NUMBER 3

Kitty's Korner

by
Kitty Montgomery

The Mass Communications Department at Texas Tech is putting out some publications containing items gleaned from Texas newspapers 100 years ago, and some of the comments are quite interesting and some of the ads amusing.

Advertised in leading Texas newspapers was the "Type-Writer", said to be an elegantly constructed machine intended to abolish the use of old-fashioned pen and ink. Attracting much attention, it was said to be about the size of a sewing machine and as easily operated. Claims it prints letters in bold, clear characters and has a capacity of sixty words per minute. "It is so simple in construction that its operation is readily acquired with only a few hours practice."

Another advertisement from those times reads "Mind reading, psychomaney, soul charming, mesmerism, and marriage guide, showing how either sex may fascinate and gain the love and affection of any person they choose instantly. 400 pages. By mail, 50 cents." In news items of that time in Texas comes from Jackboro: "Town remarkably quiet for the past month, except that about thirty ponies have been stolen from the neighborhood. Some were recovered at Fort Griffin recently."

From De Kalb, "The U. S. Mail was robbed today 15 miles west of this place, en route from Clarksville to Texarkana. One man did the work, having his face disguised. No clue as yet."

A Bryan newspaper reported "This community now has a population of 4,508 with 187 marriageable young men, 74 marriageable widows and too many marriageable young ladies to mention. The town also contains 250 broke men. Commercially, Bryan has three newspapers, 18 dry goods stores, 21 attorneys, seven private schools, 13 candidates, two banks and eight saloons."

A Young County newspaper gives the following account of the demise of Buffalo Bill, March 1, 1876, "Sheriff Dick Kirk was instantly killed Monday morning at Belknap by Buffalo Bill. Kirk attempted to arrest Bill, drawing his pistol. At the same time, Bill picked up a needle gun. They fired together. Bill missed the sheriff, but was himself shot in the breast. Buffalo Bill fired a second shot, after falling, shooting Kirk through the head. Buffalo Bill escaped, but was traced some distance by the blood, and it is thought he was fatally wounded."

From Austin comes, "The Public School Department of the state reports that for last year there were 2,924 schools in Texas and 124,567 pupils. The average salary for teachers is \$63."

And that's the way it was 100 years ago today in Texas, that is.

NEW FOR OZONA -- A Perry's variety store will soon open in the recently remodeled bowling lanes building next to Foodway in the shopping center. The spacious new store will have three check out counters and feature a large stock of merchandise.

Remodeling has been completed inside the building and stock is being readied for the opening. The store is one of several new stores being opened in the West Texas area.

Lion Golfers Take First Round In Dist.

Ozona Lion golfers won the first round in District play Saturday in Big Lake. They will be in Crane Saturday for the second round. The Lions came in first with a score of 325. McCamey was second with a 329, Sonora third with 334, Big Lake fourth with 335 and Crane last with 342.

Individual scores for the Lions were Ronald Koerth, 77; Kirby Kirken, 79; Mike Hays, 82; Eugene Hood, 87; Wilson Hill, 91; Cliff McMullan, 114. The top five scores are taken for each team's score at each tournament and scores for each district tournament are added for the district championship.

Ozona Girls Place In Poster Contest

Two Ozona girls placed in the poster contest sponsored by the Texas Garden Clubs, Inc. at District 8 competition in Stamford March 10. The contest is sponsored locally by the Ozona Garden Club. Elenia Adams' poster placed first in fifth and sixth grade competition at district judging, and it will be judged in state competition April 2. Susan Scott placed third in competition for third and fourth graders.

Theme for the poster contest is "Trees Today for Life Tomorrow."

Firemen Answer 5 Alarms Over Week

After a week with no fires, the past week saw the Ozona Volunteer Fire Department answering five alarms. During the high winds Saturday, there were no grass fires reported in the county.

Saturday morning at 2:50, firemen were roused from

OHS Tracksters Take Fourth In B'bonnet Relays

The Ozona Lion Track Team placed fourth in its division at the Bluebonnet Relays in Brownwood Saturday with 48 points scored. The Lions will be in Del Rio for the Queen City Relays Friday for an afternoon and night meet. Preliminaries in field events will start at 12 noon with finals in pole vault, high jump and long jump at 6:30.

Prelims for the running events will start at 1 p. m. and finals at 7:30.

The Lions scored two first places, one second and a third in the Relays Saturday. Ronald Shaw won first in the 440-yd. dash with a time of 52.1. The mile relay team of Rodney Ruthardt, Steve Pagan, Ronald Shaw and Crawford, won first with a time of 3:30.2. Ruthardt won second in the 330-yd. intermediate hurdles with a time of 41.7, and Clifford Crawford won a third in the 880-yd. run with 2:07.7.

their beds to fight one of the toughest house fires they've encountered in several years. A vacant five-room house at the intersection of Santa Ana and Monterey Streets was totally engulfed in flames when the men got to the scene.

A live power line, lying across the front yard, made it impossible for firemen to get to the front of the house and lines were moved in on both sides. The fire was extinguished within 10 minutes, but firemen remained on the scene for an hour, using some 1,600 gallons of water to cool the charred remains of the house.

Before firemen arrived on the scene, wind was pushing the flames toward two more houses to the east of the burning house. The Fire Station attendants said they received seven or eight calls within minutes of the first alarm. The house belonged to Serafin Meskill.

Earlier in the week firemen answered an alarm at the Childress Turkey Roast Ranch. A gas well blow-out posed a possible threat of grass fire. Two units of the Department stood by for approximately three hours until the well was shut in.

A unit was dispatched to the Wayne West Ranch to check out a report of a grass fire, but before the unit reached the scene it was confirmed that what was thought to be smoke was actually dust from blasting crews working on the ranch. A grass fire at the dump ground Friday was extinguished by an oil company employee before fire units reached the scene.

Kathol Buys More Gas Properties

Tomlinson Oil Co., Inc. and Kathol Petroleum, Inc. announced jointly today that they have entered into an Agreement for the acquisition by Kathol of Tomlinson's half interest in 47 gas wells, a gas gathering system of approximately 80 miles and a gas processing plant with capacity of 25 million cubic feet per day, all located in Crockett County, Texas. This acquisition will give Kathol total ownership in the plant and gathering system and full working interest ownership in the production.

The consideration to be paid to Tomlinson will be in excess of three million dollars and will include both cash and liquid petroleum gas products.

Both Tomlinson and Kathol are Wichita based companies.

Services In Canyon For Mrs. McDonald

Funeral services for Mrs. Bryan (Mary) McDonald, 78, were held Friday afternoon from the First Presbyterian Church with burial in Dreamland Cemetery in Canyon.

Mrs. McDonald died Tuesday, March 16, in LaConda Nursing Home in Canyon following a long illness.

She was born in Ozona October 5, 1898, the daughter of Judge and Mrs. Charles E. Davidson. She married Bryan McDonald in 1925 in Ozona and moved to Canyon in 1944. Mr. McDonald died last year in Canyon.

Survivors include four sons, Dick McDonald of Canyon, Charles McDonald of Bangs, Billy Joe McDonald of Baytown and Don McDonald of Kingsville; a daughter, Patsy Thompson of Ontario, Canada; two sisters, Beth Garver of Fort Worth and Dixie Meybein of Switcheley, Pa.; sixteen grandchildren and one great grandchild.

