Russo-Nazi Deals Uncork Major U.S. Propaganda Drive

WASHINGTON—(AP)—The United States uncorked a major propaganda blow against Russia Thursday by revealing officially a Soviet offer in 1940 to join the German-Italian-Japanese Axis at a price Adolf Hitler refused to pay.

Already the government's "Voice of America" short-wave radio is pouring into Russia and the rest of Europe the factual story told in a fat volume of long-secret German Foreign Office records, suddenly published by the State Department.

The book's 362 pages disclose the minutest details of the two-year Moscow-Berlin honeymoon, which began when the men who now rule Russia negotiated a non-aggression pact with Hitler and which ended with Hitler's treacherous attack on Russia June 22, 1941.

It gives the deals which led to the 1939 friendship treaty as well as the texts of the then top secret additions under which Germany and Russia carved Poland and Northeastern Europe into spheres of influence or outright control.

And it tells how Premier Stalin demanded, without even getting an answer, a free hand in Finland, a

British Stand Pat On Undivided Palestine Control

LAKE SUCCESS—(AP)—Britain's refusal to give the Jews a beachhead in Palestine by February 1 for "substantial immigration" disrupted Thursday the time-table laid down by the United Nations Assembly for the partition of the Holy Land.

Confronted with the British intention to retain "undivided control" over the whole of Palestine until they surrender their mandate, the five-member Palestine Partition Commission turned to drafting a report to the Security Council, recording the first failure in the assembly partition scheme.

New Complication

"A new complication appeared, meanwhile, in the Indian-Pakistan dispute. Pakistan submitted a letter to the Security Council saying her conflict with India had reached a "very acute crisis" and that Pakistan might have to take "military action" if the Security Council does not act quickly.

Truman Laughs Off Comment On Wallace 'Return'

WASHINGTON—(AP)—President Truman said Thursday he is sure there will be an announced candidate for the Democratic presidential nomination in advance of the party's convention.

The President, in a gay mood, refused at his weekly news conference to let correspondents pin him down on the man he had in mind.

In any event, he said there would be one before the Democratic National Convention, which opens in Philadelphia July 12.

Someone suggested that he had used the word "one." Truman replied that everybody in the United States has a right to be a candidate in either party.

"Or a third party?" asked a reporter.

Or a third party ticket, the President said.

"No Comment"

He laughed loudly but said he had no comment when he was asked whether Henry A. Wallace might follow the example of A. F. Whitney, head of the Brotherhood of Railroad Trainmen, and line up with the Democrats.

Whitney endorsed the President Tuesday after his first White House call since he threatened to work for Truman's defeat after the railroad strike in 1946.

The political discussion was good humored. It began when a reporter reminded the President that Gov. Thomas E. Dewey of New York had become a formal candidate for the Republican nomination, as had Harold Stassen, Senator Taft (R-Ohio) and Gov. Earl Warren of California.

Anybody Can Run

"So far there is no Democratic candidate," pursued the reporter. "Do you know when there will be an announcement?"

The President said no, he did not have the slightest idea.

Then he said eventually there will be one and added it would be before the Democratic National Convention.

Declining to say it would be the present occupant, he said everybody in the United States has a right to be a candidate.

Missing Girl Found

(NEA Telephone)
Jacqueline Horner, 15-year-old Hollywood piano prodigy, who was missing for a week, was found in San Francisco. She met the press in the San Francisco Juvenile Detention. Home after police found her in a hotel room with Wallace Wells, 19, a sailor stationed at Hunter's Point Naval Yard. Miss Horner said she came to San Francisco by bus after an argument with her mother.

Snowstorm Causes Plane Crash

An Eastern Airlines Constellation burns shortly after it crashed into a snow bank after landing at Logan Airport in Boston during a blinding snowstorm. All the passengers and crew members escaped critical injury.

Rail Wreck, Fire Ties Up Traffic, Communications

BIG SPRING—(AP)—Derailment of a caboose and a tank car of gasoline five miles west of Sweetwater tied up freight traffic on the Texas and Pacific Railroad temporarily Thursday.

George French, assistant division superintendent for the T&P, said he understood the gasoline was burning.

T&P officials at Dallas said it was expected traffic would be restored to normal shortly after noon.

Rotarians Honor Luther Tidwell

Rotarians honored Luther Tidwell, retiring chief of the Midland Volunteer Fire Department at their regular meeting Thursday noon in the Echarbauer Hotel and were presented with a certificate of appreciation by the district governor, J. P. McCulloch of Stamford, the "United Nations must succeed."

"We must learn to live together if we are going to live at all," McCulloch declared.

It was Luther Tidwell Day in Midland. Tom Sealy, program chairman, turned the section of the program over to Bill Collins who praised Tidwell as a faithful, loyal citizen, who since 1909 has been a member of the volunteer department and its chief the last 28 years.

Maver R. H. (Rusty) Gifford praised Tidwell and his outstanding service to the community. Gifford mentioned Midland's low fire insurance rate and said Tidwell always will be "Chief" to him.

Gift Presented

John P. Butler, president of the Midland Chamber of Commerce, presented Tidwell with a certificate of appreciation and a pair of boots provided by the C. of C.

"Tidwell served to help others and no finer thing can be said about a man," Butler asserted.

The Rev. Howard Hollowell, president of the Rotary Club presented Tidwell with the Rotary Service Award and said the retiring chief was loyal and devoted to his community.

Tidwell who spoke briefly said he had enjoyed his years with the department and had a lot of fun. He asked all citizens to support the new chief, James T. Walker.

Prompt Purchase Of CC Banquet Tickets Urged By Officials

Chamber of Commerce officials Thursday urged members and other interested persons to make reservations promptly for the organization's annual membership meeting and banquet at 7:15 p.m. Tuesday in the Crystal Ballroom of Hotel Scharbauer.

Jack Wicker, ticket chairman, said the response has been excellent, but that many tickets yet are available. Only 250 reservations will be accepted on a first-come-first-served basis. The tickets are on sale in the Chamber of Commerce.

Interesting Program

The principal address, "Development of Resources in the Southwest," will be made by Ben H. Woolen, vice-president of the Republic National Bank of Dallas, who is recognized as one of the outstanding speakers of the Southwest. He will be introduced by Ralph M. Barron. John P. Butler will preside and M. C. Ulmer will be the toastmaster. A special program of music will be presented.

Officers and directors for 1948 will be elected, and a printed report of 1947 activities will be distributed. Both men and women are invited to attend the informal banquet-meeting.

Pictures Show Stalin At Memorial Service

MOSCOW—(AP)—Moscow's newspapers Thursday morning published pictures showing Prime Minister Stalin attending Wednesday night's memorial service for the 24th anniversary of the death of Nikolai Lenin, founder of the Soviet Union.

