Fair Calendar...

Friday - September 8-

- 9:30 to 12:00 - Judging Club Division and Guernsey Division
- 10:00 a. m. - Start judging Agricultural Exhibits, Womens Division, Flower Show.
- 1:00 p. m. to 2:00 p. m. - Hereford Judging
- 2:00 p. m. to 3:00 p. m. - Milking Shorthorn
- 3:00 p. m. to 3:30 p. m. - Brown Swiss
- 3:30 p. m. to 4:30 p. m. - Jersey and other Exhibits
- 5:00 p. m. to 7:30 p. m. - Carnival
- 7:30 p. m. to 9:30 p. m. - Football game, Dimmitt vs. Silverton - Crowning Queen
- 9:30 p. m. - Carnival

Saturday - September 9-

- 9:30 to 12:00 noon - Quarter Horse Judging
- 2:00 p. m. - Parade
- 3:00 p. m. - Awarding of Parade Prizes and Band Concert.
- 9:00 p. m. - Drawing for Merchants Prizes

Alvin Hastings Has Dimmitt Carpenter Light Case of Polio Injured on Job

Alvin Hastings, young Castro County farmer, was rushed to Plainview this afternoon for observation and treatment at the Plainview Polio Center. Alvin was stricken with the dread disease this afternoon, Thursday, from his home one mile west of Dimmitt. He was brought to the Plains Memorial Hospital where his illness was diagnosed by local doctors as a light attack of polio. According to a statement by members of the local hospital staff no indication of paralysis had appeared before Hastings was taken to Plainview. This is the first case of polio ever reported

Harold Gladman had the misfortune Tuesday afternoon at about 2:00 o'clock of sustaining a severe cut above his left knee. The accident occurred while Gladman was working on a remodeling job on the home of Mr. and Mrs. Henry Stalcup. The deep cut was inflicted when a skill saw, being used by the carpenter, accidentally touched his leg. He is receiving treatment at the Plains Memorial Hospital.

in the Dimmitt community, and one of the few isolated cases in the county.

Dimmitt Bobcats Open Season Here Against Silverton Friday Night

Parade Formation . . .

The fair parade, starting at 2 o'clock on Saturday afternoon, will form on Jones Street north of Hays Implement Company. A total of \$150 will be awarded as prizes in the parade for best floats.

After the parade starts it will enter Highway 51 between Hays Implement and the post office and then turn north. In order of their appearance will be flag bearers, Fair Queen, Commercial Floats, Educational Floats, Entertainment Floats, bicycles and livestock. Livestock will be kept on vacant lot west of Earl's Hardware and Supply.

Grain Sorghum Queen . . .

Anne Sheffy

Dimmitt High School's 1950 edition of the Bobcat Football team will start their current season with Silverton in modern Bobcat Stadium, Friday evening at 8 o'clock. According to all reports the game will be one of the top games of the '50 season with coach Blaine's charges expected to make the game interesting for Silverton. The game will be a clash between two like systems of football, both teams alternating the double-wing and T-formations.

Artie Beavers Is Critically Injured In Highway Mishap

Artie T. Beavers, 37 year old Castro County farmer, is receiving treatment at the Plains Memorial Hospital for serious injuries received in a highway mishap about 7 miles west of Dimmitt Tuesday afternoon at 6:15 o'clock. The accident resulted in both of Beavers' legs being broken below the knees, right elbow fractured, head injuries and possible internal injuries. Despite his multiple injuries Beavers' condition was reported as fair at last report. He was brought to the hospital by ambulance from the scene of the accident after the tragedy was reported and aid was summoned from the local hospital by B. E. Sinclair who arrived at the scene of the accident soon after it happened.

Mr. Beavers with his 16 year old son, James Beavers, were returning to their home in the Bethel community after a trip to Dimmitt when they were forced to pull off the highway to fix a flat. According to reports the Beavers Chevrolet had been jacked up and Beavers was standing at

Both teams boast of speed and weight and both rate as top-notch teams in their districts. The non-conference tilt will be set for 8 p. m. with a record crowd expected. According to Bobcat coach J. W. Blaine, the game will be rough from start to finish, and although the Bobcats are missing three squadmen from the backfield because of physical injuries, he expects the leather to stop popping with the Bobcats on the upper edge of the score. According to Mr. Blaine a Bobcat line unsurpassed in recent Football history will meet a heavy and experienced Silverton line. In the backfield, Douglas Dennis will see little action because of a sprained knee, Glenn Brown will be out most of the game due to a sprained ankle, and Jack Hodges will see very little or no action because of an appendicitis attack. The probable starters for the night will be Weldon Warren, QB; Jack Dyer, RH; Gene Easley, LH; and Jess Burch, FB. The starting line will probably consist of Jimmy Cluck, LE; Jim Jowell, LT; Bill Murphy, LG; Marvin Axe, C; David Behrends, RG; Don Nelson, RT; and Bill Gregory, RE, with Roy Murphy and Donald Wright fighting to break into the line-up at Center and Tackle spots.

Probable starters for Silverton will be Joe Munday, LE; Bobby Baird, LT; Joe Lee Boner, LG; Melvin Hamilton, C; Joe Dell Hutsell, RG; Richard Gunnell, RT; Billie Tension, RE; Milton Thornton, QB; Donald Bean, RH; Darrell McWilliams, LH; and Joe Lee Brooks, FB.

the rear of the car holding it to keep it from rolling of the jack while James completed the changing of the tire. Mr. T. H. Haney, also enroute home from Dimmitt, failed to see the Beavers car in time to avoid a collision. Mr. Beavers was injured when he was caught between the two cars in the collision. Although not seriously hurt, James was thrown to the ground by the impact of the collision. Mr. Haney is also in the Plains Memorial Hospital receiving treatment for shock, and his condition is also reported up and Beavers was standing at

Castro County Fair Queen Is Chosen from Bevy of Beauties

For the first time in the history of a long line of Castro County Fairs, the fair queen was chosen Monday night by a group of impartial judges. Those judges chose Miss Anne Sheffy to the post of Fair Queen this year over a group of 16 other lovely candidates. The 20-year-old John Tarleton College student was preceded on the stage by her four attendants, Misses Jacqueline Cartwright, Johnnie Godfrey, Wanda Gollehon, and Betty Haberer. These girls were chosen as runners-up to Miss Sheffy, who came on the stage as the grand finale. Music for the show was furnished by Bernie Howell, of Radio Station KGNC, Amarillo. He furnished organ music for both fashion show and beauty contest.

The decision for the contest was arrived at differently than those of past years. Last year the queen had been selected on a basis of money collected on her behalf by her sponsors. This year the girls had sponsors, but of a different nature. These sponsors were sponsors in name only and had little to do with the contest.

The Monday night program also consisted of a fashion show which preceded the beauty contest. The latest in fashions were displayed before the crowd of some 500 who showed their approval with insistent applause. The fair show burden was carried mostly by Manning's, Harmans Department Store and Snipes Shop who entertained the audience for about 30 minutes with their selections of costumes and models.

In the surrounding pictures are shown the girls who won honors and the entire list of participants. Dimmitt, Hart, Nazareth, and Big Square were represented in the county-wide queen choosing.

ENTRANTS—(left to right) Bernie Howell, organist from Amarillo, Pat Tate, Yvonne Bearden, Beth Hance, Sonnie Brown, Betty Brewer and Phyllis Behrends. Marlene Rothwell was unavoidably omitted from the photos.

ENTRANTS—(left to right) Leta Mae Moss, Delores Benson and Patsy Smitherman of Hart, Irene Brockman of Nazareth, and Oma Carpenter and Patsy Rae Hardy of Dimmitt. —Photos by Ayers' Studio

EDITORIALS

The County Fair . . .

Another edition of the Castro County Fair is upon us and as usual a huge turn-out is expected. As we look back at previous fairs we wonder when the largest fair in Dimmitt will be held. Every year sees a county fair of larger proportions and interest is due to the fact that the fair is one of the few things each year that all county residents can participate in.

Few other counties in the Panhandle can boast of such a fair as that seen in Dimmitt and Castro County each year. We are lucky. Some of the irrigated farms in the county should produce some all-time prize winning feed at the fair as some crops look great.

Every county citizen should attend the fair because full co-operation will be a valuable asset in its success this year. A good turn-out Monday night at the fair queen contest started the ball rolling toward this year's complete fair.

Might Be the Truth . . .

Among the exchanges arriving continually at the office is The Echo, prison newspaper at Huntsville. The state should be congratulated on their work with the prisoners, especially by affording them a newspaper.

Our purpose in mentioning this is a little paragraph found on the editorial page. It goes:

"Pa," said the subscribers little daughter, "I know why the editors call themselves 'we'!"

"Why?" queried her father.

"So the fellow who doesn't like what's printed will think that there are too many for him to lick."

Irrigating the West . . .

With much of the talk on water legislation in this section of the state, we are reminded of a plan formulated by one Charles Eli Sexton, a Missourian engineer. Mr. Sexton wanted to use a chain of rivers that run (mostly dry) from the Gulf to North Dakota and Montana to drain away part of the Mississippi River's flood and natural waters for irrigation in arid western states. These rivers would be connected by a series of canals to carry the water south instead of its natural eastern course.

Before we go into the technicalities of the plan, we will point out the fact that many people have already criticized this plan as being hair-brained, impossible and out of the bounds of reasons. Others have urged the program on, while others have offered actual help in getting it underway. Those offering help included Congressmen, businessmen and farmers from all over arid Wyoming, Colorado, New Mexico, and Texas. It is not preposterous, nor is it impossible. According to Mr. Sexton, the entire project would cost money, but it would hardly be more than the amount that the U. S. pours into Europe every six months. The project, although on the surface, huge, would cost little more in work and dollars than the Tennessee Valley Authority plan or the many others.

Purpose of the project, as stated before, would be to irrigate with and to control the flood waters of the Mississippi. Both would be good reasons for serious consideration of the plan. The canal, or river, would run through Castro County and would take off some of the tremendous pressure now applied to our underground water. It would also make for cheaper irrigation and more abundant water. The plan would immediately call for men with big minds and imagination to put it over as the project would literally make a North-South river where nothing but creeks had run before.

Sexton's plan calls for contour canals. Canals which follow the slope of the land, just like the plow furrows on a modern farm follow the slope of the fields. A whole contour canal system, starting in the high plains of Wyoming, a mile up, and winding down the east side of the Rockies to Texas, and the Gulf. Such a canal system would keep about a fifth of the water which now rolls uselessly and dangerously past New Orleans from ever entering the Mississippi.

It would use this water to irrigate an area larger than the State of Texas, turning land that is now sand and scrub into arable farms, providing work and food for millions of people. It would bring life to a broad strip of territory reaching north nearly to Canada and south almost to Mexico.

