

THE CASTRO COUNTY NEWS

Official Publication of Castro County, Texas

VOLUME XXIV

Dimmitt, Castro County, Texas, Thursday, June 7, 1951

NUMBER 30

about dimmitt and castro county

by b. m. n.

We have some parts to a dress, sweater, or something here at the News Office that someone found. The parts are made of yellow material of some sort. In all there are three parts of the material which would be the right number for two cuffs and a collar, and they are possibly shaped right for those particular parts of a garment. However if they can be used for any other purpose we will gladly return them to their rightful owner.

—adacc—

The Play Ground Drive-Inn is the only business house in Dimmitt that doesn't sport a front door. The only way in, or out for that matter, is through the one rear (or back) door. We barged into the place during the final stages of construction and discovered that the owner, Gene Kenmore, was hanging a screen door on the rest room. When I mentioned the fact that it didn't furnish much privacy, Gene remarked that at least it was easy to tell whether the place was occupied or not.

—adacc—

Considerable interest has been shown in the proposition of the adoption of the optional County Road Law for Castro County. A number of citizens have been favorably impressed with the idea. The News, or the chamber of commerce, will make an effort to secure a statement from county officials of one or more counties, before next week, where the Optional Road Law has been enacted.

—adacc—

The Optional Road Law was first used in East Texas counties where lateral road maintenance is even a much greater problem than it is in this section. A program that would prove successful in that section, no doubt would be of great advantage in our area. The East Texas Chamber of Commerce has promoted the adoption of the Optional Road Law in its sphere of operation. An organization of that nature would not endorse a program that was not an improvement over the old method.

—adacc—

Any of our readers who have any information on the actual operation of the Optional Road Law are requested to give their views through the columns of the News.

—adacc—

If Lometa Odom and Sidney Killough will drop by the News Office they can recover their billfolds. The two billfolds were found by Mr. Woodrow Killingsworth and brought to the News Office. They are just like all other billfolds that this writer has anything to do with—they are empty, that is so far as money is concerned. However drivers license, etc., are still intact.

—adacc—

Devastating hails and rains have played havoc with crops and planting in some of the adjoining counties, but Castro county has, so far, escaped any damage along that line. According to the county agent some forty or fifty thousand acres of cotton has been planted in the county and much of it is already up or coming up. A large percent of the row-crop grains have also been planted. Following the fine rains, weather conditions have been ideal for planting of the various crops. Given a few days of dry, warm weather Castro County will blossom out in full dress of growing crops.

—adacc—

The great debate has just about worn itself, and everybody, out. It has proved a political boomerang to the ones that first clamored for the investigation, and it has succeeded in exposing our plans and potential strength to any would be enemy. However some good will result from all of the debating and testimony if it will again establish some confidence in our military or the part of the public. Proven patriots and men of high character have been humiliated and subjected to undue and unjust criticism, but if through their embarrassment and discomfort national unity can be strengthened they will, in a way, have rendered their country a service, even if it is a service that should not have had to be necessary in the first place.

—adacc—

The MacArthur episode has accomplished one purpose that was farthest from its instigators' (Continued On Back Page)

Roy Henderson Bailey Killed In Collision On Kilgore Highway Saturday Night

Funeral services were held at Taylor Wednesday for Roy Henderson Bailey, 18, son of Mrs. Artice Warren of Dimmitt and Mr. Roy Bailey of Austin. He was killed in a head-on collision Saturday night while returning to his home at Kilgore after attending a drive-in movie. Four people were killed in the wreck; young Bailey and a companion and two passengers in the other car.

All involved were badly burned when a gasoline tank exploded, but officers said all were dead before the explosion. Bailey had been working with a construction company in Kilgore prior to the accident. He was a popular student at Bartlett High School until his graduation last month. It was a graduation ring from that school which led to his identification by authorities after the explosion.

In addition to his father and mother, Roy Henderson Bailey is survived by his one brother, Robert, and two sisters; Mrs. C. W. Fudge of San Antonio, and Ruthie Dean Bailey of Dimmitt. He was a nephew of Mrs. Bryan Sinclair. Both Mr. and Mrs. Sinclair and their son, Billy Brooks, attended the funeral at Taylor. Interment was made in an Austin cemetery.

County Agent Warns Against Cotton Insects

The estimated 45,000 acres of cotton planned for Castro County this year is either up or will be up in a day or two if the weather conditions remain favorable.

The problems following that of getting the cotton up will be weeds and insect control. The weather conditions so far this year have been conducive to a heavy insect and weed infestation. Now is the time to combat the cotton insects and weeds, Mr. Ed McLeroy, County Agent, said.

Early season control of insects is being recommended for cotton insects and the time to start is when the cotton is in the four-leaf stage. In some cases it may be necessary to treat earlier to prevent loss of stand by aphids, thrips, and cut worms.

Mr. McLeroy also said this early season control insures early fruiting and early maturity which is very important when so much of the county is being planted to cotton. Generally, two to four applications made at 7 to 10 day intervals give effective control.

Regardless of the number of applications in the early season control, the last should be made at least 30 days before the bollworm usually appears, unless flea hopper infestations are extremely heavy. This period is desirable to allow time for beneficial insects to build up in sufficient number to give some protection against bollworms.

This early season control is more effective when protected on a community or county-wide basis. The larger the area treated, the greater the benefits. Sprays have given more effective and economical control of insects attacking young cotton than dusts. Because of the small size of the plant, a greater concentration of the insecticides is obtained from a spray.

If late season control of insects is used then the cotton grown must depend on the amount of insect infestation that he has in his cotton. He must learn to make accurate insect counts at the proper time if he is to use poison most profitably. In this area the flea hopper, bollworm, and leafworm will give the most trouble in late season control. The flea hopper will probably be present from time cotton starts putting on squares until it starts blooming. The leafworm and bollworm infestation will be governed a great deal by the weather conditions.

Several meetings dealing with the control of cotton insects will be held this summer. Pamphlets on the control of these insects may be secured at the county agent's office.

Mr. and Mrs. Robert Sanders and baby daughter, Pamela, of Elk City, Okla., spent the weekend with Mrs. W. O. Lawrence.

Bill Stephenson, student at Wayland College, Plainview, visited friends and relatives in Dimmitt over the week-end.

Archie Beavers Loses Right Leg As Result of Injury

Nine months after being involved in an automobile accident, Archie Beavers of Lazbuddy had his right leg removed at Northwest Texas Hospital in Amarillo Wednesday. Efforts to save his leg had proved futile, with the doctors finally giving up. He is not expected to walk for another two years.

Mr. Beavers is reported to have suffered few ill effects from the operation and is doing as well as can be expected. He is the son of Mr. and Mrs. R. L. Beavers of Dimmitt.

Dimmitt High School Graduates Complete Trip Through Colorado

A group of 23 graduates of Dimmitt High School arrived in Dimmitt by chartered bus Friday morning after an eight-day trip through New Mexico and Colorado.

The class left at 6:00 a. m. Thursday, May 31 and arrived in Colorado Springs at 5:00 that afternoon, where they remained Thursday night, Friday, and Friday night. Thursday night found them at the Broadmoor Ice Palace, where they tried their luck at ice skating. They were joined at the Ice Palace by the Springlake seniors, who had just completed several days at the Flying Lazy H Ranch at Mesa, Colorado.

The group left Friday morning from the McLaughlin Courts in Manitou Springs (suburb of Colorado Springs), on a 60-mile guided tour to the top of Pikes Peak, the highest mountain in the United States the top of which can be reached by automobile. The remainder of the afternoon was spent visiting scenic points around Manitou, which included Seven Falls and the Garden of the Gods. Several of the group spent part of the afternoon swimming at the Broadmoor Hotel indoor pool.

The Dimmitt seniors met two other Texas school graduating classes while staying in Manitou. These were from Meadow and Panhandle, Sudan was also in Colorado Springs, but they were not seen by the Dimmitt seniors.

The tourists left Manitou on Saturday morning for the Flying Lazy H Ranch. En route they visited the Colorado State Prison, where they were guided over the prison grounds. The seniors also stopped at the Royal Gorge, world's highest bridge, suspended 1,050 feet above the Arkansas river.

The Dimmittites arrived at the Flying Lazy H Ranch, between Grand Junction and Mesa, at 9:00 Saturday night. They were greeted by Cliff and Sally Koberstein, owners of the ranch. The seniors spent four fun-packed days on the ranch horseback riding, fishing, hiking, singing, games, and "dude-ing".

The four-day stay at the ranch was topped off with a square dance Wednesday night, which was taken part in by the Dimmitt graduating class and members of the Mesa and Coleburn square dance clubs which were originated by Mr. and Mrs. Koberstein.

The group left the ranch on Thursday morning for the 700-mile trip home. En route they went over what is termed as the most rugged string of mountains in the Rockies Range, on which a paved road is impossible. The class went through Leadville, Silverton, Durango, and other old mining towns while going through this mountain range.

The trip-worn seniors arrived in Dimmitt at 6:00 a. m. Friday after a trip which will long be remembered by the class of '51.

Seniors enjoying the trip were Charlyne Campbell, Mary Delozier, Fayrene Greathouse, Peggy Messenger, Dona Robertson, Bobbie Wooten, Maurine Smithson, Pat Youts, Merle Leasure, D. L. Wright, Gene Easley, Jimmy Cluck, David Behrends, Jim Jowell, Carl Bruegel, Lee Roy Harrogate, Jack Dyer, Forrest Ricketts, Don Nelson, Carl Henderson, John Axe, and Bill Murphy. Sponsors were Mr. and Mrs. J. E. White and Miss Martha Norman and Mr. Bob Madgling of Lubbock was driver of the TNM&O charter bus.

Jack F. Kirk Gets Degree From A & M

Jack F. Kirk of Dimmitt received his doctor of veterinary medicine degree at Texas Agriculture and Mechanical College on Friday, June 1 at College Station.

Baccalaureate degrees were awarded the graduating seniors by the schools of agriculture, arts and sciences, engineering and veterinary medicine.

Chancellor James P. Hart of the University of Texas was commencement speaker. G. R. White of Brady, president of the board of directors of A&M gave the diplomas.

Rev. and Mrs. T. Marvin McBrayer of Happy visited in the B. M. Nelson home Sunday afternoon.

R. E. Hendrix returned home Tuesday from a business trip to Austin.

Maurine Smithson To Play Basketball At Wayland College

Maurine Smithson, outstanding Dimmitt girl athlete, has completed tryouts for the Wayland College girls' basketball team at Plainview and was awarded a full athletic scholarship. She recently completed the spring tryouts, Hank Garland, girls' basketball coach at Wayland said.

