Popular Landlord The insurance company is a popular landlord. It reverses the dictum of most New York landlords: "Dogs, yes—children, no.", Here han's best friend has to be smuggled in, but the leases allow the tenants all the children the Lord will send.

Life in a huge housing development has its aspects of grandeur. The insurance company didn't just send a gardener around with a hoe to pretty up the place. It dispatched a crew of bulldozers to level the land. Then came landscapers in battalions. They threw grass and crab apple trees around. The vines must be planted in some new kind of "grow-quick." They're climbing

And what do we care if the people below us and above us look out and see the same ships come in, the same barges float past carrying railroad cars and freight cars to terminals across the water? Nobody ought to want to own a wonderful view alone.

Reds Threaten Berlin With Continued Food Blockade Into Winter

BERLIN - (P) - The Russians Monday threatened Western Bermunist- i minated states virtually liners through their official press with extension of the food blockade into Winter unless the elected city government yields to Communist demands for economic control over

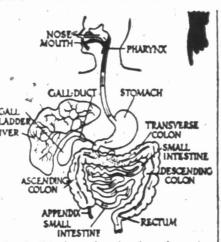

the entire city. The Reds also indicated that accounts held in banks in the Russian sector by Western Berlin businesses and industries, frozen during the recent currency exchange, might never be released except at the pleasure of the Communistruled economic commission. The Socialist press called the move "a money blockade."

American military government officials said one result of the money blockade was that Berlin workers, particularly those in the low wage levels, were running out of cash to buy food and other neces-

Cost Of Living Up Again

When the U.S. Department of Labor got around to approving the General Motors-UAW contract, it did so with the hope that the agreement "may greatly influence the trend of collective bargaining in the United States."

This statement appeared, rather ironically, on the same day that the United States Steel Corporation and the Weirton Steel Company announced hourly wage rises of 13 and 14 cents, respectively. Soon after, U. S. Steel announced a sizable price increase.

The steel agreements were not influenced by the General Motors contract, which tied wage increases and, to a limited extent, decreases to the cost of living. Instead, they added a strong and dangerous pressure to the inflationary spiral at a time when food costs were at a record high. Similar pressure had been applied a few days before by the new contract with the coal miners.

Thus an all too familiar chain reaction has been set in motion again. Our two most important basic materials of industry have given living costs a supercharged acceleration. Their price increases will be the signal for price rises and wage demands in almost every field that uses the materials, even indirectly.

The miners, the steel workers, and other employes of industry will get a few more dollars a week and find that other dead loss.

Temperature Studies Show There May Be No Absolute Death

By HOWARD W. BLAKESLEE Associated Press Science Editor NEW YORK -(A)- There probably is no such thing as absolute West End. Fenced in backyard and death, according to studies of heat published Monday in the scientific journal Physics.

> has been a scientific concept of what must happen when all heat vanishes. This occur at absolute zero, which is 499 below zero Fahrenheit and 273 below Centigrade. At that point all motion was supposed to cease completely. As all substances were chilled closer and closer to absolute zero, even their internal motion, the movement of molecules to and fro and the movement of atoms in the molecules be-

came slower and slower. Helium studies recently made have upset this concept. They indicate that even after all heat is gone at absolute zero there still will be some Not Of Life Itself

life, motion is part of anything that is alive. The helium studies are described by Dr. Lazlo Tisza, a physicist of the Massachusetts Institute of Technology. They were made at Yale University, in Moscow and in other

laboratories. Helium has been cooled to within four-thousandths of one degree of absolute zero. Nothing else has yet Midland's most highly restricted addi- gone that low. Even at this in-

tion offers this ideal home with 3 bed-credibly low temperature helium doesn't freeze. The helium molecules slow down, as Tech this weekend. but not enough to indicate that they Scientists don't know for

that the molecules won't die.

"It turns out that molecular activity slows down with decreasing with her daughter, Miss Pat Withtemperatures, but it can never come | ers. to a complete standstill.'

We have long wanted to see a protested game replayed and Sunday we got to see one. This is the first such game ever played at Midland in the Longhorn League,

Perhaps you didn't know that only the records of the two pieces of games are put together to go down in the books. In other words, what the Indians or Broncs did good or bad after the point of protest Saturady night-does not count for or against them. What they did Sunday in the replay is added to what they did up to the protest Saturday night. The put-together of these figures make the whole game.

In the case of some the replay helped and in the case of other players it hurt. For example: Nipp got a double Saturday night after for it. For example: Jakes grounded out after the protest Saturday with. Crissman struck out six Saturday night. He struck out only five Sunday and this goes into the records. Midland lost a double play in the replay deal.

And so, on and on could go the

-SL-There surely ought to be a column in baseball box scores to be called "robberies." Such a column Midland scored two tabs in the would be well dotted after the Big Spring-Midland series.

Robberies would take in such catches as Justo Azpiazu, Broric first baseman, made in the seventh inning of the full Sunday game when he leaped four feet high to eighth. Melillo grounded out. Specht take a liner that normally had ex-

tra bases labeled on it. This new column would take in such catches as Klein made in the game Saturday night. The Bronc second sacker finger-tipped a ball which seemed headed for the pas-ABRHOA tures.

Many Midland boys could qualify for the column. Julian Pressley came out of nowhere in right field to take two balls Sunday, running desperately and taking the balls with one hand.

Eight Points Separate Top Four AL Teams

By JOE REICHLER Associated Press Sports Writer An ordinary three-cent postage stamp can cover the first four teams in the closest four-club pen-

nant race the American League has enjoyed in its 48 years of operation. Only eight percentage points separate the four. The Philadelphia Athletics are back in first place, but are only eight points ahead of the fourth

place Boston Red Sox. In between are the Cleveland Indians and New York Yankees. Here is how one day's activity

scrambled up the junior league's first four teams: Connie Mack's A's, in place after Saturday's games, jumped into first by defeating the Tigers 4-2 Sunday. The Indians advanced from third to second by sweeping a doubleheader from the Red Sox 12-2 and 6-1. The double defeat dropped Joe McCarthy's Red Sox from first all the way down to

from fourth to third by vanquish-

ing the Chicago White Sox twice,

8-2 and 7-5. R H E Divide Doubleheader The Browns and Washington Senators divided a doubleheader, St. Louis winning the opener 8-5 and Washington the nightcap 4-3. Tommy McBride's ninth inning single drove in the run that gave the Nats the second game triumph. A four-run fifth inning against veteran Nelson Potter enabled the St. Louis Cardinals to defeat the Boston Braves, 9-6. The defeat cut the Braves' first place National

> the New York Giants. Rain washed out scheduled doubleheaders between Chicago and Lamesa New York at the Polo Grounds, Pittsburgh and Brooklyn at Ebbets Field, and Cincinnati and Philadelphia at Shibe Park.
