## Red Plot To Smash Marshall Plan Revealed

### Planes Speed Missionaries From Red Violence In China

**CHENGCHOW, CHINA.**—(AP)—Transport planes sped the evacuation of missionaries from this Communist-menaced center Thursday. Civil war fighting, however, hid the fate of an unknown number of Americans and others who had sought safety in Laohokow, to the southwest.

Four have been killed in recent days—three of them slain by armed Chinese who shouted "Americans must die!" and the fourth fatally injured by a grenade explosion in Communist-government fighting.

As missionaries and other foreigners gathered at the busy Chengchow Airport, one American said the spread of civil warfare and of anti-foreign sentiment had convinced him: "...it's time for us all to get out of China again."

**Hospital Being Moved**  
Laohokow, 200 miles northwest of Hankow, was at last reports under increasingly heavy Communist pressure, and evacuation-plane pilots said they could not land there without ground communications.

Commercial planes are taking out some of the Chengchow evacuees, and the Lutheran Mission plane "St. Paul", is beginning the 12-trip job of removing a 100-bed hospital. Equipment, as well as the staff, of the big Southern Baptist Hospital here will be flown to Hankow for rail shipment to Kweilin, 450 miles farther Southwest.

**Attack Beaten Back**  
The staff of a Lutheran hospital at Koshan, midway between Chengchow and Hankow, escaped after government troops beat back Chinese Communists who had reached the hedges surrounding the institution.

At least five American missionaries and their families are known to be in the Honan-Hupeh provincial areas controlled by the Communists.

Mission headquarters in Hankow said no word had been received from Don Ellis of Los Angeles, superintendent of the China Inland Mission at Honan. He and his wife and two children last were reported at Luho.

**Tax Returns Must Be In Mail By 8:30 For January 15 Postmark**

Though the Bureau of Internal Revenue gives income taxpayers until midnight January 15 to file returns, filers must have returns in the post office by 8:30 p. m. in order to get a January 15 postmark on their returns. Postmaster N. G. Oates said Thursday.

Mail must be "tied" out for mailing from the post office here by that time in order to make the last outgoing train, it was explained.

The postmaster said there was no noticeable increase in outgoing mail at the post office Thursday morning. Income tax returns posted during the afternoon probably would form a perceptible increase in outgoing mail volume, he said.

**Insufficient Postage**

He added an admonition to income taxpayers to put plenty of postage on their returns. Each year especially around March 15, many taxpayers are delinquent in payments because they failed to put enough stamps on their returns. If such returns mailed March 15 are sent back to the taxpayer for more postage, the delay causes delinquency. If the returns are sent on to the Internal Revenue Department, the department refuses to pay the postage shortage, so the taxpayer is delinquent either way. The only way to avoid such delinquency is to be sure returns carry ample postage, Oates said.

**Plane Crash Victims Are Still Unconscious**

**AUSTIN**—(AP)—Two victims of an airplane crash 10 miles west of here Wednesday were still unconscious at a local hospital Thursday, hospital attendants reported.

The pair, Colin Jones, 25, of Austin, and John Reeder, 26, of Amartillo, both University of Texas students, were pinned under wreckage of their two-place private plane.

**WEATHER**

Generally fair and somewhat warmer Thursday night. Colder Friday. Lowest temperatures expected Thursday night and early Friday, 20 to 26 degrees in South Plains. Maximum temperature Wednesday was 55 degrees, minimum 22 degrees. Minimum Thursday was 30 degrees.

### 'You're Sweet'

### Truman Tax Bill Shelved

**WASHINGTON**—(AP)—Republicans Thursday pasted a "file and forget" tag on President Truman's proposal for a "cost of living" cut in income taxes balanced by a new excess profits levy on corporations.

With even key congressional Democrats showing little enthusiasm for the White House plan, the majority leadership signaled instead for action on a measure by Rep. Knutson (R-Minn.) to reduce income taxes \$5,600,000,000 a year, mainly on a percentage basis.

**Recoup From Corporations**

The President's proposal went before Congress late Wednesday. The measure would:

1. Give each taxpayer a flat \$40-a-year reduction for himself and each dependent, dated back to January 1. This would remove 10,300,000 persons from the tax rolls and reduce the taxes of 44,500,000 others.

2—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JAN. 15, 1948

## William Hacker, Noted Pianist, Will Play Here Thursday Night

William Hacker, noted American pianist, soloist and composer, and conductor of the Arkansas State Symphony, will be presented by the Midland Concert and Lecture Association in a piano recital at 8:15 p.m. Thursday in the high school auditorium.

The popular musician, who appeared by popular request, arrived in Midland Wednesday afternoon. He was a dinner guest of Mr. and Mrs. Winston Hull Wednesday night and was taken on a tour of the city Thursday. Hull is president of the concert and lecture association.

**Amazing Technique**  
Hacker has an outstanding figure on the American concert stage since he was 18, and has appeared in recitals in concert halls from Maine to Cuba and Mexico. He made a brilliant tour of Holland when only 19 years old. His audiences, invariably are amazed at two things—his interpretive ability, and his amazingly fluent technique.

Much of Hacker's life has been devoted to symphony expression and he now is full time conductor and musical director of the Arkansas State Symphony.

## Appealing Palestine Crisis Reviewed At Fine Arts Club Meeting

Mrs. L. G. Eyerley, 1802 West Wall Street, hostess to the Wednesday meeting of the Fine Arts Club, reviewed a paper on "Palestine: The Coming Crisis," in which she traced the background and discussed the situation that now prevails between the Jews and Arabs of that section.

Palestine, Mrs. Eyerley said, once the geographical center of the world, held a religious, rather than political, sway over the world. Commercialism has crept into modern Palestine, wastelands have been reclaimed and many valuable chemicals have been found in the Dead Sea. Mrs. Eyerley described the crisis in Palestine as a problem for the United Nations to solve.

During a business session under the direction of Mrs. Nelson Puett, Mrs. J. Howard Hodge asked that members obtain a copy of the code of ethics from other clubs and gather suggestions for betterment of the city, to be presented in a round-table discussion at the next meeting of the group.

The speaker, Mrs. Eyerley, was presented with several gifts. Mrs. R. M. Lynn sang "The Holy City." Those attending included Mrs. W. R. Jarrett, Mrs. C. H. Ervin, Mrs. Tom Bobb, Mrs. Clifford Hall, Mrs. O. C. Arnold, Mrs. Merrell Patton, Mrs. Tyson Midkiff of Rankin, Lydie Watson, Mrs. W. G. Epley, Mrs. Ernest Sidwell, Mrs. Earl Chapman, Mrs. Harry Adams, Mrs. E. C. Hitchcock, Mrs. J. L. Greene, Mrs. Charles L. Klapproth, Mrs. L. A. Roby, Mrs. R. B. Oberholzer, Mrs. J. G. Garner, Mrs. C. ## AAUW Creative Arts Group Initiates Study In Clay

The Tuesday evening meeting of AAUW's Creative Arts Group, in the W. M. Thompson Studio, 1008 West Indiana Street, initiated the clay study which will continue until the May closing of the year's activities of the American Association of University Women, it was announced.

Mrs. Thompson demonstrated to the group the basic coil method of pottery-making, and each member carried out the instructions by making miniature vases with the use of coils. First results were reported both varied and stimulating.

Among those present were Mrs. R. L. Clarke, Mrs. Carl Jones, Mrs. E. H. Scooby, Mrs. Lloyd Mills, Mrs. W. E. Cox, Mrs. R. G. Spivey, Mrs. Sam Geffen, Mrs. Leonard Swords, Mrs. Leslie Page, Mrs. Fred Kotzka, Mrs. Thompson, Mrs. Joe Chastain, Mrs. John Ficke, Mrs. E. B. ## PHARMACOLOGIST PERFECTS AN AMAZING FORMULA FOR SICK PEOPLE

Works Quickly To Overcome Conditions Which May Have Been Causing Untold Misery Over A Long Period Of Time

Since countless ages, man has been seeking a panacea for his ills. Hordes of people have sought alleviation at the spas of Europe and here at home. Baths, mineral waters and literally thousands of remedies have been used by countless people. Now, a pharmacologist, who has spent many years in prescription work, with ample opportunity for research, has perfected an amazing formula that has helped thousands of people back to health.

From letters on file, many, many people have reported relief after using this formula. It contains: Black Cohosh, Barberry, Burdock, Dandelion, Gentian, Licorice, Poke, Mandrake, Sarsaparilla, Roots, Cascara Bark, Buchu Leaves, Juniper Berries, Senna Leaves, Aloe, Magnesium Sulphate, Wild Cherry Bark, Capsicum, Stillaria, Salicylic Acid, Glycerine, Oil Sassafras, Methyl Salicylate, 1/10 of 1% Sodium Bismuthate.

Users of this remedy report remarkable results within a very short time. Now you can help chase those strength-sapping symptoms easily, pleasantly, quickly and inexpensively. Mergax relieves constipation within a few hours and helps tone the bowels into a more rhythmic action. Helps to build rich, red blood; creates a better appetite and gives you a real zest for food. Makes you feel more like living. Relieves indigestion, sour stomach, bloating and gas quickly. By removing poisonous waste matter from the system, many torturing rheumatic pains disappear.

Mergax contains no narcotics, opiates or calomel and will not make you sick, gripe or nauseate you in the slightest degree. It can be taken by every member of the family. You can now get this splendid medicine from any druggist in Texas. Just ask for 8 ounces of Mergax Compound.

## LIGHT UP for BETTER LIVING

Hundreds of young "engineers" are busy these days working with toy construction sets, complicated electric train systems, model airplane kits, wood-working tools and a dozen-and-one mechanical gadgets which found their way to many a Christmas tree.

There's no finer training for skillful hands than these intricate devices. To get the most enjoyment and fun out of their operation, the "technician of tomorrow" needs a lot of the right kind of light. Make sure your play-room and work-room lighting is adequate for easy seeing.

## Fill EMPTY SOCKETS

## Mrs. R. W. Hamilton Elected Regent Of Midland's Chapter Of The DAR

Mrs. R. W. Hamilton was elected regent of the Lt. William Brewer Chapters, Daughters of the American Revolution, at a meeting Tuesday in the home of Mrs. George Abell, 1566 West Illinois Street, with Mrs. J. D. Robinson assisting as co-hostess.

Mrs. Tom Sealy, outgoing regent, presided over the session which

saw the election of Mrs. John Perkins, first vice regent; Mrs. W. B. Neely, second vice regent; Mrs. J. B. Zant, secretary; Mrs. W. H. Gilmore, treasurer; Mrs. J. C. Watson, chaplain; Mrs. Jim Tom, historian; Mrs. Ben Black, registrar, and Mrs. Frank Elkin, corresponding secretary.

The delegate and two alternates elected to represent the chapter at the April Continental Congress in Washington, D. C., are Mrs. R. W. Hamilton, delegate, and Mrs. Dan Hudson and Mrs. George Abell, alternates.

The nominating committee for the officers' slate was headed by Mrs. Harvey Herd.

During the business session, Mrs. Jess Ward was elected to membership. She is the daughter of Mrs. Eva Cowden, a late member of the chapter. It was announced that bronze markers for the graves of deceased members have been received and will be placed on the graves of two members buried in Midland, Mrs. J. M. Caldwell and Mrs. Eva Cowden; one buried in Port Worth, Mrs. Julia Bounds; and one buried in Paris, Ky., Mrs. E. G. Bedford.

