

TEA Urges De-emphasis Of Band and Athletics

(Third in a series on a new Texas Education Agency progress study and evaluation of Dimmitt's public schools.)

"Imbalance" has been a key word used by the experts in evaluating Dimmitt High School's curriculum.

THE WORD has cropped up with uncomfortable frequency in the recent school evaluation reports — that of the visiting committee headed by Dr. Morris Wallace last year, and the one last month by Dr. Ted E. Edwards and J. A. Anderson of the Texas Education Agency.

Their use of the word "imbalance" has implied mainly a need for more courses in the high school, or a strengthening of present courses.

But, oddly enough, the experts have also agreed that two of Dimmitt High's strongest programs have created serious "imbalances" themselves.

THESE ARE the band and athletic programs. While admitting that both programs are excellent for a high school of Dimmitt's size, they said the band is overemphasized to the point of excluding a choral or orchestral program, and that athletics are overemphasized while the overall physical education program suffers.

Such professional complaints against bands and athletics are becoming more common everywhere. And the charges aren't leveled against the schools alone. They're leveled against the public, which forms booster clubs and demands good bands and winning teams. They're leveled against newspapers, which give more space to sports than to science.

TO THE evaluators' charges, Dimmitt's band and athletic booster clubs — and the taxpayer public — might reply, "They can go jump in the lake, because we like having a good team and a good band — we've worked hard to get them, we're proud of them, and it's what we want."

But that isn't all there is to it, because the school's state accreditation and its Interscholastic League standing are now at stake. Now that the school has been warned, it must balance its music and physical education programs or run the risk of losing its professional standing as a school.

Last year's professional evaluation of Dimmitt's public schools resulted in a 120-page report. But in addition to this thick booklet, Dr. Wallace submitted a confidential report to the school board in which he let the verbal chips fall where they may. The board has now released this confidential report to the News.

HERE'S what Dr. Wallace had to say about the school's music program in his confidential report:

"The visiting committee showed much concern and devoted much discussion to the music program. The evidence available to the committee indicated that the program in music needs serious and systematic study in the interest of correcting obvious curriculum imbalance."

"The committee was impressed by the quality of the instrumental music program, its organization, equipment and direction, and the morale of the students. The committee expressed great concern, however, that instrumental music was limited and perhaps restricted to band, with no effort to provide either orchestra or choral music except for choir in the junior high school."

"**THIS situation creates a serious imbalance** in the overall school curriculum and in the music program in particular. It is also inconsistent with the stated school philosophy and objectives."

Dr. Wallace made several recommendations "to correct this condition and provide a more comprehensive program in music and the other fine arts that will meet the needs of all students who have musical and artistic talents in addition to, or other than, band instruments."

He recommended that the schools develop high school programs in choral music, orchestral music, and speech and dramatics. He added that these fine arts programs should be designed to complement rather than compete with the band program.

"**THE SUPPORT** for these fine arts programs," he said, "should come from the school budget rather than directly from the community (Booster Club funds). This policy would encourage the development and nurturing of total community pride in the total school program rather than in a particular segment or part."

Last month, the Texas Education Agency evaluators seconded Dr. Wallace's findings. They said:

"Imbalances in the band program should be removed. It seems apparent that this program unduly influences academic programs from grades 5 through 12."

But in his confidential report to the school board, Dr. Wallace said the schools should concentrate less on athletics and more on general physical education.

Dr. Wallace said the weaknesses lie in a lack of equipment and adequate facilities. The physical education program suffers, he said, because the necessary equipment isn't there for all the desired activities.

IN HIS confidential report, he said: "A serious study should be made by the administration to determine the degree to which the program meets the state standards. A more comprehensive

program (for girls in grades 7 through 12) should be developed and proper equipment provided. Curriculum guides and courses of study for girls should be planned to insure needed coordination at the various grade levels.

"The committee recommends the inclusion in the (boys') program of more recreational sports that carry over into adult life, and much less emphasis on major sports. Boys should be assigned on the basis of age or grade level. Immediate consideration should be given to the development of curriculum guides and courses of study."

THE TEXAS Education Agency team last month, after reviewing Dr. Wallace's recommendations and studying the current physical education program here, said simply:

"Re-examine your physical education program in grades 7 through 12."

This can be interpreted, Supt. Paul Hilburn says, as meaning that the schools are not now meeting the state's requirements for physical education.

DR. WALLACE totaled all these pluses and minuses in the band and phys-ed programs when he said in his confidential report: "The committee members were very concerned that (a) Interscholastic League regulations were being violated in the use of more than one period of the school day for league-sponsored activities, (b) band and athletics were overemphasized, and (c) there is a need for school policies that would prevent encroachment of some activities upon the time and support of other academic and extracurricular activities. This condition created an imbalance in the total school program."

And the Texas Education Agency evaluators, in their report last month, indicated that they feel these imbalances still exist here. After its survey last month, the TEA served notice that it will be back this fall to conduct another full-scale evaluation.

Demos Expect Close Finish

Nominees for governor and Seventh Civil Appeals Court judge will be decided Saturday as Castro County Democrats troop to six polling sites to make their choices.

DEMOCRATIC leaders here expect the hot race for the governor's nomination to be as close in Castro County as anywhere else in Texas as Houston Attorney Don Yarborough and Lt. Gov. Preston Smith of Lubbock vie for the nod.

Both candidates have carried Castro County in their past races. In the 10-man primary May 4, Yarborough led the ticket here with 524 votes, 22 percent of the 2,332 cast. But Smith trailed him

by only 2 percentage points with 476, and the rest of the vote went mainly to Waggoner Carr and Dolph Briscoe Jr.

It's anybody's guess as to how the county's Carr and Briscoe supporters will switch their votes in the Smith-Yarborough showdown.

JUDGE JAMES JOY of Plainview is favored to carry Castro County over Amarillo's Jack Hazlewood in the runoff for the nomination for the Seventh Court of Civil Appeals.

Judge Joy, who presides in the District Court here, received a clear majority of the county vote May 4, polling 1,232 to Hazlewood's 609 and Bruce L. Miller's 289.

But district-wide, Hazlewood is favored in the race, since he received 49 percent of the overall vote in the first primary. Judge Joy needs a sectional bloc-switch by Miller's supporters to get the nomination, but Miller has publicly endorsed Hazlewood in the runoff.

POLLS WILL be open from 8 a.m. to 7 p.m. Saturday.

- County Democratic Chairman Joe Cowen has established these polling sites for Saturday's runoff primary:
- Pet. Site
 - 1 and 5 — County clerk's office, courthouse.
 - 2, 7, 11 and 16 — Courthouse basement.
 - 3, 9, 14 and 15 — County agent's office, courthouse.
 - 4 and 8 — County commissioners' court room, courthouse.
 - 12 and 13 — Nazareth community hall.
 - 6 and 10 — Hart city hall.

Nazareth Rodeo To Start Friday

Chutes will open Friday night for the fourth annual Nazareth Junior Rodeo.