Exactly how would this system be constructed? A simple matter, according to Mr. Sexton. Start in Wyoming at the point just west of the Black Hills, 5,200 feet above sea level and wind a main ditch down the eastern slopes of the foothills of the Rockies. Wherever the canal strikes a stream, run it downstream until crossing can be made behind a low dam.

This makes possible control of volume of these streams, valuable for irrigation of their lower valleys. Between rivers dig subsidiary canals, winding from the main canal along the crests of the watersheds a hundred or more miles eastward, providing water for areas now dry. These canals would fill thousands of ponds or sinkholes, providing storage and also practically eliminating floods in the flat lands below.

The big canal would thus curve south, dropping only a few inches per mile, through Wyoming, Colorado, Oklahoma and West Texas to the Nueces river, 200 miles east of El Paso, swelling the Nueces all the way to Corpus Christi and the Gulf.

In addition to irrigating its millions of acres, spreading a blanket of vegetation that would halt erosion from the dust bowl north to Montana, and preventing floods, the contour canal would provide easy navigation from Corpus Christi to the Arkansas river and lock navigation from there all the way up to the Black Hills.

Later he proposes other such contour systems which could

be laid down along other slopes. Altogether they would be aimed at diverting four fifths of the water from the Mississippi before it reached the river.

Federal Power Commission engineers have approved the Sexton plan's basic recommendations. We offer it here today as one of the many proposals made because diversion of the Mississippi is a matter which concerns every person in the United States. Some day it must come, we want to see it done in the best way.

Castro County would benefit as much as any locality by the plan as it would pass through here. Such an undertaking would probably pay for itself in a short time. Irrigation must be used to raise crops in much of arid West Texas and Western U. S. and we believe this idea deserves consideration. This would benefit everyone, especially those in the Mississippi Flood Belt. But the Panhandle would also at last be able to quench its everlasting thirst for year-around water.

Diversified Farming . . .

The recent farm trip to Colorado by Castro County farmers pointed out the fact that diversified farming can pay off in dollars as well as land savings. The ultimate aim of the program is to give the farmer an income off of more than one crop, thus insuring a more certain profit. The farmers also learned on the trip that profits can be realized by better practices in soil conservation. This conservation program, if properly carried out, can combine money crops in such a process whereby they all make the farmer more profits and at the same time save or build up his soil. The big money crop in Colorado is beets and it is big money. The crop is only made in beets once in every five years, but it has brought riches to the Arkansas and Platt River Valleys. Sugar beets will prove harmful and even disastrous to soil unless planted carefully. This is the cause for the five-year rotation.

We believe that if, in future years, Castro County farmers employ the practices of diversified farming, this section of the Panhandle will grow extensively. Many towns the size of Plainview and bigger are supported by Colorado farmers in a space not much bigger than Castro County. It could happen here. Larger towns are also a big help to the farmer and everyone concerned. It means more market for farm products, it means more goods and services to townspeople and farmers and better schooling for its children. Those are only a few of the many offerings of a larger town. Dimmitt, Hart, Nazareth and Summerfield could conceivably acquire the big-town status through the many-crop farming programs. It's worth the effort.

Sports Afield

by Ted Kesting

Running an inboard cruiser is something quite different from handling an outboard. Take the inboard motor for instance. It, and the way the inboard cruiser is driven, probably reminds the new owner more of his car than of his outboard. Only after he has run the cruiser awhile will the new navigator realize that driving a big boat something completely different than driving a car.

Boating expert Willard Crandall tells us that the new inboarder should first of all learn the fire hazards of such a boat. This doesn't mean they are unsafe. Barring a violent accident, the gasoline in the tank of any modern cruiser will never explode, any more than with your car. What is to be watched out for is gasoline fumes.

This means the bilges of all cruisers must be kept well ventilated. Particularly just before starting out, as fumes naturally collect while the boat is shut up and idle. Never close a cruiser entirely tight, anyway. It only encourages rot. A good fire extinguisher should always be aboard. The carbon dioxide type is excellent.

There are other differences between inboard and outboard. Many outboard boats never leak

THE LAW AND YOU

by Robt. (Bob) Kirk
County Attorney
1-1mb County, Texas

DO YOU KNOW what a POWER OF ATTORNEY is, and what authority it gives?

A power of attorney is a delegation of authority from one person to another. The one giving the power of attorney is designating another to do certain things for him, just as if he, the giver of the power, were present and doing the same. A power of attorney may be restricted to one single act, or it may be broad enough to authorize the attorney in fact to do any act, or exercise any authority that the grantor of the power could do in person.

Powers of attorney are very useful in many situations, but one giving the power, should be very careful to whom he gives the power, and should be certain that the power gives exactly the authority to the attorney in fact that he wishes him to have. An attorney in fact is limited by the exact wording of the power, so sufficient authority should be given; but it should be borne in mind that the attorney is limited only by the power, and should not be given more authority than necessary.

FOR FURTHER INFORMATION ON THIS SUBJECT SEE YOUR LOCAL ATTORNEY.

Pat Tate, Mona Simmons, Melba Johnson, Della Teague, Rosalie LaPlant and Hazel Coleman left last week for Lubock where they have enrolled at Draughens Business College.

a drop. But not so a cruiser, and it is unreasonable to expect them to be always watertight. It is unnecessary — no one sits with his feet in the bilges. Any excess water that would make the boat wallow in rough water can always be pumped out.

And navigation is quite a different problem. Outboards go or try to go almost anywhere. The inboard cruiser sticks to marked channels, except when well away from the shore on deep water. Learning elementary navigation is fascinating. It is most important for the new inboard cruiser pilot to gain practical knowledge of navigation with his own boat. Plenty of short practice trips, near home, some with an experienced cruiser man, is the prescription to follow.

Comments . . .

A good way to relieve the monotony of your work is to think of ways to improve it.

Men are like steel. When they lose their temper they are worthless.

A dollar may not go very far, but usually it travels far enough so that it never finds its way back.

A man wrapped up in himself makes a small package.

It amazes us to see girls dancing with girls. We didn't think any woman would stand being pushed around by another woman.

Figures reveal that women are wearing fewer clothes these days.

Considering the fact that so many inexperienced people marry, it's no wonder there are so many divorces.

We don't have to show the wife who's master in our house. She knows.

She said that if he was her husband she'd give him poison; and he said that if she was his wife he'd take it.

There would be a whole lot more divorces if husbands had a trade-in value like today's cars.

The law requires that you have a reason before you can get a divorce. Why not require one to get married?

The good woman cannot tell a lie — unless it's ours.

Don't worry Mary — pop doesn't really give the bride away. If he did, none of the girls would ever get married.

Many a man has roamed the streets late at night without a reason. If he could think of one he would have gone home earlier.

Scale, 200 feet to the inch.

Water Authorities Want Castro County Water Data

LITTLEFIELD — Spl.—The State Board of Water Engineers is seeking maps and written data giving evidence of the geographical area and extent of the underground water reservoir in a 21-county Panhandle-South Plain area.

The board made the request for written material following a recent 21-county hearing in Plainview at which it received oral testimony on the ground water supply.

They are chiefly interested in receiving information about areas which will, or will not, support irrigation wells producing at least 107 gallons per minute (or 150,000 gallons per day).

The dry areas, together with 160-acre tracts of grazing land not irrigated, and areas where water is not suitable for commercial purposes, will be excluded from a proposed underground water conservation district.

The High Plains Water Conservation and Users Association, with offices in Littlefield, has members in 14 counties who are cooperating by submitting written data on the ground water supply.

Any individual who has information on the extent of the reservoir should communicate with the State Board of Water Engineers, H. A. Beckwith, chairman, Austin, Texas.

Information is sought from the following counties: Armstrong, Bailey, Briscoe, Castro, Cochran, Crosby, Deaf Smith, Dickens, Lamb, Lubbock, Lynn, Oldham, Parmer, Potter, Randall, Swisher and Terry.

Officials will be in attendance, Hammond said.

Farm Bureau policies are developed by the membership, Hammond asserted and the series of meetings has been scheduled so that state and national officials may have the benefit of the thinking of farmers and ranchers throughout the state, and at the same time for officials of the organization to give farm people more needed information on the program of the Farm Bureau, its aims and accomplishments. Every day the business of farming becomes more complicated, Hammond declared, and the need for a stronger Farm Bureau more necessary. If rural people want a democratic government, fair prices, good roads, a fair tax program, improved educational facilities for their children, and a better rural health program, then they want a strong Farm Bureau in Texas and he Nation, he concluded.

All farmers and ranches of the area are urged to attend their nearest sub-district meeting.

SOIL CONSERVATION EMPLOYEES PICNIC

All officers and employes of the Castro County Soil Conservation District enjoyed a picnic at the roadside park south of Dimmitt Friday night. A picnic meal of hamburgers and ice cream were served to the following: Mr. and Mrs. Lewis Ellison and family, Mr. and Mrs. M. A. Kelly and family, Mr. and Mrs. O. K. Howe and family, Mr. and Mrs. Robert Daniels and family, Mr. and Mrs. H. E. Hershey and family and Miss Maxine Smith.

Better Sight
BY THE CARTON

Lamps with empty sockets are about as handy as a ship without a sail! No matter how efficient... or how many lamps you may have around the house... they're so much excess baggage if your supply of lamp-bulbs is down to the bottom of the carton.

Good light is so necessary to good sight. And a carton of bulbs always on hand is insurance against "bulb snatching"... being without... or inconvenient rushing to the store.

Yes, BULBS ARE MIGHTY IMPORTANT... cleanliness is, too! Your lamps and fixtures should be kept clean. Dust and dirt can rob you of half the light you pay for. Reflector bowls can be washed with soap and water... bulbs wiped clean with a damp cloth. Shades may be dusted, washed or dry-cleaned... depending on the type fabric. Light-conditioning your home is economical, too... low cost, dependable electric service makes it so!

THERE'S A BULB FOR EVERY JOB...
40-60 watt—Strictly decorative... such as boudoir lamps, brackets, etc.
75-100 watt—Decorative and functional where the seeing task isn't too demanding.
150-300 watt—Reading, sewing... where good, strong light is needed for proper "see-ability."

Good Rains Insure Bumper Row Crop

General rains falling over the Panhandle-Plains area beginning Monday and continuing intermittently through Wednesday have

brought enough moisture to the region to insure a bumper row crop harvest. Much of the row crop in this area is later than usual due to the lateness of the arrival of a planting season, but according to many farmers of the county, crops are well enough advanced to reasonably assure maturity sufficiently early.

