future, a modern, concrete tile building on the corner across from the Post Office Pharmacy and adjacent to the old lodge hall, which is to be sold.
Measuring 30 by 70 feet, the building is to be two stories high, with the lower floor to be leased for business purposes and the upper story to be used by the lodge. D. N. Bounds is in charge of the project.

Andrews Cowboy Wins In Lubbock Roping

ANDREWS—Junior Fisher of Andrews took second place in the first day's calf roping event and third in the second day's contest at the recent Lubbock Rodeo. His time the first day was 16.1 seconds, and 17.9 the second day.

NEGRO CHARGED WITH ATTEMPT TO RAPE
The case of a Midland negro charged with attempt to rape an 11-year-old negro girl was rebound over to the grand jury Friday by Justice of the Peace B. C. Girdley. In default of \$2,000 bond, he was held in jail.

Rotary Club Picnics At Pratt Residence

W. I. Pratt will be host to members of the Midland Rotary Club at its annual picnic suppers at his residence, 911 West Kansas Street, this Tuesday and the following Tuesday nights.
Rotarians whose names begin with the letters A to M will attend the picnic at 7 p. m. Tuesday, and those whose names begin with the letters M to Z are invited to be present at 7 p. m. Tuesday, July 1.
All club members are urged to attend one of the two suppers.

ARCH TOLBERT BACK FROM INTERSEMINARY MEETING

Arch Tolbert, assistant pastor of the First Presbyterian Church, and a ministerial student at Austin Presbyterian Theological Seminary, returned Friday from Oxford, Ohio, where he attended an Interseminary Conference at Miami University. Students and faculty members from theological seminaries throughout the country attended the session, the first of its kind ever held on the North American continent.

KECK SOMETHING NEW IS BEING ADDED Recently the Federal Communications Commission granted K E C K a sister station K E C K-FM means Frequency Modulation, a new system of radio broadcasting that eliminates static, ends fading and gives full beautiful tones to programs never realized in the present system of AM Broadcasting (Amplitude Modulation). This means that the new KECK-FM will give WEST TEXAS listeners the most modern radio facilities possible. If you contemplate buying a new radio make sure it is equipped for FM or it may be obsolete in a short time. Use the station "Most people listen to MOST in West Texas." The news and Music station that is a relief from daytime network drudgery.

AUTOS FOR SALE LARCENY and OLD CARS By GENE MAY, THE KRAZY TRADER (With apologies to a so-called drama of almost the same name.) From what I've been reading in the local scandal sheet I'm beginning to think that we might have a collection of some of the silliest people in the country moving in here with us lately. What I'm referring to is the stupid fellows who've been sneaking around here the last few nights and driving off in other peoples' cars. I just don't understand anyone who'll thru all that trouble, not to mention the risk of bringing down upon themselves the wrath of our fine ever-alert law enforcement men-tors. Now most anybody in this part of the country rangin' from Odessa to Stanton can tell you that I've got a couple dozen old dodge used cars on my lot that are really a "steal." Why, one fellow here the other night stole a '33 Chevy. While he showed pretty good judgment in the brand, I can't see why he picked one of the vintage unless he's in the antique business. Now I've got some real Antiques down here at the lot and on some of 'em, I'd pay you to drag away, or they're so cheap you'll feel like they're a "steal." The only thing you'll have to worry about is your conscience. I'm about two traded with me—I'm getting kinda up in years and soft hearted. HERE'S OUR LIST OF BETTER JALOPIES 41 Ford DeLuxe Sedan. Fine Surety. No fringe on the top \$1250 but new shoes all around... 41 Chevrolet Coupe. Slick \$1250 39 Chevrolet Coupe. Just what the boss Doctor ordered. Saddle broke. Black color—sill has her uppers—about \$1000. \$735 41 Chevrolet Special Town Sedan. Angels for other nice little Pony. Gentle. 3 galts for other nice little Pony. \$1145 47 Chevrolet Two Door. Let us brand this one for your corral. You'd stop the round to tell you here. drive up in this \$2450 47 Dodge LWB 2-Ton Truck. Someone suggested I buy this one myself to haul away all this "Bull" in the 'I'm insured! This one has \$2850 47 Chevrolet Club Coupe \$2450 39 Buick Sedan \$875 37 Buick Sedan \$875 38 Buick Coupe \$825 44 KY International 2 1/2 Ton \$2500 46 Ford Coupe \$1250 46 Ford Club Coupe \$1895 46 Ford Convertible Coupe \$2295 41 Ford Coupe \$1250 31 Ford Sedan (Runs) \$145 40 Dodge Sedan \$875 40 Chevrolet Sedan \$1050

Housing Shortage More Critical Than Year Ago

NEW YORK—(AP)—The housing shortage throughout the United States is far more critical than a year ago.

Almost 40 per cent fewer homes were started this Spring than last; their average construction cost was up 23 per cent.

The number of families evicted amounted to more than 12 times the total of new dwellings erected.

This serious situation is disclosed in a survey tabulating official housing statistics in 157 of the nation's largest cities, just completed by The Associated Press.

While the need for new housing has been estimated as high as 10,000,000 units, only 37,514 new homes and apartments were started in 157 cities in the first quarter of 1947. Sixty-three of the cities had waiting lists showing 370,000 families without homes; only 25,238 dwelling units were started in those cities.

Last year, 61,795 new dwelling units got underway in the same period in the 157 cities.

According to figures of the Bureau of Labor Statistics, housing starts through May were still below the disappointing volume for the reconversion period of last year's first five months. For example, the number of dwellings started by private builders in the New York area was still 59 per cent below the first five months of 1946.

Estimated construction costs, without land or extras, amounted to \$207,139,485 for the dwellings started in the first three months this year. The first quarter total in 1946 was \$278,758,950 for the much larger number of units.

Thus the average estimated building cost was \$5,543.31 per dwelling unit this year, in contrast to \$4,512.65 per unit a year ago.

However, those averages embrace both private homes and apartments. Some of the increase also may be accounted for in the number of emergency temporary dwellings provided for G. I. students and their families in the early part of last year.

The Dow Service, Inc., specialists in national building reports, reports residential construction costs about 30 per cent above the first quarter of 1946.

Final costs are frequently higher than these basic estimates. For example, in Birmingham, Ala., estimates are regarded as 50 per cent under final costs.

The effect of last year's emergency housing on the comparison is particularly noticeable in the college states of the East.

The South showed a shade of a decline in average costs. While the number of homes started was off 26.3 per cent in the South, average costs were shaved from \$4,550 to \$4,494—down 1.2 per cent.

Evictions throughout the country totaled close to 500,000 families in the first quarter of this year, according to the federal Public Housing Administration, citing OPA records. A large portion of them had to leave houses that were purchased for owner occupancy. Others were unable to keep up their rent payments. About 20 per cent of all families now living in low-rent public housing projects in major cities also are facing eviction because their incomes exceed the federally-fixed maximums for such rentals.

The low-rent field naturally is the center of greatest demand. Only 71 families out of 2,600 seeking homes for rent in Harrisburg, Pa., were able to pay more than \$50 a month, reports Maynard Small, housing expeditor for that district.

Gambler Killed In California By Gang-Style Shots

BEVERLY HILLS—(AP)—Detectives Saturday groped through the shady recesses of the metropolitan area underworld in quest of the gang-style killers of Benjamin (Bugsy) Siegel, 42, gambler, man about Hollywood, and Las Vegas, Nev., night club operator.

The fabulous Bugsy—who deflected the nickname—reached the end of his sensational career with shocking abruptness late Friday night when an assassin poured a stream of fire into him from a window as Siegel sat in a spacious mansion here, reading a newspaper.

Siegel stopped four slugs from a weapon identified by empty shells as a .30 caliber carbine of a type familiar to every former service man. Det. Sgt. J. D. Alcorn theorized, from reports of the rapidity with which the shots came, the mechanism had been filed down to permit its use as a machine gun, capable of emptying the entire magazine with one pull at the trigger.

Alcorn said the slayer apparently had been waiting in the street, as immediately after the gunfire a big automobile was seen dashing from the scene.

Get along home Lucindy, with the strays. . . 30.

LEVES HOLD AND FLOOD THREAT DIMINISHES

HANNIBAL, MO.—(AP)—The flood situation along the rampant Mississippi eased Saturday as the river began receding slightly after cresting below last week's record heights. However, heavy rains elsewhere promised to prolong the high water which has inundated millions of acres of farm land and made over 20,000 persons homeless in Iowa, Illinois and Missouri in the past two weeks.

Levees, including the SNY barrier which protects 120,000 acres across the river from here, continue to hold along the 125-mile stretch from Keokuk, Iowa, to Louisiana, Mo., but army engineers maintained a constant vigil in the face of the general rainfall.

Oil & Gas Log—

(Continued from page 4)

the early abandonment of the project.

DEVELOPMENT IN MIDLAND CURRENTLY SUSPENDED

All active petroleum exploration operations in Midland County were eliminated—at least for the time being—during the past week, when Humble Oil & Refining Company plugged and abandoned No. 1 Mabel M. Floyd, ccep wildcat, about 15 miles southeast of Midland, and 660 feet from north and 1,980 feet from east lines of section 15, block 37, TP survey, T-3-S.

That project drilled to total depth of 11,322 feet in Devonian lime and chert. It tested shows from around 9,500 feet to total depth, and none of them were of any consequence.

Humble has also recently plugged and abandoned two relatively shallow prospectors, both in the vicinity of No. 1 Mabel M. Floyd. No. 1 L. B. Floyd, was 660 feet from north and west lines of section 15, block 37, TP survey, T-3-S. It drilled to 5,954 feet, in lime, without developing any production.

Humble No. 1 Dixon, one-quarter of a mile due north of No. 1 Mabel M. Floyd, failed to get any production in drilling to around 6,000 feet, and it also has been abandoned.

Records in the office of the County Clerk of Midland County reveal that Humble recently filed releases on approximately 9,600 acres of leases it has held in the East Midland County area.

The records show that 6,400 acres of the Mrs. O. P. Buchanan lands; 2,560 acres of the Golden and Mittie Donovan lands, and 640 acres of the N. L. Heidelberg lands, have been released.

It has also been learned that Humble is due to file releases in the near future, on oil and gas leases on approximately 1,280 acres of the L. B. Floyd, et al, lands; on 640 acres of the Hugh L. Dixon, et al, lands, and on 8,300 acres of the Mrs. Mabel M. Floyd lands.

All that acreage is in the big block Humble has held in that region for several years, and is adjacent to the tracts on which the company now has two small deep producers.

In the development program the company carried on in the East Midland County area during the last two years, it drilled four deep tests, and two shallow ones. Two of the deep holes and both the shallow ones have been plugged. Neither of the two deep producers are making any considerable amounts of oil.

Humble is understood to still hold leases on approximately 15 sections of the Hutt land in East Midland County, and the concern also has leases on about 10½ sections of acreage in the southwest corner of the county on the Preston and Midkiff ranches, and on some other adjoining properties.

So far as has been learned, Humble is not now planning any further developments in Midland County—at least for the near future.

TURNER FILES GAUGE ON SHAFTER LAKE STEPOUT

Official potential test gauge has been reported to the Railroad Commission on Fred Turner, Jr., of Midland, No. 1-A Ogden, quarter of a mile stepout to the producing area in the vicinity of Shafter Lake, in North Andrews County, which Turner discovered a few months ago at his No. 1 Fisher.

The No. 1-A Ogden made a 24-hour pumping potential of 132.5 barrels of 35-gravity oil, with gas-oil ratio of 240-1.

The pay at 4,300-4,410 feet, had been treated with 5,000 gallons of acid.

The well is 1,980 feet from north and 660 feet from east lines of section 15, block A-36, ps1 survey.

A pipe line outlet for the Shafter Lake field is being built

Child of Hunger

Warmly-dressed Romanian soldier holds a starving, rag-clad child at railroad center in Moldavia—famine-stricken northern province bordering Russia. Hundreds of children like this were transported to southern Romania for hospitalization.

Mrs. Bill Pasco Dies In Florida

Mrs. Bill Pasco, 35, formerly a resident of Midland, died Friday in a hospital at Atlantic Beach, Fla., according to word received here Saturday.

A daughter, Bobby Dean, was born to her May 29.

Funeral services will be held Monday afternoon at the Seashore Funeral Parlor in Jacksonville, Fla.

Interment will be in Jacksonville. Mrs. Pasco was a sister of Miss Bobby Beaty of Midland. Her husband and daughter also survive.

While a resident of Midland, Mrs. Pasco, then Ethel Beaty, was employed at the Safeway Store.

Midland Shriners To San Angelo Round-Up

A large group of Midland Shriners attended the Shrine Round-Up in San Angelo Saturday, when more than 1,000 Shriners from various West Texas points were expected to meet in the Concho city.

A business meeting, at which need for a Shrine temple in San Angelo was a principal topic of discussion, was followed by a parade, barbecue, and dance.

FROM ODESSA

Mrs. Paul Moss of Odessa was a Midland visitor Saturday.

and is expected to be taking oil out of the area in a short time.

Turner's No. 2-A Ogden, 660 feet from north and east lines of section 15, block A-36, ps1 survey, is due to be completed in a short time.

Guy Mabee Drilling Company No. 1 Williams, 660 feet from south and east lines of section 10, block A-36, ps1 survey, and about one mile north of the closest wells on the Fred Turner, Jr., leases, is preparing to complete on the pump from pay above 4,457 feet. It has shown that it will make a small producer.

SUN TESTING TWO WELLS IN JAMESON AREA OF COKE

Production tests were being conducted Saturday by Sun Oil Company at two explorations in the Jameson area of Northwest Coke County.

Sun No. 2 Allen Jameson, one-half mile north of the discovery for commercial production in that field, from the crinoidal lime of the Pennsylvanian, and 3,300 feet from south and 1,980 feet from west lines of section 253, block 1-A, H&C survey, was testing the open hole at 7,085-7,110 feet, in the top of the Ellenburger.

No results from the testings had been received late Saturday. However, operator had not had time, after drilling the plug on the pipe cemented at 7,085 feet, to get the hole in condition to determine whether or not the section of the deep pay so far drilled carried commercial oil.

Sun No. 1 W. I. Tubb, 660 feet from north and east lines of Anthony survey, No. 253½, and about three-eighths of a mile northwest of the closest crinoidal producer in the Jameson field, was testing on open hole, in that zone, at 6,245-6,440 feet.

After the plug on the 7-inch casing set at 6,245 feet, had been drilled out, operator started swabbing out wash water. Following a few pulls of the swab the well kicked off and started flowing out wash water. At last report it had not started making any oil—but interested observers were expecting it to flow shortly.

SHELL PUMPING WILDCAT IN WEST ECTOR REGION

Shell Oil Company, Inc., No. 1-A Cochran, wildcat about one and one-quarter of a mile northwest of the TXL field, in West Ector County, and 1,983 feet from south and 669 feet from east lines of section 34, block 46, TP survey, T-1-N, was pumping, to clean out, test and complete.

In eight hours of pumping, on pay above total depth at 8,151 feet, the project made 20 barrels of fluid—80 per cent oil and 20 per cent water.

NE GAINES PROJECT IS STILL IN DRY LIME

McDaniel and Beecher Drilling Company No. 1 Radford, Northeast Gaines County wildcat, 660 feet from north and east lines of section 76, block H, D&W survey, and 17 miles northeast of Seminole, had reached 5,200 feet in lime, and was making more hole. It has not logged any signs of oil or gas—up to now.

Joan Slaughter Wins Another Beauty Crown

FORT STOCKTON—Wearing the same lime-green bathing suit in which she won the title, "Miss Permian Basin of 1947" at McCamey a week earlier, Miss Joan Slaughter, daughter of Mr. and Mrs. Sid Slaughter of Fort Stockton, was named queen of the 1947 water carnival here Friday night by former governor Coke Stevenson.
 Other events on the afternoon's program Friday included a parade led by the former governor, a baseball game in which the Alpine Colts, 19-1, and swimming exhibitions by

RETURNS HOME

Mrs. Harry Adams, 606 North Marientfield Street, has returned from a trip to Kansas City where she went to be with her sister, Lola Hopkins, who fell and broke her leg there about a month ago. Mrs. Adams brought her sister to Midland with her when she returned Saturday.

VISITING IN SAN ANTONIO

Charline Wood is visiting her sister, Mrs. Vernon Nailey, in San Antonio.

The University of Texas swimming team.

A golf tourney, finals of the swimming contests, the Comanche Springs Aquacade of 1947, and the Southwestern bathing revue were featured on Saturday's program.

Pecos Rodeo Boosters Visit Midland Monday

Advertising the annual 4th of July Rodeo at Pecos, a group of Pecos boosters will arrive in Midland about 3:30 p. m. Monday, according to information received by the Midland Chamber of Commerce.
 The goodwill trippers will be met at the West city limits by a police escort and by members of the Midland Wranglers Club. They will spend about 30 minutes here.

TO GO TO ALASKA

Mrs. J. L. Greene and children, Betty Jo and Jimmy, plan to leave soon on a trip to California and Alaska.

Monahans Increases City Tax Valuations

MONAHANS—The City Board of Equalization has completed its work of re-evaluation of city property with valuations established on a 100 per cent scale rather than the 60 per cent heretofore used.
 Total valuations of property for tax purposes in the city increased from last year's \$2,600,000 to \$7,621,250 of which \$789,738.93 is for personal property.
 A new tax rate has not been set since the City Council has not prepared a budget or determined how many bonds it will issue. The proportionate amount to be set for tax purposes has yet to be established.

DOWNING RETURNS

Delbert Downing, manager of the Midland Chamber of Commerce, has returned to the city following an address Thursday night at Cleburne. He addressed an inter-city Rotary meeting.

FORMER MIDLANDER DIES

U. T. Richie, who lived in Midland until a few years ago, died June 10 in Fort Worth, according to word received by friends here Saturday.

VISITING ROY MCKEES

Mrs. Joel E. Smith and son, Joel, Jr., of Homer, La., are visiting in the Roy McKee home here. Mrs. Smith and Mrs. McKee are sisters.

U. S. cotton mills employ about 500,000 people.

Mary Jane Williams Becomes Bride Of James Garrett Noland In Tulsa

The wedding of Mary Jane Williams, daughter of Mr. and Mrs. Cecil Morris Williams, Tulsa, to James Garrett Noland, son of Mr. and Mrs. James Stephen Noland, Midland, was solemnized at 8 p. m. Saturday, June 14, in Trinity Episcopal Church, Tulsa.

Vows were read by Dr. Victor Hoag before an altar banked with tropical ferns and palmets. Tall floor baskets filled with white gladioli and white larkspur flanked the altar. The aisle was marked by individual white cathedral candles and white satin streamers, and was covered with white bridal carpet.

