Jerry Vandiver Finds Germany Interesting Place

Castro County, via courtesy of the U.S. Army, Marines and Navy, is the home of a good many people who are or have been world travelers. Foreign travel is always interesting, and young Jerry Vandiver, son of Mr. and Mrs. Cecil Vandiver of Dimmitt is probably finding his experiences in Germany more interesting than most since he is showing considerable enthusiasm over the history and culture of his new home. Following is a letter Jerry wrote to his parents recently which shows that Dimmitt's young ambassadors really get around over the world.

9 October, 1958
Butzbach, Germany

Dear Folks and Sis,
Just a few lines to let you know I am thinking of you. I am sorry I haven't written sooner but I have been pretty busy. I got my clothes three days ago and it sure feels good to get into civies again. I went to Frankfurt that night and had a ball. It is a larger city than I thought it to be. From there we went over to Bad Nauheim to a big festival that they were having there. The night was well spent. I still haven't been out too much, but the times I have been out were really great. I am in hopes of going to Paris before too long. It will be only for three days but that will be something just to get to go.

Not too much has been happening around here. We will be going to the field in about two weeks. It will be cold and wet by then. The days here have all been nice. It has rained a few times but not enough to really make things muddy.

I have been reading the history of Butzbach and Schloss Kaserne. Here is a little of it. I thought you might be interested.

Evidence has been uncovered which indicates that the area was inhabited by man as early as 6,400 years ago. Kaiser Ludwig, the Bavarian, gave the city rights to Butzbach in 1329. In 1609 Butzbach saw the building of a castle by Duke Phillip of Hesse. This castle is the present one that I am living in now.

From 1765 to 1780 the schloss (castle) was used to train Hessian soldiers who were leased to the English Crown. Some of these soldiers were the well known "Hessians" who fought for the British in the American Revolution. From 1824 until World War I the castle was the training grounds for Hessian Cavalry units. During World War I German Infantry received training at this site. In the 1920's German Police were stationed in the Schloss.

During the period of World War II the German Infantry used the Kaserne for training prior to fighting in France and the Soviet Union. From 1945 to 1950 the Kaserne was occupied by displaced persons. Schloss Kaserne is noted for its excavations. In the Kaserne itself is located five tunnels going from the old tower of the castle to Markus Church, the museum, the city house and the watch tower, and the castle Muenzenberg; the castle is only a mile away from where we are. At the present time most of these tunnels are unpassable and walled in with cement due to decay. Hessian money was printed and minted in the old Muenzenberg Fortress about 300 years ago.

As you can see it is a pretty nice place to live for the next 14 months. I just got your letter. It is always great to hear from you. I hope you can read this. If not, jump on to Rosy Bates; he taught me how to type. At this time it is raining a little and is very nice out. I have the tape recorder on and about ten minutes ago one of the girls from the service club brought some cake by and also coffee. A real rough life!!! Write soon. Bye for now.
Love, Jerry

CONTROL JOHNSON GRASS

(AND OTHER GRASSES)

CHEMICALLY . . .

WITH

DOWPON

Unwanted grasses are usually the toughest problem where farming is best. They thrive on the very climate and soils that should produce top crops.

Now you can control grasses, without cutting, cultivating, or oiling. Dowpon is the new chemical way to keep grasses from invading your fields, throttling irrigation and drainage ditches. Hoeing, chopping, cultivating, and oiling only get grass out of sight temporarily. Dowpon gets rid of it.

How DOWPON works

Dowpon is a systemic grass killer—meaning that it kills by working through the plant's system. You simply spray the foliage. Dowpon is absorbed through the leaves and works down through the plant, right into the roots, usually killing the entire plant.

Because it works inside the plant, a Dowpon spray is less likely to be affected by weather conditions. Rain can't wash it off after it has been absorbed.

You can use Dowpon with safety on your farm—foliage sprayed with Dowpon is non-hazardous to grazing livestock.

CASTRO CO-OP GIN

JACK TUCKER, Manager

Have you ever moved? If so, I do hope you were not such 'pack-rats' as we have been for the past twelve or thirteen years!

Man!!! What a mess we have been in for the past week and a half and are still in!!!

