NEVER SLEEP ON AN "UPSET" STOMACH

Neutralize excess stomach acids to wake up feeling like a million

To relieve the effects of over-indulgence — escape "acid indigestion" next day — do this: Take 2 table-spoonfuls of Phillips' Milk of Mag-nesia in a glass of water — AT BEDTIME.

While you sleep, this wonderful alkalizer will be sweetening your stomach . . . easing the upset-feeling and nausea . . . helping to bring back a "normal" feeling. By morning you feel great.

Then — when you wake — take more tablespoonfuls of Phillips' Milk of Magnesia with orange juice. That is one of the quickest, sim-

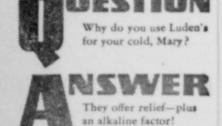

est, easiest ways to overcome the bad effects of too much eating, smoking or drinking. Thousands use it. But - never ask for "milk of

magnesia" alone — always ask for "Phillips" Milk of Magnesia PHILLIPS' MILK OF MAGNESIA * IN LIQUID OR TABLET FORM

Life will give you exactly what us "beyond the domain of civil magyou ask of it-if only you ask long istracy into that intellectual realm enough and plainly enough.-Elea- of motive, desire, and thought,

Lesson for December 11 THE SIN OF COVETOUSNESS

LESSON TEXT-Exodus 20:17; Luke 1:13-21; I Timothy 6:6-10.
GOLDEN TEXT-Thou shalt not covet.

Lesson subjects and Scripture texts se-ected and copyrighted by International council of Religious Education; used by

"The word of God is quick, and powerful, and sharper than any twoedged sword, piercing even to the dividing asunder of soul and spirit, and of the joints and marrow, and is a discerner of the thoughts and intents of the heart" (Heb. 4:12). These are the words that came to the writer's mind as he read the Scripture portions assigned for this lesson. He would fain have set aside his own comments and used this column to print the words from the Bible. If any reader of these lines purposes to read just these efforts to expound the truth, and not to read the Bible itself, let me plead with you to stop here and turn to God's Word. Let its powerful truth grip your soul and change your life.

It seems peculiarly appropriate that this lesson on covetousness should come right in the midst of our preparations for Christmas, for it directs our attention away from things to God, from outward preparation to the preparation of the heart, from greedy desire to true liberality of heart. Christmas may be literally "made over" for all of us if we receive its truth.

I. A Command (Exod. 20:17). "Thou shalt not covet."

This last commandment carries where God alone is Lord and Judge' (Dykes). It deals with the heart, out of which are all the issues of life. It reaches to the root of so much that is wicked and destructive in the world-the covetousness of man. The love of money makes men lie, steal, kill, cheat; in fact, 'the whole realm of human interrelations is disorganized and broken up by the dishonoring of the tenth commandment" (Morgan).

II. A Warning (Luke 12:13-21).

"Beware of covetousness." The teaching of this passage is so directly opposite to all ideas regarding such matters accepted by the world at large, that it may be a total surprise to some readers and ttendants at Bible school.

The yardstick of success in orld-for an individual, and organ ization, or a nation; yes, even for many a church—is the possession of wealth, or property, or other 'things." Write it then in large letters on the hearts and minds of our boys and girls, "A man's life consisteth not in the abundance of the things which he possesseth" (v. 15). The one who was known to his friends (and to himself) as "a rich man" (v. 16), but whom God knew as a "fool" (v. 20), had more than he could use for himself. He had to build new and bigger barns, and could not see the "barns" that were already prepared, for, as Ambrose says, "Thou hast barns-the bosoms of the needy, the houses of widows, the mouths of orphans and infants." He was a fool who loved money for himself. One wonders what he had to say for himself when that very night he was called into the presence of God to give an account of his stewardship (v. 20). If you are similarly situated and have the same attitude, what will you say in that day?

