Ken Regan Of Midland Announces For Congress To Succeed Thomason

Ken Regan, Midland oil operator, and former state senator, Sat urday announced he will be a candidate for Congress from the Six-teenth Congressional District to succeed R. Ewing Thomason who has been appointed federal judge for the Western District of Texas. Thomason is expected to resign his congressional seat after Congress adjourns Regan has resided in this con-

ressional district 27 years, during which time he has engaged in the ail husiness He formerly lived in Pecos where he still has farm, ranch and real estate holdings. He also maintains an oil office there. He is a former city councilman, mayor for two terms and chamber of commerce president of Pecos. He moved to Midland in 1944 when he was released from the

Industry Hit As Supply Of **Coal Slackens**

WASHINGTON -(AP)-Coal-re lated industry felt hunger pangs for the fuel supply cut off by a 10-day paid vacation of the nation's coal miners.

The country's entire coal production virtually was snuffed out as nearly 500,000 miners, including 400,000 AFL-United Mine Workers in the soft coal pits, started holidays which closed the mines.

Federal estimates indicated the nation had only a 31-day coal supply as the holiday began. Steelmakers took to "starvation diets" to conserve meager supplies of soft coal without which the industry cannot operate. These drastic conservation measures forced

workers. The Carnegie-Illinois Steel Corp., Corp., biggest steelmaker in the

Lawyer Advises AFL Unions Not To Sign 'No-Strike' Contracts Again

WASHINGTON -(P)- All AFL unions will be advised not to sign any future wage contract which contains a no-strike clause, AFL counsel Joseph Padway declared Saturday night.

After a conference of 100 AFL attorneys, Padway said the lawyers also will advise their unions to "affirmatively violate" the Taft-Hartley act's ban on union political expenditures, to bring about a constitutional test of the law.

He said the unions also will work to defeat the legislators who supported the act.

Here Is Box Score On Congress As It Nears End Of Current Session

WASHINGTON-(P)-Here is the boxscore on Congress as it heads into its seventh and final month of this session:

Passed: The Taft-Hartley labor bill, portal-to-portal pay suit ban, \$400,000,000 Greek-Turkish aid bill, \$350,000,000 foreign relief bill, United States participation in the International Refugee Organization, two-term presidential limitation, modified rent control, legislation to put House speaker in line for presidency after vice president

Pending and likely to pass: Government support prices for wool without restrictions on imports, continuation of export controls over materials in short supply, limited authority for the State Department's foreign information program, permission for ans to cash terminal leave bonds, unification of the Army and Navy, increase in minimum wages

Killed by veto: \$4,000,000,000 income tax reduction and measure giving the President power to impose new tariffs or quota restrictions on foreign wool.

Likely to be shelved: Long range housing plan, national health insurance, arms standardization for the Western Hemisphere, admission of 400,000 of Europe's war refugees, St. Lawrence Waterway, increased on-the-job training pay for veterans, universal military service.

RFC Bill Deleting GI Loan Aid To President

WASHINGTON-(AP)-The power of the Reconstruction Finance Corporation to purchase from other financial institutions loans guaranteed or insured under the GI Bill of Rights would be eliminated under legislation now pending kefore President Truman.

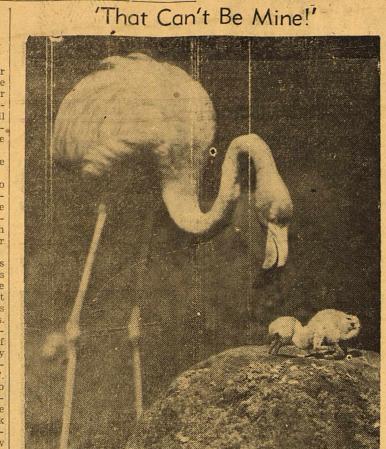

The measure cleared both the House and Senate Friday.

The House insisted the RFC go out of business as a secondary market for mortgages, and the Senate concurred in adopting the Senate-House conference agreement on legislation extending the RFC for another year

Cen. Cmar N. Bradley, veterans administrator, had told Congress elimination of the RFC from the secondary mortgage market might delay construction of needed homes causing financing difficulties. The RFC, he said, had been buying such mortgages at the rate of approximately \$1,500,000,000 a day with the total value of such commitments by the RFC \$662,877,387. "The value to the lenders and to the veterans who seek loans," Bradley said in a statement put in the

by Senator Maybank record (D-SC), "lies in the fact that lenders are assured of a secondary market for long-term mortgage loans in the event that it becomes necessary for the (primary) lenders to attain a more liquid posi-

MANY SOCIAL SECURITY BENEFITS UNCLAIMED-Answers To Six Key Questions Can Tell Whether You Are Entitled To Collect Old Age Insurance Money

NEW YORK-(NEA)-You don't have to stop working at 65 to cash in on your Social Setcurity benefits.