Traditional organ wedding music was presented by Mrs. Walter H. Durham of St. Joseph, Mo., godmother of the bride. Dorothy Jacoby, Commerce, a classmate of the bride, sang, "Oh Perfect Love." Magnolia Satin Dress

The bride, given in marriage by her father, was gowned in a wedding dress of magnolia satin fashioned with a square neckline and long sleeves that came to a petal point. From the fitted bodice fell a full skirt that terminated in a wide court train. A coronet of matching magnolia satin held in place the bride's full length double veil of bridal illusion. She carried a white prayer book topped with a cluster of lilies of the valley and centered with a hybrid white orchid.

Maid of honor was Helen Webster and bridesmaids were Suzanne Settle and Constance Louise Potter of Houston. Judith Noland, daughter of Mr. and Mrs. George Noland, cousin of the bridegroom, was flower girl.

Miss Webster wore a gown of pink faille fashioned with a high round neckline, a fitted bodice and short cap sleeves. The bridesmaids wore gowns of blue faille fashioned after Miss Webster's. They wore bouquets of fresh flowers with large bows in the back from which flowed ribbon streamers. They carried fans covered with pink snapdragons and larkspur with maline and matching streamers.

The flower girl wore a gown identical to that of the bride and carried a miniature bridal bouquet from which she plucked petals to scatter in the path of the bride.

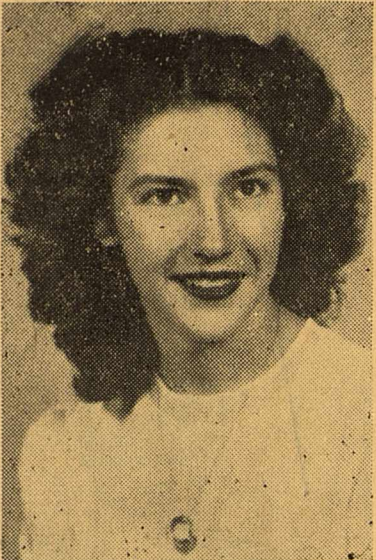

Best Man

James Stephen Noland was best man for his son. Ushers were Joseph Beane, Walter Olds, John Campbell and Tom Palmer.

For her daughter's wedding Mrs. Williams chose a dress of light blue lace and crepe de chine with a lace peplum and V-neckline. Her gloves were of matching blue lace and she wore a corsage of Johanna Hill roses.

The mother of the bridegroom wore a gown of black lace with a draped skirt and high round neckline. (Continued on Page 3)

Janis Kelly Weds J. G. Harper, Jr., In Ceremony Here

Mrs. J. G. Harper Jr.

Janis Kelly, daughter of Mr. and Mrs. Sol Kelly, became the bride of James G. Harper, Jr., son of Mr. and Mrs. J. G. Harper, Sr., Friday, June 13, at the First Christian Church.

Wedding vows were read by the Rev. LeRoy Castle in the presence of the immediate families of the bride and bridegroom.

The bride wore a beige wool gabardine suit with brown lizard shoes and bag. She chose a brown straw bowler hat arrayed with a brown veil. Her corsage was a baby orchid.

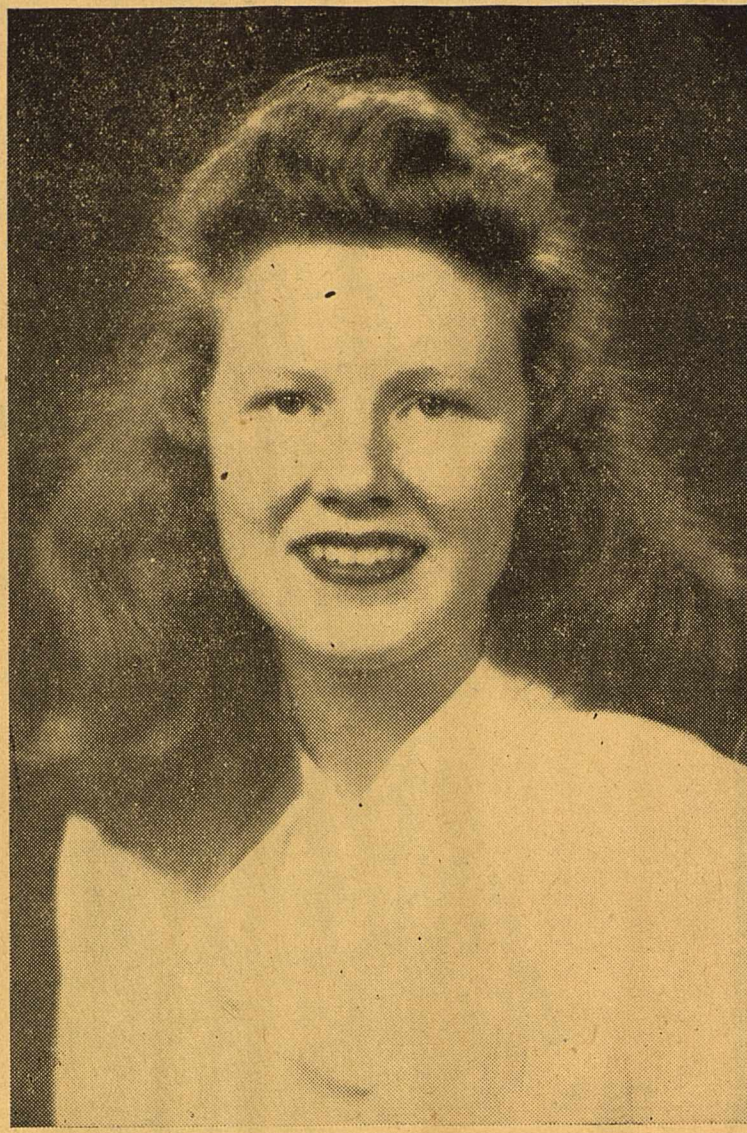

Mrs. Harper is a graduate of Our Lady of Victory College of Fort Worth and at the time of her marriage was employed by the Sun Oil Company.

The bridegroom is employed by the firm of Clifford C. Cool and associates. He attended A&M College.

The couple is at home at 1001 1/2 West Louisiana.

Midland Doctors And Wives Entertain Other Doctors With Western Dinner

Midland doctors and their wives were hosts Thursday night at a chicken barbecue at the home of Dr. and Mrs. L. W. Leggett, 901 West Storey, honoring doctors and their wives from Odessa, Big Spring and Stanton.

Guests were registered in a reception room decorated with pink and salmon gladioli. Each guest was presented a name badge which was later used during game contests.

Dinner was served in the garden of the Leggett home, where long tables were arranged in a setting of typical colorful western atmosphere. The menu included barbecued chicken, green salad, Mexican beans, olives, pickles, Spanish onion rings, coffee and ice cream.

Name Winning Contest

In the name winning contest, Dr. Elbert Thornton, Odessa, won high score for the men and Mrs. G. T. Hall, Big Spring, took honors for the women.

Games involving medical terms and bingo games were played throughout the evening. Prizes went to Mrs. R. B. G. Cowper, Big Spring. (Continued on Page 3)

Engagement Revealed

Marion Marcille McClure

Marion Marcille McClure's Betrothal To James Flint Graham Is Announced

At a lovely coffee held Thursday morning at the home of Mr. and Mrs. Joseph Duval McClure, the engagement and approaching marriage of their daughter, Marion Marcille, to James Flint Graham of Denver, was announced.

The wedding news was revealed by small green and white colored match folders on which the words, "Jim and Marcie" were inscribed. The marriage is to take place July 20.

The bride-to-be is a graduate of Midland High School, attended Colorado University and is a member of Kappa Alpha Theta.

The bridegroom-to-be attended Fountain Valley School in Colorado before he served as a pilot in the South Pacific theater of war. Following his discharge from the Air Forces he resumed his studies at Colorado University. He is a member of Delta Tau Delta.

Guests at the announcement coffee were served from a table arrayed with a green and white color scheme. A floral arrangement of daisies formed the centerpiece.

The guest list included Mrs. Day-ton A. Blevin, Mrs. Joe MacConner, Mrs. Herman Brewer, Mrs. Gerald Nobles, Shirley Culbertson, Ann Ulmer, Jane Butler, Marjorie Morrison, Dorothy Watson, Patsy Butcher, Janice Knickerbocker, Joan Steinberger, Peggy Ayers, Peggy Bissell, and Mary Fern Bray.

Weds In Odessa

Mrs. Elizabeth Foreman

Mrs. Elizabeth Foreman and Marvin English were united in marriage Saturday by Justice of the Peace H. B. Hendricks at Odessa.

Mrs. Foreman wore a rose crepe dressmaker style dress with black accessories. Her corsage was an orchid.

Attending the wedding were Mr. and Mrs. Carl Denson, Hobbs, N. M.; Mr. and Mrs. Marcus Von Rosenberg, Midland; Mr. and Mrs. Tom Brown, Odessa; Henry Watson, Odessa; and Mr. and Mrs. Otis White, Midland.

A reception was held Sunday at the home of Mr. and Mrs. Marcus Von Rosenberg, 1008 West Missouri. Mr. and Mrs. English are at home at 507 North San Angelo Street.

Mrs. J. M. White To Work Again With Baptist Youth Camp

The annual Baptist Youth Camp which will open Monday at Big Spring City Park, was founded by Mrs. J. M. White of Midland, past president of the Baptist W.M.U. of District Eight and a past vice president of Texas Baptist W.M.U.

Mrs. White, who is serving as dining room hostess for the youth camp this year, worked with other women several years ago to provide a summer camp for boys and girls where they could participate in sports and at the same time receive spiritual guidance.

Each year hundreds of boys appear in the Recognition Service for Royal Ambassadors which is held in the amphitheater at Big Spring City Park. Later in the week a beautiful coronation service honors Baptist girls of the district who have attained the rank of queen, princess, lady-in-waiting or maiden.

The club voted to hold the annual encampment out of the county this rather than at Glorvada.

Plans were made for a community party to be held Friday, June 27.

One visitor, Mrs. Alvis Ragan, and the following club members were present, Mrs. Howard, Mrs. Bartlett, Mrs. Jim W. Baker, Mrs. L. H. Denny and Mrs. R. E. Cain.

Delicious Barbecue At Buck's—

PRONTO PUPS

Have you tried Pronto Pups? They're wieners "dun in a bun" and truly delicious. Buck's Pronto Pup also has its own special kind of home-made barbecue, which you'll enjoy serving at picnics or on your own dinner table. There are plate lunches, too, for those who like to take their noon meals in friendly and pleasant surroundings. Or if you just want to join your friends for a coke and a few minutes of relaxation, drive out to BUCK'S PRONTO PUP. There's always plenty of parking space.

Paul Sachs Originals At Dunlap's—

Dunlap's is headquarters for Paul Sachs creations, dresses which you know can be depended upon to give women the latest in styling. These dresses come in linens, silks, and cottons, and are priced from \$19.95 up. One style which is characteristic of Paul Sachs is a silk print with patent leather trim, ruffled shoulders, and a peplum of ruffles.

For Westerners—

If you're a real Western homemaker, you'll want to own a set of the Westward-Ho dishes and paper napkins in rodeo patterns, featured at MIDLAND HARDWARE. Ideal for barbecues and other outdoor parties, or for diners with a Western note, these dishes and napkins are gaily decorated with cowboy and rodeo scenes and bordered with different brands. The dishes are both sturdy and attractive, and will add sparkle to any occasion. Buy yours now at Midland Hardware. They will delight your family and guests.

Floral Prints For Informal Homes—

Give your home a touch of charm with pictures and mirrors from Simmons Paint and Paper Company. Their large floral watercolor prints in light wood modern frames are ideal for an informally decorated home. The oil reproductions are framed in gold and gold leaf. SIMMONS' assortment of mirrors includes the venetian type and plain and fancy framed mirrors, 18 to 36 inches in diameter, in various shapes. Preserve the pictures you now have by taking them to Simmons to be framed. You'll be pleased with their work.

New Shipment Of Hats—

Charm Beauty and Hat Shop has just received a shipment of Lee Bury hats in black taffetas which are especially fitting for mid-summer and early fall traveling, and in colored crocheted hats that can be worn with any number of your summer dresses. They also have white beanies, and small colored braid beanies appropriate for late afternoon and evening wear. Don't forget that you can have your old hats remodeled or new hats made-to-order at the CHARM BEAUTY AND HAT SHOP.

For Top-Most Eating Pleasure—

Do you enjoy eating? Then you'll enjoy dining at Colin's Cafe, where the food is the by-word. Every dish is expertly prepared to please your individual taste. On the menu today are dinners featuring turkey, baked Virginia ham, and fried chicken, any of which has tantalizing appeal to Southern taste. The pleasing atmosphere of Colin's too, will add to your eating pleasure. Give your family a treat today or any day by taking them to dinner at COLIN'S CAFE.

Slats-o-Wood Designed For Service—

Slats-o-Wood, the modern successor to awnings, add comfort and beauty to any home. They're custom-built to fit the lines of your home, and are as enduring as the house itself. Slats-o-Wood are sturdily anchored to prevent banging, and are designed to coax the breeze, but repel the rain—to let in light but keep out the sun. Yet Slats-o-Wood are economical, and give year-round service. Call WILSON'S SERVICE STATION for a free estimate and have yours installed right away.

For Your Vacation Trip—

You'll proudly tip the porter as he sends you and your smart Samsonite luggage from Wilson's off on your vacation trip this year. Samsonite makes ladies' overnight, wardrobe, Pullman, and make-up cases in durable plastic with matching leather trim, a set of which you'll be pleased to own. While you're in WILSON'S, select several pairs of their beautiful nylon hose in the latest shades, Timber and French Mist. They also have the shades which you've loved wearing to date, Paris Touch and Riviera.

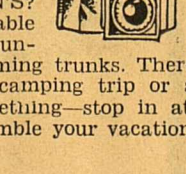

Enjoy Health—

Keep fit and enjoy doing it. How, you ask? It's simple—BOWLING! Bowling is one of the finest types of recreation for summer months, especially when you can chalk up your strikes in the air-conditioned comfort of PLAMOR PALACE. Once you've sent that ball after the pins you'll know the thrill of bowling. Don't waste precious leisure hours when they can be both beneficial and enjoyable. Whether you come in a party or come alone, you'll enjoy the clean, healthful sport offered by Plamor Palace.

Vacation Needs At Cameron's—

Why chase all over town getting vacation needs together when you can find them all at CAMERON'S? They are well stocked with thermos jugs, portable ice boxes, flashlights, sun glasses, camera film, sun-burn lotion and cream, bathing caps, and swimming trunks. There it is in a nutshell—everything you need for a camping trip or a jaunt to the sea-side. Don't risk forgetting something—stop in at Cameron's Pharmacy and let them help you assemble your vacation supplies.

Something New In Flatware—

The brilliance of a table set with Dirilyte knives, forks, and spoons cannot be matched. VOSATKO'S now has the golden-hued Dirilyte flatware in both the Empress and Regal Patterns. Dirilyte is made of highly scratch-resistant metal alloy, solid, not plated, yet costs no more than good plated silver. See it, and you'll want a set regardless of the flatware you already own. Vosatko's is also showing lovely pottery dinnerware in services for four, with satin glazes in both turquoise and white.

Shabby Furniture Made New—

Smart-looking sofas and chairs are a necessity in a well-appointed home. If your furniture is beginning to look shabby, call SANDERS FURNITURE WORKS and they'll rebuild it to look like new again. Frames are repaired, braced, and repolished, webbing reset and replaced; platforms rebuilt, filling added, and springs replaced, reset, and retied. Topped off with an expert upholstering job by Sanders' experienced workmen, your "new" furniture will add grace to your home. Call Sanders Furniture Works to pick up your worn furniture right away.

Curtain Will Rise Thursday Night On Community Theater's Production Of Smash Hit, 'Kiss And Tell'

Among the top flight productions all over the nation on amusement appeal for all ages is "Kiss and Tell," the newest offering of the Community Theater to Midland, which will be staged Thursday and Friday nights at the City-County Auditorium.

The play, which is under the able direction of Art Cole, was written by F. Hugh Herbert and was based on the small town middle-class families Herbert wrote about in his Good Housekeeping magazine stories on the Archer family and on his radio program, "Meet Corliss Archer."

The line-up of talent in the play cast is assurance within itself that the expert combination of farce comedy and juvenilia that kept Broadway rolling in the aisles for months, will prove fine entertainment fare for Midland.

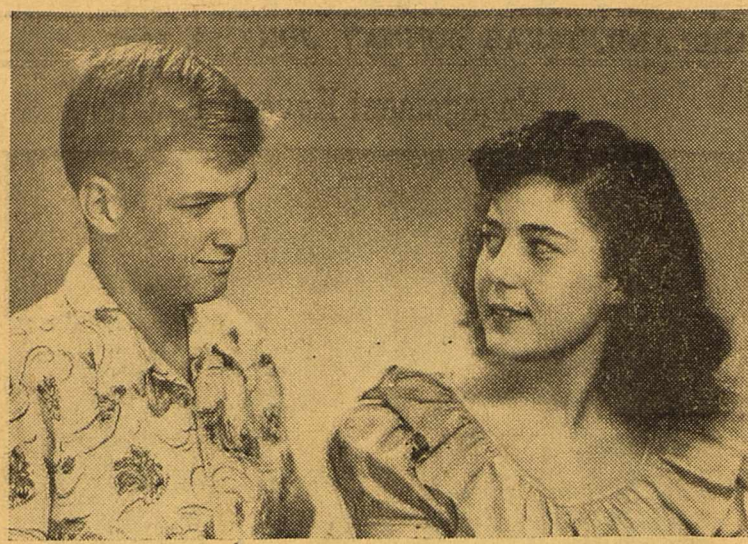

Natural For Role
Miss Frances Puett, who portrays the 15-year-old dynamo of youth discovering the joy of life and love—"Corliss Archer," has just returned to Midland from Gulf Park College to live things up at the Nelson Puett residence. She is a natural for this part of the rollicking teenager whose lively imagination causes all the trouble in the play.

Lew Hoey, son of Mr. and Mrs. W. T. Hoey, who is still talked about as one of the big hits of last Summer's Community Theater, "Get With It" and "Junior Miss," returned home from Cathedral School for Boys just in time to take over as "Dexter Franklin," Corliss' completely bedazzled and bewildered beau.

Mariana Mosely, as the painfully young and secretly married "Mildred Pringle" is a newcomer to Midland and a find for Community Theater. She is the niece of Mrs. Clint Dunagan, and was educated at North Texas State Teachers College, Denton, where she was active in dramatics, directing and counseling.

Bill Taylor, visitor and nephew of the Moselys, walked into the part of "Lenny," Corliss' brother, with a skill which is the result of wide experience in amateur theatrics and radio shows. He is a graduate of Texas University, a member of Beta Theta Pi fraternity and a war veteran of 20 months in the Pacific. He has appeared in "Gas Light," "Faming of the Shrew" and various other productions in connection with University Drama and the Houston Little Theater. He is interested in radio and newspaper work and hopes to stay in Midland.