Stalin was shown wearing his customary uniform and occupying a prominent seat in the front row of the Bolshoi Theater. There appeared to be no change in his appearance.

Approves Most Of Truman's Program

WASHINGTON—(AP)—AFL President William Green proposed Thursday that management and labor voluntarily set up a 45-hour work week on an overtime pay basis as a means of producing more goods and helping to beat inflation.

The 74-year-old labor leader told the Senate Banking Committee labor would consider the extra work hours if Congress, in turn, would approve an effective means for halting the price spiral.

This would include most of the 10-point anti-inflation program recommended to Congress by President Truman, except standby authority to control wages, Green said in a prepared statement.

Green suggested an extra hour of work a day. He told a reporter this would mean an increase from the present 40-hour work week in most industries to 45 hours, with labor receiving time and one-half pay for the extra five hours.

"I offer this suggestion as a practical recommendation of the ways in which employers and workers could jointly make a contribution to the anti-inflation fight," Green said in his statement.

He estimated that 16,000,000 workers now employed in manufacturing would provide an additional 8,000,000 manhours of production per day under his proposal.

Overtime Session Called

Thursday night the committee will hold an overtime session in an effort to speed a decision on legislation designed to check inflation. Representatives of the grain industry are listed as witnesses.

President Truman has asked for hold-in-reserve power to reimpose wage-price controls and rationing on a selective basis if he considers such a step necessary.

The swelling chorus of Republican opposition to Truman's proposals was heard Wednesday by former President Herbert Hoover.

In a statement outlining his views on European aid and the related problem of the domestic economy, Hoover termed it an "illusion" that scarcity and inflation "can be more than temporarily relieved by compulsory fixing of wages, price and rationing."

Mine Workers Object

"Any such course," the former chief executive declared, "sets up chain reactions which ultimately decrease production and defeat their very purpose."

He called for voluntary measures plus "more and harder work."

Earlier this week, Thomas McNulty, vice president of John A. Lewis United Mine Workers, testified that the UMW is "emphatically" opposed to re-establishing wage-price controls. Lewis' organization recently cancelled its AFL affiliation.

Bevin Says Soviet May Cause War

LONDON—(AP)—Foreign Secretary Bevin said Thursday Soviet Russia is making a ruthless drive to dominate Europe and that he believed continuance of this policy by any one power will lead to another war.

"If the policy is pursued of trying to dominate Europe by any one power, by whatever means, direct or indirect," Bevin said "we are driven to the conclusion that it will inevitably lead again to another World War."

"We are driven to that conclusion," Bevin told the House of Commons.

The Marshall program has brought to light vividly what must have been under the surface all the time.

May Propose Alliance

Bevin opened a two-day debate on foreign affairs, and reports Britain may soon propose a political, economic and military alliance with France, Belgium, the Netherlands and Luxembourg. A government source said: "There obviously is something in the Anglo-French-Benelux alliance."

Bevin said the issue with Russia was "not simply the organization of Poland or any country," but "the control of Eastern Europe by Soviet Russia, whose frontiers have, in fact, been advanced to Stettin, Trieste and the Elbe."

He described affairs in Greece as "a dangerous situation—it is a case of power politics." Bevin accused Russia of a "ruthless attempt, constantly maintained, to bring that country into the Soviet orbit."

Greece Serious Danger

"We have been trying to leave Greece an independent country and get out of it, but we want, also, her Northern neighbors and all others to leave her alone and get out of it," Bevin declared.

Bevin said refusal of Soviet satellites to recognize United Nations authority involved "a very serious danger that they and their Soviet mentors may make a great blunder."

"I would advise, in all solemnity, great care. Provocations like this lead sometimes to serious developments which we, and I hope they, are anxious to avoid."

East Texas Refinery Increases Crude Price

DALLAS—(AP)—The Overton Refining Company has announced a price increase of 10 cents a barrel for crude oil from the East Texas field.

The increase, announced Wednesday and effective February 1, will bring the company's price to \$2.75 a barrel, 10 cents above posted prices of major buyers. President J. D. Wraith, Jr., said the increase was a "bonus."

CHESTER, PA.—(AP)—Fire swept through the block-long garage and offices of the Southern Pennsylvania Bus Company Thursday, wrecking 33 buses and causing a loss of \$750,000.

MADISONVILLE, TEXAS — (AP) — E. A. Berry, Sr., former member of the Commission to the State Court of Criminal Appeals, state Democratic committeeman and assistant attorney general, died at his home here Thursday.

ATHENS—(AP)—Newspapers reported Thursday a "general offensive" was underway in Northern Greece against guerrilla forces. Elements of six Greek divisions were said to be attacking.

SHANGHAI — (AP) — One of China's best battlefield tacticians, "Hundred-Victory" Wei Li-Huang, was enroute Thursday to embattled Mukden to take command of the fight to keep Chinese Communists from swallowing all of Manchuria.

Officers Believe Car-Prowling Wave Broken In Midland

City police, in conjunction with the sheriff's department, believed Thursday a wave of car prowling in Midland has been broken with the arrest of five youths.

At arrest officers found many articles taken from automobiles recently in possession of the youths.

Some of the articles found were nine guns, including rifles and shotguns, two pistols, a lantern, a Navy coat, seven flashlights, a car radio, and a power saw.

An informal hearing was held Thursday in the courthouse, pending filing of charges. Date for a formal hearing to determine disposition of the case had not been set Thursday.

The ages of the youths, all of Midland, range from 15 to 17 years.

WEATHER

Becoming partly cloudy Thursday night. Coldly Thursday night in the Panhandle and South Plains and east of the Pecos Valley Friday. Maximum temperature Wednesday was 52 degrees; minimum 31 degrees. Minimum Thursday was 39 degrees.

CHAINS

These hands might have painted the world's greatest masterpiece. These hands might have played faultlessly the most difficult concerto. These hands might have mixed a compound that would destroy disease. These hands might have been raised in blessing over a trusting mankind.

Instead they are chained. Somewhere, somehow, they failed. Perhaps they reached over a counter and stealthily snatched a jewel. Perhaps they searched a safe and took what other hands had worked for. Perhaps they held the gun that wiped out a life. Somewhere they went wrong. Somewhere they failed.

Hands do not act by themselves. Personalities control them—personalities swayed by impulses and convictions, good and bad. The Church, your Church, is waiting to guide hands, minds, hearts and lives. Here good impulses, right convictions are born and nurtured. Here, in God's House, hands learn to move aright to find life's work, unchained and triumphant.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a warehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

Prayer To Probe Is Session Motto Of Congressmen

By HOWARD DOBSON WASHINGTON — More than 40 congressional investigating committees are on the prowl—looking into things as widely assorted as surplus war plants and potato prices.

"The record is almost sufficient to take-out the promise made by an outgoing Republican congressman after his party took control of the House and Senate."

"We will start each session with prayer and end it with a probe." An exact count of the committees is impossible, because every regular committee has the authority to split into subcommittees.

