## School Boy Is Polio Victim

### School Students Get Salk Vaccine In Safety Move

**FIGHTING POLIO** — County Health Nurse Sue Barfoot gives injection of Salk polio vaccine to young Margarito Rocha. Mrs. Rocha looks on as Gwynette Pharr tries to attract Margarito's attention away from the hypodermic needle. Approximately 200 school children were given Salk shots Thursday and shots were given to many who were under school age.

Joe Bob Palmer, 16-year-old son of Mr. and Mrs. Raymond Palmer is in a Plainview hospital, victim of a mild case of paralytic polio. He became ill last Thursday afternoon while working out with the Plains High School football team.

First indications he was ill were reported to Coach Ed Robertson who advised him to cease his workout activities. He reportedly was alright then until later that night at home. Young Palmer was taken to a Brownfield Hospital where his case was diagnosed and he remained there until the fever eased.

Palmer was paralyzed from the waist down and was reportedly gaining some control over his feet and legs Thursday.

During the first days of the Palmer illness there were considerable rumors about other youths being ill with the same disease. A check with county health officials reveals that Joe Bob is, according to records, the only case of paralytic polio reported in Yoakum County this year. At this time last year there were no polio cases reported in the county.

School officials, immediately after confirming the diagnosis that Joe Bob had polio, ordered letters sent out to all parents advising them that one student was a polio victim and that Salk vaccine inoculations would be given by the county health nurse and that anyone who had come in direct contact with the victim should be given gamma globulin serum, if the family physician advised it.

Approximately 20 members of the Cowboys football squad received the gamma globulin injection Wednesday.

Gamma globulin is described by an official source, as being that portion of the blood which collects the polio germ. Medical authorities believe a high percentage of the people at one time or another contract polio and build an immunity to it. That immunity would be in the globulin reclaimed from the blood and later administered to potential victims. It is considered an emergency measure and is of short duration. The Salk vaccine is recommended later.

Our source stated, "In no case has it ever been known that gamma globulin gave anyone polio."

Thursday about 250 children, many of them under school age, were given Salk inoculations. Salk shots are recommended by local medical men who cite other instances in the nation where there were polio outbreaks and the fact that very few children were victims of the polio germ who had received part of the Salk series and that no children given the complete series (three shots) were victims of paralytic polio.

### Post Office Asks Your Cooperation

Postmistress Verda Lee Robertson has announced that due to the approaching Christmas season and the increased mail traffic the post office employees will not be able to provide window service, except for money order sales, during that time the morning mail is being put in the boxes. She asked postal patrons to cooperate in this matter.

### City Council Hires Lawyer; Pays Bills, Warns Students

City Council Thursday night hired Don Hancock, presently a resident of Hobbs, as city attorney, paid bills and heard reports on progress being made on city construction projects.

Mr. Hancock will be provided with an office in the city hall, use of the city office secretary and payment for written legal work and all meetings over two a month. Other than that he will receive no salary. A contract was drawn up and executed to that effect and also carried a provision that if either party becomes dissatisfied with the arrangements it could be terminated with three days notice.

Mr. Hancock will continue to reside in Hobbs as Mrs. Hancock is a teacher in the school system there. He will maintain an office in the city hall from the hours of 12:30 to 5 p.m. five days a week. He is a graduate of the Southern Methodist University school of law and attended Texas Tech for his pre-law schooling. The Hancock's have a 21-month-old daughter, Kimbly.

In other business councilmen: Paid bills totaling \$877.78.

Heard a report the city's new fire truck would be delivered in Lubbock Friday afternoon for testing and inspection. It will be shown at half-time during the Grandfalls football game if arrangements can be made and it can be delivered to Plains in time.

Councilmen asked that all school-age children be off the streets and out of Stanford Park by 11 p.m. school nights and 1 a.m. weekend nights. They stated an ordinance would be passed requiring this unless these youth observe this request.

Councilmen agreed to place temporary gates on the street north (behind) of the school ground to stop traffic from traveling the road during the hours between 8 a.m. and 5 p.m. Also, they will put a gate at the entrance to the alley east of the football field to halt traffic from entering the street from that direction.

### County Declared Drought Area

Word has been received in Plains that Yoakum County is designated a drought disaster area and is eligible for assistance under the emergency feed program, according to a telegram received by W. M. Overton, ASC office manager.

Mr. Overton said farmers and apply to the FHA office and then after approval, his office renders the aid. He said the program would probably be ready to put in operation by Monday.

### Returns Home

County Judge H. K. Benton, who underwent major surgery recently at the Plainview hospital, returned to his home Wednesday and is reported to be convalescing most satisfactorily. It is expected that he will be able to return to his duties in the near future.

### Cox Drilling Stakes Lydia Lynn No. 2 In Wasson Field NW of Denver City

John L. Cox of Midland staked location to drill No. 2 Lydia Lynn as a 5,500-foot project in the Wasson field of South Yoakum County six miles northwest of Denver City.