The roles of "Mr. and Mrs. Archer," the bewildered parents of Corliss, are ably portrayed by Fran Schneider and Don McKibbin. In this part, Fran makes her debut as an actress for Community Theater, but has long been an essential in

Meet precocious Corliss Archer and her lovesick adolescent swain, Dexter Franklin, as portrayed by two talented youngsters, who in Midland life are Frances Puett and Lew Hoey. These two will provide a laugh a minute when they make their appearance in the Community Theater's production, "Kiss and Tell," Thursday night. Tickets and reservations will be available for Community Theater members Monday and for the general public Tuesday, Wednesday, and Thursday at Wemple's Music Store.

stage work and in the costuming department. Mrs. Schneider is well known in Midland as a vocalist and lists in addition to her family, her hobby, which is maintaining a knit shop in her home. She received her education at the Colorado Woman's College in Denver, majoring in voice.

The role of the caustic old house-painter, "Mr. Willard," as interpreted by Norris Creath, is handled with the usual dependable skill and color of Norris' characterizations. His long list of successes include: "George Washington Slept Here," "Ladies in Retirement," and "State of the Union."

Heien Manning, who played in "The Torchbearers" last year, sponsored the Junior Workshop activities, and is now chairman of publicity and public relations, will carry the part of the cook and domestic arbiter, "Louise."

Master Jim McGraw, does the part of "Raymond," super-salesman from next door, full justice. He was Barlow Adams in "Junior Miss" and carried a role in "George Washington Slept Here."

"Private Earhart" is another role taken by another first actor for Community Theater, Lige Midkiff. He falls naturally into the role of the soldier calling on Corliss, as he spent two years in the Pacific with the armed forces. Texas born and a graduate of Midland High school, he participated in school dramatics. He is now co-owner of the Westland Grocery and Market.

Dorothy Gates takes the part of "Mrs. Pringle," the mother of "Mildred." Dorothy has been active on

stage crews, and appeared in the productions, "Junior Miss" and "The Torchbearers."

"Mr. Pringle" is played by Elwood Turrentine. He was also in "The Torchbearers" and in "Suppressed Desires." He is associated with Elder Chevrolet Company and was active in Community Theater work in Hobbs, N. M.

In Previous Plays
Louise Showalter as "Mrs. Franklin," the gentle and bewildered mother of "Dexter," is familiar to Community Theater members. She appeared in "Ladies in Retirement" and "State of the Union," and is active in Adult Workshop. She is employed by Dunagan Sales Company.

Joe Koegler as "Mr. Franklin" is new to Community Theater, but had previous experience in amateur theatricals in Waterloo, Iowa, and during his school years at St. Edwards in Austin. Formerly from Laredo, Texas, where he was employed as assistant superintendent of schools, he now owns and operates the Midland Floral Company.

Joe Seymour as the benevolent uncle, "Commander Archer," has been interested in theater work for some time. He was an essential in the old days of Civic Theater, and acted in "Uncle Harry," one of last year's productions. He is an attorney in Midland and served in both World Wars.

The cast is cued.
The stage is set.
Tickets are on sale.
To assure a seat for one of the performances, go to Wemple's Music Store, ticket headquarters.

Girl Scouts End Kermit Day Camp

KERMIT—The June day camp for Kermit Girl Scouts and Brownies, which has been underway at the Wadell Ranch since Tuesday, June 6, closed Friday night with an exceptionally large attendance and a special program. Many parents and friends of the girls were present.

Average attendance during the week was about 80 girls each day, according to Mrs. Sam Montgomery, day camp director.

Final day of the camp ended with a bon fire and stunts presented by each troop. Earlier in the afternoon the girls went on their second hike of the week, returning to camp about 6:30 p. m., when a wiener roast was prepared and served. Nature study and gathering firewood entertained the youngsters on the hike.

Decision of young camp duties to be performed was decided by troop drawings. Hostesses were named for each meal, and tables were decorated with centerpieces made by the girls.

Mrs. Iva Lee Hobden, Pecos, Permian Basin Girl Scout field worker, visited the camp during the week and was a guest at the bonfire picnic. Mrs. Shorty Hall, troop leader in Odessa, assisted with instructions in arts and crafts.

GOES TO AIR SCHOOL

B. W. Reecer, a colonel in the Coast Artillery Reserve, left Saturday for El Paso where he will attend a two weeks school in anti-aircraft at Fort Bliss.

Mrs. J. G. Noland—

(Continued from Page 1)

line. Her accessories were pink and she wore pink carellias.

Immediately following the ceremony, Mr. and Mrs. Williams were hosts at a wedding reception in the Trinity Episcopal Church house.

Baskets of white Summer flowers were used throughout the house and the bride's table was centered with a three-tiered wedding cake topped with a miniature bridal bouquet. Assisting at the reception were Mrs. George Noland, Mrs. H. P. Gibson, Mrs. Roy Smith, Mrs. Laura Yeiton, Mrs. Dennis Kelliher, Mrs. De Hinkley, Mrs. James Mayner, Mrs. Charles Thornton, Mrs. John Burdine, Blodwen Roberts, Mildred Skyberg, Joan Bechtel and Pat Shaffer.

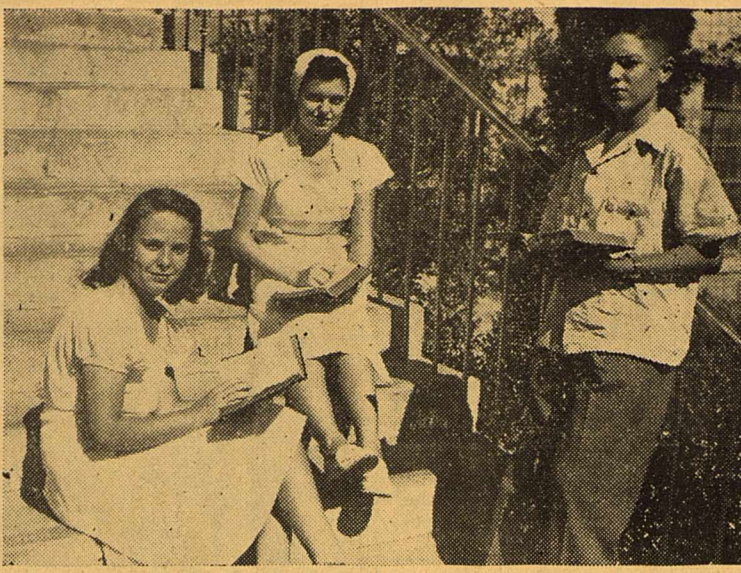

Out-of-town guests at the wedding included Mr. and Mrs. H. P. Gibson of Arkansas City, Kan., and Mr. and Mrs. T. H. Griffith of Oklahoma City.

After a honeymoon trip to Carlsbad, N. M., the couple will spend the Summer in Midland. For traveling the bride wore a beige Summer suit with brown and white accessories and a picture hat of straw. Her shoulder corsage was of white orchids.

RETURNS TO MIDLAND

Ann Arick, daughter of Mr. and Mrs. M. B. Arick, returned Saturday from Hill Terrace Ranch Camp near Junction, where she has been the last three weeks.

Baptist Youths Win Honors

Kenneth Wright, Ann Upham, center, and Daphne Tabor placed first in the church associational at the district contest held last week in Mineral Wells. These three young people, with Barbara Long, not pictured, who won first place in the memory work contest, brought honors to the First Baptist Church of Midland. Kenneth won the state contest for the 13-year-old group in sword drill and then competed in the 14-15-16-year-old groups for master swordsmen and won that title. The contest is based on skill of use of the Bible. Young Wright will represent the First Baptist Church of Midland and the State of Texas at the South-Wide Sword Drill Contest to be held July 23 in Ridgecrest, N. C.

Midland Doctors—

(Continued from Page 1)

Those attending the delightful dinner party were Dr. and Mrs. P. W. Malone, Dr. and Mrs. J. E. Hogan, Dr. and Mrs. E. H. Strauss, Dr. and Mrs. G. T. Hall, Dr. and Mrs. E. B. G. Cowper, Dr. and Mrs. Clyde Thomas, Dr. and Mrs. Preston Sanders and Dr. G. E. Peacock, all of Big Spring; Dr. Elbert Thornton and Mrs. E. V. Headlee, Odessa; Dr. Nell Sanders, and Dr. Virgil Sanders, Stanton.

Dr. and Mrs. Kurt Lekisch, Dr. and Mrs. W. G. Whitehouse, Dr. and Mrs. James H. Chapple, Dr. and Mrs. Harry A. Briggs, Dr. and Mrs. M. S. Dickerson, Dr. and Mrs. A. J. Cooper, Dr. and Mrs. P. E. Sadler, Dr. Homer B. Johnson, Dr. Charles Britt, Dr. Robert Golladay and Dr. and Mrs. Leggett, Midland.

Kermit Rainbow Girls Attend Dallas Meet

KERMIT—A total of 18 girls and four adult sponsors will represent Kermit Rainbow Girls this week at the Grand Assembly of the Rainbow Girls to be held in Dallas.

The Kermit delegates include: Alice Sue Mullinax, Norma Fae Baird, Sybil Higgins, Ethel Faye Mitchell, Norma Jean Everett, Mary Sue Adams, Jennie Lee Fletcher, Lou Ellen Reneau, Shirley Jurgenson, Carolyn Melton, Maxine Stovall, Pat Williams, Mary Sue McLemore, Theresa Maples, Bobbie Nobles, Patsy Calloway, Jess Ann Estill and Wanda Whitten.

Sponsors are Mrs. Oscar Maples, mother adviser; Mrs. A. C. Williams, Mrs. L. M. Prater, and Mrs. Joe Cannon.

Sidwell Is Head Of Presbyterian Men' Club Here

Ernest Sidwell was elected president of the Presbyterian Men of Midland at the group's organization meeting at the First Presbyterian Church Friday night.

Ed Prichard was named vice president and Bill Hester, secretary-treasurer. Sidwell was elected over Vern Cubit and Tom Sealy; Prichard defeated Herman Heath, and Hester won over D. M. Secor in the "spirited" balloting.

More than 40 men attended the dinner-meeting which was presided over by Col. John Perkins. George Baumgartner acted as temporary secretary prior to the election.

Dr. H. A. Ireland, president of the Midland Kiwanis Club and chairman of the Midland Boy Scout District, was the guest speaker. "Boy Scouting" was his subject.

He outlined the organization plan of Scouting, and discussed the duties and functions of adult committees. He said Scouting is on the upgrade in Midland and asked the support and cooperation of Presbyterian men in promoting the Boy Scout program here.

"The starting of a Scout troop is one of the most progressive steps any group can take," the speaker said. Dr. Ireland discussed the responsibilities of a troop committee and said it can make or break a Scout troop.

Following his address, members of the club voted to make the reorganization of Troop No. 85 its No. 1 project.

Max David read the proposed constitution and by-laws which were adopted by the organization.

The group voted to hold regular meetings the third Wednesday night of each month.

President Sidwell appointed Dr. Y. D. McMurry as chairman of the food committee for the next meeting. Bill Collins will be in charge of the program.

Bud Bissell was chairman of the committee which arranged for and served the dinner Friday night. His helpers included L. C. Link, D. M. Secor, Harry Gossett, Jim Kendrick and W. T. Graham.

Mrs. R. R. Truitt—

(Continued from Page 1)

Winkler Auditor In El Paso Hospital

KERMIT—Don Tracy, Winkler County auditor, and Mrs. Tracy have been in El Paso several days where he has been hospitalized for removal of additional shrapnel from his leg.

Tracy, who lost one leg in Europe during World War II, also received severe shrapnel wounds in the other.

Church Building At Kermit Is Enlarged

KERMIT—Enlargement of the Church of Christ here was started this week, according to Mr. George True Baker, minister.

Construction was begun on a 40x70-foot stucco frame auditorium. The addition also will include Bible school rooms and the old auditorium will be used for class rooms.

MUTUAL Reliance
BETWEEN Doctor and Druggist

Your Doctor and Pharmacist are members of two of the oldest and most mutually dependent professions. They are both required by law, and rigid principles within their own organizations, to spend many years of preparation before receiving their degrees of "M. D." (Doctor of Medicine) and "R. Ph." (Registered Pharmacist).

Hand in hand with the Medical profession, Pharmacy has helped in the development of new, life-giving drugs. Truly, throughout life, your Doctor and Pharmacist are important to the well-being of your loved ones. Keep the hands of politicians off these two guardians of your health.

Both Doctor and Pharmacist must understand the preparation and preservation of drugs, and be well qualified in prescribing and dispensing important and often dangerous drugs. Their mutual reliance is founded on realization of responsibility to each patient.

All 48 states require standards of qualification before licensing Doctors and Pharmacists to practice. Like the Doctor, the Pharmacist has his definite responsibilities to the community.

She is an experienced hair stylist. Mrs. Foster has had 15 years experience and for two years has operated her own shop located at 409 North D Street here.

Kermit Man Nominated For 20-30 Club Post

KERMIT—N. B. (Pat) Holder, retiring president of the Kermit 20-30 Club, was nominated Wednesday night by members of the club as candidate for lieutenant governor of the district. The district election is slated to be held in El Paso during a convention on July 4-6. J. M. Crossno was elected president of the Kermit club at the same meeting. Other officers named, each to serve six months, are J. W. Smith, vice president; Robert Clay, secretary; Gene Shaver, treasurer; and Jack Pancake and Gene Blount, directors.

Crane Man To Meet Austrian Fiance In New York Wednesday

CRANE—Elmer Kelton, son of Mr. and Mrs. Buck Kelton of the McElroy Ranch Company, left Friday for New York where he will meet his fiance, Miss Anna Lipps, of Ebenezer, Austria, who is scheduled to arrive in New York Wednesday.

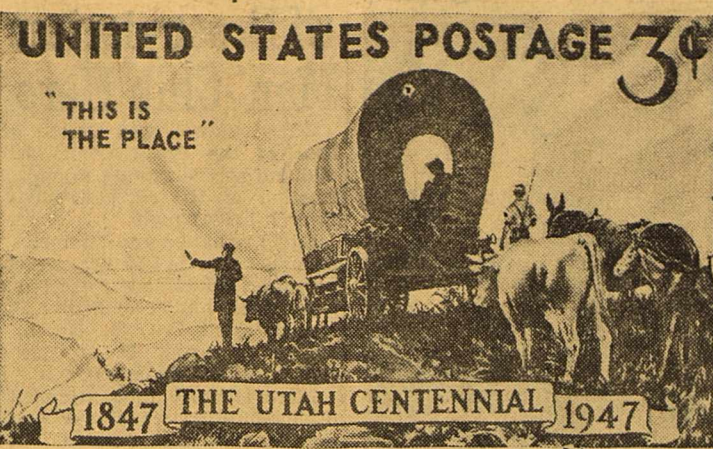

He was accompanied by his mother, his paternal grandmother, Mrs. W. S. Kelton, and by an aunt, Clara Bell Kelton, of Midland.

Kelton is a graduate of Crane High School and was a student at the University of Texas when he entered the service. He spent a year and a half overseas with the 26th Division in the European Theater, and was wounded in France.

Following his return to the United States and his discharge from the Army, he resumed his studies at the university and will receive his degree next January.

He has written several short stories for magazines, and is well-known as a cartoonist.

New Stamp Honors Utah Settlers

To honor the Utah Centennial, the Post Office Department will issue this commemorative three-cent stamp, with first sales at Salt Lake City, July 24. It was on this date 100 years ago that the first settlers entered the Valley of the Great Salt Lake.

South Of The Border Is A Lot Of Fun—But Home Sweet Home Still Midland

A look into the "land of tomorrow"—the scenery, the people, the attitudes, the progress, was taken by Mr. and Mrs. Joel Adcock on their recent visit to Mexico.

The Adcocks, who in Midland life are Mrs. Joe at the First National Bank and Joe at White's Auto Store, spent a carefree two weeks in the bright and colorful land that is our "neighbor on the south."

They traveled the Pan-American highway and visited Monterrey and Mexico City.

"It was not the big cities that interested me most," Mrs. Adcock commented. "They seemed too commercial. I was most fascinated by a little town named Tamazunchale which the natives pronounced as if it were Thomas and Charlie."

Orchid Business While in that little town the Adcocks met an American making a living there in the orchid business. He took them on a tour of the town, introduced them to the natives and showed them all the things of interest about the average Mexican families' life.

Mrs. Adcock tells about her trip as if she still can't believe all she saw and heard—"Why it is amazing how many of the people in Mexico can speak English," she says.

One of the most noticeable things about the people of Mexico is their extremely friendly feeling about President Truman, Mrs. Adcock says. "They come up to you and say, 'Amigo, that is where Truman stood,' then they beam with pride."

The Adcocks visited many of the famous Mexican landmarks, also visited by Truman during his recent visit there. These included the Cortez Castle, Maxmillon Palace, and the beautiful churches.

While attending the night club El Patio, in Mexico City, the rumor reached the Adcocks that the United States and Russia were at war. Anything of a political nature goes like wild-fire there, Mrs. Adcock observed.

Shopping Tour As to the womanly weakness for shopping, Mrs. Adcock was not resistant-proof. She came away with two typical Mexican cotton dresses. Loud and bright in color with ruffles and full skirts. The dresses were made by a Mexican girl who sewed on what appeared to Mrs. Adcock to be one of the original Singer sewing machines. "I was disillusioned about the dresses," Mrs. Adcock confesses, "I found out that she was using a Simplicity pattern."

As to Mr. Adcock, his shopping was limited to necessity. He bought a straw hat—someone sat a suitcase on the hat he carried with him.

The trip was one fun filled moment after another for the Adcocks, but underneath the good time, Mrs. Adcock received an impression of Mexican life that she has not been able to shake off. "I was so disturbed by the poverty and confusion" she says—which means in unspoken words, "I'm so glad I'm an American."

Preacher Scientist

Dr. Irwin A. Moon of Moody Bible Institute, pictured in one of his "Sermons From Science" demonstrations, is the producer of the sound-color film, "The God of Creation," which will be shown at 8 p. m. next Saturday at the First Baptist Church here.

IF STOMACH BALKS DUE TO GAS AND BLOAT

Help Get Food Digested to Relieve Yourself of This Nervous Distress

Do you feel all puffed-up and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief in helping your stomach do the job—it should be doing—in the digestion of its food.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

Navy Announces Enlistment Terms

SAN ANGELO—The Navy has announced new terms of service for enlistment and re-enlistment in the regular Navy. All men re-enlisting in the regular Navy within three months from date of discharge may re-enlist for a term of two, three, four or six years at the option of the applicant, except that 17-year-olds will be enlisted for minority or two or three years.

All first enlistments may enlist for a period of three, four or six years, except 17-year-olds, who may enlist for three years or minority. Vacancies still exist in combat air crewman, hospital and electronics branches.

Consent of custodial parent or legal guardian is not required for applicants 18 years old or above.

Water Group To Meet In Kermit In October

KERMIT—The October meeting of the Permian Basin Water Association is to be held here, with representatives from a number of area towns to attend. The association met in Monahans recently, with approximately 60 men present.