**George Washington Tea**  
Attention was called to the annual February tea, honoring the birthday of George Washington. This tea, it was announced, will not replace the regular February meeting for the transaction of State Conference business.

Another announcement revealed that silver spoons bearing the DAR emblem are now available for presentation to the babies of members.

The session's program included annual reports by committee chairmen. Mrs. George Abell traced the work done by the national committee on motion pictures and her findings, after comparison with programs presented at the various Midland theaters. Mrs. Waldo Leggett, chairman of the good pilgrimage, reported that a high school senior girl will be chosen soon as the chapter's entry in the state contest, the winner of which is sent as state representative to Washington, D. C. The expenses of winners are paid and chaperonage provided by the national society as a reward for outstanding dependability, service, leadership and patriotism.

Following adjournment, refreshments were served to the following: guests, Mrs. John Ed Cooper and Mrs. E. N. Glendon; and members, Mrs. Abell, Mrs. Ben Black, Mrs. John P. ## Mrs. R. E. Roark Featured At Meet Of Recent Graduates

Mrs. R. E. Roark, member of the Midland Play Readers Club and featured guest at the Tuesday night meeting of the AAUW's Recent Graduate Group in the home of Mrs. Tom Ingram, 2000 1/2 West Washington Street, read George Kelly's comedy, "Fatal Weakness" and explained to the group the aims and functions of the Play Readers Club. Mrs. Roark is also a member of the Community Theater play selection committee.

The program was under the direction of Dorothy Watson, and E. J. Elliott, chairman of the group, presided at a brief business session.

Those attending included Marianna Moseley, Marilyn Murray, E. J. Elliott, Eleanor Simpson, Dorothy Watson, Julia Rindig, Emily Lou Harris, Mrs. Crandall Jones, Billie Walker, Beverly Littlejohn, Mrs. Roark and the hostess.

## GS Troop 14 Members Receive Certificates

Girl Scout Troop 14 met Wednesday afternoon in the First Baptist Church to begin work on tablecloths. Games were played among the 22 girls attending.

Membership certificates were presented to Darlene Aldridge, Mary Jane Bennett, Juanda Lee Bradshaw, Larry Ann Burnside, Jane Calley, Gwyn Campbell, Judy Cole, Patsy Curran, Nancy Guyton, Arla Fuller, Retta Haslip, Lynette Howell, Penny Jones, Sylvia Metz, Barbara Munson, Diane Nichols, Peggy O'Neal, Judy Ridge, Janice Stalcup, Barbara Tom, Carol Ann Walker and Helen Zant.

**ORIGIN OF TEA**  
Japanese legends credit the origin of tea to the Buddhist saint, Bodhidharma, who became sleepy after staying awake five years to contemplate the Buddha and who is supposed to have cut off his eyelids to prevent their closing; the first tea plants springing up immediately from the discarded eyelids.

## How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the spot of the trouble to help loosen and expel germ-laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

## Sleek Coiffure Makes Glamor Girl Of Coed

By ALICIA HART  
NEA Staff Writer

A sleek new coiffure can do as much as a new evening gown to help a coed switch from classroom

Back-swept coiffure is styled for the youthful party-goer.

"pal" to poised young lady for her party escort.

A casual flyaway bob looks at home with everyday sweater and skirts. But it's miscast with dress-up frocks. A party coiffure, however, needn't be a complicated mass of waves and curls. Nor do you need to rely on air-up-sweep as your only chance to ring in a change in appearance.

You can, for example, try a back-swept coiffure which, styled by M. Louis New York hair-dresser, has become a hit with party-going girls. This simple hair-do makes capital of the polish that comes with faithful brushing and is formal enough to step out with strapless evening gowns.

To make it your own, part hair at the side or center and brush it back to the nape of the neck. Only the very ends of the strands are turned under to make a soft, but subtly curled chignon. This back arrangement is held in place with a few pins and a spray of hair lacquer.

## Sister Of Midlander Weds In Houston

Rites solemnizing the marriage of Mrs. Evelyn Wadkins and M. E. Scherer were read in a recent ceremony in Houston, home of the bridegroom.

The parents of the bride, Mr. and Mrs. Bill Prime of Hobbs, N. Mex., and the brother and sister-in-law of the bride, Mr. and Mrs. Wesley Prime of Midland, attended the ceremony.

The couple will reside in Houston where Scherer is employed by Sheffield Steel Corporation.

## Betty Jean Hill Is New Voter At TSCW

DENTON — Betty Jean Hill, daughter of Mr. and Mrs. Max Hill, 902 North Big Spring Street, Midland, who celebrates her first birthday as a voting citizen this year, pledged last week, with 227 other new voters at Texas State College for Women, to become an active citizen of her state and country.

The New Voters were honored at a college assembly sponsored by the Campus League of Women Voters. Miss Hill is a senior advertising major.

## Young Baptist Couples Discuss 1948 Officers

A committee from the Young Married Couples Class of the First Baptist Church met Monday evening in the home of Mr. and Mrs. Henry McCabe to discuss the selection of a slate of officers to be presented for election.

Plans were made for the occupancy of the new class building, it was reported. A concerted effort is being made to contact all old members and enlist new members for the occasion.

The host and hostess served refreshments to Fred Arnett, Franklin Davidson, Iola Harrell, Cleo Roberts and Geraldine Simmons.

 so the Lord, the God of hosts, shall  
 be with you, as ye have spoken" (A-  
 mos 5:14).

Among the citations which com-  
 prise the Lesson-Sermon is the fol-  
 lowing from the Bible: "For he that  
 will love life, and see good days,  
 let him refrain his tongue from  
 evil, and his lips that they speak  
 on guile" (I Peter 3:10).  
 The Lesson-Sermon also includes  
 the following passage from the  
 Christian Science textbook, "Science  
 and Health with Key to the Scrip-  
 tures" by Mary Baker Eddy: "Life  
 and goodness are immortal. Let us  
 then share our views of existence  
 into loveliness, freshness, and con-  
 tinuity, rather than into age and  
 blight" (page 246).

## These Great Truths

These great truths, my son, have come to us from ages past—a harvest of mankind's experience of happiness and sorrow. In them you will find guidance, hope and courage as you grow to manhood and face life's problems.  
 Not by accident have we inherited the writings of men who searched for and discovered the ways of God. Thousands gave their lives to establish and defend our right to possess these truths.  
 Life, my son, is like the games boys love! You learn to give and take. There are rules—and sometimes penalties. And when the game is over... you've either won or lost.  
 This Bible has been treasured for centuries, in Church and in home, because it contains the rules of life. Its great truths enable us to play the game and win! Read it carefully, son—and remember, all through your life the Church will help you apply its truths.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plans to go to church on Sunday and read your Bible daily.

## Ranger High School Disqualified For Recruiting Players

AUSTIN—(AP)—Disqualification of Ranger High School for Interscholastic League honors in the 1948 football season was ordered Wednesday when the league's state executive committee found that school guilty of recruiting players from smaller Gordon High.

Gordon school officials filed a complaint with the league last fall, accusing Raymond Lingle, president of the Ranger Quarterback Club and Coach O. C. (Stubby) Warden of Ranger of recruiting three Gordon players, League director Roy Bedichek reported.

Still Eligible At Gordon

He said investigation showed Warden was with Lingle when the latter offered "at least two of the three boys room and board" to come to Ranger.

Only one of the three boys stayed in Ranger more than "a day or two," Bedichek said, adding that all three would remain eligible to play for Gordon, a Class B school, next season.

Bedichek described the disqualification for honors as the lightest penalty which the league imposes for such an infraction of rules.

## DALLAS' BOB HOGUE SIGNS BOSTON CONTRACT

BOSTON—(AP)—General manager John Quinn of the Boston Braves Thursday added the signed contract of Pitcher Bob Hogue to his club's thick 1948 collection.

Hogue was purchased from the Dallas club of the Texas League after setting up a 16-8 record last season.

## Notre Dame's Lujack Gets 'Athlete-Of-Year' Award

NEW YORK—(AP)—Johnny Lujack, Notre Dame's all-America quarterback, Thursday was named male Athlete-of-the-Year for 1947 in the annual Associated Press year-end poll.

The 22-year-old star, winner of the Heisman Memorial Trophy and named the standout player of the January 1 East-West Shrine game at San Francisco, drew almost twice as many first place votes from the nation's sports editors as his nearest competitor.

Fifteen thought Lujack was the No. 1 man and eight voted for runnerup Jack Kramer and eight for Joe DiMaggio. On a point basis, with five for first, three for second and one for third, Lujack piled up 116 credits to 78 for Kramer, the national tennis champ, and 49 for DiMaggio, flashy centerfielder of the world champion New York Yankees.

Jackie Robinson, Brooklyn's first baseman who was the first negro to play in the big leagues in modern days, drew considerable support. So did Doak Walker, Southern Methodist all-America halfback. Succeeded Glenn Davis.

But Lujack was the winner by a comfortable margin on the strength of his play for the unbeaten, untied fighting Irish.

The Notre Dame passing star succeeds another football player, Glenn Davis, who won the award last year while rounding out his brilliant career with Army. DiMaggio was the only previous winner who drew any votes. Joe Louis, the runnerup in 1946, being completely overlooked after his fight with Jersey Joe Walcott.

Baseball dominated the first 10, although a football ace was the winner. DiMaggio was third, Robinson finished fourth, Ted Williams of the Boston Red Sox was fifth, Ewell Blackwell of Cincinnati was eighth and Joe Page of the Yankees was ninth. Doak Walker, who finished sixth, and Lujack were the only footballers. Golf was represented by Bobby Locke of South Africa in seventh place and Jimmy Demaret, the No. 10 man.

Leaders in the poll, with first place votes in parenthesis:

Athlete, Sport	Points
Johnny Lujack, football (15)	116
Jack Kramer, tennis (8)	78
Joe DiMaggio, baseball (8)	49
Jackie Robinson, baseball (4)	37
Ted Williams, baseball (2)	26
Doak Walker, football (4)	21
Bobby Locke, golf (1)	20
Ewell Blackwell, baseball (1)	14
Joe Page, baseball (1)	14
Jimmy Demaret, golf	13
Charlie Conerly, football (2)	11

Other Contenders

Herb McKenley, track, 9; Joe Walcott, boxing (1), and Larry Jensen, baseball (1), each 8; Sammy Baugh, football (1), Otto Graham, football (1), and Mel Patton, track (1), each 6; Harry Walker, baseball (1), Bill Smith, swimming (1), Spec Sanders, football (1), Bump Elliott, football (1), Gil Dadds, track (1), each 5; Joe Pilks, basketball, 4; Paul Christman, football, Willie Turnesa, golf, Johnny Sain, baseball, John Hargis, basketball, each 3; Burt Shotton, baseball, 2; Ralph Kiner, Johnny Mize, Bob Feller, Bucky Harris and Bob Elliott, baseball; Charlie Trippi, Bob Chappuss and Mal Kutner, football; George Mikan, basketball, Jim Ferris, golf and Willie Hoppe, billiards, each 1.

## Babe, Frankie Named In AP Women's Poll

DALLAS—(AP)—Two Texas women athletes were among those named in a poll to decide the woman athlete-of-the-year in the nation. Mildred Babe Didrikson Zaharias, former Beaumont High School girl athlete who became an Olympics track star, an all-America basketball player and finally a champion woman golfer, was No. 1.

