## Brewster Took Favors From Airline

### Europe Faces Tight Squeeze

WASHINGTON—(P)—All evidence, including Prime Minister Attlee's report to Commons, indicates Thursday that Western Europe faces a tight squeeze between now and the time the Marshall Plan can become effective. It is equally evident that no new American financial aid will be forthcoming—barring economic disaster abroad—until Congress can pass early next year on the Marshall recovery program.

Attlee's report Wednesday evidently was well received here because of the way in which it emphasized Britain's intention to survive the next few months on her own dwindling resources with a minimum of help from the United States. This was regarded as dovetailing with the Truman administration's promise to Congress that there will be no further foreign financing on a piece-meal basis and that the only workable solution is to try to promote European recovery as a whole.

That project reported a daily flowing potential, natural, of 1,230 barrels of 49 gravity oil. The new explorations for the region—which has been unofficially designated the Midway Lane field—are: Sinclair and Atlantic No. 2-66 University, to be 660 feet from north and 1,980 feet from east lines of north half of section 30, block 46, University survey. That puts it one-quarter of a mile north of the discovery well.

Thompson-Carr, Inc., contractor on the initial producer, has been given the job of drilling this step-out. Pits are being dug and rotary material is being moved in. Drilling will start in a few days. Sinclair and Atlantic No. 3-66 University will be 660 feet from south and 3,300 feet from east lines of north half of section 30, block 46, University survey. That puts it one-quarter of a mile west of the No. 1-65 University. It is carried as a location.

Sinclair and Atlantic No. 4-36 University will be 660 feet from south and east lines of north half of section 30, block 46, University survey. That puts it one-quarter of a mile east of the initial producer in that area. This exploration is also carried as a location. Each of the new projects will likely drill to about 7,600 feet to test through the Ellenburger pay horizon.

**C-E SUTTON REGION GETS 4,100-FOOT PROSPECTOR**  
Lloyd S. Parker of San Benito, has filed an application with the Railroad Commission, requesting a permit to start drilling at once on his No. 1 Mrs. Meta B. Rick, as a 4,100-foot well in Central-East Sutton County.

It will be 1,980 feet from east and 2,310 feet from north lines of section 36, block C, GH&SA survey. That places it approximately five miles west of the town of Roosevelt, which is in West Kimble County.

It is understood that the wildcat is on a lease secured by Parker in a farmout from Texas Pacific Coal & Oil Company. Unofficial source slated to dig until it finds and explores the Ellenburger. Rotary and cable tools will be used to make the hole.

**SO&G CHECKS SUB-SURFACE ON POSSIBLE STRUCTURE**  
Considerable speculation has been generated among Midland citizens regarding the activity of a portable slim-hole drilling machine operating in the south-east quarter of block 27, Homestead addition to the Midland townsite.

Standind Oil & Gas Company has been using the outfit to drill six shallow holes on the tract, to provide information on sub-surface conditions, in connection with drawing plans for the two-story office building which it plans to build on the location—the northwest corner of the intersection of West Illinois Avenue and North Colorado Street.

Clyde Moringstar, Standind geologist, who is "sitting on the well," reported to W. C. (Bill) Imbt, district geologist, that No. 5 hole encountered a crystallized green sand globule, while drilling at 33 feet in caliche and chert.

A test made on the green particle developed that it was piece of an early day beverage bottle.

**CORRECT LOCATION GIVEN FOR ANDREWS WILDCAT**  
Shell Oil Company, Inc., No. 1 Lineberry, wildcat to about 10,600 feet in Central-West Andrews County, and between the two com-

(Continued on page 6)

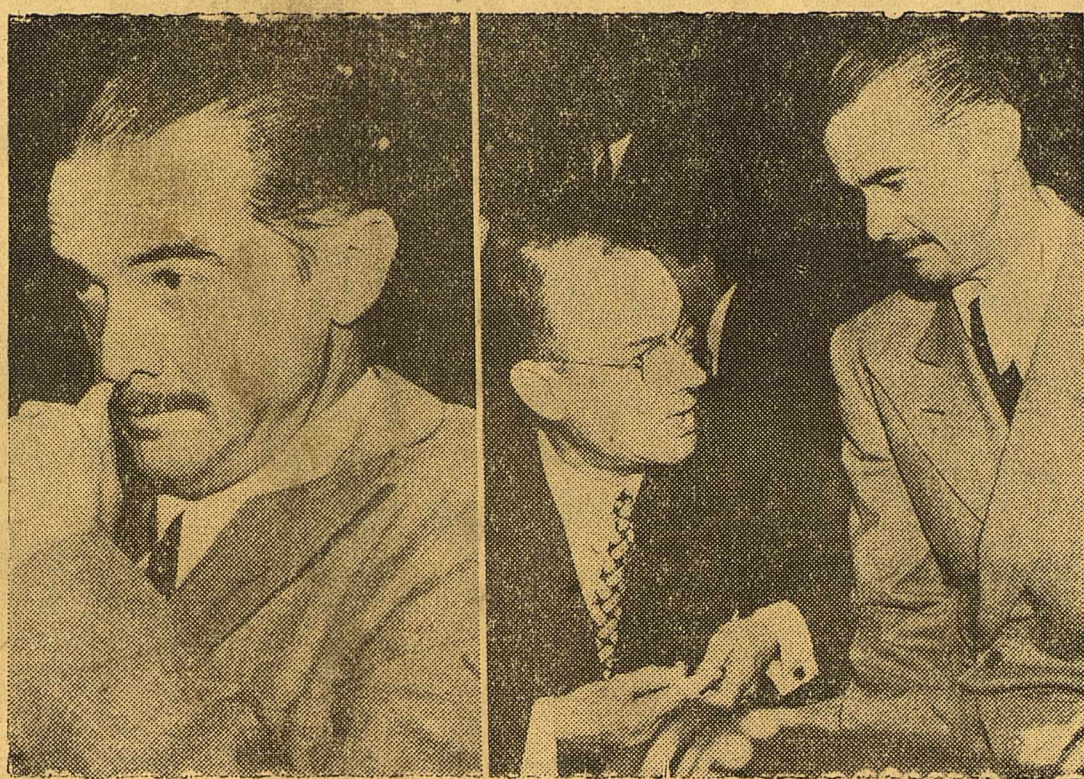

Maybe He Can Disguise Himself As A Windmill

A man wanted in Brownwood for car theft, is going to have a hard time avoiding recognition and arrest, according to a description of him received by Sheriff Ed Darnell. Said to be of "slim build," the wanted man is six feet eight inches tall.

### Hughes Before Investigation Committee

Highlights of the Howard Hughes testimony before the Senate Investigating Committee in Washington included his attack on Senator Owen Brewster shortly after taking the witness stand. Hughes, left, charged on the witness stand that Brewster offered to call off the Senate investigation of his war contracts if Hughes would agree to an airline merger. At right, Hughes pauses to confer with his attorney, T. A. Slack.

### Contract Let For Keystone Field Gasoline Plant

KERMIT — Announcement was made by the Fort Worth office of Richardson-Bass, said the Kermit plant will be designed for an initial through-put of 55,000,000 cubic feet daily, but will be laid out so that additional equipment can be added each year until the expected peak capacity of 100,000,000 cubic feet per day has been reached.

**First of Series**  
This plant, Matheny said, is the first of a series of manufacturing projects which Richardson & Bass expect to build during the next five years. Most of these manufacturing plants will be located in the Permian Basin of West Texas where Sid Richardson, pioneer oil operator, holds substantial oil and gas reserves.

Due to slow deliveries of all types of steel and tubular goods, Matheny continued, actual construction probably will not get underway until late next Spring or early Summer, and the plant probably will not be in operation until late Fall, 1948. A construction crew, ranging from 50 to 300 men will be required for about a six months period. The plant will require an operating force of 25 or 30 permanent employees.

### Four Legislators Ask Senator To Resign

AUSTIN—(P)—Four members of the Legislature Thursday joined in statements demanding that State Senator James E. Taylor of Kerens resign in view of his recent acceptance of a full-time public relations job with the Texas Manufacturers Association.

They were Reps. George Nokes of Corsicana, Elmer McVey of Teague, James C. Spencer of Athens, Jerry T. Stockard of Frost.

The House members sent the Kerens senator a telegram saying: "If the report is true that you are to be director of public relations of the Texas Manufacturers Association, we as representatives of the same people whom you represent as senator from the Sixth District feel that you should resign as senator."

**To Continue In Office**  
Taylor's acceptance of the post as public relations director for the TMA earlier this week was accompanied by a statement from the senator saying he would continue in public office.

Taylor, chairman of the powerful Senate Finance Committee, represents the district in which Gov. Beauford H. Jester's home is located.

**HOUSTON—(P)—**State Senator James E. Taylor of Kerens, without mentioning a demand made of him by four members of the Texas Legislature that he resign, said Thursday he intends to continue as a member of the State Senate.

**ATTEND MIDLAND YOUTH REVIVAL—AUGUST 8th, 9th, and 10th; FIRST BAPTIST CHURCH at 8 p. m.** (adv.)

### Four Killed As Plane Plunges Into Chimney Of Beacon Oil Plant

EVERETT, MASS.—(P)—Thomas Mandell, 46, an official of the Carrier-Mandell Air Conditioning Corporation, plunged to a fiery death with two daughters and the pilot of a chartered plane when it shot down into a gas-fume chimney of the Beacon Oil Plant Thursday.

Police said the motor of the small craft apparently "conked out" over the big vent and "dropped in like a dead pigeon."

Mandell was the son of George S. Mandell former publisher of the old Boston Transcript. His daughters, Anne, 22, and Harriet, 19, and the pilot, Nelson Pell, also were killed in the crash.

The battered bodies were found in debris at the bottom of the flue. Witnesses reported that the crash was followed by a series of blasts, apparently caused by exploding gasoline in the plane.

### To Widen Bridges On U. S. 80 Highway

ABILENE—The widening of four narrow bridges on U. S. 80 Highway between Merkel and Trent is among projects for which the state will open bids August 19-20, the State Highway Department announced.

The bridges are located from a point six miles east of Merkel to Trent. Workmen already have begun widening of bridges on U. S. 80 nearer Abilene.

### Registration Of High School Students Will Start Here Next Week

Registration dates for Midland High School students were announced Thursday by Principal Charles F. Mathews who urged students to register on the days assigned them. He invited parents to accompany students for consultations with school officials.

Registrations will get underway Monday and will continue through August 22 from 8:30 a. m. to 5 p. m. daily.

Seniors whose last names begin with the letters A through G will register Monday; H through R, Tuesday, and S through Z, Wednesday.

### Controls Will Be Placed On Steel Exports October 1

WASHINGTON—(P)—The United States will revert October 1 to its strict wartime controls over steel exports.

These require government approval of both the country to receive the metal and the use there to which it is to be put.

Since soon after the war American exporters have been permitted to lump their orders and ask permission to ship a specific tonnage.

M. E. Sweeney, chief of the Commerce Department's Export Control Division over general products, told a reporter Thursday the return to the wartime allocation method is necessary because of the large sums the United States is spending on foreign reconstruction.

First consideration in issuing export licenses, Sweeney said, will be given to requests for shipments aimed at rebuilding basic industries most likely to move the purchasing nations back into financial good health.

### United States And British Protest Refinery Seizure

WASHINGTON—(P)—The State Department announced Thursday that the United States had joined in a strong British protest to the Russians against seizure of the Lobau Oil Refinery near Vienna.

Ownership of the refinery has been claimed by the Americans and British as being vested jointly in the American Vacuum Oil and British Shell Oil Companies.

The Russians seized the property last Saturday while a four-power Austrian treaty commission was looking into questions of German assets and their susceptibility to seizure by the Soviets.

### CHICAGO — (AP) — William P. Odom, 27 year old former British ferry command officer, took off at 11:53 p. m. Thursday in his converted twin-engine Army bomber in an effort to halve the late Wiley Post's 1933 solo globe circling time record.

MEXICO CITY — (AP) — Additional U. S. equipment has been ordered by the joint U. S.-Mexico Commission to combat foot and mouth disease among Mexico's animals in order to increase slaughter of infected and exposed animals from the present 32,000 monthly to 176,000.

ROME — (AP) — The U. S. Army public relations office announced Thursday two American and British officers of the Allied Military Government in Trieste and a score of Trieste contractors had been rounded up on charges of irregularities in the public works division.

BERLIN — (AP) — Germans in the combined Anglo-American Occupation Zones received 488,500 tons of foodstuffs valued at more than \$61,500,000 from the United States during July, the U. S. Military Government announced.

## Hughes Says Statements Of Solon 'Untrue'

WASHINGTON—(P)—In an angry clash, Senator Ferguson (R-Mich) accused Howard Hughes Thursday of "trying to discredit" the Senate committee investigating Hughes' warplane contracts.

WASHINGTON—(P)—Howard Hughes contended to Senate investigators Thursday that Senator Brewster (R-Me) "made many statements which are obviously untrue" when denying Hughes' charges the senator once made an airline merger proposition.

One "untruth," Hughes declared, was Brewster's disclaimer of any connection, direct or indirect, with Pan American Airways.

"Most people in the aviation industry know that is untrue," Hughes declared. Previously, in testimony to the Senate War Investigating Committee, Hughes had called "a pack of lies" Brewster's denial of Hughes' story of the "proposition."

Brewster is chairman of the War Investigating Committee. Hughes had called "a pack of lies" Brewster's denial of Hughes' story of the "proposition."

During the forenoon, Hughes had directed to Brewster a series of written questions, most of them obviously aimed at developing what relations there have been between Brewster and Pan American.

The Maine senator acknowledged friendship with some Pan American officials and said he had visited a residence maintained here by Pan American.

Brewster steadfastly maintained that there is no truth in Hughes' charges that Brewster once offered a "deal" to call off the Senate investigation of Hughes' \$40,000,000 warplane contracts.

Hughes said Brewster, a Republican, proposed to drop the inquiry by the Senate War Investigating Committee if he (Hughes) would agree to a merger of his Trans World Airlines with Pan American.

Brewster went back to the chair to answer a series of written questions Hughes gave to Chairman Ferguson (R-Mich) of the Senate subcommittee.

**Brewster Replies**  
In his reply, Brewster: 1. Acknowledged that he had eaten at least "three breakfasts in the last few months" at a special residence maintained here by Pan American Airways as a guest center for officials and employees.

2. Agreed that Sam Pryor, a vice president of Pan American and former Connecticut Republican national committeeman, is a close friend of his.

3. Said it was true he had spent two Thanksgiving vacations of about one week each at a home Pryor had at Hobe Sound, Fla. Brewster said Pryor was not there and he (Brewster) had purchased his own food and borne all expense.

4. Acknowledged that he once accepted free transportation in Pan American's special private airliner from Washington to Raleigh, N. C. He said he went to Raleigh to confer with the late Senator Bailey (D-NC) at Bailey's request about aviation legislation.

The hearing was thrown into an uproar soon after the committee convened. In separate appearances on the witness stand Wednesday, Hughes (Continued on page 6)

### Work Stoppage Is Ordered By Jewish Leaders

JERUSALEM—(P)—Jewish leaders decreed a complete three-hour work stoppage Thursday afternoon in protest against the interment by British authorities of three Jewish mayors and some 40 other Jews for the avowed purpose of checking terrorism.

Violence continued meanwhile. British authorities announced 12 oil tank cars were wrecked by a mine explosion at Ras El Ain, between Tel Aviv and Haifa. The blast ripped up 300 yards of railway track, but caused no casualties.

An extraordinary meeting of Vaad Leumi (the Jewish national council) and other leaders decided upon the work stoppage in the Jewish areas of the Holy Land. They ordered all Jewish shops, restaurants and places of amusement closed from 2 p. m. to 5 p. m.

The leaders at the same time called for the abolition of emergency regulations and the reestablishment of the supremacy of civil law throughout Palestine. The group repeated a pledge to fight Jewish underground terrorist groups.

**WEATHER**  
Partly cloudy Thursday afternoon, night and Friday. Little change in temperature. Maximum temperature Wednesday was 92 degrees, minimum 71 degrees. Minimum Thursday was 70 degrees.

**BUILDING COMPANY DIRECTORS TO MEET**  
Directors of the Midland Building Company will meet at 3:30 p. m. Thursday in the directors' room of the First National Bank. R. L. Wood, president, announced.

**ATTEND MIDLAND YOUTH REVIVAL—AUGUST 8th, 9th, and 10th; FIRST BAPTIST CHURCH at 8 p. m.** (adv.)

# Quarterfinals Are Scheduled

Dowell Incorporated of Midland, one of the favorites, came out of the chute for the first time in the TAAF district tournament of softball here Wednesday night and promptly set down Stanolind of Odessa, 7 to 4.