THE THREE-DAY rodeo is sponsored by the Nazareth Roping Club.

Performances are slated at 8:30 p.m. Friday and Saturday and 2:30 p.m. Sunday at the Nazareth Roping Grounds, four miles east of Nazareth on Highway 85.

Young cowpokes will compete in calf roping, ribbon roping, bull riding, bareback bronc riding, steer dogging, barrel racing, junior steer riding and, for boys and girls under 100 pounds, goat tying. Stock will be furnished by the Ratjen Rodeo Co. of Happy.

THEY'RE OFF!—Cub Scouts and their dads raced approximately 115 homemade coasters Saturday in the annual Pinewood Derby at city park. Winning the grand championship was Greg Sides of Den 5. Individual den winners were Brett Kruse,

Mark Welch, Jimmy Cleavinger, Craig Kelly, David Gregory and Larry Robb. The races and advancement ceremonies that preceded them drew approximately 100 adults.

Hart's Babysitters Are Best Paid, Survey Shows

Of the county's girls who babysit, those in Hart are generally the best paid, a survey by the Family Living Committee reveals.

HOWEVER, teenage babysitters in the county have no "wage scale." They work both by the hour and by the job, their pay varies with the number of children they keep, their rates range from 20 cents to \$1 an hour — and many aren't satisfied with the pay they receive.

The county agent's office released its findings this week after compiling answers from 295 babysitters from grades 7 through 12. The office and the Family Living Committee polled 111 girls in Dimmitt, 104 in Hart and 80 in Nazareth.

"This survey was the result of much discussion among teenage babysitters and their mothers," said Mrs. Irene Keating, county home demonstration agent. "Also, it lets those who hire babysitters know how their salary compares with the county average."

SALARY was the question that brought the largest variety of answers from the babysitters.

The committee asked the girls what their salaries were for one, two, three, and four or more children. Hart's girls had the best overall salary scale — and also reported the most thoughtfulness on the part of parents and less "sleeping on the job" by babysitters.

Eighty percent of Hart's teenage babysitters receive 50 cents per hour for sitting with one child. County-wide only 59 percent earn this much per hour. In Dimmitt, 67 percent get a 50-cent per hour minimum, while only 28 percent do in Nazareth.

FOR SITTING with two children, half of the county's girls get at least 50 cents per hour, and one out of every four gets 75 cents. The 50-cent hourly figure for two children is earned by 65 percent of Dimmitt's and 28 percent of

Nazareth's. Eighteen percent of Hart's girls, 37 percent of Dimmitt's girls and 20 percent of Nazareth's girls get 75 cents per hour for keeping two children.

When there are three children to care for, the salary scale is more evenly divided (with Hart's girls the highest paid).

In Hart, very few girls receive less than 75 cents an hour for keeping three children. Two-thirds of Hart's babysitters get at least that much for three, and 20 percent get more than that.

BUT 40 percent of Dimmitt's teenage babysitters will still keep three children for 50 cents an hour, and only 38 percent receive 75 cents.

And in Nazareth, only 30 percent receive 75 cents per hour for three and 28 percent get 50 cents per hour, while almost half still sit with three children for less than 50 cents an hour.

FOR SITTING with four or more children, most girls in the county get 75 cents per hour or more, although here again the salaries vary.

In Hart, 49 percent of the babysitters get 75 cents an hour or higher for keeping four or more children. In Dimmitt, 41 percent get 75 cents an hour and 25 percent get \$1. In Nazareth, 28 percent earn the 75-cent figure.

Still, most of the girls in Nazareth and one-third of all the teenage babysitters in the county are sitting with four or more children for 50 cents an hour.

MOST OF the girls in Nazareth — 79 percent of them — are paid by the job, but only 26 percent in Hart and 7 percent in Dimmitt are paid this way.

Less than half of the girls in the county who are expected to do household chores while babysitting are paid extra for it, the survey revealed. Fifty-six percent of the girls reported that they are expected to do dishes, 61 percent are expected to bathe children and 87 percent are expected to feed the children they keep. Only 46 percent of them are paid extra for these chores.

"**IT WAS quite revealing,**" Mrs. Keating reported, "to find that 15 percent of the parents in the county do not usually leave a phone number where they can be reached."

In Nazareth, parents who "left no number" have been averaging 26 percent, while in Dimmitt the figure is 11 percent and in Hart only 8 percent.

Most girls are picked up and returned home after babysitting. This pick-up and return service is provided for 98 percent of the babysitters in Nazareth, 84 percent in Hart and only 62 percent in Dimmitt.

"**PARENTS** will be pleased to know that 77 percent of the babysitters don't go to sleep after the children are in bed," Mrs. Keating said. "Hart girls were really outstanding in this area, with 93 percent (See **BABYSITTERS**, Page 14)

City Commission Takes New Look At Airport Plan

The city commission is taking a long second look at its plans to build new facilities at Dimmitt Municipal Airport, after receiving four bids that averaged \$10,000 higher than the city fathers expected.

THE PLAN calls for eight new T-hangers on the northeast side of the new paved ramp; a shop building with a small, attractive lobby with telephone and conveniences; and gasoline facilities near the new hangar area.

Four contractors submitted bids on part or all of the project, with the total amounts averaging about \$50,000.

"This is about \$10,000 more than the commission was expecting," City Manager E. B. Noble said. "The commission is now studying the bids and considering altering the plans to lower the project cost."

HE ADDED, "The commission's idea in providing these new facilities is to make the airport provide for its own maintenance and future improvements through hangar rentals and a lease agreement on the shop."

Renta's on present hangars provide \$500 per month in revenue, Noble said, and the proposed new facilities would hike the airport's gross revenue by 50 percent.

He said a certified aircraft mechanic has indicated that he's willing to lease a shop building here and establish an "airplane garage" and rebuilding service. Pilots and spraying firms here now take their planes to other cities for this service, Noble said.

120 Horses To Perform Here Sunday

The Dimmitt Rodeo Association will hold its annual quarter horse show Sunday, and expects approximately 120 horses to be entered from as many as five states.

THE SHOW will begin at 10 a.m. Sunday at the Dimmitt Rodeo Arena.

"All horse owners are invited to attend and show their horses," General Manager Maurice Campbell said, "and the public is invited to come out and see the show."

There will be no admission charge, he added. **HORSES** will compete in five halter classes and five performance classes, according to age group. Trophies will be awarded to the first-place winners in all classes, to the grand champion horses in events, and to the best all-around horse.

Rex Barrett of Pampa will judge the quarter horses as they compete in junior and senior cutting, barrel racing, roping, western pleasure and other events.

THE DIMMITT Quarter Horse Show, advertised through the National Quarter Horse Association, has grown steadily in popularity, and has attracted entries from Texas, New Mexico, Oklahoma, Colorado and Arizona.