Tied for last in the national poll conducted by The Associated Press was Frankie Groves, 16-year-old girl who played nine minutes at tackle on the Stinnett High School boys' football team.

There are 40 different types of organism that can cause pneumonia.

## Bowling Rally Slated Friday Is Open Event

A bowling rally, open to all enthusiasts of Midland, will be held at 7 p. m. Friday in Plamor Palace. It will be conducted by Charlie Treuter, field representative for the American Bowling Congress.

Bowling movies, a bowling quiz and a bowling forum are on the program. Prizes will be awarded in the quiz for best answers.

The movies feature straight and trick bowling. One film is entitled "Fundamentals of Bowling" and features instruction on the game and ideas on spot bowling. The other film shows Buddy Bonmar, Nelson Burton, Joe Falcaro and other stars of the bowling world in trick shots.

The quiz program pertains to bowling questions and rules.

The rally is brought to Midland by the ABC in cooperation with the Midland Bowling Association and Plamor Palace.

## RECOMPENSED

Blonds, because their scalp and hair textures are finer, lose their hair more rapidly than either brunets or redheads, although they have double or treble the amount of hairs possessed by either of the latter.

## TONGUE-WORN

The mosque of Amir, Cairo, Egypt, has a spot in a corner of its wall which is worn concave by the touch of many tongues. Believing it to be a cure for indigestion, natives lick the stone until their tongues bleed.

# Brand NEW for '48 FORD Bonus\* Built TRUCKS

Built Stronger to Last Longer!

More Than 139 Models!

NEW All Through!

Bonus\* Built — THE AMAZING RESULT OF AN ENGINEERING PRINCIPLE THAT ASSURES WIDER USE, LONGER LIFE . . . and ONLY Ford Trucks Have It!

EVERY single one of the great new Ford Trucks for '48 is Bonus Built . . . designed and built with extra strength in every vital part. But that's only part of this vital truck engineering principle . . .

This extra strength provides WORK RESERVES that pay off in two important ways:

• FIRST, these WORK RESERVES give Ford Trucks a greater range of use by permitting them to handle loads beyond the normal call of duty. Ford Trucks are not limited to doing one single, specific job!

• SECOND, those same WORK RESERVES permit Ford Trucks to relax on the job . . . to do their jobs easier, with less strain and less wear. Thus, Ford Trucks last longer because they work easier!

Yes, Ford Trucks are Bonus Built . . . built stronger to last longer! That's why there are more Ford Trucks in use today than any other make!

\*BONUS: "Something given in addition to what is usual or strictly due." . . . Webster's Dictionary.

BUILT STRONGER TO LAST LONGER

LIFE INSURANCE EXPERTS PROVE . . . FORD TRUCKS LAST UP TO 19.6% LONGER!

Only the New Ford Bonus Built Trucks Give You All These Big Advancements!

NEW! 3 NEW ENGINES . . . UP TO 145 H.P.!

Brand new Six . . . 2 brand new V-8's! Packed with advancements that give you real economy, solid performance! Proved Ford reliability and thrift in every one!

NEW! 2 NEW BIG JOBS . . . BIGGEST FORD TRUCKS EVER!

Gross vehicle weight rating up to 21,500 pounds! 145 h.p. engine! 3-speed transmission! Tire up to 10.00-20. New, heavy-duty brakes, up to 16" x 5" size. They're rugged; they're something!

NEW! MILLION DOLLAR CAB LIVING ROOM COMFORT!

New coach-type seat. More headroom, legroom, elbowroom! Picture-window visibility. New, exclusive Level Action cab suspension that insulates cab from vibration and frame wear.

NEW! NEW FRAMES, AXLES, BRAKES, STEERING!

Built stronger than ever before to give your Ford Trucks even longer life and wider use. These new Ford Trucks for '48 are really new all through . . . the greatest, most revolutionary line of trucks that Ford has ever built! See them, compare them with any other line of trucks made today!

ONLY FORD TRUCKS ARE Bonus Built FOR WIDER USE, LONGER LIFE!

PRAIRIE LEE 4-H CLUB MEMBERS ELECT COMMITTEES

The Prairie Lee 4-H Club elected the following committee members at a Tuesday meeting: Carol Frank and Frances Dunn, finance; Ruth Bennett and Peggy Lucas, exhibit; and Ada Jane Melissner and Carolyn North, recreation.
President Essie Raggett had charge of the business session, during which it was announced that the next meeting January 27, will feature a demonstration by Mrs. Nettie Messick on how to make embroidered pictures. Materials required for this work will include a needle, thimble, black thread and a nickel to pay for supplies.
Those attending included Essie Raggett, Ruth Bennett, Frances Dunn, Peggy Lucas, Lena Marie Price, Ada Jane Melissner, Carolyn North, Bessie Franks, Betty Carol Franks, Georgia Ann Gateley and the sponsor, Mrs. Livingston.

After hearing General De Gaulle's speech in St. Etienne, France, in which he urged elimination of trade unions, some cheering Frenchmen, raising the famed "Churchill" V-for-victory signal, try to break through a cordon of soldiers to congratulate and shake the hand of the former president. However, most of his 50,000 listeners, including large workers' delegations, gave his speech a cool reception. (Photo by NEA-Acme staff correspondent Rene Henry.)

Men's Clothes Face A 10 Per Cent Boost In This Spring's Buying

Advertisement for men's clothing featuring a man in a suit and hat. Price tags are shown: Hat \$7.50, Shirt \$3.25, Suit \$55, Shoes \$10.95. Text: 'The Price Tags on Today's Men's Clothes Head Up for Spring'.

By S. BURTON HEATH - NEA Staff Correspondent
NEW YORK—(NEA)—It's going to cost the American male almost 10 per cent more for his clothes next Spring than it does now—and almost 15 per cent more than it did last Spring. If he insists on trying to get pre-war quality in his wardrobe, the blow to his pocketbook will be even more painful.
A chap who is reconciled to getting by on what was a \$50 suit last Spring—and is a \$55 suit now and will be a \$60 suit next Spring—can get a new outfit for the 1948 Easter Parade for around \$126.15. That means taking lower middle qualities on everything, wearing the old belt another season and going garterless.
The same items cost \$16.30 less last Spring, and \$11.30 less this Fall.
The upward trek is scheduled to begin with the New Year and continue as seasonal merchandise appears on store shelves and racks. It hits everything except hats, neckties and woolen socks.
The average name brand suit like Botany, Kuppenheimer, Society Brand or Hart, Schaffner & Marx will go up from \$5 to \$10 above present levels, which already are \$5 above last Spring's.
Some of the lower-priced brands, made to compete with the big name brands, will rise only \$1.25 to \$2.50. The more expensive name brands will be raised more.
Low-priced rayons that were bringing \$30 will cost \$33.75; rayon blends will rise from \$32.50 to \$36.75; tropical worsteds that were \$35 or \$40 will cost \$40 or \$45. Seersuckers, cords, cotton-and-rayons, and all-celanees summer suits will be boosted about a dollar. Palm Beach, now \$24.75, is expected to be increased \$1.50 to \$1.75. A \$35 Spring top coat will cost about \$40 and a \$24 sport coat will cost about \$26.
The shirt industry still wants badly, to make the \$2.95 shirt standard, but it is getting further and further from that goal. Trival, which makes what the trade calls "basement" shirts, will have a number at \$2.65. It is what you have been buying, maybe, for \$2.50. Piedmont has announced no raise on its \$2.95 shirt. Esley's \$2.95 shirt has gone up to \$3.25. Arrow and

Family Relations Counselor To Speak In Midland March 5

AUSTIN—Three nationally-known mental hygiene and family relations counselors will lecture in a score of Texas communities during February and March under University of Texas Hogs Foundation for Mental Hygiene sponsorship.
They are Mrs. Augusta Street, Bridgeport, Conn., formerly of Houston and for many years a Hogs Foundation consultant; Dr. Reuben Hill of Iowa State College; and Dr. Lloyd Allen Cook of Wayne University, Detroit, Mich.
Mrs. Street will address parents' groups, clubs and other civic gatherings in 12 Texas cities, including Midland on March 5.

McCamey Bank Elects Officers, Directors

MCCAMEY—The Security State Bank of McCamey held its annual stockholders meeting Tuesday.
At the directors' meeting which followed, Wayman Rose, cashier of the bank since June 10, 1934, was elected executive vice president, and James A. Rutherford, assistant cashier, was elected cashier.
Rutherford came to the bank from Rising Star, where he was associated with the First State Bank three years. He was connected with the Continental National of Fort Worth five years and the North Fort Worth State Bank one year. Prior to that he served as a bank examiner.

COTTON
NEW YORK.—(AP)—Noon Thursday cotton prices were 20 to 40 cents a bale lower than the previous close. March 35.66, May 35.61 and July 34.55.

Airline Officials Visit Midland To Start Cargo Survey

John A. Smith, cargo sales manager of Continental Air Lines, is in Midland to begin a state-wide survey of air cargo and freight potentialities and to discuss with Midland representatives of the company, the plans for future expansion of air freight facilities throughout Texas. He is accompanied by Don Walsh, district traffic manager of San Antonio.
The airline executive said his company has experienced an unprecedented growth in air freight shipping during the last two years, and that Texas cities have shared in this development to a large degree due to the great distances between major cities in the state and the growth of industries in this area since the war.
During 1947, Smith said, Continental Air Lines set a new all-time high record for air freight and express shipments with an increase of 95 per cent in traffic over 1946. A total of 140,487 ton miles were registered by the airline, compared to the 1946 figure of 71,683 ton miles. Revenue derived from these shipments showed a 72 per cent increase over the previous year.
In his capacity as air cargo manager for Continental, Smith also serves as advisor to Air Cargo, Inc., the ground service organization for all airlines engaged in air freight traffic.

Tri-County Medical Society Has Meeting

CRANE—The Reagan-Crane-Upton Tri-County Medical Society was entertained here recently with the president, Dr. S. Frank Robinson, as host. The next meeting will be held in McCamey March 11.
A steak dinner at the community hall preceded the business session at which the fatal influenza disease was discussed. Main project of the group is to obtain the mobile State Health Department unit for mass chest X-ray survey of persons over 15, when it is in this section of the country.
Dr. George Irvine of McCamey, secretary of the organization, was among those present; also Doctor Wright from Texon; Doctor Brandcroft, Rankin; and Dr. C. Gordon Smith, Crane.

Midlander Enrolled At San Marcos School

SAN MARCOS—One student from Midland, Leonard Howell, is among the 1,700 students enrolled at Southwest Texas State College in San Marcos.
This, the largest long-term enrollment in the history of the school, is expected to be exceeded in the coming weeks as students enroll for the next semester.

McCamey News

MCCAMEY—Mrs. A. J. Radar of Winfield, Kans., is visiting in the home of Mr. and Mrs. J. H. Null.
Sandra Kay Gilliland, daughter of Mr. and Mrs. Elbert Gilliland, is said to be improving in the Western Clinic Hospital at Midland after a serious illness.
Mrs. W. O. Herring of Albuquerque, N. M., and her daughter, Mrs. Loren Hillger, of Fort Stockton, and Mrs. Frank Joiner of Fort Worth are visiting in the homes of their sisters, Mrs. J. L. Adrian and Mrs. J. L. West.
Mrs. John Reed who has been sick with the flu for the past week is said to be improving.
A. L. Newsome of Hobbs, N. M., is a new resident of McCamey, and is employed by Shell Oil Company. He will move his family here as soon as a house is available.
Mrs. Fred Gibson was called Friday to San Angelo on account of the illness of her mother, Mrs. Homer Powers. She returned home Sunday and reports her mother as some better.
The annual business meeting of the McCamey Country Club will be held at the club Tuesday, January 20, at which time officers will be elected.
Mrs. Wallace Chastain suffered a sprained ankle at her home Tuesday.