Location is 330 feet from south and west lines of section 733 block D, John H. Gibson survey. Anderson-Pritchard Oil Corporation No. 1 Waters, scheduled 13,000-foot wildcat in Southwest Terry county, found interesting shows of oil and gas on drillstem tests of the Strawn.

Section tested was from 11,328 to 11,500 feet, with the interval having 10 feet of pay section. Open four hours, the test recovered 4,500 feet of gas and 220 feet of 37.2 gravity oil, plus 1,600 feet of gas-cut water blanket and 90 feet of air and gas-cut mud. Drilling continued below 11,502 feet in lime and shale.

Location is 1,750 feet from north west lines of section 118, block B-11, C&M survey, and 22 miles northeast of Denver City. B&M Drilling Company No. 1-25 Jones, Clear Fork discovery in Northwest Gaines County was swabbing to test Tuesday from perforations at 8,300-20 feet; and 8,350-64 feet. It flowed 190 bbl oil 17 hrs.

Location is 26 miles northwest of Seminole, 1,980 feet from south and east lines of section 25, block A-7, psi survey. Stanolind Oil & Gas Company has developed oil in pair of projects in the ODC (Devonian) field area of Northwest Gaines County. The Concern's No. 1 Wimberly, 3-4 mile north of the pool discovery, flowed gas with no estimate on volume on drillstem test from 11,036 to 11,067 feet. Reversed out of the tool was water blanket and 200 feet of free oil. Drill-

### DAUGHTER INJURED

Carolyn Warren, daughter of Mr. and Mrs. Tom Warren, sustained an injury requiring 22 stitches in her leg last week. She was being given instructions on operating a motor scooter when the mishap occurred.

### Cotton Ginnings Reach 4,000 Bale Mark This Week

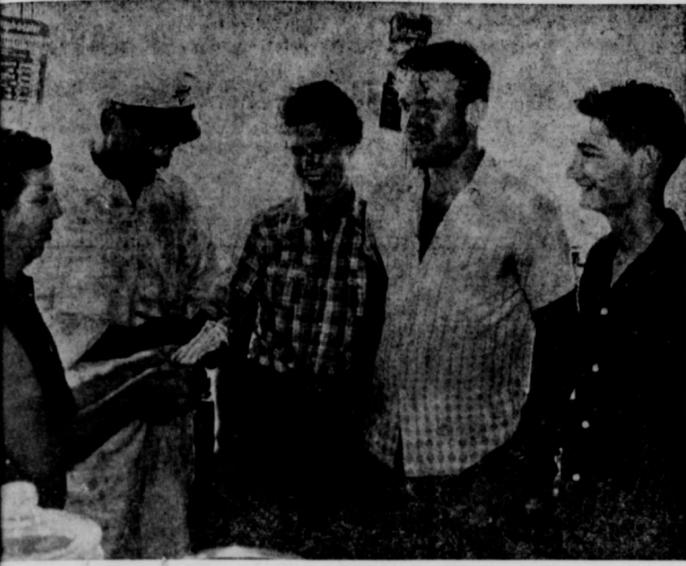

Yoakum County's cotton crop is about 22 per cent harvested according to the Oct. 3 report issued by the Texas Employment Commission. The commission's weekly crop report shows 4,145 bales of the estimated 19,000 already ginned.

The crop is estimated 70 per cent open. Light rains fell in the county Tuesday night but no damage has been reported. The precipitation did, however, stop picking activities for half a day Wednesday while the moisture dried from the crop.

The commission also reports there are six crews of immigrant laborers working in the fields. Last week there was need for about 1,000 to 1,500 workers here. This figure has dropped to 500 this week the report shows.

Reports persist that the crop this year is one of the best seen in many years by the county's old timers. On farm family said they were expecting the first cotton crop to make a profit since 1949.

Gins are operating all the hours necessary to handle the cotton brought in, but no report of 24-hour a day operations have been received. Current wages are \$1.55 for pulling and 25 cents for hauling and weighing.

**CAR WASHING SENIORS** — Mr. and Mrs. Amos Smith, left, settle up with members Plains High School senior class for their car washing efforts last Saturday. Mr. Smith each of the seniors take over his car wash rack and the money they earn is theirs. This year they \$50.50 and donations brought the total to \$72. **NOW LET'S SEE . . . WHERE'S THE BALL?** Oh, if only that photographer could learn to take a picture! In this one everyone on the field is looking in a different direction and since we can't remember anything about the play, we will assume the ball is lost. Surety with 22 men and a host of officials on the field this could not happen. Anyway that's Gean James kneeling in the center, the dancer at center left (No. 33) is Kenneth Blount and on the far right is Merle Todd, center, with a very wicked look on his face. We can tell you one thing for sure, though, those officials are bearing down on those whistles. REVIEW Photo

**COWBOY BOSSES** — These Cowboys, although not eligible to play, have a great stake in the Plains squad. They mold the boys into a fighting unit, cheer them on to victories and comfort them in defeats. Truly great Plains High Cowboys are, left to right: D. N. Taylor, high school principal; Jack Pierce, assistant coach and Head Coach Ed Robertson. Robertson is a graduate of North Texas State College and lettered in football there two years and also lettered two years at Texas Tech. Pierce lettered two years at West Texas State College, one year at Hardin-Simmons and played for the Army in Japan. Taylor also is a football player, earning two letters at Hardin-Simmons and two letters from Southwestern.

