

Tax Cut Bill Vote Delayed In Senate

GOP, Truman Agree Not To Call Session

WASHINGTON —(P)— Senator Vandenberg (R-Mich) said Monday President Truman and leaders of the Republican Congress have agreed no special session of Congress need be held this fall.

After a conference of the congressional "big six" with Truman, Vandenberg told reporters:

1. Truman gave his personal assurance he would not hold up his tax reduction bill veto message, in order "not to interfere in any way with the adjournment schedule" of Congress on July 26.

2. The group agreed it would be "all but impossible" to get legislation this session admitting some 400,000 of Europe's displaced persons to the United States as Truman requested.

3. If a plan for European reconstruction emerges from the current Paris conference on the Marshall Plan the Senate Foreign Relations Committee, headed by Vandenberg, "may be called back late in the year."

SE DOLLAR HIDE PROJECT TO TEST DEVONIAN ZONE

The Oil Company of California No. 3 Cowden, southeast extension for Silurian production in the Dollar Hide area, and 1,980 feet from north and 660 feet from east lines of section 7, block A-55, psl survey, had drilled plug on 5 1/2-inch casing which had been cemented at 8,465 feet, over total depth of 8,530 feet.

Operator was to perforate and test opposite the Devonian, where some slight shows of possible production had been logged before the project drilled on down and flowed 50 barrels of oil natural, in one hour and 45 minutes, from the Silurian pay.

The testing in the Devonian is primarily to be sure that no possible source of petroleum is overlooked.

Interested observers do not expect that interval to develop much, if any, commercial oil or gas, and it is likely that the well will be completed from the Silurian pay in a few days.

Trial Of Ex-GIs To Reveal No Atomic Secrets

WASHINGTON —(P)— Government legal authorities Monday confidently predicted they will be able to try two former Army sergeants on charges involving atom bomb secrets without disclosing any hush-hush data.

The ex-GIs—accused of taking highly confidential notes and photographs with them when they left the Los Alamos, N. M., atom bomb project and the army more than a year ago, were scheduled to be arraigned in widely separated cities.

Alexander von der Luft, 23-year-old Princeton undergraduate, was ordered to appear before a U. S. commissioner in Pittsburgh, and Ernest D. Wallis, 34, was to hear a similar complaint read to him in Chicago.

The specific charge is willfully and unlawfully removing and concealing records and documents. Conviction carries a maximum penalty of a \$2,000 fine and three years in prison.

FBI agents arrested both men Saturday, nearly two and one half months after the Justice Department was called into the case by the Atomic Energy Commission.

The two previously had been described as simply "souvern hunters," and Congressional Atomic Energy Committee members as well as the FBI insisted none of the secrets they are charged with possessing got into unauthorized hands.

WARD FIELD STEPIST IS TUNING DRILLSTEM TEST

Lion Oil Company No. 7-B University, stepout from production from the Delaware sand, in the Lion field, in North-Central Ward County, adjacent to Pyote, and 2,312 feet from north and 330 feet from west lines of section 1, block 18, University survey, was taking a drillstem test at 5,000 feet.

This project had shown some oil gas, and water, in a drillstem test on a formation higher up the hole.

NW MARTIN WILDCAT HAS STARTED MAKING HOLE

Stanoll Oil & Gas Company No. 1 J. E. Mabey, 8,000-foot wildcat in Northwest Martin County, 95 miles northwest of Stanton, and in southwest corner of tract 87, league 258, Briscoe County School Land survey, spudded to 294 feet in shale, and had set 13 3/8-inch surface casing at 250 feet, with cement.

Operator will drill the plug and start making hole by the middle of the week.

HALE PROSPECTOR HAS FOUND OIL PETROLEUM

Stanoll Oil Company No. 1 Camp, wildcat in South-Central Hale County, in northwest quarter of section 13, block D-8, EL survey, four miles west and one half mile south of the initial oil producer in the Petersburg field, had reached 6,348 feet in dry lime and was making more hole.

The section at 6,164-67 feet had shown some slight oil stains in samples, but those indications were not of sufficient quantity to warrant a drillstem test being taken.

The formation is understood to have been in the Wichita-Albany zone of the lower Permian. The ex-

Speakers Hit Taxes, Real Estate Lobby In Governors' Meeting

SALT LAKE CITY —(P)— The nation's governors, awaiting a first hand report on international developments by Secretary of State Marshall, Monday heard demands the federal government yield some of its taxing powers.

With Marshall scheduled for a major foreign policy speech at a state dinner Monday night, Gov. Thomas J. Herbert, Ohio Republican, told his colleagues at the opening session of the annual conference too much taxing in Washington is destroying local responsibility.

"I am opposed to the unlimited centralization of taxing power in the federal government with ever-increasing subsidies to the state and local governments," Herbert declared in a prepared address.

Mindful of the secretary of state's forthcoming talk, Herbert said he thinks the United States must remain economically and militarily strong if it extends proposed aid to Europe.

Gov. Millard F. Caldwell, Florida Democrat, observed in his opening statement as conference chairman "the whimsicalities of the American people make it impossible even to guess where we are going on foreign affairs, national defense, industry, housing or taxes."

Gov. Beauford H. Jester of Texas urged his colleagues to join in establishing highway safety programs.

With obvious allusion to President Truman's recent statement on the same subject, Gov. Ernest V. Gibson, Vermont Republican, said he regards the "real estate lobby" as "a very bad thing" which has had "an extremely detrimental effect on building housing in this country."

Soaring Records Are Set In Wichita Falls

WICHITA FALLS —(P)— Three records were believed broken Sunday in the 14th annual national soaring meet.

The English distance record was reported officially smashed by Charles Wingfield, infantry captain from Shrewsbury, England.