Fort Worth Rodeo Is Open To All Cowhands

FORT WORTH—The rodeo at the 1948 Southwestern Exposition and Fair Show, January 30 to February 8, will be open to all rodeo performers, professional and non-professional, show officials announced.
The decision was reached after the Rodeo Cowboy Association, which announced January 1 that the Fort Worth show had not been approved, again refused to approve it for participation of RCA members at a meeting in Denver.
"We have no fear of not having either enough cowboys or good ones for the rodeo," Edgar Dean, secretary-manager, said.
The RCA, while refusing to approve Fort Worth's premium of \$300 per event per performance, approved the Houston show at \$275, Denver at \$211, and Tulsa and Boston at \$200. RCA demands that Fort Worth raise its premium to \$350 per event per performance was based on the argument that the Fort Worth show made more money and should pay more.

Roy Long Is Named Fraternity Officer

DALLAS—Roy Long, son of Mr. and Mrs. William Long, Midland, has been elected president of Lambda Chi Alpha, social fraternity on the campus of Southern Methodist University.
He is a May, 1942, graduate of Midland High School. A sophomore student, Long is majoring in Psychology. He is a member of Cycnet Fraternity campus organization.
During World War II, Long served with the United States Army.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just replace a Little FASTEREETH, the alkaline iron-oxide denture plate. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "chate" odor (denture breath). Get FASTEREETH at any drug store.

Kidney Trouble Gone After Taking Mertox, Says Houston Woman

"I was greatly bothered with kidney trouble," says Mrs. Matilda Cleveland, 4401 Hardy Street, Houston, Texas. "Mertox has helped me so much. My kidneys do not bother me anymore and I am free of pain once again. I can now get a good night's sleep."
This great medicine works fast to relieve the system of contaminating matter that may have been causing untold misery over a long period of time. Helps kidneys and bladder. Expels gas and bloating. Helps to build rich, red blood. It contains no narcotics, opiates or calomel and will not make you sick, gripe or nauseate you in the slightest degree. It can be taken by every member of the family.

**Margarine Law Repeal Bill Is Introduced**

WASHINGTON—(AP)—Legislation for the repeal of federal anti-margarine laws had been introduced by Rep. Poage (D-Texas) on the grounds they are "restrictive" and "most unsavory in character."

Poage said the margarine issue is not an attack upon the dairy industry "or even upon the butter industry."

"The issue now is will we deny our citizens a wholesome table spread which the butter industry cannot supply," he explained.

**Names Of Thomas, McDonald Again Appear On Lists**

WASHINGTON—(AP)—The name "Mrs. Edith Thomas" turned up on a new list of 5,651 cotton traders Thursday as senators investigating commodity speculation continued their study of transactions by Senator Elmer Thomas (D-Okla.).

The senator's wife is named Edith. When the same name appeared on a similar list last week, Thomas said his wife has her own money and trades in commodities. He said he, too, has dealt in stocks and commodities but has never used any "inside" government information.

The committee has taken secret testimony from several men who said they were commodity traders and friends of Thomas.

**651 Names Released**  
The only open hearing now scheduled is on January 23, when Republican presidential aspirant Harold E. Stassen and Edwin W. Pauley, special assistant to Secretary of the Army Royall, are slated to be heard.

The new list of cotton traders made public by Secretary of Agriculture Anderson contained the names of 5,651 persons and firms who were active in the market October 15-18, 1946, a period marked by a sharp price break.

On the new list also was J. E. McDonald of Austin, Texas, with 300 bales "long" in the speculative market. The Texas agricultural commissioner acknowledged after publication of the previous list that he had been trading in cotton.

**Louisiana Strikers Start Prison Terms**

DALLAS—(AP)—Forty Louisiana men Thursday were in the Seago-ville Federal Prison near here, serving sentences for violation of the Federal Anti-Racketeering Act during a Louisiana milk strike last Spring.

The prisoners are the bulk of 52 defendants, all of whom pleaded guilty to taking part in the strike. The strike resulted when dairy farmers in the Amite, La., area protested prices paid by New Orleans milk distributors. Milk trucks and trains were halted by armed farmers, who poured out thousands of gallons of milk to keep it from reaching the city distributors.

**TEXAS' 1947 BIRTHS BREAK FORMER RECORD**

AUSTIN—(AP)—Live births in Texas last year totalled 195,000, breaking the former record of 180,000 set for 1946. State health officer George W. Cox has reported.

Doctor Cox said there were 61,000 deaths last year and predicted an upward trend in the general death rate this year.

**Terry Tim, Jerry Jim, Not So Slim**

Setting what is believed to be a record for combined weight of new-born twins are Terry Tim, left, and Jerry Jim, sons of Mrs. Russell Roegner of Danville, Ill. Terry Tim weighed nine pounds, six-and-a-half ounces, his brother nine pounds, two ounces. Together, the hefty youngsters tipped the scales at 18 pounds, eight-and-a-half ounces.

**RAF Plane Fired On When Troops Halt Fighting**

JERUSALEM—(AP)—A plane which British military officials said they believed was Jewish-piloted fired on a RAF reconnaissance craft Thursday over Kfar Etzion in the mountain area south of Jerusalem, where Jews and Arabs had been locked in a bloody 24-hour battle.

British planes, along with tanks and artillery, had been moved into the area to halt the fighting, in which 50 persons were reported to have been slain.

The battle had raged in the vicinity of Hebron, where an estimated 400 Arabs surrounded four Jewish settlements. A Jewish agency spokesman said the "fighting stopped when the military moved in." The British Army, confirming this, reported the area quiet.

**Foreign "Recruits" Blamed**

The army said tanks and self-propelled guns had arrived to patrol the section, Royal Air Force Spitfires made dummy runs over the craggy hills at daybreak.

The consensus of Jewish, Arab and police sources was that 20 Arabs and 30 Jews had died.

The attackers were believed to be "recruits" from Syria and Iraq. Jewish sources said most of the attackers wore uniforms and steel helmets. Damascus dispatches said hundreds of Arabs have been slipping across the unguarded border of Palestine to join in the fight against partition and the Jews.

The unofficial tally of violent deaths in the Holy Land now stands at 784 since the United Nations Assembly voted for partition November 29.

**Wearing Dark Glasses Can Be Dangerous**

HAVANA—(AP)—Constant wearing of dark glasses is habit-forming and usually unnecessary, Dr. John L. Matthews, San Antonio, told the first Pan-American Congress of Ophthalmology here.

Doctor Matthews also warned the eye specialists from all parts of the hemisphere that driving an automobile while wearing dark glasses is dangerous at dawn, dusk or night. He pointed out "any dark lens reduces sharpness of vision at those hours."

Doctor Matthews said it appears actual injurious effects of tinted lenses are slight, but that "constant wearing of dark glasses is habit-forming in that the person becomes less tolerant to light and therefore dependent upon the glasses."

To avoid such dependence, he advised the use of moderately dark shades and then only when necessary.

**DREXEL FAMILY MEMBER KILLED BY GERMAN PISTOL**

NEW YORK—(AP)—Anthony J. Drexel, 3rd, 34, a member of the well-known banking family, died Wednesday night at his Oakley, S. C., plantation when a captured German pistol he was examining accidentally discharged, his attorney announced here.

**CLUB-SWINGING POLICE ROUB ITALIAN VETERANS**

ROME—(AP)—Club-swinging policemen injured three or four of several hundred Italian war veterans Thursday who marched on the Italian government building to protest what they termed the government's lack of interest in their plight.

**Arkansas Train Crash Kills Two, Injures Eight**

LITTLE ROCK—(AP)—Two persons were killed and at least eight others injured Thursday when two Rock Island trains collided head-on at the western outskirts of Little Rock.

Dead were W. L. Martin, about 58, North Little Rock, engineer of a westbound passenger train, and an unidentified negro woman passenger. Martin was scalded to death in the cab of his locomotive.

Grady Herr, Little Rock, engineer of an eastbound freight train, suffered severe burns, and G. W. May, 26, North Little Rock, Herr's fireman, suffered the loss of his right leg below the knee.

J. C. McDaniel, Martin's fireman, received minor lacerations about the head. Both firemen jumped from their locomotives just before the impact.

The other injured apparently were hurt less seriously.

Meet On Sharp Curve  
The passenger train was the westbound Memphis-California, enroute from Memphis to Amarillo. The freight was eastbound from Oklahoma City to Memphis.

The trains met on a sharp curve at the foot of a long grade just opposite Little Rock's Riverdale Country Club golf course. A baggage coach, one car back from the passenger engine, was shoved back into a chair car, where the most severe casualties were suffered.

The two all-steel cars telescoped and it was necessary to use saws to extricate the injured.

The freight cars piled up like matchsticks behind the freight locomotive, tumbling crosswise on the tracks.

**Three Supreme Court Justices Leave Bench In Color-Line Case**

WASHINGTON—(AP)—Three Supreme Court justices Thursday disqualified themselves from taking part in the court's consideration of challenges of property agreements which bar colored people from living in white neighborhoods.

Justices Rutledge, Reed, and Jackson left their places on the bench when cases involving the issue were called for argument.

None gave a reason. There are no court rules on disqualification, each judge making his own decision whether there are reasons, such as past appearance as an attorney in a similar case, why he feels he should not sit in judgment.

**Search Is Pressed For Missing Airman**

PORT WORTH—(AP)—An air search continued Thursday for the light plane of Eugene Holstein, 29, Dallas, which disappeared December 30 after fog closed in the Houston airport.

Eleven planes were put in the air Wednesday from the Port Worth Air Field after the 62nd U. S. Air Force Air-Sea Rescue Unit at Biggs Field El Paso, requested assistance of the 8th Air Force and Air Reserve.

The Port Worth planes are searching an area bounded by Mineral Wells, Lampasas, Waco and Palestine.

**FUNDS CAMPAIGN PLANNED FOR TIDELANDS FIGHT**

**Fence Is Authorized To Prevent Spread Of Hoof, Mouth Disease**

MEXICO CITY—(AP)—Immediate construction has been authorized for a five-strand barbed wire fence, 55 miles in length, to prevent northward spread of the foot and mouth disease in Mexico.

The fence is the first section of one that eventually will stretch from Tamaulipas, Veracruz State, to the Pacific coast at Puerto Vallarta, Northern Jalisco State. The first section will be from Tamaulipas west to Tamaulanchale, on the Pan American Highway between Laredo and Mexico City.

Approval of the construction was announced by the Joint U. S.-Mexican Commission combating the infection.

A similar 138-mile coast-to-coast fence is planned south of the infected area across the Tehuantepec Isthmus, from Coahuila to Salina Cruz.

The army will patrol the fences to prevent any unauthorized movement of cattle from the infected zone.

ONE HALF THE MASS OF THE AIR IS BELOW THE THREE AND ONE-HALF MILE LEVEL.