### DIVORCE SUITS, COLLECTION DEBT CASE FILED THIS WEEK

Cases, including two for collection of one for collection of one been filed the past district court. Cases include Jean Kenneth Fisher; and Maedean Kirkpatrick vs. Kirkpatrick. In the other Nelson is seeking collection from Alford P. Nelson. In the suit filed by the plaintiff against Ken-er, now residing in Phoe-the plaintiff is asking for divorce and child support

of \$150 per month. The couple was married December 21, 1952 and separated on June 27, 1956. They are parents of three minor children, presently residing with their mother in Plains. The plaintiff charges the defendant is guilty of harsh and cruel treatment towards her, that he continually fussed and fought with the plaintiff, and finally she left the defendant, who told her he would not support her or the children or live with them again. ### DWI Charges for Two Post Men

Two Post, Texas, men were charged with driving while intoxicated Saturday evening, after being apprehended in Plains by sheriff's officials.

They were F. E. Light and Wilburn B. Wade, who were arrested after their car had side-swiped a 1954 Ford owned by Mildred M. Barrett of Plains which was parked in front of Hawkins Food Store. The Post car failed to stop after the accident, officials also said.

Wade appeared in county court Tuesday afternoon, and was fined \$100 and costs on a plea of guilty. Presiding as judge was Burton Hackney, Brownfield attorney, in the absence of County Judge H. K. Benton.

Light, who investigation proved had DWI charges filed against him in Hale and Nolan counties, faces a second offense of DWI and is being held in jail at Plains with bail set at \$1000. He will be bound over to the grand jury.

against B. J. Kirkpatrick, the plaintiff asks for a restraining order, restraining the defendant from selling or disposing of community property; that he be restrained from bothering or molesting plaintiff in any way; that the defendant be notified to show cause, if any, why alimony in the sum of \$200 per month should not be paid to plaintiff during pendency of suit; that defendant be required to file sworn itemized inventory of all community property and where located; that on final hearing plaintiff have judgment of divorce and recovery of her separate property; judgment for one-half interest in and to all community property and division thereof; attorneys fees in the sum of \$500, costs of court, restoration of her former name, Tommie Maedean Agan.

Joe Nelson, resident of New Mexico, has filed suit against Alford Eaton and wife, Dorothy Mae Eaton, defendant, both residents of Yoakum County for an alleged debt of \$1527.01, for feed, stall and tack accounts for horses owned by the defendants and incurred at Ruidoso, New Mexico. The suit asks for attachment against five horses, owned by the defendants, which it is charged have been removed by the defendants from Ruidoso to the state of Texas.

Mr. and Mrs. Neil Taylor and Billy Joe Campbell attended the Morton football game.

### TIMELY TIPS

By LA RUE GILMORE  
 County Home Demonstration Agent

The crispness in the morning air tells us that fall is really here. Of course it is only the beginning but clothes will soon have a change, too. For those of you preparing for this season you have certainly noticed the trends in this year's fashions.

The teen-age set will begin to adopt the Ivy League look which is now so popular on campus. This look consists of a shirt waist dress with full skirts in dark, ivy league stripes. The nice part of this "new look" is that it may be worn to school, ballgames, or on dates.

Bermuda shorts are still very popular. Some stores are featuring hose of different colors which cover the knees. They may be purchased in red, blue, green or any color to go with your bermuda shorts. The advantage of these hose is that they cover one's knees and, I believe it is commonly accepted fact that most people are not blessed with pretty knees. The disadvantage is that the hose will run as nylon hose do. Tartan stripes in tartan color are in vogue now. The blouses are striped with button down collars with a button at the collar center back.

Buckles are being used more and more for emphasis. This year buckles will be on the back of shorts, slacks, blouses and shirts. This incidently, is one way to bring an old blouse back into style.

Speaking of modernizing wearing apparel. Hats popular in the twenties could be dressed up and cleaned because, to coin a phrase, "they're the cat's meow". This year hats seem to be either hugging the head or very large. New fabrics are being featured such as beaver and other furs. Of course feather and more feathers are being used for decorations.