An important point which we must note is that Jesus expressly repudiated the connecting of His name with the so-called "social gospel" in His reply (v. 14) to the question of the covetous fellow who regarded his inheritance as of more importance than brotherly love. Those who are ignoring the gospel of redemption and claiming Jesus as a social reformer or the "judge and divider" of some new economic solucion for the world's ills, need to read and ponder this verse. Every Christian is interested deeply in social problems, but knows that the first concern of Christ and His fol-

lowers is the souls of men. III. A Way of Victory (I Tim. 6:6-

"Godliness with contentment." As a minister of the gospel the writer would first remind himself that this was written by Paul to the preacher Timothy. Brethren in the ministry, let us not fall into the temptation and snare that comes

with the love of money. In this dizzy age when many are so intent on making money that they have no time for home and children, church and fellowship; when men neglect their responsibilities and duties as citizens to get gain; when any dirty business is all right if it produces a profit; when "for gold men betray their country, their friends, their God, their immortal souls" (Farrar)-yes, in this day let us remind men that "we brought nothing into this world, and it is certain that we can carry nothing out." Let us teach and exemplify in our lives the fact that the only real and worth while gain in life is 'godliness with contentment"

"Always Showing Newest Things First" Mrs. Mollie A. Morton, Owner

-Weekly News Analysis Dem-G.O.P. Coalition Gesture May Be 'Middle Ground' Trend By Joseph W. La Bine-

EDITOR'S NOTE-When opinion are expressed in these columns, they are those of the news analyst, and not necessarily of the newspaper.

Politics

America's political pendulum swings periodically from conservatism to liberalism and back again. Coolidge-Hoover conservatism was followed by Roosevelt liberalism, but the return swing to conservatism that started last November 8 is more apt to stop in the middle of the road, than to veer violently back to rock-ribbed Republicanism.

Washington observers, who claim President Roosevelt has discarded middle-road New Dealers in favor of "left-wingers" like Solicitor Gen. Robert H. Jackson and WPA Administrator Harry Hopkins, predict the President must either abandon this policy or lose the support of Postmaster Gen. James J. Farley. The President's answer will come when he names a successor to Attorney Gen. Homer S. Cummings

He made friends with Democrats.

If Mr. Jackson is appointed, Mr. Farley will interpret the move as a build-up leading to Mr. Jackson's presidential nomination in 1940. He will place the same interpretation on any efforts to win Mr. Hopkins

a cabinet post. 1940 possibility, is reported to look | hand in hand with political success. favorably on Secretary of State Cor- Diplomat and commercial salesman dell Hull, the only cabinet member | are often one and the same person. who has refrained from casting his U.S. weapons to fight this aglot with any factional element within velt's choice apparently lies between and co-ordinated Western hemirunning for a third term or endors- sphere defense. To offer these weaping some middle-grounder like Sec-

Evidence is already piling up testhis middle road position. Republicans, who will at last make themselves heard in congress next month, are inclined to assume such an attitude rather than fight for a return to the traditional G. O. P. conservatism. In the senate, where Republicans now have 23 members, they need the support of only 26 Democrats, Farmer-Laborites, Progressives or Independents to hold a majority.

By catering to the middle-ground idea, the President can possibly forestall the rising tide of Republican strength which is being built on this very platform. He can also avert a revolt in Democratic ranks. which otherwise will almost certainly rise to the surface during next congress. A meeting of Republican and Democratic minds is already evident on curtailment of governmental expenditures and a new policy for administering relief.

Oregon's Sen. Charles L. McNary. Republican minority leader, has announced that "Republicans will join with other groups" on such a program. One of his plans, that of turning relief administration over to bipartisan state boards, finds exley, a Democrat. His political cohort, Sen. Edward R. Burke of Nebraska, has announced that although the Bailey proposal is a "Democratic move," Republican support will be welcomed.