Memorial Rites Set

The Castro Memorial Gardens Association will hold its annual Memorial services today (Thursday) at 10 a.m. at the cemetery southwest of Dimmitt.

AMERICAN Legion members will begin the service with a flag-raising ceremony, and the service will also include dedication of a new entrance monument bearing the cemetery's name.

The new brick monument approximately six feet high, stands at the cemetery entrance near a flag pole donated by the Percy Estes family. The flag to be raised today was used in the memorial services for the late Joe Bailes, and was contributed by the W. E. Kirkpatrick family.

Members of the association will hold their annual meeting at the site following today's services. The services are open to the public.

State to Build Bypass on 385

The Texas Highway Dept. will build a 6½-mile bypass route from US 385 in northern Castro County to US 60 east of Hereford.

Construction will begin June 10 and is to be completed about Sept. 6, according to William V. York, supervising resident engineer of the Hereford area. Gilvin-Terrill, Inc., of Amarillo is the contractor.

YORK said 6,239 miles of the new highway bypass will be in Deaf Smith County and 6,622 of a mile will be in Castro. The paved bypass will connect US 385 with US 60 3.6 miles northeast of the present junction of the two highways in Hereford.

During construction, traffic will be routed through the project York said, except the proposed bridge site crossing on Tierra Blanca Creek, which will be closed to all traffic.

York pointed out that barricades and warning signs will be prominently displayed, but that motorists should use extreme caution in passing through the construction area.

Methodists Have New Pastor; McCormick Assigned to Midland

First United Methodist Church of Dimmitt has changed pastors.

Rev. H. Weldon McCormick, pastor here for the last three years, has been reassigned by the Northwest Texas Conference to St. Mark's United Methodist Church in Midland.

HIS SUCCESSOR here will be Rev. Jim Pickens, 43, who has been the campus minister at McMurry College in Abilene for the last seven years.

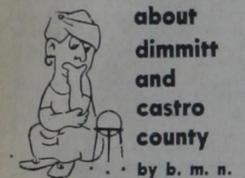

Rev. Pickens, his wife and two young children are scheduled to move into the Methodist parsonage here Friday. Rev. McCormick, his wife Mary and their son Chris are moving to Midland today (Thursday).

He has never lived any place where the people have been better to us," Rev. McCormick said. "First Methodist Church is a fine church with a great potential, and it was our privilege to have shared in its greatness during these three years."

Approximately 25 percent of the church's present membership of 621 joined the church during Rev. McCormick's pastorate here.

REV. PICKENS is a graduate of McMurry and Perkins School of Theology at Southern Methodist University. He has served as director of the Wesley Foundation at West Texas State University, and held pastorates at Vega and Paducah before becoming the campus minister at McMurry College.

about dimmitt and castro county

by b. m. n.

I am well pleased, as I am sure most everybody in the community is, that at long last play and recreation facilities are being provided for the local citizenry, old and young alike.

The Dimmitt Lions Club and Jaycees, as well as many individuals, deserve much credit and recognition for providing ball parks, elaborate ones at that, for kids of all ages. I am not sure of the exact amounts of cash that the two organizations have invested in the two parks, but I think it is in the neighborhood of eleven thousand dollars. This is a considerable sum for two civic organizations to shell out on a single project, but it is to their everlasting credit that they made the fine facilities available to the kids of the community.

Here is hoping that every kid in the community, whether he can hit a ball, catch a ball or throw a ball or not, has the opportunity to participate in the national pastime in the parks that have been built expressly for his pleasure and recreation. A kid doesn't have to be a star to enjoy a game of baseball, after all there is some pleasure, maybe, in making one of the three outs during a half inning.

As far as the older folks are concerned, the local golf course will be ready to play sometime during the summer. I would say that of all the games I have played, during the years, I am more adept at golf than any other. After all I am one of the few local golfers who has ever made a hole-in-one. Ben Hill, reportedly, made a hole-in-one recently but chances are that it was strictly an accident. But in my case, however, . . . but why go into the finer points of the game.

I can't remember a time when I didn't participate in some type of sport or recreation. When I was young I played football and baseball, all the while mixing in a sprinkling of pool and snooker. Then during the depression, of an economic necessity, I became a croquet player of considerable renown. Then during the late forties and fifties, while still in the pink, I took up golf. I am not given to bragging, but after all a hole-in-one is just about as good as anybody can do. My golf playing was interrupted some two or three years ago by some surgical repair work, and since that time I have had to be content with a few games of snooker each week.

It is my opinion that everybody needs some type of recreation, and a community that fails to furnish recreation facilities to its inhabitants is shirking its responsibilities. The new recreation facilities should be a boon to our community of immeasurable benefit to everyone who craves to stave off hardening of the arteries and softening of the muscles.

Saturday is election day, runoff primary day. This second primary is no less important than the first primary. Fact of the matter is, the first primary was just a preliminary. Saturday is the day for the main bout when the champion will be determined. A vote cast in the first primary will be wasted unless the voter follows up by supporting his candidate in the runoff. Everybody should vote. It is not a privilege enjoyed by people everywhere.

Now, it is my opinion that if you want to make your vote count, and feel that you have had a part in putting the damper on the huge lobbies and special interests that have been running the state government to these many years, you will cast your vote for (See **ABOUT DIMMITT**, Page 14)

Roller Coaster Spirit

There are days when we feel on top of the world. Everybody loves us and shows it. Nice things are done for us. Sunshine and happiness drenches everything. And then there are other days - when we're blue; people are busy. We're alone. We're afraid. It might as well be raining. Nobody knows the trouble we're in. Needed is a little self-discipline, not a lot of self-pity. We must learn to face the fact that life is not always a flowery bed of ease, and pleasure. Children dodge hard places, responsibility, and painful experiences. A mature person stands on his own two feet under God. Time, insight, and the grace of God can remove mountains - and take away that roller coaster spirit. Begin the road to spiritual maturity by attending church this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

How Much Does Working Wife Net?

Your wife's employment may not be as financially helpful as you thought. Although most wives are employed for economic reasons, extra expenditures directly related to the wife's job can subtract up to half her salary.

THE Department of Agriculture conducted a survey recently to find out what expenses wives have in connection with employment and how their employment affects their home management practices.

The survey, conducted in North Carolina, showed that the wife's net income — her earnings minus direct and extra job-related expenses — amounted to about three-fifths of the original pay check for a family with school-age children. However, if the family had pre-school children the employed wives netted only about one-half of their pay checks.

The extra expenses varied with city and country families, said

the management specialists. The average of directly related expenses totaled about \$850. This includes taxes, transportation to and from work, meals and snacks at work, and gifts and donations at work.

EXTRA expenditures made by employed wives for paid services for doing homemaking tasks averaged about \$350 for those with pre-school children, about \$120 for those with school-age children, and about \$27 for an all-adult household.

Extra clothing and personal care added to the figures. The survey also showed that families with employed wives tended to use installment credit more liberally than those with unemployed wives.

