Republicans Cheer At Wallace Announcement

Foreign Policy Is Issue

By JACK BELL
Associated Press Political Reporter

WASHINGTON—(P)—Henry A. Wallace catapulted foreign policy into the presidential campaign Tuesday by embarking on the first serious third party effort since 1924 amid Democratic jeers and fears and Republican cheers.

Wallace's announcement he will run for President as an independent candidate next year propelled American relations with Russia into the race as an issue.

It apparently shook the political structure of the party he served as vice president and possibly reshaped the die from which the Republican nominee will emerge.

Chances Called Slim
Politicians are almost unanimous in their judgment that Wallace has an even smaller chance of election than the late Robert M. LaFollette, who carried only his home state of Wisconsin under the Progressive banner in 1924. LaFollette polled 4,822,000 votes, more than many observers think Wallace will get.

But the same politicians agree that Wallace's attack, in his Chicago radio speech Monday night, on what he called the "bipartisan reactionary war policy" will require answering by the two major party candidates during the campaign.

Wallace said policy "is dividing the world into two armed camps and making inevitable the day when American soldiers will be lying in their Arctic suits in the Russian snow."

Similarly, the former cabinet officer's assertion that universal military training is "the first decisive step on the road toward fascism" may point up that controversial question as an issue.

Democrats Fear
Despite public statements discounting the effect of Wallace's move, there was ample evidence the Democrats fear its possible effect in such key states as New York, California, Washington, Illinois and Michigan.

Senator Millikin of Colorado, chairman of the Republican Conference, named those particular areas in declaring Democratic hopes for 1948 had suffered "a major blow."

A prominent Democratic official, who asked not to be quoted by name, apparently has the same idea as Millikin. He told a reporter: "Last night was blue Monday for the Democratic Party."

But Senator McCarran (D-Nev) said Wallace, who was booted out of (Continued On Page 7)

Wallace To Run On Platform Of Peace, Prosperity

CHICAGO—(P)—Henry A. Wallace says "I shall run as an independent candidate for President of the United States in 1948."

He announced he will campaign on a platform advocating "peace and prosperity" and said both Democrats and Republicans "stand for a policy which opens the door to war in our lifetime, and makes war certain for our children."

Asked if he hoped to be elected as an independent, Wallace replied, "There's always hope."

Wallace made his announcement in a nationwide radio address Monday night. A former Democratic vice president and former cabinet officer under two Democratic presidents, Wallace thus bolted the Democratic Party, which he had joined despite the background of a launch Republican family.

He also ended speculation about his political plans—speculation that had started when he resigned as secretary of commerce at the request of President Truman. The resignation followed Wallace's opposition to Secretary of State Acheson's policy.

WEATHER
Partly cloudy Tuesday night and Wednesday. Colder in Panhandle and South Plains Tuesday night and in remainder of West Texas Wednesday. Maximum temperature Monday was 71 degrees, minimum 41 degrees. Minimum Tuesday 45 degrees.

Uncle Sugar Delivers

First shipment of sugar to reach Japan since the war is unloaded from the American freighter, William Ellery Channing, at Yokohama. Its arrival caused Japan's black-market sugar prices to drop 25 per cent, and candy prices 30 per cent.

King Mihai I Quits Throne

BUCHAREST, ROMANIA—(P)—King Mihai I abdicated Tuesday afternoon, and the Communist-dominated cabinet immediately declared Romania a "popular Democratic republic."

In a broadcast proclamation, King Mihai said he had abdicated in the interest of the people.

He said the present changes in Romania had made an alteration in the constitution necessary, and he would not stand in the way of the people, who must be free to choose their own form of government.

The 26-year-old monarch returned only recently from a trip to London and Switzerland, amid reports he was seeking government permission to marry Danish Princess Anne of Bourbon-Parma.

It was reported, with confirmation, that Mihai left at once for an undisclosed destination. His father, Carol II, twice renounced the Romanian throne.

Became King Twice
Mihai twice ascended the throne of Romania—the first time when he was only six years old. He became king then upon the abdication of his father. Carol renounced the throne rather than give up his love affair with red-haired Mme. Elena Lupescu.

A regency ruled for Mihai until Carol ascended the throne again after reconsidering his abdication. During World War II, Carol fled the country after the Nazi-affiliated Iron guard rose to power.