Kermit officials attending the Monahans session included: Jerry Haynes, water superintendent; James Sharp, assistant water superintendent; Mayor W. H. Wilson; Johnny Ray, city contractor; and Fred Pearson.

To See Or Not To See Was Once The Question; Now The Problem Is What Color To See Through

By Crystal Powell

"Men never make passes
"At girls who wear glasses."
Unquote Dorothy Parker.
Time was when Miss Parker was
so right the truth hurt. What maid-
en did not hear with sinking heart
and sheer dread the fatal words of
the doctor, "You've got to wear
glasses."

In her head would spin the hate-
ful and humiliating words she
would suffer from others, "Four-
eyes", "Specs" and "Old-Maid
Look."

Things are different now.
Women today not only do not ob-
ject to wearing glasses—some actu-
ally enjoy wearing them and feel
glasses add to their comfort as well
as smartness.

Difference In Frames
The difference is all in the
frames.

It is now quite easy to get
frames in colors to match every
type skin, or if it is preferred, in
colors to match different types and
colors of dresses and suits. Sun
glasses are even made up in pre-
scription form and black frame
glasses set with rhinestones add to
after-dark dress glitter and bril-
liance.

Women today who wear glasses,
usually have two or three pairs. One
for dress wear and one for work
and sports.

A perfect example of the change
in attitude about the wearing of

FLOWERS SAY IT BETTER!

Hollywood's Glamorous Hayworth Is Charmed By Fashion Models Of Paris

In Paris, Rita Hayworth chose fashions from the news-making collection of Christian Dior (lower right), latest addition to France's inner circle of top-flight dressmakers. Photographed above at the French premiere of "Gilda," Miss Hayworth is wearing her favorite dress, sketched at right to show details of Dior's "corolla" silhouette. The gown is double-tiered, ginger-colored organza, dotted with white. Sketched left is a daytime dress with hip-length, belted bodice and full, pleated skirt. Hemline is fashionable mid-calf length.

By ROSETTE HARGROVE
NEA Staff Correspondent

PARIS—(NEA)—Christian Dior, most recent addition to the ranks of big-name dressmakers, has scored yet another success. This time it is with Rita Hayworth.

When Rita returns to Holly-
wood, her trunks will contain no
less than 12 creations from Dior's
collection. His showings, incident-

Week's Building Totals \$13,900

Building permits in Midland for
the week ending Saturday amounted
to \$13,900, to bring the 1947 con-
struction figure to \$1,198,495.

It was a light week as building
permits go, compared with \$163,200
for the week previous.

B. F. Davidson took out two per-
mits to build two residences at 2406
and 2410 Holloway Street. Each
will cost \$5,000. Each will be of
lumber, size 28 by 39 feet, with one-
car garage attached. Total of the
project is \$10,000.

Other permits of the week: Butler
Hurley, \$3,200, to build a dwelling
at 1005 West College Street, size to
be 20 by 22 feet with 10 by 20-foot
garage attached; Ruby Sommer-
ford, \$500, to build a storage room
at the rear of 104 South Pecos
Street, size 12 by 20 feet, lumber;
Kathleen Speed, \$200, to move a
structure to 404 North Pecos Street,
size 18 by 18 feet, two-car garage.

ally, caused something of a stir in
fashion circles this spring.

The models chosen by the movie
star are about evenly divided be-
tween Dior's "figure 8" line and the
"corolla" (flower petal) sil-
houette. Contrary to so many
stars, Miss Hayworth insisted on
having her gowns made exactly
like the models. This will mean
that the "guepiere" or wasp-waist-
ed corset and the new longer
hemline are shortly to take a bow
in movie circles. All of her skirts
are to measure from 10 to 12
inches from the ground: the hem
length which has now been adopt-
ed by smart women in Paris.

Colors chosen were all selected
to tone with Rita Hayworth's red
hair.

For the premiere of her film
"Gilda," Miss Hayworth wore her
favorite dress—a double-tiered
"corolla" gown of ginger colored
organza, dotted with white.

Many of the day dresses chosen
by the movie star follow the same
line as the evening gowns. One
of the more unusual daytime mod-
els has a pleated skirt of midcalf
length which billows out from a
hip-swathing bodice. This is
cinched-in at the waist to empha-
size the flower petal fullness of the
skirt.

VISITS BROTHER HERE

Mr. and Mrs. John M. McRae and
daughter of Jacksonville, Miss.,
are visiting his brother, Hamilton
McRae, and family in Midland.

Social & Situations

THE SITUATION: A bride-to-be
wonders whether to have her sister
or her closest friend as her maid
of honor.

WRONG WAY: She decides to
have the friend as maid of honor
and her sister as a bridesmaid.
RIGHT WAY: She has her sister
as maid or matron of honor. It is
expected that a bride's sister, if she
has one of suitable age, will be her
maid of honor. Her friends may be
bridesmaids.

Worth, formerly of Midland, is vis-
iting in the home of Mr. and Mrs.
Cecil Waldrep here.

DDT-Spray Machines Shipped Saturday For Use In This Section

Two Todd DDT spray machines
were scheduled for shipment Sat-
urday from Houston to Odessa, Mid-
land and Big Spring, according to
word received by W. M. Howard,
sanitarian for the Midland-Ector-
Howard County Health Unit.

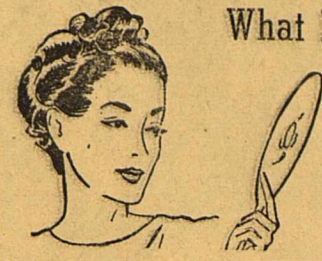

The City of Odessa has pur-
chased one of the machines. The
other, to be used in Midland and
Big Spring, was bought jointly by
Midland JayCees and the Big
Spring chapter of the Infantile
Paralysis Foundation.

The machines are of the same
type as those used by American
armed forces for controlling insects
around military installations and
are so powerful that entire cities
can be covered with the insecticide
in a brief time.

Typhoid Immunization Urged By Dr. Sadler

Although all possible precautions
are being taken by health authori-
ties to minimize danger of a typhoid
epidemic in Midland, the individual
citizen should make sure he and
his family are immunized against
the disease, Dr. F. E. Sadler, direc-
tor of the Midland-Ector-Howard
County Health Unit, warned Sat-
urday.

The presence of cesspools and
ponds of stagnant water in various
parts of the city and the surround-
ing countryside constitute a detri-
ment typhoid menace, he said. He
urged everybody who has not been
vaccinated see his family physician
as soon as possible for immuniza-
tion.

Switch From High Calorie Foods To Low For Summer Streamlining

Jane ("Cheyenne") Harker gets a double dose of vitamins by sunbathing while she lunches.

By ALICIA HART
NEA Staff Writer

Do slimming menus bore you? Yet you'd like to shave off some pounds now that the beach parade is under way. Eat less of what you normally eat. For example, settle for one-half pat of butter instead of a whole pat. Drink only one cup of creamed-and-sugared coffee. Be satisfied with one slice of bread at a meal, instead of two; with a smaller helping of pie. A few judicious switches, of

course, from high-calorie to low-calorie desserts will enable you to wriggle into a smaller-size bathing suit more quickly. For example, let's compare the calorie count of two popular Summer desserts. A half cup of lemon or orange ice contains 119 calories. An average helping of strawberry shortcake, topped with whipped cream, contains 300. By making a switch from the high to the low, you can lower your calorie intake considerably at one meal without encountering the dieter's usual restrictions.

Eva Cowden Class Has Wives-Husbands Chicken Barbecue At Leggett Home

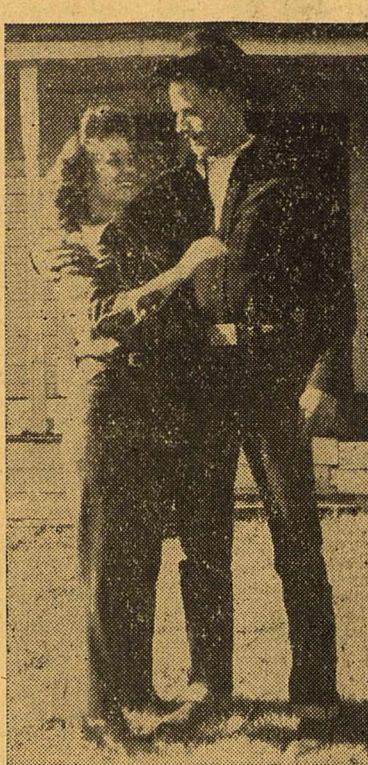

The Eva Cowden Sunday School Class of the First Baptist Church met at the home of Mr. and Mrs. Raymond Leggett recently for a chicken barbecue.

The dinner was served on the spacious lawn of the Leggett home to 34 members of the class. Husbands of members were guests. Those present included Mr. and Mrs. Joseph Mims, Mr. and Mrs. H. A. Caldwell, Mr. and Mrs. J. M. White, Mr. and Mrs. A. B. Cole, Jr. Mr. and Mrs. J. D. Wilson, Mr. and Mrs. Earl Bird, T. H. Dwyer, Mr. and Mrs. Ray Trammell, Mr. and Mrs. Robert Reeves, Mr. and Mrs. Felix Cox, Mr. and Mrs. H. L. Whitworth, Nell Hazlip, Mr. and Mrs. R. L. Grubb, Mr. and Mrs. Thurman Pylant.

Mr. and Mrs. Henry Orson, Mr. and Mrs. Kenneth Webb, Mr. and Mrs. Frank Flournoy, Mr. and Mrs. J. G. White, Mr. and Mrs. Everette Smith, Mr. and Mrs. Floyd Smith, Mr. and Mrs. Robert Pine, Mr. and Mrs. Walter Bagwell, Mr. and Mrs. T. P. Williams, Mr. and Mrs. R. E. Colvin, Mr. and Mrs. J. B. Cuffman.

Mr. and Mrs. Hickman, Mr. and Mrs. Absher, Mr. and Mrs. Martin, Mr. and Mrs. Sanders, Mr. and Mrs. Massey, Mr. and Mrs. Whitehead, Mr. and Mrs. Howard, Mr. and Mrs. Sims and the host and hostess.

Earlene Jeffreys, Marvin Fisher Are Married In Lubbock

Mr. and Mrs. Marvin Fisher, Jr.

ANDREWS—Miss Earlene Jeffreys, daughter of Mr. and Mrs. Tommie Jeffreys, and Marvin Fisher, Jr., son of Mrs. Nola Fisher, were married Friday, June 13, in the home of the Rev. Mr. Richardson in Lubbock.

Both the Jeffreys and Fishers are prominent Andrews County ranch families. The bride chose a white suit with brown and pink accessories. Mrs. Dan Taylor of Big Spring attended the bride as matron of honor, and Mr. Taylor was best man. Bill Cox was the only other attendant.

The bride is a graduate of Odessa High School and attended Texas Tech at Lubbock. She has been employed as secretary to the superintendent of the Andrews Public Schools the last two years.

The young couple plan to wait until September for their honeymoon which will be spent in New York where they will attend Madison Square Garden Rodeo. Both Mr. and Mrs. Fisher are well known in rodeo circles of the Southwest. Mrs. Fisher represented Big Spring in the Cowgirl Sponsor Contest at the recent Midland Rodeo.

They are at home at the Fisher Ranch northwest of Andrews.

Kermit News

KERMIT—Mrs. Mae Montgomery, Roswell, N. M., was a recent visitor here in the homes of her sons and their families. Her sons are Sam Montgomery and Frank Montgomery.

Mrs. R. H. Leslie, who is employed here in The Fashion Shoppe, has been visiting in Tulsa, Okla., the last week.

Mr. and Mrs. M. H. Alberts left Thursday by commercial airline on an extended vacation trip. They flew to Ventura, Calif., where they will attend the wedding of Albert's nephew, W. H. Alberts, who is a student in UCLA. They also will visit several days in Los Angeles, and in El Paso, returning home late this month.

Mr. and Mrs. Irving Cole are on a vacation trip to Amarillo, and also will spend several days fishing before returning here.

Recent guests in the home of Mr. and Mrs. Nev H. Williams was Catherine Davis, Dallas, who was visiting with the Williams' daughter, Kearney. Miss Davis, who is a recent graduate of Our Lady of Good Counsel Academy, Dallas, returned home a few days ago.

Mrs. Garland Ledbetter was honor guest recently when Mrs. W. E. Pool entertained at her home with a gift shower. Assistant hostesses were Mrs. Frank Carver, Austin, who was visiting in the Pool home, and Mrs. C. E. Langston. Spring flowers were used for decorations.

Larry Jewell, son of Mr. and Mrs. Randolph Jewell, is visiting this week in Mercury with his grandmother, Mrs. C. H. Pridemore. Mr. and Mrs. G. E. Thompson are on a trip this week to points in East and South Texas. Thompson, assistant superintendent of Kermit schools, will interview applicants for positions next year on the Kermit school faculty.

Members of Wade-Yates Post of Veterans of Foreign Wars are to sponsor an old timers' dance Thursday night at the Winter Garden Club. A number of out-of-town visitors are expected.

Mr. and Mrs. Kenneth Burkhardt have announced the birth of their daughter, Stephanie Ruth, on Monday, June 16. The baby is the granddaughter of Mr. and Mrs. Bry Burkhardt of Kermit, and Mr. and Mrs. B. F. Lankford, of Tarzan.

STANCE REVEALS MENTAL ATTITUDE

By ALICIA HART
NEA Staff Writer

The way you stand and use your feet reveal more things about you than you ever suspect. Here are some examples:

If you plant your weight on the back foot—when you stand with one foot in front of the other—you give the impression that you are bored or tired. Weight on the forward foot, however, is a body attitude which implies alertness and interest.

Take the stance where feet are even with each other but spaced widely apart. Some women seem to feel a compulsion to stand like this when dressed in slacks. Others do it even when dressed in skirts. In either case, this stance instantly robs them of femininity. Maybe that's because feet spaced widely apart while standing is a body pose characteristic of men.

How your feet behave when you turn your body around is most revealing. This move tells whether you have or have not mastered graceful foot-work. If you have, you pivot on the balls of your feet. But if you swing around step by step or twist your body, you haven't learned the first lesson in easy, direct and graceful maneuvers. The pivot-turn cuts out a lot of clumsy footwork and saves a lot of waste motion.

VISIT IN SEALY HOME

Mr. and Mrs. J. B. McCord and daughter, Nanetta, of Coleman are weekend guests in the home of Mr. and Mrs. Tom Sealy here. McCord is Mrs. Sealy's brother.

When buying a new cook book, look to see if oven temperatures, approximate cooking and baking times, size of pans and number of servings are indicated.

BRIDE'S HAIR-DO, VEIL HARMONIZE

By ALICIA HART
NEA Staff Writer

The correct choice of wedding headdress and hair-do will help the June bride minimize any imperfections in facial contours. That's what Eddie Senz, make-up expert, says and he offers practical tips to prove his point.

To make a round face appear narrower, Maestro Senz suggests an off-the-face halo wreath made of orange blossoms and veiling with flowers massed for height at the center of the headdress. With this he suggests a feather oob or a simple glamor bob softly waved at the front. Avoid any effect that adds width to the face.

If a too-square face is your problem, you also want to keep hair and veil away from the jaw-line, Senz warns. Hair should be worn high and rounded at the top and pulled sleekly to the back or to one side.

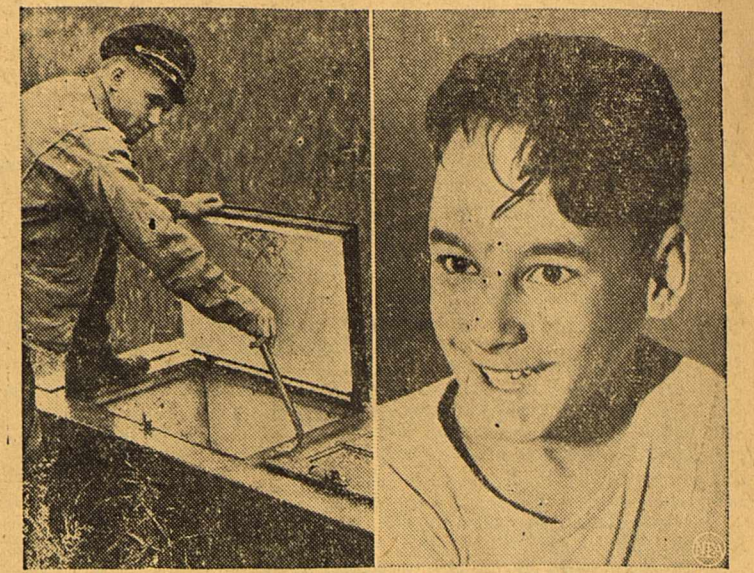

A triangular face gets needed width at the forehead with a hair-do that has a center part, fluffy bangs or an up-do softly waved at the temples. A companion headdress made of soft veiling draped into puffs at the temple would be effective.

To broaden a too-narrow jaw-line, the expert advises wearing hair smooth on top and fluffing ends near the chin line. With this, try a Dutch cap which adds no height, but builds up width back of the ears.

Face too long? It will look shorter, Senz says, if hair interest is centered over one temple. Balance this effect with a pill-box type of bridal headdress of maline or satin tilted forward over the opposite brow.

Eggs provide high-quality protein.

Spends 22 Hours Locked in Icebox

John Tome, left, examines the abandoned icebox in an empty lot next to his home in Milwaukee, Wis., in which his 13-year-old brother, Robert, right, was trapped for 22 hours. Robert climbed in to see what the inside of an icebox looked like, and the door locked behind him. He was freed when his father, Lorenz, searching for the boy, happened to open the box.

There She Blows!

Residents of Hoojubana, Japan, launch this huge 15 by 12-foot kite, probably the largest in the world, which they made for the resumption of kite flying contests, suspended for the past ten years in Japan. Weight of the kite and string to control it totals 1430 pounds. Some 850 sheets of paper, 20 bamboo poles, and five gallons of ink were used to make it.

Steel Boss Proves Popularity When He Is Elected Mayor By His Workers

By NEA Service
WEIRTON, W. VA.—(NEA)—After working under him for eleven years in a steel mill, Weirton workers have chosen their boss to run their brand new city, too.

Thirteen years of almost continual NLRB proceedings against the Weirton Steel Co. may have led outsiders to imagine that the boss wasn't high on the popularity list. But, when the village and its suburbs were incorporated this Spring as a city, and it came time to elect a mayor, the voters decided almost five to one on Thomas E. Millsop, who in 24 years worked his way from dime-

-an-hour open hearth helper to president of the company. Weirton is inhabited largely by men who work for the steel company, and their families. Millsop has been the big boss for 11 years. Out of the past 156 months, the company has spent 141 months fighting unfair practices charges before the NLRB.