You can continue to work in a job subject to the Cld Age tax and wait for your benefit's until you decide to retire. Or, you can shift to a job not covered by the tax as soon as you're 65 and draw your benefits immediately.

Joe Kearney was three months past 67 when New York City began operating its subways as a unified system. He stayed on in his \$1200 a year job. Nothing was changed, except that now stead of from a private corporahis checks came from the City instead of from private corporation. And-though he never noticed it—the one per cent Social Security tax no longer was deducted.

If Joe had gone immediately to the nearest Social Security field office, he could have begun drawing \$24.49 a month old age insurance, while still working for the subway at full pay. As prices rose during the war, that almost 25 per cent raise would have been very welcome.

But Joe didn't know, though the SSB tried hard to inform him and his fellows. So he never filed until he quit work in Janu-ary, 1945. For 54 months he lost \$24.49 a month—a total \$1322.46. It's gone forever.

Nor is that all that he lost. Because he was not insured while he worked for the city, his benefit rate went down from the \$24.49 it would have been to \$18.14 a month. So when he did get benefits, they were \$6.35 a month less than they should have been. Then Congress changed the

law. The Social Security Board was authorized to recompute Joe's benefits, and begin paying him the higher rate. But only as of January, 1947. So he lost an-other \$152.40 that way.

Failure to know his rights-or to ask the SSB when he became 65, or when he changed status after 65-cost Joe a total of \$1474.86, not in charity, but in insurance that he had bought under the Social Security act. "That is a good illustration of the reason we almost beg every insured worker to go to one of our field offices the minute he be-

comes 65," says Peter Kasius, di-rector of the Second and Third Social Security districts. But suppose you would like to

get an idea for yourself whether you have benefits coming to you. Here are the key tests:

1. If no employer ever deducted 1 per cent from your wages for Social Security, you are not covered and probably have no rights. 2. If your employer did deduct that 1 per cent; and if you earned as much as \$50 in each of one-half of the calendar quarters between Jan. 1, 1937, and the calendar quarter before the one in which you became 65, you probably have benefits coming. But-

You must have earned as much as \$50 in each of at least six calendar quarters, to be covered.

FURNITURE AGE

THE NATIONAL MAGAZINE **OF THE HOME FURNISHING INDUSTRY FOR 26 YEARS**

(Published In Chicago)

CLIPPING FROM JUNE, 1947, ISSUE...

In a recent survey, sixty-six percent of the returns indicated that manufacturers do not anticipate any change in their price lists for the Summer Market, although some of the replies announced that certain product improvements were being made, either in finish, construction or design.

Seventeen percent of the replies were to the effect that prices will be higher either to compensate for increased material costs or because of product improvements, and 15% reported that their prices probably will be slightly lower. In 2% of the replies, exhibitors stated they were uncertain whether their prices would be higher or lower. It is generally recognized that the furniture industry is not a high profit industry and that furniture manufacturers cannot be expected to invoke drastic price reductions in response to general agitation for lower prices. The industry's profit figure for the year 1945, the latest figures available, amounted to only 4.08% after taxes, which certainly shows clearly that the furniture industry cannot be charged with harboring excessive profits. Furniture manufacturers prices today, as in the past, are a true reflection of production costs and cannot be expected to be lowered until material and labor costs subside. While there have been evidences in a few instances that certain material costs are softening, this cannot be said to have developed into a trend and has not been sufficiently widespread to warrant price reductions by manufacturers. Wage increases granted recently by the steel and automobile industries mean that the furniture manufacturer, particularly in industrial centers like Grand Rapids and Chicago, will have to follow the wage pattern if he is to hold his labor force.

Mrs. Mary Rex Thompson was only 33 when her husband died. But she was entitled to \$58.34 a month, under Old Age and Survivors Insurance, until daughter Dale is 18 or marries; then she'll get \$41.78 monthly until son Jerald is 18. At 65 she can get \$25.07 a month for

BLAKE DUNCAN CO.

Once you have earned as much as \$50 in each of 20 calendar quarters you are covered for life, "one-half and can forget the formula.