Mihai resumed the throne, and later succeeded in overthrowing Dictator Ion Antonescu in a coup on Aug. 23, 1944. Mihai was honored by the Soviet government with the Order of Victory for this "courageous act."

Experts Predict Prices Will Soon Pass 1920 Peak

WASHINGTON—(P)—Wholesale prices Tuesday edged nearer the all-time crest of May, 1920, and government economists say they can find nothing to indicate 1948 prices will stop there.

With the exception of some items which slowed down the food group at least temporarily, wholesale prices on 900 commodities studied by the Bureau of Labor Statistics sailed unchecked past another post-war mark during the week ended December 29.

An index figure of 162.5 was recorded for that date by the BLS, which uses average prices prevailing in 1926 as its 100, or normal wholesale level. In May, 1920, the Bureau says prices averaged 167.2 per cent of the 1926 average. Relating the index points to percentages, there is less than three per cent difference in prices today and those existing in May, 1920.

At the present rate of climb, wholesale prices should topple the 1920 high about the end of February, the economists say—and keep on going in contrast to the experience 27 years ago. Then the index dropped from 167.2 to 96 in May, 1921, just one year later. It struck a bottom of 59.8 in February, 1933.

The statisticians say "political pressures," on both the Truman Administration and Congress, for a halt in the price trend may alter the picture, but they shy away from any opinions on the best approach.

MIDLANDERS ENTER IN QUARTER HORSE SHOW
FORT WORTH—(P)—Nearly 100 entries in the Quarter Horse contest of the Southwest Exposition and Fat Stock Show, which starts January 30, have been received here.

Texas exhibitors will include Roy Parks, Sr., Roy Parks, Jr., and Williamson and Cole, Midland.

WASHINGTON—(AP)—Henry A. Wallace's entry into the presidential race was tabbed by the Republican high command Tuesday as marking the "disintegration" of the Democratic Party.

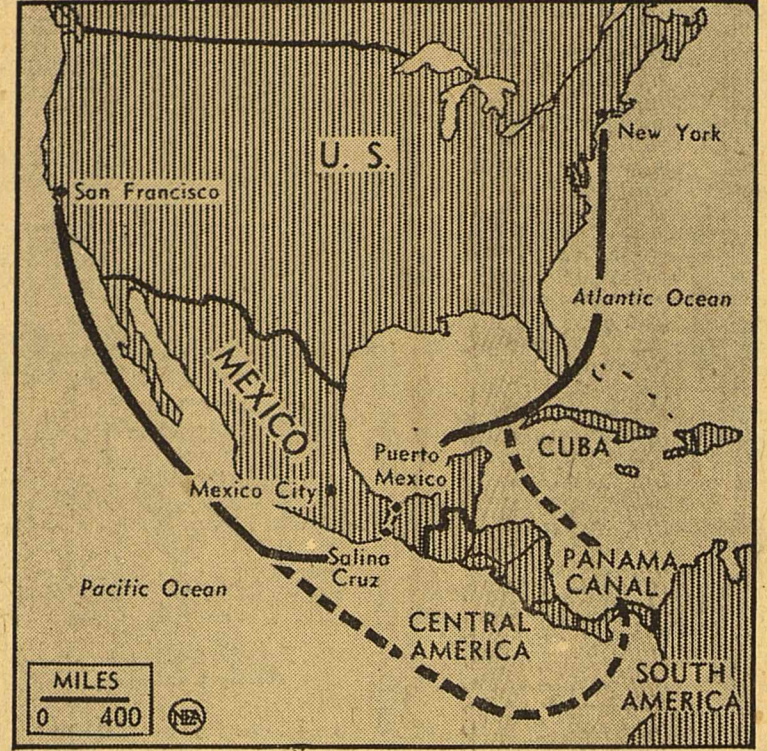

NEW YORK—(AP)—Wholesale prices of all grades of butter advanced sharply Tuesday on the New York Mercantile Exchange. Grade AA butter rose 2½ cents to 92½ cents a pound.

RANGOON, BURMA—(AP)—U Saw, prewar premier of Burma, and eight others were sentenced Tuesday to die for the assassination of Maj. Gen. U Aung San and six other Burmese cabinet ministers.