Snugly ensconced in his Bavarian mountain aerie at Berchtesgaden, Adolf Hitler can await Christmas morning knowing his stocking will be full. Established in 1938 as the master of Europe, Der Fuehrer is now able to sit back and watch the spoils of his diplomatic and military conquests mount throughout Europe. Among the latest spoils:

(1) Little Czechoslovakia, reduced to vassaldom, has agreed to let Germany build two canals and a superhighway across her, connecting Germany proper with Austria via a new short route. Both canals (one on the Moldau, the other on the Oder) will join with the Danube river and furnish an unbroken waterway from the North and Baltic seas to the Black sea. Thus will Hitler's economic grip on central Europe be

(2) With Great Britain definitely treaty with Britain's ally, France, whereby a barrier is erected be- I tack may prove fatal.

tween these two great European democracies. More important still is the fact that France's current economic and political chaos is a direct result of war preparations necessitated by Germany's aggressive policy. To put down a strong Communist uprising. Premier Edouard Daladier has been forced to exercise an iron hand that looks dangerously

(3) It is quite probable that Rumania's King Carol, having shopped unsuccessfully for financial aid in Great Britain, will accept Hitler's promise to buy Rumanian wheat and oil in return for German manufactured articles. This would give Germany a new wedge in her economic drive to the southeast.

like Fascism.

The only unpleasant note in an otherwise happy Bavarian Christmas will be Poland's attitude. Although Hitler safeguarded his path to the southeast by blocking a proposed Hungarian-Polish plan to annex Ruthenia from Czechoslovakia, the victory has brought him Poland's indying hatred. Poland will oppose Der Fuehrer's plan to create a new Ukraine republic in Sub-Carpathian Russia, and will also tighten its friendship bonds with Russia at Germany's expense.

International

One day 115 years ago, President James Monroe stuck out his chin against the "holy alliance" then threatening the world in general and South America in particular. His statement: "We could not view an interposition for oppressing them (the Spanish-American republics) or controlling in any other manner their destiny, by any European power, in any other light than as a manifestation of an unfriendly disposition toward the United States."

In the century that followed, the U. S. has clung tenaciously to its Monroe doctrine, sometimes blushing guiltily at charges of "dollar diplomacy" in South America. But in 1938 there has arisen a threat far greater than the holy alliance, the Fascist-Nazi triumvirate of Germany, Italy and Japan.

How far these nations have penetrated into South America is debatable, but few observers deny the threat. Though the triumvirate may have no territorial ambitions in Pan America, it is significant that Nazi-Mr. Farley, casting about for a Fascist foreign trade success runs

HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELF!

High Heels

I ELLO EVERYBODY:

This is a story about high heels, and horses, and about a fellow who had one foot in the stirrup and one foot

The guy is Lee Burgess of Toms River, N. J., and if any of you fellows think, like I used to, that high heels are no good for anybody but women, and not any too good for them, Lee will give you an argument on the subject. Lee knows at least one good reason for wearing high heels. And for men wearing them, at that.

When Lee was in his early twenties-and that was back in the fall of 1919—he spent a few months on a ranch near the little town of Walden, Colo. A city greenhorn, he was vastly impressed by the scenery, by the cattle business, and by the life he saw going on around him. "But most of all," he says, "did I admire the cow-punchers and the easy way they handled the spirited cow-ponies they rode. I fairly ached to emu-

Learned to Stick on a Horse's Back.

Lee says there's no finer, more generous or more open-hearted class of men than the cow-punchers. They gave him their friendship, and along with it all kinds of good advice on the handling of horses. They started him riding on safe docile ponies, and although he was quite awkward at it, he soon learned to stick on a horse's back well enough to go riding with the boys, rounding up strays, cutting out calves and doing the thousand and one odd jobs that man and horse have to do on a big ranch.

"As I progressed," says Lee, "I quite naturally changed from the slower, more patient ponies to faster, more highly organized animals. My seat improved, and with greater ease in the saddle my confidence in myself grew by leaps and bounds.'