A wife's employment brought no major change in eating-out practices in the survey, but employed wives used more paid services for household tasks than unemployed wives.

BOSSSES' DAY — The Dimmitt Educational Secretaries Association observed National Educational Bosses' Week with a luncheon last Thursday in the Colonial Inn for Supt. Paul Hilburn, Principals Helen Richardson, Ike Moore, Emmett Broderson and Bobby

Crooks, and Curriculum Directors Weldon Skinner and Virgil Young. The local school-office ladies hope to form a tri-county educational secretaries association to include Castro, Deaf Smith and Parmer Counties.

Furniture Course Ends

By IRENE KEATING
County HD Agent

Last Thursday we had our final furniture re-finishing lesson. I wish all of you could see the changes in the furniture.

WE HAD a very nice surprise shower for Lana Downing, who gave of her time, energy, and knowledge to instruct the course. Sue Miller and Katherine Fuller served sandwiches and kolaches. I plan to get Katherine's kolache recipe and share it with you soon. The basic clothing construction workshop is progressing nicely. All of the ladies are doing nicely well on their garments.

I went to a workshop on color in Pampa Tuesday. I'll let you know what I learned another time.

IT IS hard to believe that June will be here in a few days. June is National Dairy Month, so why not plan to use dairy foods more? You might even try some new recipes. If you're watching your calories, why not use buttermilk? Here are some suggestions for using it:

For variety, try a half-and-half combination of buttermilk and tomato juice. You can make a pineapple juice - buttermilk drink by combining 1½ cups each of buttermilk and pineapple juice, after which add 1 to 2 tablespoons of lemon juice and ¼ to one-third cup of sugar.

SINCE WE are entering the "marriage" time of the year, let me share some thoughts for the brides-to-be. Here is a pledge each bride (and you other homemakers) should make and follow. "I will learn about foods so that our nutritional needs can be provided at a reasonable cost."

"I will study the economical cooking tricks.

"I will take time to get acquainted with normal prices, with more than one store, so that I recognize a food bargain when I see one.

"I will study the food ads for special buys and seasonal bargains before I go shopping.

"I will have a complete shopping list, but I will keep it flexible to allow for "finds."

"I will not buy — not often anyway — on impulse.

"I will try to avoid wasted leftovers.

"I will keep a doubtful eye on tricky sales gimmicks and avoid merchandizers who mislead me.

"I will buy for value — not for premium offers or contest entry blanks.

"I will not be taken in by gadgetry or fancy packaging or flamboyant advertising. I will weigh the value of convenience to me versus its cost to me.

"I will, once in a while, throw caution to the wind—but only when

I, and not some ad-man, can say, ("Tonight, forget and budget.")

HOW MANY of us, can truthfully say we follow this pledge? I can't but I hope I will become more conscious of it and if I read the pledge three months from now can say yes to all of them. And that's quite an assignment.

Newlyweds Often Plunge Into Debt

Many newlyweds, when they take stock of their situation, find that they not only have each other, but much more besides. They soon realize that along with the shiny new gadgets, they have some sizeable debts.

NEVERTHELESS, young couples are getting a better financial start in marriage than ever before, says Doris Myers, Extension home management specialist.

The median value of goods, services and money given to the young couple by parents during the first year of marriage was found to be slightly under \$300.

AT THE same time, more young families today are starting life in debt. This is fine if they can pay the bills and are willing to settle for less in the long run, says Mrs. Myers. But the young family is usually in debt because they are blindly getting tomorrow's rewards today and they are paying dearly for the privilege.

The Institute of Life Insurance reports that almost 70 percent of young families have installment debts.

MANY YOUNG couples never stop to consider the cost of credit.

Mrs. Myers advises that a wise credit buyer will: —Use credit only when satisfaction lasts longer than the payment. —Shop around for credit. —Know the cost — at least in dollars. —Make the down payment as large as possible. —Finance over the shortest period possible.

THE DEPARTMENT of Agriculture reports that fruit will not be so plentiful this year. Production on the 1967-68 citrus crop is expected to be 30 percent smaller than last year. Oranges are expected to be 34 percent less; grapefruit 24 percent; lemons 8 percent and tangerines 43 percent less.

MINI-MILO 50 introduces a new cropping system to the Sorghum Belt

For areas with short growing seasons
Destined to push the sorghum belt Northward - MINI-MILO 50 can be planted when the soils warm up and will produce a summer feed grain crop safely.

In longer season areas
Its earliness makes it ideal for double cropping. MINI-MILO 50 sprouts on quick after winter wheat or following vegetables. Now those idle acres can produce a cash crop.

After a full season crop has failed
A sure way to make those wasted acres pay if wind, hail, drought, excessive rain or any misfortune destroys your crop. Start again - Prepare the seed bed, plant thick and MINI-MILO 50 will shoot up to produce a good crop of grain on those barren acres.

House Approves 3 Percent Loans

Two bills passed by the House this week should help farmers who are in need of credit and operating loans, according to Congressman Bob Price.

ONE OF the resolutions sponsored by Price in the House Agriculture Committee will authorize advancement of \$30 million in Commodity Credit Corporation funds to the Emergency Revolving Fund administered by the Farmer's Home Administration.

"All 30 counties now included in the 18th Congressional District, and also Hale County are now designated as emergency areas making farmers and ranchers in those counties eligible for 3 percent loans from the fund," Price said. The Senate has also passed the bill.

"The Administration continues to withhold \$25 million which was appropriated last year for the fund," Price said, "leaving thousands of farmers without a source of credit at the critical start of the growing season. It is imperative that these funds become available immediately or these farmers and ranchers will be forced out of business."

PRICE NOTED that the emergency fund has an excellent record of repayment.

"Over the past 19 years, approximately 350,000 loans have been made, totaling a billion dollars, but losses have been less than two percent. Making these funds available for loans is no government give-away; it's a sound business investment," Price noted.

He said it would be "tragic" if more farmers and ranchers

were forced off the land through the inability to obtain emergency financing.

"Many have already been hurt by adverse weather conditions and natural disasters that created an unprecedented need for emergency loans," he said. "Congress has now shown its intention that these funds be made available, and it is hoped that the transfer is effected immediately."

THE OTHER bill also approved by the House Agriculture Committee would help federal intermediate banks and production credit associations to obtain additional capital funds from non-government sources.

Included in several veterans benefit bills passed by the House during the week was one sponsored by Price to increase the amount the Veterans Administration may pay a public or private nursing home for veterans' care. The present limit of 33 and one-third percent of the cost that can be paid by VA would be raised to 40 percent.

Co-ops Show Business Gains

Thirty-two percent of the nation's farmer cooperatives had gross business of \$1 million or more in 1965-66, up 27 percent from 1961-62 when the last survey was made.

A FURTHER breakdown of the gross business volume of \$20.9 billion done by the co-ops, according to the Farmer Cooperative Service, shows that 40 percent of the total came from 66 co-ops reporting annual gross business of \$50 million or more. This represented less than 1 percent of the total number reporting, and was made up primarily of large regional associations.