When its assigned job is finished, a subcommittee dissolves. So the total number in action can change from week to week.

Probably the daddy of them all is the committee now headed by Senator Brewster (R-Me) and called the Committee to Investigate the National Defense.

Its first boss was the then junior senator from Missouri, Harry S. Truman.

This committee most recently in the headlines with the gaudy story of how an air forces general lived the full life during the war and retired on a disability pension.

The House's best known investigating body, the Committee on Un-American Activities, is an old timer too, but it has a different status from all other such groups. It is permanently established by law.

The rest have to be continued from time to time by congressional action.

Garden City School Association Member

GARDEN CITY—The application for renewal of membership in the Southern Association of Secondary Schools and Colleges by the Garden City High School has been approved and a certificate for the 1947-48 school year received.

This membership has been held since 1938. General school property improvements, increased salaries for employees, and additional teacher training greatly facilitated the meeting of the high standard set by the Association. Forty-five per cent of the high school faculty members hold Masters degrees.

Pieces Of Twenty

(NEA Telephoto) Mike Malorana, 12, of Monterey, Calif., made the largest single strike when he found a can protruding from the ground where workmen are preparing site for a new school building. The can was filled with 37 twenty-dollar gold pieces. This property has so far yielded at least 300 coins, with a face value of \$5,000 and a collector's value of \$18,000.

Open House Fetes Stanton Couple On Anniversary

STANTON—An open house, in observance of their 50th wedding anniversary, feted Mr. and Mrs. J. H. Burnam in their Stanton home Sunday.

More than 100 friends and relatives were received and ushered into entertaining rooms decorated with arrangements of cut flowers and potted plants.

Mr. and Mrs. Burnam were married Jan. 13, 1898, in Callahan County where they lived until moving to Lorene, Texas, in 1918. They resided there until 1920, when they moved to Stanton. Mrs. Burnam is the former Bertha Stanley of Alabama.

The couple's children include: Joe Burnam, Big Spring; Clayton Burnam, Stanton; Mrs. Mose Law, Odessa; Mrs. Jim McCoy, and Johnnie Lou Burnam, Stanton. Mr. and Mrs. Burnam have eight grandchildren and three great grandchildren.

Guests were served from a lace-laid table centered with golden rose buds surrounding a three-tiered cake topped in gold letters, 1898-1948.

Those attending included: Mr. and Mrs. Weldon Sage, J. R. Burnam, Mr. and Mrs. Curtis W. Jackson, Mr. and Mrs. G. J. Robbins, Mr. and Mrs. R. C. Built In Controversy, 'White House' Remains Topic Of Disagreement

WASHINGTON (AP)—Both America and the White House—home of its Presidents—were born in quarrel and grew in controversy.

The story of the battles from which the United States emerged are taught to every schoolboy. Less well known is the slugging that has surrounded every change made in the White House—now brought again into the news by President Truman's proposal to tack a \$15,000 back porch on the old dwelling.

The arguments began before the building was erected. There were objections that the site was swampy and unsanitary. Those in favor said the opponents merely wanted to locate it elsewhere to improve the value of their own real estate.

Other quibbles were made that it was too lavish—yet several White House ladies later thought it old-fashioned and undesirable and wanted to shift to other quarters.

Left Door Open All that is left of Major Hoban's original building are the foundation and part of the walls. In 1814 when some visiting Englishmen thoughtlessly set it aflame—no fire insurance either in those days—it had already cost \$33,207. By 1840 the rebuilt edifice had set the taxpayers back another \$301,400.

Andy Jackson—there was a man who knew how to throw a party! He made it the voter's joint. The door was closed to no one, and at official soirees the common people rushed in uninvited and chased the servants around to grab refreshments.

Jackson got \$25,000 a year but spent \$10,000 of his own money for entertainment during his two terms. And when he left, Andy didn't have enough money to pay his traveling expenses home.

Things quieted down in the White House after Jackson and in time it became impolite to discard chewing tobacco on the floor. They don't even have cuspidors there now.

Each succeeding President remodeled the house, spending from \$12,500 to \$50,000 each year between 1871 and 1902.

Then in 1903 Teddy Roosevelt—incidentally the first President officially to designate the building as "The White House"—spent \$85,196 to build executive offices and a whopping \$475,445 to modernize and reconstruct the old mansion along its original lines. The changes kept going on—and probably always will. The darned place probably still doesn't have a juke-box.

Willson Lectures Slated At McMurry

ABILENE—The Third Annual Willson Lectures will bring to the McMurry College campus two outstanding lecturers January 27-30, according to Dr. Harold G. Cooke, McMurry president. All lectures are free of charge and open to the public.

Dr. Hazen G. Werner, editor, writer, and consultant, and Miss Dorothy McConnell, editor, author, and traveler, will deliver the series of lectures during the four-day annual event, which is sponsored by Mr. and Mrs. J. M. Willson of Floydada.

The topic of Doctor Werner's series of lectures will be "Psychology in the Service of Christian Personality." Miss McConnell's general topic will be "The Christian Message in a World of Change."

Benjamin Franklin is credited with the invention of bifocal glasses.

Contractor Due To Make Fortune Off Scrap Metal

PHOENIX —(AP)— A \$37,000,000 Chinese scrap metal deal, said to be the largest in the history of the American steel industry, was revealed here.