I have never, in all my life, seen so much junk!

I just get the kitchen floor and cabinet tops cleaned off so that you can recognize them for what they are and in comes another load of boxes . . . boxes, boxes everywhere and not a box empty.

This is about how it goes . . . Take this box, for instance . . . hmmm . . . letters. Wonder who Jimmie Sue could be . . . letter dated October 12, 1946 . . . Must have been an ole school chum—hmmm.

Oh, here's one from the Smiths, John and Mary, February, 1949. No return address, wonder what ever happened to them.

On and on . . .

Then this box . . . Toys all of them broken—beyond repair.

Another . . . Part of an old coffee pot, top to some off size jar, handle off of something, broken vase, cracked cookie par (no lid), etc.

Still another . . . oops, another box of letters . . . Hmmm, better hide these, but good, before the children play postman and deliver them all over the neighborhood.

Oh, not another . . . yes! Now where did these come from? Diaries—dating back to high school days! Better hide these so my kids AND HUSBAND won't find them. Read them some day when I have time, if I don't kick-off with a heart attack or something.

And what do you know, here's that Christmas gift I got several years ago that I put up. (Put it up so I wouldn't forget where I put it . . . never could remember

where. Finally forgot all about it). Wonder what it's supposed to be.

Oh dear, here's that hat I bought that time my feet were so tired from walking that I wanted to sit down so I went in that hat shop and tried on hats . . . never did wear it . . . wonder how it got up in the attic.

Well, now, what have we here? Copies of the Castro County News dating from 1949. Complete file.

And magazines . . . Parents, Field and Stream, Hygia, True, Good Housekeeping, etc., etc., all dating back to the late '40's. Wonder how the ceiling held all these years.

What, another box of toys? Yes, and all in working order, baby toys. Good thing we had this third one, she can play with these, enough to last for years and years to come.

And here's that box of ?????? Ticket stubs bars of soap . . . (Hotel kind) place cards, corsage ribbons, I.D. tags, address books, napkins, football programs, theatre programs . . . just a box of memories of those carefree days of young married life.

And a box of canned tomatoes, put up in 1947, my first, wonder if they are still good . . . never dared use them, afraid to . . . still am.

Well, what do you know . . . pictures . . . Ha! Ha! Oh, no, that can't be me . . . etc.

My wedding dress . . . yipes! Better fold this up and put it away, but good, before Jack sees how much I've gained . . . Gonna HAVE to go on that diet . . . and here's our marriage license . . . never will forget how Jack forgot to sign his middle name and had to write it in at an angle.

And here is some of my collections, stamps match book covers, picture post cards, china dogs. You

name it, I collected it, at one time or another.

Mmmm . . . and here's some of my school books, workbooks in the second grade on through to the sixth, yes, here's some high school work. (hmmm, thought the kids wrote poorly, but I guess they are doing pretty good . . . according to this.)

Here's a box of nails, steeples, bolts, nuts . . . just junk . . . must be Jack's, I'll throw it away before he sees it or he'll want to keep it . . . don't want to clutter the house with all that kind of stuff.

. . . so that's the way it's been, work, fun, memories, etc. and . . .

Here's the fellow with my TELEPHONE . . . I'll finish this some other time . . . Gotta go now 'nuff said,

Mary

"WHOLESALE" CATALOGUE

You may pay more...

- A wholesale firm is one which sells in quantities to a retailer who intends to re-sell the merchandise to his individual customers.
- The reason the wholesaler can sell at wholesale is because he does sell in quantities — and does not have to deal directly with each individual retail customer.
- A good question to ask then is: How can a wholesaler print and distribute thousands of catalogues to individual consumers, stand the cost of each sales transaction and still sell at "wholesale" prices?
- The answer is: He can't. He is mis-using the word "wholesale."
- By actual comparison, the cost of some merchandise listed in such catalogues is even higher than that charged for comparable items by the retailer.