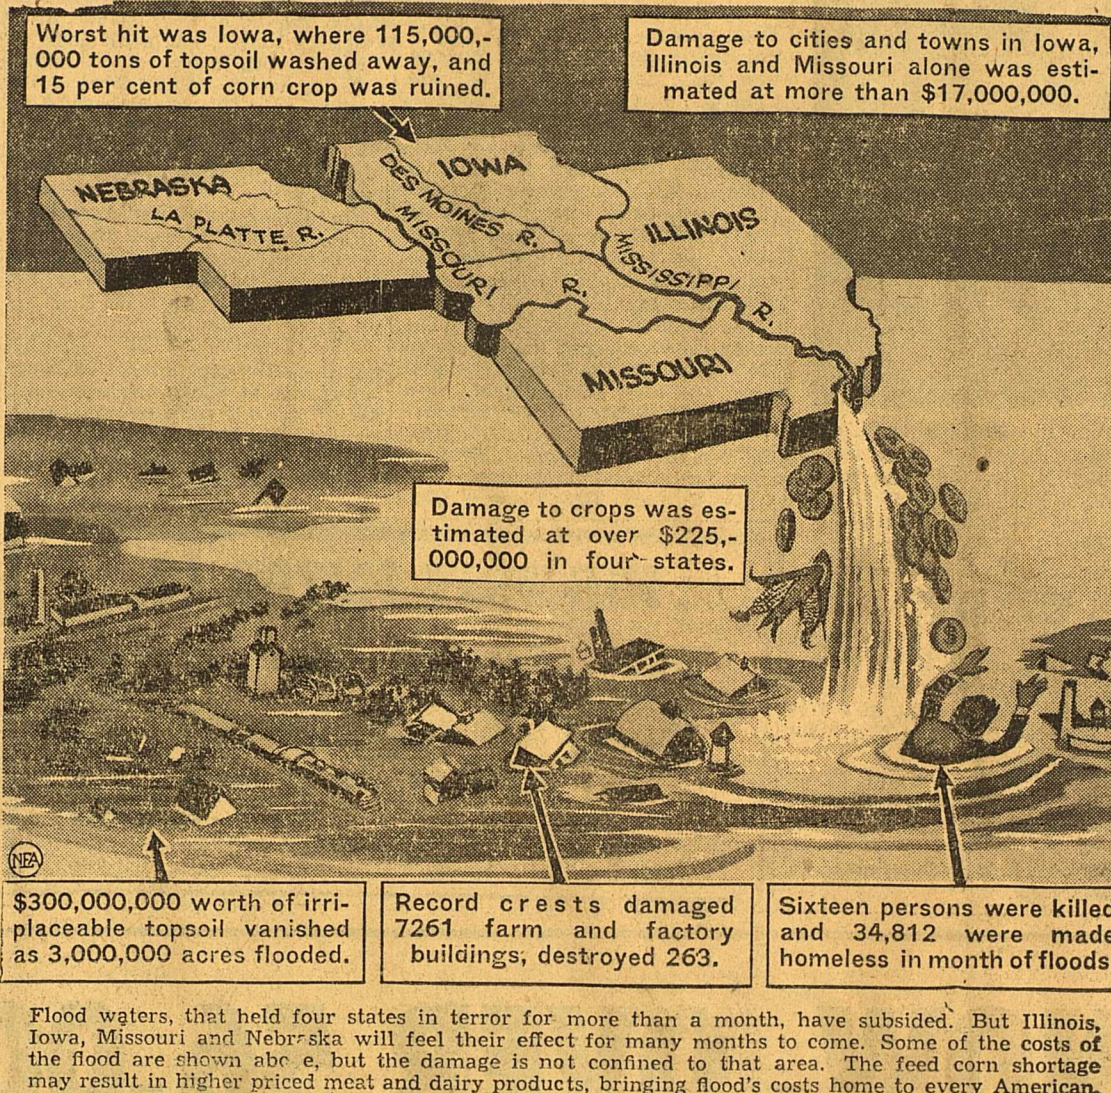

He telephoned officials from near Canyon, Texas, 215 miles away, and said he made the flight in seven hours.

Richard J. Coney, Cambridge, Mass., was unofficially believed to have broken the American national distance record of 290 miles, established in 1940. He winged his glider to a place near Tucumcari, N. M., 302 miles away, he reported to judges.

Officials, however, withheld confirmation until the distance could be measured.

Officials sources said the estimated 122 miles on a goal-and-return flight to Chillicothe, Texas, made by J. Sheeler Charles, an Eastern Airlines captain from Atlanta, Ga., smashed the previous 100-mile record set by Johnny Robinson of Elmira, N. Y.

Bishop FitzSimon Declares Peace Among Men Necessary If Nations Solve Permanent Peace Problem

Declaring the world stands at a crucial point in its history, the Most Rev. L. J. FitzSimon, Bishop of Amarillo, Sunday night declared "Men have failed to see that peace among nations is inseparable with peace among men."

The bishop addressed the institution banquet of the new Knights of Columbus Council of Midland in the Crystal Ballroom of the Scharbauer Hotel.

"The moral level of men is the cause and effect of the moral level of nations," the bishop continued. "It is needless to call your attention to the perils confronting the world today. Many forces are opposed to any form of world order although the armed hostilities of World War II are over.

"Nations are gathering to talk and plan permanent peace. But the planning of world peace is not a simple matter of bookkeeping. More and more people are getting discouraged and losing hope of world peace—the permanent peace for which so many men fought and died. The answer to the problem of peace is simple. That is why it has been overlooked so long.

"It is the old story of complicated planning with unwieldy machinery capturing our fancy.

Must Realize What Peace Is

"Nations are seeking peace but it hardly is possible they will find it until they realize what peace is."

He recalled briefly the history of the Roman Catholic Church for peace, asserting it teaches its members that they are citizens of two kingdoms—the kingdom of God and the kingdom of man and of "Christianity must conquer totalitarianism and facism," he emphasized.

"When we ask a favor of our government, we surrender to a certain extent some of our freedom. We've had a taste of facism in our country and perhaps some totalitarianism. We must be watchful to avoid any control or rule by any one man or any one party. That tendency now may be past," he added, but he asserted the "cradle to the grave" theory of government must not be revived.

He declared totalitarian government threatens the church as that type of government believes it is supreme.

"We must uphold the true democratic ideals on which our country was founded," the Bishop continued. "Let no one tamper with our Great Constitution. It has given us and our church freedom and permitted the growth of the Catholic Church in the United States. The Knights of Columbus will strengthen your faith and your loyalty in your church."

The first class of the new Midland council was dedicated to Bishop FitzSimon. He pledged his cooperation to the council and expressed deep pleasure and satisfaction for the honor bestowed upon him by the class.

Many Visitors Attend

J. A. Koegler of Midland, organizer, was toastmaster at the banquet. He introduced visitors from Houston, Amarillo, Fort Worth, Lubbock, Slaton, Odessa, Stanton, Big Spring, Austin, San Angelo and other cities.

Maurice W. Kennedy, grand knight of the Midland council, welcomed the candidates initiated in Sunday's ceremonial, marking the organization of the council, and also the visiting delegations. Kennedy expressed belief the council will attain its goals.

The new council started with 42 members, including a class of 23 initiated Sunday. Others joined by transfer from other councils.

Koegler recognized committee chairmen and committee workers and thanked them for their work in organizing the council.

He announced four "candidates-of-the-day" Henry Goulet, Francis

Weekend Death Toll In Texas Is Thirteen

By The Associated Press

Thirteen persons, two of them a young Canton, Ohio, married couple, died violent deaths in Texas over the weekend.

William Graber, 20, and his wife, Betty Mae, 19, were fatally injured Sunday when they were struck by an automobile 10 miles East of Amarillo as they stood by the side of their stalled machine.