And quite often it's nothing more than a little too much confidence that leads you into one of those good old-fashioned hair-raising adventures,

"One bitterly cold day," says Lee, "when the air was as clear and sharp as thin glass, it was decided to move some 500 head of cattle from the home ranch down to the Old Ranch for winter feeding. I asked to be included in the crew and felt mighty proud when I was accepted by the foreman. With the temperature at forty below zero it was a job to keep warm. I dressed in heavy underwear, mackinaw, blanket pants, hair chaps, wool-lined coat, mittens and cap. It was all I could do to navigate in all-this haberdashery. Having put on two pairs of heavy woolen socks, my feet were too large for the tight riding boots I usually wore, so I slipped on some big work shoes and buckled my spurs to them."

And that was an error that Lee nearly paid for with his life, for those shoes had flat heels, and not the high ones with which Western riding boots are generally equipped.

Horse Had Bad Disposition.

The horse Lee had chosen to ride was "Bill," a big, rangy buckskin, fast on his feet, but not noted for his good disposition. They rode over to the cattle corral and the boys left Lee at the gate ready to swing it open when the animals were bunched up for the drive. Sitting on his

Felt as if his leg were being torn from its socket.

horse, he got colder and stiffer every minute he waited. Finally the herd was bunched and headed for the gate-big, heavy, Hereford cattle, lowing, bawling and making wild dashes hither and yon, "Hereford cattle," says Lee, "are peculiar. They will not attack a mounted man, but they are deadly to one afoot. I didn't know this, and since the gate was heavy and I was all bound up in excess clothing, I slipped off Bill to swing it open.'

The next thing Lee knew he heard a yell from the foreman and looked up to see the herd almost on top of him. Someone yelled, "Get on that horse. Yuh want ta get killed?" And Lee moved plenty fast. He put his foot in the stirrup and swung himself on his horse, but because he was stiff and cold and hampered by a lot of excess clothing, his right foot didn't quite swing clear. Instead he gave Bill a rake across the hind-quarters with his spur, and Bill jumped. Lee lost his hold. The next minute he was on the ground, hanging by his left foot to the stirrup. His low heel had slipped through and his ankle was held in the bow as if he had had on a leg iron.

"Bill started to run," says Lee, "with the cattle pounding right on behind. My head was dragging at the horse's heels and his steel shoes actually stirred my hair. I knew that to put my arms over my head was to have them smashed. My only hope was to work my foot free and take my chances with the cattle. The horse ran faster and faster as he became more frightened at my weight dragging alongside. Contrary to reports, my sins did not troop before my mind at this time. All I thought of was to get my foot free, for my leg felt as if it were being dragged from its socket."

Could Feel Death Clutching at Him.

Lee says he could fairly feel Death reach out and clutch at him. One fate had him fast by the foot, dragging him to doom; another thundered along behind him. If he wriggled from the grasp of the one, he was sure to fall under the pounding hoofs of the other.

To right and left he could glimpse the legs of other horses about him, and knew his friends the cow-punchers were doing their best to save him. "But I knew, too," he says, "that help couldn't possibly come from them. The cattle seemed to have fallen away somewhere, but I still had to get loose from my horse. I kept tugging on my imprisoned foot, and suddenly there was a snap. The lace broke, my shoe came off and I was lying on the ground, quiet, motionless. Believe me, for a moment I was the most comfortable man in the world.

The boys were around me, helping me up. I'll never forget the foreman, a young man with a fair skin, for the freckles stood out on his paper-white face like legal seals on a state document. They carried me to the ranch house, and when the reaction set in I was a pretty sick boy for a while. The foreman told me he never expected to see me come out alive. A short time before, a puncher on a neighboring ranch had been dragged by the foot in a like manner, but his frenzied pony had literally kicked his body to shreds."

And that brings us around to Lee's argument about high heels. You see, when they're on a puncher's boots, they're not for show, but to keep the foot from sliding through the stirrup and prevent just the sort of accident that almost had Lee up before the celestial bar of justice, cashing in his chips for a first payment on a harp. their graft.