(A calendar quarter is January through March, April through June, July through December.) 3. If you are a wife, and your husband is drawing benefits, when you become 65 you are entitled to half as much as your husband receives. (A wife, for this purpose, must have borne a child to the wage-earner or have been married to him at least three years before the month in which he applied for benefits.) 4. If you are widowed and your

husband was insured when he died, you will be entitled to benefits when you become 65. But if you have a child you are supporting, regardless of your age, you get benefits for yourself and the child until it becomes 18 or is married. Then the benefits suspend until you become 65. 5. If a woman has earned benefits of here own they belong to her, when she "retires" after 65, whether or not she needs them. But if her benfits come from her late husband's insurance, she will lose them if she remarries. 6. You can work for pay and still draw benefits legally, by working for yourself or for an employer not subject to the Old Age tax.

It is almost impossible to lose by filing your claim as soon as you become 65, even though you keep on working. The SSB will compute your benefit rate at once. Then, when you leave covered employment, it will compute the rate again. Also, it will figure the benefit rate as of every March between your 65th birthday 31 and your retirement. You will get the highest benefit rate thus computed.

If your salary increases after 65 you get the benefit of the increase. If your wages drop off after 65, you will be paid the higher rate earned before the cut. If you retire sick, or injured, or if you are careless about filing when you retire, the claim staked at 65 will protect you against such losses as I have described.

3-12-A R. B. Cowden, et al, twin to an Ellenburger producer in the Andector field of extreme Northwest Ector County, has been completed as the first producer in that area from the Clear Fork-Permian, with a 24-hour flowing potential of 168 barrels of 39-degree gravity oil

The pay at 6,200-80 feet had treated with 4,000 gallons of acid. The potential test flow was through a one-quarter inch tubing choke.

Some of the wells in the Andector sector which have been completed from the Ellenburger at around 8,500 feet, have shown possibilities of production from the Clear Fork, but up to now none of the deep projects attempted to finish from the upper

pay. As a result Plymouth's No. 3-12-A Cowden is classed as a discovery. Operator has asked the Railroad Commission of Texas for an official designation as the first well in the Andector-Clear Fork field, and has also applied for a discovery allowable for the well.

WEINER 1 VAUGHN MAY BE IN ELLENBURGER HORIZON

Ted Weiner, et al, No. 1 Vaughn, East Crockett County wildcat, 660 feet from south and 1,980 feet from east lines of section 86, block OP, GC&SF survey and seven miles east of the Todd Deep field, had reached 7,764 feet in a lime, thought by most observers, to definitely be the Ellenburger.

A tentative top of the formation had been picked at 7,720 feet, on an elevation of 2,616 feet. Operator representatives had not officially confirmed that call on the marker -but it has been learned that geologists representing a number of companies having interests in the area adjacent to the prospector, have agreed on the marker.

A slight show of gas had been drilled through between 7,720 feet and 7,764 feet. Operator went in at the latter depth with a new bit, to make more hole. No signs of oil had been logged from the horizon. When such indications appear operator will run a drillstem test.

Still, with all that, there will remain a correlated question which a lot of folk are going to want answered. That is, just what are America's obligations, assuming she is financially able to continue aid? U. S. Assistant Secretary of State Willard Thorps recently said this country already had spent about \$9,000,000,000 in an efort to bring about European recovery and about \$4,000,000,000 more had been made available. Benjamin V. Cohen, State Department counsellor, said from \$15,000,000,000 to \$24,000,000,-000 would be needed from America and other countries during the next three or four years to prevent staryation and the "danger of dictatorship

These days whenever several people are gathered together you generally will hear someone raise the query whether the United States is extending altruism to the point where the country is becoming "Santa Claus" to the whole world. The questioner wants to

know if this is necessary. Well, that's an inquiry which can't be answered without getting However, broadly speaking, we must recognize while America's for-

Western Hemisphere. We are expending, and must expect to continue to expend, large sums as insurance against another conflict, against the spread of totalitarion dictatorships and against a continuation of the foreign economic chaos which adversely affects the whole world.

Odessa Jinx Works 7 To 5, Saturday Nite

ODESSA — That Odessa jinx came to the aid of the Oilers, and how, in the seventh inning Saturday night as they snowed the Midland Indians, 7 to 5, with a landslide flurry of seven runs in the last of the seventh.

Up to that point, that ugly seven Midland was the master with a comfortable five-run lead. Then smack, smack, smack, the Oilers struck. Before Lefty Grove could get to the showers the damage was well done.