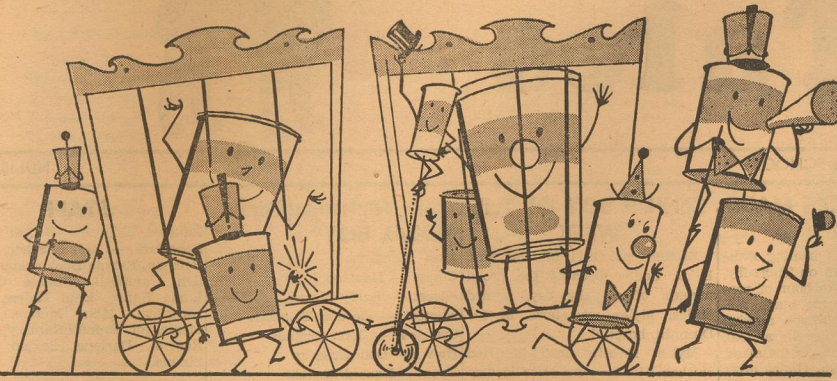

CAUTION - CHECK THE PRICES IN THE "Wholesale" Catalog YOU MAY SAVE MONEY!

the Better Business Bureau Says...

"There is no such thing as 'Wholesale' prices to the buying public, because . . .

... no merchant can stay in business consistently selling merchandise at the same price he pays for it."

B Team Edge By Frosh 14-12

The Dimmitt B Team squeezed by the Freshmen 14 to 12 in a football game here last Thursday. Since Stanley Nelson and Marion Oakley were on the A squad for the Dalhart game, the B boys borrowed Lowell Neumayer to play halfback. Marshall Young moved to the quarterback position to replace Nelson.

PAT'S PATER

Many coats and warm clothing were seen at school during the past few weeks. This is indicative of a change in seasons. Cold weather has at last reached us.

More new fashions were seen in DHS last week. Fashionwise students should take notice of a new hair style highlighted by a variety of "headache bands".

A change in sports will soon be here. In a few weeks people will be going to the gym instead of our stadium. The Bobcats have only one conference football game after they meet Tulia Friday night.

The Pep Squad girls are working on a specialty stunt for our homecoming game.

There was a lot of spirit and interest at the Pep Rally Friday.

Marilyn Campbell was hostess to a surprise birthday slumber party last Wednesday night. The honored guests were Betty Hargrove and Mickey Pelly who received beautiful sweaters and matching jewelry. Others attending the all-night party were Joyce Messenger, Linda Hance, Charlotte Hestand, Sandra Thompson, Sharon Rothwell, and Ed Dena Boozer.

Last Tuesday the English IV classes and the first period World History class saw slides shown by D. L. Wright. He showed pictures of England and Europe. D. L. and his brother Donald took the pictures while in the service. It was very interesting and educational to everyone and we certainly appreciate D. L. using his time to show us the pictures.

The people in the stands Friday night showed their appreciation to the band by cheering and applauding the precision drill which won them a first division in the annual contest last week. Norma Battles also did a special twirling act before the stands with the band for background.

Wednesday before the Southern Assembly started Jack Bradley announced that on Western Day all students and faculty who were not dressed western would find a horse tank full of nice cold water waiting for them.

The trend throughout this part of the country over the Halloween week end was more toward parties and other entertainment other than destruction of other people's property.

BOBCATS UP SET BY DALHART, 13-6

The Dimmitt Bobcats suffered their first conference loss to Dalhart here last Friday night 13 to 6. This put the Bobcats third in conference play with a 1-1 record. Canyon is first with a 2-0 record, followed by Dalhart, who has a 2-1 record. Tulia is fourth with a 1-2, and Friona is last with a 0-2 record.

Dalhart scored early in the second quarter Friday night when their Halfback, Ronnie Ledbetter ran 32 yards around right end. Butch Brown kicked the extra point to put Dalhart out in front 7-0.

The Bobcats' score came in the final period as halfback Norman Nelson ran it over from the four. The extra point try was no good. The last score of the game came with only five minutes left. Dalhart halfback Ledbetter threw a 42-yard pass to end Berry Walker.

Dimmitt made 236 yards rushing to Dalhart's 192. First downs were tied at 12 each. Both teams were penalized 25 yards on 3 penalties. The Bobcats threw 12 passes and completed 3 for 55 yards. Quarterback Carlos Barnes threw 9 of these and completed 3. Norman Nelson, Jimmy Curtis, and Jerry Hyatt gained 75, 83, and 55 yards respectively in 17, 12, and 12 tries. Their averages were 4.5, 6.9, and 4.5 yards respectively.