### 1948 Model Ford Trucks To Be Shown At Open House Here

The first public showing in Midland of the new 1948 model Ford trucks will be held at an open house from 8 a. m. to 6 p. m. Friday at the Murray-Young Motors, Ltd., 223 East Wall Street.

With the new streamlined trucks, the first post-war product of the Ford Motor Company, as the main attraction, Murray-Young invites the public to its showrooms, and service, parts, accessory and used vehicle departments.

H. S. Murray said the open house for the public announcement of the 1948 truck line was arranged since he believes this is the most important new truck showing in Ford history.

"We are entering the greatest truck market of all time with the widest range of models and capacities ever produced by Ford. We expect to receive trucks during the coming months in quantities increased sufficiently to permit us to meet the heavy demand," Murray said.

### Rankin News

**RANKIN** — Mr. and Mrs. Zackie Monroe and Mr. and Mrs. Melvin Puckett have gone to Liberal, Kansas with the crew of the Iron Drilling Company. This is the crew which drilled the Slick-Urschel No. 1 Aford, and they expect to return to this territory when the re-survey has been completed in this field.

Mrs. Walton Harral and daughters spent Tuesday in Midland.

Mrs. M. K. Taylor left Tuesday for a several days business trip to Dallas.

Mr. and Mrs. J. Bert Kincaid have been in San Angelo the past week with Kincaid's father, T. A. Kincaid, who has been seriously ill. The elder Kincaid fell in his bath tub, fracturing a rib, from which pneumonia developed. His condition is reported as being favorable at this time.

Alvin McGilvray, former Pecos County ranchman now living in San Angelo, was a business visitor in Rankin Tuesday.

Mr. and Mrs. Tommy Workman and daughter Darlene and Mrs. S. M. Owens, all of the Owens Ranch 10 miles East of Rankin, spent the weekend in the Wilson Barr home in Crane. Mrs. Owens remained for a several days' visit.

Mr. and Mrs. R. L. Bell visited in the home of their daughter and son-in-law, Mr. and Mrs. James Mims, in Midland Sunday.

### Border Island Cattle Threaten U. S. Herds

**SAN ANTONIO**—(AP)—Cattle on islands in the Rio Grande are a threat to healthy cattle in the United States and should be removed, Dr. H. F. Kern recommended in a report to Dr. W. C. Dye, head of the United States Bureau of Animal Industry.

Kern, Laredo inspector, made the recommendation after he completed an aerial survey of conditions along the border in connection with the fight against the spread of the foot and mouth disease.

He made his report following the first of a series of aerial surveys between Zapata and Webb counties.

Kern said one aerial inspection revealed what took months of observation on horseback to determine.

Dr. N. E. Dutra, bureau inspector at Brownsville, conducted a similar aerial survey from the Gulf of Mexico to Zapata County, Doctor Dye reported.

### State Of Siege Closes Shrines In Jerusalem

**JERUSALEM**—(AP)—The hill of crucifixion where Christ died and the Holy Sepulchre from which he arose are virtually closed to Christians by the Arab state of siege within the walled old city district of Jerusalem.

Jews are barred from the ancient Walling Walk, now under the tommy guns of Arab guards, and the robed Moslems who walk down the narrow cobbled street to the guard-gates of the Mosque of Omar on the site from which Mohammed ascended to Paradise carry rifles openly.

None of this is the intent of the milling tense Arab throngs within the serrated walls. It is the result of the heightening terror of virtual civil war over the partitioning of Palestine.

**Visitors Are Armed**

In evidences that the holy places still are open to pilgrims dare to venture there — I entered through the tightly guarded Jaffa Gate and walked three hours through jammed bazaars teeming with veiled women, children, vendors, goats, burros and men armed with every type of gun to visit all three shrines.

When armed men stopped us my Arab companion hesitated to explain that I was an American. Heretofore friendly Arabs now know America as one of the leaders in the United Nations plan to divide Palestine. So in the land where Christian and Saracen fought to death through the Crusades it now oddly proved a better passport to say only that I was a Christian.

Everywhere in the walled city I was regarded with suspicion, but so far as I could tell no harsh or threatening words were passed. In one tiny bazaar street I was invited into a boxlike cobbler shop for Turkish coffee brewed over a coal brazier. The shopkeeper deposited his Luger automatic on the table beside the coffee cups.

**Beggar Is Wounded**

An old woman came limping past begging alms for her suffering from terrorists outside the walls. Given a few copper she pulled back her yellow veil to show bandages she said covered wounds suffered in the bombing of the Damascus Gate.

Later I saw a robed sheik in flowing white headress emerge from the great gateway to the blue-hued Mosque of Omar through whose open arches could be seen the Garden of Gethsemane and the Mount of Olives. He was followed by an attendant carrying a sub-machine gun under his arm.

The few blue-uniformed Palestine police in the narrow streets made no attempt to disarm Arabs whose weapons showed plainly. They intervene only when there is shooting. Outside the walls it is another matter. There police are committed to disarming anyone found with weapons.

**Few Christians Visit**

I saw no guards of any kind—not even the usual Arab street-block of young sentries — around the huge Church of the Holy Sepulchre. The young Arab guide there said he had seen only three of four Christian visitors, other than Christian Arabs who come daily, in the weeks since partition fighting virtually sealed off the old city.

The vendor in the postcard and relic shop just outside the church offered to cut his prices, then shrugged and said "No one comes now."

Inside, past the tiny crosses Crusaders carried in the stone entry walls, where the great domed buildings covers both the low hill of the crucifixion and the tomb from which the stone was rolled, rituals of the highest sanctity are carried on quietly by the Christian monks waiting for the day of peace and pilgrimage.

It is estimated that winds of tornadoes sometimes exceed 300 miles an hour.

### Chinese Inflation Boosts School Mailing Costs

**SCRANTON, PA.**—(AP)—Inflation note: The International Correspondence Schools reports that one of its students, Edmund Skoff, paid \$3,000 dollars to mail his home work here.

The student mailed his letter from Tientsin, China, on December 15—with the two green and blue stamps representing that amount in inflated Chinese dollars.

### Northern Midlander Really 'Breaks The Ice'

**EAY CITY, MICH.**—(AP)—The automobile of John Sanborn of Midland, Mich., broke through the ice of Saginaw Bay while he was fishing nearby.

So a Pinconning, Mich., firm sent a wrecker to retrieve it. That broke through and sank too.

A pilot, attracted by the crowd on the ice, landed to see what was going on. His plane broke through also.

The problem now is to retrieve all three vehicles.

### Atomical Swims And Runs On Two Wheels

BUFFALO, N. Y.—(AP)—A two-wheeled amphibious midget automobile that looks like a wingless airplane has been designed by a Buffalo aircraft engineer.

The creator of this gasoline-powered vehicle, Frank M. Salisbury, calls it the Atomical and expects to sell it "under \$500.00". He says test models for one and two passengers now are being made in Cleveland but he doesn't expect to attempt quantity production until 1948. Salisbury is a former project engineer on the Bell P-39 pursuit planes.

The Atomical is powered by an air-cooled rear engine and is hydraulically driven—no clutch, no differential, no transmission.

"It really is a fully enclosed car that has two extra retractable wheels, one on each side. They drop automatically when the speed is reduced to five miles an hour and they retract again between five and eight miles an hour," he explained.

The biggest feature is automatic stabilization, to prevent tipping at low speeds.

Salisbury said the car will be built for speeds not to exceed 42 miles an hour and will run about 45 miles on a gallon of gas.

Flaps on the rear wheel will propel it through water, he said.

### Wotta Night For Jack!

Jack Reed, 24, of Denver, Colo., came home from the New York broadcast show "Break the Bank" with \$6100 in cash, an offer of a new job in Denver, and a three-week, all-expense-paid honeymoon in Florida. He'll have to supply the girl, which is all right with Jack, who came to New York in the first place to marry Betty Mann, an airline stewardess, shown with him above.

### Strongbacks Vie For 1947 'Honors' Among Thieves

By MEADER G. PATTINGTON  
NEA Special Correspondent

The thief who stole a 20-ton bridge at Crookston, Minn., tied for 1947 burglary "honors" with the light-fingered, strong-backed gent who walked off with 1,500,000 railroad ties at Michoacan, Mexico.

But a backward look at the activities of rogues last year proves these weren't the only ingenious ones.

Someone stole an unfinished home at East Peoria, Ill., while another took enough sod from Salt Lake City to start a good lawn. Police never discovered any connection between the two jobs.

One opportunist snatched a \$3,000 ring from the finger of a woman motorist who stuck out her hand to signal a left turn.

At Olympia, Wash., a jail inmate took advantage of his time to learn to read and write, returned a short time later on a charge of forgery.

Snatch Writes 'Fins'

In Paris, an ambitious author swiped a typewriter, to write a detective story. The gendarmes detected him before he completed four chapters, and wrote "fins" to the book.

Small change didn't discourage a Charlotte, S. C., crook who carted off 4000 dimes and 5000 pennies. And at Fort Wayne, Ind., one grabbed 73 pounds of pennies—25,000 coins—from a window display.

One youthful criminal at Lancaster, Pa., gathered \$292 in 51 burglaries. But he did more than \$1000 damage stealing that much.

Police Are Lucky

Police seemed to have more than their share of luck last year.

Two Puyallup, Wash., officers were helping a motorist fix his lights when their radio blared the announcement of an auto theft. The unlighted motorist was the lifter.

In Denver, two squad car officers quietly watched a thug hold up a man, waited until he had stuffed sufficient evidence into his pockets, then collared him. In Philadelphia, a crook in the midst of a holdup spotted four armed policemen and flinched.

Gunman's Bad Luck

And the gunman had their share of hard luck. One stick-up artist in San Francisco pounded his victim over the head with a gun. The gun went off, wounding the pounder's pal. In another part of San Francisco, a gunman fired a warning shot as he made his getaway; the bullet ricocheted off a wall and hit the fleeing bandit.

In Philadelphia, a thief conveniently dropped his wallet with an identification card and address in it, beside his victim's car. Police had no trouble locating him.

In California, a rattled thief snatched a box from a parked car, quickly dropped it when he discovered it contained three live rattlesnakes.

Conscience Go To Work

Some of the boys suffered from conscience pangs last year.

A man in West Point, Mass., received a cashier's check for \$50 from the thief who stole his watch in Louisiana 36 years ago. At Springfield, Mass., a safecracker stopped right in the middle of a job, called police, confessed his crime and waited for the cops to pick him up.

An assistant bank cashier in San Francisco spent a week convincing employers she was telling the truth about embezzling \$10,000. But she had invested the money so well she was able to turn back \$14,000. The judge awarded her the \$4000 profit.

Some Ponca City, Okla., thieves took the trouble to return a set of hubcaps they had stolen. The reason: "They didn't fit our car."

SUNSPOTS CENSORED

War censorship not only clamped down on weather reports here on earth, but also on the sun. Because disturbances on the sun affect radio reception, sunspot activity was a military secret during World War II.

The battle of the Monitor and the Merrimack was fought at Hampton Roads March 9, 1862.

## Take time to save time

Have you ever mapped—with pins and thread, or with pencil on paper—the daily "chore rout" of your farm or ranch? Have you figured how much back-tracking you do, how many unnecessary extra steps you walk in a day? Have you taken time to save time, and steps, and labor?

