MEXICO RANCHING IS TO BE RESUMED

LARGE COMPANIES AND SMALL OWNERS PREPARING TO RESTOCK

The quiet conditions in Mexico now prevailing since the elimination of Villa from the class of banditry to that of a plantation owner and well to do critizen, has led many of the owners of large ranches to undertake again the operation of their estates, says the El Paso Livestock The State of Chihuahua, which adjoins the New Mexico and Arizona line of the United States across the river from El Paso, and which has suffered most from the depredations of Villa, finds many of these ranch properties disorganized, with no cattle scarcely upon the ranges, but rolling in luxuriant grass. It is a wonderful State for the cattleman, and is in the El Paso cattle territory.

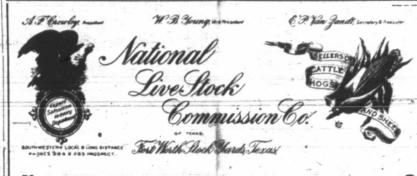

One of the biggest estates is that of old General Terrazas. The old man has been a refugee from Mexico, and is at present in California, but he sent a corps of engineers through El Paso a few days ago, and they were proceeding to the ranch to map out a program of rehabitation, in the way of fencing, placing water facilities over the ranch and getting things ready for the owner to again

Something We Never Did Before Red Tag Sale Continues Indefinitely

A continued opportunity of a GREAT SAVING to the people. It has been a great many years since we held a Red Tag Sale. It may be several years more before we hold another one, or it might not be, but we have decided to continue this one indefinitely---something we never did before.

The people are entitled to the greatest saving possible during the re-adjustment period. We believe we have given them this opportunity during the last two weeks. In fact hundreds have expressed their appreciation for the great saving.

We have given them just what we advertised we would do.

TRUTHFUL ADVERTISING PAYS--We want the people to be the judges. We quote no prices in our advertising, but we put the prices on the merchandise---That is what counts. The GREAT VOLUME of business we have done since October 23rd is evidence of the confidence the people placed in our advertising that "we would make this the greatest saving event they ever had opportunity to attend."

This Opportunity Continues

We are as fast as possible replacing all merchandise and at greater reductions, and we have come to the conclusion that we would give the people the advantage of these reductions and continue our RED TAG Sale Indefinitely believing the people will appreciate this opportunity to buy for less. Come and get our RED TAG prices -- If we can't sell you for less we certainly could not ask you to buy from us.

SPECULATORS INCUR HEAVY LOSS SAYS DALLAS BANKER

"More than ninety-five out of every is a clear loss," said Nathan Adams. vice president of a Dallas bank with nearly \$30,000,000 deposits. In other words, had every purchaser of \$100 worth of oil stock bought just one War Savings Stamp and burned the remaining \$95,82 of his money, the entire group would have more money on hand than it has today. The Thrift and War Savings Stamps and Registered Treasury Certificates are guaranteed to be worth more any day than they cost; it is the nation's guarantee against the imagination of the stock salesman.

Convincing stock salesmen are gathering in Liberty Bonds at market value in trade for securities they assert will give more income. But the fact that they are so anxious to trade is evidence their pictures of dazzling dividends are merely painted for the buyer; otherwise why should they give securities they declare pay 10 to 20% for Liberty Bonds paying slightly more than 5%? The answer is that they believe the Liberties to be the better.

PUBLIC OPPOSES **GOV'T OPERATION**

Canvass of 5,154 Editors Shows 4,466 Communities Against Socialistic Experiment.

OPPOSITION GROWING

Against 83 Per Cent in 1919 Think Public is Opposed to Radicallam.

The American public is more intensely opposed to Government operation than it was a year ago, according to the newspaper editors of the country. Out of 5,154 editors replying to try. Out of 5,154 editors replying to a questionnaire sent out by the Press CARDUI HELPED Service Company of New York, 4,466, or 86 per cent, gave it as their judgment that the people of their communities were overwhelmingly against the Government competing in business with its own citizens.

In 1919 the Press Service Company conducted a similar canvass of editors on the government operation of railroads. That questionnaire showed that 83 per cent of the editors considered their communities against Government operation of public utilities.

