President Vetoes Wool Price Bill

Red Steer Scares Clevelanders

A muley red steer ran rampant on Cleveland, Ohio, streets, sending citizens scurrying for cover and bringing car loads of police. The steer jumped from a truck while being transported to the stockyards. Amateur cowboys cornered it twice before final capture.

Import Fee Is Reason

WASHINGTON —(AP)— President Truman Wednesday vetoed the wool price support bill because he said it would have "an adverse effect on our international relations."

The measure would have continued government prices on wool at present levels and authorized the President to boost tariffs or restrict imports if foreign wool or wool products pushed down domestic prices.

"The enactment of a law providing for additional barriers to the importation of wool at the very moment when this government is taking the leading part in a United Nations conference at Geneva" to reduce trade barriers "would be a tragic mistake," Truman said.

He added in a message to Congress: "It would be a blow to our leadership in world affairs. It would be interpreted around the world as a first step on that same road to economic isolationism down which we and other countries traveled after the first World War with such disastrous consequences."

"I cannot approve such an action," he said. The veto was sent to the Senate, where the bill originated. Senator Aiken (R-Vt.) asked it be referred to the Agriculture Committee.

Senate Democratic Leader Barkley (Ky.) told reporters there is no chance the legislation can be enacted over the veto. Barkley speculated that the bill may be allowed to die in the committee.

Truman declared American wool growers are entitled to price support and called on Congress to act promptly on a new bill "consistent with our international responsibilities and the interest of our economy as a whole."

He said the original Senate bill was satisfactory to him, but he objected to the House-added amendment "intended to increase the tariff on wool through the imposition of import fees."

Shortly after the President's message arrived on Capitol Hill, Senator Robertson (R-Wyo.) introduced a new bill in line with Truman's proposal. It would continue the present price support program and authorize the Commodity Credit Corp. to dispose of its wool holdings at less than parity prices if necessary.

Annual West Texas C of C Membership Drive Underway Here

The annual membership campaign of the West Texas Chamber of Commerce is underway in Midland, with sponsors hopeful of reaching this city's quota by the end of the week. Midland citizens have oversubscribed their quota the last several years.

U. S. Accord Is Seen For European Plan

WASHINGTON —(AP)—The world received assurances Thursday, on the eve of the critical Molotov-Bevin economic conference, the American government is solidly behind Secretary of State Marshall's proposals for European recovery based on self-help.

Planes, Too, Would Be Furnished Hemisphere

WASHINGTON —(AP)—Lt. Gen. Hoyt S. Vandenberg said Thursday the United States plans to supply other American nations with aircraft if Congress approves plans for standardizing arms in the Western Hemisphere.

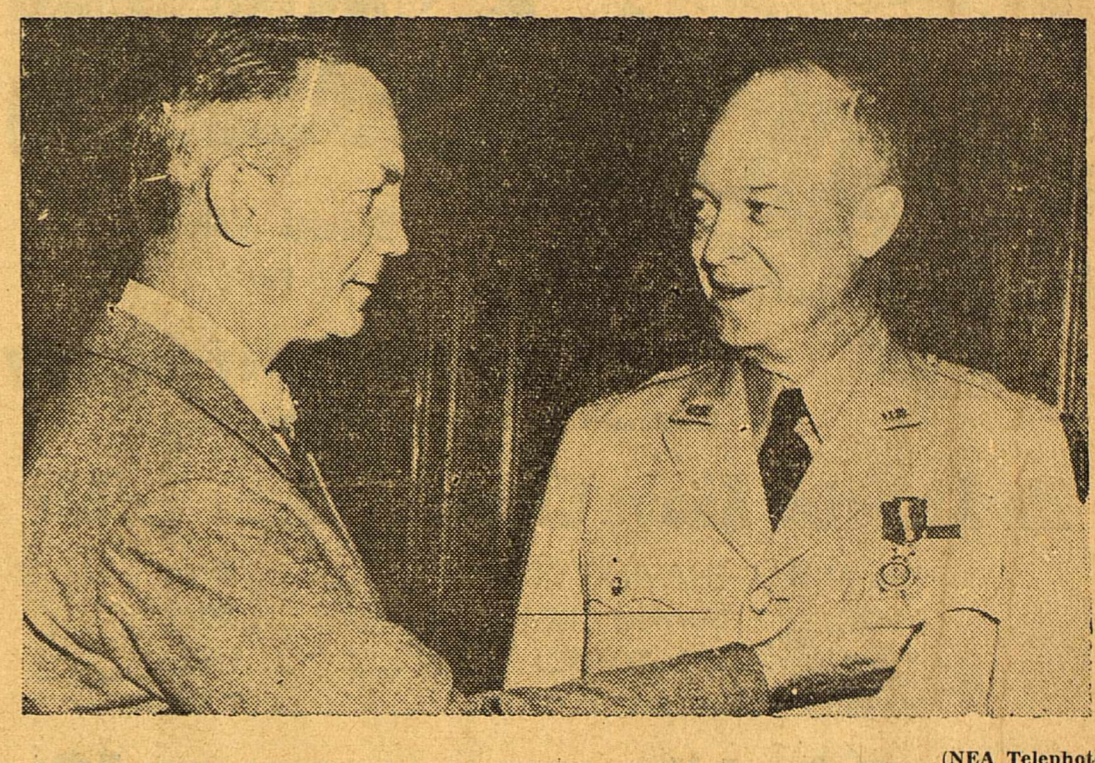

CORN CONTINUES RISE

CHICAGO —(AP)— July corn established a new all-time record high in futures trading on the Board of Trade Thursday at \$2.03 1/4 a bushel, up 1 1/4 cents from the previous highest price of \$2.02 1/4 set Wednesday.

CURLEY'S PLEA DENIED

WASHINGTON —(AP)— Judge James M. Proctor refused Thursday to suspend Boston Mayor James M. Curley's mail fraud sentence and ordered Curley begin serving the six to 18 months in prison immediately.

Eisenhower Receives Navy Award

Secretary of the Navy James Forrestal, left, presents the Navy Distinguished Service medal to Gen. Dwight D. Eisenhower for exceptionally meritorious service as commander in chief of the Allied Expeditionary Force during the simultaneous assaults on Casablanca, Oran and Algiers in November, 1942. General Eisenhower, who recently announced his acceptance of the presidency of Columbia University, N. Y., has been chief of staff since Nov. 19, 1945.

Green Refuses To Call General Strike Urged By AFL Districts; Fight In Courts, He Says

WASHINGTON —(AP)— A F L president, William Green Thursday rejected pleas from member unions for a general strike in protest against the new Taft-Hartley labor union control law.

Green called presidents of the AFL's 105 unions to a conference in Washington July 9. Green told reporters, after an emergency meeting with resident members of the AFL's influential executive council, he thought it "unwise and inadvisable" to bow to telegrams and letters from unions throughout the nation asking a general strike be called.

"Instead, we are going to fight the measure in the courts and seek to maintain our rights under the bill in negotiations with employers," Green said.

"The AFL will organize politically with the purpose of defeating every member of Congress who voted for this terrible legislation," he continued.

"We are not reconciled to it and we will carry on the fight against it just as vigorously as we did while the bill was going through Congress," Green told reporters.

Passage of the new law, enacted over President Truman's veto, has "emphasized" the need for unity of all labor, the 74-year-old AFL president said.

Tomlinson Trial To Jury On Thursday

SAN ANGELO —(AP)—The trial of Wylie B. Tomlinson, 33, Menard ranchman, charged with murder in the shooting to death of O. B. Opp, an oil man-rancher, is expected to be handed to the jury sometime Thursday.

Judge John F. Sutton was to open the session in 51st district court by reading his charge to the jury, after which arguments in the case will be made.

Wednesday Tomlinson testified he shot and killed Opp solely "to save my own life."

His plea of self-defense in the Nov. 22, 1946, shooting in a hotel lobby here concluded testimony in the murder case. The state used 22 witnesses and the defense 21.

Shipbuilders' Union Strikes In 10 Yards

NEW YORK —(AP)—Repair and construction work in 10 shipyards, nine of them owned by the Bethlehem Steel Company, shut down Thursday as the industrial union of Marine and Shipbuilding Workers (CIO) called more than 40,000 repair and construction workers on strike.

AMERADA WILDCAT IN GAINES BOTTOMED IN GRANITE

Amerada Petroleum Corporation No. 2-A Jones, wildcat in extreme Northwest Gaines County, 1980 feet from north and 660 feet from east lines of section 3, block A-6, psi survey, bottomed at 12,924 feet in granite, and will plug back and try complete from shows of possible production which were encountered in the Devonian, at around 11,400 feet.

This exploration drilled on past the Devonian in an effort to find and test the Ellenburger. That formation was not found before the bit went into the granite.

It drilled through a considerable section of Simpson, middle Ordovician on top of the granite.

It is adjacent to wells in the Jones Ranch field which are making oil from the Devonian.

SUN DEVELOPED WATER IN 'BURGER' AT COKE TEST

Sun Oil Company No. 2 Allen Jameson, Ellenburger exploration on the north side of the Jameson field in Northwest Coke County, and 3-300 feet from south and 1,990 feet from west lines of section 253, block 1-A, H&TC survey, swabbed at 7,085-7,110 feet 24 hours and recovered 350 barrels of salty, sulphur water, with slight traces of oil and gas in some of the water.

The fluid was standing 1,400 feet below surface at the start of the swabbing, and it was never lowered below that point. Swabbing was from 4,000 feet.

Operator is preparing to plug back and run tests on slight shows in the crinoidal of the Pennsylvania.

This is the second prospector in the Jameson district to develop water in the Ellenburger, and fail to get oil production.

Sun No. 1-A Tibb, 565 feet from north and 660 feet from west lines of the Wiley and Barnhill survey, and on the northwest side of the Jameson area, spudded to 160 feet in redbeds, and was trying to regain lost circulation so it can continue making hole. It is contracted to go to 7,400 feet to try to find production in the Ellenburger.

DES MOINES Residential Area Threatened By Levee Break And Flood Swirls Through City

DES MOINES —(AP)—The Des Moines River tore a gaping hole in a mile-long levee protecting a 25-block residential section here Thursday, and flood waters swirled through it without hindrance.

The break came little more than an hour before a twin flood-crest from two surging rivers came together at the streams' confluence near the heart of the city.

The Weather Bureau said a record flood crest of 20.92 was reached at the Scott Street junction at 7:15 a. m. (CST) and would pass downstream toward Red Rock, Eddyville, Ottumwa and Keosauqua—each of which has been flooded out twice this month and now face a third onslaught.

The 20.92 reading broke the former all-time high of 18.7 established 13 days ago at Scott Street. The Weather Bureau said it became apparent the crest was reached after both the Des Moines and the Raccoon Rivers held steady for several hours, then slowly started falling.

With 1,800 persons driven from their homes by high water, only two men were reported unaccounted for. James Armstrong, 52, and his son-in-law, Clare McNeal, 29, were missing after a bull cart in which they set out with a companion to rescue their flood-marooned wives in a farm house was swept off the road by rushing waters.

