The Agriculture Committee of the tural raw material prices.

A mixed lengthy and defauled pieces in the collection of the control based ing the development of the entire North American continent. When completed the project would provide vast rivers of water to 33 of the United States, seven Canadian provinces and three Mexican states. It is believed by engineers that the proposal will get serious consideration by a Senate subcommittee now studying the water problem and which in turn report to the full committee, which is studying the nation's number one need, more water.

need, more water.

I have always depended on the good judgment of bankers, and it is usually a safe bet that they will make the right judgment where money and economics are concerned. Elsewhere on this page of the News we are publishing a piece released by the Independent Bankers Association which reflects our views on the importance of agriculture as related to the national economy as a whole. We have said here many times that ation which reflects our views on the importance of agriculture as related to the national economy as a whole. We have said here many times that if we are to have a healthy national economy, we must have a healthy agricultural economy. In spite of what the President, or anyone else, might say instead of needing fewer farmers we need more farmers for the good of the country. Prices for farm products should be high enough that a family could make a living, and educate their children, on a moderate sized farm. This will only be possible through a sensible and comprehensive government farm program. The bankers of this nation realize full well that the entire nutional economic structure rests on the shoulders of the farming industry, whether it be large or small farm unifs. Once the economy of the farming industry gives down it will left the entire economic structure of the nation crash into a depression from which a recovery might be impossible. The bankers give statistics that prove their point, and it would be well for critics of the past, present and future farm programs to take heed. Instead of reducing the number of farm families, which results in swelling of the unemployed rolls, there should be a united and determined effort to place more people on the farms. There is no better place to raise a family than in rural America, on our farms if you please. We need the kind of people that grow up in the wholesome surroundings of our agricultural areas and our farm towns and hamlets.

Because of Depressed Agricultural Commodity Prices

Bankers Show Farm Concern

Nazareth Swifts Trounced By Determined Bulldogs, Monday

on knotted it up at 48-48 with 1:52 left to play.

Hoelting, who led the Swifts with 22 points, hit twice in rapid-fire fashion to bring his team back into the lead but Anton's Larry Crews hit with 58 seconds remaining to pull the Bulldogs to within two points.

Jimmy Hoelting placed a free throw through the nets which gave Nazareth a 53-50 lead with 40 seconds left but Crews whittled the margin to one with a short jumper with 32 seconds remaining and canned the winning basket with 10 seconds left to earn the Bulldongs a berth at Can-

Federal Land Bank Association Pays Dividend

Dividend payments totaling \$19,393-75 was paid to members of the Dimmitt Federal Land Bank Association last week, Manager Billy Hackleman announced today.

Mr. Hackleman said the dividend checks were mailed Thursday of last week to the associations 417 farmer-rancher stockholders.

The Dimmitt Association is one of farmer-rancher owned associations

73 farmer-rancher owned associations in Texas served by the Federal Land Bank of Houston.

This local association makes Land Bank Loans in Castro County only. The directors are Jack Summers, President; Sid Sheffy, Vice President; Irvin Ott, Ed Drerup and Lester Dowell

County Group . . .

(Continued from page 1)
Plains cotton according to the textile manufacturers is the breaking strength or tinsel strength of the fiber. The manufacturers claim the fiber breaks too easily. The South Carolians feel that Texas could remedy this problem with a better seed quality.

The Spartanburg manufacturers praised the High Plains Cotton as being among the cleanest they have ever used. The textile mills usually buy cotton from the Mississippi Delta region, Arizona and California.

Tuesday evening activities included

region, Arizona and California.

Tuesday evening activities included an address, "Textiles in South Carolina" by Walter S. Montgomery, president of Spartan Mills who also heads the South Carolina Textile Manufacturers Association.

This speech was followed by a lecture-demonstration, Textile Traveler presented by Miss Jeanne Elletson of J. P. Stevenson Co., Greenville. The demonstration depicted the textile industry progress.

The demonstration depicted the textile industry progress.
Wednesday morning the group visited the eye-opening Cotton Division of Pacolet Industries and the Deering Milliken Research Corp. where Roger Milliken, president hosted the group to lunch, Afternoon tour took the cotton group to Mayfair Mills and Imman Mills, Saybrook Plant where they viewed the entire process of milling from raw cotton to grey cloth or the product which is sent to the finishing plants.

piants.
Thursday morning, the tour was completed with a view of the Lyman Printing and Finishing Plant. This plant contained 40 acres under one roof. The group viewed finishing of sheets, pillows, towels and other textiles.