Apparently, then, if editors estimate public opinion accurately, that opinion in a year, considered by commuaway from socialistic experiments. Eleven Million Circulation.

The combined circulation of the papers whose editors replied is 11,428, suffering a great deal of pain, weak, 817, which means, according to the nervous, depressed. I was so weak usual estimated ratio between circula- I couldn't walk across the floor; just tion and readers, a constituency of at had to lay and my little ones do the least 44,000,000. The estimate of opinion based on this thoroughly diffused 44 per cent of the country's population may, therefore, what it did for her. be considered a fair representation of the people as a whole.

evident lack of partisan bias. The ble since . . . I sure can testify to the major political affiliations of the pa- good that Cardui did me. I don't pers represented are fairly evenly di- think there is a better tonie made vided, being 1.857 Republican and and I believe it saved my life." 1,350 Democratic. There are also 1,485 For over 40 years, thousands of woindependent and 462 miscellaneous, men have used Cardui successfully, including labor organs, etc.

How little the results are affected ailments. by the politics of the papers is shown in an analysis by sections. In the take Cardui. It may help you, too. Southern section, for instance, where replies came from 65 Republican papers and 389 Democratic, the percentage against Government operation was 88; in the Great Lake section, with conditions reversed, 478 Republican and 155 Democratic, the opposition was 87 per cent. -

Replies from the West, Middle West and Southwest show that it is a mistake to consider those sections vastly more favorable to radical Government experiments than the East. The cad icals can get little comfort out of the 89 per cent of thumbs down-2 per cent above the average-in the Southwest, including Arkansas, Louisiana, Missouri, Kansas, Oklahoma and Texas. Texas, once supposed to be much given to Government regulation experiments, returned 92 per cent of unfavorable replies. Out of the 244 editors replying from that state only three edited Republican papers. The 82 per centy opposition of the Northwest, including Iowa, Minnesota, Montana, Nebraska, North Dakota, South Daketa and Wyoming, and the 83 per cent veto of the Far West group, including Arizona, California, Idaho, Nevada, New Mexico, Oregon, Colorado, Utah and Washington, are significant of the prevailing conservative sentiment on this question even in the more radical sections.

Judgment Apparently Unbiased. The questionnaire closes with a request for the editor's personal opinion on certain concrete cases as fol-

"Do you personally believe that the Federal Government should own and operate competitive industries to provide: (a) Fertilizer? (b) Clothing? (c) Automobiles? (d) Farm implements? (e) Foodstuffs?

Substantially all the editors who gave estimates of their readers' opinions also expressed their own by replying to this last question. Broof of considerable effort to avoid personal bias is found in the fact that in many cases the editor differed from the opinion he credited to his community. The percentage of "nos" ran: (a)

76; (b) 83; (c) 86; (d) 82; (e) 79. While the questions were based on general principles involved in the Government participating, in competitive business, the so-called Muscle Shoals Bill now before Congress was used as a concrete example of a Government operation scheme. Under this bill a Government-owned corporation would be given broad powers to operate and develop Government plants and properties. It would produce at Muscle Shoals various fertilizer preducts and sell them in competition with producers and merchants in the fertilizer business.

The strength of the opposition to Government operation is indicated by the replies from Alabama, where the Muscie Shouls war plant is and where, of course, there is intense interest and local pride in getting its expected peace-time operation under way at the earliest possible date. Fifty editors from that state replied, of whom 38 were opposed to Government opera-tion, 8 in favor and 4 doubtful,

RANCH STOCK IN THE BETTER-SIRES CAMPAIGN

In the Western range States all kinds of sires—bulls especially—are receiving scrutiny by live stock owners. There is increasing evidence that good purebred males have wide in fluence on the returns from stock raising operations. One day recently the United States Department of Agriculture enrolled in the "Better Sires-Better Stock" movement several ranchmen each of whom had more than 1,000 head of live stock. One flock of sheep contained 250 pure bred ewes and 3,450 crossbred ewes, the sires being all pure bred. A cat-tle raiser who enlisted in the cam-paign the same day notified the department: "I have disposed of two grade Hereford bulls recently, having

INVESTMENTS MUST BE ADVISED, SUPERVISOR OF HIGH SCHOOLS SAYS

"Texas schools where purils are not taught the necessity of living within their incomes are failing to justify their existence, as they do not prepare pupils to be efficient citizens," said Peyton Irving, Jr., State Supervisor of High Schools of the Department of Education." State Superintendent Blanton has enthusiastically approved the beaching of thrift in all schools and most of the teachers are co-operating with the Savings Division of the U.S. Treasury in this work.