W. T. Davis, the man who engineered the deal, and his bankers said he stood to make more than \$5,000,000.

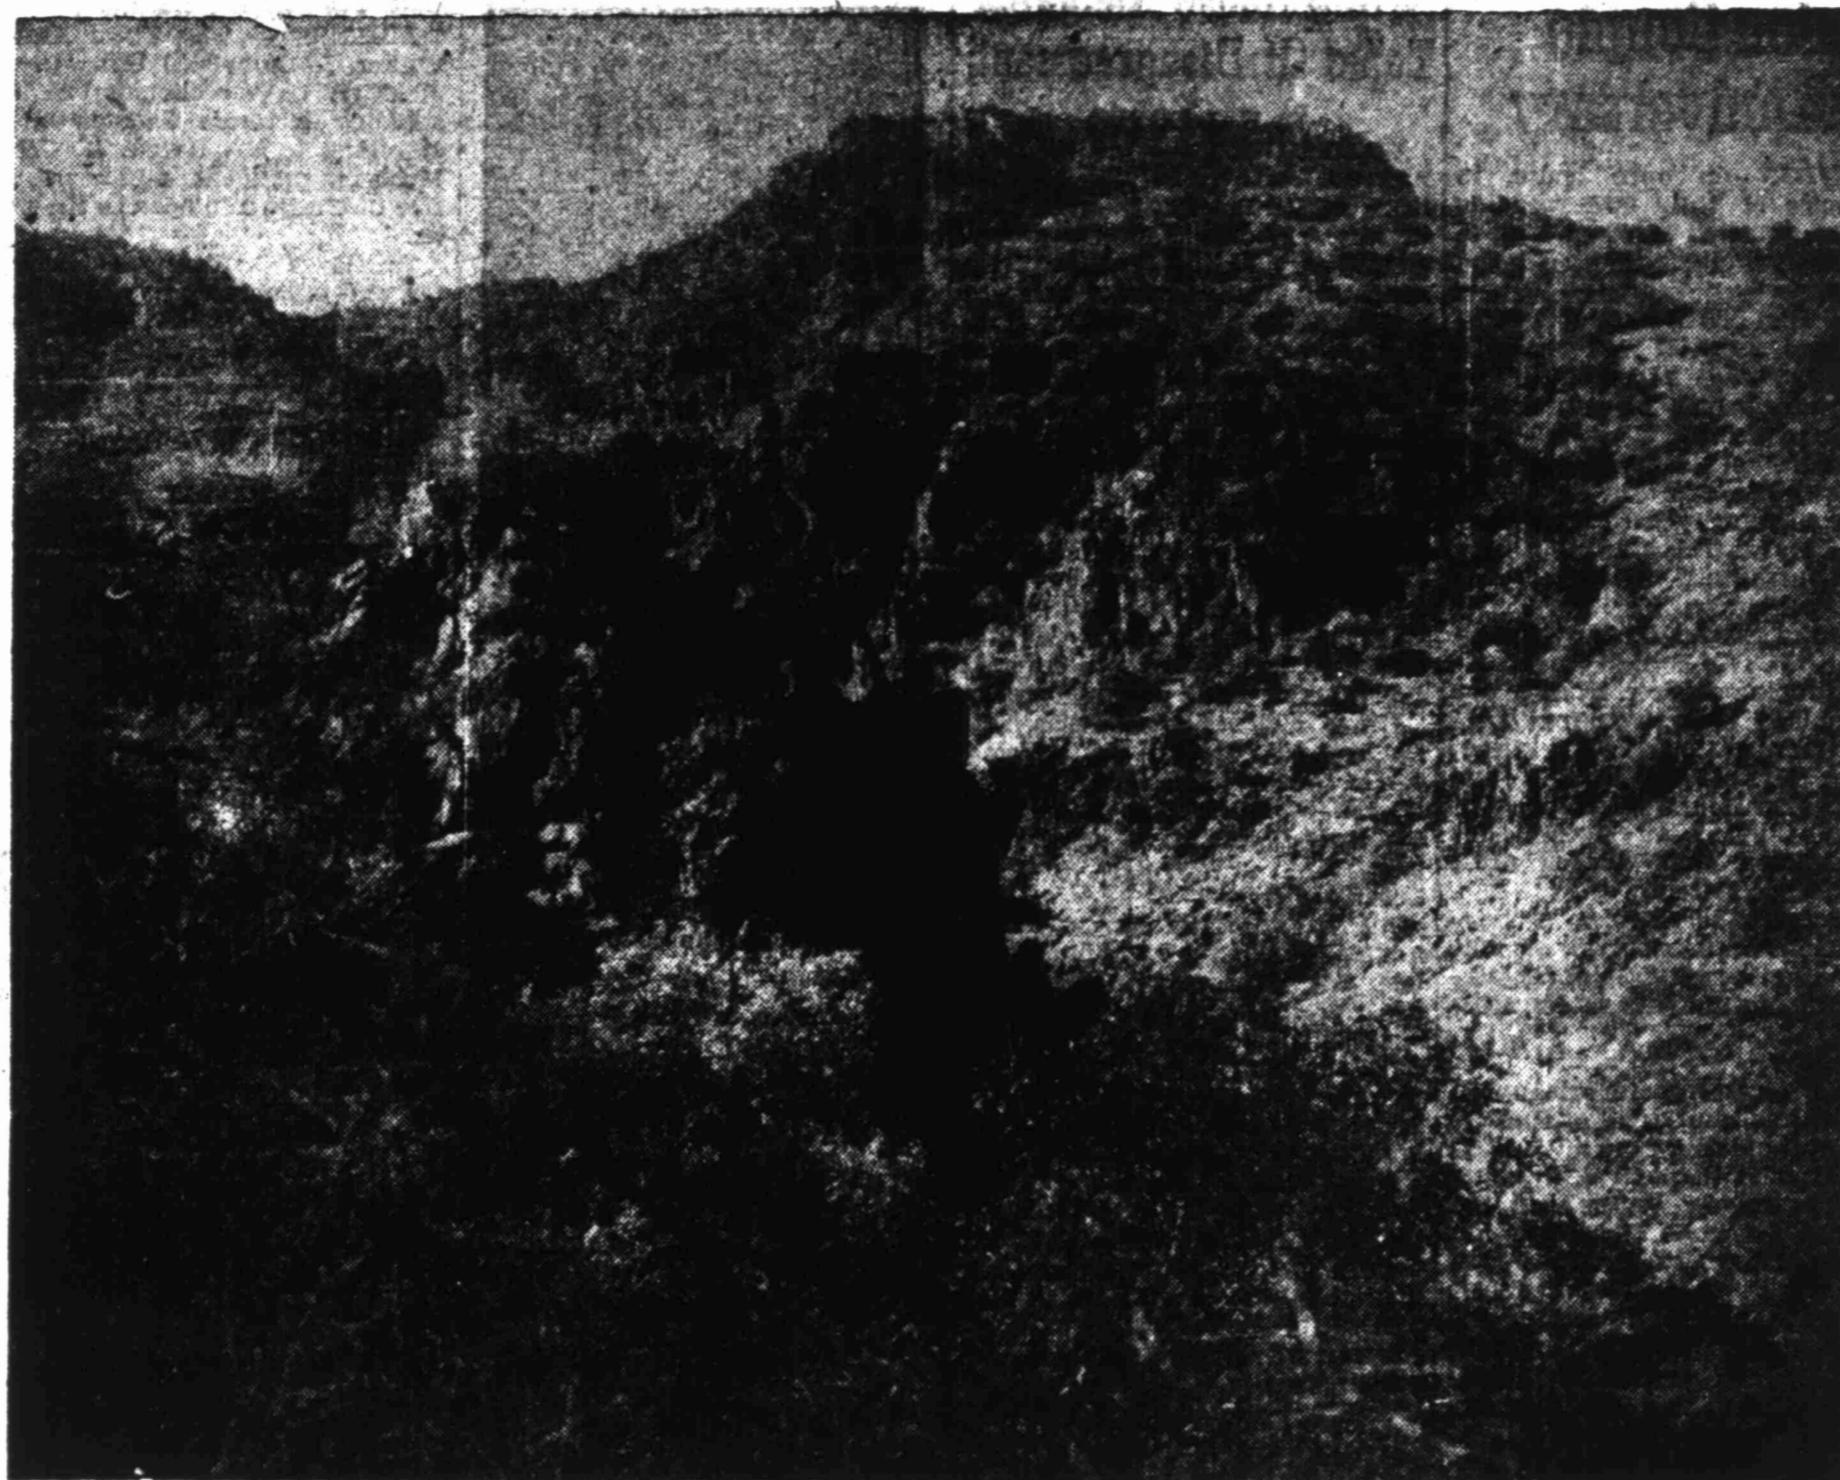

Four years ago Davis, then an Albuquerque, N. M., contractor, was sick, broke and "owed the rest of my life to the Valley National bank of Phoenix and my bedding company."