A thought that occurred to me while looking at a hat bedecked with plumes was that it would be dangerous to wear it during open season for some birds. The tall bulky hats are called TOQUE. On these hats the fabric and shape work together for bulkiness.

Before buying clothes or shopping for new patterns it would be wise to familiarize oneself with the new words and terms. The new sheath is softer, more feminine, it is easier on the figure than the straight look of last year. It sheath has the pencil slim skirt but the top blouses out above the belt—sometimes in back and front, sometimes just in the back. The blousing is done by tucks, gathers or pleats.

Blouses popular this year have elasticized waistbands, drawstring ties, or ribbed knit waistbands. Worn with slim skirts, the illusion of a blouson sheath can be achieved.

To go with the twenties hats we have a 1912 style in dress. It is still called EMPIRE but has softer lines. The waist is no longer just under the bust but it is about 2 inches above the waistline.

DEMI-BELTS are belts that don't go all around the waist, only partially. These are being worn with the empire dresses. Restrained blousing may often be seen above the belts.

The jacket over-dress is still in excellent taste. It is called CARACO and is close-fitting, about two inches above the waist. Or jackets are hip bone length and looser fitting.

PANELS will be sailing from the belts of all dresses for elegance and softness. Heretofore the panels have been mostly for evening wear but this is no longer true.

Mink, broadstail and Persian lamb trim will be seen on coats and some suits. Coats will feature a demi-belt and a lean look. The collars are large, riding high about the face often with the pro-

REMEMBER LAST YEAR? — October 1, 1955 a 14-inch rain fell around Plains with this result. This is a closeup of Stanford Park with Plains in the background taken by the late Roy Dry, publisher of The Review at the that time. It was believed to have been the most rain to fall in such a short time lasting only Oct. 1, 2 and 3. Damage to crops was slight and the benefit was felt to be great.

IN AN election held recently Lamb County Voters again turned thumbs down on a road bond issue to build a four lane highway in parts of the county on Highway 84. The election only included the southern half of the county and would have sponsored bonds in the amount of \$275,000 for the purchase of right of way. Not a single box included in the election gave the proposal the two to one margin needed for adoption.  
 —The News, Anton

THE COTTON and grain harvests were getting into full swing last week in the Seagraves area, but a pressing need for more boll pullers was reported. Many farmers had cotton open but were unable to secure hands. At a meeting officials of the Texas Employment Commission placed Gaines County's farm labor needs at 4,890 harvest hands. These figures have been submitted to the secretary of labor.

TWO MOTIONS occupied the time of Bailey County Commissioners when they met last week. The two motions, one of which died for lack of a second, concerned the desire of two county men to have an outside audit made of the county's financial status. One commissioner made the motion to approve the request

portions of a small draped cape. CARCOATS are sports coats which are above knee-length and usually hooded. Leather trim is also very good on coats, dresses, and suits.  
 Hoods are especially good. You will see hooded coats, dresses and sweaters. This might prove to be very practical for cold days. They should be excellent for football games.

With the change in fashions you are probably saying that there surely won't be too much change in the fabrics. BULKY-KNITS on sweaters and knit dresses will have a handdone look. Or bulky-knot collar and cuffs will trim flat-knit garments.

Key words in fabric selection are LIGHTWEIGHT TWEED and CHIFFON. Weighing next to nothing the tweeds will look thick and bulky. Suits will feature wool weaves with a linen, burlap or canvas look for suits and coats.

The stick out petticoats are gone at last. Chiffon for dress up will fall into soft lines in combination with sheer wool or velvet or by itself.

PROVINCIAL prints, prints or stripes (Tyrolean prints), paisley, dark stripes and plaids are the most important patterns. Printed corduroy, too is good.

The most popular colors are tied for first. They are LODEN GREEN and BLACK. Loden green is a little greener than olive drab—the color taken from loden cloth. The whole range of greens is good.

Basic black dresses may be given zest by adding touches of peacock or dark pewter blue, cranberry, burgundy, cedar red, Camel and brown tones are news for this year's neutral colors.

HUSBANDS, too, will have a new look—extra frowns and wrinkles when the wife remarks, "Oh dear, my figure has gone out of style again".

and it died there for lack of a second.

## Tri-County Feed To Build Grain Storage Facilities

Tri-County Feed revealed this week the plan to build one million pound grain storage facilities in Plains. The storage and elevator is expected to be in operation by harvest time in 1957 and will be expanded as the need arises, ac-

ording to George Burke, owner of the feed company. Four 250,000 pound storage tanks are being dismantled on another site and will be moved here. They are only a year old, Mr. Burke stated. Site for the storage facilities has been established on property owned by Roy Fitzgerald and is located on that land facing the Bobby Moore Shell service station east of the Morton highway.