Santa Fe Scholarships For 4-Hers

4-H'ers in 11 states may be eligible for \$13,500 in college scholarships donated by Santa Fe Industries this year through the National 4-H Service Committee.

Scholarships are valued at \$500 apiece and are specifically allotted to the states of Arizona, California, Colorado, Illinois, Indiana, Iowa, Kansas, Missouri, New Mexico, Oklahoma and Texas.

To qualify for Santa Fe scholarships, candidates must have completed at least one year of 4-H work and be in good scholastic standing at the time they apply.

Scholarship winners will be selected by the Cooperative Extension Service and announced later this year at the 55th National 4-H Congress, Nov. 28-Dec. 2 in Chicago. Also to be announced at Congress are the names of winners of 60 educational awards donated by Santa Fe Industries. These awards will go to 4-H'ers in the previously listed 11 states plus Louisiana and Nebraska.

Santa Fe Industries is one of about 60 corporations, businesses and foundations providing college scholarships, educational trips and other awards to outstanding 4-H'ers this year. Awards programs are arranged and announced by the Service Committee.

School Board And Water Dist. Elections Start Political Year

The school board and water district elections April 3 will start the political year off in Ozona. Five men are running for the four places on the school board. They are the four incumbents, Cestino Fuantoz, Joe Bean, George Bunker, Jr., and Sam Perner along with Dale Bebee whose name heads the ballot. The three county school board members are unopposed and are Bob Bissett, Ted Lewis and Marshall Montgomery. Ballots will be printed in both Spanish and English, as will all ballots, in accordance with the new election law.

Up for re-election on the water district board are Lowell Littleton and J. W. Johnigan. Both elections will be held April 3, and Ozonans will vote at the courthouse. The Powell Field and Power Plant boxes will also be open.

Absentee voting in both elections will close March 30.

Although local contested races will be of most interest to Ozonans, there will be a full ballot of Democratic hopefuls in the May 1, Democratic Primary. Also, for the first time in Texas, there will be a presidential preference election, whereby delegates will be chosen for the State Convention, committed or uncommitted. This list of delegates will head the ballot.

Absentee voting will begin April 12, for the Pri-

Ozona Tennis Team Takes First Place

The Ozona Tennis Team won its own meet here Saturday, winning first in boys singles, boys doubles, girls doubles and second place in girls singles.

Ronnie Schneider remained undefeated in match play this year as he easily won the first place trophy for boys singles in his third straight tournament. Ricky Perry and Tony Hoover won their second straight tournament in boys doubles. Karla Fenton and Lynn Maness won first place in girls doubles, marking their second year in a row to win the Ozona tournament.

Shannon Dockery also made a fine showing, playing her best tennis of the year as she won the second place trophy in girls singles. Ozona doubles teams of Karen Kirby-Karen Bebee, and Danny Weant-Bubbs Huffman also made good showings in the tournament.

The Ozona Tennis Team will see its next action Friday and Saturday in Iraan where the competition should be much tougher.

mary and continue through April 27. For the run-off, absentee voting will begin May 26 and go through June 1. To be eligible to vote in the primary, a voter must be registered on or before March 31.

Contested races on the ballot are headed up by United States Senator, with Lloyd Bentsen, the incumbent, heading the list of four hopefuls. Others are Phil Gramm, Hugh Wilson and Leon Dugi.

There will be eight candidates for Texas Railroad Commissioner. Without an incumbent in the race it will be a mad scramble between the eight and more than likely there will have to be a run-off before it is decided which of the eight will face the Republican nominee in the General Election.

Associate Justice, Supreme Court, Place 2, will be a contest between Charles W. Barrow and Don Yarbrough. Another contested race at the state level will be Judge-Court of Criminal Appeals. Running are Truman Roberts and Jerome Chamberlain.

Bob Krueger, incumbent U. S. Representative for the 21st District, will have Joe Sullivan as an opponent. State Representative, 70th District, Susan Gurley McBebe did not draw an opponent in the primary. District Attorney, 112th District, Dixon Mahon is also running unopposed in the primary.

The Democratic Primary will decide the winner in all contested races at the county level, as there is no opposition in the general election.

Max Morris is opposing incumbent Sheriff Billy Mills and names will appear on the ballot in that order. For County Commissioner, Precinct 1, candidates are listed in this order: Jerry L. Hayes, Jess C. Marley, incumbent, and Sostenes DeHoyos. For County Commissioner.

Precinct 3, Jack Williams, the incumbent, is opposed by Jim Marks and their names appear on the ballot in that order.

Easter Seal Campaign Going Well

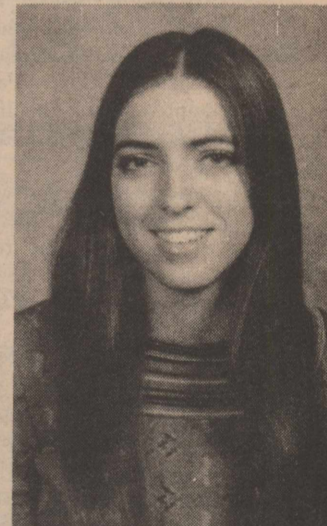

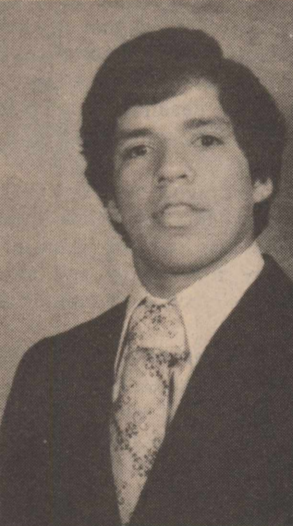

Crockett County's Easter Seal Representative reported today that the 1976 Easter Seal Appeal of the Easter Seal Society for Crippled Children and Adults is going well but urged all citizens who have not responded to the Appeal to do so.

Roy H. Thompson, of Ozona, serves as Easter Seal Appeal Treasurer for the County.

The 1976 Easter Seal Appeal will finance the Easter Seal Society's rehabilitation program for crippled children and adults in Texas. Last year the Society helped 10,768 persons through its program of assistance in finding and making effective use of services for the disabled and their families.

The Easter Seal Society helps support 11 treatment facilities in Texas where children and adults not eligible for other assistance are treated. These centers offer physical therapy, medical diagnosis, speech and hearing programs and related services to help the disabled build happier and more useful lives.

The Easter Seal Representative is the person to contact for services from the Easter Seal Society and for the request form to be sent to the Texas Easter Seal Society to determine the needs of the disabled person. The Society will provide the services or will direct the handicapped person to the best resources available to help him.

MR. & MISS OHS were selected last week by vote of the student body at Ozona High School. Voted Mr. OHS was Henry Fay, son of Mr. and Mrs. Henry Fay, outstanding football player and a senior student. Dawn Burns, daughter of Mr. and Mrs. Glenn Burns was voted Miss OHS. Dawn is a senior and a cheerleader. She is FFA Sweetheart and is Ozona's reigning rodeo queen.