In the other battle of the night, Big Spring Hardware beat Midland JayCees, 4 to 1, with only one hit.

The powerhouse orange-suited Dowells were too much for the Stanolinds, all the way. Errors ruined the Midland Jakes although they out-hit the Big Spring Hardware.

Thursday night the quarterfinals of the Big West Texas tourney begin. Here is the card: at 8:15 p. m., Shell Oil of Midland

meets Moore Brothers of Odessa; at 9:30 p. m., Wink All-Stars engage the Pyote Rattlers.

The Wink nine is seeded favorite to win the tourney with still opposition from Moore Brothers of Odessa and Dowell Inc. of Midland.

The Wednesday night box scores:

Big Spring	AB	R	H	E
Teague, ss	4	1	0	0

## Hoot Mon Wins Hambletonian

GOSHEN, N. Y.—(AP)—Mrs. Elizabeth (Arden) Graham, the lipstick princess, has been tossing her cosmetics coin against the running horse sales in large chunks for several seasons now. And this year she finally got the necklace of roses in Kentucky with Jet Pilot, a little number for whom she'd laid a mere \$41,000 on the line.

Wednesday, in the trotters' derby—the Hambletonian—Mr. and Mrs. James B. Johnson, who breed the sulky-pullers on their Lexington, Ky., farm and show horses on their Rochester, Mich., acres, came up with Hoot Mon, who'd only cost them \$50,000 a year ago, as their hope to finally bring their colors home.

Hoot Mon was the highest-priced gee-gee ever to run in a Hambletonian. And he not only meandered home in front of the Dixie Flyer, Red Hot Rodney, in two out of three heats, but he ran the fastest Hambletonian of them all—a mile in two minutes flat—to do it. It wasn't only a Hambletonian record, in fact, but equaled Greyhound's mark for the fastest time ever posted in a race in all trotting history.

## Everybody's in the Act

Action! Camera! Everybody's in the act as Harry Walker slides into third base on a triple in the ninth inning at Wrigley Field. Al Garlick signals that the Phillies' major-league batting leader is safe as Stan Hack pins the ball on him. Backing up the third baseman is Eddie Waitkus, 36, and pitcher Paul Erickson, 37. Manager-coach Ben Chapman raises his hands, as three lens lads shoot. Walker perished, but Dutch Leonard shut out the Cubs, 3-0.

2—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, AUG. 7, 1947

## Cats Nip Indians

BALLINGER—Home runs beat the Midland Indians here Wednesday night. The score was 10 to 6.

Ronnie Harrison, Ballinger left-fielder, knocked them. He hit the first one in the first inning to break a 2-2 tie and sent his mates ahead, 4-2, as one man was on the sacks ahead of him. Then he hit another circuit smash in the seventh frame with a mate aboard.

Buddy Hancken, Cat manager, also hit a home run. His first at home for the season.

Hank Ramsdell hit a home run for Midland. Eddie Melillo and Johnny Alvis hit Indian triples.

Ballinger's big margin of four runs in the first inning was never erased by Midland.

The box score:

Midland	AB	R	H	O	A
H. Melillo, 2b	5	1	2	1	1
E. Melillo, ss	4	2	3	2	3

## Assault And Armed To Complete Aug. 30

CHICAGO—(AP)—Two big money-winning horses—Assault and Armed—will race each other at Washington Park on Aug. 30 for the first time in their careers in a \$100,000 winner-take-all match race.

In the richest match event in turf history, each horse will carry 126 pounds over a mile and a quarter route. The race may also turn out to be a spectacular riding duel between two of America's best riders—Eddie Arcaro on Assault and Doug Dodson on Armed.

Armed has poured \$568,755 into the till for his owner, Warren Wright of the Calumet Farm Stable. Assault has earned \$623,370 for his owner Robert J. Kieberg of Texas.

## Major Leagues—Brooklyn Drops Another Game; Cardinals Win

The frantic Brooklyn citizenry was wondering Thursday whether the coroner would supply an affidavit to the effect that the current Dodger "corpus delicti," which has dropped five of its last six games, is the same body which boasted a 10-game lead only a week ago.

Wednesday night the Boston Braves made it two out of three with a 7-3 victory over the Braves, the very same bunch who entered St. Louis last week with a seven-game lead and walked the runner-up Cards three straight times to apparently sew up the National League flag.

While Brooklyn has been getting better three straight times in Chicago and twice in three starts in Boston, the Redbirds have roared back with six straight victories, including Wednesday night's 6-3 win over Cincinnati, to trail by five games.

With Larry Jansen, the Pacific Coast League rookie righthander continuing his excellent mound work, the New York Giants knocked off the last place Philadelphia Phillies, 5-2 at the Polo Grounds.

The Pittsburgh Pirates snapped a 2-2 tie with a three-run rally in the sixth and added two more in the ninth to defeat the Cubs in Chicago 7-2.

Bebé Newsom, the much traveled veteran righthander, suffered his first setback as a member of the New York Yankees when the Athletics nipped the Bronx Bombers, 5-3 in Philadelphia.

The Detroit Tigers moved into second place 13 games behind the American League leading Yankees by taking both ends of a doubleheader from the Cleveland Indians 13-6 and 7-5.

The Boston Red Sox dropped into third place one game behind the Tigers when Washington won for the second straight night 1-0.

The Chicago White Sox bunched five of their 10 hits in the second inning to score five runs and defeat the Browns in a game in St. Louis 7-3.

## McCollum Is Slated To Head Coaches

EL PASO—(AP)—Gene McCollum of Fort Neches was in line Thursday for elevation to the presidency of the Texas High School Coaches' association as its annual coaching school neared its close.

The coaches are scheduled to follow precedent and make the vice president (McCollum) president for 1947-48.

Four new directors were elected at regional meetings. They are T. E. Shotwell, Abilene; Maco Stewart, Longview; Standard Lambert, Austin; and Joe Coleman, Odessa.

## Longhorn League—

## Broncs Pull Away From Midlanders

By The Associated Press  
Big Spring is rapidly pulling away from the rest of the Longhorn League, holding a four game lead over the Midland Indians Thursday.

The Broncs added Sweetwater to their list of victims Wednesday night, pounding the third pitchers for 15 hits and a 17-9 victory.

In other games, Ballinger beat Midland, 10-6, as homers by Ronnie Harrison and Buddy Hancken set the pace. Ed Conniff, 18-year-old southpaw, held Vernon to two hits as Odessa took a 4-1 decision. He walked only one man.

## Top Texas Leaguers Suffer Beatings

By The Associated Press  
The three top teams of the Texas League had something in common Thursday—decisive linnings.

It practically poured runs and hits Wednesday night, with Shreveport pounding Houston, 14-3; Tulsa walloping Dallas, 17-5; San Antonio downing Beaumont, 7-3 and Oklahoma City defeating Fort Worth, 8-4.

The league leading Houston biffed fell apart before the onslaught of fourth place Shreveport—the Sports racking up 12 runs in the second and third innings. Bruz Hamer helped win his own ball game by collecting three singles.

The biggest outburst came at Dallas, with Tulsa picking up 22 base hits.

## Gremlins Beat Bulldogs, 4-3

The Gremlins, American Legion team of Odessa, beat a nine of "summer" Midland Bulldogs, 4 to 3, in Indian Park Wednesday night. The game was an abbreviated twilight tilt of only four innings.

### Lucky Seven Follows F. H. 'Jack' Wilmoth Birthday Celebrant

Thursday marks a "lucky seven" year for F. H. (Jack) Wilmoth of Midland, who celebrates his birthday at a barbecue in Crane with his family. Wilmoth is 70 years old in this year, 1947, thus he was born on the seventh day of the seventh month in the year, 1877.

Jack Wilmoth is able to add the seventh seven to his record, though because he has resided in Midland 37 years.

Mr. Wilmoth and his wife will go to Crane Thursday to visit their son, Haden Wilmoth, who is honoring his father with a barbecue. The Wilmoths will be accompanied by their two daughters, Mrs. Bill Baker and Mrs. Dick Whitson, of Midland. Also present will be another daughter, Mrs. Gail W. Hensing of Anthony, N. M.

### McCamey 4-H Girls Attend Encampment

McCAMEY — Between 30 and 40 McCamey 4-H Club girls, with their agent and sponsors, left this week to attend their first annual encampment at Comanche Springs Park in Fort Stockton.

A dress review will be held depicting dresses of their own handiwork and will be judged according to the quality of their work and the suitability to the wearer.

The girls will assist with the meal preparation and each night will be divided into groups, with one group entertaining the others with extemporaneous programs. A feature of the last night in camp will be a 4-H candle lighting ceremony in which all attending will take part.

Swimming also is a feature on the program.

Accompanying the girls are Mrs. J. R. O'Callaghan of McCamey; Mr. and Mrs. T. L. Reed of Texas; and Mrs. Myrna Holman, Upton County home demonstration agent.

### Jana Clayton Feted On Third Birthday

Mrs. Doyle Clayton entertained a group of children Tuesday afternoon at Pagoda Park, honoring her daughter, Jana, on her third birthday.

After photographs were made, the group was presented with candy, baskets filled with gums and balloons, and ice cream and cake.

Among those present were Eva Mae Fuller, Sandy Clark, Walter Lewis Avey, Peggy Foutch, Martha Clark, Beverly Fuller, Carol Clark, Christy Clayton, and the honoree Mrs. Walter Avey, Mrs. J. Clark, and Mrs. Jack Lubis assisted with the serving.

### Medical Test Proved This Great to Relieve MONTHLY FEMALE PAINS

Are you troubled by distress of female functional monthly disturbances? Does this make you suffer from pain, feel nervous, restless, weak, at such times? Then try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms!

In a recent medical test Pinkham's Compound proved remarkably helpful to women troubled in this way. It's what Doctors call a uterine sedative. It has a grand soothing effect on one of woman's most important organs.

Taken regularly, Pinkham's Compound helps build up resistance to such distress. Also a great stomachic tonic!

# SOCIETY

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, AUG. 7, 1947—5

### Girl Scout Leaders Invited To Visit New Girl Scout Camp

Midland Girl Scout leaders are invited and urged to attend the open house at the new Mitre Peak Girl Scout Camp near Fort Davis Sunday between the hours of 10 a. m. and 4 p. m., Mrs. C. E. Bissell, Midland Council commissioner, said Thursday.

Members of the Pecos Girl Scout troops will serve as escorts in showing visitors over the camping area. Mrs. Bissell said the campsite is one of the most beautiful spots in the Davis Mountains and that every Scout leader should visit and inspect the camp if at all possible.

Those planning to attend are asked to contact Mrs. Bissell.

### Campus Frock

Send an additional twenty-five cents for a copy of the Fall and Winter FASHION. It's filled with smart, wearable styles, the latest fashion news, special features. Free pattern printed in book.

### New Members For McCamey B&PW Club

McCAMEY—Five new members were elected at the regular meeting of the McCamey Business and Professional Women's Club this week. They are Mmes. Lottie Haring, Anne Parker, Madge Barnett, Hattie Ramsey and Zadie Brooks.

Plans were made at the meeting to attend the District Eight conference in Fort Stockton August 31.

New officers elected to fill existing vacancies are Mrs. Ruby Braly, first vice-president; Mrs. Oquilla Holmes, second vice-president; Miss Jane McLean, reporter; and Mrs. Gene Plumlee, corresponding secretary.

### FORMER CITIZENS VISIT IN MIDLAND

Capt. and Mrs. Cecil Martin are Midland visitors. They are former citizens here. He is a former Air Corps trainee of Midland Army Air Field. She is the former Bing Barrett and worked at the Midland Hardware and Furniture Company.

Captain Martin now is stationed in Florida. He is a pilot and flew in the European air war.

### BEAUCHAMP VISITOR LEAVES

Jane Walker of Houston returned to her home Thursday by plane, after a two-month's visit with her uncle and aunt, Mr. and Mrs. C. W. Beauchamp, manager of El Campo Courts.

### VISITS MIDLAND

Stoney Wall of Lubbock visited in Midland Thursday. He is an official of the West Texas Gas Company.

### Clean DENTAL PLATES

This Easy Way . . .

At last, a scientific way to clean dental plates and bridges. KLEENITE cleans. Just put your plate in a glass of water. Add a little quick-acting KLEENITE. With magic-like speed, discoloration, stains and denture odors vanish—the original clean brightness is restored! It's easy, economical and safe. Ask your dentist for KLEENITE today.

**KLEENITE the Brushless Way**

Get KLEENITE today at Service Drug Store, City Drug Store, Tull's, Midland, Palace and all good druggists.

### Husbands! Wives! Want new Pep and Vim?

Thousands of couples are weak, worn-out, exhausted solely because body lacks iron. For new vim, vitality, try Oxy-Gen Tonic Tablets today. Contains iron, too, may need for pep; also vitamin B; Be delighted—or money back. For sale at all drug stores everywhere.

### Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

### Talk On Indian Girl Highlights Meeting Of Wesley Bible Class

Mrs. John Ficke's talk on the girl from India, who spent a night in her home last month, highlighted the meeting of the Wesley Bible Class Wednesday at the home of Mrs. Emma Allen Bailey, 607 North Colorado Street.

Mrs. Amelia Hawkins was co-hostess for the meeting, which also featured a devotional, "From God In Nature," given by Mrs. H. M. Regil, who closed the meetings with a prayer.

Following the program, the group played croquet and heard Irene Bailey, daughter of the hostess, present readings in the garden of their home.

Refreshments of ice cream, cake, and lemonade were served to Mrs. H. M. Regil of Fort Worth, Mrs. Mollie McCormick, Mrs. M. L. Wyatt, Mrs. Will Long, Mrs. T. A. Pannin, Mrs. M. D. Johnson, Mrs. F. H. Wilmoth, Mrs. Minnie Crumley, Mrs. S. H. Gwyn, Mrs. J. M. Hughes, Mrs. H. S. Merrell, Mrs. L. C. Stephenson, Mrs. Amelia Hawkins, Mrs. John Ficke, and the hostesses.

### McCamey News

McCAMEY — Mrs. Harvey Eckols has returned from a weekend visit to Abilene where she visited in the home of her daughter.

Mrs. Wilbur Harris, Mrs. Jeff Turpin and Mrs. Jack Ott attended a district board meeting of the Women's Missionary Union held at the Paisano Encampment recently.

Members of the VFW Auxiliary will hold their regular meeting Thursday, August 12. Plans for next year's work will be made and standing committees will be appointed. Mrs. Louise Gibson is president.

Leonard William St. John, Jr., was born Sunday to Mr. and Mrs. Leonard St. John. Mr. and Mrs. George N. St. John are the paternal grandparents and Mr. and Mrs. G. Gentry are the maternal grandparents.

Joseph Steadman Langdon was born Monday, July 28, to Mr. and Mrs. Jim Langdon in a San Angelo hospital. He weighed six and a half pounds.

Sells Cafe Interest

Quebe Alford announced Tuesday the sale of his interest in the Club Cafe to Mr. and Mrs. J. L. Adrian of Girvin and their son, Dr. Jim L. Adrian, of McCamey.

Paul Moore of Hearne, co-owner of the Owl Drug Company here, is in McCamey to assist in operating the store while employees are on vacations.

H. Y. (Slim) Walker of Alpine visited friends here Wednesday.

Mr. and Mrs. Larry O. Grounds and children, Danny, Linda Kay and Sharon, left recently for Seward, Alaska, where Mr. Grounds will be minister of the Church of Christ. He has been associated with the McCamey Church of Christ the last 11 months.

The regular meeting of the Girls Auxiliary of the First Baptist Church was held last Monday in the home of the sponsor, Mrs. Wilbur Harris. Plans were made to hold an August Christmas party for the children of Japan at the meeting next Monday. At that time, all members will bring gifts which will be sent to Japan through the First Baptist Church Girls Auxiliary organization. Members of the WMS have been invited as special guests.

### MIKE JONES IS IN BIG SPRING HOSPITAL

Mike Jones, 6-year old son of Mr. and Mrs. Leeman Jones, 707 South Colorado Street, is in a Big Spring hospital where he underwent surgery recently. He is recovering rapidly.

American railroads average 100 pounds of freight hauled 310 miles every day for every inhabitant of the United States.

### Youths Complete Final Revival Plans At Luncheon-Meeting

Young people of the First Baptist Church held a luncheon Wednesday to complete final preparations for the Youth Revival scheduled Thursday, Friday and Saturday.

Barbara Brown, general chairman, who presided, heard reports from Bill Ward, Leroy Hall, Nadene Clements, Edith Collings, and Faye Shelburne.