Six others died in traffic accidents; three persons were killed as a result of shootings and two men were drowned when their fishing boat overturned.

Two Texas Tech college students were killed and two others injured Saturday night when their car and a bus were in collision near Olney. The dead were Clyde Beverley Brown, 18, Levelland, and Durward Kimbrell, 23, Adalou.

A San Antonio department store employee, Jim Best, 45, was killed Saturday night when his car went off the road near three rivers and overturned.

Fifteen-year-old Melvin Pool was killed when his car overturned Saturday night near Clarksville.

Struck by a car the same night on Highway 77, William Roy White, 59, of Lancaster, was brought to a Dallas hospital, where he died.

George Harris, 34, of Hemphill, was struck and killed by an out-of-bound Cotton Belt train on a bridge at Dallas.

T. W. Hightower, 57, liquor store owner near Humble, died in a Houston hospital of gunshot wounds suffered when two men held up his store.

In Dallas, a 17-year-old youth, Paul L. Williams, Jr., was shot Saturday outside of the home of Dr. Joe Piranio, after the doctor said he saw someone looking in a bathroom window. A verdict of justifiable homicide was returned.

Mrs. Shizu Kobayashi, 58, was fatally shot at her home near Houston.

John E. Elliott, 33, and Herbert Arnold, 47, Amarillo, were drowned in Buffalo Lake near Canyon when the boat from which they were fishing overturned.

Three Seriously Hurt In Oil Well Explosion Near Midland Sunday

Three oil field workers were hospitalized and two were given first aid treatment at Western Clinic Hospital Sunday afternoon following an explosion at Buchanan No. 1 well about 9 miles Southeast of Midland.

Seriously injured were R. D. Adrian and B. V. Dodson, about 44, both of Hobbs, N. M., and Warren Altenbaumer, about 30, of Wink, M. A. Dodson and James Westbury, also of Hobbs, sustained minor injuries.

The men, employees of Lea County Casing Pullers, a Hobbs firm, were engaged in "shooting" casing in the well. The firing mechanism of the explosive charge they were using failed to detonate in the well, they reported, and it was while they were examining it above ground shortly after noon that the accident occurred.

At the hospital condition of the men was reported "serious but not critical."

Little Girls Find Daddy

A daddy and his two little girls were made happy Sunday when they found each other. They thanked the Midland police and this newspaper.

In Sunday's Reporter-Telegram was published an appeal to find H. S. Matheny, believed to be located in this city, because his two daughters had come to Midland trying to find their daddy.

A resident of Midland but a week, Matheny saw the story in the Sunday paper. He rushed to find his daughters.

Police were keeping the little girls and they had been put on a bus to go back home believing their daddy was not here.

The happy reunion and ending to this story was at the bus station where the father found his girls just before the bus pulled out.

Russian Move Against Atom Plan Is Doomed

LAKE SUCCESS —(P)—A veiled move by Russia to get the United Nations to endorse the immediate destruction of all atomic weapons appeared headed for defeat Monday in the Atomic Energy Commission.

American sources said Soviet deputy foreign minister Andrei A. Gromyko was attempting to override a United States plan, already agreed to by all except Russia and Poland, which calls for disposal of the bombs only upon completion of a treaty for worldwide atomic control with air-tight safeguards.

Assailant Of Bricker Will Be Examined

WASHINGTON —(P)— Municipal Judge Allen K. Raedy Monday ordered a mental examination for William L. Kaiser, former Capitol policeman charged with firing two shots Saturday at Senator Bricker (R-Ohio).

Assistant United States Attorney John B. Diamond asked for the examination.

Bricker, the 1944 Republican vice presidential nominee, in skipping the hearing, said the officers have all the information they need.

Bricker showed more concern over what he called the potential danger to his colleagues in general than he did over his own escape.

"I've often worried about the huge crowds we have just overheard in the Senate galleries," the 53-year-old Ohio lawmaker said. "It would be a mighty easy thing for someone to drop a grenade over that railing."

Bricker declared, however, he doesn't know what can be done about the situation "other than have our doormen be more alert."

Mansfield Is Eulogized In House Monday

WASHINGTON —(P)— Rep. Joseph J. Mansfield of Texas, who died Saturday at 86 after 30 years of service in the House, was eulogized Monday by his colleagues—Democrats and Republicans alike.

Rep. Rayburn of Texas, House Democratic leader, told the House "in my opinion Judge Mansfield was the most popular, the most loved man in the House of Representatives."

Republican leader Halleck of Indiana, said:

"We have lost a great friend. He was a constant inspiration to me. He always radiated happiness. He never believed any man who has served in this House made a greater contribution to good government. He was one of God's noblemen."

The Capitol flags were lowered to half staff. The House put aside all other business and devoted Monday's session to the memory of the Texan.

Truman Appeals To Coal, Steel To Hold Prices

WASHINGTON —(P)— President Truman Monday appealed to coal and steel producers to wait until a "fair test" has been made of the effects of the coal wage settlement before making any price increases.

The President, in a statement, said the effect of the wage settlement "is badly misrepresented by the bare statement that it amounts to an increase of about 45 cents per hour in the wages of miners."

"It is only reasonable to ask coal and steel producers to wait until a fair test has been made of the actual effects of the wage advance under conditions of maximum production," the President asserted.

"If prices are raised at once, and a wave of increases in related prices upsets our economy, we never will know what would have happened if the coal and steel managers had been willing to wait."

Saying the producers of coal and steel "have been enjoying their full share of high profits," he concluded:

"I am sure that they, as responsible leaders of industry, will profit to invest a portion of those profits in the maintenance of business stability and prosperity for all our people."

Two Die In Houston Refinery Blast, Fire

HOUSTON —(P)— Two employees of The Humble Oil and Refining Company's Baytown refinery were burned fatally and a third critically following an explosion and flash fire Sunday night at the Baytown plant.

Dead as the result of the burns are Carl H. Frev, 43, of Baytown and Bernard William Wunsch, 27, of Highlands. Frev died several hours after the fire broke out at 8:15 p. m. and Wunsch died early Monday morning.

A sharp explosion which shook the ground two miles from the plant preceded the fire which sent flames shooting several hundred feet into the air.

McClellan Tries To Block Passage With Amendment Plans

WASHINGTON —(P)— Senator McClellan (D-Ark) Monday claimed a "fighting chance" to upset Republican plans to speed the \$4,000,000,000 tax cut bill to the White House by nightfall.

McClellan, who opposed the original reduction measure on its futile first trip through the Senate last month, is pinning his hopes on a so-called community property amendment.

His strategy is to try first to block final passage in the Senate and then, if that fails, to stir up a House fight which might nullify any prospect of the bill's being written into law over President Truman's promised second veto.

