## SCHOOLS OPEN SEPTEMBER 4TH

Four New Teachers, One Added t High School Faculty-Course of Study More Elastic

Our public schools will open Monday morning, September 4th, and the prospects are bright for the largest enrollment and the most successful term in the history of the Midland public schools. There will be four new teachers in the faculty this year; one of whom will be an addition to the high school faculty. This year the enrollment in the high school will far exceed any previous enrollment, the assurance of such an increase in the high school being such that the board of education has regarded it necessary to add one teacher to the high sary to add one teacher to the high school faculty. There is also a probability that domestic economy will be introduced into the high school this year, in which case there will be another teacher added later. Courses of Study

With the addition of the new teacher to the high school faculty, it will become possible to extend the course of study somewhat and to offer more electives than have been possible with the number of instructors which the high school has had heretofore. It is now pretty certain that a course in general science and one in biology or botany will be added to the high school course of study for aonther year, pupils being permitted to take ers of The Reporter to know who the the science course, the Spanish course or the Latin course as their needs and aptitudes seem to require. The course in general science will include an elementary course in domestic science. This will give our high schoool 22 units of affiliation, from which pupils of the Nacodoches high school, has who wish to graduate may be permit- had two years in the North Texas ted to select and complete sixteen State Normal at Denton and is an A. full courses, including fourteen units B. graduate of the University of Tex- koel.

## GOLDEN WEDDING MR.

AND MRS. I. H. BELL

Fifty years of life together: Staunch, thro' fair and stormy Faithful followers of the Plan God, Himself, decreed for man; See how richly He doth bless them! Child and grandchild loves caress them; Friends in hosts, around them throng, Show by gift, by word, by song, How deep in human hearts are blent Respect and love for lives well spent.

A notable event in the social life of Midland occurred on last Wednesday evening at the home of Mr. and Mrs. Charles K. Bell. The occasion was the celebration of the golden wedding anniversary of Mr. and Mrs. Irbin H. Bell, parents of the host. A large company of the friends and relatives gathered to offer congratulations and express their love and esteem for this estimable couple, and surrounded thus by loving friends and an almost unbroken circle of children and grandchildren, Mr. and Mrs. Bell renewed their troth and saw renewed, their

Judge Charles Gibbs, who has been well acquainted with Mr. and Mrs. Bell since his early childhood, responded to a toast to "The Bride and Groom," and reviewed their wedding and early married life in Palo Pinto County; his words forming a beautiful tribute of highest regard. Judge E. R. Bryan toasted "The Children" in happily chosen language, which expressed the honorable position the family occupies in the life of Midland. In toasting "The Grandchildren," Hon. J. M. Caldwell was in his best vein and beautifully pictured the dawning of a new life in the golden

sunset of the old. The time-honored custom of cutting the wedding cake was carried out in a peculiarly interesting manner. Mrs. W. C. Cochran and Mrs. Charles Edwards had, with loving hands, fash-

master-piece in wedding Their conception included a perfectly executed rain-bow, span-ning the large cake, and beneath it was cunningly concealed a golden pot containing gold coins, the gifts on many of the friends. As the "Bride" was about to cut the cake, Mrs. Cochran recited the following original verses, exposing the "pot of gold" and presenting it to Mrs. Bell:

There is a story so very old, About finding a pot of gold At the foot of the rainbow. Of its truth I only know Sis and Irb will find it so.

Fifty years of joy and pain; Sunshine, clouds and sometimes Brings you this pot of gold, Just as in the story told, For friends loving and true, Have filled this pot for you.

The incident was charmingly con-ty ceived and most charmingly carried te

Mr. and Mrs. Bell were showered id with many lovely and useful gifts, in carrying out the "golden" motif, as well as gold coin in a substantial sum. All of these were appreciatively accepted by the recipients as tokens of the love and friendship of the

Ninety-nine guests registered in the guest-book, and this guest-book will always be one of Mr. and Mrs. Bell's most highly prized possessions.

As a social event, the affair was brilliant. The lovely home of Charles Bell was decorated throughout in green and gold by the use of a profusion of English ivy and sunflowers. The result was most effective and with! "Beauty and Chivalry" of Midland gathered there, the "tout ensemble" made a picture long to be remembered by the fortunate participants.

# The New Eight-Cylinder Cadillac

**TYPE 55** 

There is one thought in connection with the coming of this new Cadillac which we would like you to grasp

With the advent of this car, the Cadillac "Eight" enters upon its third successive season, with no radical change in the basic principles of its design.

This is perhaps the first time such a thing has happened in motor car development, and you will quickly see its significance as applied to the Cadillac.

Quite properly, we believe, the World has always looked to the Cadillac Company for advanced ideas, improve ed practice and progressive principles.

The fact, therefore, that the Cadillac car has proven itself beyond the need of radical change, is, in itself, too impressive and too illuminating to call for comment.