After several choruses were sung, Barbara Brown read the scripture, followed by a trio, Barbara Brown, Ruth Hall, and Genora Brown, which sang "My Sins Are Gone" and a negro spiritual.

Attending the luncheon were Gerald Martin, Raymond Hall, Robert Sutton, Mr. and Mrs. James Colvin, Clara Belle Kelton, Bill Johnston, Ruby Gilbert, Nellivie Clark, Martha Preston, Ruth Hall, Helen Caffey, Faye Manville, Ruby Hale, Dorothy Raines, Walter Sutton, Leroy Hall, Bill Ward, Anna Joyce Streeter, Wilda Drake, LaMoine Tabor, Genora Brown, Barbara Brown, Nadene Clements, Edith Collings, Johnnie Butler, and Faye Shelburne.

### Mrs. J. S. Fleming Honored With Shower

Mrs. J. S. Fleming was honored Tuesday with a pink and blue shower at the home of Mrs. L. L. Jones.

The house decorations followed a color scheme of pink and blue, and the favors were tiny cradles. Games were played and refreshments were served to Mrs. Hazel Lester, Mrs. Clyde Johnson, Mrs. Fred Osborne, Mrs. Myrtle Wood, Mrs. Archie Booth, Mrs. Herman Nazworth, Pearl Bush, Mrs. Nancy Tisdrele, Mrs. C. W. Fountain, Mrs. C. M. Tunnell, Mrs. M. J. Koen, Mrs. H. L. Wood, and Mrs. B. B. Smith.

Those sending gifts were Mrs. J. W. Carroll, Mrs. John William, Mrs. Tom Bush, Mrs. Joan Merritt, Mrs. Glen Lettwich, Mrs. Judy Hall, Mrs. Albert Logsdon, and Mrs. Juanita Barber.

English historians say that John Cabot and his son Sebastian reached the North American continent a full year before Columbus.

### Five Years After Marines Wrested Guadalcanal From Japanese, Island's Land Is Almost Re-Won By Jungle

Photos from U. S. Marine Corps and Gilbert Cant

Battle Scars. This wrecked Jap ship was sunk on beach at Guadalcanal during early action in the war. Now vegetation has replaced Marines, birds rule the sky, and fish swim quietly in Iron Bottom Bay.

**GUADALCANAL**—(NEA)—The Battle of Guadalcanal is nearly over. The final winner will be the jungle.

Already the jungle has reclaimed most of the precious land U. S. Marines wrested from it and the Japanese when they landed there five years ago, on Aug. 7, 1942.

The U. S. offensive against the jungle ended simultaneously with the signing of peace with the Japanese in Tokyo. From that time on, American forces left on the island fought a delaying action against the encroaching, innocent-looking morning glories and passion flower vines that were the shock troops of denser vegetation. Occupation forces wanted time to wind up the dismantling of extensive bases, time to get men and equipment off the island.

They moved quickly, but the jungle moved faster. The perimeter of the malaria control area was the new battle line. When the Japanese surrendered, this covered its biggest area, 22 miles long, five miles deep from the coastline. It included three bomber and two fighter fields, hospitals, depots, repair yards, ports and a cemetery.

As the jungle moved in, and troops retreated home to peace, the perimeter narrowed. Two bomber bases went back to the jungle. Green crawled through and over the marston mats of the fields and termites began their slow but definite job of chopping down the control towers, silver by silver.

By the beginning of 1946, what U. S. property was left was entrusted to Col. Robert G. Howie of the Army, 14 other officers and 97 men and a Fijian dock company of 318 men and 12 British officers. They loaded surplus equipment at a feverish pace whenever a ship reached the island.

Last February, most of the salvable surplus property had been shipped out and the last U. S. Army maintenance unit withdrew.

Today, the malaria perimeter has closed in even more tightly. It barely extends beyond the cemetery at Lunga where a thousand Marines, a thousand sailors and 1400 soldiers are buried. Not all of these died at Guadalcanal. Many were moved

### Upton County Tax Collections High

**McCAMEY**—The annual report of H. E. Eckols, Upton County tax assessor-collector, made to the Comptroller of Public Accounts, shows that 98.62 per cent of all taxes levied in Upton County for state and county purposes were collected for the fiscal year which ended June 30.

Only \$1,682.85 remains uncollected out of a total charge of \$122,386.91.

### Druggists Elect New Officers At Meeting

**FORT WORTH**—(P)—Members of the Texas Pharmaceutical and West Texas Pharmaceutical Associations elected officers Wednesday night as the two groups closed their joint convention.

Eugene M. Caskey of Jacksonville was elected president of the Texas group, succeeding C. B. Williams of Waco.

Robert Marshall of Temple was named first vice president and G. D. Birdwell of Richmond second vice president.

Galveston was chosen as the 1948 convention city.

The West Texas Association elected Wynne Collier of Tahoka president. He succeeds Lester Short of Midland.

Thurman Gholston of Amarillo was made vice president and Lee Stinson of Snyder secretary-treasurer.

### Survey Is Ordered On Road To Big Bend Park

**LAMESA**—(P)—A state highway engineer has been instructed to survey the proposed route of the highway through Texas to the Big Bend National Park, County Judge Kilmor Corbin, president of the Broadway to the Big Bend Highway Association, said he had been informed.

The survey on the proposed route from Quanah to Presidio would show the amount of the road already built and usable and would make an estimate of the cost of building the remaining sections.

The State Highway Department ordered the survey. Corbin said the department also is asking for more information on the proposed connecting highway from the Red River to the northern border of Oklahoma.

### COTTON

**NEW YORK**—(P)—Cotton futures Thursday noon were 50 cents to \$1.70 a bale higher than the previous close. Oct. 33.87, Dec. 33.35 and March 33.05.

Fragments of Hadrian's wall, built 2,000 years ago across northern England to defend it against attacks by the Picts are still an important tourist attraction.

### Ken Regan Warns Against Federal Control Dangers

**GOLDSMITH**—Ken Regan of Midland, candidate for congressman, Wednesday afternoon warned against the danger of federal control of the oil business and said the Permian Basin needs its own representative in Congress to contest such a move.

Regan spoke to oil field workers in the Notrees and Goldsmith areas as they came off their jobs. He was campaigning in Odessa Thursday. He will speak over station KRIG, Odessa, at 6:15 p. m. Thursday.

"Some people in Washington," he said, "would like to have the federal government take over the oil business. They'd fix it so every time you wanted to drill a hole or cap a well, you'd have to go to Washington. It's time the Permian Basin had a man thoroughly familiar with the oil business to represent them in Congress against such a move."

Regan pointed out that five of the seven candidates for the El Paso area and said he was the only candidate "familiar with and directly connected with the oil business."

### Yates Crude Shipped By Rail From McCamey

**McCAMEY**—Joe Guthrie, Sr., head of the Shell Tank Farm in McCamey announced that more than 60,000 barrels of shallow Yates crude oil has been shipped by rail from the Shell loading rack during the last two months.

The loading rack was erected so this grade of oil could be shipped by rail to the Shell's refinery at Roxana, Ill., for processing.

This particular type of crude is easily contaminated by other oils and necessitates special handling. The oil is pumped into the McCamey tank farm and is boosted on to the loading racks for shipment by tank cars.

Guthrie said seven cars of crude a week, or about 150 cars a month, are shipped from McCamey. There are seven risers for loading the racks here.

O. P. Crick of the Shell Tank Farm Division, is in charge of the loading rack.

### DIES ON VACATION TRIP

**CARLSBAD, N. M.**—(P)—A vacation trip ended in death for Frank Holter, 72, retired farmer from Lockhart, Texas, who died of a heart attack Wednesday while going through the Carlsbad Caverns with a tourist party.

Under her "austerity" program to meet post-war problems Britain is reducing her livestock population to grow more cereals.

**Midland Delegates Back From Lions Convention**

James L. Daugherty and Ernest Sidwell returned late Wednesday from San Francisco where they attended the annual convention of Lions International as delegates of the Midland Lions Club. Daugherty is president of the club here and Sidwell is a director. They said the San Francisco convention established new records in attendance, program, interest and accomplishments.

En route home they visited Sidwell's sons, Bill of Cody, Wyo., and Roger of Boulder, Colo. They also visited Yellowstone National Park.

A report on the convention will be made by the delegates at a club meeting soon.

**Polio Decrease In Sight For Nation This Summer After Four Bad Years**

By FRANK CAREY Associated Press Science Reporter WASHINGTON—(AP)—After four bad polio years, a break is in sight for 1947, a U. S. Public Health Service official reported Thursday.

At that same time, however, he urged the public to observe the usual precautions during the rest of the "infantile paralysis" "season" which runs from June through September.

Reporting a total of 1,955 cases this year up to August 2, compared with 5,450 for the same period last year, the official told a reporter: "It is not really too late for a sharp rise—that is, a fairly limited explosive outbreak—in a particular locality of the country."

"But, from the figures to date this year, the indication is that the high incidence of the past four years for the country as a whole will be broken."

**Greek Warning Spurs Council**

LAKE SUCCESS—(AP)—Spurred on by Greece's warning that she would be swept into the Russian sphere unless the United Nations acted, Security Council delegates Thursday explored new avenues in efforts to reach agreement on quelling Balkan disorders.

Greek Ambassador Vassili Demetris said Russia's veto of the American plan for a watch-dog commission in the troubled Balkans clearly indicated Moscow's aim.

"The object is to give the appearance of a solution and to lull the world into a false sense of security until it is too late—until the newspapers have reported that it is all over and that one more country has been reduced to vassalage," Demetris told the delegates Wednesday night in one of the bluntest attacks ever made on Russia in the council chamber.

"The moment will come when there will no longer be any frontiers between Greece and her northern neighbors," he concluded.

With an air of pessimism delegates set up a subcommittee of seven nations to go over all proposals submitted and try to find a common ground. The first meeting was set Thursday with a deadline of next Monday for a report.

1916 Was Worst Year Full year case totals for those four years were: 1946, second worst epidemic year on record—25,247. (In 1916, there were approximately 30,000.) 1945—13,619 cases. 1944—19,029. 1943—12,449.

For the week ended August 2, there were 219 new cases compared with 167 for the preceding week and 1,284 for the corresponding week last year.

States which have reported the largest number of cases so far this year, together with comparative figures for last year, are: California, 467 this year, against 411 last year; New York, 147 against 223; Texas, 105—547; Illinois, 97—327; Ohio, 63—155; Michigan, 62—93; Pennsylvania, 59—62; Florida, 55—399; Nebraska, 53—108; and Minnesota, 49—623.

**British War Bride Goes Home To Die**

WESTOVER FIELD, Mass.—(AP)—A British war bride was homebound Thursday aboard an Army transport unaware that doctors have given her only a few months to live.

The former Nina Maude Willgrass of Norwich, England, wife of an American Air Forces veteran, took off for Frankfurt, Germany, accompanied by her husband, Charles Billie Delcure, 23, Magnolia, Texas, sawmill worker, and their four-month-old daughter, Carol.

Government officials arranged the Army transport flight when crowd-transatlantic schedules threatened to halt their trip to England.

Acting on the advice of physicians that his wife would be "happier" at her Norwich home, Delcure induced her to make the trip on the pretext her father had obtained a job for him there.

Physicians decreed she should not be told the nature of her illness. She is suffering from cancer.

**British War Bride Goes Home To Die**

WESTOVER FIELD, Mass.—(AP)—A British war bride was homebound Thursday aboard an Army transport unaware that doctors have given her only a few months to live.

**Operations At SW Hale Project To Be Resumed**

Glen J. Smith of Tulsa, has filed an application with the Railroad Commission, asking for permission to re-enter his No. 1 Durett, Southwest Hale County wildcat, and clean it out to total depth at 6,504 feet in lower Permian lime, and possibly drill it deeper.

This project, located 660 feet from south and east lines of northwest quarter of section 7, block DT, HE&WT survey, and one and one half miles northwest of closest completed oil well in the Irish field, has been shut in several weeks. It did not report any shows of oil or gas, in drilling down to present bottom.

Operator advised the Railroad Commission, in the amended application, that it was planned to clean out, possibly drill deeper, and probably run a drillstem test.

No information is available to indicate what has caused the decision to resume operations at this prospect.

**W-C Hockley Wildcat Is Drilling Ahead In Lime**

James Fitz Gerald No. 1 Coble, West-Central Hockley County wildcat, six miles west of Levelland, and 440 feet from north and 1,363 feet from west lines of subdivision 46, league 69, Hardeman County School Land survey, had reached 3,325 feet in lime and was continuing. It is contracted to around 5,100 feet to explore into the San Andres pay section.

**Seaboard Continues To Core In SE Dawson Test**

Seaboard Oil Company of Delaware No. 6-A Robinson, deep exploration in Southeast Dawson County, 15 miles southeast of Lamena, and 1,979 feet from south and 860 feet from west lines of section 37, block 34, TP survey, T-5-N, was coring below 7,115 feet in lime, sand and shale. It has not logged any signs recently of possible production. The zone above 6,700 feet, in the Tubb-Permian sand had shown some promising indications of petroleum on drillstem tests.

**Highway Program Will Cost \$7,832,000**

AUSTIN—(AP)—Ninety-eight miles of farm-to-market roads and 113 miles of primary highways are included in projects listed by the State Highway Department for bids which will be opened Aug. 19 and 20.

Highway officials estimated that bids on all projects would total \$7,832,000. Six of the jobs are in Dallas County.

**Texas Panhandle Gets Showers**

By The Associated Press A continuation of the same—more hot and dry weather in Texas except maybe a few sprinkles in the Panhandle Thursday.

Light showers fell Wednesday in the Panhandle with .07 inches of rain at Pampa and .03 at Amarillo. Early Thursday Dalhart was the coolest spot in the state with 62 degrees.

Elsewhere it was hot. Temperatures in East Texas were generally in the 100's, with 104 at Longview and Paris, Henrietta, however, near Wichita Falls, was the hottest spot with 105.

**Kerr Discusses Proposed College Building Amendment**

William L. Kerr, Midland attorney, and president of the board of regents of the State Colleges of Texas, discussed the proposed College Building Amendment to the State Constitution, which will be voted upon August 23, at the meeting of the Midland Rotary Club in the Scharbauer Hotel Thursday noon. He was introduced by Tom Sealy, program chairman.

Kerr stressed the need of permanent building funds at each of the 16 state supported institutions of higher learning. Building programs at the University of Texas and at Texas A&M College heretofore have been provided from income from University Lands, whereas the other 14 state schools have had to depend upon appropriations from the Legislature. These appropriations have averaged only \$10,000 per school the last several years. He said the appropriations have been entirely inadequate to meet building needs. Sixty-eight per cent of the state's college students attend the 14 schools, he explained.

**Explains Finance Plan**

Under the proposed amendment, Kerr said five cents of the seven cent tax levy for support of Confederate soldiers and their dependents would be earmarked for building funds for the 14 state colleges. Only two cents now is needed for support of the Confederate soldiers and their dependents, he added.

The funds would be apportioned to the schools in keeping with the number of students enrolled during the last 10 year period. The apportionment would be revised each 10 years.

The University of Texas would be allowed to issue \$10,000,000 in bonds and Texas A&M, \$5,000,000, to be retired by income from University Lands.

The present 35 cent ad valorem tax levy would be reduced to 30 cents, Kerr said.

He listed the amounts which would be available to the schools over the 30-year period.

Rotarians were invited to attend the Lions Club meeting next Wednesday when Attorney General Price Daniel will speak.

**Capacity Crowd Sees Fast Big Spring Rodeo**

BIG SPRING—Opening to a standing-room-only crowd, Big Spring's 14th annual rodeo Wednesday night ran off in snappy style, with Earl and Jack Sellers' bucking stock, cowboys from many states, and a sparkling array of novelty acts which combined to provide three hours of fast entertainment.

The show continues through Sunday night. A long parade Wednesday afternoon heralded the show, and in the opening grand entry Wednesday night 227 riders filled the arena.

**Washington Issues Crop Price Forecast**

WASHINGTON—(AP)—Here is the way the Agriculture Department expects prices and supplies of major farm and food products to stack up during the next few months:

Meat and livestock—a seasonal decline expected in fall, but the amount will be "only moderate" if consumer incomes stay high.

Feed grains—the weather remains important to price prospects for corn and other feed grains. If it's favorable through the remainder of the growing season, prices probably will decline this fall and winter, but may average higher than last year.

Dairy products—further increases expected during fall and winter.

Eggs—a less-than-usual increase expected this fall.

Wheat—prospects for a small corn crop are tending to strengthen prices despite record wheat crop.

Fats and oils—larger production forecast.

Fruits and vegetables—growers' fruit prices this summer expected to continue below last year. Fruit production will be larger.