"I say we've got a fighting chance," McClellan told a reporter. "I know I have a minimum of 37 votes for my amendment and I hope to pick up enough more to send the bill back to the House. It's close to a fifty-fifty chance."

"I say we've got a fighting chance," McClellan told a reporter. "I know I have a minimum of 37 votes for my amendment and I hope to pick up enough more to send the bill back to the House. It's close to a fifty-fifty chance."

GOP Confident

But Republican Senators Millikin (Co.), Taft (Ohio) and Wherry (Nebr.)—who forced the Senate to grind away for nearly 10 hours Saturday without getting a final vote—confidently insisted all they asked was a chance to call the roll Monday.

Although they lacked any iron-clad agreement for final Senate action during the day, the GOP leadership held public promises from Democratic chiefs there would be no attempt to filibuster or otherwise delay a vote on passage.

McClellan's proposal would allow husbands and wives in all states to split their incomes for federal tax purposes. They now can do this in 13 community property states with a resulting tax savings in most instances.

Its adoption would send the whole bill back to the House. Leaders there have vigorously opposed any changes lest they lose the required two-thirds majority for the overriding a veto.

Underground Defies British In Palestine

JERUSALEM —(P)— Irgun Zvai Leumi—Jewish underground organization—Monday defied the British Army and police to free two British army sergeants whom it boasted of kidnaping and confining as hostages for three Irgunists under death sentence.

The Irgun announcement said the sergeants were unnamed and "in a place where they can be kept a month or more."

British authorities meanwhile intensified their search for the hostages and served notice unless they were returned by Monday night, martial law would be imposed on Palestine's diamond capital of Natanya, 40 miles north of Tel Aviv.

The sergeants—Clifford Martin and Mervin Paice—were abducted from in front of a Natanya café.

Monday night's deadline was the third the British have announced since the kidnaping occurred Saturday.

Twenty-One, Including Texan, Die In Crash

MELBOURNE, FLA. —(P)— Twenty-one persons were killed Sunday in the crash of a DC-3 chartered airliner in swampy wastelands near here, and Monday 12 remained unidentified mainly because of a confusion in Spanish names.

The plane, en route from Newark, N. J., to Miami with 36 persons aboard—a crew of five and 31-home-bound Puerto Ricans—cut a 300-foot swath through the scrub pine six miles from this Florida East coast town as it ploughed to earth shortly after 3:30 a. m. (GST).

Among the dead was the pilot, Capt. Henry Hein, 36, of Houston, Texas.

Dutch Would Include Western Germany In Any European Plan

PARIS —(P)—Dutch sources at the Paris economic conference Monday indicated the Lowlands would advocate prompt inclusion of Western Germany in the Marshall Plan for European recovery.

A Dutch spokesman said Western Germany inevitably must be added to the 16-nation organization, embracing all Western Europe except Spain and excluding Russia and eight Eastern nations under her influence. One of the first consequences of including Western Germany, the spokesman suggested, would be a merger of the French with the combined American-British occupation zones.

The Dutch informant said representatives of Benelux—the Belgian, Netherlands and Luxembourg Customs union—would ask for a general statement defining the lines along which the conference will work, including clarification of economic policy toward Germany, before starting any detail work.

WEATHER

Partly cloudy, little change in temperature, Monday afternoon, night and Tuesday, with widely scattered afternoon and evening thundershowers. Maximum temperature Sunday was 95 degrees, minimum 76 degrees. Minimum Monday morning was 76 degrees.

LATE NEWS FLASHES

AUSTIN —(AP)— Acting Governor T. C. Chadick of Quitman Monday at a called press conference boosted Gov. Beauford H. Jester for U. S. Senator.

PARIS —(AP)— The 16-nation rules committee Monday unanimously named France, Britain, Italy, Norway and Holland as members of the executive committee for European economic reconstruction.

ST. LOUIS —(AP)— U. S. District Judge George H. Moore Monday ordered the St. Louis-Southwestern (Cotton Belt) Railroad restored to private control July 24.

ATHENS —(AP)— Greek officials reported Monday a 1,000-man force which attacked the village of Konitsa had been pushed back to the Albanian border, six miles away.

JERUSALEM —(AP)— Military rule was clamped down Monday night on 10,000 to 14,000 persons in the Natanya area to facilitate the search for two British army sergeants kidnaped Saturday by a Jewish underground organization.

NW LUBBOCK EXPLORATION STILL LOOKING FOR OIL

Stanford No. 1 Flinn, Northwest Lubbock County prospector, four miles northwest of Monroe, and in southeast corner of section 10, block D. L&V survey, had progressed under 6,450 feet in dry lime. The horizon above the current level of operations had logged some porosity, but had not shown any oil stains. This project is already below the depth at which the discovery well of the Cravens field, a short distance to the southeast, was completed as a small pumper.

HOWARD PROSPECTOR IS DRILLING IN BLACK SHALE

Stanford No. 1 Gaskins, Southwest Howard County wildcat, six miles southwest of Big Spring, and 1,980 feet from south and east lines of section 7, block 33, TP survey, T-1-S, had reached 9,210 feet in an unidentified black shale, and was making more hole. It is contracted to approximately 12,300 feet to try to locate and test the Ellenburger.

Tomaso the Tarsier is all upset. On his recent arrival in New York from the Philippines, his saucer-eyed face gave rise to the rumor that a flying saucer pilot from Mars had been captured after landing his platter-plane atop the Empire State Building. Tomaso indignantly denies the rumor and wants it distinctly understood that he's not a Martian, but a relative, though remote, of the human race. Besides, he says, it's a mean trick to play on a little guy who weighs only eight ounces. He'll live with 34 other tarsiers at the Bronx Zoo.

Odessan Shot Several Times; Condition Is Described As 'Good'

ODESSA—The condition of Francis Bell, 45-year-old drilling company worker who was shot several times here Saturday, was described as good by medical attendants in the Headlee Hospital. County officials indicated they would file charges of assault with intent to kill against a man who is being held in connection with the case. Bell was shot while running down a business district street and was hit in a lung, shoulder and an arm.

Kreidel, a member of the class, gave his impressions as a candidate and enumerated the benefits of Knights of Columbus membership. Fundamental Principles J. J. Moore of Lubbock, district deputy told the council, "Now you have a council—you have a foundation. Charity, unity, fraternity and patriotism are your fundamental principles. He told of plans to form a council in Odessa soon and said Midland members would be asked to cooperate in the installation. F. J. Kinane of Austin, state agent and past state deputy, declared Knight of Columbus are happy to have the new council. "You shall point the way in the future and may your every effort succeed is our sincere hope."