Miss Smithson made sports history this year as a guard for Dimmitt when she was selected all-time all state guard at the state tournament in Waco. During the basketball season just past, she won all-tournament in every tournament she entered, in addition to being selected all-district guard. In the 1949-50 season she was selected both all-district and all-state.

In addition to these honors on the basketball court she was voted best all-around girl and basketball queen in Dimmitt High School this year.

When she goes to Wayland, Miss Smithson will be playing with a former team mate, Miss Pat Tate, who graduated from Dimmitt High School in 1950, is now a member of the Wayland Flying Queens and is touring South America with a group of all-stars, playing exhibition games in several countries.

In the Inter-State Championship game with Harrell, Iowa at Des Moines, Miss Smithson finished her basketball career at Dimmitt.

Mr. and Mrs. M. A. Kelly and family are visiting relatives in Dallas.

4-H Teams Will Compete in Tech Contest Saturday

Four 4-H judging teams from Castro County will compete in the Tri-District Elimination Judging Contest that is to be held Saturday, June 9 at Texas Tech in Lubbock. Some fifty counties will be represented and the first and second place teams from each district will be eligible to participate in the state contest to be held at Texas A&M College June 25, said Mr. Ed McLeroy, County Agricultural Agent.

Teams entered from Castro County will include poultry, livestock, dairy cattle and crops. Boys composing the various teams are as follows: Poultry, Jimmy Brock, David Adams, and Mickey Brock.

Livestock; John Bridges, Joe Percy Hart, Trumar Swopes, and Kenneth Hill. Dairy Cattle; Dennis Huseman, David Honea, Jack Acker, and Bryce Dowell. Crops; Bob Anthony, Dale Sadler, and Joe Nelson.

The boys working on the poultry team have learned to candle and grade eggs, grade dressed and live poultry, judge best production of laying hens and how to cull the laying flock. This is valuable information to any person working with poultry.

The "crops" boys have learned to judge cotton for length and uniformity of staple and for softness or hardness of fiber. They have also learned how to judge corn, grain sorghum in the head and thresher, wheat, oats, peanuts, cowpeas, alfalfa hay and prairie hay. They have learned to identify the many noxious weed seeds that are detrimental to our farming operation such as the bindweed, Johnson grass, lambs how to judge beef breeding animals, and Russian thistle.

The livestock boys are learning how to judge beef breeding animals, medium and fine wool ewes, quarters, blue weeds, pig weeds, and barrows.

The dairy cattle boys are learning how to select and judge the various breeds of dairy cattle. Through these contests the boys are trained to make decisions to prepare them for later farm life.

Mr. and Mrs. Norman Cleavinger and daughters, Miss Lois Cleavinger and Mrs. G. P. Dyer, are making a tour of the Eastern states including visits at Washington, D. C., Chicago, and New York City. They are also visiting their sons and brothers, Jim Cleavinger at Ft. Belvoir, Va., and Orville Cleavinger at the Great Lakes Naval Training Station.

Mrs. J. B. Fulfer underwent major surgery at a Pampa Hospital Tuesday. Her condition was satisfactory at last report.

Mr. and Mrs. Ray Bearden attended funeral services for a friend at Paducah Monday.

Swimming Pool Opened on Friday For Another Season

Dimmitt Swimming Pool opened last Friday and has continued to have large crowds of children and some adults, according to Aubrey Lester, assistant athletic coach and director of the pool for the summer.

In its fifth year of operation, the pool has served the aquatic-minded younger citizens of Dimmitt well. The pool will remain open until cold weather again sets in.

Prices per swim session are 25 cents for children and 50 cents for adults. Opening time on week days is 1:30 a'clock with closing time set at 7:30. Sunday afternoons: open 1, close 6. Season tickets are available again this year with children under twelve charged \$3 for the tickets, 13 to 17 years, \$5, and 17 and above, \$10.

Double Marriage Unites Couples At Greenwood, Ark.

A double-wedding with double-ring ceremonies united Bob Powell and Miss Genevieve Amos and Johnny Bagwell and Miss Norma Jean Amos, Saturday, May 26 at 1:30 p.m. in Greenwood, Arkansas, with Rev. J. J. Clark officiating. Both girls are the daughters of Mr. and Mrs. Earl Amos of Greenwood.

Mrs. John Bagwell served as bridesmaid to Mr. Powell with Mr. John Bagwell acting as Mr. Powell's best man. Anna Lee Martin and Toy Elmore of Greenwood served as Mrs. Bagwell's bridesmaid and Mr. Bagwell's best man respectively.

Both brides wore white street length dresses with red carnation corsages. Attendants at the marriage were Mr. and Mrs. W. A. Powell of Summerfield, Mr. and Mrs. Amos and Mr. and Mrs. John Bagwell of Dimmitt.

Both couples plan to make their homes in Dimmitt.

New Hope For Curbing Wars

Hope for curbing wars is to be found in a report issued by the Foundation for the Study of Cycles, at Riverside, Conn. Since 1800, there has been a 22-year cycle in the number of international battles, as shown in this simplified chart, smoothed out to omit minor ups and downs. There is a tendency for about 11 years of relative peace, followed by 11 years of relative conflict.

Scientists are trying to learn the causes behind these war and peace cycles, with the idea that, once we know more about the causes, we can do a great deal more about controlling them.

One clue may be found in the fact that huge spots form on the sun at intervals of about 11 years. These spots alternate in a positive 11-year period, people seem to be more optimistic and able to work out their problems in a more statesmanlike manner. At the opposite or negative end of the cycle they appear more excitable and quick to anger, and wars develop in such an atmosphere.

A deeper knowledge of the regular patterns of international wars in the past should help guide us in making greater efforts to avoid conflict when tension is at a high pitch. By being more cautious, self-restrained, and statesmanlike in periods of greatest danger we can lessen the chance of war.

The Foundation warns, however, that we should keep our defenses adequate so that we will be prepared against surprise attacks by aggressors. In the meantime it is hoped that scientific study will result in finding basic answers to the problem of how to curb wars.

Nine County Boys Receive Sears Pigs Here Saturday

Approximately forty persons gathered at the Fair Grounds Saturday morning, June 21, to witness the distribution of the 1951 Sears-Roebuck Foundation gilts.

Before receiving the Chester White gilts the boys were given instructions on feeding their animals, how to build sheds and use irrigation sand to keep their animals cool rather than use hog wallows and how to control external and internal parasites.

The boys receiving the gilts were Jerome Hason, George Husemar, Ronald Hoelting, Billy Gallion, Jack Bradley, Howard Smithson, Jimmy Brock, and Boyce Wayne Tate. Tom Acker will receive the Chester White boar in the near future.

NOTICE TO NOTARY PUBLIC:

All old Notary Public who would like to continue your office please bring in your bond for approval not later than June 10th. This is your final notice under present appointment.

Mrs. Ola Murphy,
County Clerk, Castro County,
Texas.

Classroom Foundations Completed on New Grade School Bldg.

According to workmen of Gilstrap Construction Company, the new Grade School Building foundations for classrooms has just been completed. The gymnasium foundation is still under construction. The new building will be located directly west of the High School building.

Rev. Frank Bounds Will Preach At Baptist Church Sun.

Rev. Frank Bounds will preach the morning and evening services Sunday at the First Baptist Church in Dimmitt. The services will be at 11 a.m. and 8:30 p.m. Rev. Bounds is student secretary of Religious Activities at Wayland College.

Mr. and Mrs. Bounds will leave in July for Italy where he will assume his duties as Baptist missionary.

Baby Boy Born Tuesday To Mr. and Mrs. J. O. Seale

Mr. and Mrs. J. O. Seale are announcing the arrival of a son, born at 4 o'clock Tuesday morning at the Plains Memorial Hospital. The boy, weighing 9 pounds and 4 ounces is named Jerald Orris Seale, Jr.

Mr. and Mrs. P. C. Martin and son, Rog, of San Antonio have been guests of Mr. and Mrs. Roy Jones this week. Mrs. Martin is the sister of Mrs. Jones.

Sarah Beth Simpson of Leveland has been here this week for a visit with her cousin, Kay Bearden.

No Injuries From Highway Accident On Tulia Highway

A highway accident occurred east of Dimmitt on the Tulia highway Friday afternoon when a 1950 model Lincoln driven by Verron Andrews of Tulia collided with a Chevrolet truck driven by Boyce Burr of Dimmitt when Mr. Burr attempted to turn off the highway into the A. J. Kemp farm. Mr. Andrews was about to pass the truck when it began a left turn. Seeing the car behind him, Mr. Burr tried to get back into the right-hand lane but was too late. Neither party was injured but heavy property damage was suffered by both car and truck when they rolled together into a roadside ditch.

Dairy Cattle May Be Tested For Bangs

A number of farmers in the past few weeks have expressed a desire to secure the services of a veterinarian to test their dairy herds for bangs, said County Agent Ed McLeroy. If all persons interested in having their dairy cattle tested for bangs will leave their name and number of animals to be tested with the County Agent a state or local veterinarian will be secured as soon as possible to do the testing.

BETHEL NEWS

Mr. and Mrs. Morgan Dennis were visitors of Mr. and Mrs. Harry Rothwell Sunday afternoon.

Carolyn Bagwell was one of the four who left Sunday morning to attend the Northwest Texas Conference Youth Assembly at McMurry College in Abilene this week.

Mr. and Mrs. R. M. Warren, Weldon, and Mr. and Mrs. Bobby Warren attended the wedding of Miss Barbara Warren and Mr. Carl Hogue at Levelland Sunday afternoon. Barbara is a niece of Mr. Warren. They will make their home in Brownfield.

Mr. Oliver Leverton of Spearman, who is here seeing after farming interests, spent Saturday night and Sunday with his aunt and uncle, Mr. and Mrs. Ira Brown.

Mrs. Ira Brown returned home Tuesday after spending several

weeks with her daughter, Mrs. Helen Cerrera and family of Shula Vista, Calif.

Mr. and Mrs. Roger Garrison and Perry Lee Garrison spent Wednesday night with Mr. and Mrs. Harry Rothwell. They had spent the past ten days in Childress visiting relatives and were on their way home to Los Angeles California.

Mrs. Bobby Warren called on Mrs. Guy Cox, Jr. Thursday afternoon.