### SOIL CONSERVATION DISTRICT NEWS

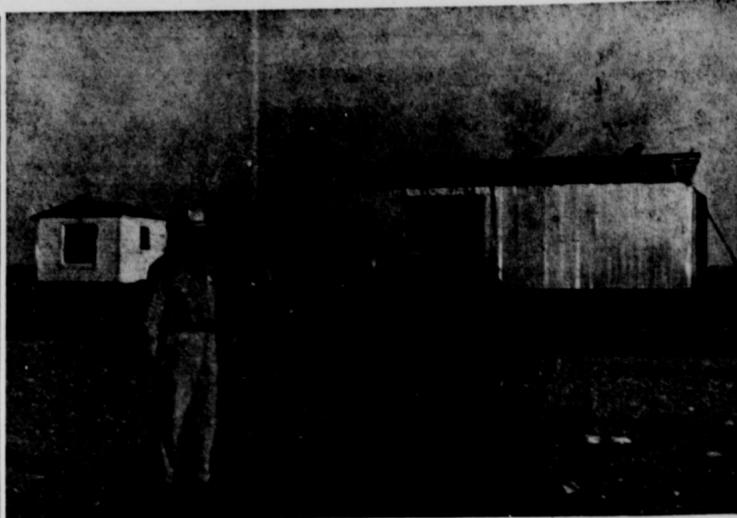

Most farmers have completed irrigation of their summer crops. What are they going to do with their irrigation equipment? A sizeable investment is represented by irrigation systems alone. Some will stack their equipment and wait till next spring to use it again. Others have planted or will plant winter crops and use their irrigation systems to water those crops that will improve the soil and provide protection against blowing and in a lot of cases produce a good crop that can be turned into cash.

Most farm irrigation systems represent an investment of around \$10,000, some of them running as much as \$20,000. To get the most for their money farmers should operate their irrigation system as many hours a year as possible. It is hard to justify that much expenditure for three months use.

By irrigating a winter crop according to plant and soil needs and maintaining a safe reserve of moisture in the soil at all times the job of preplanting irrigation will be reduced by the amount of moisture in the soil planted to winter crops. If all the irrigated land is in cover crops and the soil moisture is maintained at 50 per cent field capacity or above, then only half as much water will be required before spring planting as would be required had no winter irrigations been done.

The winter cover crop when properly incorporated into the soil will help reduce evaporation from the soil surface and increase water holding capacity and fertility of the soil. Increased water at each irrigation and longer periods between irrigation. Every one knows the advantages of increased fertility.

Soil Conservation Service technicians assisting the Yoakum Soil Conservation District will be glad to help farmers with planning irrigated winter cover crops and in determining when and how much water to apply at each irrigation. Remember it is just as important to do an efficient irrigation job on winter cover crops as on cotton. A good cover during the blow season can keep your soil at home for you to grow a crop on instead of it blowing on your neighbor and fouling up his field too.

NEW NEIGHBOR — Sherm Tingle, operator of Tingle's Garage on the Lovington Highway points to his new neighbors across the street. Wilmeth Butane Co. is building the new storage quarters and has moved the small wooden structure from downtown Plains to the new location for an office.

## Two Plains Boys Hurt in Hunting Accident Friday

Two three year old boys, both of Plains, were injured Friday evening when pellets from an accidentally discharged 12 gauge automatic shotgun ricocheted.

Randy Holler, son of Mr. and Mrs. J. L. Holler, was struck by 15 of the pellets, seven lodging in his legs, four in his feet, two in his body and one each in the cheek, and right hand. A companion, Ronnie Cates, received four in the arm and one in the hand and ankle. Both were taken to Yoakum County Hospital, where Randy was kept until Sunday. Ronnie was treated and released.

According to reports from officers investigating the accident, several couples and their children were bird hunting about six miles southwest of Plains. The automatic shotgun was being used by several in the party, and was accidentally discharged while being held by Mrs. J. L. Holler. The birdshot ricocheted from the ground, striking the boys who were several feet away.

## Beauty Bar Moves To New Quarters

Plains Beauty Bar is now in operation in new quarters recently built by Mr. and Mrs. D. H. Kerby, owners of the shop.

The building was designed for a beauty shop operation and is laid out for maximum efficiency in caring for the customers' needs, Ms. Kerby said.

Operators of the shop are Mrs. Kerby, Mrs. Ann Green and Mrs. Green's daughter, Marceleta.

An informal open house will be held Monday and free services—a permanent, hot oil manucure and scalp treatment will be given. Also, facials will be given free to demonstrate a new line of cosmetics to be carried.

# A new kind of FORD with the mark of tomorrow

You're in for a thrill when you see this new knock-out named Ford! But save your superlatives till you drive it! That's where the fun really starts.

It's fun just knowing that others who see you wish they were you. For you're commanding the longest, lowest, heaviest, biggest car ever to sport such a low price tag. There's head room to spare for a new fall bonnet . . . stretch-out space for a "Daddy Longlegs."