"But mere preaching is not teaching thrift," he points out.

"When pupils have been taught to save, the job is not complete; they must be shown how to invest. And it is here the moral question intrudes. recommended, for one can no more ics without a laboratory. Local investments abound: There is no dearth of persons to take a pupil's money and give a graven gilt certificate therefor. Yet no teacher could afford to characterize a local oil company as an un-

"Under these circumstances patriotism and high ethical ideas join hands with common sense. The thing ed Treasury Savings Certificates. They are always worth more than they cost; they can be converted into cash at the postoffice any time at a profit, and what is more, their ownership gives, under skillful teaching, a sense of ownership in the government, part nership in the nation, that can not but improve the civic pride and patriotism of our young citizens, boys and girls who will in a dozen years control the destiny of the nation.

\$26.90 IN NINE YEARS

"Holders of Liberty Bonds who are nexperienced in dealing in securities have been frequently stampeded into selling their bonds because they have fallen below the face value." said Dinsmore W. Hume, Federal District Director of Savings for the Eleventh Federal Reserve District. they recall paying \$100 for a bond that can be bought in the market for less. they are alarmed, fearing they made a bad investment and not infrequently have been induced to trade their government securities for those of less certain value on the promise of higher

"Bonds will not remain at the present low prices. Civil war bonds sold While it would not be well to in 1868 for \$81.20, nine years later give it absolute protection and thus they brought \$108.10, an increase of afford the farmer no recourse when \$26.90 on each \$100 bond, or a raise of 33%. No one who knows anything adopt the policy of killing every that the country is on a sounder finanof our history can be blind to the fact cial basis than in 1868 and every indication points to a greater increase in prices of Liberty Bonds than Civil War bonds ever enjoyed. Wherefore, The public will take notice that I if those who bought Liberties because am no longer connected with the they wanted to support the government have as much financial understanding as they have natriotism they will grab every bond they can carry at present market low prices; they are investments par excellence."

THRIFT IS CHRISTIAN VIRTUE, SAYS PROMINENT DALLAS BAPTIST PASTOR

"The individual who has cultivated the habit of thrift and saving secures freedom from financial worries, the effort gives a vision of higher and better things that makes his heart receptive to the Gospel," writes Dr. George W. Truett, pastor of the First Baptist Church of Dallas. Dr. Truett, who is now in Europe for a conference of church workers on post-war religious efforts, specifically recommends the purchase of Thrift and War Savings Stamps and Registered Treasury Savings Certificates

THRIFTY PEOPLE HAPPY. SAYS PASTOR OF DALLAS PRESBYTERIAN CHURCH

"I am grateful for thrift lessons taught me in my boyhood, and have been observing them ever since," said Dr. W. M. Anderson, Sr., pastor of the First Presbyterian Church of Dallas. "It will help the cause of the Lord if we impress thrift thoughts upon the minds of the people just now. Thrifty people are the happiest people, having no financial worries, they are prepared to work for the church. Are you able to save money? If so, you will succeed. The people should be informed as to Thrift and War Savings Stamps; they make saving easy

MIDLAND SOCIETY

MISS LYDIE G. WATSON Editor Phone No. 88

Hallowe'en Festivities

A whole bottle of fun was uncorked in Midland last Friday night and elves and imps played their pranks. and the evening was one of joy and hilarity. Parties were given in every corner of town and the good old spirit of Halowe'en held high carnival.