Now he is directing from his Phoenix hotel suite the delivery of 1,000,000 tons of scrap from far-flung Pacific islands and the Chinese mainland to Bethlehem Steel, Baltimore, Md.

Davis' representatives signed a \$26,000,000 contract for the scrap with the Central bank of China in Shanghai November 5. Seven days later he sold it for about \$37,000,000 to Bethlehem steel.

Germans Still Believe Naziism Was Good Idea

HAMBURG —(AP)— Over 60 per cent of the German people still believe that national socialism was a good idea, badly carried out, according to a British military government public opinion poll.

The poll was carried out in Hamburg, largest city of British zone, and the neighboring agricultural region of Schleswig Holstein. In Hamburg 60 per cent of those questioned said they thought national socialism was good for Germany and 36 per cent said it was bad. In Schleswig Holstein the percentages were 62 in favor and 33 against.

Another British poll disclosed the greatest fear of Germans is another war. Most of them said the possibility of war between Russia and the United States was the cause of their anxiety.

Fruit Salads Are Ideal Economy

Combine apples, orange sections and cottage cheese into a delicious and nutritious salad.

By GAYNOR MADDOX
NEA Staff Writer
Salads made of abundant winter fruits, such as apples and pears, keep up the nutrition in your family menus without upping your budget.

Apple Pinwheel Salad
(Serves 6)
Two cups cottage cheese, salt, pepper, 1/4 cup finely cut chives, apples, oranges, lime French dressing.
Combine (cheese, salt and pepper and chives. Pile cheese mixture in a mound in center of each plate. Core apples. Cut apples (do not peel) into wedges 1/2-inch thick and dip into lime French dressing. Peel oranges and cut out segments.

Arrange apple and orange pieces alternately around cheese pinwheel fashion. Serve with lime French dressing and garnish with watercress.

For a hearty main dish salad that packs a big load of nutrition, try this combination:

Vegetable Luncheon Salad
(Serves 6-8)
One cup green beans, cooked, 1 cup carrot strips, cooked, 1 cup celery strips, 1 teaspoon grated onion, 1/2 cup French dressing, 2 eggs, 1 head lettuce, 1 cup ham.
Marinate the beans, carrot strips, celery strips and onion in the French dressing for one to two hours. Hard cook and slice the eggs. Arrange them with marinated vegetables and the cup of cooked ham cut into strips on lettuce which has been torn into small pieces. Chill thoroughly.

Ireland Has Jewels Fawned By Reds In 1919

DUBLIN —(AP)— Eire is holding some Russian jewels pawned 29 years ago.
Prime Minister Eamon de Valera said Soviet government emissaries arranged a loan in 1919 with Irish Republican representatives in the United States, giving the gems as collateral.
"The loan was made but to my knowledge never repaid," De Valera told a meeting. "The jewelry is in government control awaiting possible redemption. No effort was ever made to realize on the articles or to get an export estimate of their value."
De Valera did not give the amount of the loan.

Sextette Of Gay 90's Is Making Music Again

COLUMBUS, OHIO —(AP)— The Ariel Ladies' Sextette that "wowed 'em" fifty years ago with nice, refined concert singing is making harmonious music again.
From 1892 until 1902, the six Ohio Smith sisters appeared in 1,700 concerts and sang for President William McKinley in his campaign before marriage broke up the group.
Now, aged seventy-four to eighty-four, they again are living together in their Columbus home, and can be persuaded to sing the songs of the Gay Ninety concert stages. Listeners say the voices are strong and the notes true.
Recalling the \$100 per concert they received, they say "it was a lot of money those days."
The six, five of them widows, are:
Mrs. Jeannette Walker, 84; Mrs. Emma Mason, 82; Mrs. Marguerite Alker, 79; Mrs. Gertrude Saint, 78; Mrs. Grace McKinney, 76, and Miss Olive Smith, 74.

Husband's Love Making Is Contempt Of Court

LOS ANGELES —(AP)— Because of the housing shortage, a superior judge recently ruled that Robert M. Breitstein could continue to live in the house with his wife, Sarcenia, even though she had a divorce suit on file.
But Mrs. Breitstein was back in court. She pointed out he had been under court order not to molest her, but complained he insisted on trying to make love anyway. She asked he be evicted. Judge Orlando Rhodes ordered Breitstein, businessman, to show cause why he should not be punished for contempt.

Meat Is Favored Over Ice Cream By Kiddies

WASHINGTON —(AP)— Believe it or not, ice cream ranks only No. 4 on the dietary hit parade of kids under five.
Given a free choice of diet, says Dr. Harry Bakwin of the pediatrics department, New York university college of medicine, young children rate foods in this order:
Meat, butter, fruits, ice cream and milk.
"Their attitude toward vegetables differs just as does adults," he says, and "raw vegetables are often preferred. Cereal is the food most often refused and it may be safely omitted from the diet."

Blind Anita Blair Crusades Against Careless Accidents

By WILLIAM J. CONWAY
CHICAGO —(AP)— A half-million people see Anita Blair in a year's time—but she doesn't see them.
This crusader against the carelessness that causes accidents is blind.
She travels, alone except for her dog, from city to city to preach the gospel of safety.
People quickly shift their attention from her large, sightless eyes. They see a chic, willowy brunette of 25. They notice her poised her voice. They hear—and they may be a bit startled at first—her free and easy laughter.
Miss Blair's message is serious. But her life isn't grim. It could

have been, though, after what happened eight years ago near her home in El Paso, Texas.
"We were driving fast," she hurries through the story. "Blinded by lights of an oncoming car. Head-on crash and . . ."
She lost her sight in the accident, but it opened her eyes to a new and different career. Somebody gave her a seeing eye dog named Fawn. She earned a Bachelor of Arts degree at the Texas College of Mines. She came to Chicago in November 1945 with \$280 and an idea.
"I've always been lousy with ideas," she quips with a laugh, "but, thank heaven, they all haven't been lousy."