House announced that a permanent district public relations committee, along with a number of sub-committees, will be named soon to direct the public relations program in West Texas.

MEALISTER TO DRILL DEEP WILDCAT AT SHAFTER LAKE

Mealister Shafter Lake, Magnolia, Ark., has filed an application with the Railroad Commission of Texas for a permit to start drilling by July 1 on its No. 1 M. M. Fisher estate, as a 7,500-foot wildcat in North-Central Andrews County near Shafter Lake.

It will be 660 feet from south and west lines of the southwest quarter of section 4, block A-36 psi survey.

Contract to drill the project, with rotary, has been let to Spencer-Durham Drilling Company. Material for the rig is now being moved in.

This wildcat was announced several weeks ago as a location. It was reported at that time as Henderson & McMillan, and associates, No. 1 Fisher.

Henderson & McMillan turned the deal to Mealister to drill, and retained an interest. The prospector is on acreage farmed out by Magnolia Petroleum Company.

It is to be carried to 7,500 feet to explore the lower Permian Clear Fork zones, which are productive in the Fullerton field several miles to the west.

PLYMOUTH GETS SHOWS AT WEST CROCKETT OUTPOST

The Plymouth Oil Company No. 1-O-A Owens, on location outpost to the discovery for flowing production from the lower Permian in West Crockett County, and 1,980 feet from north and west lines of section 8, block C-2, H&OB survey, was bottomed at 5,747 feet in Wolfcamp-Permian line, and was preparing to run a drillstem test.

It topped a gas zone at 5,734 feet and an oil bearing section at 5,738 feet.

EAST CROCKETT PROJECT TO ABANDON AND PLUG

Monierief and Hyde No. 1 Helbing, East Crockett County Ellenburger prospector, 17 miles southeast of the Todd Deep field, and 660 feet from north and west lines of section 16, (Continued on page 2)

Admiral Nimitz Says United States Must Realize Other Nations Have Guided Missiles; Hints At Russia

WASHINGTON —(AP)—Fleet Adm. Chester W. Nimitz said Thursday the United States must not assume it is the only nation capable of developing the guided missile into the weapon of the future. He tossed out a plain hint he was referring to Russia.

"We must not forget that other nations have equal, if not greater, access to the wealth of German information, equipment, facilities and trained technicians than we have," Nimitz said.

"To assume they will merely catalogue this information for future reference and not exploit it vigorously is fallacious and dangerous."

The admiral did not identify the nations in his statement prepared for a House Armed Services Subcommittee, but Russia has been the big rival of the United States in obtaining the help of arms experts from occupied Germany.

"Failure to take adequate steps now to explore this new field of weapons and their uses," Nimitz said, "would parallel our relatively slow development of the airplane and our tardy appreciation of its potentialities as an instrument of war. It is evident such failure can be most detrimental to national security."

"There is no doubt if war comes again the nation leading in the guided missile field will have an initial and perhaps decisive superiority."

Nimitz testimony was prepared to urge the immediate construction of a missile test center and sea range at Point Mugu, Calif.

NEURO ELECTROCUTED

HUNTSVILLE —(AP)—A 37-year-old Dallas negro, Charlie Allen, died in the electric chair at the state penitentiary here early Thursday, one month after his brother, Oscar, was executed.

Army General Says War Department Would Regret A&M Demilitarization

WASHINGTON —(AP)—An Army officer's letter released here Wednesday by Rep. Olin Teague (D-Texas) praised the military training at Texas A&M College and said the Army would regret any change jeopardizing Army-college relationship.

Lt. Gen. C. P. Hall, director of organization and training, signed the letter. He wrote he was stating official War Department opinion as well as his personal feelings.

In giving a copy of the letter to a reporter, Teague explained the school's board of directors, now meeting at College Station, Texas, is considering the de-emphasis of military training there.

Teague said Texas A&M is rated by the War Department as "essentially military" because the students wear uniforms and military training is stressed throughout. Uniforms are worn only for drill periods and military classes at other schools having reserve officer training.

Teague, a wartime infantry colonel, was graduated at A&M. General Hall's letter read in part: "For many years the War Department has enjoyed an exceptionally profitable relationship with the class MC (where military training is emphasized) as at Texas A&M institutions. Because of the unusual degree of concentration on and interest in military training, the War Department has been able to secure from them as reserve of-

Weather

Partly cloudy Thursday afternoon, night and Friday. A few widely scattered thundershowers in Panhandle, South Plains and Pecos Valley eastward. No important temperature changes. Maximum temperature Wednesday was 90 degrees, minimum 70 degrees. Minimum Thursday morning in Midland was 73 degrees.

Recruiting Station Is Closed Thursday

For the rest of the summer there will be no Army recruiting office here. The recruiting substation, with offices on the third floor of the courthouse, was officially closed Thursday.

Sgt. Many M. Lee, who has been in charge of the office about two months, said the Midland station probably will be opened again in the fall or winter. It has been customary to close this station during the summer months. He is being transferred to Big Spring.

So, for the rest of the summer at least, the nearest recruiting station will be at Odessa.

Today's Lecture On Making Haste Slowly

Commenting on the unwisdom of being in too much of a hurry, some philosopher once put it this way: "Haste makes waste."

Justice of the Peace B. C. Girdley, when confronted with a man charged with speeding Wednesday afternoon, put it this way: "Forty-two twenty, including costs."

TO RUIDOSO

W. J. Sparks and Mr. and Mrs. Percy Bridgewater left Thursday for Ruidoso, N. M., where they will spend the weekend.

Speakers Declare Road Ahead Rocky For UN

LAKE SUCCESS—(AP)—The world's top-flight political leader Thursday joined in sounding grim warnings that the United Nations still faced a difficult and uncertain road ahead on this second anniversary of the world charter signing at San Francisco.

The warnings were voiced in recorded charter day messages broadcast to the world by President Truman, Prime Minister Attlee of Britain, Premier Ramadier of France, President Chiang Kai-Shek of China and deputy Foreign Minister Andrei A. Gromyko of the Soviet Union.

Oil & Gas Log-

(Continued From Page 1)

block QR, TT survey, has been abandoned and will be plugged on total depth of 9,000 feet in dry Ellenburger, topped at 8,690 feet.

AMERADA TO TEST HIGHER AT NE CROCKETT WILDCAT

Amerada Petroleum Corporation No. 1-CTA University, Northeast Crockett County exploration, 665 feet from south and 1,987 feet from west lines of section 23, block 42, University survey, test perforated section at 8,250-8,300 feet, in Ellenburger 1, showed salt water.

That zone has been squeezed off with cement and operator is to perforate and test at 8,168-8,236 feet Top of the Ellenburger is at 8,102 feet. Elevation is 2,613 feet. Tests below the 8,300-foot level failed to show any signs of petroleum in commercial quantities.

CORRECTION

In this report on Wednesday it was stated that Railroad Commission records failed to show any producing wells in the Rarter field in North Glasscock County, in the area adjacent to the location of the new wildcat to be drilled by Dave Duncan, as his No. 1 Roberts-Barkhurst, 990 feet from south and east lines of section 7, block 33, TP survey, T-3-S.

That statement was incorrect. An old well a short distance east of the new location, and which has been shut in for several years, was recently cleaned out and put on production and given an allowable of 12 barrels per day.

VISIT HERE FROM SHIRO

Mr. and Mrs. B. C. Thomas of Shiro, in Grimes county, are visiting here this week with their son and daughter-in-law Mr. and Mrs. C. C. Thomas. The elder Thomas is county judge of Grimes county.

Rev. Howard Hollowell Becomes President Of Midland Rotary Club

The Rev. Howard Hollowell was installed as president of the Midland Rotary Club at its meeting Thursday noon in the Scharbauer Hotel and the retiring president's pin was presented to R. L. Miller who has served as head of the organization the last six months.

Mr. Hollowell announced his plans and said committee appointments would be announced immediately.

He and Ily Pratt discussed the recent Rotary International convention in San Francisco, as did C. H. Shepard, J. M. McCulloch of Stamford, district governor-elect, was a guest at the meeting.

Pratt, who described his trip to California and the convention, declared its theme was seeking ways to live "together in friendship and understanding."

Mike Brumbelew and Barnes Mission announced plans for the Rotary-Lions baseball game Friday night as a benefit to the IOOF Lodge recreation fund.

Henry Murphey was program chairman and Allen Wemple received the attendance prize.

Midland Group Attends Hearing

SAN ANGELO—The application of the Kerrville Bus Co. for a certificate to operate over State Highway 158 between Midland and Sterling City was ordered submitted to the State Railroad Commission by William A. Danforth, examiner, here Wednesday.

Testimony on the need for this transportation service was introduced at the hearings being held at the Hotel Cactus, which are being reported by B. D. Witt of Austin.

Nine cases were ordered submitted during the day, one was passed until the next call of the docket at Austin and another was dismissed. Another of those ordered submitted was that of R. E. Baygent of Marfa for authority to operate a bus line from Midland to Kermit via Goldsmith.

Witnesses from Midland, who attended the hearing included: Barney Greathouse, Luther Tidwell, Austin Flint, Joe Erickson and Delbert Downing. This group traveled in a special bus. Five witnesses were picked up at Garden City and five at Sterling City.

Mrs. Hugh McClure, accompanied by her daughter, Jane, her sons, Hugh, Jr., and Phil, and Billy Jewell and Robert Turpin, Jr., left Wednesday for the Glenwood Ranch near Junction where the four boys will attend a summer camp.

Mr. and Mrs. Elliott H. Barron have returned from an extended visit in East and South Texas. En route home they visited the Glenwood Ranch near Junction where their son, James, remained to attend a summer camp for boys.

The first foreign visitors to Hawaii were English explorers and sailors.

Good News For Folks Who Suffer From

- ✓ STOMACH GAS
- ✓ SOUR FOOD TASTE
- ✓ ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief from this nervous distress. Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment, sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula, which contains special and potent acting ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

Bake Sale Planned By Members Of Garden Addition H. D. Club

Garden Addition Home demonstration Club met Wednesday afternoon at the home of Mrs. R. A. Dowdle to watch Mrs. Robert Hord make samples of textile painting.

During the business meeting reports were given on marketing, reading, and the annual encampment.

Plans were discussed for a "Bake Sale" to be held July 12. The place will be announced later.

The next meeting of the club will be July 9 in the assembly room of the courthouse. Meeting time is 2 p. m. The program for the meeting will be "Child Training" and other home demonstration clubs will also attend as guests.

Present at the Wednesday meeting were Mrs. A. P. Jordan, Mrs. O. J. Kniffen, Mrs. Roy Long, Mrs. J. N. Stuchman, Mrs. H. O. Allen and four visitors, Zelma Dorothy Flowers and Mrs. J. C. Flowers of Lubbock, Mrs. Tom McClure and Mrs. W. D. Engle.