Hallowe'en Dinner Party-

A dinner lovely in its appointments was given on Saturday evening by a group of congenial girl friends in the pretty bungalow home of Miss Mary Barron. The affair was a return courtesy to some of the young men who had contributed much to their pleasure during the summer and autumnal days just past. The house was decorated in the Hallowe'en emblems and the dining room particularly emphasized the "It is the night when black cats

And witches wander far from home Astride their brooms so airy and

Floating along in the pale moon-

The lights were turned low and only the soft glow of light in the Jackolantern centering the table broke the Stygian darkness. The table was lovely, however, with its silver, glittering cut-glass and handsome linen. The three course dinner was delicious and while the feast was being enjoyed the happy hours were further enlivened by music pure and sweet. Covers were laid for Misses Mamie Moran, Annie Mae Patterson, Annie Merle Moran, Mary Barron lightful and interesting meeting on and Leona McCormick; Messrs. Allen Tuesday afternoon with Mrs. C. A. Toibert, Henry Wolcott, Elliott Bar-ron, Earl Moran, Bob Mahoney, of El Paso, and Dee McCormick.

* MIDLAND COLLEGE NOTES *

The College-Stanton Hi Game-The College eleven kept its slate clean on Friday when it defeated the Stanton high school aggregation 19 to 0. The grand total might have run much girls met at the residence of Miss grand total might have run much Jessie Hale and the boys called for higher had the game gone on for four 15 minute quarters, but Stanton had to catch No. 26, and played only Entertainment included for-telling, bobbing for apples, cnoice on both goals and who should The evening concluded with dancing and the most delicious refreshments consisting of grape jurce, olives, sandwiches, cake and cheese. after a series of line plunges and long runs. Caskey kicked goal. Stan-ton looked discouraged then, but put church composing that interesting up a good fight throughout the game. Her men showed remarkable individuality playing in breaking through duality playing in breaking through the College lines, but the College field would be long gone before any serious damage could be done. Midland's second touch-down was made everything which helps to make a in the second quarter when Rhodes perfect All Hallow-eve party. It interceded a pass by Stanton and seemed indeed that the fairies and made 30 yards for the goal. The elves themselves were in league with fourth quarter was eventless. The the grown-ups in making this a time College tested some of her passes to of unbounded joy to these little ones, and is this not "doing it unto the least of these?" Among the other and we hope to meet them again next year.

The "carnival," under the auspices of the senior class on Saturday night was a grand success. All were dressed in their "spookiest" clothes, and came prepared to enjoy the twin camels in captivity. Rhodes sold the candy and other Mrs. George Grey returned last sweet stuff until he had none. Leila Friday from Los Angeles, Cal., where Smith kept the "goober and popcorn" while Misses Mary and Charlyean entertained with the latest steps to be found in ancient Egyptian dances. There were many other things too numerous to mention, but the basket ball girls have about \$30 more in their treasury than they had before the carnival.

> President McKissick went to Lubboek last Saturday, returning Tuesday on No. 25.

> Thurman Morgan, of Temple, the captain of the 1917 football squad, is a new matriculant this week. Miss Mary Ethel Hill, who has been out of school for a week on ac-

count of sickness, is back again. Axel Skovgaard, the famous Danish violinist who is to play at Midfinest Stradivarius violins in existence. It is valued at \$13,000.

GOV'T OPERATION OUT OF POLITICS

Party Leaders Convinced by Results of National Canvass of Editors.

VINDICATES FORMER POLL

Overwhelming Veto Like That of Year Before From Both Sides of Political Fence.

Washington.-Inner circles of both political parties here are greatly interested in the results of a national poll on the question of government operation among over 5,000 newspaper editors throughout the country. With 86 per cent of these editors, regardless of political faith, giving it as their impartial opinion that the public is more than ever opposed to the government going into business in competition with its citizens, observers here see little chance that either political party will find it a profitable campaign issue.

In the opinion of party leaders this sort of a canvass among newspaper editors is the best possible index of public opinion. They recall a similar questionnaire sent out a year ago in connection with the proposition that the government take over the railroads permanently. Replies at that time from approximately the same number of editors showed 83 per cent against the principle of government operation. They recall also that within ten days from publication of the sentiment for return of the railroads to their owners had definitely crys-

Comparison of present results in detail with those of a year ago convinces the political student not only that these editors have been accurate in their judgment, but that party considerations played no part in form-From Democratic and supposedly radical Texas, for example, the present questionnaire brought replies from editors of 244 papers, only three of which are Republican. Yes the percentage against government same as that given by 200 editors from Republican Michigan, among \$13. were representatives of only Democratic papers. Other cantly are Massachusetts and Nevada lina, with 97; Maine and West Vir ginia, with 96; Kentucky and New York, with 91; Missouri and Pennsyl vania, with 89; Ohio and Oklahoma