Although some communities received more rain than others the rains were general and sufficient to meet present needs in all sec-

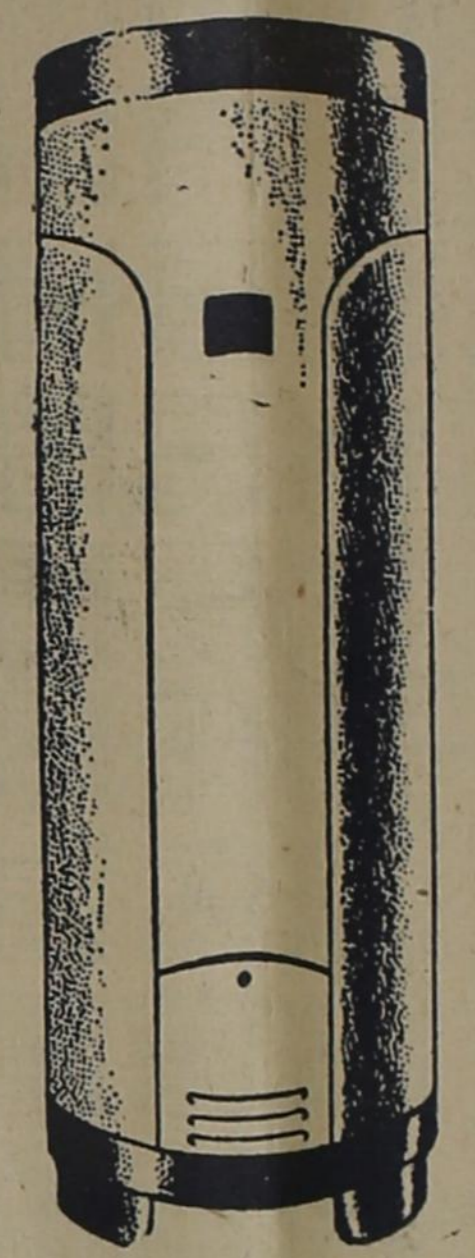

tions. Moisture received in this immediate territory amounted to 2.40 inches.

Mrs. Swain Burkett, Joe and Mike, returned home Friday from Rochester where they had been for a week's visit with her parents, Mr. and Mrs. A. M. Reeves. They were accompanied to Dimmitt by Mr. and Mrs. Reeves who visited here over the week-end.

loose metal objects. The magnets are activated by a large generator in the bed of the truck and are strong enough to pick up manhole covers. Gathered in this pile of scrap metal are 2000 punctures.

**E. B. Noble Buys
Phillips 66
Service Station**

Elsewhere in this issue of the News is the formal announcement of the purchase of the Phillips 66 Service Station in Dimmitt by E. B. Noble from Mr. Jack Wright. Noble assumed ownership and management of the station on September 1, and is inviting his friends and the public to visit him at his new place of business. Before purchasing his own business Noble had been employed by the Kirkpatrick Sales Company in its service station department for the past several months. The new management of the local Phillips 66 Station declared that their policy would be to offer a complete and efficient service to the car owners of this area. Mr. Wright, who has operated the station for the past year, has not announced his plans for the future.

**Local Men Attend
Water Meeting**

Elmer Youts, Posie Cunningham and Willis A. Hawkins represented Castro County at a water conservation meeting held in Plainview on Tuesday of last week. Fourteen High Plains counties were represented at the meeting at which the delegates were told that it would be to the advantage of the 21 county area designated as the High Plains shallow water and irrigation belt, to set up a Water Conservation District. The proposed district would be governed by local committees rather than by some appointed state official.

**Bobcat Inn In
New Location**

The Bobcat Inn, formerly located in the Cotton building next to the Rio Theatre, has been moved to its new location in the Boothe building just east of the Dimmitt Laundry. The Boothe building, formerly occupied by the Conard Cafe, has been purchased by Mr. and Mrs. M. B. Jowell, owners and operators of the Bobcat Inn. They invite their friends and customers to visit them in their new location.

**Jim Goins is Salesman
At Latimer Motors**

Jim Goins assumed his duties as salesman for Latimer Motors on September 1, according to an announcement by Frank Latimer, owner and manager of the firm. Goins is an experienced car and machinery salesman having served in that field for more than a year since coming to Dimmitt. Latimer Motors is local dealer for Allis-Chalmers farm machinery and Dodge cars and trucks and Plymouth cars.

A truly sensible girl is not as sensible as she looks, because a sensible girl has more sense than to look sensible.

Most women go to musical comedies to see what the actresses are wearing. It's just the reverse with the men.

**Mrs. Earl Lust
To Review Book
Wednesday**

BY MRS. F. J. EASTER
Librarian

It is time to say hello to the members of the Book Club of Dimmitt and to remind them that Wednesday, Sept. 13th is the time for our first review of the club year. Mrs. Earl Lust is reporting on "Comes the Comrade!" by Alexandra Orme. This is a book of the month selection.

John P. Marquand said, "On the dust jacket of "Comes the Comrade!", the publishers have described the author's amazing cultural and personal experiences with the Russian Army. When a part of it swept over a small Hungarian village at the end of the last war, as gay, amusing, slightly terrifying. Technically this is a correct appraisal. The book is very gay and very amusing because no matter in what situation she may be thrown, its author is a gay and amusing person. The pages sparkle with her humor and her sophisticated sympathy. It is true also that her adventures with war-worn Russian troops from all parts of the Soviet Union are not particularly terrifying in themselves, because she was lucky enough to know the language and the thought processes of Russia. Yet no impartiality can conceal the final impact of this narrative, or its implications. These are more than slightly terrifying. They are calculated to curl the hair of anyone brought up in an ordered environment."

What others think about you will not cause you a moment's concern if what you think about yourself doesn't worry you.

The girl friend asked him if he liked moving pictures; then invited him to help clean out the attic.

PHILLIPS 66 SERVICE STATION

BETHEL NEWS

Mr. and Mrs. Artice Warren and family have recently moved to Dimmitt from Bell County. Mr. Warren is employed at the Ford Garage. Mrs. Warren and Mrs. Byran Sinclair are sisters. Mr. and Mrs. Bert Hatch and children from Seal Beach, Calif., have been visiting Mr. and Mrs. R. M. Warren. Mr. Hatch (or Bert as we at Bethel knew him) is conducting a revival meeting in Amarillo. He is a Baptist pastor in his home town in Calif. Mr. and Mrs. Harry Rothwell had as Tuesday evening supper guests, Mr. and Mrs. Albert Smith of Big Spring and their daughter, Mrs. Wally Cataldo and two children, Julie Ann and Wally from N. Y. City. Mrs. Sallie Stephson from Snyder, Mr.

and Mrs. Cleo Richardson of Big Spring and Mrs. J. G. Davis of Dimmitt, Mr. and Mrs. Richardson spent the night. Mrs. Buster Morgan and little daughter have been visiting her mother in Waco for several days. Mr. and Mrs. Jim Bagwell, Robert and Latrelle from Amistad, N. M., visited relatives and friends the first of the week and attended the funeral of Mr. J. G. Davis, Sr. Little Derrell Stein has been real sick in Amherst hospital for several days. We wish him a speedy recovery. Mr. and Mrs. Kay Roberts had as last Sunday guests, Mrs. Robert's sister, Mrs. Jinks from Amarillo and a number of other relatives. Mrs. Earl Lust, Mrs. Harry Rothwell, Mrs. Vern Lust and Mrs. Joe Gollehon of Dimmitt at-

tended zone meeting of the Woman's Society of Christian Service at the Methodist Church at Tulia Tuesday morning. Mrs. Murry and daughter, Jeannette, will return to their home in Seymour this week after spending the past three weeks with her daughter and family, Mr. and Mrs. Walter Cox. A large crowd enjoyed the annual chicken fry at Bethel Friday night. We always enjoy the good eats and visiting with our friends and neighbors, some may be we hadn't seen since the occasion last year. Some weren't there, we are wondering why. Mr. and Mrs. Emmitt Coleman and children of Happy were Sunday guests of Mr. and Mrs. Walter Cox and family. Mr. and Mrs. Harry Rothwell were visiting his sister and family, Mr. and Mrs. Virgil Nowell of Muleshoe Sunday evening. Mrs. Alice Brown of Floydada is spending several days with her son and family, Mr. and Mrs. Ira Brown. Mr. and Mrs. Houston Lust and children, Jo and Sue, and Mr. and Mrs. Loy Dean Stone were Sunday guests of their parents, Mr. and Mrs. Vern Lust. Mr. and Mrs. J. C. Williams had as Sunday guests Mr. and Mrs. Caul of Westway and Mr. and Mrs. Glenn Williams and children of Hereford. This is combination of two weeks news since there wasn't any news written last week. We surely appreciate all the nice rains we have had.

Increased Payments Due In October On Social Security

Here is what happened to old-age and survivors insurance in the Texas Panhandle area when President Truman signed the 1950 amendments to the Social Security Act. All monthly insurance checks now being paid to the 2589 social security beneficiaries in the 26 counties administered by the Amarillo Field Office will be raised substantially. This raise will be in the October checks, which are for the month of September, according to John R. Sanderson, Manager of the Amarillo office. The new amounts will be computed by the Social Security Administration, automatically, and no action is necessary on the part of persons already receiving checks to obtain the increase. Manager Sanderson stated that under the old terms of the Social Security Act that the 2589 beneficiaries in the Panhandle Area would have received about \$45,000 for the month of September. Under the new increases, however, total payments for September are estimated to be about \$84,000, or an immediate increase of some \$39,000 monthly in insurance benefits in this area. In later articles, Sanderson said, an explanation of the major changes brought about by these amendments will be presented.

Plains agricultural techniques. From Sept. 5 to Sept. 14 he will visit Amherst, and then will make a tour of Dawson county.

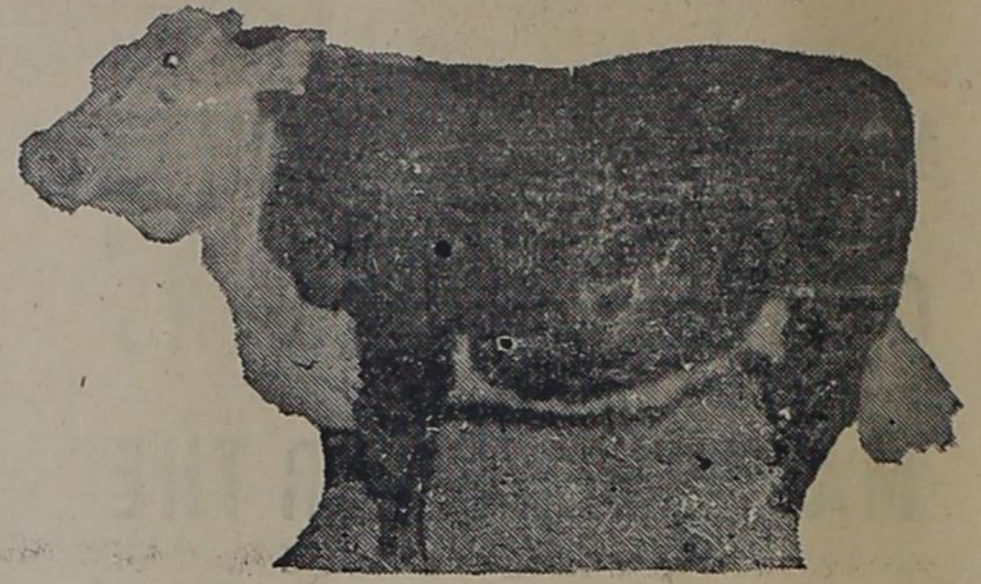

Mr. and Mrs. Lonnie Rice moved to Canyon last week where Lonnie has enrolled at W. T. S. C. and is training with the Buffalo

Football squad. Mrs. Rice is employed as receptionist in the office of Dr. Wooten, dentist.