**SCRAPERS WIN, TO PLAY AGAIN**

The Midland Skyscrapers beat the Waco Cardinals, 5 to 3, Wednesday night in Indian Park. It was a negro baseball game.

The two teams meet again at 8:30 p. m. Thursday.

**Two Negroes Are Wounded In Affray**

Two negroes were injured in an affray Wednesday night, police reported.

Clyde Hardy and J. R. Durham were treated for wounds in a hospital.

**Record Baby Crop Predicted For 1947**

NEW YORK—(AP)—A record high baby crop for 1947, eclipsing last year's high of 3,440,000 babies, is predicted by Metropolitan Life Insurance Company statisticians.

The prediction is supported by the fact that there were about 1,572,000 births up to the end of May, an increase of 456,000 over the figure for the corresponding period of 1946, the company said.

Further, it was predicted 1947 will hold the record for some time to come, since a marked drop in the marriage rate for the first five months of the year foreshadows a drop in the birth rate in 1948.

**BILFOLD LOST**

Phil Ortega reported to police Wednesday the loss of bilfold containing \$173 and papers.

**Farm Real Estate Boom Continues**

WASHINGTON—(AP)—The war inspired boom in farm real estate continues to grow despite repeated government warnings that there is danger of a collapse that would bring financial ruin to those buying on credit.

In its latest regular report on the boom, the Agriculture Department said farm real estate values for the country as a whole increased two per cent during the four months ended July 1.

Average values are 10 per cent above a year ago, 85 per cent above the 1935-39 pre-war average and only 5 per cent below the 1920 inflationary peak. A sharp break in the 1920 prices tossed into bankruptcy thousands of farmers who bought at inflated prices.

The latest warning on land prices was issued by a conference on farm real estate prices held here two months ago at the direction of President Truman. The chief executive expressed fear that a continuing land boom would bring disaster to farmers and credit institutions.

**Lack Of Funds May Cut Foreign Buying**

WASHINGTON—(AP)—The Agriculture Department said lack of funds may cut down foreign buying of American goods by the end of the year.

This buying is said to be one of the prime factors keeping food prices high.

The department said, however, that because the food situation abroad remains critical exports of farm products may continue at the high 1946 rate providing foreign countries can augment their dollar supplies by increasing their shipments to this country.

American gifts and loans abroad already earmarked for farm products will finance \$500,000,000 less of agricultural exports in 1947 than in 1946, the agency said.

**ODESSAN NAMED TO FEW REGIONAL POSITION**

AUSTIN—J. B. Rutherford, member of Post 4372, Odessa, has been appointed as one of six regional chiefs-of-staff for the Department of Texas, VFW, by Roger Q. Evans, Denison, state commander.

Counties in the region served by Rutherford are: El Paso, Hudspeth, Runtels, Coke, Sterling, Glasscock, Reagan, Irion, Tom Green, Concho, Menard, Kimmel, Schleicher, Sutton, Crockett, Midland, Ector, Winkler, Loving, Culberson, Reeves, Ward, Crane, Upton, Pecos, Terrell, Brewster, Presidio and Jeff Davis.

**Hughes—**

(Continued from Page 1) charged and Brewster denied that the Main senator once offered "in so many words" to call off the investigation of the plane contracts if Hughes would agree to a merger of Trans World Airlines with Pan American Airways.

Hughes holds a controlling interest in TWA.

Brewster Waives Rights After Hughes' outburst, Brewster waived any right to cross examine the plane manufacturer.

"As far as I am concerned, I am willing to let the matter rest with the subcommittee," the senator said.

When Brewster had replied to Hughes' series of written questions, the plane manufacturer shouted that the committee was being "unfair" by its procedure.

Hughes told Chairman Ferguson (R-Mich) of the subcommittee: "The answers he gave were evasive and in many cases it was not possible to get a direct answer. 'Not having his replies challenged in any way by the chairman is unsatisfactory, so I shall not submit any further questions in his way.' The lanky multi-millionaire told the senators "my reputation has been ruined."

Ferguson asked Hughes whether anyone else was present at a luncheon in Brewster's Mayflower Hotel apartment last February at which Hughes charges the senator offered "in so many words" to call off the inquiry into Hughes' plane contracts.

"You don't think Senator Brewster would have made that proposition in front of anyone else, do you?" Hughes asked in reply.

At one point, Hughes told the committee Juan Trippe, president of Pan American Airways, discussed with him the proposed airline merger and the investigation "as though Brewster worked for him."

Complaining of "unfairness," Hughes said Brewster, while on the witness chair, had been allowed to "proceed in leisurely manner" and had not been subjected to a fire of cross questions.

In advance of his return to Capitol Hill the California plane builder labeled the senator's denial "pretty weak." He added in a radio broadcast Wednesday night that "just about everyone in the aviation industry recognizes that Brewster is lying" in saying that he never heard of the proposed merger of Pan American Airways and Trans World Airline before a tall with Hughes six months ago.

**Record Baby Crop Predicted For 1947**

NEW YORK—(AP)—A record high baby crop for 1947, eclipsing last year's high of 3,440,000 babies, is predicted by Metropolitan Life Insurance Company statisticians.

The prediction is supported by the fact that there were about 1,572,000 births up to the end of May, an increase of 456,000 over the figure for the corresponding period of 1946, the company said.

Further, it was predicted 1947 will hold the record for some time to come, since a marked drop in the marriage rate for the first five months of the year foreshadows a drop in the birth rate in 1948.

**BILFOLD LOST**

Phil Ortega reported to police Wednesday the loss of bilfold containing \$173 and papers.

### Cuffman Attending VA Teacher Meeting At College Station

J. R. Cuffman, vocational agriculture teacher at Midland High School, is attending the annual conference for 600 Texas vocational agriculture instructors at Texas A&M College. The session opened Tuesday. Cuffman will return to Midland Sunday.

R. A. Manire of Austin, director of vocational agriculture, is in charge of the conference, the first state-wide session of VA teachers since 1940.

Program highlights include: "Meeting the Challenge of a Changing Agriculture," by E. R. Alexander, head teacher-trainer of A&M College; and "The Agricultural Outlook for the Nation" by Oris V. Wells, chief, Bureau of Agricultural Economics, Washington. V. C. Marshall of Temple, executive director for the State Soil Conservation Board, will outline the operation of soil conservation districts in Texas. Area and district plans will be mapped by the teachers and area supervisors.

### Portrait of an Elder, Statesman

This exclusive camera-study of Herbert Hoover shows the nation's only living ex-President looking hale and happy as he approaches his 73rd birthday. Photo was taken by Max Winter, NEA-Acme cameraman at Mr. Hoover's summer camp, Bohemian Grove, Calif.

### Chilean Gift To Hamburg Is Bird

VALIPARAIISO, CHILE — (AP) — Three big turtles of the Galapagos variety and a collection of Chilean birds are on their way to the war-stricken Hamburg zoo. They are being sent as a gift by German Riesel, a resident of Valparaiso, aboard the Chilean naval transport "Presidente Errazuriz."

### Tile Spray Operator And Deep Sea Diver Continue Job Hunts

Warren Reynolds, manager of the Texas Employment Commission, said Thursday his office was successful in placing a large number of job applicants in positions during July, but there is a young lady from California he's afraid he won't be able to help.

She is a "tile spray operator" according to the application she filed, and there just doesn't seem to be any demand here for that particular skill.

Meanwhile, the deep sea diver who filed application for employment with the commission several months ago still is in Midland and still hasn't found work befitting his training.

Applications Decrease  
During July the employment commission office received 722 applications for employment as compared with 902 the previous month. One hundred nineteen persons were placed in jobs by the office. These included 78 veterans, 24 women and 18 others. Forty-seven had been on unemployment compensation rolls, from which they were removed upon finding jobs.

Ninety-one requests from employers for help were received by the office during July, and personnel of the office visited 162 Midland employers to learn what type of employe each needed.

Stenographers and typists are needed here by employers, Warren said, as well as junior accountants and junior electrical engineers.

There is a strong demand for domestic help, he added. He requested persons seeking this type of employment to visit his office for immediate placement.

As usual there still is need for common laborers, of which there has been a shortage here for several months.

Some scientists believe that the first born in a family tends to be the most intelligent, with the level of intelligence falling as the family grows.

### Splendor Seen In Gypsy Rites As Queen Dies

SYDNEY, AUSTRALIA — (AP) — Hundreds of gypsies from all over Australia, including scores of ragged children, came to Sydney recently for the funeral of the queen of the gypsy Sterio tribe, 75-year-old Mrs. Mary Sterio.

Amid ceaseless chatter accompanied by the traditional pouring of wine on the coffin and throwing of silver coins in the grave, the gypsy queen was buried in Sydney's Rookwood Cemetery.

The body of the queen, wrapped in rich silks, had lain in state at a Sydney funeral parlor eight days in a specially made cedar casket, gold-painted and adorned with silver-colored designs. Funeral officials said the coffin, which was larger than normal size, was one of the most expensive made in Sydney in years.

Band Heads Procession  
On the day of the funeral, gypsies packed into the parlor to chant and wall over the body of their queen. One woman smoked a long pipe in between sobs, and a man while sobbing over the coffin, took long draughts from a bottle.

The funeral procession was led by a brass band which the gypsies had hired for the occasion. Two of the gypsies' battered automobiles were left at the starting point—one with engine trouble, the other with a flat tire.

All the woman's jewelry and trinkets had been placed in the coffin. As the coffin was being lowered into the grave, a woman member of the tribe poured a bottle of wine over it. At a given signal all the others flung silver coins into the grave, and several clambered down to kiss the coffin.

### Sanitarian Finishing Milk Investigation

A check of Midland's milk supply is being completed this week, W. M. Howard, "sanitarian" with the Midland-Ector-Howard County Health Unit reported Thursday.

Of the 52 dairymen producing milk for sale here, eight have been out on probation pending improvement of their methods, Howard reported. Two producers have had their grade classifications removed entirely, but they are taking action to comply with regulations so they can recover permission to sell Grade A milk.

### Revival Speaker

Henry (Hank) Scott of Midland, ministerial student at Harding-Simmons University, Abilene, will speak on the subject, "Satisfied With Jesus," at the second service Saturday night of the First Baptist Church Youth Revival. The son of Mr. and Mrs. H. P. Scott, 500 East Florida Street, he is a graduate of Midland High School and spent more than two years in the Marine Corps.

Auto headlights which are high above the ground are ineffective in fog because the fog between the lights and the road reflect the light.

### Compensation Risk Rates Will Be Higher

AUSTIN — (AP) — Workmen's compensation insurance rates in Texas will go up an average of 11.1 per cent after three new laws become effective September 5.

Joe P. Gibbs, state casualty insurance commissioner, announced new rates following a public hearing recently on the effect of the 50th session's changes in benefits.

Additional premium charges for occupational diseases in most classifications were described as "nominal," but in some occupations where hazards are high, they will be much above the average.

The new laws increase maximum and minimum benefits, provide for coverage of occupational diseases, and provide for a "second injury" fund to make total benefits available to a workman who is totally and permanently disabled by a combination of two injuries.

### New Law Doesn't Aid Precinct Officials

AUSTIN — (AP) — Payment of county officials on a salary basis in counties of less than 20,000 population is not applicable to justices of the peace, constables or county commissioners, the attorney general held Thursday.

The opinion, dealing with a bill passed by the 50th Legislature, said the new law applies only to the sheriff, assessor, and collector of taxes, county judge, county and district attorneys and clerks, treasurer, and hide and animal inspectors.

### Knock-Knees Fret Austrian Doctor

MELBOURNE, AUSTRALIA — (AP) — Why do more pre-school age Australian children today have knock-knees than before the war? The medical officer of the Returned Soldiers' League, Dr. A. P. Derham, says it might be because collapsible wooden "playgrounds" tempted youngsters to stand or walk for long periods. Other causes, he said, might be: Young children standing with their mothers in shopping queues. Increased use of concrete and other hard substances in paths. A possible deterioration of diet during the war.

### Fastidious Girls Deodorize Breath With Pleasant Tasting Freshner

By ALICIA HART  
NEA Staff Writer

You don't have to pass up that unexpected date just because you've succumbed to onions or a garlic-spiced salad for dinner.

Deodorize your breath. A dependable mouth-deodorant will abate out strong beverage flavor or a cigaret breath.

A girl anxious to hold her feminine appeal doesn't shrug off odors that linger in the mouth as something which nobody is going to notice, says Jeanne Conrad. This fastidious model claims that the use of a breath-freshener is one of the important little things upon which good grooming depends.

She carries a breath-sweetener in her purse. Chosen for its pleasant taste and deodorizing properties hers is a green liquid essence tapped from California's giant redwood trees.

MISS CONRAD: Fastidious.

#### INVENTED TERM

The term horsepower was invented by James Watt, who experimented with dray horses and concluded that the average amount of work done by one horse was equal to the force required to raise 33,000 pounds to a height of one foot in one minute.

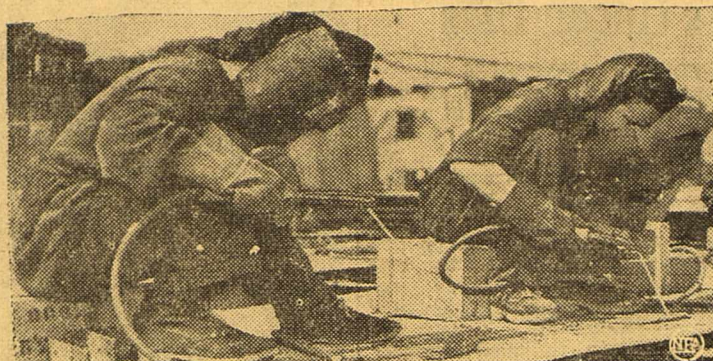

### Italian Industry On Recovery Road But New Tax May Make Climb Too Steep For High Speed. Survey Shows

ROME—(NEA)—Italian industry is slowly beginning to recover. Production is still far below pre-war and wartime peaks. But at Turin, in industrial North Italy, the Fiat automobile plants are employing 14,000 workers.

At nearby Genoa, the famous Ansaldo shipyards, undamaged by the war, are again building ships for the maritime nations of Europe and South America. Ansaldo employs 6,500 men and 500 women. Other plants at Genoa are building electric and steam locomotives and railway cars.

All together about 80 per cent of Italy's prewar industry is functioning again despite difficulties it has faced.

It is still too early to determine what effect the new possessions tax will have on industrial recovery. The

Revival: As Italy's industries begin to recover, women welders at work at the Ansaldo Shipyards near Genoa bring back a scene familiar to the U. S. during war.

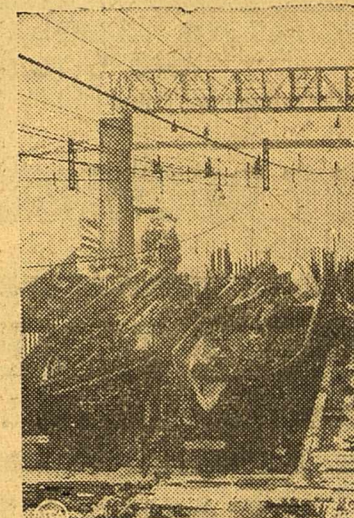

Trains: Breda works in Genoa is making railroad engines.

Trucks: Famed Fiat plant makes 80 trucks, 30 cars, a day.

government has just levied a four per cent tax on all possessions, from furniture to factories. In addition there is a progressive tax beginning at three per cent on holdings worth

Ships: Ansaldo has customers in six countries plus Italy.

\$6,000 and rising to 61 per cent on private possessions valued at more than \$3,000,000.

One serious drawback in production for many months after the war's end was the uncertainty of Russian reparations payments. Industrialists were not inclined to push production, only to turn the finished products over to the USSR. This was partially settled with the signing of the Italian peace treaty with the Allies. Production has increased since then.

Strong leftist union control has been blamed for some of the slowness in industrial recovery. Ma-

terial shortages, lack of foreign exchange, trade restrictions and war damages all have been factors.

Despite these difficulties, Ansaldo has completed 30 vessels, totaling 78,000 tons, since 1945. Turkey is waiting delivery of eight more, Argentina has ordered three, and Norway, Denmark, Brazil and even Switzerland are bidding for future deliveries.

The Breda works in Genoa, which built light machine guns during the

#### Stork Beats 'Goose' In Hospital Race

NASSAU, B. W. I.—(AP)—A race between a stork and a "goose" ended here with the stork making its delivery before the "goose" could land.