Her idea was to have an educational movie emphasizing pedestrian safety in traffic. She encountered difficulties as soon as she got off the train. The town was as tightly packed as a stuffed olive. There was no place to stay. Her return ticket to Texas seemed the only way out until a Chicago Tribune reporter ferreted out a room for her at the La Salle Hotel.
Herb Graffie, Chicago Times columnist, and others helped her make arrangements for the motion picture, but the project almost had a flaming finale.
A night fire whooshed through the hotel. Miss Blair remembered her training in school fire drills.

She methodically harnessed Fawn in her room on the 11th floor. They proceeded to an outside fire escape and descended to the street. In the smoking building they left were 61 dead.
"Safety," she says, "is something that's personal."

And thou shalt be secure, because there is hope; yea, thou shalt dig about thee, and thou shalt take thy rest in safety.—Job 11:18.

Thanks, Luther Tidwell

"Well done" well might be the phrase used by every citizen of Midland in expressing thanks and appreciation to Luther Tidwell, veteran Midland fire chief, who resigned recently after 28 years as head of the volunteer fire department and 39 years as a member of the organization. Words fail to express the sincere appreciation due Chief Tidwell for his long years of faithful, loyal and efficient service, but citizens are more than grateful to him for the job he has done here, and all join in saying "THANKS, LUTHER."

There is no method of determining the dollar and cents saving to residents and property owners down through the years as a result of Chief Tidwell's diligence and loyalty to his job of fire prevention and fire fighting. The fact that Midland for years has enjoyed one of the lowest fire insurance rates in the Southwest is evidence of the fine efforts of Chief Tidwell and his fellow members of the Midland Fire Department who answer calls regardless of the hour and of the weather. Luther Tidwell has answered many a fire call during his years of service with the department.

And Luther Tidwell down through the years has been a volunteer fireman and never has been on the city's payroll. It doubtless has cost Tidwell money to serve Midland as its fire chief. Few men have worked as hard at a job.

It was only fitting and proper that the Midland Rotary Club of which he long has been a member should have honored the veteran fireman with a "Chief Luther Tidwell Day" at its meeting Thursday noon. It was an honor much deserved, and was given by fellow club members with all the sincerity and gratitude possible. City officials and civic leaders joined with the Rotarians in expressing appreciation. Others, too, have said thanks to the chief in various ways and still others yet will express appreciation.

The high esteem in which he is held by fellow townsmen and by members of his department is evidence enough of the fine job he has done.

It was with regret that Chief Tidwell's resignation was accepted by the City Council and by the citizenry at large, but it was with pleasure that officials and residents received his announcement that he would remain on as an honorary member of the department and would assist in every way possible. We will wager that Chief Tidwell will not miss many fire calls in the years to come.

Thanks, Chief Luther Tidwell, for a job well and nobly done.

'Happy Days' For Austrians

The Army-operated radio in Vienna is going to introduce the singing commercial to the Austrian. The jingle will remind them of America's generosity, and will be sung to the tune of "Happy Days Are Here Again." It will open and close a weekly half-hour program.

We realize, also, that the singing commercial is a part of "the voice of America." But we had hoped that, in the propaganda war with Russia, it would be a secret weapon—and remain one.

Some people achieve greatness, some are born great and some just grate on you.

If conditions today were as bad as too many people paint them, they'd be a lot worse than they are.

From where I sit... by Joe Marsh

From Sheepskin to Sheep

There aren't too many college graduates in our town. Good honest thinking, yes... but most folks went from high school into farming. No harm in that! But I admire veterans like Dick Newcomb... who's 23, but going to college under the G.I. Bill of Rights. Intends to be a sheep farmer—but a better-informed, more scientific farmer, with more know-how! And veterans like Dick aren't letting anything interfere. What little relaxation they allow themselves is in the form of needed exercise, or books, or conversation and an occasional glass of beer with friends. Seems as if, just by having their education postponed, they've put a higher value on it... and on things like temperance (that glass of beer, for instance), understanding, and good citizenship. And from where I sit, when Dick gets his sheepskin—he won't have lost much time. He'll be an even better farmer than his Dad. (Exactly what Dad wanted!)

Texans Are Listed Among High Income Lobbyists

By CLAYTON HICKERSON Associated Press Staff About 1,000 persons are registered as lobbyists for the last and probably the most important session of the 80th Congress, now considering the Marshall Plan, inflation and reelection. Lobbyists are the people who, by one means or another, will try to influence the legislation which Congress will enact or discard. Every walk of life in America and many aspects of foreign endeavor are represented in the lobby camps. Texas, naturally has its share among those who represent business and industrial interests. Largest lobby is the business and industrial delegation, but most vocal is labor and most persistent is the lobby for displaced Europeans, Texas members say. The powerful farm lobby, headed by Edward O'Neal of the National Farm Bureau Federation, composes about 40 per cent of the legislative representatives and is the best organized, congressmen say. At least two, maybe more, Texans are in the upper income brackets of lobbyists, Dale Miller of Dallas and Corpus Christi and former Congressman Fritz G. Lanham of Fort Worth. Walter Woodull, formerly Texas lieutenant governor, of Houston represents some two dozen railroads which operate in Texas and the Imperial Sugar Company of Sugar Land. Miller lists his income at more than \$35,000 per year as representative of the Dallas Chamber of Commerce, the Intracoastal Canal Association of Louisiana and Texas, the Texas Gulf Sulphur Company, and the State Rights Association. All income isn't profit. Lanham recently listed his quarterly income as \$1,000 from A. E. Brooks of Fort Worth, \$1,500 from the National Patent Company, \$1,000 from the American Fair Trade Council, Inc., \$750 from the Trinity Improvement Association, and \$2,500 as "party payment" from the State Rights Association. The money is not all profit for the lobbyist, Miller, for instance, named expenses totaling \$1,781.57 in his last quarterly report to the clerk of the house. Other Texas lobbyists and the groups they represent include: J. E. Sturrock, Austin, Texas Water Conservation Association; Albert Payne, Athens, National Association of Real Estate Boards; W. E. McMahon, Dallas, National Tax Equality Association; C. J. Crampton, San Antonio, State Rights Association.

British Columbians Are Enjoying Lumber Boom

VANCOUVER — (AP) — Wooded British Columbia has 7,000 miles of shoreline and to cruising yachtsmen it looks as if much of it was erupting with logs—the consequences of present high lumber prices. The unprecedented demand for timber has given new impetus to an old Canadian institution—the floating logging camp, which can move off easily to new properties when one is cut over. Lumbermen estimate there are from 40 to 50 such camps in British Columbia coastal waters, ranging from small affairs with half a dozen men to large outfits. The camps, consisting of from two to a dozen buildings on rafts or rude scows, are constantly on the move—bunkhouses, machine shops, cook shacks, light plants—jockeyed along by sturdy tugs. The more affluent have a radio telephone, employ an air pilot, and provide attractive homes on substantial scows that can be beached if desired. There are three big camps in the Queen Charlotte islands, largest of which has 175 men.