Plains Cotton Growers, promoters of the tour in Texas, is an organiza-tion devoted to improving production and marketing practices for West

The Anton Bulldogs grabbed a hard-earned victory Monday might in the first round of regional playoffs as they downed the fighting Nazareth Swifts, 54-53 in the last 10 seconds of play.

Stocky Larry Crews kept the Bulldogs in the game with 31 points and knocked the bottom out of the Swifts expected victory with a 15 foot shot which hit the nets for the winning basket with a bare 10 seconds remaining on the clock.

Nazareth, which had breezed to the District 5-B title with an 8-0 record, challenged the winners throughout and, in fact, pulled into a four-point lead with less than four minutes on the clock.

Going into the fourth quarter trailing, 39-35, the Swifts with the sure-hitting of Marvin Hoelting tied things up at 5:18 and went on to lead by as much as four points until Anton knotted it up at 48-48 with 1:52 left to play.

Hoelting, who led the Swifts with the sure-hitting of Marvin Hoelting tied things up at 5:18 and went on to lead by as much as four points until Anton knotted it up at 48-48 with 1:52 left to play.

First Baptist George Wilson Circle Meets

expense, and help to prevent the rpemature loss of teeth.

And bliev it or not, xercise is an important element in fitness. Choose any exercise which suits you your age, sex and physical condition and that you enjoy. You need exercise enough to bring on healthful fatigue — vigorous enough to tax the power of your muscles — and regular participation using all parts of the body.

Exercise improves the action of the heart, blood circulation and breathing function. It steps up muscle tone and helps in weight control. And it gives you an overall feeling of zest and well-being.

A person also needs to have a satisfying work, healthy play and recreation, and adequate rest and relaxation.

Personality of the Week

The personality for this week is Mary Lynn Hays. She is the daughter of Mr. and Mrs. A.C. Hays Dimmitt. Mary Lynn was born on April 17, 1950. She is now a fresh-man in Dimmitt High School.

man in Dimmitt High School.

Mary Lynn claims that her favorite movie is "Your Cheatin" Heart". The reason she liked this movie is because George Hamilton was the actor. She says that Audrey Hepburn ranks highest on her list of actresses, Mary Lynn's favorite past time is watching television and listening to the radio, especially if "Moon River" is plaving.

the radio, especially it among the signaling.

Mary Lynn is an active member of the Dimmitt Bobcat Band, F.H.A. and basketball. After graduating from high school, she plans to attend college but hasn't decided where. Thank you, Mary Lynn, for being such an interesting personality of the model.

Attend West Texas University

Dentistry Requires College Degree

Dentistry is the profession that deals with the care and treatment of the teeth, the gums, the soft tissue of the mouth, and jaw. The major part of the dentist's work consists of filling, extracting, cleaning and polishing, straightening teeth, fitting false teeth, and performing a variety of minor surgical operations on the mouth. The dentist must, in the course of his work, use a large variety of instruments and equipment such as X ray machine, drills, burst, and hand instruments. The dentist susually knows how to make false teeth, but he customarily turns this task over to a dental mechanic. Mechanical dextertity is one of the skills that you must possess if you wish the become a dentist. Good avesite 8 through March 13. A committee at you must possess if you wish become a dentist. Good eyesight

Dentistry requires at least four

Met Saturday, Esbruary 13, a meeting of the Dimmitt Chapter of the Young Democrats of Texas was called by president Don Newman. Primary business was that of notifying members of a convention for Young Democrats to be held in Austin during thatter part of March. All YD members who wish to attend should contact Mr. Newman. Hotel reservations should be in by Saturday. Also, a committee was appointed to send mail to our Representatives in state and national government, so that they might be aware of our stand on national issues. The YD's will meet again Tuesday, February 23 at 7:30.

STUDENT SENATE: The Student Senate met with Steve Hutton presiding on February 17. Five new students were chosen to appear on the KFDA television program. They are Chuck McKinney, Paul Easterwood, Linda McColum, Linda Schreck, and Dom Minchew. There will be a volleyyall tournament the week of March 8 through March 13. A committee composed of Chuck McKinney, Beelee Goodwin, Don Minchew, Donna Summers, and Linda Schreck are making plans for that week. FHA: Tuesday the Big and Little Sister Clubs of FHA met to elect officers for next year and to elect Miss FHA for this year, Mrs. Snider presented the Miss Betty Crocker award to Linda Davis. Her test will be entered in the state contest, Congratulations to Linda for this honor.