Midland greeted Odessa rudely Eddie Melillo smacked a home run and he was the first man up. Then in the third the Indians countere three with Davis doubling and scor ing Alvis and Ramsdell. Nipp, who had been hit by pitcher, scored on a wild pitch. In the first of the seventh Ayres hit scoring Davis. **Big** Noise

Rice was the big noise in Odessa terrific comeback. He socked triple with three men on. Previously Embrey had hit scoring two tallies. And Pearce hit scoring Barry and Embrey. Ernie Nelson came to pitch for

Midland and tamed Odessa but it was too late. Webb, was a pinch hitter and

Davis hit in the first of the ninth but the threat failed. The box score

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JUNE 29, 1947-5

Fourth Of July Celebrations In Texas To Be Of Wild West Flavor

By The Associated Press Texas' observance of July Fourth this year will have a decided Wild West flavor. At least a half-dozen cities will

celebrate with rodeos. Preparations in cities and towns for the second post-war Independence Day indicate a return to rip-roaring, oldfashioned celebrations.

the state list. And, of course, there will be fireworks displays. Mayor Jimmie Temple of Dallas has appealed to residents not to let the "bright day" there be dark-

ened by "the tragedy of suffering dealt by accidents." Two of the biggest rodeos will be held at Amarillo and Stamford.

At Amarillo, Gov. Beauford H. Jester will open the three-day Will Rogers Range Riders rodeo topping off the Waddy-Week celebration. The Governor also will lead a parade of 1,000 horsemen, floats and vehicles of Old West vintage which will open the celebration Monday The Stamford Rodeo, the chief event of the Texas Cowboy Reunion, will open July 2 and come to its roaring climax on the Fourth.

Seven or eight chuck wagons will cater to the visitors. At Pecos, where the rodeo originated, the city's annual show will

be held July 3-5. Since OPA Killed A rodeo sponsored by the Corsicana Corral Club will feature the Navarro county observance of July Fouth and will extend over the CHICAGO -(P)- A year after Fifth. Several annual picnics also he OPA encountered sudden death will be held in Navarro county on amid an uproar of accusations and the Fourth when all business will single contestants in 22-horsepower defenses, the American people find come to a standstill. prices higher and goods more plen-Other rodeos will be held at Pe-

with a sunrise service by El Mina Shrine Temple at which school stulents winning American history contests will be presented American flag awards.

Denton's air show will be a threelay celebration climaxed by formal opening of the Denton municipal airport Sunday. Included in the aerial display will be a flight of An air show, a boating show and bathing beauty contest are on he state list. And, of course, there mey, commander of the Eighth Air Force and state Adjutant General K. L. Berry, both Denton natives, and Rep. Ed Gossett, Wichita Falls. On July 2 and 3 the Denton Town and Country Roundup Club will stage its fourth annual horse show. More than 150 horses in 38 classes

already are entered. The bathing beauty affair - a

three-state affair-will be held at Ashburn Veterans Hospital at Mc-Kinney. The contestants, representing veterans administration offices in Texas, Mississippi and Louisiana, will compete for the title "queen" of the three-state area as the highlight of a day of activity including sporting events and a picnic for patients and their fami-

The boating show will be on Lake Texoma at Denison, which plans the most elaborate July Fourth celebration in its history. Resident engineer Richard C. Pyle has given spectators permission to line the banks of Denison Dam for a closeup view of the races, scheduled to start at 12:30 p. m. with a 'grand review. A racing feature will be an entire-city challenge event in which cities on the lake's edge will match outboards. Three classes of outboard boats will race and aquaplane. water ski and hydroplane exhibi-

The Denison American Legion post will close the celebration in traditional manner with a \$1,000 fireworks display.

Preparing for the biggest Fourth since the end of the war at Big Spring, police and state highway patrolmen are planning an intensive safety campaign. The Big celebration will center Spring around the traditional community entertainment and free fireworks display at the City Park Amphiheater. Other features will include a sandlot baseball game, motorcycle races and picnicking.

The Dallas Kiwanis Club will tage a big fireworks display in the Cotton Bowl at the State Fair Park.

Deafened People May Now Hear Clearly

Science has now made it possible for the deafened to hear faint sounds. It is a hearing device so small that it fits in the hand and enables thousands to enjoy sermons, music and friendly companionship. Accepted by the Council on Physical Medicine of the American Medical Association. This device does not require separate battery pack, battery wire, case or garment to bulge or weigh you down. The tone is clear and powerful. So made that you can adjust it yourself to suit your hearing as your hearing changes. The makers of Beltone, Dept. 6, 1450 West 19th St., Chicago 8, Ill., are so proud

Everybody's hat salon might well be titled chapeau heaven, for at this time of year they have not only hats for midSummer, but ad-vance fashion hats in black felt for Fall as well. MidSummer whites are shown in pique, sisol, and felt, in both small hats and the popular picture hats which have led the parade

this season. Their Summer blacks come in sheers, taffetas, and fabrics, and many are smartly trimmed in horsehair braid. EVERY-BODY'S hats will go to your heart as well as to your head.