The result of the present poll as to government operation in each state are graphically shown by the following chart:

OUR MARKET LETTER FROM KANSAS CITY

As expected receipts of live stock last Monday were light and were still smaller Tuesday owing to the national election. It is doubtful whether the movement will be resumed soon enough to brng any material supply in the latter half of the week. ruled higher in all departments. Cattle were mostly 25 cents higher, hogs up 25 to 40 cents and sheep and lambs strong to 50 cents higher. Killers anticipate scant supplies of fat cattle for the next 30

Receipts Monday were 13,000 cattle, 6500 hogs and 7500 sheep, compared with 22,000 cattle, 9,000 hogs, and 5,000 sheep a week ago and 36,700 cattle, 8,775 hogs, and 8,850 sheep a year ago.

With only 13,000 cattle here Monday and the small part of the run suitable for killers, demand for fat cattle ruled active at 15 to 35 cents higher prices, mostly 25 cents up. Good to choice fat steers were scarce and this class of cattle will remain in moderate supply for some time to come. Fair to good grass steers that sold at \$9\to \$11.50 showed the full advance and the plainer kinds were up 15 to 25 cents. fairly liberal supply and sold 25 cents higher. Most of the cows brought \$6.50 to \$8.25. Some light weight short fed heifers sold at \$12 to \$12.50. Veal calves were quoted

stronger. Though fewer country buyers were here than a week ago, a good many orders for thin cattle were held by commission firms and prices were strong to 25 cents hgher. Indications are that demand for thin cattle result of the former questionnaire the throughout this month will be active. About 150 carloads of high grade Angus, Shorthorn and Hereford calves and yearlings will be offered at special auction American Royal

Show week. November 13th to 20th. Having reached the lowest posi tion in nearly three years past on the close last week the hog market rallied 25 to 40 cents Monday and was able to return the 13 cent price for the best offerings. The bulk of the hogs sold at \$12.40 to \$13, top \$13.10. Packers are calling for weightier grades, but the shippers are paying a premium for the medium weight butchers. The general tendency is to ojeration was 92, which is exactly the narrow the price spread. Pigs continue in active demand at \$11.50 to

Lambs were mostly 50 cents higher, and sheep up 25 cents today unstates that pair percentages signifi der an active demand. Most of the western lambs sold at \$12.50 to \$13, with 100; Connecticut and South Caro and native lambs \$12 to \$12.50. Ewes are quoted at \$5.50 to \$6.50, yearl-\$9 to \$10, and wethers \$8.75. Feeding lambs are quoted at \$10.50 to \$12.25. Only light receipts are in sight for the next few weeks. Receipts continue light and on horses and mules and there was small inquiry. No quotable change

was reported in prices. Charles M. Pipkin, Market Correspondent.

DIL STOCK IS CERTIFICATE

Brownwood, Texas.—"Did you ever see a fancy engraved, printed-in-gold death certificate?" asked a salesman of the occupant of an adjoining chair in the Southern Hotel last Sunday "No?", he inquired, as his neighbor nodded a non-commital answer. "Well here it is, look at it," he added, ex hibiting a \$100 stock certificate in an off company

"Did a well come in and somebody drop dead?" asked the neighbor.

"Not that you could notice it. You see a good customer of mine was or ganizing a company or something Any way he wanted to sell the stock; I wanted to please him and bought it. Then the bottom fell out; no oil in # hundred miles of our lease. So this is the certificate of the death of our friendship. He hates to see me. 1 don't like to go in his store. Our friendship is dead and this is a certificate of its demise. I am out one hun dred bucks and a customer-total loss and no salvage. My loss too, is not 'on . the house'. Do you blame me for go ing into mourning?"