WASHINGTON. - The state of | national government than the way Georgia has a provision in its state | that has been chosen-through the constitution that effectively prevents use of money. In fact, it seems an accumulation of state debt. It is one of the few states having such a constitutional inhibition of that kind. But the fact that such a provision exists in Georgia suddenly has become momentous in the eyes and minds of the New Dealers, headed by the President, himself. Because it is in the news, however, Mr. Roosevelt's criticism of the provision forces a review of the facts and implications flowing from that charter provision.

Mr. Roosevelt said recently while sojourning at Warm Springs, Ga., as he does frequently, that Georgia will get no more federal money. His particular peeve at Georgia resulted from the fact that the state has not amended its constitution to permit it to borrow directly from agencies of the federal government as most other states have donewith federal money flowing like streams at flood. The President was disgusted with Georgia's attitude; hence, the federal government is all through with giving the state more

Of course, it is only my opinionthe opinion of only one observerbut it nevertheless strikes me that in years to come, the citizens of many states will have cause to regret the absence of such provisions from their respective state constitutions. It is only a question of time. Politicians and over-zealous advocates of "improvements" and the like have been rushing to the federal feed trough in droves, carrying away checks. They have borrowed billions from the national government; they have received grants or gifts of other billions for the country as a whole on condition that they put up additional funds to match or equal the federal gift, and they, in consequence, now are loaded down with debt. So, I say there will be cause for regret that so few states have the same provision as Georgia has when the time comes for payment. There must be taxation if the debts are paid, or there must be that awful thing, repudia-

Must Be Additional

Taxation, or Repudiation

Former President Hoover has had much to say about the waste that has been going on, and has coupled those observations with the possibilities of staggering burdens of taxation. So has Sen. Harry Byrd, Democrat, of Virginia. Mr. Hoover's criticisms have been laughed off by the administration here because Mr. Hoover is a Republican. Senator Byrd's jibes have been pooh-poohed because he has insisted on sound government and has been frequently anti-New Deal. But Mr. Hoover and Senator Byrd each have stressed a little noted phase of potentialities inherent in the situation. They have talked about moral codes.

Now, it appears, as I said above, there must be additional taxation to meet these loans (whether from the federal government or from private borrowers) or there must be repudiation. Repudiation is simply and plainly a refusal to pay a debt. Refusal to pay an honest debt makes deadbeats.

In the light of these facts, I want to make a little prediction. I am going to predict that there will be movements in many states within 10 years to have the federal governmust relinquish its claims against those states; to have congress pass legislation that will say to the states, in effect, "Just tear up the papers and we will tear up your notes and bonds and forget about the whole thing." Politicians of the unsavory, demagogic type will leap onto such a thought and shout from the housetops of every community in the state that the federal government-that great and rich government-ought to forego collection. They will have all kinds of arguments why it ought to be done, but their real reason for doing so will be to obtain votes for their own election to office. They will be saying to the people that it will not be repudiation if the federal government says it does not desire to collect; yet, it is my contention that such proceedings will be thoroughly dishonest. It will be exactly the same as if the state had said: I won't pay.

President on Wrong Track

In Lambasting Georgia

When Mr. Roosevelt was giving the people of Georgia a tongue-lashing, therefore, I believe he was onthe wrong track. He was lambasting them for continuing to run their affairs on a sound basis, for continuing to avoid subservience to the national government, and for refusing to surrender completely the rights of a sovereign state. For, be it known, there are very few easier ways to force a state or county or city or other subdivision of government to become "bossed" by the

Texas-New Mexico Utilities Company

The Little Fir Tree

By Henry Harding

THERE was very little sunlight in the forest. The trees were so big, all the grown up trees. The little fir tree stretched himself, and tried to imagine himself as full grown. Looking up at the sky and the stars and the moon, he listened to the big trees talk. "Isn't the moon bright tonight," one would say; and there would be a gentle rustling of their leaves as the trees would shake their heads in agree-

"I'm afraid you're going to be stunted, because there is so much shade here," a little squirrel said to the fir one day as he jumped into its branches and brushed the top limbs with his bushy tail. "It takes sunlight to make anything grow strong and tall."