Many Never Suspect Cause Of Backaches

This Old Treatment Often Brings Happy Relief
When disorder of kidney function permits poisonous matter to remain in your blood, it may cause many backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Kid Party Planned For Young People By Church Group

The Young Working People's Bible Class, sponsored by the First Christian Church, will entertain with a "Kid Party" Saturday, July 5, at the home of Hazel McBrien, 1107 West Illinois.

The party is open to all young people of Midland who care to attend and join in the festivities.

Young people who would like to dress in the typical kid styles and attend the party should call or contact the Rev. LeRoy Castle or Hazel McBrien in advance so that they will know how many persons to expect.

The party will be held from 7 to 10 p. m.

Coming Events

FRIDAY

Final presentation of Community Theater's production, "Kiss and Tell" at the City-County Auditorium.

Ladies' Country Club Golf Association will meet at 9 a. m. for playing matches.

Meeting of all graduate nurses in this vicinity at 2 p. m. at the home of Mrs. Jack Petosky, for the purpose of organizing a permanent graduate nurses' club.

Pack 35, Cub Scouts, will meet at 7:30 p. m. at Cloverdale Park.

SATURDAY

Children's Theater groups will meet Saturday at the City-County Auditorium. Group one will meet at 10:30 a. m.; Group two, 1:30 p. m. and the Junior Workshop at 3:15 p. m.

SOCIETY

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JUNE 26, 1947-3

Scene-Stealer Of 'Kiss And Tell' Is A Canine With Stage Appeal

Vying with the members of the cast of "Kiss and Tell" for honors on stage at the City-County Auditorium at 8:30 p. m. Thursday will be a large show dog owned by Elmer Sellers of the Superba Kennels of Midland.

The dog, a large, unusual breed, pedigreed canine, is a natural for the part of "March Banks", the four-footed friend in the play. (Off the record—this animal confessed privately to a few intimate friends he planned to really "put on the dog" for the Thursday opening night performance.)

He will join the band of gay performers in the Community Theater's comedy presentation of a play that enjoyed a long-run smash hit engagement on Broadway. The play, based on life among small-town middle "bracket" families, is an expert combination of farce comedy and juvenile. It is credited with putting audiences all over the United States in the aisles with laughter.

Wednesday night the set was completed as to props, furniture and lighting. The furniture is provided by the Midland Hardware Company.

Wardrobe mistress for the two-night performance will be Jane Butler.

The report Wednesday was that tickets were going fast.

The plan of seat reservation, which was set up at no extra cost to the purchaser, was instigated to assure all Community Theater members an opportunity to get good seats Monday before the tickets and reservations were open to the public.

Any tickets not sold at Wemple's Music Store, ticket headquarters, by closing time Thursday may be purchased at the door before curtain time, 8:30 p. m. Thursday.

Picnic-Swimming Party Will Be Given Friday By Young Adult Class

Methodist young adult Fellowship Class will have a picnic-swimming party Friday at Pagoda Park. Every member of the class is urged to bring a guest to the party. Swimming will begin at 5 p. m. and food will be served at 7 p. m.

Summer Special

8181
11-20

By Sue Burnett

Here's a clever little junior frock for pleasant summer afternoons. And so simple to make, too—this week's ABC Special. Little puffs form the brief sleeves and the drawing waist makes it fit just right.

Pattern No. 8181 is designed for sizes 11, 12, 13, 14, 16, 18 and 20. Size 12, 3 yards of 39-inch material.

For this pattern, send 25 cents in COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett, Midland Reporter-Telegram, 530 South Wells Street, Chicago 7, Ill.

Ready now—the new Summer FASHION. 52 pages of style, color, fashion news for every woman who sews. Send twenty-five cents for your copy today.

Excellent camp fire kindlers can be made at home. Dip short lengths of kindling or balls of excelsior in molten paraffin and allow to cool. One or two of these laid on the fire will coax a sputtering flame into a merry blaze.

Kermit Lions Club Will Install New Officers Friday

KERMIT—The annual officer installation banquet of the Kermit Lions Club, will be held at 8 p. m. Friday in the school cafeteria, according to Fred Pearson, retiring president.

W. A. Miller, assistant superintendent of Odessa schools, is to deliver the main address, and the Midland Lions Club Hill Billy Band is to furnish music.

Roy Carter, who also will be installed as a new director, is program chairman. Cullen Akin, widely known for his humorous entertainment, is being featured on the program as "Billy Rose" Akins. Formerly of Kermit but now of Odessa, Akin has not revealed what type of entertainment he has planned.

Officers to be installed are: The Rev. Strauss Atkinson, president; Webb Jenkins, first vice president; W. M. Cameron, second vice president; O. M. Work, third vice president; Ralph Seale, secretary-treasurer; D. A. Lawson, Lion Tamer; and Emory Spangler, Tail Twister. New directors are Carter and Leon Rose.

OVERDOSE OF SUN YELLOW SWIM CAP

By ALICIA HART
NEA Staff Writer

Bathing caps will hold their watertight seal and snowy gleam through a Summer's swimming if given proper care.

An overdose of sun, for instance, yellows rubber and speeds deterioration. To avoid this, peel cap off as soon as you come out of the water. Wipe it dry and tuck it into the shade—under a towel or an umbrella will do.

In between trips to the beach let your cap air in a dry, cool place. Don't leave it stuffed in the bottom of the beach bag where heat and moisture can damage the rubber. For its off-duty hours, a cap should be hung up on a padded hat stand or stuffed with tissues to give it a chance to dry thoroughly.

When you slip your cap on, hold it by finger tips so that sharp fingernails won't cut the rubber. Tuck hairpins firmly into the hair so that pointed ends can't work out to poke a hole in the cap.

Easten chin strap to a comfortable tension. If strap is pulled too tight, the cap is not only uncomfortable to wear but the rubber is gradually stretched out of shape.

FOOT PROTECTORS SAVE SHOE LINING

By ALICIA HART
NEA Staff Writer

The girl who sheds her stockings in Summer shouldn't deprive noble soles of protection. Foot socks serve as double protection for feet and for shoe linings, which may deteriorate when bare feet perspire.

These protectors, made of nylon, lisle, rayon or cotton-rayon mixtures, are styled for every type of shoe. They are more plentiful now; even have newcomers in their ranks. Sausiest newcomer is a toe-guard of bright red nylon. This foot-guard, which ends under the instep, peeks from a shoe window to simulate a brightly lacquered toe.

More conservative girls will like the suntan shades because they are nearly invisible.

Sunday
9:45 a. m.: Sunday School
11:00 a. m.: Morning Worship sermon, "Christian Science."
The Golden Text: "Heal the sick, cleanse the lepers, raise the dead, cast out devils; freely ye have received, freely give" (Matthew 10:8)
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Another parable spake he unto them: The kingdom of heaven is like unto leaven, which a woman took, and hid in three measures of meal, till the whole was leavened" (Matthew 13:33).
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Ages pass, but this leaven of Truth is ever at work. It must destroy the entire mass of error, and so be eternally glorified in man's spiritual freedom" (page 118).

SPEAKING OF MY RELIGION

I have heard old people like me contribute their long lives to eating plenty of eels, lettuce and poke-salad. I contribute mine to the influence of my church. Through thick and thin she has stood there welcoming friend and foe, christian and non-christian. Of course what a fellow eats has to do with the length of his life but HOW HE LIVES has much more to do with it. That's why I'm so happy now, I suppose. My formula for living a long time is traceable to my church. Why, I was married there. I brought up my family with the blessings of my church. You know character is about all that's lasting and worthwhile and the church is where you mold it.

If a lot of our DELINQUENT FATHERS and MOTHERS would shoulder their responsibilities like fathers and mothers should there would be little necessity for all this talk about JUVENILE DELINQUENCY. The parents miserably fail and what else can you expect?

It would be your greatest decision—to resolve right now that you will support your church with your money, your presence and your prayers regularly.

YOU IN THE CHURCH
THE CHURCH IN YOU
Character is a by-product of the church. It is here that young and old alike are showered with benediction that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statehood today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. There we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you"—form a combination for good.

State Lawmakers' 'Single-Shot' Bills Are Killed

AUSTIN—(AP)—The 50th Legislature's "ghost single-shot" appropriation bills, which were left penniless when the state ran out of money at the close of the session have been declared dead.

The verdict was delivered by Attorney General Price Daniel who held the seven bills which the state comptroller refused to certify shall not be considered as passed.

The legal opinion was in accordance with the constitutional "pay-as-you-go" provision under which the state now operates.

The seven bills covered appropriations totaling more than \$4,800,000. Included were funds for a cancer and pellagra hospital at Dallas, a medical branch of the University of Texas at San Antonio, expansion of Lamar Junior College at Beaumont to four-year technological college status, and extension of the state's soil conservation program.

Daniel's ruling was based on the constitutional provision no appropriation bill rejected by the comptroller because of lack of funds shall be considered passed except in case of emergency and imperative public necessity.

Speaker of the House W. O. Reed had requested the legal opinion.

Foy Proctor Named Stamford Rodeo Judge

STAMFORD—Five prominent Texas cattlemen, Foy Proctor of Midland, George Humphreys, Guthrie, W. B. Willingham, Rotan; Bill Dameron, Haskell, and Ed Heller, Dundee, have the responsibility of seeing that all cowboys and cowgirls receive fair and impartial treatment at the Texas Cowboy Reunion here July 2-4. The appointment of the judges was announced this week by show officials.

Two divisions in both the calf roping and wild cow milking contests have been announced for this year's show. The Amateur Rodeo Association members will rope in one division and the ranch cowboys in another. A special Old Timers calf roping contest will be held July 1. It is open only to members of the Texas Cowboy Reunion Association and each contestant must be 55 years of age on or before July 1, 1947.

Prize money at the 1947 show totals more than \$5,000.

No Foreclosures For VA Farmers In Texas

DALLAS—(AP)—Veterans Administration's tabulations through April showed there have been no foreclosures on the 2,632 farm loans granted ex-servicemen in Texas, according to R. F. Andrews, VA loan guarantee supervisor in Texas, Louisiana and Mississippi.

One reason for the lack of foreclosures, he said, was rigid screening examinations the veterans were given. Andrews pointed out not only must a veteran have the know-how to operate a ranch or farm, but he must be on a firm footing financially.

About 60 per cent of the non-farm families of the United States live in communities of 25,000 or less.

European Fair Planned For Poland In August

AP Newsfeatures
GDANSK—Poland's second post-war international fair is scheduled to be opened here on Aug. 2 with the United Kingdom among exhibitors.

Precision machines, new technical devices and samples of equipment to be supplied under a commercial agreement to the ministry of posts and telegraphs are to be shown by the British.

A score of countries are arranging for exhibition stalls, with Sweden, Soviet Russia and Czechoslovakia expected to have some of the biggest displays.