The "Goose," a six-passenger amphibian of that name operated by the Bahamas Airways, Ltd., was rushing Hazel Rolle from the tiny outlying island of Andros to a Nassau hospital. On the 30-minute flight, the stork overtook the plane, delivering Margaret Rolle, Margaret Stalker, an English nursing sister, officiated.

Capt. Leonard Thompson summed it up: "It was a close race. Our Goose was fast, but the stork—probably aided by favorable winds—beat us by a few minutes."

#### TAGGED WITH GUN

Whales, like birds, are tagged by scientists for migration study, but in marking whales, the numbers are placed in stainless steel tubes and fired into the whale's thick blubber from a 12-bore gun.

Special motion picture cameras have been made in which the film runs at 70 miles an hour to record action so fast it cannot be observed directly.

### Flying Opens Door To Another World For 81-Year-Old Colorado Ex-Cowboy

DELTA, COLO.—(AP)—It just made Starr Nelson, an old Texas cowhand, plain mad when one "young squirt" after another told him he was too old to fly.

So he kept on trying until he found one who would teach him. Now the tall, spare ex-railroad engineer and one-time cowboy has been flying for five years, owns a plane and has logged more than 700 hours in the air.

He will be 81 next Nov. 23.

#### Another World

To Nelson flying "is the door to another world. It's the most thrilling thing that can happen to man." If Nelson isn't the oldest flier in this country, he'd like to meet up with the man who is. Much of his flying has been done over the high ranges of the Continental divide where the down-drafts often are hazardous.

"Guess that itchin' foot began when I was punching cows down in Texas back in the '80's," Nelson said. He herded cattle to Colorado and decided to stay awhile.

Nelson retired and had been retired for 32 years when he thought it would be fun to learn to handle a "spooky" range horse.

#### Builds Airport

Once he got his pilot's license, Nelson proposed that his home town of Delta, on Colorado's western slope, build an airport. But he didn't get action fast enough to suit him so he built one of his own on a 240-acre parcel of land.

Nelson, one of the few civilians

TOO MUCH LIKE WORK  
Although accustomed to carrying trunks and other heavy articles on his back, the hamal, or Turkish porter, will flinch when asked to carry a small bundle under his arm or in his hand.

A device has been invented which will translate human speech into visible patterns on a screen which can be read by deaf persons.

WHAT AUTHORITIES SAY:

"WE HAVE CONSISTENTLY EMPHASIZED THE IMPORTANCE OF PASTEURIZING ALL MILK"

TULANE UNIVERSITY OF LOUISIANA SCHOOL OF MEDICINE

"We have consistently emphasized the importance and desirability of pasteurizing all milk used as human food.... In other words, we believe that producers should be required to adhere to the recognized specifications for Grade A milk and then... the finished product should be pasteurized. Only in this way can we reduce milk-borne diseases."

ROBERT A. STRONG, M.D.  
Professor and Head of the Dept. of Pediatrics

Ham roll-ups make ideal hot weather eating.

By GAYNOR MADDOX  
Ham roll-ups give cold boiled ham new interest in a labor-easy summer. Barbecued frankfurters bring new flavor to a traditional favorite.

**Ham Roll-Ups**  
(Serves 5)  
Three cups bread crumbs, 1/4

cup chopped onion, 1/4 cup chopped parsley, 1 teaspoon salt, 1/8 teaspoon pepper, 1/4 teaspoon poultry seasoning, 1/4 cup melted butter, 5 slices cold boiled ham, 6 parsley sprigs.  
Make a dressing of bread crumbs, onion, chopped parsley, salt, pepper, poultry seasoning and melted butter, mixing them together thoroughly. To make a ham roll-up, place some of the dressing on a slice of cold boiled ham. Fold one corner of ham slice over diagonally opposite corner and fasten with a toothpick. Place ham roll-ups on a heat-resistant glass oven platter. Bake in moderate oven (350 degrees F.) for 20 minutes. Garnish platter with parsley sprigs. Serve with cold potato salad.

**Barbecued Frankfurters**  
One-half cup chili sauce, 2 1/4 teaspoons Worcestershire sauce, 5 tablespoons lemon juice or vinegar, 1/4 cup molasses, 1/4 cup

horseradish, 3/4 teaspoon salt, 1/2 cup chopped celery, 2 tablespoons chopped onion, 12 to 18 frankfurters.  
Place all ingredients except frankfurters in a large, heavy frying pan or saucepan. Bring mixture to boiling point. Puncture skins of frankfurters to permit sauce to seep underneath the skins. Place frankfurters in hot sauce. Cover. Cook 15 minutes, basting and turning occasionally.

**Labor Is Wooing 'Hello Girls'**

By HAROLD WARD  
WASHINGTON—(AP)—The "hello girl" is the center of a three-way whirlwind courtship.  
Labor unions—the CIO, AFL and the independent Communications Workers of America (CWA)—are wooing her furiously.

The CWA is the successor to the National Federation of Telephone Workers, which staged the nationwide strike in April. After the strike, the NFTW dropped its loose federation type of organization and formed a single industrial union. It is headed by Joseph A. Beirne, the strike leader.

Beirne lost some of his support after the walk-out, and the CIO confident it could move into the telephone industry, set up a Telephone Workers Organizing Committee (TWOC).  
The AFL's Brotherhood of Electrical Workers also is out to get everything that is not nailed down. Clerks, plant employees, maintenance men, equipment workers and installers—all are being courted in one of the widest scrambles for members since steel, autos and rubber workers were organized by the CIO in the 1930s.

The CWA, in the field first, has the inside track. It claims 161,659 dues-paying members and says it represents 220,000 workers. That would be about half of the eligible employees in the vast Bell system.  
Beirne and the CWA are out to get the number up to at least 250,000 dues-payers by their convention time next June. They are confident it can be done despite inroads made by both the CIO's TWOC and the AFL's electrical workers.  
The CIO's Ted Silvey and Allan S. Haywood are equally confident they'll win the industry eventually. In the meantime they have fixed their goal at a modest 75,000 or 90,000 before the Boston CIO convention, scheduled to begin October 13.

**Entire Village Is For Sale In England**

LONDON—(AP)—Want to buy a whole village? You can in Britain, for 900-year-old Castle Combe in the Wiltshire Hills, said to be the "loveliest village" in the country, is for sale.

It's to be put on the auction block August 15 complete with 350 inhabitants, trout stream, 600-pewed Norman Church, Roman bridge, and the tomb of "Walterus de Dunstauville, Baron of Castlecombe 1270".

The owner, Mrs. R. G. Maurice, lady of the manor, can no longer afford to maintain it unchanged in its outward appearance. Her family inherited the 1,555-acre estate of Castle Combe about 100 years ago. It will be sold to the highest bidder, either as a whole or in small lots.  
Villagers do not think the sale will affect them much. But residents like 74-year-old George Snell, the village "historian," whose family has lived there since the 16th century, hope the new owner will try not to modernize it "too much."

There were 231 fewer hospitals in the United States in 1946 than in 1945.

**Stanton Revivalist**

Dr. John R. Bryant of Tyler will speak both morning and evening at the series of special evangelistic services starting Sunday at the First Baptist Church of Stanton. George McClellan, educational director of the East Fourth Baptist Church of Big Spring, will direct the singing. The Rev. T. R. Hawkins is pastor of the Stanton church.

**Poland Is Buying Building Materials**

WARSAW, POLAND—(AP)—Poland is buying equipment for concrete works, for flooring factories and building machinery from Sweden for 50,000,000 Swedish crowns, the semi-official newspaper "Rzeczpospolita" reports.

Additionally, the Poles have placed orders for 100,000 square meters of hardboard from Finland, and 300,000 crowns worth of lifts, cranes and silos for concrete from Denmark.

Negotiations for importing building machinery are underway with Austria. Similar purchases may be made shortly in Czechoslovakia.

**CZECHS CHEER AMERICAN FILM**

PRAGUE—(AP)—The Czech youth movement daily Mlada Fronta has proposed editorially that the American film, "Mr. Smith Goes to Washington," be shown in the Czech parliament for all members of the legislature.

The picture, with its Senate filibuster and its speeches on freedom, democracy and independence, has been cheered at daily showings since its recent opening here and acclaimed by newspaper drama critics as the best film shown in Czechoslovakia since the war.

**Helpful ideas for busy canning days**  
by Carol Drake

Can, jam, preserve, conserve—that accounts for the spicy fragrances now wafting from kitchen windows. These tips for canning with little to-do are for the busy homemaker with much to do.

...SAVE TIME: MAKE CHILI SAUCE AND TOMATO JUICE AT THE SAME TIME. Wash and quarter about 10 pounds tomatoes. Simmer until soft, about 30 minutes, with chopped celery, onion, green pepper, carrots and whole spices. (The spices loosely in cheesecloth bag, easy to remove.) Drain off juice and fill hot jars. Process in boiling water bath 35 minutes. Put tomatoes, celery, onion, green pepper and carrots through colander or food mill; add vinegar. Cook until pulp is thick enough to round up on spoon. Fill hot jars; process in boiling water bath 1 hour.

...KEEP CRYSTALS OUT OF GRAPE JELLY. Prepare juice and let stand overnight in refrigerator. Crystals form and settle to the bottom. Dip off juice, proceed with jelly making.

...BE PARTICULAR IF YOU WANT PRAISEWORTHY PICKLES! Use fresh spices—1 ounce whole mixed spices is enough for 4 gallons of pickles; soft water (soften hard water by boiling, letting stand 24 hours to settle), and good recipes. Write to Carol Drake for "PRIZE PICKLE RECIPES," Box 2110, Dept. PR, San Francisco 26, Calif.

**Carol Drake** Director  
The Homemakers' Bureau  
An Extra Safeway Service

P. S. SHORTEN CHRISTMAS SHOPPING LISTS NOW BY PRESERVING EXTRA SUMMER TREASURES FOR GIFTS. Empty cheese spread glasses make fine jelly containers—nestle several different flavors in a box. When it's time to wrap, make plain jars Mexican style: Dip cord in melted candle ends or paraffin to make raffia. Wind around the jar; secure with candle or paraffin drippings.

# Americans Hope To Overtake British Program On Jet Engine Development

By JAMES J. STREBIG  
Associated Press Aviation Reporter

WASHINGTON—(AP)—The British are matching American spending for jet engine research and development, demonstrating the importance they attach to that phase of military planning.

United States experts who have studied the work being done on both sides of the Atlantic feel, however, that the American program will overtake the British within a year or so. Just now it is generally conceded that the British are ahead because of their two to three-year time advantage.

Here is a well informed view of some angles of the situation: United States jets are not far behind the British and may even have caught up in some respects.

The difference is quite noticeable with respect to gas turbines driving propellers, however. The British appear to be well in front in these "turbo-prop."

**British Started Work First**  
Most of the British advantage in jets and turbo-prop can be attributed to the fact that they began working on them in a big way six years ago, while our major effort is half as old.

Each country has only one jet engine in very general use. The United States is far ahead in volume, however, having produced more than 3,000 jet engines (at least three times the British total) and more than 1,000 jet planes (also three times as many).

With respect to jet engine development, the United States is working on what some people think is a longer and more complex basis than the British. The American idea, stemming from Germany's bitter experience, is to design jet engines which can be built as much as possible from available materials and thus avoid dependence on stockpiling strategic materials or obtaining them from distant points during wartime.

**Seek More Powerful Engines**  
With respect to turbo-prop, American development is aimed at far more powerful engines than the British program. The United States goal is turbo-prop for military purposes, including heavy bombers and transports. The British appear to be more interested in developing such engines for commercial flying and so do not require such high power outputs.

The United States has a big advantage in jet engine test facilities, which are many times more costly than similar equipment for reciprocating, or piston engines. Both countries are working with "thrust augmentation," but there the British again have a time advantage. The United States has applied it successfully to one engine and is nearing success with another. Thrust augmentation is accomplished generally in two ways—injecting water to increase the volume of gases or adding a separate burner to use additional fuel.

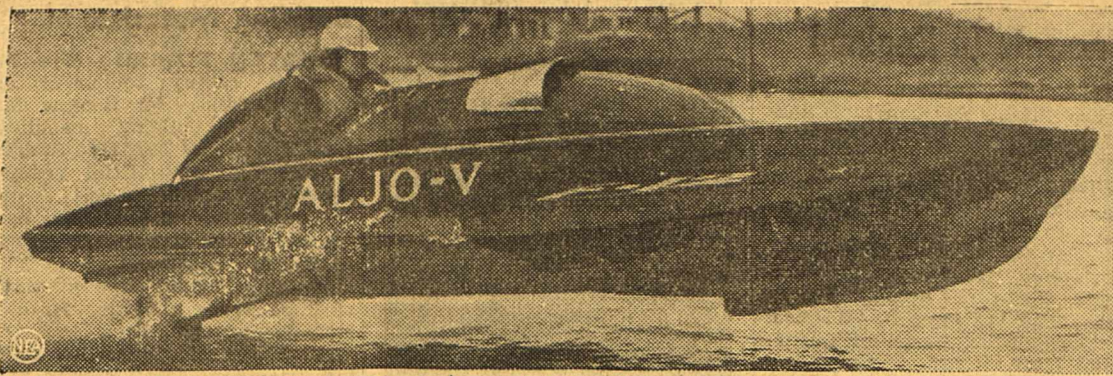

**Mice Squeak By While Cats Rest**  
PEPPERELL, MASS.—(AP)—Two hard-working Swampscott cats are vacationing in this pleasant inland town. Ike and Mike received a respite from mouse-catching duties at the seaside town administration building when the wife of Custodian John G. McLearn brought them along on a visit.

**ENGINEER SPONSORS CHURCH PROGRAM**  
WORCESTER, MASS.—A Worcester locomotive engineer swapped his cab for a pulpit to encourage other Protestant laymen to take an active part in church work. Engineer Roy M. Wilder of the Boston and Albany Railroad shuttled between the Hadwen Park and Bethany Congregational Churches to preach on "logic and religion."

"Laymen are like a locomotive engine," Wilder commented after the Sunday services. "It takes both a lot of time to get up steam. Once they do, they have a lot of power."

**BUCKET TRADE**  
BYTOM, POLAND.—(AP)—Export of Polish-made buckets to Palestine has been initiated through the Polish Society of Foreign Trade. Proposed transactions involved 45,000 buckets.

## Out of This Water

Aljo-V, Joe Van Blerck, Jr., at wheel, is out of the water going more than 80 miles-an-hour in a trial run for the International Gold Cup regatta in Rockaway Inlet, Jamaica Bay, N. Y., Aug. 10. The Freeport, L. I., owner-pilot finished third last year in Detroit.

### SAVE THAT EAGLE

BISCHOFZELL, SWITZERLAND —(AP)—The royal eagle should be included in the list of animals to be protected in Eastern Switzerland, the Swiss League for Protection of Nature proposed recently.

Sydney, Australia, limits the height of its buildings to 150 feet.

Distributed by Martin Distributing Co.

Residents of Africa before the white man called Victoria Falls the "Smoke that Thunders," while American Indians called Niagara the "Thunder of Waters."

**COOL OFF!**  
with vigorous, refreshing  
**WHITE SWAN TEA**

### Otherwise Hot

Bobby Locke, who has won seven of 12 tournaments since arriving in this country April 3, cools off with a long, cold one. The year's leading money-winner with \$20,537.50, the South African has averaged 69 in 40 18-hole rounds of medal play.

### Motorists Can't See Windshield Wiper

PONTIAC, ILL.—(AP)—A lot of venerable vehicles pass through the safety inspection lane here, but none was in a class with the horseless carriage piloted by Vere Goff and Vernon Boshart. But their 1904 model, two-cylinder, chain-drive Sears met all but one requirement. It had no windshield wiper. The reason was obvious. It had no windshield.

The colony of Aleut Indians on the Pribilof islands practically hibernates in winter because of strong winds which make it virtually impossible to stand erect out of doors.

**Mary Lee Taylor's Chocolate Ice Cream**

Broadcast: August 9, 1947

1 teaspoon unflavored gelatin  
4 teaspoons cold water  
1/4 cup sugar  
3 tablespoons cocoa  
few grains salt

3 tablespoons Pet Milk  
diluted with 3 tablespoons water  
1/2 teaspoon vanilla  
1/2 cup chilled Pet Milk

Soften gelatin in water. Mix together sugar, cocoa and salt. Stir in diluted milk. Stir and cook over boiling water 5 minutes. Stir in softened gelatin. Remove from heat; add vanilla. Chill until syrupy, stirring occasionally. Whip chilled milk with cold rotary beater until stiff. Fold into gelatin mixture. Freeze, without stirring, in automatic refrigerator tray at coldest temperature, or in a mold buried in a mixture of 3 parts crushed ice to 1 part ice cream salt. Makes 4 servings.