Screwworm Cases Increase

Livestock producers are again reminded of the importance of checking stock for any wounds and treating them immediately. They are also advised by officials of the eradication program to take worm samples from wounds and send them to the Mission Lab for positive identification.

STERILE fly production has been increased in an effort to halt the increases in screwworm cases. Weather conditions continue very favorable for the spread of the pest.

VFW Men, Wives Go to Convention

Members of Dimmitt's Veterans of Foreign Wars Post and Auxiliary attended the district convention Saturday and Sunday in Littlefield.

THE District 13 convention was hosted by the John Henry Chapman Post 4854 of Littlefield. Appearing on the convention program were Texas Department Commander Harold Rogers, District Auxiliary President Dean Lorerwald and District Commander E. B. "Buster" Mills.

On the Go

MR. AND MRS. Irvin Ott and sons Terry and Terrell headed south Monday. They stopped in San Angelo to fish a few days, then on to San Antonio to attend the HemisFair, then on to Corpus Christi and other places along the Gulf Coast so the boys can see the Sea.

On the Go

KATHY AND Darrell Rankin and boys of Amarillo were down Sunday as guests of her parents, Oleta and Noel Gollehon.

Loans Still Available On Stored Grain

Farmers eligible for price support on their 1967 crops will be able to put farm-stored or warehouse-stored grain sorghum under loan until June 30 and warehouse-stored corn under loan until July 31, Charley E. Hill, office manager of the Agricultural Stabilization and Conservation County Committee, said this week.

GROWERS eligible for 1967 corn or grain sorghum loans are all those who signed up and participated fully in the 1967 feed grain program.

Hill reminded growers that the deadline for requesting loans is May 31. Maturity date for the loans is June 30.

THE LOAN maturity date may be extended for corn or grain sorghum not yet under loan, provided the extension is requested by the original loan maturity date.

The loan support level for the 1967 crop of corn in Castro County is \$1.18 per bushel. The support level for 1967-crop grain sorghum is \$1.59 per hundred-weight. These rates are based on national average loan rates of \$1.05 per bushel for corn and \$1.61 per hundred-weight for grain sorghum.

CATFISHING WITH ARTIFICIALS

Sometimes catfish are caught on artificial bait. But the time and effort expended is not worth the possibility. Primarily cat fish are natural bait eaters. Leave them for the cane pole fishermen who know their habits and habitats.

Grain Sorghum CHAFF

By WES ANTHONY

If you haven't driven over town and looked at the gorgeous flowers and lawns, by all means do it now, for they are simply out of this world.

YOU ARE surely missing the chance of a lifetime also if you do not drive to the country and see all the green pastures with cattle grazing on them, besides the wheat, corn, potatoes, sugar beets, carrots, maize, soybeans, haygrazer and many other beautiful crops.

It is a beautiful country God gave us.

SPEAKING of driving, we are not exactly isolated from other parts. I believe the traffic count on US 385 north and south is 2,300 cars a day. In a month, there would be 69,000 cars pass through our town, or 828,000 a year on US 385 alone.

If these vehicles average 20 feet in length, it would mean that if all the cars were stalled on the road at the same time it would be a bumper-to-bumper string of automobiles 3,136 miles long!

Castro Lodge AF & AM 879, Regular meeting, 3rd Monday. Practice every Thursday. Milton Hedgcock, Worshipful Master; Ira E. Brown, Secretary. Visitors Welcome.

Cotton Growers Veto Transfers

Cotton growers in Castro County have disapproved the transfer of 1969 upland cotton allotments out of the county, Charley E. Hill, office manager for the Agricultural Stabilization and Conservation County Committee, has announced.

VOTING on the question took place in a mail referendum May 13 through 17.

The transfers were approved by 52 percent of the producers voting, but a two-thirds affirmative vote was required to make the provision effective, Hill said.

This means that the transfer of 1969 upland cotton allotments in Castro County - by sale or lease - may be made from one farm to another only within the county. Allotments may be transferred into this county by sale or lease from other counties in the state where growers have voted to permit such transfers.

THE TRANSFER of allotments within a county is not affected by the recent vote; this is already authorized by law. Neither does the vote affect transfers of allotments from one farm to another owned by the same person, which can be made across county lines within the state. In no case, however, may transfers be made outside the state.

Hill reminded growers that applications for all transfers of cotton allotments for the 1969 upland cotton will need to be filed with the ASC County Committee. The deadline will be announced later.

Some people plant flowers in the spring

But then what does a flower have that a gas light doesn't? Flowers brighten up your yard. So does a gas light. After you install a gas light, it might be the first time you've seen your flowers at night.

Flowers come in different sizes and shapes. So do gas lights designed to lend distinction to any landscape. Take your pick. If they're taken care of just right, flowers will bloom the whole season. A gas light blooms year 'round, and requires absolutely no care.

Flowers have a wonderful fragrance. You've got us there. A gas light doesn't have an odor at all. But we know you'll overlook that, since a gas light has so many other nice features.

New lower prices on the '68 models are in effect through July 31st. Prices start at \$52.70 cash (includes installation and tax) or only \$2.00 per month.

Plant a gas light this spring. Pretty inexpensive when you consider how many springs it will last. Buy a PATIO PAIR (One que grill) and save \$26.00. (includes installation and tax)

State Capitol Highlights

Capitol Comes Alive As Hot Schedule Looms

By VERN SANFORD
Texas Press Association

Your Capitol is bursting with life on the eve of the most significant political and governmental events — the June 1 runoff election, the June 4 beginning of a special session of the Legislature, and the June 11 conventions of State Democratic and Republican parties.

ALTHOUGH there are 15 runoffs in Legislative races to be decided Saturday, the main bout of course, is that between Lt. Gov. Preston Smith and Houston Attorney Don Yarborough.

Probably no more than a million voters will decide whether moderate-conservative Smith or liberal Yarborough will be the Democratic nominee for governor.

Each is reaching for the other's voter potential. Smith boasts of his 18 years' governmental experience; Yarborough, with out governmental experience, urges his own "fresh approach" and "constructive programs," including lower auto insurance rates and consumer protection.

EVEN NAME identification — usually considered the wellspring of political success — won't be the deciding factor between these two. Both men have been in statewide races nearly a decade and are well-known names on the ballot.

Incidentally, the winner may find surprisingly tough opposition in November from Republican nominee Paul Eggers of Wichita Falls.

Regardless of whether Smith, Yarborough — or Eggers — is the next governor, the battlewise Democratic legislative presiding officers, Lt. Gov.-nominee Ben Barnes in the Senate and Speaker-to-be Gus Mutscher of Brenham in the House, will be powerful figures to be reckoned with. Barnes admittedly aspires to higher office and Mutscher reportedly is interested in a long tenure in the House.