CHICAGO—(AP)—The Chicago Bears of the National Football League Tuesday obtained draft rights to Bobby Layne, University of Texas quarterback, in exchange for rights to Ray Evans of the University of Kansas.

PEIPING—(AP)—The crucial battle for Mukden became more tense Tuesday as Chinese Communist regulars, attacking in strength, battled to points only six and eight miles from the city proper.

Suggests New Canal Through Mexico

Sen. Dennis Chavez, D., N. M., has proposed that the United States consider building a new canal between Salina Cruz and Puerto Mexico, in Mexico. Chavez said his proposal would bring the Pacific 2000 miles closer to New York, and would serve as a security measure for the United States. Map above shows present Panama Canal, and proposed canal through Mexico.

Truman Signs Duplicate GOP Anti-Inflation Bill

WASHINGTON—(P)—President Truman Tuesday signed a duplicate copy of legislation designed to reduce the cost of living, while secret service men sleuthed through the White House for the original.

The President's signature was penned reluctantly after a hurried scramble to copy the Republican-sponsored measure, which disappeared mysteriously after reaching the White House.

Declaring the nation's economy faces a "grave peril," Truman said the bill is "pitifully inadequate" to deal effectively with the problem of high prices. But he promised its "meager authority" will be used to the fullest extent.

The copy was drafted hastily after an all-day search failed to turn up even a whereas or a sub-paragraph of the original. It was flown by Army Plane to Dedham, Mass., Monday night for the required signature of Speaker Martin (R-Mass.).

The President's staff still had no explanation for what Press Secretary Charles G. Ross called "something of a White House mystery." The original bill, last seen on the desk of Presidential Counsel Clark M. Clifford's Sunday evening, was last without trace.

Since the bill would die if not signed by Wednesday, the White House called into action. It prepared the copy, rushed it to Senator Vandenberg (R-Mich)—whose signature as presiding officer of the Senate was essential—and put it on the Massachusetts-bound plane in custody of Clifford's assistant, George Elsey.

Greeks Confident Guerrilla Drive Will Be Shattered Soon

ATHENS—(P)—Guerrillas hurled new attacks Tuesday against Konitsa, and military authorities said the decisive battle for the city has been joined.

The guerrillas seek Konitsa as the capital of the Communist state newly proclaimed by their commander, Gen. Markos Vafliades.

The government garrison, weakened by the repeated assaults, withstood the new attacks and kept outer defenses intact after 24 hours of fighting, a government communique said. Army reinforcements sloped toward the fighting zone.

The defenders, using grenades, bayonets and knives, punched some holes in the guerrilla siege ring, and a trickle of supplies is getting through to the garrison, military reports said. Authorities in Athens said they are confident the rebel drive will be shattered soon.

Stanolind Promotes Solidarity And Rouse

E. F. Bullard, president of Stanolind Oil and Gas Company, has announced the election of A. L. Solliday as executive vice president of the company, and the promotion of J. E. Rouse to succeed Solliday as operating vice president.

Solliday, a native of Watertown, Wis., was employed as a scout by the Dixie Oil Company after receiving a degree in geology from the University of Oklahoma in 1923. In 1925 he became district geologist, and when Stanolind was organized January 1, 1931, he was made superintendent of the land department of that concern. In 1932 he became manager of the exploration department and held this position until 1944 when he was elected a director and vice president in charge of operations. He is an ac-

Four Charged With Murder In Fatal Fire

FREDERICKSBURG—(P)—Four persons—two men and two women ranging in age from 16 to 22—have been charged with murder in the death of four persons in a dance hall fire here Christmas night.

Charged Monday night were William Doyle Biddy, 22, and his wife, Iovne Marie Biddy, 17, both of Lampasas, and Gene Deatherage, 22, and Maybelle Watts, 16, both of Llano.

PROSPECTIVE DISCOVERY IN EAST PECOS SWABBING OIL
Stanolind Oil & Gas Company No. 8-B University, wildcat prospector in the shallow Taylor-Lake field, in East Pecos County, and 780 feet from north and 660 feet from east lines of section 13, block 18, University survey, was swabbing on a lower Permian section above (Continued On Page 7)

Use Of Grain For Whisky Is Limited

WASHINGTON—(P)—Secretary of Agriculture Anderson Tuesday put whisky makers on grain rationing in order to save grain for food.