This was the first team that the Cats had played against this year that had such speed as Dalhart showed. This Friday they will go to Tulia to play the highly rated Hornets.

Another report on the latest teen-slang and "daffy-nitions."
BUBBLE DANCING as done by some Iowa girls is highly respectable — it's their synonym for washing dishes!
CHIC SNEAKERS are shabby in Pennsylvania — it's called "collegiate" there to wear old ones, with all rips and tears patched with adhesive tape.
THE MORGUE — is a special section in the wallets of some St. Louis girls — reserved for pictures of steadies.

SWAMP WATER is the latest in the craze for pop cocktails — It's half root beer and half lime soda. Looks awful murky and tastes eerie.

33 Students Pass Drivers Test

Thirty-three out of fifty-one Drivers Education students in Dimmitt High School passed the written examination recently to get their beginner's operator license. This license carries a restriction permitting them to drive only with a licensed operator in the front seat. After successfully completing 6 hours of behind the wheel training and 6 hours of observation they will be eligible to apply for the regular operator license.

At the present time they are receiving steering techniques and basic fundamentals of turning and stopping. Those students who have successfully completed the 30 hours of classroom work and who complete the requirements mentioned above will receive 1/2 credit toward graduation.

November 11 Honors All Veterans

Until World War 11, Armistice Day was celebrated as the close of World War I. Many people think that the incompleteness of the first war led to the second war. For several years there has been a great amount of speculation as to when World War III will break out. Perhaps, then the term Veterans Day is more appropriate for November 11. It is a day that all living veterans of America's past wars can observe.

The total number of veterans in the United States is surprisingly large. According to the Veterans Administration the living veterans number more than 22,500,000 of the total population 18 years and older of 11,000,000. The Spanish-American veterans number 55,000 and their average age is 79. World War I veterans total 3,040,000, with an average age of 62. There are 15,361,000 World War II veterans whose average age is 37. Of these about 872,000 served again in the Korean War. In addition to these 3,981,000 more saw service in the Korean fighting, and they average 26 years of age.

Veterans Day, therefore, has a much wider appeal than Armistice Day since over 13 percent of all adults, or about 1 out of every 7, have a direct, personal interest in it. November 11 is a day in which we can honor all our veterans of all our wars.

FHA PICTURES MADE AT MEETING

The monthly night meeting of the local FHA was held on Thursday, October 30. After an hour of running to and from the stage and smiling, we were through making our group pictures for the annual. The regular opening of the meeting was led by Linda Hance after which the program was presented. It was concerned with Teen Age Consumers and was under the direction of a committee. Tommie Allen was chairman and the members were Charleen Vaughn, Keitha Davis, and Carole Cowser. Two skits were presented by the sophomore homemaking classes which portrayed two families, one with good money management and the other which had bad money management. The meeting was adjourned with the closing ceremony and refreshments were served.

Modern Education

Two 6-year-olds were talking in the school hall.
 "Say, do you think that thermo-nuclear projectiles will pierce the heat barrier?" one asked.
 "No," the other said, "because once a force enter the field . . ."
 Just then the bell sounded.
 "There goes the bell," the first tot interrupted. "Darn it, now we've got to go to class and string beads."

LIVESTOCK MARKET REPORT

Producers in this area marketed an expanded volume of both cows and stock calves this week. Receipts for the three days of selling reflected an increase of around 1,200 head over the previous week and about 800 more than the same week last year. The cow supply was mainly Canner and Cutter grades, however, a sizable showing of Standard grade arrived for the sale. Quality of the stocker and feeder steers and heifers ruled Medium and Good on Manday and mostly Good on Tuesday. The largest portion of the stock calves was from local ranches and graded Good and Choice. Cows sold strong to 25 higher, instances 50 up on the early round Monday morning. Weak to 50 lower prices were paid for bulls with Commercial grade showing the most decline. During the opening session, some strength was uncovered on stocker and feeder classes. On Tuesday, prices for feeder steers advanced 50c with stock steers and heifers gaining 50-1.00. The liberal volume of stock calves found broad outlet at mostly 1.00 higher levels, with calves grading average Choice and above advancing 2.00. WHAT DOES IT MEAN TO BE OUT OF CHRIST?