LIQUOR LEGISLATION DUE
Gov. John Connally's June 4 special session of the Legislature almost certainly will come to grips with important liquor legislation, probably including a mixed-drinks bill.

A House study committee's report on how to improve present statutes has been promised before the special session begins. Rep. R. H. Cory of Victoria, chairman of the panel, and House Speaker Ben Barnes have indicated the report will contain major, controversial recommendations.

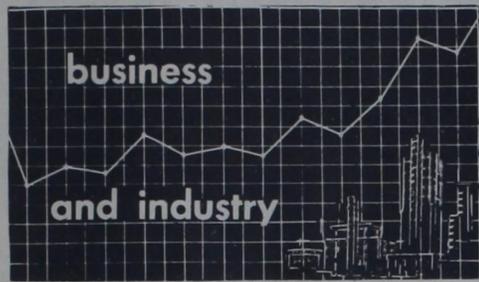

Results of the investigation made by Atty. Gen. Crawford Martin — and his recommendations — also are due by June 4.

CONNALLY has strongly indicated he will urge the lawmakers to come up with a mixed-drinks bill as a part of his tax program. Observers believe that, instead of a straight booze-over-the-bar measure, he will ask for legislation permitting the sale of liquor in small, one-drink sized bottles on a local option basis. This would mean that, if the bill passes, Texans still will have to mix their own but at least they won't have to bring their own bottles.

STATE CONVENTIONS
Every even numbered year, state political parties hold two conventions. In presidential election years the June convention, customarily, is called "the presidential convention," and the September convention is known as "the governor's convention."

This year, since the big issue in the state democratic convention in Dallas June 11 will be whether Gov. Connally is picked as the "favorite son," both Democratic party conventions will be "governor's conventions." If Connally is chosen as "favorite son," the first vote of the Texas delegation at the national convention in Chicago will go to Connally, the second to whomever he likes of the major candidates — probably Hubert Humphrey.

SURPRISE — Mrs. Faye Kenmore, head teller at First State Bank and one of Dimmitt's best-known business women, officially retired Friday after 20 years' service — but not before her fellow employees gave her a surprise retirement party. Here, Bank President Bob McLean presents Mrs. Kenmore with a new wrist watch inscribed, "20 Years' Service, First State Bank." She also received a cut-glass and gold jewelry box from her fellow employees. The surprise party came at the end of the workday Wednesday of last week, in the bank's community room.

MRS. C. B. HICKEY
... New Village Shop owner

Hickeys Buy Village Shop

Mr. and Mrs. C. B. Hickey, formerly of Memphis, are the new owners of the Village Shop in Dimmitt.

They have purchased the women's fashion store from Mrs. Helen McLean, Mrs. Jo Evans and Mrs. Peggy Webb, who owned and operated it three years.

"We're well aware of the fine reputation which the former owners built for the Village Shop, and we intend to maintain this reputation," Mrs. Hickey said.

She will be the store manager and buyer, and her husband will be the business manager.

MRS. HICKEY said the Village Shop will continue to carry such fashion lines as Nardis of Dallas, Catalina and Jantzen, and will

add College Town and Joe Frank junior fashions.

"We also plan to continue the store's gift department," she said.

For many years, Mrs. Hickey owned and operated Neva's Shoppe in Memphis, the Hickeys' home town. Since November, she has been associated with Saied's Ladies' Wear in Perryton.

PCA Names New Manager

Effective June 1 James Rogers will be the new general manager of the Plainview Production Credit Association, Grady Shepard, president of the board of directors, announced this week.

Rogers succeeds Noel Woodley, who is leaving the association to become the Plainview Hospital administrator.

ALTHOUGH Rogers is relatively new to the High Plains, he has almost 14 year's experience in servicing the credit needs of Texas farmers and ranchers. Prior to becoming assistant general manager of the local association in April 1967, he worked five years for the Federal Intermediate Credit Bank of Houston, the discounting institution for all Production Credit Associations in Texas.

Rogers is 43, a native of Van Zandt County, and a graduate of Wills Point High School. Following three years' service during World War II, he graduated from Texas A&M in 1949. He and his wife Christine have three children, Pam 16, Jimmy 12, and Mitzi, 10. They are members of the First Baptist Church of Plainview. Rogers is an ordained deacon of the church and is active in Boy Scout work on district and troop levels.

Shepard said that as chief executive officer of Production Credit Association, Rogers will be responsible for operations in Hale, Briscoe, Swisher, Castro, Farmer, Bailey, Floyd and Lamb Counties. Bo Bryant is the manager of the local Production Credit Association office.

DON YARBOROUGH A Profile in Courage

A few years ago, when Don Yarborough was 38, Life Magazine selected him as one of the 100 young Americans who were members of the take charge generation. In selecting Yarborough, Life said his group was distinguished by "dedication to something larger than private success," because they had "the courage to act against old problems, the boldness to try out new ideas, and a hard-bitten, undaunted hopefulness about man."

We millions of Texans all recognize these attributes in Don Yarborough: his dedication, his boldness, his hopefulness. Other Texans add another which the editors of Life failed to notice: the warmth of his personality. They know, besides, a great deal more about his courage than those editors could have known back in 1963, for they have seen him, since then, in action, fighting a mighty battle against overwhelming odds.

While his life has been a series of brilliant achievements, not all of his triumphs were easily won.

Born in New Orleans, he spent a part of his boyhood hoeing and picking cotton on a Mississippi farm. He came with his family to Houston when he was 12, and on graduating from high school at 17 enlisted in the U.S. Marine Corps, entered Officers Training School, and became, at the age of 19, one of the youngest Company Commanders in the history of the Marines. He served in China at the close of World War II.

After the war, Don entered the University of Texas, working part time to supplement the stipend he received under the GI Bill, and earned his law (LLB) degree in 1950. In college, Don was national debating champion.

He re-entered the Marine Corps to serve during the Korean War, then returned to Texas to found his own law firm and take part in civic affairs. In 1956, as one of the youngest presidents in the history of the Houston Junior Chamber of Commerce, Don helped build the largest chapter in the nation at that time. He has been active in charitable work, serving on the boards of the Big Brothers, the United Fund and the Holly Hall Home for the Aged in Houston. He is also a member of the VFW. He is an Episcopalian.

In 1960 he married the former Katherine Alison Edwards of Houston. The Yarboroughs have four children: Inez, 7; Francey, 5; Dakota, 3 and Sophie, 13 months.

When Don Yarborough entered the race for Governor in 1962, he was virtually unknown. And yet, in a field of five Democratic candidates, he reached the run-off and came within 26,000 votes — one percent of the total — of winning the nomination.

The results are now apparent. Don Yarborough has not only kept his following, but has added to it a host of new voters. The time is right. The people have a chance to win a great victory.

"Don Yarborough has the courage to act against old problems, the boldness to try out new ideas, and a hard-bitten, undaunted hopefulness about man."