SIT UP STRAIGHT WHEN YOU STUDY

By ALICIA HART
NEA Staff Writer

Check up on your posture the next time you sit down to study your lessons. Poor posture is often traceable to bad habits formed at the study table. Practices to avoid are slumping over books, sprawling in a chair, hunching legs underneath the body. As bad a habit as twisting up like a pretzel in the chair while you read.

Such posturing cramps your vital organs and puts kinks in your spinal column. Because your young bones are soft and malleable, you can easily train your body to hold a good posture which pays off in better health and a prettier figure as you grow up.

If a check-up shows you're letting yourself slip into awkward positions, it's time to discipline your posture habits. First make sure that you're studying under correct light—this is neither so dim that you have to crouch over books to see the print nor so bright that it throws a glare on the pages.

Here's the correct position for study: Sit up firm-backed in your chair and pull your chair up to the table. Have a chair high enough so that you can rest your arms on the table for writing without straining them. Keep your shoulders straight, your hips well back in the chair. If you must bend forward, bend from the waist—not from the shoulders.

BARREL OF 'BEVERAGE' MAY BE DISAPPOINTING

BILLINGS, MONT. — (AP) — Bud Seaver figures that the husky thief, or thieves, who raided his parked truck got a barrel of disappointment, labeled as 50 gallons of a popular beverage. The missing cask contained water.

for Sunday night supper. Here are recipes selected from the new "Secrets of New England Cookings."

Rhode Island Chicken Salad
Mix equal parts of cold diced chicken and celery. Make a dressing of three egg yolks, one cup salad oil mixed until smooth, one teaspoon sugar, salt to taste, one cup vinegar, one-half teaspoon pepper and one cup whipped cream.

Tongue Salad (Serves 6)
Three cups diced cooked tongue, 6 hard-cooked eggs, 1 onion, minced, 3 dill pickles, diced, mayonnaise, salt, pepper.

Mix the tongue, eggs, onion and pickles. Add mayonnaise and salt and pepper to taste. For a more highly seasoned salad, add a little mustard and celery salt.

Halibut Salad (Serves 4)
Rub a thick slice of halibut with salt and lemon juice and cook it in a court bouillon made of one and a half cups water, one carrot, one onion, two cloves and six peppercorns. Remove the fish when tender, chill and flake. Mix with one-half cup sliced radishes for each two cups fish and marinate in French dressing. Serve on lettuce leaves with cucumber sauce.

Mock Crab (Serves 4)
One-half pound old cheese, 1 hard-cooked egg, 1 teaspoon cayenne, 1 tablespoon salad oil, 1 teaspoon salt, 1 teaspoon sugar, 1 tablespoon vinegar, 1 teaspoon minced onion.

Grate the cheese. Rub the egg yolk into a paste with the cayenne, oil, salt and sugar. Add the vinegar and onion and mix in the cheese. A cup of cold minced chicken may be added. Serve either on lettuce leaves as a salad or spread on crackers for cocktails.

Lamb Chops Are Going Up

This gamboling English lamb seems to be enjoying a spring in winter, but it isn't pulling the wool over anybody's eyes. Actually the picture symbolizes the high price of lamb and mutton. As usual, the sheepish-consumer gets fleeced. (Editor's Note: The caption-writer got a lambasting for perpetrating the foregoing.)

Tain't No Use Writin' Contracts Witnessed 'Out By Water Tank'

DALLAS—(AP)—A man's word is contract enough in the cow country of Texas and Mexico, where cattle deals are still made in neighborly fashion by the water tank. Even unforeseen circumstances—like an embargo against Mexican cattle—don't call for a man to get mad.

A Mexican rancher and two Texans, with their white-hatted booted cowboys trooped into federal court here to ask Judge William H. Atwell to decide ownership of a \$5,160 check. It had been posted in part payment for 800 Mexican steers which could not be delivered because of the embargo against Mexican cattle.

The United States banned shipment of cattle from Mexico after foot and mouth disease broke out in that country.

"We made the deal out by the water tank," explained C. A. Norton, foreman for one of the Texas ranchers.

Mexican Gets Money Atwell awarded the money to Leonardo Ortiz of Aldamas, Mexico, the Mexican rancher.

Norton told the court the Americans put up a check for \$5,160 early in December 1946 as part payment for 800 steers at 200 pesos a head.

Norton is foreman for W. J. Nowell, who runs a 102,400-acre ranch in Hudspeth County, New Mexico, and M. M. Alexander of Dallas, parties in the suit brought by the Mexican, own several large ranches.

Everybody agreed the deal was verbal and the check was about one-fourth of the sale price for the steers. The question was whether it was a down payment or a "forfeit" as contended by Ortiz.

There was no use in putting the transaction in writing, one of the cowhands said.

"Tain't no need," said one of our country "Shucks, out in our country there's no use of puttin' things in writin'. We all know who we are tradin' with in that country."

After the deal had been made the embargo was ordered. Ortiz could get the steers to the Mexican railroad, but the Americans couldn't get them into the United States.

Ortiz, testifying through an interpreter, said he deposited the check but the Americans stopped payment on it.

Everybody was real friendly during the trial. And when Atwell awarded the check to Ortiz but denied him a pastorage fee of 10 pesos a head, the court branded proceedings as one of the "cleanest cases" he had ever tried "where every witness told the truth as he knew it."

Switzerland Freezes Wages, Living Costs

BERN—(AP)—The Swiss government has adopted the principle that there shall be no living costs and salary increases before the end of October, 1948.

The action was intended to arrest an inflationary tendency.

Among a series of exceptions was one that permitted wage increases in cases where it was necessary to re-establish the pre-war real wages in relation to the cost of living.

McKenney on Bridge

By WILLIAM E. MCKENNEY America's Card Authority Written for NEA Service

Today's lesson hand stresses the importance of continually reviewing the bidding in your mind during the play of a hand. Some players would fail to make three, no trump on this hand. They would cash the ace, king and queen of diamonds, then play the ace, followed by the queen of clubs, hoping to find North with the club king.

But if declarer reviews the bidding he will know that the only cards South can have to justify an opening vulnerable bid are the ace-queen of spades, the king of hearts and king of clubs. That

gives him the needed two and one-half tricks.

When South wins the first spade trick with the ace and leads back the queen, West can win that trick and then cash the ace, king and queen of diamonds. Since North has followed to the second spade trick, declarer knows that South has no more than three spades left, so at this point he leads the nine of spades, and South can cash his three good spade tricks.

Bearing in mind that South is marked with the two missing kings, declarer should discard carefully on the last spade trick. He must throw away the queen of clubs, not the small club. Then, regardless of what South does, declarer has control of the situation: If South leads a small heart declarer lets it ride to dummy's jack, cashes the jack of diamonds and leads the jack of clubs. If South cover, West wins with the ace, goes back over to dummy and cashes the heart finesse. If South refuses to cover, the heart finesse is taken immediately. If South elects to return a club instead of a heart, West lets it ride to dummy's ten of clubs, discards the deuce of hearts on the jack of diamonds, then takes the heart finesse.