It does not by any manner of means, imply that the Cadillac process of refinement had come to a conclusion.

In a multitude of ways, this is a better, finer Cadillac than any which has preceded it—the subject of unre-

mitting research and scientific betterment in scores of details.

What the absence of radical change really means, is that the underlying principles of Cadillac V-type eight cylinder construction have been proven fundamentally sound by the performance of 31,000 cars.

It means that the Cadillac Company, with resources at its command probably superior to those possessed by any other motor car plant in the world, has arrived at the deliberate judgment that the kind of a motor car which it is now building, represents a higher degree of efficiency than any other in existence.

It means that this is the joint judgment of every expert mind associated with this Company. It expresses the judgment of 31,000 owners who cannot conceive of any respect in which Cadillac principles could be changed to their

The new Cad llac conforms to the finest Cadillac traditions, down to the least and last of details-and it advances them still more closely toward perfection.

It is a beautiful car to look upon.

that are worn just at present. The Dress of the Moment If one judges by popularity, the dress of the moment is of satin or figured silk. Gathers and pleats, long tunics and interesting collars are the features that attract most attention in the present models. Gathered skirts are not new, it is true, but when all the gathering is placed at the sides below the rip line and finished with a heading, beneath which are pockets, we have to admit that this is a novel way of handling gathers. This treatment is shown here in an ilsoftly over the foundation skirt. As if to balance the ripples on the skirt a large cape-like collar is placed over the shoulders of this dress.

The cape collar is still with us, which are particularly noticeable

lars extend almost, if not precisely, down to the waist-line in the black, and those that are not quite so long down to the waist-line in the black, and those that are not quite so long Precinct No. One, Midland County, manage to get the desired length by Texas, on the 9th day of July, A. D., the addition of a circular ruffle or gathered frill. Still another favorite type of collar is short in the back iff, directed and delivered, I have levilled to the short of the state of the short of the state of the short of the s and very low cut and finished with ied upon this 9th day of August, A two points in front—quite the reverse D., 1916, and will, between the hours More than half the summer is al. two points in front—quite the reverse of 10 o'clock a. m. and 4 o'clock p. of the other style. ECONOMY IS THE WORD AND IT'S DEFINED

## 3400 R. P. M.

It's cheaper in the long run to buy a car like the 3400 r. p. m. Chalmers—at \$1090 Detroit.

A low-priced car often doesn't pay. Somewhat like the man who wanted to fence his farm and said he wouldn't spend more than a certain sum of money.

"Well, for that price I can build you a fence two feet high that will keep the pigs out," said the hardware man.

"Now, for just so much more I can build a fence three feet high that will keep the sheep out. And for this amount I can build a 5-foot fence that will keep anything out."

You had better pay a couple of hundred more, and get a regular car. Get a car that fulfills exactly every wish.

One that does a good workday on Monday; that takes you anywhere on Tuesday; runs you 200 miles on Wednesday; does the errands on Thursday; takes the family to call on Friday; one that's not only got the 5-year endurance, but gives you a feeling

That, sir, is my definition of Economy. This new 1917 Chalmers with the 3400 r. p. m. engine—the car that increased Chalmers sales 792% in six months—is one that'll lure you the minute you sit behind the wheel.

abscribe for the Reporter.

BIG HERD OF BURROS ARRIVED YESTERDAY

A good many of our readers refused to credit the story in The Reporter last week about W. D. Ellis and J. H. Maulding having ordered 500 burros from the King ranch in South Texas, same to be used to tramp the lake out at the Midland Country Club, now being constructed under the promotion of these gentlemen. Just the same the big shipment of meek-eyed, lazy quadrupeds arrived yesterday and they are now in the lake enclosure prepared for them.

They unquestionably made up the most ntieresting herd of live stock ever seen on the streets of Midland. immediately upon being unloaded they were driven to Midland, and dozens of kodaks, cameras, etc., were brought into use. A reproduction of some one of these pictures may appear in The Reporter next week. In the meantime more of the burrors

There still are skeptics that Messrs. Maulding and Ellis will make a go of their enterprise. It takes a lot to

convince some people.

As to the project itself, it is progressing wonderfully well. To date there has been lots of trouble in making has been irregular, on acount of en gine trouble. However yesterday evening the T. & P. well was turned on and the two big wells are making a perceptible showing. The third well being

dug is well under way, also. Interesting in the con Interesting in the construction procedure, too, is the laying off of the automobile speedway. A two-mile track is to be built and will be daunted at once. These boys are undaunted by petit difficulties. They propose to do all they set out to do. We bet on them. They have plenty of will and there's bound to be a way.

CADILLAC RECORD UP MOUNT WASHINGTON

An Eight-Cylinder Cadillac has just established a new record of 32 min-

Starting at 7:50 a. m., Z. W. Colson drove a Cadillac seven-passenger touring car from Glen House and arrived at the summit of Mt. Washing-

ton at 8:22.

