#### A LETTER.

The following letter was received a few days ago by S. H. French from the Directors of the Abilene Fair:

ABILENE, TEXAS, Oct. 6, 1906. MR. S. H. FRENCH, BAIRD, TEX.

Dear Sir:—Our Fair Directors have concluded that owing to the fact that you have for the past two or three years won the premium on the agricultural exhibit at our Fair, that it is best that you do not make an exhibit this year, and have instructed me to advise you that your exhibit, should you make one, will be excluded from contesting for the prize. This of course does not exclude any other citizen of Callahan County from competing for premiums, but our management, owing to the above reasons, think it best to debate you from exhibiting this year.

[Signed] Yours very truly,  
B. A. Cox,  
Secretary.

#### A CARD—GOOD-BY.

If the big-hearted editor of THE BAIRD STAR will permit me I wish to say a few words of farewell to my old friends in Baird. In the eighteen years that I have lived in Baird I have made some friends (possibly some enemies) and it touches my feeling to leave Baird, it is like a son leaving a father. Baird has been a father to me and I have tried to prove myself worthy and qualified for any issue you have asked me to meet, and feel that I have made an effort, weak though it may have been, to do my best, and in this way want to thank my friends for their kindness and for the pleasant relations we have had, and above all I want to so live and do unto my fellow men as I would have them do unto me. I leave Baird knowing that it has been a blessing for me to

know these people, and in the great beyond and unknown world may we meet again and renew our friendship.

Respectfully,  
W. G. BOWLES.

Can you win? You realize that to win in anything these days, requires strength, with mind and body in tune. A man or woman with disordered digestive organs is not in shape for a day's work, or a day's play. How can they expect to win? Kodol for dyspepsia contains the digestive juices of a healthy stomach and will put your stomach in shape to perform its important function of supplying the body and brain with strength building blood. Digests what you eat, relieves Indigestion, Dyspepsia, Sour Stomach, Palpitation of the Heart and Constipation. Sold by R. Phillips.

#### Danger From The Plague.

There's grave danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo. Walls, of Forest City, Me., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them. It prevents Pneumonia, cures La-Grippe, gives wonderful relief in Asthma and Hay Fever, and makes weak lungs strong enough to ward off Consumption, Coughs and Colds. 50c and \$1.00. Guaranteed by Powell & Powell's drug store. Trial bottle free."

upon sworn testimony that it was not a trust. He said that while Attorney General M. M. Crane compromised with the Southern Pacific Railway company, which he termed a trust, for \$25,000, "when the matter should have been prosecuted to the end in the interest of the state." Mr. Bailey said he talked with the late Hon. T. S. Smith, the attorney general, about permitting the Waters-Pierce Oil company re-enter Texas. Hon. Travis Dashiell of Lion county, who was in the audience, rose and said: "I was in the attorney general's office at the time, and overheard the general conversation, and it was no secret." This announcement was so heartily cheered that it was some time before the senator could proceed.

Mr. Bailey said he had exerted no political or personal influence at Austin relative to assisting the Waters-Pierce Oil company resume business in Texas.

The speaker said he strong championed the denatured alcohol bill, which passed the senate, it being in direct opposition to the interests of the Standard Oil company. "I say with all due respect to modesty," said Mr. Bailey, "that the corporations would rather drive me from the senate than any other man." He said that Coke and Maxey owned stock in national banks. Mr. Bailey also reiterated former statements as to the Gibbs ranch purchase.

Mr. Bailey said he drew up the rate bill amendment prohibiting the Kirby Lumber company to haul lumber on a railroad it owns stock in, or the Tennessee Railroad company hauling coal from its own mines, or the Standard Oil company from transporting its own output.

He severely criticized President Ring and Secretary Robertson of the Good Government club of Houston.

The senator was wildly cheered when he concluded his remarks, the applause lasting some time.

In his rejoinder Mr. Crane said Mr. Bailey had not answered the question of whether it was safe public policy for senators and congressmen to be in the employ of corporations. He said Mr. Ring had been the late Gov. Hogg's law partner. Great applause followed Mr. Crane's close.

**THOMAS TO BAILEY.**  
**Asks Him to Release Legislators From Their Primary Instructions.**  
 Waco, Oct. 8.—In an open letter to Senator Bailey Hon. Cullen F. Thomas, who was attorney general at the time of the Waters-Pierce Oil company court matters, urges the senator to release the legislators from their instructions and go before the people again. Mr. Thomas says that he is convinced that Mr. Bailey should no longer hold a seat in the United States senate. He reviews the Waters-Pierce litigation.