R. Conroy Scoggins of Houston, state deputy discussed the work of the Knights of Columbus in Texas, recalled the outstanding history and told of projects now underway. They include a youth program and the writing and publication of a Catholic History of Texas. He declared the Knights of Columbus are unalterably opposed to Communism and urged all members to speak fearlessly for the right. "Fifty million persons in our country have no form of religion. It is our duty to get all Christian people together to preserve Christianity's freedom. Get away from the gold standard and get back to God's standard of living."

The benediction was asked by the Rev. Frank B. Triggs, chaplain of the council. The day's festivities began with a Gregorian High Mass at St. George's Catholic Church, followed a breakfast at the Scharbauer Hotel. The first degree was exemplified Sunday morning, followed by the second and third degrees in the afternoon. Thirty-nine members of the order from other cities were here to assist in the ceremonial.

University Geologist Discusses School's Lands For Kiwanians

Contrary to a popular saying, the University of Texas is not the "richest school in the world," Berte R. Haigh, assistant geologist in charge of University Lands, told Midland Kiwanians at their luncheon Monday.

Although the university has a permanent fund of \$65,740,772.21 it ranks in fifth place among American educational institutions, according to the World Almanac, Haigh said. He cited Harvard's permanent endowment fund of \$160,000,000, Yale's \$123,000,000, and Columbia's \$88,000,000 as among university wealth exceeding that of the University of Texas.

Nevertheless, the University of Texas, especially from oil royalties, has a sizeable income and as new wells and even fields are brought in, this income promises to increase. To date, 236,513,430 barrels of oil have been produced from the university's two million acres of land. Bonuses and extension fees from this land total \$32,113,259; oil and gas lease rentals since 1925 total \$1,194,177, and total royalties to date total \$31,478,345, Haigh said.

He outlined the history of the university's vast land holdings from the time when the state was "land poor" and used public domain as a medium of exchange until the present, when parts of the state's public domain is leased at fabulous sums for mineral production. The Colorado City Kiwanis Club

Hogan And Demaret Win Four-Ball Title

TOLEDO, OHIO—(AP)—For the third time in seven years, and the second time in a row, little Benny Hogan and Jimmy Demaret Monday held the Inverness invitational four-ball golf championship. The two best-ball stars, twice victors in the Miami four-ball event and the year's top money winners, took down the \$3,000 top prize and an additional award of \$250 for firing 43 birdies and four eagles over the 126-hole seven-match grind which wound up Sunday.

FLYING DISK PRANK RESULTS IN DEATH

ORANGE—(AP)—A flying disk prank was blamed Monday for Saturday's fatal shooting of John L. Blackburn, 19, of Port Arthur, at a Calcasieu Parish, La., night club.

E. J. Smith, owner of the night club across the Sabine River from Orange, said Blackburn opened a package labeled "dangerous, explosive, keep your hands off," and then tossed a China plate across the dining room.

Smith said a gun was discharged during a scuffle between Blackburn an employee, who is now being held by Louisiana authorities for questioning.

will stage the program for Midland Kiwanians at their luncheon next week, it was announced. Also, members voted to have the Midland Indians as guests in the near future.

NOW, OVER 56,000 OWNERS

of Kaiser and Frazer Cars—

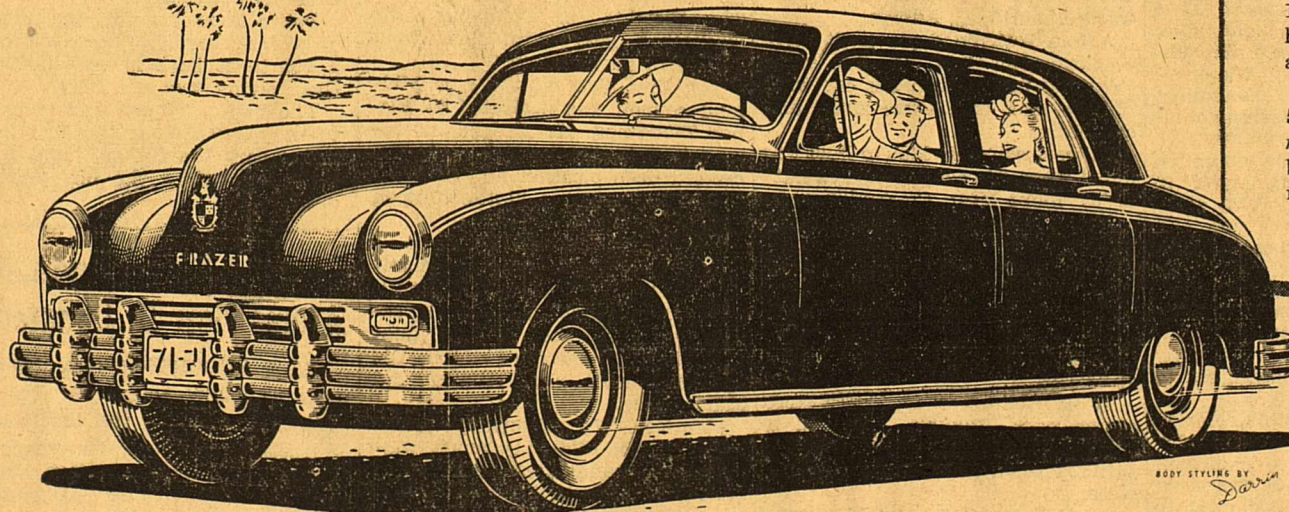

MORE THAN 12,000 CARS BUILT IN JUNE!

Yes, Willow Run has reached a production rate of more than 12,000 KAISER and FRAZER cars per month—better than a car per minute! One hundred and twenty million dollars worth have been sold at retail. And the public buys the factory output every month—and asks for more. Production is being increased!

The reason for the phenomenal success of these 100%-postwar automobiles is easy to discover. The 56,000 proud owners who have driven them millions of miles are the best salesmen we have! They are enthusiastic—and tell their friends. They know they have something new and different. They know they have styling and design far in advance of the rest of the industry. And they know they enjoy a ride no other car can equal! Drive either of these cars. Compare the ride with the best you have ever known. You will want to own a KAISER or a FRAZER. Then place your order! Increased production means that we can now give you early delivery.

Both cars are serviced with genuine factory parts—wherever you go—by one of the four largest automobile dealer organizations in the world.

FRAZER

FIVE IMPORTANT REASONS WHY THE PUBLIC LIKES THE KAISER AND THE FRAZER

1. Because they are beautiful! They look like what they are—the newest things on wheels! They set the fashion for all future motor cars—in body lines and colors.
2. Because they are roomy! The whole width of these cars is inside! Both seats are more than five feet wide. Six adults have room to spare. And then, too, there is 27 cu. ft. of space in the luggage compartment!
3. Because they are safe! Extra low center of gravity and stabilizer bars both front and rear, cut sway to a minimum. They hug the road! Superlative vision in all directions. Smooth, positive braking action.
4. Because they perform! The economical, 100-hp., six-cylinder engine provides a very high horsepower-to-weight ratio. Sensational acceleration. Unbelievable gasoline economy!
5. Because of the ride. Owners say there never was a ride like this! No car designed before the war can even compete. This you must experience! Compare the ride, today!