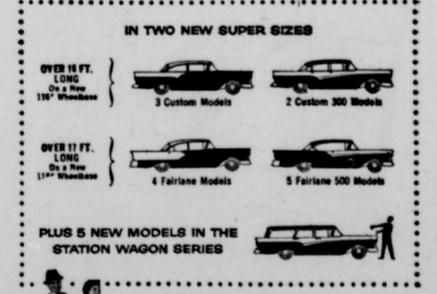

You'll find that the tough and ready new "Inner Ford" is built to take the roughest road you'll care to travel. New outboard rear springs and ball-joint front suspension let Ford take the turns without the tilt. New swept-back control arms help take bounce out of bumps.

Best of all, Ford's library-like quiet is built in. And the new "Inner Ford" is why. For never before

in Ford's field has there been a body with so much extra bracing so firmly anchored to its foundation. And you can choose from three big Silver Anniversary V-8's with up to 245 horsepower. There's also a new Mileage Maker Six with 144 horsepower, the most modern Six in the industry.

You can pick your Ford tailored to your desires and your budget, too! Choose from nine Fairlane or Fairlane 500 models or from five Custom or Custom 300 models. Or take your pick from Ford's five longer, lower, new station wagons. Whichever model you select, you'll get a car that's been re-invented from the wheels up!

So there's the new kind of Ford. Big! Gracious! Spacious! A luxury car true—but one that any car buyer can easily afford. Come in! See what wonder cars you can buy now at low Ford prices.

**Is Better Democrat Than I, Says Supporter**

Each of us were standing talking the other day, and got around to politics like they do. Some of the boys they'd voted for in '52 were going to do it again; they said they'd always vote the Democratic ticket and always expected to know how it goes around a Texas town.  
A fellow said something that made me stop and think. He said he was a Democrat, always had been, and his grandfather before him always felt like he was voting for the best Democrat in the race, which he was going to do this year.  
"That means," he said, "I'll vote for Eisenhower. He's a better bet, by my definition of a bet, than that other fellow will be."  
I said to him, "Ike is a Democrat, and he's always voted for Ike. He's promised to Texas, and he's promised to return the favor to Ike."  
"I know, he might have had a better idea of the greatest words in the language, and we all like to know ourselves as being smart when people do something for us. Like I heard a man say: 'Texans are people who forget anything that is not theirs—or FOR them.' The way we think of our country is about right."  
Eisenhower man pointed at Ike and said, "Ike promised to give the money back to Texas, and he promised; he promised to best to close out Mr. Truman in Korea, and he kept that promise, and he promised to give us a government in Washington that we could be proud of, because it was clean and honest and efficient—and, in this man's opinion, he had kept that promise."  
"I know you're reading and hearing a lot of stuff to the contrary," he told us, "coming from Brother Stevenson and Brother Kefauver and the rest of the politicians on the other side. That's the politics for everybody expects them to jump on Ike every way they can, and I guess they'll keep on doing it right up to Nov. 6. But the American people are smarter than some politicians give them credit for being, and before they vote they're going to sit down and ask themselves this question:  
"Remembering 1952, when our boys were dying in Korea and the newspapers were full of talk about mink coats and Communists and corruption in Washington—now, he honest about it: If you could, would you go back to 1952 and start over with Adlai Stevenson instead of Dwight D. Eisenhower?"  
This man said he wouldn't, and come to think of it, I wouldn't either. As a matter of fact, I think Ike has made us one of the best presidents we ever had. If we had to go to war, I'd certainly rather have him at the head of our government than any other living American. But even more importantly—I'm convinced he is the best man to keep us OUT of war.  
That's why I still like Ike—better than ever!  
Yours truly,  
Tex

**Mrs. Redwine Given Shower In Home Of Mrs. L. O. Smith**

The spacious ranch home of Mrs. L. O. Smith was the scene of a display tea honoring Mrs. Doyle Richardson, the former Mylone Patterson, last Saturday afternoon. Guests called between the hours of 3 and 5.  
Assisting Mrs. Smith with the hostess duties were: Mesdames G. D. Kennedy, Ed Robertson, Robert Chambliss, Foye Flood, Roger Harvey, A. B. Carpenter, Autrey Burke, Sallie Forrest and Thelma Ellis.  
The serving table was laid with a white lace cloth and centered with a unique arrangement of white baby mums flanked by blue tapers. The color scheme of blue and white was carried out in the refreshment plate of dainty sandwiches, cookies, nuts, and mints.  
Mrs. Ed Robertson presided at the silver tea service and Mrs. Autrey Burke registered guests.  
Many lovely and useful gifts were on display.  
About 25 guests registered and many who could not attend sent gifts.

**Found Guilty**

William Randolph Crow, who has been out on bond following charges of burglary, was tried in district court Tuesday afternoon and sentenced by Judge Louis Reed to three years in the penitentiary. The sentence was probated and Crow was ordered to repay all damages incurred in the burglary of the Plains Frozen Foods store on June 9th.