Weirton is a Democratic community, Millsop is a Republican. Though the election was non-partisan, Constable Steve Barrone his opponent, is Democrat. But Millsop won 5053 to 1138. He carried 22 of the 23 precincts, and split the other 11 to 11. In his own precinct, which houses far more steelworkers than executives, he won 363 to 4. Millsop went into the steel mills at the age of 14. Until World War I came along, he played semi-pro ball on the side. Then he enlisted in the Marines, coming out a flying captain. After the war he drifted around the steel-selling business until he came to Weirton as a salesman in 1927. Nine years later, at the age of 37, he became president. He was described then as the youngest man to head a major steel company in modern industrial history. Weirton is not popular with all organized labor. The CIO steelworkers do not care much for it. For ten years they have tried hard, and vainly, to organize the mills. They haven't succeeded yet. Weirton employees have their own independent union. It backed Millsop for mayor. The secret, labor experts say, is that Weirton—and Millsop—are smart. "They keep a jump ahead of the CIO all the time on wages and working conditions," one pro-CIO observer told NEA Service. "Certainly the CIO didn't care about having Millsop become mayor. They felt that he had been put into the race so that the company could keep control over

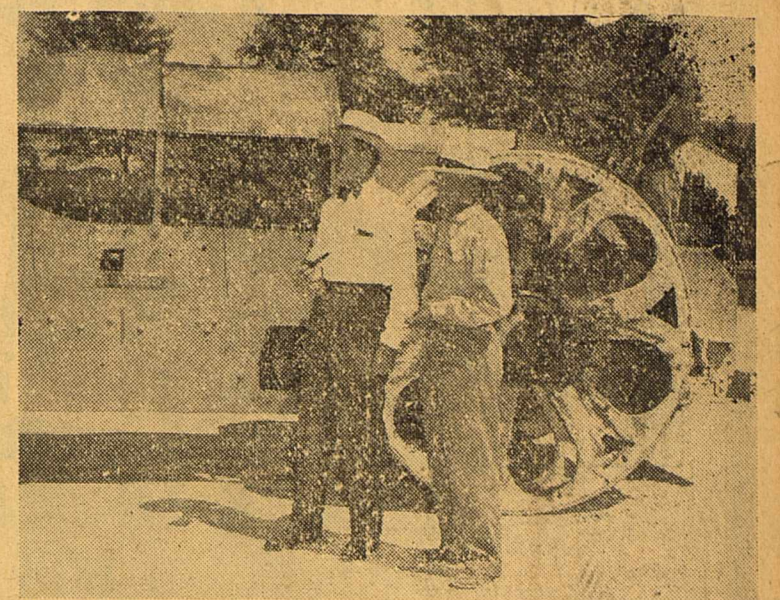

New City Manager Sets Out To Get Acquainted With 'Job And The Boys'

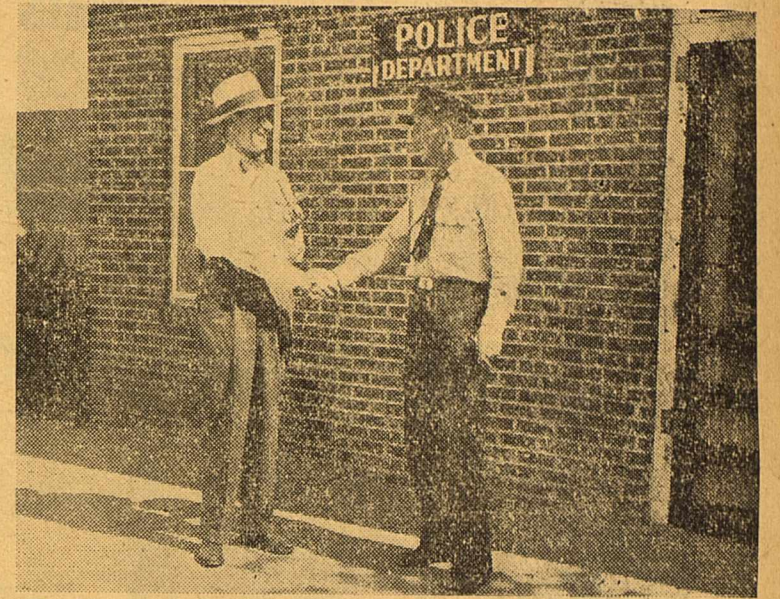

He studies an airport map at his office desk in the City Hall.

Meet R. C. (Bob) Hoppe—Midland's New, First Official City Manager

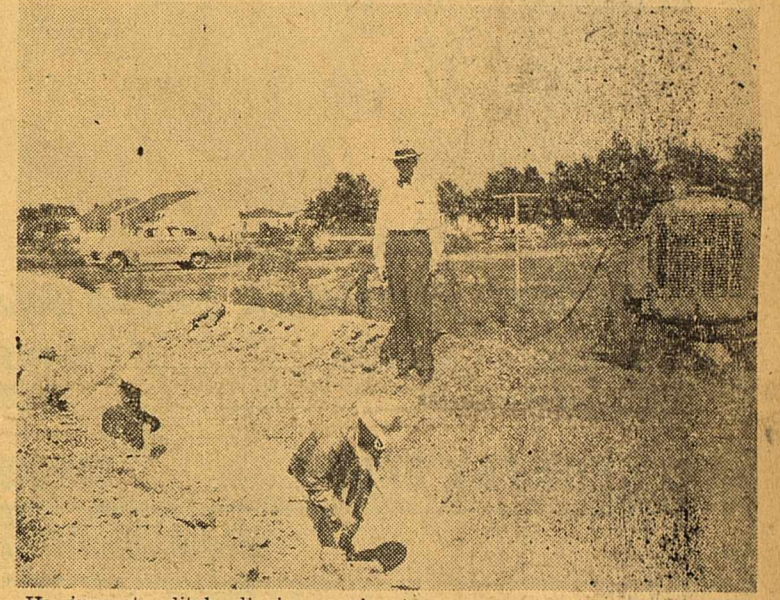

The life of a city manager always is an exceptionally busy one—but particularly is it fast and furious when the city manager is new in a rapidly-growing city which previously has not operated under a manager form of government. R. C. (Bob) Hoppe, Midland's new and first official city manager, finds himself in this position. Getting established in a new office, attending long sessions with the City Council to determine policies and to learn what has gone on before; meeting and conferring with heads and personnel of the city's various departments; inspecting city property; checking projects already underway and those planned for the future; looking over financial records; meeting scores of citizens daily; moving his family to a new home, and numerous other tasks of a more or less routine nature have kept the new city manager on the run almost 24 hours a day since he assumed the position here May 26. Big Airport Project. And to top it all off, one of the biggest and most important municipal projects in Midland's history "broke" almost immediately following Hoppe's arrival here—the return of Midland Air Terminal (Midland Army Air Field) to the City of Midland. City officials had worked long and hard on the airport project, but its return brought scores of new demands and problems. It is up to the city manager to lead the way in drafting workable plans for operation, conversion and development of the huge airport into a self-sustaining department of the city. Whereas a new city manager ordinarily would have spent his first month more-or-less getting acquainted, it was necessary for Hoppe to dive right into the airport project, which has demanded most of his attention during his brief residence here. He has spent many hours at the airport inspecting and making surveys of property and equipment, and in drafting zoning plans for the huge installation. Then back at his desk in the city hall, he has had to study airport maps and contracts, negotiate new contracts of all kinds, select personnel for airport maintenance, and plan recommendations for economic airport operation. But the new city manager is working tirelessly at the job and apparently is enjoying it. Develop Master Plan. Plans for the development of Midland's new water source, the never-ending demand for water and sewer extensions, and the paving

He checks paving construction job with Engineer Henry E. Nunn.

He visits city police headquarters and meets Officer Dave Allen.

He inspects ditch digging work at a sewer extension project.

Gum And Shotgun Shells Help Archaeologists Find One Of Richest Discoveries Of Old Mayan Culture

By ALTON L. BLAKESLEE
AP Science Reporter
NEW YORK—Chewing gum and shotgun shells have led to one of the richest discoveries in the culture of the Mayan Indians, whose great empire flourished centuries ago in Central America. The discovery comprises 11 Mayan temples, believed to be some 1,200 years old, in the wild jungles of Chiapas in lower Mexico, near Guatemala. Three temple rooms containing brilliant murals give rare insight into the customs and life of this early Western Hemisphere civilization. The temples, plus glyphs or carved writings, and carved record stones and altar stones, were found in a two-square mile area. Charles Morrow Wilson, an expert on Middle America, terms them one of the most important American archaeological findings in recent years. Giles G. Healey, an archaeologist, found the temples in 1945 while making an educational motion pic-

ture for the United Fruit Company. A 1947 expedition, sponsored and financed by United Fruit and supervised by the Carnegie Institution of Washington, has just returned from the site. Wartime demand for chicle, a tree sap, for chewing gum sent chicle operators into remote Chiapas. Healey penetrated in to photograph a tribe of 200 Indians, the Lacandonos, who are believed to be direct descendants of the ancient Mayas. Healey gave some shotguns to the Lacandonos, who still hunted with bows and arrows. The guns were especially effective against savage wild pigs. Swapped For Ruins. "But they needed shells for the guns," Healey said. "So I told them, 'I'll give you shells, you show me ruins. They led me to this temple area, which I named Bonampak—meaning 'Painted Wall' in Mayan. It was unbelievable. Most old tem-

ples have been ruined by earthquakes or split by trees. But here were some still in excellent condition, with roofs intact." The temples are believed to date from between 495 and 672 A. D., Healey said. The Mayan empire flourished until the late 12th Century. Inside, Healey found rooms with 1,200 square feet of murals cascading in color and almost Oriental in lavishness. Bright reds, yellows, greens and blues bespoke the lasting quality of Mayan dyes. The glyphs, or kind of rebus writing in the murals, may be particularly helpful as keys in decoding the Mayan writing, Wilson said. Outside the temples were three stelae or carved record stones, one weighing four tons, the second largest ever found. An 11-foot sculpture of a jaguar in limestone also was found. Appraisal of the full significance of the discoveries will take months of expert work. On the 1947 expedition, in which the Mexican government cooperated, were Healey, J. Eric Thompson, epigrapher for the Carnegie Institution, Karl Ruppert, Carnegie specialist in pre-Hispanic architecture, artist Antonio Tejada, Gustav Stromsvik, Carnegie exploration engineer, and Dr. Augustin Villagra of the National Institute of Mexico.

Wemple To Attend Official Opening

State Highway Commissioner Fred Wemple of Midland will attend the official opening of a 74-mile scenic loop drive through the Davis Mountains State Parks Highway, June 28. Numerous present and former state and highway officials are invited. A large attendance is expected and the ceremony will be broadcast. The day will include a drive around the Loop. Clubs and service units of Fort Davis area are staging the event. Getting the scenic drive hard-surfaced was the result of 21 years effort, the Mile High Club of Fort Davis reported. Deibert Downing will accompany Wemple to the event.

Soil Conservation Plans Are Approved

Supervisors of the Martin-Howard Soil Conservation District approved soil and water conservation plans on the farms of L. C. Jones, W. R. Upham, Lloyd McNeil and Floyd Lewis at a called meeting at Stanton Thursday. Those attending the meeting were Gordon Stone, Stanton; Edmond Tom, Stanton; L. H. Thomas, Big Spring; Frank Lovelless, Coahoma; and E. J. Hughes of the Soil Conservation Service. The complete soil conservation program planned by these farmers include such measures as crop residue management, crop rotation, soil building crops, cover crops, and contour cultivation. These measures adopted by the farmers are based on surveys made by the Soil Conservation Service to determine the capabilities of the soil, the degree of erosion and the slope of the land. Lines for contour cultivation were run on the farm of Pete Turner last week. Turner recently completed a soil and water conservation plan on his farm in the Radio Tower group. Some of the practices he planned were contour cultivation, crop rotation, cover crops, and crop residue management. Assistance in planning was furnished by the Soil Conservation Service.

CHEMURGY'S CHEMURGY
Chemurgy is a coined word now coming into general use; it is the application of chemistry to the use of farm and other products to obtain needed materials.

Thomas E. Millsop, His \$1 pay as mayor "will be the hardest dollar I ever earned."

the community under its new city government. But the fact that the CIO kept out of the race, and made no effort to help Barrone, would indicate that they felt Millsop stood too well with his employees to be beaten.

Other observers say that Weirton pays the highest basic wage in the industry, and gets on well with its employees, because Millsop has never forgotten the lessons he learned when he worked ten hours on the day shift—14 hours on the night—on the open hearth.

The union contract provides that any grievance can be arbitrated if Millsop hasn't settled it satisfactorily within 24 hours. So far there have been no cases for arbitration.

Management-worker cooperation enabled the company to achieve a brilliant performance record during the war. It broke every existing record for open hearth production. It rolled brass to close tolerances that other steel companies said were impossible. It made a contribution, still secret, to the atom bomb.

Mayor Millsop's first job will be to formulate a tax schedule that President Millsop of the steel company must pay.

He has announced that he will accept \$1 as pay for his four-year term as mayor. And he intends to frame that bill. "I haven't any doubt," he says, "that it will be the hardest dollar I ever earned."

Big Game Hunter Provides Museum For His Small Hometown; Has Made Four Trips Around World

The hunting eye of Ira Morse, which he demonstrates above, gives the people of Warren, N. H., a chance to see big game without leaving home.

The smile on the face of the tiger is nothing to the thrill it gives these youngsters in Ira Morse's home town. He shot it in India, brought it back for the neighbors.

WARREN, N. H.—(NEA)—Small fry of this tiny upcountry hamlet are in the grip of a Christmas-like expectancy.

Each day they eagerly watch incoming freight to see what new and fascinating wonders are ar-

rive. Big-game hunter Ira H. Morse is home from his seventh African safari.

Morse is a small boy's dream come true. Born a country lad, he made his fortune in the shoe business, went to the ends of the earth seeking adventure but always remembered the folks at home and unassumingly shares the excitement with them.

Returning from his first big-game hunt in 1926, Morse decided his rural neighbors should have some of the museum facilities available in big cities.

So he built a museum in Warren, had the trophies from his first expedition mounted or cased, and set out to bring new pieces to

fill the nearly empty building. His safaris were not limited to Africa. To date he has made four trips around the world to collect items representative of every culture he encountered. Today Warren—population 709—has a museum that many large cities could well envy.

In addition to mounted wild animals—Morse has shot 212 out of a possible 216 species in British East Africa—there are weapons, shoes, art treasures, pictures, jewelry and dozens of other categories of pieces collected the world over.

When V-J Day ended his war-fared holiday, Morse started sending cables and letters to arrange this most recent trip. Last November the 72-year-old hunter and his 54-year-old wife flew to Nairobi, Africa.

Even then, they were among the first post-war American expeditions into the Tanganyika area. They found the hunting good and after a few weeks in the bush country bagged three elephants, a rhinoceros and dozens of other kinds of wild game. The safari was rounded off with a buying trip through Egypt, Ceylon and India.

Home now, absorbed in unpacking and cataloging items from the trip, the Morses are already planning next year's hunt.

This pleases the neighboring kids and their parents who know that even though they cannot afford the \$24,000 that Morse's last safari cost, they can still taste much of the excitement by going through the door of the Morse museum which always bears the sign: "Free."

Wealthy Playground Is Cemetery For Indians Who Were Exploited

By HAL BOYLE
SANTA BARBARA, CALIF.—(AP)—This play ground of the wealthy is also a cemetery of the vanishing Redskins.

It is the racial graveyard of Southern California's first real estate promoters and climate boosters—a friendly Indian tribe which greeted the white man with cheers and blowing flutes and was rewarded with extinction.

They are the Canino or Chumash Indians, and they never managed to last long enough to rate bourbon and limousines from oil leases okayed by the Great White Father in Washington. They lost their land and lives in the pale-face booms, and the moral of their passing is:

"If you have something good and don't exploit it, somebody with more muscle will come and take it from you."

When the Portuguese explorer Juan Rodriguez Cabrillo sailed through Santa Barbara channel in 1542, a number of local Grover Whalens from the Canino tribe raced out in asphalt-lined canoes to give him the keys to Southern California.

Two centuries later when settlement by the Spaniards began in earnest, the Caninos—still glad to find someone new to brag about the California climate—insisted on spreading food before them and serenading them with flutes and horns.

"The infernal noise was sufficient to tear our ears to pieces," wrote Father Crespi, missionary and California's first music critic.

The missionaries at once set about converting the happy heathen, and put them to work tending the fields, learning handicrafts and herding cattle.

Until then the Caninos had been content to live on acorns, small game and fish. They had no alcohol or prostitution, practiced monogamy and even put to death squaws who went for an evening walk twice in a row with any strange buck—a penalty wives no longer have to worry about in Southern California.

In 1937 the last full-blooded Canino Indian, 82-year-old Juan Justo, was found living in a chicken house by the city dump—inaerate, deaf, slowly going blind, and near death from a gangrenous leg injury.

A sheepherder, he had come to work as a street cleaner in Santa Barbara in 1899 "to wear a felt hat and uniform so they would know I belonged to the city."

Juan Justo died in the county hospital on May 5, 1941, the last of his race to hit the trail to the happy hunting grounds where no white man has put a fence.

Juan Justo died in the county hospital on May 5, 1941, the last of his race to hit the trail to the happy hunting grounds where no white man has put a fence.

Republican Senator Is Certain Senate Will Restore Farm Fund Cut

WASHINGTON—(AP)—Senator Young (R-ND) said Friday he believes the Senate will restore house appropriations cuts which would curtail sharply the Agriculture Department's soil conservation program.

Young told newsmen he and other farm state Senators are satisfied they can persuade their colleagues that House GOP leaders "made a mistake" when they slashed the soil saving fund from \$300,000,000 to \$150,000,000.

The North Dakotan is a member of a Senate appropriations subcommittee reviewing the House action.

N. E. Dodd, undersecretary of agriculture, testified Congress promised last session to provide \$300,000,000 for the program for the fiscal year starting July 1.

Relying on that, he said, the Agriculture Department made contracts with "hundreds of thousands of farmers" because they must make their plans in advance of planting.

The House also recommended no plans be made for conservation payments after this year.

Young said he will demand "continuation of the long range program" through 1948.

Wool Is World News — New Bill Keeps Government Buying Of Wool So Imports Won't Injure U. S. Growers; Truman May Veto

By JAMES MARLOW

WASHINGTON—(AP)—Wool is in the news now but in a way which is bigger than wool itself.

It involves the welfare of American woolgrowers. But it also involves our hopes for good foreign trade.

We need more wool than we grow. Last year we grew 300,000,000 pounds. We imported more than twice as much.

In wartime American woolgrowers had to sell to the government. In return, by law the government had to pay them 40 to 42 cents a pound, a good price.

The price was offered by the government to encourage production at a time when officials feared the war might cut off foreign supplies.

(But despite the price, domestic production has been declining. Output last year was the smallest since 1927. It was 20 per cent below the 1935-44 average.)

Foreign woolgrowers were sending their wool here and selling it to American manufacturers at less than the government price of 40 to 42 cents a pound.

(They were able to do this in spite of a tariff placed on wool imports years ago to protect American woolgrowers.)

What happened to the American wool the government was buying up? Nothing.