France is slated to show fancy goods and motor cars; Finland "week-end" houses; Hungary, wine fruit, peasant art and fancy goods. Other countries to be represented include Belgium, Bulgaria, Denmark, the Netherlands, Yugoslavia, Argentina, Uruguay, British colonies and dominions. No announcement has been made whether the United States would have an exhibit.

Red Cross To Elect Officers Thursday

Officers of the Midland County Chapter of the American Red Cross for 1947-48 will be elected at the annual meeting of the organization at 7:30 p. m. Thursday in the City Hall.

Every member of the Red Cross is invited and urged to attend the session, Irby Dyer, president, said.

Congratulations To

Mr. and Mrs. J. B. Golden on the birth, Wednesday, of a daughter, Marilyn Jo, weighing 11 pounds nine ounces.

OZARKA WATER CO. welcomes these new arrivals. Phone 111 and a bottle of OZARKA will be delivered to you free.

A new triumph in plastics. It's Glostex, the new, sensational plastic coated material developed especially for automobile seat covers. They are available in blue, brown red and green. Only Glostex offers these amazing features: tailored for style and comfort, simply installed, resists spots and repels water, resistant to acids, oils and grease, easily sponge-cleaned, seams securely bound with contrasting heavy piping. Waterproof and wears like iron. Exclusive streamlined designs in lovely colors and completely covers all surfaces exposed to wear. It has a smooth surface and saves wear on clothing due to its smooth surface. They are available for immediate delivery.

Come in and see the Velon Plastic Seat Cover material. These seat covers will not stain or deteriorate from exposure to sun or rain. Grease, Candy, and ice cream spots can readily be removed with a damp cloth. Velon will outwear all other conventional upholstery materials. We also have a nice supply of Foam Rubber cushions for your automobile.

RADIO STATIONS K E C K SOMETHING NEW IS BEING ADDED Recently the Federal Communications Commission granted K E C K a sister station K E C K-FM. FM means Frequency Modulation, a new system of radio broadcasting that eliminates static, ends fading and gives full beautiful tones to programs never realized in the present system of AM Broadcasting (Amplitude Modulation). This means that the new K E C K-FM will give WEST TEXAS listeners the most modern radio facilities possible. If you contemplate buying a new radio make sure it is equipped for FM or it may be obsolete in a short time. Use the station. Most people listen to MOST in West Texas. The news and music station that is a relief from daytime network drudgery. K E C K 920-K.C. — 1000 Watts MIDLAND OFFICE CRAWFORD HOTEL Phone 1035 After 6 P. M., 1546-W

Roberson Beats Rocky Ford; As Dowell Measures JayCeers

Joe Roberson Sinclair beat Rocky Ford, 5 to 2, and Dowell Inc. spanked the Midland JayCeers, 10 to 3, in city league softball battles Wednesday night.

Greider's neat pitching was the difference in Sinclair and the Rocks. (No box score recorded.)

Pete Garrison, the fireballer, twirled for Dowell in its triumph over the Jakes.

Here is a thumb nail sketch of the game: Dowell broke loose in the first with McCormick singling and scoring on two errors. Doyle McKinney then tallied on a hit by Reynolds good for two sacks. In the top of the third, Hargraves singled, stole second and got third on a fielder's choice, and score on a passed ball for the JayCeers.

Garrison Homers
Dowell countered in the last of the third with Garrison hitting a home run, McKinney singled and scored later on a fielder's choice.

Last of the fourth, McCormick singled, stole second, scored on Walker's single, McKinney singled putting Walker to third, Walker scored as Gayle was safe on an error, McKinney scored on a fly.

In the sixth for the Jakes, Smith doubled, went to third on a fielder's choice and stole home. In last of the sixth, McCormick singled, second on an error, scored on Garrison's single, Garrison stole second, McKinney doubled and took third as Garrison scored, Watson singled scoring McKinney.

In the first of the seventh, Hargraves hit a home run for the JayCeers with nobody on the sacks.

Shell Battle Is Feature Of Softball Night

There will be an all-Shell softball war at 9 p. m. Thursday at the Midland Softball Park.

TXL Shell Oilers from No Trees will play the Midland Shell nine. A curtain-raiser tilt is the league battle between Mackey Motors and Dowell Inc. at 7:30 p. m.

Coroner Says Pressure Used To Keep Him From Fighter's Death Probe

CLEVELAND (AP)—Declaring he did not want "a cloud on Ohio boxing," Coroner Samuel J. Gerber Wednesday promised a complete investigation of the death of Jimmy Doyle, 22-year-old Californian who never regained consciousness after being knocked out by welterweight champion Ray (Sugar) Robinson II, the eighth round of a title fight at the arena here Tuesday night.

"A great deal of unholy pressure has been put on me to divert this investigation," said Dr. Gerber. "I am going to make a complete investigation. I will talk to anyone who had anything to do with this." Dr. Gerber did not elaborate on what he meant by pressure.

The coroner opened his probe by questioning Robinson, his manager, George Gainford, and two other handlers of the champion.

Robinson was accused during questioning by Dr. Gerber of being "evasive." So was Gainford, later, Robinson Absolved.

"This is an unfortunate incident, and you are not to blame," the coroner said to Robinson. "But I want to know Doyle's condition as observed by laymen. And I want to arrive at a conclusion without pressure from anybody. I don't want a cloud on Ohio boxing."

His questioning led along three major lines:
"Was Doyle really fit and the right opponent for the welterweight champion of the world?"

"Was Doyle's earlier brain injury shown in paralysis of one eyelid or other parts of his body?"

"Was the floor of the ring properly padded?"

Robinson denied he thought Doyle an unworthy opponent. He denied having a voice in picking Doyle. He denied taking Doyle's injury last year into his fighting strategy.

Next Big Event For Golfers Is Victory

CHICAGO (AP)—With the South African menace, Bobby Locke, temporarily shelved and the nerve-wracking pressure of the National Open and PGA tourneys behind them, the professional golfing phalanx Wednesday wades into the \$15,900 Chicago Victory National championships at the Westward Ho Club.

The 72-hole stroke play tourney, won the past two years by the now retired Byron Nelson, will afford an opportunity for such performers as leading money-winner Jimmy Demaret, Ben Hogan and Lloyd Mangrum to climb back into golfdom's much-crowded driver's seat.

Demaret's last victory was in the masters tourney at Atlanta in early April. Hogan, twice a winner of the Victory National in 1941-1942, hasn't paced a field since he won the colonial invitation at Fort Worth, Texas, in mid-May. Mangrum copped the National Capitol Open at Washington early this month, but it was his first major triumph since the 1946 National Open.

Indians Take Sugar Game Of Series With Sweetwater Sports; Win 8 To 3

SWEETWATER—Harold Webb's Midland Indians took the sugar game of a three-game series with the Sweetwater Sports here Wednesday night, 8 to 3. Thursday night the Tribe moves to Ballinger.

Clever little Ernie Nelson, lefthander, pitched the win for Midland, limiting the Sports to seven licks.

Four runs for four hits started the Indians off in the first inning and they were never headed or threatened.

E. Mellilo, Ramsdell and Keon each got two hits for Midland, including a triple by Ramsdell. Art Ayres hit a home run for Midland.

The box score:

Panthers And Sports Trade Places Again

By The Associated Press

It's getting almost monotonous, this business of Fort Worth and Shreveport see-sawing on the second place perch in the Texas League.

Fort Worth handed Dallas a 5-1 drubbing Wednesday night while San Antonio downed the Louisiana crew 5-2. That means the Cats are back in second place behind Houston with the Sports shoved to third spot.

Four times straight the two teams have traded the runner-up position in as tight an intra-loop battle as these parts have seen this year.

In the only other league game Wednesday night, Tulsa swatted down seventh-place Oklahoma City, 2-0. The Houston-Beaumont affair was postponed because of wet grounds.

Watchman Breaks Out — Takes 'Souvenirs'

CHICAGO (AP)—The owner of a liquor store asked police to help him find the night watchman who broke out of instead of into his establishment. The proprietor said he hired the night watchman with the understanding that he would be locked in the place from 2 a.m. closing hour until re-opening at 11 a.m.

But the watchman broke out by chopping a hole through the front door and with him went, the owner said, \$500 in cash and a quantity of merchandise. The pari-mutuel method of betting on horse races was invented about 1872 by a Frenchman named Oller.

Kermit B&PW Club Will Install New Officers At Program Thursday Night

KERMIT—Installation of officers of the Kermit Business and Professional Women's Club is slated Thursday night at a formal reception in the American Legion Hut. Mrs. Jewel Barton of Big Spring is to be installing officer.

Mrs. J. C. Sewell, chairman of the general arrangements, stated plans are completed for the receiving line. A patriotic motif will be used in decorations and installation ceremonies will be conducted by candlelight. Retiring officers and incoming officers will form the receiving line. A musical program is to be one feature of the night's entertainment. Frank Wharton will play piano accompaniment for Betty Frizpatrick, singer, and Mrs. W. M. Cameron, violinist. Representatives of civic clubs and other organizations are to be present. Officers to be installed include Mrs. Earl McLemore, president; Mrs. Tom Moorehead, first vice president; Mrs. Sewell, second vice president; Mrs. R. H. Gerdis, secretary; and Mrs. Laura Furgason, treasurer. Mrs. Sewell was named Tuesday to the position as second vice president after Mrs. Jimmie Tye reported she would be unable to devote the time needed in this office.

Cover Girl to Star

Since 1943 Karen X. Gaylord—the X, she says, stands for expensive—has been a model, cover girl, and Goldwyn girl. But she wanted to be a dramatic star. Now she gets her chance opposite Franchot Tone in the forthcoming detective thriller, "I Love Trouble."

Polish Army Reduced To 165,000 Soldiers

WARSAW — Finance Minister Konstanty Dabrowski told a parliamentary committee Poland's army had dwindled to 165,000 men as of April 1 this year.

The Polish army numbered 600,000 men at the end of the war. It presently is the intention of the defense ministry to maintain forces about one-fourth that size but more compact and more highly trained. Dabrowski said proposed expenditures for national defense, for public security and for the foreign ministry in 1947 amounted to 25.2 per cent of the total budget estimates.

Those estimates foresee an income of 185,000,000,000 zlotys (\$1,850,000,000) and expenditures of 174,000,000,000 zlotys (\$1,740,000,000), thus leaving the government an anticipated 11,000,000,000 zlotys (\$110,000,000) balance at the end of 1947.

Ancient Clock Records Days, Months, Years

SPARTANBURG, S. C.—A clock made about 1880 is still ticking away here—keeping time, charting movements of the moon and sun and keeping track of days and months—all on a master wheel rotating once each 13 years.

The four-faced clock is the creation of Daniel Davis, who used brute tools to cut its wheels, gears and cabinet in his small cabin in the North Carolina mountains. One face records the 24-hour progress of the sun. Another charts the course and phases of the moon. A third tells the day and month, even allowing for the extra leap year day. A fourth face performs a clock's ordinary timekeeping duty. The novel gadget is the property of R. O. Davis, grandson of its skilled maker.