Acting under authority of the newly-signed Anti-Inflation Act, the secretary limited grain use by distillers to 2,450,000 bushels between now and January 31, 1948.

This quantity compares with an average use of about 5,000,000 bushels a month during the first 10 months of this year.

The industry completed a voluntary 60-day production holiday December 24 in connection with the food conservation campaign inaugurated by the government early in the fall.

Reestablishment of controls followed failure of the industry and the government to get together on a voluntary program of restricted use of grain after expiration of the holiday.

The order is effective at midnight Tuesday. Anderson prohibited the use of wheat under the grain allocation.

Hospital Drive Nears Successful Conclusion Here

With cash and pledges to the Midland Memorial Hospital building fund approaching the \$700,000 mark and with the community-wide drive nearing a successful conclusion, hospital officials Tuesday urged citizens who have not given to the fund to do so before the end of the year.

They said an effort was made by campaigners to contact every citizen, but doubtless many were not called upon personally to give to the fund with which to erect a modern four-story, 75-bed general hospital in Midland. They are anxious that every resident have an opportunity to make a gift and invited those missed in the drive to mail checks or pledge cards to Midland Memorial Hospital Fund or to leave them at the campaign headquarters on the third floor of the Midland County Courthouse.

John P. Butler, treasurer, also will accept hospital gifts. Original Goal Exceeded
The campaign opened November 13 and the original goal of \$600,000 was exceeded in less than a month. A new goal then was set at \$1,000,000, which leaders said would be required to erect and equip the type hospital needed to serve citizens of Midland and the Permian Basin area.

M. C. Ulmer is general campaign chairman and R. M. Barron is vice chairman. John W. House is chairman of the Special Gifts Division, and A. N. Hendrickson is Big Gifts chairman. Hundreds of volunteer campaigners were engaged in the drive. Dr. John B. Thomas is president of Midland Memorial Foundation.

Construction of the big hospital is expected to be started next month.

Big Spring Hospital Bids Due January 5

WASHINGTON—(P)—The Veterans Administration said Tuesday construction bids will be opened January 5 for new hospitals at Big Spring and Bonham, Texas.

Army engineers are to handle the bids. Those for the Big Spring hospital are to be opened at Albuquerque, N. M., and those for Bonham at Tulsa, Okla. Both dates are subject to change.

The Big Spring hospital is to be a 250-bed general medical installation, to cost approximately \$4,000,000. The one at Bonham will be a 50-bed general medical hospital.

New Radio Station For Midland Asked

WASHINGTON—(P)—William Solon Snowden, doing business as Snowden Radio Enterprises, Midland, Texas Monday asked the Communications Authority for a 980 kilocycle, one kilowatt, daytime only, radio station here.

★ LATE NEWS FLASHES ★

WASHINGTON—(AP)—Henry A. Wallace's entry into the presidential race was tabbed by the Republican high command Tuesday as marking the "disintegration" of the Democratic Party.

NEW YORK—(AP)—Wholesale prices of all grades of butter advanced sharply Tuesday on the New York Mercantile Exchange. Grade AA butter rose 2½ cents to 92½ cents a pound.

RANGOON, BURMA—(AP)—U Saw, prewar premier of Burma, and eight others were sentenced Tuesday to die for the assassination of Maj. Gen. U Aung San and six other Burmese cabinet ministers.

CHICAGO—(AP)—The Chicago Bears of the National Football League Tuesday obtained draft rights to Bobby Layne, University of Texas quarterback, in exchange for rights to Ray Evans of the University of Kansas.

PEIPING—(AP)—The crucial battle for Mukden became more tense Tuesday as Chinese Communist regulars, attacking in strength, battled to points only six and eight miles from the city proper.

STERLING PROSPECTOR HAS SOME OIL IN STRAWN ZONE

The Plymouth Oil Company No. 1 Willie Mae Foster, North-Central Sterling County wildcat, 11 1/2 miles northwest of Sterling City, 660 feet from north and west lines of section 56, block 2, H&TC survey, and approximately one half mile southwest of the same company's No. 1 Frost, discovery for a small production from the Ellenburger, showed some signs of possible production in the Strawn lime section of the Pennsylvania in a four and one-half hour drillstem test at 8,163-96 feet.