A number of agricultural colleges and experiment stations have made practical work studies on farms and ranches, with some astounding results. For example, one dairy farmer (who thought himself pretty efficient) adopted improved machine milking techniques, rearranged his barn to save steps and time in feeding and watering. He saved himself two miles of walking per day, cut his daily chore time by two hours and five minutes. That's 730 miles of walking and 730 hours of work in a year. In making the changes, he spent less than \$50.

Indiana tells of farmers who, by planning their work, are raising hogs with one quarter their former hours of labor. There's a report of men making hay in 90 man-minutes per ton, while others using similar equipment—but older, harder ways of working—spend twice that time. There are scores of other examples.

Perhaps you cannot make such great savings in your operations. Maybe you can make more. It's certainly worth looking into, for even little savings are important. Five steps saved a day makes a mile in a year. Five minutes a day gives you three extra days a year.

There's no master plan to fit every farm and ranch, because no two are exactly the same. You have to work out your own plan of improvement. But the time it takes may well be the most profitable time you've ever spent.

A four-step scheme is suggested. First, consider each job or chore separately. Break it down into its parts. Check each part with a watch or tape measure and see if steps or time can be saved. Second, compare your work methods with those of your neighbors. Third, examine and check the details of your work methods. Fourth, develop and apply the new method. In a nutshell, "Plan your work and work your plan."

Time studies and job analysis have helped Swift & Company increase efficiency and make important savings. That's why we so confidently suggest similar studies in your operations. One excellent bulletin on the subject is Number 307, published by Purdue University, Lafayette, Indiana. It's interesting reading, and well worth writing for. Your county agent or state agricultural college can tell of other bulletins on the same subject.

### The American Way

In the livestock-meat industry, as in all American business, profit provides the basic incentive for work, enterprise and action. Profit makes the more go for live-stock producers, meat packers and retailers. The little profit by one section creates an imbalance in the industry. If one part of the livestock-meat industry suffers continued loss, all of us are hurt in the long run.

However, a margin of profit fair to one section of the livestock-meat industry might be quite unfair to another. For instance, we at Swift & Company know perfectly well that both livestock producers and retailers require a higher margin of profit, because of their relatively small volume. On the other hand, nationwide-meat packers must build up a tremendous volume of sales to make up for a very small margin of profit per unit—a margin that has been consistently lower than that earned by any other manufacturing industry in America.

Over a period of years, Swift & Company has earned, on the average, less than two cents on each dollar of sales (a fraction of a cent per pound of product handled). Over the same period, the average amount returned to producers for agricultural raw materials, including livestock, wool and hides, has been 75 cents out of each dollar we received. This is not a profit. Out of this 75 cents producers must pay the cost of production.

Whether livestock prices are high or low or whether meat is high-priced or inexpensive—Swift & Company can earn a reasonable profit only by adding together many tiny savings on a large volume of business.

### OUR CITY COUSIN

City Cousin cannot see Why "you" is spelled E-W-E. Neither can we!

Farmer's Choice—When I was in high school, I spent a summer vacation on my grandfather's farm in Indiana. From my city-bred standpoint, his seemed a particularly dull and unexciting life. Rising before dawn and working till after dusk, with little or no opportunity for urban pleasures, he was an object of pity to my adolescent eye. Why didn't he sell his farm and move to town? How did he ever get into this rut in the first place? "Grandpa," I asked one evening at milking time, "Why did you become a farmer, anyway?"

He paused a moment, leaned back on his stool and looked slowly around the barn—at the livestock, at the broad beams that supported the roof. What he saw seemed to reassure him, and I shouldn't forget his answer: "Just lucky, I guess."

### Controlling Roundworm in Sheep

By Walter Armer  
University of Arizona

The control of roundworm on sheep ranches has been successfully tested by Dr. W. J. Pistor, University of Arizona Animal Pathologist. It consists of feeding a mixture of 1 part phenothiazine with 9 parts of ordinary granular salt. Roundworm, a serious plague, especially to sheep grazed on irrigated pastures, can be checked by phenothiazine and salt. Of course, it is not a cure-all. Badly infested sheep may still have to be drenched. But feeding the mixture throughout the pasture period will prevent the worm population from reaching the dangerous level in the majority of cases.

Phenothiazine, alone, is but one of a number of drugs known to aid in controlling roundworm in livestock. But during World War II, animal husbandmen discovered the effectiveness was greatly heightened when used with salt and fed throughout the pasture season.

Experiments begun in 1943 with sheep grazing on irrigated pastures in Arizona proved the remarkable value of the new mixture. It resulted in cutting down loss of sheep and in marketing lambs in better condition. Today a high percentage of sheep on Arizona farm lands receive the 1-9 phenothiazine and salt mixture.

This new treatment is economical as well as effective. It practically eliminates the necessity of drenching each animal individually to control roundworm—a costly and possibly dangerous practice.

### Track Down the Facts

A great family "mad" is *Fiber Zibethicus*, better known to American farmers as the muskrat. He raises his family offspring in muskrat, and about muskrat, lakes and ponds. Muskrat tracks are easily recognized by the drag of his knife-like tail, which shows up well in soft mud.

The muskrat-trapper works hard to make a living out of muskrat skins, and generally his efforts are rewarded. But there is one fact about his business that he tracked down long ago. He knows the price he can get for muskrat skins depends on the popular demand for finished pelts.

In the business of processing livestock into meat for people's use, we at Swift & Company have to keep track of the demand for meat everywhere in the nation. We must know, too, the weights and grades of cuts preferred by consumers. Experience has taught us that the price the producers receive for their livestock is governed by what the meat packers can get for the meat and by-products.

NEW YORK—(NEA)—Milady's new look is going to cost 25 per cent deeper into Father's pay envelope next Spring, if Mother and the girls insist that their Spring finery be long and loopy and all cluttered up with tucking and pleating and ruching and other detail.

Even if they are willing to be conservative—to get by with lower hemline, extra fullness and more decoration, but all in moderation—their new wardrobes still will cost at least 10 per cent more than the wartime silhouette did.

The long, full-skirted dress takes twice as much fabric as the wartime version—and more than that if the style is extravagant. Rayon, Spring's popular dress fabric, is so scarce it has become a speculator's dream, and now it often costs the manufacturer two and a half times the pegged wartime price.

Labor costs for making dresses have soared. One Seventh Avenue manufacturer in the New York garment district is paying \$90 to a cutter who got \$50 a week during the war, and \$250 to a pattern-maker who was getting \$75.

The labor cost is increased also because of the intricacies of tucking, pleating, ruching and other fancy detail slow down production by the higher-paid workers.

In the words of one manufacturer: "A ready-to-wear dress that used to roll off the machines may now slow down production as much

## North Africa's Plans To Increase Rivalry

TUNIS, TUNISIA—(AP)—Formation of "Committees for North African Independence," as announced in Cairo by Abd El Krim the aging Riff warrior, was seen here as the start of a new international headache which may bring new Soviet-American rivalry.

It promised to be a serious thorn in the side of France, which is faced with armed revolt in Indochina, Madagascar and now organized political opposition to French rule in North Africa.

The possibility that the North African independence issue might balloon to international importance was heightened by the declarations day of Salah Ben Youssef, an independence party political leader in Tunisia.

"If the United States lets France continue in her present oppressive policy in North Africa, we will eventually turn in another direction for support. Yes, I mean Russia."

The United States has held a traditional interest in North African affairs. The line of ocean communications with Greece, where the United States is now strongly committed, could be vitally affected by developments in North Africa.

## SEWING VELVET

Stitching up a velvet party dress challenges a seamstress's skill but a few tricks from sewing center experts simplify the task. Cut velvet, advise the experts, so that nap runs up and down each piece of the pattern is cut so that nap runs in the same direction. Use a fine needle in your sewing machine and lengthen the stitch. Don't make deep turns or double velvet, since this will cause fabric to stick. Use taffeta or organdy for facings.

## Neglected Education

It didn't make big headlines. It wasn't as dramatic as the stories on grain speculation, aid to Europe, or anti-inflation legislation. Yet the first two reports of the President's Commission on Higher Education may prove, 10 years hence, to have been the most important stories of the lot.

Americans are accustomed to think that they are not only the most prosperous and best fed people on earth, but also the best educated. The first two boasts may be true. The third definitely is not. Of other principal world powers, Great Britain spends considerably more per capita on education than we do. Russia spends much more than considerably more.

The war highlighted and aggravated a condition that has been developing for some time. The President's commission called further attention to it, but the revelation has been coming along, piecemeal, for some time.

Only recently a careful study showed the state of New York had a sorry record in the matter of education.

One war-aggravated result of this chronic neglect, is that we have a dangerous shortage of doctors, dentists, druggists, teachers, research scientists and health workers. A new generation of scientists and professional workers was recklessly drafted into the armed forces with a disregard for future welfare that no other belligerent was guilty of. Unless something is done about it, we may be paying for this neglect for years to come.

The President's commission proposes to do something about it. It would double college registration by 1960. That means that present crowded facilities would have to be doubled at least and—perhaps more difficult—teachers would have to be trained for this increased college population.

In addition, the commission suggests the federal government provide scholarships and fellowships for 20 per cent of non-veteran college students next year, and increase the percentage as veterans' enrollment diminishes. The cost would be \$120,000,000 in 1948, and would mount to a billion dollars by 1960.

Like so many good and necessary proposals, this would cost a tremendous sum of money. It would also inject the federal government farther into the state and local province of the school system, even though indirectly. All this guarantees the plan a loud, long and vigorous opposition.

Nevertheless, when the opposition has stated its case, the facts remain for all to see. It has been clear for some time that the country would one day have to face the consequences of indifference and lack of equal opportunity in its educational system. After a long study, the President's commission presented the facts as they saw them.

No nation can be healthy and safe, let alone a progressive leader among other nations, without putting its best minds to good training and good use, year after year and generation after generation. Since the war, we have offered higher education to veterans as a reward for their service. Now we must somehow start to give those same opportunities to all who can take good advantage of them, for the sake of their country as well as themselves.

## Where's Labor Going?

Big political riddle of 1948 is how much weight labor unions will be able to throw around in the election.

Beyond question, labor took an awful pasting in 1946. Instead of being a potent political force, labor leaders were shown up as a bunch of political amateurs. There are a half-dozen political movements within organized labor today. Whether they are just noise, or whether they have some political substance, is what the wiseacres are trying to do.

Oldest of the lot is Labor's Non-Partisan League, whose front man is John T. Jones. In reality the head man is John I. Lewis of United Mine Workers. Lewis started the league when he was head man of CIO. It had some influence in 1936. But when Lewis pulled away from Roosevelt and the CIO pulled away from Lewis, the league began to flounder. When Lewis switched to Wilkie in 1940, he failed to deliver the votes of his miners. Today the league is pretty much of a political dead duck.

Next in line is the CIO's Political Action Committee, now headed by Jack Kroll. There is ample evidence that CIO-PAC learned a lesson from the beating it got in 1946. Since that time, lying it's wound, CIO-PAC has been working quietly but hard, out in the country, to build a real political organization from the bottom up. It has the making of a much more potent political force in 1948.

A third political-labor movement is backed by the big, powerful, conservative, Independent International Association of Machinists. Its new Machinists Non-Partisan Political League will, during January, hold a membership campaign and a drive to collect a million dollars. The money is to be used in educating its members on the principles of good government.

Finally, there is the new AFL Labor-Educational and Political League, which is asking its eight million members for "voluntary" contributions of a dollar to finance operations. Half of the money will be spent nationally, half locally.