Mr. and Mrs. Moss Howell were visitors of Mr. and Mrs. Ira Brown Sunday afternoon.

Mr. and Mrs. Creitz Lorin and children, Terrie and Madeline of Adrian were Sunday guests of Mr. and Mrs. J. C. Williams.

Mr. and Mrs. Ivor Bagwell and children visited their parents and grandparents Mr. R. M. Dunn and Mr. and Mrs. J. A. Bagwell Sunday afternoon.

Mr. A. H. Gregory, who has been here for several weeks visiting his daughter, Mrs. Vernon Williams and family, returned to

his home in Los Angeles, Calif. Mrs. George Bagwell, Carolyn and Sue were visiting and shopping in Amarillo Friday.

Mr. and Mrs. Loy Stone and Nancy Stewart were Sunday dinner guests of Mr. and Mrs. Vern Lust and Glenn. Mr. and Mrs. Glenn Stiler of Big Spring were afternoon callers.

Mr. and Mrs. Kay Roberts were Sunday afternoon callers of Mr. and Mrs. Horace Morgan.

Mr. and Mrs. Bill Cathy and Lozetta were Sunday visitors of their son and brother, Leon Cathy and family of Plainview. Lozetta remained for a weeks visit.

Our college students who have been returning home for the summer are Lloyd Earl Lust and Fred Bruegel, Jr. of Texas Tech; Elzada Faye Smith of Wayland; and Mary Givan of Texas University. Lloyd will attend summer school. He was accompanied to Lubbock by his parents, Mr. and Mrs. Earl Lust and Mr. and Mrs. Roy Haber.

Mr. and Mrs. George Bagwell and Sue were Sunday dinner guests of Mr. and Mrs. Kay Roberts.

Sue Bagwell was one of the five Juniors leaving Dimmitt Monday morning for a week of Assembly at Ceta Glen Canyon.

Mr. and Mrs. Bobby Warren and Mrs. Harry Rothwell were in Lubbock Monday. Bobby will stay and return later in the week for a State executive committee meeting of the F.F.A.

Maxie and Belya Jean Warren with Mr. and Mrs. Emmitt Sheek and boys and a number of other friends are spending several days in Louisiana fishing.

Annette Rawls of Levelland spent Sunday night and Monday with Mr. and Mrs. Bobby Warren.

3 cups hot green beans
2 beaten egg yolks
¾ cup milk, scalded
2 tablespoons lemon juice or vinegar

Mix mustard, flour, and salt in double boiler; add egg yolks; beat well. Slowly add hot milk; cook until thick, add lemon juice. Pour over green beans. Serves 6.

Complete Menu

Paprika Potatoes Green Beans with Hot Mustard Sauce
Head Lettuce with French Dressing
Parker House Rolls
Apricot Whip
Coffee or Iced Tea

Amarillo Center To Have Open House 3 to 5 p. m. Sunday

Amarillo Cerebral Palsy Treatment Center has extended an invitation to all Dimmitt residents to attend their open house Sunday June 10, from 3 to 5 o'clock. The Center, celebrating its second anniversary, is located at 2108 Taylor Street in Amarillo.

In its two years of operation 165 children from 46 towns in Texas, Oklahoma, and New Mexico have been referred to the Center for treatment. Mrs. James McKnight, chairman of the board of directors announced. She also said that children from Dimmitt were treated.

Cerebral Palsy has crippled more children than polio, and has been diagnosed so recently that only one in four victims are receiving treatment. Purpose of the open house is to acquaint more people with the Center's facilities and in this way make apparent that treatment is available. Mrs. McKnight said that 190,000 people in the United States are afflicted with the disease.

The Center is staffed by an occupational therapist and a speech therapist, operating under a medical staff of eight doctors and dentists. Treatment is available free of charge to any child with cerebral palsy, upon recommendation of a doctor. The Center is affiliated with the Texas Society for Crippled Children.

Cerebral Palsy Club Meets on June 8

The West Texas Cerebral Palsy Parent's Club will meet in Lubbock, June 8 at 8:00 p.m., in the home of Mrs. Gordon Deering, 2106 31st.

The club is composed of a group of parents working together for the welfare and betterment of their children. All parents are invited to attend as guests.

The club project for the year is the establishment of a pre-school to prepare the children for entrance in public school.

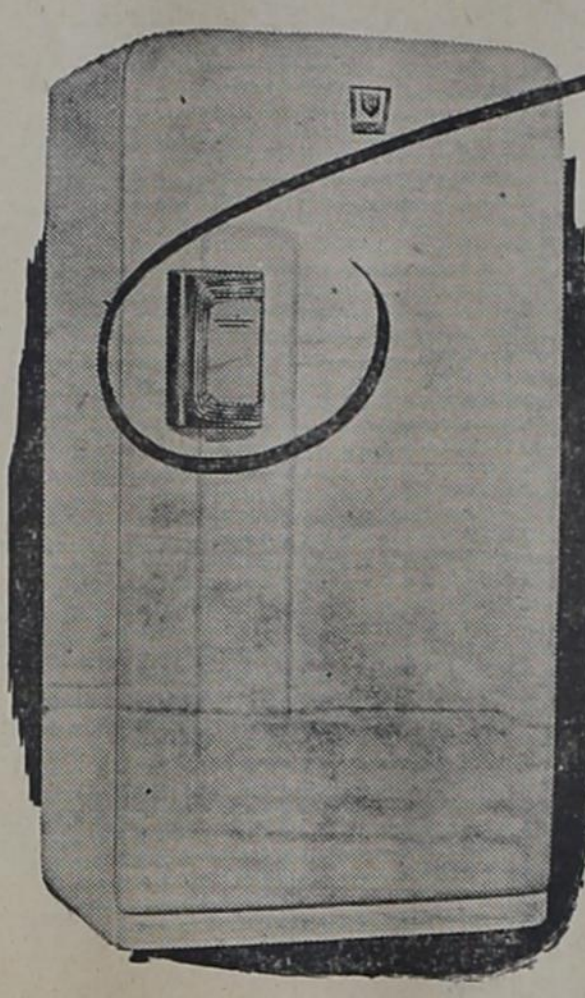

For further information, contact Mrs. Deering.

Mr. and Mrs. J. E. Warrick and J. E. Warrick, Jr. visited their folks at Wellington during last week-end.

The E. B. Berryman family also spent the week-end at Wellington. They were visiting their relatives.

Edward and Rayphard Smith were home last week because of the serious illness of their grandfather, Mr. McCoy.

New Baptist Student Center Planned For Students At West Texas State

A center for Baptist Student activities at West Texas State College is being planned by Baptist leaders of the Panhandle-Plains region, according to announcement of Truett Smith, Director of Baptist student activities at the college in Canyon. The new building will replace the temporary residence that has served as a center for Baptist students since 1946 when it was bought by the Baptist General Convention of Texas for this purpose. The location is on ample ground immediately across the street from the campus entrance to the administration building.

According to W. F. Howard of Dallas, Texas Director of Baptist student work, the new building will contain an adequate Bible Class room, offices for the director and student council, a prayer room, lounge and recreational facilities, and should be ready for occupancy by early 1952. The Baptist Student Department of

Dallas will provide 60 per cent of construction cost, and friends in the region served by the college are being asked to provide the remainder. Pastors are being asked to present the request to their people, and a hearty response is being given wherever it is presented.

Completion of this building will mark another link in the advancement of West Texas State College where Methodists and the Church of Christ already have buildings for their activities among students of these faiths. All these church properties are adjacent to the campus, but of course are not legally connected with the college which is operated by the state. Such provisions by the religious groups have the full approval of the college administration as a contribution to the welfare of students, and elective college credit is given for courses in Bible offered at these Centers.

burg, Pa., spent the week-end in the O. D. Dinwiddie home. Seaman George Rogers Clark of Big Spring and San Diego, Calif., spent Tuesday night in the home of his aunt, Mrs. Willis A. Hawkins, Sr.

Miss Myra Newsom has returned home after spending a week with relatives in Lockney.

Mrs. Lyndall Warren (nee, Patsy Bauman) was honored on May 23rd with a miscellaneous shower in the home of Mrs. Edd Harris. Out-of-town guests attending were Mesdames John Huseman, Harry Klemm, August Huseman, and Tom Anren of Nazareth. Helping Mrs. Harris with the shower were Mesdames Glyn Reed, W. T. Sanders, J. E. Thompson, Worth Jones, and W. A. Hawkins.

Hart Home Demonstration Club met on Tuesday afternoon in the home of Mrs. J. D. Murray. Mrs. Hamm gave a demonstration on belt making. Seven members were present.

Methodist church is holding a Vacation Bible School this week. Helping is the pastor, Rev. R. O. Browder and teaching are Mesdames E. L. Brooks, Deward Armstrong, Bill Bell, Hubert Maples, Buster Aven and Miss Lillian B. Hamm.

Miss Grace Ray, who will be married to Pancho Lacy of Quanah on June 9, was honored with a pre-nuptial shower in the home of Mrs. W. A. Hawkins, Sr., on Monday afternoon, June 4th. Assisting Mrs. Hawkins were Mesdames Ewell Jobe, R. G. Henderson J., Harvey Davis, Roy Pyeatt, Milton Sharp, and Misses Laverne Jobe and Joy Henderson.

Mr. and Mrs. W. A. Hawkins Sr. and Robert Lewis spent the week end visiting the Ray Clark family in Big Spring.

The Baptist Church will hold its vacation Bible School June 10th through the 15th. They will hold a youth revival the last four days of the school. All young people are invited to attend both school and services at night.

Farmers are very busy planting and plowing. A great many had to plant cotton over after the rains in late May.

Dimmitt Seniors Spend Day At Royal Gorge, Colo.

CANON CITY, Colo., June 1 (Spl.)—Twenty-two members of the class of '51 of Dimmitt High School spent a thrilling day at Colorado's famed Royal Gorge on their recent senior tour.

It was a highlight of a trip that included a visit to Mesa Verde National Park, Santa Fe, N. M., points of interest in and around Canon City and Colorado Springs.

At the Royal Gorge, the group

crossed the world's highest bridge (1,050 feet above the roaring Arkansas river), rode the world's steepest incline railway (100 per cent grade), and dined at the swank Cliff Terrace Restaurant, overhanging the Gorge chasm.