It means to be without God. "That at that time ye were without Christ, being aliens from the commonwealth of Israel, and strangers from the covenants of promise, having no hope, and without God in the world:" Eph. 2:12. It means to be without Christ. It means to be without hope. It means being a stranger and an alien.

It means, no peace. "For he is our peace, who hath made both one, and hath broken down the middle wall of partition between us:" Eph. 2:14.

It means to be dead in sins. "And you hath he quickened who were dead in trespasses and sins;" Eph. 2:1.

It means to be in the evil one; in his kingdom; under his dominion. "And we know that we are of God, and the whole world lieth in wickedness." 1 Jno. 5:19.

It means to be lost. Do we really know what it means to be lost; to be punished eternally in fire; to associate with others who are lost?

Walter Rogers' WASHINGTON NEWSLETTER

The Brandenburg Gate has dominated the City of Berlin for over 100 years, both in structure and spirit. Erected in the early 19th century, it was removed by the French in 1813 and taken to Paris then returned to Berlin during the Prussian-French War in 1817. It is adorned by a quadriga drawn by four horses and driven by the Goddess of Victory. Damaged during World War II, it was destroyed in 1945 by the Russians, but has since been rebuilt. The Brandenburg Gate today is more readily recognized as the principal divid-

ing line between the two sectors of occupied Berlin—the German Democratic Republic, or the Soviet Sector—and the Federal Republic of Germany, which is the western sector. Life is entirely different on each side of the gate.

In an address to the German Bundestag in Berlin on October 1, the Federal Minister for All-German Affairs described the provinces of Germany, and the Soviet-occupied Zone have entered the Western Zone as victims of Soviet communism. They currently represent some 23 percent of the total population of the Federal German government. Of this number, about three million have fled from the Soviet-occupied Zone, and in recent weeks they have numbered almost five thousand weekly.

In one sense, it is heartening to realize that freedom-loving peoples never cease their struggle to attain greater individual liberties, and it is an absolute demonstration that Godless communism never fulfills the hopes and aims of the people is governs. It can be assumed, I believe, that the great majority, and those remaining in the Soviet Zone yearn for their freedom in a democratic society, and they look forward to the day when the Soviets will agree to free all-German elections. Consider the future of these peoples remaining in the Eastern Zone in light of these facts: From January 1, 1958 to August 31, 1958, 813 medical doctors, veterinarians and dentists—compared with 250 during the

same period last year—and 115 pharmacists—as compared with 33 last year—fled from central Germany to the Federal Republic, leaving numerous communities and even hospital-temporarily without assistants engaged in scientific research and teaching have left the Soviet Zone.

They all emphasized their flight was not occasioned by financial strain and that they were paid well. The prime reason for their defection was the so-called "socialistic transformation" of the universities and colleges which has been energetically pursued in 1958. This socialization demands of all professors, instructors and assistants an unequivocal and public belief of materialism which many cannot make because they believe it would be a public avowal of Atheism. Also remarkable is the increasing flight of teachers, which can also be blamed on increased political and psychological pressure. In August, 1958, alone, 619 teachers applied for emergency admission to the Western Zone. 412 of them received their education after 1945. Since the beginning of the year, more than 2,300 teachers have thus fled from the Soviet Zone. Since it is generally known in the Western Zone, and since most of the teachers have been employed for some time and are married, it becomes even more apparent how distressing the conflict is which causes them to abandon their professional careers.

Many, many other tragic conditions prevail on the eastern side

of the Brandenburg Gate. The greatest tragedy to my mind is not the lack of medical supervision, the absence of qualified teachers, the lag in scientific development, nor even any possible shortage of the basic necessities of life; but, rather, is the denial of the dignity and spirit which accompanies individual liberties. Suppression of lofty ideals and attempts to substitute fiction for fact as a living standard is inherent in the communist system. I trust that the day will come when individual dignity and freedom will prevail on both sides of the Brandenburg Gate.