A Michigan bride had 24 frocks, 15 pairs of shoes, eight pieces of lingerie, 10 pairs of gloves and nine hats. Almost enough for one suitcase.

The trouble with a bigamist is that he loves not wisely but too well.

## Paganini Players Love Music—And Stamps

By SID KRONISH  
 NEW YORK—(AP)—Next to playing great music, the Paganini Quartet, now touring 100 cities in the United States and Canada, likes to collect stamps.

The quartet, violinists Henri Temianka and Gustave Rossels, violist Robert Courte and cellist Robert Maas, all Belgians, have been collecting stamps since childhood. Despite world tours, a war and a grinding schedule of teaching music, each member of the group has amassed his own valuable collection.

The Paganinis have received all kinds of offers for their adhesives. An Iowa youth offered to swap an old viola he discovered in his grandfather's attic for some of Temianka's stamps. Another collector offered an antiquated cello for a rare Icelandic stamp.

In 1945 Temianka, who served as

an interpreter with the OWI, met Robert Maas at a musicale in New York. They talked of organizing a quartet and immediately thought of Courte and Rossels, their former colleagues on the staff of the Brussels Royal Conservatory of Music.

When the four were assembled, however, there was a problem of a suitable name for the group. Emil Hermann, a New York art collector, had in his possession four Stradivarius instruments, one owned by the fabulous Niccolò Paganini. Musicians had attempted to purchase the instruments singly, but Hermann refused to separate them. When the four instruments could be sold to the Belgians as a group, Hermann consented and the new ensemble had the Stradivari and a name—the Paganini Quartet.

## From where I sit... by Joe Marsh

### Who Are We, Anyway?

Subject came up at Bill Webster's, the other day, as we were chatting over beer and pretzels. Just who are the folks who make up our town? Where'd they come from?

Well, Doc Hollister's Scotch-English ancestry; Will Dudley's folks were mining stock from Pennsylvania; Skip Powell's family were brewers back in Holland.

Guess our bloodstream's got a bit of every country of the globe—and every section of America. We've still got differences in taste and background—whether they apply to music, history, or beer. Only those

differences don't matter—because we're self-respecting people, in a free, united land.

And from where I sit, that's what makes our towns and cities—our America—so strong, progressive, tolerant. Our championship of individual liberties has brought us people from all faiths, all lands—to prove that respect for one another's rights is the greatest bond humanity can know!

## Disabled Vets Prove Handicap Is No Hindrance To Industrial Jobs

By MARC J. PARSONS

DETROIT—(NEA)—The gnarled, scarred hands of Frederic A. Jaques, 75, ran big scissors carefully through the blueprint sheets that rolled from a printer.

Jaques was an RAF pilot. He has been through eight skin grafting operations since he was burned in a crash at Pensacola, Fla. He is the latest disabled veteran to be employed in a little-publicized training program at Fisher Body's engineering division here.

"Disabled" isn't the correct word to describe these men, says Dr. Clarence D. Selby, company medical consultant.

"There are no industrially disabled persons if we can find the right job for them. Properly placed, they are not handicapped."

**Egan Over Year Ago**

A year and a half ago, Ted Selden of Fisher Body began thinking about discharged GIs who left the service with physical or mental handicaps and who had no pre-war work experience.

General Motors and other industrial firms already had found places for most old employees who were injured in service. But the men who had no old employers, either because they were too young when they entered service or because they had been unemployed for other reasons, would find it doubly hard to get started if they seemed physically handicapped, he reasoned.

Officials at the Veterans' Employment Center here agreed and began sending him candidates.

At the peak, 99 men whose disabilities ranged from war neurosis or amputations to less obvious handicaps like badly frozen feet, were employed in the engineering division reproduction department at Fisher.

At first Selden tried to find special jobs to fit individual handicaps. One man whose feet were badly frozen while he was a prisoner of war was given a desk job to help ease the strain on his legs. He discovered, to his surprise, that arm amputees had no trouble running duplicating machines. Since then the men have worked successfully at almost every job in the department, with little consideration for their disabilities.

Today, 20 still are on the pay-

roll. All have been promoted at least once since they started. Of the others, 26 were laid off during one period when the department's forces were reduced, but only on the basis of seniority and not because of their handicaps. The rest quit.

"At one time we had five men with a history of war neurosis behind them," Selden says. "Today three of these are still working for us. They started at the bottom in the department and all have been promoted to the top non-executive jobs we have here. They are excellent employees."

"Some of the other men hired under the program felt that the

prospect of advancement was slim. They quit. But everyone who stayed has a better job today."

Doctor Selby says he's found the safety record of disabled men and women better than the average.

"They're more careful because they know they have more to lose."

• A brand new telephone operator—that's me. Just started today.

Like it? Yes, indeed... especially 'one thing... everybody is so friendly. I felt at home right away. It's a nice clean place to work, too; pleasant surroundings, and the switchboard is really fascinating. I'm going to enjoy working for the telephone company.

And here's a tip, if you're looking for a job. More operators are needed right now. Experience isn't necessary because you learn as you go along.

## Cheese Cake Is Always Popular

Everybody welcomes home-made cheese cake.

By GAYNOR MADDOX  
NEA Staff Writer

For a sure-fire dessert success, count on cheese cake. It always wins. It is packed with nutrition. Therefore when you serve it, you can cut down a little on the other dishes.

### Cheese Cake

(Serves 9)

Filling: Three eggs, 3 packages cream cheese (9 ounces of cheese), 1 teaspoon vanilla extract, 2/3 cup

cup whipping cream. Separate eggs; reserve one white sugar, 1 1/2 tablespoons flour, 3 for crust. Thoroughly beat egg yolks. Beat cream cheese into yolks. Stir in vanilla extract, 2/3 cup sugar and flour. Whip cream and fold into cheese mixture. Beat two egg whites until stiff and fold into cheese mixture. Pour cheese mixture on graham cracker crust.

Crust: One and one-half cups graham cracker crumbs, 1/2 cup chopped pecan meats, 1/3 cup sugar, 1/3 cup melted shortening, 1 egg white (reserved from eggs for filling).

Mix together graham cracker crumbs, chopped pecan meats, 1/3 cup sugar and melted shortening until well blended. Reserve 1/4 cup of this crumb mixture for topping. Into remaining crumb mixture stir in one egg white, beaten until stiff. Press graham cracker crumb mixture into bottom of heat-resistant glass square cake dish. Pour filling on top of crust, sprinkle with 1/4 cup of crumb mixture and bake in slow oven (300 degrees F.) for one hour.

### Lemon Snow Pudding

(Serves 6)

One envelope plain gelatin, 1/4 cup cold water, 1 cup hot water, 1/4 cup lemon juice, 1 teaspoon grated lemon rind, 3/4 cup sugar, whites of 2 eggs, 1/4 teaspoon salt. Soften gelatin in cold water. Add sugar, salt and hot water and stir until dissolved. Add lemon juice and grated rind of the lemon. Stir the mixture occasionally and when quite thick, beat with wire spoon or whisk until frothy; add stiffly beaten whites of eggs and continue beating pudding until stiff enough to hold its shape. Chill in individual molds.

## 'Uncluttered Look' To Modify 'New Look'

LOS ANGELES—California's fashion stylists have unveiled the "uncluttered look" for mid-lady's Spring and Summer wear. That's a modified "new look" in women's clothing, displayed by 130 manufacturers of "California Apparel Creators" at a show sponsored by the organization.

"There is a new simplicity about the Spring and Summer styles," a spokesman explained, "A casual air that has a simplicity of sweep, an uncluttered look.

New Casual Grace  
"From the first Victorian trend and a slightly rococo look, the 'new look' has adjusted itself to the streamlined age and developed a new casual grace, a soft femininity without exaggeration."

"Without exaggeration" means skirt hemlines are 12 to 14 inches from the floor instead of longer, not quite as full as heretofore but retaining a "provocative swish."

"A girl can get on and off a street car with them," was one stylist's explanation.

Colors Are Subdued  
The "exaggeration" still applies to low necklines for evening clothes, however. They are "very deep," the more daring ones terminating at the midriff and some of them with a "fill of nude (flesh-tone) lace."

Necklines are high and close on sportswear, off-the-shoulder for party and play clothes.

Colors are more subdued "with a definite leaning to all tones of white, a rich creamy banana yellow, copper and redwood."

L&S Sunday School Class Has Social!

## McKenney on Bridge

By WILLIAM E. MCKENNEY  
America's Card Authority

In today's lesson hand I want to bring home to you that carelessness is a definite weakness in a player's game. The expert player never makes a careless play. He may make a play that results badly, but at least he has a theory behind it.

It is not very difficult for you to make the right play in today's hand because you see the East and West cards. But if you could not see them would you make the mistake of playing the ace of hearts from dummy on the opening lead?

South should realize from the bidding and from the number of

hearts in dummy, that there is a strong possibility that East is void of hearts. Therefore if he puts up the ace and it is trumped by East, he will still have a losing club in his own hand and may lose his contract.

He must make the ace of hearts in order to make his contract, so he should play a small heart from dummy on the opening lead. When the king holds and West continues with the queen, declarer should play another low heart from dummy and trump in his own hand with a small diamond.

Now he picks up the opponents' diamonds and discards his losing four of clubs on the ace of hearts.

Always be careful about your play to trick No. 1. Take your time and try to study out the whole hand before making that first play.

### Family Spite Action Spoils Anniversary

COPENHAGEN—A farmer and his wife in the Danish village of Ulslev sat waiting for flowers and gifts on their silver wedding anniversary, but only a few closest members of the family appeared, bringing no gifts.

On the following day they learned that the local paper had had an advertisement announcing that the couple wanted their anniversary "passed over in silence."

Police found the advertisement had been inserted by a near relative who was at odds with the farmer over a division of an inheritance.

Indian legend credits the discovery of tea to a devout Buddhist, Bodhidharma. He is said to have stayed awake for seven years to contemplate the Buddha.

### 'Go West, Young Men,' Reds Tell 'Swing Boys'

BERLIN—(AP)—American-style swing music and dancing is making some German Communist editors in the Russian occupation zone see red.

The young German hoppers around Jena, in Thuringia, are having an especially rough time

under criticism from provincial newspapers.

It got so rough for Jena's most popular band, the "Swing Boys," that this group has announced it is going west—to play for U. S. troops in the American zone.

### Chef Sings His Way Out of Kitchens

CHICAGO—(AP)—Patrick Curran, 31-year-old lyric tenor who doesn't read a note of music, is laying aside culinary tools for a singing career.

Thirteen weeks after he arrived from England, Pat landed a job as chef of the Sherman Hotel's College Inn. Appearing on a local amateur radio program, he won first prize for singing "A Little Bit of Heaven" in an Irish manner.

The singing contest opened the opportunity door when the general manager of the hotel invited Pat to make a guest performance in the Inn show.

Audiences who heard Pat sing applauded for encores and he was signed for a regular singing engagement.

Billed as "Singing Chef," Curran's previous experience in singing was when he gave impromptu concerts for troops aboard British ships during the war. He had served 11 years in the British Merchant Marine as a cook.

His dream of studying voice in Italy by arrangement of a priest of Wishaw, Scotland, where Pat was reared, was shattered by the war.

Fate took him to Antrim, Northern Ireland. When his mother died his father came to the United States in 1922. Now a naturalized American citizen, Curran's father spent two years getting the necessary papers for his son's family—wife and two children—to enter the country.