NEW EQUIPMENT VAN for Ozona Fire Department was used for the first time during the house fire early Saturday morning. The van carries protective equipment for the firemen as well as a light plant, foam, and other items used by the department. Showing it off are firemen Steve Kenley, James Montgomery and Bob Falkner.

BICENTENNIAL PROJECT -- The Ozona High School student council voted to paint all the fire plugs in town a bright red, white and blue for the Bicentennial. Completing the work yesterday was student council president Richard Harrison, Karen Bebee and Rhonda Yeager.

(MORE) GOOD NEWS ABOUT AMERICA
(last of 2 articles)

"If you can imagine this entire world as a village of just 1,000 people... you'd find: only 56 of them are Americans... but they enjoy more freedom than any others and have half the total income. The life expectancy of these Americans is 71 years today, while the other 944 people have expectancy under 50 years."

That salient fact comes compliments of Walt Seifert, professor of journalism at Ohio State University. Seifert was born in the slums of Cleveland and has never forgotten his debt to America, which gave him the freedom and opportunity to rise above his humble beginnings. After painstaking research, the patriotic professor suggests these answers to doomsayers who charge America is heading downhill:

- Charge: "Our poor get poorer."
- Answer: In 1970 we had 14 million fewer poor people than in 1960. By OEO (Office of Economic Opportunity) standards the percent of poor dropped from 22 to 12 in 10 years."
- C: "Our small towns are dying."
- A: "Today we have 30 percent more small rural towns than 50 years ago."
- C: "The American farmer is going broke."
- A: "Our average net income per farm increased from \$3,024 in 1964 to \$9,271 in 1974 and farm assets more than doubled."
- C: "The arts are dying in America."
- A: "Today we support 1,500 symphony orchestras and 5,000 community theaters."
- C: "Our air is filthy today."
- A: "Facts are — it's much cleaner than 50 years ago, when every Ohio home belched coal smoke all winter and every street had clouds of flies all summer."
- C: "Blacks aren't getting educated."
- A: "More blacks go to college here today than anywhere else in the world. The total has doubled since 1960 and keeps increasing."
- There you have it — some of the reasons why America, by any reasonable yardstick, remains the greatest country on earth.

"T" DAY IS CLOSE!

Old "Satchelfoot" Paige is acclaimed, among other things, for his famous saying: "Never look back; it might be gaining on you." Which is probably another way of saying that it usually pays to look ahead. And right now is not a bad time to pass the reminder that "T" Day — Federal Income Tax Report Day — is rapidly approaching. Specifically, the deadline is midnight, Thursday, April 15 — and that hour of reckoning will be here before you know it.

The warning is out that whatever time you spent last year in computing the amount you owe Uncle Sam, figure about double that time this year. The reason is that our tax geniuses in Washington have, after undoubtedly much time and effort, managed to make this year's tax forms much more complicated than ever before.

But, a little time and effort on your part may enable you to realize a considerable saving on your 1975 taxes. For example, if you use a car for business purposes, the IRS allows you \$15 a mile for the first 15,000 miles of travel and \$10 per mile over 15,000 miles. But, because of inflation, the actual cost of running an automobile, on the average, comes to \$18 a mile or even more. Hence, if you take time to compute all of your automobile expenses, including depreciation, etc., you may find that your business travel deductions are higher than the IRS "standard" allowable deduction.

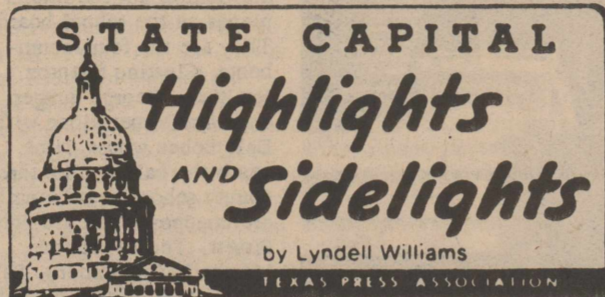

The standard personal deduction is increased this year to 16% of "adjusted gross income." But, in addition, a \$30 "tax credit" has been added for each personal exemption — this on top of the regular \$750 personal exemption. Folks who bought a new house and moved in after March 12, 1975, (but not after December 31) get a tax credit of up to 5% of the cost of the new home, up to a maximum of \$2,000.

In addition to moneys contributed to tax-exempt and charitable organizations, contributions to politicians can be deducted — up to \$100 maximum deduction for singles and \$200 for married-joint return couples. Of course, it is too late now to start a "pension plan" for 1975 (but you can still start for 1976); and in any case, even if you did begin a pension fund for yourself last year, the IRS rules and regulations are so filled with pitfalls that you can end up paying more taxes instead of less. It is best to rely on your friendly banker or knowledgeable financial institution to guide you in that area.

In any event, the earlier you start to figure your tax reports, the better off you will probably be.

"IF WE DESIRE TO JUDGE ALL THINGS JUSTLY, WE MUST FIRST PERSUADE OURSELVES THAT NONE OF US IS WITHOUT SIN."

SENECA
Sorrells Clothiers

AUSTIN — Three major statewide judicial races on the May 1 Democratic primary ballot are attracting widespread interest among attorneys, although the general public remains largely unaware.

Resignation of veteran Judge W.A. Morrison from the court of Criminal Appeals effective March 31 created the third contest. The filing deadline will be reopened to permit candidates to get their names on the ballot. Gov. Dolph Briscoe has authority to fill the vacancy until the November general election.

In the other judicial races, Fourth Court of Civil Appeals Chief Justice Charles W. Barrow, 54, of San Antonio and Houston attorney Donald B. Yarbrough, 34, are contesting for a Texas Supreme Court seat being vacated.

Barrow outpolling Yarbrough 10,086 to 1,741 in a sampling of lawyer opinion through the State Bar. Yarbrough said that was the "greatest compliment" he could receive.

Court of Criminal Appeals Judge Truman Roberts, 58, seeking his second term, is opposed by Dallas District Judge Jerome Chamberlain, 53.

Roberts topped Chamberlain in the Bar poll 8,894 to 2,751. Chamberlain has been criticizing Roberts' opinions as over-technical. Roberts says he follows the law strictly.

Courts Speak
Texas Supreme Court agreed to hear arguments in a former Texas Tech football player's suit claiming the school should be liable for his knee injury since trainers didn't tape the knee properly.

The high court also upheld suspension of a Fort Worth dentist for publishing a booklet supporting nutritional supplements as a cancer cure.

Supreme Court justices upheld an order the Dallas Civil Service Board must consider charges against police officers in a beating and shooting death.

A divided Court of Criminal Appeals reversed a life sentence burglary conviction of an Abilene man, noting the lumber shed he was accused of entering was not an enclosed structure.

A San Antonio man sentenced to 15 years for manslaughter in the death of a two-year-old stepdaughter lost his appeal.

The Court of Criminal Appeals ordered a new trial for a Hidalgo County man convicted of violating probation terms due to an illegal search for weapons.

Another new trial was ordered in a Jefferson County case of probation revocation involving injection of a prescription drug.

AG Opinions
Atty. Gen. John Hill told The University of Texas it cannot withhold records of the UT Division of Extension on grounds they are part of a continuing internal investigation.

In other recent opinions, Hill concluded:
A court can grant an occupational drivers' license after drunk driving convictions only where it does not impose imprisonment.