Plan A Romantic Bridal Hairdo

By **BETTY CLARKE**
AP Newsfeatures Beauty Editor

When planning your bridal hairdo, try to pick a romantic coiffure. See if you can persuade your hairdresser to leave the fuss and feathers for somebody else. Yours should be a soft attractive hair arrangement that will not need lacquer to keep it in place.

Stiffly lacquered updos are definitely out, says New York hairdresser John Hall. During summer, women want cool hair arrangements. With a good basic permanent, the hair brush can be wielded vigorously to give a lovely gloss and a natural looking curl.

With this in mind Mr. Hall has designed for the young bride a demi-updo—the "waterfall coil"—which can be a beautiful complement to her bridal veil and easily manageable on her honeymoon.

The hair is parted in the center, gathered either at the back of the head or at the nape of the neck. An elastic band or a bit of string is used to anchor it in place; two curls are formed out of the back hair. On the length of the hair, of course, depends the length of the curl.

The important thing about this hairdo, says Mr. Hall, is that it won't be a nuisance to care for. Just before you go to bed at night, twist the hair ends into one large curl and you won't need lots of pins to keep it in shape until you recomb.

If you keep the hair fairly long, you can create many different coiffures from your basic permanent, and have a hairdo for every gown in your trousseau.

POPE SOON TO HAVE OWN TELEVISION SET

VATICAN CITY—(AP)—Pope Pius XII, whose past journeys by plane and use of modern devices have given him a reputation for keeping up with the times, is soon to have his own television set, the Vatican News Service said recently.

Technicians have been installing equipment during the past few days and the pontiff probably will use the set for the first time to receive a special broadcast from a new church being built near Rome, the news service said.

Mr. and Mrs. C. S. Jackson returned Sunday from a two weeks vacation in California and other Western states.

Help World Recovery, Save Used Fats

Thanks to patriotic American women, over 600 million pounds of used fats have been added to U. S. supplies of industrial fats since August 1942. These 600 million pounds were vitally important, not only to the United States, but to the entire world.

Fats and oils, both food fats and industrial fats, are in critically short supply, practically everywhere. Total world production of fats and oils in 1947 will be one-sixth less than in prewar years. But at the same time, there are many more mouths to feed and a tremendous job of reconstruction and rehabilitation to be done.

In the face of this great world-wide shortage of fats and oils, it is obviously most necessary to conserve every possible pound of fat. American women can make a real contribution to the welfare of their own country and to the recovery of the rest of the world by saving and turning in their used cooking fats.

How Mr. Parker gets good telephone service

Mr. Parker just got the telephone and his family have been waiting for. He wanted an individual line because the Parkers do a lot of telephoning. But no individual lines were available because of shortages, so he took a party line instead.

Now Mr. Parker is wondering... "A party line... hum-m-m... what kind of service...?"

Party-line service is good service. It's simply a service you share with neighbors and they share with you. Of course, you can't call while someone else is using the line, but on the other hand, no one else can call while you're using it, either—so it's "even Stephen!"

A Pleasant Labor Story

After all the furor raised by the Taft-Hartley Act, it is a pleasure to call attention to an example of mutually intelligent and sympathetic labor-management relations. It is particularly pleasant since the union in the case is a local of the CIO United Electrical, Radio and Machine Workers.

It is no secret that the UERMW international policies follow the Communist Party line pretty consistently. Officers who shape those policies have followed that line so long that the general public is inclined to think of the whole UERMW as extremely left-wing.

This is not true of many of the locals and, we are sure, most of the rank and file. So perhaps the account which follows will help to put the picture into better focus.

A year ago a wage dispute arose between the UERMW local at the Pratt & Whitney division of United Aircraft Corp. in Hartford, Conn. The result was a 20-week strike of some 2,200 workers. This year the union asked for a wage increase of 15 cents an hour. Then it dropped the demand.

The reasons behind this unusual act reflect credit on both parties. In the first place, the company opened its books for the union's examination. Evidently the Pratt & Whitney management took the reasonable attitude that the workers as well as the executives have a stake in the company's future welfare—an attitude that by no means enjoys universal acceptance.

After examining the company's financial position, the president said: "The books proved that the company have an excellent earned surplus, but they also proved at a major portion of this surplus was invested in inventory. These books also showed that the company, since V-J Day, has invested hundreds of thousands of dollars in a development program. Both these points, to us, spell job security."