It is estimated that prehistoric men had an average life of about 18 years.

### BRITAIN IS BUTCHERING HORSES FOR FOOD

LONDON—(AP)—Breeder will see to it that the Suffolk Punch and Percheron are spared, but the dobbies in England's eastern counties are finding their way in increasing numbers to the dinner table.

Every week 200 farm horses in East Anglia are being slaughtered and sent to the big cities to provide off-the-ration meat, the National Farmers' Union estimates.

The farmers say if the killings go on at that rate, wagon and plow horses will be as scarce as the red deer. Work horses are sold as meat for human consumption for \$200 each.

## Mineral Production Increases In U.S. In '47

WASHINGTON, (AP)—Tolling at a record-breaking pace, the U. S. produced 13 per cent more minerals and mineral products in 1947 than in 1946—and the value was 40 per cent greater, the Bureau of Mines said.

The total quantity of minerals produced, according to the bureau's estimate, was 5 per cent above the wartime peak of 1944.

At the same time, Secretary of the Interior Krug cautioned that the nation's rate of mineral discovery is not keeping pace with the rapidly-rising output.

**Petroleum At Maximum**  
Current production of petroleum, he said, is virtually at the maximum rate at which developed reserves can be worked efficiently. Production of copper, lead and zinc—materials in which the nation was self-sufficient before the war—was substantially below domestic requirements in 1947 and large imports were required, Krug added.

The U. S. Army supplied the first government weather information service in the United States under an act passed by Congress in 1870.

### High Price To Hold On Women's Quality Shoes

NEW YORK, (AP)—Retail prices of women's high, quality Spring and Summer shoes are expected to stay at about current levels, it was disclosed at the warm weather showings of the Guild of Better Shoe Manufacturers.

Many factories are said to be retaining prices on existing patterns, but some are raising them slightly on new models. The average advance at wholesale is not expected by producers to exceed 25 cents a pair.

Irving E. Grossman, president of the Guild and executive director of I. Miller & Sons, Inc., shoe manufacturers, said that better grade footwear business picked up sharply in December and "women are accepting the new shoes at the present price—the highest since World War I."

Grossman added that current prices of women's quality shoes average about \$250 a pair higher than a year ago. He said, however, that despite the price, more of that grade shoes will be wanted than can be produced during the current year.

teaspoons baking powder, 1/2 teaspoon baking soda, 1 teaspoon cinnamon, 1 teaspoon nutmeg, 1/2 teaspoon cloves, 1/2 cup cold coffee, 1 1/2 cups chopped, cooked, dried prunes, 1/3 cup chopped walnut meats.

Cream shortening; gradually beat in granulated sugar. Add eggs and beat thoroughly. Sift together flour, 1/2 teaspoon salt, baking powder, baking soda, and spices; add to shortening mixture alternately with 1/2 cup cold coffee. Stir prunes and nuts into batter. Pour into well-greased heat-resistant glass square cake dish, eight-inch size. Bake in moderate oven (350 degrees F.) for 45 minutes.

## Excavations Unveil Strange Doom Of Indian Tower Builders

By FARELEY G. JENSEN  
ALBUQUERQUE, N.M., (AP)—New evidence has been found that the vanished Indian tower builders of northern New Mexico were wiped out in one of the most complete mass exterminations known to anthropologists.

The discovery is reported by Dr. Frank C. Hibben of the University of New Mexico.

Since 1934, a year after a prospector first stumbled across the strange structures, Hibben has sought to unravel the mystery of a whole tribe's disappearance. Examination of the 17th of the towers, he says, reveals unparalleled violence. Each of the first 16 towers had been burned out. The 17th—first circular structure excavated—had been burned out twice.

**100 Yet Uncovered**  
Altogether, 100 towers yet to be uncovered in the Gollina area, beginning about 75 airline miles north of Albuquerque, Doctor Hibben hopes to solve the mystery of the tower buildings.

Anthropologists want to know the origin of the tower builders and of their enemies, and especially what touched off the violent, sustained warfare that resulted in the extermination.

"The motive couldn't have been robbery," Dr. Hibben says. "For the usual loot taken from pillaging Indians—pottery, food and skins—was untouched and was burned with the owners."

About 800 years ago, according to reconstruction of the era, the range tower Indians migrated to the wild, mountainous country of northern New Mexico.

They prospered, spreading their towers over a 75-mile belt extending from near Cuba, N. M., almost to the Colorado-New Mexico border. Hibben says they probably numbered several thousand.

**Foreign Architecture**  
From their implements and a squash which they raised, the tower builders resemble Plains Indians, but they cultivated on terraces in the manner of early Indians of Mexico.

For defense they constructed stone towers about 30 feet high and 18 to 20 feet across, a type of architecture which is foreign to the region.

"As far as we know, the tower design was original with them," Doctor Hibben says.

For security, the towers were built on the most inaccessible mountain tops and cliffs.

"They knocked themselves out building the towers in isolated, hard to approach places," Hibben says. "But the very isolation for which they strove enabled their attackers to pick them off one at a time."

**700 Years Ago**  
The attack came about 700 years ago. The sudden, fierce battles ended only when every man, woman and child was dead in the burned ruins of their homes.

In nearly all of the towers uncovered, skeletons of the defenders were found—some still clutching bows or other weapons.

While it appears that most of the tower builders were killed before the towers were burned, some died in the flames.

So far, Dr. Hibben says, no bodies of the invaders have been found, but arrows in many of the bodies are the type used by early Pueblo Indians who inhabited the less rugged areas in that district.

**Invaders Unknown**  
"But," he adds, "Pueblo Indians never were known to be a warlike people.

"If the Pueblos were responsible, the provocation must have been tremendous to cause such merciless and sustained warfare."

Doctor Hibben says that he has considered the possibilities that early Navajos or Apaches were the marauders. But anthropologists generally believe these Indians did not enter this area until about 200 years after the massacre.

"Whoever they were," he says, "they left after the extermination, for no other civilization has inhabited the towers."

### Beef Brisket Offers Saving

By GAYNOR MADDOX  
NEA Staff Writer

Here is a recipe too important in these times of food saving and high costs not to repeat. It will do well for Sunday's main dish and leave enough for hash on Monday.

**Beef Brisket**  
(6 servings with left-overs)

Three quarts boiling water, 6 whole cloves, 1 bay leaf, 2 cloves or less of garlic, 2 small onions, sliced, 3 stalks celery, 2 tablespoons vinegar, 2 tablespoons sugar, 2 teaspoons salt, 4-lb. lean brisket beef.

Combine the following ingredients in a large kettle: water, cloves, bay leaf, garlic, onion, celery, vinegar, sugar and salt. Cover and boil 30 minutes. Add beef. Cover and simmer 4 hours, or until meat is tender. Replenish water with boiling water if necessary. When meat is done remove. Slice and arrange on very hot platter. Four horseradish sauce over meat and serve more sauce in separate dish.

**Horseradish Sauce**  
(Serves 6)

One tablespoon butter or fortified margarine, 1 tablespoon flour, 1 1/4 teaspoons salt, 1/2 cup drained horseradish, dash of pepper, 1 cup milk, 1 tablespoon minced pimiento (optional).

Melt fat in saucepan. Blend in flour, salt, horseradish and pepper. Add milk gradually, while stirring, and cook until thick, stirring constantly. Add pimiento. Serve with boiled beef, tongue, corned beef.

**Fruit Salad Plate**  
(Individual service)

One ripe Anjou or Russet pear, 3 orange slices, 3 cooked dried prunes, cream cheese, lettuce cup, cherries or garnish, French dressing.

Arrange lettuce cup on salad plate. Wash, halve and core the pear and dip cut side in lemon juice to keep from turning dark. Arrange through the center of the plate. Arrange orange slices on the back of the plate, and place the prunes, stuffed with cream cheese, between the pear halves. Garnish pear halves with maraschino cherries. Serve with lemon French dressing.

### Cummerbunds Conceal Amateur's Skill In Lengthening Skirt With Top Yoke

Soft suede cummerbund around waist conceals set-on yoke.

By ALICIA HART

Don't think that you have to throw away a good skirt just because it has no hem-tinting possibilities.

Lower its length by adding a yoke to the top. New fabric used for such a yoke does not have to be painstakingly matched to the old skirt.

**'Iron Curtain' Film To Be Spy Yarn**

HOLLYWOOD, CALIF. — (AP) — The film story of Russian espionage in Canada, "The Iron Curtain," will be treated merely as a spy yarn, and won't deal with American-Soviet relations.

This information comes from the set of the picture, which is being rushed to hit the nation's screens as early as April. International disagreements will be avoided in the film, although there will be mention of the Communist propaganda line.

Dana Andrews tells of meeting Igor Gouzenko, whom the actor portrays in the film. When Dana was on location in Ottawa, he was escorted by the Royal Canadian police to a hideaway address. There he had a two-hour conversation in a small room with the former Embassy clerk whose information led to the Canadian spy trials.

YOUR newspaper, serving freedom by serving YOU.

In order to make a yoke, sewing skill can even be on the amateurish side. You can conceal an ineptly made yoke with a wide cover-up belt.

What clever girls are using today is the trick of camouflaging set-on yokes with high-fashion belts as wide as busks. Ideal to use for this purpose is a belt of the soft suede cummerbund type which wraps, drapes and ties at the front, back or side.

This obliging accessory not only hides a patch-work yoke, but gives a girl the "new look" of being midriff-wrapped in the latest style.

**Soda Pop Machine 'Bites' Boy's Hand**

PHILADELPHIA. — (AP) — Eight-year-old Donald Neil is nursing a couple of frost-bitten fingers today—all because of a bottle of soda pop.

The youngster stuck his hand through an opening in a dispensing machine at a church recreation center last night and then couldn't get his fingers out again. Companions tried to free Donald without success. Police and firemen finally pried the metal top off the machine.

The boy's hand had been in the machine so long by that time, however, that it's cooling device had nipped his fingers badly enough to require treatment at Germantown Hospital.

### FATIGUE MAY MEAN ACUTE BOREDOM

By ALICIA HART  
NEA Staff Writer

The fatigue that comes from polishing off a dull task may be nothing more than acute boredom with the job at hand.

If you regard a particular chore—whether it's washing the kitchen floor or filing a stack of letters—as the dreariest possible assignment, psychologists say that your mind may trick you into believing that you're really physically tired.

These experts claim that you can side-step this pseudo-fatigue by playing a few psychological tricks on yourself in order to keep your mind interested and alert.

One of these stratagems is to break the chore down into sections. Part of the trick is to put a time limit on yourself to complete each section in so many minutes—or hours if the job will take THAT long.

Another help-in-need is to turn a deaf "ear" to any subconscious message that you're getting bored. Still another way to outwit boredom and fatigue is to build up the importance of the job to yourself. Whether you like doing it or not, the task must be of some value to you. It's up to you to convince yourself of its merits.

### Man Gets Paid For Barking At Dog House

NEW ORLEANS. — (AP) — Police patrol cars received this call from their radio dispatcher: "Investigate immediately a man barking at the dog house."

Officers found the report to be founded on fact. A man was barking and loudly-out front of the French quarter nightclub known as The Dog House.

The man told police his job was to stand on the sidewalk in front of the club and make canine noises to attract the attention of potential patrons.

"I'm a barker," he explained.