Stockpile Now 500,000,000 Pounds (The government couldn't sell this stockpile—it's about 500,000,000 pounds now—at 40 to 42 cent a pound because the foreign wool coming in was selling for less.)

So, should the government, already loaded with a stockpile, continue to buy American wool? Should it try to sell the stockpile? How could American growers be protected from foreign competition?

Congress tackled those questions. Thursday, after months of trying, it finished up a bill. If it becomes law, the bill means this:

1. The government must continue to help American growers by buying their wool at 40 to 42 cents a pound. At least until Dec. 31, 1948.

2. Then the government can sell this wool, and what it has in the stockpile, at any price, even though lower than 40 to 42 cents.

The government would lose money on this, but American growers would be protected, since they sell to the government at 40 to 42 cents. And foreign wool coming in here would have to compete with low-priced wool sold on the market by the government.

3. As another means of protecting American growers, the President can—but doesn't have to—fix quotas or import fees.

(By quotas he could limit the amount to foreign wool coming in

and by import fees he could add a tariff to the present tariff of 34 cents a pound.)

Other Nations Anxious No one knows whether the President will sign the bill. If he doesn't, American growers will suffer, and for this reason:

The law compelling the government to buy American wool expired April 15.

For weeks this government has been meeting with other nations at Geneva to work out a program to help the trade of all nations, including ours.

The heart of the program is to lower tariffs by all nations on the goods imported from one another.

But right in the midst of the Geneva conference, Congress passed the bill to put a crimp in the competition from foreign wool.

Now other nations are watching to see whether we talk about lowering tariffs to increase foreign trade while trying to shut out some of it.

Discovery of the Kimberley diamond mines in 1870 was the beginning of South Africa's emergence from a purely pastoral and agricultural economy.

Everglades' Growing Season Is In Winter; Farmers Rest In Summer

AP Newsfeatures
BELLE GLADE, FLA.—It is turn-about time in the Everglades. The last of 13,000 carloads of produce have rolled northward, the last few million dollars salted away in banks, and farmers are taking it easy while their brothers of the soil in the rest of the country are just beginning their busiest period. For there is a reversed growing season in this rich area stretching for more than 50 miles along the southern and eastern shores of Lake Okechobee.

Last fall, when the nation's farmers were just entering their winter growing season, they planted 2,000-acre bean fields, celery, lettuce, cabbage and potato patches. And the black, spongy mud did its winter work with profusion.

Dozens of tractors, dozens of crop dusting planes and thousands of field workers were kept busy through the winter. They had troubles—rains flooded them out and a couple of late freezes ruined some crops worth many thousands.

Headaches were in proportion to chances taken—but one minor fact here illustrates the possibilities of this land. The Pahokee Bank, one of the oldest in the area, values its building and fixtures at \$1,000 yet boasts of deposits of \$5,000,000.

There is the story of a buyer who bought 30 carloads of string beans at the packing house at \$1.50 a hamper. While the shipment was falling northward a cold wave hit the Okechobee fields. He sold at a \$30,000 profit and from that deal owns large holdings in this area.

But farming herabouts has a kinship with the pari-mutuels and bookie joints. The fate of heavy investments in labor, fertilizer and land costs hangs on the weather, which can be as fickle as a throw of the dice, or a spin of a wheel.

Aside from freezes, water and insect control are the big problems. Pumps which keep the water level below the root level sometimes are overwhelmed by downpours of as much as 10 inches in 12 hours.

With summer here now in this turnabout land the lazy season has begun—except for wondering whether next January and February will be moderately dry and warm.

Spectacles in a rude form to assist vision were known as early as the 13th century.

Survey Reveals Four U. S. Agencies Spent 13 Billions For 1,618 Plants

WASHINGTON—(AP)—The Budget Bureau says four agencies—Navy, War Department, Maritime Commission, and Defense Plant Corporation—built 1,618 war plants costing \$13,131,890,000.

P. J. Lawton, acting assistant director of the Budget Bureau, in a letter to Senator Young (R) of North Dakota, said 88.4 per cent of the total went into plants costing more than \$5,000,000 each.

He told Young—who has been seeking a detailed break-down of all Government-financed war production operations to ascertain how much "big business" was aided—that no final survey will be completed before fall.

"These figures apply to production facilities covering 13 major commodity classifications representing the high lights of the war program," Mr. Lawton said.

"In connection with these, it is interesting to note that through March 31, 1947, the War Assets Administration has reported sales or completion of sales contracts for surplus industrial properties totaling approximately \$900,000,000."

Lawton said the \$13,131,890,000

was spent on various types of plants as follows:

Aircraft, \$3,459,292,000; gasoline, \$252,920,000; aluminum, \$691,248,000; magnesium, \$451,942,000; rubber \$731,401,000; steel \$1,240,758,000; ships, \$1,223,244,000; ordnance, \$4,719,711,000; metals, \$91,953,000; chemicals, \$79,724,000; fiber, \$15,684,000; machine tools, \$52,251,000, and electrical, \$121,702,000.

When an aluminum cap was prepared for the Washington Monument in 1884 it was such a novelty that it was exhibited in a New York jewelry store before being installed.

Transparent glass made today is developed from approximately the same mixture of materials as was used more than 3,000 years ago.

Mysterious 'Q' Fever Studied By Two Groups

FORT WORTH—(AP)—The Texas Livestock Sanitary Commission and the Southwestern Medical College at Dallas have joined forces in an effort to track down the source of the mysterious "Q" fever which some time ago attacked several people who were closely associated with handling livestock in the Texas Panhandle.

The laboratory of the commission in Fort Worth is furnishing blood samples from cattle to the medical college, and the commission's field supervisors are furnishing live specimen ticks, lice, and flies for the study.

Hard-Pressed British Government Copes With Slackness Among Its Workers As Worse Economic Conditions Appear To Be Forthcoming

WE ARE THE PEOPLE OF BRITAIN

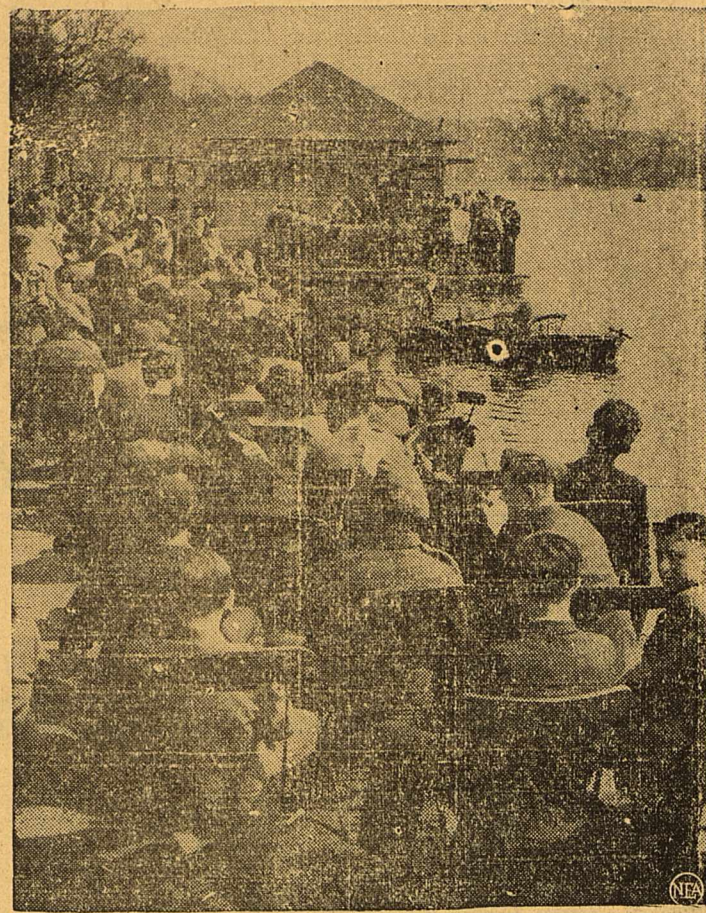

Together we must face the fact that our whole future depends now on how much more we can produce in a working day. And that means everybody, from the manager to the apprentice, women as well as men, you along with the man next door.

If we get down to it and keep at it, we shall pull our country round. If we don't, very soon we shall have to go without much that our families now take for granted.

We're up against it!

WE WORK WANT OR WANT

Great Britain today is fighting for its economic life, and too many Britons are slacking in the front line—production. Labor government has found it necessary to start a drastic drive to convince its citizens that they must work to live. Typical campaign shot is the newspaper advertisement reproduced at left, above. Too many Britons take too many holidays. Londoners in photo at right, above, queued up for hours (in comfortable chairs) to row boats on a Hyde Park lake. Too many workers strike, like dock workers at right, pictured listening to a union speaker. April strike of 10,000 dockmen struck a heavy blow at the nation's vital export business.

Dirty, Squirt And Quirt

— FARM, DAIRY AND RANCH NEWS —

By Stanley Frank

The cattle market now has even the old timers saying they "never saw anything like it."

Nobody knows what's going to happen, of course, and everybody on this end of the beef industry is nervous when he thinks about what might happen.

At the price for which feeder calves are being contracted, for example, it seems a cinch there will be a great many \$80, \$90 and quite a few \$100 calves go out of Midland feedlots this fall.

Cowmen who remember what has occurred once or twice before when cattle prices zoomed to unprecedented heights are naturally a shade fidgety when they contemplate the present market. Demand for meat is greater and the market is higher than anybody remembers. Housewives shopping in butcher shops are likely to have a feeling they are buying precious jewels rather than beef cuts.

When one looks over the menu in the average restaurant he catches himself wondering whether he is pricing food or a collection of rare paintings.

All this is not the cowman's fault at all. He doesn't make the market—he raises beef to supply the market. He's in the business to make money, of course, but he'd gladly trade a slice of the present price he's getting for some assurance present good times wouldn't suddenly turn into general collapse, as has happened so many times in the past.

The cattle industry's predicament today might be compared to that of the small boy faced with a bushel basket full of chocolate ice cream. Everything is wonderful right now, but it's hard to enjoy it while worrying about the aches and pains which may follow.

In Midland last week, 125 dry cows weighing 1,200 pounds sold for 17 1/2 cents per pound. That's \$210 per cow.

H. S. Foster has sold 220 steer and heifer calves from his Midland and Ector County ranches to Don Martin of Seymour, Texas, for Oct. 1 and Nov. 1 delivery.

Henry Neal, president of the Ranchers Wool and Mohair Association at Rankin, last week reported the association's new warehouse under construction at Fort Stockton is expected to reach completion early in July. The warehouse will have a capacity of two million pounds and will be one of the most modern in Texas, Henry said. Beal Barbee, formerly a wool buyer with headquarters in San Angelo, is manager of the association's warehouses at Rankin and Fort Stockton.

Don Martin has contracted 600 steer and heifer calves from Frank Williamson and Johnny Nobles of Midland for delivery this fall.

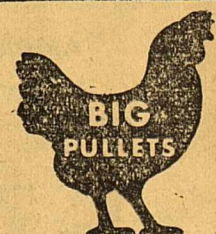

Joe Rounsaville of Toyah last week purchased 12 registered Hereford bulls from George Glass of Midland; this makes a total of 56 registered cattle the Toyah ranchman has bought from the Glass herd during the last six or eight months.

Forrest King of Midland last week sold and delivered 30 registered Hereford two-year-old heifers to F. D. Breedlove, also of Midland, who will add them to his registered herd on his Andrews County ranch. King also sold and delivered four registered heifer calves to Arthur Elkins of Monahans, who plans to fit them for the Hereford shows at Odessa and Monahans next spring.

Howie Moss hit 21 home runs in Baltimore club's first 46 games to become known as Babe Ruth of the International League. Maintaining his present pace, the outfielder would manufacture 75 this season. The Bam broke in with the Orioles.

Spongy, aerial roots of the orchid plant absorb dust and moisture for nourishment.

Scrap Iron And Steel Prices Continue Climb

CLEVELAND—(AP)—The stronger tone in scrap iron and steel continues, but "whether an actual turn has come in the market is yet to be determined," said the magazine Steel.

Scrap prices are "trending upward again in the East and at Pittsburgh, but buying is on the conservative side," said the trade journal.

Referring to mill operating schedules, Steel said:

"Efforts are being made to effect vacation suspensions early in July so as to include July 4 and fall at a time when the soft coal mines may be idle in another of the periodic labor disputes which has plagued this industry in recent years."

The magazine's index of the national steel operating rate rose one point to 96 1/2 per cent of rated capacity, within half a point of the record for peace-time production. Last week's schedule was equivalent to production of more than 1,650,000 net tons.

"Despite continued strong demand for steel products of all kinds, seasonal influences are beginning to exert something of a check on activity," said Steel.

There are 5,725,000 motor trucks registered in the United States.

Business Inventories Up By \$10 Billions

WASHINGTON—(AP)—The Commerce Department reported that \$10,000,000,000 has been added to the book value of business inventories since the middle of last year.

This rapid expansion is one of the factors cited by forecasters of a recession, who see it forcing a slowdown in production as stocks pile up faster than they sell.

The department said the increase reflects higher prices as well as a greater quantity of stocks.

Also, it said total business inventories are still below their prewar relation to sales, with insufficient stocks in some areas offsetting excess supplies elsewhere. But, it added:

"They were not far enough below, however, to warrant the assumption that inventory expansion at the recent rate will continue for an extended period. Any remaining deficiencies, are, in general much less urgent than a few months ago."

What To Do With The Youngsters? The Answer Is Let Them Take Part In The Summer Recreation Program

By TANNER LAINE

You are a Midland parent. Your school-age youngsters are around the house and just about to drive you to distraction now that school is out and there is time on their hands.

What to do with them? Well maybe not as bad as that. But you would welcome a suggestion.

Here it is: send them to the recreation program now in progress at your schools. There is a place for your boy or your girl in this program.

A Summer recreation program opened in Midland June 9 and it continues to July 31. There are two periods daily, morning and afternoon. There are clean, wholesome attractions to your youngsters and their play is supervised.

There's swimming, gymnastics, games, sports of all kinds for them. Your neighbor's youngsters probably are going. Why not send yours? More than 150 Midland youngsters already are in the program. More are welcome. Age limits are: six years to 18 years.

Attendance is checked. Your child's welfare is expertly cared for by the directors. Rigid rules are at a minimum. Children select their games and sports and get right to them with the leaders helping to move the game along.

There's nothing like regular school attendance to it. Come if you wish, boys and girls. Leave when you like. Likely you will not want to leave for there are some interesting things going on at the high school for junior high and high school students and North Elementary boys and girls; at West Elementary for students of that school; and at South Elementary for those youngsters.

Teacher-supervisors are at every installation. If you haven't been, go Monday, Midland boys and girls.

TOWN NAMED NIMITZ COURTS HERO'S AID
NIMITZ, W. VA.—(P)—The West Virginia town which named itself for a wartime naval hero wants to reciprocate with a little civic favor. The townfolk, numbering about 100, want Admiral Chester W. Nimitz to use his influence to have the Naval Observatory located hereabouts when it is transferred from Washington.

Naval officials announced in Washington some time ago the Observatory would be moved because the Capital city has become so smoky the astronomers have trouble sighting the stars. The Nimitz folks figure the five stars worn by their namesake might swing the Observatory in their direction.

Lev Davidovich Trotsky's real name was Bronstein.

Now There's Sugar, Sugar, and More Sugar

With the rationing lid off, this picture proves to American housewives that there will be plenty of sugar now. This is part of the 12,000 tons of raw Cuban sugar in a Brooklyn, N. Y., refinery, and there's more coming in all the time from the unloading docks.

FCC Official Claims Western Union Cannot Survive Without Help

WASHINGTON—(P)—The Federal Communications Commission says Western Union, the nationwide telegraphic agency, may go broke unless it receives a Federal subsidy or is taken over by the Post Office Department.

As alternatives, Commissioner Ray C. Wakefield suggested a Western Union merger with the American Telephone & Telegraph Company, parent of the Bell System, or limiting its operations to service between big cities.

Wakefield gave the views before a House appropriations subcommittee in support of an unsuccessful commission request for \$375,000 for a special telegraph investigation.

His testimony was made public along with a subcommittee report to the House saying the FCC already has "substantially complete information on the situation" and does not need any more "in order to reach a conclusion in the matter."

Wakefield told the committee "I think the answer to the problem may be a merger of the Western Union with the American Telephone company. There are many arguments that can be made in favor of doing that."

"The only argument that I know of against it is the argument against making the telephone company a bigger monopoly and having it adequately regulated. That is not a very adequate argument."

Wakefield said Western Union lost \$11,000,000 in 1946, "despite the fact that it was one of the company's best years in both traffic and gross revenues."

House Bill Augments U. S. Helium Supply

WASHINGTON—(P)—The House acted to augment the government's reserve of helium gas.

It passed by voice a bill to authorize the Interior Department to make an agreement with the Navajo Indian Tribe of New Mexico for leasing 7,800 acres of helium-bearing gas lands on the Navajo reservation.

Under terms of the proposed agreement, the government would pay the Navajos \$147,799 cash and a 12 1/2 per cent royalty basis, and 25 cents per acre rental a year for twenty-five years. Royalties in excess of those covered by the advance payment would be given to the tribe.

A House public lands committee report said that unless the government leases the Navajo land, its only dependable helium reserve will be the field near Amarillo, "which is far from adequate."

Under the bill the government also would pay \$166,594 to the Continental Oil Company, and the Santa Fe Corporation which hold oil lease rights on the Navajo land.

Among shortages developed during World War II are lighthouses, States has minimum need for 252,000 tons of natural rubber per year.

It is estimated that the United States has minimum need for 252,000 tons of natural rubber per year.

Chiropractic Clinic Observes Anniversary

The Brady Chiropractic Clinic, located at 407 West Illinois Street, this week is observing its first anniversary in Midland.

Dr. C. L. Brady, a Palmer graduate, moved to Midland a year ago to establish the clinic which is one of the best equipped in this section.

The clinic has been enlarged and new equipment has been added during the year.

YMCA Expands Service To Peace-Time Forces

BUFFALO, N. Y.—(P)—The Young Men's Christian Association plans to expand its services to the peace-time Army and Navy with an annual expenditure of \$405,000.

At a session of the 21st annual meeting, the YMCA's National Council approved a plan calling for service in new areas in Alaska, Guam, Puerto Rico and Europe, in addition to the 27 locations now being served in this country.

At the concluding session, the Council elected Kirtley F. Mather, Newton, Mass., Professor of Geology at Harvard, to his second term as President. Other officers included a Vice-President, Hudson B. Hastings of New Haven, Conn.

TO DO ONE THING WELL

The chief objective of everyone should be to do one thing well. Your doctor accomplished this objective when he spent years of his life in preparing himself to care for you when you need medical attention. How foolish, then, to depend on others. When illness comes to you or any member of your family consult your physician without delay. Be sure that he is a licensed M.D. from an accredited school of medicine. Then bring your prescriptions to us for expert compounding.