**SHOT HIMSELF IN NECK.**  
**One Side Torn Off by Load Entering the Windpipe.**  
 Hillsboro, Tex., Oct. 6.—William D. Duncan of Massey, sixteen miles southeast of here, one of the best known and most prosperous farmers of this county, committed suicide by shooting himself in the neck with a shotgun at his gin near his residence. He had suffered considerably the past year with stomach trouble. No other cause for the act is known. The charge from the gun entered the right side of the windpipe and tore all of one side of the neck off. He had lived in this county thirty years. He leaves a widow and five children.

**CUTS HIS THROAT.**  
**Prominent Citizen of Austin Dies Within a Few Hours.**  
 Austin, Oct. 6.—H. L. Spain, aged sixty-five years, cut his throat at his residence in this city. The rash act was committed with a razor, from the effects of which he died within a few hours. The family were at supper at the time and he was in his room. He was at one time chief clerk in the secretary of state's department, under the administration of Governor Ross, and was well known throughout the state. He was also a Confederate veteran.

**SHOWMAN SLAIN.**  
**Pole Boss of Company Shot in the Head and Stomach.**  
 Wichita Falls, Tex., Oct. 5.—Tom Fritz, tent pole boss with Campbell Bros' show, was shot twice and killed. Two other employes of the show state that a stranger stepped up to Fritz in the rear of the big tent, and that there was an altercation of words, and that Fritz pushed the stranger off and ordered him to go to the front entrance, and that the stranger turned and fired two shots, both taking effect, one through the heart and one in the stomach. Fritz's home was in Memphis, Tenn.

**LETTER TO DAVIDSON.**  
**Hawkins Assumes Responsibility of Giving it Out.**  
 Austin, Oct. 9.—Assistant Attorney General Hawkins made the following statement:  
 Several daily newspapers in the state have requested me to give out circulation a letter from Senator Davidson to the attorney general concerning the suit of the state against the Standard Oil company.

"The letter was addressed to Mr. Davidson, as attorney general, but was marked 'personal.' Now Senator Bailey is reported by the daily press as having stated in his speech at Houston last Saturday night that he had written a letter, and that it could be found in the attorney general's office and something as to its contents. I understand the statement of the senator as offending the fact that his letter was marked 'personal,' and I assume he will not object to the publication of his letter to Attorney General Davidson, and the latter's reply. The attorney general left Austin last Saturday night to go to Washington to argue a case in the supreme court, and is now out of the state. I accept the responsibility of complying with the request of the press that the correspondence be made public."

**Senator Bailey's Letter.**  
 (Personal.) Gainesville, Tex., Oct. 3, 1906.—Hon. R. V. Davidson, Attorney General of Texas, Austin, Tex.: As my intimate friends have known from the beginning of the controversy I have intended to offer my services to the state to assist in the prosecution of the Waters-Pierce Oil company and the Standard Oil company in the event should ouster proceedings be instituted.

In view of the fact, however, that you filed the suit simultaneously with the attack which my enemies in and out of the state have planned against me, and in view of certain allegations upon my petition, both myself and my friends are constrained to believe that it would not be agreeable to you, or to me, for us to be associated in the conduct of the case.

The fact that the suit was filed at the time when my political enemies were renewing with especial vigor their assaults upon me, might have been a mere coincidence, and not the result of any understanding between you and them; but the allegations which both I and my friends are compelled to consider an attempt to aid my enemies could hardly have been other than the result of a deliberate purpose. It had no place in the pleadings, and could not have been incorporated except for some reason outside of the case.

But while these considerations properly restrain from tendering to the state, to you, my legal services in the prosecution of the case against the Waters-Pierce Oil company and the Standard Oil company, they do not absolve me from my duty to give to the state the benefit of all I know in respect to the Waters-Pierce Oil company and its readmission to the state.

I do not know anything about the re-incorporation of that company, but I do know something about the representation which it made as to its independence of all trust relations, and I shall be glad to come at any time, and at my own expense, testify in the state's behalf. Very respectfully,  
 J. W. BAILEY.