Written applications are required for emergency admission of mental patients to state hospitals.

A livestock owner violates a county stock law when his cattle are on a county road uncontrolled.

Allowable Set
For the 49th straight month, the Railroad Commission set the statewide oil allowable at 100 per cent.

Exceptions include the East Texas Field (86 per cent).

Buyers asked more than 3.9 million barrels a day, a slight decrease of 2,174 from March.

The commission acted after oil company executives lambasted federal energy policies at length during a day-long hearing.

Toll Rises
The 1975 traffic death toll in Texas rose 13 per cent, according to the Department of Public Safety.

At that, the number of deaths were 263 below the all-time-record year, 1973.

Voluntary compliance with the 55 miles per hour speed limit is not as good as it should be, but traffic continues to move slower than under the old 70 mph limit, according to DPS Director Wilson E. Speir.

The death toll last year was 3,429, compared to 2,945 in 1974 and 3,692 in 1973.

Unemployment Up
Texas unemployment increased by more than 7,000 during January, Texas Employment Commission reported.

TEC said 305,500 were seeking work, compared with 298,200 in December.

The jobless rate went up from 5.6 per cent to 5.8 per cent of the labor force. The total number employed dropped from 5,042,900 in December to 4,976,400 in January.

THE NEWS REEL
A re-run of "The Ozona Story" has gleaned from the files of "THE OZONA STOCKMAN"

Thursday, Mar. 27, 1947
Hubert Baker, Ozona grocer, was named president of the Rotary Club in the annual election of officers held at the regular club session Tuesday, 29 years ago.

Ozona Public Schools will take their place among the progressive schools of Texas as leaders in raising the level of teacher pay, to assure the continued service of the best teachers in the profession, by raising the salary minimum for teachers in the local system from \$1700 to \$2400 a year, effective 1947-48 term.

29 years ago
Armond Hoover, Jr., suffered a broken arm in football practice last week.

29 years ago
Mrs. Wayne W. West entertained with a tea at her home here Saturday afternoon to announce the engagement and approaching marriage of her daughter, Billie Jo, to Jerry L. Hayes.

29 years ago
High school bands from Alpine, Fort Stockton, Reagan County High, Sonora, and Crane will join Ozona in its first annual Band Festival scheduled this Friday and Saturday.

29 years ago
Miss Jean Drake, daughter of Mrs. Bruce Drake of Ozona, became the bride of Carl North, son of Mrs. J. J. North, in Sonora last Friday.

29 years ago
Miss Lottie Jo (Sug) Owens, TCU coed, will be the school's "Sweetheart" at the University of Texas Round-Up to be held in Austin March 28, 29 and 30.

Seniors are busy selling tickets to the Bar-B-Q, which is to be held April 2, from 5:30 p.m. to 7:00 p.m. at the Ozona Track Meet. Tickets are \$2.25 each, so be sure and buy yours now!

The Junior Class has been busy decorating for the Junior-Senior Banquet and Prom which will be held Saturday night, March 27 at 7:00 p.m. The theme this year is Bi-Centennial.

The band talent show was held Tuesday night in the High School Auditorium. Hope everyone attended because all who participated did a good job.

The little boy watering the hedge in last week's paper was Richard Harrison.

Bob Krueger Reports
U. S. Representative 21st District

This week, in a rare occurrence, the House and Senate met in joint session to hear an address by the Prime Minister of Ireland, Mr. Liam Cosgrave. The address was helpful in offering a perspective on the United States by a friendly foreign statesman in this bi-centennial year.

The Prime Minister said, "It often seems that your friends overseas have a better opinion of you than you hold of yourselves." He is probably right. While Americans have always engaged in self-assessment and have frequently been self-critical, we have in the past combined our criticism with an optimism regarding our capacity to move forward. In recent years, the optimism has dwindled while self-criticism has grown. Prime Minister Cosgrave recognized the importance of our maintaining a sense of balance and appreciation for the values which we have preserved and embodied for ourselves and other nations.

The Irish Prime Minister pointed out that he came from an ancient nation and a new Republic, and that the United States is a new nation, but an old Republic. We are the oldest continuing Republic in the world. No other country has engaged so long and so continuously in self-government. And we may properly take pride in this.

We should also recognize, as Prime Minister Cosgrave did, that we remain a land of hope, promise, and example for other nations around the globe. They will not always agree with us; they will not always find their self-interest to be in accord with ours. But, if we hold to the ideals upon which our nation was founded, even when others neither profess those ideals nor live up to them, we will not only have served ourselves but other nations as well. From the time of our founding fathers like Washington, Jefferson, and Franklin, through the time of our great American writers like Whitman and Emerson, and into our own recent times, there has been a consistent message regarding the responsibility of America. This nation, it has long been recognized, exists not only for itself, but for all nations, for we have the history and the opportunity to show what government of the people, by the people, and for the people can mean to all nations.

THE LIONS ROAR
BELINDA BEBEE & KAREN MOODY

Congratulations to the tennis team for their victory in the Ozona Tennis Tournament. Ronnie Schneider won the boys' singles; Ricky Perry and Tony Hoover won the boys' doubles; Lynn Maness and Karla Fenton won the girls' doubles; and Shannon Dockery placed second in the girls' singles. This week the team will be playing in the Iraan Tennis Tournament. Good luck!

Our Varsity boys' track team came in fourth in the Brownwood Relays last weekend. This week the team travels to Del Rio to the Queen City Relays, and the girls' track team will be going to the Stanton Track Meet. Good luck to all.

Anybody who believes all he hears hasn't been listening. Before waiting for your ship to come in, check to see if it ever left drydock. The only time you need pull is when you lack push. Why is it that typewriter ribbons go in so easily the wrong way? Middle age is when you know all the answers, and nobody asks you the questions. There is little chance of people getting together so long as most of us want to be in the front of the bus, the back of the church, and the middle of the road. The mouth is the grocer's friend, the dentist's fortune, the orator's pride, and the fool's trap. Noah was our first financier. He floated a limited company when all the rest of the world was in liquidation.

The town gossip is a person who can give you all the details without knowing any of the facts. Early to bed and early to rise means no more nights out with the guys. The grandfather who thought nothing of walking four miles to school is sure to have a grandson who doesn't think much of it either. A LIFT FOR THE WEEK - Success has no use for self-satisfaction. SHHHHHHHHHHHH!
By: John L. Henderson Ghita, we hear that your noodles stick to the pan. Is this really true? Rodney Rutherford, is it true that you have shown Mrs. Allen the light? Is it true that Dawn Burns can work a Coke machine without watching what she is doing? It seems that Karen Bebee and Helen Bunker get scared too easily to watch a show. Like the one last Sunday night. Or was there some

POWER TALKS
by U.S. Senator for Texas JOHN TOWER

WASHINGTON—The Federal Energy Administration (FEA) may force consumers in the South, Midwest and West to subsidize the gasoline and home heating oil costs of consumers in the East.

The FEA will choose soon between two proposed rule changes to rectify a scandal in the FEA's oil price control regulations.

One of the options would benefit importers of foreign oil and their customers along the East Coast at the expense of domestic refiners and their customers.