Let Buck's Solve Picnic Problems

Let Buck's Pronto Pup on West Highway 80 solve your picnic problems. They pack lunches to take PROBLOFR beers by the case to go. You can have breakfast and Dutch lunches

at Buck's, too. All the food is expertly prepared and attractively served to make eating a real treat. PRONTO PUP radiates with a friendly welcome, which explains why it is a favorite gathering place for friends. Bring in your crowd for a snack and a relaxing get-together

Kruger's Offers New Credit Policy Cool Bemberg sheer dresses by Martha Manning in both

You will be glad to hear about KRUGER'S new credit policy. It has been simplified to enable you to open an account in five minutes. Payments are timed to your convenience; you may pay as little as one dollar weekly and take a full year to pay. There is no interest or carrying charge. Stop in at Kruger's tomorrow, make your selection from their fine line of merchandise, and take advantage of redit plan. A small deposit will hold any item you choose.

Food You'll Never Forget

It's a fine reflection on your own good taste when you take your guests to COLIN'S CAFE for lunca-No. eon or dinner. The excellence of whatever they serve, plus the graciousness of their servic, is most Carl Carl inviting. Here are dinners you'll never forget-dishes skillfully prepared by an experienced chef. Take your family or guests in for a Sunday dinner inter of golden brown fried chicken or baked Virginia in will witness a real taste thrill and enjoy the pleasant atmosphere of Colin's Cafe.

New Flavors In Meat

So you want something new on your menu? Then let Old Chuck solve your problem. His Chuck Box recipe book will tell you how to use his special seasonings to get new and added flavors in beef, pork, veal, lamb, fish, poultry, wild game, and salads. Yes, they're the same basic foods but carry a distinctive new appeal for your family. You can buy this recipe book at MIDLAND HARDWARE for only one dollar, so get yours now and give the family a special dinner treat.

When silvercraftsmen themselves, say "WALLACE PATTERNS EXCEL IN BEAUTY" ... you know your own opinion is justified!

There is a reason for the universal acceptance of Wallace Silversmith's patterns as typifying beauty in silver to the highest degree. For only Wallace has Third-Dimension Beauty, each piece of Sterling being sculped as fully on back and side as on the front.

We invite you to come and see our Wallace exclusive Third-Dimension Beauty patterns. When you do, ask for your copy of the beautifully illustrated, informative booklet, "All Silver . . . and Well Worth It". It's well worth your having.

Hughes Jewelry Co. 203 W. Wall Phone 134

modate new longer dresses can be lengthened by adding lace at the hemline. The heavier and more closely patterned, the less transparent your hemline of lace will

The slip which must be worn with a sheer dress may be lengthened at the top by lengthening shoulder straps. Slips lowered at the top, however, present a problem of bra exposure unless you wear lower-cut wire bras. These will also eliminate a second set of straps which can look unlovely through sheer dress tops.

When laundering new, longer slips, wash carefully to avoid shrinkage. The slip that emerges from the wash tub two inches shorter usually suffers that loss because the water was too hot. To avert that fate wash a slip in lukewarm water.

The trick of pulling a slip its full vertical length when ironing will also help to keep original. length intact.

The tall girl who has trouble buying slips long enough will be wise to take a larger size and sacrifice clinging fit for length.

Dried fruits held at 32 to 40 degrees Fahrenheit retain their original bright color, flavor, and vitamin C content for long periods. In addition they are safe from insect damage.

SAM

McGOO

AND

TEXAS

T00"

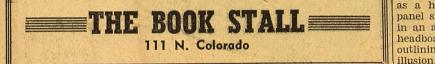

PAUL PATTERSON Author of "Sam McGoo And Texas Too'

Just as the romance and drama of the cowboy's life is apt to be exaggerated in the western love story so is the humorous, the ridiculous, and the comic apt to be exaggerated in the vivid legends and conscientious observations of SAM McGOO. However, let it be said that, exaggerated though they may be, the above-mentioned legends are typical of cow country, and the unique observations are peculiarly a cowboy's own - - in a cowboy's own mode of expression.

A strictly humorous book written by the man who, while in the service, was selected by the READERS DIGEST as one of the BIGGEST LIARS IN THE ARMY, NAVY AND THE MARINES.

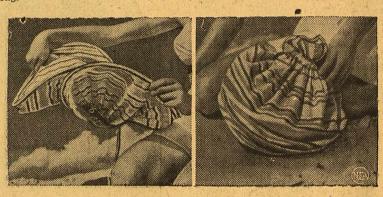

A narrative of the real cowboy, with his droll humor, unique observations and peculiar philosophy. You'll quote the McGoos to your friends.