Teacher Protests Text For Clash With Bible

RAPID CITY, S. D.—(P)—A petition protesting the use of certain natural science textbooks, which a teacher sponsor said were at variance with the Bible, was given recently to the Rapid City Board of Education.

Mrs. Frieda Overton presented the petition bearing 500 names. She told the board she thought it was wrong to teach school children that "the world is millions of years old, and that life on earth started as a small cell."

The books in question are "Pathways in Science" and "Our Earth and Its Story."

Among the signers of the petition was the Right Rev. William T. McCarty, bishop of the Rapid City Roman Catholic diocese.

Mrs. Overton, a Lutheran Church member and holder of a first grade teacher's certificate, also has presented a request to the Pennington County School Board Book Committee asking a change on the same grounds.

IT'S OUR 1ST ANNIVERSARY IN MIDLAND!

1946  1947

DR. C. L. BRADY
Palmer Graduate

Yes, we've been in Midland a year... and we're mighty proud of the way we've been accepted. Your hospitality and courtesy will always be remembered.

We hope that we may be able to continue with our work in Midland... it is our earnest desire to fulfill the wishes of our many patients in restoring health to them with Chiropractic. During the year we've been here we've done our best and have accomplished much to help our patients toward better health. With your cooperation and continuing hospitality we need little more...

Here are a few of the many case histories presented to you during the past year!

V. L. CASE NO. 11,601—Woman, age 40, complained of low back pain that extended down both legs. She was also nervous, had headaches occasionally, and her neck hurt. Being unacquainted with Chiropractic methods, she was agreeably surprised when a spinal adjustment in the neck cleared up all her trouble.

V. L. CASE NO. 11,544—Woman, age 52, had severe headaches, was quite nervous, felt dizzy, and was a restless sleeper. She also had stomach trouble, pains in the chest, and hurting between the shoulders. She said she simply had no energy at all, yet under Chiropractic care the woman was soon feeling like a different person.

V. L. CASE NO. 11,438—Woman, age 30, was nervous and had a pain in the back of the neck that made her tense and unable to sleep. She was tired all the time and sometimes would have cramps. After regular health methods had failed, she gave Chiropractic a trial and was delighted with the results.

V. L. CASE NO. 11,288—Man, age 24, felt sore all over, had headaches, was nervous, stomach was upset, neck was tense and stiff, and he had become so irritable he did not like to be around people. Yet even so his problem cleared up quickly after going to a Chiropractor.

V. L. CASE NO. 11,226—Woman, age 35, had fallen down some steps and her back and legs hurt so badly she had to be assisted in walking. She was nervous, could not sleep and her head and neck had a heavy, dull feeling. She was driven 40 miles to see a Chiropractor and the woman said most of her discomfort was gone before she returned home.

V. L. CASE NO. 11,728—Woman, age 44, had a nagging pain that ran down her left leg to the foot. She was nervous, also had headaches and became tired easily. When nothing else brought relief, Chiropractic cleared up the misery within a few days.

V. L. CASE NO. 11,212—Woman, age 55, was nervous, had headaches, and a pain in the shoulder, but worst of all, she had a pain in the lower back that extended down the right leg so that she could hardly walk. The doctor called it sciatica, but nothing the woman did helped very much. Not long before she had been in a car wreck and her condition had been growing worse ever since. The Chiropractor found an acute displacement in the spine and made an adjustment. The patient is happy today because she is quite well again.

V. L. CASE NO. 11,225—Woman, age 61, had constant hay fever and headaches. She was nervous and could not sleep, she felt tired all the time and sneezed a lot, which was very distracting, especially since she was a registered nurse. In desperation she went to a Chiropractor and was surprised how quickly she obtained relief from all her symptoms.

Socialism In A Crisis

The French railway strike emphasized two points of interest to Americans. One is that socialism does not guarantee a nation of contented wage-earners. The other is that capitalism is not communism's only target.

French Communists may or may not have inspired the strike, as Premier Ramadier hinted, but they certainly made capital of it. One would think, from their tactics, that they were fighting greedy industrialists and fat private monopolies instead of a Socialist government.

The Communists, of course, are against any party, class or group that won't hitch itself to their wagon. That applies to the French and British governments, which are considerably closer to Moscow in their philosophy than they are to Wall Street.

The railroad strike, whoever started it, gained general support. And was not a strike against the government's good intentions, for the Socialists have bent over backward to try to please the workers.

They have given production bonuses and are being pressed to give more. They have increased tax exemptions in the lower brackets and given strike pay for time lost in walkouts. To settle one strike, they even rewarded workers with an extra seven cents an hour for getting to work on time.

But the workers are interested not in generosity, but in results. And socialism doesn't seem to be producing them. Discontented Frenchmen are demanding lower living costs, not systems and promises.

France is skating the thin and cracking ice of inflation. And all the bending over backward to please the workers isn't helping matters. Concession after concession in the form of labor costs cannot help but force prices up. Demands for more pay simply increase the pressure. Yet, when prices are high anyway and the minimum wage in France is \$59 a month, the French worker can scarcely be blamed.

The major responsibility for France's plight must be put on the late Adolf Hitler, not the present Socialist government. Maybe the American system would not rescue France from her predicament any better. But that isn't exactly the point.

Socialism is sold on the premise of its being a superior system. But it isn't working any miracles in France or England.

Perhaps the answer is that any system will work well for a time if it takes over a going, prosperous concern, and that no system is too effective when it inherits chaos. But the fact remains that the American system, for all its imperfections, has been doing pretty well for the people for a long time, and that socialism hasn't yet proved that it can do better.

This is worth remembering the next time someone tells you that capitalism is doomed, and that socialism offers the only escape from certain ruin.

The fellow who stands on his own usually is sitting pretty.

The fellow who writes ideas on his cuff usually has something more up his sleeve.

There isn't any map on the road to success. You have to find your own way.

"Me? Oh, I'm Just Part Of War's Futility"

The Thames River in England is 209 miles long. The ortichoke is believed to be a cousin of the thistle family.

Harvard Spends Much Money On Big Tomes

CAMBRIDGE, MASS.—Harvard University spends twice as much on its famous collections of scholarly books as it does on the library needs for 5,000 undergraduate students.

Cost of student library services, says Keyes D. Metcalf, director of the 80 University libraries, is \$200,000 a year. The rest of the \$1,200,000 library costs includes \$545,000 for a working library for graduate students, faculty members and research scholars plus \$419,500 for collections of old and unusual books which the university keeps as "trustee for the learned world."

Harvard ranks second only to the Library of Congress in the size of its collection of books and pamphlets—4,900,000. An endowment of \$30,000,000 is set aside with income at four per cent a year to maintain the libraries.

Metcalf estimates that the undergraduate needs could be met adequately with 100,000 books and that 500,000 volumes would provide, with careful selection, the best working library in the country.

At least 3,000,000 of the Harvard books are used as much by scholars from all over the world as by students and faculty of the university itself. But Metcalf says the extra 3,000,000 books make the Harvard collection a great library.

Maybe this is the job for you!

Is getting a job your big problem right now? Maybe we can help.

Have you ever thought about being a telephone operator? It's a girl's job—and a good one too!

No experience? Doesn't matter—you learn (and earn, of course) as you go along. And telephone work has always held a fascination that's hard to describe. Why not see whether you can qualify?

The chief operator at the telephone office will be glad to talk it over with you.

SOUTHWESTERN BELL TELEPHONE CO.

United States Is Trying To Choke Great Britain, Says Polish Red

AP Newsfeatures

WARSAW—Vice Premier Wladyslaw Gomułka says American capitalism is trying to strangle Great Britain. The fiery secretary-general of the Communist-backed Polish Workers Party told a Workers rally that Russians, Poles, and all other Slavonic peoples want peace but American capitalists have found war to be profitable, and were stiffening their attitude against the British.

reviewing war sufferings of European nations, Gomułka said:

"Not every country, however, suffered from the war. The United States of America, for instance, earned much money on it. That country was not devastated by the war and American capitalists got during the period 1941-1945 the sum of \$52,000,000,000."

"According to American economists the amount of money spent by every American family for military purposes were \$12 in 1913, \$36 in 1939 and \$500 in 1947."

"If one asks the defenders of the capitalistic system what is the reason for such high expenditures for

military purposes, he will get a deceitful and full-of-his answer that it is for reasons of security of that country."

"But who can threaten them? There is an old answer—the USSR. But behind this deceitful answer is the insatiable appetite of monopolistic American capital which is reaching out for the petrol reserves of the world, for the British colonies, Japanese industry, and for domination in the world."

Carrots and cheese are a combination worth remembering. Pour cheese sauce over cooked carrots.

Mrs. Roosevelt Turns Down Political Bid

JAMESTOWN, N. D.—(AP)—Mrs. Eleanor Roosevelt has declined to become a candidate for vice president, saying "Nothing could induce me to run for any public office."

North Dakota Democrats, at an April meeting in Fargo, adopted a resolution endorsing her as a running mate for President Truman in 1948. A copy of the resolution was mailed to Mrs. Roosevelt. Daphna Nygaard of Jamestown, National Democratic committee woman for North Dakota, received a letter from Mrs. Roosevelt.

"While I am honored by this evidence of confidence, I feel I must tell you that nothing could induce me to run for any public office," Mrs. Roosevelt wrote. "I seriously doubt any woman could be nominated, but even in that eventuality, I could not even permit my name to be entered."

Million Tons Of United States Steel Will Go To Arabia Fields

LONG BEACH, CAL.—(AP)—More than a million tons of steel pipe will start leaving Long Beach harbor and other ports this summer for Saudi Arabia in what maritime authorities describe as the greatest single commercial shipment in history.

It will be the first of a series of consignments of goods and material whose aggregate will be sufficient to create a new industrial kingdom in Arabia, said E. C. Austin, purchasing and traffic manager of the Arabian-American Oil Company, which holds the petroleum concern in King Ibn Saud's domain.

Announcement of the shipments, which will start within a few weeks, was made recently by Port Manager E. J. Amar after a conference in San Francisco with officials of the Arabian-American

Oil Company, operated by Standard Oil Company of California and The Texas Company, and of the Isthmian Steamship Company subsidiary of U. S. Steel, which has contracted to move the pipe.

The initial 1,000,000-ton shipment will be sufficient to lay a 30 and 31-inch oil line from the Persian Gulf, where it will be unloaded, to the Mediterranean, said Edsel Newton, marine editor of the Long Beach Press-Telegram and leader in harbor affairs, who acted as contact man between the various American corporations connected with the project.

W. C. Fulton, district manager of the Isthmian Line, said his company will have to add a number of Liberty vessels to the existing cargo fleet of 80 ships. Ships will leave the port every five or six days on the 120-day roundtrip of more than 25,000 miles.

The pipe will be processed at U. S. Steel's plant in near-by Maywood from plates rolled at the firm's Geneva, Utah, mills. Considerable new rail line must be laid on the piers to handle the shipments.

Austin said the cost of the pipe to Arabian-American will run "well over half a billion dollars," declining to set a more exact figure. Port Manager Amar reported that harbor fees alone will run more than \$500,000.

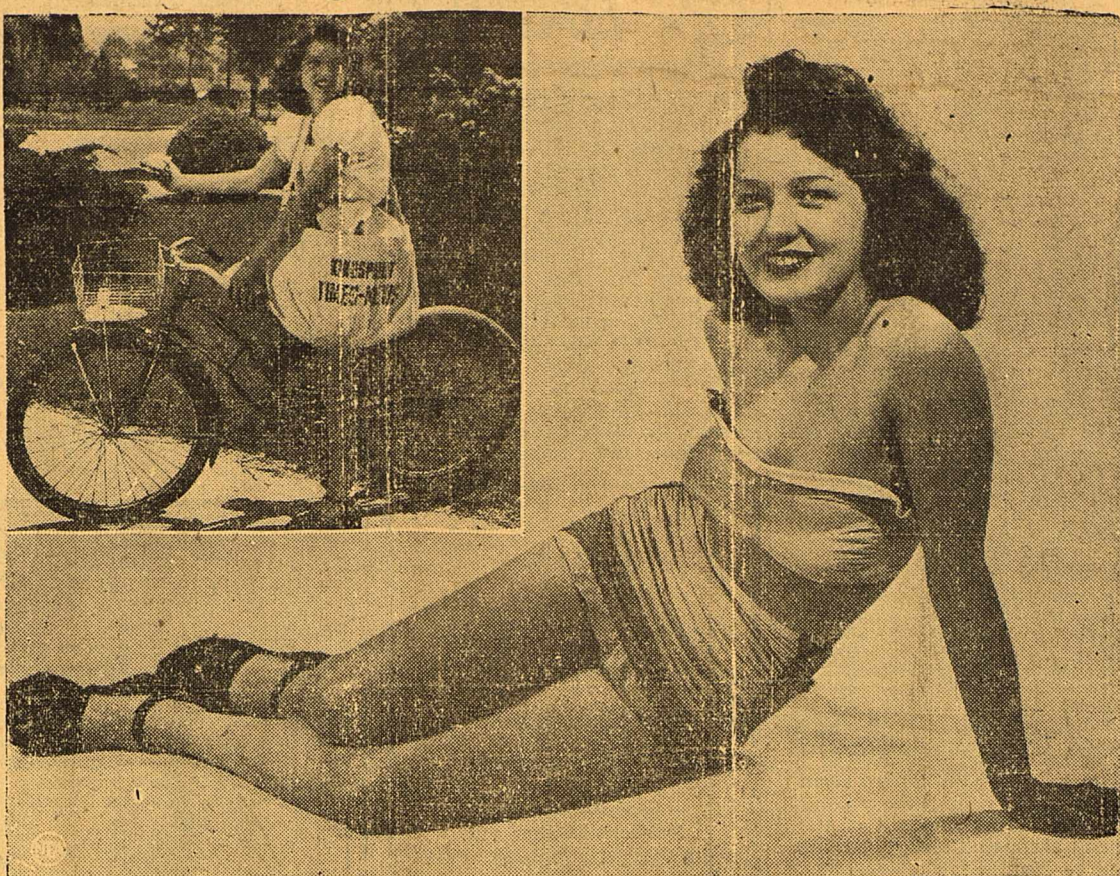

From two and a half to three years will be required to complete the shipments, port authorities estimated. Oil company officials were cagey on details of the transaction, but it was reported that the Maywood mill already is turning out the pipe, and that a sizeable backlog is on hand.

Austin said that, in addition to the pipe, orders have been placed for all manner of other manufactured goods and materials in Arabian-American's great exploitation program.

"This is only a start," Austin said, "and there is no way of calculating the total amount which will be needed."

It is estimated that if all the aluminum in the United States were divided equally between U. S. families, each would have about 125 pounds.

Newsgirl and Beauty Queen, 1947

Inset shows how pretty Lois Carty, 16, daughter of Mr. and Mrs. C. C. Carty, of Dante, Va., looks to the 75 Kingsport, (Tenn.) Times-News subscribers on her new paper route. Large picture shows how she looked to judges in the PTA-sponsored beauty contest who selected her from among 25 contestants for the title of Miss Dante of 1947.

Bavarians Lose Their Hair, But Keep Jobs

MUNICH — It's breaking their hearts, but the Bavarians, who like long hair, are going in for crew cuts.

The first clipping of the old custom has been made by the second constabulary brigade.

Brig. Gen. H. R. Gay, a spit-and-polisher of the old school, told his officers that any man who wears long hair has something wrong with him.

Orders went out and Army barbers cropped and cropped until everybody around the place looked like a freshman. The 170 German men employed around constabulary headquarters smiled with amusement and slyly combed their long locks every time they thought a shorn trooper was looking their way.

A tall, tough lieutenant called the Germans together.

"March to the barber," he barked. They gasped. They complained. One guy said his girl would ditch him if he lost those long, curly locks. A rebel said he'd appeal.

The group retired to talk it over. The German labor office intervened and said:

"This is militarism. We've had enough of militarism from our own armies."

"No hair cut, no job," was the edict.

No job, no good American meat at midday, the Germans pondered. One hundred and sixty-two of them came back and said please to cut their hair.

Eight held out, gave up their jobs for their coiffure.

Chattanooga Claims To Have Hottest Officers

CHATTANOOGA, TENN.—Chattanooga claims it has the biggest law enforcement leadership in the country.

When police commissioner Roy Hyatt and police chief Ed Ricketts start throwing their weight around against law violators, the criminals come up against 561 pounds.

Ricketts is almost six feet, five inches tall and weighs 289 pounds. Hyatt is exactly six feet, five and weighs 272. Ricketts wears a size 13 shoe, Hyatt an 11 1/2. Both prefer a half size larger.

Hyatt, former cowpuncher smokes 15 to 20 cigars a day. Ricketts, an ex-coal miner yields to no one when eating reputations are at stake.

Prohibition Amendment To Constitution Urged

WASHINGTON—(AP)—A new prohibition amendment to the Constitution is proposed by Representative Joseph R. Bryson (D) of South Carolina.

He has introduced a resolution providing for an amendment to prohibit the manufacture, sale, transportation, or possession of any beverages containing more than one-half of 1 per cent alcohol by volume in the United States and all territory subject to its jurisdiction.

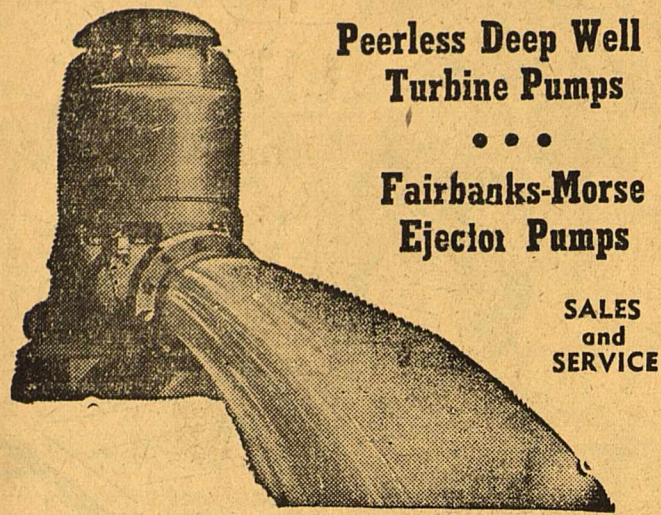

To become effective, the amendment would have to be approved by a two-thirds majority of both House and Senate and then by the Legislature of three fourths of the states.

"The condition of the people of this country under the free sale of alcoholic beverages has become pitiable," Bryson declared in a speech to the House.

"We have waited until the war was over and the troops were home to introduce this measure, in order that there might be no question as to the full discussion and free determination of all the people of the United States on this matter of public policy."

Bryson did not identify any other person or group as being associated with him in introducing the measure.

In southern China, the suitable gift for a prospective mother is a pair of pig's feet—valuable for calcium content.

TEXAS TODAY—

Old-Timers Have Their Day, Too

By JACK RUTLEDGE
Elihu rose of the Huron Community in Hill county will be 95 on July 25 and attributes his long life to drinking buttermilk and chewing tobacco.