Then he lit his cigar and took a speculative draw or two; suddenly he asked, "Would you give me a War Savings Stamp for it?" His neighbor grinned, "Not on your life! But H certainly made a Christian of you. Yet why the War Savings Stamp? An oil speculator turning to War Savings Stamps is going some; what's the idea?" "Boy." said the salesman. "Got a boy at home. Got more sense than the old man. Gave him \$100 on his birthday; he's got it yet, salted away, War Savings Stamps and such. I lost mine. But I'll be game and catch himyet. Wish I'd been taught 'safety first' in investments like he has. That's why I'm for the schools now good and strong, they are getting to be worth the money in this savings business alone even if they did not teach another thing in the world."

Notice to Stockmen It will soon be time to make incom tax reports again. Your books should be in good shape. I am in position to keep your books for you at a very nominal fee. Call on me at my office in the First National Annex, ground floor. ground fleady. 5 tf J. E. Smith.

Tom Nance, of El Paso, is here for a few days to visit his wife and the new twin babies that arrived last week. Tom is some tickled daddy.

YOU ARE NOT AS BUSY

AND WE ARE NOT AS BUSY AS WE WILL BE IN DECEMBER

On account of always being rushed in December we are offering the following inducement to have your photographs made in November: During November only we are offering

FREE

A LARGE PORTRAIT WITH EACH DOZEN PHOTOGRAPHS

These valuable gifts represent values of \$1.50, \$3.00 and \$5.00

You will have to call and inspect our late work and new mountings to properly appreciate them. Merchandise of all kinds are on a decline, hence we fall in line by offering you these valuable gifts with your November orders. Winter days are short, so come for sittings between 10 a. m. and 4 p. m. Don't wait until the latter part of the manth, but be a leader by coming at once. We are better equipped to give you first-class servie than ever before.

Miller's Studio

MIDLAND, TEXAS

TEXAS SCHOOLS MAKE OF DEATH OF FRIENDSHIF OF THE GOVERNMENT

Dallas, Texas,-Pupils in six schools in six Texas towns made such unusual records in thrift work that their reports have been received by the Sav-ings Division of the United States Treasury from Miss Annie Webb Blanton, State Superintendent of public in-

Lorena school is represented by the grade taught by Miss Modena Griffin, who had sixteen pupils, and under the encouragement of Miss Griffin and Miss Myrtle L. Tanner, superintendent, they owned, at the close of school, Thrift and War Savings Stamps to the amount of \$1361.50. One high third grade in the Travis School of San Antonio, with thirty-one pupils under Miss Ruth E. Laidlaw, owned \$1590. Miss Stella Traweek's third grade with thirty-six pupils own \$1704 of the government's securities, bought as Thrift Stamps and converted into War Savings Stamps.

The Farmersville High School, with sixty-six Stamp owners, reports, according to Superintendent A. M. Blackman and Principal R. Reece, ownership of \$2,999.75 in Governmen Sayings Securities. N. O. Robbins, superintendent of the Jasper schools, entered the high school, with Mrs. Joe Mc-Carthy in charge, which owns, according to Mrs. McCarthy \$34.15 in Government savings. Miss Eva Grizzard of Waxahachie, according to Superintendent G. B. Winn, had a class of fifty pupils, who on June 1 owned \$3,650.50. Miss Grizzard's pupils own an average of \$72.61 and Miss Griffin's pupils own an average of \$85 each in Government Savings Securities.

"Perhaps other schools may have done as well," said Dinsmore W Hume, Federal District Director, "but we have not been advised. Certainly these children have learned a valuable lesson as well as accumulated what is to a school child an unusually large sum of money. This work will be con tinued in the schools next season."

The Arington Stock Company that have been showing here this week were very much annoyed at some of the hurrahing of the audience for a few nights. We judge that this company is not on to the ways of the West or they would have taken the joshing in a more cheerful spirit. In stead, though, they bawled the crowd out, which was only adding oil to the flames. It is pretty hard for a bunch of unintertained boys to keep quiet

PUPILS STOCKHOLDERS | TEN'S made-to-measure clothes may now be bought at greatly reduced prices!

Fordson Tractor.