When the federal government placed price controls on some domestically produced crude oil, it gave a huge competitive advantage to those refiners who had access to the artificially cheap oil over those refiners who had to buy crude oil at world prices.

In order to equalize refinery costs, the FEA passed a rule which said that each refiner should be allocated the same percentage of price controlled oil as every other refiner.

Those refiners who had more cheap oil than the FEA authorized them to refine would have to buy "entitlements" from refiners who had less cheap oil than the FEA said they were entitled to.

The FEA ruling brought a huge windfall profit to one refiner, the Amerula Hess Corp., which has been able to more than double its share of the \$6 billion a year heavy fuel oil market on the East Coast.

Virtually all the fuel oil used along the Atlantic Coast comes from foreign sources and is refined in the Caribbean.

Because its refinery is located on U.S. soil in the Virgin Islands, the Hess Corp. was qualified to sell entitlements on the oil it refined. Its competitors, whose refineries were not on U.S. territory, were not.

When the scandal came to light, the FEA drafted two proposals to remove the Hess price advantage. One would eliminate the entitlements advantage for all domestic refiners producing heavy fuel oil for the East Coast. The other would grant entitlements to importers of heavy oil, whether the oil was imported from U.S. territory or not.

FEA's Alternative Two would make a bad situation worse. It would increase fuel costs for most Americans, encourage dependence on foreign oil, discourage expansion of domestic refinery capacity, and unnecessarily increase bureaucratic red tape.

Fuel oil, home heating oil and gasoline costs to consumers in the West, Midwest and South would increase because refiners there would have to pay increased subsidies to East Coast importers.

The added cost of the subsidies would make it harder than ever for domestic refiners to compete with the importers for the East Coast market, thus exporting more jobs and increasing our dependence on foreign oil.

I have written to FEA Administrator Frank Zarb to urge rejection of Alternative Two, and I think we will sidetrack this unwise proposal.

Tips For Gardeners
From the Ozona Garden Club by Mrs. Bailey Post

If you can grow weeds, you can grow vegetables with the right preparation of soil, care and water. Vegetables need five or six hours of full sun every day, so select a spot to meet this need. Should you be planning to grow vegetables for the first time, don't try more than you can manage without it being boring. However, you will certainly want to include some home grown salad ingredients, lettuce, beets, tomatoes, onions, sweet peppers and radishes.

Begin watering new roses regularly and deep. If you planted bare-root roses, they may be a little slower showing leaf growth than established plants. Keep the soil moist around the roots if rainfall is scant, and it surely is here at present. If some canes or stems die, cut each back to a point just above a healthy bud growing on the outside of the stem.

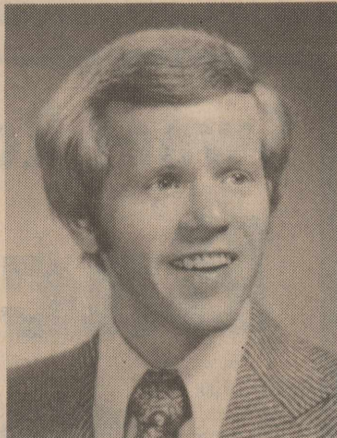

Moistened peat moss packed around the base will help to prevent stems from drying out.

If you are looking for white glads to be used for a summer wedding or other event, here are some good varieties with approximate number of days from planting to bloom. Albania (72), Albatross (63), Chicago White (63), Catherine Coleman (77), Early Snowflake (73), Maid of Orleans (65), Mammoth White (69), and Helen Willis (70). Plant combs at two-week intervals until mid-summer to extend the time of enjoying their blooms. Glads are seldom graceful in an accent garden, but can be planted in groups in a bed of annuals and perennials. To allow for good side cultivation which results in a better quality flower, plant glads in rows in the cutting bed or in rows between vegetables.

Silver Tea To Present Tom Pack

Mrs. Joe Bean and Mrs. Lowell Littleton are sponsoring a silver tea to present Tom Pack of Abilene in concert Sunday afternoon, March 28, at 3 o'clock in the Joe Bean home.

Pack is assistant professor in voice at Hardin-Simmons University in Abilene. Based upon competitive vocal auditions, Pack has been selected to participate in an opera study program in London, beginning in Mid-April. Only thirty singers from throughout the world have been selected for this program which will last throughout the summer. At the completion of the study, the participants will be presented in a stage production of an opera in a public performance in London.

TOM PACK

The public is cordially invited to attend the concert. The benefit from the tea will be used to assist the study.

Ann Glynn Assisting In Church Work

Ann Glynn, daughter of Mrs. George Glynn of Ozona, and a sophomore student at Hardin-Simmons University in Abilene, is among twenty-eight student and graduate student teams from the school who will travel to Indiana, Kentucky, Ohio, New Mexico and Colorado during the spring holidays, March 21-28, to conduct revivals, youth weeks, high school assemblies, and youth rallies as they work in area churches.

Miss Glynn is serving as pianist for a team at Walnut Ridge Baptist Church in Jeffersonville, Indiana.

Mr. and Mrs. Fred Summers of Tulsa, Okla. and Mr. and Mrs. Philip Crenwelge of Clinton Okla. and their families, spent last week here with their parents, Mr. and Mrs. Cecil Hubbard.

A SIMPLE BUT FESTIVE SPRINGTIME DESSERT—Sour Cream Pound Cake is a mouth-watering version of the all-time favorite Pound Cake, according to the Texas Department of Agriculture home economist. It's perfect to serve calorie-conscious guests since it does not require a rich, calorie-laden frosting.

from the TAP kitchen

Texas Department of Agriculture—John C. White, Commissioner

SOUR CREAM POUND CAKE

- 1 cup butter, softened
- 3 cups sugar
- 6 egg yolks, beaten
- 3 cups all-purpose flour
- Pinch of salt
- 1 (8 oz.) carton commercial sour cream
- 1/4 tsp. soda
- 6 egg whites
- 1 tsp. vanilla extract
- 1 tsp. almond extract

Beat egg whites until stiff; then set aside. Using same beaters, cream butter and sugar. Add egg yolks. Combine flour and salt; sift three times. Combine sour cream and soda. Add flour and sour cream alternately to creamed mixture. Fold in beaten egg whites. Then add vanilla and almond extracts. Spoon batter into a greased and lightly floured 10-inch tube pan or Bundt pan. Bake at 300 degrees for 1-1/2 hours. When cool, sprinkle lightly with powdered sugar, if desired. Yield: one 10-inch cake.

For additional dairy recipes write Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

COUNTRY CLUB BRIDGE

Mrs. Jim Williams was hostess at the country club Thursday.

Mrs. Williams also won high. Low went to Mrs. Evert White and bingo to Mrs. Gene Perry.

Others playing were Mrs. Clay Adams, Mrs. Joe Bean, Mrs. Dale Bebee, Mrs. John Childress, Mrs. John R. Hunnicutt, Mrs. Arthur Kyle, Mrs. Sid Millsbaugh, Mrs. Beecher Montgomery, Mrs. Kirby Moore, Mrs. Douglas Moore, Mrs. J. B. Parker, Mrs. Hillery Phillips, Mrs. Buddy Phillips, Mrs. Jake Short, Mrs. Byron Williams, Mrs. Gene Williams and Mrs. Tommy Wilson.