### How About An Economy Dish Using Veal Goulash, Fresh Apricot Pie

By GAYNOR MADDOX  
NEA Staff Writer

How about a dinner using veal neck for a goulash and fresh apricots for a delicately flavored pie?

Veal Goulash (Serves 6)

One and one-quarter pounds veal neck, cut in cubes, seasoned flour, 1/4 cup fat, 3/4 cup hot water, stock or tomato juice, or 1 cup sour cream, 1 onion, thinly sliced. Dredge veal cubes in seasoned flour. Sauté in hot fat in heavy kettle or skillet until brown. Add hot water, stock, tomato juice or sour cream, and sliced onion, and simmer covered about 1 hour or until meat is tender. Serve with pan gravy, surrounded with fluffy mashed potatoes.

**Fresh Apricot Pie**  
Three cups fresh apricots, halved, 3/4 to 1 cup sugar or 3/4 cup honey, 1 tablespoon lemon juice, 1 tablespoon butter, 1 pastry recipe for 9-inch double crust.

Line a pie plate with pastry. Arrange fresh ripe apricots close together in the pastry. Sprinkle sugar over fruit, or add honey. Add sprinklings of lemon juice. Dot with butter. Cover with top crust, perforated to allow steam to escape, or use lattice strips. Bake at 400 degrees Fahrenheit for 50 to 60 minutes. A sprinkling of cinnamon may be added, if desired.

#### CHINESE FARM STORY IS COLORED WITH DYE

SHANGHAI — (AP) — Chinese farmers are noted more for their practicality than for their aesthetic appreciation. Therefore UNRRA's chemists in the UNRRA pesticides manufacturing plant here, where UNRRA is training young Chinese to produce insect-killing sprays and dusts, were puzzled at requests that DDT dust, pyrethrum powder and other chemicals be tinted rose and azure and maize. But the reason was purely practical. When UNRRA first distributed bug poisons in China, it used American-made pesticides which had been tinted according to various state laws. The pink and blue poisons did their work—and the farmers were convinced it was the color that did it!

#### IT'S A PIPE

JOHANNESBURG — (AP) — Because it is impossible to obtain metal water piping, the Petchestroom council has authorized the use of ordinary garden hose for connecting newly-erected houses.

#### SPLIT LEATHER

Leather shoes are made from thick, unsplit hides, but a hide is split into various thicknesses to produce most other leather goods.

Housewife Urged To Help Lower High Prices

By ADELAIDE KERR  
AP Newsfeatures Writer  
Jeannette Turner, executive secretary of the New York City Consumers Council, says women could do a lot to pull down the high cost of living, if they would shoulder their own responsibilities.

"Women all over the country complain bitterly about high prices and how hard it is to make ends meet," she said. "But they lay the blame on everybody else and let the matter drop there. They don't know the power they may wield to get Congress, their state legislatures and their municipal councils to enact legislation which could have some effect on the high cost of living."

"This is a very complex, involved problem. It takes a great many people working patiently and persistently with good will if we are to make any headway. There are few women who could not give a few hours a week."

"It's no use their saying they don't know what to do. They can easily find out if they will give a little time to reading newspapers, intelligent study, working with other people and writing their lawmakers. We need the help of housewives especially. They represent a force of millions."

Mrs. Turner, mother of three and a Queens housewife, gives her time free to her job in the New York City Consumer Council, a coordinating agency of 86 church, civic, social, fraternal and labor organizations in the New York metropolitan area. It was organized with the aim of giving Consumer Jones and his wife an effective instrument by which they can have a voice in maintaining their standard of living at a price they can afford.

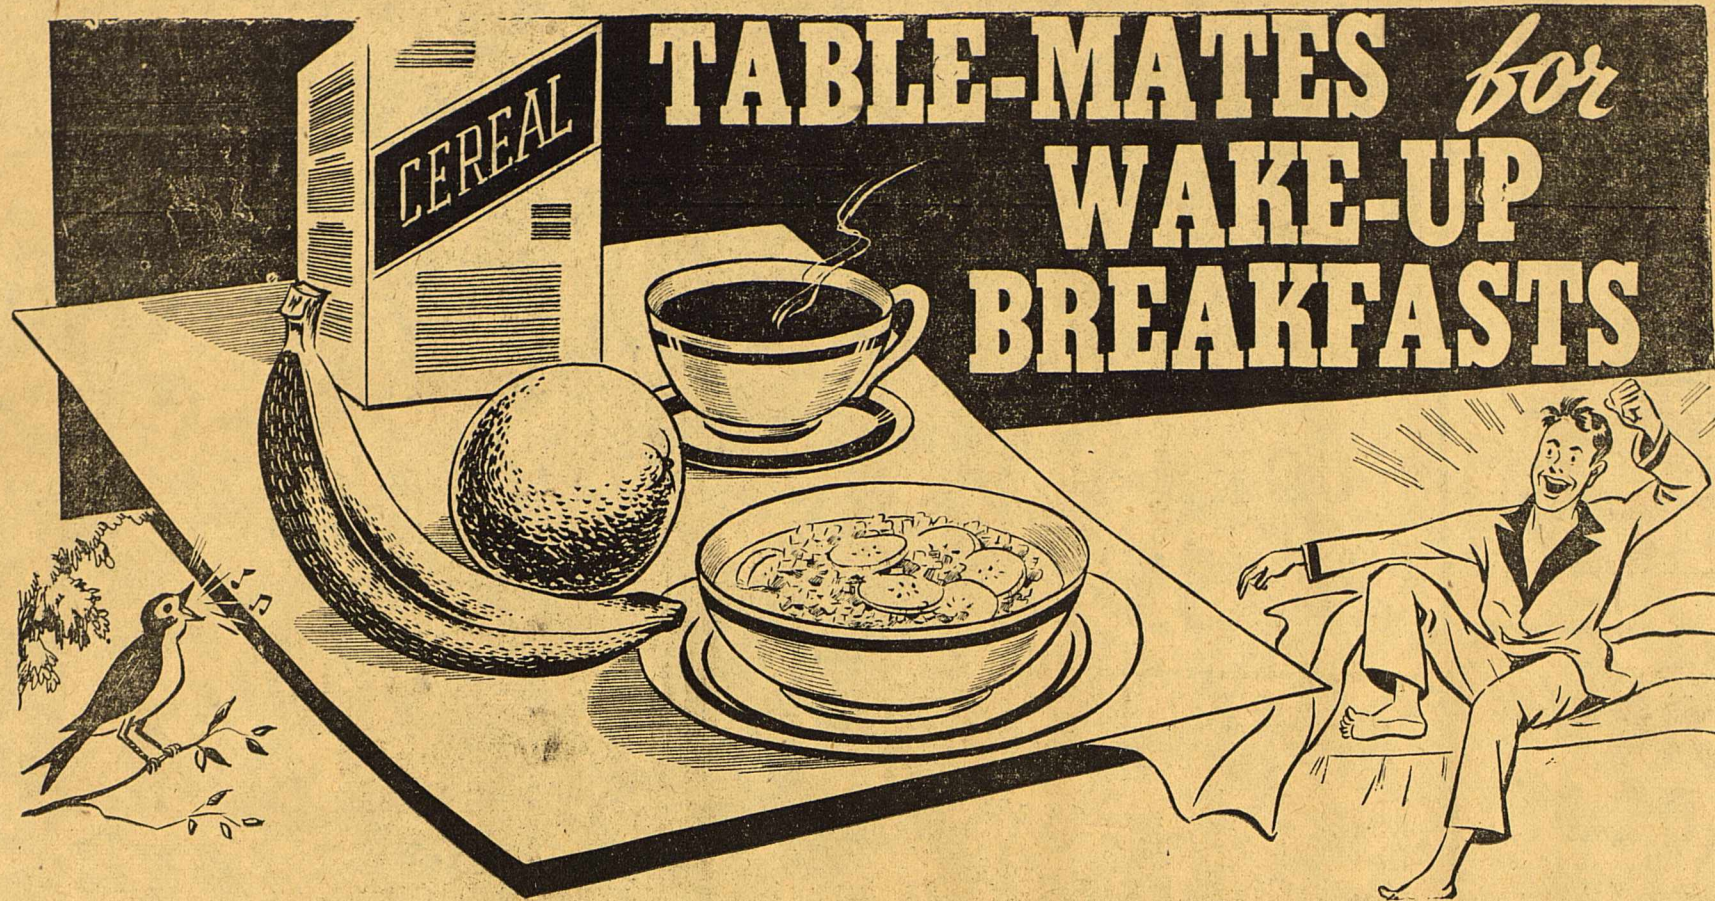

The Council has an executive board of 20 men and women including representatives of a milk cooperative, the CIO, the AFL and the League of Women Shoppers as well as four housewives, a social settlement worker, a teacher and others. Chairman of the Committee is Miss Mildred A. Gutwillig. There also is a Delegates Council composed of two representatives from each of the 86 affiliated organizations representing an alleged half million consumers.

"The executive committee meets monthly, takes up issues it considers timely, plans a campaign and passes it on to the Delegates Council which carries it out into the community."

"For example," says Mrs. Turner, "during the OPA holiday in the fall of 1946, we launched a buyer's strike to check inflation. The executive board issued a statement which was widely carried by the local press and radio urging buyers to buy only the necessities of life to keep prices from spiraling. We also distributed many leaflets, arranged demonstrations in front of department stores and on street corners. We were deluged with requests for further information from all parts of the country."

"We make no claim that prices came down generally in this area as a result. But we do say that the stores found that consumers would not buy shoddy merchandise. The consumer resistance brought cut-price sales in shoddy material that might otherwise have been bought at much higher prices. Better quality merchandise is now coming into the market at the same price. This is in effect a cut in price."

"We feel that our most important job was in making the consumer aware that he himself had something to say about whether we should have runaway inflation with all the economic disaster that means or hold the line."

# Ice Water For Yanks? Give Them Wine, Says M. P. Who Got In Hot Water In Britain Over Question

By BEVERLY BAXTER  
Written for NEA Service  
LONDON—(NEA)—The danger of making frequent public speeches is that by the law of average one is bound eventually to say something interesting. This unusual experience came to me when the National Caterers' Association invited Hilary Marquand, a minister in the Socialist government, and myself to address them at their annual luncheon.

Marquand told the large catering audience that the British should do everything to encourage American tourist traffic. Americans are our

to oppose, I urged the caterers to disregard Marquand's advice about ice water. "It is true that water is drunk quite recklessly in America," I said, "and frequently with ice in it. But we have a civilizing mission to perform in the matter of drink and you should serve your American guests with wines carefully chosen for such dishes as may happen to be on your menu."

Without boasting I may claim that my words were received with enthusiasm. As the price of meals is controlled and as they are confined to three courses (bread being a course if you want it) the caterer looks to the renting of rooms and the serving of drink as his means of profit. The prospect of ice water, free of charge, does not excite him. But the Englishman never likes to admit that he does anything for profit unless it coincides with service to humanity, so I then went on to say that ice water is one of the chief causes of indigestion in the United States. This roused even more enthusiasm—not because indigestion is widespread in America but because ice water was one of the chief causes. At any rate the

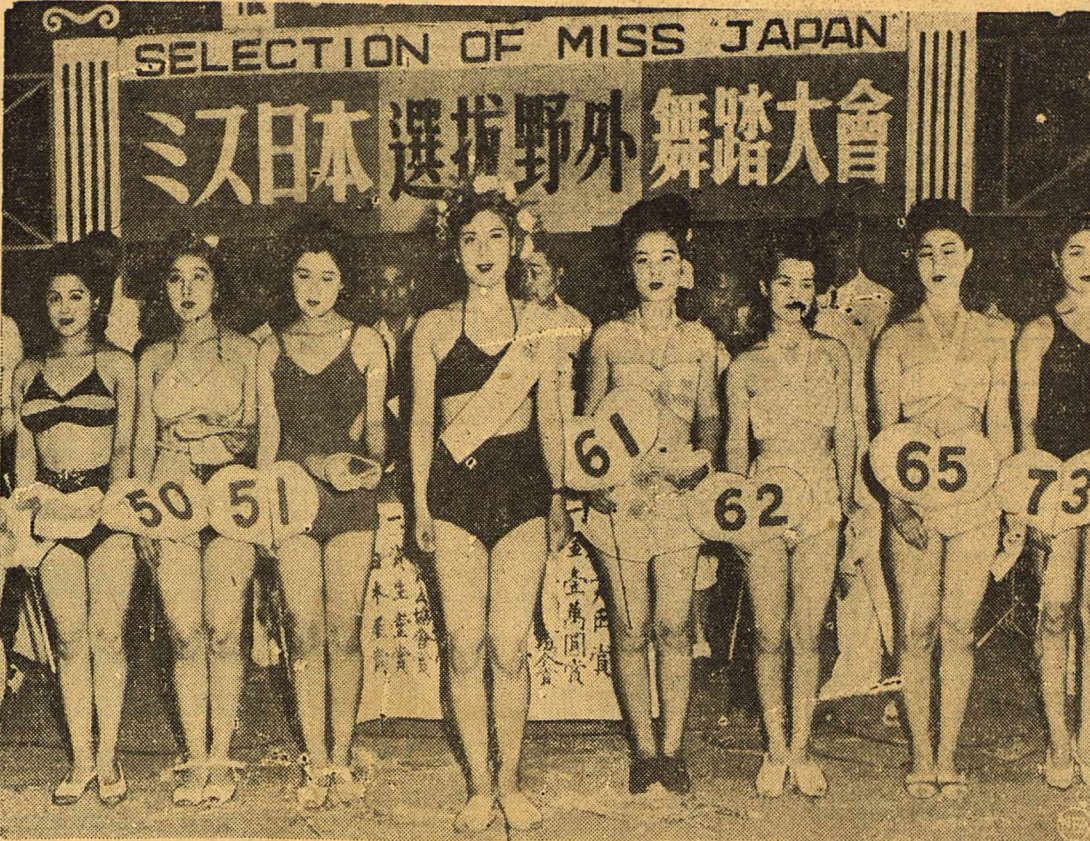

United States for the good of the inhabitants. Indigestion has almost disappeared from British life. Perhaps it is because we eat less but part of the reason is that we drink more wisely. But next time I make a public speech I am going to be dull, even

**Ice . . . Or Iced?**  
Beverly Baxter, member of the British House of Commons has written for NEA Service and The Reporter-Telegram on the human aspects of the fuel crisis and on British politics. Now that he's made headlines by urging England to civilize American tourists and not serve them ice water, NEA Service asked him to do a light-hearted story on a light-hearted problem. Incidentally, the British call it "iced water." Baxter, humorist, former editor-in-chief of the London Express as well as an MP, calls it "ice water," even as the Americans. He was born in Toronto.

if it means research and work—for it is quite impossible just to dash off a dull speech without any preparation at all.

P. S.: The secretary of Lord Woolton, chairman of the Conservative Party, who presided at the luncheon has just phoned to say that an indignant but mistaken American has written a letter of protest to Lord Woolton for his remarks about ice water. His Lordship would be grateful if I would reply to the letter as ice water is my department.

## Japan Goes for a Good Old American Custom

Yep, they have 'em in Japan, too. Photo above shows climax of a three-day beauty contest in Tokyo, in which 73 candidates for the title of "Miss Japan of 1947" were judged on face, figure, voice, health and education. The winner (center, wearing floral crown) poses with runners-up, all named "Miss Tokyo." Photo by R. C. Ferguson, NEA-Acme Newspictures, photographer.

Government hospitals in the United States have 73.7 per cent of all hospital beds in the country. In early-day America, the cost of hauling a ton of goods by wagon from New York to Buffalo was \$100. Rich submarine coal fields have been discovered off Japan's Kyushu Island.

"Civilize them with wine."

kinsmen, our fellow travelers, our friends and they are alleged to have a supply of the rarest thing in the world—American dollars. "We must make them feel at a home," said Marquand, "which seemed an odd remark even for a minister. Surely the purpose of going abroad is to get away from feeling at home, but we shall let that pass. Chilling to his subject Marquand went so far as to suggest that our hotels and restaurants should serve their American visitors with ice water, a drink which he claimed is popular in the U. S. A. Then the minister departed for the House of Commons and it was my turn.

As it is the duty of the opposition

### JayCee's President Is Texas' Ambassador Of Goodwill—Officially

AUSTIN—(P)—Gov. Beauford H. Jester recently named John Ben Sheppard of Gladewater "ambassador of good will for the state of Texas."

Sheppard, national president of the United States Junior Chamber of Commerce, received his commission at a brief ceremonial in Jester's office. He will visit every state and territory of the nation during his one-year term of office which started July 1.