Sponsors on the tour were Mr. and Mrs. J. E. White and Miss Martha Norman. Students were Charlyne Campbell, Mary DeLozier, Fayrene Greathouse, Peggy

Messenger, Dona Robertson, Bobbie Ruth Wooten, Maurine Smithson, Pat Youts, Merle Leasure, D. L. Wright, Gene Easley, Jimmy Cluck, David Behrens, Jim Jewell, Carl Bruegel, LeeRoy Hargrove, Jack Dyer, Forrest Ricketts, Dorit Nelson, Carl Henderson, John Axe, and Bill Murphy.

Sunday dinner guests in the home of Rev. and Mrs. E. Lee Stanford were Aldon and Elaine Saul of Miami; Travis Tadlock of Amarillo, Connie McRee of Dimmitt, and Dorothy Sue Stanford of Amarillo.

Rev. E. Lee Stanford left Wednesday to take his son, Jesse to summer school at Southern Methodist University.

330 Corporation Charters Issued In One Month

AUSTIN, Texas, June 7—The State issued charters to 330 new corporations in April—16 more than in March but 15 per cent fewer than in April, 1950, the University of Texas Bureau of Better Business Research reports.

New Insecticide Is Highly Poisonous, Says Health Officer

Recently a new insecticide highly poisonous not only for insects but also for man and animals has become available commercially said Dr. Geo. W. Cox, State Health Officer. It is known under the trade name of "Parathion" and has proven quite effective for certain agricultural uses.

Because of its extremely high toxicity it would be desirable if its use could be restricted to a

few individuals who could make a business of applying it and educate and equip themselves so as to insure the maximum of safety. In Texas and a number of other states, however, there are no laws making such restricted use possible. Therefore, a brief statement of warning is being offered.

"Parathion in the pure state is a brownish liquid with a high boiling point and a peculiar odor. It mixes but slightly with water, but is completely soluble in alcohol, acetone, and certain other similar solvents. Under factory conditions it is usually mixed with a powder which has absorbed the parathion.

"Its toxic effect may result from breathing the dust, as a result of shallowing contaminated substances, or by absorption through the skin. The latter may be indirect absorption such as from contaminated clothing.

Safe use is dependent on the use of precautionary measures so as to prevent contact. The user should also be alert for symptoms of poisoning so that a physician may be in attendance without delay should he be needed. Atropine, a potent medicine, has been mentioned as an antidote. It should be borne in mind that this is another poison about as dangerous, if improperly used, as is parathion. It should only be used under competent medical direction.

Miss Sandra Neumayer, Carolyn Bagwell, and Paul Stanford are attending Methodist Youth Assembly in Abilene this week.

LEGAL NOTICE
CITATION BY PUBLICATION THE STATE OF TEXAS TO: J. E. Crafford, whose residence is unknown, and if he be dead, the heirs and legal repre-

sentatives of the said J. E. Crafford, whose names and residences are likewise unknown; Stringfellow & Hume, whose residence or place of business is unknown, and if such organization be dissolved, the stockholders, partners and successors of Stringfellow & Hume, whose residences or places of business are likewise unknown, and if Stringfellow be dead, heirs and legal representatives of Stringfellow, whose names and residences are unknown, and if Hume be dead, heirs and legal representatives of Hume, all of whose names, residences and places of business are unknown; F. F. Clough, whose residence is unknown, and if he be dead, the heirs and legal representatives of F. F. Clough, whose names and

residences are likewise unknown; J. I. Clough, whose residence is unknown, and if he be dead, the heirs and legal representatives of J. I. Clough, whose names and residences are likewise unknown; John Allen Guno, whose residence is unknown, and if he be dead, the heirs and legal representative of John Allen Guno, whose names and residences are likewise unknown. DEFENDANTS, GREETING:

You are hereby commanded to appear before the Honorable District Court of Castro County at the Court House thereof, in Dimmitt, Texas, at or before 10 o'clock A. M. on the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same be-

ing the 2nd day of July A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 19th day of May, A. D. 1951, in this cause numbered No. 2060 on the docket of said Court and styled Carl E. Kemp, Plaintiff, VS J. E. CRAFFORD, ET AL, DEFENDANTS.

The Parties to said suit are Carl E. Kemp, Plaintiff, and all the parties to whom this citation is addressed, as Defendants.

A brief statement of the nature of this suit is as follows, to wit: Plaintiff sues in trespass to try title to recover the title and possession of the following described property, to-wit:

All of Lots 21 and 22 in Block No. 74, of the Original Town of Dimmitt, Texas, according

to plat of said town of record in Volume 3, Page 240, of the Deed Records of Castro County, Texas.

Plaintiff alleges further that if the defendants, or any of them, ever had any right, title or interest in and to the above described property, that same is now barred by the ten (10) year statute of limitation. Plaintiff asks for title and possession of said property, for removal of the cloud on the title to same, for damages and general relief, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand

and the Seal of said Court, at office in Dimmitt, Texas, this the 19th day of May, A. D. 1951.

(Seal) Ola Murphy, CLERK District Court, Castro County, Texas. 28-4tc

Short Wheat Harvest This Year Predicted For Texas-Okla.-Kans.

Texas wheat has shown an improvement since the general rains but they came too late for maximum benefits. With the limited improvement there is a possibility that the State may produce a crop of 15,000,000 bushels as compared 22,712,000 bushels in 1950, and the 10-year average of 63,486,000 bushels, if favorable conditions exist between now and harvest. Hail storms have caused considerable damage in some parts of the wheat-producing belt during the past week but this damage has been confined to small areas.

A sizeable portion of the abandoned wheat acreage is being or has been planted to cotton and grain sorghums in most of the wheat-producing areas and these crops are making good progress, however, a considerable amount of this abandoned acreage will be summer fallowed. Pastures in the northwest part of the State responded quickly to the recent rains and range conditions are generally good.

The following reports comprise the latest information available on area conditions:

Dallas, Denison, Rockwall, and

Waxahachie areas, report that rains have benefited the wheat so much that the yield per acre will probably be above that of 1950, but the remaining acreage is small. Harvest is getting under way on light land.

Wichita Falls, Benamin, Seymour, Archer City, Quanah, Henrietta, Olney, and Vernon areas: Harvest is getting well under way and in some areas approximately 25 per cent of the acreage of the better wheat has been combined. The fields infested with weeds will be some later. Practically all of the best wheat will be harvested by June 8 if favorable weather conditions continue. Average yield for the better wheat will probably average 8 to 10 bushels per acre. The poorer wheat yield will be light.

Childress, Memphis, Paducah, Wellington areas report that harvest will probably start about June 8 to 12. Some parts of this area are encountering excessive weeds due to recent rains and are spray-poisoning from the air. Harvest will be negligible in the San Angelo and Lamesa areas because of drought and insect infestation.

Lubbock, Littlefield, Ralls, Dickens, Plainview areas report that wheat has shown improvement since the rains but acreage is small. Harvest will probably start from about June 4 to June 10. Average yield per acre will be from 4 to 10 bushels.

Amarillo, Pampa, Borger, Spearman, Perryton, and Dalhart areas: Very little wheat will be harvested. This small acreage is scattered throughout the panhandle in small fields. Harvest will probably start about June 20.

There will be no need for outside labor or equipment, for the Texas Wheat Harvest this season as there are ample men and equipment in each local area to meet all needs.

OKLAHOMA: Present prospects indicate very few migratory combine crews will be needed to harvest the 1951 wheat crop in Oklahoma. Harvest should start around Altus, Clinton, and Lawton about June 5 or 6.

Chickasha, Enid, Alva, Oklahoma City and Ponca City report that harvest should start about June 10 to 12.

KANSAS: Very few migratory combines from out-of-state will be needed to harvest this year's crop. No out-of-state harvest hands except those attached to custom combine crews will be needed. (Kansas Farm Labor Bulletin, May 15, 1951).

VA Loan Program Ends On June 30

World War II veterans planning to apply for direct home and farm loans from the Veterans Administration are reminded by the VA that the Direct Loan Program ends by law on June 30, 1951.

VA states it would scarcely be possible in most instances to process applications before the June 30 dead-line that are received by the VA Regional Offices after June 15.

The Housing Act of 1950 authorized VA to make direct loans up to \$10,000 at four per cent interest to World War II veterans with which to buy or build a home or to build or improve a farmhouse. The Act stipulated that VA was to make these direct loans in those areas of the country where the regular GI loans were not available from private lenders. The Law further required VA to designate the areas as eligible for direct loans.

Since the program got underway last summer, more than 2,600 counties or parts of counties in the United States have been designated as eligible for direct loans. An estimated 5,000,000 World War II veterans live in these designated areas.

As of May 10, about \$90,000,000 of the \$150,000,000 authorized for the program had been distributed or reversed under pending applications for direct loans to veterans.

While the Direct Government Loan Program ends June 30, 1951, the regular GI loan program does not expire until July 25, 1951. Both programs are subject to the same minimum down payments imposed by the credit controls announced October 12, 1950.

Business-Owners Are Required By Law To Have Social Security

Apparently there is some misunderstanding of the self-employed person's obligations under the amended Social Security Act, according to John R. Sanderson, manager of the Amarillo Social Security office. Old-age and survivors insurance is not optional for people who are working for themselves in their own trade or business, or as partners in such enterprises. If you are self-employed and derive as much as \$400.00 in net profit from your

business or businesses in any taxable year after December 31, 1950, your social security coverage is compulsory by law.

Sanderson pointed out that the only exceptions are income derived from self-employment as owner-operator of an agricultural enterprise, and self-employment income derived from practice as a physician, lawyer, dentist, osteopath, chiropractor, optometrist, naturopath, veterinarian, architect, CPA, licensed, registered or full-time practicing public accountant, Christian Science practitioner, professional engineer, or funeral director.

As a self-employed person you

do not report yourself along with your employees. Your self-employment income must be reported annually on your income-tax form 1040 Schedule C, especially revised for this purpose. Your first such report is due March 15, 1952, covering your self-employment income for the taxable year 1951 and payable along with the report is your self-employment social security tax, which is 2 1/4% of the first \$3,600 of your net business profit. If you are a partner in a business, the tax is levied on the first \$3,600 of your distributive share of the partnership net profits, whether or not the profits are distributed.

BIGGER YIELDS through BETTER CULTIVATION

Cultivating early and often increases crop yields. And a lot more cultivating would be done if farmers could spend less time and energy changing implements between jobs. The . . .

DEARBORN Rigid Shank CULTIVATOR

is one cultivator that saves your time and does a fast, clean job besides. It can be attached to the Ford Tractor, or detached, in 60 seconds or less! Ford Tractor accurate automotive steering and Duo-Servo type brakes permit close cultivating—short, easy turns. Ford Tractor Hydraulic Touch Control lifts the cultivator for turning and for backing easily into point rows.

