TIMELY TIPS

By LA RUE GILMORE

Christmas eating means fruit cakes, candies, cookies and a slight ncrease in human weight. My article for the past few weeks has been featuring ways to prepare and use holiday foods. Although some of you have finished Christmas baking, a few are still looking for new and unusual recipes.

The following came from Jewel Robinson, Hockley County Home Demonstration Agent. I know for a fact, that they are delicious.

FRUIT CAKE COOKIES 14 cup butter 1 cup brown sugar

3 T. sweet milk 3 cup flour (one-half with the fruit)

1 scant t soda 1 fruit juice glass whiskey or fruit juice (Whiskey cooks the dough and gives a nice glaze to cookies. Does not taste)

1 lb. pecan halves 1/2 lb, broken pecans

1/2 lb. cherries 1/2 lb. pineapple

% lb. raisins

1 g. each cloves, cinnamon, nut-Bake in a very slow oven, about 250 degrees F. about 30 minutes.

Yield; 95 to 100 cookies. Heavenly Hash

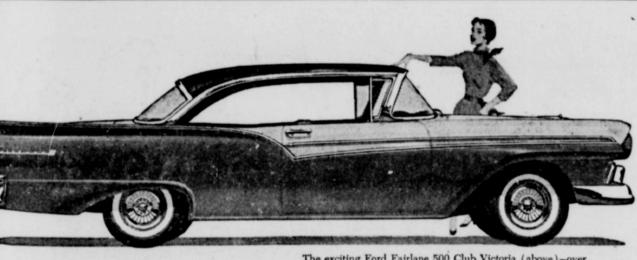

Prepare 1 package jello (Cherry to appear at 9 a. m. Monday in or Strawberry is a good color at Christmas) according to directions jury in the case of the State vs. on package. Let set. Whip 1 pint whipping cream and add to jello slayer of Verl Edger Parsons before jello is too firm. Add 1 cup south of town Oct. 21. Burks has chipped nuts, 2 bananas diced (to been held in the county jail since keep bananas from turning dark, being deniel bond by District sprinkle with lemon juice). 1 cup Judge G. C. Olsen since being small size marshmellow. Mix well and let set in ice box until ready

Ice Box Fruit Cake 30 marshmellows

1/2 cup evaporated milk 2 bottles candied cherries 2 bottles candied pinapples

box dates 1 cup walnuts

1 box graham crackers Heat milk and melt marshmellows. Pour all other ingredients into milk mixture and mix until

The exciting Ford Fairlane 500 Club Victoria (above)-over 17 feet long-is one of two new, bigger Ford sizes this year.

# If you think it looks new... wait till you drive it!

... For there's where Ford's newness really pays off ...in melting mountains...in smoothing the bumps ... in straightening the curves

You can see that Ford's longer, lower Sculptured Look makes other cars look downright old-fashioned. But the part you can't see-the new "Inner Ford"-is what shows its stuff when you drive a Ford. It's revolutionary from the wheels up! And it feels it.

Ford's wider frame lets you sit sweet and low. And Ford's new front suspension, rear springs and new easy handling are part of the scheme to make you think every road is cloud-smooth.

The magic touch of the new Ford power plants makes mountains disappear. What looks like uphill feels like downhill. You get this surging power in a wide choice of Silver Anniversary V-8 engines. Or choose Ford's Mileage Maker Six, the most powerful Six in the low-price field.

There's magic in Ford's price tag, too! You won't believe this big new Ford is still priced Ford-low. But it is. Come in and test its magic. It's a real "Wizard of Ah-h-h-h's!"