Gas, of an unestimated volume, showed at the surface in four hours. Recovery was 210 feet of heavily oil and gas cut drilling mud. There was some free oil in the bottom joint of the drill pipe. No water was indicated.

The project is being deepened. The Ellenburger is expected at about 8,350 feet. Top of the Strawn in No. 1 Foster was called at 8,171 feet. Elevation is 2,565 feet. That puts it six feet high on the top of the Strawn to the same point in the No. 1 Frost.

PIPE BEING RUN TO TEST SHOWS IN N-C HOWARD

Seaboard Oil Company of Delaware No. 1-B J. C. Caldwell, Northwest Howard County wildcat, about 15 miles north of Big Spring, and 890 feet from north and 2,310 feet from east lines of section 32, block 32, TP survey, T-3-N, was bottomed at 7,968 feet in the Pennsylvania section and was to run 7-inch casing to make production test on shows of oil which had been developed above that point.

This project ran a one hour drillstem test at 7,933-68 feet. Gas showed at the surface in eight minutes. It was at the rate of from three to four million cubic feet per day.

Mud started flowing at the surface in 45 minutes and oil came to the top in 50 minutes. It flowed oil, and some water, for 10 minutes and the tool was then closed.

The drill pipe continued to unload fluid intermittently while the tester was being pulled. No estimate was made in the amount, and content, of the fluid that was flowed out.

Recovery was 2,370 feet of oil and 660 feet of salt water. Gravity of the oil was 42.5 degrees. Flowing pressure was between 1,100 pounds and 2,250 pounds. Shut-in pressure, after 15 minutes, was 3,400 pounds.

Operator then ran a Lane Wells survey, and followed by taking another drillstem test at 7,952-68 feet. The tool was open one and one-half hours, and showed an unreported volume, showed at the surface in seven minutes. Recovery was 6,570 feet of salt water, cut from 20 per cent to 25 per cent oil. The oil was 42 gravity.

COKE DISCOVERY FLOWS 295 BO IN 24 HOURS

Sun Oil Company No. 1 J. B. Walker, wildcat discovery in Northwest Coke County, flowed 295 barrels of 48 gravity oil in 24 hours, on a preliminary test, from pay at 8,220-90 feet, natural, in the Crinoidal line of the Pennsylvania. Operator is now taking official potential test to complete.

The flow was through a 3/16th inch choke for 17 hours, and through a 1/4 inch choke the remaining seven hours of the 24-hour period.

Flowing tubing pressure was 1,100 pounds and flowing casing pressure was 1,300 pounds. Gas-oil ratio was 1,300 pounds. No formation water has developed.

The new producer, and pool opener, is four miles south, and across the Colorado River from the Jameson field, and is 660 feet from southeast and southwest lines of the L. C. Brockhuysen survey No. 526.

SPOC GETS SOME OIL IN 2-173 S-U IN ANDREWS

Sinclair Prairie Oil Company, et al, No. 2-173 Skelly-University, one location stepout from the discovery well of the Shafter Lake-Devonian field, in North-Central Andrews County, about 11 miles north and a little west of the town of Andrews, and 660 feet from north and east lines of section 25, block 13, University survey, ran a one hour drillstem test in the Devonian, at 9,790-9,831 feet.

There was a blow of air throughout the entire period. A 2,500-foot water blanket was used. Recovery was 1,350 feet of oil and gas cut water blanket; 1,200 feet of oil, and 1,100 feet of water blanket. Some fluid was unloaded in four or five heads made while the drill pipe was being pulled. No formation water was indicated.

Operators are now taking a drillstem test at 9,831-71 feet. This prospector is low, geologically, to the discovery of the Shafter Lake-Devonian field, but it is thought to still have good section above the water to allow it making a producer.

PROSPECTIVE DISCOVERY IN EAST PECOS SWABBING OIL

Stanolind Oil & Gas Company No. 8-B University, wildcat prospector in the shallow Taylor-Lake field, in East Pecos County, and 780 feet from north and 660 feet from east lines of section 13, block 18, University survey, was swabbing on a lower Permian section above (Continued On Page 7)

Border Beverage Company Trucks

Here is some of the rolling equipment with which Border Beverage Company, operated by Floyd Owens of Midland, serves customers in his territory extending from Pecos to Big Spring. The company is distributor in this area for Harry Mitchell's beer and Hamm's beer. Storage warehouses are maintained at Midland Air Terminal, and the Midland office is at 1007 West Michigan Street, phone No. 2493.

