It is no longer a secret that our system of government and the free enterprize of our expansive industries and businesses have been under attack for a number of years. Today the stresses and strains being placed upon us from without and within are more than ordinary people could withstand. So far the inborn patriotism of the ordinary American has carried us through and we are winning the battles. But our adversary is working to win the war.

He is bombarding us with all the

vile propaganda tricks he has gleaned from the dictators of History; and although his group is ums relatively small he has so organized it into a cohesive unit of blind obediance that it has the strength of ten. He is in fact a vicious zealot who will leave no stone unturned and will do anything, no matter how much contrary to public morals and good conscience, to gain we are up against. Confusion and chaos are his meat: witness western Europe. And look within our borders to see how we are unconsciously playing into his hands: |(12) 21. The 1947 edition of the Dimmitt Bobcat football team will open the season against the Springlake Wolverines on the local gridiron Friday evening at 8 o'clock in what promises to be one of the hardest

fought games of the season. Although the Bobcats are slightly the underdogs as far as the dope sheet goes, Coach Blaine expresses confidence that the boys will be out there scrapping and furthermore that it would not be an upset to him if the Cats come out on top.

It is much too early in the season to see which boys are going to be the standouts, but a few have shown plenty of scrap and hustle in the early season workouts. Linesmen Junior Fulfer and Harold Brannan shown well in the scrimmage with the Exes as did Rice and Howell from the secondary.

Due to the fact that Carl Jowell is not completly recovered from a tonsil operation and Jack Ziegler is favoring a bruised muscle in his right leg, the Bobcats will not be at full strength for Friday's game, but capable replacements will be in their places if they are not able to go.

Place Your Twine Order Now

YOUR order for binder twine, it placed now, will greatly help us to give you better service. Come in and tell us how much twine you will need. Figure your order on the number of acres you expect to harvest, estimating that it will take about 21 pounds of twine

This will enable us to get your order in to the Harvester Company early, and will protect you in case we should order short of the local demand.

Also, if we have the binder twine business settled early, we will be able to give you better and faster emergency machine repair service at the busy season if you need it in a hurry. Help yourself to better service by ordering your twine now!
