6183 years of electric service "know-how." 6183 years spent at bringing you the best in electric service, community

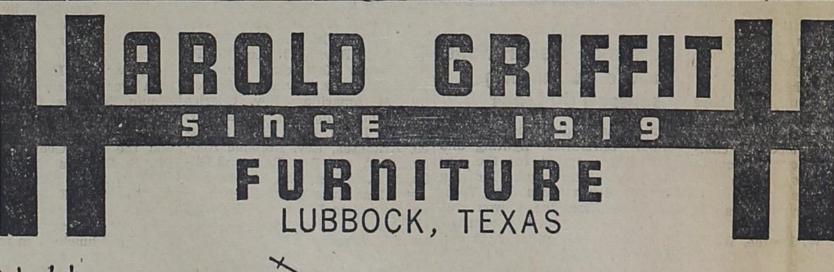

That's the record of 453 men and women, members of the 1700-strong Public Service Company families, who will be the guests of honor this week at service award dinners to be held throughout our service area.

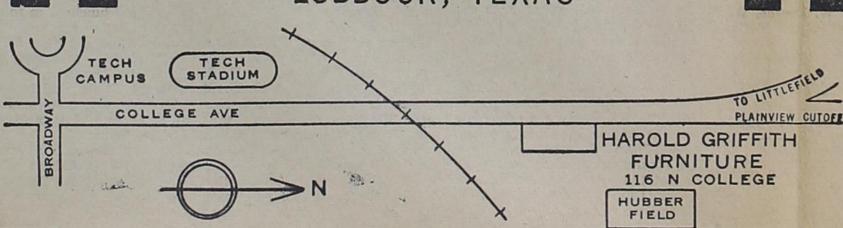

The "old-timer" of this group has devoted 44 years to public service, while the "youngsters" to be honored have served you for at least five years.

As a company, we are proud of our record of 25 years of good citizenship and public service. As an employer, prouder still of the 453 men and women who, as a group, have spent 6183 years making that record possible.

New Plant Expansion FOR MASS PRODUCTION MODELS 9PL and 12PL

AUTOMATIC LAND LEVELERS And DIRT MOVERS

New LOW Prices

Eversman Mfg. Co., makers of long established Eversman Automatic Land Levelers and Dirt Movers, have just completed extensive plant expansion for mass production of

models 9PL and 12PL. New efficiencies in manufacturing plus some savings in raw materials make possible considerable price reductions.

At NEW LOW PRICES these levelers are the BIGGEST FARM MACHIN ERY VALUES on the market today Eversman Automatic Levelers are not only built from the finest materials obtainable but also combine many exclusive ENGINEERING PRINCIPLES. These machines have been perfected year after year as actual experience on thousands of farms and millions of acres have dictated improvements.

Fall is the best time to level land. Put fields in shape for labor saving operation now. See your dealer today.

Baby Oil Marks End of Broom-Like Hair

If sun, swimming and outdoor sports have taken their toll of your hair's beauty and your crowning glory resembles the working end of a broom, take a tip from the young-est member of your family and use baby oil to coax silky softness back into your dried-out locks.

Even naturally oily hair is apt to become strawlike and lifeless af-

ter exposure to summer sun. Hotoil treatments before each shampoo will help counteract this condition. Pour a small amount of baby oil into a glass custard cup and warm it in a pan of water. Then dip sterile cotton balls into the warmed oil and apply it to the scalp. Follow the oiling with a thorough scalp massage. A warmed dry towel or one wrung out of hot water and wrapped around the head helps

ease in the oil. Easy To Wash Out

The only trick in getting the oil out of your hair again is to soap it so generously that it seems to squeak as you draw your fingers through it. If it fails to "squeak" in the rinsing, another soaping is required, rather than more rinsings, because it is the soaping that actually cuts the oil.

WHAT I CALL REAL SERVICE

And You ALWAYS Get It When You Use McCormick Equipment

One day, right in the middle of harvest, a customer hurried in and asked for a replacement part for his 10-year-old combine. I went to the parts bin, and as I came back and

plunked the part down on the counter, he grinned and said: "That's what I like about using McCormick equipment. When I do need a part, you always have it or can get it right quick."

He started to walk out, and I said, "How about letting our service man put that part on for you? Your machine might need a little adjustment here and there, and he can do that at the same time."

He thought it over for a minute, and laid the part back on the counter. "Go ahead," he grinned. "I've got a couple of other things to take care of here in town anyway. The combine is standing in the field south of the house.

He turned to go, and I mentioned, "If you're not at home by the time he puts on the part, I'll have him try the combine and look it over thoroughly and give you a report. Maybe we can get together and arrange to fix it ahead of time for next season and save you time and trouble."

"Go ahead," he agreed again. "That's what I call real "Just a part of our regular IH 5-Star Service," I said.

Hair beauty secrets .. by Toni

Looking for a new hair style?
Here's one that combines the easyto-keep practicality of short hair
with the feminine flattery of soft
curls. Carol Douglas, Home Beauty
Consultant, has worked out the
"home-do" instructions pictured
here. The hair is approximately 2
inches in length and tapered to a
V in back. In setting, make large
pin eurls, bringing the strands of
hair up and away from the face on
the sides and straight up in back.
The secret of the "springy" curls is
a natural-looking home permanent
which gives body to the hair and

FOR A GOOD PLOWING JOB IN TOUGH SOILS

For an excellent job of plowing in soil which is hard scouring or hard to penetrate, we recommend the MM TRA tractor disc plow, now offered in 3, 4, 5 and 6-disc sizes. This plow is so designed that the entire weight of the plow, with the exception of the land wheel, is effective in holding the plow to its set depth. The discs cannot rise wit it taking the front and rear furrow wheels with them. Any linkage between the rear wheels is eliminated to assure

more accurate depth control. Adjustable to plow from 3 to 14 inches deep. See this plow ... see it work ... you'll vouch for the fine plow it is. See us now for complete facts.