D. Y. T. Sewing Club Honors Mrs. Sartain

D. Y. T. Sewing Club met Thursday afternoon at the home of Mrs. A. Sewell, 1402 West Ohio. Mrs. W. M. Sartain, who is moving

to San Antonio, was presented with gifts of guest towels by the group. Those present included Mrs. L. W. Sandusky, Mrs. Fred Watkins, Mrs. E. P. Birkhead, Mrs. A. E. Houck, Mrs. W. M. Sartain, Mrs. Roy Mc-Kee, and Mrs. Sewell.

A wallpaper panel can substitute as a headboard over a bed. The panel should be pasted on the wall in an area the width of a bed and headboard height. Narrow wood outlining the panel completes the

Lions Club At **Kermit Installs New Officers**

KERMIT - The Rev. Strauss Atkinson, pastor of the First Baptist Church, was installed as president of the Kermit Lions Club at : ladies night banquet-meeting in the school cafeteria here Friday might. Other new officers are Webb Jenkins, Bill Cameron and O. M. Work vice presidents; Ralph Seale, sec-retary-treasurer; D. A. Lawson, Lion tamer; Emory Spangler, tail-twister, and Leon Rose and Roy E Carter, directors.

The new officers were installed by W. A. Miller, a past-president of the Odessa Lions Club, who charged them as to their duties and responsibilities

In his installation address, Miller discussed "some problems which confront us as a group of men and some procedures which we as Lions can sponsor to improve conditions. He said the world situation today not settled and that today's problem is much more difficult to han-dle than were the German and Japanese armies.

"Our country faces a period of disintegration, and we must de-velop an acceptance of the probems which confront us. Our real problem is that our economical and industrial growth has progressed faster than our mental level." Midland Band Plays

The speaker said Lions must look to the responsibilities which are theirs - responsibility to nation, state, community and family unit.

Fred Pearson, retiring president, presided, and Roy Carter, program chairman, introduced the program

sented as a feature of the musical program. Members of the band are John Biggs, Roy DeWolfe, C. A Churchill, Yates Brown, Tom Inman, Steve Shannon, Joe Erickson, Scottie Lawhon and E. N. Stracener, Bill Collyns introduced the orchesra members and announced the se lections. Others from Midland attending

By ALICIA HART **NEA Staff Writer** The swimmer who likes to shower salt out of her hair in the bathhouse stall can now do it more easily, thanks to the timely debut of a special shampoo cream. This preparation comes in a tube as handy to carry in a beach bag as a sun-burn cream. The green jelly-like stuff that squeezes out explodes into quick lather; makes short shrift of sticky salt deposits that cling to hair. The advantage of a tube-pack aged cream, makers of this one claim, is that no liquid streams into eyes when hair is washed. To make the after-managemen

New Shampoo Cream

Is Aid To Swimmers

of quickly-showered hair easier, vegetable oil ingredients are used lavishly in this product. The presence of these softening oils is ap parent when freshly-washed hair is coaxed back into curl.

Reorganization Meeting Held By CYF Group

A reorganization meeting of the Christian Youth Fellowship was held last week and a program for the future planned by various appointed committees. Hymns were sung and the Rev. LeRoy Castle presented the CYF

program to the group. Cfficers of the CYF are Don Downing, president; Don Marrow,

vice president; Howard Mickey, secretary-tieasurer. The executive committee is com-

posed of Mrs. D. Downing, spon-sor: Stanley Claiborne, Mrs. S. P. Hall, Mrs. I. E. Hood and the Rev. Clyde D. Lindsley, adult sponsors. Committees are as 10110ws: Worship: Don Downing, May Sheen, Howard Mickey, Dale Micky and Erwin Recer.

Service: Ann Boring, B. H. Span, Eob Browning, Shirley Brunson and Johnnie Kerr.

Enlistment: Mary Nell Casselman, Edwina Hood, Carolyn Claiberne, Calva Ann Fizzell, 'Tom Friday and Bob Hunter.

Recreation: Patsy Bray, Wanda Elms, Dennis Rhodes, and Glenn Rhodes

After the meeting, refreshments were served by Mrs. I. E. Hood, advisor of the service committee.

The meeting closed with a friend-ship circle. The devotional and prayer were voiced by the Rev. Olyde Lindsley.

All young people between the ages of 15-24, who are not attending a youth activity of this city are in-vited to attend the next meeting of this fellowship group to be held at 6:45 p. m. Sunday at the First Christian Church.