BOY TO BRADLEYS

Mr. and Mrs. Ron Bradley of Prescott, Ariz. are the parents of a son born March 16 in a Prescott hospital. He weighed 7 pounds and 10 ounces and has been named Wil Scott. Mrs. Bradley is the former Diane Henderson of Ozona.

Grandparents are Mr. and Mrs. Dick Henderson of Kerrville and Mrs. Alpha Buchanan of Whittier, Calif.

Debra Says
by Debra Price H. D. Agent

Spring fashions turn toward sheers, cool fabrics and comfortable styles. Styles fall in three categories—the tube with straight and body skimming lines, the ballerina featuring fullness from the waist, and the oversized dress with dropped sleeves.

Consumers will see a revival of the dress in simple T styles, sporty safari styles, the wrap and tie look, and the pretty peasant look. Sundresses promise to be the favorite with one shoulder, or off the shoulder effect, camisole necklines and ruffled tops. Slimming down the silhouette, jumpsuits and tunics over skirts or pants are the fashion leaders.

Heading up the 'hip parade' are wraparound styles—hip yokes, shirred hips or scarves wrapped around the hip for a fresh new look. Pants will have straight legs in soft fabrics. Another new look features culottes slimmed down to look like pants and cuffed just above the knee.

And fashions are "all tied up" with drawstrings at the neck, waist or hip. Tassels, beads, braids, rope belts, bright ethnic embroideries and ribbons lend interest to spring fashions.

PATTERN SELECTION
Your County Extension Office has a new publication called Pattern Selection that is free for the asking. The pamphlet contains information on measuring for a pattern, determining your pattern size, pattern alteration, and pattern recycling. Please call 392-2721 or write Box 969 for the pamphlet.

FOOTSTEPS

Dad was a railroader, a dedicated one. The rails were his love as well as his life. To him the "Twentieth Century" wasn't a span of history—it was "his train" roaring through the night.

Dad often took me to the train yards. He taught me that a railroader never steps on the rails. A "trackwalker" always walks the ties! This was no superstition—just respect for the "road."

There are other lessons to be learned . . . that involve reverence, respect and the footsteps of life . . . lessons that help us express in our simplest actions the things we believe in.

Learning those vital lessons every Sunday at church is even more fruitful than a trip to the train yards with Dad.

- Sunday Psalms 119:46-72
- Monday John 16:16-24
- Tuesday Hebrews 13:1-8
- Wednesday John 1:43-51
- Thursday Matthew 9:35, 10:8
- Friday Luke 5:1-11
- Saturday Mark 4:1-20

Now's the time to call your air conditioning serviceman.

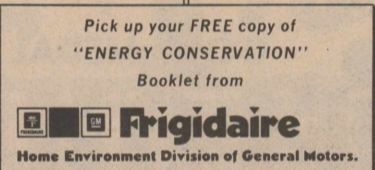

(Get a checkup before the heat's on.)

Right now your air conditioning serviceman can easily work your call into his schedule and get your unit ready to deliver dependable cooling through the summer ahead.

We know that many people wait until the heat's on to install electric air conditioning or have their units serviced. Later on, your dealer or serviceman may have a waiting list.

WTU wants you to get the greatest value from your electric service. One way we can help is to remind you to get the jump on summer by calling your serviceman early.

Remember REDDY Supplies the energy—but only YOU can use it wisely!

DPS Reports Traffic Deaths Up In State

Figures released today by the Texas Department of Public Safety show that 1975 traffic deaths in Texas rose 13 per cent over 1974, but the toll fell 263 short of the all-time record set in 1973. Colonel Wilson E. Speir, director of DPS, said a total of 3,429 persons lost their lives last year in 2,945 fatal accidents. The figure compares to 3,046 who died in 2,626 fatal accidents during 1974 and 3,692 who were killed in 1973's 3,074 fatal mishaps.

Speir said the traffic death rate per 100-million vehicles miles was 4.054 last year—up from the 3.9 rate in 1974 but under the 1973 death rate of 4.6. The DPS director said reports were received on 92,510 injury accidents which resulted in injuries to 138,962 persons. In 1974 there were 83,341 injury accidents and 123,611 injuries, while in 1973 some 87,631 accidents resulted in 132,635 injuries.

Non-injury accidents for 1975 totaled 373,141, compared to 348,227 in 1974 and 373,521 in 1973. Considering all types of traffic accidents in Texas, Speir said there were 34,402 more total accidents in 1975 than in 1974, and 4,370 more than in 1973.

Speir noted that even though 1975 mileage was well above 1973 figures, and even though there were more total accidents in 1975 than in 1973, the 55 mile speed limit apparently made a sizable contribution to the reduction of 263 deaths when compared to 1973's record toll.

"While voluntary compliance with the 55 mile speed limit is not as good as it should be, traffic continues to move slower than it did in 1973 when the speed limit was 70," Speir said. "This translates into reduced impact speeds in highway crashes; and,

coupled with vehicle safety improvements, is helping to save lives."

Speir pointed out that DPS is both obligated and committed to enforcement of the 55 mile speed limit, and he called on all users of the highways to drive in a safe and lawful manner.

"Only through responsible driving on the part of all our citizens can future increases in traffic deaths be averted," he added.

A & M Slates Centennial Ag. Week

"Agriculture in a Century of Change" is the theme of Agricultural Centennial Week, April 5-9, a special feature of the Texas A&M University Centennial observance, notes Billy Reagor, county agent for the Texas Agricultural Extension Service. The public is invited to the week's activities.

The April 5 program will be a salute to youth, with spokesmen representing 4-H, Future Farmers of America and Future Homemakers of America scheduled to address Texas A&M University faculty and students on "Youth Speaks To Agriculture."

Career exploration will keynote the afternoon session on April 5, with career seminars in agriculture planned to accommodate more than 1,000 off-campus high school students, Reagor adds. State and national leaders will explore the future of Texas agriculture on April 6-7. "A real challenge of Texas agriculture is to identify future trends and directions as we move toward a new century." Theme for the two-day symposium is "Maintaining Agriculture's Momentum in the Century Ahead."

A number of special awards will be presented during the week. The "Award of Merit" will be presented to a number of A&M graduating seniors, and scholarship winners will be recognized during the Centennial Agricultural Convocation the evening of

SEVENTH GRADE TRACK STARS and coach, Richard Rodriguez. The girls won their first track tournament last weekend at Stanton. The team got all three first places in the relays, many individual

firsts and brought home the championship trophy, along with other trophies and ribbons.

Exotic Foods Add Variety

Nappa, bok, choy, sunchokes and tomatillos—not something exotic, but everyday foods available at most produce markets, Mrs. Gwendolyn Clyatt says.

"An ever-increasing variety of interesting foods is available these days, and they may spark the adventurous family's appetite," she added.

Mrs. Clyatt is a consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System. "Nappa--or Chinese cabbage--can be used in salads and slaws, in stir-fry dishes and as a delicious vegetable by itself."

"Bok choy resembles both chard and celery and is generally used in chow mein and chop suey. Leaves should be prepared as spinach would. "Sunchokes--or Jerusalem artichokes--aren't artichokes at all, but the tubers of a species of sunflower. Prepare and serve them as you would buttered beets."