So the little fir tree stretched himself up, and kept his head pointed up toward the spot of sunlight he saw clear up through the maze of heavy tree growth. He could be straight and upstanding, even if he hadn't grown tall.

Today the ground was all covered with the snow which stayed white in the forest. All but a few birds had gone south. Every once in a while there was the sound of steel striking against wood, and infrequently a crashing sound of falling

The tall trees began to tremble. The woodcutters are out. But this is a funny time of year," one mur-

tree," he said. "It seems to glow."

mured to the others. Then one of the little snow birds spoke. "Have you forgotten that every year they come to cut Christmas trees?"

"What are Christmas trees?" the little fir asked.

"Oh, they cut down the trees and take them in the house, and put candles on them so they look like stars, and spangles that look like snow shining in the moonlight. And the people sing songs and give each other gifts, and it is a time of being glad," the little snow bird twittered. "Oh, I wish they would take me,"

the little tree cried in excitement. "I'd love to see it all. I'd love to make people happy. But I'm too little," and he sighed unhappily.

"Sh! Let's all be quiet," one of the tall trees exclaimed. "The woodsmen are coming near us. We must be quiet so they won't notice us. Then we won't be cut down and left to die."

But in spite of their silence, the men drew near. They looked at the trees, and one of them said: "Oh, these are all too tall. No house or church could hold them. Let's get

Just then a little lad who was riding in the sled, called to his father: "Dad, can we find a little tree for sister? Couldn't we find a cute little tree to put in her very own

"Ho! Ho!" laughed a big rough man. "In her own room? No little girl will stay in her room on Christmas day!"

The lad's father answered, sadly: "Yes, my little girl will. She had infantile paralysis last summer, and hasn't been able to walk since. Surely, son, we'll find a little tree for

"Here I am, here I am! come and get me," the little fir tree called out lustily. And the little boy turned and saw the branches trembling. and the little snow bird flying away.

"Why, dad, there is a cute little tree over there. Such a beautiful straight tree. Wouldn't that do?" he called.

The man got out from the sled. He walked to the tree and fondled it gently. "I never saw a more beautiful tree. It seems to glow. Molly will love it," he said with a smile.

The little tree was so happy that he didn't feel the blows from the ax that cut him to the ground. And when they put him into the sled, he was still happy. The little boy called to his father: "It sounds as if the little tree was singing when the wind blows through its branches." And the little tree laughed delight-

Simplification in Old-age Insurance Procedure

Amarillo, December 7 .- Further implification in the old-age insurance procedure under the Social Se eurity Act was a anounced today by Dewey Reed, marager of the Ama villo office of the Social Security

"Statements by employers," h said, "covering only the 1938 wages will not suffice in connection with claims filed by wage earners reach ing age 65 and the survivors or es tates of those who die. Wage data for 1937 can now be obtained from the Board's own ercords as the post ing for that year to individual so cial security accounts has been com ploted. In the future, wage record from employer's will be required only for the 'lag' pealed, or the time re quired to receive the wage erport through the Bureau of Interne Revenue and post them to social se curity accounts."

Reed referred to the recent action of the Bureau of Interni Revenue is abolishing reports on Form 88-3 previously required to be filed who a worker reached age 65 or died, as another important step in the simplification of the procedure.

"The procedure has been simplified also for claimants," Reed point ed out, "as they now need not go to the expense of having their ap plications notarized. A Cartificat of Identification, requiring only the signature of two witnesses, will suffice in the future in lieu of the swor statement."

Mr. Reed said any wage earne who has reason to believe that prope wages, on which benefits in futur years are based, have not been credited to his individual social security account, can learn the amount of wages credited to his account for th year 1937 by communicating with the Social Security Board, Candler

Frances Miles, who's been doing dent. She says they'd have more one to six feet deep. members if it weren't that a girl has to be practically unbreakable if she wants to join.

Samuel Goldwyn wanted a couple of dozen members in "The Cowboy will help a child to become re. and the Lady," but found that he was lucky to get 10. In these days when Westerns are so popular the unbreakable girls are in demand.