Most players have their two and one-half trick when they discard a vulnerable opening bid, so on this type of hand all you have to do is visualize what their two and one-half tricks are.

Because of fires Americans lost enough work time during 1946 to make 920,000 autos.

Americans In Germany Point Out All Not Engaged In Black Market

By Hal Boyle
NEW YORK—(AP)—"It must be the other guy he means." That was one quick reaction ahead to a recent account in this column by a "Berlin Charley" of how American men and women take part in Germany's black market.

A letter from a newspaper colleague in the German capital reports that "Berlin Charley's" cynical picture "raised indignant flushes as well as embarrassed blushes" over there.

The indignant flushes, he said, were on the faces of the Americans in Germany who aren't in the black market and haven't resorted to the tactics the Nazis once used themselves to plunder occupied countries.

Presumably the "embarrassed blushes" belonged to those who are playing the black market.

Investigation Underway
My colleague objected, however, that accounts like that given by "Berlin Charley" failed to mention the thousands of conscientious American military government employees in Germany who never made a dishonest dollar.

He said, "a high military government official, commenting on the latest black market investigation

which is now being conducted by Judge E. Earle Rives of Greensboro, N. C., as a special representative of Secretary of the Army Kenneth Royall, observed:

"Of course, there's a black market here, as everywhere else in Europe, and many Americans are in it. So are other nationalities. But it seems to me that I've also heard about a black market in the United States—in automobiles and other things—and that's in the richest country in the world.

Temptation Great
"We have 150,000 Americans in Germany—a country beset by privation and want, where millions of people, distrusting their currency, offer fantastic prices for food and cigars. Temptation is great—greater than any ever known in the U. S. But there are thousands of Americans in Germany who never yielded to temptation, and it can be proved that the crime rate here is lower than for a comparable number of people in America.

"There are thousands of people here, Hal, who work seven days a week at their job. There are tens of thousands who, out of their own pockets, are feeding German families—and we don't mean tossing a chocolate bar to a fraulein for favors."

Canned Sauces Enliven Leftovers

Cauliflower with a canned "chef's sauce" for thrifty good eating.

By GAYNOR MADDOX
NEA Staff Writer

There are little cans of chef's sauces on your grocer's shelves that can help you hurdle budget problems. They give leftovers a first-time taste and they team up with inexpensive vegetables deliciously.

Thrifty cuts of meat, economical baked fish, cheese, eggs and vegetables like eggplant, corn or squash become chef's triumphs when they're served in company with a canned mushroom sauce or a beef-rich meat and tomato sauce. For a cold-weather cooking cue, take your choice of Spanish rice with mushroom sauce and cheese or baked lima beans creole, or tempting stuffed cauliflower with mushrooms or baked onions.

Stuffed Cauliflower (Serves 4-6)
One cauliflower, 1/2 cup fine bread crumbs, 1 can mushroom sauce, 1/2 cup cheese.

Boil the cauliflower until it is almost tender. Drain well and place in a baking dish, cutting the top off the cauliflower to make it stand level. Remove the center stalk and fill hollow with crumbs moistened with part of the canned

sauce. Pour the remaining sauce over the cauliflower. Sprinkle with cheese. Bake in a moderate oven (350 degrees F.) for 20 minutes or until browned.

Stuffed Onions (Serves 6)
Six good-sized onions, 1 cup bread crumbs, 1/4 cup nut meats, 1 can chef's meat sauce.

Peel the onions and cook until they are partly tender (about 20 minutes). Drain and remove the center portions. Chop the centers and mix one-half cup of the centers with the bread crumbs, nuts and half of the can of meat sauce. Fill the onions with the stuffing; dot the top with shortening and place in a baking pan, pouring the remaining canned sauce over the onions. Bake in a moderate oven (350 degrees F.) until the onion is tender and the stuffing browned.

U. S. Releases German Electrical Patents

WASHINGTON—(AP)—The Justice Department's Office of Alien Property has made 63 German electrical patents available for unrestricted licensing by American business generally.

Attorney General Clark announced that the patents may be licensed on a royalty-free, non-exclusive basis upon payment of an administrative fee of \$15 per patent.

The Alien Property Office said these patents had heretofore been exclusively licensed in a limited field to certain American companies by their German owners—Siemens-Schuckertwerke A. G. and Siemens-Halske A. G.

The patents cover production and use of electrical apparatus for prime movers and their accessories, the control and application of electricity for light, heat, power and traction purposes, and various uses in steam turbines, reduction gears, condensing plants, heat exchangers, and electrical pumps.

An automobile's starter should always be used sparingly, as about 30 minutes of normal driving is required to replace electrical energy used from battery for each minute of starting operation.

Hawaii Is Attractive To Bargain Hunters

HONOLULU—(AP)—A postwar breed of bargain hunters who travel thousands of miles in pursuit of war surplus, carry as much as \$75,000 in their hip pockets and know how to spot a good thing among complex government listings, is cleaning up these days in Hawaii.

There's \$100 millions worth of war goods—residues of huge stockpiles built up for the push on Japan—going on the auction block between November and March. Among the ships and soap, planes and pajamas, railroads and razors are some choice short-supply items which can be resold immediately for tens of thousands of dollars in "quickie" profits.

Five hundred buyers descended on Honolulu early this month for the postwar pickings. November sales of \$50 millions worth of surplus, advertised extensively on the mainland, drew as many as 850 telephone calls daily into Washington headquarters of the war assets administration.

'Dopey' Deer Dumped After Haul Ruled Illegal

COOS BAY—(AP)—Farmer Furley Colver saw a deer on a country road near here, stopped his car—and swish, the deer was through an open door and in the back seat.

The deer waited patiently, so the surprised Colver closed the door, started the car and drove into town, just as with any hitch-hiker. There State Police considered whether this was a legal catch, and decided that despite the animal's co-operation, Colver would have to turn it free.

Colver drove back, and after some tugging got the deer—a full-grown buck—out of the car.

He commented that the deer acted "dopey," perhaps from a blow in shedding its horns, but offered no explanation for the unorthodox behavior.

Taxes: An Accounting Problem

Income is determined by accounting. So, accounting is at the root of income taxation.

Naturally, business has always turned to Certified Public Accountants for aid in preparing its income tax reports, and for assistance in settling disputed tax items with the government.

The government, too, welcomes the aid of CPAs in explaining to taxpayers the accounting requirements involved—as evidenced by the fact that the Treasury Department authorizes CPAs to represent clients in tax proceedings.

By assisting in the prompt payment of the right amount of taxes—corporate or individual—Certified Public Accountants help to reduce the cost of paying—and collecting—the Nation's taxes.