Science Film, 'The God Of Creation' To Be Shown At First Baptist Church

Vivid full-color scenes from astronomy and natural science are featured in "The God of Creation," a short motion picture to be shown at 8 p. m. Saturday at the First Baptist Church, the Rev. Vernon Yearby, pastor, announced.

Produced in Moody Institute of Science, West Coast department of Moody Bible Institute, by Irwin A. Moon, Sc. D., "The God of Creation" is the second in a series of evangelistic films. The first film by Dr. Moon, "They Live Forever," had a large showing in all parts of the country.

Trip To Stars
In the opening section of "The God of Creation" the audience takes a trip to the stars by means of solar photographs taken through the giant 100-inch telescope of Mt. Wilson Observatory in Southern California, and views complex gyrations of our own solar system.

Lapse-time photography is utilized to demonstrate the beauties of natural science. The illusion of flower buds developing into full-blown blossoms in a few seconds is created through this time-compressing technique. The metamorphosis of a caterpillar through the various stages from worm to butterfly, and pollination of flowers are seen on the screen in full color.

Believed to be the first of their kind are the natural-color pictures of photosynthesis, the mysterious food-manufacturing process resulting from the action of sunlight on green leaves.

Through photomicrography the audience peers into the microscopic world of a drop of water and observes the complexity of tiny organisms, enlarged more than a million times.

"The God of Creation" will be shown by Percy A. Dague, Moody film representative. The public is invited.

Knights Of Old Were Horsemen; Today They Ride Around In Jeeps

GRAND ISLAND, NEB. — (AP) — The wind whisked Mrs. Willard Palmer's hat from her head as she was crossing a street. She watched as traffic bore down on the bonnet as it lay in the middle of the intersection.

But just ahead of the traffic a jeep dashed across and the driver scooped up the hat, stopped at the curb and gave it to Mrs. Palmer. "I was glad to have the gentleman in the jeep prove chivalry is not gone—only changed," said Mrs. Palmer.

INCREASED VALUE

The hairsprings in watches are made by drawing a piece of steel through a hole in a diamond. A pound of steel, worth only a few dollars, can make \$60,000 worth of watch springs.

NO GENERAL NAME

The Tunguses of Siberia have no general name for the reindeer, although they have specific names for "tame reindeer," "wild reindeer," "young reindeer," etc.

The retail cost of building materials in the United States is about double their production cost.

Paul Revere, Revolutionary War hero in the United States, was a silversmith whose specialty was fine silver beer tankards.

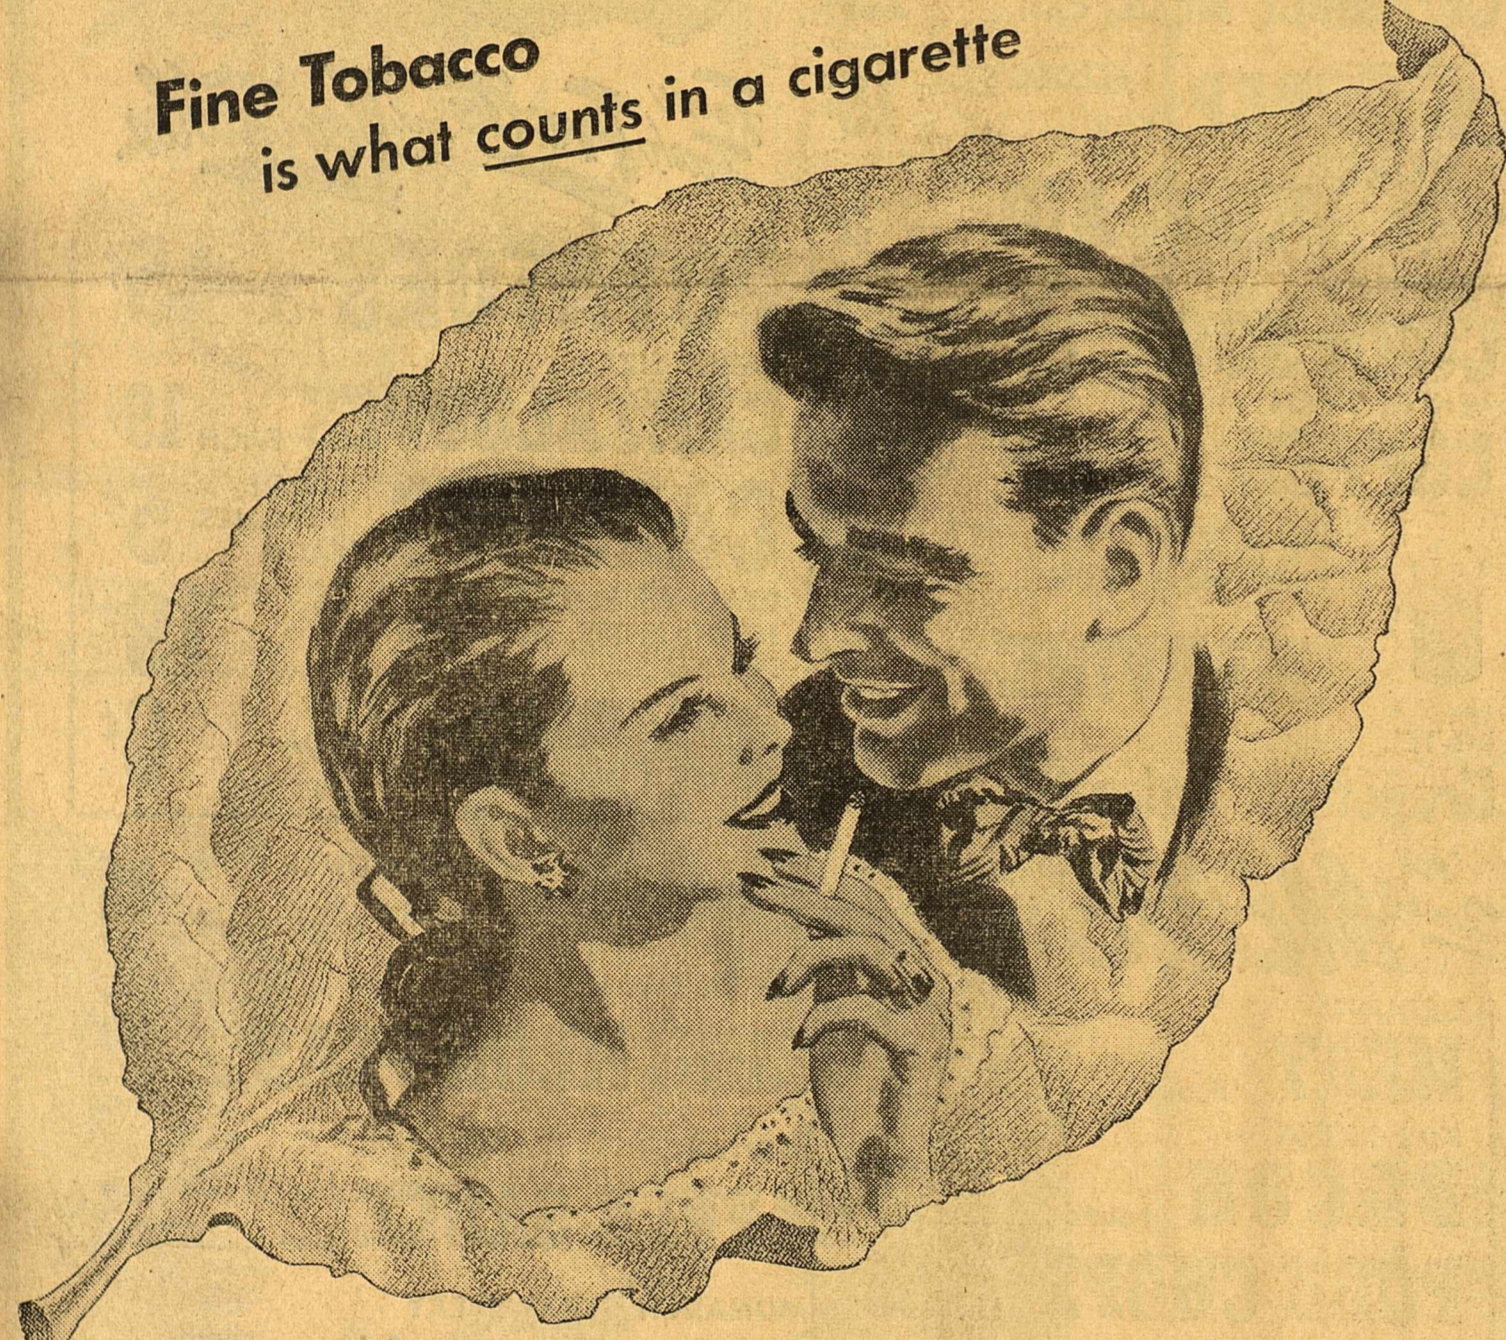

Sturdily brewed from the finest ingredients and slowly aged to mellow perfection—that's Silver Fox, famed as an extra pale beer of outstanding quality and flavor

Birds Shy Away From Poison Colored Green

AP Newsfeatures

WASHINGTON — Birds detest green-colored foods and don't like food dyed yellow. Although scientists do not understand these reactions completely, they are using them to save birds in the battle against crop pests.

Poison bait, that is used to kill rodents, is being dyed so birds won't touch it.

Some farmers plant colored seeds where the bird population is heavy. This keeps the birds from eating the seed and reducing the crop.

Experts of the Fish and Wildlife Service say color of food apparently makes no difference to rodents.

Color Experiments

E. R. Kalmbach, senior biologist in charge of the Wildlife Research Laboratories at Denver, has conducted experiments with color in the rodent control program which have been so decisive that the Fish and Wildlife Service now colors all grain baits used in their work.

Kalmbach set out small piles of uncolored and colored grains. Not a single dead bird was found that had eaten green-colored grain and only a few touched any grain dyed yellow. But many have been killed when the grain was uncolored.

Observers in South Dakota, California and New Mexico have reported similar experiences.

Entirely in the realm of speculation, some scientists say the explanation of the color-sensitivity of birds may be tied in with sex. They point out that in many species the male bird is garbed in gaudy colors. The cardinal and the peacock are examples. This color in males is intensified in some instances during the mating season.

It seems to indicate nature intended for the female bird, at least, to be color conscious.

The Pacific has only one-third the drainage area of the Atlantic because mountains lie close to most of its shores.

Driver Of Ancient Car Hooded By Neighbors

CHARLESTON, W. VA. — (AP)—When Shelby Melton goes out for a spin in his automobile he evokes the old cry from curbstone hecklers: "Why don't you get a horse?"

That's because when Melton's 40-year-old car was a current model it was a "horseless carriage."

It is a 1937 model and Melton says it was one of the first Buicks ever built. He found it three years ago in a junkyard at Gallipolis, Ohio, while foraging for spare parts.