Mr. and Mrs. Olen Rice returned home recently from Weatherford where they visited his sister, Mrs. Roy Appleton. They also visited relatives in Fort Worth.

Mr. and Mrs. Willard Grigsby of Nocona were here last week for a visit in the home of her cousin, Walter Hodges, and family. Mr. Grigsby assumed his duties as Postmaster of Nocona September 1.

Mr. and Mrs. L. P. Jeter and sons of Eunice, N. M., were visitors of the Glenn Smiths last week end. Ladell returned home with them from a two week visit with her parents. Other out of town guests were Mr. and Mrs. L. D. Boyd and Mr. and Mrs. Roy Rogers of Hereford, Margie Crowley and Betty Right of Amarillo, Lois Ray Boyd of Portales, N. M., Mr. and Mrs. John Curtis of Lubbock and Mrs. G. P. Kirk and Sammie Mac of Dimmitt.

Turk Studying Or Tech Via Marshall Plan

Marshall Plan aid to Europe has brought Nurettin Madran, 42-year-old member of the Turkish agriculture mission to the United States, to Texas Technological College for a study of extension work in West Texas.

Madran has been in this country since last March. Through the ECA he will be able to continue his study of American agriculture until March. His work at Tech has been in the classroom and in the field with assistant county agent Morris Duncan. He has visited demonstrations ranging from home canning to farm fashions.

Before Madran leaves Tech late in November he will make a scheduled tour of nearby communities to study irrigation and other

Sgt. Calhoun Is First Dimmitt Korean Veteran To Arrive Home

Although Sgt. Edward P. Calhoun was too young for service in World War II "he knows the score" after three weeks of combat in Korea with the 1st Cavalry Division.

Of course he can't compare the two conflicts, but he does know this is a mighty dirty war and they haven't been getting the equipment they need. He reiterated a correspondent's recent statement that if the war were being fought with brushless

shave cream and such non-essential items they would be doing all right.

Twenty-year-old Sgt. Calhoun received orders to come back to the states because his mother was very sick, nearly five weeks ago. She died before he arrived at her home at Palestine. He has been visiting friends and relatives in the Hereford, Dimmitt area since, while staying with his father and step-mother, Mr. and Mrs. R. L. Calhoun at

402 A, West Fifth Street and his brother, Ernest Calhoun or sister, Mrs. C. A. Wood, Dimmitt. The Sgt. attended school here.

Sgt. Calhoun verified stories of American soldiers who had been taken prisoner being shot. He said he saw a group of men with their hands tied behind their backs, who had been beaten and then shot in the face.

He also cited examples when inexperienced American troops

had broken and run when North Korean troops were attacking. At the same time he remarked about a 17-year-old gunner in his company who wouldn't back up a step under any circumstances, other than orders.

Sgt. Calhoun has personally accounted for 28 of the "Gooks." As for the future he doesn't believe Allied forces will be shoved off Korea and he doesn't have the least bit of doubt that in the end they will win, but he does

say there will be a lot of casualties in doing so.

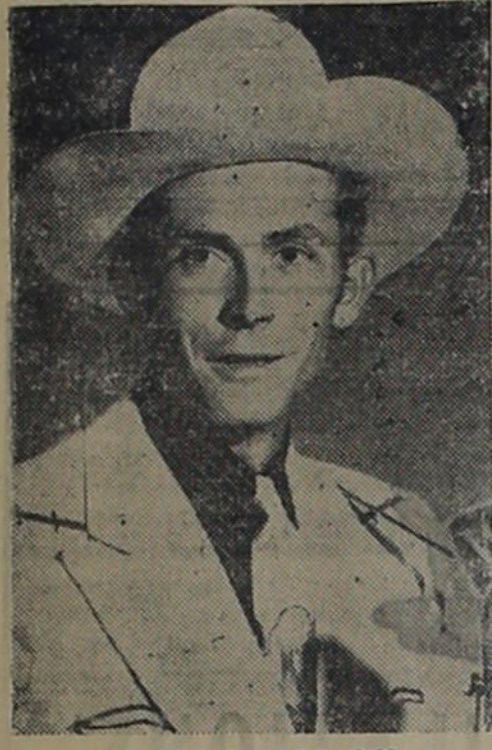

Sgt. Calhoun had been in Japan almost two and a half years when his outfit moved into Korea about two months ago.

Tri-State Fair Will Feature Big Name Artists

Two highlights of the Tri-state Fair in Amarillo this month will be free acts which will appear twice daily on the Midway, September 18 through September 23.

One act features a miniature circus with monkey, dog and pony show which will delight the children. The other, an aerial show which stars former performers of the Ringling Bros. Circus, will thrill young and old alike.

In response to popular demand the Grand Ole Opry will return to the Fair this year. Hank Williams, Ernest Tubbs and Minnie Pearl and other favorites will appear at afternoon and evening performances at the Sports Arena. On the Midway Bill Hames' Carnival will present a spectacular array of shows and rides.

According to Rex Baxter, the fair's manager, agricultural, livestock and educational shows and exhibits will be tops this year.

Mrs. Garland Brown was called to Del Rio last week because of the illness of a brother.

EASTERN STAR TO MEET SEPTEMBER 12

According to an announcement by officials of the local Order of the Eastern Star will meet Tuesday, September 12, in regular meeting at the Masonic Hall in Dimmitt. All members of the organization are urged to be present.

Mr. and Mrs. Floyd Smith, Gwendolyn and Jane Ann left Thursday for Avondale, Colorado, where they will farm.

with MM Moline-Monitor FERTILIZER DRILLS with FLUTED FEED - Single or Double Discs

Built to give even distribution of seed and fertilizer all in one operation. MM Fertilizer Drills are ideal for putting fertilizer back in the soil while you are seeding. The MM sturdy axles and frame on which the duplex hopper is mounted are rugged and strong to carry the extra weight without sagging or warping. Built low for easy filling. Snap down lids keep the fertilizer and seed from spilling out in rough rutted ground. Fertilizer is sown through the seed tubes. Moline-Monitor Fertilizer Drills are designed to drill any type of commercial fertilizer. You can accurately distribute between 60 to 1400 pounds of fertilizer per acre depending on the size of the feeder foot and the type of fertilizer used at the same time you accurately seed at uniform depth!

This picture was made at the Marshall home near Rocky Ford, Colorado.

about dimmitt..

(Continued from page 1)

Junior, will return him before he forgets the homefolks. He can't wag his tail to show you that he likes you because his tail has been detailed, but he does fold his body up in a friendly gesture just to let you know that he is proud that you got home from the days work without any mishap. And too, whoever has him won't be pleased with the little rascal. He chews up everything that he can find and drags sticks, bones and rags onto the porch and yard. We wouldn't want anybody to put with such as that, it's not worth the trouble just to have a dog. He is a light brown but is getting darker all the time. If you know anything about him give us a ring, he wandered off about a week or ten days ago, and hasn't wandered back.

—adacc—

The Queen contest and Fashion Show was about one of the best and most beautiful sights this writer ever witnessed. Castro County is the producer of a lot of different kinds of champions. The modeling had a hint of professional about it and the Fair Queen candidates were every one Queen material.

—adacc—

Ray Bearden would have been a perfect MC at the beauty contest if he could have kept his eyes on the script.

—adacc—

As we go to press the picture in Korea is taking on a brighter aspect. A newscaster has just said that our military leaders in the Far East have reported that the Commies are running out of ammunition and other supplies, and that their manpower is also being rapidly exhausted. Maybe this is the break in the news that we have been wanting and praying to hear. Although the mad rush to prepare for total war must be continued, it is the hope of our government and the people of the United States that something will happen that will spare our people the ordeal of another long costly conflict. It is useless to predict any eventualities that will divert a global war, the course of affairs are out of the hands of reasonable people, no treaties or agreements with Russia will be of any benefit. Nothing short of the overthrow of the Russian government from within can save the world from a task that will all but exhaust its manpower and materials. It is never too late to hope, but it is too late to compromise. All peace loving nations know and are determined that Communism must be stopped everywhere as it has been in Ko-

New Instrument Aids Farmer

FORD TRACTORS now coming off the assembly lines at the Ford Highland Park, Michigan, Plant are equipped with the new Proof-Meter, an instrument which "takes the guesswork out of tractor operation." Actually five instruments in one, the Proof-Meter shows engine speed, tractor speed, power take-off speed, belt pulley speed and total hours

worked by the tractor. The farmer in the picture is recording hours of tractor operation for use in determining his farming costs. In the lower right hand corner is an enlarged close-up of the Proof-Meter, which Dearborn Motors officials say is the first instrument of its kind to be made available on a farm tractor.

rea if necessary.

It is possible that no government has ever been called on to withstand a barrage of criticism such as that which has been leveled at our national government in the past year, beginning with the faith destroying rabble-rousing attack of Senator McCarthy, down to the yammering attacks of political hopefuls and disillusioned failures who would jeopardise our national security for a little personal publicity.

Congratulations to Anne Sheffy. Being Queen of the Castro County Fair is a coveted honor, but in this particular instance through the power vested in the Castro County Chamber of Commerce the title of Grain Sorghum Queen of the Nation has been conferred on the Fair Queen. If there are those in any other county in Texas or any other state in the nation that cares to contest Anne's title as National Grain Sorghum Queen we will meet them in open and fair competition in the Dimmitt High School auditorium with judges impartially selected by the local Chamber of Commerce. Castro County has another first—the first National Grain Sorghum Queen.

For some reason one of the candidates was missed when pictures of the Queen contestants were made. She was Marlene Rothwell. Another candidate, Shirley Sharp of Hart, sponsored by the A. J. Harris & Sons Lumber Company failed to show up, due no doubt to unforeseen occurrences.

