There are no plans for consideration of the bill this year in the Senate, where it has been blocked repeatedly in the past by Southern filibusters.

Called up unexpectedly, House action came over the futile objections of a group of Southern representatives who tried parliamentary devices to block a final vote. They succeeded only in delaying the showdown several hours. Pickett Opposes

Led by Representatives Rankin (D-Miss) and Pickett (D-Texas), the southerners asserted the legisla-tion invades the right of states to run their own elections and thereby violates the constitution.

Proponents said the seven Southern states that have poll taxes have used the tax to prevent large groups of citizens from voting, in violation of the constitution.

The legislation applies to primary as well as general elections and would affect only voting for Presidential and vice presidential electors and for members of Congress. It does not apply to elections for state or local offices.

Mrs. Ackerman's bid of three spades (North) indicated not only a game, but a slam invitation as well. Therefore, it would take a terrifically bad break to be set at seven diamonds. West could not be blamed for doubling instead of bidding seven spades. With ace-king combinations, he sure of at least one trick.

Ackerman ruffed the opening heart lead, led a trump to dum-my's king, ruffed a heart in his own hand and a spade in dummy then ruffed the third heart, dropping West's ace. Dummy was reentered by ruffing the second spade, and Ackerman's third spade was discarded on the queen of hearts. Then the diamond finesse was taken, and Ackerman had 13 tricks.

### Official Exchange Rate Is Costly To U. S. Visitors In Shanghai

Before they let you off the ship in Shanghai, the customs' people queue you up so you can exchange your good U. S. money for Chinese money-which is not so good. Few Americans have had much experience with dual currency. So

like a lot of money. But it isn't. better rate, the day after will. The next day when the American gets ashore, he finds that on the open market—that's the black market - the same U. S. dollar will bring 45,000 Chinese dollars. And

government got the rest.

When the American visitor leaves China he cannot convert ris Chinese dollars back into U. S. money at the official rate. He'll have to go to a black marketeer whose buying rate is not as good as his selling rate. As far as the government is concerned, the of-ficial rate of erchange is a oneway transaction.