Melton is in the automobile business, so it was natural that he should buy the ancient vehicle, tow it home and put it in running shape.

Prime difficulties, Melton has found, lie in finding tires to fit and starting in low gear without

Other Folks Could See What Hero Looked Like

CHICAGO — (AP)— Leonard Malinowski, 17, who can't see much without his heavy-lens glasses didn't have any spectacles to wear when he graduated recently from Lane Technical high school.

Malinowski, third highest in the graduating class of 780, lost his glasses on graduation day when he jumped into the Lincoln Park lagoon and rescued John McGreevy, 18 month old, who fell into the water from his baby buggy.

jerked the daylight out of the passengers. Once under way, Melton says, his car runs smoothly and comfortably.

Penny for penny, your best food buy is

MILK!

Stop just a minute and think about the most important food in the world—milk.

Milk does more for the young, the old, and all the ages in between than any other food. In fact, it is THE most nearly perfect food.

And indispensable as it is, milk costs you the least money for the most nutrition. It's the one very best food buy. One quart of milk supplies almost one half (45%) of the daily food needs of a man of average activity.

Make milk an essential part of your family's diet—it's the food you can least do without.

Serve wonderful-tasting Borden's milk every day to everybody in the family. Remember MILK, your best food buy!

Milk gives the most nutrition for the least money!

Borden's

"AT YOUR GROCER'S OR CALL 388 FOR HOME DELIVERY."

One quart of BORDEN'S MILK gives you all this!

THE CALCIUM in 3 pounds of broccoli. CALCIUM builds strong teeth and bones.

THE RIBOFLAVIN (Vitamin B₂) in 2 1/2 pounds of round steak. RIBOFLAVIN helps nerves, complexion, and eyesight.

THE PROTEIN in 2 pork chops. PROTEIN repairs and builds tissues.

THE VITAMIN A in 2 eggs. VITAMIN A helps eyesight and complexion.

THE PHOSPHORUS in 2 pounds of whole fish. PHOSPHORUS helps rebuild and repair body cells.

THE ENERGY VALUE of 10 slices of bread. ENERGY is important for morning-to-night activities.

THE THIAMINE (Vitamin B₁) in 4 ounces of liver. THIAMINE encourages healthy appetites and helps nerves.

Men See Tornado Coming And Try To Close Door; Wind Blows Them Away

By The Associated Press
A new weather bureau report based on an extensive investigation of the April 9 Higgins-Glazier-Woodward tornado brings to light an interesting story.

A man in Higgins saw the tornado coming. He rushed to the door to close it but it was torn from his grasp and he was picked up and sent sailing through the air in an easterly direction.

He flew "at a considerable altitude above the tops of some tall trees" the report says. En route, he was wrapped in several strands of wires.

He was deposited on the ground about 250 yards from the house, uninjured except for minor cuts and bruises caused by flying debris. But,

wrapped as he was in wire, he couldn't move.
In the meantime, his friend, in the same house, tried to close the door too. And he was picked up and sent flying—but in a northeasterly direction. He told the investigators he wondered why he was going in a different direction.

Miraculously, he also was deposited on the ground uninjured, and headed back for his house. He found his friend, unwrapped him, and together they fought their way home through still-high winds and rain.

There was no home left, but the owner's wife and two children were huddled on a divan, uninjured. The divan and a lamp were the only things left on the floor.

MILK SUBSTITUTE IN GERMANY

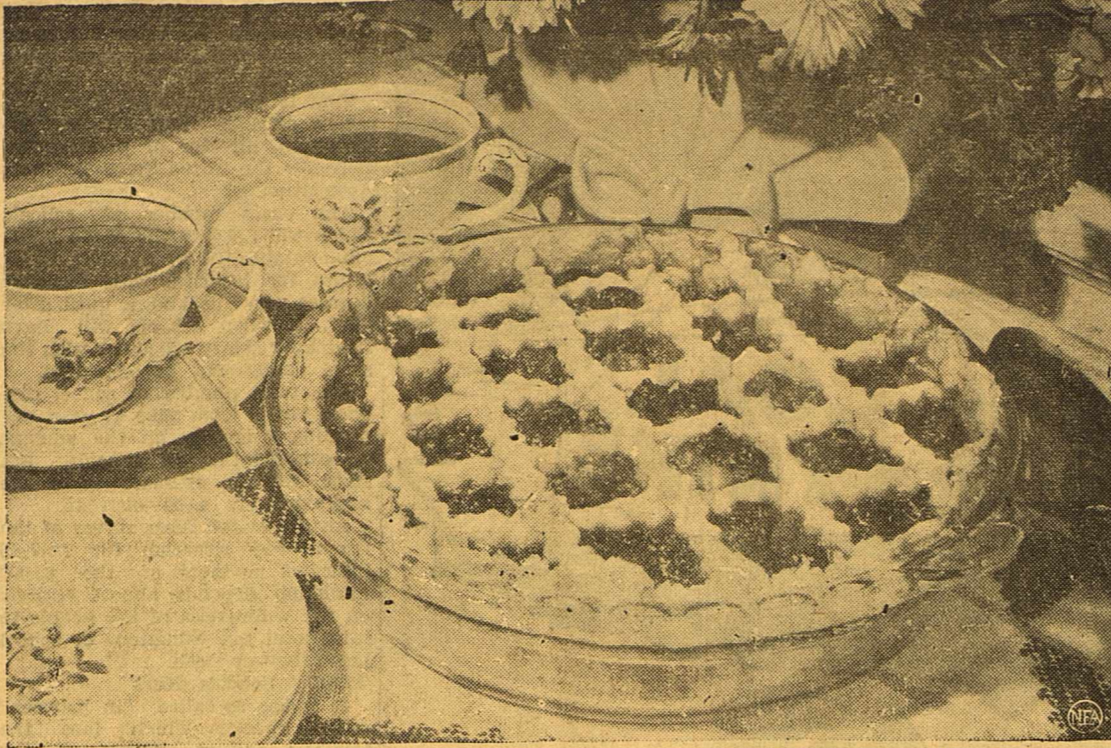

HAMBURG—(AP)—German doctors here have started to combat undernourishment with a milk substitute made of soy bean flour and special tablets using whites of fish eggs and steer blood. The tablets can be issued to undernourished persons together with their food ration.

Cherries Add Color To Warm Weather Meals

Lattice cherry pie makes a startlingly vivid and truly delicious dessert.

By GAYNOR MADDOX
NEA Staff Writer

Cherries, fresh or canned, have a "summery" brightness that adds greatly to meals.

Cherry Coolers will quench that hot day thirst. Use fresh, canned or bottled cherry juice. To 2 cups cherry juice add about 1/2 cup lemon juice and sugar to taste. Or 2 cups grape juice and 2 cups orange juice; or a cup of unsweetened pineapple juice.

How about a preview now of a 4th of July bright red and delicious lattice cherry pie?

Lattice Cherry Pie

(Serves 6-8)

Pastry: 2 cups flour, 1 teaspoon baking powder, 1 teaspoon salt, 2/3 cup shortening, 5 to 6 tablespoons ice water.

Sift flour once before measuring. Sift together flour, baking powder and salt. Remove 1/3 cup of this mixture to a bowl. Cut shortening into remaining flour mixture with a pastry blender or two knives until the size of peas. Mix water with the 1/3 cup flour mixture in the bowl to make a paste. Blend the paste with the flour and shortening mixture with as little mixing as possible. Roll out 2/3 of the dough and line a heat-resistant glass pie plate, fluting the edges.

Filling: 4 cups canned red cherries, drained (2 No. 2 cans), or cooked fresh cherries, drained, 1/2 cup juice, 4 tablespoons cornstarch, 1 cup sugar, 1/4 teaspoon salt, 1/4 teaspoon almond extract, 1/8 teaspoon nutmeg, 1 tablespoon butter or fortified margarine.

Mix cherries, juice, cornstarch, sugar, salt, seasonings and dots of butter. Pour into lined pie plate. Roll out remainder of dough and cut into strips. Make a lattice work across the top of the pie. Bake in a hot oven (425 deg. F.) for 10 minutes; continue baking 40 to 45 minutes at 350 deg. F. Cool and serve.

JEWES TO MEET

INTERLAKEN, SWITZERLAND—(AP)—The Jewish World Congress, with delegates from 40 countries participating, is slated here Aug. 12-20.

Liquid helium boils at 450 degrees below zero Fahrenheit.

Prosecutors To End War Trials In '47

AP Newsfeatures

DACHAU—U. S. prosecutors have been instructed to wind up all war crimes trials here by the end of this year. Presumably at that time there will be no further appropriations forthcoming.

Dachau has been a war crimes trial center since it was wrested from the beaten SS and its thousands of starving inmates liberated by American troops.

Seven trials have been under way at once—with two theaters pressed into service to provide additional courtrooms for the stepped-up program.

Three major cases, yet to be prosecuted, are:

1.—The "staff" of Germans which operated the notorious Nordhausen concentration camp. (probably 100 prospective defendants.)

2.—Executives of the Mauthausen concentration camp. These will be tried in small groups of five or six.

3.—Ctto Skorzeny, giant SS colonel who abducted Mussolini, spear-headed many major Wehrmacht campaigns with his paratroopers and was rumored at one time striving to capture Eisenhower.

After Dec. 31, prosecutors said, the only trials to be held will be "emergency" cases that turn up unexpectedly.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, APRIL 26, 1947

"Legless" lizards actually have rudimentary hind legs, but it takes a keen eye to detect them. Fiddler crabs often have great claws almost as large as their bodies.

NOW . . . you can put-up PLUM JELLY again!

TESTED RECIPE

Your family will really enjoy that good old home-made jelly they've been missing for so long. To insure success, use Imperial Pure Cane Sugar and a tested recipe.

4 cups plum juice
4 cups Imperial Pure Cane Sugar

Wash plums and half cover with water, allowing one pint of water for each pound of fruit. Simmer 15 minutes in covered pan or until fruit bursts and pits are free. Drain through a jelly bag. Make two or three strong extractions unless pulp is to be used for plum butter. Mix the extractions and measure out one quart. Boil juice for 10 minutes, add Imperial Pure Cane Sugar and boil rapidly to 220° F., or until juice flakes off side of spoon instead of in drops. Skin, pour into sterilized glasses and seal with paraffin. Note: If wild plums are used, cover with water as fruit is tough.

Let's get down to brass tacks

In the past, saleswomen customarily measured dry goods from nose to forehead. It wasn't a good way. Getting your money's worth depended too much on whether the saleswoman's arm was long or short. So a more accurate method replaced the saleswoman's arm; brass tacks were hammered into the counter—an exact, measured yard apart. From this improvement comes our phrase, "Get down to brass tacks"—and that's what Safeway does in selling "PRODUCE BY THE POUND."

Hopeful Possibilities

As Secretary of State Marshall's new proposal for aid to Europe begins to take the shape of a plan it also begins to present some hopeful possibilities. The possibilities may be remote, and the hope may seem like undue optimism. Yet the proposal looks like the fresh approach that has been needed.