"Take a bit of Texas everywhere you go," the Governor told Sheppard in presenting him the hand-lettered commission. Jester gave Sheppard letters of introduction to the governors of 47 states and the territories. Sheppard will visit Alaska late this month to open his tour.

### THIS RATTLESNAKE WAS DOUBLE MENACE

LOGAN, W. VA.—(P)—Harold Williams went raspberry picking with his sister, heard an ominous rattling in the grass and recoiled from a foot-long snake with two heads—both of them well-formed and poised to strike.

Despite pleadings from his sister, Williams captured the queer reptile with a forked stick. The rattler died some days later in captivity.

When a dial telephone is cut into a manual exchange, the operator often hears the number sounded by the playing of a recorded pattern of numbers through her headset.

"Put it by the fire."

reporters were on the job by that time and next morning I found that I was quite definitely in hot water. An American friend of mine called me on the telephone before breakfast. "What do you know about iced drinks?" he asked. "Over here a guy says 'you'd better drink your beer before it gets cold.' If you serve a cocktail you put it by the fire to take the chill off. I went to dinner the other night and the only thing warm was the champagne."

These were harsh words, especially when none of us want to do anything to upset the Marshall plan, but it seemed to me that they required some tight reply so I spoke in this wise:

**Chilled Palates**  
"America is the greatest, kindest, noblest country in the world but her men die too young because they don't know how to drink. The habit of taking four or five iced cocktails before a dinner and then serving ice water at the table is a physiological outrage. The palate is so chilled that it cannot tell the flavor of the pre-frozen food and the stomach rebels. An Englishman drinks sherry before dinner, then a red or white wine according to the food, finishes up with a port and perhaps a brandy, and lives forever. So do the French. I know that the tinkle of ice in a glass is sweeter music than the prelude to Tristan but . . ."

Just then we were cut off, which is, perhaps, as well. As Churchill once said there is nothing so helpful, or at times, so harmful, as when two nations speak the same language.

I realize that there are many Americans and Canadians who are tea-totalers and I would be the last man to want to offend their susceptibilities. Certainly our caterers will supply them with water at any temperature and be glad to do so. But I still claim that the Iceman Cometh too often in the

# CLASSICS ON THE REQUIRED LIST for school!

Young men want school-cut clothes . . . clothes with a smart look and an aptitude for long wear . . . jackets and slacks that can be juggled about, that work in well with the rest of their wardrobe, all wool suits that are so popular . . . and Virtue's has them all! Everything the school boy needs and wants is here!

## MEN'S NEW FALL SUITS!

All-wool, new Fall suits that are tailored for a neat appearance. Quality suits that will give long, stylish wear. Cut for a good appearance. We have them in sizes from 35 to 42 \$29 To \$35

## MEN'S DRESS SLACKS

Slacks that will give both comfort and good looks. In the most popular of Fall colors and styles. Cut for the new Fall season! ALL-WOOL \$8.90

RAYON \$6.90

## MEN'S DRESS ANKLETS

Made from quality cotton, rayon, nylon and woolen cotton. In solid colors, stripes, and designs. High quality anklets that will give long service 29¢ To 59¢

## Men's BROADCLOTH SHORTS

Quality shorts that are sanforized shrunk. Full cut for comfort. Sizes 30 to 44. 49¢

## Men's KNIT UNDERSHIRTS

of fine knit yarn. Full cut. A quality undershirt that will give lasting wear. Sizes 34 to 46. 49¢

## Men's and Young Men's T-SHIRTS

ALL WHITE T-Shirts that he will need before starting school. These are cut for comfort and made for long wear. 69¢ To \$1.49

## MEN'S LONG PAJAMAS

of quality BROADCLOTH. In solid colors and stripes. Sanforized shrunk. Full cut for additional sleeping comfort \$4.98

Other Regular Sizes \$3.98 and \$4.98

## MEN'S new fall HATS

made from high quality felt. Styled for the new Fall season in the most popular shades. \$4.98

## ROLBY "Self-Conforming" HATS

A very high quality hat made by a nationally famous manufacturer who is known for the best in style and material. Stylish and dependable. \$9.90 - \$10.90 - \$14.50

## Men's SPRING-BAK Shorts

Fine quality 80 square print, sanforized shrunk, fast color, GRIPPER Fasteners, assorted colors, and white. Sizes: 30-48. 89¢

## Winston Churchill Declares British Will Come Through Economic Crisis

By DEWITT MACKENZIE  
AP Foreign Affairs Analyst  
Winston Churchill, whose host of admirers regard him as the personification of John Bull at the best, declares the British people will come through the economic crisis they now face, no matter what the difficulties may be. That prediction isn't likely to be taken lightly by a world which remembers another prophecy of the famous war-time prime minister, made in the dark days just after Dunkerque:

"We shall defend our island whatever the cost may be. We shall fight on the beaches, we shall fight on the landing grounds, we shall fight in the fields and in the streets, we shall fight in the hills; we shall never surrender."

### Prepared For Hardships

The British people are prepared for even greater hardships than they have had to endure during and since the war. Thus far they have accepted that tough prospect with-

out a whimper. However, sturdy of character alone isn't likely to turn the trick. The British government is looking to America for further aid, and in this it has the backing of the powerful Conservative Party headed by Churchill. Churchill pledged that this government would support efforts of the Socialist government to obtain "easements" of the swiftly disappearing American loan of \$300,000,000 and to secure new American credits.

So as the signs now read, Britain's recovery may depend largely on those easements and credits. And if England gets them, how long will it take her to reach an advanced stage of competence?

William Saunders, a 19th Century horticulturist for the U. S. Department of Agriculture, planned a park system of Washington, D. C. and supervised the setting out of 80,000 trees in the city.

## Style and Stamina

There's a high spirited style and snap-back stamina in these masculine timber grain moccasins that will swing your feet along in tireless comfort. Chillie tie, extra heavy Avon soles, rubber heels.

\$9.90

## STRAIGHT TIP for Style

Here's an odds-on fashion favorite in supple brown calfskin with perforated tip that will give you the easy assurance of good styling and the feel on your feet of solid comfort.

\$10.90

Our Global Headache

The presence in China of the American mission headed by General Wedemeyer calls attention forcefully to the fact that the American government's headache is global. Public thought may have been taken up lately with the problem of moves and countermoves in Europe against expanding Russian communism, but all the troubles don't originate in the Kremlin.

General Wedemeyer is in China for another try, perhaps the last one, at persuading Generalissimo Chiang Kai-shek to reform and reorganize his government. There have been two recent "reforms," both hopefully hailed—the new Chinese constitution and a reorganization aimed at making the government more representative. But they have produced no successful results, and there is even considerable question about their sincerity.

The Nationalist government seems to be losing the civil war, and losing it fast. The facts behind the situation are familiar. American observers, whatever their political sympathies, agree almost unanimously that the Chiang regime is a corrupt, inefficient dictatorship. The economy is tottering on inflation. The people are hungry, and there is much popular support of the Communists.

America is stuck with that regime and that situation. It may be too late for the Chiang government to do any effective reorganizing, even if the inclination is there. Yet the American government must try to bolster that totalitarian, graft-ridden clique. Otherwise communism will almost surely impose itself on a country with more than three times our population.

America's position in China is only one painful example of the embarrassing spot we have been in since the war. As the chief bulwark against world communism, America is compelled to accept and support some political fellows almost as distasteful, though not as dangerous, as the Soviets.

We are backing reactionary, undemocratic governments in Greece and Turkey, as well as in China. For the sake of hemispheric safety, this government supports some Latin-American dictatorships whose policies are most unsavory and un-American.

Even in the Indonesian fighting America finds herself, as champion of Europe's non-Communist governments, tied up indirectly with a government whose present activities bear a distressing resemblance to the Fascist war against Ethiopia.

The unhappy truth is that the American-type government which guarantees individual rights and freedoms is a pretty scarce item in the world today. That type of government will not, by war or treachery, force its way of life on another country.

So, in opposing the spread of communism by force, the United States cannot always guarantee something in its place that is very much better. About the only tactic it has in such a situation is to require that certain conditions of reform be met before financial assistance is given.

That, presumably, is the tactic that General Wedemeyer is using in China now. Its effectiveness is limited in comparison with Communist methods. But that is no reason why it cannot be used wherever conditions require it. Moscow calls it dollar diplomacy. Yet that should not blind the people whom it benefits to the fact that it really is an instrument for disseminating the priceless enjoyment of human freedom.

The fellow who always knocks should get one big boost—and you know where.

First Order Of Business

Passengers Air Gripes Via 'Courtesy Reports' Sponsored By Robert Young, Railroad Official

By NEA Service  
NEW YORK—(NEA)—In their search for ways to make train travel popular, railroad executives also are learning how patronage can be driven away without the slightest effort. Of them all, here is the most effective method.

Just keep ticket-buyers standing in long queues at station windows, while your clerks visit, read and saunter around inside with what—rightly or not—looks to your public like aimless disinterest.

One out of every five persons who get angry enough to write their peevish to the Federation for Railway Progress complain about the ticket-window slowdown. That is substantially more than mention any other one grievance.

The FRP is Robert Young's new organization of railroad security-holders, train-riders and whoever else is interested enough to sign up and lay \$2 a year on the line for more in the case of organizations, corporations and security holders.

Its announced purpose is to improve the standards of railroad service to the public. One method is to invite criticism—bad or good. If a railroad sends your blood pressure to dangerous highs, you can tell the federation even though you are not a member. In that case, your complaint will be passed on to the president of the road that offended you. But if you belong to the federation it will follow through, and if your complaint is justified will try to see that something is done.

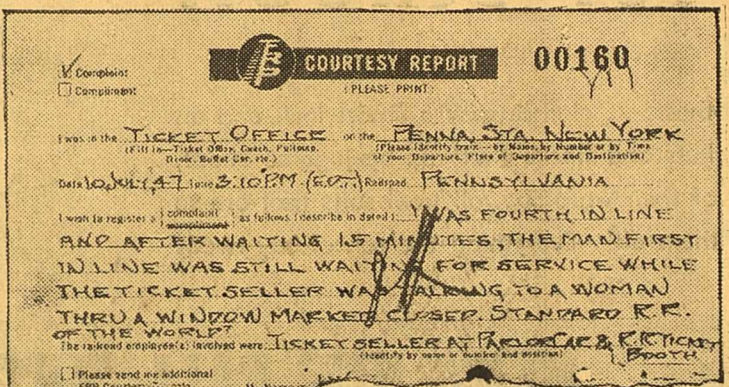

The federation was not announced until late last Spring. Already it has 14,500 dues-paying individual members, in addition to companies and organizations.

The invitation to complain was issued in newspaper advertisements the last of May. In the first two months 350 persons wrote in about the treatment they were getting from the railroads they use.

And—this will surprise some but will delight railroad executives who have taken quite a beating during and since the war—Only half of the reports were complaints.

Two out of every five were compliments. One out of ten contained suggestions.

The old-line railroad managements aren't enthusiastic about the federation, which they regard

"Courtesy report." At last passengers have their say.

as another of the annoying pins that Young uses to puncture their complacency. Three out of five presidents won't recognize the federation by acknowledging complaints—or even compliments—passed on to them.

But if you are a frequent railroad rider you will react to some of the grievances that are aired in "Courtesy Reports" to the FRP: "Many railroad washrooms are '1890, down long flights of stairs, unclean, etc.' Women, particularly, insist on smoking in non-smoking cars when the trainmen's backs are turned. 'Drunken waiter, inefficient and surly steward' in dining car. Air conditioning off and steam heat on when it's 80 degrees outside. Rough stops at night that make sleep impossible. Took 35 minutes to buy a ticket—'clerks were not interested. Busy looking at letters, etc.' All but two ticket windows closed in mid-afternoon, lines 25 persons long, so the writer missed his

train. Dining service "outrageously slow and poor under a waiter who cared little and a steward who cared less."

But also there are bright spots in the files. Kewaunee, Wis., woman went to the trouble of naming Northwestern employees who had been particularly helpful in times of need. A musician finds the Pennsylvania's food and service vastly improved on crack Washington-to-New York trains. A Cincinnati likes the C. & O.'s no-tipping rule. A Schenectady, N. Y., man got courteous treatment on a telephone ticket reservation for "the first time," and was so elated he wrote about it.

Although Victoria Falls in Africa is more than twice as high and wider than Niagara, more water flows over Niagara in a year than over Victoria because the African falls are greatly reduced in the dry season.

Pin-Up-Memo: Scottish Knit Sweaters In '48

By BARBARA WACE  
AP Newsfeatures  
LONDON—If so many Scottish lassies hadn't married servicemen and Canadian and Polish soldiers, American women would be able to buy more of the famous Scottish knitted sweaters, twin sets, and Sloppy Joes.

For the female labor shortage in the little town of Hawick near Edinburgh center of most of the Scottish knitwear industry, is partly due to the fact that when it became a military center during the war, half the girls married soldiers and have sailed as GI brides. More were enticed away by higher wartime wages. And the young girls growing up have to be trained in this definitely skilled work of producing the soft cashmeres and Shetlands for which the town was famous.

Most of the knitwear firms in Hawick are opening branches of their factories in other towns—some even across the border in England.

But worse than the female labor shortage is the spinning bottleneck, the bugbear of the whole textile trade. Men who have earned more money elsewhere are reluctant to go back to it. Wages in the clean end of the trade are proportionately higher, and many knitwear people feel the only solution to the world-wide spinning bottleneck is higher wages for the spinners.

The Shetland shortage has another special reason. During the war troops swarmed all over the North of Scotland and the Islands too. They got to know the local crofters, and many, coupon-short, persuaded them to accept orders for sweaters for their wives and girls back home. The crofters found doing business that way more profitable, and less wool got onto the market in consequence.

The real fine Cashmere used to come from China, and was unobtainable in wartime. Cashian from Persia and elsewhere had to substitute, and goods of the old super-fineness were often missing. But the present export samples showed cashmeres which are the "real Mackay," super fine and feather weight, and the trade has high hopes of a recovery to pre-war quantity by 1948.

Under a new Board of Trade ruling, only 2 1/2 per cent of non-utility goods in the knitwear industry can be for the home market. As a result it is almost impossible to find a luxury sweater or cardigan anywhere in London.

The word "carat," the name of the weight unit for jewels, derives from the Mediterranean carob tree, the seeds of which are of very uniform weight and were used in ancient times as a measure of weight.

100 Year Old Texan Continues To Work

### Six-Footers Convene To Dramatize Their Plight In Which They Claim They Get Short End Of Everything

Low bridge: Doorways and dangling chandeliers are hazards in the social life of Hollywood's "Tip Top" club members. Betty Krueger (left) stands six feet, one, her partner, Don Stanton, is six feet, five. High man is Jack Stetson (right), who's six feet, eight and a half inch. The dark-haired shorty is Ginny Irwin, five feet, three and a half inches. Obviously not a club member.

HOLLYWOOD — (NEA) — High society descended on Hollywood. Rubbernecks who were used to looking right or left for a glimpse at movie stars got cricks in their necks from looking up.

The "250" that came to Hollywood all were upwards of six feet tall. They were the toppers from the Tip Top clubs across the nation, here for their first national convention. They wanted to dramatize the plight of tall men and women who are forced to jackknife their extra inches into conventional size beds, who never can find

ready-made clothes to fit them, who are always bumping into chandeliers and never have leg room in theaters.

There were Tip Toppers from Miami, Pittsburgh, St. Louis, Dallas, New Orleans and Philadelphia. Delegates came from Seattle's "Timberliners," Nebraska's "Stardusters," Cleveland's "Skyscrapers," New York's "Stratoliners," and "Seventy-Two Inchers." San Francisco's "Golden Gaters," and the Kansas City, Kans., "Skyliners."

All the women were higher than six feet, the men at least six feet, four inches. Those who were married had tall mates; to marry "beneath you" is considered traitorous to the cause of making life pleasant for tall people.