LIFE MAGAZINE

DON YARBOROUGH

BOLD, CREATIVE LEADERSHIP TO GIVE TEXAS A FRESH START

Don Yarborough's vigorous campaign has been solidly based upon a program to bring a greater prosperity to Texas. His victory in the first primary was a testimony to his out-going campaign to Texans to work in unity and harmony to bring new industry to Texas, to train more Texans for better jobs, and to develop the talent of our great state with a Human Resources Commission.

Foremost in his program for prosperity is his specific plan to recruit 100 teams of volunteers who will tour the nation to bring new industry to Texas. He has also proposed the creation of a special agency to work full time bringing industry to small towns and thereby boost the sagging economy in rural Texas and alleviate the burdens on the cities that have to accommodate the exodus of Texans from small towns.

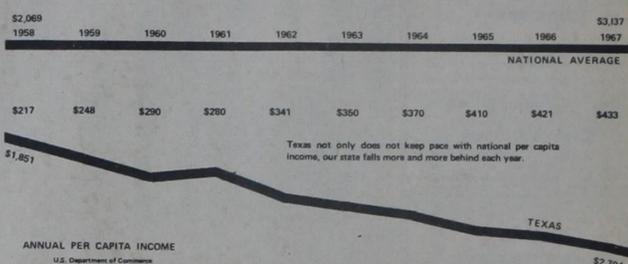

Don Yarborough's plan for increased prosperity in Texas has captured the imagination of businessmen across Texas who know he is the only candidate in the runoff with a workable program for Texas.

Don Yarborough has also called for tuition-free junior colleges to train more young people in vocational-technical fields as well as academic subjects. He has proposed specific plans to retrain the underemployed and the unemployed. These programs can only mean more jobs, more wages and more profits for the businessmen of Texas. Don Yarborough knows it and so do the thousands of Texans who have endorsed his exciting programs to build a better Texas. Don Yarborough has a vast, imaginative program for Texas for he is a people's candidate. One of the main priorities of his administration will be education. He has endorsed a teachers' pay raise of at least \$1,000 immediately, and has said he will fight for guaranteed contracts, paid sick leave for teachers and academic freedom.

The list of his specific programs can go on and on. Don Yarborough's

program is one that can be accomplished only by a man who is not tied to the same group that has barely kept even with the status quo as the rest of the nation moves ahead. He is the only man who can work with all groups to give Texas a new sense of mission. Why? Because he is free to bring independent leadership to Texas. Free to work for all Texans and encourage unity for achievement.

MUST TEXAS INCOME AND PROFIT CONTINUE TO DROP BELOW THE NATIONAL AVERAGE? DON YARBOROUGH SAYS, "NO!"

The above graph not only shows how Texas lags in the nation in per capita income, but it shows how the state is falling even more and more behind in an era of increased prosperity in the nation. Texas must have new leadership to bring creative programs to government to solve this pressing problem. Don Yarborough is the only candidate for governor who has a specific program for better wages, more purchasing power and more profits for all segments of our society.

Dear Fellow Texan:

This has been a people's campaign for governor, and it is the people who will decide the winner. The response at the polls in the first primary was magnificent.

The field has narrowed now; only two candidates for governor remain. I sincerely and humbly ask that you support me in the runoff election Saturday, June 1. You have a choice—a choice between clinging to the past or seeking a great future, a choice between more of the same . . . or new, vibrant leadership for Texas.

My victory in the first primary was a testimony to what Texans can do, choosing leadership that will bring unity and harmony to our state. There were a number of fine men running for governor in that race. Thousands of voters who supported other candidates in the first primary are now with me.

I can never express my thanks to these new supporters for the loyalty and dedication they are showing. I can only pledge to you that I will work with the same dedication and spirit to help build a better Texas. Working together on imaginative programs we can recapture a new sense of mission . . . we can answer the challenges with opportunity and accomplishment.

I ask each of you to join with me. You have my pledge to be a governor who favors no single faction, no single region, no single cause. You have my commitment to progress. You have my vow to lead a government for every Texan—based on close teamwork between the governor and the people of Texas.

Sincerely,

Don Yarborough

P.S. Even if you did not vote in the first Democratic primary you are still eligible to vote in the runoff.

"God's Choice for Leadership"

Congregations today need a shepherd. Consequently, men are chosen to serve in places of leadership. Ministers and deacons are set apart through ordination services.

An interesting part of ordination services is the laying on of hands. This act is symbolic of the confidence placed in an individual by the congregation.

However, laying on of hands is not enough to sustain a man in his role as a Christian leader. He must recognize, as Joshua did, that his effectiveness will depend upon his obedience to God.

It is important for each professing Christian to recognize the setting apart that was his when he became a Christian. He has a task to accomplish. He fails and falters when he seeks to accomplish that task in his own strength or through his own merit.

Help us to depend on self less and upon thee more.
"And the Lord said unto Moses, Take thee Joshua the son of Nun, a man in whom is the spirit, and lay thine hand upon him."
— Numbers 27:18

Rev. Sewell Conducts Final Service Here

Rev. John Sewell, pastor of the Dimmitt's First Assembly of God Church for the last 2 1/2 years, conducted his final service here Sunday.

REV. SEWELL is presently interviewing with churches in Texas and New Mexico. He said he expects that he and his family will move within the next two weeks.

Rev. Sewell has been president of the Castro County Ministerial Association since November, and has also served as its secretary and treasurer. He produced a Sunday morning "Gospel Singing Jubilee" program over Radio Station KDHN for eight weeks, and has also been active in the Castro County Activities Committee, Community Action Committee and youth work in the city. He has been a substitute teacher in Dimmitt Public Schools the last two years.

Social Security Hikes 'Allowable'

One recent change in the Social Security Act which will affect many Panhandle area residents involves the amount a beneficiary may earn, according to Travis C. Briggs, district manager, Amarillo.

"EFFECTIVE this year a person receiving social security checks may earn as much as \$1,680 in a year without losing any benefits. If he earns more than that amount," Briggs explained, "one dollar in benefits will be withheld for each two dollars or earnings between \$1,680 and \$2,880. But for earnings exceeding \$2,880 a dollar in benefits will be deducted for each dollar earned."

"These rules do not apply to a person who receives disability benefits, or to those who are age 72 or older," he said. Briggs also pointed out that regardless of how much a beneficiary earns in a year, he will receive a social security benefit check for any month in which he does not earn over \$140 nor work to any extent as a self-employed person.

THE PREVIOUS yearly limit was \$1,500 or \$125 monthly. The only two types of income considered as earnings for this purpose are wages and self-employment income. Income from rents, interest, dividends or retirement payments are not considered.

TO: The Citizens and Voters of Texas FROM: Preston Smith, Candidate for Governor

The purpose of this message is to ask for your support and vote in the Second Democratic Primary Saturday, June 1.

As your Lieutenant Governor for the last six years, I believe I have qualified myself to seek the high office of Governor. You know I finished second among 10 candidates in the First Primary, about 29,000 votes behind the leader with 1,750,000 votes cast.