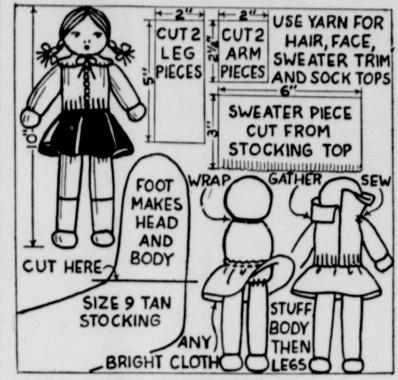

Radio performers are like the sailors who spend their hours of shore leave rowing in Central park. Frances Adair, who sang soprano until radio discovered that she was better as a contralto, was flourishing one hand around quite a bit recently at a "Johnny Presents" rehearsal, to the bewilderment of the keep the pieces large enough so other girls in the "Swing Fourteen" ensemble. Finally it came out that that the child can identify what he she'd spent her spare time the evening before at one of the quiz shows of the air-and had won a gold wrist watch.

"Sully" Mason, who is saxophonist and vocalist with Kay Kyser, the "College of Musical Knowledge" Then, too, when a p-wnu-C. Houston Goudiss-1938-40, man, was a classmate of Kyser's at the University of North Carolina. When Kyser organized his band "Sully" was the first man he hired -just 12 years ago.

> It has been reported that Franchot Tone would leave the movies for the stage, that he'd stick to the movies, that he'd do quite a lot of things. It isn't generally known that he's conferring long and earnestly with "Pepper Young's Family," who is scripting a show for him.

> ODDS AND ENDS-They had to keep "The Young in Heart" two weeks at New York's Radio City Music Hall -that's a sure sign that the public loved the picture . . . No matter what anybody tells you, W. C. Fields left that radio spot because he didn't like his material, not because the sponsor didn't material, not because the sponsor didn't like W. C. Fields . . . Jane Froman, of radio's "Star Theater," has worked for forty different sponsors in eight and one-half years, sung 9,000 songs—and kept a record of every broadcast! • Western Newspaper Union.

Ruth Wyeth Spears

as gifts. Doll collecting is becoming a popular hobby for grown-The most valued dolls are of whatever materials may be at hand and reflect the individuality of the person who made them. Rag babies of all kinds have an important place in such a collection. You will enjoy making the one shown here. Book 2 offered herewith also offers many suggestions for making and dressing dolls from scraps of materials.

If you want to make the stocking doll, clip these directions and keep them as this doll is not in either of the books offered here. The head and body are made of the foot of the stocking cut off where the heel begins, as shown. Stuff this part with cotton or bits of soft clean rags, sew across the bottom and then wind a thread around so that the toes of the stocking will form the head. Fold the leg and arm pieces lengthwise, stitch, turn and then stuff. Wrap thread around to make divisions for hands and feet. Sew the legs to the body, then add the skirt. The arms are sewn on top of the sweater piece and the sweater col lar is turned down over this sew-

New Dresses for Holidays

THESE two designs bring you brand new fashions for midwarns me you would sag under the season dresses you'll thoroughly enjoy wearing to all the luncheons and festive afternoons of the holidays. They're so easy and simple to do that you can finish them in plenty of time. Choose truly lovely materials, in colors that make you happy and flatter your eyes-you can be extravagant about the fabrics, when you save by making your own with these patterns (detailed sew chart included with

Drape-As-You-Please Dress.