If the turmoil in world affairs would settle down and the people of Castro County could put their undivided attention to developing this fine area the changes in the next five years would be phenomenal.

NUMBER 43

Mary Vestal and Jerry Hall Are Married In Impressive Church Ceremony Aug. 31

Miss Mary Frances Vestal, daughter of Mr. and Mrs. R. S. Vestal of Dimmitt, became the bride of M. Y. (Jerry) Hall, son of Mr. and Mrs. Morgan Hall of Stanton, in a double ring ceremony performed Thursday night at 7 o'clock in the First Baptist Church, Dimmitt. Rev. Raymond Van Zandt, pastor of the First Methodist Church of Andrews officiated.

The bride was given in marriage by her father before an altar banked with baskets of white gladioli, white asters and fern. Palms and candelabra were in the background.

Mr. LeRoy DeWolfe played several nuptial selections and accompanied Mrs. Noel Gollehon as she sang "Because" and "At Dawning". He accompanied the Don Nelson as he sang "The Lord's Prayer" as a musical benediction. The traditional wedding marches were used. "Clair De Lune" and "Indian Love Call"

formed a musical background for the exchange of vows.

The bride wore a wedding dress of imported Chantilly lace, fashioned with a fitted bodice, and self-covered buttons which extended to the lace peplum at the waist. The elbow-length sleeves were complimented with lace ruffles. A full length skirt of white organdy and taffeta was held out by hoops to accent its fullness.

She wore a fingertip veil of French illusion edged with Chantilly lace falling from a Juliet cap of lace and a halo of white-camellias.

Miss Marjorie Nichols of Seagraves attended as maid of honor, wearing a lime green dress of organdy over taffeta, designed with a flared skirt, fitted bodice with high neckline and winged sleeves. She carried an arm bouquet of yellow gladioli with yellow satin ribbons.

Bridesmaids were Misses Sue Holmes of Garland, Jo Jon Hall,

sister of the bridegroom from Stanton, Mary Margaret Webb of Seagraves and Louis Baumann of Lorane. They wore identical shades of peach, yellow, turquoise and smoky blue. They carried arm bouquets of asters in contrasting colors tied with satin ribbons. They wore headdresses of ruffled organdy and roses in halo fashion and wore mitts of organdy to match their dresses.

Flower girls were Carol Cowser, Carol Hays and Susan Youts, all of Dimmitt. The little girls were dressed in white organdy over taffeta fashioned with fitted bodices, puff sleeves, tucked full skirts, and white mitts. They wore ruffled organdy headdresses with roses in halo fashion. They carried white lace baskets of flower petals.

Bob Haislip of Stanton served the bridegroom as best man. Ushers were Jimmy Stalling of Stanton, Bill Parsley and Tommy Daniels, both of Lubbock. Ring bearer was Jim Cowser of Dimmitt.

The home of the bride's parents was the scene of the reception which followed the ceremony.

A four-tiered wedding cake formed the central decoration of the table. White gladioli and white tapers in crystal candelabra made the side decoration. Frosted lime punch was served from the punch bowl, presided over by Mrs. A. C. Hays and Mrs. Glen Youts. Mrs. Joe Webb of Seagraves and Mrs. Jack Gregory served the cake.

Mrs. Ray Bearden and Mrs. Morgan Dennis registered the 300 guests at the bride's book.

Others in the house party were Mesdames Jack Cowser, Glenn Ratcliff, Porter Stone, Goodwin Miller, Claude Forson, Joe Cowen, O. K. Howe, John Blaine, Melvin Richardson, Lemuel Lust, Earl White and Miss Hazel Merritt.

After a wedding trip to New Mexico the couple will be at home at 2104 Fourteenth in Lubbock where the bridegroom is a member of the editorial staff of the *Avalanche - Journal Publishing Company*.

The bride is a senior journalism student at Texas Tech, where she is a member of *Ko Shari* social club. The bridegroom is a graduate of Texas Tech, where he was editor of "The *Tormentor*", the college paper.

Dimmitt Garden Club Plans Annual Flower Show At Castro County Fair

Plans are complete for staging the Annual Fall Flower Show of the Dimmitt Garden Club to be held at the Fair Grounds, Friday, September 8 from 2:00 until 8:00 p. m.

Committees are: Mesdames Jack Cowser, T. A. Singer and Joe Benson, General Committee; Mesdames Joe Cowen, B. J. Brannan and T. A. Singer, Schedule Committee; Mesdames Goodwin Miller, H. H. Carlile and Henry Stalcup, Staging Committee; Mesdames B. J. Brannan, H. Hershey, N. L. Wesson, Euster Cooper, J. O. Seale and Clarence Bearden, Entry and Classification; Mesdames Joe Benson and Homer Newton, Judging Committee; Mesdames M. E. Cleavinger, L. A. Norman and Joe Benson Publicity Committee.

Special arrangements featuring the theme will include settings for Terrace Table—Mesdames Jack Gregory and Glen Ratcliff; Chuck Wagon Supper—Mesdames A. J. Kemp, G. P. Dyer, Joe Bailes; Sun-Up Breakfast—Mesdames Pearl Sheffy and M. E. Cleavinger; Thanksgiving table—Mrs. J. C. Gilbreath.

An outstanding show has been planned and everyone is invited to attend and bring flowers. Flowers must be in place by 10:00 a. m., Friday.

Ladies from the Hereford Garden Club will be judges and ribbon prizes will be awarded.

Mr. and Mrs. Charlie Hastings and family of Dumas are visiting relatives in Dimmitt. Mr. Hastings is manager of the Foxworth-Galbraith Lumber Company at Dumas.

Mr. and Mrs. Jack Boren and son, Bo, of Lubbock were here for a last week-end visit with his mother, Mrs. R. B. Boren.

Wonder if they call marriage an institution because you have to be crazy to enter?
Funny world: A man won't kiss his wife for years; yet he'll shoot the first man who does.

Class of '47 Holds Annual Reunion Party

Members of the class of 1947 of the Dimmitt High School held their annual reunion Saturday night, September 2 at the roadside park south of Dimmitt. The reunion party featured a chicken barbecue with all the members of the class bringing chicken and other eatables.

A general get-together and conversation session was held in place of the usual games with all enjoying the party. Many of the members had married and had their husbands and wives as guests at the affair with some bringing their children. The reunion has been held ever year since graduation, with the parties

being sponsored by Mrs. Sam Hunter, high school teacher of the class members.

Those attending the reunion included Mr. and Mrs. Jimmy Ray Sparkman of Hereford, Bascom Nelson, Mr. and Mrs. Bill Gladman, Robert Duncan, Lloyd Lust, Leland Lee, Elbert Smith, Oren Eubanks, Mr. and Mrs. Jim Aldridge, Mr. and Mrs. Harland Dodd, Mr. and Mrs. Charles Wilder of Hereford, Billie Jo Cluck, Jack Brannan, Mr. and Mrs. Johnny Gibson, Jo Anne Thompson, Mr. and Mrs. Lynn Smith, Mr. and Mrs. C. H. James, Clara Dowty, Elbert Hart of Abemathy, Gailya Lilley, Joe Harrison, Cherry Anne Forrest of Hereford, Byoung Kee Min of Seoul, Korea, Earl Greathouse, Glenna Morgan of Portales, N. M., Mr. and Mrs. J. O. Seale, Mr. and Mrs. S. M. Hunter and Hoyt Kenmore.

The above names are those listed in the guest book, which was complete in regard to actual graduating members of the class but omitted several guests. Byoung Kee Min, of Korea, was special guest of Joe Harrison, whom Byoung is visiting from McMurry College.

Southern Industry Starts Promotion Campaign Soon

Several Million dollars in facsimile Confederate money will soon appear throughout the South as part of a huge publicity campaign by Southern manufacturers to promote the growth of the South. The campaign is being launched to call attention to the area's many advantages, both

as a place to live and as a location for industry. Working together, the companies will sponsor a Southwide contest to stimulate the interest and pride of Southerners in the South. The most ambitious attempt to date of Southern manufacturers to promote their market, the contest will offer 100 prizes valued at more than \$15,000 to the winners.

He used to catch her in his

arms before they were married. Now he catches her in his pockets.

