HEALTH PRECAUTIONS

URGED; POLIOMYLITIS
Austin, Texas, June 12-In adlition to the general instructions poliomylitis, Dr. George W. Cox, State Health Officer, today issued an urgent warning to every individual in Texas to practice strict personal hygene to protect his own health and that of those about

sonal hygene are ordinarily taken for granted," Dr. Cox said, "but at this time with poliomyelitis reaching into every section of our state and with more than 120 cases already reported I would like to re-emphasize some personal sani-tary measures which may help in preventing the spread of this crippling and often fatal disease."

e State Health Officer stressed the importance of scrupulous cleanliness of the person. Frequent bathing and immaculately clean clothing are vitally necessary. Oral hygiene with thorough brushing of the teeth and the use of mild antiseptic are recommended. The na-sal passages should be kept clean and dental defects corrected immediately.

liness in the home are instinctive with the average housewife, but at this time their importance to water and rinsing them in hot clear water; keeping sinks, bathand rinsed with a mild antiseptic colution; sunnig and airing bed notes, ridding the nome of files, plitis is believed to be a filthdisease, are suspected as being responsible for transmission.

JIM JOWELL GETS LETTER FROM PRESIDENT TRUMAN

As a result of an idle banter during the past school term Jim Jowell wrote a letter to President Truman asking him the title of his favorite song. The letter was written by Jim at the insistance of bout a chance remark in the school

To Jim's, and his teacher's, delight and dismay the following letter was received this week by Jim from the secretary to the President, Charles G. Ross:

This replies to your letter of April seventeenth, addressed to the President.

In response to your inquiry am glad to tell you that, although the President has no particular favorite song, he is appreciative of practically all types of music. ne of which he is especially fond include those so popular in the first World War, 'Over There" and "Pack Up Your ables in Your Old Kit Bag." He also likes the "Toreador" Carmen; the sextettes from Lucia and Floradora. and Mendelssohn's 'Songs Without Words."

VERNA SUE WOOLERY GETS LETTER FROM FORMER SCHOOL TEACHER

The following letter was received here this week by Verna Sue Woolery from her former teacher, Lt. Oran M. Richardson, co-pilot of a B-17 stationed in England prior to being shot down over

Germany on May 12, 1944:
Middle North Atlantic
Sunday, May 27, 1945 Dear Verna:

Never thought your ole teache would wind up in prison, did you? I've been in some of the biggest and worst prisons in Germany. Three weeks after being liberated by General Patton's boys I had gained about 20 pounds, and now I'm almost to the plump stage. Never do I plan on going hungry again. Being hungry for one day isn't good, for a week is bad, for a month is horrible, but being hun-

gry for a whole year is starvation. I was in hopes of getting back to visit Dimmitt before school was out but it will be around the middle of June before I get to Abilene. Maybe I'll get to visit there one of these days. If I do I certainly hope to get to see you.
Sincerely,
Rich

Wartime Washington

(By Congressman Eugene Worley) Following is the first of a series of reports by Congressman Gene Worley, to his constitutents, on his recent trip to the European battlefronts and into Nazi Ger-

Germany is a nation destroyed. Thousands of tons of bombs, millions of rounds of heavy artillery, and the steady pounding of tanks, machine guns and other small arms have literally crushed a nation of eighty-five million people

Visualize in your own mind ho Dallas, for example, would look after a thousand plane raid with bombs ranging in weight from 2000 to 6000 pounds. Nothing remains of Germany's principal was in or flew at low level over the following cities which were formerly key German points: Coblenz, Aachen, Frankfurt-on-the-Main (now General Eisenhower's headquarters), Mannheim, Ludwigschafen, Cologne, Weimer, Jena, (home of the Zeiss Optical Works) and other towns both big and small. There is no way on earth you can conceive of the absolute destruction of these places without

Authoritative German sources have conceded that Allied power was the deciding factor in knocking out their war production. The Nazis were still producing an amsible for the Luftwaffe to get them aloft without gasoline and oil. The German refineries were of course the principal targets origi-nally and all of them were com-pletely knocked out.

It is my understanding that a great deal of publicity has been given to the notorious German Concentration Camps, I hope every man, woman and child in this na tion has an opportunity to see pic-tures and secure the fullest possi-ble information. Better still, I wish it were possible for every American to view these things in

Amarillo being starved to death. This is approximately the number who were killed or starved at Buchenwald. The filth, stench, disease were unbelievable and dea-th was undoubtedly welcomed by many of the political prisoners rather than a continuance of the living hell in which they were con-

whatever. Each inmate received a of potato peeling soup once a day. This was the complete ration day in and day out. Typhus and dysentery ran riot. Every conceivable kind of body parasites and skin diseases were present. I was in one barracks which measured about 20 feet by 200 feet in which 2300 prisoners were kept.

When we were there the Army of its inmates. They still lay on ragged blankets. Dozens to a room too weak to move. A Texan, Colonel W. E. Williams of Austin, had been placed in charge of the camp and was exerting every effort to clean it up as quickly as possible and to prevent the spread of fatal diseases. He showed me some human skin which had been taken from the prisoners by the wife of the Nazi Commandant of the camp. Some of the skin had been made into lamp shades and other morbid and fantastic items which

ing as many of our own troops to ge through as it was possible to provide transportation for. In ad-dition he was compelling German civilians from the surre communities to also go through the place and see exactly ! barbaric the Nazi Governme really was-if they didn't already

HOW MUCH TO MOVE.

A WAR ?

ALL OUT FOR THE MIGHTY 7" WAR LOAN

First State Bank

As soon as we can, we'll bring to bear on the Japs all the additional might

we've been using against Germany.
What will it cost, this Moving Day of War?

Estimate it in these terms: The job of moving millions of men from one front to

another. Thousands of ships to carry the supplies of battle. Swarms of new-type aircraft to blast the path into enemy territory.

You can get an idea of the cost from the fact that Uncle Sam needs 7 billions from us in the mighty Seventh War Loan—now!

If you have an income—whether from work, land, or capital—you have a quota in the 7th War Loan. Be sure to make it!

FIND YOUR QUOTA - AND MAKE IT!

Training Riding Horses, adver-Training Riding Horses, advertised in our columns, is a problevery cattleman should have it tells by pictures and simple was how to make good riding norres. John C. Burns, manager of the 6305 Ranch and president of the Southwestern Exposition and Fat Stock Show, whose long experience on ranches makes bim competent to speek, says:

on tanches makes him competent to speak, says:
"Porses on commercial cattle ranches are a means to an end. The business requires that cattle he handled at times by men on horses. The better the horses are, the fewer will be required, and the rome efficient the work. The gentle well-trained horse that responds fromptly and accurately to the rides will accomolish far more than the Brone' or the 'Outlaw' and is both safer and more dependable. A gentle, well-trained horse will result if proper training begins with foalhood provided he has been well endowed with possibilities through good breeding."