**Attorney General's Reply.**  
 Attorney General Davidson's reply follows:  
 Austin, Oct. 6.—Hon. J. W. Bailey, United States Senator, Gainesville, Tex.: Sir—In answer to your letter of Oct. 3 you are advised that the Waters-Pierce Oil company suit was instituted without reference to any political effects, or without consideration of the consequences to any person in this state. It was filed for the sole purpose of vindicating an outraged law and punishing a palpable fraud.

We have been engaged for months collecting the necessary testimony upon which to base this action, and the suit was filed as soon as we had sufficient evidence in legal form.

You failed to point out the particular allegation in the petition to which you except. Had you done so I would probably have been in a position to point out its materiality.

I expect to prove every allegation made; and in my judgment each and every one is material and relevant to the case which the state expects to present to the court.

I specifically deny that any allegation was made having in view any political consequence or to aid a movement of any character.

The question of tendering your services to the state to aid in the prosecution is one which you must settle according to your own inclinations. If you entertained such a purpose it was never communicated to me, although you had frequent opportunity to do so, and the ground upon which you predicate your actions in refraining from so doing are based upon a construction for which you alone must accept the responsibility.

As stated, the sole purpose of this suit is to drive from the borders of this state a foreign corporation which has for twenty-five years preyed upon the people and consumed their substance, which corporation, when outlawed by a judgment of the highest court of the land, was readmitted into the state by fraud, which for premeditated audacity and utter contempt of law, has never before, nor since, been equalled in the history of this country.

I have resisted every effort made to draw this case into politics, as the interests of the state are paramount to the political fortunes of any person.

Therefore I trust that it will not become necessary for me to take any part in this agitation.

Referring to your proposal to testify in the case concerning the representation which the defendant made to you claiming its independence of all trust regulations, I beg to advise that if your testimony should be limited to that issue I do not believe that it will be of any material value in the state's case, as I understand that the defendant will not deny its claim to be independent. Very respectfully,  
 R. V. DAVIDSON,  
 Attorney General.

**DIZZINESS.**

**Various Causes That Bring About an Attack of Vertigo.**

Dizziness, or vertigo—scientific writers sometimes try to distinguish in sense between these two words, but practically, in popular usage, they mean the same thing—is a disturbance of relation to the outside world, a loss of the sense of equilibrium. The sensation persists even when the eyes are closed. There is more or less inability to walk straight or even to stand still, and often there is nausea, followed by vomiting.

Vertigo is due to a disturbance, either actual or reflex, of the nervous "center of equilibrium" in the back part of the brain or in the semicircular canals in the ear, in which the terminations of the nerves coming from the center of equilibrium are distributed. For the most part, vertigo is a reflex trouble due to some impression which gets shunted off its own route, as it were, through nerve fibers connecting with the equilibrium center and acts upon the semicircular canals of the ear. Thus it is that dizziness is a comparatively trivial affection, as a rule—disagreeable enough, but brief and of no great significance except as a symptom of trouble elsewhere in the body.

Persistently recurring, transient dizziness is often due to eye strain—that is to say, to errors in the formation of the eye not corrected by proper glasses. Wearers of spectacles can frequently tell when a change in the eyes has occurred, necessitating a corresponding change in the glasses, by the coming back of these attacks of giddiness, especially when the gaze is suddenly moved from a near object to a remote one or the reverse.

Vertigo is a common symptom of disorders of digestion seated either in the stomach or the intestine. The treatment for this form is, of course, to treat the indigestion or constipation.

Another more serious variety of dizziness depends upon disease of the heart or of the blood vessels, especially those of the brain.

Any disease of the ear is apt to be associated with more or less vertigo. The same is true of tumor or other disease of the brain, especially of the cerebellum, that part of the brain in which the center of equilibrium is situated.

The dizziness of seasickness, as well as that of swinging or of rapidly turning about, is thought to be caused by an irritation of the nerves in the semicircular canals by the striking against them of the fluid in these canals.—Youth's Companion.

**SOME FIRST OCCASIONS.**

The first canal was made in England when Henry I. joined the Trent to the Witham, in 1134.

Quill pens came into use in 553; the first steel ones in 1820, when the first gross of them sold for \$36.

The first pocket handkerchiefs, utilized in the manner they are today, were manufactured at Paisley in 1743.

From the press of the celebrated Wynken de Worde the first book containing musical characters was issued in 1495.

The first coins were struck in brass about 1184 B. C. and in gold and silver by Pheldon, tyrant of Argos, about 862 B. C.