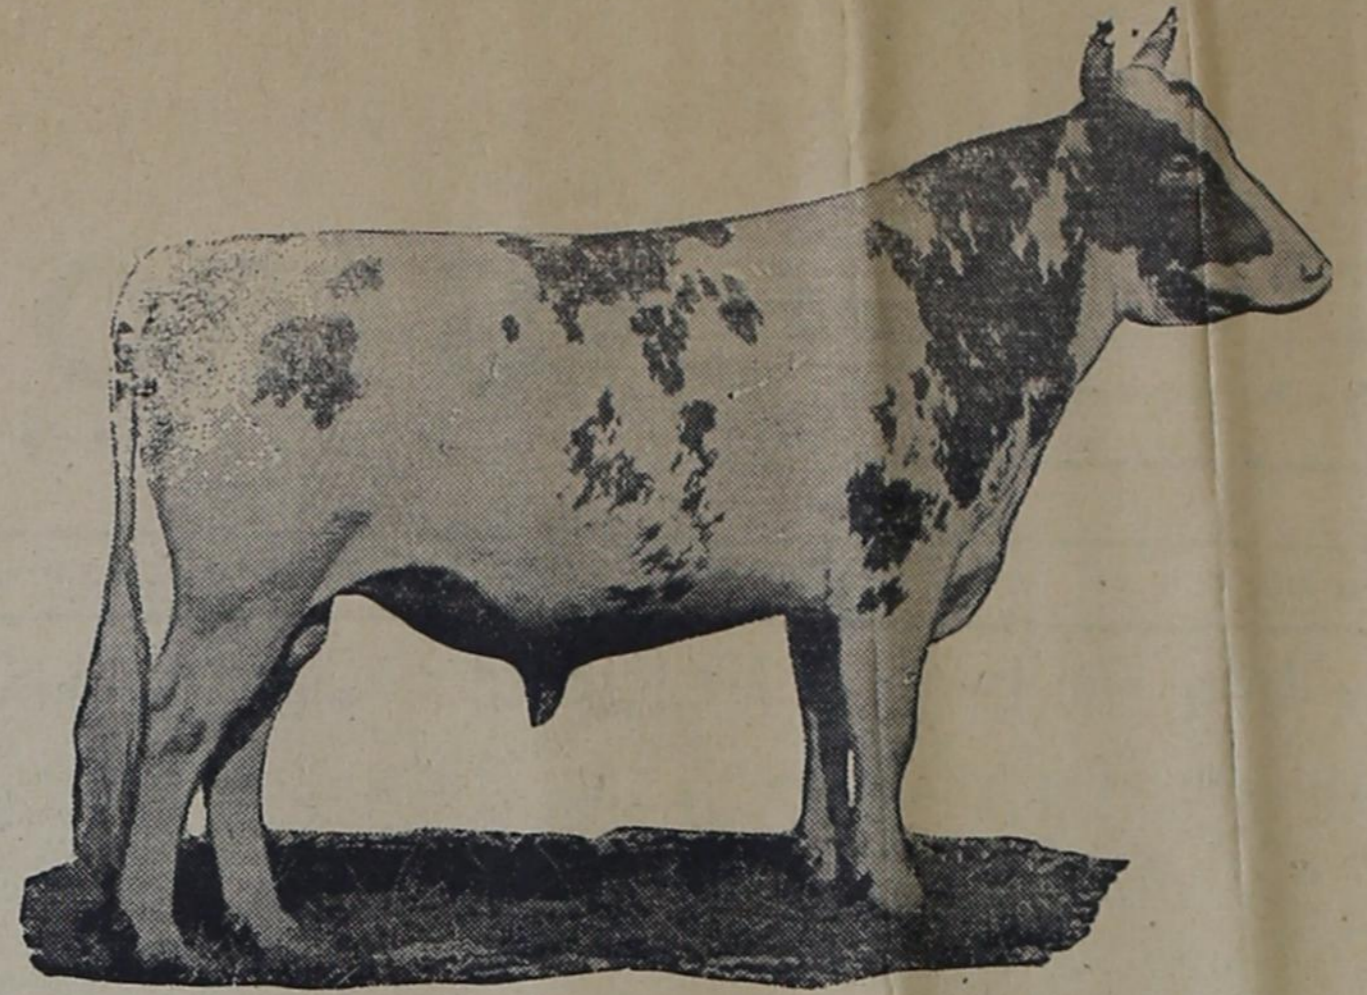

It isn't the fact that a man stares at your wife that makes you mad. It's the fact that she enjoys it.

We don't believe that brunettes have any sweeter disposition than blonds. The wife has been both and we can't see any difference.

Young Korean Is Guest of Lions Club Tuesday

Byoung Kee Min, 23 year old Korean student of McMurry College was guest speaker at the Dimmitt Lions Club at the regular meeting of the Club Tuesday. Min, here for a visit with college classmates, was introduced by Joe Harrison, also a McMurry College student. Before coming to the United States the young Korean attended school at the University of Korea in Seoul where he began the study of English. He enrolled in McMurry in October, 1949, as a law student taking advantage of a scholarship awarded to him in his native Korea. When the Korean crisis developed Min was advised by faculty members at McMurry and fellow students to remain in the United States that he might be better equipped through education to render his country a greater service in post war years than it would be possible for him to render at this time. The young man hasn't had any information about his family since the outbreak of hostilities.

In comparing the Democratic South Korea and the Communist North Korea, Min declared that following the defeat of the Japs who had ruled his country for the past forty years, that during the military occupation of Korea by American and Russian troops, an estimated five million Koreans migrated from North Korea to South Korea to escape the communist scourge. Discussing the economic condition of South Korea following the war years, the young Korean declared that although living conditions in his native land were poor with many of the country's factories demolished by war and agriculture at a low production stage, the assistance rendered by the United States was gradually but surely raising the living standards of his countryman and the economy of the country had once again kindled hope in the hearts of the long depressed people. Min pointed out that on the appointed date the United States withdrew all military personnel from South Korea and that the approved inspectors were allowed to enter the area and report the removal of the military. North Korea, however was a different story. When the inspectors headed north to inspect the Russian zone they were turned back at the 38th parallel.

Plan Now For Painting Later This Fall

Since proper preparation for a good painting job takes some time, W. S. Allen, extension agricultural engineer-building of Texas A. & M. College, suggests that farmers start making plans now for painting this fall. He points out that September and October are the best months for painting because the weather is too hot during the summer and too cold or rainy later on during November and December.

Allen cautions farmers to prepare the surface to be painted before applying the new coats. Remove all the loose old paint and make sure that the surface is dry. He says that even the best paint will fail if it is applied immediately after a shower.

He points out that the paint job is no better than the paint applied. Too much oil causes paint to dry slowly and become dirty and faded, while too little oil causes it to wear off rapidly. Cracking is the result of temperature changes on hard, quick-drying paints. Wrinkles show up because of improper brushing of heavy oily mixtures. Chalking is usually caused by using too much thinner or by skimping on the number of coats applied.

Allen suggests checking the manufacturer's label in order to make sure of getting the kind of paint desired. He says that local weather conditions play an important part in the selection of paint. In warm, humid climates, the harder types of paint containing greater amounts of zinc oxide usually stand up better than soft paints. Some ready-mixed paints contain certain ingredients which retard the growth of mildew.

Although hand-brushing usually gives a higher coverage of surface per gallon of paint, Allen says that this is usually more than offset by labor saved by using a good paint sprayer.

He reminds farmers that, although painting a house or barn makes it look nicer, the real reason for painting is to protect the building. He states that now is the time to prepare for painting farm buildings which have not been painted during the last four or five years.

Three important points to remember about painting are: pick mild, dry days to do the painting, buy the paint by the label on the can, and do a good job of applying the coats.

We wish Emily Post would provide the answer to the proper way to make a waitress aware of our existence.

Progress in the agricultural industry in Castro County has been phenomenal during recent years as a result of improved, farsighted, farming methods. This progress will continue so long as proper farming methods are employed in our county. Our natural wealth is in our soil and can only be exploited to the fullest by approved scientific farming methods.

FIRST STATE BANK

**W. T. S. C. Buffaloes
Open Grid Season
September 16**

CANYON, Sept. 6 (WTNS)—Coach Frank Kimbrough and his 47 varsity football candidates have settled down into steady two-a-day drills in preparation for the West Texas State opener against conference opponent Arizona State of Flagstaff, September 16. The tilt will be played under the lights in Amarillo Stadium.

Headed by co-captains Gene Mayfield, Quitaque quarterback and top contender for conference honors, and big Roy Lee Dunn, 205-pound 6'3 Borger end, the squad has battled the rain and muddy drill fields to keep at their rigorous training. Ten beefy Buffs reported in Monday from two-weeks training with the Texas National Guard and have helped the spirit of the 'darkhorse Buffaloes' tremendously.

Although a definite starting lineup has not been formed, the first eleven is coming to the fore. At the present time it looks as though Dunn and Joe Spann, 185 pound Monday junior, will take over the end posts. Tackle slots will probably be manned by second-team all-conference Bruce Womack, 200-pounder from Floydada and senior Donald Briggs, 195-pound Shamrock hustler.

Big blond Bob Kelly, weighing in at 215 pounds should get the nod at center although a spring leg operation may tame him down a bit. At the guard spots fiery little J. D. Covington, Borger regular, and Don Tucker, 197-pound Throckmorton senior should make a fine combination.

Kimbrough's backfield choices are fine and many. Mayfield, who completed 54 out of 100 tosses last year and racked up 300 yards on the ground, will be at quarter. The handsome Quitaque back will also do some punting and play a great deal on defense. At the fullback post will be the Canadian scooter, Bill Cross. Although he weighs only 150 pounds, the opponents know he is dangerous with his shifty hard-hitting style of running. At the halfback slot will be churnin' Charlie Wright, the Border Conference's number two man in rushing last year. Wright is tipping the scales at 195 pounds and seems faster than ever.

Eddie Conner, determined Floydada flash, should get the wingback starting assignment al-

though he will be pushed by Walker Bateman, Plainview. With that combination, Kimbrough will field a line averaging 196 pounds and a starting backfield averaging 177. The all-over team average will be 189 pounds.

**Enrollment Dates
Announced At
Wayland College**

PLAINVIEW, Sept. 7. (WCNS) Freshman orientation at Wayland College will begin on Monday, Sept. 11, and continue through September 14.

Freshman convocation will be held at 9 a. m. September 11, followed by a get-acquainted meeting, placement tests, and a faculty reception for freshmen in the Student Center.

Seniors and college employees register on September 12; juniors, sophomores, and freshman group no. one on September 13; and freshman groups two and three on September 14. Freshman groups will be divided alphabetically.

Classes start on September 15.

Mr. and Mrs. J. F. Bright returned home Tuesday from a visit with his brother, H. J. Bright of Trent, who is receiving treatment at a veteran's hospital in Dallas. They were accompanied by Mrs. Robin Vann and little son and Mrs. Bailey who visited relatives at Dallas and Paris.

HART NEWS

Mr. and Mrs. J. L. Thomas and children with George Pendleton of Dimmitt have returned from a weeks vacation in Colorado Springs and Denver.

Mr. and Mrs. Jackie Oler are announcing the arrival of a son in Tullia on Monday morning, September 4th.

Mr. and Mrs. H. R. Curtiss and family spent Sunday in the home of Mr. and Mrs. G. R. Bennett.

Mrs. Browder and daughter, Juanita, of Bangs spent part of the week in the home of Rev. and Mrs. R. O. Browder.

Mrs. W. F. Griffin of Tullia and Judge Meade F. Griffin of Austin and Plainview visited their daughter and sister, Mrs. W. A. Hawkins, Sr., and family on Friday.

Mr. and Mrs. Homer Hill and Roy Cluck, Sr. were in Clovis at the cattle market on Thursday.

Mr. and Mrs. R. A. Futrell and Lois Carol were in Lubbock on Sunday for a reunion of the Wingren family. They also celebrated a birthday for Mrs. Futrell and a house warming for Miss Nellie Wingren. Mrs. Futrell's brother, Roy Wingren and wife of College Station, returned to Hart with the Futrells and on Monday morning the two families left for Ruidoso, N. Mex., for a few days outing.

Visitors over the week end in the home of Mr. and Mrs. Homer Hill were Mrs. J. H. Hill of House, New Mex., Tom Hill and daughter, Sue, of Amarillo, Mr. and Mrs. Joe Hill of Clovis, and Mrs. Kenneth Cole of Bledsoe.

Dean Phillips and Lewis Wakefield spent the week end in Phoenix, Ariz. Stanley Wakefield returned with them to his home in Phoenix.

Mrs. Louise Hare Robb of Victor, Mont., and Mr. and Mrs. J. T. McClung of Hereford were in Hart Monday afternoon to visit the Hawkins family. Mrs. Robb is an old school mate of Mrs. Hawkins.

Homer Hill and Loyd Farris were in New Mex., on business on Monday.

Sick folks this week were Bruce Futrell, Ernest Lee Brooks and Willis A. Hawkins, Jr. Willis A. was in Canyon Hospital where he received treatment for a kidney stone.

J. E. Hacker was involved in a wreck on the highway toward Plainview on Thursday night. Ollie Beavers also had a wreck on the same highway the next day and Buster Hacker's car was damaged when hit by a taxicab in Lubbock on Friday afternoon.