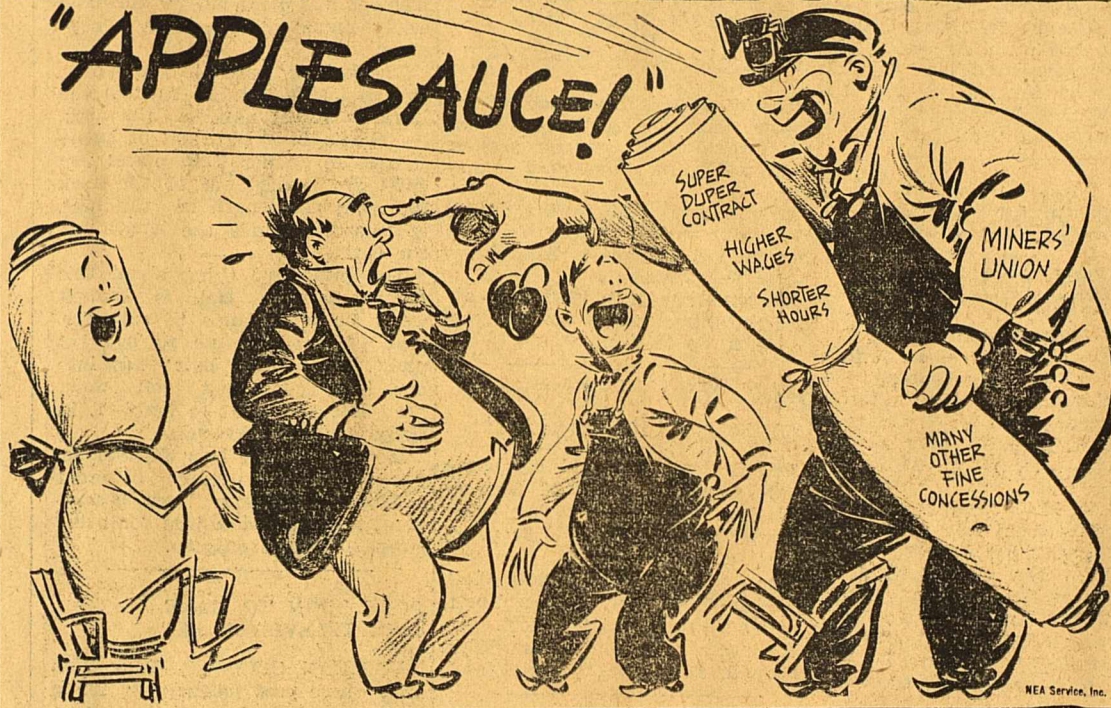

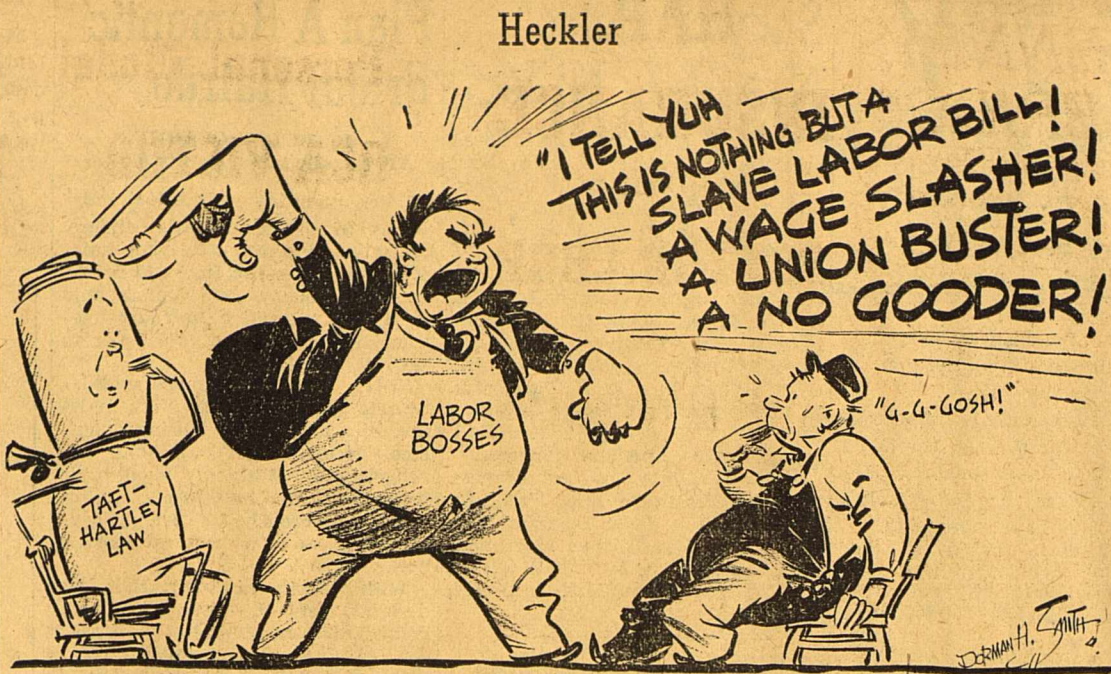

As a result of these sensible and peaceable negotiations, the company granted six paid holidays, equivalent to a pay raise of about three cents an hour. Discussion of a general wage increase will be taken up in September.

No matter what the international executives may think, it is clear that the Hartford union's officers and members believe in growth and prosperity of private employment. They have realized that a contract which takes the bulk of a company's surplus in wage increases may prove a poor reward.

Both management and labor in this case have been concerned with the company's present and future financial health. They have wisely regarded job security as their mutual concern. Their co-operation and confidence are particularly encouraging in an industry which at present is somewhat insecure.

This story is not, of course, an exceptional case of a friendly employer-employee agreement. But it does have its exceptional aspects. Certainly if there were more such examples of good faith between management and labor, the Communists in high union office and the die-hards in the top echelon of industry would find themselves speaking to smaller and smaller audiences.

The sweetest thing in the world, say chemists, is a new benzene derivative called 1-n-propoxy-2-amino-4-nitrobenzene. Try this in the love letter instead of writing "Dear Sugar."

Marshall Proposal Is Explained; Conference Will Work Out Plan

By JAMES MARLOW
WASHINGTON—(AP)—Here's an ABC explanation of one of the world's great experiments which is starting now.

It's this: 16 European nations are meeting in Paris—the meeting started Saturday—to work out the Marshall Plan.

If this story itself sounds vague to you—if all talk of the Marshall Plan so far has seemed vague to you—your reaction has been right.

The Marshall Plan itself is vague. It probably will remain that way some time. In fact, it is not even a plan. It's only a proposal.

This whole thing, including the meeting going on in Paris now, is a direct result of a speech Secretary of State Marshall made June 5.

Briefly, Marshall said this:

1. The U. S. has poured billions of dollars into Europe to get it on its feet. But the U. S. help has given piece-meal. And Europe is still on its back.
2. Before the U. S. gives any more help, the European nations must show signs of helping themselves instead of running to the U. S. for everything.
3. If the European nations show they can help themselves and still need help from outside, they can ask the U. S.
4. But whatever help they get from the U. S. won't be given in a piece-meal way any more. It will be given only according to plan.

What plan? There isn't any now. The 16 nations in Paris now are meeting to set up a plan.

To start the ball rolling, they'll create committees to do this:

1. Study what each country has, what it needs, what it can afford to let a neighbor have, instead of asking the U. S. for it.
 2. When the studies are finished, Europe will know what it can do for itself and where it must absolutely rely upon the U. S. for help.
- Before Europe gets any more big-sized help from the U. S. Congress have to approve? Yes. When? That's puzzling a lot of people, too.
- Congress expects to finish up its work for 1947 by the end of this month and go home until 1948.
- If Europe comes up with a plan,

Bert Fowler, 511 West Cuthbert Street, reported to police Sunday his pet dog had been shot through two feet.

The shooting of the dog occurred sometime Saturday night.

Assistant Secretary Of War Resigns Monday

WASHINGTON—(AP)—Howard C. Petersen Monday resigned as assistant secretary of war.

President Truman accepted the resignation, effective July 31, "with genuine regret."

Petersen told the President in a letter he had "reluctantly" come to the conclusion that he cannot afford to stay in government service any longer.

He said he could not do so "in fairness to my family."

Petersen has been in the War Department more than six and one-half years, and has served the last year and a half as assistant secretary.

Known as the "Flying Disks" the fat men will play 200 pounders and over. Known as "The Thin Men" the skinny guy will consist of six feet tall men.

Missions' Ned Garver In Texas Spotlight

By The Associated Press
San Antonio edged into the Texas League spotlight Monday. Chunky righthander Ned Garver was the reason.

The 21-year-old pitcher stretched his streak of scoreless innings to 22 Sunday, blanking Fort Worth on two hits, 4-0.