About 70 A. D. the first glass bottle was made by the Romans, although the manufacture was not taken up in England until 1558.

Movable scenery was first used in theaters in 1508. It was invented by Baldassare Peruzzi and displayed in Rome before Leo X.

Pliny's "Natural History" may be regarded as the first encyclopedia, since it contained 30,000 facts compiled from 2,000 books by 100 authors.

**The Fates.**

Fable teaches that the fates were three goddesses, holding, one a spindle, another a distaff and the third a pair of shears. They spun the thread of human life, then cut it off, and men's destiny was either happy or unhappy according to the texture of the wool employed by these inexorable deities. Might it not be said that here below we play more or less the part of the fates? It is we who, in some degree, mold our own destinies.—Pittsburg Press.

Is Taylor County afraid of old man French because he takes all the premiums on farm exhibits?

We have met the enemy and the enemy has the wampum. Let us have peace.

We should get a move on us about that school building. Delays are dangerous and we should get the bonds issued and approved on this year's assessment if possible.

After prohibition goes into effect wonder if the New Era will still refrain from mentioning new buildings, or any improvements, as heretofore, or will it tell how Baird is growing under prohibition?

The only way for Taylor County to stand any show against Callahan County was to exclude the only man who would likely exhibit hence they barred out S. H. French who has perhaps done more to make the Abilene Fair a success than any ten men connected with the Fair.

S. H. French, living near Baird, has for twenty years taken an active interest in getting up exhibits for the West Texas Fair at Abilene, and occasionally at the Dallas State Fair. He undoubtedly has the finest exhibit of agricultural and horticultural products in Texas and takes first premiums wherever he goes, but he won't attend the Abilene Fair this year because the Fair Association has forbidden him to contest for any premium offered at the Fair. This is a confession that neither Taylor or any other county that patronizes the Fair can compete with French's Callahan County exhibit.

Twelve months from now we will know whether property has advanced 10 to 20 per cent and lands in the county 25 cts to \$1.00 per acre because the saloons are gone. THE STAR will do its level best to bring this about regardless of prohibition. The latter question is settled for two years, or at least we hope so, as we can see no use in continuing the agitation. Let us get together and help build up the county. Unless we can do this we are doing nothing. On some occasions, sometimes hold back with two or three men can go forward. An enemy in a town can do the town much more damage than a dozen on the outside. Let us drop the past and move forward.

Callahan County and Baird especially, has always taken a great interest in S. H. French's exhibit at the Abilene Fair and the Dallas Fair. For several years he took the premium for the best agricultural and horticultural exhibit at the Abilene Fair. Last year he took forty-eight premiums at the Dallas State Fair. Abilene got jealous of Callahan county and the old man and the air directors of the West Texas Fair Association at Abilene passed a resolution excluding him from exhibiting at the Fair this year, though he was industriously preparing to set up the finest exhibit ever seen at the Fair.

THE ELECTION.

Callahan County has gone pro for the first time in its history. To say THE STAR is glad would be to say something that is not true. We regret it and did all we could to avoid this, but we do feel relieved because the long fight has ended we hope, for a time at least.

Outside towns and towns in adjoining counties have won and forced local option on Baird over the protest and a majority vote of her own people but that is the law and as such it is the duty of all good citizens to see that the law is fairly, honestly and rigidly enforced.

Much ill feeling has been engendered over the election, more of this in the country than we had supposed, but let by gons be by gones. The antis made one of the hardest fights in the history of the county and lost. They had the power to win had they all desired to do so, but they did not and there is no use kicking now.

The pros have won, and if no fraud has been practiced at the polls, and we do not believe there has, at least we hear of none, THE STAR is in favor of the law going into effect without any delay longer than necessary to take necessary steps to make it effective.

THE STAR made a clean, honest, hard fight against local option and has no apologies to make, in fact we are glad of it and would under similar conditions do it again, but now that the pros have won we want to see the law strictly enforced when it goes into effect not from spite or anything of that kind, but because a majority say they want the sale of liquor abolished in Callahan county and the law must be enforced. No boot legger, jointest or violator of the local option law high or low will ever receive any encouragement from THE STAR. It was to prevent such things that THE STAR preferred the open saloon, but a majority who voted at the polls if not a majority of the voters in the county say they want local option and it is the duty of every good citizen, anti as well as pro to help enforce the law. To fold ones hands and sit down and say, "I am perfectly contented because we have won" or "It is finished" is a delusion. This kind of sentiment may win local option election but it cannot enforce prohibitory laws, and the sooner all realize this the better. The way to enforce any law is to begin with the beginning.