"My legs are through," said 71-year-old E. E. McMeans, Palestine negro, and retired from the Palestine Herald.
The newspaper's oldest carrier boy, McMeans had not missed a single day, regardless of weather or illness, for the past 13 years.

William C. Catron of Amarillo is 70, and in his time has been a barber, railroad man and printer. Looking far less than his 70 years,

Show This to Junior

American school books are so precious to these Philippine farm children that they look at them even while riding the family carabao working in the fields near Cavite.

Catron today concentrates on barbering. He has a one-chair shop catering to the railroad trade. One of the chief items in the place is the domino setup—two tables. Railroad folks, he says, have to play dominoes and forty-two.

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY
America's Card Authority
Mrs. Madeline L. Anderson, who has been one of the real organizers of bridge in Milwaukee and Chicago, has opened a bridge studio at the Savoy Hotel in Seattle.

Mrs. Anderson says that every rubber bridge player should play tournament bridge in order to learn how to eliminate careless

U. S. Asks Romania For Payment Of Investment

WASHINGTON—(AP)—The United States has informed Romania this Government expects prompt and adequate compensation for American enterprises which may be taken over under a sweeping new Romanian program of nationalization.

Formal representations reserving all rights were made last month at Bucharest by Roy M. Melbourne, Acting American Political Representative, the State Department said.

A Department statement said that measures taken by Communist-dominated Romanian Government were "so far-reaching" that the program "may well result in nationalization without compensation. Officials were unable immediately to estimate the value of American investments in Romania.

Thus far the Romanian Parliament has exempted the oil industry from the control measures.

YOUNG DEMOCRATIC CLUBS PLAN POLITICAL FORUMS
WASHINGTON—(AP)—William C. Rhodes, executive director of the Young Democratic Clubs of America, has announced plans for nationwide political education forums to "interest young people in the affairs of local, state and national governments."

He said Democratic leaders of Congress and state legislatures will be invited to the forums to discuss foreign and domestic issues.

Average Person Has No Use For Airplane, Says Man Who Has Been Making And Flying Them For Years

HOLLYWOOD—(NEA)—In a remote corner, William T. Piper slipped his soda pop and surveyed the noisy cocktail party being thrown by a large western aircraft manufacturer.

His bent but powerful frame was settled comfortably in the chair. He looked out through bushy gray eyebrows and nodded his thick crop of steel gray hair as he talked. With a generous sweep of his arm which took in the whole room and sloshed out some of his soda, he said:

"This is what I mean. It's one of the things that's wrong with the American aviation industry today. Too many cocktail parties and not enough business meetings. The industry is way over promoted. We've got to sell Americans on aviation with common sense, not with parties."

Piper's name is almost synonymous with the development of personal aircraft in the U. S. in the last 20 years. He is founder and president of the Loch Haven, Pa., company which manufactures the famous Piper Cub.

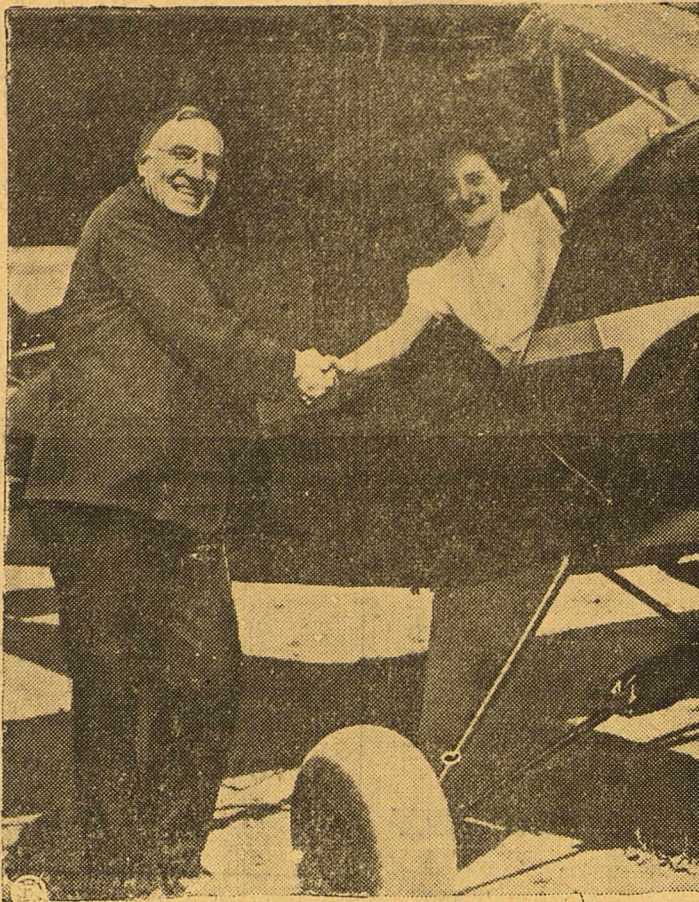

"In the small aircraft game," he declared, "we've been taking entirely the wrong approach in our selling. We've been trying to sell planes to young people. The youngster of today just can't afford to fly. The cost of the plane, the gasoline and maintenance is too expensive. Flying is for older people. They're the only ones who can afford it. It's the older people we've got to teach how to fly."

While he talked he was constantly interrupted by persons who spotted him and sought him out in his corner. The persons who gave him a "Hi, Bill," were the biggest names in aviation. The great respect he has earned in the industry was obvious from the way they greeted him. He continued with his favorite subject:

"The main thing the aviation industry has got to sell is transportation. We're kidding ourselves if we try to pass flying off as a sport. Our job is to show Americans how to use airplanes. They don't know now. Aviation as a national defense is another matter. But I think the boys who make the big planes might just as well face the fact that they're going to be reduced to three or four companies. The American taxpayer just isn't going to support as many manufacturers of big planes as were created during the war. And the Army and Navy is going to have to be satisfied with fewer of its new types."

Then he made a statement which would make the average plane manufacturer blush with embarrassment:

"Airplanes are of no use to the average person. What possible need is there for an airplane by the average person who lives in New York, for instance? Probably the

Plane-maker Piper and a customer: "Airplanes are of no use to the average person," he says.

best use of a plane can be made by a farmer. This is where we are going to concentrate our efforts. A plane can save a farmer time and do a lot of jobs for him. He has a bona fide, real need for one.

"But I disagree that the airplane has no utility. It's just a question of establishing utility in the right places. A woman has no use for a shaving brush. A reporter has little use for a truck but needs a typewriter. It's the duty of the plane manufacturer to find that utility and educate persons to it."

Piper admitted his company lost money last year. But he said he had lost money in other years and in the end had managed to keep his head above water.

He proposed a unique plan for sharing the airplane.

"Some day, I think you'll be able to go to an airport and rent a plane. You fly wherever you're going and leave the plane there. It's just like the freight car service. A shipper actually just rents a freight car. It carries his goods where he wants it sent and turns it back to

the railroad. If the railroad had to sell the boxcar to the shipper, there probably would be little freight carried that way. It's the same with airplanes."

Bill Piper has been flying longer than he has been making planes. He flies wherever he goes. But he usually waits until his company has to deliver a plane and gets him to place by delivering the plane himself.

She Answers More Than 50,000 Questions Yearly

AP Newsfeatures

NEW YORK—Miss Laura Bankhead sits eight hours a day in a New York office answering queries which range from "what makes a bubble bath bubble?" to "Should the title page of an annual report be printed entirely in capital letters?"

Director of the Grollier Information Service, Miss Bankhead's desk brims over with about 50,000 questions a year, sent in by purchasers of her company's encyclopedias and the Book of Knowledge as well as by plain question-answerers on the radio.

Steady Questioners

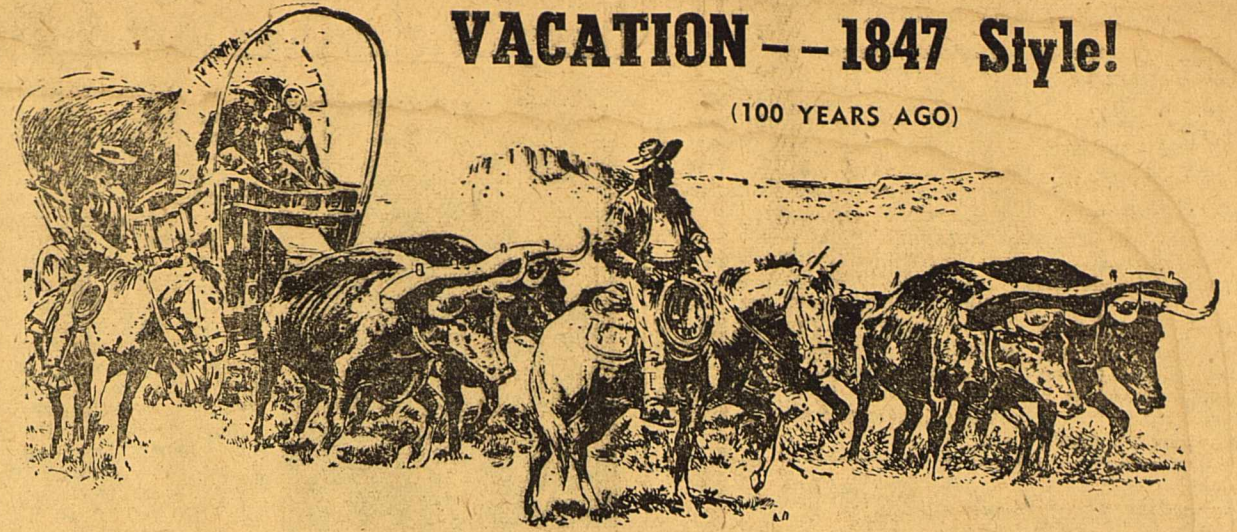

"We have some very steady questioners," she said, "like the science teacher who asked a number of questions about his field. Next he asked the source of a quotation from a love poem; then he asked about marriage laws."

"A while later he followed with a request for information on child care. Then he asked us about divorce laws."

"But we really are confused now. He is asking how long it takes a Mongolian pheasant to hatch its eggs."

An accountant wrote in complaining that he couldn't be a social success with one of his principal clients because he was unable to make a short after-dinner speech. Miss Bankhead wrote one for him.

Hundreds of queries come in about genealogy, the United Nations, the Atlantic Charter. Recently there have been many questions about mink and earth worm farming.

Save up to 50% on Bargain Rack Specials

ALL MAKES RECONDITIONED USED TIRES GOOD RECAPS BARGAIN SPARES

Our bargain racks are bulging with good serviceable trade-ins taken in during this Sale. We're anxious to move them. You can get your mileage at half price while waiting for your new car. Save up to 50%!

If you're NOT on a payroll... READ THIS!

• To businessmen, farmers, professional men, who are not on a payroll and who have a checking account:

Now you can buy U. S. Savings Bonds easily, automatically on the Bond-a-Month Plan!

Now you can build a sound financial program based on regular, systematic savings, just as millions of wage-earning Americans are doing on the Payroll Savings Plan.

The Bond-a-Month Plan is simplicity itself.

You authorize the bank in which you have a checking account to buy U. S. Savings Bonds for you.

Every month (or as often as you wish) the bank will buy a Bond in the amount you specify.

They will register this Bond in your name, send it to you, and deduct the purchase price from your balance.

There is no charge for this service. And there's nothing you have to do... except sit back and watch your savings pile up.

It's the ideal way to build an estate. To create an emergency fund. Or to prepare for your retirement. \$75 a month saved in Bonds now will bring you a cash income of \$100 a month in just 10 years.

So see your banker today, sign up on the Bond-a-Month Plan. It's the easy, sensible way to build a sound financial future for yourself and your country.

Save the easy, automatic way—with U.S. Savings Bonds

BACKS SCHOOLS FOR LATIN-AMERICA NATIONS

NEW YORK —(AP)— Grants of \$250,000 for an experimental five-year program to develop four permanent university study centers on Latin America has been announced by Carnegie Corporation of New York.

The project would be carried out jointly by the University of Texas, University of North Carolina, Tulane University and Vanderbilt University.

Dr. C. Carmichael, president of Carnegie Foundation for the advancement of teaching, said each institution would concentrate on a definite geographical area.

Texas University, he said, would

emphasize Mexico.

Dr. Carmichael said the program, designed to make available comprehensive knowledge of Latin America to students, teachers, businessmen and government officials, would provide in each center strengthened undergraduate curriculum, broader facilities for graduate work and an expansion of library resources.

New lilies developed by scientists of the U. S. Department of Agriculture produce magnificent large, thick-petaled leaves and heavier stems than the high quality lilies from which they were bred.

Japanese Cost Of Living Rises To Dizzy Heights Over Former Years

Well dressed: Outfitting this ordinarily dressed Tokyo couple today would cost 8,200 yen for the man as against 104 yen a decade ago; for the lady, 6,220 yen as against 156 yen.

this simple government service would have cost him three sen postage. Today, the bill is one yen, 20 sen—up 3,900 per cent.

Clothes are just as much of a problem.

For comparison purposes, I took a picture of a rather ordinarily dressed couple on a Tokyo street and asked a haberdasher on the Ginza to appraise their clothes. Here's the result:

Man's clothes: Three-piece suit, 5,000 yen (formerly 30 yen), White shirt, 800 yen (formerly two yen, 50 sen), Necktie, 400 yen (two yen), Shoes, 2,000 yen (20 yen). Totals, up from 104 yen, 50 sen, to 8,200 yen.

Woman's clothes: Kimono, 3,000 yen (formerly 50 yen), Sash, 1,000 yen (30 yen), Sash tie cord, 300 yen (10), Brooch, a necessary part of the sash, 150 yen (20 yen), Slippers, 400 yen (13 yen), Purse, 1,000 yen (20 yen), Socks, 120 yen (eight yen), Gloves, 250 yen (five yen). Total, up from 156 yen to 6,220 yen.

How much is a yen in dollar language? It doesn't mean anything to the average Japanese, of course, unless he's mixed up in the

TOKYO — (NEA) — The Japanese can well pause and think of those good old days before Japan started her march of conquest. The sad history of the last decade is written in yen—depreciated yen.

In that decade, the Japanese have learned the cost of war through their empty stomachs. Here are a few of the reasons:

The 350 yen they must now pay for a single pound of sugar (when they can get it) would have bought a mountainous pile of 2,400 pounds just 10 years ago. In those days, sugar cost only 15 sen a pound. A sen is one-one hundredth of a yen.

Rice, staple of Japan, has gone up from eight sen to 16 yen. Today's price for a single pound once would have fed a man and his wife for four months.

Flour is up from seven sen to 35 yen a pound. Soy sauce, used in every Japanese meal, is up from 39 sen to 150 yen a half gallon, eggs from five sen to 10 yen each. For today's price of a single egg a housewife once could have bought 200. Potatoes are six yen a pound against only five sen a decade ago.

Inflation is even roughening the course of true love.

In the "good old days" a Japanese swain could feel rich with 10 yen in his pocket. He and his girl could dine in a swanky restaurant for three yen, take in a movie for one more. A taxi home cost one yen and he'd still have money left over.

Now, for the same 10 he could go to a movie alone. Then he'd be broke.

He can't even afford to write a love note to his girl friend. Once

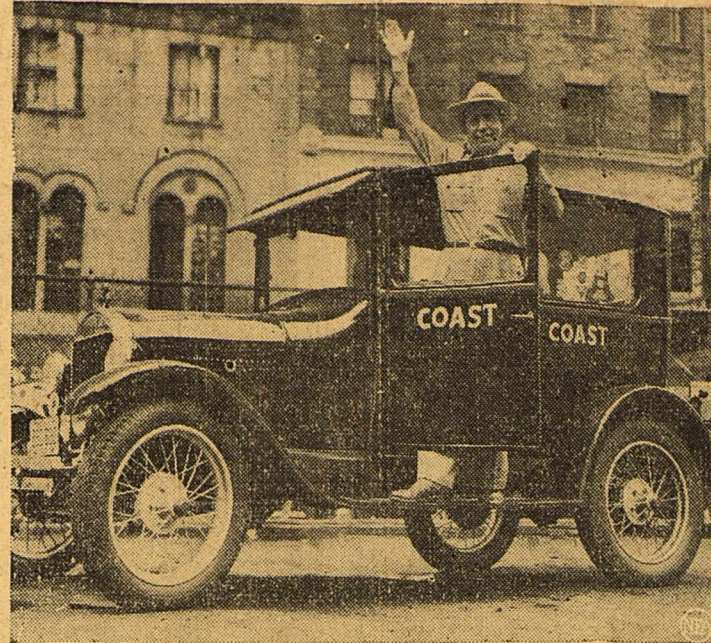

10-year difference: What the pound of flour (foreground) costs in Japan today (35 yen) would have bought the 500 pounds (shown in background) 10 years ago.

black market. But for comparison, the official exchange rate is 50 yen to the dollar (recently raised from 15 yen to the dollar). The black market rate ranges between 200 and 300 yen for \$1. Ten years ago the official exchange rate was 5 yen to the dollar.

BUILDERS! ARCHITECTS!

Now is the time to **Join the Swing to GAS**

1. Range
2. Refrigerator
3. Water Heater
4. Heating System
5. All-Year Air Conditioner
6. Clothes Dryer
7. Incinerator

Right now you could probably sell a grass hut to an Eskimo or an igloo to a Hottentot. Even so, it pays to build houses people really want. It pays... not only in immediate sales... but in long-term prestige.

That is why so many farsighted architects and builders are turning to the all-Gas home.

Especially in the Southwest, gas is the fuel people know and prefer. In our cities and towns, everyone uses gas. And modern Gas service—with postwar Gas appliances—promises even *greater* ease, comfort and efficiency. Here are a few ways it adds to better living:

House heating with an automatic Gas furnace assures cozy warmth on the rawest winter day. Year-round Gas air-conditioning goes even farther—actually brings healthful comfort in *every* kind of weather. Hot water in abundance is provided for every need... and with such economy and speed-of-recovery that it is possible to own both an automatic dishwasher and automatic laundry. Silent Gas refrigeration keeps foods fresh for long periods and eliminates daily shopping trips. The automatically controlled Gas range cooks meals and turns itself off while the homemaker relaxes or shops or attends to other duties. Incineration simplifies disposal of refuse. A Gas clothes-dryer makes laundering easy and rapid.

Yet, with all this, Gas is economical! Both the initial cost of equipment and carrying charges are low. Mass production, due to volume demand, has resulted in high quality without high cost. And this superior quality *plus* freedom from mechanical wear means that appliances stay at their peak of efficiency for a longer time. Add to that the well-known *economy of operation* and it is obvious why Gas is the best buy for any client's money.

Most important of all (from your point of view)... Gas appliances are designed compactly to save space—space that often allows you to put in an extra room or cut down the outside dimensions. They reduce building costs further because they require only simple connections. And the attractive streamlined design of each of the seven Gas appliances listed at the left is so recognizably *modern* that they help sell a house *on sight!*