Let us show you these, and other, features of this high quality cultivator. We are headquarters for Ford Tractors, Dearborn Implements, parts and service.

KITCHEN MEMO BY JEAN CLARKE

YUMMY is the word for Poppy Seed Cheesecake! Crush 1 1/2 cups zicback crumbs. Cream 2 tbs. butter, 2 tbs. sugar, blend into crumbs. Grease sides and bottoms of 9" spring form pan. Press crumbs onto bottom and sides saving 3 tbs. crumbs. Mix 2 tbs. flour, 1/2 tsp. salt 1/2 cup sugar, 2 1/2 tbs. poppy seeds. Cream 5 1/2 pigs. cream cheese (room temp.), beat in sugar mixture. Add 4 beaten egg yolks, 1 tsp. vanilla, 1 cup heavy cream. Fold in 4 stiffly beaten egg whites. Top with remaining crumbs. Bake in gas oven at low heat (325°F.) 1 hr. Turn off gas, open oven door, let cake stand to cool at back of oven.

The sediment which inevitably collects from water passing through pipes into the water heater should be drained periodically through the convenient outlet provided for that purpose on all automatic gas water heaters.

A Wedding Dress for Your Table

Heralding the wedding celebration at your table, the miniature bride and groom stand partly atop the wedding cake. In keeping with the wedding tradition the hostess chooses her appointments with special care. Her table cloth might be a solid color damask embroidered in silver thread. The china pattern... Bellevue-Sea Green by Lenox, featuring 24-k. gold leaves resting on a border of clear aquamarine. The creamy translucence of your Lenox china brilliantly reflects the light from four tall candles. And compliments from your guests will give further proof that your decor merges perfectly with the festive spirit of this day.

LEGAL NOTICE

Citation by Publication: THE STATE OF TEXAS TO: The Bedford Town and Land Company, a joint stock company; Stockholders of the said Bedford Town and Land Company, whose names are unknown; E. S. Jones and if ever married Mrs. E. S. Jones; E. F. Hasell and if ever married Mrs. E. F. Hasell; G. M. Etter and if ever married Mrs. G. M. Etter; R. R. Dulin and if ever married Mrs. R. R. Dulin; A. R. Andrews and if ever married Mrs. A. R. Andrews; J. B. Stinson and if ever married Mrs. J. B. Stinson; R. L. Belsher and if ever married Mrs. R. L. Belsher; W. H. Bean and if ever married Mrs. W. H. Bean; W. C. Dimmitt and if ever married Mrs. W. C. Dimmitt; H. G. Bedford and if ever married Mrs. H. G. Bedford; J. W. Hinton and if ever married Mrs. J. W. Hinton, and if any or all of the above nam-

ed parties are deceased, their heirs, their unknown heirs and legal representatives of each and all of them; H. G. Bedford, trustee, and J. W. Hinton, trustee, and W. C. Dimmitt, trustee, and their successors as trustees of the Bedford Town and Land Company, and any and all persons owning or claiming any interest in the property hereinafter described, all of whom are DEFENDANTS, Greeting: You are hereby commanded to appear before the Honorable District Court of Castro County at the Court House thereof, in Dimmitt, Texas, at or before 10:00 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 16th day of July, A.D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 1st day of June, A.D. 1951, in this cause, numbered 2061 on the docket of said Court and styled J. G. DAVIS, et al., vs. BEDFORD TOWN AND LAND COMPANY, ET AL, as Defendants.

A brief statement of the nature of this suit is as follows, to-wit: Plaintiff sues for the title to and possession of the following described real estate situated in Castro County, Texas, to-wit:

All of Lot No. 5, Block No. 159, of the original Town of Dimmitt, Castro County, Texas, as shown by the map or plot of said Town, of record in the Deed Records of Castro County, Texas. Plaintiff alleges that he is entitled to the title to and the possession of said property, claiming the same under the five, ten, and the twenty-five year Statutes of Limitation, and Plaintiff further prays that the cloud cast on the title to the property, above described, by Defendants be removed and said title vested in the Plaintiff, as is more fully shown by Plaintiff's petition on file in this suit. The officer executing this process shall promptly execute the same according to law, and made due return as the law directs. Issued and given under my hand and the Seal of said Court, at office in Dimmitt, Texas, this the 1st day of June, A.D. 1951. (SEAL) Attest: Ola Murphy, Clerk, District Court, Castro County, Texas

Summertime Is Party Time!

by Frances Barton

Spring cleaning is done—indoors and out—and it's time to celebrate this most inspiring of all seasons. It's time to be gay—it's time to give a party! And here's the way to bring a lot of happy guests together—serve Party Coconut Kisses, a new delicious recipe flavored with everybody's favorite, star-studded instant coffee. Now that you can add coffee flavor by the spoonful, there's no need to worry about too much liquid to dilute your recipe. Party Coconut Kisses will always be light and frothy, and that delicious coffee flavor will be perfect every time.

Party Coconut Kisses

2 egg whites
1/4 teaspoon salt
1 tablespoon Instant Maxwell House Coffee
1/2 cup sugar
1 cup shredded coconut
1/4 teaspoon vanilla
Beat egg whites and salt until foamy. Combine Instant Maxwell House and sugar and add to egg whites gradually, beating after each addition until sugar is blended. Continue beating until mixture will stand in peaks. Fold in coconut and vanilla. Drop from teaspoon onto well-greased baking sheet. Bake in a very slow oven (250° F.) 30 minutes, or 'til done. Top with coconut or pistachio nuts. Makes 30.

FLAGG NEWS

Mr. and Mrs. Jimmie Buckley are the proud parents of a new boy who came Sunday afternoon at the Amherst hospital. Mother and child are doing well.

Mrs. Billie Bond and daughter, Vicki, are visiting her parents, Mr. and Mrs. Sid Sheffy. The Bonds have lived in Los Angeles, Calif., the past two years but have returned to Texas.

Mrs. J. R. Langley, Neil and Cecelia of Lockney, Mr. and Mrs. Charles Galloway of San Angelo Mrs. Bob Covington and sons, Frank and Robert of Daughtery, visited Saturday with Mr. and Mrs. Harold Damron. Harold is recovering from his accident and can have visitors.

Lelda Thompson is home from the Scottish Rite Hospital in Dallas and is much improved. Mr. and Mrs. Lynn Smith of Plainview visited the Thompsons Wednesday.

Mr. and Mrs. Lyndon Scarborough and Carolyn of Amarillo visited the Bill Boohers and Irvin Otts and other friends last week end. Carolyn visited Tommye Sheffy and the Methodist Sunday School.

Mrs. Elzie Teague has returned from Lubbock where she has been visiting her daughter, Della Bunker and Corporal Bunker.

Mrs. C. G. Ballard and Mrs. Andy Thompson were business visitors in Littlefield Monday. Monty Joe and Bob Ballard have returned from Alpine, where they have been in school.

The father of Mrs. E. C. Hudson of Earth, Mr. Morris, died Friday night. The Hudsons were former residents of Dimmitt. Tom Davis was a pall bearer.

Mrs. Ed Wilson, Jr. and brother Mr. Kenny Gear, are visiting their parents in Los Angeles, Cal.

Ceiling Prices For Various Articles are Announced by OPS

LUBBOCK—The following list of dates, drawn up by Price Executive C. J. Taylor of the Lubbock district office of Price Sta-

bilization, provides a timetable for compliance with regulations of the Office of Price Stabilization.

The list schedules the effective dates of ceiling prices and other actions of wide general interest.

June 11—Kosher beef retailers—CPR 26—Ceiling prices of Kosher beef must be posted in stores and cuts displayed with various grades in separate trays with each tray price tagged.

June 11—Wool yarn and fabric manufacturers—CPR 18, Revision 1—Effective date for pricing under this regulation instead of original order or general ceiling regulation.

June 15—Service trades—CPR 34—Establishments must post visibly and prominently ceiling prices for their services in their places of business. They must also file a duplicate list, along with adequate descriptions of each service, with the District Office of Price Stabilization, Broadway Building, 1202 Texas Avenue, Lubbock, Texas.

June 18—Meat retailers—CPR 25—Ceiling prices of beef must be visibly posted in non-kosher stores and cuts displayed with various grades in separate trays with each tray price tagged.

June 30—Retailers of consumer goods—CPR 7—Sales of items

Around the Studios

with Charles Brooks

The Alfred P. Sloan radio awards jury has honored NBC's domestic comedy-drama, "Father Knows Best" with its 1950 award as the commercial network program which has made the year's outstanding contribution to highway safety.

Bob Young, star of "FKB" spearheaded the "dad-to-daughter" and "man-to-man" highway safety written agreements campaign for teen-agers and their parents—and will receive a special citation. "Father Knows Best" devoted an entire script, specially written, to the subject of highway safety, and Bob also made a coast-to-coast tour in the interest of promoting safe driving among young drivers.

Jean Sablon, internationally-famous singer now starring in a syndicated radio program, will leave soon for Europe on a tour to get new songs and material for his show and—incidentally—to see again some of the romantic places in Europe about which he talks and sings on the air, and to add to the fascinating store of anecdotes he shares with his audience. After combining a European vacation with a summer of singing engagements abroad, Jean will return to the United States. During his absence, his program will be heard regularly on a Mutual network, since he'll record his shows while away.

Tiny Meredith (Merry) MacRae, the daughter of Gordon M., star of NBC's "The Railroad Hour," is bursting with pride these days. It seems that whenever any playmate asks her "What does your Daddy do?", the stock reply has always been "My Dad sings on the radio."

But since her recent air debut with Gordon on a special NBC public service broadcast, the little girl's answer has varied a trifle. Held in honor of the 31st annual Boys and Girls Week, the program presented several famous stars and their offspring. So now when she is asked that favorite childhood query, Merry promptly says proudly, "Don't you know? Daddy and I are on the radio!"

AIR-DENDA: A minor crisis was averted the other day on "The First Hundred Years," CBS-TV pioneer daytime drama. Russell Collins, veteran character actor, was scheduled in the script. But he couldn't be found. Finally, the casting director found that Collins, with an iron-clad contract, was in Philadelphia with a brand new theatrical production trying out there. Bound by a contract for a minute, it looked like the TV serial was going to have to sneak a substitute, when at the last minute the show closed, saving the day.