This is not only new-it's the very newest, a real sensation, and so easy to make! It is made with a straight back and bias cut front that you can wear with the fullness at the sides, fullness all round, like a dirndl, or fullness concentrated in front, as the picture shows it. Then fasten the belt around your middle, creating a soft, bloused line above! The shirred shoulders and square

Favorite Recipe of the Week -

MAPLE SYRUP CAKE

1 tsp. soda ½ tsp. salt ½ tsp. cinnamon 1 tsp. baking powder shortening 2 eggs cup maple syrup 212 cups flour tbs. cold coffee 1 tsp. vanilla

Beat the sugar and shortening, add beaten eggs, maple syrup, Sift flour, salt, cinnamon, and 14th Street, New York, N. Y. baking powder together, add alternately with the buttermilk in which the soda has been dissolved. Add vanilla. Bake in three eightinch layer cake tins. Oven 350-375 degrees. Put together with

the following icing: teaspoon vanilla and enough cream to spread. Beat until ready This caramel icing to spread. before spreading, add more cream.

neckime are just as flattering and smart as they can be! For this, choose silk crepe, velvet or thin

Girdle-and-Panel-in-One Dress. Of course that midriff section isn't really a girdle-it just looks like one, and the way it is extended into the front skirt panel simply makes the pounds melt from your appearance. This is a beautifully slenderizing dress, and so elegant-looking, designed with such good taste! It fits beautifully. Gathers above the middle section and below the shoulder give just the right amount of fullness to the bodice front. You'll feel so grand, and look so slim, if you make this of velvet, wool broadcloth, satin or silk crepe.

of Christmas

Tilting back the blurred mirror. she surveyed herself critically. The effect seemed entirely satisfactory. Betty sighed ecstatically. "I look like a million dollars," she breathed. "I-I can almost convince myself that I am a great lady tonight."

Carefully her silver-slippered feet descended the narrow stairs. She must get away as quickly as possible. What would the unromantic Mr. and Mrs. James Barstow say if they saw the Cinderella of their kitchen arrayed in garments like Betty chuckled at the thought. They would think she had gone crazy if they found out that salary to rent the things she was wearing, and to buy a ticket for the "But they never will find out," she told herself, as she carefully closed the back door behind

cab. On the way down, she heard the voice of Christmas everywhere. She saw its symbols in shop windows; in arches of green and red

Her prince was standing in the doorway, his evening clothes replaced by clean blue overalls.

strung across the streets. She told herself it must be the Christmas feeling in the air that made her do this daring thing. It was utterly ridiculous to dress up like a great lady, but one had to be different at Christmas. And life had been pretty dull for Betty since she had to accept the work she was doing

The story of the opera took her back to a medieval world. In a few moments she was completely lost in its atmosphere, so much so that she failed to notice that the man seated at her right was sending admiring glances in her direction. When the curtain went up, he leaned over and spoke.

"I love this," he said simply. "I do, too," Betty answered, with

a little catch in her voice. It seemed incredible that he was speaking to her. He was really acting as if she belonged. By the time the curtain went up again they were calling each other Prince and Princess: taking the names of the two leading characters on the stage.

As the great drama moved to its close Betty tried to hurry away. She didn't want her Prince to find out what an impostor she was. But he had taken hold of her arm. "Couldn't we go and have some coffee?" he suggested. "I know I'm a stranger to you, but-but, it's

"I should say 'no'," Betty told herself. "I should even tell him the truth about myself." Instead. she accompanied him to the coffee shop across the street. She couldn't deny herself this one hour of happiness. After it was over, well-Betty would not let her thoughts go fur-

She almost forgot that she was playing a part as they sat together. They seemed to have so much in common. He had read widely-the type of books she liked; he took an interest in so many things she liked; seemed to be as romantic and visionary as herself. But he spoke no word to indicate that be wanted to see her again.

Gloom enveloped the world for Betty next morning. As if to add to her humiliation and misery, a clogged-up drain was sending oozy brown water back into the sink. Her feet dragged across the floor as she answered the plumber's knock.

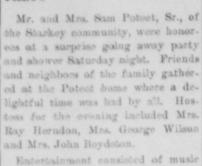

Then the world spun dizzily around her for a moment. A rush of joy, of wonder, lifted her heart. Her Prince was standing in the doorway, his evening clothes replaced by clean blue overalls, his good-looking face wrinkled in bewil-

"I-I thought you were-" he

Betty gasped in answer.

When explanations were over. a make-believe Prince and Princess were wondering if Christmas wasn't the very nicest time for a wedding ceremony.