Ray Lamps Curb Germs in President's Office

WASHINGTON, (AP)—Two ultraviolet ray floor lamps in President Truman's office have reduced the count of cold and influenza germs there by 62 per cent, White House officials, reported. The lamps, recently installed in the oval room where Truman works and meets official callers, are to be supplemented with more ultraviolet rays in the overhead indirect lighting system, said Brig. Gen. Wallace Graham, White House physician.

Other methods of combatting airborne diseases are being tested on animals by Dr. Graham at his home, at Walter Reed Veterans Hospital, and occasionally at the White House. The presidential physician told reporters he is checking propylene glycol and at least one other substance, which he declined to name, for possible use as a colorless and odorless vapor to be sprayed through the White House.

Free Bowling Instructions At Plamor Palace

Are you a bust at bowling? When you roll the ball toward the pins, do the latter scatter?

In answering these questions (no fair looking at the other fellow's answers), if you find you've put down "yes" for the first one, here's a bit of information you may use to great advantage.

Edward "Jonesy" Jones, manager of Plamor Palace here, gives free instruction, every afternoon except Saturday and Sunday. He knows how to throw a bowling ball in such a way as to leave few, if any, pins remaining upright. And he's glad to show you how to improve

your own game without extra charge. With some expert advice and practice under careful supervision, there's every reason to believe you, too, can become a formidable bowler.

If you answered "yes" to the second question, chances are you'll be interested in the Ragtime Doubles which begin at Plamor Palace at 1 p. m. January 4. This is an inter-city meet between top players from Odessa, Lamesa, Monahans and Midland.

City League play, suspended during the holidays, will be resumed January 5. Until then, it is open

play every day and night on the alleys. After that date, league teams will have the alleys after 3 p. m. every day except Friday, Saturday and Sunday. At all times, however, Jones will gladly give free instruction to any patron every afternoon except Saturday and Sunday.

Featuring Floor-Type Furnaces

Empire floor furnaces are among top-shelf items featured at Heath and Templeton Plumbing Company. They're modern, safe and marvelously efficient when it comes to providing the home with a constant abundance of healthful heat.

Heath and Templeton specialize in handling plumbing contracts on new construction. If you're building a new home or office, this firm is capable of taking the whole job of heating and water facilities off your mind. You'll be well pleased with the quality of materials and workmanship the firm puts into the project.

Wall Heaters

A complete line of bathroom wall heaters, water heaters and other fixtures are sold by Heath and Templeton. If you'd like your bathroom or kitchen fixtures in pink or some other color to harmonize with a particular color scheme you've decided upon, it will be quite in order for you to ask for your color choice when you select fixtures at Heath and Templeton Plumbing Company.

The company does a big repair business, too, and a call to the office, 139 North Weatherford Street, phone No. 2533, will bring an expert plumber to your rescue any time something goes wrong with your plumbing system.

Heath and Templeton do not advertise the lowest prices in the city. Their prices are not exorbitant, either, but are in line with those charged by other good plumbing firms. But they insist they do try to do the best work in Midland.

YOUR newspaper, serving freedom by serving YOU.

New Drier Ordered For Washateria

To housewives, any news concerning easier ways to launder clothes is good news. Robinson Washateria, 505 South Baird Street in Midland, this week released some information which definitely should come under the heading of pleasant tidings.

A big drier, ordered weeks ago, is expected to be available at the washateria in a short time. For a small extra fee, clothes may be dried in this machine in 35 to 40 minutes, and the housewife can take them home ready to iron.

The Washateria also has announced its steam boiler has been repaired. Plenty of steam and boiling-hot water are available once more.

The firm has 11 Maytag washers for customers' use, and these soon will be replaced with brand-new ones, so that Midland housewives will continue to find latest equipment and most convenient facilities for doing their laundry at Robinson Washateria.

The washateria opens at 7 a. m.

each weekday. Complete information regarding charges and other details may be had by calling No. 86.