"Get that wolf," is the sole order from his son Clyde, who is at San under which H. P. Williams, of Cus-

OF THE NORTHWEST

Stock raisers had about decided green and warm as summer. Best is determined not to be defeated by a regards to all, your son, wolf, and Williams promises to bring

Fordson

There is every reason in the world why every farmer should buy a Fordson

In the claims we make for the Fordson Tractor as being the superior farm trac-

Tractor, while there is not a single reason in the world why a farmer should not buy

or, there is nothing of boasting. Our claims are based upon demonstration facts. In every sensible test that has been made (and we don't believe in any jock-

ing or technical tests) but in the real common sense work on farm, work Trac-or was intended to accomplish—we say, it all such tests the Fordson has stood head

nd shoulders above all competing Tractor. And this is best proven in the fact that while there are about three hundred thousand farm Tractors in use in the United

States today, and while Tractors have been sold to farmers for twenty years, and

while the Fordson Tractor has only been on the market two years, more than one-

Now you can't upset a fact. You can't back away from an established truth,

and there it is-out of three hundred thou and Tractors, one hundred thousand are

Fordsons, and there are probably some fifty different makes of Tractors on the marcet. Just let your common sense consider these facts, "Figs are not plucked from

The Fordson Tractor has the necessary power. It is economical in operation. It is flexible in control and operation. It is simple in design, and it is sturdily built if the best iron and steel. It is the product of the genius of Henry Ford, and it

wasn't placed on the market until Henry Ford had tested it, and tested it, and test-

d it, before he asked the farmers to buy it. It is no idle faith that in the Fordson Fractor Henry Ford has given to mankind one of the greatest benefits which has

hird of all the Tractors in use in the Unit'd States are Fordson Tractors.

AN APPEAL FOR **NEAR EAST RELIEF**

"Thousands of little Christian orphaned 'kiddies' of Armenia and the Near East will perish from cold and hunger during the coming winter, unless supplies are immediately sent them," according to a forceful anles L. Sanger, of Dallas, State chairman for the Near East relief organ-

ization in Texas.

In his appeal to the people of Texas for immediate financial assistance to purchase the necessary food supplies and to handle the shipments of old worn clothing recently contributed by the people throughout the country, Mr. Sanger calls attention to the fact that the amount of bread and soup furn shed each orphan for an entire month is equivalent to but

\$5 in American money. "This amount is thrown away almost every day by the people of Texas in useless expenditures," he said "whereas hundreds of thousands little orphan children and refugees can be fed for an entire month through a contribution of an equal amount.

Mr. Sanger further calls attention to the fact that the Near East Relief organization is chartered by Congress, approved by the National Information Bureau, endorsed by practically every denomination, fraternal, civic and other organizations and expends the contributions in direct relief work. He also states that at the present time they have in operation 229 orphanages, caring for over 110,000 little orphan "kiddies," who must be maintained during the coming winter, and any shortage of relief supplies means death to just that many little children.

Mr. Sanger's full appeal is heart rendering, and he asks the people of Texas in their comfort and prosper-ous condition to share with the little "kiddies" of Armenia and the Near State headquarters of the Near East Relief Organization are located at Dallas to which point con-tributions shauld be sent without de-

DISTINCTION LIST

REPORTS SHOW TOTAL EN-ROLLMENT 530 WITH DIS-TINCTION LIST 230

The first month of the present sesthem," according to a forceful an-nouncement made recently by Char- Friday, October 1st, 1920, with a total enrollment of 530 and a distinction list of 230 for the month. The high school showed the largest enrollment and the best report in the history of the institution, there being 160 enrolled in the high school and only three failures for the month, a wonderful report. The attendance records were excellent in all departments, the six highest rooms, together with their per cents in attendance, being as follows:

Miss Boyce's room, 99.46 per cent. Miss Epley's room, 99.37 per cent. Miss Campbell's room, 98.70 per Miss. Melson's room, 98.66 per

Mrs. Tolbert's room, 98.58

Mr. Arrant's room, 98.29 per cent. Conditions in all rooms were rethere are 60 pupils with only about forty seats. This is due to the growth of the high school and to the lack of room to take care of it. There one room, it is necessarily crowded.

the schools during the month. The distinction list for the month was large, there being 83 in the high school, 58 in central ward, and 89 in on the honor roll; this fact being indicated by the abbreviation, H. R., Susan Cowden _____92 on the honor roll; this fact being in-

of courses carried by each pupil respectively. The list follows: High School Summa Cum Laude (90 or more) Florence Manning, 5_____97 1-5 J.