Of course, in one sense it is not the business of THE STAR to enforce any law, but it is the duty of the press to uphold all laws, and THE STAR only wants to make it plain that it will not countenance any violation of the local option law, though strictly opposed to the principle of prohibition. We hope, at least Baird will not permit the law violated as it is done in some towns not far away, while such towns proclaim to the world that the law is strictly enforced there hundreds of people in this county know that local option is not enforced as it should be in some of the larger towns in adjoining counties, but we hope this will never be truthfully said of Baird.

We learn that the Baptist Church is considering the question of retaining Rev. Chas. A. Loveless as pastor. Bro. Loveless has served the Church here as pastor for some thing over a year and has made many warm friends in and out of the Church and THE STAR would rejoice with all his friends should the church see its way clearly to retain him as pastor. THE STAR admires big men, we mean not particularly large of physique, but big hearted and big brained men even though we may not agree with them in all things, and Brother Loveless in our opinion fills the bill in every respect. He is undoubtedly the most popular pastor with the congregation here, and generally that the Baptist Church has ever had here, and they are some splendid men here as well as the past and his friends know that he will likely

The West Texas Fair Association wants exhibits, all but old man French of Baird. The old man got up such fine exhibits that Taylor County and every other county that patronize the Fair were laid in the shade hence the old man was barred.

Hundreds of people from Callahan County have gone to the Abilene Fair every year more to see what Mr. French would have than anything else; but he won't be there this year. He has been forbidden to exhibit on the ground that he takes all the premiums.

It is claimed that denatured alcohol can be made out of Johnson grass. If this be true we see the finish of that patch of Johnson grass in the back yard of THE STAR office that we have been trying to exterminate for ten years. The grass still flourishes though coal oil, salt and fire have been used in a vain effort to exterminate the plague, but now we will turn it into fuel, sell the steam engine and buy a gasoline popper.

The antis lost and the pros won because they got the most votes. The antis have one consolation, it cost the pros a longer and harder struggle and more money to make Callahan pro than any county in Texas and even then they did not get a landslide as they expected. The total pro vote is exactly two fifths of the total vote, in County but this is immaterial they succeeded in getting out their voters better than the antis.

Senator Bailey is the democratic nominee and as such is entitled to the support of his party and will doubtless be reelected by the next legislature. The opposition waited too long; not a new charge against Senator Bailey has been made that was not known before the primary, and it is too late now to make the fight against him. The effort to get him to renounce his nomination and go before the people for vindication is toothin, and comes too late. THE STAR supported Chilton and still believes he was justly entitled to re-election, but that is passed and gone. Bailey is the nominee of his party and the fight against him now is unjustifiable upon any ground. Why did his enemies not go before the people before the primary and defeat him if possible? In the debate between Senator Bailey and M. M. Crane at Houston Mr. Crane said he accepted as true all of Senator Bailey's statements as to his dealing with the Waters-Pierce Oil Co. and other concerns, and the people knew of all this before the State primary. The fight comes too late and will avail nothing to Bailey's enemies.

The debate between Senator Bailey and former Attorney-General M. M. Crane at Houston Saturday was a notable event in Texas politics. It was a battle of giants and attracted one of the largest crowds ever seen in the state in attendance on a political debate. Gen. Crane made a splendid speech from his stand point, that a member of Congress cannot with propriety accept employment at the hands of corporations or individuals whose acts maybe subjects of national legislation. We doubt if any man in Texas could have made a better speech on this line; but the speech came too late to effect Senator Bailey's election. Senator Bailey never denied these things, and they were generally known before the primary. He admitted he had accepted employment as attorney for various corporations, but denied that such employment had in any wise influenced his actions in congress and Mr. Crane admitted this. He further said he would do this again and if the people did not want him to select some one else. This was said before the primary and the democrats, right or wrong, have endorsed him by nominating him. THE STAR is democratic though not of the hide-bound-brass collar sort, but when the party freely, honestly and fairly nominates a candidate, we are always willing to abide the result. That is the way THE STAR feels about it. We take no stock in the fight against Senator Bailey, but on the contrary we believe he is being unjustly assailed, and in a way that will greatly injure the party in coming years. THE STAR very much regrets to see this and so will others later perhaps.