State Highways; A Huge Service But Still A Costly Problem Child

How safe are Texas highways? That is always on the motorist's mind when he starts on a trip which will carry him into a rural area on public highways.

Last year 1,725 persons died in 26,584 accidents. The total killed would populate a small town little larger than Dimmitt. Most of the dead died needlessly through their own or other's carelessness.

Much blame for Texas highway accidents has been focused on state highways. But are these highways themselves at fault? Probably the answer to this question is no. Texas highways have long been among the nation's best and through reasonable caution by the motorist are safe even at high speeds.

Unless something is done in the next decade, our highways will begin taking their toll of human lives as automobiles are built to run faster than curves are graded for. And holes and buckled pavement are not making for better safety.

However, the Texas Highway Department faces a problem, a problem growing more common with state agencies every day. They need more money. Slightly over half of all Texas highways are over twenty years old meaning they are obsolete and not built for today's fast and heavy traffic.

After twenty years of service a highway begins to crack, buckle, and wear heavily. A stretch of this road will be narrow, crooked, and not as level as a modern road. Bridges built twenty or more years ago are still in use and many are one-way and weak. But bridges, costly and hard to build, many times are bypassed by funds to allow for more paving.

The cost of a highway, like the stretch from Dimmitt to Hereford for instance, will cost from \$60,000 to \$100,000 per mile. Even at such enormous expense, Texas owns and maintains over 36,000 miles of paved roads; 11,000 bridges, underpasses and overpasses; and almost 25,000 miles of city streets.

The Highway Department receives approximately \$115,000,000 per year from gasoline and license taxes, federal grants and state general appropriations. This figure exceeds any prewar total but will not build as many new miles of roads as the Department could afford in say, 1937. Now the state needs more and better roads desperately, but the cost is growing more and more prohibitive. The Department figures any portion of a highway carrying 4,000 or more vehicles per day should be made in four lanes. Based on this figure the state needs about 600 more four-lanes between various Texas cities. 920 separate stretches of highway in the state carry the 4,000 units per day but only about 300 are more than two lane.

Indications show Texas growing leery of three-lane roads. Too many head-on collisions result from a false sense of security the roads seem to give. As a rule more deaths are attributed to this type of highway per mile than standard two-lane roads. The Canyon-Amarillo road is a good example of this.

A heavy dose of funds also goes into construction and maintenance of roadside parks and municipal streets. The Department builds and maintains those city streets which form a part of the highway system, even when they lie in the center of town. This policy generally applies only to towns of less than 15,000 population; in larger cities the highways are routed around congested areas by expressways.

Shortly after World War II, the Department appropriated 27,000,000 dollars for projects of this kind in four of Texas' largest cities.

Another gaping hole absorbing Highway Department revenue is the Farm to Market Roads

system. These roads cost only about \$10,000 per mile to construct and maintenance is cheaper. And the practice is proving so worthwhile the Department will probably continue its farm roads program for an indefinite time.

What do these figures show? They show a government service becoming more complex every day, broadening in all directions and directly or indirectly reaching every citizen of the state. The figures also show these services overreaching their funds. Will new and/or improved highways suffer from this continuing expansion? Will the state soon get the new roads it will soon need for safe and comfortable driving?

And what of the effects of overloaded trucks on the roads? Tests presently being conducted in Maryland hope to come up with some answers. Meanwhile tandem axles are jarring loose sections of concrete highway and breaking down asphalt roads. Over 3,800 cases were filed last year against truckers who exceeded the 48,000 gross weight limit. This does not include those who were not apprehended.

Texas has a problem. Castro County roads may someday deteriorate as much as some of our other state highways.

Truman vs. Taft?

Senator Robert Taft seems to have cornered and caught the national Republican party eye for presidential nomination. At least, he has hinted that he will be a candidate as well as others high on the party ladder. It will be too bad for that party if they are unable to scrape up anything more. Eisenhower is out of the picture as commander of the international army. Dewey probably wants no more hurt to his ego. MacArthur doesn't seem to be much of a prospect. Chief contender other than Taft, at this point, could well be Governor Earl Warren of California. But he is more of a vice-presidential hopeful.

A man like Taft, given time, can build up political alliances and backing to receive the nomination. And a man like Taft would hardly be fit for a President of anything, much less head the executive branch of the Federal government. He has violently opposed every controversial step Truman has made, trying to get on the bandwagon. At times he has contradicted himself. At one time he advocated Hoover's isolation policy, apparently because of Truman's opposition. Then he did an about face when MacArthur returned and said we should carry the Korean War to the Chinese mainland. This step would have exerted our military might abroad even more than now.

Taft has said the State Department's objective in the Korean War was hazy in his mind. Obviously hazy-minded Taft had made small effort to side with Dean Acheson (Secretary of State and a Truman appointee).

On the other hand Truman has stared down his opponents time after time on controversial issues. He has stood by his appointees and never taken back anything he said. He has followed through consistently with clearly thought ideals, and though he lacks many qualities desired in a President, cannot be called weak. The present trend seems to indicate he has brought the majority around to his way of thinking and should win the Democratic nomination next year as well as resume his duties for his second and final full term of office.

Seeing is Believing

HALF-EYE SPECTACLES ARE SOMETIMES WORN BY PEOPLE WHO NEED LENSES ONLY FOR NEAR VISION AND LOOK OVER THE TOPS FOR DISTANCE.

Sports Afield

By Ted Kesting

Surface bass-bug fishing is to warm water angling what dry-fly fishing is to the trout angler, and it isn't much different although generally heavier gear is used. However, fly-rod fishing for bass and other warm-water fish is not confined to the use of surface lures.

There are all kinds of semi-surface and underwater artificials to use with the fly rod that will take anything from the willing panfish to the musky. Among them are feathered minnows, flies, streamers, bucktails, spinners, spoons, midge plugs, rubber and plastic imitations of insect and animal life, poppers and whatnots.

The basic equipment for such fishing, according to Bill Wolf, consists of a rod about nine feet long with enough extra backbone to overcome the wind resistance and/or slight weight of the lures, a level or torpedo-head fly line, and a strong but rather short leader of nylon or gut. Lighter tackle is sometimes used.

Most important to the fish is the terminal tackle—the lures that go on the end of what leader. Their number is legion

and obviously it's impossible to describe them here.

There is a standard way of fishing bass bugs and surface lures that seems to give best results. The lure is cast to the desired spot, usually in shallow water, and allowed to rest where it falls for seconds that

often grow to as much as a minute. Then, the rod tip is raised slightly to make the lure twitch as though some animal or insect is moving feebly after falling in the water. In this manner the lure is retrieved almost to the side of the boat or bank, and a single cast will take many minutes.

This method can be varied with profit. I have seen surface lures skipped over the water with great success.

But lures are what you make them. Their success depends upon exactly the same factor that governs all fishing that is above the level of plain luck: The angler must know what the lure would look like naturally in the water and present is accordingly, and he must know where the fish he seeks would naturally expect that kind of food to appear. Their number is legion

Texas Farm Income Increasing With Animals Gaining; Wheat, Cotton Losing

AUSTIN, Texas, June 7—Texas farm income in the first third of 1951 was 53 per cent higher than the same period last year, the University of Texas Bureau of Business Research reports.

Only cotton, cottonseed, wheat, fruit, and vegetables showed a downward trend in income.

Total farm cash income, January through April, was estimated at \$378,316,000. More than a third of the total came from cattle sales, 63 per cent higher than during the like period in 1950.

Other impressive gains were made by milk and milk products, up 80 per cent, and hogs, up 60 per cent.

Wool and mohair prices have more than doubled since April, 1950. Consequently, in spite of nearly equal marketings, income from these items has risen 71 per cent from mohair and much more than that from wool. The 95 per cent decline in income from wheat is reportedly a result of a poor crop and correspondingly reduced marketings. Texas farm products prices continued their slow but steady climb in April. The Department of Agriculture mid-April index was up three points, nearly one per cent higher than in March.

THE LAW AND YOU

by Rob't. (Bob) Kirk

Do you know when your Notary Public commission expires?

The commission of a notary public in Texas expires on the first day of June, of the odd numbered years. Those who have been a notary public in the past should have renewed their commissions prior to June 1, 1951. If you have

a notary public, you should not renewed your commission as act your County Clerk immediately. The Secretary of State is in charge of the appointments of notary publics, but the matter is handled locally through the various County Clerks in the state. A person to be eligible for a commission as a notary public

must be a citizen of this state, and at least 21 years of age. A person can be appointed to act as a notary public only in the county of his or her residence. One who is appointed a notary public can take acknowledgments and act as a notary public only in the county to which he is appointed. If after appointment as a notary public a person moves to another county in this state, his appointment shall terminate as to that county; and to secure the right to act as a notary public, he must make a new application for appointment, give a bond, and take the oath in the county to which he has moved. For further information on this subject, see your county clerk.

Mrs. T. J. Nelson of Rowena is here for a visit in the home of her son, B. M. Nelson and family.

FRIO NEWS

(By Mrs. Owen Andrews)

Mrs. Joe Davenport, who is a former beauty operator, gave Mrs. E. H. Little a permanent for the program at the Frio Home

Plenty of Money for Conservative LOANS
on building or remodeling city residences and business property.
Monthly Payments

SWAIN BURKETT

Makers club meeting at Mrs. Davenport's home on Wednesday, May 23. While she was giving the demonstration, she talked about hair texture and health and gave suggestions for giving home permanents. "The curls must be rolled evenly and tightly," she explained, "and should be wet with the waving solution with a crosswise motion to insure thorough covering."

The meeting was attended by Mesdames C. N. McClure, Henry Andrews, T. L. Sparkman, Jr., Floyd Cole, J. E. Warrick, Gene Noel, W. A. Springer, Owen Andrews, Glenn Gripp, Henry Dobbs, E. H. Little, and the hostess.

The next meeting will be on the second Wednesday of June, which is the 13th, at the home of Mrs. Floyd Cole. The program will be on labels, with Mrs. Shearhart giving the main part on the program. The June 27th meeting which had been planned for Mrs. H. F. Benson's home will be at the REA Kitchen, at Hereford, instead. The change was made because of convenience to the demonstrator, as the meeting will

be a frozen food demonstration. The Easter club has accepted an invitation to be guests at the meeting.

Farmers are taking advantage of the fair weather, and planting is being done on a wholesale scale. Some cotton was planted before the rains, and is being replanted now. Many acres of cotton, as well as grain sorghums, will be put into the ground this week. The folks are used to hoping for rain, but now are hoping "maybe this one will go around" for a couple of weeks until the planting is done. Tractors are running day and part rights to hasten the process.