Following the evening worship, directed recreation will be included on the program and refreshments will be served.

One and one-half cups flour, 2 tablespoons combination baking powder, 1/2 teaspoon salt, 1 tablespoon sugar, 3 eggs, 1/4 cup melter outter, 11/2 cups milk, 1 pint box cultivated blueberries. Sift flour before measuring and

sift again with baking powder, salt and sugar. Beat eggs well and add melted butter and milk. Make a well in center of dry ingredients and pour in egg mixture. Stir well and bake batter on heated waffle iron. Serve with honey and cultivated blueberries.

Foot Bath Puts Spring In Walk

By ALICIA HART NEA Staff Writer

You can step into spring with more carefree tread if you will pamper your feet with special care and allow for a bit of hot-weather expansion when you choose new shoes.

A twice-a-day dunking-morning and night-in warm, soapy water is a good spring tonic for feet. You are warned, however, by spokesmen for the National Foot Health Council, not to soak them too long or use excessively hot water. You don't want skin to become overly tender. A stimulating massage with a soft, dry towel, after the bath, will send blood racing to your toes and help allay foot fatigue. A light dusting of powder, used to finish off a bath, adds to foot comfort by giving slide to toes and a silkier feel to soles.

Faultily-fitted footwear may be the villian that cramps a stylish walk. If the shoe fits properlyin general a roomy shoe is a more comfortable shoe—it won't need "breaking in" or have to be spelled when hot weather encourages feet to expand. A good test of present and future comfort, when buying shoes, is to stand pelican-fashion with all the weight first on one foot, then the other. This will show up trouble spots which may not appear if weight is evenly distributed over both feet. Test leather-sold shoes for pliancy and normal flexing underfoot, which you'll need for more active walking when you succumb to the lure of out-of-doors.

'Great Circle' Route May Be Usable Again

SEATTLE, WASH. _(AP)- Echoes uncounted numbers of them, will help write more accurate Alaska sea charts

Depth recorders and fathometers coast and Geodetic Survey mother ships and their coveys o launches will be clicking away al most endlessly from the outer Aleutians, into Bristol Bay, and eve way up north, at Point Barrow in he coming months.

Seven ships, some still bearing scars of World War II and decorations from World War I, assembled here before sailing north for the unspectacular work. Many Alaska areas never have been charted. Ships traversing these waters hav only their own observations, or old Russian charts, or sounding record of infrequent cannery ships to guide them.

The "mountains that don't show" are one result of such work. Japanese freighters, loading lumber at Washington and Oregon ports before the war, used the shorter route through Unimak Pass in the Aleutians.

\$15,000 to \$35,000 and Many Years of Study

To earn the degree of Medical Doctor (M.D.) requires an average of around twelve years of study, preparation and practice, after the ten to twelve years spent up through high school. 4

Those years, consumed by an M.D. in study, preparation and unproductive practice, cost from \$15,000 to \$35,000 in actual money-depending on the individual, and sources of his education.

Requirements of the medical profession itself, and the laws of your State, protect you where the qualifications of your Doctor are concerned.

WASHINGTON -(A)- Corporation profits after taxes hit a record high last year, jumping \$2,000,000,-000 above the previous peak set in mid-war 1943, the Commerce Department reported.

The department estimated aftertax profits at \$12,500,000,000. It said corporate profits before taxes totaled \$21,100,000,000, a peace-

time record higher by \$1,000,000,000than 1945, but about \$3,500,000,000below the all-time record established in 1943. The reasons that after-tax profits gained more sharply than the before-tax figures were elimination of the excess-profits tax and reduction of the corporation income tax from

40 to 38 per cent at the end of 1945, the department said. Reasons it gave for the rise in profits on both bases during 1946 as compared with 1945 included:

1. Rapid expansion in production of civilian goods following reductions of military orders that had pushed profits down throughout the second half of 1945. 2. The "substantial price rise

that occurred in 1946, which lifted the dollar volume of corporate sales \$1,000,000,000 over the previous year. The department observed that profits varied widely among corporations engaged in different types

of business, according to how they were affected by "conditions of reconversion, rising prices, and rising costs.' Comparing the relationship of profits to corporate sales, the department said:

1. Before-tax profits were "appreciably lower than in most of the

war years," but higher than in 1929. 2. After-tax profits, however, were died in 1614, was named Domenico higher in relation to sales than in Theotocopuli, was born in Crete and "most of the war years," but below studied under the Italian painter the 1929 relationship. Titian.