Buster received worst injuries and received treatment in Lubbock Hospital. All cars were damaged. Too many people are pulling onto the highway without looking "up and down". Please lets stop for a look even if we are in a big hurry!

Miss Patsi Bauman who is employed in Dimmitt spent the week end with her parents, Mr. and Mrs. Frank Bauman.

Mr. and Mrs. Boyd Chandler have been recent visitors in the home of Mrs. Chandler's sister, Mrs. Roy B. Pyeatt and family.

Mrs. Velea Scott Evans and daughters from Tallequah, Okla., are visiting this week with their father and grandfather, J. M. Scott, and other relatives and friends.

Hart had received more than 3 inches of rain up to Monday night and rain was still falling.

The Hart Post Office and Barber Shop building has been enlarged and remodeled. New boxes have been added and interior decorating make the office more attractive. The added space makes the work of handling the mail for this growing community with its three rural and one star route much more pleasant and efficient. C. E. Patterson owns the building.

Ladies of the P.T.A. with the assistance of some men members have finished painting the inside and floor of the lunch room. The community and especially the school children and faculty are grateful to Mrs. J. E. Cooke as president of the local unit and her co-workers for this work. Mr. Cooke receives special thanks for his help.

GEORGE T. ABBOT IS HONORED

Mr. George T. Abbott was honored on his 79th birthday by his wife and daughter, Mrs. Walter Graham and girls with open house in his home south west of Hart on August 31st from four to six o'clock p. m.

The receiving rooms were decorated with cut flowers and an assortment of potted plants. In the dining room, the lace covered table held a centerpiece of velvet mums surrounded by candles.

The three tiered cake was white decorated in pink and blue and lighted with 79 blue candles.

The four Misses Grahams, granddaughters of the honoree, served the cake and frosted lime sherbet. Calling or sending gifts during the receiving hours were Messrs. and Mesdames Charlie Jones, L. E. Silcott, and C. S. Silcott of Olton; Hidam Haydon of Weatherford; R. E. Barton of Earth; Milton Ott, Jack Hinson, Milburn Conard, Bill Clayton, S. C. Axtell, A. C. Barton and D. G. Axtell of Springlake; Walter Graham and daughters of Happy; Mr. T. C. Shepard, Mrs. J. B. Wallace and Mrs. E. R. Sadler of Plainview; Mr. P. B. Abbott of Bovina; Messers and Mesdames Earnest Jones, R. A. Ferguson, Percy Estes, Robert Gollehon, Edwin Ramey, Mesdames Cecil Curtis, Embree Roy Sadler, Velma Gunnels, Fannie Shive and Onita, Rev. and Mrs. Earl Landtroop, Mr. K. E. Turner, Mr. Swain Burkett and David of Dimmitt; Messers and Mesdames Raymond Haydon and Patsy, Howard Bridges, Earnest Worrell, J. Holbrook and children, Roy Lilley, D. N. Gamblin, Willis Hawkins, Sr., V. E. Bearden and Vivian and Jerry Shive, O. D. Dinwiddie, W. R. Sampler, H. A. McClanahan, Phillip Jones and Charlie, Ray Riley, and Uncle John Henderson of Hart; and Mr. Nolan Henderson, Jr., of Canyon.

Mr. Abbott is a pioneer cowboy and rancher of Castro County and has lived a very colorful life most of which has been spent on the home place where he celebrates his birthday. He has been active in banking and civic enterprises over this county and in Olton. He also has ranching interests in parts of New Mexico.

Mr. Abbott's many friends wish him good health for his succeeding years.

The R. D. Rogers family will attend Home Coming Services at Overton Methodist Church in Lubbock, Sunday. Mr. and Mrs. Rogers are charter members of the Overton Church.

Stored grain must be fumigated for insect control if the same quality grain is to be removed from the bin as was stored, cautions J. A. Deer, assistant extension entomologist of Texas A&M College.

Deer recommends that the initial fumigation be made within a month after the grain has been placed in the bin. Monthly inspections during warm weather are recommended to determine whether or not refumigation is necessary.

Since insects are likely to be found near the surface of a bin, the degree of infestation can usually be determined by sifting a sample of the surface grain. If as many as two weevils or five bran beetles are found in a two pound sample, the bin should be refumigated.

If the grain is stored in wooden bins, 1000 bushels of the grain can be fumigated with a mixture of ten gallons of one part carbon tetrachloride and three parts

ethylene dichloride. Other recommended dosages are eight gallons of carbon tetrachloride, or eight gallons of a mixture of four parts carbon tetrachloride and one part carbon disulfide per 1000 bushels of grain. The dosage of the three fumigants can be reduced by 25 percent if the grain is stored in steel bins.

Fumigants should be applied from the outside of the bin by means of a bucket pump or other type sprayer, and they should be distributed evenly over the surface of the grain. Deer warns that it is unwise to attempt to apply the fumigant with a sprinkling can because the vapors are dangerous to breathe.

Deer cautions that the person applying the fumigant should avoid spilling the insecticide on his skin, clothing, or in his shoes. If the clothing becomes wet, it should be removed at once, and the skin should be washed with soap and water to prevent blister-tetrachloride and three parts

FLAGG NEWS

Rev. and Mrs. A. A. Hyden, pastor at the Buckner Orphan Home in Dallas, visited friends in Flagg last week. Rev. Hyden was former Baptist Pastor at Flagg. Mr. and Mrs. J. M. Connor of Tullia visited the Cecil Ginns and Tom Lewis' last week.

Mrs. Clyde Damron took Bob and Lucile Cook to Canyon this week. Bob plans to enter school at W.S.T.C. this fall.

Chubby Aldridge, Jack Brotherton of Roswell and Rayford Ginn of Littlefield visited Rex Sheffy and the Ginns and Boohers last week end.

Mona Simmons, Della Teague, Melba Johnson and Pat Tate have moved to Lubbock to enter business school. They were all home for the style show and queen contest.

"Rain On Wheels" Newest Irrigation Sprinkler System

It's rain-making that works! A boon to large scale ranchers is "Rain on Wheels", a portable system of sprinkler irrigation that "rides to work".

"Rain on Wheels" has been introduced to the Southwest by the Oaks Irrigation Equipment Company, Pharr, Texas.

"Rain on Wheels" is an especially designed, portable overhead sprinkler irrigation system mounted on a series of dual-wheeled trucks. The 20-foot irrigation pipe sections of the system are connected by a patented "Ball and Housing" coupler, allowing highly flexible movement of the entire system.

Demonstrated recently, the completed sprinkling mechanism was snaked with a tractor to section after section of parched pasture land.

Farmers who watched the demonstration indicated they especially liked the maneuverability of the rig, which, because of the flexible couplings and dual wheel trucks, can be pulled not only over pastures, but even down roads and thru gates without dismantling.

As installed on a pasture, the system watered 1.9 acres in each change of the sprinkler line.

The sprinkler line is approximately 700 feet long and the lateral moves are 100 feet each. Figuring an additional 75 feet reached by each end sprinkler, at a rate of 50 gallons per minute per sprinkler, more than an inch and a half of water was applied per hour on nearly two acres.

The system, which utilizes a single 8-inch main line, can be installed on a section of land for \$30.40 per acre.

Further benefit from the system is attributed to savings in

time and labor. The "Rain on Wheels" sprinkler system can be moved from one location to the other and back in operation in 10 minutes. A quick-drain coupler allows the line to drain in 3 minutes after pressure is turned off, so that the prime mover, usually a tractor but sometimes a truck is not required to tow a line full of water.

To handle the move requires only one man, the driver of the towing vehicle. John E. Oaks, of the Oaks Irrigation Equipment Company in Pharr, points out that the system is designed for farms and ranches having a large irrigated permanent pasture program and for the alfalfa growers.

"The ground-laid sprinklers, with their greater adaptability, are still," says Oaks, "unsurpassed for all farms and for small pastures."

The conventional portable sprinkler system, as pioneered by Oaks, usually ranges in size from two to 10 inches, but even larger sizes are sometimes used. And pumps, fitted to the specific job for the sprinkler system, are rated from 60 gallons to 400 gallons a minute.

According to Oaks, this variability allows specific engineering

of the system, based on crop, lay of the individual farmer's land, and water supply.

All the systems are lightweight and easily moved, two 20-foot sections at a time. The pipe, made of aluminum, utilizes an automatic, lock coupler of the same metal, thereby making possible a saving of often two-thirds in time and labor over flood or ditch-type irrigation.

The sprinkler system requires no ditches, no land-levelling, allows no run-off and eliminates suffocation of plant roots, one of several major objections by soil experts to flood irrigation.

"The sprinkler system of irrigation is fast becoming an equipment essential on farm and ranches," comments Oaks. "Eventually every major farm and ranch in the country will use this system."

Mr. and Mrs. J. J. Hastings and daughter, Martha, of Wheeler were here for a last week-end visit with relatives. Mr. Hastings has employment as deputy tax collector at Wheeler.

REFRIGERATOR HAS "PLACE FOR EVERYTHING"

"Hunt and Seek" storage is a thing of the past in the new Model H-92 International Harvester Refrigerator with its 11 shelves and 3 drawers. It opens to display over 16 feet of "front row" space in the Pantry-Dor model shown. Several meals can be prepared from its big 50 lb. freezer, two Crispers, Fresh Meat tray with its 11.3 lb. capacity and oversize bottle space that holds up to 12 quarts of milk. Stainless steel shelves allow for storage of big cuts of meat, poultry, melons.

HAYS IMPLEMENT CO.

for Saving Money!

You're in for a real "double feature" when you OIL-PLATE your engine with new Conoco Super Motor Oil: (1) new-car gasoline mileage . . . (2) new-car power and performance.

Proved by 50,000-Mile Road Test! In a 50,000-mile road test, engines lubricated with Conoco Super Motor Oil showed amazing economy of operation. Average gasoline mileage for the last 5,000 miles of the test-run was 99.77% as good as for the first 5,000 miles. This means that—with proper crankcase drains and regular care—Conoco Super Motor Oil can keep new-car gasoline mileage year after year!

Come in and let me tell you about "50,000 miles no wear!"

Miss Mary Vestal Honored Recently With Miscellaneous Bridal Showers

A shower in honor of Miss Mary Vestal, in Stanton, on Monday evening at 8 o'clock, August 28, 1950, in the home of Misses Betty and Grace McWhorter and their mother in Stanton. Eleven co-hostesses helped make this a beautiful celebration. Many guests were present and over 125 useful and beautiful gifts were presented to the honoree and opened and viewed by all. Small girls acting as "newsies" started this presentation of gifts with small packages of sterling silver hidden in newspapers "to sell" to the honoree.