**ACROSS THE CATTLE GUARD**  
By LEO W. WHITE  
County Agent

The old familiar story of the farmer to sell his product at harvest time to pay off his loan is still with us. It is really showing up this year in Yoakum County with respect to the grain sorghum harvest. It may not be a necessity for the farmer to sell his grain at this time of the year just to pay off some debts. More than likely, there are other reasons for selling the grain rather than storing it.  
The grain that has been harvested this year has a high moisture content. Farmers are harvesting as soon as it is ripe enough to hold up over a long ripening period. This high-moisture grain would not be very desirable to put up for storage.  
The other reason for not storing grain is the lack of farm storage space. If the grain was dry enough to go in the loan, the farmer could use elevator storage and have a small chance of getting a little more for his product in case the price went up.  
Farmers remember the old adage about a bird in the hand being worth two in the bush so they sell their grain while it is a little damp and get their money. This practice puts the growing of grain sorghums in the same category as cotton production. It is strictly a cash crop.  
In my opinion, grain sorghum should not be considered as a cash crop. To me, it is a feed grain. It is used mainly as a livestock feed and it competes with corn. When grain sorghum is produced in Yoakum County sold to grain buyers, it is moved to areas where livestock are being fed.  
The livestock feeder buy the grain and feeds it to his livestock at a profit. He has the storage facilities so he pays the grain buyer a profit and he also pays for the hauling. The grain cost him a good bit more than the farmer got for it but he still has a profitable business when he turns grain sorghum into meat.  
The corn belt farmer learned a long time ago that he could not afford to produce corn for the other fellow to feed. He has storage facilities on his farm and the corn stays there until it is fed to livestock. The farmer collects the storage fee, the hauling and the profits from the feeding operation when he markets his livestock. The farmer who produces grain sorghum can do the

**Christmas Gifts For Veterans Asked**

The Plains unit of the American Legion Auxiliary is sponsoring a Christmas Gift Box for the convenience of hospitalized veterans in the Big Spring Veteran's Hospital. The box is located in the Plains Frozen Food store.  
The people of Plains are urged to remember these sometimes forgotten heroes. The gifts are for them to give at Christmas as there are many veterans who are financially as well as physically unable to secure gifts for their families and friends.  
An inexpensive article for a man, woman or child, will be fine. Please donate at your earliest convenience as this box must be at the hospital by Nov. 1.

feeding business for himself.  
That kind of farming looked pretty good to me and from the looks of the homes that some of these farmers have built on their farms, it has been a profitable way of doing.

If you look the world over, you'll never find so much good entertainment and spectacular fun as you'll find at the 1956 State Fair of Texas. This year's extravaganza, October 6 through 21, will present a kaleidoscopic program of sparkling entertainment, fashion shows, football games, livestock shows, agricultural and industrial exhibits, contests and special events, youth activities and carnival merry-making. There's something wonderful for everybody at this festival of fun!

Imagine these shows: "DAMN YANKEES" starring Bobby Clark and Sherry O'Neil; "ICE CAPADES" featuring "Peter Pan," Joie Chitwood's AUTO DAREDEVILS, and many new rides and shows on the MILLION & MIDWAY.

COTTON BOWL FOOTBALL: Texas A&M vs. Texas Tech on October 6, Texas vs. Oklahoma on October 13 and many big high school games.

And the big name talent: ELVIS PRESLEY on October 11, LOUIS ARMSTRONG on October 15, THE SPORTSMEN and ROGER WILLIAMS on October 16, VICTOR BORGE on October 20, FIESTA MEXICANA on October 9.

The fabulous sights: an ESPERANDE OF LIGHT, PAN-AMERICAN LIVESTOCK SHOW, a GALLERY OF PRESIDENTS in the Art Museum, amazing EXHIBITS in the Automobile Show, Electric Show, Gas Show, Women's Building, Food Show, Farm Implement Exhibits, Agriculture Show.

Not to mention free band concerts, serial acts and free shows at the INTERNATIONAL CENTER with exhibits of thirteen foreign countries, free MAGIC SHOW, PLANETARIUM.

Naturally, I'll be there to greet you... and to introduce you to my new pet Hereford. He's only 12 feet tall, but he's mighty cute.

Yes, there's no doubt about it. We're Shootin' the Works, all right. It's the most extravaganza, most colossal, most sensational fair of all... and it's the biggest state fair in the world! Come 'n see!

water on drillstem test in the San Andes at 5,466 to 5,516 feet. Open 7 1-2 hours, the test surfaced gas in 5 1-2 hours, and recovered 150 feet of oil and 270 feet of sulphur water.

Drilling continued below 5,516 feet in lime and shale.

Drillsite is 1,991 feet north and 660 feet from west lines of section 272, block G, WTRR survey.