Garver started the string July 7 by taking over the final five innings against Shreveport. He next came up with a shutout against Houston, then followed with the Fort Worth whitewash.

A couple of other hurlers squeezed into the limelight. Jack Creel bested Quentin Altizer as Houston took an 11-inning, 1-0, decision from Dallas. Creel gave up four hits, Altizer five.

In other games, Shreveport defeated Tulsa, 5-2, and Oklahoma City split with Beaumont winning the opener, 8-5, dropping the nightcap, 1-0.

'Scrapers Lose

Midland's Skyscrapers, negro baseball team, lost 12-0 to Lubbock's Hubbers at Lubbock Sunday but will try to do better in a tilt scheduled at 6:30 p. m. Monday in that city.

Dowell Wins Odessa Meet

Dowell Incorporated of Midland won the Odessa invitation softball tournament ending Sunday, with a convincing 10-3 win over Kermit All-Stars.

The orange-suited Dowells played good ball behind good pitching by Roy Weeks. Everybody was in a hitting mood for the day.

Dowell advanced through the tourney with wins over Crane in the first round, Stanolind of Kermit in the second round, and beat Moore Brothers of Odessa, 3-2, in the semi-finals.

Kermit beat Gabrel's Aces in the semi-finals Saturday.

Ossie Kolwe Twirls 6-0 Win Over Ballinger Sunday

Ossie Kolwe fired four-hit ball at the Ballinger Cats here Sunday and the Midland Indians won their second shutout victory in a row, 6 to 0.

The win was number two in a three-game stand against Ballinger and was more revenge for the Webbsmen, who lost a 17-3 decision Friday night. Saturday night Midland won, 2-0.

"Nellie"

Ernie Nelson, crafty little left-hander, has become Midland's ace pitcher and one of the leading hurlers in the Longhorn League. Ernie has won 15 games and lost four this season. Saturday night he blanked Ballinger, 2 to 0.

Longhorn League—

Tribe, Sports, Oilers Rack Up League Contests

By The Associated Press
Sweetwater's unpredictable Sports were having a lot to say about conditions around first place in the Longhorn League Monday.

Fourth place Sweetwater spotted the league-leading Big Spring Broncs four runs in the first inning Sunday, then went on to win, 10-9. The loss, coupled with the Midland Indians' 6-0 victory over Ballinger, left the Broncs only one and one-half games ahead of the Tribe.

Brazil's Beaut

Trainer Dr. Jose Mora gives Nelson Seabra's Ensueno a snack at Belmont Park, where the Brazilian five-year-old will run in the \$100,000 international Gold Cup at a mile-and-five-eighths, July 19.

Midland did not slaughter Ballinger in any inning. The Tribe punched steadily away with one run in the second, two in the fifth, and three in the sixth.

Steady Run Making
The first run was gained in the second frame with Nipp singing in Davis. In the fifth, Keon hit scoring Davis and Henry Melillo hit scoring Keon. Then in the sixth, Prince doubled scoring Alvis, Prince scored when Davis grounded out. Nipp hit a fielder's choice and Ramsdell scurried in. He had been hit by pitcher.

Ballinger was at bat only 28 times and Kolwe whiffed seven of the Cats.

The game was a fast and snappy contest with five double plays, three by Midland.

Monahans Gets District Meet For Softball

MONAHANS—The Texas Amateur Softball Association District Tournament will be held in Monahans the week of July 28 to August 2.

Winner and runner up are guaranteed \$200 each or 25 per cent of the net income of the tourney, whichever is greater, to defray expenses to state tournament in Wichita Falls, August 15-17.

Here are the counties of District 26: Midland, Ector, Upton, Crane, Terrell, Pecos, Loving, Winkler, and Ward.

Teams eligible to play under ASA rules and interested in participating should contact Charles Stuckey, district commissioner, at radio station 2-10.

Senator Chadwick Is Governor For Day

AUSTIN (AP)—Senator T. C. Chadwick of Quitman Monday was the fifth man to serve as governor since January 1.

He became acting governor Sunday at 10:30 a. m. when a plane carrying Gov. Beauford H. Jester to the national governor's conference at Salt Lake City crossed the state line.

Gov. Alan Shivers was expected to return to the capital from Washington later Monday.

Chadwick became governor because of his recent election as president pro tempore of the Senate. The other two men who have served variously as governor during 1947 were Coke Stevenson and Ben Ramsey of San Augustine, former Senate president pro tem.

Mr. and Mrs. Chadwick were guests at the governor's mansion Sunday night. They were also honored at a reception at the home of Justice and Mrs. J. E. Hickman.

Major Leagues— Yankees Running Away; Win 14th Straight Sunday

Fourteen straight New York Yankees wins have turned the American League "race" into a shambles. Just as in 1946 when the Boston Red Sox ran away from the pack, the other "contenders" are so busy eliminating one another that the leaders are pulling out of sight.

Manager Bucky Harris doesn't like that sort of talk for he is fully aware of the misfortunes into which his Yanks can run. Other, and perhaps better, teams have blown longer leads at much later dates.

Harris found himself fresh out of regular pitchers Sunday so he gambled and won with old Bobo Newson, who was claimed on waivers from Washington, and rookie Vic Raschl, who was brought back to the parent club as a reward for his fine record while on option to Portland of the Pacific Coast League.

Newson, hungry for a slice of world series dough, showed his poor Washington record (4-6) was just a mistake as he turned back Chicago with five hits in a 10-3 romp. Raschl won the second 6-4.

Detroit belted Connie Mack's sinking As, 4-2 and 7-6.

Harder Wins 22nd
Mel Harder shut out the Red Sox with nine hits, 8-0, the 22nd triumph of his long career. His Cleveland staff mate, Steve Gromek, outpitched Joe Dobson, 6-2, to make it a clean sweep for the Cleveland Indians.

Only 4,848 St. Louis citizens were interested enough to show up for the Browns' doubleheader with Washington. Sid Hudson had things his own way in the 4-2 opener but the Browns finally downed the Senators, their first in eight starts, 3-2.

Boosters of a subway world series drew added support from Brooklyn's 9-1 success against Cincinnati, stretching their win string to seven.

Despite the win, the Dodgers lost ground for the Boston Braves swept two from Chicago's stumbling Cubs, 8-7, 6-5.

Ben Chapman threw his left-handed pitchers against the St. Louis Cardinals and got away with an even break. Ken Heintzelman hurled the Philadelphia club to a 4-2 nod over Ken Burkhardt in the first game but Howie Pollet later bested Oscar Judd, 3-2 in a 10-inning duel decided by Stan Musial's triple.

Pittsburgh and the New York Giants split two in the Polo Grounds. The Pirates took the first, 6-3, but lost the second game, 3-1.