Wallace Talks Third Party

A national barnstorming tour ended, Henry Wallace is going to play dead till Labor Day,

In the next month or two I am not going to make any speeches," he says. "But along about September 1, I'm going to be out again. It would be sorta nice to start with a good Labor Day rally.

Wallace made this announcement of his plans in a talk to 449 delegates attending the first national youth lobby in Washington. This lobby was whipped up by the young Progressive Citizens of America, the junior branch of the outfit that changed its name from PAC after the last election.

The youth lobby had delegates from 16 states, mostly in the Northeast, but including Michigan, Minnesota, Colorado, and California. It was a decidedly mixed group.

They want Washington to lobby against the labor bill, the taxcut bill, UMT, lovalty investigations, and the poll tax. They were for higher payments to vets, rent control, aid to health, education, and a federal anti-lynching bill. From their congressmen they got pretty much of a brushoff.

Before this obscure and previously unheard-of youth lobby, Wallace let down his hair and talked practical politics. They had greeted him with the usual chants of "we want Wallace" and "Wallace in '48." He gave them his grin at that.

Later he said, "Personalities aren't the dominating factor. What we are wrestling for," he said, "is to see whether the Democratic Party is to be the liberal party. I hope the Democrats will be a liberal party. If it isn't there will have to be another party.

'This is not a matter of emotion," he said at another point. "You must have your mind operating at the same time. You have a long time to live. Longer than I have. Ten or 12 or 15 Presidential elections against my two or three.

"You may be right in demanding that there be a third party in '48," he said, "but I'm playing it different. The progressive Democrats in Congress are playing it still different. Most of them will hit more softly than I would like to see. And I will hit more softly than you would like to see.

"You represent a force that is unorganized. You have energy to work more hours in the day. I'm hoping ose any of your drive. I'm hoping you don't go off half-cocked. I'm convinced that the way I've handled the situation has made the Democratic machine a little uncertain. They hope I'll come around and be a good boy. They're not sure I will. 'I'm going to keep the pressure on. The press will no doubt say that's a threat. It's not exactly that. It's a realistic approach.'

New Zealand Lad 'Bums' Way To Texas To Work In Harvests

PERRYTON -(P)-Eighteen-yearold Roy Lakey came a long way to He left home about six months ago and headed for the United States because "I wanted to see Texas

Now that he's here, he wants to work in the harvest fields. Young Lakey got a job as cabin boy aboard a British oil tanker at \$10 a week to get to America. Thre weeks ago the ship landed in San Francisco.

Lakey said knowing no one in the West Coast city wasn't any bother he just asked which way led to Traas and started out. Hitch-hiking, a la American, came easy for him. "I just started walking and pretty soon someone would stop and pick me up. The first time I was nervous because I knew the man was going to ask me for his fare for the ride, and didn't have much money. But he didn't ask me for a cent."

When he reached Amarillo last week he found out about the big wheat harvest getting set to start in Perryton. And immediately he started out, hoping to land a job. He said he doesn't know a lot about the farm machinery used in

the United States. "Your trucks have too many gears," he said. "I'd get all confused trying to shift them. Our trucks are much simpler and less

powerful than yours." Except when it rains, he sleeps out in the open, using the blanket. in a bed roll he brought with him. His present plans are to work luring the harvest and then tour

Only one thing seems to bother him: "where're the cowboys?"

All set to start the first soap box derby ever held in Germany, these six boys, sons of U 'S. military personnel, eagerly await the starting signal from Red Cross worker Ann Lego, of Williams-Pa., before starting down the 1/5-mile stretch. The race was a feature of a two-day County Fair held by the Red Cross for occupation troops in Stuttgart. In the line-up are Corliss Eastwood, Walnut Creek, Calif.; Billy Ward, the derby winner, Gainesville, Ga.; Norris Fletcher, Los Angeles, Calif.; Dennis Harlow, Mt. Vernon, Ill.; James Knipp, Shepherd, Mich.; and Graham Stokes, Chicago,

Minnows Are Not Cows Or Any Other Farm Animals, Says Opinion

AUSTIN-(AP)-Minnows are minnows, not cows, the Attorney General's department concluded recently in a 1,000-word opinion. Brown county attorney David J. Morris was informed "it is the opinion of this department that minnows are neither farm products nor livestock with the purview of the state law permitting a special reduced fee license for farm trucks

Assistant attorney general Artie Stephens noted both federal and state court opinions have held fish or spawn are not stock or farm products although they may have been produced on a "minnow farm." Morris asked for the ruling in connection with a Brown county case in which a minnow farm operator was using a truck with a farm vehicle license

Jumping spiders catch their prey by stalking it and then leaping upon it.