"Tomatillos are commonly known as ground tomatoes or ground cherries. They resemble a small green tomato, but they taste like a slightly green plum in their raw state. Cooked, they may be added to Mexican dishes or served as a relish side dish," she said.

April 5, Climaxing the program will be a special "Centennial Family" award.

Seventh Grade Girls Win Stanton Meet

The seventh grade girls track team ran away with the Stanton Junior Relays. The girls scored one hundred and thirty points to runner-up Crane's one hundred and eighteen points. All three relays were won by the Ozona seventh graders. The meet was composed of four divisions: seventh grade girls, seventh grade boys, eighth grade girls, and eighth grade boys.

- The participants and their times are as follows:
- 60 yd. dash - Rose Mary Ybarra, second, 8.1.
 - 100 yd. dash - Rose Mary Ybarra, third, 13.3.
 - 220 yd. dash - Kim Sinclair, fifth, 32.7.
 - 330 yd. dash - Ruth Longorio, third, 50.2.
 - 660 yd. run - Kaye Thompson, first, 1:59.8.
 - 440 Relay - first, 56.2 (Rose Mary Ybarra, Molly Womack, Tilly Kramer, Lori Clayton).
 - 880 Relay - first, 3:03.4 (Sue Cantu, Lisa Hohertz, Sandra Tambunga, Lori Clayton).
 - 1320 Relay - first, 3:18.1 (Tilly Kramer, Molly Womack, Sue Cantu, Kim Sinclair).
 - High Jump - Molly Womack, second, 4'4"; Lori Clayton, third, 4'4".
 - Long Jump - Molly

Womack, first, 14'8". Shot Put - Tilly Kramer, second, 28'10". Discus - Sue Cantu, fourth, 56'2"; Elizabeth Martinez, fifth, 56'1-3/4".

The eighth grade girls track team also participated in the Stanton Junior Relays. They scored eleven points in the meet. Wilda Martinez placed sixth in the High Jump. She jumped 4'6". Marilyn Moran placed second in the hurdles. Her time was 9.8. Wilda Martinez also received fifth place in the 220 yd. dash.

Hints For Homeowners Money Saving Tips

DO-IT-YOURSELF INTERIOR DECORATING

An easy and rewarding way to give your home new flair is with carved wood mouldings. Whether you choose to add this decorative touch to walls, doors or furniture, there are some basic facts you should know.

1. Mouldings are available in a variety of lengths from 3 to 20 feet. You'll find standard 4' lengths displayed at hardware and home improvement centers in many patterns and widths.
2. When measuring for moulding lengths, always round out your figures to the next highest foot. It's far wiser to come out long than short! For accuracy, use a good measuring instrument like a Lufkin steel tape.
3. Mitering corners is a basic operation. You'll need

a good back saw, and possibly a coping saw, such as those made by Nicholson.

4. Set the moulding in a miter box set for a 45 degree angle, and cut the ends of each of the two pieces to be joined at a corner in opposite cuts so together they form a tight, right angle.
5. Mouldings may be applied with small finishing nails or an adhesive. Nails should be countersunk about 1/16" and the surface holes filled with a putty stick before staining or painting.
6. Doors and windows can be trimmed with a variety of patterns to complement the type of architecture. Moulding patterns with detail go best with panel doors and traditional architecture, and the contemporary calls for the simpler streamlined patterns.
7. Moulding is also good for shelf edgings, to create dramatic panels with wallpaper inserts to revitalize blank wall areas, or to help transform a piece of stark unpainted furniture into a warm addition to any room. Just think what you can do to enhance plain kitchen cabinets!

With wood moulding for that extra touch, your home can border on the decoratively different.

ATTRACTIVE MOULDINGS—They can help you make more of your home for less.

Power to the payroll.

Sometimes it takes real will power to save a little something out of that paycheck.

But when you buy United States Savings Bonds through the Payroll Savings Plan where you work, saving is automatic.

Safe, dependable. And while you help yourself, you help America, too.

Buy United States Savings Bonds. They're powerful good.

Now E Bonds pay 6% interest when held to maturity of 5 years (4% the first year). Lost, stolen or destroyed Bonds can be replaced if records are provided. When needed, Bonds can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

Join the Payroll Savings Plan.

Compliment your kitchen with fine cookware by Le Creuset. Complete line in stock at most times at BROWN FURNITURE CO.

Special group of end tables and coffee tables--up to 50% off. In the basement at BROWN FURNITURE CO.

Land Use And Management To Be Topic At Ag. Conference

Texas farmers and ranchers are facing many issues that will ultimately affect how they manage their land, or perhaps who will manage it for them. Some of these issues will be dealt with during the Texas Animal Agriculture Conference, April 8-9, at Texas A&M University.

General theme of the conference is "Environmental Management and the Private Landowner."

Based on environmental legislation, regulatory programs are rapidly unfolding that directly affect the property owners' ability to decide where to locate, how to operate and which production tools will be available, points out Dr. John Sweeten, agricultural engineer in waste management for the Texas Agricultural Extension Service and coordinator of the general session of the upcoming conference.

"Agricultural producers must stay abreast of the many issues related to environmental regulations and statutes so as to be able to participate openly in policy issues relating to the environment and thereby assert some control over them. Issues to be discussed at the Animal Agriculture Conference should enlighten producers on where they stand today," notes Sweeten.

Five top agency officials will be on hand to describe increasingly stringent environmental management programs that directly affect producers. Nathan Chandler, special consultant on agricultural affairs for the Environmental Protection Agency, will describe EPA action and strategy on a variety of agricultural-related topics such as predator control, pesticide registration,

and water and air quality management.

Hugh Yantis, executive director of the Texas Water Quality Board, will assess agriculture's contribution to water pollution problems in Texas. He will also describe intensive acre-by-acre planning for managing water quality throughout the state which has just been launched at state and regional levels.

Recent regulations by the U. S. Army Corp of Engineers that require permits for earth-moving operations along Texas' vast shorelines will be outlined by Brig. Gen. Kenneth McIntyre. Pending legislation and court decisions relating to these regulations will also be explained.

Texas Land Commissioner Robert Armstrong will discuss the benefits of state and federal land use legislation and will also give some guidelines to help landowners analyze future land use bills.

Agricultural producers attending the conference will also hear Dr. Athelstan Spilhaus with the National Oceanic and Atmospheric Administration, U. S. Department of Commerce, who is a nationally known authority on global environmental affairs. Spilhaus will discuss policy trade-offs that must exist if the United States is to meet its concurrent commitments to energy developments,

VA Attempts To Reach Female Vets

In a continuing effort to reach female veterans who may be eligible for a special GI Bill payment, the Veterans Administration is sending letters to 75,000 women who attended school under the GI Bill between June 1, 1966, and October 24, 1972. They are being notified of retroactive allowances to equalize payments with male veterans who were married while in training.

To receive the lump sum of about \$30 per month for each month she was in GI Bill training, the veteran must furnish proof of marriage while in training.

A form is provided on the reverse of the letter which must be mailed to the VA regional office before July 1. Women who trained after October 24, 1972, have already been paid on the same basis as their male counterparts. The law does not allow the additional amount for husbands to be paid to women who trained under the World War II and Korean conflicts GI Bills.