"Uncle Josh Perkins" a rural play that appears at Baird on Tuesday night, Oct. 16 possesses much that cannot often be said in referring to productions bearing similar titles, its motive and plot being entirely different. In "Uncle Josh Perkins" the author has reversed the usual order of things and has furnished a story that does not hinge on a mortgage or a stolen deed. The play opens in New York City and closes on "Uncle Josh's" farm, up in Vermont in which the characters, it is said, get as close to nature as possible, making it unusually lifelike and realistic to the auditor. The company, it is declared, is way above the average and the specialties as strong as are presented in the best vaudeville houses in the country.

**FRAUDULENT RECEIPTS.**

Twenty-Two Hundred Poll Tax Certificates Alleged Illegal.

Austin, Oct. 8.—Judges Hudson of Pearl and Cobb of San Antonio were here Monday conferring with the attorney general's department regarding alleged illegal issuance of 2,200 poll tax receipts in Webb county. They allege that these poll tax receipts were illegally issued in Laredo to various names to supposed voters, and that these receipts were obtained through the instrumentality of three clubs, having for their object the voting of hundreds of Mexicans for the Republican nominee. Assistant Attorney General Pollard made an investigation of these conditions some time ago and it is understood his reports show fraud had been committed.

It is understood an injunction will be asked to prevent the county clerk from certifying to election officers the names of supposed voters on alleged illegal poll tax receipts. The state will likely join in the prosecution. Governor Lanham was presented with an engraved invitation by Colonel Peeler on behalf of Houston to attend the No-Tsu-Oh celebration on Nov. 12 Governor's day. He accepted the invitation.

The Confederate veterans' rate to the reunion at Dallas was settled by the railroad commission and an order will be issued putting excursion rates to Dallas from the reunion. The rate decided on by the commission is one fare for the round trip up to 130 miles, and after that 1 cent per mile, which will make the rate about \$6 instead of \$5. Three roads—the Katy, Fort Worth and Frisco—applied for this rate and the commission's order will make it apply on all roads.

**PICKERS FROM PRISON.**

Novel Method Indian Territory Man Availd Himself Of.

Fort Worth, Oct. 8.—It remained for A. T. Brown of near Muskogee to solve the scarcity of cotton pickers problem. Officers at the police headquarters were surprised when the Territory farmer called and made a staggering proposition to pay the fines of all prisoners in order to put them to picking his crop. Chief of Police Maddox at once snapped up the proposition and released the twenty prisoners, Brown paying \$200 in fines. Chief Maddox was glad to get rid of the prisoners, the prisoners were overjoyed to secure their freedom and the farmer rejoiced at procuring pickers.

**TORNADO**  
Doing  
**SHED**  
Maitland, Fifty Miles From  
New Orleans, There Were Four  
People Killed and a Num-  
ber Injured.

New Orleans, Oct. 6.—A tornado at 2 o'clock Friday morning passed diagonally across the residence portion of the city, tearing off roofs, tearing down fences and doing other damage. The tornado crossed the Mississippi river about Jena street, in the uptown district, and cut across to the rear of the Third ward, one side of which is bounded by Canal street. The air was filled with flying planks and other debris. Great excitement was caused in this district. The tornado crossed Canal street. It was preceded by a thunderstorm and rain. Along its whole path of three miles or more damage was done. Telephone and telegraph poles were prostrated and communication with many parts of the city rendered impossible. Debris strewn along its track put the Peters Avenue Street Railway company lines temporarily out of business. At Tolodano and Saratoga streets a market in process of construction was leveled. Five new residences in that neighborhood were razed. A negro in Douglas square was picked up bodily and blown away. Some damage was done to the gas-works, in the Third ward. Much damage was done the oil mill in the same neighborhood. A warehouse at Liberty and Poydras streets was blown down. A heavy iron car there was turned upside down.

Further reports of the tornado indicate that a number of homes in different parts of the city were blown down. At First and Magnolia streets a house was demolished and a woman and child severely hurt. A factory at Erato and Magnolia streets also was badly damaged.

A special from Hammond, La., on the Illinois Central railway, about fifty miles from New Orleans says that a tornado struck Pontchatoula, near there, Friday morning, killing four people, injuring a number and doing great property damage.

The Jai Alai skating rink, at Milan and Carondelet streets, was blown to pieces, and debris from it scattered in every direction.