Oil Development Company of Texas No. 2 ODC Fee has been dual-completed as a Siluro-Devonian well in the Seagraves field of North Gaines County, and as a Strawn producer in the West Seagraves pool.

From the Siluro-Devonian, the oiler flowed 438 barrels of 36 gravity oil, through a 10-64 inch choke and perforations from 13,030 to 13,039 feet, natural. Gas-oil ratio was 12.2-1, and tubing pressure 550 pounds.

From the Strawn, operator reported a 24-hour pumping potential of 58 barrels of oil, through perforations from 11,433 to 11,449 feet, after 2,000 gallons of acid. Gravity of oil was 45 degrees, and gas-oil ratio was 812-1.

Location is 467 feet from north and 2,310 feet from east lines of section 20, block C-35, ps1 survey.

One of two drillstem tests in a lime section, probably the Strawn, flowed oil in Stanolind Oil & Gas Company No. 1-G Oil Development Company, southeast offset to the discovery well of the Seagraves (Strawn) field of North Gaines County.

Test from 11,095 to 11,255 feet, open eight hours and 45 minutes, surfaced gas in one hour and 20 minutes. Recovery was 1,200 feet of oil and 60 feet of oil and gas-cut mud.

Drillstem test from 11,253 to 11,283 feet, open four hours, and 14 minutes, surfaced gas in 39 minutes and oil in an unreported time. The project made 24 barrels of oil in one hour and 15 minutes. Circulated out were 98 barrels of oil and no water.

Drilling continued below 11,283 feet in lime.

Location is 660 feet from north and west lines of the southwest quarter of section 206, block G, WTRR survey, 8 miles southwest of Seagraves.

The Atlantic Refining Company found slight shows of oil and gas on a drillstem test in the Wolfcamp at No. 8-D Rely, Central Gaines County project in the Seminole field.

The section at 9,316 to 9,416 feet was tested one hour. Recovery was 3,380 feet of mud and 5,040 feet of oil and gas-cut salty sulphur water.

Drilling continued below 9,416 feet in lime.

It is 660 feet from north and west lines of section 283, block G, WTRR survey, six miles northwest of Seminole.

Cities Service Oil Company No. 9 Proctor, prospective Devonian Discovery in West Gaines County, was swabbing to test Tuesday from perforations at 11,181 to 11,191 feet.

On a six hour gauge, the project made 31 barrels of load oil, after 500 gallons of mud acid. Swabbing continued.

Location is 10 miles northwest of Seminole, and 2,040 feet from north and 1,880 feet from west lines of section 355, block G.

It is ten miles southwest of Loop, 660 feet from south and east lines of section 14, block II, D&W survey.

AUSTIN, Tex.—Campaigning in Texas is in high gear.

First to open statewide campaign headquarters were the Texas Democrats for Eisenhower. In charge is Weldon Hart, longtime aide to Gov. Allan Shivers.

A few days later Warren Woodward, Houston Attorney moved to the capital city to set up the Stevenson-Kefauver camp.

Says Hart, "Our campaign is backed by Texas Democrats who supported Eisenhower in 1952 and who can see no reason to change."

First of a series of ads in behalf of Ike appear in all Texas newspapers this week. Stevenson ads will follow as Woodward's program begins to unfold.

Meanwhile candidates for the vacated Senatorial post of Price Daniel are jockeying for position. But none has made what could be called a statewide plea for support.

Daniel is finally "in" as the Democratic nominee for governor. But procedure for naming a new U. S. Senator still is as muddled as ever. He resigned his senate seat effective Jan. 15, "or sooner if a successor is elected."

When this can be done, and how, hinges on (1) when the governor calls a special election; and (2) whether the State Democratic Executive Committee decides to try to hold party primaries before the special election.

Meanwhile Governor Shivers is on a bear hunt in Kodiak, Alaska, with two of his sons.

Many schools report record enrollments. Some expected totals, after latecomers straggle in: University of Houston 13,500; Texas Tech 8,000; Texas A&M 7,400; Texas Christian University, South Baylor, about 5,400 each.

At least one school, Texas Western at El Paso, was having to curtail its curriculum because of teacher shortage.

**SECURITIES PANEL NAMED**—Eight men have been named to take another look at that perennial hot potato—securities regulations.

They will study the effectiveness of two laws passed by the last Legislature. One revised the state securities act which is administered by the Secretary of State. Another created the Insurance Securities Division handled by the Insurance Commission.

Likely they also will discuss the long-debated issue of whether the two securities regulating divisions should be combined.

Named to the committee by Gov. Shivers are Secy. of State Tom Reavley; former Secy. of State Everett Fulgham of Lubbock; Ins. Commr. J. Byrom Saunders, Hal Dewar of San Antonio; Charlie Pierce of Dallas; J. C. Dolley of Austin; Gus Wortman and Wilbur Hess of Houston.