Women veterans who proved to VA while they were in training that their husbands were permanently disabled and incapable of self-support have already been paid the additional amount.

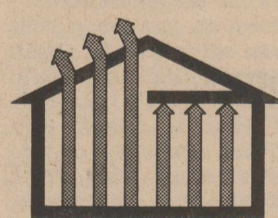

CARD OF THANKS

We would like to thank the Ozona Fire Department for their promptness in getting to our ranch on Tuesday, March 16, in response to a grass fire alarm which was actually a gas well fire.

We would also like to thank those who brought sprayers and others who came to help if needed.

P. L. Childress Jr. & P. L. Childress III

INSULATE

You can save up to 30% of the cost of heating your home when you fully insulate your home with Certain-teed Fiber Glass Insulation. Let our trained insulating specialists show you how we can cut your heating and cooling costs so that the insulation will pay for itself in just a few short years. Even if your home is insulated, you may not have enough and...with the cost of fuel sky-rocketing it will pay you to have us install additional insulation. Call today...it will mean big savings for you tomorrow!

Shift To Metric Kitchen Planned For Future Use

"Consumers of the future" will see noticeable changes in capacity measurements of kitchen appliances, Mrs. Lillian Chenoweth, a family resource management specialist, predicts.

"Under the metric system, capacity of appliances probably will be given in liters. And the capacity of containers, milk for example, will also be measured in liters. This will make it easier for tomorrow's housewife to know how much her refrigerator will actually hold," she said.

Mrs. Chenoweth is with the Texas Agricultural Extension Service, The Texas A&M University System.

"Square feet of shelf area will be changed to square meters, physical dimensions will be given in centimeters

instead of inches, and weight in kilograms, not pounds," she added.

The specialist offered hope for "metrically confused consumers" in saying that initially the size of appliances probably won't change. But to overcome difficulties involved with conversion into odd metric amounts--167.3 cm, for example--designers may shift in time to easier dimensions, such as 165 or 170 cm.

"And even temperature will be affected. A typical food compartment temperature reading may be 2.8 degrees Celsius, rather than 37 degrees Fahrenheit. The freezer compartment may be set at -17.8 degrees Celsius, instead of 0 degrees F," Mrs. Chenoweth said.

Symbols, rather than temperatures or words such as "hot," are also beginning to appear on some appliances. To comply with an Underwriters Laboratories regulation effective in September 1975, symbols will be used to show clearly which range burner is operated by a given control, she said.

"New terminology also will be needed to describe room air conditioner cooling output, now certified by the Association of Home Appliance Manufacturers in terms of British Thermal Units (BTU).

"Watts or kilowatts of heat and cubic meters of air circulation are being considered, but final industry-wide decisions will be made in the future," the specialist said.

Some progress has been made already in the shift to metric measurements. Swimming pools may be built to metric dimensions, skis are sold in centimeter sizes and the width of photographic film is expressed in millimeters.

"Metric scales are beginning to appear on bleach dispensers in automatic washers, in microwave oven cookbooks and in home freezer use and care manuals," she said.

Store Winter Clothing With Care

Careful storage of winter clothing ensures wearable garments next season--and eliminates the cost of replacing the wardrobe, Marlene Odle, a clothing specialist, points out.

"Repair all torn or ripped clothing before cleaning and storing. Agitation in the washer and hanging in the closet can make tears and holes larger and impossible to repair when they are noticed next season," she noted.

Miss Odle is with the Texas Agricultural Extension Service, The Texas A&M University System.

"Never put away clothing that is soiled, leaving stains in the clothing will draw moth larvae which can make quick work of ruining a wardrobe."

"Time may also set stains that would be easily removed if they were treated promptly," she said.

This specialist recommended a cool, dry area for storage to prevent mold and mildew.

She said that many professional dry cleaners store clothes at a nominal fee in controlled temperature and humidity vaults. This works well if home storage space is limited.

"Store similar colors together to prevent crocking or bleeding. Use moth balls in storage to prevent unwanted holes on those cherished items. Cedar chests and closets repel some insects, but moth proofing is necessary also.

"Remove clothes from wire hangers before storing. Place clothes on wooden or plastic hangers to give them longer life," she said.

Symbols, rather than temperatures or words such as "hot," are also beginning to appear on some appliances. To comply with an Underwriters Laboratories regulation effective in September 1975, symbols will be used to show clearly which range burner is operated by a given control, she said.

"New terminology also will be needed to describe room air conditioner cooling output, now certified by the Association of Home Appliance Manufacturers in terms of British Thermal Units (BTU).

"Watts or kilowatts of heat and cubic meters of air circulation are being considered, but final industry-wide decisions will be made in the future," the specialist said.

Some progress has been made already in the shift to metric measurements. Swimming pools may be built to metric dimensions, skis are sold in centimeter sizes and the width of photographic film is expressed in millimeters.

"Metric scales are beginning to appear on bleach dispensers in automatic washers, in microwave oven cookbooks and in home freezer use and care manuals," she said.

LETTERS TO THE EDITOR

Dear Editor,

We want to thank the many Ozonans who were so friendly, helpful and encouraging while we searched for "Goofus", our big yellow fluffy cat, who jumped out of a U-Haul at the Phillips Station last week.

Mr. McKinney and the Gonzales brothers at the station, Dr. Vannoy and his staff, Radio KWGH, Mrs. Yochum and the Parkers at the Silver Spur Motel, Mrs. Beall at the sheriff's office and all the merchants of Ozona couldn't have been more caring and helpful.

Most special thanks to Mr. Diaz and Wanda at The Ozona Stockman and especially to Ms. Kitty Montgomery who so kindly included our story in the 3-18-76 edition.

The greatest thanks of all to Mrs. Glenn Burns and her daughter Dawn for finding and rescuing "Goofus" who by now is the most expensive cat in Tucson.

Finding "Goofus" would not have been possible without all of you. Not one person here ever said one unkind word to us. We think that is the kind of attitude that makes our country great. We leave Ozona thinking of it as "The Biggest Hearted Little Town In The World." We and Rufus and Goofus will never forget you all, nor will our happy daughter.

John & Patricia Cox
2718 E. Linden St.
Tucson, Arizona 85716

Dear Editor:

Would appreciate it if you would please print this for me.

Persons with metal detectors have been going over my lot at the corner of Ave. G and 12th St. two different times.

Would appreciate it if they would stay off of the lot. After all it is owned by me. Neighbors have seen them there.

Thank you.

Beatrice Haire
301 Ave. H

Perfect Timing

Did you know that a watch that's 99 percent accurate actually is "off" 15 minutes a day?

Today companies like Sears, Roebuck and Co. produce solid state digital watches that are accurate to 99.9999981.

This new watch has a mechanism of quartz crystal that vibrates many thousands of times per second to keep the digits slipping away at precisely the right speed. Available in many styles, it's called the quartz solid state digital electronic watch.

Where accuracy is concerned, those thousands of vibs are right!

CARD OF THANKS

We wish to express our appreciation and sincere thanks to all for help in extinguishing the fire at the Schneemann Brothers Ranch. Our special thanks to your Fire Department and local ranchmen for their untiring efforts.

The Schneemann Brothers
Max Jr.
Phillip
Bill