There were at least three separate tornadoes in the vicinity of New Orleans, including that which struck that city. Verified loss of life from these disturbances up to noon Friday was one man killed.

A peculiar feature of the disturbance in this city was the fact that a few persons within half a mile of tornado's path knew there had been a storm

**APPEALS TO DEMOCRATS.**

Chairman Carden Urges That Bailey Matter Be Dropped.

Dallas, Oct. 5.—In an address to the Democrats of the state Hon. George A. Carden, chairman of the executive committee, urges that in view of the absence of any general endorsement by the Democrats of the state of the charges preferred against Senator J. W. Bailey further agitation be not indulged in, deeming it conducive to strife in the party's ranks. The chairman says the charges were fully known before the primary, that Senator Bailey was chosen without opposition and action of primaries was endorsed by the state convention. The Democrats are further reminded that for the first time in Texas a senatorial nomination was made in a general primary, and Mr. Carden says it would be peculiarly unfortunate if at this time any serious effort was made to disregard this nomination.

**GREEN DECLINES.**

Dr. Acheson, at His Suggestion, Chooses the Nominee.

Dallas, Oct. 5.—Hon. E. H. R. Green in a letter to the executive committee of the Reorganized Republicans, declined the nomination for governor, owing to his not having time to make speeches, and recommended that Dr. A. W. Acheson of Denison be chosen. The committee, at a meeting here, accepted Mr. Green's resignation and selected Dr. Acheson. The letter accepted.

**IN HARDY'S FAVOR.**

His Name Goes On Ticket as Democratic Nominee For Congress.

Corsicana, Oct. 5.—Judge Cobb, before whom was heard the injunction proceeding in the Mays-Hardy election over the Democratic congressional nomination, decided that District 3 Scout, who granted a temporary action for Richard Mays, had no action, and directed that the council in the congressional district ratify Hardy's name on the ticket at the ensuing election.

**Wounds, Bruises and Burns**

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by All

**Vitality A-plenty in Monastle Life.**

Oh, my friend, you may prate of wasted lives and idleness and the parasites of the church and all that sort of thing, but I fear it is little you know about the vital forces that are feeding and sustaining and strengthening it every hour of the four and twenty. If I could show you the letters that came to me from that friar in the south of Europe, letters bubbling over with health and happiness and the sweetest resignation, and then show you a photograph of a young man in tansie and cowl, with the calmest, clearest eyes that ever looked out from under a placid brow; if you could have felt of his knotted biceps and known the grasp of his small but powerful hand and heard the peal of his hearty laughter—for his spirit was bubbling over even there in his serene solitude—you would perhaps begin to understand why the monastic life, in spite of its tranquillity, never stagnates and why the more you contend against the spirit of the religious orders the more they live and thrive.—From "A Friar de Siecle Friar" in National Magazine.

**Weighing a Hair.**

"To number the hairs of your head is not a very difficult task," said the refiner of the assay office to a friend recently. "A very close approximation can be made by weighing the entire amount of hair on a man's head and then weighing a single hair. The weight of the former divided by that of the latter will, of course, give the desired number. If you will pluck out a hair from your beard I can show you." A long and straggling one was accordingly detached, the refiner putting it on a scale which was included in a glass case and graduated with extreme accuracy. With little weights of aluminum he piled up one arm until an equilibrium was reached. The hair weighed three kilograms. "If you reduce this to figures," said the speaker, "it would require 8,000 hairs to weigh one ounce, and, supposing you have six ounces, you have 48,000 hairs."—New York Herald.

**Picking Peanuts.**

The seeds of the peanut are planted like beans, and when the vines have come up and the nuts are ready for harvesting the farmer takes a cultivator especially made for that purpose and starts down the long rows. On either side of this cultivator are two long knives which sink into the ground sufficiently to cut the taproot of the vine. The same process is gone through with on the other side of the vine. The main root being thus severed and the ground loosened, the vines are lifted into shocks like corn. They are cured by allowing them to stand in the sun for about ten days, when a colored woman and children are sent into the field to pick the nuts from the vines. An average picker will pick about five bushels a day, for which he is paid at the rate of 10 cents a bushel.