With your help we can win this runoff against an opponent who has no public record of any kind... one who is aligned with groups that want to reject the progressive, constructive programs built by John Connally and his predecessors and replace them with so-called "liberal" ideas of their own.

I want to continue and improve on the start we have made in education, pollution control, law enforcement, highways, water conservation, promotion of industry and tourism, and many other vital areas.

I am proud to have been a part of Texas government for 18 years. Opponents may harp about what is wrong in Texas; I happen to think there are a lot of things RIGHT in Texas. I am proud of my state and its people.

Things can be even better, and I want to work with you in that direction.

It's more or less in the political tradition to lambast your opponent and say a lot of ugly and cutting things about him. I don't want to engage in personalities; my opponent has no public record to criticize. Therefore I am running for Governor on my own merits.

It may be pretty ambitious for a farm-born, farm-raised Texas boy, who worked his way through Texas Tech and spent his adult years in business activities in Lubbock, to aspire to be Governor. You will be the judges as to whether my experience and proven qualifications entitle me to be elected. I will accept your judgment with real gratitude for your past support and friendship.

Please remember that if I am elected, my door will always be open to any Texan who has any problem whatever that the Governor can help with. I will always be interested in good government. I will always be interested in you.

Preston Smith

PRESTON SMITH for GOVERNOR

VOTE SATURDAY JUNE 1

Sen. Ralph Yarborough

What's Your Vote Worth?

By SEN. RALPH YARBOROUGH (D-Texas)

Saturday is a very important date for all Texans. It is the day that Texans vote in the run-off primary elections to determine who will be the candidates for the November general elections. Important races, including the one for the governorship, will be determined by our votes Saturday.

The importance of this election cannot be overstated, for it gives all people the chance to help select their candidates for the general election. Too often a person will vote only in the general election, assuming that by doing so, he has exercised his right and discharged his civic duty to vote.

But if you vote only in November, you are exercising no more than half your voting rights. Unless you vote in the primary e-

lections, you have no voice in the selection of candidates who will appear on the ballot for the general election next fall.

In short, if you fail to vote Saturday, then you're letting other people determine who you can vote for next November. Our democratic system of government intends for you to have a larger voice and a larger role in selecting your public servants than simply voting for candidates that other people have nominated.

IN THE Presidential election of 1960, only 43 percent of the adult population of Texas voted. That compares poorly with the national average of 63 percent. Even in our neighboring state of Oklahoma, 63 percent of the adult population voted.

Of course, at that time Texas had the bar of the poll tax, but no such bar exists today. More

than four million Texans are qualified to vote this year, yet less than two million Texans voted in the first primary, of the 4,072,397 who are qualified and registered.

Less than 50 percent of the qualified voters of Texas went to the trouble to vote absentee or go to the polls on May 4. That is such apathy that your vote in this election is of vital importance. People say that one vote doesn't matter. I say that every vote counts.

In 1948, Lyndon Johnson was elected to the Senate from Texas by 87 votes out of more than a million cast. That led him to the Presidency. In 1960, if Richard Nixon had received one more vote in each precinct in this country, his popular vote total would have been higher than President Kenn-

edy's — just one more vote per precinct. And in 1966, the Texas Democratic Executive Committee certified that I had lost the governorship of Texas by one-third of a vote in each precinct. Half of a vote in each precinct would have brought me the Democratic nomination.

YOUR VOTE is important. It is essential that you cast it Saturday in the run-off primary. As our fellow Texan, President Lyndon Johnson, observed: "At a time when people all over the world cry out for the right to vote, too many of our citizens neglect to use this most precious of all citizens' privileges."

Don't be one of those who fails to show. Go to the polls Saturday, and vote in the Texas run-off election.

DIMMITT'S CUB SCOUTS received their advancements Saturday and this representative group of parents and adult leaders received the renewed Pack Charter from Robbie Hawkins (left), Hart Scoutmaster. Also, den mothers received their badges from Committeeman Jack Miller. The ceremonies preceded the pack's annual Pine-

wood Derby for home-made model racers at the city park. Taking part in the ceremonies, from left, were Hawkins, Scoutmaster Jim Cleavinger, Senior Scout Leader Lonnie Treadway of Tulia; Webelos Leader Don Robb, Cubmaster John Mueller and Councilman James Welch.

The View From Your Library

By VIRGINIA NEWSOM Librarian

Boys and girls, remember June 1. This is the beginning day for our summer reading program.

YOU WILL have 10 weeks to read 12 books. If you read all of your books, you will receive a nice certificate from the Texas State Library.

And for the mothers with preschool age children — if you read your children the 12 books, they (not mother) will receive certificates also.

Must say it's nice to find your picture on the front page of the paper while you are still around to see it.

MISS HAYES brought her second grade group to the library on Thursday of last week. They were a delightful group and presented me with a book mark in the shape of a key, which one of the students made.

WE ARE about to get some books off to Amarillo and the State Library which are borrowed each year. We still have several titles out or missing. If you have one of these books, it would be much appreciated if you would bring them in to me:

- "Sam Houston's Indians" by Malone.
- "Ice Station Zebra" by MacLean.
- "The Way to the Lantern" by Lindap.
- "The Mill on the Floss" by Eliot.
- "Creative Color in Photography" by Rothstein.

WE WERE so thrilled when our books came from the Texas State Library and are most anxious to get them on the shelves, but it is necessary to get these borrowed books back first.

More About: About Dimmitt (Continued From Page 1)

Don Yarborough in the governor's race.

If you will turn to page ten in this issue of the News you will find a page advertisement that will tell you more about Don Yarborough, than you could have possibly learned during the entire campaign by reading the big business oriented daily newspapers. About all you could learn from those biased purveyors of knowledge is that Preston Smith has had 18 years of experience in state government. I can't remember them mentioning anything that that experience has produced.

We are told by the big dailies that what's good for General Motors, big oil and big insurance is good for the people. It ain't necessarily so. Recent news releases have revealed the information that that segment of the business community is showing bigger profits than ever before. Is this the case with the small business firms in Dimmitt, and all of them are small comparatively speaking, and the farmers of the county? I think not.

It is time for a change in Texas state government. The same crowd has been running the state's business for the past two decades and if Preston Smith is elected there will be no change. It is a fact that Don Yarborough is inexperienced, but that is what we need now, lots of inexperience. We have had about all of the experience we can stand and ever hope for Texas to take its place as a leader among the states of the nation.

We need the kind of inexperience that will lower insurance rates, that will up the production of domestic oil, that will give the farmers a break when they want a little protection in the indiscriminate raising of fuel prices, that will do something about air and water pollution, that will look for tax sources in addition to those who are least able to pay, that will do something about upgrading and supplementing educational institutions instead of so much conversation, that will increase work opportunities, that will go after tourism and new business. We do truly need inexperience, if it will prove to be different to the highly experienced that we have been blessed with for these many years.