Many evident difficulties stand in the way of the plan's achievement. There is the question of getting the European nations to co-operate. There is the problem of getting a fair and honest appraisal of Europe's needs that would gain the American government's approval without endless haggling. And there is also the probable difficulty of getting the approval of the American Congress for the enormous dollar credits that would be involved.

But if all these things could be accomplished, two important results might be attained beyond the avowed one of getting Europe back on its feet.

The agreement of a united Europe on fundamentals of domestic economy and trade might counteract some of the political disagreements of a badly disunited continent. Economic difficulties are at the root of many, if not most, of the European countries' political difficulties.

The postwar physical disabilities of Europe's economy cannot be remedied overnight. But the restoration of confidence and the check on inflation which American aid might bring could scarcely fail to ease some of the rawest irritations which torture Europe at present.

Another, also optimistic, result might be a better answer to the perpetual, discouraging problem of halting Russian expansion and restoring friendly relations.

Does Russia want European recovery? Probably not, politically. The more Europe suffers from uncertainty and dissension, from high living costs and low living standards, the better chance the Communists have to gain control.

Would Russia want control of Europe in its present depressed state? That is doubtful. Russia has serious economic problems of her own. Control of Greece, Italy, Austria, Germany, and France would greatly intensify those problems.

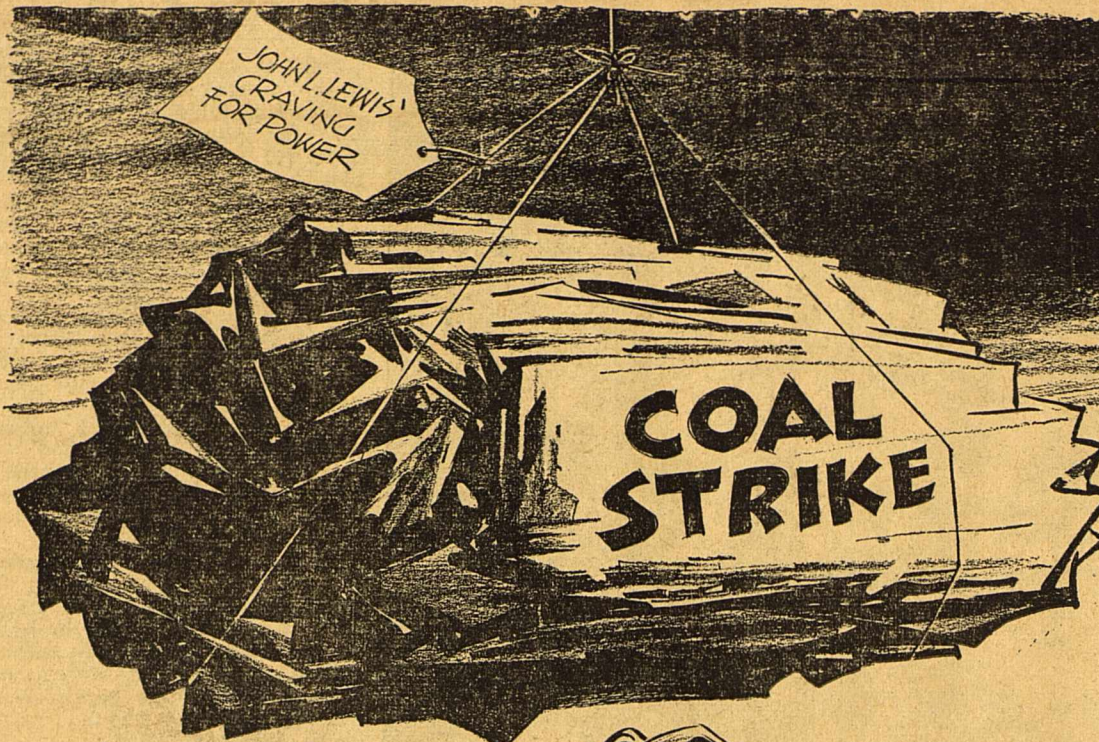

If the Soviet government participates in the proposed Marshall program it will probably mean that Russia is willing to abandon its policy of expansion until non-Communist Europe is more of a bargain than it is now. If Russia stays out she runs the risk of seeing Europe recover its strength to a point where she might find it hard to sell communism.

At any rate, the Marshall proposal gives promise of unified policy and positive action. Certainly it is an improvement, even now, on hit-or-miss loans made for political reasons, and futile protests made, for the record, against accomplished deeds which this government is powerless to undo.

If Marshall, with Europe's help, can raise the issue of economic recovery above the level of politics, it will be a humane action which not only should strengthen Europe but also increase American prestige and advance the cause of peace and freedom.

—And No Happy Chandler

Though independence is in the offing, India's troubles continue on apace. At the moment India's Hindus seem to be having even more trouble with the Moslem League than America's baseball magnates had with the Mexican League last year.

MRS. GILBERT HOME TO MEET FRIDAY NIGHT

Mrs. Billie Gilbert, Country Club Drive, has returned to her home after undergoing a major operation at Mineral Wells.

Members of Texas Tech Alumni and Ex-Students Association will hold a get-together and watermelon feast at 7:30 p.m. Friday at Cloverdale Park. Students home on summer vacation also invited.

The average length of life of U.S. residents set a new high record of 66 years in 1945.

From where I sit... by Joe Marsh

Crazy Hat Wins Refrigerator!

One of those "Breakfast in the morning" radio shows came to Capitol City last week, and Sarah Carey won first prize for wearing the craziest hat in the audience. It was a full-sized refrigerator! (The prize, not the hat.)

as she's put up with Ed's pipe and the other little freedoms he enjoys. They've got that refrigerator home now, stocked with beer, and we're going over tonight to drink a toast—not just to Sarah's hats taking first prize... but to a happily married couple, who've learned to live with one another's differences in tastes—whether it's a taste for hats or beer!

"Glad them hats of hers paid off at last," says Ed, treating the whole thing like a joke. But you could see he was proud of Sarah.

From where I sit, there's another thing Ed can be proud of: the way he's put up with those hats of Sarah's, with never a criticism; just

Survey Discloses Some Texas Schools Can Not Meet Minimum Salary

AUSTIN—(AP)—Seventy to 85 Texas school districts are not expected to meet the \$2,000 minimum salary schedule for teachers this coming fall.

That is the opinion of state education officials and Charles H. Tennyson, director of public relations for the Texas State Teachers Association.

The exact number of schools which will not pay the \$2,000 minimum established by the 50th legislature for teachers with bachelor degrees won't be known until after Sept. 1, when schools will have filed their salary schedules with the state department of education.

The total number of school districts varies from year to year, depending primarily on the amount of consolidation of schools, but state officials estimate there are approximately 4,000 districts.

An Associated Press survey of the teacher-pay situation for 1947-48 indicates payment of the \$2,000 minimum depends almost entirely on the willingness of the people to raise local tax valuations or school tax rates—or both.

'Middle' Schools Hurt

It is the so-called "in-between" school districts which face the toughest problem. These are the districts which have school populations too large—more than 1,500 students—to qualify for state equalization aid, but do not have sufficient local revenue to conform with the state pay schedule.

This is true despite the fact the state this year will boost the school apportionments from \$35 to \$55 per student.

Whether the 70 to 85 school districts will follow the example of numerous other districts by raising tax valuations or school tax rates remains to be seen.

An over-all tax equalization was accomplished in the Big Spring independent school district last year, increasing valuations almost 20 per cent and adding nearly four mil-

lion dollars to the roll. The school district assesses on the basis of 100 per cent of actual value, but it will still be unable to pay the \$2,000 minimum. The tax rate was not reported.

State law sets \$1.50 on the \$100 valuation at the maximum school tax which may be levied for school

maintenance and retirement of bonds.

In most instances where schools needed money to meet the new state schedule, this was done by raising school tax rates. Some schools found the increased per capita apportionment was sufficient to care for the raises.

Romania's Children Are Hunger Victims

While Communists plot to take over their country's government, these children of Romania lie jammed five-in-a-bed in a Barlad hospital—victims of famine in provinces bordering Soviet Russia. Some Red Cross aid has reached the hunger areas, but current world attention is focused on the political troubles of Romania, where Communist coup threatens.

Children Pioneer In Archaeological Work

JERUSALEM—(AP)—A number of archaeological remains came among early Mayan Indians, and some prepared archaeological maps which they sent to the government antiquities dept.

TRAINED EYE TO CROSS

Cross-eyes were a sign of beauty among early Mayan Indians, and mothers trained the eyes of their children to assume a permanent cross.

Texas Towns Got Names In Many And Odd Ways

By JACK RUTLEDGE Associated Press Staff

Scattered over Texas there are approximately 4,000 towns and villages. The Texas Almanac lists about 3,700 of them. Any one can see the hardy pioneer Texans had a job on their hands, finding names to go around.

Some of the names are odd. Names such as Bigfoot, Ysleta, Wizard Wells, Skidmore, Nix. There is even a town called Rutledge, in Williamson County, which goes to show.

For the benefit of historians and the gentlemen who work up the \$54 questions on quiz programs, we're going to devote a couple of columns to explaining where some Texas towns got their names.

The explanations, incidentally, come from editors on Texas Associated Press papers and if they're wrong, call your local editor and give him a piece of your mind.

Lord—A woman passenger on a train, riding endless hours across an endless, treeless prairie in West Texas, looked out the window and saw a scrawny bit of foliage. "Lord, a tree!" she said, and the little community which grew up there was named Lord.

Beaumont (in Jefferson County)—named for a man named Jefferson Beaumont. The city took his last name, the county his first.

Scrappin' Valley (Sabine County)—name means just what it says and, adds the editor of the Beaumont Journal, this has been going on for years.

Odessa—believed named by Russian railroad workers who saw some resemblance to their native land in the flat West Texas terrain.

Port Arthur—named for obvious reasons, no trees. Near Odessa.

Port Arthur—named for financier Arthur Stilwell who dreamed of a gulf port city connected by rail to Midwest. He built railroad, then founded, settled and named Port Arthur.

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY America's Card Authority Today's hand was sent to me by Sam Gold of Montreal, who said it came up in the women's pair championship of the Province of Quebec Tournament. Mrs. J. Begin was declarer (East) and her partner was Miss C. Mignault.

Mrs. Begin's pass over one heart is surprising to say the least, but she knew there would be more bidding by North and South. When Mrs. Begin did bid five clubs, North's speed in doubling proved that her analysis of the bidding was good.

South won the first trick with the king of diamonds and shifted to the queen of hearts. Mrs. Begin did not cover with the king. She played low from dummy and trumped the trick in her own hand. Then she led a small club. North won with the ace, and while she

was trying to decide what to return, Mrs. Begin amazed everyone by spreading her hand and saying, "I have a double squeeze. If you both have three spades, I do not need the squeeze. But South could not protect four spades and the ace of diamonds, and North could not protect four spades and the ace of hearts."