Wednesday evening, August 30, 1950, at 8:30 o'clock, Miss Mary Vestal's parents, Mr. and Mrs. R. S. Vestal, were host and hostess for the rehearsal dinner at their home in West Dimmitt. The twenty-four guests for this occasion were the bridal party, Minister, Rev. Raymond Van Zandt, Miss Betty McWhorter of Stanton, Mrs. Joe Webb of Seagraves, Mrs. Earl White, Mr. and Mrs. Noel Gollehon, Mr. Don Nelson, Mr. Roy DeWolfe and Mr. and Mrs. Morgan Hall of Stanton.

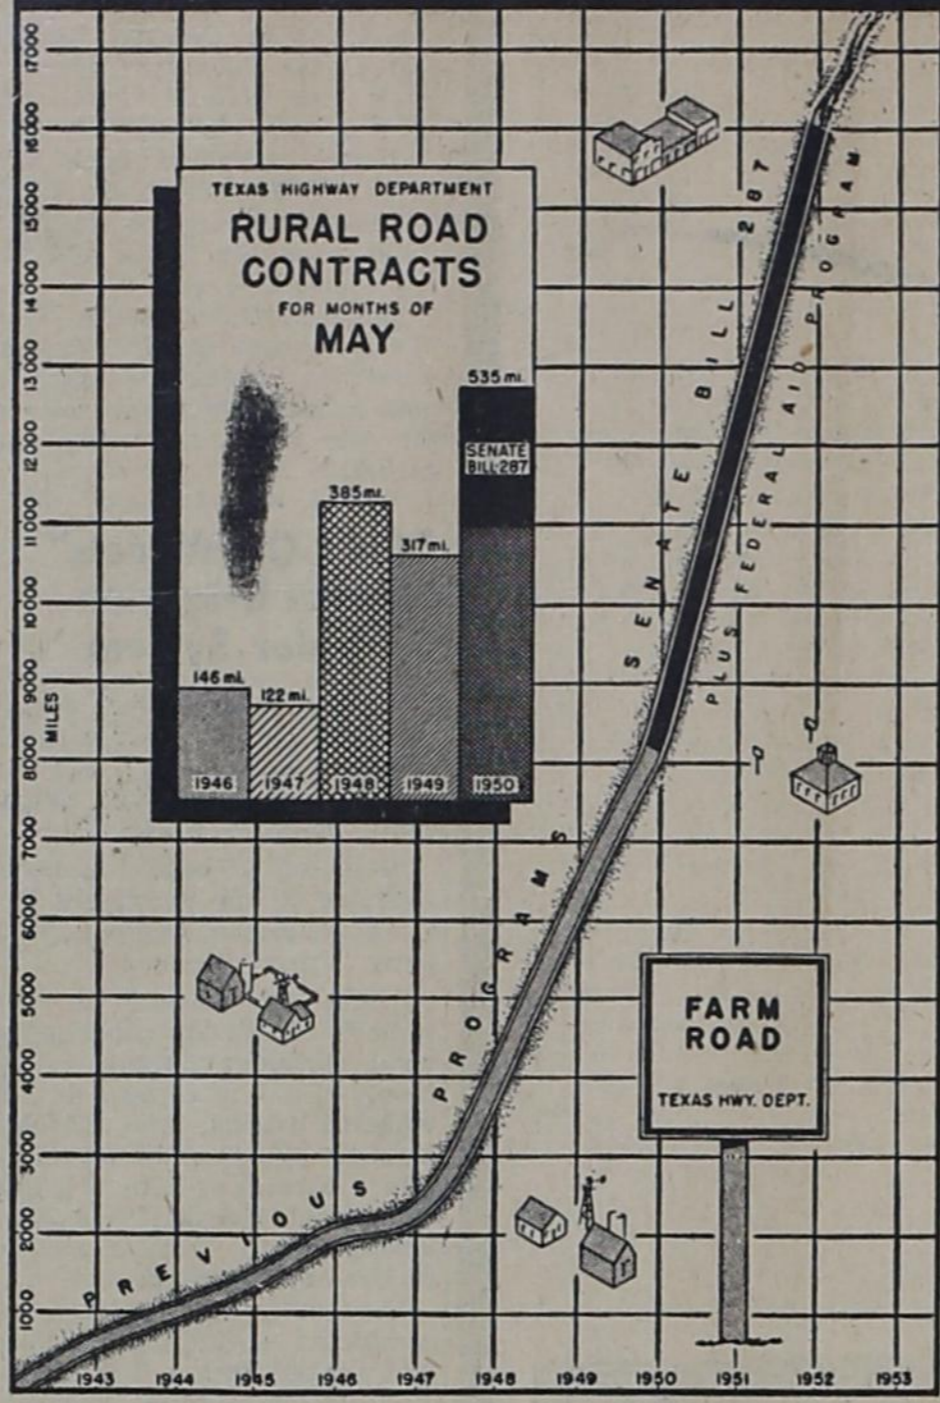

The bridal table was covered with hand embroidered linen and was decorated with a centerpiece of white sweet-peas arranged as a flat bell tied with a large white satin ribbon bow. White satin ribbon streamers escaped from this bell to the four corners of the table. White tapers in crystal candelabra added a soft glow to the table where plate favors of bridal stand-ups further carried out the wedding atmosphere. Other tables in the house were similarly decorated.

Bouquets of summer flowers were throughout the house with green and white colors predominating. The gift room carried out the pink and green colors in flowers as well as in other appointments.

Miss Mary Vestal, bride-elect of Jerry Hall of Stanton and Lubbock, was honored with a miscellaneous bridal shower recently in the home of Mrs. Jack Gregory. Co-hostesses for this occasion were: Mesdames O. K. Howe, A. C. Hays, Glenn Youts, Ray Beard, Jack Cowser, Claude Forson, Lemuel Lens, Glenn Ratcliff, B. J. Brannan, Morgan Dennis, Joe

TEXAS RURAL ROAD PROGRAM

SHOWING EFFECTS OF SENATE BILL 287

Cowen, Earl White, Melvin Richardson, John Blaine and Miss Hazel Merritt.

The Gregory home was beautifully decorated with summer flowers.

The refreshment table was covered with an imported linen cut-work cloth. The centerpiece of white asters, silver lace vine and greenery was between white tapers in crystal candelabra. The punch bowl of lime-ade carried out the bride's chosen colors of green and white along with white cake with green icing and decorated with green bells and white flowers with green leaves. Green and white mints, toasted nuts and sesame seed rolls added color and tastiness to the refreshment plate. Surprise plate favors were small individual copies of "The

Courtship Courier" in which comments on the Vestal-Hall alliance added interest and merriment to the occasion.

Sixty-eight guests and over 125 useful and beautiful gifts were received and viewed.

Other pre-nuptial compliments for Miss Mary Vestal were:

A tea in Stanton, Sunday afternoon, August 27, 1950, in the home of Jerry Hall's maternal grandmother, Mrs. Houston to introduce her to Stanton friends and relatives as bride-elect of Jerry Hall. Co-hostesses for this lovely occasion were, Jerry Hall's mother, Mrs. Morgan Hall, and close family friend, Mrs. Grace Jones. Fifty-eight interested relatives and friends called from 4 to 6 o'clock.

Then there was the fellow who spent all his money to rid himself of halitosis, only to find out that his friends didn't like him anyway.

paper brought results: "MONTH OLD BABY going crazy looking for a 2- or 3- room apartment for Mother and Dad. Call 2616."

WILLSON & SON LUMBER COMPANY
PHONE 74 • DIMMITT, TEXAS

The magnetic nail picker of the Texas Highway Department will arrive in this county soon to sweep the highways and road shoulders in this area of metal objects. P. S. Bailey, State Highway Maintenance Engineer, points out to John Nations, Director of the Equipment division, the screws, nails, spikes and other metal collected on a short run. Joe Webb of San Angelo is the driver.

Former Dimmitt Girl Is Casper Woman of The Week

The following quote was taken from a column titled "Getting Around Town" in the Casper, Wyoming, Morning Star and refers to the former Virginia Johnson of Dimmitt, sister of Mrs. R. B. Boren and Mrs. Will Wright. She is a graduate* of the Dimmitt High School and was formerly employed in the County Clerk's office and the Castro County Abstract office:

"And now for my "Woman of the Week." This week I have selected Virginia Higginbotham as the woman whom I think most deserves the recognition and orchid from Keefe's Flowers. Each

week, Louie Keefe presents one of his most beautiful orchids to the woman whom I select as the "Woman of the Week." Virginia and her family have only lived in Casper for two years, but she has contributed more to the entertainment world here in that short time than many women do in a lifetime. And she has done it with puppets.

"The Higginbothams moved to Casper from Craig, Colo., and it was in Craig that Virginia and the two young youngsters, Lynne and Lewis, first became interested in puppets. They learned by the trial and error method, practicing construction and presentation religiously until they felt adequate to give their first show. Since that time, and especially since they moved to Casper, Virginia has spent much of her time entertaining adults and children alike with the puppets."

Dr. George W. Cox Warns of Hookworm

A puny little parasite no more than a quarter inch long when it's full grown can turn a champion weight lifter into an anemic cream puff.

Even while it's still a baby, this pernicious parasite can make a wheezing weakling out of a top field hand, and turn a stout boy's muscles to the texture of soft butter.

It's a hookworm. State Health Officer Geo. W. Cox, with understandable disdain, puts the finger on it as the cause of so-called toe itch, dew itch, ground itch, and summer scratch.

Says he: "All these itches are provincial ways of saying hookworm."

Dr. Cox says his department has been waging a ten-year battle against hookworms in Texas, and that deep inroads have been made into its natural habitat, especially in eastern and southern sections. Health experts know what it is and how it gets into the human body, but the big job is in convincing people that they ought to do something about it.

Hookworms live a double life, the health official says, half in the intestines of a human being and half in the soil around an open pit privy. The female lays eggs while attached to the intestine.

Eggs pass from the body, and hatch within 24 hours. Then the young worm lies in wait for the first unsuspecting barefoot person—usually a youngster—to come by. It pierces the foot skin and slowly inches its way deeper and deeper into the body until it reaches the intestinal tract where the cycle starts again.

"It is a disease," says Dr. Cox, "that stunts the growth of children, causes skin discoloration, loss of weight, and anemia." Severe infestations often cause a

morbid craving for such things as chalk or dirt, he adds.

But it's easy enough to control—merely by building properly designed sanitary pit privies or septic tanks. That, and wearing shoes.

A good many children in various rural sections have had light infestations all their lives, and have never known what it means to feel entirely well.

The best cure for love at first sight is to take a closer look.

Girls, he may be "altared", but he will never be changed.

A man with a burning ambition is seldom fired.

One sure way to double your money is to fold it and put it in your pocket.