Similar accidents happened at the Floyd Cole and J. F. Benson homes this week. On Tuesday an oven explosion caused damage at the Floyd Cole home, when accumulated gas in the oven caught fire. Burned curtains and scorched woodwork was considered minor damages, when what might have resulted is accounted.

The Benson accident was caused by the same principle, but no damage was caused. Miss Sherry Benson who was near the stove, escaped without injury.

The revival meeting at Frio, with Rev. A. C. Hardin, Evangelist and Wade Thompson, song leader, opened Sunday, June 3. All who will come are invited and urged to attend.

LEGION CONVENTION SLATED JUNE 9 - 10 AT PLAINVIEW

Over 600 delegates of the 195 American Legion Posts in the 5th Division will gather in Plainview Saturday and Sunday, June 9 and 10, for their annual convention, 5th Division Commander Charles C. Gibson of Amarillo has announced. The Legion's 5th Division is composed of Posts in the 16th, 17th, 18th, 19th and 21st Congressional Districts.

Election of a new Division Commander will top the business activity, Gibson said. Candidates for other State Legion offices may also be nominated or endorsed. Gibson, Amarillo Newspaperman, is among the candidates for State Commander and has been endorsed by the 17th, 18th, and 21st Districts. The State Convention will be held in San Antonio August 17-18-19.

A delegate and an alternate to the National Legion Convention will also be selected.

VISIT IN STANFORD HOME

Mr. and Mrs. Roy Fultz of Wichita Falls were guests in the home of Rev. and Mrs. E. Lee Stanford last week. They were former members in the Petrola Church where Rev. Stanford first began preaching.

Mr. and Mrs. C. H. Munley of Amarillo were guests in the E. Lee Stanford home Sunday.

Pat Smitherman and James Harper Exchange Marriage Vows at Hart

Miss Pat Smitherman, daughter of Mr. and Mrs. M. M. Smitherman of Hart, and Mr. James Wallace Harper, son of Mr. and Mrs. E. C. Harper of Hale Center, were united in marriage in a double ring ceremony Friday morning, May 11 in the home of the bride's parents.

The Rev. E. J. Keith, pastor of the Hart Baptist Church, solemnized the vows before an altar flanked with candelabra and baskets of white gladioli and stock.

As a nuptial prelude, Mrs. Milton Sharp played a medley of wedding songs at the piano. Miss Jeanne Sharp sang "Because" and "Through the Years." Milton Sharp sang "The Lords Prayer" as a benediction.

Given in marriage by her father the bride was attired in a suit

of navy blue imported Irish linen trimmed in white crochet. Her hat was of white starched lace, and other accessories were of white also.

She carried a white Bible topped with white gardenias and showered with streamers of white satin ribbon and stephanotis. For something old the bride wore a brooch of yellow gold that had belonged to the grooms great-grandmother.

Edith Rae Smitherman, sister of the bride, and Paul Dean Harper, brother of the groom, lighted the candles.

Mrs. Charley Sanders was her sister's only attendant. She wore an aqua suit of silk shantung with navy and white accessories. Her corsage was of white carnations.

Mr. Cecil Cannon of Hale Center served the groom as best man.

For her daughter's wedding, Mrs. Smitherman wore a navy blue crepe dress with navy and white accessories and a corsage of white carnations.

The groom's mother was dressed in an orchid linen suit with black accessories and she wore a white carnation corsage.

A breakfast was served the wedding party and guests immediately following the ceremony. The serving table was laid with a white linen cloth with blue cutwork. White tapers burning in silver candelabra centered the table.

Miss Nelle Armstrong of Hart poured coffee and Miss Irene Stewart of Dimmitt served the wedding cake. Mrs. Troy C. Ray of Hart registered the guests.

The bride is a graduate of Hart High School and attended North Texas State College at Denton.

The groom is a graduate of Hale Center High School, and at-

Herbert Mayfield and Marie McLain Are Married in Hart Sunday Afternoon

In a double-ring ceremony on Sunday afternoon, June 3, Dorothy Marie McLain, daughter of Mr. and Mrs. E. I. McLain of Hart, became the bride of Herbert Mayfield of Dimmitt, son of Mr. and Mrs. W. F. Mayfield of Amherst.

Rev. E. J. Kieth, pastor of the Hart Baptist Church, read the service in the home of Mr. and Mrs. Homer Hill, aunt of the

tended Abilene Christian College. He served one year in the Navy.

After a short wedding trip to Ruidoso, the couple is now at home in Hale Center

Godfrey-Powell Vows Exchanged In Hereford Friday

Johnny Godfrey, daughter of Mr. and Mrs. John Godfrey, and Maurice Powell, son of Mr. and Mrs. John F. Powell of Brady, Texas, were united in marriage in a single ring ceremony by Rev. Bob Wear at the Church of Christ Parsonage in Hereford, Texas on Friday, June 1 at 6:30 p.m.

The bride wore a maroon and white dress with white accessories and wore a corsage of orchids.

Bridesmaid and best man were Mr. and Mrs. Mike Powell.

Others attending the wedding were Mr. and Mrs. John Godfrey, and Mr. and Mrs. Glenn Godfrey of Dimmitt.

Livestock Shipments More Than Last Year, UT Bureau Reports

AUSTIN, Texas, June 7—Shipments of Texas livestock rose 87 per cent from March to April, reaching a level 6 per cent above April, 1950, the University of Texas Bureau of Business Research reports.

Cattle shipments increased from 3,669 carloads in March to 7,721 in April. Sheep shipments were up 198 per cent over the same period.

Hog shipments dropped 5 per cent from March to April, but maintained a 15-per-cent margin over April, 1950. Cattle and calf shipments in April were 6 and 17 per cent more, respectively, than in the same period last year, while sheep shipments decreased 6 per cent.

ATTEND FAMILY REUNION

Mr. and Mrs. J. F. Bright returned Tuesday from Brady where they had attended a reunion of Mrs. Bright's relatives. During the trip they also visited friends and relatives in Roscoe and Merkel. They had been gone since Friday, June 3.

Nancy Neumayer, Sue Bagwell, Judith Cleavinger, Zay Gilbreath, and Coyce Wilkinson are attending junior camp at Ceta Canyon Methodist camp ground.

Dock Gillespie and Mr. and Mrs. Finis DeJarnett of Dáhart; Miss Peggy Arthur of Hale Center; Mr. and Mrs. N. F. Mayfield of Amherst; Rueben Mayfield of Dimmitt; N. M.; Mr. and Mrs. Bill W. Carthal of Hereford; Miss Dorothy Carthel of Colo.; Larry

Rice of Littlefield, and Mrs. Della Malone of Littlefield. For a wedding trip to Colorado the bride traveled in a brown suit with white and brown accessories, and a corsage of orchids. After the wedding trip the couple will be at home five miles east of Dimmitt.

Health Talks . . .

Gonorrhea is a much older disease than syphilis, dating back to Biblical times. Syphilis is believed to have been spread through the Old World after sailors in Christopher Columbus' voyages contracted the germ in Haiti.

Though these are both venereal diseases, meaning they are spread by sexual contact with an infected person, they are caused by entirely different germs and actually have nothing to do with each other. Sometimes people seem to get the idea that gonorrhea is a minor form of syphilis which is not true at all.

They are both considered major venereal diseases, quite serious without proper medical treatment. Gonorrhea itself may sometimes appear as only a slight attack which would amount to little were it not for the numerous possible complications. Syphilis under any circumstances is serious.

Gonorrhea, caused by a coccus germ, means a flow from the gonads, the sex organs. The germ is usually acquired by sexual contact with an infected person but there are also records of accidental infections, especially in women, from unclean, infected bathtubs or toilet facilities or towels. The germ may be spread from a towel to the eyes.

This flow from the sex glands that marks the disease is a heavy fluid. There is a burning and stinging sensation when the bladder is emptied because that small canal, the urethra, that carries urine from the body is inflamed due to the presence of the germ. There are other types of infections which cause an inflammation of the urethra, of course, but

if there is any likelihood that it could be gonorrhea, it should be treated immediately. With the modern drugs such as the sulfas and penicillin gonorrhea is usually quickly controlled and cured, making delay in seeking treatment even more of a "biting off your nose to spite your face" attitude. With proper treatment the only danger is in not completely curing the disease; weekly tests for three weeks of negative results are considered essential to making sure that the germ has been wiped out.

Gonorrhea not only is a cause of blindness, it may also be spread to the organs near the urethra, creating the necessity for surgical removal of those organs or prolonged chronic illness.

Both gonorrhea and syphilis may be causes of the failure to have children. There are many other causes of sterility, infertility, and miscarriages, too, however. Syphilis may be one of the causes of bad leg sores called ulcers, though they are more often due to varicose veins. Syphilis may cause the hair to come out, either completely or in patches, on the head or over the whole body, but there are also other causes for such baldness.

Syphilis has sometimes been blamed by the public for pimples and itching conditions of the skin; that is erroneous because syphilis does not cause those. Nor is there any established connection between syphilis and cancer.

Syphilis causes enough trouble without getting other stigmas attached to it. Much of the fear of the disease can be removed when the real nature of the disease is understood and all the superstition surrounding the disease is knocked out.

There are three stages of syphilis. The first is a sore, called a chancre, which appears at the site of entry of the corkscrew-like germ into the body. Since sexual contact is the usual method of transmission of the germ, that chancre is most often located on the external sex organs. It is a slowly developing, persistent type of sore that is not likely to be mistaken for an insect bite or some other corruption of the skin. Syphilis is already pretty well spread through the body when that sore appears and treatment begun immediately may keep the other signs of the disease from appearing.

The second stage usually comes just as the sore is disappearing. There is a real sickness with this stage, a definite feeling bad, with maybe a yellowish tinge developing on the skin and eruptions over the body. There are usually hard patches in the mouth or noes or throat. All of these symptoms may come and go for indefinite periods.

The third stage of syphilis occurs when the germ has localized in the brain, central nervous system, heart, liver, or other organs creating signs of mental and physical breakdown which may lead to insanity, paralysis or death.

The earlier the germ is stopped in its progress throughout the body, the easier the treatment will be. It is in any case prolonged treatment, even with the newer drugs available today because the germ that causes syphilis is a persistent, rapidly moving germ that must be completely removed from the body. Since many of the symptoms may disappear for indefinite periods even with-

out treatment, there is always the danger that unless you have the proper medical supervision that you will stop treatment before the germ is conquered.