**Material For 1,200 Eggs in a Man.**

German scientists announce that the material for a man weighing 150 pounds can be found in the whites and yolks of 1,200 hens' eggs. Reduced to a fluid, the average man would yield ninety-eight cubic meters of illuminating gas and hydrogen enough to fill a balloon capable of lifting 155 pounds. The normal human body has in it the iron needed to make seven large nails, the fat for fourteen pounds of candles, the carbon for sixty-four gross of crayons and phosphorus enough for 820,000 matches. Out of it can be obtained, besides, twenty teaspoons of salt, fifty lumps of sugar and forty-two liters of water.

**Leading Authority.**

"Mister," said the sad faced individual who had sneaked in the big skyscraper, "can I sell you the great 'Encyclopedia of Sporting Events?'" "Nope," replied the busy man. "We have one encyclopedia of sporting events already." "That so? Where do you keep it?" "Why, we try to keep him on that stool over there, addressing envelopes. I mean the office boy, and he is an encyclopedia on everything from a game of skiddoo to the Olympic games."—Chicago News.

Dear Sir: We shall feel obliged if you write us how you come-out on your first few jobs Devoe, as to gallons expected and used.

Take job A. You made your price, expecting to use 25 gallons Devoe, and used 15. Job B. You expected to use 15 and used 10. And tell us what paint you had used before. Of course, you judge Devoe by what you have used before.

Here's how a few came-out.

M. A. Thomas, painter, Lynchburg, Va., writes: My first job with Devoe, I estimated 37 gallons; it took 25. Since then I have used nothing else.

C. B. Edwards, Raleigh, N. C. had used 30 gallons paste paint on his house, and bought 30 gallons Devoe; A. G. Glenn, his painter, said it wouldn't be enough. Had 16 gallons left.

Major W. W. Carroll, Monticello, Florida, writes: Painter estimated 35 gallons for my house; took 20 gallons Devoe.

Gilmore & Davis Co., contractors and painters, Tallahassee, Florida, say 2 gallons Devoe spreads as far as 3 of any other paint they know, and covers better.

S. A. Bullard, painter, Sanford, Florida, estimated 50 gallons for Odd Fellows and Masonic Halls; they took 29 Devoe.

Jones & Rogers, Merkel, Texas, estimated 10 gallons Devoe for Mr. Pratt's house and bought 5 gallons for first coat; it painted two coats.

Erb-Springall Co., San Antonio, painted two houses same size for D. J. Woodward, one lead-and-oil, the other Devoe. Devoe cost \$12 less for paint and labor.

Tom Masey's painter, Walnut Springs, Texas, estimated for his house 10 gallons Devoe; he had 4 left.

You see how it goes. Even the best painters can't guess little enough at first.

Yours truly

"UNCLE JOSH" IS COMING.

"Uncle Josh Perkins" will un- doubtedly attract a large audience at Baird Opera House when it is pro- duced there Tuesday next as the piece has proved one of the most popular of all rural comedies that have been produced in recent years. While "Uncle Jose Perkins" has a most interestidg plot, the lines are well written, the characters well drawn, and the action natural and not forced. To add to the pro- duction, Frazee & Bay have equip- ped it with a complete scenic en- vironment while the company is made up of the very best metropolitan talent and includes a number of well known local favorites. Prices are within reach of all. Tuesday, Oct. 16.

"UNCLE JOSH PERKINS."

In presenting the celebrated comedy drama, "Uncle Josh Perkins" to the amusement loving public, it is un- necessary to make an elaborate in- troduction, free from offensive horse play and vulgarity, masquerading as wit, yet full of fun and delicate touched of pathos, the whole point- ing a healthy moral that makes one feel better for having seen it. "Uncle Josh Perkins" is a play of pastoral purity and intense interest introducing fourteen distinct and truthful types of character interper- ted by a superb company who unfold with artistic skill an American story of absorbing charm and compleha- tion. The engagement in this city is for one night only at Cooke's Opera House Tuesday Oct. 16.

"Uncle Josh Perkins," the big rural play, which is coming to Baird Opera House on Tuesday Oct. 16 is replete with smiles and thrills and is declared one of the most life-like dramatic offerings seen here in a long time, true to all the scenes it attempts to depict and with vivid types of characters, life-like and natural in presentation. "Uncle Josh" is noted a big success wherever seen. The four acts are equally divided between New York City and Vermont, the play centering about the efforts of a sharp New York attorney to marry Edith Marston, an heiress, for her money. How his plot is foiled by "Uncle Josh" and the happy termination, make a seeable play, which will doubtless attract a large audience to the Opera House. Splendid specialties will be presented during the various acts of the drama.