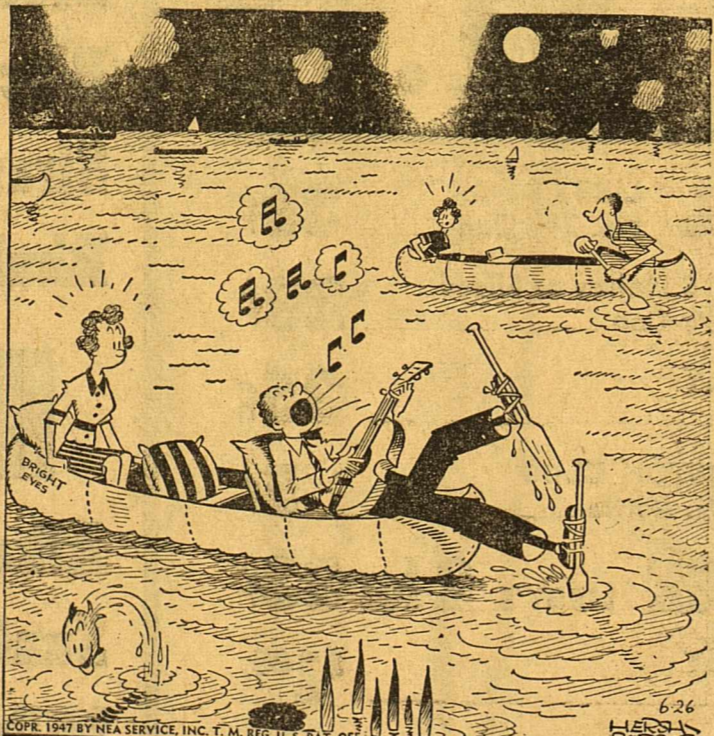

That proved to be the situation. Mrs. Begin would run all of her trumps, getting down to four spades in her own hand. When she played her last trump, she would have left in dummy, the king and two spades, the king of hearts and queen of diamonds. If South did not discard a spade, Mrs. Begin would throw away the queen of diamonds. Now North must let go either a spade or the ace of hearts, giving declarer the balance of the tricks.

California shipped more than 39 thousand cars of fruits and vegetables to New York City in 1946. New York State sent more than 35 thousand cars.

'Comeback Girl' Comes Back Again

In the late twenties, Betty Compson, famed silent film star, was called "the girl who came back" because she made a comeback in talking pictures. Now at 50 she is making another comeback with several roles in current Hollywood productions. One of the films is "Second Chance." Pictures show her as "silent" star, left and as she looks today.

Fire-Bomb Jelly Now Used For German Soap

FRANKFURT (AP)—Five hundred thousand gallons of fire-bomb jelly—left over from the American air campaign against Germany—have been allocated for conversion to soap and gasoline for the German people.

The jelly, priced at \$126,000, will be charged by U. S. military government to the German economy and processed by German factories.

Stored in 12,000 steel drums at two air depots near Frankfurt and Nuernberg, a portion of the jelly has deteriorated to such a point that it no longer is of military use, officials said.

THROUGH IN INDIA PROMISES VIRTUE

BOMBAY (AP)—Solemnly, a throng of villagers stood before Home Minister Morarji Desai of Bombay Province recently and pledged themselves in unison not to get drunk or engage in banditry.

They were residents of a Provincial rural area known as Dohad Taluka which long has been notorious for the number of bandits, and where the men liked their potent home made liquor.

Desai praised their spirit and promised them that their living standards would rise in a free and independent India.

The voice of the tortoise is not well developed; the females usually are able only to hiss.

Heirs Get Trunkful Of Hidden Money

FLORENCE, S. C. (AP)—A battered old trunk here yielded \$101,000 in cash to administrators of a \$1,600,000 estate left by two business-minded sisters.

Working to liquidate the estate of Mrs. Susan J. Stackley Bucheit and Mrs. Catherine Mary Stackley Perry, administrators found the trunk. Inside, neatly packed away, was the cash.

The estate was divided among 24 nieces and nephews of the sisters, who for many years operated widespread business interests from a small dry goods shop here.

HAMBURG TRIES FORCED LABOR

HAMBURG (AP)—Youths who dodge work and blackmarketeers are being organized into forced labor gangs in Hamburg, the German labor office announced. The youths will be put to work for three months clearing the port's ruins.

India Still Biggest Source Of Diseases

NEW DELHI (AP)—India is still the largest reservoir of smallpox, cholera and plague, according to the annual report of the Public Health Commissioner for the government of India.

Chronic malnutrition, a low level of sanitation and an almost total absence of controlled and protected water supplies also are given as main reasons for the high incidence of deaths.

The report points out that existing health arrangements are totally inadequate to meet the needs of the people. Poor vaccination and inoculation arrangements and lack of transport add to the country's difficulties.

CANADIAN IN POLAND

WARSAW (AP)—Kenneth Porter Kirkwood, Canada's first postwar diplomat assigned to Poland, has presented his credentials as charge d'affaires to Foreign Minister Zygmunt Modzelewski. Kirkwood formerly was attached to the Canadian embassy in Washington.

HUNGRY FURNACES

The steel industry needs more steel to keep its furnaces going every day than the total tonnage of steel required in the building of two Empire State buildings.

DISTANCE JUDGE

A bolt of lightning is one mile away for each five seconds that elapse between the lightning flash and the crash of thunder that follows.

Weather Bureau Research Shows 'Higgins' Tornado Was One Of Most Severe, Unusual On Record

DALLAS—(AP)—A Weather Bureau report made by field men sent to the Glazier-Higgins-Woodward April 9 tornado scene said the tornado was one of the most severe on record and expressed amazement at its width, length and velocity.

The report was published in the current Weather Bureau topics and personnel pamphlet.

It said the tornado was 220 miles long, its velocity in the funnel was 15 miles at Higgins and 1.8 miles at Woodward. All figures far exceed those of most recorded storms. Even its advance movement, 40 miles an hour, was termed unusual.

The four-day study by field men said:

"It was found the tornado first formed about 0.5 mile southwest of White Deer, Texas, about 5:42 p.m. CST, on April 9. It moved in a straight line northeastward across the Texas Panhandle at an estimated speed of 40 m.p.h.

Width Remarkable

"At about 7:22 p.m. it practically leveled the village of Glazier, Texas. The town of Higgins, Texas, some 15 miles northeast of Glazier, was struck with great severity about 7:45 p.m. Crossing the state line the tornado roared into Woodward, Okla., at 8:43 p.m., destroying almost completely the northwestern half of the city (population 5,500). It dissipated in the neighborhood of St. Leo, Kans. The length of its path was approximately 220 miles.

"From all accounts, this appears to have been one of the most severe tornadoes on record. Estimates place the number of fatalities at about 160 and the injured at about 1,000. Property losses amounted to about \$10,000,000.

"A remarkable feature was the width of the storm. It was 1.5 miles wide when it passed through the center of Higgins. Careful measurements made at Woodward show that it was 1.8 miles wide as measured directly across the path. The velocity of the winds in the tornado funnel was estimated at about 450 m.p.h. at a point 0.2 mile to the right of the center as it passed through Woodward."

By way of comparison, the Dallas Weather Bureau gave what it said were "very rough" estimates: a tornado usually travels about 50 miles, is from a few hundred feet to one-half mile wide, and has a funnel velocity of about 300 miles an hour. Advance movement is probably around 30 m.p.h.

Parental Vote O.K.'s Spanking In Bavaria

MUNICH—(AP)—Spanking was officially reinstated as a punishment for Bavaria's public school pupils after parents voted 60 per cent in favor of it in a statewide referendum.

Ninety-four per cent of the parents with school age children participated in the unusual referendum—a higher percentage than has yet turned out for any political election since the war.

Spanking, once the rule in German schools, was abolished in Bavaria last year.

Dr. Alois Hudhammer, education minister, said he would issue instructions soon as to how and with what kind of paddle children should be spanked.

BROTHERS COLLIDE

HILLSBORO—(AP)—Two trucks collided on a narrow road near Hillsboro. The drivers irately got out for the usual argument. But it didn't develop.

They were brothers—R. C. White and Bob White, both of Carlsbad, New Mexico, employed on a road project in Hill County. R. C. wound up with a fractured arm.

HOUSEHOLD HINT

If you want to boil an egg which is cracked on one end cleanly, just crack it slightly on the other end, and the insides will stay in.

Thistle Salad Is Tasty—So Say Berlin Epicures

AP Newsfeatures

BERLIN—Epicures can now add thistle, nettle, dandelion, and wild vegetable salads to their tasty dishes list. Berliners are eating these "exotic" dishes every day and finding them as good as that old standby—Waldorf Salad—well, almost.

They say all one needs is a trip into the woods, a mixing pot, and a good imagination.

Expert thistle-salad eaters call the dish a fine substitute for ordinary green salad and swear by the concoction. Amateurs unused to the ways of the thistle usually swear at it.

"The upper part of the thistle should be cooked for at least 40 minutes," warn thistle enthusiasts. "After cooking, put through the meat grinder, and then serve cold."

To achieve the supreme in tastiness one should mix together many wild vegetables. One salad mixer described his dream salad as follows:

"First I take some 'jumping' weeds, which grow here in all meadows, and place in boiling water. Then I put in three rhubarb leaves, a handful of oak leaves, and a small bunch of either lime, elder, or acacia leaves.

"After mixing this around for five minutes on a slow flame, I add some spicy weed such as permit, camille, or yarrow. I boil this mixture for 10 minutes more, add a pinch of salt—just a pinch—and then put everything through the meat grinder. Place in a salad bowl, add a drop of vinegar, and you have the finest wild vegetable salad in postwar Germany."

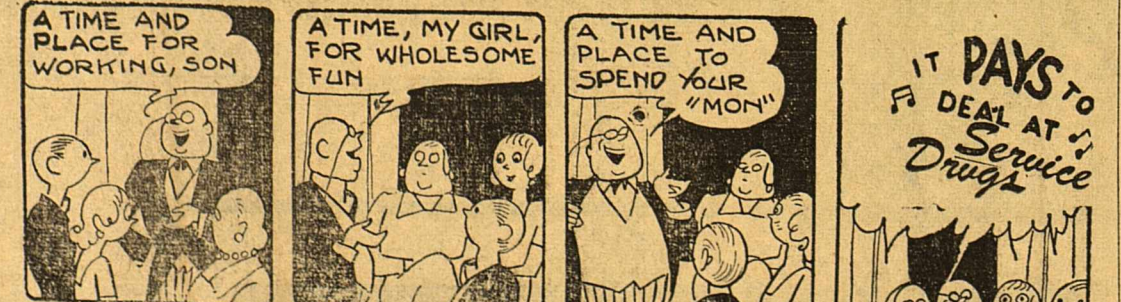

China had a monopoly on the silk producing business until Persian monks smuggled silkworm eggs out of China in about 527 A.D.