With all venereal diseases, treatment is aimed not only at the person who finds he is suffering from the disease, but all attempts are made to find where he got the disease so that the source can be treated too. These diseases are acquired only from one infected person to another person and control of the disease must start at the original infection whenever possible.

Neglect to seek medical treatment is not only a danger to the infected person; it places those he comes in contact with in a constant health threat and endangers the life of future generations.

Mrs. E. L. Carpenter and Pat of Elsa arrived in Dimmitt this week for a visit in the homes of their daughters and sisters, Mrs. Jimmy George and Mrs. James Autry and families.

Nazareth News

Mrs. Joe Warren and son and daughter, Vic and Delores, recently returned from San Antonio, where they visited Pvt. Walter Kern and Lt. and Mrs. Arnold Schmucker and their family. Pvt. Kern is stationed at Fort Sam Houston and Lt. Schmucker is at Kelly Field.

The senior class, their sponsors, the high school teachers, and Mrs. Nick Ehly, and the car drivers, Cyril Neusch, Vincent Ramaekers, and Emil Ehly, all returned from the annual senior trip May 30. The group reported having seen a lot of Colorado. They were particularly enthusiastic about Colorado Springs, Denver, and Canon City.

Mrs. Leo Ball, Mrs. Tony Gerber, Freddie Ball, Mr. and Mrs. Mike Gerber, and Mrs. Mat Gerber, Sr. returned May 26 from a trip to Roswell, N. M., where they visited with friends.

A large group of well-wishers gathered Sunday evening in the

home of Mr. and Mrs. Junior Hochstein to honor Mrs. Hochstein on the occasion of her birthday and Pvt. Al Maurer who left May 29 for Camp Stoneman, Cal. The Nazareth Girls' Softball team also honored Al with a community dance on May 28.

Mr. and Mrs. Bill Hochstein, Sr. and Mrs. Leo Dobbier left last week for Hartington, Nebraska, to join in the celebration of a golden wedding anniversary of a family uncle.

The Nazareth baseball team, playing another game in the Irrigation Belt League met and defeated Vigo Park there on May 27. The final score was 15-6. Nazareth meets Tulia here in their next game.

Mr. and Mrs. Albert Schulte were host and hostess to a large group last Sunday in their home on the occasion of the celebration of their twentieth wedding anniversary.

The St. Josephs Society held a social Sunday for the local members and their wives and lady friends. The social is generally held in the fall but had been

postponed.

The Knights of Columbus have recently donated the sixth volume of "Our Catholic Heritage in Texas" by Carlos E. Castaneda to the school library. Previous to this date, the Nazareth Knights had donated the other five volumes of the set to the library. The fourth degree of Knights also recently donated a copy of the Douay Version of the Bible to the County Library in Dimmitt.

Father Peter Morsch is to attend the retreat held in Amarillo next week, June 4-8.

Sisters Martina and Dorothy of Nashville, Tenn., visited with Mr. and Mrs. Joe Lange and Mr. and Mrs. Swede Schmucker last week. Sister Martina is a sister of Mmes Lange and Schmucker.

Miss Imogene Albracht, who has been attending St. Scholastica Academy, Fort Smith, during the past year, returned to her home last week.

Mr. and Mrs. Robert Husemar announced on May 22 the birth of a son, Terry Wayne. His sponsors in baptism on May 27 were Mr. and Mrs. Jack Litsch.

Farmers, Here Are 4 REASONS

Why You Should Investigate CALFIDE 104

- 'CALFIDE 104' NEUTRALIZES ALKALI

Alkali is the most dangerous enemy to food minerals in your soil. Due to special processing "CALFIDE 104" neutralizes the alkali in soil and renders its effects harmless to plant life and the natural minerals in the soil. Released of the necessity to combat the detrimental effect of alkali, by its own natural elements, the plant will grow healthier.
- 'CALFIDE 104' EMULSIFIES THE SOIL

Alkali and other minerals prevalent in the soils of this area create what is known as "locked soil" condition. By natural chemical reaction "CALFIDE 104" loosens the soil to allow the plant to grow more readily and the soil to receive water and natural hydrogen more readily. By so doing, emulsifying the soil by mechanical methods is reduced to a minimum.
- 'CALFIDE 104' INCREASES CROP YIELD

By preparing the soil to release the natural minerals in it to the plant life, "CALFIDE 104" stimulates plant growth and thereby increases plant production. "CALFIDE 104" is not a fertilizer but a soil conditioner that prepares the soil in such a manner that the plant can grow naturally without having to combat minerals that are detrimental to plant life.
- 'CALFIDE 104' HELPS CROPS REPEL INSECTS

"CALFIDE 104" is NOT an insecticide. HOWEVER, by assisting the growth of normally healthy plants it aids in the repelling of plant insects. Plant feeding insects, like animal feeding insects, do not feed on healthy plant, but on diseased or weakened ones. A plant that is produced under normally healthy conditions repels insects by natural means. Actual tests show that insect festation is always at a minimum on plants grown on soil conditioned with "CALFIDE 104".

about dimmitt and castro county

(Continued From Page 1)

aim. It has all but made it imperative that the Democratic party nominate President Truman for another term, an event that will result in his re-election. The Republican party has failed to come up with any semblance of a unified foreign policy that would meet with the approval of the average voter, and the foreign policy issue will undoubtedly determine the outcome of the national election and today the administration policy is by far the most popular and will continue to gain in popularity as the great debate continues or comes to a close, whichever the case may be.

The County Judge's Association and the Farm Bureau have advocated a natural gas tax law to help defray the expense of state government. They have also supported the proposition of county governments disbursing a special road fund as in the past, as against a new law that would place the special fund in the

CECIL VANDIVER

hands of the State Highway Department for disbursement. Governor Shivers has opposed the two organizations on both counts and his political prestige has gone down accordingly. The governor would do well to think twice before running for the United States Senate, his chances of election have been greatly impaired.

The City Commission went on record Wednesday night as favoring the changing of Dimmitt street numbers for convenience and clarity sake. The Chamber of Commerce is sponsoring the sale of house numbers and street markers. The street markers will be expensive and permanent and it is well that the street numbers be well planned, with a view to the future growth of the city, before the street markers are installed. Chamber of Commerce Secretary Brashears stated that the house numbering and street marking project will now be speedily concluded.

Various committees have been appointed to work the different streets on the sale of house numbers, and they will probably complete their work in the next few days.

Today ushered in summer weather in earnest. Clear, hot weather, with plenty of moisture in the ground, will assure a bumper cotton crop provided we can get some rain in mid-summer. That rain will be forthcoming. The new Dimmitt and Sunnyside gins will be showing considerable wear before the ginning season is completed. Everything points to a good crop year. All gins in the county will have a big job and will still be running next Christmas.

Plans are being made for another agricultural tour through Colorado again this summer. I would like to make the trip again, and will if I can. If this is going to be a diversified farming section I need to learn more about various crops so that I can render a service in predicting crop production other than in just the cotton line. It is quit a responsibility for one person to assume the task of keeping the farmers in a county posted on the outcome of their crops during the early part of the year, when accurate and professional information is really worthwhile.

Sports Afield

By Ted Kesting

When a car or trailer is being packed for a trip afield, one of the first pieces of camping equipment to be stowed within easy reach is a camera. But frequently, carrying a camera and all its accessories into the field is a nuisance.

Commercially-made gadget bags of leather are handy for carrying photographic accessories, and some sportsmen have even built plywood compartments in small suitcases and shoulder packs for toting their equipment. These safeguard the equipment enroute but often are hard to get into quickly.

But now camera expert Ormal Sprungman reports that a friend of his hit upon a new carry-all idea for outdoor photographers...

Field photographers have long been annoyed by their inability to keep camera accessories and extra film where they will be handy when most needed. The small gadget bag is all right if you don't mind something dangling at your side all the time.

However, the carryall vest has advantages over the gadget bag for practicability, convenience, comfort and capacity. It is especially adapted to carrying film holders and accessories for the large

er cameras—2 1/4 x 3 1/4 to 4x5. Pattered along the lines of a hunting jacket, the chief feature of this utility vest is its numerous pockets. The two large inside front pockets will carry at least three film holders each. If film packs are used, these pockets will carry extras.

The four outside front pockets are handiest for the small, frequently used items, such as the exposure meter without case, filters, notebook, pencil and steel measuring tape. The double back of the vest provides the largest pocket, with openings at both sides, for carrying an extra lens or two, film, flashbulbs, focusing cloth and lens hood.

This gadget vest is particularly useful on trips after nature and wildlife pictures. And in cool weather it can be worn under a jacket and just the front pockets used.

Mrs. E. E. Kembrough left Tuesday for her home at Sweetwater after a two months visit with her son, Mr. John Mayhew, and other relatives. Mrs. Kembrough is 93 years of age.

The month of June will be observed on a nationwide basis as Dairy Month. The observance is sponsored by the entire dairy industry.

Texas dairy producers in 1950 produced approximately four billion pounds of milk that was valued at \$200 million.

Livestock that is forced to fight off flies during the summer months cannot be expected to make the greatest possible gains and monetary returns to their owners. These insect pests can be successfully controlled and doing so will mean money to the producer.

It's a paying proposition to handle all insecticides carefully. Don't take chances. Follow the recommendations of the manufacturer in handling, mixing, applying and storing the "bug killing" materials on the farm.

The state 4-H Roundup and Extension Conference will be held at A. & M. College the week of June 25-29.

Last year's income from hunting and fishing leases in Texas, exceeded \$2 million and the sale of furs added several millions more to the wildlife income to the state.

Brucellosis Cure UT Scientists Find Sulphur Helps In

AUSTIN, Texas—University of Texas scientists have made another advance in the search for a cure of brucellosis—the disease now costing U. S. livestockmen an estimated \$100,000,000 annually.

They have found common sulphur is toxic to brucella organisms, Dr. Vernor T. Schuhardt, University bacteriology professor and brucellosis research director, said.

Laboratory tests indicate colloidal sulphur is the toxic agent in certain amino acids and peptides, protein-derived chemicals which have been found effective in killing brucella organisms.

"The problem now is to find a way to keep the sulphur toxic when brucellosis is treated," Dr. Schuhardt explained. "Blood and chemicals in tissues tend to change the sulphur to a non-toxic state."

Brucellosis losses are particularly heavy in the dairy industry where both milk and calf production are greatly reduced. The disease sometimes infects humans who are constantly exposed to it.