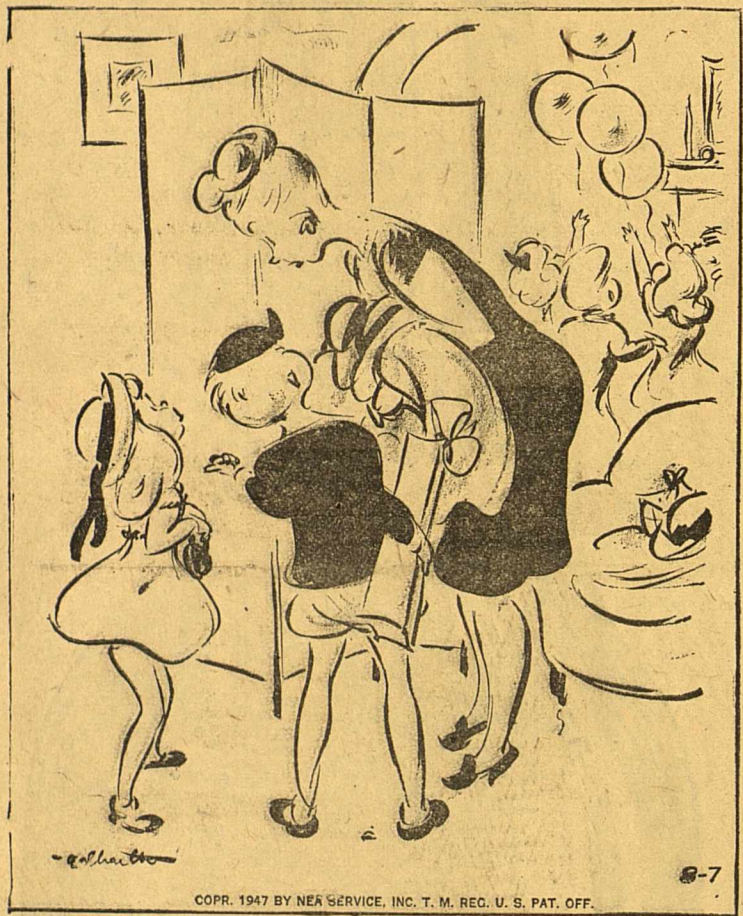

The Tip Toppers compared their size 12 shoes with footprints in the cement in a theater lobby here, danced head and shoulders above the crowds at filmland nightclubs and cut king-size capers in the surf at the beaches.

They crowded Hollywood movie moguls could see what trouble jammed together seats cause and staged a Hollywood fashion show—the models were all over six feet—so dress designers could see what alterations a conventional dress or suit needs to cover adequately a six-foot frame.

When they finally wound up their first convention, climbed back into their too-short railroad berths and headed home again, the Tip Toppers hoped the nation's manufacturers and designers were properly impressed — and would do something about it, quickly.

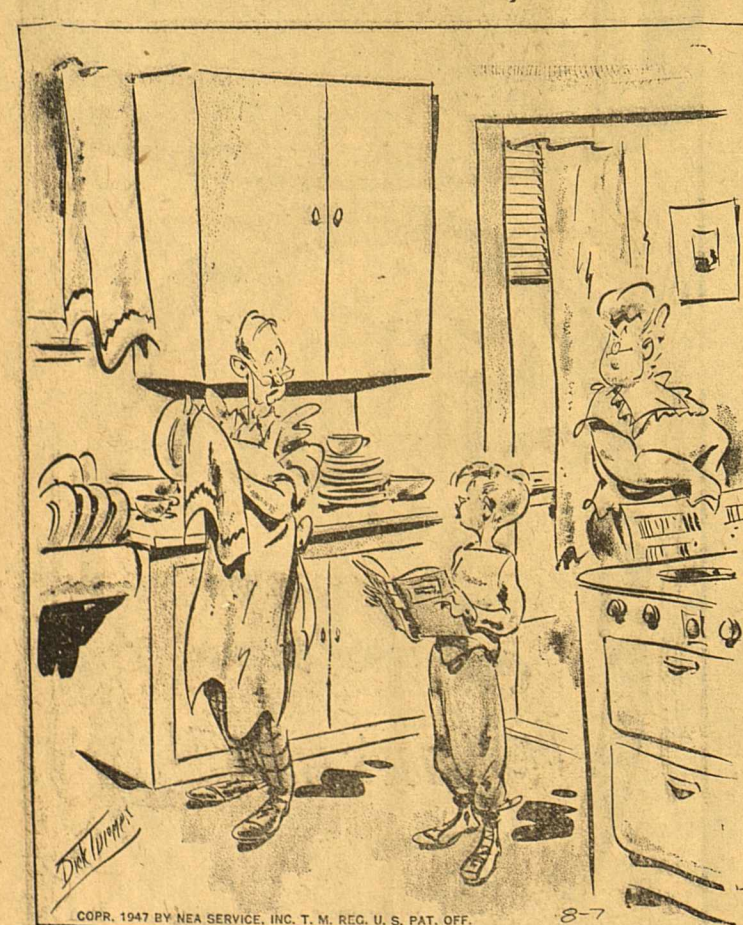

Laos, one of the states of Indochina is twice the size of Pennsylvania.

### McKenney on Bridge

By WILLIAM E. MCKENNEY  
America's Card Authority  
A few years ago bridge was considered a winter pastime, but now tournaments are held every month of the year. The schedule includes a tournament to be held in Florida beginning Aug. 29.

One of the players who can be counted upon to make a good showing in that event is William Seamon of Miami Beach, who gave me today's hand.

In commenting on the hand, Seamon said, "When you get your opponents into a bad contract, why not let them stew in their own juice? I doubt if there is a player in the country who would make six diamonds on this hand if East does not double."

With four trumps to the jack-ten, East naturally thought that

he would make a trump trick, and his partner's spade bid led him to believe that his side would make a spade trick.

However, when West held the first trick with the king of spades, it was not difficult for declarer to see that East had nothing to double on, except all of the trumps.

West shifted to a heart, declarer won, led the five of diamonds to dummy's king, then led the eight of diamonds from dummy and took the finesse.

If East had not doubled, it is certainly most unlikely that South would have let the eight of diamonds ride.

**Senator O'Daniel Sells Large Home**

WASHINGTON — (AP) — Senator O'Daniel has sold the structure which he and Mrs. O'Daniel maintain as their private residence here in a four-story apartment building. He said the former 40-room, 14-apartment unit building has been acquired by a cooperative group in which the tenants will be stockholders and have the right to permanent occupancy. He and Mrs. O'Daniel will continue to reside in the building for a short time. The amount of money involved in the transaction was not disclosed.

About 95 per cent of all new locomotives being ordered for American railroads are reported to be Diesel-electric.

**Texan Asks Petrillo To Correct Popular Song Concerning The Alamo**

By JACK RUTLEDGE Associated Press Staff  
This is an open letter to Mr. Petrillo, the music czar. You may look over his shoulder and read if you wish.

Dear Mr. Petrillo:  
From the rock-bound coast of California to the sunny shores of Maine (we reversed the wording advisedly to avoid copyright infringement) millions of Americans are listening to jukeboxes. In nine out of ten of the boxes there is a song by one of your boys

that is titled "Across the Alley from the Alamo."  
You also hear this song over the radio, from homes where people are playing it on phonographs, and from your bands.

Now, Mr. Petrillo, this song is giving America the false impression that the Alamo, pride of Texas, is probably located in a slum district because it is on an alley.

**Texans Take Care Of Alamo**  
It make people think Texans are pretty careless and are not taking care of their shrine.

I have just visited San Antonio, home of the Alamo. I spent an hour looking for that alley.  
There is no alley across from the Alamo, Mr. Petrillo. There is none behind it. There is none on either side of it.

I went to a lot of trouble getting this information for you, Mr. Petrillo, and I hope you can do something with it.

The Alamo is in the heart of San Antonio. It is beautifully kept. In front of it is Alamo Plaza. The street is named Alamo Plaza. There is, also, a small plaza, or park.

To the right of the Alamo, looking at it from the front, is Crockett Street. Back of it is Nacogdoches Street. To the left is Houston Street. Also it is touched by Travis, Avenue E and 12th Street.

**Legitimate Streets**  
You probably wonder how so many streets can touch one square block, but you don't know San Antonio streets. They curve and twist so much that no one would be surprised, for example, while driving down Flores to cross Flores crossing itself.

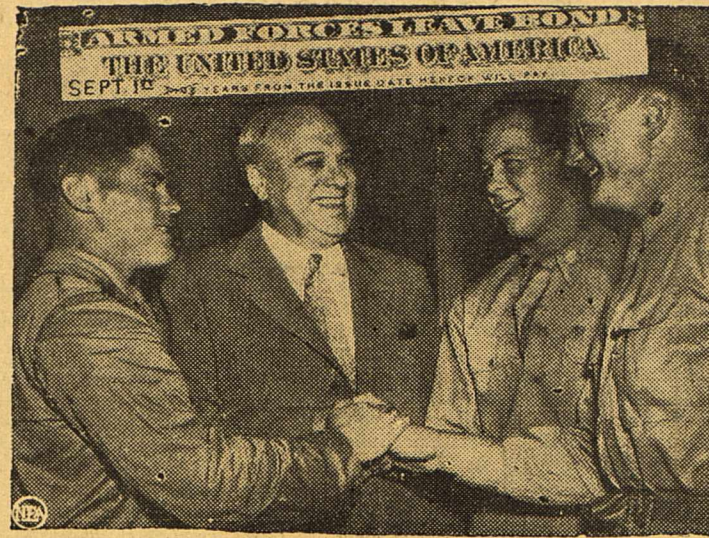

The above-mentioned streets, Mr. Petrillo, are legitimate streets, and not alleys. Along them are hotels, office buildings, stores, etc.

Obviously, you see, one of your boys has erred.  
We frankly don't know what can be done about the situation, but we feel sure that you can figure out something.

Maybe you can increase your membership dues, and donate the funds to helping us rebuild the Alamo's reputation.

And for goodness sake, don't let anyone write a song called "In the San Jacinto Slums." It might make a good title, but San Jacinto battlefield is another Texas shrine, and it's in good shape, Mr. Petrillo.

**U. S. Business Does About Face And Is Convinced Baby Depression Won't Arrive This Year At All**

NEW YORK—(NEA)—American business has turned optimistic. Its leaders have changed their collective mind. Now they are convinced that there will be no depression—not even a little, baby one—this year.

There will be readjustments here and there. But overall there will be no lay-offs, no part time work, no wage cuts, no store shelves groaning under the weight of merchandise that consumers refuse to buy.

In a survey by NEA Service, 29 members of the National Conference of Business Paper Editors vote 24 to four (with one undecided) that the country has struggled through reconversion far enough to see daylight ahead—and an almost cloudless sky.

This contrasts sharply with the results of a similar check of the Conference last March, in which 32 editors replied.

Seven editors who last March looked for a 1947 baby depression have changed their minds. One other still expects a setback, and one is in doubt, but both say things look better now than they did last Spring.

Each editor explains the brighter outlook in terms of his own industry, of course. But some common ideas run through the explanations that are offered.

R. L. Fitzgerald, editor of the Boot & Shoe Recorder, says that "foreign demand for U. S. products, wage increases, inflationary veterans legislation, lifting of controls on installment selling, are contributing factors to another inflationary spiral which temporarily, at least, gives business' another shot in the arm. At the same time these inflationary developments give cause for concern. Government figures show consumer income declining in the face of inflationary price rise, while rent and tax increases are putting new pressure on consumers."

If the Marshall plan is adopted foreign demand will continue. If it fizzles out, loss of foreign trade might hasten and intensify the reaction.

Beginning Sept. 2, veterans can begin cashing \$1,800,000,000 of terminal leave bonds issued to them in place of accumulated leave they didn't get before demobilization. On the basis of post-World War I experience and its own canvass of nine cities, the Wall Street Journal predicts that this will give business a billion-dollar shot in the arm.

Clifford Strick, editor of Heating & Ventilating, feels "a little more optimistic now" than he did in March. He doesn't expect a recession this year, but fears one.

He is optimistic because "things look good," but pessimistic because he doesn't see "how construction can continue with prices as high as they are." And if construction falters, he fears a lot of layoffs that would have a bad psychological effect on other business.

Chain Store Age's editor, Godfrey M. Leihar, is one of the "pessimists" who anticipate a recession. But he is not disconsolate. He foresees "a healthy decline in the price of some commodities; a stabilization of prices around present levels in certain other lines; and some further price increases in still other lines. Increased production, consumer resistance and competition will combine, we believe, to bring down prices that are still too high and to keep prices from getting out of hand in those fields in which further price increases may be expected as a result of increased production costs."

Another "pessimist" is Robert L. Taylor, editor of Chemical Industries, who looks for "a slight falling off of general business activity from its present levels later in the year" but says he does not consider this a "recession." The readjustment will come later than he expected last Spring, he says, because price and production readjustments have been

more gradual than he anticipated—which, he suggests, will make the depression he expects next year much milder than it otherwise would have been.

The continuing demand for consumer's goods, revived by "the slight recession that occurred in many lines in May and June," is the reason Fred P. Peters, editor of Materials and Methods (synthetics and light metals) feels more optimistic now.

Julien Elfenbein, editorial director of the Haire Publications' home furnishings group, speaks for many who did not expect a recession last March and still do not. His confidence rests upon "the shortages that still exist in home furnishings and the tremendous demand for homes and everything that goes into a home or into a garden."

Elfenbein speaks also for several who are worried about "the pending relaxation of credit controls." Until Nov. 1 the Federal Reserve Board will continue to insist that the consumer pay one-third down on heavy items such as cars, refrigerators, washing machines and the like—and pay up the balance in 15 months. But Congress has limited such controls to that date.

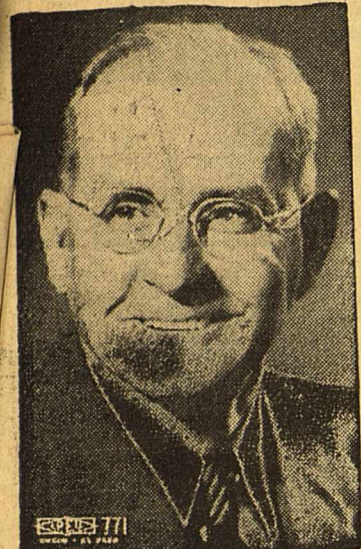

Elfenbein believes that "retail merchants should be warned that the prices of home appliances will go higher if installment selling terms are relaxed. If we go back to 10 per cent down or 5 per cent down or nothing down on a refrigerator or washing machine and three years to pay, a lot of people will not question the price tag on the merchandise."

Editor James S. Warren of Hotel Management and Restaurant Management, has decided there won't be a 1947 recession because "continuing record high employment means more money than we had anticipated in people's pockets, which means they can continue to afford to patronize restaurants and hotels liberally."

These experts constitute a pretty typical cross-section of the reasons why trade editors, who spend much time with key businessmen and usually reflect their viewpoint, feel much happier now than they did four months ago.

**THE CANDIDATE WHO CAN AND WILL REPRESENT EVERYONE.**

Unless the trend toward centralized bureaucratic government is checked, America will be headed for dictatorship.

The main points of my program are:

1. Opposition to centralized government.
2. Opposition to Communism—support of free enterprise.
3. For military training.
4. Conservation of water resources.
5. Fair treatment for both capital and labor and representation of all groups without prejudice.

**Texas Has More Money In State Treasury**

AUSTIN — (AP) — Texas had \$6,022,245 more in the treasury on July 31 than it had a month before.

State Treasurer Jesse James' monthly report Thursday showed total cash on hand in all state funds at the end of July was \$146,247,473 compared with \$140,225,228 at the end of June.

**Egyptians Plan New Industries For Dam**

CAIRO—After 18 years of study, the Aswan dam electrification scheme has been approved by the Egyptian parliament. The Nile dam, one of the biggest in the world, was originally constructed to save water during the flood season. The dam, which cost \$4,000,000, has 130 doors, 30 of which will be used in the electrification scheme. The government has accepted bids for machinery.

Experts estimate the electric power which could be produced annually at 1,645,000,000 kilowatts, equal to the power from 590,000 tons of crude oil costing \$8,000,000.

With Aswan power the government plans fertilizer, steel and other industries. Advocates of local production estimate that 320,000 tons of fertilizers would be produced in the early stages of the new industry and that this would grow to 435,000 tons per year.

The Aswan region has deposits of iron ore. Foreign experts reported these should be studied further to determine the practicability of developing a steel industry with Aswan power. The government announces it will ask bids on the establishment of a plant to produce 915,000 tons of steel annually.

**NAVY TABLES JAPANESE RELATIONS**

ANNAPOLIS — (AP) — Capt. H. C. Baldrige, Naval Academy Museum director, believes in rubbing it in. In the museum's main room stands a large wooden table presented by the emperor of Japan to Commander M. C. Perry in 1854. Right before it is the steel Navy table on which Japanese representatives signed surrender terms aboard the battleship Missouri Sept. 2, 1945. To top off the display, Captain Baldrige has placed a bronze replica of the Iwo Jima flag raising monument upon the Jap gift table.

It has long been possible to install a television set in combination with telephones so that each speaker can see the other, but the device is too costly for general use.

**DRUGS AND SUNDRIES**

on special for this weekend! You'll find wonderful values when you trade with the Palace... Every department in this fast growing store is filled to the brim with quality merchandise at saving prices!