The distance traversed was eight miles, and the elevation of Mt. Washngton, which is in Coos County, New Hampshire, is 6293 feet.

The previous record of 50 minutes was held by a high-powered six-

cylinder car. The Cadillac which made the present record was a stock car belong-ing to Mrs. Chevers. It is a very significant fact that when the car arrived at the summit, the engine was sufficiently cool to permit by-standers to place their bare cheeks against the radiator, according to the state-ments of those present.

It is also interesting to note that the car used was one which had seen 7000 miles of service, during which time it had not been found necessary to grind the valves.

The time from Glen House to the summit was taken officially by telephone from Glen House, and was verified by Clark Dodd, of Glen House,

who was a passenger in the car. are pleased to give this information, and it is our pleasure to call the reader's attention to their big specification advertisement appearing in this issue of The Reporter.

## Hudson Now Holds World's Greatest Hill Climbing Record

## Makes Fastest Time Up Pike's Peak

No hill-climb or mountain test in the world equals that imposed on motor cars that race to the summit of Pike's Peak. A Hudson Super-Six Special made the best time of more than 20 contestants to the top of America's most famous mountain, over the longest, steepest, highest travelable road in the world.

The Start, at a mile and three-quarters above the sea, is higher by far than is the altitude of the finishing line in most hill-climbs.

The finishing point of Pike's Peak is almost two and three-quarters miles above sea level. In twelve and a traction miles of the course there are 60 turns and the rise is almost one mile high. There is no place where the car is not climbing.

The high altitude affects the power efficiency of the motor and water boils at such low temperature that motors cannot be cooled as they are in lower levels.

## **Hudson Fastest Time**

The Hudson climbed up this winding steep road to the "Top of the World" in 18 minutes, 24 seconds. Its time was 2 1-2 minutes taster than the next fastest car.

This feat now gives to Hudson practically every worth-while record. In speed---when 103.3 miles an hour was attained at Dayton; in endurance--when 1819 miles were covered in 24 hours, with a stock Super-Six chassis we established marks not likely soon to be equaled.

have shown the endurance of the Super-Six. Others Failed

est of all hill-climbing teats. In it we

Now we have added to these the great-

Motors of some of the most famous racing cars in the world were unable to withstand the strain of that climb and so did not get to the summit.

It is constant hard pulling all the way and more than three-quarters of the distance must be made in second speed, even with specially geared cars.

In addition to mere climbing, as is required in all hill-climbs, here is added the difficulties of carburetion and cooling

The altitude that affects one's breathing so much that even the strongest man can stand only the least amount of physical exertion, has a similar effect in reducing the power of the motor.

We made that record in a contest in which were entered, as described by a Denver newspaper, "Fours---Sixes---Eights---Twelves and Super-Sixes"

And, as in all tests in which they have been entered, the best performance was shown by the Super-Six.

No one can either feel good nor pation. Get rid of that tired, drag-gy, lifeless feeling by a treatment of Dr. King's New Life Pills. Buy a box today, take one or two pills to

### CITATION BY PUBLICATION

You are hereby commanded, that Midland, Texas first Monday in September 1916, the same being the 4th, answer a Petition filed in said Court, on the 14th day of January A. D. 1916, in a suit numbered on the R. L. Slaughter is plaintiff and J. O. Pratt and T. W. Ward are defendents. The nature of the plaintiffs demand being as follows, to-wit: Plaintiff sues in Trespass to try title for the N. W. 1-4 of the S. W. 1-4 Section No. 28

Blk. 37, Tsp. 1-South in Midland County, Texas, alleging that on or about the 24th day of January 1907 plaintiff was seized and possessed of in fee simple that on the day and year

Your eyes examined for glasses years in the optical work, having Prayer meeting every Wednesday studied the subject from every stand-point, from books, optical journals, correspondent courses, and in the meeting nights is as clear, full and office of some of the most eminent refeel very thoroughly qualified for this work. We refract the most difficult cases and very plainly tell you wheth-

er or not glasses are needed. Owing to the careless neglect and strained condition of the eyes, we cannot always guarantee satisfaction Song and prayer.

Scripture reading, Joshua 1: 1-9 be fit satisfactorily with glasses, we believe we can do it. It is far better to patronize the home man than the traveling man who is here today and gone tomorrow.

Give us a trial. Phone 434. Prof. R. D. Shaw

## **Dodge Brothers** Motor Car

One of the sincerest compliments paid the car is the eager demand for it at second-hand.

> You will rarely see it mentioned in the second-hand advertisements. There is a constant waiting market and the price is always high.

The gasoline consumption is unusually low The tire mileage is unusually high

The price of the Touring Car or Roadster complete is \$785 (f. o. b. Detroit)