Young Democrats

Met Saturday

Is February 20-27

Dimmitt High School will join Future Farmers of America throughou he nation in activities o focus attent

the United States and a good bit o

the world.

When the settlers of our great nation came to America there wasn't much farming done. The Indians knew a little about raising their own food but mainly they lived off or wild life (which at that time was very abundant). This was fine for the Indians, but like you and me our forefathers were not the type of people that were used to living like this. So the first industry they began was farming, and even today the most important work done in America is farm work. Without farming our nation would not exist; it was built by farmers and farmers continue to support it.

The Dimmitt FFA has 64 members

Walter Rogers'

I addressed my colleagues in the after I learned that I, along with other Democrats who serve in the House, had been subjected to a vicional Campaign Committee. The press release, by rank distrotion of fact and callously twisted conclusion fact and callously twisted conclusion attempted to impugn the patriotism of those Members of Congress who differed with the primary GOP "party line" to embarrass the President of the United States at every turn re-gardless of cost. I made it clear in my remarks to the House that I resent these tactics that I mean

Middle East dictator. This statement and conclusion I brand as a deliberate lie, and I would include in that catgory anyone of the Republican Compressional Campaign Committee who was associated with this action or knew about it. In my opinion the only thing lower or more contemptible than the act itself would be the people responsible for it. It was, with the content of the continent of Africa. This is also a weapon that could also be used surplus farm commodities to the United Arab Republic for local currency. The foreign policy of this Nation is vested in the President of the United States under the Constitution. The sale of surplus farm commodities to the United States under the Constitution. The sale of surplus farm commodities to the United States under the Constitution. The sale of surplus farm commodities to the United States under the Constitution. The sale of surplus farm commodities to the United States under the Constitution. The sale of surplus farm commodities to the United States under the Constitution. The sale of surplus farm commodities to the United States under the Constitution. The sale of surplus farm commodities to the United States under the Constitution. The sale of surplus farm commodities to the United States under the Constitution. The sale of surplus farm commodities to the United States under the Constitution.

practice that so resembles the Communist propaganda methods. However, if it is war they want, and they intend to continue their attempts at character assassination and to try to drag the names of this Congress in to the dirt, then I here and now serve

smears.

My remarks, spoken before the House, are as follows:

Mr. Speaker, I have in my hand a newspaper release of the Republican Congressional Campaign Committee, which is one of the levert most.

Ine sale of surplus farm commodutes on which this Government is paying storage, has been provided for under Public Law 480. This authority has been used as a weapon in foreign policy to get hold of local currencies up any or its gold reserves for that purpose. The availability of local cur-rencies to our Government is most important in dealing with all foreign nations. If we can obtain these cur-rencies without spending gold, our position is strengthened and the drain

is involved, but also millions and millions of dollars of United States private capital investments. The Communists have long sought to gain control of the vast oil reserve under the control of the Arab countries. Nothing would please Nasser better than to be afforded a propaganda weapon which he could use to solidify the entire Arab world against the United States and subsequently justify himself in expropriating properties belonging to private investors of

the purpose of embarrassing the President of the United States in the eyes of all foreign countries, but would take away from him a weapon that has been most effective in our conduct of foreign affairs and hand this weapon and more with it over to an untrustworthy, irresponsible, and despicable dictator in the Mid-East. Joint Resolution 234 called for a choice between the President of the United States and Abdel Gamal Nasser a Mid-East dictator. Anytime this choice is offered me my vote will be cast for the President of the United States and this converse and let the cast for the President of the United States and this country, and let the chips fall where they may. If my Republican friends want to demago-gue I would not deny them that right. However, I would hope in the future that they do not demagogue with the security of this country or the pri-vate interests of United States citi-zens almost.

Repayment Schedule...spread the cost of equipment over several years, with payments scheduled when you sell crops or PCA loans can be used for all expenses. Let us show you why over a half-million farmers and ranchers use PCA credit.

with a PCA

Buy your next tractor with a PCA loan. Or, if you have a PCA line of credit, add the cost to your present loan. Either way, you get the advantages of modern PCA financing:

Low Interest Rates... and you pay interest only on the money you use and the time you actually use it.

Experience...you deal with men who know agriculture, whose only purpose is to serve you.
